Mayor's Office

October 9, 2001

Honorable City Council:

The City Clerk has presented for my approval your Honorable Body's resolution in opposition to Michigan House of Representatives Resolution 167. This resolution recommended that the governor execute a gaming compact between the Match-E-Be-Nash-She-Wish Band of Pottawatomis Indians of Michigan (the "Gun Lake Tribe") and the State of Michigan establishing and regulating a casino within that tribe's designated tribal lands in western Michigan.

Despite the fact that House Resolution 167 has already been defeated, I am nevertheless compelled to veto your Honorable Body's resolution because it is fundamentally misguided from several different vantage points, and is inconsistent with my stated position with respect to the Gun Lake Tribe's proposal.

Please note that prior to the Gun Lake Tribe's receipt of federal recognition in 1999, I personally met with Tribal Chairman D. K. Sprague to discuss the potential impact of the tribe's proposed casino upon Detroit's casino industry. The Gun Lake Tribe agreed not to build their tribal casino within a 150 mile radius of Detroit in exchange for my support of their gaming compact resolution before the State Legislature, thus allaying my concerns about their proposal. As your Honorable Body is aware, the 150 mile limitation is identical to the radius restriction incorporated into Detroit's three casino development agreements to which the Detroit developers are subject. Approximately two years after my meeting with Chairman Sprague, the tribe reiterated its agreement to the radius restriction, and upon Chairman Sprague's request I sent a letter to him on March 15, 2001 (copy attached) memorializing the 150 mile radius restriction upon the Gun Lake Tribe casino.

First, the Council's resolution may be perceived as offensive and intended to thwart the attempt of a federally recognized Indian tribe to pursue a path to economic prosperity and self-determination for its people that we in Detroit are pursuing for ourselves. Regardless of one's position on the morality of casinos, experience has demonstrated that they can be a source of economic viability for Indian tribes. The Gun Lake Band is the only one of the 12 federally recognized Indian tribes in Michigan to date not to have a gaming compact ratified by the Michigan Legislature.

The people of the City of Detroit and its elected City Council, which are both comprised of predominantly minority people, should understand perhaps better than anyone the legacy of socio-economic disenfranchisement and isolation wrought upon the Native-American people by centuries of discrimination against them in America; our shared legacy of historical discrimination should foster among us a mutual respect and spirit of comity and cooperation. The Detroit City Council should not selfishly attempt to prevent the Gun Lake tribe from pursuing an economic opportunity for their people which does not infringe on the ability of our city to obtain economic benefits.

The Council's refusal to support the Gun Lake Tribe's state compact is particularly difficult to understand when it is considered that numerous organizations across the state support this initiative, including the Michigan State Building and Construction Trades Council, the International Union of Operating Engineers, the Deputy Sheriffs Association of Michigan, many local chambers of commerce, as well as several of the local governments surrounding the proposed Gun Lake Tribe casino site.

Second, the City Council's resolution opposes the operation of any new casino within the entire state of Michigan, regardless of its geographic proximity to Detroit. This position appears to be based upon the anti-competitive notion that any new casino in Michigan could potentially impact the revenues of Detroit's three casinos. This is naive protectionist thinking. It is not realistic to assume that there will never be another casino, Indian or otherwise, in the State of Michigan. In my estimation, the most reasonable and effective way to balance Detroit's and other competing economic interests in this situation is through the radius restriction to which I obtained agreement from the Gun Lake Tribe. In the final analysis, the success of Detroit's casinos must rest upon their inherent business competency and demonstrated ability to compete successfully with other gaming establishments in Michigan, not upon the vicissitudes of shifting political alliances.

Furthermore, the Council's resolution

only serves to pit the economic interests of Detroit against those of other Michigan communities, including the Gun Lake Tribe and other Indian tribes, and the State. This is a risky gamble for Detroit at a time when the City's legislative delegation is being diminished as a result of the census count and the City needs to foster as much good will and support across the state as it can. The importance of cultivating such relationships cannot be underestimated in this challenging economic environment.

Third, the proposed gaming compact accomplishes several salutary benefits in the public interest for the State of Michigan, of which Detroit is a part. The compact restricted location of the Gun Lake casino to one of five western counties — Allegan, Barry, Kalamazoo, Kent and Ottawa — that the federal government recognizes as land indigenous to this tribe. There is no settled legal consensus that an Indian tribe can be prevented from operating a casino despite the lack of an approved tribal-state compact. In fact, I am advised that lawyers who practice in the field of Indian gaming have stated that the real question is not whether new Indian casinos are coming — they are coming in one form or another; the issue is on whose terms they engage in gaming operations.

On the legal front, there is a theory that without a compact a recognized Indian tribe can locate gaming in a state outside of their ancestral tribal territory. Tribes have recourse available to them to the Secretary of the Interior when a state fails to negotiate a compact. Moreover, there also appear to be developing court and administrative decisions refusing to allow the federal government to shut down a tribal casino that operates without a state compact where there has been a lack of good faith negotiation by the state toward issuance of a tribal gaming compact (see, for example, U.S. v. Spokane Tribe, 137 F.3d 1297 (9 Cir. 1998), and In the Matter of Shoal Water Bay Indian Tribe, on August 23, 2001 administrative order issued by the United States Department of the Interior, Office of Hearings and Appeals. A compact voluntarily agreed to by the Gun Lake Indian Tribe brings certainty on these legal points without the prospect of years of litigation.

Of equal significance, the proposed Gun Lake Tribe compact required monetary payments of 2% of casino revenues (expecting to yield \$2 million) to specified local communities (thus potentially alleviating their dependence on State revenue sharing dollars) and 8% of casino revenues to the state (expected to generate \$8 million) for the same time period as the existing 11 tribal-state compacts in Michigan. These state dollars are earmarked to support economic development throughout the state, part of which

state economic development funds Detroit has successfully received in the past and would certainly be seeking in the future. Not only does relief of the Gun Lake Tribe from such payment commitments upon its casino operations place it at a competitive advantage over the Detroit casinos — which have to pay substantial wagering, income and property taxes, as well as other state and local fees and obligations, but it is imprudent when our nation, state and city are experiencing such a significant economic downturn.

Without a compact, states have no authority to regulate tribal gaming, including such vital subjects as alcohol and tobacco consumption and revenue sharing with the state. With the defeat of House Resolution 167, the state has lost an opportunity to set the terms upon which the Gun Lake Tribe will operate gaming in Michigan, to the benefit of the broader public interest of the state — without a legal guarantee that the Tribe will be prevented from conducting gaming in the state free of state restrictions.

In sum, for the host of reasons stated above, it is not sound policy for the Detroit City Council to be on record as opposing new gaming or other economic development initiatives in other parts of Michigan which may only marginally, if at all, affect Detroit's economic interests. Accordingly, I veto the Council's resolution in opposition to House Resolution 167, and I strongly urge the Council to withdraw its negative resolution.

Respectively submitted,

DENNIS W. ARCHER

Dear Chairman Sprague:

I appreciate the time you took in meeting with me regarding your proposed casino and entertainment facility. An open dialogue among elected officials and leaders across Michigan is essential to continue growth and prosperity to us all.

As I indicated at our meeting, I had initial reservations about your plans. However, your commitment to build the proposed facility outside the 150 mile radius of Detroit's casinos, but still within your designated tribal lands in West Michigan allayed those fears. Your unwavering dedication to the long-term welfare of your tribal members is to be commended.

Sincerely,

DENNIS W. ARCHER

Mayor, City of Detroit

Council Member Scott then moved to adopt the aforesaid resolution notwithstanding the veto of the Mayor, which motion prevailed as follows:

JOINT STATEMENT OF COUNCIL MEMBERS SHEILA M. COCKREL AND MARYANN MAHAFFEY TO SUSTAIN THE MAYOR'S VETO AND IN OPPOSITION TO CITY COUNCIL'S RESOLUTION URGING THE STATE LEGISLATURE TO REJECT A TRIBAL COMPACT WITH THE GUN LAKE TRIBE

On September 26, 2001, we voted against a proposed City Council resolution in opposition to House Resolution 167, which urged Government Engler to execute a tribal compact with the Match-E-Be-Nash-She-Wish Band of Pottawatomini Indians (the Gun Lake Band). Despite our no vote on the resolution, a majority of our colleagues supported the resolution.

Yesterday, Mayor Dennis Archer vetoed the City Council resolution indicating that the veto sends a negative message to the State of Michigan and other Michigan communities that the Detroit City Council is being unreasonably protectionist in its thinking with respect to gaming in the City of Detroit and is interfering with the sovereign rights of an Indian Nation established by treaty with the United States government.

Today, we are again voting against the City Council's resolution as our colleagues look to override the Mayoral veto. We reached this conclusion based upon our belief that in these difficult economic times, the City of Detroit should not be seen as opposing any economic development initiatives in the State of Michigan, particularly where such development opportunities pose little or no economic impact upon our local budget.

In addition, the resolution is particularly troubling in light of recent precedent that the federal government will not shut down any Native American Tribal Casino that operates without a state compact despite

the tribe's good faith negotiation toward reaching agreement on a compact. In this situation, the Gun Lake Tribe could operate its casino anywhere within the State of Michigan in which it has recognized tribal lands including land in close proximity to Detroit since the tribe would no longer be bound by its commitment to the Mayor to establish a casino outside of a 150 mile radius from Detroit.

Moreover, the Tribe would then be permitted to operate without sharing any portion of its revenues with the State (8%) or local communities (2%) as provided for in the compact. This would further reduce the economic benefits to be derived from the casino and would place the Gun Lake Band at a competitive advantage vis-à-vis Detroit's three casinos which are required to pay a wagering tax of 18% under state law and the State's 11 other tribal casinos which operate under state compacts and pay taxes based on their revenues.

As members of the Detroit City Council, we appreciate the positive economic benefits that our City has received from the introduction of casino gaming to the local economy, and we certainly do not want to stand in the way of communities on the far western side of the state from enjoying similar economic benefits.

While our city and state recover from the current economic downturn, we hope that our colleagues will appreciate the need for Detroit to work collectively with other Michigan communities on issues such as economic development and revenue sharing, as opposed to continuing to spout the protectionist rhetoric contained in this resolution, so that Detroit does not become the target of cost-cutting discussions and decisions in Lansing.

For all those reasons, we have voted to sustain the Mayor's veto and voted "NO" on passing the resolution despite the Mayor's veto regarding the City Council resolution in opposition to House Resolution 167.

October 4, 2001

Honorable City Council:

The City Clerk has presented for my approval your Honorable Body's second ordinance, adopted on September 26, 2001, to amend Chapter 14, Article 5 of the 1984 Detroit City Code, specifically to amend Sections 14-5-2 and 14-5-3 thereof. While this amendment corrects certain legal defects I enumerated in my veto message of September 26, 2001 regarding Council's ordinance adopted on September 17, 2001, for the reasons stated below I must nonetheless veto this second ordinance, and any related resolutions, as well.

This second ordinance again attempts in certain respects to obstruct the ability of the Detroit Housing Commission

("DHC") to be recognized and operate as a separate and distinct public body corporate, as directed by the 1996 amendments to the Michigan Housing Facilities Act, MCL 125.651 *et seq.* (the "1996 Amendments"). As I explained fully in my September 26 message, I fundamentally disagree with the regressive policy embodied in both the City Council's first (September 17, 2001) and now second (September 26, 2001) ordinances purporting to regulate the DHC. Moreover, these ordinances attempt to ignore and abrogate express grants by the State Legislature in the 1996 Amendments of authority and autonomy to Michigan housing commissions such as DHC. The State Legislature has the power to amend municipal charters at will, as well as municipal ordinances. To the extent that any city ordinance is inconsistent with the 1996 Amendments, the ordinance is preempted. Hence, with respect to the Council's September 26 ordinance, I hereby incorporate by reference all applicable portions of my September 26, 2001 veto message.

Addressing the specific legal defects of this second ordinance, Section 14-5-3(7) of the Council's September 26, 2001 ordinance amendment provides:

All housing commission employees shall be members of either the classified service or the unclassified service as is provided under Section 6-517 of the Charter of the City of Detroit, and shall be entitled to all rights of all employees of the City of Detroit, including but not limited to pensions and benefits.

This language is flatly contrary to the 1996 Amendments, and is thus legally invalid for two fundamental reasons.

First, the 1996 Amendments established any public housing commission already existing within our state as of the time of the statute as a public body corporate, without the need for any further or implementing action by a local unit of government. As a public body corporate, the DHC is a legal entity which is separate and distinct from the City of Detroit municipal corporation, with certain corporate powers which are exercised independently of the City. As such, the DHC does not fall within the ambit of the scheme of classified and unclassified service defined in Section 6-517 of the 1997 Detroit City Charter (hereinafter the "Charter").

Second, as a result of the 1996 Amendments, the DHC is directly conferred at MCL 125.655(3) the power to employ and fix the compensation of the director and other employees as necessary. Additionally, the 1996 Amendments empower DHC to prescribe the duties of its officers and employees. These express grants to the DHC of the power and authority to make employment decisions with respect to its employees, including

hiring and assignment of duties, supercede the Charter roles assigned to the City's Human Resources Department under Charter Section 6-502 and to the Human Resources Director under Charter Section 6-509 for the City because state law supercedes any contrary provisions of a local charter or local law, it is clear that DHC employees cannot be members of the classified or unclassified service under the Charter as your Honorable Body's ordinance amendment purports to dictate.

Furthermore, the 1996 Amendments clearly specify the mechanism for fixing compensation levels for commission employees. Under the 1996 Amendments, the City Council's authority to fix compensation levels for officers and employees of the commission is discretionary and is expressly limited to situations in which the Mayor, as appointing authority, first makes a recommendation to your Honorable Body for action. In all other circumstances, the DHC has the power independently to fix the compensation levels for its employees. To date, I have not made any recommendations to City Council related to fixing compensation levels for employees employed separately at DHC. Therefore, under the 1996 Amendments your Honorable Body has no basis for taking any action at this time with respect to the compensation levels for DHC employees, including the adoption of an ordinance to require that DHC employees be members of the classified or unclassified service.

If the intent of the City Council ordinance amendment is to ensure that City employees converted to DHC employees maintain a comparable level of compensation and benefits as they enjoy as City employees, please allow me to remind the Council that the City and DHC have already presented a Memorandum of Understanding to all unions representing employees at DHC in which the DHC has committed to the same.

In addition, on July 17, 2001, I presented to your Honorable Body a proposed intergovernmental agreement between the City and DHC which, if approved by City Council, would have permitted DHC employees to remain a part of the City's pension and benefits system despite no longer being City employees. Since the Council rejected that agreement on September 17, 2001, the DHC is compelled to establish an independent pension and benefit system for DHC employees that will meet the City's commitment to provide them with a comparable package to that which is currently offered by the City.

In conclusion, as stated in my September 26 veto message, the separation of DHC has one purpose — to allow the DHC to operate in the most effective and efficient manner possible, so as to

maximize its benefit to the residents of DHC housing facilities. I believe that this is an important endeavor, and an obligation under the City's prior agreements with the federal Department of Housing and Urban Development ("HUD"), and I intend to continue to pursue functional separation as the best mechanism to accomplish this goal.

Because the September 26 ordinance fails to comply with governing state law, e.g., the 1996 Amendments, as explained above, I hereby veto this ordinance to amend Sections 14-5-2 and 14-5-3 of the 1984 Detroit City Code, and any related resolutions.

Respectfully submitted,
DENNIS W. ARCHER

Honorable City Council:

Re: Address: 20478 Derby. Name: Patricia Ungurean. Date ordered removed: September 17, 2001 (J.C.C. p.).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 28, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 20, 2001.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition ordered be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. You will not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Honorable City Council:

Re: Address: 12141 Dexter. Name: Zahirajuel-Amin. Date ordered removed: June 4, 2001 (J.C.C. p.)

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on June 12, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of June 5, 2001.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition ordered be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. You will not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to

the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Re: Ricardo T. Leniar v City of Detroit Cable Communications Commission — Wage & Hour Claim No. 071201146.

On July 19, 2001, the Detroit Cable Communications Commission ("DCCC") received notice of a complaint filed by Ricardo Leniar, a former contractor, with the Department of Consumer & Industry Services, Wage and Hour Division for unpaid wages. As a result, the DCCC conducted an investigation, in conjunction with the Law Department, and determined that Mr. Leniar was legally entitled to payment for hours worked from July 1, 2000 to August 23, 2000 under individual personal services contract number 079925.

Mr. Leniar was not paid because his new personal services contract, scheduled to be effective July 1, 2000, was not approved, yet he had continued to provide services to the DCCC.

We, therefore, respectfully request your Honorable Body to authorize the Finance Director to issue a draft in the amount of Three Thousand Seven Hundred Seventy Two Dollars and Forty-Four Cents (\$3,772.44), payable to Ricardo Leniar.

The recommendation stipulates the agreement is to include a statement that the applicant will inform employees of the receipt of a tax abatement and the terms of the agreement with the City of Detroit, including creation or retention of jobs, investment and any additional commitments.

State law authorized, through Public Act 198 of 1974, as amended, (M.C.L.A. 207.551 et seq.) local governments to establish specific districts for development or rehabilitation of industrial facilities. Owners or taxpayers operating industrial facilities within an established district may seek approval for an exemption from certain taxes on projects to develop, expand or rehabilitate their facility. Consideration of the request to exempt or abate the taxes by the local legislative body is required before the State Tax Commission may consider the request for an Industrial Facilities Exemption Certificate. State law further requires that the City and applicant for a tax abatement enter into a written agreement, filed with the State Department of Treasury, before the industrial facilities exemption certificate is issued by the State Tax Commission (M.C.L.A. 207.572).

Public Act 198, as amended, grants to the local legislative body the authority to make specific findings and determinations that establishing an Industrial Rehabilitation or Plant Rehabilitation District and approving an Industrial Facilities Exemption Certificate complies with the requirements of the State law and is in the best interests of the City. State law also states: ... "an industrial facilities exemption certificate shall remain in force and effect for a period to be determined by the legislative body of the local government unit ..." (M.C.L.A. 207.566(1)). The City Council adopted, November 21, 1979, a resolution setting forth criteria for information from the petitioner or applicant to enable the City Council to make their decision. The resolution also established the procedures for consideration of petitions to establish a district or applications for a tax abatement.

The proposed resolution replaces the resolution adopted by the City Council on November 21, 1979 that initially set forth

the procedures and information required by the City Council to enable the establishment of districts and to consider requests for approval of tax abatements. State law concerning the Industrial Development and Plant Rehabilitation Districts and the approval of Industrial Facilities Exemption Certificates has been amended several times. The Law Department and the Planning and Development Department has recommended adopting a new resolution, replacing the resolution of November 21, 1979, to reflect the amendments to the state law.

Please contact the Research and Analysis Division if Council Members have further questions or concerns regarding the attached resolution.

Resolution: Setting Forth the Criteria for Establishment of Plant Rehabilitation and Industrial Development Districts and the Applications for Approval of Industrial Facility Exemption Certificates.

By Council Member Scott:

Whereas, Pursuant to Act No. 198 of the Public Acts of 1974, as amended ("Act 198"), the City Council has the authority to establish Plant Rehabilitation and Industrial Development Districts and give approval to Industrial Facilities Exemption Certificates ("IFECs"); and

Whereas, The City Council receives numerous petitions for the establishment of Plant Rehabilitation and Industrial Development Districts and applications for approval of IFECs under Act 198; and

Whereas, On November 21, 1979, the City Council passed a Resolution which established certain criteria for the approval of petitions for Plant Rehabilitation and Industrial Development Districts and applications for approval of IFECs (the "November 21, 1979 Resolution"); and

Whereas, The City Council has determined that new criteria should be established which reflect certain amendments to Act 198, enacted after the passage of the November 21, 1979 Resolution, and which more accurately reflect the City of Detroit's role in the processing of petitions for the establishment of Plant Rehabilitation and Industrial Development Districts and applications for approval of IFECs; and

Whereas, The City Council establishes the following criteria for the approval of petitions for Plant Rehabilitation and Industrial Development Districts and applications for approval of IFECs; Now Therefore Be It

Resolved, That the City Council will consider a request to establish a Plant Rehabilitation or Industrial Development District, or consider granting approval to an IFEC, only if the petitioner or applicant has complied with the requirements of Act 198; and be it further

Resolved, That the City Council will consider a request to establish a Plant Rehabilitation or Industrial Development District, or consider granting approval to an IFEC, only if the petitioner or applicant does not owe any outstanding taxes to the City of Detroit; and be it further

Resolved, That the City Council will consider a request to establish a Plant Rehabilitation or Industrial Development District only if the petitioner supplies to the City Council a written statement demonstrating why the anticipated tax abatement is needed to enable the petitioner or applicant to make the new investment in the City of Detroit; and be it further

Resolved, That the City Council will consider granting approval to an IFEC after the applicant supplies to the City Council a statement indicating the amount of the investment and the number of years, up to twelve years, a tax abatement is required for the investment; the applicant shall also provide a written statement indicating why a tax abatement is required in order to make the investment and to further explain why the tax abatement is required for the number of years requested which include, but is not limited to, life of equipment purchased or financing arrangements; and be it further

Resolved, That the City Council will consider a request to establish a Plant Rehabilitation or Industrial Development District, or consider granting approval to an IFEC, only if the petitioner or applicant submits to the Human Rights Department of the City: 1) a current Contract Compliance Report (Form EEO-1); 2) a current Employer Information Report (Form EEO-2); and 3) if requested in writing by the Human Rights Department of the City, an Affirmative Action Plan, which sets forth the future affirmative action goals of the petitioner or applicant at the subject property, and the means by which the petitioner or applicant intends to effectuate those goals; all documents identified above will be made available by the Human Rights Department to the City Council for their review; and be it further

Resolved, That the City Council will consider a request to establish a Plant Rehabilitation or Industrial Development District, or consider granting approval to an IFEC, only if the petitioner or applicant is and agrees that it will remain in compliance with all applicable federal, state and local laws, rules and regulations at the subject property, including but not limited to the: Occupational Safety and Health Act; National Environmental Policy Act; the Natural Resources and Environmental Protection Act; and the Detroit City Code; and be it further

Resolved, That the City Council will consider a request to establish a Plant Rehabilitation or Industrial Development

District, or consider granting approval to an IFEC, only if the petitioner or applicant provides the City Council with a projection of the dollar amount of taxes that will be abated if the District is created and an estimate of the number of jobs to be created or retained. Additional information may be requested by the City Council or provided by the petitioner or applicant to support their request including, but not limited to, economic and social benefits that will accrue to the City as a result of the anticipated project such as additional taxes that will be paid, apprenticeship and training programs, programs or development in the surrounding neighborhood or schools that may be sponsored by the petitioner or applicant; and be it further

Resolved, That the City Council will consider granting approval to an IFEC only if the applicant and the City of Detroit have entered into a written agreement (an "IFEC agreement"), approved by the City Council, which memorializes the commitments made upon which the approval of an IFEC is based including the investment, the number of jobs created and retained, employee training and promotion programs and any additional economic or social benefits to be sponsored or provided by the applicant. The agreement will also include a commitment by the applicant to inform employees at the facility benefiting from the IFEC that an IFEC has been issued indicating all commitments included in the IFEC agreement such as jobs, investment, training and any other economic or social programs; and be it further

Resolved, That the City Council shall evaluate the facts and circumstances involved in each particular case when determining whether to establish a Plant Rehabilitation or Industrial Development District or to grant approval of an IFEC agreement and the period of time for which an IFEC will be approved; and be it further

Resolved, That the City Council will consider a request to establish a Plant Rehabilitation or Industrial Development District, or consider a request to grant approval to an IFEC, only if information relative to the above criteria is included in a report from the City Planning and Development Department or on the petition or application under consideration; and be it further

Resolved, That the City of Detroit shall collect a fee from applicants applying for City approval of an IFEC in the maximum amount permitted under the law and that such fees are to be paid prior to the City Council's discussion of the application; and be it further

Resolved, It is respectfully requested that the City Planning and Development Department consider performing a cost analysis annually to determine the cost to

the City to process an IFEC application, with the effect of correspondingly updating the amount of the IFEC application fee accordingly, to the extent permitted by law; and be it finally

Resolved, That this resolution supercedes and renders null and void and of no force or effect whatsoever the aforementioned resolution passed by this City Council on November 21, 1979.

This comes to you to request your acceptance of a public work of art from Detroit 300, Inc., a non-profit organization established to plan and implement the Detroit Tercentennial.

The artwork, titled *Gateway to Freedom*, is by sculptor Ed Dwight who also has designed the companion piece, *Tower of Freedom*, for the City of Windsor's riverfront. Re: Request to Amend the 2001-2002 Official Compensation Schedule to establish Pay Rates For New Classifications.

A recently completed study of the Communications and Creative Services Department resulted in the adoption of one new class, the consolidation of two existing classifications, and a title change of one existing classification. A review of the essential duties and responsibilities of the classifications as well as the knowledge, skills and abilities required to perform them, and market data pertaining to salaries typically paid to employees performing this kind of work results in the following recommendations.

	Step Code	Pay Range
Web Editor (09-95-41)	D	\$38,400 to \$53,800

Re: Rate Adjustments.

Following an investigation by Classification/Compensation staff of the duties and responsibilities of similar classes and market data pertaining to salaries typically paid to employees performing this kind of work, the Human Resources Department recommends a rate adjustment for the following classes:

	Current	New	Step Code
Supervising Publicist (09-95-35)	\$48,000-\$51,500	\$45,600-\$63,900	D
Graphic Designer (19-30-25)	\$33,000-\$37,700	\$29,700-\$41,600	D
Principal Graphic Designer (19-30-35)	\$39,100-\$42,000	\$38,400-\$53,800	D

The new salary ranges provide the department flexibility in recruitment of better qualified candidates and retention of current employees.

Honorable City Council:

Re: Sewage System Revenue and Refunding Bonds Series 2001. Request For Amendment of Authorizing Resolution.

On August 1, 2001 your Honorable Body adopted a resolution authorizing the sale of the Sewage System Revenue and Refunding Bonds Series 2001. Since that time the Finance Department and the Underwriters have been working diligently to bring that bond issue to the bond market. The target date for the closing is October 25, 2001.

We request that your Honorable Body adopt the attached resolution to make certain amendments to the August 1, 2001 Authorizing Resolution. The Authorizing Resolution contemplated that all of the bonds would bear fixed interest rates. It has now been decided that some of the bonds will have variable interest rates. It will be necessary to amend the Authorizing Resolution to add language to accommodate the issuance of the variable interest rate bonds. A memorandum explaining the proposed changes to the Authorizing Resolution has been provided to the Council's Fiscal Analyst.

We respectfully request that the Amending Resolution be introduced and

adopted, with waiver of reconsideration at your next formal session.

Respectfully submitted,

Industrial Facilities Exemption Certificate Agreement

THIS AGREEMENT, made this 15th day of August, 2001 by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and Ideal Shield, L.L.C. ("the Applicant").

WITNESSETH:

Whereas, The Applicant has submitted an Application ("Application") to the City for adoption of a resolution giving the City's approval of an Industrial Facilities Exemption Certificate ("IFEC") pursuant to Public Act 198 of 1974, as amended, for real and personal property ("Facility") to be located at 2555 Clark, Detroit, Michigan 48209 (A copy of the Application is attached hereto as Exhibit "A"); and

Whereas, The Applicant is making real and personal property improvements for the purpose of improving its manufacturing operations; and

Whereas, As part of its Application for an IFEC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department (a copy of the employment plan is attached hereto as Exhibit "B") wherein it has represented that during the term of the IFEC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to

approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

1. General.

a. The Applicant will make real and personal property improvements, as forth in the Application.

b. The Applicant will be required to create ninety (90) new full time employees at the Facility within two years of the Approval Date.

c. The Applicant will retain:

I) sixty nine (69) full time employees for two (2) years from the Approval date.

II) one hundred fifty nine (159) full-time employees at the Facility commencing two (2) years from the approval date and throughout the term of this agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

2. Annual Affirmative Action Report by the Applicant.

On or before August 3, 2002 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

3. Annual Status Report by the Applicant.

On or before February 1, 2002, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agree-

ment, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

4. Review and Audit of Applicant Employment Information.

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

5. Revocation or Reduction of Term of the IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility costs are less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

6. Payment of Abated Taxes for

Shortfall of Employment.

If the average number of new and retained full-time employees at the Facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

7. Reimbursement of City Costs upon Discontinuance of Operations.

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

8. Living Wage Ordinance.

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is attached as Exhibit "D" and made a part hereof, and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the

Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

9. Prevailing Wage Requirements.

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

10. Reservation of Remedies.

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

11. Effective Date.

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

12. Headings.

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

Division of Research & Analysis

October 9, 2001

Honorable City Council:

Re: Resolution in response to the Mayor's veto message on the issue of separation of the Detroit Housing Commission.

Attached herewith is a resolution in response to the Mayor's veto message of September 26, 2001 regarding the separation of the Detroit Housing Commission. A veto override vote is scheduled for Wednesday, October 10, 2001 on the ordinance amendment that you passed on September 26, 2001. We recommend that you adopt this resolution following the veto override vote.

Detroit City Council Policy Statement in Response to the Mayor's Veto Messages on Amendments to the Ordinance Governing the Detroit Housing Commission

By All Council Members:

Whereas, The Mayor has discussed a number of issues related to the Detroit Housing Commission (DHC) in his message accompanying his veto of the City Council's ordinance amending Chapter 14, Article 5 of the 1984 Detroit City Code adopted on September 17, 2001, and the second amendment adopted on September 26, 2001; and

Whereas, In its resolution of September 17, 2001, the Detroit City Council presented its position and conclusions regarding the separation of the DHC from the City of Detroit; and

Whereas, The Mayor's veto messages of September 26, 2001 and October 10, 2001 assert a position contrary to our resolution and ordinance of September 17, 2001, and its subsequent amendment on September 26, 2001; and

Whereas, We, the Detroit City Council, reaffirm and incorporate by reference here our resolution of September 17, 2001; and

Whereas, We undertake here to respond more specifically to the Mayor's veto messages as follows:

The Mayor's veto message fails to recognize that although the Mayor and the U.S. Department of Housing and Urban Development agreed to "maximum functional separation" between the City and

the Housing Commission, the Detroit Housing Commission is a creature of the State of Michigan's Housing Facilities Act. HUD and the federal government have at no time claimed that DHC should operate outside the parameters of the Housing Facilities Act. The agreements the Mayor and City Council developed with HUD do not purport to move DHC outside of the limits of the Housing Facilities Act. Thus, the state Housing Facilities Act places a legal limit on the degree to which the City Council may separate the Detroit Housing Commission from City Council oversight. As a consequence, the first section of the Mayor's veto message in which he recounts some of the history behind the agreement between the Administration and HUD addresses policy issues, and is not determinative of the legal issues with respect to integration or separation of the Housing Commission and the City of Detroit.

Concerning those policies issues, the Mayor attempts to portray the entire history of problems of the Housing Commission as due to its integration with the City. Yet in the same message, the Mayor admits that as a result of a tremendous amount of hard work by many individuals throughout City government, the Detroit Housing Commission made sufficient improvements in public housing operations, financial management and redevelopment of distressed and troubled public housing developments that in 1997 the Detroit Housing Commission was successfully removed from HUD's troubled housing list.

We must emphatically assert here that the ordinance changes made by the City Council enhance the attainment of a more efficient DHC. There is no reason to believe that any of the ordinance changes we have made will cause problems of the type that the City Council, the Mayor and HUD are concerned about, nor will those ordinance amendments interfere with the rectification of those problems. The Mayor's implications to the contrary in his veto message is the key fallacy in his policy argument. The problems of making repairs to housing units, vacant housing stock, responsible and responsive collecting rents, responding to work orders, collecting tenant account receivables, maintaining operating reserves, etc. have not in the period of DHC's time on HUD's troubled housing list, are not today, and will not be under our recent ordinance amendments caused by the City Council's exercise of state law mandated supervision and oversight of DHC finances, contracts, and tenant and citizen complaints, etc. The Mayor has adduced no evidence, in his veto message or elsewhere, that the City Council has ever contributed to any of these inefficiencies by its exercise of its legislative and supervisory duties. The

problems the Mayor enumerates are with executive or administration functions, and so what must be modified with respect to the DHC is not the City Council's function but the function of the executive branch, for which the Mayor is responsible. If the Mayor chooses to solve those problems by separating the executive branch of the City of Detroit from the DHC, that may be his prerogative. It is not his legal prerogative to separate the City Council or legislative branch from the DHC. We note further that the most recent expressions of concern from HUD are in a critical audit of DHC. Prudent city officials would interpret that as a sign to the City Council to exercise, rather than diminish its oversight and supervision of the financial and fiscal aspects of DHC's functioning.

At the time of the legislatively approved agreement between the Mayor and HUD, the City Council passed several amendments to the ordinance governing the DHC affording the DHC greater autonomy from the City of Detroit within the limits set by the state statute. Contrary to the Mayor's assertion that the City Council's current ordinances attempt to maintain the very same status quo operation conditions that have in the past handicapped the DHC's progress, the City Council has already provided the ordinance changes underpinning the changes from the status quo ante of the July 1995 Agreement between the Mayor and HUD. Finally, the City of Detroit Housing Commission is no longer on the distressed and troubled public housing list; and

Whereas, The Mayor asserts that among the DHC's continuing problems are the following:

As a result of staffing of DHC by City employees, all aspects of employment are governed by City procedures and processes, even though they may be incompatible with DHC's employment needs.

This problem is properly addressed by mayoral/executive branch action; not legislative action or forbearance from its statutory and generally accepted oversight functions. There is nothing in the current ordinance, the City Charter or the remainder of the Detroit City Code that prohibits the Mayor from modifying executive branch department procedures and processes to meet DHC's employment needs. The Detroit City Charter and ordinances provide for minimum civil service and human rights protections for city employees in the DHC and in all other City of Detroit departments and agencies. The Mayor's veto message and approach to the DHC ignores and contradicts this fundamentally important policy of government in America. As we are in Detroit, we all can take judicious notice of the important history of union and civil service rights as enhancing work efficiency and

quality, not as barriers to their attainment. The Mayor emphasizes in his veto message that the DHC is public body corporate. We would emphasize to the Mayor that it is indeed a *public* body corporate, and its officials and employees are *public* servants of the State of Michigan.

Finally, the modifications in 1996 agreement between the Mayor and HUD, unrelated to City Council's jurisdiction, already provided that the DHC may process hiring outside the Human Resources Department. This is precisely an administrative or executive branch change appropriate for solving the problems in the way that the Mayor believes will work. The changes must be made in his branch, not ours. It is the responsibility of the Mayor and the executive branch to solve the problems of City's overburdened human resources system, as he terms it in his veto message. Abdication of basic human rights and civil service protections for DHC employees is not a legal or practical approach to solving these problems, nor will it result in more efficient provision of services to public housing residents.

— DHC must maintain two sets of financial records in order to provide reports to both HUD and the City.

MCLA Section 125.659 requires that a housing commission in Michigan make reports to the governing body, in the case of Detroit, the City Council. The City Council does not have the authority to disregard this section of the state law. That section of the law provides specifically that "The commission shall also report any action of the commission taken under Section 6 (2) (which provides for funds for operation of the commission granted by the governing body, loans, grants and other matters) in a manner sufficient to allow the governing body to exercise the authority granted under this act to supervise the activities of the commission." This language makes it clear that the City Council has no authority or is forbidden under state law from allowing the DHC to be completely separate and distinct from the supervision of the City Council with respect to the funds and financial issues. We reiterate, as we have to the Mayor many times since 1995, that the procedures of City Council's very limited and general supervision of the DHC do not in any way contribute to any of the inefficiencies in the commission's functioning. So with respect to the specific issue the Mayor raises, keeping two sets of financial records takes very little or none of the time of the DHC employees who provide direct services to public housing tenants. It seems evident that meeting this basic accounting requirement can be done by the work of a few additional professional accountants, without any diminution of direct services to public housing occu-

pants. (MCLA Section 125.655 (3) provides that commissions may employ accountants, as the Mayor points out in his veto message). Similarly, the City Council procedure for approving DHC contracts of any type does not in any way contribute to DHC inefficiencies. Thus, not only is the City Council required under the state law to exercise supervision over the activities of the DHC, but this state law requirement does not contribute to any inefficiencies described by the Mayor as of concern to HUD. The modifications in operations of City department procedures necessary for more efficient function of the DHC are the responsibility of the Mayor and the Executive branch. These can and must be done without removal of the City Council from its general supervisory role over the DHC as explicitly required by state law; and

Whereas, The Mayor's veto message addresses several specifics of the Housing Facilities Act's requirements for housing commissions we respond as follows:

First, we refer the Mayor to the several legal opinions from the City Council's Research and Analysis Division on the issues he raises.

We now address more directly the issues the Mayor raises in his veto message. The Mayor says the 1996 amendments to the Housing Facilities Act require that the DHC be recognized as a "public body corporate". The state statute provides that commissions shall be public bodies corporate. This provision of state law is sufficient to establish commissions as public bodies corporate, and City Council action is not necessary to affirm this. However, the statute does not provide, as the Mayor and other administration officials have said repeatedly, that commissions are "separate and distinct" from the municipalities that create them.

Although it is not necessary for the City Council to affirm this state statute to establish the DHC as a public body corporate, the City Council has passed a second ordinance amendment providing that the DHC has all the powers provided in MCL Section 125.654, including the status as a public body corporate. Thus, the Mayor's concerns about MCL Section 125.654 are moot.

Contrary to another assertion in the Mayor's message, the power of the DHC to enter into contracts with tenants or facilities managers, or to acquire necessary materials or options is already provided for in Section 14-5-10 (c) of the City Code.

The Mayor correctly asserts that the DHC has the right to sue and be sued and the right to form or incorporate corporations, partnerships or other companies. However, we fail to see how these rights enhance the ability of DHC to "operate in

the most effective and efficient manner possible, so as to maximize its benefit to the residents of DHC housing facilities" as the Mayor terms the purpose of separation. The time that DHC commissioners and officials spend attending to suing and being sued or forming corporations, partnerships and companies will take away from the time necessary to give better housing services. The formation of corporations and companies seems more in the interest of enhancing the interests of the commissioners as entrepreneurs than serving public housing residents more efficiently. So, although the state law provides for these powers, we question the wisdom of DHC commissioners exercising them, or the Mayor encouraging their exercise in the name of increasing efficient service to public housing residents.

The Mayor ignores the several sections of the state law that provide for City Council supervision and oversight of the DHC, rendering it illegal for the DHC to be completely separate from the City of Detroit or the City Council. We note that contrary to the Mayor's assertions in his veto message, the ordinance drafted by the City of Detroit law department ignored and omitted several sections of the state Housing Facilities Act which make it clear that housing commissions are not separate and distinct from the municipalities that create them.

We note the following responses to other assertions in the Mayor's message (with numbers corresponding to those in the Mayor's Message beginning on page 5).

(1) The Council has further amended the ordinance to remove the prohibition on City of Detroit public servants from being appointed to the DHC.

(2) The Act provides that the City Council "may" adopt a resolution limiting the amounts of expense reimbursements available to Commission members. The City Council's ordinance merely exercises this permissive power granted it by state law. We note that this is a specific example of the state statute permitting the governing body to supervise commissions, contrary to the Mayor's claim that the status of "public body corporate" renders a commission "separate and distinct" from its creating municipality. We also note that such supervision in no way adversely impacts the ability of the DHC to develop a more efficient operation.

(3) The ordinance requires that the DHC meet not less than once per month. This does not conflict with the statutory requirement that commissions meet at regular intervals. We also note that the goal of a more efficient DHC will be thwarted if it does not meet at least once per month.

(4) The Mayor says that MCL Section 125.655(3) uses the word "may" giving the Mayor the discretion to recommend a

compensation schedule or compensation ranges and classifications for commissions officials and employees. However, MCL Section 125.655(3) does not use the word "may". It provides that "upon the recommendation of the appointing authority, the governing body may adopt a resolution either conditioning the establishment of any compensation of an officer or employee of a commission upon the approval of the governing body or compensation ranges and classifications to be used by a commission in fixing the compensation of its officers and employees..."

(5) The City Council is exercising its permissive power granted by the term "may" in the state statute.

(6) Our most recent ordinance amendment replaces the terms "may contract" with the terms "may employ".

(7) The use of the term "shall" does not have the legal effect of binding the discretion of future city councils as the Mayor asserts. Future city councils have the power to amend, repeal or adopt new ordinances as a matter of legislative function and discretion.

(8) Again by using the term "shall" where the state statute has the term "may" granting the City Council discretion, the City Council is exercising its permissive authority. The City Council is hereby notifying the DHC that pursuant to the state law it is exercising its permissive power to require the DHC to obtain City Council's approval to accept or enter into agreements relating to one or more grants.

We note that this is a specific example of a manner in which state law provides that the DHC is not separate and distinct from City Council supervision.

(9) The state statute does not purport to limit the power of the City Council to subject DHC officials and employees to the City of Detroit's ethics ordinance. As servants of a public body corporate, it is appropriate that commissioners and staff be subject to the ethics laws for all other City of Detroit public servants. We are of the opinion that this will enhance the efficient functioning of the DHC, pursuant to goals of both HUD's and both branches of the City of Detroit.

(10) The Mayor complains that we have required DHC to make monthly reports of its activities to City Council, rather than only annual reports. MCLA Section provides explicitly that housing commissions "shall make an annual report of its activities to the governing body of the incorporating unit and *shall make other reports as the governing body may from time to time require.*" (emphasis added). We are of the opinion that more frequent examination and analysis of its functions will help achieve HUD's goal of more efficient operation and function. This goal can be met by hiring the profession-

als as provided for in MCLA Section 125.655(3).

(11) The Mayor's concern that the City Council can specify the format in which DHC reports are made ignores the supervisory role given City Council by the state statute. The state statute does not purport to preempt the field on issues of City Council procedure in exercising that authorized supervisory function.

(12) The City Council again in Section 14-5-6(2) has exercised a permissive power authorized by the statute. It will enhance DHC efficiency and good faith performance of duty for its commissioners to submit quarterly reports of expenses paid to them. This will also reassure HUD with respect to its recent audit concerns.

Finally, the Mayor is mistaken in his understanding that our substitute ordinance contains substantive changes. All the changes were ministerial. We have passed a second amendment to the City Code which makes the substantive changes which we concluded were necessary subsequent to our first action. Now, Therefore Be It

Resolved, That we reassert that the City Council's recent ordinance amendments are either mandatory or permissive pursuant to the Housing Facilities Act, including its 1996 Amendments. Furthermore, these changes enhance and do not hinder DHC's compliance with HUD's requirements of improved efficiency of operation, and improved accounting integrity. The Mayor, in his veto message and elsewhere, has failed to present evidence that contradicts our position.

First, upon approval of this Plan by the City Council, the developer will be entitled under state law to seek the approval of the State Treasurer or the Michigan Economic Development Corporation for a single business tax credit for up to 10% of its eligible investment in its project. Secondly, the Plan proposed will authorize the DBRA to capture tax increment revenues produced from the development of the properties in the Paper-Plas Project Area. Property Subject to the Proposed Plan

Projected Costs

The Plan contemplates that the total cost of eligible activities will be \$1,052,000.00. The DBRA will capture incremental tax revenues through 2018. In turn, the proceeds from the captured tax revenues will be used to reimburse Paper-Plas Converting, Inc. for its costs to undertake the requisite eligible activities,

as defined under Section 201 of Act 381. Moreover, additional tax revenues will be captured for an additional five years and will be used to establish a Local Site Remediation Revolving Fund (the "LSRRF"). The Plan contemplates that approximately \$645,000.00 will have accrued in the LSRRF by 2026.

This proposed Plan has been presented to the Planning Department's Concept Plan Review and DBRA received favorable recommendation for its approval. A copy of the recommendation letter dated August 29, 2001 is attached to the Plan.

Honorable City Council:

Re: 9151 Whittier, Emergency Demolition Order.

On Friday, September 21, 2001, Judge Robert J. Columbo issued an order appointing Challenge Consulting, Inc. as Receiver for the property referenced above. Since that time, we have received communication from the company's president seeking permission to completely renovate the property and return it to service. This department has authorized limited access to the receiver for the purpose of taking remedial action. Further, we have directed them to a specific plan for re-occupancy of the premises. As a result, this department recommends rescinding the emergency demolition.

This property has been vacated by court order and secured against trespass. Additionally, the immediate danger has been abated by the complete removal of the balcony. By copy of this letter, we recommend that the Department of Public Works stop all action proceeding to the demolition of the property.

Respectfully submitted,

Honorable City Council:

Re: Address: 18865 Eureka. Name: Kendrala R. Mars. Date ordered removed: March 14, 2001 (J.C.C. p. 774).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 27, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of May 4, 2001.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition ordered be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. You will not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Respectfully submitted,

Honorable City Council:

Re: Approval for Sale of Seven Scattered Site Houses.

The Detroit Housing Commission (DHC) requests a resolution of approval from your Honorable Body for the sale of the below seven Scattered Site (Neighborhood Family Housing) properties to the DHC resident residing in each home. The sale of the properties was approved by the Board of Housing Commissioners on October 4, 2001, Resolution No. 1473. The properties have all been appraised. Each resident has been pre-approved for a first mortgage equaling seventy per cent (70%) of the appraised amount of his/her home. DHC will hold silent second mortgages for the remaining thirty per cent (30%) of the appraised amounts that will be incrementally forgivable over a period of five years. Each resident has signed a purchase agreement and has paid "earnest money," a one per cent (1%) deposit of the appraisal amount, to the Detroit Housing Commission for each respective house. The DHC will obtain Certificates of Approval from Buildings and Safety Engineering denoting that all houses meet City of Detroit Code Requirements before closing on the properties. The DHC will pay for termite inspections, mortgage surveys and title commitment policies.

	DHC Resident	Appraised Amount	First Mortgage	Silent Second Mortgage
16141 Cherrylawn	Carol Cherry	\$ 63,000	\$44,100	\$18,900

Finance Director

Ordinance No. 18-01

An Ordinance to Amend Ordinance No. 27-86 as Amended and Supplemented by Ordinance No. 7-87, Ordinance No. 38-92, Ordinance No. 3-93, Ordinance No. 31-95, Ordinance No. 16-97, Ordinance No. 24-97 and Ordinance No. 36-99 of the City of Detroit to Provide for a Means of Determining if Certain Junior Lien Bonds Bear Interest at a Fixed Rate or a Variable Rate, Change the Reserve Account Requirement for Second Lien Bonds, Facilitate the Use of Debt Service Reserve Fund Surety Bonds by Amending Section 8, and to Amend and Restate Ordinance No. 27-86.

Whereas, The City Council (the Council) of the City of Detroit, Michigan, adopted Ordinance No. 27-86 (the

Ordinance) on December 9, 1986, to provide for the financing and refinancing of capital improvements to the Sewage Disposal System by the issuance of Sewage Disposal System Revenue Bonds and Revenue Refunding Bonds and Junior Lien Bonds, and has extensively amended the Ordinance seven times since its adoption in 1986; and

Whereas, The Council has determined that it is in the best interest of the City to amend the Ordinance so as to provide a means of determining if certain Junior Lien Bonds bear interest at a fixed or variable rate and to change the Reserve Account Requirement for Second Lien Bonds, such amendment to take effect upon this amendatory ordinance becoming effective; and

Whereas, The Council has determined that it is in the best interest of the City to further amend the Ordinance and to restate the Ordinance so as provide for more efficient financings that reflect current capital market practices, eliminate obsolete provisions and integrate this amendment and all prior amendments into one ordinance, such amendment to take effect upon receiving consent of the requisite percent of holders of outstanding Bonds and Junior Lien Bonds; and

Whereas, Section 8 of the Ordinance (Section 8) provides for the use of surety bonds (Reserve Account Surety Bonds) to meet the City's obligations, from time to time, to fund Bond Reserve Accounts and Second Lien Bond Reserve Accounts; and

Whereas, Section 8 contains certain ambiguous and defective provisions regarding the payment obligations of the City in certain instances; and

Whereas, Funding Reserve Accounts with Bond proceeds increases the aggregate principal amount of bonds issued to finance capital improvements to the System and can increase the cost of capital and thereby diminish limited capital resources to be directly used for System purposes; and

Whereas, The necessity of investing Reserve Accounts funded with Bond proceeds can result in market and credit volatility and can result in an insufficiency of funds if and when the Reserve Account is needed to provide debt service payments; and

Whereas, Reserve Account Surety Bonds can result in debt service savings and other economic efficiencies; and

Whereas, It is in the best interest of the City and Bondholders that the most efficient use be made of the ability to borrow under the Ordinance and otherwise use capital resources; and

Whereas, There can be a material adverse effect on the City and Bondholders if the ability to borrow and capital resources are not used efficiently; and

Whereas, The Council determines that it is in the best interests of the City and the Bondholders to amend Section 8 so as to assure the availability of Reserve Account Surety Bonds and that Bondholders may be materially adversely affected if Reserve Account Surety Bonds are not freely available in connection with financing the System; and

Whereas, In light of the foregoing, the Council further determines that amendments herein contained do not have a material adverse effect on the interests of Bondholders but rather enhance the ability of the City to obtain Reserve Account Surety Bonds.

The City of Detroit Ordains:

Part I

Section 1. Immediate Amendment of Ordinance No. 27-86.

(a) **Amendment.** Ordinance No. 27-86 as amended to the date hereof is hereby amended by adding three new sections thereto as "Section 1A," "Section 1B" and Section 8 to respectively read as follows:

Section 1A. Determination of Fixed Rate and Variable Rate Junior Lien Bonds.

(a) **Applicability.** This Section is applicable to all Junior Lien Bonds other than SRF Junior Lien Bonds (the "Subject Junior Lien Bonds").

(b) **Generally.** Notwithstanding any provision of this Ordinance to the contrary, this Section shall govern the following determinations:

(1) Whether a Subject Junior Lien Bond is a Variable Rate Junior Lien Bond (a "Variable Rate Security") or a Fixed Rate Junior Lien Bond (a "Fixed Rate Security") for all purposes of this Ordinance.

(2) How interest is to be calculated on such Variable Rate Securities and Fixed Rate Securities for the purpose of determining Maximum Annual Debt Service, and all definitions and determination of this Ordinance based on or derived from Maximum Annual Debt Service.

(c) Definitions of Fixed Rate Securities and Variable Rate Securities.

"Fixed Rate Security" means a Subject Junior Lien Bond that bears interest at a rate that has been fixed for at least a five-year period that includes all of the Fiscal Year for which a calculation of Annual Debt Service is made.

(1) If the Fiscal Year for which a calculation of Annual Debt Service is made includes only a portion of such five year period, a Security is also a "Fixed Rate Security" but only for such portion.

(2) A rate is fixed for purposes of determining whether a Security is a "Fixed Rate Security" if the economic effect of a Security bearing interest at a fixed rate is produced by a Qualified Hedge or by Counterpart Securities.

(3) A rate is *not* fixed for purposes of determining whether a Security is a "Fixed Rate Security" if the economic effect of a Security bearing interest at a variable rate is produced by a Qualified Hedge.

"Variable Rate Security" means a Subject Junior Lien Bond that is not a Fixed Rate Security.

(d) Interest Calculations — Variable Rate Securities.

(1) If a Variable Rate Security has been Outstanding for less than a full Fiscal Year on the date of calculation, *then* the interest rate on such Variable Rate Security shall be calculated as 125% of the average of the Bond Market Association (BMA) Municipal Index for the five-year period ending not more than one week before the date of such calculation.

(2) If Variable Rate Securities have been Outstanding for one or more full Fiscal Years on the date of calculation, *then* the interest rate on such Variable Rate Securities shall be calculated as 125% of the annualized average daily rate borne by such Variable Rate Securities for the 12 calendar month period ending immediately before the month of calculation.

(e) Interest Calculations — Fixed Rate Securities Convertible to Variable Rate Securities.

If Subject Junior Lien Bonds are issued as Fixed Rate Securities but are intended to convert by their terms to Variable Rate Securities during a future Fiscal Year and a calculation is made for such future Fiscal Year or any Fiscal Year thereafter, *then* the Fiscal Year of conversion shall be the first Fiscal Year that such Securities are Outstanding for the purposes of calculating interest at a variable rate.

(f) Other Definitions.

"BMA Material Index" means the index based upon the weekly interest rates of tax-exempt variable rate issues included in a database maintained by Municipal Market Data, Boston, Massachusetts, a Thompson Financial Services Company (or its successor), which meet specific criteria established by The Bond Market Association.

"Bond Insurance" means any policy of insurance, contract of suretyship, guaranty or other agreement intended to protect Holders of particular Securities from loss arising from a failure of the City to timely pay principal (and premium, if any) of and interest on such Securities and pursuant to which the provider thereof is repaid solely as subrogee without creating any additional payment obligations (other than the payment of a premium or annual fee).

"Counterpart Securities" means Securities that bear interest at rates which vary inversely to each other and that were issued contemporaneously with each other in order to produce a single fixed rate. In order to constitute "Counterpart

Securities", both counterparts must be Outstanding at the same time.

"Credit Enhancement" means any Credit Facility and any Bond Insurance.

"Credit Facility" means any letter of credit, line of credit, purchase agreement, or other financial arrangement intended to protect Holders of particular Securities from loss arising from a failure of the City to timely pay principal of and interest on such Securities *other* than Bond Insurance.

"Hedge" means any agreement by which the City is authorized or permitted by law to manage its debt service, either in connection with the issuance of Securities or in connection with its then Outstanding Securities, including, but not limited to, interest rate exchanges or swaps, hedges and similar agreements.

"Qualified Hedge" means a Hedge with a counterparty that is rated directly or indirectly by a Rating Agency in a rating category at least equal to the category in which the subject Securities are rated without benefit of Credit Enhancement and without reference to qualifications such as "plus" or "minus". If the subject Securities are not rated without the benefit of Credit Enhancement, then the rating category of such Securities shall be the rating category with the benefit of Credit Enhancement.

"Securities" means any Subject Junior Lien Bonds.

Section 1B. Second Lien Bond Reserve Requirement.

Notwithstanding any provision of this Ordinance to the contrary, whenever this Ordinance provides for a determination of Maximum Annual Debt Service for purposes of determining the Second Lien Bond Reserve Requirement, a determination of average Annual Debt Service as of the date of issuance shall be made instead, and such determination shall be sufficient for all purposes of this Ordinance with respect to the Second Lien Bond Reserve Requirement as it relates to Maximum Annual Debt Service.

Section 8. Municipal Bond Insurance or other Credit Enhancement.

The Finance Director may obtain municipal bond insurance or other credit enhancement in respect of all or part of the Series 1986 Bonds or any Additional Bonds which, if obtained, shall be provided for in the resolution authorizing the sale of the Series 1986 Bonds or any Additional Bonds. Such municipal bond insurance or other credit enhancement may only insure or secure certain Bonds and may or may not insure or secure any other series of Bonds or any part thereof. Such municipal bond insurer or other credit enhancement provider may be afforded certain rights and remedies to direct the proceedings with respect to the enforcement of payment of the Bonds as

shall be provided in the resolution authorizing the sale of the Series 1986 Bonds or Additional bonds.

The City may at any time fulfill its obligation to fund all or a portion of the Bond Reserve Account by acquiring for the benefit of the Bond Reserve Account an irrevocable surety bond payable on any interest or interest and principal payment date in an amount which, when added to any other funds in the Bond Reserve Account, equals the Bond Reserve Requirement. Before any such surety bond is substituted for moneys or applied in lieu of moneys within the Bond Reserve Account, there shall be filed with the Commissioners (i) an opinion of nationally recognized bond counsel to the effect that such substitution will not adversely affect the tax-exempt status of interest on any Bonds; (ii) evidence that such surety bond is provided by an insurance company rated by each Rating Agency then rating the Bonds to the effect that if the issuers of the surety bond were insuring payment of principal and interest of the Bonds to which the Bond Reserve Account relates, such Bonds would receive the highest rating available from each such Rating Agency; (iii) a copy of the surety bond; and (iv) an opinion of counsel satisfactory to such nationally recognized bond counsel to the effect that the surety bond is valid and enforceable in accordance with its terms. Each such surety bond shall be unconditional and irrevocable and shall provide debt service reserve security for the Bonds with respect to which the surety bond is purchased and, if the surety bond is purchased with respect to more than one issue of Bonds, then for the term of all the then outstanding Bonds for which such surety bond is purchased. Any agreement of the City with or for the benefit of the issuer of any such surety bond may provide that the City will be obligated to repay such issuer on amount equal to any draw-down on the surety bond plus the issuer's expenses and interest, but not in excess of the maximum rate permitted by law (collectively, "*Policy Costs*"), from Net Revenues subordinated only to debt service payments on the Bonds.

The City reserves the right, if it deems it necessary in order to acquire such a surety bond, to amend this Ordinance without the consent of any of the Bondholders in the following respects:

(i) to provide that Policy Costs shall be secured by a lien on Net Revenues equal in priority to the statutory lien securing Bonds but subordinate to such statutory lien as between Bonds and Policy Costs; and

(ii) to grant to the issuer of such surety bond such additional rights as it may request, provided that such amendment shall not, in the written opinion of nationally recognized bond counsel filed with the

Commissioners, materially impair or reduce the security or rights hereby granted to the owners of the 517-E Bonds or the Bonds or any of them.

(b) **Inconsistent Amendments.**

The amendments contained in this Part I shall prevail to the extent of any inconsistency between these amendments and the amendments identified in Ordinance 36-99 as the "Bondholder Approval Amendments" upon the Bondholder Approval Amendments becoming effective by obtaining the requisite consent.

Part II

(ii) A rate is fixed for purposes of determining whether a Security is a "Fixed Rate Security" if the economic effect of a Security bearing interest at a fixed rate is produced by a Qualified Hedge or by Counterpart Securities.

(4) *Transfer Taxes and Governmental Charges.* The Transfer Agent shall require payment by the Holder requesting the transfer of any Security for which it is the Transfer Agent, any tax or other governmental charge required to be paid with respect to such transfer.

(5) *Limitations.* Except as otherwise provided by Supplemental Action, a Transfer Agent shall not be required (i) to issue, register the transfer of or exchange Securities for which it is the Transfer Agent during a period beginning at the opening of business 15 days before the day of the giving of a notice of redemption or mandatory tender of such Securities selected for redemption or mandatory tender and ending at the close of business on the day of giving of that notice, or (ii) to register the transfer of or exchange of any such Security so selected for redemption or tender in whole or in part, except the unredeemed or untendered portion of such Security being redeemed or tendered in part.

(h) *Mutilated, Lost or Stolen Securities.*

(1) If any Security is mutilated, the City, at the expense of the Holder of the Security, shall execute, and the Transfer Agent for such Security shall authenticate and deliver, a new Security of like tenor in exchange and substitution for the mutilated Security, upon surrender to such Transfer Agent of the mutilated Security.

(2) If any Security is lost, destroyed or stolen, evidence of ownership of the Security and of the loss, destruction or theft may be submitted to the Transfer Agent for such Security and, if this evidence is satisfactory to the City and the Transfer Agent, and, indemnity satisfactory to such Transfer Agent and the City shall be given, and if all requirements of any applicable law, including Act 354, Public Acts of Michigan, 1972, as amended, have been met, then, at the expense of the Holder requesting the substitute Security, the City shall execute, and such Transfer Agent shall thereupon authenticate and deliver, a new Security of like tenor and bearing the statement required by Act 354, or any applicable law hereafter enacted, in lieu of and in substitution for the Security so lost, destroyed or stolen. If any such Security shall have

matured or shall be about to mature, the Transfer Agent may pay the same without surrender thereof as authorized by Act 354 instead of issuing a substitute Security.

Section 4. Financial Facilities, Hedges.

(a) The Finance Director may, from time to time and at any time, obtain a Financial Facility in respect of all or some Securities if the Finance Director determines such to be in the best financial interests of the City.

(b) The Finance Director may at any time require Credit Enhancement to fulfill the City's obligation to fund any Reserve Account or substitute a Credit Enhancement for amounts in a Reserve Account. Before or concurrently with the acquisition of such Credit Enhancement, the Finance Director shall receive:

(1) an opinion of nationally recognized bond counsel to the effect that such substitution will not adversely affect the tax-exempt status of interest on any Securities;

(2) evidence that such Credit Enhancement is provided by a provider rated in the highest rating category of each Rating Agency then rating the Securities having the benefit of such Reserve Account;

(3) a copy of the Credit Enhancement; and

(4) an opinion of counsel satisfactory to said nationally recognized bond counsel to the effect that the Credit Enhancement is valid and enforceable in accordance with its terms.

(c) The Finance Director may, in accordance with law, from time to time enter into such Hedges as the Finance Director determines to be in the best financial interests of the City.

(d) The Finance Director may grant to the provider of any Financial Facility, or to any counterparty to any Hedge authorized by this Section, such rights as may be necessary or appropriate that are not inconsistent with this Ordinance.

Section 5. Security for Payment.

(a) The payment of Secured Obligations is secured by a statutory lien, which is hereby created, upon the whole of the Pledged Assets *subject* to the use and application thereof in accordance with this Ordinance.

(b) The lien securing Hedge Obligations is valid only to the extent permitted by law.

(c) Except for Bond Insurance, a statement of the Priority of an Ancillary Obligation shall be contained in the instrument evidencing or providing for such Ancillary Obligation.

(1) An Ancillary Obligation in respect of a particular Priority of Securities:

(i) may be secured at a lower Priority, but

(ii) may *not* be secured at a higher Priority.

(2) Ancillary Obligations are "related" to Securities of the same Priority for purposes of determining priority of security and payment even though such Ancillary Obligations may have been entered into in respect of a higher Priority of Securities.

(d) The lien securing the payment of a Secured Obligation is subject to the following Priorities:

(1) The lien securing Senior Obligations shall be a first lien, senior to all other liens created hereunder except the lien securing Ancillary Obligations Fees and Expenses.

(2) The lien securing Junior Obligations shall be junior only to the lien securing Senior Obligations whenever issued. Among Junior Obligations:

(i) the lien securing Second Lien Bonds and related Ancillary Obligations shall be senior to the liens securing all other Junior Obligations;

(ii) the lien of each other Priority of Junior Obligations shall be senior to the lien of all lower Priorities of Junior Obligations; and

(iii) the SRF Junior Lien Bonds shall be the lowest Priority of Junior Lien Bonds, and the lien securing SRF Junior Lien Bonds and related Ancillary Secured Obligations shall be junior to the liens securing all other Junior Obligations, whenever issued.

(e) Each lien securing a Secured Obligation shall continue until either payment in full of such Secured Obligation or, in the case of Securities, is defeased as provided in this Ordinance.

Section 6. Payment of Secured Obligation; Subordination.

(a) **Generally.** Secured Obligations are not general obligations of the City and shall be payable solely from Pledged Assets as provided in this Section:

(1) Ancillary Obligation Fees and Expenses are payable from Revenues and, to the extent of any insufficiency, Pledged Assets.

(2) All Securities and Ancillary Obligations are payable from Pledged Assets.

(b) **Subordination.**

(1) Whenever any principal (and premium, if any) of and interest on Securities of a Priority or any payment on the Ancillary Obligations related to such Securities (any of the foregoing a "Payment") is due and is not made when due, then until such Payment is made or provision made for the payment thereof to the satisfaction of the Holders of such Securities and the obligees of such Ancillary Obligations, no Payment shall be made directly or indirectly on or in respect of any Securities of lower Priority or any Ancillary Obligations related to such Securities of lower Priorities (such Securities and Ancillary Obligations col-

lectively, the "Subordinated Obligations" and the Holders and obligees thereof, the "Subordinated Obligees"), except as provided below with respect to defeased Securities.

(2) Subject to the payment in full of all Securities and Ancillary Obligations of every higher Priority (collectively, the "Superior Obligations" and the Holders and obligees thereof, the "Superior Obligees"), the Subordinated Obligees shall be subrogated to the rights of the Superior Obligees to receive payment in full of the respective Obligations until all amounts owing on the Subordinated Obligations shall be paid in full, and as between the City and its creditors, other than Superior Obligees and Subordinated Obligees, no payment made on Superior Obligations which would otherwise have been made to Subordinated Obligees shall be deemed to be a payment by the City on account of Superior Obligations, it being understood that the Priorities are solely for the purpose of defining the relative rights of Superior Obligees on the one hand and the Subordinated Obligees on the other hand.

(3) Except as otherwise provided in a Supplemental Action, the City may agree with the Holders of Securities of any Priority and the obligee of any related Ancillary Obligations to extend, renew, modify or amend the terms of such Securities or such related Ancillary Obligations or any security thereof, and any such Holders or obligees may release, sell exchange such security and otherwise deal freely with the City, and the City with any of them, all without notice to or consent of the Holders of any Securities of any lower Priority or the obligees under any related Ancillary Obligations without affecting the liabilities of the City to such Holders or obligees.

(4) Nothing in this subsection shall impair the right of the Holders of any defeased Securities to be paid from the escrow effecting such defeasance.

(c) **Financial Facilities.** Except as otherwise provided in a Supplemental Action:

(1) Nothing in this Section shall affect the payment of Securities from any Financial Facility obtained for the benefit of such Securities.

(2) No payment of an amount made by a drawing or disbursement under a Financial Facility to Holders of Securities which would otherwise have been made by the City shall be deemed to be a payment by the City on account of such Securities for the purpose of discharging the City's obligation on such Securities.

Section 7. Securityholders' Rights; Receiver.

(a) The Holder or Holders of the Securities representing in the aggregate not less than 20% of the entire principal

amount thereof then Outstanding, may, by suit, action, mandamus or other proceedings, protect and enforce the statutory lien upon Pledged Assets, and may, by suit, action, mandamus or other proceedings, enforce and compel performance of all duties of the officers of the City, including the fixing of sufficient rates, the collection of Revenues, the proper segregation of the Revenues of the System and the proper application thereof. The statutory lien upon Pledged Assets, however, shall not be construed to compel the sale of the System or any part thereof.

(b) If there is a default in the payment of the principal (and premium, if any) of and interest on any Securities, any court having jurisdiction in any proper action may appoint a receiver to administer and operate the System on behalf of the City and, under the direction of the court, perform all of the duties of the officers of the City more particularly set forth herein and in Act 94.

(c) The Holder or Holders of the Securities shall have all other rights and remedies given by Act 94 and by law for the payment and enforcement of the Securities and the security therefor.

Section 8. Management.

The operation, repair and management of the System, including all projects financed by the issuance of Securities, shall remain under the supervision and control of the Commissioners in the manner provided in Article 7, Chapter 15 of the Charter of the City subject to the rights, powers and duties in respect thereto which are reserved by law and the City Charter to the Council.

Section 9. Fixing and Revising Rates; Rate Covenants.

(a) The coverage requirements for determining the Required Combined Coverage under this Section are the following percentages:

Priority of Indebtedness	Percentage
Senior Lien Indebtedness	120
Second Lien Indebtedness	110
SRF Junior Lien Bonds	100

Prior to or concurrently with the issuance of a Priority of Securities not enumerated above, this subsection shall be amended to provide for the coverage percentage for Indebtedness in respect of such Priority of Securities, but in no case shall the coverage percentage be less than 100. Such amendment shall not require the consent of Holders of any Securities.

(b) The rates for sewage disposal service and the regulations shall be the rates and regulations required to be established by Act 94. Such rates shall be fixed and revised from time to time as may be expected to be necessary to produce the greater of:

- (1) the amounts required:
 - (i) to provide for the payment of the expenses for maintenance of the System as are necessary to preserve the same in good repair and working order; and
 - (ii) to provide for the payment of Indebtedness coming due for the Fiscal Year of calculation; and
 - (iii) to provide for the creation and maintenance of reserves therefor as required by the Ordinance or any ordinance or resolution adopted in accordance with the terms thereof and hereof; and
 - (iv) to provide for such other expenditures and funds for the System as this Ordinance may require; and

(2) The Required Combined Coverage where the *Inflows* are the Net Revenues projected for the Fiscal Year of calculation and the *Outflows* are the Indebtedness coming for such Fiscal Year.

(c) The City hereby covenants and agrees at all times to fix and maintain such rates for services furnished by the System as shall be sufficient to provide for the foregoing and to repay any borrowing from the Extraordinary Repair and Replacement Reserve Fund.

(d) Without taking into account any transfers from the Rate Stabilization Fund, the City shall at all times observe and comply with the covenant contained in subsection (b)(2) above as if the Rate Coverage Percentage were 100.

(e) The charges for sewage disposal service which are under the provisions of Section 21 of Act 94, Public Acts of Michigan, 1933, as amended, are made a lien on all premises served thereby, unless notice is given that a tenant is responsible, are hereby recognized to constitute such lien and whenever any such charge against any piece of property shall be delinquent for six months, the City official or officials in charge of the collection thereof may certify to the tax assessing officer of the City not later than April 1 of each year the fact of such delinquency, whereupon such charge shall be entered upon the next tax roll as a charge against such premises and the lien thereof enforced in the same manner as general City taxes against such premises are collected and the lien thereof enforced; *provided, however*, where notice is given that a tenant is responsible for such charges and service as provided by said Section 21, no further service shall be rendered to such premises until a cash deposit equal to the estimated amount of the next ensuing bill shall have been made as security for payment of such charges and services.

(f) In addition to other remedies provided, the City shall have the right to shut off and discontinue the supply of water to any premises for the nonpayment of sewage disposal rates when due.

Section 10. No Free Service or Use; Metered Service.

No free service or use of the System, or service or use of the System at less than cost, shall be furnished by the System to any person, firm or corporation, public or private, or to any public agency or instrumentality, including the City and any other municipality. All service provided to customers of the System, with the exception of temporary connections and certain public service uses of the City which are billed on an estimated basis, shall be metered.

Section 11. Operating and Fiscal Year.

The System shall be operated on the basis of the Fiscal Year.

Section 12. Funds and Accounts; Flow of Funds.

A. Establishment of Funds and Accounts.

(a) The following funds and accounts are hereby established:

- Sewage Disposal System Receiving Fund (the "Receiving Fund")
- Operation and Maintenance Fund
- Senior Lien Bond Interest and Redemption Fund
 - Senior Lien Debt Service Account
 - Senior Lien Bond Reserve Account
- Second Lien Bond Interest and Redemption Fund

(b) Additional funds may be established for other Priorities of Securities by Supplemental Action of the Finance Director.

B. Flow of Funds.

All Revenues shall be set aside as collected and credited to the Receiving Fund. As of the first day of each month, amounts credited to the Receiving Fund shall be transferred *seriatim* into the following funds and accounts but only within the respective limitations and only if the maximum amount within such limitation has been credited to the preceding fund or account:

First: to the Operation and Maintenance Fund, a sum sufficient to provide for

the payment of the next month's expenses of administration and operation of the System (including Ancillary Obligation Fees and Expenses) and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order;

Second: to the Senior Lien Bond Debt Service Account, an amount that, when added to all other amounts then on deposit therein, shall equal the Debt Service Installment Requirement for Senior Lien Obligations as of the first day of such month;

Third: to the Senior Lien Bond Reserve Account, an amount that when added to all other amounts then on deposit therein equal the Reserve Requirement for Senior Lien Bonds;

Fourth: to the Interest and Redemption Fund established for each Priority of Junior Lien Bonds, beginning with the Second Lien Bonds and continuing in descending order of Priority to, and including the SRF Junior Lien Bonds:

First: to the Debt Service Account established for such Priority, an amount that, when added to all other amounts then on deposit therein, shall equal the Debt Service Installment Requirement for Junior Obligations of such Priority as of the first day of such month;

Second: to the Reserve Account, if any, established for such Priority an amount that when added to all other amounts then on deposit therein shall equal the Reserve Requirement for such Priority of Junior Lien Bonds;

Fifth: to the Extraordinary Repair and Replacement Reserve Fund, the amount of the Extraordinary Repair and Replacement Minimum Requirement so long as the balance thereof is less than the Extraordinary Repair and Replacement Maximum Requirement *except* that an amount withdrawn from such Fund pursuant to Section 13D shall be deducted from the Extraordinary Repair and Replacement Maximum Requirement in the Fiscal Year of withdrawal; and

Sixth: to the Improvement and Extension Fund, such amount, if any, that the Commissioners may deem advisable; provided that no amount shall be deposited therein or credited thereto for so long as a borrowing from the Extraordinary Repair and Replacement Reserve Fund remains unpaid.

Section 13. Use and Application of Amounts in Funds.

A. Receiving Fund.

(a) Amounts in the Receiving Fund shall be monthly applied as provided in Section 12.

(b) Amounts remaining in the Receiving Fund as of the last day of each Fiscal Year shall be credited to the Surplus Fund.

B. Operation and Maintenance Fund.

Amount in the Operation and Maintenance Fund shall be used to pay the expenses of administration and operation of the System (including Ancillary Obligation Fees and Expenses and any rebates to the United States government that may be required by the Code) and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order.

C. Interest and Redemption Funds.

(a) **Generally.** Amounts in the Interest and Redemption Fund established for a Priority of Securities and Ancillary Obligations shall be applied to pay principal (and redemption premium, if any) of and interest on such Priority of Securities and amounts due on such Priority of Ancillary Obligations.

(b) Mandatory Redemption Requirements.

(1) A Mandatory Redemption Requirement for a maturity of Term Securities may be satisfied in whole or in part by the redemption of Term Securities of such maturity or by the purchase and surrender to the Transfer Agent of such Term Securities from amounts credited to the Interest and Redemption Fund established for such Prior of Securities or purchased with other funds legally available therefor. The Finance Director shall elect the manner in which he/she intends to satisfy all or a portion of a Mandatory Redemption Requirement for particular Term Securities not less than 40 days prior to the due date of such Mandatory Redemption Requirement unless otherwise provided in the Supplemental Action providing for the issuance of such Term Securities.

(2) Unless otherwise provided in a Supplemental Action providing for the issuance of Term Securities, the City will receive a credit against the Mandatory Redemption Requirement for Term Securities for which such Mandatory Redemption Requirement was established that have been redeemed (other than by application of Mandatory Redemption Requirements) or otherwise acquired by the City prior to the giving of the notice of redemption and that have not been applied as a credit against any other Mandatory Redemption Requirements.

(i) Not less than 40 days prior to any mandatory redemption date for Term Securities, the Finance Director shall give notice to the Transfer Agent that such Term Securities are to be so credited.

(ii) Each such Term Security shall be credited by the Transfer Agent at 100% of the principal amount thereof against the Mandatory Redemption Requirement, and the principal amount of Term

Securities to be redeemed on such mandatory redemption date shall be reduced accordingly and any excess over such amount shall be credited to future Mandatory Redemption Requirements in such order as the Finance Director shall direct; *provided, however*, that any excess resulting from the purchase, at less than par, of such Term Securities shall be credited to the Receiving Fund.

(c) Reserve Accounts.

(1) Except as otherwise provided herein, amounts in a Reserve Account shall be used solely for the payment of the principal (and premium, if any) of any interest on Securities and Ancillary Obligations of the Priority for which such Reserve Account was established, as to which there would otherwise be default.

(2) If at any time the amount on deposit in or credited to a Reserve Account exceeds the Reserve Requirement for such Reserve Account, the amount of such excess may be transferred therefrom and credited to the Receiving Fund.

(3) No further payments need be made into an Interest and Redemption Fund in respect of principal and interest after enough of the Securities for which such Fund was established have been retired so that the amount then held in such Fund, including the Reserve Account therein, if any, is equal to the entire amount of principal and interest which will be payable at the time of maturity of all the then Outstanding Securities of such Priority.

(4) A separate Reserve Account may be established for an issue of Securities by the Supplemental Action providing for the issuance of such Securities.

(i) Securities having the benefit of such Reserve Account may be issued but only if such separate Reserve Account is fully equal to the Reserve Requirement for such Securities concurrently with the issuance of such Securities.

(ii) The amounts to be paid into any separate Reserve Account to restore it to its Reserve Requirement shall be made on a parity with payments into all other Reserve Accounts established for the same Priority of Securities and shall not exceed, in any Fiscal Year, its proportionate deficit payment. "Proportionate Deficit Payment" means for a separate Reserve Account the same proportion that the amount available to remedy deficits in each Reserve Account for such Priority bears to the aggregate deficit in all Reserve Accounts for such Priority.

D. Extraordinary Repair and Replacement Reserve Fund.

(a) Amounts may be used to pay the costs of making major unanticipated repairs and replacements to the System which individually have cost or are reasonably expected to cost in excess of

\$1,000,000 as determined by the Commissioners.

(b) On and after the first day of each Fiscal Year, the Finance Director may, by Supplemental Action, transfer to the Improvement and Extension Fund not more than 50% in aggregate of the balance in this Fund on the first day of such Fiscal year *if, but only if* (i) in the month of such transfer the full amount of the Extraordinary Repair and Replacement Minimum Requirement for each prior month in the current Fiscal Year has been credited to this Fund and (ii) the amounts of all prior transfers from this Fund to the Improvement and Extension Fund have been restored in full.

E. Improvement and Extension Fund.

The Improvement and Extension Fund shall be used for improvements, enlargements, extensions or betterment to the System.

F. Surplus Fund.

Amounts from time to time on hand in the Surplus Fund may, at the option of the Commissioners, be used and applied for any purposes related to the System; *provided, however*, that if and whenever there should be any deficit in the Operation and Maintenance Fund or in any Interest and Redemption Fund (including any Reserve Account therein) then transfers shall be made from the Surplus Fund to such funds in the priority and order named in Section 12 to the extent of any such deficit.

Section 14. Construction Fund.

(a) There shall be established and maintained a separate depository fund designated the Construction Fund. The City may designate separate accounts in the Construction Fund for different series of Securities for administrative purposes and to better enable the City to comply with its tax covenants in Supplemental Actions or resolutions regarding the exclusion from federal income taxation of interest on Securities.

(b) Amounts in the Construction Fund shall be applied solely in payment of the cost of repairs, extensions, enlargements, and improvements to the System ("*construction costs*") and any costs of engineering, legal, bond insurance premiums, if any, and other expenses incident thereto, to the financing thereof.

(1) Payments of construction costs, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Commissioners a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor; that it was done pursuant to and in accordance with the contract therefor; that such work is satisfactory; and that such work has not been previously paid for.

(2) Payment of the cost of engineering, legal, financial, bond insurance premium, etc., as provided in this section shall be made upon submission of appropriate documentation to the Finance Director.

(c) Any unexpended balance remaining in the Construction Fund may in the discretion of the Commissioners be used for meeting any Reserve Requirement or for further improvements, enlargements and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury Municipal Finance Division, if such permission is then required by law. Any remaining balance after such expenditure shall be paid into the Interest and Redemption Fund established for the Priority of Securities giving rise to such balance for the purpose of purchasing Securities of such Priority at not more than the fair market value thereof but not more than the price at which such Securities may next be called for redemption or used for the purpose of calling such Securities for redemption. The City may provide additional or different lawful uses for such unexpended balance or remaining balance by Supplemental Action of the Finance Director which shall, nonetheless, be subject to the City's relevant tax covenants.

Section 15. Rate Stabilization Fund.

(a) As used in this Section, "*Prior Revenue*" means any amounts that constitute Revenues or Net Revenues and held under this Ordinance *but* only to the extent that such amounts may be applied to any lawful purpose of the System. "*Prior Revenue*" does not include any amounts held under this Ordinance that at the time are restricted in application to a specific purposes, such as, by way of illustration, the application of amounts in the Surplus Fund in the event of a deficit as provided in the provision to Section 13(F).

(b) The Commissioners may create a fund designated Sewage Disposal System Rate Stabilization Fund (the "*Rate Stabilization Fund*"). No amounts shall be deposited therein or credited thereto *except* Prior Revenues and then *only if*:

(1) such Prior Revenue is credited to the Rate Stabilization Fund in the Fiscal Year in which it was recognized by the City as Net Revenue or within 90 days after the end of such Fiscal Year;

(2) the amount of such Prior Revenue is deducted from the amount of Net Revenue recognized in such Fiscal Year for all purposes of this Ordinance; and

(3) the amount of Net Revenue recognized in such Fiscal Year at least meets the minimum applicable coverage requirements of this Ordinance for such Fiscal Year *after* (i) such deduction and (ii) all prior deductions in respect of such Fiscal Year pursuant to this clause.

(c) Amounts on deposit in the Rate Stabilization Fund may be taken into account for purposes of fixing and revising rates and rate covenants with respect to Securities (any such purposes, a "Coverage Determination").

(d) Whenever any amount on deposit in the Rate Stabilization Fund is taken into account for any Coverage Determination (a "Reserved Amount"), then such Reserved Amount shall be credited to the Receiving Fund for the Fiscal Year for which such Coverage Determination is made.

(e) Prior to the transfer of any Reserved Amount to the Receiving Fund, such Reserved Amount shall not be used or applied to any purpose except pursuant to Section 17 and then only after all other amounts then in the Rate Stabilization Fund have been applied pursuant to Section 17.

(f) Amounts on deposit in the Rate Stabilization Fund other than Reserved Amounts may be applied to any lawful purpose of the System.

Section 16. Depositories.

(a) Amounts in the several funds, accounts and subaccounts established pursuant to this Ordinance shall be kept in one or more accounts separate and apart from all other accounts of the City, and if kept in only one account shall be allocated on the books and records of the City in the manner and at the times provided in this Ordinance.

(b) Amounts in the Interest and Redemption Fund for a Priority of Securities shall be kept on deposit with one of the banks or trust companies where the principal of and interest on such Priority of Securities are payable.

(c) The depository of all funds and accounts, except as otherwise specifically provided for herein, shall be those banks or trust companies designated from time to time as such by the Finance Director.

Section 17. Priority of Funds.

(a) If amounts in the Receiving Fund are insufficient to provide for the current requirements of the Operation and Maintenance Fund and each Interest and Redemption Fund (including the Reserve Account, if any, therein), then any amounts or securities held in the Surplus Fund, the Improvement and Extension Fund and the Extraordinary Repair and Replacement Reserve Fund shall be credited or transferred, first, to the Operation and Maintenance Fund and second, to the particular Interest and Redemption Fund, to the extent of the insufficiency therein from the aforesaid funds in the order listed.

(b) If any principal (and redemption premium, if any) of or interest on Securities of a Priority or any related Ancillary Obligations become due (whether on a stated or scheduled date,

by reason of call for redemption or otherwise), and there are insufficient amounts for the payment thereof in the Interest and Redemption Fund established for such Priority of Securities and Ancillary Obligations after applying payments in the Reserve Account, if any, established for such Priority of Securities, then there shall be applied to such payment amounts in each Interest and Redemption Account established for each lower Priority of Securities, beginning with the lowest Priority and proceeding *seriatim* in ascending order of Priority, until such payments are made in full.

Section 18. Investments.

(a) **Permitted Investments.** The Permitted Investments for amounts held under this Ordinance are the Legal Investments for such amounts subject to the following:

(1) Investment of amounts in any Reserve Account shall be limited to obligations bearing maturity dates or subject to redemption, at the option of the Holder thereof, not later than ten years from the date of the investment.

(2) Except as otherwise herein provided, investments shall mature at such times as it is estimated the funds therefrom will be required, but shall be limited to obligations bearing maturity dates or subject to redemption, at the option of the Holder thereof, not later than five years from the date of investments.

(3) A Supplemental Action may provide for limitations in addition to or in lieu of the above limitations on Legal Investments or may eliminate any of such limitations.

(4) Notwithstanding paragraph (3), no Permitted Investments for the defeasance of particular Securities may be changed without confirmation from each Rating Agency that such change will not reduce the rating of such Securities.

(b) **Where Held.** To the extent required by Act 94, securities representing investments made under this Ordinance shall be kept on deposit with the bank or trust company having on deposit the fund or funds or accounts from which the purchase was made.

(c) **Disposition of Profit and Gain.**

(1) Profit realized or interest income earned on investment of amounts in the Receiving Fund, Operation and Maintenance Fund, any Interest and Redemption Fund (including the Reserve Account, if any, therein), the Extraordinary Repair and Replacement Reserve Fund, and Improvement and Extension Fund shall be credited to the Receiving Fund.

(2) Profit realized or interest earned on investments of funds in the Construction Fund relating to any series of Securities and any Redemption Account (including any Reserve Account or Subaccount established for any Securities) shall be

credited as received to the funds from which such investments were made; *provided, however,* that profit realized or interest earned on the Construction Fund relating to any series of Securities may, if permitted by law, be credited to the Receiving Fund at the option of the Commissioners.

(d) **Valuation.**

(1) Investments credited to any Reserve Account shall be valued at least annually on each January 1, unless otherwise specified in the Supplemental Action providing for the issuance of such Securities, at the market value thereof, and the City shall withdraw any excess immediately and, in the event of a deficit, budget such additional deposits at the beginning of the next succeeding Fiscal Year in an amount necessary to maintain each Reserve Account at its Reserve Requirement.

(2) Investments in the Extraordinary Repair and Replacement Reserve Fund shall be valued at least annually on each July 1 at the cost thereof.

Section 19. Covenants.

The City covenants and represents with the Holders of all Securities from time to time Outstanding as follows.

(a) **Ownership and Authority.** The City is the lawful owner of the System; the System is free from any and all liens and encumbrances; and the City has good right and lawful authority to encumber and pledge the Pledged Assets as herein encumbered and pledged.

(b) **Maintenance and Operation of System.**

(1) The City will, through its Commissioners, or such successor board or body as may hereafter be legally charged with the duty of the operation of the System, maintain the System in good repair and working order.

(2) The City will from time to time make all needful and proper repairs, replacements, additions, and betterments to the System so that the System may at all times be operated properly and advantageously, and whenever any portion of the System shall have been worn out, destroyed or become obsolete, inefficient or otherwise unfit for use, the City will procure and install substitutes of at least equal utility and efficiency so that the value and efficiency of the System shall at all times be fully maintained.

(c) **Books and Records.** The City will maintain and keep proper books of record and account separate from all other records and accounts in which shall be made full and correct entries of all transactions relating to the System, and the City will also cause an annual audit of such books and records for the preceding Fiscal Year. The City will make such audit available to the Holder of any Security upon request.

(d) **Disposition of System.** The City will not sell, lease or dispose of the System or any substantial part thereof until all Outstanding Securities have been paid in full as to both principal and interest.

(1) This covenant shall not be construed to prohibit the disposition or lease of any property comprising part of the System which is no longer necessary, appropriate, required for the use of, or profitable to the System, or which is no longer necessary to the proper operation and maintenance thereof, or which may be sold and leased back to the extent such arrangement is permitted by law.

(2) Paragraph (1) shall not be construed to authorize or permit the sale, lease or disposition of any substantial part of the System.

(3) The City may at all times in its discretion alter, repair or replace any buildings or structures or any part of the System and appurtenances thereto as the Commissioners determine necessary for the System.

(e) **No Competition.** The City will not, and will not to the extent permitted by law, permit others to, operate a sewage disposal system that will compete with the System.

(f) **Tax Exemption of Securities.** The City will take all action and refrain from any action as is necessary, including paying any rebates to the United States government that may be required by the Code so as not to impair the tax exemption of the interest on Securities issued as tax-exempt Securities from general federal and State of Michigan income taxation.

Section 20. Trustee.

(a) The City shall at all times maintain a Trustee in order to further assure prompt compliance with all of the requirements, duties and obligations of the City with respect to the System and the Securities and to perform such other duties as may be provided in a Supplemental Action; *provided that* no such additional duties shall be imposed on an existing Trustee without its consent.

(b) All fees, costs, and expenses of any legal proceedings that may be brought by the Trustee to enforce the duties and obligations of the City hereunder or under any Securities and any amounts advanced by Securityholders to the Trustee for such costs and expenses shall be paid by the City to the Trustee or such Securityholders, or both, as the case may be, in the first instance from the Net Revenues remaining, in the month of payment, after making the transfers and deposits required by Section 12 to all Interest and Redemption Funds (including the Reserve Account, if any, therein), and, to the extent that sufficient amounts are not available from the Revenues therefor, from general funds of the City.

(c) In the event that general funds of the City are used to pay any such costs and expense, the City shall be reimbursed therefor with interest at the rate of 7% per annum from the first Net Revenues remaining, in the month of reimbursement, after (i) making the transfers and deposits required by Section 12 to all Interest and Redemption Funds (including the Reserve Account, if any, therein) and (ii) paying the Trustee or Securityholders as provided in subsection (b).

(d) The Trustee is authorized to act in reliance upon the sufficiencies, correctness, genuineness or validity of any instrument or document or other writing submitted to it hereunder and shall have no liability with respect to said matters. The Trustee shall not be liable for any error in judgment or any act done or omitted by it in good faith. In the event of any dispute or question arising hereunder the Trustee shall not be liable if it acts or takes no action in accordance with the opinion of its legal counsel.

(e) In the event the required percentage of Securityholders shall direct the Trustee in writing to exercise one or more of the remedies specified in this Ordinance or in Act 94, the Trustee shall be under no obligation to proceed to enforce or compel the performance of the duties and obligations of the City under this Ordinance unless and until the Holders shall have reasonably indemnified the Trustee for all estimated costs and expenses in the exercise of said remedies, including necessary attorneys' fees.

Section 21. Additional Securities.

A. Limitations on Indebtedness.

The City shall not incur any obligations payable from Pledged Assets except for Secured Obligations, and no obligations of the City shall be secured by a lien on Pledged Assets except as provided in this Ordinance.

B. Issuance of Securities.

(a) Limitations on Issuance.

(1) The City shall not issue any Securities except in accordance with Section 21. Ancillary Obligations and related Ancillary Obligation Fees and Expenses may be incurred in respect of such Securities and shall be secured and payable as elsewhere provided in this Ordinance.

(2) Other limitations on the issuance of Securities may be added by Supplemental Action of the Finance Director.

(b) **Coverage Requirements.** The coverage requirements for determining the Required Combined Coverage under this Section are the following percentages:

Priority of Securities	Percentage
Senior Lien Bonds	120
Second Lien Bond	110
SRF Junior Lien Bonds	100

Prior to or concurrently with the issuance of a Priority of Securities not enumerated above, this subsection shall be amended to provide for the coverage percentage for such Priority of Securities, but in no case shall such coverage percentage be less than 100. Such amendment shall not require the consent of Holders of any Securities.

(c) **Refunding Securities.** If any Additional Securities (any of such, the "Refunding Securities") are to be issued to refund Outstanding Securities (the "Securities to be Refunded"), the Annual Debt Service to be used for determining the Required Combined Coverage shall be the Annual Debt Service on the Refunding Securities and not the Annual Debt Service on the Securities to be Refunded.

C. "New Money" and Refunding.

(a) **General Authority.** The City may issue Securities of any Priority (herein, "Additional Securities") for repairs, extensions, enlargements, and improvements to the System (including repaying, amounts withdrawn from the Extraordinary Repair and Replacement Reserve Fund), refunding all or a part of any Outstanding Securities and paying the costs of issuing such Additional Securities, including deposits, if any, to be made to any Reserve Account established or to be established for such Additional Securities or any other Securities, *if, but only if*, there is Required Combined Coverage under either the Projected Net Revenues Test contained in subsection (b) or the Historical Net Revenues Test contained in subsection (c). The determination in a Supplemental Action that there will be Required Combined Coverage upon the issuance of such Additional Securities shall be conclusive.

(b) **Projected Net Revenues Test.** For purposes of determining the Required Coverage Requirement, the *Inflows* are the projected Net Revenues of the System for the then current or the next succeeding Fiscal Year and the *Outflows* are the maximum composite Annual Debt Service in any Fiscal Year on Outstanding Securities and the Additional Securities to be issued.

(1) Projected Net Revenues may include 100% of the estimated increase in Net Revenues to accrue as a result of the acquisition of the repairs, extensions, enlargements and improvements to the System to be paid for in whole or in part from the proceeds of the Additional Securities.

(2) In projecting Net Revenues, the City shall engage the services of and be guided by a consultant of national reputation for advising municipalities with respect to setting rates and charging for the use of sewage disposal systems.

(c) **Historical Net Revenues Test.** For purposes of determining the Required Coverage Requirement, the *Inflows* are the actual Net Revenues of the System for the immediately preceding audited Fiscal Year and the *Outflows* are the maximum composite Annual Debt Service in any future fiscal Year on Outstanding Securities and the Additional Securities to be issued.

(1) Instead of the immediately preceding audited Fiscal Year, the City may use any audited Fiscal Year ending not more than sixteen months prior to the date of delivery of such Additional Securities.

(2) If any change in the rates, fees and charges of the System has been authorized at or prior to the date of sale of such Additional Securities, the Net Revenues for the particular preceding Fiscal Year shall be augmented by an amount reflecting the effect of such change had the System's billings during such Fiscal Year been at the increased rates.

(3) Net Revenues for the particular preceding audited Fiscal Year also may be augmented by 100% of the estimated increase in Net Revenues to accrue as a result of the acquisition of the repairs, extensions, enlargements and improvements to the System to be paid for in whole or in part from the proceeds of such Additional Securities 100% of any acquisition, extension or connection which was made subsequent to the end of the particular preceding audited Fiscal Year.

(4) With respect to augmentation of Net Revenues, the City shall engage the services of and receive the certificate of a consultant of national reputation for advising municipalities with respect to setting rates and charges for the use of sewage disposal systems regarding the existence of such conditions.

(5) Audited financial statements may be relied upon if no augmentation of Net Revenues is required.

D. Debt Service Reduction — An Additional Means of Refunding.

The City may issue Securities of any Priority (herein, "*Additional Securities*") without regard to Section 21C for refunding all or part of Securities then Outstanding and paying costs of issuing the Refunding Securities, including deposits which may be made to any Reserve Account established or to be established for such Additional Securities or any other Securities *if, but only if:*

(1) the combined Annual Debt Service coming due in the current Fiscal Year and each Fiscal Year thereafter until maturity on (A) the Additional Securities and (B) giving effect to the refunding, all Outstanding unrefunded Securities of equal and higher Priority *is less than*

(2) the combined Annual Debt Service coming due in the current Fiscal Year and each Fiscal Year thereafter until maturity

on all equal and higher Priority Securities, without giving effect to the refunding.

Section 22. Defeasance.

(a) A Security is "defeased" for purposes of this Ordinance if:

(1) there has been deposited in trust sufficient cash and Permitted Investments, not callable by the issuer, the principal of and interest on which mature at the times and in the amounts, without the reinvestment thereof, necessary to pay principal of and interest on such Security to its maturity, or, if called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any; and

(2) if such Security is to be redeemed prior to maturity, irrevocable instructions have been given to the Transfer Agent to call such Security for redemption.

(b) A Supplemental Action providing for the issuance of Securities may:

(1) provide different means of defeasing such Securities, and such means may be in addition to or in lieu of the means set forth in subsection (a);

(2) provide for the Legal Investments that are Permitted Investments for the defeasance of such Securities, but no such Permitted Investments may thereafter be changed except as provided in Section 18; and

(3) provide for the consequences of such Securities being defeased.

(c) Except as otherwise provided in a Supplemental Action:

(1) the Legal Investments for the defeasance of such Securities are the Permitted Investments therein; and

(2) the statutory lien herein referred to in Section 4 shall be terminated with respect to defeased Securities, the Holders of such defeased Securities shall have no further rights under this Ordinance except for payment from the deposited funds and registration and replacement of such Securities, and such Securities shall no longer be considered to be Outstanding under this Ordinance.

Section 23. Amendments; Consent of Securityholders.

A. Amendment without Consent.

(a) This Ordinance may be amended or supplemented from time to time by Act of Council or Supplemental Action without consent of the Holders of Securities:

(1) To issue Securities of any Priority;

(2) To add to the covenants and agreements of the City in this Ordinance contained, other covenants and agreements thereafter to be observed or to surrender, restrict or limit any right or power reserved to or conferred upon the City (including but not limited to the right to issue Securities or incur other Secured Obligations of, in either case, any Priority);

(3) To make such provisions for the purpose of curing any ambiguity, or cur-

ing, correcting or supplementing any defective provisions contained in this Ordinance, or in regard to matters or questions arising under this Ordinance, as the City may deem necessary or desirable;

(4) To increase the size or scope of the System; and

(5) To amend or supplement this Ordinance in any respect with regard to one or more Priorities of Securities so long as such amendment does not materially adversely affect the Holders of Outstanding Securities.

(b) No Holders of a Priority of Securities shall be "materially adversely affected" for the purposes of this Ordinance by the change of any coverage percentage established for any other Priority of Securities, and no amendment of or supplement to this Ordinance that provides for or facilitates the issuance of Securities or incurs other Secured Obligations of, in either case, of any Priority shall "materially adversely affect" the Holders of Securities of any other Priority for the purposes of this Ordinance so long as such amendment does not change any coverage percentage established for such Priority of Securities or is not an amendment that requires the consent of the Holder of such Security under Section 23B(a)(1) or (2).

(c) A confirmation of the rating of the Securities held by Holders affected by any amendment of or supplement to this Ordinance shall be conclusive evidence that such Holders were not materially adversely affected by such amendment or supplement.

B. Amendments With Consent.

(a) With the consent of the Holders of not less than 51% in principal amount of Securities then Outstanding, the City may from time to time and at any time amend this Ordinance in any matter by Act of Council; *provided*, that no such amendment shall:

(1) reduce the aforesaid percentage of Holders of Securities required to consent to an amendment to this Ordinance without the consent of the Holders of all Securities then Outstanding, or

(2) without the consent of the Holder of each Security affected thereby:

(i) extend the fixed maturity of such Security or reduce the rate of interest thereon or extend the time of payment of interest, or reduce the amount of the principal or redemption premium thereof, or reduce or extend the time for payment of any premium payable on the redemption thereof, or

(ii) change the Priority of such Security or deprive such Holder of the right to payment of such Security from Pledged Assets.

(b) It shall not be necessary for the consent of the Securityholders under this

Section to approve the particular form of any proposed Act of Counsel but it shall be sufficient if such consent shall approve the substance thereof. The consent of the Holder of a Security shall bind all Holders of any Security for which such Security was the predecessor.

(c) For the purpose of acquiring consent for the purposes of this Section, the consent of a Securityholder acquiring a Security in an offering remarketing in which the offering or remarketing circular or other disclosure document fully disclosed the terms of such amendment or supplement shall be considered obtained as if such consents were being solicited under this Section, but no actual consent shall be required, and no more than one such disclosure shall be required.

(d) Promptly after an Act of Council amending this Ordinance pursuant to this section has obtained the requisite consent, the Finance Director shall cause the Transfer Agent to notify, by mail at their addresses shown in the Registry, or by publication, Holders of all Outstanding Securities affected by such amendment, of the general terms of the substance of such Act of Council. Filing notice pursuant to the continuing disclosure agreement in respect of such Securities shall constitute sufficient notice for the purposes of this subsection.

Section 24. Severability and Captions.

(a) If any section, paragraph, clause or provision of this Ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any other provision of this Ordinance.

(b) Captions of sections and paragraphs of this Ordinance are furnished for the convenience of reference only and are not part of this Ordinance.

Part III

Section 1. Consent of Bondholders and Junior Lien Bondholders.

(a) The registered owner or beneficial owner of each series of Bonds and Junior Lien Bonds issued after the effective date of this Ordinance by its acceptance thereof expressly consents to the amendments contained in Part II (the "Part II Amendments").

(b) At, but not until, such time as the owners of not less than 51% in principal amount of the Bonds then outstanding and the owners of not less than 51% in principal amount of the Junior Lien Bonds then outstanding (including without limitation each series of Bonds and Junior Lien Bonds issued after the effective date of this Ordinance upon the issuance thereof) shall have consented to the Part II Amendments, Ordinance No. 27-86 shall be amended and restated as herein provided. Promptly thereafter, the City shall cause the Transfer Agent to provide notice setting forth in general terms the substance of the Senior Lien Bondholder and

Second Lien Bondholder Approval Amendments, in accordance with Section 26(B) of Ordinance No. 27-86 as in effect on the date of adoption of this Ordinance.

Health Department

September 11, 2001

Honorable City Council:
 Re: Authorization to transfer Title of City-Owned Vehicle to Southeastern Michigan Health Association.

The Detroit Health Department requests authorization to transfer the title of a City-owned van (vehicle number 1FBJS31L3VHA70372) to the South-

eastern Michigan Health Association (SEMHA). This vehicle was purchased with federal dollars, by the City, for the Healthy Baby Service Program staff to transport clients for the Detroit Healthy Start Project.

A policy change occurred within the City soon after the purchase mandating that only City employees can drive City vehicles. Healthy Baby Service staff are SEMHA employees who are only eligible to drive SEMHA vehicles. Consequently, since the van's delivery, it has not been in service to transport any clients.

May we, therefore, request that your Honorable Body adopt the attached resolution and authorize the transfer of the title to SEMHA.

A Waiver of Reconsideration is requested.

Respectfully submitted,
 JAMES A. BUFORD, M.P.H.
 Public Health Director

Housing Commission

October 10, 2001

Honorable City Council:
 Re: Memorandum of Agreement with the U.S. Department of Housing and Urban Development (HUD) and the Michigan State Historic Preservation Office (SHPO) for the Disposition of Lee Plaza Apartments.

The Detroit Housing Commission (DHC) has been granted conditional approval by HUD for the disposition of the Lee Plaza Apartment Building at 2240 West Grand Boulevard, Detroit, Michigan. The request for disposition is with the contingency that if no acceptable offers are made, the property will be demolished.

Since Lee Plaza is listed in the National Register of Historic Places, disposition or demolition of the building requires the execution of a Memorandum of Agreement (MOA) between HUD and SHPO and concurrence by the City of Detroit. Upon execution of the MOA, the DHC will consult with HUD and SHPO in the preparation of a marketing plan for Lee Plaza that must meet the Stipulations specified in the enclosed MOA. As required by SHPO, DHC will also seek comments on the disposition from organizations interested in historic preservation, including the Detroit Historic Designation Advisory Board.

We, therefore, request that your Honorable Body approve the MOA on behalf of the City of Detroit with a Waiver of Reconsideration.

Respectfully submitted,
JOHN NELSON, JR.

Executive Director

By Council Member Tinsley-Talabi:

Resolved, That in accordance with the foregoing communication, the Detroit Housing Commission Executive Director be and is hereby authorized to execute the Memorandum of Agreement between the U.S. Department of Housing and Urban Development and the Michigan State Historic Preservation Office with the concurrence of the Detroit City Council on behalf of the City of Detroit.

Lee Plaza Disposition/ Demolition Information Overview and Summary

Lee Plaza is located at 2240 W. Grand Boulevard in Detroit, Michigan. The development consists of two residential buildings. The first, a 17-story elevator building was originally constructed in the early 1920's as a grand hotel with magnificent architectural detail. It contains 202 units, consisting of 88 efficiencies, 86 one bedroom units, and 28 two bedroom apartments. The second, a two-story walk-up "motel" building has twelve (12) efficiencies. The Lee Plaza property also contains a surface parking lot behind the elevator building and a large garage located directly behind the walk-up structure. The residential structures are located on .83 acres, while the garage and parking area are located on additional .80 acres. In 1969, the Detroit Housing Department (DHD) purchased the structure and converted it into 214 public housing units for seniors.

Lee Plaza is located in close proximity to Detroit's New Center area, a major commercial center. This area has had significant commercial development and redevelopment with such buildings as the General Motors Headquarters Building, New Center One, the Fisher Building, New Center Commons, Virginia Park Estates, and Henry Ford Hospital. Lee Plaza is also located directed east of Northwestern High School.

Starting in 1992, two separate detailed evaluations of the physical condition of Lee Plaza were conducted. Initially, the 1992 Physical Needs Assessment, focusing mainly on unit, common areas, and building systems, found that major actions needed to rehabilitate the property included: "upgrading of all dwelling units over a four (4) year period; upgrading kitchens and bathrooms, finishes, and floor coverings; reducing the number of efficiency units; and repairs and replacements to roofing, drainage, and other major build-

ing systems." The estimated hard costs for these activities was estimated at \$6.5 million.

In 1995, prompted by the failure of the exterior facade, DHD conducted a separate assessment of the property, specifically dedicated to analyzing the wall conditions. The 1995 Wall Inspection Report stated: "The inspection of the exterior wall veneer was initiated as a result of failing sections of the terra cotta trim and periodic section of brick veneer collapse. The purpose of the inspection was to assist DHD in their determination of restoration feasibility, and concern for tenant safety." The report, performed by Ghafari Associates in cooperation with Boss Construction, developed three (3) separate restoration schemes. The least costly amounted to \$2.5 million with an estimated life expectancy of only five (5) years. The other two (2) schemes, which estimated restoration of Lee Plaza to normal new structural life, came in at costs of \$14.7 million and \$16 million, noting that these estimates were for wall repairs only.

In order to evaluate the potential investment in the property, an appraisal was conducted in 1994 by Peggy Young & Associates. Using a standard three (3) pronged appraisal process that includes a cost approach, sales comparison or market approach, and income approach, the value was determined to be \$995,000.

U.S. Department of Housing and Urban Development (HUD) guidelines limit the investment in any existing development to 90% of the allowable Total Development Costs, as dictated by HUD. These TDC guidelines suggest the maximum that DHD could spend at Lee Plaza is \$13,329,800. Initially, the interior renovation costs alone, were well below this threshold criteria. However, the combination of reasonable interior and exterior renovation costs clearly exceed this allowable cost.

On September 8, 1995, through a Disposition/Demolition Application to HUD, DHD proposed to dispose of Lee Plaza through a public offering, with the contingency that if no acceptable offers are made, that it be demolished. The application for disposition has been conditionally approved by HUD. Because Lee Plaza is a historic resource, the application requires the execution of a Memorandum of Agreement (MOA) with the State Historic Preservation Office (SHPO). The MOA will be completed following the collection of comments from local historic preservation and community groups.

Building Construction & Physical Condition

The high-rise structural system is comprised of a poured concrete frame, beam and column superstructure with brick veneer and structural clay tile backup,

with terra cotta reliefs, entablatures and vertical corner trim. The elevator building and the walk-up are serviced with boilers located in the basement of the high rise, and both need substantial rehabilitation. In addition, the boiler room piping and valves are in deteriorated condition, several pieces of mechanical equipment that have been abandoned need to be removed, and all the asbestos will need to be abated in accordance with the applicable regulations. One (1) passenger and one (1) freight elevator serve the high-rise structure, and both are in need of upgrading and/or replacement.

The structural clay tile units used for brick back-up were very common when the building was initially constructed, but over the years have become brittle which has seriously affected their structural integrity and the ability to retain a facing material. The original design and reinforcing system was comprised of corrugated metal wall ties spaced approximately 18" on center vertically, and at each brick unit horizontally. Continuous 3" x 3" x 1/4" relief angles are also placed 10'-0" on center, at each floor. The terra cotta horizontal trim and entablatures were provided with continuous reinforcing rods tied to the structural clay tile back-up wall and to the concrete superstructure. The wire ties securing the horizontal reinforcing rod to the back-up was looped around the rod and grouted in the cores of the back-up wall.

As a result of weathering, deterioration, and in many instances, missing wall anchors, severely oxidized lintels and relief angles, the wall has virtually lost its restraint capabilities. Additionally, galvanizing of lintels, relief angles, masonry anchors and accessories exposed to the weather was not available when Lee Plaza was built. Consequently, the oxidation and deterioration of these components was greatly accelerated. The wall ties have been rusted so severely that they do not reach the back-up units, and the lintels have buckled and are near collapse. The walls are presently bowed and undulate between floors.

The 1992 Physical Needs Assessment conducted by On-site InSight identified the following scope of work at Lee Plaza:

- **Site** — Rebuild parking areas, improve sitting area, provide for handicapped accessibility;
- **Site Wide Facilities** — Upgrade the garage building for storage use including exterior wall repairs, re-roofing, interior finishes, and mechanical equipment;
- **Building Mechanical and Electrical** — Extensive replacement of water and sanitary lines as well as electrical distribution systems phased with unit rehab, security and the replacement of the elevators;
- **Building Architectural** — Major

repairs to roofing and window replacement on Lee Plaza, roofing the walk-up, repairs to Lee Plaza common areas including main floor ceiling in the ballroom, hallways, lobbies; and

- **Dwelling Units** — Phased upgrades including kitchen and bath rehabilitation, floor cover and finishes.

The costs for renovation and rehabilitation identified in the Physical Needs Assessment were estimated at \$6.5 million, and included only a modest amount for exterior walls.

While conducting the 1995 Wall Inspection, a series of emergency repairs were completed to provide a temporary, safety, "band-aid" solution and it was recognized that unless proper action was taken, the facade, including the terra cotta trim would continue to fail.

The following three (3) schemes for restoration of the facade were proposed by Ghafari Associates, Inc. in cooperation with Boss Construction Company:

1. Extensive repair, replacing brick facing and terra cotta trim to match existing, as required, with a life expectancy of five (5) years — Cost \$2,548,310

2. Complete removal of the existing masonry veneer and terra cotta trim; existing brick and terra cotta will be salvaged where possible; reconstruct the total wall face and trim, providing brick and trim to match existing; all facing and trim will be anchored and reinforced in accordance with current codes and ordinances; life expectancy would equal normal new structure longevity — Cost: \$16,025,000

3. Complete wall restoration as defined in No. 2 except with alternate trim utilizing variable brick coursing, such as soldiers, rowlock and corbeling; life expectancy would equal normal new structure longevity — Cost: \$14,725,000.00

Appraisal Process & Value Determination

In 1994, DHD retained Peggy Young & Associates, a Detroit-based real estate appraisal firm, to determine the value of Lee Plaza. Typically, there are three (3) methods of valuation which are employed to determine the present worth of a property, namely: the Cost Approach, the Sales Comparison or Market Data Approach, and the Income Approach.

The Cost Approach separates the two (2) major physical components of a property, namely: the land, and building improvements. The site is valued as vacant and available to be developed to its highest and best use. The value of the improvements is based on current construction or reproduction costs, less depreciation caused by deterioration and obsolescence. The cost approach is most applicable when the improvements are new and the effective age of the structure

is relatively small. Lee Plaza's age, design and utility prohibited a valid, effective application of this approach.

The Sales Comparison approach arrives at an estimate of value by comparing the subject property to sales of similar property. This approach considers the amounts actually paid for similar properties as negotiated between informed participants, each acting in their own best self-interest, understanding that a prudent person will not pay more for a property than it would cost to buy an equally desirable substitute property.

Finally, the Income Approach focuses on the net income which the subject property can reasonably be expected to generate. The net income projection is then capitalized into an indication of value at a rate commensurate with that found to exist for investments of a similar type and class in the marketplace. The Income Approach is most applicable when the potential property is clearly one which would be held for investment purposes.

The final determination of value by the appraiser typically considers all three (3) approaches, weighing the approach most applicable for any particular property.

Traditionally, the income approach is considered most responsive to the requirements of lenders and investors in the valuation of income-producing property and was therefore significant to the valuation of Lee Plaza. Using rental rates as follows: Studio Apts. @ \$225/month, 1-Bedroom Apts. @ \$290/month, 1-Bedroom, 2 Bath Apts. @ \$325/month, 2-Bedroom Apts. @ \$375/month and an annual vacancy rate of twenty (20%) percent, it was determined the property could generate an Effective Gross Annual Income of \$558,468. considering fixed expenses including taxes and insurance; operating expenses like utilities, management fees, maintenance & repairs, and administration; and reserves including roof, appliance, and carpet replacement; the Total Expenses would equal \$411,150, for a Net Operating Income \$147,318.

With a typical investment structure of 20% return on a 30% equity position, along with 70% financed at 9.5% and a 25-year amortization, the capitalization ("cap") rate is .14. Therefore, the value, using a capitalized net income, equals \$1,052,271 — rounded to \$1,050,000.

In the sales comparison or market data approach, the subject property is compared with similar properties from actual sales. Major points of comparison include: (1) time, (2) location, (3) physical characteristics, and (4) market conditions. Adjustments are made from the comparable property to the subject property, either in whole dollar amounts, percentages, or basic units of comparison.

Recent property sales, including: 8400

W. Vernor, 2350 W. Grand Blvd., 1605 Collingwood, 13725 Dexter, 8627 Heritage Place, and 741 W. Euclid were used as comparables to determine the value of Lee Plaza. Considering all factors including Lee Plaza's location, building size and layout, condition and amenities, the value was determined at \$963,000 using this approach.

Peggy Young & Associates applied the applicable approaches to value, and weighed the sales comparison approach most heavily and determined that Lee Plaza has a value of \$995,000.

Honorable City Council:

Re: Surplus Sale by Development Agreement. Land Disposition: Parcel 151.

On October 18, 2000, your Honorable Body authorized the sale of Parcel 151 to Bottai Construction Management Inc., a Michigan Corporation to purchase and rehabilitate various residential structures for \$54,100.00. The developer proposed to rehabilitate these structures in accordance with city building codes.

Bottai Construction Management now desires to enhance their original proposed rehabilitation project and expand their scope of work to include additional houses that were previously unavailable, due to title issues. In order to expedite this land sale and make this project economically feasible, Bottai Construction Management Inc. has utilized the Planning & Development Department's (P&DD) Land Pricing Procedure to establish a price for the 17 structures in this amended rehabilitation plan.

P&DD's Land Pricing Procedure allows for direct considerations on costs that a purchaser is willing to incur, which would otherwise be borne by the City. Bottai Construction Management Inc. has agreed to take on the costs for the following items:

- Cost of ordering title commitments
- Administrative costs of clearing title issues (including attorney fees associated with this process)
- Upon transfer, immediate removal of all debris and overgrowth on each site
- Upon transfer, of all homes are to be immediately secured from illegal trespass

We, therefore, request that your Honorable Body adopt the attached resolution with a Waiver of Reconsideration authorizing an amendment to the sales resolution with Bottai Construction Management Inc., a Michigan Corporation to reflect a correction of the legal description and to reflect the adjustment of the original sales price of \$54,100.00 to \$6,740.00.

Planning & Development Department
September 12, 2001

Honorable City Council:

Re: Correction of Legal Description. Development: Part of 2931 E. Jefferson.

On August 2, 2001 (Detroit Legal News, Pg. 16), your Honorable Body authorized an exchange agreement and transfer of jurisdiction, wherein the Recreation Department declared 2941 East Jefferson surplus to their needs and transferred jurisdiction to the Planning and Development Department.

The Recreation Department also identified vacant property, a portion of 2931 East Jefferson owned by Thru-Put Services, L.L.C., as suitable for the purpose of a pedestrian walkway from East Jefferson to Larned. Subsequently, pursuant to discussion between these two parties, a proposed exchange agreement has been mutually agreed to.

Under the terms of an exchange agreement, Thru-Put Services, L.L.C. proposes to the development of a one way driveway with angled parking from East Jefferson to East Larned on the City owned property at 2941 East Jefferson with an approximate 40 foot frontage on the north side of East Jefferson.

In exchange, the property owned by Thru-Put Services, L.L.C., a portion of 2931 East Jefferson on the north side of East Jefferson will be transferred to the Recreation Department and shall be developed into a pedestrian walkway from East Jefferson to Larned. Thru-Put Services, L.L.C. shall maintain the site for a period of five years. After five years, this property will revert to the Recreation Department which will be responsible for the maintenance of the site. At that time, the City shall encourage the use of an "adopt a park" program to maintain the project. This transaction constitutes an equitable exchange.

The Elmwood Park Rehabilitation Project Citizen's District Council and the Board of Zoning Appeals approved the transaction on Tuesday, July 25, 2001.

It has come to our attention that the legal description for Part of 2931 East Jefferson was issued in error.

We, therefore request that your Honorable Body adopt the attached resolution with a Waiver of Reconsideration and authorize an amendment to the sales resolution to reflect a correction of the legal description for part of 2931 East Jefferson.

Respectfully submitted,
PAUL A. BERNARD
Director

**RESOLUTION
OPPOSING HOUSE BILL 5157**

By COUNCIL MEMBER S. COCKREL
Joined By ALL COUNCIL MEMBERS:

WHEREAS, The Michigan House of Representatives is considering a bill House Bill 5157 that would, by a majority vote of the electors, allow school districts, cities, villages or townships to separate from a community college district; and

WHEREAS, The bill, if passed, would have a disparate impact on Wayne County Community College District's ability to discharge its mission: "To promote

the educational, cultural and economic development of the community by providing quality education"; and

WHEREAS, Wayne County Community College District, under the stewardship of Chancellor Curtis Ivery, has made marked advancement in recent years, as illustrated by the school's 46.5% increase in enrollment for Fall 2001, its 10-year accreditation from the North Central Association of Colleges and Schools and its much improved performance audit; and

WHEREAS, Wayne County Community College proudly serves 15,000 students at its five campuses and has been a positive influence on the lives of many students who have matriculated at the institution since its inception in 1969; and

WHEREAS, Wayne County Community College Association is a valuable asset to the Greater Detroit region, especially in wake of the state closure of Highland Park Community College in the early 1990's; and

WHEREAS, This bill, which is opposed by such organizations as the Michigan Community College Association and the Detroit Chapter of the NAACP, would destroy the community college system as we know it; and

WHEREAS, This bill is a myopic reaction to the Wayne County Community College District seeking a millage increase in the November 6, 2001 general election; and

WHEREAS, Wayne County Community College's tuition rate is among the lowest of all Michigan community colleges, helping the institution to remain accessible for all citizens in the community. NOW THEREFORE BE IT

COMMUNICATIONS FROM: Mayor's Office

October 18, 2001

Honorable City Council:

The Detroit City Clerk has presented to me your Honorable Body's resolution adopted on October 10, 2001 in response to my veto statement of September 26, 2001 regarding the separation of the Detroit Housing Commission from the City of Detroit municipal corporation. Because I fundamentally disagree with the City Council's characterization of the legal impact of the 1996 Amendments to the Michigan Housing Facilities Act, being MCL 125.651 et. seq. (the "1996

Amendments"), upon the Detroit Housing Commission, pursuant to Section 4-119 of the 1997 Detroit City Charter I must also veto this October 10 resolution. In doing so, I hereby incorporate by reference my prior veto statements on the same subject dated September 26, 2001, October 4, 2001 and October 9, 2001.

I do note, however, that on page 6 of your Honorable Body's resolution you concede the following basic premise:

"The state statute provides that [public housing] commissions shall be public bodies corporate. This provision of state law is sufficient to establish commissions as public bodies corporate, and City Council action is not necessary to affirm this."

This same concession is repeated at the first paragraph on page 7. Given the above acknowledgement, I find it difficult to understand the nature of the City Council's opposition to the ordinance which I presented on July 17, 2001, and the Executive Organization Plan amendment presented the same date which simply recognized the Detroit Housing Commission as a statutory agency similar as a separate legal entity to other public bodies corporate which interact with City government pursuant to the express statutory terms established by the State Legislature for those bodies, such as the Detroit Building Authority (MCLA 128.951 et. seq.) and the Downtown Development Authority (MCLA 125.1651 et. seq.).

While the Council now clearly acknowledges that the Detroit Housing Commission is a public body corporate by operation of state law, you have refused and failed to recognize the legal significance of this concept. The City Council cannot give lip service to the statutory mandate of the 1996 Amendments, yet in the next breath attempt to vitiate the essence of the very meaning of the legal concept of "public body corporate" and the associated powers expressly conferred by the State Legislature. The areas of independent power conferred upon public housing commissions such as the Detroit Housing Commission by the State Legislature are expressly enumerated in the 1996 Amendments. Those same amendments allow a local legislative body to retain certain specific powers, such as approving grants and disposing of property. The powers that the 1996 Amendments allow a local legislative body to retain were not given to the Detroit Housing Commission in the form of ordinance that I presented to you on July 17, 2001. Nevertheless, on September 26, 2001 your Honorable body voted against introduction of that ordinance.

Because your Honorable Body's October 10, 2001 resolution continues to oppose the plain directives of the State

Legislature's 1996 Amendments, I hereby veto the resolution.

Respectfully submitted,
DENNIS W. ARCHER
Mayor

Received and placed on file.

Council Member Mahaffey moved to reconsider the vote by which resolution in response to the Mayor's veto message on the issue of separation of the Housing Commission, was adopted, which motion prevailed as follows:

Nays — None.

Council Member Mahaffey then moved to adopt the aforesaid resolution, not withstanding the veto of the Mayor, which motion prevailed as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood, Mahaffey, Scott, Tinsley-Talabi, and President Hill — 9.

Nays — None.

Finance Department

October 12, 2001

Honorable City Council:

Re: Increase in Service Fees Charged by Payroll Audit

The Finance Department, as part of its Fiscal Year 2001-2002 Budget, proposed an increase in the service fees charged for collecting voluntary payroll deductions and providing duplicate W-2's. The proposed increases would generate an estimated additional revenue of \$84,500.00.

The service fees for voluntary payroll deductions are paid by the organization for which the funds are collected. These organizations include credit unions, insurance companies, legal service firms, and uniform companies. The current rates have not been raised in over five years and are well below the industry average of \$0.50.

The rates would be increased as follows:

Voluntary Payroll Deduction Service Fee —

Old Rate: \$0.15 per transaction
New Rate: \$0.30 per transaction.

During calendar year 2000, Payroll Audit processed approximately 2,500 duplicate W-2 forms requested by employees. While the Internal Revenue Service charges a service fee of \$23 per form, the City of Detroit has no service fee for duplicate W-2's.

The proposed new service fee would be as follows:

Duplicate IRS W-2 Form Service Fee: \$5.00 per form requested

We respectfully request that your Honorable Body adopt the following resolution authorizing the Finance Department to implement the new Payroll Audit service fees effective November 1, 2001.

Respectfully submitted,
J. EDWARD HANNAN
Finance Director

Approved:

Honorable City Council:

Re: Address: 5267 Buckingham. Name: James Igronke. Date ordered removed: October 3, 2001 (J.C.C. p.).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 10, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has entered into an approved Tax Payment Plan to pay the current taxes due as of October 3, 2001.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition ordered be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within three (3) months, at which time

the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
 - Certificate of Approval as a result of a Housing Inspection
 - Certificate of Inspection, required for all residential rental properties
2. You will not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).
3. The yards shall be maintained clear of weeds, junk and debris at all times.
4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Honorable City Council:

This comes to you to request your acceptance of a public work of art from the Michigan Labor Legacy Project, Inc., a non-profit organization created by the Michigan Labor History Society on the occasion of the Detroit tercentennial.

The artwork, titled *Transcending*, is a collaboration by Detroit area sculptors David Barr and Sergio DeGiusti whose joint proposal was judged best in a juried competition that drew more than fifty entries from artists across the country. On April 25, the Detroit Recreation Department identified the south side of Jefferson Avenue, between the entrance to Hart Plaza and the UAW/Ford Training Center Drive, as a site for placement of the art.

Transcending consists of a 59-foot-high stainless-steel arch, open at the top, set in an interpretive walkway with benches and signage. At the base of the arch will be placed 14 natural stone boulders averaging six feet high, each polished on one side, which will hold bronze reliefs depicting the history of labor in Detroit. The artists inform us that the artwork can be completed and placed with the relocation of only one tree.

The acceptance of this gift by your Honorable Body is hereby requested.

The Health Department has been notified by the U.S. Department of Health and Human Services-Substance Abuse and Mental Health Services Administration (SAMHSA) that continuation funding has been awarded in the amount of \$471,881 for the Integrated Model of Addiction Treatment for Substance Abusers Program. This is the second year of a three year grant program and will fund the fiscal period September 30, 2001 through September 29, 2002.

This is an integrated model of care designed to meet the needs of clients in the areas of substance abuse and physical and mental health. The program will provide substance abuse and Medicaid treatment to seventy-eight (78) clients with a co-occurring addictive and severe communicable disease. Re: Transfer of Jurisdiction and Sale of Surplus Property Development Disposition: 3625 Mt. Elliott.

The Recreation Department has declared 3625 Mt. Elliott, the former Martens Recreation Center, surplus to its needs and requests that the Planning and Development Department assume jurisdictional control over the property.

Under the terms of a lease agreement, The Recreation Department has leased 3625 Mt. Elliott to Kabaz Cultural Center Inc. since 1993. Re: Westside Industrial Rehabilitation Project No. 2. Parcels A & B, bounded by Porter, Howard, 14th & Wabash.

On July 24, 2001, a public hearing in connection with the proposed transfer of property in the Westside Industrial Rehabilitation was held before your Honorable Body. All interested persons and organizations were given an opportunity to be heard.

Lutheran Brothers, a Michigan Corporation, proposes to construct a landscaped area, parking lot and truck mar-

shalling area on the referenced City owned property. The subject property is adjacent to the Lutheran Brothers Warehouse. The developer will also construct a service drive from Lafferty Place along the railroad right-of-way northeast of Fourteenth Street.

The Planning and Development Department scheduled a public hearing before your Honorable Body on July 24, 2001 after approval of the sale by the Housing Commission and after being advised that the Westside Industrial Citizen's District Council is no longer in existence to approve the sale.

We were advised by the City Planning Commission that the Westside Industrial Rehabilitation Project is within the boundaries of the Downtown Citizen's District Council (CDC).

The City Planning Commission recommended that your Honorable Body not take action on this land sale until the proposal to purchase and develop was reviewed by the Downtown Citizen's District Council.

On September 20, 2001, the proposal to purchase and develop Parcels A & B in the Westside Industrial Rehabilitation Project No. 2 was presented to and approved by the Downtown Citizen's District Council.

The proposed redeveloper has submitted satisfactory evidence that they possess the necessary financial resources required to develop land in accordance with the Development Plan for the project.

We, therefore, request that your Honorable Body authorize and confirm the sale and authorize the Finance Department Director to execute an Agreement to Purchase and Develop Parcels A & B in the Westside Industrial Rehabilitation Project No. 2 with Lutheran Brothers, a Michigan Corporation, for the amount of \$78,400.00.

Respectfully submitted,
PAUL A. BERNARD

Honorable City Council:

Re: Petition #1464(99); Gary Kulas.

Request for alley vacation in the area of Trumbull, Lincoln, Selden and Alexandrine.

The above-named petitioner has requested that a portion of the alley bounded by Trumbull Avenue, Lincoln Avenue, Selden Avenue and Alexandrine Avenue be vacated and converted into an easement.

The above referenced petition has been filed with the Detroit City Council with the signatures of 100% of the abutting property owners and is in compliance with the Detroit Code, Article VI, Section 50-6-1. Our investigation of this petition disclose the following:

1. The public utilities located in the alley can be properly serviced if this alley is converted into an easement.
2. That the alley does not serve as the sole means of ingress/egress to the abutting properties.
3. No objections to this alley vacation have been received from any utilities or City Departments.

Therefore, it is the recommendation of the Planning and Development Department that this request be granted.

Respectfully submitted,

PAUL A. BERNARD

Director

By Council Member Mahaffey:

Resolved, That the North-South public alley, 18 feet wide, lying Westerly of and abutting the West line of lots 78 through 86, inclusive; also lying Easterly and abutting the East line of lots 87 through 95, inclusive, in the Hodges Bros. Sub of OLS 98-99-102 & 103, as recorded on Liber 1, Page 308, of Wayne County Records, shall be vacated.

Resolved, That the alley, or portion thereof described above is vacated subject to the following permanent conditions:

1. The City reserves an easement for public utility purposes and other public purposes.
2. No buildings, structures or encroachments of any kind (except line fences) may be placed in the easement area without the written consent of the City Engineering Division of the Department of Public Works.

Resolved, That in accordance with MCL Section 560.256 and City Code Section 50-7-4, the City Clerk is directed to record a certified copy of this resolution with the Wayne County Register of Deeds within 30 days of the effective date of this

resolution; and be it further

Resolved, That upon the receipt of a copy of this resolution, the City Engineer shall correct the official City Maps and Records.

A waiver of reconsideration is requested.

Honorable City Council:

Re: Petition No. 3978 — Sterling Rose Properties, L.L.C., requesting for

vacation of alleys and dedication of land for new alley all in the area of Michigan, Bushey, and Greusel.

Petition No. 3978 of "Sterling Rose Properties, L.L.C., et. al., whose address is, 6020 West Maple Road, Suite 503, West Bloomfield, MI. 48322," requests to outright vacate the east-west, public alley, 20 feet wide, and a portion of north-south public alley, 20 feet wide, and the dedication of land for new public alley outlet, 20 feet wide, all in the block

bounded by Michigan Avenue, 120 feet wide, Kulick Avenue, 50 feet wide, Bushey Avenue, 50 feet wide, and Greusel Avenue, 60 feet wide.

The request for outright vacation and dedication was approved by the Solid Waste Division, and Traffic Engineer Division of DPW. The petition was referred to the City Engineering Division — DPW for an investigation (utility review) and report. This is our report:

The petitioner (“Sterling Rose Properties, L.L.C., et. al., whose address is, 6020 West Maple Road, Suite 503, West Bloomfield, MI. 48322,”), must build a new public alley at no expense to the City of Detroit. The petitioner intends to acquire land and set-aside funding to build the new alley. The alley shall be built by private contract within property to be owned or controlled by the petitioner under City Engineering Division — DPW inspection and permits. When the alley is completed to city specifications, the petitioner shall deed the property to the city. City Council is requested to declare the city’s ‘intent’ to accept the executory warranty deed and alley for public purposes; provided said property complies with the requirements of Detroit codes and ordinances, also known as the ‘Environmental Review Guidelines’ and provided the Law Department concludes that the grantor possess the appropriate rights, title, and interest in properties to convey said land to the city for alley and other public purposes. The dedication and construction of the 20 feet wide east-west strip of land for public alley purposes must be completed before the vacations to avoid the creation of a dead-end alley.

The Ameritech Company (AMBT) reports having facilities in the area, which needs to be removed and/or rerouted. The petitioner will be liable to pay AMBT removal/relocation charges. The petitioner has made satisfactory arrangements with AMBT.

The Detroit Edison Company (DeCo) reports an estimated cost of \$25,000.00 for removing and/or rerouting service. The petitioner has made satisfactory arrangements with DeCo.

The Detroit Water and Sewerage Department (DWSD) reports having existing sewers in the alleys, however, in order to approve the outright vacation of the alley(s) the petitioner has agreed to grant DWSD an easement for existing sewers, also the attached conditions must be met.

All other involved city departments and privately owned utility companies have reported no objections to the requested outright vacation or satisfactory arrangements have been made. Provisions protecting utility installations (if necessary) are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
SUNDAY JAIYESIMI

By ALL COUNCIL MEMBERS:

WHEREAS, The City of Detroit is proud to be associated with the Automobile National Heritage Area, which was designated by an Act of Congress on November 6, 1998; and

RESOLUTION

OPPOSING ANTI-TERRORISM BILL

By COUNCIL MEMBER MAHAFFEY,
Joined By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council urges the House of Representatives to reject the conference report on the anti-terrorism bill. This legislation is based on the faulty assumption that safety must come at the expense of civil liberties. We can be safe and fight terrorism without substantially surrendering our civil liberties; and

WHEREAS, HR 2975 would give enormous, unwarranted power to the executive branch unchecked by meaningful judicial review. Most of the new powers could be used against American citizens in counter-terrorism investigations and in routine criminal investigations completely unrelated to terrorism; and

WHEREAS, These new and unchecked powers could be used against American citizens who are not under criminal investigation, immigrants who are here within our borders legally, and also against those whose First Amendment activities are deemed to be threats to national security by the Attorney General; and

WHEREAS, With House offices closed and staff unable to access their papers, the process that brought the conference report to the floor is deeply flawed and an offense to the thoughtful legislative process necessary to protect the Constitution and the Bill of Rights; and

WHEREAS, In past times of tragedy and fear, our government has harassed, investigated and arrested people solely because of their race, religion, national origin, speech or political beliefs. We must not allow that to happen again even as we work together to protect ourselves from

future terrorist attacks. NOW THEREFORE BE IT

RESOLVED, The Detroit City Council opposes HR2975 and urges all of the Michigan delegation in the House and Senate to vote no. This resolution should be forwarded to the Michigan Delegation, the City's lobbyist in Washington, D.C., and the Detroit Branch of the NAACP. We also thank Congresspersons Conyers, Kilpatrick, Bonier and Rivers for their "no" votes on a previous bill.

Honorable City Council:

Re: Purchase of Leased Vehicles by the Detroit Police Department, RFQ. 5476.

This letter is to advise your Honorable Body that a recent solicitation was taken for the purpose of leasing vehicles which will be paid 100% through the Detroit Police Department's Special Operations Imprest Cash Account.

The lease was handled under the procurement requirements as outlined under the Auditor General's report to City Council. The vehicles will be appropriately utilized for police purposes. The Purchasing Division verifies that the lowest responsible bid was selected as outlined under the solicitation.

The approximate number of vehicles being leased on a twenty-four (24) month lease is thirty (30) for a total approximate expenditure of \$235,000.00 per year. The original bid is available for review by the Auditor General. The Management Service Bureau of the Detroit Police Department will maintain the bid. The approval of your Honorable Body is requested.

Please accept correction of letter reported previously September 26, 2001.

Respectfully submitted,

AUDREY P. JACKSON

**General Retirement System
Of The City of Detroit**

October 23, 2001

Honorable City Council:

Re: Defined Benefit/Defined Contribution Plan Ordinance Questions.

During the discussion held on October 12, 2001 questions were asked regarding (1) an estimate of the total amount that would be payable to former members of the General Retirement System who resigned since July 1, 1998 with more than two and less than 10 years of service and (2) the detail regarding the cost to the current Defined Benefit Plan caused by the implementation of the 1998 Defined Contribution Plan.

(1) Enclosed is a communication from Gabriel, Roeder, Smith & Company which estimates the total that could be paid to former members to be between seven and eight million dollars. This amount equates to about 0.3% of the value of the Defined Benefit Plan. The report further estimates that the average transfer amount for former members in this category is \$6,000.

(2) The actuarial report prepared for your Honorable Body by Gabriel, Roeder, Smith & Company dated July 10, 2001 estimated that the implementation of the 1998 Defined Contribution Plan would result in a cost to the current Defined Benefit Plan of 0.2% of payroll. A copy of this report is attached for your review.

Based on the 1999 actuarial report annual payroll of \$417,188,000 a cost of 0.2% equals \$834,376. The General Fund represents approximately 60% of the members of the Retirement System, which equals \$500,625. The remainder of the cost, \$350,438, would be borne by D-DOT, Water and the other revenue funds.

During fiscal year 2000-2001 the total contribution to the Defined Benefit Plan was \$68,100,025 of which \$41,919,113 was funded by the General Fund.

Respectfully submitted,
NICHOLAS DEGEL
Executive Secretary

July 10, 2001

Honorable City Council:

Presented in this report are the results of an actuarial analysis of the potential financial effect on the City of Detroit General Retirement System (DGRS) Defined Benefit Plan of the proposed 1998 Defined Contribution (DC) Plan for future employees and present members of DGRS who elect to transfer to the new program.

The analysis was based upon the same active member and financial data and actuarial methods and assumptions used in the last regular annual actuarial valuation of DGRS as of June 30, 2000, including incorporation of the following benefit provisions, which are contingent upon the adoption of the 1998 DC Plan:

- A pension benefit equal to the Sum of (a) a basic pension of \$12 for each of the first 10 years of service, plus (b) a pension equal to the first 10 years of service multiplied by 1.6% of Average Final Compensation (AFC), plus 1.8% of AFC for each year of service over 10 years up to 20 years, plus 2.0% of AFC for each year of service over 20 years up to 25 years, plus 2.2% of AFC for each year of service over 25 years.

- Maximum annual benefits for disabled members (effective July 1, 1999) to:

- Duty \$9,000
- Non-Duty \$6,000

- Non-Duty-Death before retirement benefits at any age with 15 years of service or at age 60 with 10 years with a 50% Joint and Survivor benefit for those with 15 years, but less than 20 years (benefits for members with 20 years of service and dependent children benefits were not changed).

- Optional use of 25% of accrued sick leave used in calculating a member's AFC effective July 1, 1999.

- 3 year AFC.

The increase in computed employer contributions associated with most of these changes was shown in our reports dated September 8, 1998 and June 29, 1998. (Some of the provisions above differ slightly from the original requests evaluated in those reports.) Please bear in mind that, these studies were based on June 30, 1997 valuation data and assumptions. At that time the total cost of adopting the similar changes was 2.66% of payroll, as follows:

	% of DGRS Payroll
Pension multiplier	1.55%
Maximum disability pension	0.35
Non-duty death-in-service	0.06
Use of sick leave in AFC	0.26
3 year AFC	0.44
Total	2.66%

New economic assumptions have since been adopted by the Board. On effect of the change in assumptions was to partially offset the rate increase related to the new benefits. The net effect of the changes was fully reflected in the last regular annual actuarial valuation as of June 30, 2000.

Data used in this study is summarized below:

	No.	Annual Payroll \$Millions	Average	
			Age	Service
Active				
Eligible to retire	620	\$ 26.2	60.1	28.2
Non-vested	5,753	174.4	38.6	3.8
Others	<u>5,774</u>	<u>216.6</u>	46.6	18.2
Total	12,147	\$417.2	43.5	11.9
Retired since 6/30/98	799	\$ 14.1	57.0	N/A
Terminated vested since 6/30/98	300			
Terminated non-vested since 6/30/98	644			

It is our understanding that the adoption of the DC plan is intended to be implemented without the city incurring significant additional retirement costs; that is, on a relatively cost-neutral basis.

The remainder of this actuarial analysis addresses the following issues with regard to the General Retirement System:

- Potential transfers of pension rights between the DB and DC Plans.
- Effect on retirement system funded status.
- Effect on near-term contribution requirements.
- Observations and conclusions.

Respectfully submitted,

**SUMMARY OF SIGNIFICANT DB/DC
 TRANSFER PROVISIONS**

**TRANSFERS FROM THE DB PLAN
 TO THE DC PLAN**

Present Active Members. Present active members may elect to transfer from the Defined Benefit Plan within 10 years of the DC Plan implementation date. The Board of Trustees will establish annual election periods and adopt procedures.

Future Active Members. Future hires may elect to participate in either the DB or the DC Plan at any time within the first 6 months of employment. If no election is made, the member will become a permanent member of the DB Plan.

Present Retirees Who Retired after 6/30/98. Those who have retired from the DB Plan since 6/30/98, but prior to the implementation date may make a retroactive election to transfer to the DC Plan.

Vested Inactive Members Who Terminated after 6/30/98. Those vested members who have terminated active membership since 6/30/98, but prior to the implementation date may make a retroactive election to transfer to the DC Plan.

Non-Vested Members Who Terminated after 6/30/98. Those non-vested members who have terminated active membership since 6/30/98, but prior to the implementation date may make a retroactive election to transfer from the DC Plan. By so doing, those with 2 or more years of DGRS service will become partially or wholly vested in the DC Plan.

Upon election, an amount equal to the actuarial present value of an individual's credited pension benefit along with the individual's Annuity Savings Fund balance will be transferred from the DB Plan to the DC Plan. Transfer amounts are based upon the individual's accrued service, current average final compensation and the rate of regular interest and mortality tables used in the regular annual DGRS actuarial valuations.

**TRANSFERS FROM THE DC PLAN
 TO THE DB PLAN**

Current active DB Plan members who elect to transfer to the DC Plan have one opportunity to transfer to the DB Plan within 3 years of their initial election. The re-transfer amount is based upon the Actuarial Present Value of Credited Benefits (APVCB) as of the transfer date (including credit for service while in the DC Plan). If the DC Plan balance is greater than the APVCB, the excess is credited to the individual's Annuity Savings Fund account. If the DC Plan balance is less than the APVCB, the shortfall must be paid to the DB Plan within 90 days. After the re-transfer, the

individual would again become subject to the DB Plan vesting schedule.

POTENTIAL SOURCES OF ADDED COSTS

Added costs will be incurred by the DB Plan in the following circumstances:

Future Non-Vested Terminations.

Currently, if DB members terminate with less than 10 years of service, rights to an employer-financed pension are forfeited. Present active members who expect to terminate with less than 10 years of service can transfer the Actuarial Present Value of their Credited Benefit to the DC plan where, if they have 2 or more years of service, their account will be partially or fully vested.

	<u>% of Payroll</u>
Estimated cost of most non-vested members transfer prior to separation	0.2%

Non-Vested Members Terminated Since 6/30/98. Approximately 644 former DGRS members with 2 or more years of service terminated between 6/30/98 and 6/30/2000. This number is expected to grow to well over 1,000 by the date the DC Plan is implemented. Those former DGRS members will benefit by making a retroactive election to transfer to the DC plan. The estimated financial effect is most eligible former members make this election is as follows:

Transfer amount (\$millions)	\$10
% of payroll to amortize over 21 years	0.2%

Future Election Rates. Future plan election patterns are not knowable in advance. Generally, DC plans are most attractive to those entering at a young age and to those expecting to be in the system for a short period of time. As that occurs, the average entry age in the DB plan will gradually rise and turnover rates will gradually fall, resulting in rising normal cost rates. A rough estimate of the long term effect is as follows:

	<u>% of Payroll</u>
Approximate long term increase in DB employer normal cost rate	0.5%

POTENTIAL OFFSETTING SAVINGS Transfers Among Vested DB Members.

Transferring members are treated as if their employment had terminated. The transfer amount (APVCB) is equal to the actuarial present value of the member's deferred pension benefit based on their accrued service and salary history, plus the member's Annuity Savings Fund balance.

This method usually produces a savings to the retirement system when transfers occur more than a few years prior to eligibility for retirement. This is because

the effect of potential future salary increases and likelihood of continued employment (which are both considered in determining ongoing contribution requirements) are no longer considered. As a result, if many present members elect such a transfer, the defined benefit retirement system will realize a savings. If one out of every 5 (20%) of this group transfer to the DC plan the approximate effect would be:

Release of DB Liabilities (\$millions)	\$43
% of payroll to amortize over 21 years	(0.7)%

SUMMARY OF COST EFFECTS

	<u>Estimated % of Payroll</u>
• Future non-vested terminations	0.2%
• Non-vested terminations since 6/30/98	0.2*
• Future DB/DC election rates	0.5
• Transfers among vested DB members	(0.7)
Net Combined Effect	0.2%
• <i>Maximum effect if all eligible retroactive transfers are made.</i>	

OTHER OBSERVATIONS, RECOMMENDATIONS AND CONCLUSIONS

Liquidity Needs. In addition to the areas of costs (savings) previously discussed, there will be increased cash demands on the defined benefit plan — Particularly in the near term as retroactive DC features are implemented. If all DGRS members who terminated since 6/30/98 with 2 or more years of service transfer retroactively to the DC plan, the potential cash demands on the defined benefit plan could exceed \$300 million as follows:

	<u>Approximate \$millions</u>
Retired	\$300
Vested Terminated	25
Non-Vested Terminated	10
	<u>\$335</u>

It is not likely that all, or perhaps even a majority, of the retiree group would make the transfer. Those making the election would presumably do so in order to convert their monthly pension to a lump sum. For planning purposes, it would be reasonable to assume that initial additional liquidity needs would be in the \$200 million area. Over the next 10 years, disbursements could be up to \$100 million more each year than at present.

Additional liquidity needs may add cost if the system's ability to optimize investment return is impaired. Each 1/4% decline in investment return would add approximately 0.6% of payroll to long term plan costs.

RECOMMENDATION

Section 47-3-3(C)(1) of the proposed DC Plan provides that a current DB Plan participant who elects to transfer to the DC Plan will have one opportunity to revoke the election provided the revocation is elected within 3 years of the original transfer. Subsection (2) provides that "the transfer back to the 1973 Defined Benefit/Defined Contribution Plan shall be at no actuarial cost to the System. The System's actuary shall calculate the present value of the participant's credited benefits under the 1973 Defined Benefit/Defined Contribution Plan at the time of the re-transfer...". The "credited benefit" calculation in the second sentence is a termination-of-participation measure that will often not reflect the full cost of re-instatement. As a result, the mandated method is in conflict with the "no actuarial cost" requirement. To resolve this conflict, we recommend that Section 47-7-3 be amended in one of two ways:

- (i) Revise the requirement to allow for a transfer back be at minimal actuarial cost, or
- (ii) Delete the requirement in the second sentence that the calculation be based upon the present value of the participant's credited benefits.

CONCLUSION

There are many uncertainties regarding the potential financial effect of the proposed 1998 Defined Contribution Plan on the existing Defined Benefit Plan as discussed previously in this report. However, with the except of the cost of retroactive plan transfers, it appears that the DC Plan may be implemented with no expected major long term effects on the DB Plan contributions rates.

THE PAYMENTS TO SUCH BENEFICIARY SHALL BEGIN NOT LATER THAN DECEMBER THIRTY-FIRST OF THE CALENDAR YEAR AFTER THE CALENDAR YEAR OF SUCH PARTICIPANT'S DEATH.

(2) IF THE PARTICIPANT'S SURVIVING SPOUSE IS THE DESIGNATED BENEFICIARY, PAYMENTS TO SUCH SPOUSE SHALL BEGIN NOT LATER THAN DECEMBER THIRTY-FIRST OF THE CALENDAR YEAR IN WHICH THE PARTICIPANT WOULD HAVE ATTAINED AGE SEVENTY AND ONE-HALF OR BY THE DATE SPECIFIED IN (1) ABOVE, WHICHEVER IS LATER. (4) FOR PURPOSES OF SUBPARAGRAPHS (1) AND (3) ABOVE, LIFE EXPECTANCY SHALL BE COMPUTED BY USE OF THE RETURN MULTIPLES INCLUDED IN TABLES V AND VI OF SECTION 1.72-9 OF THE FEDERAL INCOME TAX REGULATIONS. FOR PURPOSES OF SUBPARAGRAPHS (1) AND (3) ABOVE, THE LIFE EXPECTANCY OF THE PARTICIPANT'S SPOUSE MAY BE RECALCULATED ANNUALLY. THE LIFE EXPECTANCY OF A BENEFICIARY OTHER THAN THE PARTICIPANT'S SPOUSE MAY NOT BE RECALCULATED.

C. SUBJECT TO APPLICABLE REGULATIONS, FOR PURPOSES OF (A) AND (B) ABOVE, ANY AMOUNT PAID TO A CHILD OF THE PARTICIPANT SHALL BE TREATED AS IF IT HAD BEEN PAID TO THE SURVIVING SPOUSE OF THE PARTICIPANT IF SUCH AMOUNT WILL BECOME PAYABLE TO THE SURVIVING SPOUSE UPON SUCH CHILD REACHING THE AGE OF MAJORITY OR OTHER DESIGNATED EVENT PERMITTED UNDER APPLICABLE TREASURY REGULATIONS.

D. IF, PRIOR TO JANUARY 1, 1984, SUCH PARTICIPANT HAD MADE A VALID, UNREVOKED, WRITTEN DESIGNATION PURSUANT TO SECTION 242(B) OF THE *TAX EQUITY AND FISCAL RESPONSIBILITY ACT OF 1982* AS IN EFFECT PRIOR TO AMENDMENTS MADE BY THE *TAX REFORM ACT OF 1984*, THEN DISTRIBUTIONS TO SUCH PARTICIPANT AND HIS OR

HER BENEFICIARY SHALL BE MADE ACCORDING TO SUCH DESIGNATION.

E. SUBJECT TO SUBPARAGRAPH (D) ABOVE, ALL DISTRIBUTIONS UNDER THE PLAN SHALL BE MADE IN ACCORDANCE WITH SECTION 401(A)(9)¹⁵⁸ OF THE INTERNAL REVENUE CODE AND THE REGULATIONS THEREUNDER, INCLUDING BUT NOT LIMITED TO REGULATIONS SECTION 1.401(A)(9)-2.¹⁵⁹

Planning & Development Department

October 10, 2001

Honorable City Council:

Re: Request for Reprogramming of \$367,000 from Detroit Housing Commission to Planning and Development Department.

During the 2001-2002 budget negotiations, it was recommended that \$367,000 of rehabilitation technical assistance funds be transferred from Planning and Development (P&DD) to the Detroit Housing Commission (DHC) for administration of a Lead Abatement Program. This \$367,000 was originally allocated to P&DD during the 2000-2001 budget year for a program to be jointly administered by P&DD and DHC. Due to differences in the operational systems of the two departments, the Program did not proceed as planned, and it was recommended by the City Planning Commission that the funds be transferred to DHC for its sole administration.

P&DD prepared a reprogramming request, which was approved by your Honorable Body on June 25, 2001, with the understanding that the \$367,000 would be returned to P&DD after the start of the budget year. P&DD is now respectfully requesting that \$367,000 be reprogrammed from DHC to P&DD to be used to fund the technical assistance required for the relocation component of the Minor Home Repair Program.

A Resolution authorizing this action is enclosed for your review and approval.

Respectfully submitted,

City Planning Commission

October 24, 2001

Honorable City Council:
Re: Detroit Institute of Arts renovation and expansion plan, located in a PC (Public Center) zoning district (Recommending Approval).

The City Planning Commission (CPC) has received a request from the Detroit Institute of Arts (DIA) for review and approval of the proposed expansion and renovation of the museum facility. For many years the DIA has acknowledged and has been working to address the various space and use limitations as well as structural, mechanical and cosmetic concerns with the facility. It has prepared and

is proceeding with a master plan to address these matters. The plan includes the construction of a three story (plus basement), 35,000 square foot addition to the rear of the South Wing. This addition will provide the necessary space to stage various interior modifications and other related exterior improvements. Lastly, the North and South Wings will each be appended with a new stair tower and be re-clad with a new stone to match the facade of the original building. Attached please find corresponding drawings and a narrative describing the entire project.

REVIEW AND CONCLUSIONS

The three above-grade levels of the new addition, which is presently under construction, will serve as a storage area for the DIA collections during the subsequent phases of the renovation project. The basement level will house new mechanical systems serving both the addition and the existing facility. Upon the completion of the entire renovation, projected for December of 2005, the addition would house an education center on the first floor, a special exhibition area on the second floor and new galleries on the third floor. Between completion of the initial construction of the addition (April 2002) and re-cladding of the North and South Wings (commencing in mid to late 2003), the addition would be finished with EFIS (panelized insulation with a smooth stucco like finish) painted to complement the original building.

The addition impends slightly upon the John R entrance and drop-off area. As a result, the entrance will be redesigned with an enclosed vestibule connecting the new addition, the South Wing and the theatre. A new, more functional drop-off area will be developed along John R with greater capacity for buses. Other exterior improvements include the rebuilding of the Woodward stairs and the reactivation of the Woodward entrance as the main entry. Window replacement, detailed cleaning of marble wall surfaces and landscape enclosure of the loading area are also included. The rebuilding of the east facade and theater stairs are included in the master plan and may also be part of this project depending upon the budget and other needs.

The interior improvements are intended to provide for better circulation and use of space along with some upgraded interior finishes. New elevators and stairs will be added to improve the vertical movement of people and art objects. A new north/south hallway will be added linking the new stair towers and the two wings through the original building, not only improving way-finding, but also providing exhibition space. New food service and dining facilities would be created, opening up the Kresge Court for exhibits and special events.

The facade enhancements to the North and South Wings are more than simply cosmetic. The inefficiencies in the design and construction of the wall systems have led to accelerated deterioration of the interior wall surfaces and the granite on the exterior. This condition also creates a poor and difficult to maintain environment for the art collection. The only way to remedy this condition is to rebuild the wall enclosure itself. Therefore, the re-cladding will include the new stone, a vapor barrier and insulation in order to provide a sounder structure and better interior environment.

The color of the stone will be white to match the original building. This is a departure from the approach used when the North and South Wings were added in the 1960s. At that time it was felt that the dark gray granite facades would recede and form a backdrop for the original Paul Cret-designed building of 1927. This new approach is a more forward attempt to complement the original architecture through a contemporary expression of the same Italian Renaissance style. Staff believes that this approach will be equally as successful, if not superior, to that of the 1960s. The new facade will make its own statement while honoring the Cret design and the other structures that make up the Cultural Center. In many ways this approach is similar to the City Beautiful movement that inspired the Main Library and the DIA in the 1920s.

RECOMMENDATION

The City Planning Commission finds the proposed expansion and renovations to be both necessary and appropriate for the maintenance and enhancement of the facility, its exhibits and programming. The new aesthetic qualities to be introduced by this proposal will complement the original structure and the other structures that comprise the Cultural Center. Therefore, finding the proposal to be consistent with the spirit and intent of the PC (Public Center District) zoning classification, the Commission recommends approval of this request. Attached please find the required resolution for action by your Honorable Body.

Respectfully submitted,
 ARTHUR SIMONS
 Chairperson
 MARSHA S. BRUHN
 Director

By Council Member Everett:

Whereas, The Detroit Institute of Arts (DIA) has requested review and approval of the design drawings for the expansion and renovation of the DIA; and

Planning & Development Department
 October 2, 2001

Honorable City Council:

Re: Transfer of Jurisdiction and Vacation of Theta Park. Elmwood Park Rehabilitation Project Development: Theta Park, bounded by East Vernor, Prince Hall Drive, Mt. Elliott and Ellery.

On January 10, 2000, your Honorable Body authorized the sale of Parcels 24A and 24B in the Elmwood Park Rehabilitation Project to Butler II Limited Dividend Housing Association Limited Partnership, a Michigan Limited Partnership for the amount of \$35,053.00. Parcels 24A and 24B measure approximately 3.31 acres and are zoned PD (Planned Development). The developer proposes to build the second phase of The Helen O'Dean Butler Apartments a thirty-two (32) garden style apartments with landscaping and off-street parking.

It has come to our attention that the eastern portion of Parcel 24A described as Theta Park is under the jurisdiction of the Recreation Department as public park. The Recreation Department has

declared Theta Park Surplus to its needs and requests that the Planning and Development Department assume jurisdictional control over the property.

Also, in accordance with the Land Division Act, MCL 560.101 et seq. it is required that the City of Detroit may only sell Theta Park to a private developer if a number of steps are performed to satisfy that Act. Detroit City Council must first vacate the dedication of Theta Park as a public park. The Land Division Act also requires that a circuit court action naming all interested parties of record title of each lot or parcel of land located within three hundred (300) feet of the park, and others mandated by the Act, be commenced in order to resolve any objections to vacation of the park. In addition, the Land Division Act requires that a new plat consistent with the circuit court's judgment approving the vacation of the park be prepared, approved and recorded.

We, therefore, request that your Honorable Body approve the attached resolution authorizing the transfer of jurisdiction for Theta Park from the Recreation Department to the Planning and Development Department.

We, also request that your Honorable Body authorize the vacation of Theta Park as a public park, and the City Engineering Division — DPW or a competent surveying or civil engineering firm be authorized to prepare a revised plat in conformity with the vacation of the park. Further, we request that the Law Department be authorized to file a complaint in the Wayne County Circuit Court to amend the plat by vacating Theta Park in compliance with the requirements of the Land Division Act.

An appropriate resolution is attached for consideration by your Honorable Body.

Respectfully submitted,
PAUL A. BERNARD

Planning & Development Department

October 2, 2001

Honorable City Council:

Re: Departmental Recommendation. Residential Alley Vacation Petition #2006. In the area bounded by Regent, Fairmount, Anvil and Eastburn.

The above-referenced petition was presented by the Planning and Development Department (P&DD) for consideration at a Public Hearing before your Honorable Body on September 25, 2001. The P&DD, based upon its investigation of the petition request, initially recommended vacation of the entire "T" shaped alley in the area bounded by Regent, Fairmount, Anvil and Eastburn. Prior to the Public Hearing,

there were no objections received by our department from abutting property owners or public/private utilities and agencies that may be impacted by this request.

Consequently, at the public hearing of September 25, 2001, three (3) residents who lived on Regent Drive appeared to object to the recommended alley vacation action. The City Council requested that we investigate the matter and report back its findings to your Honorable Body.

P&DD conducted a follow-up site visit and talked with Ms. Sondra Parker (address: 20029 Regent) and Helen and Clarence Sidberry (address: 20013 Regent). According to the residents, the neighbor residing at 14186 Fairmount wanted the east-west portion of this alley vacated and intends to use the entire width as a private drive to his garage. The site visit revealed that this resident had already blocked off the alley and was storing vehicles in the alley right-of-way. The resident located at 14186 Fairmount has access to his garage only from this east-west alley. Vacation of the alley would leave the resident with only one half the alley with which to access his garage. When access is an issue, we would typically recommend to leave this portion of the alley open for access. Furthermore, the residents on Regent desire access to this alley and wish to leave it open.

Therefore, we have concluded that petition #2006 to vacate the subject alley shall include only the vacation of that portion of the alley from Anvil Avenue south to the cross of the "T" shaped alley. Because this is a "T" shaped alley, there will be no dead-end alley created by this action. The east-west portion of the alley to the rear of the residents on Regent Drive will be left open to accommodate access needs. This proposed recommendation was communicated to and supported by the residents of Regent Avenue.

The above-referenced petition has been processed in compliance with the Detroit Code, Article VI, Section 50-6-1. Our investigation of each of this petition discloses the following:

1. The public utilities located in the alley can be properly served if this alley is converted into an easement.
2. That the alley does not serve as the sole means of ingress/egress to abutting properties.
3. No objections to this alley vacation have been received from any utilities or City Departments.

The Planning and Development Department has revised the resolution and petition drawing to reflect the changes cited above.

Therefore, it is the recommendation of the Planning and Development Department that the attached resolution be granted.

Respectfully submitted,
PAUL A. BERNARD
Director

By Council Member Scott:

Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

Brownfield Redevelopment Authority
October 30, 2001

Honorable City Council:

Re: Mexicantown Community Development Corporation Project Brownfield Plan.

The enclosed Brownfield Plan for the Mexicantown Community Development Corporation Project (the "Plan"), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory

Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on October 17, 2001 to solicit public comments and was attended by the Committee. After review of public comments, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On October 23, 2001, the Authority adopted a resolution approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. Prior to approval of the Plan by the City Council, the Authority will also notify the taxing jurisdictions about the fiscal and economic implications of the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

The project will include a State of Michigan Welcome Center, the Mexicantown Mercado — a 13,610 square foot small business incubator, a 36,976 square foot Retail/Office Building and a 91,080 square foot public plaza.

Purpose of the Proposed Plan

The proposed Plan is intended to accomplish two purposes. First, upon approval of this Plan by City Council, the developer will be entitled under state law to seek the approval of the Michigan Economic Growth Authority and the State Treasurer for a single business tax credit for up to 10% of its eligible investment in its project. Secondly, the Detroit Brownfield Redevelopment Authority will be authorized to capture tax increment revenues produced from the development of properties subject to this Plan to offset the cost of MCDC for environmental, infrastructure and site preparation work performed on the property subject to the Plan. Total redevelopment costs for the entire eligible property are estimated to be \$12,300,000.00.

Property Subject to the Proposed Plan

The eligible properties consist of 33 adjoining parcels and are generally bounded by the alley north of 1740 20th Street, the alley south of 1550 21st Street, 21st Street on the West and the alley between 20th and 19th Streets on the East.

Projected Costs and Tax Increment Revenues

The proposed Plan anticipates the cost of the eligible activities from which taxes may be captured to be \$2,099,878.00, an estimate of \$315,000 for DBRA administrative reimbursement, no reimbursement of prior expenses and an interest rate of up to 5%. The current estimates are that taxes will be captured through tax levies through 2021, including five years of tax capture for the Local Site Remediation Revolving Fund (LSRRF). The Plan projects that approximately \$1,300,000.00 will be placed into this fund by 2022.

This proposed Plan has been presented to the Planning Department's Concept Plan Review and DBRA received favorable recommendation for its approval. A copy of the recommendation letter dated August 31, 2001 is attached to the Plan.

Public Comments Received

The Committee's communication to the City Council and the Authority, dated October 18, 2001, recommending approval of the Plan, including the minutes of the Public Hearing held by the Authority on October 17, 2001 and the Committee's public meeting of October 18, 2001, are enclosed for City Council's consideration.

At the public hearing, one member of the public provided public testimony in support of the project.
