

CITY
OF DETROIT
SPECIAL PROVISION
FOR
NOTIFICATION OF COMPLETION DATE

1 of 1

03-11-02

a. The Contractor shall notify the Engineer in writing as to the completed installation date of any new electrical traffic control device (traffic signals, flashing beacons, advance warning flasher, etc.); the upgrading of any existing electrical traffic control equipment and/or the removal of any electrical traffic control device on a location basis; and also the dates of installation and removal of any temporary electrical traffic control devices which are required as a result of stage construction.

This notification shall include a written description of the intersection location (street names), project and job numbers, and completion date.

The Engineer is to forward copies of the notification(s) to the City of Detroit, Traffic Engineering Division.
