DESCRIPTION

Relocate an existing sign post/pole and its attached signs or temporarily remove an existing sign post/pole and its attached signs and reinstall them in their original location.

CONSTRUCTION

Prior to construction the contractor shall establish a survey reference point and obtain the necessary measurements to reinstall the sign post/pole and its attached signs in their original location if they are not to be relocated.

The contractor shall be responsible for placement of any temporary signage required to maintain traffic operations. Temporary traffic signs shall be in place and operational prior to removal of any signs in the construction area. Temporary traffic signage will be paid for as, Sign, Type B, Temp, Furn and Sign, Type B, Temp, Oper.

Protect and remove existing signs and sign posts where indicated on the plan. The Engineer shall inspect existing signs for damage and determine whether they need to be replaced or not. Signs to be salvaged shall be protected and stored until they are to be reinstalled. Salvaged signs shall be reinstalled to the City of Detroit standards. All signs shall be reinstalled in their original location unless shown otherwise on the plan or directed otherwise by the Engineer.

New permanent signage shall be installed in the original location unless shown otherwise on the plan or directed otherwise by the Engineer. New signs shall be paid for as, Sign, Type IB. All work shall conform to section 810 of the 2003 MDOT Standard Specifications for Construction.

PERMANENT SIGNS

The contractor is responsible for installing the traffic control signs back to their original or new location per City of Detroit Standards. For purchase of City compliant signs contact City Traffic Engineer at (313) 224-1610.
