DESCRIPTION

Temporarily move or relocate existing landscape planters as needed for installation of new curb ramps.

CONSTRUCTION

Prior to construction the contractor shall establish a survey reference point and obtain the necessary measurements to reinstall the planter in its original location.

Existing landscape planters shall be protected and moved to a suitable location on site only when necessary for constructing proposed sidewalk as indicated on the plans. Planters shall not be placed where they may hinder access to existing; doors, building entrances, fire doors, fire escapes, driveway approaches, alleys, fire hydrants, pedestrian access routes, or other existing pedestrian features. Any planter moved in such a manner shall be protected for the duration of construction operations and returned to its original location after construction, unless shown otherwise on the plans. Damaged planters shall be replaced at the sole expense of the contractor.

METHOD OF MEASUREMENT AND BASIS OF PAYMENT

Work, materials and all other miscellaneous costs incurred while performing the work - including mounting hardware, equipment, hauling, and disposal - shall be included in the contract unit price and will not be paid for separately.
