Dear Mr. Brundige:

This letter has been prepared to inform you of environmental activities being conducted at the Jazzo Group, Inc. property located at the above referenced address. Unleaded gasoline was released from the underground storage tank (UST) system and was reported to the Michigan Department of Environment, Great Lakes and Energy (EGLE formerly MDEQ) on 5/21/12.

Site assessment activities conducted in the area revealed detectable levels of petroleum hydrocarbons in the soil and groundwater beneath the Puritan and Wyoming right-of-way(s). Attached is a map of the above reference property.

A Final Assessment Report (FAR), describing the nature and extent of impact and the selected corrective action plan, will be submitted to the EGLE. The attached form: **Notice to Impacted Parties of Corrective Action – EQP4003 (1/2013)**; is being provided at the request of the EGLE. If you have any questions or need additional information, please contact Mr. Mohammad Rizka at 313-478-3445 (Owner - Jazzo) or Dr. Abdul Abdul at 248-388-0808 (NESA - Consultant).

Sincerely,
