

CITY OF DETROIT
SPECIAL PROVISION
FOR
NON-FERROUS HANDHOLE, ADJ

1 of 1

TYJT

3/26/09

DESCRIPTION

This Special Provision is intended for non-ferrous handholes in walks that are typically constructed with fiberglass, copolymer polypropylene or some similar material. They typically are for splice boxes for PLD, or other similar City utility. Adjustment of non-City handholes shall be by the private utility company.

CONSTRUCTION

Adjustment of these handholes should only be done by a qualified electrical contractor.

The provisions of the Special Provision for “Dr Structure Cover, Adjustment, Modified” shall apply to this Special Provision except the removal of concrete around the perimeter of the hand holes shall be done with light chipping hammers to insure that no damage is done to the handhole or any conduits or other utility that may feed the structure.

Any damage to the structure, conduits, cables, etc. shall be repaired by the Contractor at no cost to the City.

METHOD OF MEASUREMENT AND BASIS OF PAYMENT

Work, materials and all other miscellaneous costs incurred while performing the work - including mounting hardware, equipment, hauling, and disposal - shall be included in the contract unit price and will not be paid for separately.
