RE: Address assignment change from 6402 Woodward to 6412 Woodward

A change has been recorded in our City Records. The new address was assigned to fit our address grid system. This change became necessary due to United States Postal Service requirements that separate street number addresses were required for the Baltimore Station Project. A certificate is attached for your use with the postal service and for any other valid address purposes.

If you require more information feel free to contact our office and speak to me.

Sincerely,

Jim Knoll, SR. GIS Tech.
