City Planning Commission

February 12, 2001

Honorable City Council:

Re: Request of Kadesh Missionary Baptist Church to modify the approved plans for the existing PD (Planned Development District) area generally bounded by Plymouth Road, Fielding Avenue, Vaughan Avenue and the easement north of Heyden Court to establish a church in a building formerly used for a grocery store (Recommend Approval with Conditions).

BACKGROUND

In 1981 your Honorable Body approved, upon the recommendation of the City Planning Commission, the request of Forest City Dillon, Inc. to change the zoning in the above-captioned area from B3 (Shopping District), R1 (Single Family Residential District) and P1 (Open Parking District) to a PD zoning district. The PD was to allow the development of Plymouth Square, a residential and commercial complex. The development included a 14 story elderly apartment building, 78 family units (a combination of 2 story flats and townhouses), a 36,700 square foot Farmer Jack grocery store and the rehabilitation of existing commercial buildings that would house a Sears outlet, Woolworth's and drug store.

Currently, the Farmer Jack Store has been closed for over two years and one of the commercial buildings, the former Rite Aid Drug Store on the corner of Plymouth and Vaughan, is also closed. The remaining commercial structures within the PD

District contain a Family Dollar Store and a Value Center Family Store on Plymouth off of Fielding. All of the residential developments currently exist and are occupied.

PROPOSAL

Kadesh Missionary Baptist Church has submitted a request to modify the approved plans for the existing PD (Planned Development District) area generally bounded by Plymouth Road, Fielding Avenue, Vaughan Avenue and the easement north of Heyden Court to include a church use. The current proposal, if approved, would allow the renovation of the former grocery store building into a 1,600-seat church with a fellowship hall, administrative offices, and classrooms. The proposed church would include a 16,000 square foot sanctuary and an 8,000 square foot fellowship hall that would seat 400 people. A kitchen, storage room and janitorial room would be located adjacent to the fellowship hall. The remaining components would include 7 classrooms and 13 administrative offices.

Currently, the facade of the one-story building is comprised of beige brick with brown awnings. The exterior of the structure would remain intact. A new standing seam metal roof and a 40 foot high steeple with a stained glass window would be added to the structure. The glass window would be comprised of Plexiglas. The existing smoked glass windows on the facade would remain and any damaged windows would be replaced. The north wall of the building would also contain a new church sign that would consist of pin mounted metal backlit lettering.

The only vehicular entrance to the proposed church is the one-way driveway off of Plymouth. There are two vehicular exits from the proposed church site — a one-way exit driveway off Plymouth in front of the existing retail building at Fielding and Plymouth, and a driveway adjacent to the vacant drug store off Vaughan. The main parking area located in front of the building would provide 218 spaces. In addition, overflow parking, 181 spaces, would be provided in the lot shared with the existing commercial establishments off Plymouth.

The petitioner proposes to install a monument sign adjacent to the entrance driveway off Plymouth. The sign would include an 8 foot long by 15-inch high base, with a 4 foot high by 10 foot wide Plexiglas sign encased in a metal cabinet.

New sidewalks would be constructed on the east and west sides of the building. The existing landscaping around the east and south sides of the building would remain. The building is equipped with handicapped accessible ramps at the entrance. The existing truckwell on the southwest side of the structure would be filled with pavement and used as a storage area for equipment.

SURROUNDING ZONING AND LAND USES

The zoning classifications and land uses surrounding the proposed development are as follows:

North: B4 (General Business) and R1 — commercial and single family residential

South: R1 — single family residential
East: R1 and B3 — single family residential and commercial

West: B4, R1 and P1 — commercial, single family residential and parking.

PUBLIC HEARING RESULTS

Five people spoke on the matter during the City Planning Commission public hearing held on November 2, 2000. Three people spoke against the proposal and two spoke in favor of the proposal. Four letters were received from residents and community groups, two in support of the proposal and two against the proposal. The letters are included in attachments A-D.

The residents who opposed the proposal voiced the following concerns: the lack of a grocery store within a mile of Plymouth Square; the need for a handicap accessible shuttle bus for transportation for physically challenged residents to grocery facilities; the future use of the vacant Rite Aid drug store, which is being renovated into a church without the proper City approval; potential encroachment of traffic from the proposed church into adjacent residential areas; and the potential for the church members/visitors to park in nearby residential parking lots and streets.

ANALYSIS

Regarding the need for a grocery store in the area, CPC understood that Farmer Jack's lease with the current property owner stated that another grocery store competitor could not occupy the space for the term of the lease, which ends in 2007. In an attempt to verify this information both the property owner and Farmer Jack were contacted and we were informed that the lease is a private document and its contents would not be disclosed to the public. Further, Farmer Jack would neither confirm nor deny the stipulation of a prohibition of a grocery store competitor occupying the building during the term of the lease.

In review of the traffic and parking concerns, site visits found that the traffic for the proposed church and existing commercial developments is directed away from the residential areas. The traffic from the proposed church should not conflict with the residential developments. The site plan separates the residential areas from the commercial, but provides linkages via roadways and sidewalks that connect each component. Also, the site is equipped with signage, which clearly directs traffic to the various developments

and decreases the probability of traffic conflicts.

Moreover, the proposed church site is equipped with over 200 parking spaces and has access to overflow parking located in the adjacent commercial development. Currently, the overflow parking is not used to capacity. The parking lot of the nearby Plymouth Square senior apartments is fully utilized and would be inconvenient and unavailable for church members/visitors. The townhouse development is a significant distance from the proposed church and would not be used for overflow parking.

Regarding the need for handicap accessible transportation to grocery facilities for area seniors, Forest City Residential Management, the owner of Plymouth Square Village, indicated that the Detroit Department of Transportation, SMART, and New Directions were contacted in an attempt to secure transportation services, with no success. The company is in the process of identifying a transportation service alternative and will have a final decision in two weeks.

Furthermore, the Detroit Department of Transportation was contacted to determine if the shuttle bus provided by Borman's to transport senior citizens to grocery facilities must be in compliance with the American Disabilities Act. It was indicated that since it is a grocery store and is not in the business of providing public transportation, it would not have to comply with the ADA. It is a company providing a private courtesy service to its customers.

In regards to the former Rite Aid, it was found that Immanuel Missionary Baptist Church is the owner of the building. The Buildings and Safety and Engineering (BS&E) Department determined that none of the appropriate permits were issued to renovate or change the use of the building. An order was issued by B&SE to either cease and desist in use of the building as a church and to dismantle and remove illegally erected interior partitions and alterations or to submit an application and plans for the proper permits. To date, the property owner has not submitted an application for a modification to the existing PD plans pertaining to that building.

According to the Zoning Ordinance, a loading berth sized 12 feet by 35 feet is required for a church facility of this size. The current site plan indicates the existing truckwell is to be filled with pavement. A new loading area must be provided on the site plan.

The proposed church has limited vehicular access, so "Church Entrance" signs should be installed on the access driveway in order to give drivers better guidance to the parking lot area. Further, the petitioner stated that the parking lot area would be repaved at a later date. The peti-

tioner should be made aware that the restriped parking spaces should be sized 9 feet by 20 feet as required in the Zoning Ordinance.

The existing PD District is located within the Cody Subsector of the Master Plan of Policies. The existing and proposed land uses for the area are RM (Medium Density Residential), CC (Comparison Commercial) and GC (General Commercial) along Plymouth Road. The Planning and Development Department has determined that the proposal is consistent with the Master Plan of Policies.

CONCLUSION AND RECOMMENDATION

In consideration of the development proposal, the City Planning Commission believes that a modification to the existing PD zoning classification is appropriate for this site. The petitioner has worked in cooperation with the Commission and area community organizations and residents to address concerns and issues that were raised.

The City Planning Commission, therefore, recommends approval of the proposed modification to the PD plans for the above-captioned area with the following conditions:

1. that the site plan be revised to show the following:
 - a. inclusion of a loading berth sized 12 feet by 35 feet on the west of the building; and
 - b. the installation of "Church Entrance" signs on the access driveways to the parking lot;
2. that at the time the parking lot is repaved and striped the parking spaces be sized 9 feet by 20 feet;
3. that the final site plans, landscaping plans, signage plans, parking lot repaving plans and elevations be submitted to the City Planning Commission staff for review and approval prior to the time of the application for applicable permits.

Re: Amendment to Sales Resolution and Correction of Legal Description. Development Disposition: 14927-43 Wyoming & 14855-14889 Wyoming.

On July 13, 1992 (J.C.C. July 15, 1992, Pg. 1602), your Honorable Body authorized the sale of property located at 14927 Wyoming to Clarence Carson and Ida Carson, his wife, for the amount of \$9,500.00. The property was a one story commercial structure in need or rehabilitation and is zoned B-4 (General Business District). The proposed use was a garage facility. The building has been rehabilitated and is now in use. This use is permitted as a matter of right in a B-4 zone.

It has come to our attention that the adjacent Lots at 14855-14889 Wyoming should have been included in the sale of 14927 Wyoming.

We, therefore request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution to reflect a correction of the legal description to include the adjacent lots located at 14855-14889 Wyoming and also that Your Honorable Body authorize the Planning and Development Department Director to issue a Quit Claim Deed for 14927 Wyoming and 14855-14889 Wyoming for the amount of \$9,500.00 to Clarence Carson and Ida Carson, his wife.

The resolution approves the conversion of west side curb lane on Poe Street between Pallister and W. Grand Blvd. as residential parking permit area.

Honorable City Council:

Re: Detroit Police Department Lease for 8551 Greenfield, Detroit, Michigan.

The Detroit Metropolitan Police Academy was located at 2310 Park. On December 6, 2000, a steam pipe burst on the fourth floor which resulted in the accumulation of approximately 400 gallons of water. The accumulation of this volume of water caused extensive damage to the fourth floor audiovisual lab and several floors below. On December 22, 2000, the Detroit Metropolitan Police Academy was relocated to Wayne County Community College Northwest Campus, 8551 Greenfield, under the emergency procurement provisions of the ordinance.

Attached for the consideration of your Honorable Body, is the lease for the above captioned property. The lease is for thirty thousand (30,000) square feet of classroom, office, audiovisual and other space, which will be leased by Wayne County Community College.

This lease will have a five (5) year term with annual payments of \$84,246 the first year and \$189,552.88 the next four years. The lease will commence December 15, 2000. The lease will be all-inclusive and payments will cover all building expenses such as utilities, maintenance, operating costs and taxes (to be paid by the landlord). The agreement also includes the use of the gymnasium, cafeteria, locker room, auditorium, library, conference

room and atrium lounge. Additionally, the Police Department has requested that additional office space be constructed by the landlord to accommodate our requirements.

I am requesting that your Honorable Body approve the attached resolution.

Respectfully submitted,
BENNY N. NAPOLEON, J.D.

Honorable City Council:

Re: Kadesh Missionary Baptist Church — Discussion/Public Hearing.

On February 14, 2001, City Council introduced an ordinance to modify approved plans of an existing Planned Development zoning district for property bounded by Plymouth Rd., Vaughan Avenue, Fielding Avenue and the easement north of Heyden Court, for Kadesh Missionary Baptist Church. City Council adopted a resolution setting a hearing date for March 27, 2001. The discussion was scheduled for March 13.

Because a public hearing at the end of March would create a problem for the petitioner, City Planning Commission staff is requesting to change the dates for the discussion and public hearing as follows:

Thursday, March 1, 2001, 10:00 A.M.

— Discussion.

Tuesday, March 13, 2001, 11:15 A.M.

— Public Hearing.

If City Council is in concurrence with these changes, it would be necessary to adopt a resolution to effectuate a change in the date of the public hearing. Attached is a resolution for your consideration.

Respectfully submitted,

MARSHA S. BRUHN
Director

By Council Member Everett:

Resolved, That, in accordance with the foregoing communication, the City Council public hearing originally scheduled for March 27, 2001 has been rescheduled to Tuesday, March 13, 2001 at 11:15 A.M. to consider an ordinance to amend Chapter 61, by amending Article XV, to modify the approved plans of an existing PD (Planned Development District) zoning classification currently shown for property generally bounded by Plymouth Road, Vaughan Avenue, Fielding Avenue and the easement north of Heyden Court; and

Be It Further Resolved, That the City

Clerk is requested to provide notice of this change in the same manner as was done for the original hearing date.

Your Honorable Body held a public hearing on this matter on January 19, 2001. The date of the public notice of the public hearing was December 21, 2000.

By Council Member S. Cockrel:

Whereas, Michigan Public Act 147 of 1992, the Neighborhood Enterprise Zone Act, provides for the establishment of Neighborhood Enterprise Zones, exemption from ad valorem taxes and the imposition of specific property tax in lieu of ad valorem real property taxes within desig-

nated Neighborhood Enterprise Zones; and

Whereas, The City of Detroit meets all the distress criteria set out within the Act; and

Whereas, The Detroit City Council desires to take advantage of the Neighborhood Enterprise Zone Act; and

Whereas, The Detroit City Council finds that designation of certain areas as Neighborhood Enterprise Zones is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay of others; and

Whereas, The Detroit City Council has found the proposed Neighborhood Enterprise Zone consistent with the Detroit Master Plan of Policies and the neighborhood preservation and economic development goals of Detroit; and

Whereas, The Detroit City Council has adopted a statement of City's goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed Neighborhood Enterprise Zones; and

Whereas, The Detroit City Council has passed a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which a neighborhood enterprise zone certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Neighborhood Enterprise Zone Act requires that designation of Neighborhood Enterprise Zones must be approved by a resolution adopted by the local government unit; Now Therefore Be It

Resolved, That the following land area as specified in the legal description attached herewith, is hereby approved as a Neighborhood Enterprise Zone for new and rehabilitated facilities as defined within the Neighborhood Enterprise Zone Act and in accordance with the 10% acreage allowance provided under Sec. 3(1) and Sec. 3(5).

Re: Petition No. 2678 — U.S. Ice Corp., et al, for conversion of alley to easement in the area of W. Eight Mile Rd., Monte Vista and Pinehurst.

Petition No. 2678 of "U.S. Ice Corporation, et al," at 10625 W. Eight Mile Road, requesting conversion of the east-west public alley, 20 feet wide, in the block bounded by Monte Vista Avenue, 60 feet wide, Pinehurst Avenue, 60 feet wide, Norfolk Avenue, 50 feet wide, and West Eight Mile Road, 204 feet wide, into a private easement for public utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports there are existing sewers in the area bounded by W. Eight Mile Rd., Monte Vista, Pinehurst and Norfolk Avenue(s). However, DWSD has no objection to the requested conversion to easement provided that an ease-

ment of the full width of the alley is reserved.

Detroit Edison Company (DeCo) reports it has customers in the requested area being served via overhead facilities. DeCo has no objections provided 24-hour ingress and egress.

All other city departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Honorable City Council:
 Re: Petition No. 1321 — Voices of Infants and Toddlers Day Care, requesting to use public property adjacent to 14690-14696 Grandmont as a playground site for children at the center.
 Petition No. 1321 of the "Voices of Infants and Toddlers Day Care" at 14690-14696 Grandmont St., Detroit, Michigan 48227, request to encroach into Grandmont Street, 100 feet wide, south of Grand River Avenue, in order to construct a playground.

The requested encroachment will require the modifications of existing public sidewalk to install four 2' x 8' brick piers with 2' x 2' x 3'6" reinforced footings supporting 8'0" wrought iron fencing with verticals 3" on center, to enclose a area approximately 62'0" x 18'0", (as shown on drawing No. 801 titled "Child Care Play Center" by Floyd Snyder — Architect), all within the easterly right-of-way of Grandmont Street south of Grand River, in order to meet the requirements of the State of Michigan, Division of Child Day Care Licensing.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

In a letter dated October 27, 1999, signed by Ossian Williams, the Grandmont Community Association, P.O. Box 27790, Detroit, Michigan 48227 supports the Voices of Infants and Toddlers

Day Care request to install a play area within the berm area of Grandmont and Grand River.

The Traffic Engineering Division — DPW reports no objections with the requested encroachments provided that all the dimensions and details marked on the drawing supplied (drawing No. 801 titled "Child Care Play Center" by Floyd Snyder — Architect) are complied with, 100% signatures of the abutting property owners' are secured, the sidewalk is constructed in accordance with City of Detroit standards and approved by the City Engineering Division — DPW and the petitioner shall be responsible to return the public right-of-way to it's original condition after the expiration of the encroachment at no cost to the city.

The Public Lighting Department requires a minimum horizontal clearance of 3-feet 6-inches and a vertical clearance of 1'0" must be maintained from their facilities.

The Detroit Water and Sewerage Department (DWSD) has no objection to the proposed use of the berm provided that DWSD forces shall have free and easy access to the water main and sewer facilities (in Grandville and the east-west alley south of Grand River) at all times to permit proper operation, maintenance and if required, alteration, repair or replacement of water main and sewer facilities. Free and easy access shall mean that no structures or storage of materials is allowed upon the berm area to hinder the movement of maintenance equipment.

All other involved City departments and privately owned utility companies have reported no objections to the encroachments or that satisfactory arrangements have been made. Where appropriate, provisions protecting utility installations are part of the resolution.

Respectfully submitted,

Also, the petitioner shall be required by the Law Department in conjunction with the Finance Department — Risk Management Division to present proof of financial capability (bonds and insurance; the City of Detroit shall be named as coinsured therein) to pay all claims, damages or expenses that may arise as a result of the installation, maintenance or use of encroachments within public street rights-of-way. To protect the city in the event of petitioner default, a surety bond in a penal sum sufficient to pay the City of Detroit's cost to remove or alter the encroachment (if such removal or alteration becomes necessary) shall be maintained by the "Voices of Infants and Toddlers Day Care". Also, the "Voices of Infants and Toddlers Day Care" shall maintain said surety bond in perpetuity. The petitioner shall be unable to obtain a release from said surety bond as long as the encroachment exists within said public rights-of-way. The City Engineering Division — Street Design Bureau in conjunction with the Traffic Engineering Division — DPW shall be responsible for determining the amount of said surety bond, and then to transmit the information to the Finance Department; and further

Provided, The property owned by the Voices of Infants and Toddlers Day Care and the encroachments shall be subject

to proper zoning or regulated use (Board of Zoning Appeals Grant); and further

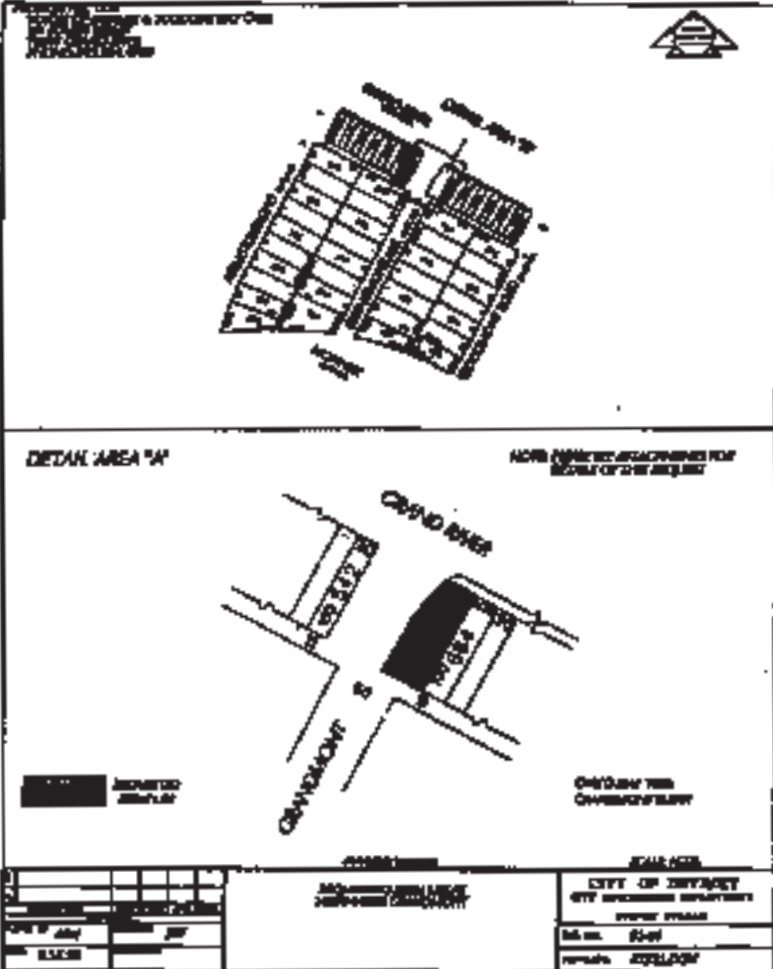

Provided, That no other rights in the public streets, alleys or other public place shall be considered waived by this permission which is granted expressly on the condition that said encroachments shall be removed at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to the City Engineering Division — DPW; and further

Provided, The placement and maintenance of play area encroachments in public right-of-way shall be construed as acceptance by "Voices of Infants and Toddlers Day Care". Notwithstanding the fact that the filing of the indemnity agreement and the securing of the necessary Permit(s) referred to above in this resolution are stipulations of this encroachment (permission) grant; and further

Provided, This resolution is revocable at the will, whim or caprice of the City Council, and the Voices of Infants and Toddlers Day Care acquires no implied or other privileges hereunder not expressly stated herein; and further

Provided, That the encroachment permit shall not be assigned or transferred without the written approval of the City Council; and further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

January 25, 2001

Honorable City Council:

Re: Petition No. 2659 — Pecar's WOW Communications, requesting to temporarily close the public alley in the area of Morang Avenue, Somerset and Nottingham.

Petition No. 2659 of "Pecar's WOW Communications", is requesting the Temporary Closing of the east-west public alley, 20 feet wide, in the block bounded by Morang Avenue, 106 feet wide, Britain Street, 60 feet wide, Nottingham Road, 60

feet wide, and Somerset Road, 60 feet wide, for a period of five (5) years.

The request was approved by the Planning and Development Department and the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW with certain restrictions.

The Traffic Engineering Division — DPW (TED) also requires that the petitioner contact the Operations Section of TED for deploying proper signage and barricades prior to actual closure.

The Detroit Water and Sewerage Department Ameritech/Michigan Bell Telephone Company, Comcast Cablevision, Detroit Edison Company and the Fire Department (all) will require unimpeded access to service the public and/or their existing facilities. Any fence and gate installation must provide 13 feet horizontal and 15 feet vertical clearance(s) for utility maintenance vehicles.

All other City departments and privately owned utility companies have reported no objections to the proposal, provided they have the right to ingress and egress at all times to their facilities.

An appropriate resolution, containing the necessary conditions, is attached for consideration by your Honorable Body.

Respectfully submitted,

SUNDAY JAIYESIMI,

The City has made a considerable investment in developing and expanding its geographic information systems. The city has a wide variety of electronic maps and associated data, which are now used by internal agencies and requested by citizens, developers, and many others. The County of Wayne has recently embarked upon their own effort to create a Regional GIS, with electronic tax parcel maps of the entire County. With Detroit representing approximately 50% of the County, it seems good that there be some mechanism put in place whereby the County will not have to expend resources or time replicating work the city has already done. Conversely, there will be additional work the County will do, that the City of Detroit can benefit from. There, it is recommended that the City of Detroit and the County of Wayne enter into a reciprocal data sharing agreement, that allows each of these governing bodies to share GIS information without cost. City Planning Commission

January 16, 2001

Honorable City Council:

Re: Request of the Graitmark/Walker Development Company to rezone property generally bounded by E. Jefferson, Edlie, St. Jean and Montclair from B4 (General Business District) and R2 (Two-Family Residential District) to PD (Planned Development District) to allow a

neighborhood shopping center (Recommend Approval with Conditions).

The Graitmark/Walker Development Company proposes to rezone a 13.79 acre site to PD (Planned Development District) to allow for the development of a 128,174 square foot neighborhood shopping center, anchored by a 69,870 square foot Farmer Jack grocery store with one outlot for a family-style restaurant. The subject property is generally bounded by E. Jefferson on the north, Edlie on the south, St. Jean on the east and Montclair on the west. The location of the proposed rezoning is shown as the shaded area on the attached map. The site is currently owned by private parties, the State and the City. The property is located in B4 (General Business) and R2 (Two-Family Residential) zoning districts.

Proposed Development

The petitioner proposes to build six one-story commercial structures (35 feet in height) that would contain a combination of retail and restaurant uses. The proposed Farmer Jack grocery store may also house a 10,000 square foot general merchandise area as well as groceries. Buildings identified as Retail E, D and the building housing the proposed restaurant would be free standing while Retail A and C would be attached to the Farmer Jack grocery store. Farmer Jack would anchor the development in what has been identified on the site plan as Retail B. The gross square footage for the structures is as follows:

- Retail A 11,507 s.f.
- Retail B 69,870 s.f.
- Retail C 16,822 s.f.
- Retail D 13,225 s.f.
- Retail E 10,500 s.f.
- Restaurant 6,300 s.f.

Buildings identified as Retail A, C, D and E would be divided into smaller retail spaces with separate entrances. The petitioner may not finalize the leasing of retail spaces until the construction phase. As such, the proposed site plan provides for flexibility in the design of loading and parking areas in the event more restaurant uses are attracted to the development.

The building elevations would incorporate wall plane projections and recesses along the facades. Each building would have highly visible entrances and display windows where applicable. Building setback and height variations offer a pleasing architectural fabric and emphasize an urban form departing from a typical suburban shopping center design. The developer proposes to use split face cement masonry and insulated glass as the primary exterior building materials.

The petitioner also proposes a pedestrian node near buildings identified as Retail E and D within a proposed easement. The node would be characterized

by textured or colored paving materials, benches, a garden court, and a clock tower and would be linked to a new bus shelter to the north on Jefferson and to a pedestrian path extending southward. The southward extension of the pathway is to allow for convenient access to and from the proposed 410 new single family home development called Jefferson Village (formerly known as Graimark). The proposed commercial development was planned to complement and help serve the residential development.

The project would also require several street and alley vacations and the sale of City-owned land. The vacations would leave the site served by Lillibridge as its primary access and St. Jean providing access from the east.

A 35-foot identification sign is to be erected at the southeast corner of Lillibridge and Jefferson. There is no information at the time of this writing as to the proposed area of the sign.

The site currently contains several vacant commercial properties along Jefferson, seven vacant, open and dangerous residential structures, three structurally sound single-family buildings and one structurally sound two-family building.

Master Plan, Zoning and Land Use

The project area is located within the East Riverside subsector of the Master Plan. The subject area is designated as GC — General Commercial and RL — Low Density Residential. An amendment to the Master Plan is needed to extend the depth of the commercial frontage along Jefferson. The future land use designation of RL for the portion of the subject property that is currently residential would have to be amended to GC to allow for commercial development within the proposed PD zoning district. The Planning and Development Department has indicated that the resolution to amend the Master Plan will be forthcoming.

The surround zoning districts and land uses include:

North: B4 (General Business); Motor City Yacht Club, vacant commercial buildings, parking, a veterinarian clinic and a former hotel use

South: R2 (Two-Family Residential); vacant land and some single family residential

East: M3 (General Industrial); vacant land

West: B4 and R2; vacant commercial property and residential structures

Results of Public Hearing

At the August 3, 2000 City Planning Commission public hearing, questions were raised with regard to the status of environmental cleanups within the project area. There was concern regarding the impact of the adjacent Hackett Brass foundry on the surrounding environment. There was a question as to whether the

land is environmentally safe to support commercial and residential development. A representative of the developer of the site noted the results of testing in Phases I and II and noted that there were no environmental problems on residential portions of the land.

Upon questioning, the developer's representative responded that there are only two occupied houses in the proposed commercial area. The developers now own 90% of the site.

A property owner of buildings at 11000 and 11006 E. Jefferson at Fairview inquired as to how the project would impact his business. He noted that the project would result in the loss of public parking on E. Jefferson and Fairview. He indicated his buildings were used for warehouse purposes. The developer's representative stated that there is the opportunity for negotiating a cross easement agreement, or a land sale.

Analysis of Issues

Hackett Brass Foundry. The small Hackett Brass foundry exists at the northeast corner of Lillibridge and Edlie. This industrial use is non-conforming and thus would be discouraged from expanding. The foundry, however, employs 35 people and currently does not have any dedicated parking for its employees. Many of those who drive to work must park on Lillibridge and thus would present future problems for the new homeowners within Jefferson Village who would also need on-street visitor parking.

The petitioner has agreed to provide Hackett Brass with enough space to accommodate the access and loading of large trucks. The petitioner has agreed to providing a 40 foot wide area to the north of Hackett Brass as well as an additional 25 feet immediately east of the building. The land to the east would include the soon-to-be-vacated 15-foot alley plus an additional 10 feet. With appropriate turning radii for large trucks, vehicles should be able to service the foundry with minimum disruption to Lillibridge.

Access. Patrons and delivery trucks would enter the site from E. Jefferson (on the western edge of the site and off of Lillibridge), from two points off of Lillibridge and from three points on St. Jean. There are signalized intersections along E. Jefferson and Lillibridge and St. Jean. If the majority of traffic generated by the development is eastbound (for those persons wanting to shop as they commute out of the downtown area and are on their way home), the number of left turning movements off of Jefferson should be minimal.

Properties at 11000 and 11006 E. Jefferson. The developer proposes to develop around the existing buildings located at 11000 and 11006 E. Jefferson at Fairview because the property has not

been acquired. In the event the buildings stay as part of the PD district, accommodations would have to be made to provide parking access for the buildings. As such, there are two concepts submitted for this PD District:

1. A site plan showing an open Fairview Street and east-west alley south Jefferson between Fairview and Lillibridge, and

2. A site plan showing the proposed development in the event Fairview and the alley are closed.

The City Planning Commission was concerned about the compatibility of future uses at 11000 and 11006 E. Jefferson at Fairview with those uses proposed within the shopping center. In the event that 11000 and 11006 E. Jefferson are not acquired by the petitioner, the CPC desires to see the entire proposed PD district redeveloped in harmony. Given the fact that the PDD has established use restrictions for the proposed shopping center, the CPC felt that it would be important to assign those same restrictions to properties at 11000 and 11006 E. Jefferson. These restrictions would be consistent with the development agreement for the sale of the property to Graimark/Walker.

At the September 7, 2000 regular meeting of the CPC, however, the owner of the property at 11000 and 11006 E. Jefferson complained about the use restrictions and was concerned about having enough time to assess the impact of the recommendations on his property.

The Commission felt that the use restrictions would be appropriate for the PD district in that they help to insure a more orderly development of the land. The restrictions should be added in order to provide for a mixture of land uses allowing the best possible living and working environment while safeguarding the use and development of the surrounding area. The CPC believes that the application of use restriction is consistent with general zoning practice and is a valid exercise of delegated police power. Essentially, the restrictions placed on the property should have an effect of enhancing its overall value.

Parking. Approximately 663-674 parking spaces are proposed within the site. The proposed parking lot design would accommodate interior landscaping which would serve to break up the expanse of pavement. In the event the petitioner secures several restaurant uses, parking could become an issue. It is possible for the petitioner to utilize the paved area behind Retail D and E that is proposed for loading, if additional parking is needed. Depending on the tenants secured for Retail E, 11 additional spaces could be provided in the loading area. In addition, another 48 spaces could and may be pro-

vided in the space that is now occupied by the commercial buildings located at 11000 and 11006 E. Jefferson, if this property is eventually acquired by the developer.

RECOMMENDATION

The City Planning Commission gave lengthy consideration to the various issues raised by the development, and on November 16, 2000 recommended approval of the rezoning of the site to Planned Development with the following conditions:

1. That no fencing on the subject property be placed around the existing veterinarian clinic at St. Jean and Jefferson.

2. That the southern end of the proposed pedestrian connector between sites Retail E and Retail D in the center commercial parcel be reconfigured to line up with the existing 20 foot sewer easement.

3. That the west elevation of Retail C be further articulated to provide for pleasing and compatible architectural detail, with the facade having recesses, coloration and surface indentations or other items of articulation to reduce the massive scale and provide for visual interest.

4. That Phase III of the proposal (the west commercial parcel) be designated for commercial use and shall be appropriately landscaped until such time as a detailed development proposal, site plans, elevations, and revised landscaping plans for Phase III are presented and approved.

5. That the following uses are prohibited:

a. Non-retail, non-office, or non-services uses (*i.e.*, uses not permitted in the B1, B2, B3, B4, B5, or B6 zoning districts), except as may be incidental to a permitted retail, office, and/or services use;

b. Any dumping, disposing, incineration or reduction of garbage (excluding, however, appropriately screened dumpsters or trash compactors located in the rear of any building);

c. Any central laundry or dry cleaning plant or coin operated laundromat (provided, however, that this prohibition shall not be applicable to on-site service provided solely for pick up and delivery by a retail customer, including nominal supporting facilities);

d. Veterinary hospital or animal raising facilities (provided, however, that this prohibition shall not prohibit pet shops and/or pet food stores which have incidental veterinary services and/or the sale of live pets as a part of their business);

e. Theater, movie house or cinema;

f. Bowling alley, skating rink, pool or billiards hall;

g. Game room, video or pinball, arcade or amusement activity;

h. Sports or entertainment facility;

i. Gun or archery range;

j. Dancing establishment;

- k. Nightclub or discotheque;
- l. Bar, saloon, tavern or other drinking establishment;
- m. Auditorium, meeting hall, banquet facility or other place of public assembly;
- n. Bingo parlor, off-track betting facility, gambling casino or gaming hall (except games of chance conducted and/or sponsored by the State of Michigan or any subdivision thereof as an incidental part of any permitted business being conducted on the property);
- o. Crematory, funeral parlor or mortuary;
- p. Schools (but the occasional, temporary, incidental use of space within a permitted retail business for instructional purposes is not prohibited by this restriction);
- q. Motor vehicle sales or service establishment;
- r. Pawn Shops, flea markets, second-hand or surplus stores (but a store selling antiques, sporting goods, or estate jewelry in a "first-class" manner shall be permitted);
- s. Inventory liquidations, "fire" sales, "going out of business" sales, bankruptcy sales or auction house operations (unless pursuant to a court order);
- t. Any establishment selling or offering for sale as a significant or principal part of its business any erotic, salacious or sexually oriented material or service of any sort, including but not limited to adult cabarets, adult drive-in motion picture theaters, adult personal service establishments, adult supply stores, and adult theaters, as those terms are defined in Section 32.0007 of the Official Zoning Ordinance;
- u. Massage parlors, tattoo parlors, or piercing parlors;
- v. Head shops;
- w. Wig shops;
- x. More than one (1) nail salon;
- y. Car wash;
- 6. Any use which emits odors, fumes, dust, vapors, noises or sounds outside the premises in which they are created (excluding, however, normal venting of a food service operation).
- 7. That the streets and alleys within the subject area be vacated consistent with the development proposal and the site plan approved in this ordinance prior to issuance of applicable required permits.
- 8. That, prior to issuance of applicable required permits, a final site plan, landscaping plan, and elevations be submitted to City Planning Commission Staff for pre-view and approval for consistency with the development proposal, site plan and elevation plan approved in this ordinance.

VOSS Lantz Corporation has made substantial progress toward completion of the investment contemplated when the Corporation received approval of the above referenced Industrial Facilities Exemption Certificate (IFEC) by the Detroit City Council and the Michigan State Tax Commission. The Corporation has invested \$2,660,679 of the \$7,000,000 to which the Corporation is committed in the written agreement.

VOSS Lantz needs time, beyond the normal two-year "construction period", for two reasons: 1) unanticipated deficiencies in the equipment to be installed required further engineering, and 2) strong customer demand required the earmarking of \$2,500,000 for a steel storage facility, drawing funds away from the investment contemplated under the above referenced IFEC.

The above referenced IFEC is associated with the retention of 97 jobs. VOSS Lantz believes it can complete its investment during the current year.

A resolution giving City approval of the Corporation's request, reviewed by the Law Department, is attached for your consideration.

Re: Request by DaimlerChrysler for an Extension of Time for Completion of Project Which is the Subject of Industrial Facilities Exemption Certificate 98-670, in Accordance with State Tax Commission Administrative Rule #53(1)(b).

We recommend approval of the above referenced request.

In the equipping of the New Mack II Engine Plant for production, Daimler-Chrysler has encountered unforeseen delays. Difficulties in installation of the equipment, and in "proving out" and testing the new assembly line, have resulted in DaimlerChrysler being unable to complete its project within the normal two-year "construction period".

The subject Industrial Facilities Exemption Certificate is associated with the investment of \$474,500,000 and the retention of 600 jobs.

A resolution approved by the Law Department is attached for your consideration.

Re: Authorization to Use Commercial Proceeds from Shops at Jefferson Village Land Sale; and Neighborhood Development Corporation Project No. 1 Commercial

On March 20, 1998, the Detroit City Council approved the Neighborhood Development Corporation Project #1 Project Plan. In the Project Plan no further funds were to be spent on the project without your Honorable Body's approval. There will be proceeds from the sale of land on the commercial project, Shops at Jefferson Village. These funds will not be available for some time and there is an immediate shortfall in the project budget. In accompanying resolutions, bond funds and interest on project funds are requested to deal with insufficient funds within the project. To replenish these expenditures the land sale proceeds have been identified to remunerate their use on the project.

It is the request of the Planning and Development Department that your Honorable Body authorize the use of proceeds from the commercial land sale to be made available to the Planning and Development Department for use on Commercial Sites.

On March 20, 1998, the Detroit City Council approved the Neighborhood Development Corporation Project #1 Project Plan, the amendment of the Master Plan, and the Resolution of Necessity for the project. In May, 1998, the Detroit City Council approved the reprogramming of Bond funds and the establishment of an appropriation for the NDC Project #1. On July 6, 1998, the EDC, the NDC, and the City of Detroit acting through the Planning and Development Department entered into the Funding Agreement for the public portion of the project.

Recent budget evaluations indicate that it has become necessary to reprogram

funds to cover project activities. Therefore, a transfer of funds for the NDC Project #1 is needed with reprogramming of funds from the following bonds: Victoria Park Bonds, and Residential Sites Bonds.

Therefore, the Planning and Development Department requests that you authorize the transfer of funds in accordance with the attached resolution to Appropriation 00997, Neighborhood Development Corporation Project #1.

Honorable City Council:

Re: Neighborhood Development Corporation Project #1. Waiver Requests/ Environmental.

Your Honorable Body adopted a resolution of necessity on March 20, 1998 (J.C.C. 659-675), with respect to certain parcels of land to be acquired as a part of the above-referenced project.

Requests for authorization to waive various costs related to environmental matters with respect to a number of properties in this project area were approved by your Honorable Body in March, 1999, September, 1999, and June, 2000. The City's environmental consultants have now obtained access to certain additional parcels in the project area. The purpose of this letter is to provide a report on the environmental condition of certain properties to be acquired pursuant to the resolution of necessity, as required pursuant to Section 2-1-13(C) of the 1984 Detroit City Code. In addition, the purpose of this letter is to request that your Honorable Body authorize waiver of the following in the City's good faith offer, appraisal, and declaration of taking: 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity at a facility from the present owner (as that term is defined in 1980 PA 87, as amended), of certain of the privately owned parcels of land in the project area, as described more fully herein.

A draft Phase I Environmental Assessment of each of the parcels included in this request has been conducted generally in accordance with current ASTM standards, and in accordance with the requirements of the City Code.

With respect to the following parcels, the draft Phase I did not disclose 1) that these parcels had been used for any purposes other than residential/vacant, nor did it indicate 2) evidence of any recognized environmental conditions:

Parcel No.	Address	Street	Ward	Item
83	604	BENITEAU	21	043086.

975	1301	ST. JEAN	21	044188-9
993	719	ST. JEAN	21	044207.

With respect to the following parcel, the draft Phase I did not disclose 1) that this parcel had been used for any purposes other than residential, nor did it indicate 2) evidence of any recognized environmental conditions, other than conditions that could be anticipated with residential use, such as asbestos, lead based paint, and aboveground storage tanks for heating purposes, however, the structure was not safe to enter for inspection of the interior.

Parcel No.	Address	Street	Ward	Item
608	624	Meadowbrook	21	039982.

Under the terms of the applicable portions of the City Code (Sections 2-1-15(a), 2-1-15(b) and 2-1-15(c) of the 1984 Detroit City Code), City Council may waive 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity at a facility from the present owner (as that term is defined in 1980 PA 87, as amended). In this case, we respectfully submit that the conditions for such waiver are met, because your Honorable Body has previously declared the project necessary and essential to the interests of the public peace, health, safety and welfare of the City, and the acquisition is being accomplished by the exercise of the City's power of eminent domain in a manner consistent with the Uniform Condemnation Procedures Act, 1980, PA 87. In addition, as noted above, no evidence of recognized environmental conditions were found for these properties, except in certain cases, conditions that could be anticipated with residential use.

Accordingly, for those properties listed above, your Honorable Body is respectfully requested to adopt the attached resolutions authorizing waiver of such costs associated with the properties in the City's good faith offer, appraisal, and declaration of taking, with respect to the present owner only. Legal counsel has reviewed the draft Phase I Environmental Assessments and does not anticipate that

there will be changes to the final versions that would alter the recommendations for waiver. The recommendations set forth in this letter and resolution are based upon the information currently available, although it is difficult to foresee any major changes when the draft Phase I Environmental Assessments are finalized, particularly under the current State of Michigan law.

1980 PA, as amended, provides that the condemning authority must state its intent to "waive or reserve" recovery of response costs from the property owner in the appraisal of the property and the good faith offer. MCL Section 213.55. A decision is needed by your Honorable Body at this time in order to comply with the requirements of the statute. A waiver of reconsideration is also hereby respectfully requested.

Respectfully submitted,
PAUL A. BERNARD
 Director

By Council Member Everett:

Whereas, The Planning and Development Department has submitted a report regarding the environmental assessments conducted with respect to the parcels described in Exhibit A, which are a part of Neighborhood Development Corporation #1 Project area; and

Whereas, The results of said environmental assessments do not indicate any recognized environmental conditions, except, in certain cases, those which could be anticipated with residential use; and

Whereas, The project has been declared necessary and essential to the interests of the public peace, health, safety and welfare of the City, and the acquisition is being accomplished by the exercise of the city's power of eminent domain in a manner consistent with the Uniform Condemnation Procedures Act, 1980, PA 87; and

Whereas, Based upon the foregoing, the conditions of Article 1, Division 2, Section 2-1-15 of the 1984 Detroit City Code for granting a waiver of certain claims have been met;

Now Therefore Be It Hereby Resolved, That, with respect to the present owner of each parcel listed on Exhibit A, waiver of the following cost in the City's good faith offer, appraisal, and declaration of taking be and is hereby authorized: 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity of that parcel.

Waiver of Reconsideration.

Water and Sewerage Department

February 14, 2001

Honorable City Council:

Re: Concurrence with BOWC Approval of Proposed FY 2001/02 Water and Sewerage Rates and Charges.

Enclosed are suggested resolutions to facilitate concurrence of the FY 2001/02 Water Rates, and Sewerage Rates and Charges. As indicated previously, a separate resolution will be submitted requesting approval of the FY 1999/2000 Sewerage Look Back adjustments once the external audit for the Department is completed. The appropriate schedules accompany each resolution.

We recommended that your Honorable Body approve these resolutions during the Formal Session to be held on Wednesday, February 21, 2001. Approval of the rates at this time will assist the Department in meeting our statutory requirement of providing 120 days advance notice of rate adjustments to suburban wholesale customers.

Waiver of reconsideration is also requested.

Thank you in advance for your consideration, continued support and cooperation.

Respectfully submitted,
KATHLEEN LEAVEY

Interim Director

By Council Member Tinsley-Talabi:

City Planning Commission

November 22, 2000

Honorable City Council:

Re: Proposed Zoning Ordinance amendment to increase the maximum distance allowed for accessory parking for stadiums and arenas from 1,000 feet to 1,500 feet (RECOMMEND APPROVAL).

Background

When Ordinance No 390-G, the Official Zoning Ordinance, was adopted in 1968 one of the provisions required stadiums and sports arenas to provide one (1) off-street parking space for each six (6) seats and that such accessory parking be provided within 1,000 feet of the stadium or sports arena. The original Zoning Ordinance of 1940 also contained a stadium parking provision, although worded differently.

Section 47.0108 of the Detroit Zoning Ordinance identifies one hundred seventy-six (176) land uses and specifies the amount of accessory parking required for each. It also prescribes the location of such parking — typically within one hundred (100) feet of the building. For a few land uses that attract large crowds and require a lot of parking, the Zoning Ordinance increases the maximum distance within which the parking can be located. For example, accessory parking for theaters can be located within five hundred (500) feet of the building; accessory parking for stadiums and sports arenas can be located within one thousand (1,000) feet.

As a practical matter, Tiger Stadium was built long before the Zoning Ordinance was adopted so the use was "grandfathered-in" with no parking requirement. With the opening of Comerica Park and conclusion of the first Detroit Tigers baseball season, there is reason to reexamine the stadium parking provision in light of recent experience.

Observations

City Planning Commission staff has noted throughout the course of the 2000 baseball season that fans routinely walk farther than 1,000 feet from their parked cars to the stadium. One thousand feet north of the stadium includes Sibley and Winder Streets; 1,000 feet east reaches to St. Antoine; 1,000 feet south extends to Harmonie Park; 1,000 feet west includes Park Avenue.

This observation suggests that the current zoning provision does not accurately reflect actual conditions and that a text amendment might be appropriate. Such was the case in 1999 when the Planning Commission recommended a change in the off-street parking requirements for laundromats. At that time it was noted that a recently adopted parking requirement demanded many more parking spaces than were needed or desirable. The resulting amendment was Ordinance No. 8-99.

Scope of the Ordinance

The proposed ordinance would retain the current number of required off-street parking spaces, namely one (1) space for each six (6) seats. It would, however, change the maximum distance within which those spaces could be provided

from one thousand (1,000) feet to one thousand five hundred (1,500) feet.

With the construction of Ford Field this would allow the Stadium Authority and/or Detroit Lions to establish accessory parking within a more realistic radius of the stadium. Fifteen hundred feet north of Ford Field extends up to Alfred Street; 1,500 feet east goes to the eastern side of the Chrysler Freeway; Greektown falls within 1,500 feet to the south; and 1,500 feet to the west of Ford Field includes Woodward Avenue.

"Gateway Radial Thoroughfare" Ordinance

When City Council passed the "Gateway Radial Thoroughfare" Ordinance in 1999 (Ordinance No. 26-99), one of the key provisions affected parking lots. Within the Central Business District, new commercial parking lots were reclassified as a special ("permitted with approval") land use. This meant that new commercial lots, not accessory to a specific use, would have to go through a public hearing before the Buildings and Safety Engineering Department could issue a permit for the parking lot; paving and landscaping were required. Additionally, to avoid a repeat of the wide scale demolition of properties that had occurred in the Corktown area to provide Tiger Stadium parking, new commercial parking lots were prohibited within 1,500 feet of a stadium or sports arena.

As it turned out, this prohibition on new commercial parking within 1,500 feet of the stadium conflicted with prior governmental agreements with the baseball interests. Although zoning clearly permits the Tigers to establish accessory parking within 1,000 feet of the stadium, many of the sites acquired for parking fell within the area between a 1,000 foot radius and a 1,500 foot radius. This meant that a number of parking lots could neither qualify as accessory parking nor be considered for commercial parking.

Effect of Proposed Ordinance

The proposed amendment would remove that conflict. Regardless of the 1,500 foot prohibition on near-stadium commercial parking, businesses can still establish their own accessory parking lots and can even charge for the parking if they wish. And as before, new parking lots that are not exclusively accessory to a specific adjacent land use remain prohibited.

Results of the hearing

The City Planning Commission held a public hearing on the proposed "Stadium Parking" ordinance on November 16, 2000. Three persons testified at the hearing. Representatives of the Downtown Development Authority, the Detroit-Wayne County Stadium Authority, and the Consumer Affairs Department each indicated support for the ordinance. No one

spoke in opposition. As a courtesy, notice had been sent to all parking lot licensees in the downtown area as well as to all community organizations and councils and business associations in or near downtown.

Recommendation

The City Planning Commission recommends adoption of the proposed text amendment to the Zoning Ordinance. Council may wish to schedule the customary inter-departmental discussion prior to introduction of the ordinance. The following offices should be notified of any such discussion: City Planning Commission, Downtown Development Authority, Consumer Affairs Department, Planning and

Development Department, Law Department, and Board of Zoning Appeals.

Because this ordinance may affect the ability of some near-stadium parking lots to renew their Consumer Affairs Department license, your Honorable Body may wish to schedule an early January discussion. Parking lot licenses expire on Wednesday, January 31, 2001. Typically, licensees can apply for renewal 90 days prior to expiration of the license.

Detroit Zoological Institute
January 22, 2001

Honorable City Council:
Re: Zoological Institute, Belle Isle Aquarium Emergency Repairs of Distressed Floor.

On May 26, 2000, your Honorable Body approved an emergency contract with the D. C. Byers Company of Detroit, Michigan for structural repairs to the distressed floor slab at the Belle Isle Aquarium in an amount not to exceed \$300,000.00.

Substantial progress has been made. However, demolition has revealed far more substantial deterioration of beams imbedded in the floor slab than originally anticipated. These hidden conditions were impossible to observe completely until work began.

Now that conditions are entirely known, it is estimated that an additional \$300,000.00 will be required to complete this urgent project. Both the City Engineer and Desai Nasr Consulting Engineers, Inc. have reviewed this additional scope and concur with Zoological Institute staff that this price is fair and reasonable.

It is, therefore, requested that the aforementioned contract with D. C. Byers be amended by \$300,000.00 not to exceed a total of \$600,000.00 to expeditiously complete this project by March 31, 2001. Funds are available in account 4510-440304-000266-631100-00845-000000A6000 Buildings — Major Repairs.

CITY COUNCIL

(REGULAR SESSION)

All action of the City Council appearing herein is subject to reconsideration and/or approval of the Mayor.

Detroit, Wednesday, March 7, 2001

The City Council met and was called to order by the President, Honorable Gil Hill.

Present — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood, III, Scott, Tinsley-Tinsley, and President Hill — 8.

There being a quorum present, the City Council was declared to be in session.

The journal of the session of February 21, 2001, was approved.

Taken from the Table

Council Member Sheila M. Cockrel moved to take from the table an ordinance to amend Chapter 61 of the 1984 Detroit City Code, the Official Zoning Ordinance of the City of Detroit, being Ordinance 390-G, as amended, by amending Article XV, to rezone property generally bounded by E. Jefferson, Edlie, St. Jean and Montclair from B4 (General Business District) and R2 (Two-Family Residential District) to PD (Planned Development District) to allow for the development of a neighborhood shopping center/laid on the table February 21, 2001 (J.C.C. pp.), which motion prevailed.

The Ordinance was then placed on the order of third reading.

THIRD READING OF ORDINANCE.

The title to the Ordinance was read a third time.

The Ordinance was then read.

The question being "Shall this Ordinance Now Pass"?

The Ordinance was passed, a majority of the Council Members present voting therefor as follows:

Yeas — Council Members Cleveland, S. Cockrel, Everett, Hood, Tinsley-Talabi, and President Hill — 6.

Nays — Council Members K. Cockrel, Jr., and Scott — 2.

Title to the Ordinance was confirmed.

STATEMENT OF COUNCIL MEMBER NICHOLAS HOOD, III, VOTING TO SUPPORT AN ORDINANCE TO DEVELOP A NEIGHBORHOOD SHOPPING CENTER

Today I voted to support the development of a neighborhood shopping center in Jefferson Village (a.k.a. Graimark development area). I support the construction of a Farmer Jack Supermarket and several ancillary shops because this commercial development project will bring

shopping to a neighborhood that lacks business and retail stores. For years this neighborhood has been devoid of adequate shopping and this development will give residents alternatives for shopping. The commercial development will create jobs, spur development in this neighborhood, and ultimately attract high-quality retail shops to the neighborhood.

STATEMENT OF COUNCIL MEMBER BRENDA M. SCOTT, "NO" VOTE ON PROPOSED GRAIMARK SHOPPING CENTER

I voted "No" on the resolution to authorize an amendment to the Detroit Master Plan of Policies and also on the ordinance to amend Chapter 61 of the 1984 Detroit City Code by amending Article XV to rezone property generally bounded by East Jefferson and St. Jean to allow for the development of a neighborhood shopping center.

There remains several issues outstanding as it relates to the proposed shopping center:

1. The land was originally proposed for residential use, not for commercial.
2. Farmer Jack officials did not provide information regarding the continuation of its E. Lafayette/Chene Store, and
3. There are far too many restrictive uses attached to the planned development area for existing buildings/businesses.

For these reasons, I voted "No."

City Planning Commission

January 12, 2001

Honorable City Council:

Re: Request of Sherwood Food Distributors (Petition #1916) to close a section of Hildale Avenue just west of Sherwood Avenue.

Per your Honorable Body's request, attached is a resolution, denying the request of Sherwood Food Distributors to close Hildale Avenue between Sherwood Avenue on the east and the railroad tracks east of Filer Avenue on the west.

This resolution is submitted for your consideration to be voted upon at your next formal session.

Respectfully submitted,
MARSHA BRUHN

Director

By Council Member Tinsley-Talabi:

Whereas, Sherwood Food Distributors has submitted a request (Petition #1916) that East Hildale Avenue be closed (vacated) and converted into a private easement) between Sherwood Avenue on the east and the railroad tracks located east of Filer Avenue on the west; and

Whereas, Chapter 50 of the City Code requires City Council's approval of the closing of any street; and

Whereas, On October 19, 1999, City Council held a public hearing at one of its Evening Community Meetings regarding this request, at which several area residents and adjacent businesses expressed concerns and voiced opposition to the requested street closing, in part, because it would disrupt established transportation routes; and

Whereas, The City Planning Commission staff submitted a report dated November 3, 1999 analyzing the proposed street closing and concluding with a recommendation that the request be denied, primarily based on the adjacent business opposition;

Now, Therefore, Be It Resolved, That, while the Detroit City Council appreciates and supports the many contributions of Sherwood Food Distributors to the City, the Council, at this time, hereby denies the request that East Hildale Avenue be closed between Sherwood Avenue on the east and the railroad tracks located east of Filer Avenue on the West.

Adopted as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood, Scott, Tinsley-Talabi, and President Hill — 8.

Nays — None.

Council Member Cleveland moved to reconsider the vote by which the foregoing resolution was adopted, which motion did not prevail as follows:

Yeas — Council Members Cleveland, Scott, and President Hill — 3.

Nays — Council Members K. Cockrel,

Jr., S. Cockrel, Everett, Hood, and Tinsley-Talabi — 5.

Planning & Development Department

February 28, 2001

Honorable City Council:

Re: A resolution to amend the Detroit Master Plan of Policies in the vicinity of East Jefferson and St. Jean Avenues to allow for the development of a neighborhood shopping center.

Attached for your consideration and action is a proposed Amendment to the Detroit Master Plan of Policies for the area generally bounded by East Jefferson Avenue on the north, St. Jean Avenue on the east, Edlie Avenue on the south, and Montclair Avenue on the west. The proposed Amendment is the second Amendment for this area along East Jefferson (see Master Plan Amendment #18; January, 1998). New commercial prospects have now provided the opportunity to build a larger shopping center (to be known as The Shops at Jefferson Village) than had originally been planned for. Adoption by your Honorable Body of this resolution would enable the rezoning of the aforementioned site to a PD (Planned Development) zoning district classification and accommodate construction of a 128,174 square foot neighborhood shopping center, anchored by a 69,870 square foot Farmer Jack grocery store with one outlet for a family-style restaurant and other shops.

The subject area to be changed, which covers an area of 14.06 acres, is shown on the Master Plan of Policies Map 302-10B, East Riverside Subsector, East Sector "Generalized Proposed Land Use". Included within the subject area is the 0.27 acre Hackett Brass Foundry site, which is not within the area to be rezoned to PD. Presently, the subject area is designated in the Master Plan as "GC" General Commercial and "RL" Low-Density Residential. It is recommended that the land use designation for the entire subject area be changed to "GC" General Commercial. The 13.79 acre proposed shopping center site to be rezoned is recommended to be changed on the attached East Sector "Generalized Rezoning Concept" map from R1 (Single-Family Residential) and B4 (General Business) zoning district classifications to a PD (Planned Development) zoning district classification.

The revised preliminary site plan drawn by Bowers & Rein Associates and dated November 16, 2000 shows the construction of the proposed neighborhood shopping center. The site is directly north of the Jefferson Village (formerly Graimark) residential project area. At present, several vacant commercial buildings line the subject area frontage along East Jefferson, giving the commercial strip a blighted

appearance. A veterinary clinic lies on the southwest corner of East Jefferson and St. Jean, and is not included within the subject area. The Hackett Brass Foundry is adjacent to the proposed shopping center site at the corner of Lillibridge and Edlie, and a land swap has been proposed with the developer, Graimark/Walker Development Company, to allow the foundry to provide off-street parking for its employees.

The Planning & Development Department is requesting the proposed Amendment to accommodate commercial uses to serve and complement a future residential area in the vicinity of East Jefferson. Not only would the proposed development service the upcoming Jefferson Village residential development, but it would also provide commercial options for redeveloping neighborhoods to the east in the nearby Jefferson-Chalmers Redevelopment Plan Area. The proposed Farmer Jack store would fill a significant void by becoming the only grocery store of its size for several miles, allowing residents to have local options for food items. Furthermore, the proposed development would help solidify the revitalization of this portion of Detroit's East Side and enhance the marketability for even more residential development in the future. The proposed development, which includes 128,174 square feet of retail space and approximately 663-674 parking spaces, provides the amount of size and space required to meet the needs for modern retail activity.

In summary, it is our belief that the proposed commercial development is appropriate for the subject area, and by providing more local retail options for area residents, it could become a catalyst for future development. We, therefore, recommend that the proposed land use change for the subject area to "GC" General Commercial in the Master Plan of Policies be adopted.

Respectfully submitted,
 PAUL A. BERNARD
 Director

Re: State Trunkline misc. bituminous resurfacing for Hwy. I-75 from NYC Railroad to Gratiot Ave., etc. State Agreement #98-5244.

On July 29, 1998 (J.C.C. page 1994)

PART A — IM 82194, JOB #47170; IM 9882(061): KK0733.

Bituminous resurfacing for Highway I-75 collector and distributor roads and ramps from NYC Railroad to Gratiot Avenue: with necessary related work: located within the corporate limits of the City.

PART B — IM 82195, JOB #47017; IM 9882(061): KK0734.

Deck replacement for structure S16 of 82195 which carries NB Highway M-10 exit ramp over Grand River Avenue: together with necessary related work within the corporate limits of the City.

Except as hereinafter provided, interest on the Series 2001-SRF1 Bond shall be payable to the registered owner of record as of the 15th day of the month immediately preceding any Interest Payment Date. The date of deter-

mination of registered ownership for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future. The principal of the Series 2001-SRF1 Bond shall be payable in the same manner as interest thereon on the annual payment date set forth in the first paragraph of this Section 5. The Series 2001-SRF1 Bond shall be sold upon such terms as provided in the DEQ Order or the Purchase Contract.

Notwithstanding any other provision of this Resolution, so long as the Authority is the owner of the Series 2001-SRF1 Bond, (a) the Series 2001-SRF1 Bond is payable as to principal, premium, if any, and interest at the corporate trust office of Bank One Trust Company, NA, or at such other place as shall be designated in writing to the City by the Authority (the "Authority's Depository"); (b) the City agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on the Series 2001-SRF1 Bond in immediately available funds at least five (5) business days prior to the date on which any such payment is due (whether by maturity, redemption or otherwise); and (c) the Series 2001-SRF1 Bond may be subject to redemption prior to maturity at the times and prices, in the manner and upon the conditions set forth in Exhibit A hereto.

The Series 2001-SRF1 Bond will be dated March 29, 2001, or such other date as provided in the DEQ Order or the Purchase Contract. The Series 2001-SRF1 Bond will be issued as a single, fully registered bond, subject to the transfer and exchange requirements of this Resolution in authorized denominations of \$5,000 or any multiple thereof.

Unless waived by any registered owner of the Series 2001-SRF1 Bond to be redeemed, official notice of redemption shall be given by the Transfer Agent on behalf of the City. Such notice shall be dated and shall contain at a minimum the following information: complete official name of the issue, including series; original issue date; payment dates; interest rate; the date of redemption notice; the redemption date; the redemption price; the place where the Series 2001-SRF1 Bond, or portions thereof called for redemption, are to be surrendered for payment; the Transfer Agent's name and address with contact person and phone number; and a statement that interest on the Series 2001-SRF1 Bond or portions thereof called for redemption shall cease to accrue from and after the redemption date if moneys are on hand with the Transfer Agent to redeem the Series 2001-SRF1 Bond or portions thereof called for redemption.

In addition, further notice shall be given by the Transfer Agent in such manner as

may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner affect the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

Section 6. Payment of Bonds. The Series 2001-SRF1 Bond and the interest thereon shall be payable solely from the Net Revenues, and to secure such payment, the statutory lien upon the whole of the Net Revenues created in Ordinance No. 27-86, subject to the prior lien thereon of Senior Lien Bonds and Junior Lien Bonds which shall have acceded to a parity with the Senior Lien Bonds, Senior Subordinated Bonds, any other Junior Lien Bond which may be issued under Ordinance No. 27-86 with a higher priority of lien on Net Revenues than that granted the SRF Junior Lien Bonds, and the Ancillary Obligations related to each of the foregoing, is hereby confirmed in favor of the Series 2001-SRF1 Bond.

The obligation of the City to pay the principal of and interest on the Series 2001-SRF1 Bond shall continue until such payment in full has been made thereon or until sufficient cash or sufficient Government Obligations shall have been deposited in trust for payment in full of the principal of and the interest on the Series 2001-SRF1 Bond to be defeased to its maturity, or, if called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any. Upon deposit of cash or sufficient Government Obligations, as provided in the previous sentence, the statutory lien herein referred to shall be terminated with respect to the Series 2001-SRF1 Bond, the holders of the Series 2001-SRF1 Bond shall have no further rights under this Resolution except for payment from the deposited funds and registration and replacement of bonds, and the Series 2001-SRF1 Bond shall no longer be considered to be outstanding under the Ordinances and this Resolution.

Section 7. Funds and Accounts; Flow of Funds. Except as otherwise provided in this Resolution, all of the provisions relative to funds and accounts, their maintenance, the flow of funds and other details relative thereto, shall remain as specifically set forth in the Ordinances.

Series 8. Series 2001-SRF1 Bond Proceeds. Portions of the proceeds of the sale of the Series 2001-SRF1 Bond representing capitalized interest, if any, as received, shall be deposited in the redemption fund for SRF Bonds established by Ordinance 27-86, and the City may take a credit for the amount so deposited against the amount required to be deposited in the such fund for payment of the next maturing interest payment on

the Series 2001-SRF1 Bond.

The balance of the proceeds of the sale of the Series 2001-SRF1 Bond, as received, shall be deposited in a sub-account of the Construction Fund account established by Ordinance No. 27-86 to be designated the "Construction Fund Series 2001-SRF1," which sub-account shall be established and maintained as a separate depository account with a depository qualified to be a depository of moneys under Michigan law as designated by the Finance Director. Moneys in the Construction Fund Series 2001-SRF1 shall be applied solely in payment of the costs of the Project and any engineering, legal, financial or printing costs, and other expenses incident thereto and to the financing thereof. Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file a signed statement with the Commissioners to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and that such work has not been previously paid for. Payment of the costs of engineering, legal, financial, printing, and other costs of issuance with respect to the Series 2001-SRF1 Bond as provided in this section shall be made upon submission of appropriate documentation to the Finance Director of the City.

Any unexpected balance remaining in the Construction Fund Series 2001-SRF1 after completion of the Project may, with the prior approval of the Authority and at the discretion of DWSD, be used for further improvements, enlargements, and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Series 2001-SRF1 Bond from gross income for federal income tax purposes. Any remaining balance after such expenditure shall, with the prior approval of the Authority, be paid into the Redemption Fund for the purpose of redemption or purchase, at not more than the fair market value, of the outstanding Series 2001-SRF1 Bond or portions thereof. Bonds acquired by purchase shall be canceled and shall not be reissued.

Section 9. Series 2001-SRF1 Bond Form. The Series 2001-SRF1 Bond shall be in substantially the form set forth in Appendix A hereto, with such changes and additions as shall be determined appropriate by the Finance Director.

Section 10. Covenants Regarding Exclusion of Interest on the Series 2001-SRF1 Bond for Federal Tax

Purposes. The City hereby covenants with and represents to the Authority and any other registered owners of the Series 2001-SRF1 Bond that so long as any portion thereof remains outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain, and will refrain from taking any action which would impair, the exclusion of the interest on the Series 2001-SRF1 Bond from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Series 2001-SRF1 Bond proceeds and moneys deemed to be Series 2001-SRF1 Bond proceeds, and to prevent the Series 2001-SRF1 Bond from being or becoming a "private activity bond" as that term is used in Section 141 of the Code.

Section 11. Department of Treasury Approval; Sale of Series 2001-SRF1 Bond. The Finance Director is hereby authorized to notify the Michigan Department of Treasury of the City's intent to issue the Series 2001-SRF1 Bond, and to make application to the Michigan Department of Treasury for authority to issue and sell the Series 2001-SRF1 Bond or for an exception from prior approval for the sale of the Series 2001-SRF1 Bond and for authorization, if any, to obtain such waivers from the Michigan Department of Treasury as may be applicable to the sale of the Series 2001-SRF1 Bond at the discretion of the Finance Director and which are permitted by Act No. 202, Public Acts of Michigan, 1943, as amended, and the regulations pertaining thereto, and Act 94, and to pay any related fees. The Finance Director shall do all other acts and take all other necessary procedures required to accomplish the sale, issuance and delivery of the Series 2001-SRF1 Bond.

Section 12. Finance Director and Deputy Finance Director Authorizations. During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director shall exercise all the powers, perform all the duties and make all the determinations herein required or permitted with respect to the Series 2001-SRF1 Bond.

Section 13. Execution of Series 2001-SRF1 Bond. The Mayor and the Finance Director are hereby authorized and directed to execute the Series 2001-SRF1 Bond by manual or facsimile signature for and on behalf of the City and in its name, to affix thereto the official seal of the City and to deliver the Series 2001-SRF1 Bond to the Authority upon the terms and conditions set forth in the Purchase Contract.

Section 14. Execution of Authority's

Documents. The Series 2001-SRF1 Bond shall be sold to the Authority pursuant to the Purchase Contract. The Purchase Contract, the Supplemental Agreement and the Issuer's Certificate, in the forms on file with the Finance Director, are hereby approved; and the Mayor, the Finance Director, and the Director of the DWSD or their deputies are each hereby authorized to execute and deliver, for and on behalf of the City, the Purchase Contract, the Supplemental Agreement, and the Issuer's Certificate to the Authority in the forms hereby approved with such changes and insertions in such Purchase Contract, Supplemental Agreement, and Issuer's Certificate as the Finance Director shall determine are necessary or desirable. The executed forms of the Purchase Contract, the Supplemental Agreement, and the Issuer's Certificate shall be deemed to be the final forms thereof.

Section 15. Deposit to Construction Fund. Portions of the proceeds of the Series 2001-SRF1 Bond, as received and in amounts determined by the Finance Director, shall be deposited, pursuant to the Ordinances, in the Construction Fund Series 2001-SRF1 relating solely to the Series 2001-SRF1 Bond, which shall be established and maintained as a separate depository account as selected by the Finance Director in accordance with this Resolution.

Section 16. Authorization of Other Officials. The Mayor, City Clerk, Finance Director, Treasurer, Corporation Counsel, Director of the DWSD, other officials of the City, their deputies and staff, or any of them, are hereby authorized to execute and deliver such certificates, documents, instruments, opinions, and other papers as may be deemed necessary or appropriate to complete the sale, execution, and delivery of the Series 2001-SRF1 Bond as determined by such officials executing and delivering the foregoing items. Any actions heretofore taken by such persons in furtherance of the foregoing are hereby ratified and confirmed.

Section 17. Declaration of Official Intent. The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. §1.150-2 pursuant to the Code:

(a) The City plans to finance the Project through the issuance of the Series 2001-SRF1 Bond in the maximum principal amount of \$220,000,000.

(b) The City Council of the City hereby declares its intent to reimburse itself from the proceeds of the Series 2001-SRF1 Bond for expenditures made or to be made for the Project.

(c) The maximum principal amount of the Series 2001-SRF1 Bond expected to be issued for the Project is \$220,000,000.

(d) Advances to be made for the

Project will be borrowed from the Improvement and Extension Fund of the City's Sewage Disposal System Fund, which shall be reimbursed upon the issuance of the Series 2001-SRF1 Bond.

Section 18. Resolution Constitutes a Contract Interpretation; Modification.

The provisions of this Resolution shall constitute a contract between the City and any registered owner of the Series 2001-SRF1 Bond. SEWAGE DISPOSAL SYSTEM
REVENUE BOND (SRF JUNIOR LIEN),
SERIES 2001-SRF1

Interest Rate	Date of
Per Annum	Original Issue

REGISTERED OWNER: Michigan

Municipal Bond Authority
 PRINCIPAL AMOUNT: ****\$_____***

The City of Detroit, Wayne County, Michigan (the "Issuer") for value received, promises to pay, to the Michigan Municipal Bond Authority (the "Authority"), but only out of the hereinafter described Net Revenues of the Issuer's Sewage Disposal System, the principal amount of _____ Dollars (\$_____) or so much thereof as shall have been advanced to the Issuer pursuant to the Purchase Contract between the Issuer and the Authority dated as of _____, 2001 and a Supplemental Agreement by and among the Issuer, the Authority and the State of Michigan acting through the Department of Environmental Quality, in lawful money of the United States of America, with interest on said principal until paid from the date each disbursement of such principal is advanced by the Authority to the Issuer at the rate of two and one-half percent (2.5%) per annum. Interest is first payable on _____, 20__ and semi-annually on each _____ and _____ thereafter, and principal is payable on the first day of _____, commencing _____, 20__ and annually thereafter in the principal installments indicated on the Payment Schedule attached as Appendix A hereto, unless prepaid prior thereto as hereinafter provided. The bond is payable as to principal, premium, if any, and interest at the corporate trust office of Bank One Trust Company, NA, or to such other place as shall be designated in writing to the issuer by the Authority (the "Authority's Depository").

This bond is subject to redemption prior to maturity by the Issuer only with the prior written consent of the Authority and on such terms as may be required by the Authority.

Notwithstanding any other provision of this bond, so long as the Authority is the owner of this bond, (a) this bond is payable as to principal, premium, if any, and interest at Bank One Trust Company, N.A., or to such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's Depository"); (b) the Issuer agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this bond in immediately available funds at least five (5) business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; and written notice of any redemption of this bond shall be given by the Issuer and received by the Authority's Depository at least forty (40) days prior to the date on which such redemption is to be made.

In the event of a default in the payment of principal hereof or interest hereon when due, whether at maturity, by

redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this bond, but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the Issuer's default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the Issuer shall and hereby agrees to pay on demand only the Issuer's pro rata share (as determined by the Authority) of such deficiency as additional interest on this bond.

During the time funds are being drawn down by the Issuer under this bond, the Authority will periodically provide the Issuer a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Issuer of its obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this bond.

For the prompt payment of the principal of and interest on this bond, the revenues of the Sewage Disposal System of the City (the "System"); including all appurtenances, extensions and improvements thereto, after provision has been made for reasonable and necessary expenses of operation, maintenance and administration (the "Net Revenues"), are irrevocably pledged and a statutory lien thereon is recognized and created. The bonds of this series are of junior standing and priority of lien as to Net Revenues and secured on a subordinate basis to: (a) the City's \$4,360,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1992-A; (b) the City's \$1,915,000 maximum stated princi-

pal amount Sewage Disposal System Revenue Bond, Series 1992-B; (c) the City's \$311,460,000 original aggregate principal amount Sewage Disposal System Revenue and Revenue Refunding Bonds, Series 1993-A; (d) the City's \$6,840,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1993-B; (e) the City's \$257,725,000 original aggregate principal amount Sewage Disposal System Revenue Bonds, Series 1995-A and Sewage Disposal System Revenue Refunding Bonds, Series 1995-B; (f) the City's \$262,494,128.05 original aggregate principal amount Sewage Disposal System Revenue Bonds, Series 1997-A; (g) the City's \$6,075,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1997-B; (h) the City's \$137,955,000 original aggregate principal amount Sewage Disposal System Revenue Refunding Bonds, Series 1998-A and Series 1998-B; (i) the City's \$21,475,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF1; (j) the City's \$46,000,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF2; (k) the City's \$31,030,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF3; (l) the City's \$40,665,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF4; (m) the City's \$302,995,177.80 aggregate original principal amount Sewage Disposal System Revenue Bonds, Series 1999-A; (n) any other bonds on a parity with the foregoing bonds issued hereafter pursuant to the Bond Ordinance (hereinafter defined); (o) Junior Lien Bonds (as defined in the Bond Ordinance) which shall have acceded to parity status with the foregoing bonds pursuant to the terms of the Bond Ordinance; (p) Senior Subordinated Bonds and other Junior Lien Bonds which have a higher priority of lien than that granted the SRF Junior Lien Bonds which may hereafter be issued under the Bond Ordinance; and (q) Ancillary Obligations relating to all of the foregoing. The bonds of this series are also on a parity with the City's \$21,475,000 maximum stated principal amount Sewage Disposal System Revenue Bond (SRF Junior Lien), Series 2000-SRF1 and the City's \$65,000,000 maximum stated principal amount Sewage Disposal System Revenue Bond (SRF Junior Lien), Series 2000-SRF2, and any other SRF Junior Lien Bonds issued hereafter pursuant to the Bond Ordinance on a parity with this bond and the series of which it is one.

This bond is issued pursuant to Ordinance No. 27-86 as supplemented

and amended by Ordinance No. 7-87, Ordinance No. 38-92, Ordinance No. 3-93, Ordinance No. 31-95, Ordinance No. 16-97 Ordinance No. 24-97 and Ordinance No. 36-99, as further supplemented by a Resolution of the City Council adopted July 19, 2000 (as supplemented and amended, the "Bond Ordinance"), and under and in full compliance with the Constitution and statutes of the State of Michigan, including specifically Act No. 94, Public Acts of Michigan, 1933, as amended, for the purpose of paying all or part of the cost of acquiring and constructing replacements, repairs, extensions and improvements to the System and paying the costs of issuing this bond.

This bond is a self-liquidating bond which is not a general obligation of the Issuer and does not constitute an indebtedness of the Issuer within any constitutional, statutory, or charter limitation, but is payable, both as to principal and interest, solely from the Net Revenues of the System. The principal of and interest on this bond are secured by the statutory lien hereinbefore mentioned.

For a complete statement of the revenues from which and the conditions under which this bond is payable, a statement of the conditions under which additional bonds of equal standing may hereafter be issued, and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Bond Ordinance.

The Issuer has covenanted and agreed, and does hereby covenant and agree, to fix and maintain at all times while any bonds payable from the Net Revenues of the System shall be outstanding, such rates for service furnished by the System as shall be sufficient to provide for payment of the interest on and the principal of this bond and any other bonds of superior and equal standing payable from the Net Revenues as and when the same shall become due and payable, and to create and maintain a bond redemption fund therefor, to provide for the payment of expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the same in good repair and working order, and to provide for such other expenditures and funds for the System as are required by the Ordinances.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond and the series of bonds of which this is one have been done and performed in regular and due time and form as required by law.

IN WITNESS WHEREOF, the City of

Detroit, Wayne County, Michigan, by its City Council has caused this bond to be signed by the manual or facsimile signatures of its Mayor and its Finance Director and its corporate seal to be impressed on this bond, all as of March 29, 2001.

Re: Public Hearing on Request by the Hubbell Group, Palmer Development Group, L.L.C., and Lenton Property Development for Establishment of the Woodward/Brush/Hendrie/Ferry Area as a Neighborhood Enterprise Zone in Accordance with Public Act 147 of 1992.

In response to the above referenced

requests for designation of the Woodward/Brush/Hendrie/Ferry project as a Neighborhood Enterprise Zone, the Planning & Development Department, in conjunction with the Assessments Division of the Finance Department, have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that approval of the aforementioned request would be consistent with the Master Plan and the neighborhood preservation and development goals.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." - Certificate of Acceptance related to building permits

- Certificate of Approval as a result of a Housing Inspection
 - Certificate of Inspection, required for all residential rental properties
2. You will be required to obtain relevant permits for all rehabilitation work performed.
 3. The yards shall be maintained clear of weeds, junk and debris at all times.
 4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings.

**City of Detroit
Brownfield Redevelopment Authority**

March 8, 2001

Honorable City Council:

Re: Auto Body One Redevelopment Plan.

The enclosed Brownfield Plan for the Auto Body One Redevelopment (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was jointly held by the Committee and the Authority on February 27, 2001 to solicit public comments. After receipt of public comments, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority, subject only to certain conditions included in the Committee's Resolution recommending approval of the Plan.

On March 6, 2001, the Authority adopted a resolution (Exhibit B) approving the

Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. Prior to approval of the Plan by the City Council, the Authority will also notify the taxing jurisdictions about the fiscal and economic implications of the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Purpose of the Plan

The proposed Plan is intended to accomplish two purposes. First, upon approval of this Plan by City Council, Auto Body One will be entitled under state law to seek the approval of the Michigan Economic Growth Authority for a single business tax credit for 10 percent of its eligible capital investment in its project. Second, the Detroit Brownfield Redevelopment Authority will be authorized to capture tax increment revenues produced from the development of properties subject to this Plan to offset Auto Body One's cost for environmental, infrastructure and site preparation work performed on the property subject to the Plan.

Property Subject to the Proposed Plan

The eligible property is made up of five adjacent and contiguous parcels. The parcels are generally bordered by Michigan, 8th Street, Brooklyn and the alley north of Bagley.

Project Costs and Tax Increment Revenues

The proposed plan anticipates the cost of the eligible activities from which taxes may be captured to be \$177,525, including \$26,000 for reimbursement of prior expenses. The current estimates are that taxes will be captured through tax levies through 2015, including five years of tax capture for the Local Site Remediation Revolving Fund (LSRRF). The plan projects that approximately \$140,000 will be placed into this fund by 2015.

Public Comments Received

The Committee's communication to the City Council and the Authority dated March 5, 2001 (Exhibit C), recommending approval of the Plan, including the minutes of the Committee's and the Authority's joint public hearing and the Committee's public meeting are enclosed for City Council's consideration.

At the public hearing five (5) members of the public requested to provide public testimony. They were: Ms. Sylvia Johnson, Manager, Lafayette Lofts; T.J. Daniels of

Bright Roofing; Samir Olabi, carwash owner; Bill Spaulding of Spaulding Electric Company; and Luis Cabon, business owner. All spoke on behalf of the project expressing support and recommending approval of the Plan.

Authority's Request

The Authority is respectfully requesting the following actions from the City Council:

a) **March 12, 2001**

Line item on City Council's Calendar indicating the Authority's request that the City Council adopts a resolution setting a Public Hearing for April 5, 2001 concerning the Plan for Auto Body One.

b) **March 14, 2001**

City Council's approval of the attached Resolution (Exhibit D) setting a Public Hearing concerning the Plan for April 5, 2001 at 9:55 A.M. in the Council Chambers, 13th Floor of the Coleman A. Young Municipal Center, located at 2 Woodward Avenue, Detroit, Michigan.

Honorable City Council:

Re: Resident Opportunity Self-Sufficiency (Ross) Application.

The Detroit Housing Commission (DHC) is seeking \$500,000 in an application to the U.S. Department of Housing and Urban Development (HUD), under the Resident Opportunities Self-Sufficiency Program (ROSS). The purpose of ROSS is to link services to public housing residents by providing funds for various supportive services, resident empowerment activities and to assist residents in becoming economically self sufficient.

With this funding cycle, the ROSS NOFA awards to eligible housing authorities, grants to support Public Housing Apprenticeship Activities in the Construction Trades and Public Housing Operations.

Approval of this resolution will enable DHC (through partnership with a labor management organization) to provide training and educational opportunities, pre-apprenticeship activities, supportive services, resident empowerment activities, and employment opportunities to DHC residents enrolled in the program. If funded under this ROSS NOFA 2001, DHC will house the program in one of its existing buildings located at 31 Woodland, using the first two floors for class room training and the upper two floors for hands-on work experience. Re: Permission to accept 2001 Michigan Justice Training Commission Grant LE-06-Critical Decision Making.

The Detroit Metropolitan Police Academy (D.M.P.A.) was recently awarded a grant in the amount of \$142,300. Cheryl Hartwell of the Michigan Justice Training Commission stated there is no cash match involved for this grant.

The purpose of this grant is to produce three training programs in a CD-ROM format capable of being accessed at the command via the Department's Intra-Net. The proposed training will address three areas; use of force, pursuit driving, prisoner care and custody. In addition to providing a basis of understanding for existing legislation and department policy, this training will enhance decision making skills through the use of practical exercises. This will allow the Department to ensure that this important training is delivered to each member of the department annually. Inspector Krystal Harris of the Detroit Metropolitan Police Academy is the Project Director for this grant.

The Board of Police Commissioners has approved this grant. Therefore, it is requested that your Honorable Body adopt the attached resolution authorizing the City of Detroit to accept this grant. **Employees Benefit Plan of the
City of Detroit**

March 20, 2001

Honorable City Council:

Re: I. 2001-2002 Health Care Plan Rate Schedules for City of Detroit Retirees.

II. Retiree Lawsuit Settlement and Special Limited Open Enrollment for Some Retirees.

RETIREES RATES

Retiree Plans Offered. Rates have been submitted by the six (6) health care plans that provide medical benefits to retired City of Detroit employees and their eligible spouses. New rates are effective July 1, 2001, and will remain in effect through June 30, 2002. These rates have been approved by the Employees Benefit Plan Governing Body on March 20, 2001, and are being submitted for final approval by City Council. The plans and the companies who are offering them are as listed below and all plans are available for selection by all retirees, except for the special limitations noted for plans #5 and #6 and the lawsuit settlement terms

applicable to a specified group of retirees as explained below in this letter.

- 1) Blue Cross Blue Shield of Michigan (BCBSM); ("Traditional" plan)
- 2) Health Alliance Plan; (HMO)
- 3) Blue Care Network (BCBSM); (HMO)
- 4) OmniCare Health Plan; (HMO)
- 5) Coalition of Public Safety Employees Health Trust (COPS Trust) Banker's Life Modified Plan; [*DPOA-retired* and *DPCOA-retired* members only]
- 6) Bankers Life (*as provided through the COPS Trust*); ("Traditional" plan for certain police and fire retirees, only)

Rates and Cost Sharing. Attached to this letter are reports of the 2001-2002 rates the providers are charging, the amount that the City will be required to pay and the amount of the retirees' contributions for the most common forms of coverage (1 Person not with Medicare, 1 Person with Medicare, 2 Persons not with Medicare, 2 Persons with Medicare, and 1 Person with Medicare and the Spouse without Medicare). These rates have been reviewed by the Employees Benefit Plan Governing Board and recommended for approval by the Council. As you may recall from past reports, cost sharing between the City and most persons who retired after January 1, 1984, is determined primarily by calculating from the Blue Cross Ward service rate changes which have occurred since January 1, 1984.

There are several points to be highlighted. First, again in this year's proposed Budget, money will be allocated to reduce retiree medical plan contributions. As in the past, this money will 1) allow all retirees on Medicare to benefit from a beneficial change in the base rate amount used to calculate their portion of the contribution to hospitalization/medical plan costs, and 2) permit those retirees who retired prior to July 1, 1987, to have their medical plan contributions reduced by 50% for this Fiscal Year. These budgetary allocations are intended to assist our older and needier group of retirees.

Lawsuit Settlement and Special Limited Open-Enrollment for Some Retirees. A lengthy lawsuit involving certain complex cost-sharing and enrollment issues in conjunction with the C.O.P.S. Trust medical plans that took effect on May 1, 1995, as a result of the 1995 Act 312 Arbitration award which settled contract bargaining between the City of Detroit and the Detroit Police Officers Association (DPOA) is expected to be

approved by all parties and the Wayne County Circuit Court tomorrow, March 21, 2001. The settlement agreement will require the entire plaintiff's class of retirees (those who were represented by the DPOA at the time they retired) to switch out of the Bankers Life Traditional Plan they now are in since C.O.P.S. Trust and Bankers Life will no longer be offering that coverage to that group of retirees. The lawsuit agreement requires that a special health care open enrollment for a limited number of police officer and fire fighter-*allied* retirees be conducted simultaneously with the health care open enrollment to be conducted for active employees beginning on April 2, 2001. In this special open enrollment, the retired police and fire fighter-*allied* personnel will have all of the other retiree plans to choose from.

As you probably know, the normal open enrollment for retirees takes place in October-November and thus the Benefits Administration Office had to take the necessary steps to 1) conduct the active employees' open enrollment earlier in the year (normally occurs in the month of May), 2) prepare for the additional work that will result as approximately 2,186 additional enrollment forms will be returned from the plaintiffs class of retirees, and 3) prepare for the timely processing of all such additional forms prior to the July 1, 2001, date when the changes must take place.

Any questions concerning any of these matters should be directed to Roger N. Cheek, Labor Relations Director.

Respectfully submitted,
 ROGER N. CHEEK
 Labor Relations Director
 NICHOLAS DEGEL
 Executive Secretary

Trust) offering coverages through Bankers Life and Casualty for providing hospitalization and medical insurance for retirees from City employment, be and is hereby approved in accordance with this resolution and the foregoing communication.

March 6, 2001

Honorable City Council:
Re: Authorization to submit a grant to the Michigan Department of Natural Resources for the rehabilitation of the Detroit Recreation Camp.

The Detroit Recreation Department is hereby requesting the authorization of your Honorable Body to submit a grant application to the Michigan Department of Natural Resources, for funding under the 2001 Recreation Grants Program, specifically the local recreation portion of the Michigan Natural Resources Trust Fund.

DETROIT RECREATION CAMP REHABILITATION

The Detroit Recreation Camp which operated in Brighton, Michigan since 1932, had to be closed after the 1995 summer season because of the need for extensive renovation and construction work. This grant would enable the Department to do the following:

- Construct new fishing pier
- Construct 2 new campfire circles
- Relocate the existing swimming beach
- Restore the original beach site to wetlands

Renovate the recreation hall
Install trails and walkways
The completion of this work would enable the Department to re-open the camp and begin year round operation of the facility. These improvements will make the camp accessible not only to the children and seniors of the Detroit area, but to public and private groups who wish to enjoy a natural woodlands environment, complete with a 41 acre scenic lake.

With your authorization, the Department will submit a request to the Michigan Department of Natural Resources in the amount of \$468,750. The City match of \$156,250 will come from the Department's Capital Budget. It will be available in 2001 Appropriation #00905 and Organization #391430.

We respectfully request your approval to apply for this grant by adopting the following resolution, with a Waiver of Reconsideration.

Respectfully submitted,

Honorable City Council:

Re: Beverly Morgan v City of Detroit, a Municipal Corporation Case No. 00-007934 CZ, File No. 000252 (LAH), CLIS No. 007617

On March 6, 2001, a mediation panel evaluated the above-captioned lawsuit and awarded Twelve Thousand Dollars (\$12,000.00) in favor of Plaintiff. The parties have until April 3, 2001 to either accept or reject the mediation evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the mediation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the mediation award; and, in the event that

Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Twelve Thousand Dollars (\$12,000.00) payable to Beverly Morgan and her attorney, Property Casualty Group, P.C. to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 00-007934 CZ, approved by the Law Department.

For the expanding grandeur of Creation, worlds known and unknown, galaxies beyond galaxies, filling us with awe and challenging our imaginations;

We give thanks for this day.

For this fragile planet earth, its times and tides, its sunsets and seasons:

We give thanks for this day.

For the joy of human life, its wonders and surprises, its hopes and achievements:

We give thanks for this day.

For our human community, our common past and future hopes, our oneness transcending all separation, our capacity to work for peace and justice in the midst of hostility and oppression:

We give thanks for this day.

For high hopes and noble causes, for faith without fanaticism, for understanding of views not shared:

We give thanks for this day.

For all who have laboured and suffered for a fairer world, who have lived so that others might live in dignity and freedom:

We give thanks for this day.

For human liberty and sacred rites; for opportunities to change and grow, to affirm and choose:

Re: Basheba Washington v City of Detroit, Case No.: 00-019331-NI, File No.: 00-1390 (MMM), CLIS No. 007875

On March 21, 2001, a mediation panel evaluated the above-captioned lawsuit and awarded Seven Thousand Five Hundred Dollars (\$7,500.00) in favor of Plaintiff. The parties have until April 18, 2001 to either accept or reject the mediation evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Honorable City Council:

Re: Valerie Lampkin-Perry, et al. v. City of Detroit, et al. W.C.C.C. Case No. 00-003054 NZ

On March 5, 2001, a mediation panel evaluated this case at \$45,000.00 against the City of Detroit. The parties have until April 2, 2001, to either accept or reject the mediation award. The failure to file a written acceptance or rejection within this period constitutes a rejection. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial; however, the party rejecting the evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned complaint, the facts and particulars of which are set forth in a confidential attorney-client privileged memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that an acceptance of the mediation evaluation in the amount of Forty Five Thousand Dollars (\$45,000.00) is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial; however, the amount of the award is fair and reasonable and an eventual settlement of this matter in this amount is prudent.

We, therefore, request authorization to accept the mediation evaluation and to direct the Finance Director to issue her draft in the amount of Forty Five Thousand Dollars (\$45,000.00) payable to Valerie Lampkin-Perry and her attorney, Christopher J. Trainor, to be delivered upon receipt of the notice of mediation

settlement, properly executed Releases and Order of Dismissal.

Honorable City Council:

Re: James Boyer v. City of Detroit. Case No.: 00-010238-NI, File No.: 00-1772 (MM), CLIS No.: 007671.

On February 6, 2001, a mediation panel evaluated the above-captioned lawsuit and awarded Fifteen Thousand Dollars (\$15,000.00) in favor of Plaintiff. The parties have until April 24, 2001 to either accept or reject the mediation evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the mediation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the mediation award; and, in the event that Plaintiff accepts the award, to direct the Finance Director to issue a draft in the amount of Fifteen Thousand Dollars (\$15,000.00) payable to James Boyer and his attorney, Joel H. Kaufman, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 00-010238-NI, approved by the Law Department.

Re: Ronald W. Turner v. City of Detroit, et al. W.C.C.C. Case No. 00-002276 NO.

On February 27, 2001, a mediation panel evaluated this case at \$35,000.00 against the City of Detroit. The parties have until March 27, 2001, to either accept or reject the mediation award. The failure to file a written acceptance or rejection within this period constitutes a rejection. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial, however, the party rejecting the evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned complaint, the facts and particulars of which are set forth in a confidential attorney-client privileged memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that an acceptance of the mediation evaluation in the amount of Thirty-Five Thousand Dollars (\$35,000.00) is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the Plaintiff has the right to reject the award and proceed to trial, however, the amount of the award is fair and reasonable and an eventual

settlement of this matter in this amount is prudent.

We, therefore, request authorization to accept the mediation evaluation and to direct the Finance Director to issue her draft in the amount of Thirty-Five Thousand Dollars (\$35,000.00) payable to Ronald W.
