Honorable City Council:

Re: 2000-01 ACT 51 Motor Vehicle Highway Funds.

Each year the City of Detroit receives a distribution of Motor Vehicle Highway funds from the State of Michigan in accordance with ACT 51, Public Act of 1951, as amended.

Past experience has indicated that the level of expenditure required to maintain the local streets has been somewhat greater than the amount of funds received for this purpose.

Section 13(6) of ACT 51, P.A. 1951 as amended, however, allows a city to use on the local street system up to 25 percent per annum of funds returned to the City for its major street system.

To take advantage of this allowable transfer of funds to more accurately reflect expenditures of the street system, we respectfully request that your Honorable Body adopt the attached resolution, which authorizes the Finance Director to accomplish the transfer.

Honorable City Council:

Re: Grand River Avenue (Hwy. M-5) Milling and Resurfacing along Hwy M-5 from M-39 (Southfield Fwy) to Hwy I-96 (Jeffries Freeway) State Agreement #98-5243

On May 19, 1999 (JCC Page 1537) your Honorable Body approved Contract Purchase Order #2504662 with the Michigan Department of Transportation which provided for an estimated amount of \$3,737,570 for the City's share for the project described below:

PART A-Federal, State, and City-DPW Participation

Milling and resurfacing along Hwy. M-5 (Grand River Ave.) from Hwy M-39 (Southfield Fwy.) To Hwy. I-96 (Jeffries Freeway) including curb and gutter reconstruction: together with necessary related work: located within the corporate limits of the city.

PART B-Watermain Construction (100% DWSD)

The replacement of approximately 8120m of 150mm thru 400mm watermain and gutter reconstruction; together with necessary related work; located within the limits of the PART A portion of the project, including pavement removal and replacement with bituminous base in that section of the parking lane (2.75m wide) that is directly above the proposed watermain

trench; together with necessary related work; located within the corporate limits of the City.

Based on the bid price, project is anticipated to cost \$9,354,407. The estimated city share of revised cost of Part B would now be \$4,228,085 including Preliminary Engineering and Construction Engineering, an increase of \$607,715 from the originally estimated city share of \$3,620,370.

We therefore, recommend adoption of the attached resolution, which authorizes the Finance Director to increase the amount of Contract Purchase Order No. 2504662 from \$3,737,570 to \$4,345,285. The increase will come from Water Department Appropriation No. 00985, water bond fund series-19.

Be and the same is hereby vacated as a public alley and is hereby converted into a private easement for public utilities of the full width of the alley, which easement shall be subject to the following covenants and agreements, uses, reservations and regulations, which shall be observed by the owners of the lots abutting on said alley and by their heirs, executors, administrators and assigns, forever to wit:

First, Said owners hereby grant to and for the use of the public an easement or right-of-way over said vacated public alley herein above described for the purposes of maintaining, installing, repairing, removing, or replacing public utilities such as water mains, sewers, gas lines or mains, telephone, electric light conduits or poles or things usually placed or installed in a public alley in the City of Detroit, with

the right to ingress and egress at any time to and over said easement for the purpose above set forth,

Second, Said utility easement or right-of-way in and over said vacated alley herein above described shall be forever accessible to the maintenance and inspection forces of the utility companies, or those specifically authorized by them, for the purpose of inspecting, installing, maintaining, repairing, removing, or replacing any sewer, conduit, water main, gas line or main, telephone or light pole or any utility facility placed or installed in the utility easement or right-of-way.  Re: Petition No. 2400 — MWI Inc., requesting vacation of the alley in the area of Vernor Hwy., and Lansing.
 Petition No. 2400 of "MWI Inc.," requests to outright vacate the westerly portion of the East-West 20 feet wide alley easement in the block bounded by McKinstry Avenue, 60 feet wide, Christiancy Avenue, 50 feet wide, Lansing Avenue, 60 feet wide and W. Vernor Highway, 66 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearances) and report. This is our report:

The Detroit Water and Sewerage Department (DWSD) reports there is an existing 10-inch sewer located in the easement. However, DWSD have no objection to the proposed out-right vacation of the easement provided that the petitioner owns all the property adjacent to the easement. In addition, the sewer located in the easement will no longer be the responsibility of the DWSD and will become the property and responsibility of the petitioner.

Ameritech/Michigan Bell Telephone Company, Comcast Cable, Detroit Edison reported involvement with estimated costs of removing and rerouting

services to maintain service to customers.

The property owner has made satisfactory arrangements for said estimated costs for removing and rerouting services to maintain service to customers.

All other city departments and private utility companies have reported no involvement or satisfactory arrangements have been made.

Whenever it becomes necessary to discontinue use of the pave alley return entrance into Lansing Avenue, such removal and construction of new curb and sidewalk must be done under City Engineering Division — DPW specifications, permits and inspection with all cost borne by the property owner.

Finance Department

March 30, 2001

Honorable City Council:

Re: Amended and Restated Resolution authorizing the issuance of not to exceed \$145,000,000 General Obligation Bonds, Series 2001-A and General Obligation Refunding Bonds, Series 2001-B.

The attached Resolution authorizes the issuance and sale of the subject Bonds for the purpose of providing approximately \$60 million in new money to pay the costs associated with certain public capital improvement projects. In addition, the Resolution authorizes up to an additional \$85 million to be used for refunding certain of the currently outstanding Unlimited Tax General Obligation Bonds.

This resolution amends and restates a resolution previously approved by your Honorable Body on November 29, 2000. However, because of a continued decline in interest rates, additional amounts of previously issued General Obligation Bonds may be refinanced, thereby producing interest savings. The actual amount of Bonds will likely be reduced, depending on which Bonds may be economically refunded at the time of the actual sale.

It is anticipated that the sale will occur later this spring. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,
J. EDWARD HANNAN

Finance Director

Section 301. **Authorization of Bonds**

and Pledge. (a) The City hereby authorizes the issuance of the Bonds in such series in such principal amounts as shall be confirmed in the Sale Order, not in excess of the Maximum Aggregate Principal Amount in accordance with Section 302. The Bonds shall be general obligations of the City, and the unlimited tax, full faith, credit and resources of the City are hereby irrevocably pledged for the prompt payment of the principal of and interest on the Bonds. The City pledges to pay the principal of and interest on the Bonds from the proceeds of an annual levy of ad valorem taxes on all taxable property in the City without limitation as to rate or amount for the payment thereof.

(b) Bonds of the City aggregating the principal amount of not to exceed Sixty Million Dollars (\$60,000,000), shall be issued for the purpose of financing certain portions of the costs of the City relating to the following Prior Voter Authorized Projects in the following not to exceed amounts as previously appropriated by the Council: (i) \$26,094,000 for Neighborhood/Economic Development and Housing Rehabilitation Programs; (ii) \$11,168,000 for Recreation, Zoo and Cultural Facilities Improvements; (iii) \$2,029,500 for Fire — Buildings and Sites; (iv) \$7,155,000 for Public Lighting System Betterments, Improvements and Extensions; (v) \$5,345,000 for the Detroit Institute of Arts Improvements, (vi) \$2,234,000 for Police Buildings and Sites; (vii) \$1,750,000 for Library Buildings and Sites; (viii) \$2,000,000 for Department of Public Works Improvements; (ix) \$1,224,500 for Public Health Facilities Improvements (x) \$1,000,000 for Transportation; and paying all of a portion of the costs of issuance of such Bonds. Anything in this Resolution to the contrary notwithstanding, in no event shall the initial proceeds of such Bonds be used to finance Projects in amounts which have not been appropriated by the Council. Unless issued in more than one series as determined by the Finance Director in the Sale Order for such series and designated as provided in Section 302(a) hereof, the Bonds for the purposes described in this Section 301(b) shall be designated "GENERAL OBLIGATION BONDS

(UNLIMITED TAX), SERIES 2001-A" (the "Series 2001-A Bonds").

(c) Bonds of the City aggregating the principal amount of not to exceed Fifty Million Dollars (\$50,000,000) shall be issued in the discretion of the Finance Director for the purpose of refunding all or a portion of the Refunded Bonds and paying the costs of issuance of such series of Bonds in such amounts and maturities as shall be determined by the Finance Director and confirmed in the Sale Order; provided, however, that in the discretion of the Finance Director, if it is economically advantageous and expedient for the City, the aggregate principal amount of the refunding bonds may be increased to \$85,000,000 subject to the approval of the Michigan Department of Treasury. Unless issued in more than one series and designated as provided in Section 302(a) hereof, the refunding Bonds described in this Section 301(c) shall be designated "GENERAL OBLIGATION REFUNDING BONDS (UNLIMITED TAX), SERIES 2001-B" (the "Series 2001-B Bonds", collectively with the Series 2001-A Bonds, the "Bonds").

Section 302. Designations, Dates, Interest Rates, Maturities, Redemption and Other Terms of the Bonds.

(a) The Bonds of each series shall be designated as provided in Section 301 and may bear such later dates and additional or alternative designations as the Finance Director may determine in the Sale Order, shall be issued in fully registered form and shall be consecutively numbered from "RA-1" and "RB-1" upwards, respectively, unless otherwise provided by the Finance Director in the Sale Order. The Bonds shall be dated and issued in such denominations, all as determined by the Finance Director and confirmed by the Finance Director in the Sale Order.

(b) The Bonds of each series shall mature on such dates and shall bear interest at such rates on a fixed and/or variable and tax-exempt or taxable basis not exceeding the Maximum Interest Rate, payable on such dates as shall be determined by the Finance Director and confirmed by the Finance Director in the Sale Order. Unless otherwise provided by the Finance Director in the Sale Order, interest on the Bonds shall be calculated on the basis of a 360 day year consisting of twelve, 30 day months. Notwithstanding the foregoing, the Finance Director is authorized to determine and confirm in the Sale Order whether all or any portion of the Bonds shall be issuable as capital appreciation bonds.

(c) Unless otherwise provided by the Finance Director in the Sale Order, interest on the Bonds of each series shall be payable on the first day of each April and October (such first day of April or October

or such other day or days of any month or months as the Finance Director shall determine in the Sale Order on which interest shall be scheduled to be paid on Bonds, an "Interest Payment Date"), commencing on October 1, 2001 or such other Interest Payment Date or dates as shall be determined by the Finance Director in the Sale Order.

(d) The Bonds shall be payable, as to principal and interest, in lawful money of the United States of America. Except as may be otherwise determined by the Finance Director in the Sale Order, interest on Bonds shall be payable to the Registered Owner as of the 15th day of the month, whether or not a Business Day (a "Regular Record Date"), prior to each Interest Payment Date. Interest on Bonds shall be payable to such Registered Owners by check or draft drawn on the Paying Agent on each Interest Payment Date and mailed by first class mail or, upon the written request of the Owner of \$1,000,000 or more in aggregate principal amount of Bonds (with complete wiring instructions no later than the Regular Record Date for such Interest Payment Date), by wire transfer by the Paying Agent to such Owner. Such a request may provide that it will remain in effect with respect to subsequent Interest Payment Dates unless and until changed or revoked at any time prior to a Regular Record Date by subsequent written notice to the Paying Agent.

(e) Interest on Bonds not punctually paid or duly provided for on an Interest Payment Date shall forthwith cease to be payable to the Registered Owners on the Regular Record Date established for such Interest Payment Date, and may be paid to the Registered Owners as of the close of business on a date fixed by the Paying Agent (a "Special Record Date") with respect to the payment of such defaulted interest to be fixed by the Paying Agent, or may be paid at any time in any other lawful manner. The Paying Agent shall give notice to the Registered Owners at least seven days before any such Special Record Date.

(f) The principal of the Bonds shall be payable to the Owners of the Bonds upon the presentation of the Bonds to the Paying Agent at the principal corporate trust office of the Paying Agent.

(g) The Bonds shall be subject to redemption and/or tender for purchase prior to maturity or shall not be subject thereto, upon such terms and conditions as shall be determined by the Finance Director and confirmed in the Sale Order, provided that any premium payable in connection with the optional redemption of the Bonds shall not exceed 3%.

Unless waived by any registered owner of Bonds to be redeemed, official notice of redemption shall be given by the Bond

Registrar and Paying Agent on behalf of the City. Such notice shall be dated and shall contain at a minimum the following information: original issue date; maturity dates; interest rates, CUSIP numbers, if any; certificate numbers, and in the case of partial redemption, the called amounts of each certificate; the redemption date; the redemption price or premium; the place where Bonds called for redemption are to be surrendered for payment; and that interest on Bonds or portions thereof called for redemption shall cease to accrue from and after the redemption date.

In addition, further notice shall be given by the Bond Registrar and Paying Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner defeat the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

(h) In making the determinations set forth in this Resolution with respect to the Sale Order for the issuance and sale of the Bonds, the Finance Director shall be limited to the parameters as follows:

(1) The first maturity date or mandatory sinking fund redemption date for the Bonds shall not be later than five (5) years from the date of issuance (except for Bonds issued in more than one series, which shall have first maturity dates not later than five (5) years from the date of issuance of each series as determined by the Finance Director at the time of sale thereof), and the final maturity dates for the Series 2001-A Bonds and the Series 2001-B Bonds shall not be later than 30 years from their dated date.

(2) The compensation to be paid to the Underwriters of each series of the Bonds shall not exceed 2% of the original principal amount of the related series of Bonds.

(3) Unless the Finance Director determines to issue all or a part of the Bonds as capital appreciation bonds subject to the approval of the Michigan Department of Treasury if required by law, the amount of any original issue discount with respect to each series of the Bonds shall not exceed 10% of the original principal amount of the related series of Bonds.

(4) To the extent permitted by applicable law, each series of the Bonds may be sold with an original issue premium in an amount as determined by the Finance Director.

(5) The net present value of the debt service on the Series 2001-B Bonds shall be less than the net present value of the debt service on the Refunded Bonds and/or the purpose of the refunding of the Refunded Bonds is to improve the consolidated debt repayment schedule for all outstanding general obligation bonds.

Section 303. **Execution, Authentica-**

tion and Delivery of Bonds. The Bonds shall be executed in the name of the City by the manual or facsimile signatures of the Mayor and the Finance Director and authenticated by the manual signature of the Finance Director or an authorized representative of the Bond Registrar and Paying Agent, as the case may be, and the seal of the City (or a facsimile thereof) shall be impressed or imprinted on the Bonds. After the Bonds have been executed and authenticated for delivery to the original purchaser thereof, they shall be delivered by the Finance Director to the purchasers thereof upon receipt of the purchase price. Additional Bonds bearing the manual or facsimile signatures of the Mayor and the Finance Director and upon which the seal of the City (or a facsimile thereof) is impressed or imprinted may be delivered to the Bond Registrar and Paying Agent for authentication and delivery in connection with the exchange or transfer of Bonds. The Bond Registrar and Paying Agent shall indicate on each Bond the date of its authentication.

Section 304. Authentication of the Bonds. (a) No Bond shall be entitled to any benefit under this Resolution or be valid or obligatory for any purpose unless there appears on such Bond a Certificate of Authentication substantially in the form provided for in Section 307 of this Resolution, executed by an authorized signatory of the Paying Agent by manual signature, and such certificate upon any Bond shall be conclusive evidence, and the only evidence, that such Bond has been duly authenticated and delivered hereunder.

(b) The Paying Agent shall manually execute the Certificate of Authentication on each Bond upon receipt of a written direction of the Finance Director of the City to authenticate such Bond.

Section 305. Transfer of Registration and Exchanges. (a) The registration of each Bond is transferable only upon the Bond Registry by the Registered Owner thereof, or by his attorney duly authorized in writing, upon the presentation and surrender thereof at the designated corporate trust office of the Paying Agent together with a written instrument of transfer satisfactory to the Paying Agent, duly executed by the Registered Owner thereof or his attorney duly authorized in writing, and thereupon one or more fully executed and authenticated Bonds in any authorized denominations of like maturity and tenor, in equal aggregate principal amount shall be issued to the transferee in exchange thereof.

(b) Each Bond may be exchanged for one or more Bonds in equal aggregate principal amount of like maturity and tenor in one or more authorized denominations, upon the presentation and surrender thereof at the principal corporate trust

office of the Paying Agent together with a written instrument of transfer satisfactory to the Paying Agent, duly executed by the Registered Owner hereof or his attorney duly authorized in writing.

Section 306. Regulations with Respect to Exchanges and Transfers. (a) In all cases in which the privilege of exchanging Bonds or transferring the registration of Bonds is exercised, the City shall execute and the Paying Agent shall authenticate and deliver Bonds in accordance with the provisions of this Resolution. All Bonds surrendered in any such exchanges or transfers shall be forthwith canceled by the Paying Agent.

(b) For every exchange or transfer of Bonds, the City or the Paying Agent may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and, except as otherwise provided in this Resolution, may charge a sum sufficient to pay the costs of preparing each new Bond issued upon such exchange or transfer, which shall be paid by the person requesting such exchange or transfer as a condition precedent to the exercise of the privilege of making such exchange or transfer.

(c) Neither the City nor the Paying Agent shall be required to exchange or transfer any Bond during the period commencing on a Regular Record Date and ending on the related Interest Payment Date.

Section 307. Form of the Bonds. The Bonds shall be in substantially the following form with such insertions, omissions, substitutions and other variations as shall not be inconsistent with this Resolution or required or permitted by the Sale Order or as approved by the Finance Director:

Section 308. **Registration.** The City and the Paying Agent may treat and consider the Bondowner of any Bond as the absolute owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal (and premium, if any) thereof and interest thereon and for all other purposes whatsoever, and all such payments so made to such Bondowner or upon his order shall be valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid.

Section 309. **Mutilated, Destroyed, Stolen or Lost Bonds.** (a) Subject to the provisions of Act 354, Public Acts of Michigan, 1972, as amended and any other applicable law, if (i) any mutilated Bond is surrendered to the Paying Agent or the City and the Paying Agent and the City received evidence to their satisfaction of the destruction, loss or theft of any Bond and (ii) there is delivered to the City and the Paying Agent such security or indemnity as may be required by them to save each of them harmless, then, in the absence of notice to the City or the Paying Agent that such Bond has been acquired by a bona fide purchaser, the City shall execute and the Paying Agent shall authenticate and deliver in exchange for or in lieu of any such mutilated, destroyed, lost or stolen Bond, a new Bond of like tenor and principal amount, bearing a number not contemporaneously outstanding.

(b) If any such mutilated, destroyed,

lost or stolen Bond has become or is about to become due and payable, the City in its discretion may, instead of issuing a New Bond, pay such Bond.

(c) Any new Bond issued pursuant to this Section in substitution for a Bond alleged to be mutilated, destroyed, stolen or lost shall constitute an original additional contractual obligation on the part of the City, and shall be equally secured by and entitled to equal proportionate benefits with all other Bonds issued under this Resolution.

Section 310. Book-Entry Only System Permitted. (a) If determined by the Finance Director, the Bonds shall be issued to a securities depository selected by the Finance Director (the "Security Depository") to be held pursuant to the book-entry-only system maintained by the Security Depository and registered in the name of the Security Depository or its nominee. Ownership interests in Bonds held under such book-entry-only system shall be determined pursuant to the procedures of the Security Depository and Article 8 of the applicable Uniform Commercial Code (such persons having such interests, "Beneficial Owners").

(b) If (i) the City and the Paying Agent receive written notice from the Security Depository to the effect that the Security Depository is unable or unwilling to discharge its responsibilities with respect to the Bonds under the book-entry-only system maintained by it or (ii) the Finance Director determines that it is in the best interests of the Beneficial Owners that they be able to obtain Bonds in certificated form, then the City may so notify the Security Depository and the Paying Agent, and, in either event, the City and the Paying Agent shall take appropriate steps to provide the Beneficial Owners with Bonds in certificated form to evidence their respective ownership interests in the Bonds. Whenever the Security Depository requests the City and the Paying to do so, the Finance Director on behalf of the City and Paying Agent will cooperate with the Security Depository in taking appropriate action after reasonable notice to make available Bonds registered in whatever name or names the Beneficial Owners transferring or exchanging Bonds shall designate.

(c) Notwithstanding any other provision of this Resolution or the Sale Order to the contrary, so long as the Bonds are held pursuant to the book-entry-only system maintained by the Security Depository:

(i) all payments with respect to the principal and interest on such Bonds and all notices with respect to such Bonds shall be made and given, respectively, to the Security Depository as provided in the representation letter from the City and the Paying Agent to the Security Depository with respect to such Bonds; and

(ii) all payments with respect to principal of the Bonds and interest on the Bonds shall be made in such manner as shall be prescribed by the Security Depository.

**ARTICLE IV
SPECIAL COVENANTS**

Section 401. Tax Exemption Covenant. The City covenants that it will not take any action, or fail to take any action required to be taken, if taking such action or failing to take such action would adversely affect the general exclusion from gross income of interest on the Bonds (determined by the Finance Director to be issued on a tax-exempt basis), from federal income taxation under the Code.

Section 402. Arbitrage Covenant. (a) The City will not directly or indirectly (1) use or permit the use of any proceeds of the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) or other funds of the City or (2) take or omit to take any action required by Section 148(a) of the Code in order to maintain the exclusion from gross income of the interest on the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes. To that end, the City will comply with all requirements of Section 148 of the Code to the extent applicable to the Bonds and the requirements set forth in the Non-Arbitrage and Tax Compliance Certificate of the City.

(b) Without limiting the generality of subsection (a), above, the City agrees that there shall be paid by the City from time to time all amounts, if any, required to be rebated to the United States pursuant to Section 148(f) of the Code. This covenant shall survive payment in full or defeasance of the Bonds.

(c) Notwithstanding any provision of this Section, if the City obtains an opinion of Bond Counsel to the effect that any action required under this Section is no longer required, or that some further action is required, to maintain the exclusion from gross income of the interest of the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes pursuant to Section 103 of the Code, the City may conclusively rely on such opinion in complying with the provisions hereof.

**ARTICLE V
FUNDS AND ACCOUNTS;
DISPOSITION OF BOND PROCEEDS**

Section 501. Establishment of Accounts and Funds. The City hereby establishes and creates the following special, separate and segregated accounts and funds which shall be held for and on behalf of the City by a bank or banks or other financial institution which the Finance Director or Treasurer of the City designates as depository of the City:

- A. Debt Retirement Fund;
- B. Bond Issuance Fund;
- C. Construction Fund; and
- D. Escrow Fund.

The Finance Director is hereby authorized to establish such accounts, sub-accounts or funds as shall be required for each series of the Bonds, if any, to accommodate the requirements of such series of Bonds, including, but not limited to, such accounts, subaccounts or funds necessary to facilitate the allocation and use of bond proceeds to finance the Projects or the purchase and payment of variable rate bonds.

Section 502. Debt Retirement Fund. From the proceeds of the sale of the Bonds there shall be set aside in the Debt Retirement Fund the accrued interest and premium, if any, received from the purchasers of the Bonds at the time of delivery of the Bonds. General funds of the City, proceeds of all taxes levied pursuant to Section 301 hereof and any amounts transferred from the Construction Fund under Section 505 hereof shall be used to pay the principal of and interest on the Bonds when due. The foregoing amounts shall be placed in the Debt Retirement Fund and held in trust by the Paying Agent, and so long as the principal of or interest on the Bonds shall remain unpaid, no moneys shall be withdrawn from the Debt Retirement Fund except to pay such principal and interest. Any amounts remaining in the Debt Retirement Fund after payment in full of the Bonds and the fees and expenses of the Paying Agent shall be retained by the City to be used for any lawful purpose.

Section 503. Bond Issuance Fund. From the proceeds of the Bonds there shall be set aside in the Bond Issuance Fund a sum sufficient to pay the costs of issuance of the Bonds. Moneys in the Bond Issuance Fund shall be used solely to pay expenses of issuance of the related series Bonds. Any amounts remaining in the Bond Issuance Fund after payment of issuance expenses shall be transferred to the Construction Fund.

Section 504. Escrow Fund. After making the deposits required by Sections 502 and 503, there shall be deposited from the remainder of the proceeds of the sale of the Series 2001-B Bonds and any moneys transferred by the City at the time of delivery of the Series 2001-B Bonds from the debt retirement fund for the Refunded Bonds, into the Escrow Fund (which shall be maintained in cash or invested in direct obligations of or obligations guaranteed by the United States of America, not redeemable at the option of the issuer), an amount, as hereinafter described, sufficient to pay the principal of and interest on the Refunded Bonds as they become due and, except as otherwise herein provided, shall be used only for such pur-

poses. The Escrow Fund shall be irrevocably held by U.S. Bank Trust National Association, Detroit, Michigan as escrow trustee (the "Escrow Trustee") in trust pursuant to an escrow deposit agreement between the City and the Escrow Trustee (the "Escrow Agreement"), which Escrow Agreement shall irrevocably direct the Escrow Trustee to take all necessary steps to pay the principal of and interest on the Refunded Bonds when due and to call for redemption the Refunded Bonds in whole or in part, as and when specified in the Escrow Agreement. The amounts, including the investments thereof, held in the Escrow Fund shall be such that the cash and investments and income received thereon will be sufficient, without any reinvestment, to pay the principal of and interest on the Refunded Bonds when due at maturity or by redemption as required by this Section. Any balance remaining in the Escrow Fund after payment in full of principal and interest on the Refunded Bonds shall be applied as provided in the Escrow Agreement.

The Escrow Trustee means and includes any company into which the Escrow Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which the Escrow Trustee may sell or transfer all or substantially all of its corporate trust business, provided such company shall be a trust company or bank which is qualified to be a successor to the Escrow Trustee as determined by the Finance Director, shall be authorized by law to perform all the duties imposed upon it by this Resolution, shall be the successor to the Escrow Trustee without the execution or filing of any paper or the performance of any further act, anything herein to the contrary notwithstanding.

The Council hereby authorizes the Finance Director to negotiate and approve the form of and to execute the Escrow Agreement with the Escrow Trustee for and on behalf of the City.

Section 505. Construction Fund. After making the deposits required by Sections 502 and 503 the remainder of the proceeds of the sale of the Series 2001-A Bonds shall be deposited in the Construction Fund. Except for investment pending disbursement and as hereinafter provided, moneys in the Construction Fund shall be used by the City solely and only to pay the costs of the Projects as such costs become due and payable and, if necessary, to rebate arbitrage earnings, if any, to the United States Department of Treasury as required by the Code. The Finance Director is hereby authorized and directed to expend money from the Construction Fund for costs of the Projects, including reimbursement to the

City for moneys previously expended in anticipation of issuance of the Series 2001-A Bonds, to the extent reimbursement for such Project expenditures has been properly induced by resolution of the City Council in accordance with the Code. Gross proceeds or disposition proceeds, as defined in the regulations under Code Sections 141 and 148, respectively, resulting from any sale of any portion of the Projects shall be deposited in separate accounts established in the Construction Fund and used in the discretion of the Finance Director to pay additional costs of Voter Authorized Projects or transferred to the Debt Retirement Fund and used to pay the principal or interest on the Bonds. The Finance Director shall assure that such gross proceeds or disposition proceeds are invested and expended in accordance with the requirements specified in Section 506 hereof and in the Non-Arbitrage and Tax Compliance Certificate. Upon payment of all costs of the Projects, any balance in the Construction Fund shall be transferred to the Debt Retirement Fund or used in any other manner which in the opinion of nationally recognized bond counsel is permitted by law and which will not cause the interest on the Bonds (issued on a tax exempt basis) to become includible in gross income for federal income tax purposes.

Section 506. **Investment of Monies in the Funds and Accounts.** (a) The Finance Director shall direct the investment of monies on deposit in the Funds and Accounts established hereunder, and the Paying Agent, upon written direction or upon oral direction promptly confirmed in writing by the Finance Director, shall use its best efforts to invest monies on deposit in the Funds and Accounts in accordance with such direction.

(b) Monies on deposit in the Funds and Accounts may be invested in such investments and to the extent permitted by applicable law.

The Paying Agent means and includes any company into which the Paying Agent may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be party or any company to which the Paying Agent may sell or transfer all or substan-

provided that (A) no supplemental resolution amending or modifying the rights or obligations of the Paying Agent shall become effective without the consent of the Paying Agent and (B) the effectiveness of any supplemental resolution is subject to Section 702 to the extent applicable.

Such cash and securities representing such obligations shall be deposited with a bank or trust company and held for the exclusive benefit of the Owners of such Bonds. After such deposit, such Bonds shall no longer be entitled to the benefits of this Resolution (except for any rights of transfer or exchange of Bonds as therein or herein provided for) and shall be payable solely from the funds deposited for such purpose and investment earnings, if any, thereon, and the lien of this Resolution for the benefit of such Bonds shall be discharged.

A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the Projects to reimburse the City for a capital expenditure made pursuant to this Resolution.

(e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Reg. §1.150-1(b), i.e., any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. §1.150-2(h) with respect to abusive uses of such proceeds, including but not limited to using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. §1.148-1) within one year of the reimbursement allocation described in (d) above.

(g) Expenditures for the Projects to be reimbursed from the proceeds of the borrowing that are subject to the limitations set forth in this Resolution do not include (i) costs for the issuance of the debt, (ii) an amount not in excess of the lesser of \$100,000 or five percent (5%) of the proceeds of the borrowing, or (iii) preliminary expenditures not exceeding twenty percent (20%) of the issue price of the borrowing within the meaning of Treas. Reg. §1.150-2(f) (such preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the

The City Engineering Division of the Department of Public Works is hereby requesting that your Honorable Body approve the alterations to the Ford Auditorium and the Ford Underground Garage as related to the reconstruction of Bates Street.

The City Engineering Division has reviewed the Construction Plans and determined that the project will have a minimal impact on the Ford Auditorium.

We respectfully request your approval of the alterations to the Ford Auditorium and the Ford Underground Garage by adopting the following resolution, with a Waiver of Reconsideration.

Respectfully submitted,

SUNDAY JAYESIMI

City Engineer

City Engineering Division — DPW

By Council Member Hood:

Whereas, Posen Construction has applied for a building permit to reconstruct Bates Street and make modifications to adjacent, related facilities at Ford Auditorium and the Ford Auditorium Garage and has requested review and approval of the construction documents for this project; and

Whereas, This project, while primarily a road construction project, is located within a PC (Public Center) zoning district, where City Council approval of the design, appearance or alteration, etc. of any premises is required in accordance with Section 112.0200 of the Zoning Ordinance; and

Whereas, The reconstruction of Bates Street will require both the shortening of the Ford Auditorium canopy and the demolition and subsequent reconstruction of a small portion of the Ford Underground Garage; and

Whereas, This project will provide a new and improved means of access to and from Atwater Street in the Civic Center area; and

Whereas, The proposed project has been reviewed by the City Planning Commission and the Planning and Development Department and found to be consistent with the generally held vision for this area and the spirit and intent of the Public Center Zoning District. Now, Therefore, Be It

Resolved, That the Detroit City Council hereby approves the alterations to the Ford Auditorium and Ford Underground Garage related to the reconstruction of Bates Street, as described in the attached communication from the City Engineering Division of the Department of Public Works, and as documented in plans submitted to the Buildings and Safety Engineering Department and tagged as #9973, with the provision that the Downtown Development Authority, the Department of Public Works, the Planning & Development Department, the City Planning Commission and other appropriate City agencies work together to address the remaining concerns as part of the current construction, where possible, and/or in future efforts as determined.

Honorable City Council:

Re: Kercheval Place Townhomes Payment in Lieu of Taxes (PILOT).

Kercheval Townhomes Limited Dividend Housing Association Limited Partnership (LDHALP) has applied for a mortgage from the City of Detroit-Home Investor Loan program in the amount of \$1,490,000; (\$490,000 at 2% interest for 20 years, \$1,000,000 at 0% interest for 20 years). The LDHALP has also been awarded Low Income Housing Tax Credit.

Kercheval Place Townhomes will consist of 24 newly constructed units; 15 2-bedroom 1-1/2 bath units and 9 3-bedrooms 2-1/2 bath units. The proposed site is located in a residential area within the City of Detroit. The Project area is bound by Kercheval Avenue to the South, parallel alley immediately south of Vernor Highway to the North, Belvidere Avenue to the East and Holcomb Avenue to the West.

MSHDA has indicated that such development receiving low income tax credits but receiving no financing from the Authority are eligible to receive tax abatements pursuant to Section 15a of Act 346 of the Public Act of 1966 as amended.

In order to make the development economically feasible, it is necessary for the development to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346, as amended MCLA 125.1415A).

In accordance with the National Housing Act and the criteria for the award for reservation of Low Income Housing Tax Credits and the Planning and Development Home Investor Loan Program at least twenty percent (20%) or 5 of the units must be occupied by households having income no greater than 50% of the area median income, adjusted for family size. The remaining 80% or 19 of the units must be occupied by households with income that do not exceed 60% of the area median income, adjusted for family size. These income restrictions will be in effect for the longer of the period the Affordable Housing Restrictions apply or the time required under the Tax Credit Program.

Adoption of the resolution by your Honorable Body will satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a four percent (4%) service charge for this housing project.

Respectfully submitted,
WM. PATRICK RYDER
 Assessor

Resolved, That:

The Law Department is authorized to agree to entry of an Order of Dismissal and to enter into an Agreement to Arbitrate in the case of Pashe vs. White, United States District Court — Eastern District of Michigan, Case No. 98 CV 73111, on the following terms and conditions:

A. 1. The parties, by their attorneys, agree to submit this matter to binding arbitration.

2. The parties shall submit to arbitration all matters in controversy raised in the above-named lawsuit.

3. Arbitration shall be conducted in accordance with the Michigan Rules of Evidence, except as may be modified by a majority of the arbitrators, or by stipulation of the parties.

4. The matter shall be arbitrated by a panel of three arbitrators, all of whom shall be practicing Michigan attorneys. The Plaintiff shall select one arbitrator, the Defendant shall select one arbitrator, and the Plaintiff and Defendant shall jointly select the neutral arbitrator. Plaintiff shall pay all fees and costs to the arbitrator *he has/she has/they have* selected. Defendant shall pay all fees and costs to the arbitrator *it has/they have* selected. All fees and costs of the neutral arbitrator shall be paid fifty percent (50%) by Plaintiff and fifty percent (50%) by Defendant.

All other costs and fees, including attorney fees, shall be borne by the party which incurs them.

5. In the event that the neutral arbitrator is unavailable for a hearing on the date set by the parties, either by failure to accept appointment, disqualification, withdrawal, or incapacity, the position shall be filled by agreement of the parties.

6. Pre-hearing briefs shall be required to Plaintiff and Defendant, and shall be submitted to the arbitration panel prior to commencement of the arbitration.

Medical records and reports may be used at the hearing in lieu of the personal

appearance of physicians, medical care providers or records custodians.

7. Plaintiff shall recover, at a minimum, the sum of Ten Thousand Dollars and No Cents (\$10,000.00).

The maximum amount of any award to the Plaintiff shall be in the amount of One Hundred Fifty Thousand Dollars and No Cents (\$150,000.00).

8. A decision of two of the three arbitrators shall be binding.

Any award under \$10,000.00 shall be interpreted to be in the amount of \$10,000.00.

Any award in excess of \$150,000.00 shall be interpreted to be in the amount of \$150,000.00.

There shall be no costs, fees or interest taxable with respect to the award rendered by the arbitrators.

The award of the arbitrators shall represent a full and final settlement of any amounts due and owing to Plaintiff for any and all claims arising out of the incident on June 27, 1996 at or near the entrance ramp of John C. Lodge North of Fort.

9. Neither the "high-low" amounts nor the mediation award shall be disclosed to the arbitrators. Disclosure of the "high-low" amounts or the mediation award to the arbitrators shall render the arbitration agreement voidable by any non-disclosing party.

10. Discovery proceedings may continue, and each party shall have the opportunity to take "discovery only" depositions of the opponent's experts, to the extent that such depositions have not already been completed. The parties shall be able to take depositions of parties or witnesses for use as evidence at arbitration, without regard to witness availability.

11. The parties agree that they will faithfully observe the Agreement to Arbitrate, and that they will abide by and satisfy the award rendered by the arbitrators. In the event that any party refuses to abide by the arbitrators' decision, the other party may petition the Court to confirm the award and enter judgment thereon.

12. There shall be no need to have any proceedings convened by the arbitrators recorded. However, if one of the parties wishes to have the proceedings recorded, then any costs incurred shall be borne exclusively by such party.

B. Promptly after the arbitrators announce their decision, the Law Department shall inform City Council in writing of that decision.

C. Upon certification by the Law Department that the arbitrators have announced a decision requiring the City to pay part of or all of the award due to the Plaintiff, the Finance Director is authorized to issue a draft in favor of Claudia & Audrey Paschke and *their* attorneys,

Gregory J. Rohl, of Rohl & Associates, and David Farney, of David R. Farney, P.C. in the amount of the arbitrators' decision, but said draft may not be less than Ten Thousand Dollars (\$10,000.00) and not more than One Hundred Fifty Thousand Dollars (\$150,000.00).

Whereas, The steel industry is in crisis and in jeopardy of being eliminated from the United States of America due to imported and illegal dumping of steel in our country; and

Whereas, Foreign countries that sell government subsidized steel at a cheaper rate than steel produced in the United States help their own economies improve by dumping below market-priced steel while putting American steelworkers out of work; and

Whereas, Existing laws regarding steel dumping in this country are not enforced and are not strict enough causing the loss of thousands of steelworker jobs; and

Whereas, H.R. 808 — The Steel Revitalization Act of 2001 would take a multi-tiered approach that is aimed at ending the current steel industry crisis by cutting illegal foreign imports, strengthen the Steel Loan Guarantee Program, promote responsible consolidation within the industry, and ensure the continuation of retiree healthcare benefits, Now Therefore Be It

STATEMENT FOR THE RECORD BY
COUNCIL MEMBER MARYANN
MAHAFFEY FOR RE: AUTHORIZATION
OF CITY FUNDING FOR I-375
EXTENSION

I am voting "NO" on authorizing City of Detroit funding for the extension of I-375.

Many citizens and citizen groups have expressed concerns about the effect of this project on the environment and on expanding the potential for the mass transit in the City of Detroit and the Metropolitan Detroit area.

The City Planning Commission has suggested two alternative resolutions which would have protected the interest of the citizens of the City of Detroit. The majority of the Council, unfortunately, decided not to tie the funding of the project to either of the proposed resolutions, even though neither General Motors nor the administration voiced objection to the proposed recommendation of the City Planning Commission. There was no reason not to tie the agreement to one of the resolutions.

I am concerned that one section of the agreement by which the City Council authorized funding specified that mass transit is not part of the I-375 extension project. This section is unnecessary to the agreement. In fact, it can be used in the future as an argument against mass transit. All modern, good transit plans should incorporate road building only as a part of a mass transit plan.

I am also concerned that the environmental concerns regarding this project have not been addressed.

I am delighted that the administration has agreed with City Council that City Council will have a representative appointed to the review team that will be established to monitor the I-375 extension project. This should provide some protection. I hope that in the next stages of this project the concerns of many of our citizens will be met.

Whereas, The amended 5(h) Homeownership Plan with all changes was approved by the Detroit Housing Commission on July 3, 1997 authorizing the sale of 228 Scattered Site houses; and

Whereas, The Detroit City Council approved the final 5(h) Homeownership Plan on July 14, 1997; and

Whereas, The Detroit Housing Commission approved converting its 5(h) Homeownership Plan to a Section 32 Homeownership Plan on November 4, 1999 authorizing the sale of 414 Scattered Site houses — the original 228 houses plus 186 additional houses; and

Whereas, HUD approved the Homeownership Plan submitted on April 3, 2000 as a Revised 5(h) Homeownership Plan with the stipulation that current residents could not be relocated if they do not want to purchase their homes; and

Whereas, The Detroit Housing Commission submitted the Revised 5(h) Homeownership Plan for your Honorable Body's approval on June 12, 2000; and

Whereas, Section 4-112 of the City Charter states that any disposition of property requires a resolution of approval from the Detroit City Council.

Whereas, The Detroit Housing Commission desires to sell nine homes to the current residents of those homes under the Revised 5(h) Homeownership Plan submitted to your Honorable Body on June 12, 2000.

Now, Therefore, Be It Resolved, That the Detroit City Council approves the sale by the Detroit Housing Commission of the below nine houses subject to the approval of the U.S. Department of Housing and Urban Development (HUD) for disposition of the property to the following individuals:

- 16707 Archdale to Janet Gields for \$103,000;
- 18088 Archdale to Georgette Carter for \$70,000;
- 18945 Edinborough to Hagar Davis for \$75,000;
- 19436 Pennington to Karen Johnson for \$73,000;
- 17684 Plainview to Darilita Thomas for \$90,000;
- 14026 Prevost to Arlene Spencer for \$80,000;
- 18240 Santa Barbara to Cheryl Woods for \$107,000;

7521 W. 7 Mile to Janet M. Jackson for \$124,000;
18480 Whitcomb to Cleotha and Zelma Hutson for \$82,000.

**STATEMENT FOR THE RECORD BY
COUNCIL MEMBER MARYANN
MAHAFFEY FOR RE: SALE OF NINE
HOUSES BY THE DETROIT HOUSING
COMMISSION**

I am voting "Yes" on permitting the Detroit Housing Commission to sell nine scattered site houses since the Housing Commission has no other plans for these houses.

I am, however, very concerned that the sale of these houses reflects a lack of a plan by the Detroit Housing Commission to house extremely low income people. On the one hand, the Housing Commission closes and tears down projects, such as the Jefferies Project, claiming that large-scale public housing projects foster economic ghettos and is not good social policy. On the other hand, the sale of these houses demonstrates that the Housing Commission is not committed to scattered site housing, which is economically integrated. Otherwise, the Commission could continue to house people in them.

There is a desperate need for housing for extremely low income families, and the Detroit Housing Commission has a vast waiting list of people who need housing. Yet, the Housing Commission seems to have no idea how to respond to this crisis.

Father, In The Name of Jesus, we bring those who are a part of the Detroit City Council before You, and we thank You for each of them. We ask that You bless and favor them and their families in every area of their lives.

We hold up in prayer before You, the men and women who serve in positions of authority in the City Council of Detroit. We ask for wisdom, knowledge and direction for them, and for those who work in any position with them to make the City of Detroit a place of blessings for its residents and visitors.

Father, let the Spirit of the Lord, rest rule and abide with them, make them skillful, honest, and give them hearts for discretion. Watch over them, give them understanding, keep them and deliver them from the ways of evil men.

Father, let their hearts and ears be attentive to Godly counsel, that they may make right decisions concerning the City of Detroit. Cause them to be men and women of character and integrity.

COMMUNICATIONS From Mayor Office

April 12, 2001

Honorable City Council:

Before I present my proposed Budget for the 2001-2002 fiscal year, I would like to read a memo prepared at my request by the Budget Director and sent to the Department heads outlining steps that are to be taken to ensure the current fiscal health of the City of Detroit.

It is clear from this memo to the operating and staff agencies that there are serious economic events taking place that will continue to challenge the City's efforts to finish the fiscal year with a "dollar" in the bank — that is, a balanced budget. However, I am confident that the City will overcome these challenges. Therefore, I am officially projecting a surplus of \$1 on June 30, 2001.

It is interesting to look back just over a year ago. Your Honorable Body will recall that the Standard & Poor's 500 Index and the NASDAQ Composite Stock Index both reached their highest market valuations, breaking all previous "bull market" records. The economy was growing at a near-record annual rate of 6% with little or no inflation. Consumer confidence was at an all-time high, while national, state and local unemployment was at an all-time low. In short, we recently experienced a very upbeat time for the City as well as the nation. That positive economic situation contributed to five consecutive fiscal years of surpluses for the City, and lead us to expect a sixth consecutive year as of June 30th. Ladies and Gentlemen, the last time the City of Detroit Achieved such a record was 1950.

Despite the current slowdown in the economy outlined in the memo to my directors, the City and its citizens continue to enjoy the benefits of economic growth throughout Detroit: the construction of new apartments and houses and the opening of new industrial plants, offices and stores have added jobs and economic opportunity to nearly every neighborhood. Take a drive on John R., Brush or St. Antoine, north of downtown and just east of our Cultural Center, and you'll see several great examples of new housing starts in the City. I recently attended ribbon-cuttings for an African American-owned Blimpies sandwich franchise in our Empowerment Zone, and the new Phoenix Movie Theater — a 10-screen redevelopment of the former Bel-Air Theater on Eight Mile Road. Meanwhile, Integrated Packaging Corporation, a \$75 million African-American packaging firm, recently purchased the Laimbeer Packaging plant on Detroit's east side.

Yet, while an impressive volume of rebuilding continues, we must observe

caution and be fiscally conservative as a government, due to the ongoing reduction in the City's income tax rates, the freeze in state revenue sharing dollars, and the uncertainty of the future direction of the national, state and local economies. These factors will challenge the City's ability to meet our Core Service Priorities of neighborhood stabilization, improved public safety services, and improvements to the support service departments of City government.

Before I proceed to the financial highlights and specific programs of my proposed budget, please allow me to discuss four important matters.

The 2000 Census

As you are aware, the 2000 census total for the City of Detroit is presently recorded at 951,270 residents. The good news in these figures is that the rate of decline for the last 10 years was 7.5%, while in 1990, the rate of decline was 14.6%. In 1980, Detroit experienced a 20.5% drop in population from the 1970 census. It is our hope, given the increased residential building taking place in our City, that this decade will see the City actually experience an increase in its population.

I would like to take a moment to personally thank this Honorable Body for your support of our Detroit Census 2000 campaign. I also want to thank the thousands of volunteers for their assistance with the City's efforts to help get the most complete and accurate count possible. Nevertheless, there was a nationwide undercount in excess of 3 million people, the overwhelming majority of whom are people of color. Our efforts to make the census process work for Detroit will not end with last year's count. As Mayor of Detroit, and in my capacity as President of the National League of Cities, I am now urging the U.S. Commerce Department to utilize census sampling as it calculates the appropriate amount of funding for federal entitlement programs and grants. The census sampling method is the best way to make sure programs funded by our taxes reach our people who are in most need of help.

A Vision Statement for 2002-2010

Last fall, as promised in my 2000 State of the City address, I organized a series of "visioning" meetings with a cross-section of our citizens, ranging from our young people to our seniors, and including representatives from business, labor, religion, community organizations and the media. The purpose of these meetings was to get a sense of the citizens' view of the City as it is today, as well as a sense of the challenges facing the City in the future. Yesterday my office released a report that combines what Detroiters said in those visioning meetings with the accomplishments of the past seven years

and an overview of Detroit's current opportunities and challenges. The report is entitled "Detroit: Building on a Solid Foundation/A Community Vision for 2002-2010." It has been made available to this Honorable Body, the media, and — through my office and our Neighborhood City Hall offices — to any citizen who would like a copy.

Launching The Big CleanUp

While many issues were discussed in those visioning meetings, one clear and consistent theme was that the City is too dirty — there is too much litter on our streets, and too many illegal dumping sites and abandoned vehicles in our neighborhoods. Citizens who had complaints did not blame City employees whose job it is to clean the City, and they applauded those who volunteer Clean Sweep each year. Their complaints were over illegal dumping and our own citizens throwing their trash out of cars and around our neighborhoods. Session participants also noted that all of us need to take responsibility to clean up our neighborhoods and keep them clean. I listened and I left those meetings committed to addressing a clear and present need of the citizens, the businesses of this great City.

Therefore, we are engaged this year in The Big CleanUp — a citywide effort to clean the City of Detroit — in ways that reach beyond the normal duties of either our Department of Public Works or our Recreation Department. The City will work with businesses, schools, churches, neighborhood organizations, and individuals — coordinating their efforts with several City Departments: Recreation, Fire, Police, Resource Recovery, DPW, DDOT, Water & Sewerage, PLD, Neighborhood City Halls and the Communications and Creative Services Department. Please allow me to briefly list the activities planned for The Big CleanUp.

- We will install 1,000 new trash receptacles at key intersections and streets with high pedestrian traffic.
- We will place 5,000 trash receptacles in City parks, including Belle Isle.
- The Detroit Police Department will continue to make aggressive efforts to remove abandoned cars from our City's streets.
- We will make a major effort to clean the entrance and exit ramps to the City's freeways.
- We will lease or borrow heavy equipment from local businesses or other government agencies to remove illegal dump sites throughout the City.
- The City will periodically perform street sweeping of neighborhood streets.
- During Clean Sweep Week and afterward, volunteers will remove litter and debris from our streets, parks, and areas around schools, businesses and places of worship.

- The media will participate in public service campaigns urging our citizens to join in our efforts to clean up Detroit and keep our city clean.

Many elements of The Big CleanUp campaign have already begun and will take us through Clean Sweep Week, which is April 23-28. The Big CleanUp will continue through the end of the next fiscal year: June 30, 2002.

An Advisory Vote Regarding Belle Isle

Finally, I would like to emphasize once again the need to ensure that one of America's most magnificent parks — Belle Isle — receives the financial resources it needs to complete necessary and desired improvements and the kind of regular maintenance it deserves. The Belle Isle Master Plan, presented March 9, 2001, to this Honorable Body, proposes to spend \$200 million for improvements over a 15-year period. As you know, the City does not have the financial resources within the General Fund or within the existing bonding capacity to fully implement the Belle Isle Master Plan. Moreover, the infusion of additional funds available from permanent casinos for quality of life issues will not kick in until 2004 or 2005, even if you act upon the proposal before you.

As we look for alternatives to finance these proposed improvements, I am compelled to return to the concept of a very modest annual toll for vehicle entry onto the island. I recognize and respect the differences of opinion around the table with respect to the vehicle toll as a funding source. However, this matter is of such great importance, I request that the citizens of Detroit be given the opportunity to express their approval or disapproval of a Belle Isle vehicle toll, in a November 2001 advisory ballot issue. I will — and I hope this Honorable Body will — be guided by the results of an advisory vote by our citizens.

I would now like to turn your attention to the Financial Highlights of the proposed 2001-2002 budget.

FINANCIAL HIGHLIGHTS

As I mentioned earlier, the biggest challenge affecting the City's budget this fiscal year and next is the economy. No one knows for certain whether it will grow or whether it will contract, and no one knows by how much in either case. There is no perfect crystal ball to provide us direction. The efforts of the three economists who conferred with our Budget Director have given us a sense that the economy may begin to grow marginally in the last half of this current calendar year. However, the economic reality for the City is that when the economy declines nationally, the City generally starts the decline sooner, and the rate of our decline is greater. More importantly, the City typically takes longer

to recover than does the national economy.

In that regard, the revenue source most sensitive to those economic changes in the City income tax. This tax is also the City's largest revenue source. We feel the effects when people are laid off or do not have the opportunity to work overtime on their jobs. Besides the economic downturn, another challenge to our income tax revenue is a State mandate to reduce, over a 10-year period, the personal income tax rate by 1% for residents and 1/2% for non-residents. By 2009, the individual tax rate in Detroit will be 2% for residents and 1% for nonresidents. We have also made a voluntary commitment to eliminate Detroit's corporate income tax during this decade, with the expectation that greater business investment will produce a net increase in tax revenue, by creating jobs and attracting new residents.

Currently, the Budget Department estimates that the City will collect \$375.8 million, a revenue shortfall of approximately \$12 million in income tax collections for this current fiscal year from the budgeted amount of \$387.4 million. We are projecting income tax collections for the next fiscal year at \$384.8 million. Economic reality compels us to make the necessary adjustments, reflecting the slowdown in the economy, to this year's budget and the 2002 fiscal year budget.

The projected increase in tax collections next year is fairly optimistic, given the uncertainty as to where the economy is headed. But the record shows that we Detroiters tend to show our optimism — or maybe just our toughness — at budgeting time.

As I leave this issue for your thoughts and consideration, it should be noted that the State of Michigan is experiencing similar reductions in its income collection efforts. As a result, the State has also lowered its revenue projections.

Detroit's overall budget for fiscal 2001-2002 has grown to slightly more than \$3.37 billion. That represents a 21% increase over the current fiscal year budget. The majority of the increase comes from major cost increases for Water & Sewerage, and DDOT, the two largest Enterprise Fund Departments. Water has a proposed \$360 million bond sale in next year's budget, in addition to increases in its Water and Sewerage divisions, in the total amount of \$57 million. The General Fund will increase a modest 6%, up to a projected amount of one billion four hundred ninety-eight million dollars (\$1,498,000,000).

I am happy to report that revenue from casinos for this fiscal year has been better than our original expectations. We had estimated collections of \$80.7 million. We now project collecting \$85.6 million in tax

revenue from casinos for fiscal year 2000-2001. With that in mind, we are projecting for fiscal 2001-2002, tax revenue totaling \$94.3 million from casinos. I feel confident about this number. We have worked closely with our consultants on this amount, and while we are happy with the projected increase, we do not fully know and understand the full extent of the economic downturn and its potential impact on casino revenues. Finally, I would like to caution this Honorable Body and the citizens of Detroit about possibly unrealistic expectations for casino revenue and how that money might be used by the City. This year, the increase in casino revenue is more than offset by a decline in projected income tax collections for this year.

On a further positive note, I am pleased to report that the property values in our City have again risen for the third consecutive year, by more than \$1 billion. This means that in the last three years, the market value of property in the City has grown by more than \$6 billion — an amount greater than one-quarter of our total market value of nearly \$22 billion.

On June 30, 2001, our contracts with the City's labor unions will expire. Contract negotiations are currently underway. Because of the tremendous uncertainty about the economy and its future direction, I urge our unions to exercise fiscal restraint as they present their contract issues. I am confident that our City negotiations will be a productive and mutually beneficial experience for City government and our unions.

I respect and applaud our employees and the service they provide to the citizens of this City. I also acknowledge that one measure of that appreciation is in the form of compensation. Accordingly, we have set funds aside to acknowledge our appreciation, when contract negotiations have been completed. I sincerely wish that it could be more, but economic realities dictate otherwise. I look forward to a fruitful and positive labor agreement process.

It will take the efforts of both City Council and my administration to ensure that we successfully navigate the waters of our current economic uncertainties. We all want to end up with a budget that addresses the many needs of our citizens and yet recognizes the economic realities of our limited revenue sources. To help facilitate this cooperation, I have instructed both the Directors of Budget and Finance to work closely with your Fiscal Analyst and to share with him and his staff all reports and all information used in preparing this year's budget. We want to ensure that all parties to the budget process will have the same level of accurate and relevant financial information in order to make the best financial decisions on behalf of our citizens.

On a related matter, in January of this year, your Honorable Body prepared a set of "Council Budgetary and Public Policy Priorities" for Fiscal Year 2001-2002. This information was sent to us by way of your Fiscal Analyst. The listing included a number of items that directly addressed the City's Core Service Priorities. It was unfortunate that greater detail was not provided. It was also disappointing that when time was set aside to meet and discuss your priorities with the Budget staff and myself, no one from City Council appeared. However, I instructed the Budget staff — to the extent possible financially, and where they clearly understood your requests, to reflect them in my budget presentation.

DEPARTMENT, AGENCY AND CORE SERVICE HIGHLIGHTS

Agency budgets were developed using Goal Based Governance and the strategic needs of our City. For 2001-2002, the focus continues to be on strengthening the delivery and management of core services, through three Core Service Priorities:

- Neighborhood stabilization
- Public safety
- Internal support services

Two of the City's Core Service Priorities highlight service to the citizens and businesses in the City's neighborhoods. A critical factor in those efforts is the City's ability to have modern, up-to-day vehicles and equipment. In the past, given the financial constraints, our equipment was at best inadequate, due to age, and at times improperly maintained. We are committed to providing to our dedicated employees modern equipment, in order to meet the needs and demands of the residents and businesses of the City.

New Vehicles and Fleet Management

To this end, I am recommending four additional positions for the Department of Public Works, and funding for the lease financing of General Fund vehicle acquisitions. These positions will work to increase our control over the spiraling costs of operating the City fleet. A Steering Committee, consisting of a new Fleet Manager and staff from Budget, Finance, and the Mayor's Office will set and oversee new citywide vehicle policies relative to the acquisition, assignment and operation of the fleet. Lease financing will stabilize the vehicle replacement cycle by smoothing out the costs associated with this \$280 million asset. These changes will produce better written specifications for new vehicles, improved parts procurement and manufacturer follow-up, and the timely replacement of high mileage and high maintenance vehicles. I am confident that the net effect will be a decrease in operating costs and out-of-service times, ultimately increasing the performance of every City service that relies on vehicles.

I would like to take a moment and note some of the more significant acquisitions of vehicles through the proposed leasing program:

- **DPW**
 - 20 Courville Trucks \$3,080,000
 - 10 Rear Load Trucks \$1,450,000
 - 16 Pickup Trucks \$ 253,000
- **FIRE**
 - 9 Aerial Ladders \$4,050,000
 - 5 Pumping Engines \$1,500,000
 - 17 EMS Ambulances \$1,140,000
 - 4 Rescue Trucks \$ 800,000
- **POLICE**
 - 61 Scout Cars \$1,650,000
 - 100 Scooters \$ 655,300
- **RECREATION**
 - 4 Aerial Lifts \$ 332,000
 - 4 Log Haulers \$ 340,000

In addition to the above acquisitions, we have plans to acquire vehicles for several other General Fund Departments, including Public Lighting, City Clerk, Consumer Affairs, Health, Historical and the Detroit Zoo. We have also set aside funds for the acquisition of additional vehicles that are assigned to individual elected officials, City employees and appointees.

The Big CleanUp

As I noted earlier, the Big CleanUp is in progress. I have committed \$6 million in the proposed budget to fund additional clean-up activities throughout the City. The bulk of these funds will be used to remove debris from vacant lots and alleys, including the cost to haul and place the debris in the proper land fill. It would be helpful to coordinate any alley closings with alley cleanup, so that we will not make sites readily available for illegal dumpers.

It is unfortunate that we must commit such resources to essentially clean up behind property owners, business and illegal dumpers — who are often from outside the City. Just think what positive activities the City could be engaged in with \$6 million. Nonetheless, we will work hard to keep our City clean, and continue in our efforts to encourage individuals and businesses to legally dispose of debris. At the same time, we will vigorously protect our environment by enforcing the anti-litter and anti-dumping laws of the City and State.

Demolition of Dangerous Buildings

Abandoned and dangerous buildings continue to challenge the City of Detroit. I have allocated \$12.5 million in the upcoming budget for demolition activities. Since 1994, the City has spent \$104.8 million and torn down 16,658 structures, primarily houses in neighborhoods. Fifty million dollars of the money for demolition was borrowed from Block Grant funds. Again, it is unfortunate that the City is saddled with the responsibility of tearing down a residential or a commercial building when

an individual abandons his or her property and ignores an owner's responsibility for maintaining the structure. The result is that the City and our citizens must spend precious General Funds or Block Grant dollars to remove the structure. I hope that in this decade, as the population stabilizes and increases, the City will then be able to reduce the funds we must now commit to this process.

Detroit Department of Transportation

Public transportation is a key service and continues to be a high priority in this administration. Recently, DDOT, through the joint efforts of your Honorable Body and my administration, was awarded a federal grant that will provide funding for the purchase and installation of radios and automatic vehicle locators. This will allow for better management of our fleet, and — in emergencies — the ability to communicate with the driver. Continuing in our efforts to improve transportation services to our citizens, I am adding 53 buses to an earlier order of 100 new buses, which are being delivered this spring.

Recreation Department

A new reorganization plan at the Recreation Department that will create a district system will move the operations closer to the point of customer contact. This structure will provide the department with a direct link between neighborhoods and their needs, along with greater managerial control at no additional increase in net tax cost. In addition, continuing this administration's efforts to expand and upgrade existing recreational facilities, I am recommending the sale of another \$3 million in bonds for parks and recreation facilities, as well as \$124,000 for the reopening of the Camp Brighton.

Public Lighting Department

Last summer's power demands challenged Public Lighting's ability to provide reliable power to its customers. We have made sufficient improvements to the current system such that we will avoid a similar problem this summer. I am recommending another \$6.3 million in the City's efforts to improve reliability and efficiency by upgrading generation capabilities at the Mistersky Power Plant and installing two new electrical interconnections (tie lines) that will increase transmission capacity.

Water and Sewerage Department

In our efforts to meet federal mandates, the Water & Sewerage Department will issue \$360 million of Revenue Bonds in fiscal 2001-2002. A portion of the funds will be used for major rehabilitation of the Wastewater Treatment Plant. Approximately \$25 million of bonds will go towards infrastructure replacement and improvement. This investment is a significant increase over previous years, reflecting greater development activity now

underway in our City. The balance of bond proceeds will focus on combined sewer overflow facilities.

Police Department

I recently toured Police Headquarters at 1300 Beaubien. There is a fundamental problem of trying to meet the needs of modern, 21st century police operations with a building built in the early 1900s. The men and women of our fine Police Department need a modern, up-to-date facility in order for them to meet our citizens' expectations for reliable, timely service. To this end, I have included funds to initiate a feasibility study for the design and construction of a new modern police headquarters.

In addition, \$1.5 million has been added to Fire and Police budgets for the construction of the Public Safety Mall in Southwest Detroit.

Health Department

Fourteen new positions have been added to the Health Department in its continuing efforts to obtain accreditation from the State of Michigan Department of Community Health. Last year the State, citing a need to assure and enhance the quality of local public health, began to require each local health department in Michigan to become state accredited and meet particular standards in order to do so. The Detroit Health Department must be vigilant as it proceeds through the accreditation process, or it will jeopardize hard-won funding and its time-honored status as a leading local health department.

Detroit Resources Management System

The City of Detroit's internal support services departments provide critical support to our operating departments. If we do not provide training, needed equipment and other resources, they will not be equipped to meet the needs of the operating departments. One of the most serious challenges in that regard is the Human Resources-Payroll component. The current payroll system is well over 20 years old, and it is not able to properly manage the City's payroll needs. Now that the DRMS' financial module is functioning properly and people have a greater understanding of its capabilities, I am proposing that we begin the process of implementing the Human Resources module of DRMS. The initial funding of \$6.2 million will allow the City to conduct an assessment of the current system. Then, using Oracle's Human Resource/Payroll module, a system can be designed that meets the City's requirements. At that point, the City will explore how and who will conduct the actual implementation, and at what cost.

In addition, I am proposing \$4.2 million to implement the DRMS fixed asset module, in order to maintain compliance with the Government Accounting Standards

Board requirements regarding reporting on Fixed Assets. The City must maintain its "clean" or unqualified opinion regarding its financial statements, and to do so, we must move forward with this implementation.

We embarked on our critical mission to upgrade the City's computer-related hardware and software several years ago. In many cases, the City had not addressed the record-keeping, data processing and communications needs of certain departments and agencies for many years. The result was a difficult and painful learning curve, as our employees were introduced to DRMS and trained to work effectively with the new hardware and software. To avoid this problem in the future, the City will continue to upgrade its software and hardware to ensure that we stay current with relevant technology. We will likewise upgrade the technical skills of our workers. To that end, I recommend \$2.5 million to begin a replacement schedule for standard computer equipment throughout the City.

Real Estate Leases

In years past, due to increases in staff and supporting equipment, City Departments have entered into a number of long-term space leases. The City must, as leases begin to expire, secure the best possible leases in terms of space and funds expended. I am, therefore, adding three positions to the Finance Department. Their duties will include proposing, reviewing and monitoring all space leases. It is my belief that the modest cost of these positions will be more than justified by the savings the City will receive.

Elections Funding; Detroit Zoo

In addition to the items I have mentioned, I would like to draw your attention to two other important items in the 2001-2002 budget. One is \$1 million set aside to cover the fall 2001 municipal elections. Through the efforts of the City Clerk, the Elections Director and the Elections Commission, the City has experienced excellent election results. I want to support and continue their efforts to ensure a trouble-free election process.

The second issue involves the Detroit Zoo. The zoo is one of the most widely visited places in the State of Michigan, and one of the most popular and highly regarded zoos in America. This summer, two new exhibits will be opened — the National Amphibian Conservation Center and the Arctic Ring of Life. To accommodate the additional attendance these new attractions will bring, and to keep the quality of our zoo at a high level, I am recommending five new positions. I look forward to another successful season at the Zoo.

CONCLUSION

Thank you for the opportunity to come before you and speak of the financial challenges and opportunities facing the City.

Unlike previous years under my administration, we have some economic unknowns facing the city. However, if we are realistic and open to dialogue, we can exercise the financial discipline needed to meet those challenges. We must keep our focus on the hard work and high standards needed to make this government one that delivers critical, timely, efficient, and reasonable services to our citizens. At the end of the day, Detroit City government has only one true purpose: to offer the citizens of Detroit the best possible service.

Honorable City Council Members, I submit my proposed 2001-2002 budget for your consideration and approval.

Respectfully submitted,
DENNIS W. ARCHER
Mayor

Honorable City Council:

Re: Sean Hopkins vs. City of Detroit & Benny Napoleon. U.S.D.C. Case No. 00-72156.

On March 26, 2001, a mediation panel evaluated this case at \$40,000.00 against

the City of Detroit. The parties have until April 23, 2001, to either accept or reject the mediation award. The failure to file a written acceptance or rejection within this period constitutes a rejection. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial, however, the party rejecting the evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned complaint, the facts and particulars of which are set forth in a confidential attorney-client privileged memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that an acceptance of the mediation evaluation in the amount of Forty Thousand Dollars (\$40,000.00) is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial, however, the amount of the award is fair and reasonable and an eventual settlement of this matter in this amount is prudent.

We, therefore, request authorization to accept the mediation evaluation and to direct the Finance Director to issue his draft in the amount of Forty Thousand Dollars (\$40,000.00) payable to Sean Hopkins and his attorney, Mark Magidson, to be delivered upon receipt of the notice of mediation settlement, properly executed Releases and Order of Dismissal.

2. You will be required to obtain relevant permits for all rehabilitation work performed.

3. The yards shall be maintained clear of weeds, junk and debris at all times.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings.

April 20, 2001

Honorable City Council:

Re: Amended and Restated Resolution authorizing the issuance of not to exceed \$900,000,000 Water Supply System Revenue and Revenue Refunding Bonds.

The attached Resolution authorizes the issuance and sale of the subject Bonds for the purpose of providing approximately \$550 million for financing the ongoing Water Supply System Capital Program. In addition, the Resolution authorizes up to an additional \$350 million to be used for refunding certain of the currently outstanding Water Supply System Revenue Bonds.

This resolution amends and restates a resolution previously approved by your Honorable Body on January 31, 2001. The economic climate now prevailing permits the financing of more of the repairs, extensions and improvements contemplated by the Capital Improvement program. Additionally because of a continued decline in interest rates, additional amounts of previously outstanding Water Supply System Revenue Bonds may be refinanced, thereby producing interest savings. The actual amount of Bonds will likely be reduced, depending on which Bonds may be economically refunded at the time of the actual sale.

It is anticipated that the sale will occur later this spring. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,

J. EDWARD HANNAN

Finance Director

Honorable City Council:

Re: Transportation Economic Development Fund Bituminous Resurf. etc. from Northbound and Southbound Ser. Dr. from Clay to the track of GTWRR, and St. Aubin from Holbrook Road to the track of GTWRR, City Contract No. 76106 State Agreement #97-5228.

On July 23, 1997 (J.C.C. Page 1887-1888) your Honorable Body approved City Contract No. 076106 with the Michigan Department of Transportation which provided for an estimated amount of \$53,225

for the City's share for the project described below:

PART A — STATE PARTICIPATION

Bituminous resurfacing including construction of curb and gutter for approximately 4.2 km (2.6 mi.), together with necessary related work along the following roadways: Northbound and southbound Service Drives of Highway I-75 from Clay Street to the tracks of Grand Trunk Western Railroad: St. Aubin Street from Holbrook Road to the tracks of Grand Trunk Western Railroad south of Denton Road.

PART B — NO STATE PARTICIPATION

Sewer cleanout within the limits of the proposed improvement; and all together with necessary related work.

On January 28, 1998 (J.C.C. Page No. 176-177), your Honorable Body authorized the Finance Director to increase the amount of City Contract No. 076106 from \$53,225 to \$75,896.

Now an audit of the project has been done which resulted in an increase of City Share by \$201,805.03 to a final amount of \$277,700.69. The over run has resulted from an Increase in Construction cost.

We therefore recommend adoption of the attached resolution, which authorizes the Finance Director to increase the amount of CPO #2547393 (FICS Contract #076106) from \$75,896 to \$277,700.69. The increase will come from Appropriation #4189, Major Street Fund — Traffic Control Roadways — (Federal-aid).

Honorable City Council:

Re: Petition No. 3325 — Detroit Symphony Orchestra c/o A. J. Diamond, Donald Schmitt and

Company, for encroachment on City-owned property, February, 2001-October, 2003, in the area of Orchestra Hall at Woodward and Parsons.

Petition No. 3325 of "Detroit Symphony Orchestra, Inc." at 3663 Woodward Avenue, Suite 100, Detroit, Michigan 48201-2444 request to install and maintain encroachments into a portion of the north right-of-way of Parsons Street, 60 feet wide, between Woodward Avenue, 120 feet wide, and the north-south public alley, 15 feet wide, first west of Woodward Avenue.

The encroachment is to consist of the installation of a temporary structure (from approximately February 26, 2001 through June 30, 2003) 107 feet in length, more or less, located running east from a point 3 feet 6 inches, more or less, east of the east line of said north-south public alley, 15 feet wide, and being 20 feet 6 inches in width, more or less, running south from a point abutting Orchestra Hall over the sidewalk adjacent thereto and into the north parking lane of Parsons Street, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The Traffic Engineering Division — DPW reports no objections to the requested encroachment into Parsons St., 60 feet wide, provided all the dimensions and details marked on drawings submitted by the petitioner are complied with. That 100% of the abutting property owners' signatures are secured. That two-way traffic on Parsons (with at least 24-ft. clear pavement width for traffic) shall be maintained at all times. That the petitioner should contact Traffic Engineering Operations Section for traffic restrictions approval for the duration of the encroachment and is responsible for securing the necessary permit, and that the petitioner shall be responsible to return the public right-of-way to it's original condition after the expiration of the encroachment at no cost to the city.

The Public Lighting Department (PLD) has no objection to the proposed encroachment. However, the PLD has underground fed street lights in Parsons St. PLD requires a minimum horizontal clearance of 3 feet 6 inches and a vertical clearance of 1'-0" must be maintained from PLD facilities. All underground facilities must be protected from damage.

The Detroit Water and Sewerage Department (DWSD) has no objection to the requested encroachment into the north side of Parsons St. between the alley west of Woodward Ave. and Woodward Ave. There are DWSD water mains and sewers in the above street. Minimum clearances must be maintained.

The Detroit Fire Department required

the relocation of Siamese connection to provide access for fire fighting purposes.

Comcast Cablevision and Ameritech has no objection to the requested encroachment provided there is no encroachment into the public alley west of Woodward, north of Parsons.

All other involved City departments and privately owned utility companies have reported no objections to the proposed encroachments. Where appropriate, provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

SUNDAY JAIYESIMI

To protect the city in the event of petitioner default, a surety bond in a penal sum sufficient to pay the City of Detroit's cost to remove or alter the encroachment (if such removal or alteration becomes necessary) shall be maintained by the "Detroit Symphony Orchestra, Inc." Also, the "Detroit Symphony Orchestra, Inc.;" shall maintain said surety bond in perpetuity. The petitioner shall be unable to obtain a release from said surety bond as long as the encroachment exists within said public rights-of-way. be removed at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to the City Engineering Division — DPW; and further

Provided, The placement and maintenance of the temporary structure encroachment in public rights-of-way shall be construed as acceptance by "Detroit Symphony Orchestra, Inc." Notwithstanding the fact that the filing of the indemnity agreement and the securing of the necessary permit(s) referred to above in this resolution are stipulations of this encroachment (permission) grant; and further

Provided, This resolution is revocable at the will, whim or caprice of the City Council, and the Detroit Symphony Orchestra, Inc., acquires no implied or other privileges hereunder not expressly stated herein; and further

Honorable City Council:

Re: Economic Development Corporation (#2087), Neighborhood Development Corporation Project No. 1 — Street and Alley Vacations and Easements in the area bounded by Montclair, St. Jean, New Road (nameless) and E. Jefferson (Submitting Corrected Letter).

The Project Plan for the Neighborhood Development Corporation Project No. 1, otherwise referred to as Jefferson Village or Gramark, provided for various street and alley modifications. This petition for street/alley vacations and easements involves the northern half of Phases I and II of the residential portion and the entire commercial portion of the project area

(see attached map). The proposed alley vacations would accommodate the development of part of Phase I and II of Jefferson Homes as well as the shopping center.

On April 25, 2001, City Planning Commission (CPC) staff submitted to your Honorable Body a corrected map (see attached) illustrating the street/alley vacations and easements that were approved on April 25, 2001. The map showed that you did not approve street vacations for Beniteau and most of Engle as was stated in the April 25, 2001 report. The following are the street/alley vacations and easements that were approved by your Honorable Body.

- Establishment of a 32 foot private utility easement for the existing public sewer over the vacated Fairview between E. Jefferson and Edlie;
- Vacation of all of the east-west alleys bounded by Lemay, Jefferson, St. Jean and the proposed New Road;
- Vacation of Engle from realigned St. Jean to some line approximately 150 feet north of realigned St. Jean Avenue to be determined by survey and legal description;
- Vacation of Fairview from East Jefferson Avenue to some line approxi-

mately 240 feet south of East Jefferson Avenue to be determined by survey and legal description;

- Vacation of Lemay from East Jefferson Avenue to some line approximately 240 feet south of East Jefferson Avenue to be determined by survey and legal description;
- Vacation of the north/south alley between re-aligned St. Jean and Engle from the east/west alley just south of and parallel to East Jefferson Avenue to realigned St. Jean;
- Vacation of the north/south alley between Beniteau and Lillibridge from the east/west alley just south of and parallel to East Jefferson Avenue to Edlie;
- Vacation of the north/south alley between Lillibridge and Fairview from the east/west alley just south of and parallel to East Jefferson Avenue to Edlie;

This part of Petition No. 2087 for the Neighborhood Development Corporation Project No. 1 requests public street and alley vacations, easements and dedications in the area bounded by Montclair, St. Jean, (nameless) New Road and E. Jefferson Avenues. The attached resolution contains the public right-of-way adjustments required to construct within the "Phase One Parcels."

The petition was referred to City Engineering Division — DPW for investigation and report. This is our report:

Traffic Engineering Division — DPW approved the public street closing(s).

The Project Plan calls for underground burial of public utility services. Ameritech Company, Detroit Edison Company and Comcast Cablevision reviewed the Project Plan. Necessary provisions protecting certain utility installations are part of the resolution.

The Water and Sewerage Department (DWSD) condition their approval of the Project Plan on ten stipulations (listed in the attached resolution) for Petition No. 2087. To maintain public sewer services, DWSD must retain a 32.00 feet wide sewer easement in Fairview. Two existing easement(s) crossing private property used for sewerage transport and/or public street drainage into St. Jean and Lillibridge must be vacated and extinguished.

All other involved city departments and privately owned utility companies reported no objections to the outright vacations. Provisions protecting certain utility installations are part of the resolution.

The resolution does not name the dedicated public streets. A separate report will be submitted to City Council:

I am recommending adoption of the attached resolution.

Respectfully submitted,
SUNDAY JAIYESIMI
City Engineer

April 20, 2001

Honorable City Council:

Re: American Axle & Manufacturing Redevelopment Plan.

The enclosed Brownfield Plan for the American Axle & Manufacturing Redevelopment (the "Plan") (Exhibit A), on file in the City Clerk's Office, submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was jointly held by the Committee and the Authority on March 26, 2001 to solicit public comments. After receipt of public comments, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority, subject only to certain conditions included in the Committee's Resolution recommending approval of the Plan.

On April 9, 2001, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City

Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Purpose of the Proposed Plan

Upon approval of the proposed Plan by City Council, AA&M will be entitled under state law to seek the approvals of the Michigan Economic Growth Authority and the State Treasurer for a single business tax credit for up to 10% of eligible capital investment in its project.

The Plan is for the development of approximately 19 acres located in Detroit, MI and owned by AA&M. The site is bounded by Holbrook on the south, Northbound I-75 service drive on the west, the former Westminster Avenue (vacated) on the north and Grand Trunk and Western railroad tracks on the east.

Projected Costs

The proposed Plan anticipates the cost of the eligible activities for this project will be approximately \$1,700,000. The expense of these eligible activities is the responsibility of AA&M.

This proposed Plan has been presented to the Planning Department's Concept Plan Review and received approval subject to the condition that stormwater runoff should be properly addressed as part of the development. A copy of the Planning and Development Department's recommendation letter dated March 12, 2001 is attached to the Plan.

Public Comments Received

The Committee's communication to the City Council and the Authority dated March 29, 2001 (Exhibit C), recommending approval of the Plan, including the minutes of the Committee's and the Authority's joint public hearing and the Committee's public meeting are enclosed for City Council's consideration.

At the public hearing, two (2) members of the public requested to provide public testimony. They were: Mr. Emmett Moten and The Bing Group and Rev. **Employees Benefit Plan
Of The City of Detroit**

April 19, 2001

Honorable City Council:

Re: 1. 2001-2002 Health Care Plan Rate Schedules for Active City Employees.
2. Addition of Community Blue As New Option for Some Police and Fire Retirees.

Plans Offered. Rates have been submitted by the ten (10) health plans that provide medical benefits to active City of Detroit employees and their eligible dependents. New rates are effective July 1, 2001 and will remain in effect through June 30, 2002. These rates have been reviewed by the Employees Benefit Plan Governing Body on March 20, 2001, on April 16, 2001, and again on April 18, 2001. They are now being submitted with a recommendation for final approval by the City Council. The plans and the companies who are offering the coverage are listed below and all plans are available for selection by all active employees except for the special limitations noted for plans #8, #9 and #10:

- 1) Blue Cross Blue Shield of Michigan (BCBSM); (Traditional plan)
- 2) BCBSM, Blue Preferred; (PPO)
- 3) Health Alliance Plan; (HMO)
- 4) BCBSM, Blue Care Network; (HMO)
- 5) OmniCare Health Plan; (HMO)
- 6) Total Health Care; (HMO)
- 7) The Wellness Plan (HMO)
- 8) Coalition of Public Safety Employees Health Trust (COPS Trust); (PPO) [for DPCKA; DPOA and DPOA — allied ranks in the DFFA, only]
- 9) BCBSM, Community Blue; (PPO) [for LSA only]
- 10) Bankers Life (as provided through the COPS Trust); (Traditional Plan [for LSA only])

Rates Explanation and Cost-Sharing

Determination. The City pays the full cost of actual claims incurred for Blue Cross Ward, Blue Cross Semi-Private, and Blue Cross PPO services. Therefore, the rates shown for these three plans are pre-experience illustrative rates. In addition to such costs, the City is also on an Administrative Services contract (ASC) with that company for these plans and, therefore, pays monthly administrative fees for these coverages. On April 18, 2001, BCBSM reported that such fees are less than 10%.

The Blue Cross Ward service rates are the basis for calculating cost sharing between the City and the employees. This year the original rates submitted asked for a 17.7% increase. The Labor Relations Division, along with assistance from Budget Department representatives challenged those numbers and eventually worked out with BCBSM a common understanding that a 145% increase was an acceptable increase, considering the

City's "trend factor" as opposed to the higher industry-wide trend factor which had been used. Also, this year, as has happened in the last several years, the rate change for the Blue Cross Ward service was affected by the use of funds from the BCBSM Rate Stabilization Fund. This year the amount approved for use by the Employees Benefit Plan Governing Body from that fund was \$2,000,000. (Note that in 1999-2000, the sum used was \$3,000,000 and last year \$2,000,000 was used for the 2000-2001 Plan Year.) And as a result of the use of those funds, all of the Blue Cross rates were lowered several points from that final 14% rates increases recommended by that company to the increase of 10.39%, which is comparable to last year's rate increase of 10.16%. Such lowering of those base rates will surely save the City several millions of dollars.

Note: As relates to the rates being forwarded today, the effect of the use of the Rate Stabilization Reserve consists of two distinct approvals inclusive in the \$2 million figure cited above. Namely, as a part of the City Council's earlier approval of Plan Year 2001-2001 rate increases for retired Police and Fire personnel, a non-specifically-determined amount of such funds were approved through the Benefit Board's action of March 20, 2001, to support a reduction of those retiree rates from 14% to 10.39% also. With the action today, further approving rates for the active employees and supporting the reduction to 10.39% for the Civilian retirees rates, the Board authorized the further use of the Reserve funds to reduce the balance of those BCBSM rate increases (to 10.39%). However, all was done with the understanding that there would be a specific limitation on the total funds used, as a result of both Board authorizations, of \$2 million.

A comparison of the changes in monthly Blue Cross Ward service rates that will be charged for some of the most common types of coverages for active General City Employees and the average percentage changes in those rates, is as follows (NOTE; The resulting dollar amounts shown below vary only slightly for the resulting rates that are charged for active uniformed Police and Fire employees with nearly identical coverage features; the percentage increase of 10.39% is identical to the increases in the Police and Fire rate increases):

Blue Cross Blue Shield Ward Rate Comparison

<u>% Increase/ Coverage</u> <u>2000-2001</u>	<u>2001-2002 (Decrease)</u>
1 person	\$327.58
\$296.75	10.39%

<u>% Increase/ Coverage</u> <u>2000-2001</u>	<u>2001-2002 (Decrease)</u>
2 person	\$687.97
\$623.22	10.39%
Family	\$769.93
\$697.46	10.39%
Sponsored Dependent	\$356.59
\$323.12	10.39%

For the approximately 2,700 active police and fire fighter-allied personnel covered by the C.O.P.S. Trust Modified Plan, the rates went up 16.4% with cost sharing based on the City paying the first 8% of increase and then the City and the employees sharing 50/50 for any additional increase charged. As a result of that, the personnel covered in that plan have seen a sharp increase in their contribution amounts, albeit, the relative numbers are still less than comparable coverages for General City employees.

Rates Justification. Your Honorable Body is probably well aware of the considerable number of well-respected reports being circulated throughout the nation which are predicting that sizable increases can be expected in health care costs for the coming plan year. In the City's case, the increases submitted by the other carriers were in some cases below the Blue Cross rates and in other cases, as already reflected in the numbers for the C.O.P.S. Trust plans noted above, were higher. The total percentage changes for the monthly rates to be charged for each type of coverage contract in each plan, the percentage change in the City's monthly cost for each plan, and the percentage change in the employee's monthly contribution for each plan are reflected on the attachment.

Each year we ask the health care companies to explain and justify their rate changes. This year, the companies submitted their rates on or about February 19, 2001, and subsequent to that date, a specific review and discussion of the submitted rates was undertaken between the City Benefits Administration Office and the Labor Relations Division and several of the companies which had submitted much-higher-than-anticipated increases. As of today, April 18, 2001, three of those companies had withdrawn their original proposed rates and substituted lower rates and such reductions are reflected in the rates being submitted today. Two other companies (Blue Care Network and Health Alliance Plan) are continuing to engage the City in discussions about possible changes in the City's operational procedures in exchange for some reductions in the rates.

In addition, in withholding approval of the earlier proposed rate increases for active employees. Your Honorable Body opined that additional research and study

on the reasons for the rate increases and comparisons with what similar employers are being charged should be undertaken. Such efforts were pursued by this Governing Board on April 16, 2001, when every carrier was invited to make a presentation before us about their coverage features, policies, and practices. In this all-day session, each company appeared and answered probing questions this Board put to them about what factors have led to this year's increases and what possible things might be done to cause the rates to be lowered in the future. And although this Board inquired of the several HMOs as to what were the average sizes of the increases asked of other similar employers, the companies declined to answer directly and responded in general that rates vary because the employee and retiree populations varied between employers. Each HMO discussed how it is limited by the medical insurance regulations of this State in the discretion it can exercise on setting rates (they are all "community rated"). In the instance of the provider who submitted the highest rate increase, they provided in writing an explanation which included, among other things, that all of their customers in the State which have identical coverage as the City of Detroit provides to its employees, are receiving quite high rate increases also.

In light of the foregoing, this Board, has recommended approval of the enclosed rate increases but has also acknowledged that the Labor Relations Division is con-

tinuing with its efforts to seek the lowered rates from those carriers. In furtherance of that intention, the Labor Relations Division sent an additional letter to each carrier requesting even more utilization data. If any more rate reductions are eventually offered by a carrier(s), those rates will be provided to this Board for their review and expected recommendation for approval by your Honorable Body.

New Retiree Option. Finally, this Body is recommending the enclosed rates to be charged for the Blue Cross Blue Shield of Michigan, Community Blue (PPO) which is available for selection by retired employees who were previously members of the Detroit Police Lieutenants and Sergeants Association prior to their retirement subsequent to July 1, 1998. The same offering of coverage opportunity applies to similarly situated, equivalent-titled, former members of the Detroit Fire Fighters Association.

Any questions concerning any of these matters should be directed to Roger N. Cheek, Labor Relations Director.

Human Resources Department

March 30, 2001

Honorable City Council:

Re: Request to amend the Official Compensation to incorporate proposed pay changes in the Law Department.

The Classification/Compensation Section of the Human Resources Department completed a review of the Corporation Counsel classifications in the Law Department. The result is the attached Human Resources Department recommendation for rate range adjustments, class consolidations and position reallocations.

On January 1, 2001, the classifications of Junior Assistant Corporation Counsel — Exempted (09-11-90), Assistant Corporation Counsel — Exempted (09-11-91) and Senior Assistant Corporation Counsel — Exempted (09-11-92) were consolidated into the title of Assistant Corporation Counsel — Exempted (09-11-91).

Concurrently, the classifications of Principal Assistant Corporation Counsel — Exempted (09-11-93), and Senior Litigator — Exempted (09-11-94) were consolidated into the title of Senior Assistant Corporation Counsel — Exempted (09-11-92) on January 1, 2001.

A thorough analysis of the pay structure of the Department was completed with attention given to internal equity and external survey of compensation for comparable work. The recommendation embodies consolidation of class concepts, organizational realignment and wider pay ranges.

The above consolidations and recommendations are consistent with the Human Resources Department Goal-based Governance goal to restructure the Classification and Compensation plans to meet the City's employment needs.

The Law Department concurs with these findings and request approval of the attached changes to the Official Compensation schedule.

**Human Resources Department
Labor Relations Division**

April 10, 2001

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by UAW Local 2211 — PAA.

The Labor Relations Division has recently reached agreement with the bargaining unit which represents most of the City's attorneys, UAW Local 2211 — Public Attorneys Association. Given the extensive time it will take to type and process the entire contract, it would cause an unreasonably long delay to withhold implementation until the formal contract has been prepared and presented to your Honorable Body for approval.

Therefore, in accordance with standard City procedure, this Office is recommending that your Honorable Body pass a resolution amending the 1998-99 Official Compensation Schedule by granting a 2% general wage increase for the subject represented employees effective July 1, 1998, amend the 1999-2000 Official Compensation Schedule by granting a 3% general wage increase effective July 1, 1999, and similarly amend the 2000-2001 Official Compensation Schedule to reflect a 3% general wage increase effective July 1, 2000. We are further requesting authorization to implement the following new contract provisions:

1) Salary Range Adjustments for cer-

tain classifications based on recruitment and retention difficulties as outlined in the attached Schedule A.

2) Fringe benefit changes as set forth in the attached Schedule B.

We further respectfully request that your Honorable Body adopt the following resolution with a Waiver of Reconsideration.

Respectfully submitted,
ROGER N. CHEEK

*For the new classification of Assistant Corporation Counsel only, in instances where the employee receives an overall rating of "Exceeds Expectations", but cannot receive the full seven percent (7%) pay increase because it would put the employee's wage above the maximum, such employee will receive up to a 2% lump sum bonus payment, not to be included in the base wage, for any part of the seven percent (7%) the employee could receive because it would have been over the maximum.

**SCHEDULE B
Fringe Benefit Changes**

• **Other Compensation** —

1. **Cash Bonus Formula:** All employees on the regular payroll on June 30, 2001, shall be eligible to participate in a possible cash bonus (not exceeding 2%) which shall be determined and paid one-time in accordance with the conditions set forth in the labor agreement.

2. **Work Performance Cash Incentive Payment:** During the term of the 1998-2001 Agreement, effective for a period ending June 30, 2001, the work

performance of every bargaining unit member shall be individually evaluated for the purpose of determining if they will be eligible to receive an individual cash incentive payment for their work performance during the period. An employee must receive a minimum overall rating of "Meets Expectations" to qualify for a cash incentive payment of 1% of the employee's base wage to be paid on the first payday in December, 2001. This payment shall not increase the employee's base rate of pay.

• **Vacations** —

1. Vacation banks may not exceed more than 40 days on any October 1.

2. Vacation qualifier changed to 1,600 hours. 100% of vacation time allotment shall be credited to an employee's vacation bank after the 1,600 hour qualifier is reached.

• **Workers' Compensation** — Employees who are unable to supplement their Workers' Compensation benefit from their off-time banks because the amount of overtime worked causes the benefit to meet or exceed 95% of weekly take-home pay, shall be treated like employees who are able to supplement for the purposes of hospitalization coverage, life insurance coverage and current sick leave accrual.

• **Tuition Refund** — The amount of tuition refund available to employees has been increased based on the following: For those employees seeking a graduate degree the amount is \$850, for those seeking an undergraduate degree the amount is \$700. The total amount of tuition refund may not be pyramided to exceed \$850 in any fiscal year. (The current \$600 amount has been retained for use — not affected by these two increases.)

• **Hospitalization, Medical, Dental, and Optical Care Insurance** —

1. Effective July 1, 1999, through June 30, 2001, the City will contribute \$5.50 per month for employees covered by CO/OP Optical and \$5.43 per month for employees covered by Heritage Optical, resulting in increased optical benefits.

2. Effective July 1, 1999, employees on the active payroll who are covered by a health care plan offered by an employer other than the City, and can furnish proof of such coverage, may elect to take an annual \$950 cash payment (payable quarterly) in lieu of the hospitalization-medical coverage offered by the City. Detroit Department of Transportation

April 24, 2001

Honorable City Council:

Re: Advance Appropriations for the Purchase of Buses.

The Detroit Department of Transportation (D-DOT) annually submits federal and state grant applications to support its capital needs. D-DOT submitted its FY '01 "Application for Federal Assistance" in December, 2000; in early February, 2001, the Federal Transit Administration (FTA) approved 80% (\$22,993,416) of the \$28,741,770 grant program. Earlier this month, your Honorable Body accepted the federal award. A local match (a federal requirement for draw down of the 80%) of 20% (\$5,748,354) is provided by the Michigan Department of Transportation (M-DOT). Due to delays in the State appropriation process, I am requesting your Honorable Body's approval of advance appropriations to temporarily provide a local match.

D-DOT's FY '01 capital grant program includes the purchase of approximately 53 replacement buses. This year's State appropriation and contract development processes, unfortunately, will not coincide with the immediate and urgent need to establish the match funding account. D-DOT's 5-year "requirements" contract with the bus vendor Nova Bus, Incorporated, will expire April 30, 2001. Your Honorable Body's action today to advance appropriations to D-DOT in the amount of \$5,748,354 will enable the Department to move forward and issue a purchase order for 53 buses to the vendor. If this opportunity is lost, it will result in a delay of 12-18 months before the delivery of new buses can be realized (solicitation, contract award and manufacture processes considered). It will also force D-DOT, once again, to retain old, high maintenance buses for a longer period.

D-DOT anticipates the completion of the State appropriation and contract development process this summer. However, we cannot draw down, if needed, the federal share award without a local match commitment; nor can we establish the necessary funds on account to issue a purchase order today.

Therefore, we request that your Honorable Body authorize, with waiver of reconsideration, the Finance Director to increase the D-DOT appropriation account and make cash advances as needed from the General Fund to meet the Federal match obligation for Grant No. MI-90-X359-00. Full repayment to the

General Fund for any advances will be made as soon as the Michigan Department of Transportation (M-DOT) grant contract is received and accepted by your Honorable Body.

Respectfully submitted,
SANDRA BOMAR PARKER
Interim Director

By Council Member S. Cockrel:

Resolved, That the Detroit Department of Transportation (DDOT) is requesting that the Finance Department make cash advances as needed from the General Fund to meet the Michigan Department of Transportation (MDOT) match obligation of \$5,748,354 for Grant No. MI-90-X359-00. The 80 percent Federal portion (\$22,993,416) has received prior approval by the Detroit City Council on April 11, 2001. Full repayment of the 20 percent match (\$5,748,354) to the General Fund will transpire when MDOT supplies DDOT with contractual documents and acceptance of the grant contract by the Detroit City Council has occurred. This grant contract will allow DDOT to purchase approximately 53 replacement buses and various equipment and facilities improvements; and be it further

Resolved, That the 20 percent contractual share is \$5,748,354 and that Appropriation Account No. 10330 be increased as indicated; and be it further

Resolved, That the Interim Director of DDOT, Sandra Bomar Parker, be and is hereby authorized to execute the agreement on behalf of the City of Detroit; and be it further

Re: Rescission of Land Sale Development Disposition: 88-92, 96 Piquette, 6039 & 6047 John R.

On March 16, 2001, (Detroit Legal News, Pg. 8) your Honorable Body authorized the sale of the above-captioned property to Robert M. Dunlop, for the purpose of constructing a paved surface parking lot for the storage of licensed operable vehicles to accommodate the adjacent restaurant business.

It has come to our attention that Robert M. Dunlop is the tenant and not the owner of the adjacent restaurant. Under these circumstances he cannot expand this restaurant facility as he does not own the restaurant. We have notified Mr. Dunlap accordingly. We are presently reviewing the proposal of Mr. David A. Rice, the owner of the restaurant, for expansion of this facility.

We, therefore, request that your Honorable Body rescind the sale to Robert M. Dunlop.

Respectfully submitted,

PAUL A. BERNARD

Director

April 26, 2001

Honorable City Council:

Re: Division of Platted Property for Assessors Petition No. 00-26 (3912-18 Commonwealth) (Recommend Approval).

The Planning & Development Department (P&DD) recommends approval of the request of Rick Gignac to divide residential property at 3912-18 Commonwealth north of Selden Avenue. The proposal is to divide a rental duplex structure into two single-family ownership units. Because this proposal would divide parcels of property into smaller lots than allowed in Ordinance 421-G, the Planning & Development Department must review the application.

Description

The property is more particularly described as Lot 17 of Avery & Murphy's Subdivision, City of Detroit, Wayne County, Michigan and is shown on the attached property survey and land use maps. The subject property is zoned R3 (Low-Density Residential) and is developed with a 2-1/2 story duplex residential structure and is shown on the attached map. The proposed *division of Platted Property* will clarify property boundaries, property assessments, and the land use relationship between the two residential units making up the duplex structure.

Legal Basis for Review

The Planning & Development Department reviewed the request under City of Detroit Ordinance 421-G of April 17, 1969, Chapter 58A, Article 1, *Subdivision of Land*, of the Detroit City Code and Sections 45.0200, 43.0200, and 104.0000 of the Official Zoning Ordinance 390-G. A copy of Ordinance 421-G is included for reference.

Findings

A review of this request by the Finance Department, Assessments Division and the Law Department discloses that the property descriptions are accurate as listed and that all signatories have necessary interest in the subject property.

The Planning & Development Department's review involved 1) an investigation of water and sewer service in this area, 2) a study of vehicular and pedestrian access, 3) a review of Master Plan and zoning requirements, and 4) interviews with the petitioner.

Based on the aforementioned Departmental determinations and our review and analysis, the Planning & Development Department makes the following findings relative to the Commonwealth Properties, Inc. proposal:

1. The proposal meets the conditions of Section 1, Paragraph 3 of Ordinance 421-G as the property is presently developed and the proposed division creates parcels conforming to existing individual buildings units, and;
2. The proposal improves pre-existing conditions by legally clarifying the platting and property boundaries, property assessments, and the land use relationship between the two separate residential units and;
3. The proposal is consistent with the Master Plan of Policies. Recommended Future General Land Use for the subject area shown on the Jeffries Subsector, Southwest Sector map is "RM" (Medium Density Residential).

Recommendation:

The Planning & Development Department recommends that this request for *Division of Platted Property* be approved as proposed and that the attached resolution relative to this Division be adopted.

Respectfully submitted,
 PAUL A. BERNARD
 Director

By Council Member Scott:

Whereas, Rick Gignac for Commonwealth Properties, Inc. has submitted a request to divide platted property at 3912-18 Commonwealth into two (2) parts, and

Whereas, Said request contains the required Finance Department, Assessments Division application, legal description (Exhibit A), and survey of property (Exhibit B) as amended, and

Whereas, The Finance Department, Assessments Division and the Law Department have investigated said request and found that the property descriptions are accurate as listed and that all signatories have necessary interest in the subject property, and

Now, Therefore, Be It Resolved, That the City Council, after careful consideration of the request by Rick Gignac to divide platted property at 3912-18 Commonwealth into two (2) parts, accepts the Departmental reports, approves said *Division of Platted Property* as described in the attached Exhibit A, and refers said request to the Finance Department, Assessments Division for final processing, and further

Be It Resolved, That this resolution in no way alters the class of occupancy, and that

any alterations or additions to the principal buildings hereto will require prior approval of the Board of Zoning Appeals, and finally

STATEMENT OF
 COUNCIL PRESIDENT GIL HILL
 ON SETTLEMENT OF 13TH CHECK
 LITIGATION REGARDING THE POLICE
 AND FIRE RETIREMENT BOARD

The Law Department has presented a resolution to City Council today seeking authorization to settle two cases related to the issue of granting a "13th Check" to members of the Police and Fire Retirement System. As a retiree of the Police Department, I am a member of that system and would, therefore, receive any benefit to be gained from settlement of the lawsuits presented to City Council today.

My Colleagues have recognized my years of service to this City as a member of the Police Department by appointment to serve as the City Council's representative to the Police and Fire Retirement System. As a voting member of that Board, I believe that it is also important for me to vote on this issue as it comes before the City Council today for action. I have looked at the issue as a member of the Police and Fire Retirement System, and I am now being asked to approve the settlements based upon the recommendation of the City of Detroit's Law Department.

Under Section 2-6-31(C) of the Ethics Ordinance, a public servant should disclose any personal interest in real and personal property that is the subject of a decision by the Agency that he or she serves on so that the disclosure may become part of the minutes of that public body.

While the section does not directly speak to the settlement of civil litigation as a trigger for filing a disclosure statement,

I believe that it is in the spirit of the ordinance to file this disclosure today.

City Planning Commission

March 27, 2001

Honorable City Council:

Re: Request of Scripps Park Associates, LLC (#3465) to rezone property generally bounded by Martin Luther King Jr. Blvd., Gibson St., Selden Ave., and the John C. Lodge Service Drive from an R6 (High Density Residential District) zoning classification to a PD (Planned Development District) zoning classification and to amend the approved plans for an existing PD zoning district on property generally bounded by Selden, Gibson, Canfield Ave., and the John C. Lodge Service Drive to accommodate proposed residential and retail development. (Recommend Approval with Conditions)

NATURE OF REQUEST

Scripps Park Associates, LLC is requesting to amend the approved PD plans for the northern portion of the Jeffries Housing Project West area generally bounded by Selden Avenue, Gibson Street, Canfield Avenue, and the John C. Lodge Service Drive to accommodate construction of a total of 240 units consisting of owner-occupied single family homes, for sale and rental duplexes and townhomes, and triplexes. The area of the proposed amendment is 27.48 acres (see attached location map).

Scripps Park Associates is also requesting the rezoning of the southern portion of the Jeffries Housing Project West area generally bounded by Martin Luther King Jr. Blvd. to the south, Gibson Street to the west, Selden Ave. to the north, and the John C. Lodge Service Drive to the east from R6 (High Density Residential District) to PD to accommodate the construction of rental townhomes, an enhanced senior living facility, and approximately 40,000 square feet of retail space, as well as the retention of 297 units of apartments for senior citizens in three high rise buildings and the conversion of one of the existing high-rise buildings into 28 condominiums. The area of the proposed rezoning is 20 acres.

It is anticipated that the Detroit Housing Commission will continue to own all the property that is not developed with for sale housing units. The developer will enter into a development agreement relative to the remainder of the site.

A total of 1,390 residential units located in nine (9) high rise, four (4) mid-rise, and eleven (11) low-rise structures on the total site have been or will be demolished as a part of this development.

The rezoning to PD is being requested to avoid the necessity of platting individual lots

within the project area and to also give the developer maximum control and flexibility in developing the complex (with regard to setbacks and parking requirements) both now and in the future.

PROPOSED DEVELOPMENT

The developer is proposing to construct the following residences in the northern section of the project:

# Units	Type of Unit	Size
Proposed		
5	Two bedroom duplex for-sale	1,412 s.f.
5	Three bedroom duplex for-sale	1,703 s.f.
14	Three bedroom duplex rental	1,240 s.f.
14	Two bedroom duplex rental	1,154 s.f.
24	Three bedroom triplex rental	1,290 s.f.
36	Two bedroom triplex rental handicapped	1,200 s.f.
12	Two bedroom triplex rental	1,236 s.f.
24	Two bedroom townhouse for sale	1,739 s.f.
20	Three bedroom townhouse for sale	1,907-1,940 s.f.
39	Two bedroom townhouse for rent	815-1,328 s.f.
47	Single-family home for sale	1,796-2,583 s.f.
TOTAL 240		

The developer is proposing to construct or rehabilitate the following residences in the southern section:

# Units	Type of Unit	Size
Proposed		
28	2-3 bedroom condominiums in tower	2,000-2,500 s.f.
44	One bedroom townhome rental	750 s.f.
71	Two bedroom townhome rental	1,328 s.f.
40	Enhanced senior-living units	700-750 s.f.
297	Senior units in tower	700 s.f.
TOTAL 480		

Two of the three remaining elderly-only high-rise buildings have been rehabilitated and are occupied. A new community center is also proposed which will provide space for meetings and job and skills development, as well as house maintenance and service facilities.

The proposed development will be mixed-use and also mixed income, consisting of both rental and owner-occupied, subsidized and market-rate units. Former Jeffries residents will have preference in applying first for the units in the proposed development. Following is the break-down of the affordability of the proposed units:

Type of Unit	# of Units	Percentage of Units
ACC-Family Rental (Public Housing)	95	13.19
Affordable Senior Rental	337	46.81
Other Tax Credit — Family Rental	101	14.03
Moderate Affordable — Homeownership	41	5.69
Market-rate Rental	58	8.06
Market rate — Homeownership	88	12.22
	720	100.00

Building heights will vary from two (2) to three (3) stories. Facades will be, in general, brick on the first floor and vinyl siding on the upper stories.

Construction is proposed to begin in the fall of 2001, with completion anticipated to be by the winter of 2003. A total of 639 off-street parking spaces is proposed, not including those for the assisted living units, retail, and medical office uses, and on-street parking will be allowed. Generally, under the Zoning Ordinance, 860 off-street parking spaces would be required for this development. The main reason for the parking deficit is the senior units, which frequently don't require the parking that the Zoning Ordinance usually requires.

The public street grid system which originally existed in the area would be recreated, with Brooklyn Ave., Alexandrine Ave., Willis Ave., and Calumet Ave. being reopened to better integrate the development into the surrounding area. A new north-south street is proposed to be constructed. Sidewalks along the streets will also be constructed. The new streets will increase public activity in the interior of the development, which will increase security. All dwelling units will also have front porches and dedicated front and rear yards to encourage outside activity and "eyes on the street". The developer is requesting that the public alley north of Selden, which runs east of Gibson, be vacated. Gibson St. will possibly be widened.

The plan for area south of Brainard, proposed to contain the assisted living facility and the commercial uses, is presently just conceptual, and developer would bring back definite plans for this area in the future.

SURROUNDING ZONING AND LAND USES

To the west: R3; Single-family, two-family, and low density multiple residential and scattered vacant lots

To the east: PD, R2 and R5; John C. Lodge Freeway with vacant lots, residential, and a former school building beyond

To the south: B4; Commercial uses

To the north: R5; Poe and Edmonson Schools

MASTER PLAN CONSISTENCY

The rezoning concept in the Master Plan shows R6 for the parcels requested to be rezoned, and the Recommended Future Land Use is RH (High Density Residential). The proposed development would appear to be **inconsistent** with this, as its density would be 24.25 dwelling units/acre. High Density Residential in terms of the Master Plan means a density of greater than 30 dwelling units/acre. The Planning and Development Department has submitted a proposed amendment to the Master Plan of Policies to indicate PD on the Rezoning Concept Map and RM/GC Medium Density Residential/General Commercial on the Future Land Use Map.

PUBLIC HEARING RESULTS

On March 1, 2001, a public hearing was held before the City Planning Commission on the above matter. A member of the Jeffries Homes Residents Council spoke in support at the hearing. No one spoke in opposition. In addition, 4 letters in support of the proposed modification and rezoning were received.

The Commissioners had several questions and concerns. One was the lack of licensing required for assisted living facilities. Another was whether former Jeffries residents would be able to afford the new units; the petitioner answered in the affirmative and described the home ownership programs that have been developed to assist people in owning homes for the first time. It was also stated that many of the persons who were relocated out of the Jeffries homes were given Section 8 vouchers and have not expressed a desire to move back. Several questions were raised concerning the affordability of the rental units, and the petitioner answered that 30% would be market rate, 35% for those persons earning 0-80% of the area's average income, and 35% for those persons earning up to 50% of the area's median income. No concerns were left unaddressed.

ANALYSIS

The scale of the proposed development appears to blend in better with the surrounding neighborhood than the previous development. The site plan proposed depicts a development which should be more compatible in terms of appearance and traffic circulation. In addition, with the lower density and more traditional neighborhood layout, the development should enhance the living environment for the residents.

In addition, the rezoning will allow the Detroit Housing Commission to have greater flexibility in this and future developments on the site. While the rezoning does not presently conform to the Master Plan for the area, it is anticipated that the Master Plan will be amended to allow the lower density residential development.

RECOMMENDATION

At its meeting of March 1, 2001, the City Planning Commission took action to recommend that the proposed rezoning to PD (Planned Development) be approved subject to:

1. Adoption of the appropriate Master Plan amendment,
2. Final approval of site plans, elevations, and landscaping plans by City Planning Commission (CPC) staff,
3. Submittal of final plans for the area south of Brainard, which received only conceptual approval, and
4. Revision of the assisted living (enhanced senior) center to show a facility of a type licensed by the State.

At that same meeting, the Commission also took action to recommend that the proposed modification to the existing PD (Planned Development) district be approved subject to final approval of site plans, elevations, and landscaping plans by CPC staff.

We are awaiting the Law Department's approval as to form of the amendatory ordinance to effectuate this recommendation.

City Planning Commission

May 1, 2001

Honorable City Council:

Re: Review of proposed entry plaza and site improvements at the Detroit Historical Museum, which is located

in a PC (Public Center District) zoning classification (Recommend Approval).

PROPOSAL

The City Planning Commission (CPC) has received a building permit application from the Detroit Historical Museum for the construction of a new entry plaza and related site improvements. This proposal calls for the removal of the existing retaining walls, landscaping and walkways along Kirby on the south side of the building and at the corner entrance to the building at Woodward and Kirby. These elements will be replaced with new landscaping, retaining walls, and pathways and will feature a circular paved plaza bordered by curvilinear planting beds and a sign wall that would face the intersection. The circular plaza would include an interpretive map showing the Detroit River and the radial thoroughfares to be constructed of granite and concrete pavers. The planting beds would also include three existing flag poles to be relocated from the south-facing wall of the corner entrance. This project is primarily funded through a state grant in the amount of \$1 million. The new plaza will bear the name "Bank One Plaza" as an additional \$250,000.00 has been gifted to the museum for this project through the Detroit Historical Society from Bank One and other donors in recognition of the City's 300th Birthday. Since the museum falls within a PC (Public Center District) zoning classification this project requires your review and approval before it can commence.

REVIEW AND RECOMMENDATION

On Friday, April 13, 2001 staff of both the City Planning Commission and Planning and Development Department met and reviewed the project with Dr. Dennis Zembala, the Director of the Museum and representatives of Smith Group JJR, the designers. Staff is impressed with the thoughtfulness with which this project was approached and the quality of materials selected. There were however, a few issues that arose in that meeting, some of which have not been finally resolved.

The proposal includes the addition of a new handicap ramp from Woodward leading directly to the new plaza and main entrance. This will make the main entrance handicap accessible in addition to the Kirby entrance. The railing along the ramp would be attached to the pavement via a surface mounted plate. This method, while adequate, may not provide the strongest support for such a high traffic area. The surface mounted plates, depending upon the size and means of construction could create a minor obstruction. To resolve this matter the plate could be recessed so as not to create an obstruction or the supporters for the rail could be anchored into a sleeve or

collar embedded in the pavement. Staff believes that addressing this issue could create a sturdier longer lasting handrail, while eliminating a potential trip hazard and making the ramp easier to traverse by wheelchair bound persons.

The circular plaza and the surrounding seat wall are intended to create an exterior classroom where tour groups, beginning their visit, would be introduced to the City and the museum using the interpretive map. To accomplish this, it was necessary to create a separation between the plaza and the activities along the street. This was achieved by raising the proposed height of the sign wall to about 5'-4" above the grade of the sidewalk. Staff believes the wall could be lowered as much as a foot and still achieve the desired enclosure of the plaza area and accommodate the sign. If this were done it would improve views into the plaza area and of the building from the street but still offer a level of privacy.

Lastly, staff has looked at the height and width of the concrete curb that would separate the curvilinear planting bed from the public sidewalk. As proposed, it is 8 inches in width and varies from about 8 to 12 inches in height. With those dimensions, this would not present a desirable place for someone to sit. If it were higher and wider it could form a seat wall, as is the existing condition, and provide a sitting opportunity that relates outward to the rest of the Cultural Center Campus.

The architect has agreed to look at all these concerns and take them into consideration, but at this point in time no revisions have been made to the plans. These concerns are detailed in nature and could be looked upon as negligible, but it is small details like these that can make a big difference in the aesthetics and usefulness of a space. Staff hopes that these considerations will be beneficial to that end. CPC staff finds that this proposal is consistent with the spirit and intent of the PC zoning classification and recommends approval with the understanding that some minor modifications may be necessary to address outstanding concerns.

Article 24 — Temporary Assignments

Article 38 — Hospitalization, Medical, Dental and Optical Care Insurance

- Clarified that the current prescription medicines benefit requires employees to make a \$3.00 co-pay, and for retired employees, it is either \$2.00 or \$3.00, depending on which amount was in effect at the time of retirement, (see page 31).

- Increased City's contribution to Optical Care Insurance to provide

improved benefits for employees including better frames, lenses, and choice of tints, (see page 33).

- Integrated into regular labor agreement provision the MOU "*Initiative to Return Employees to Work*" in 1995-1998 contract whereby persons on workers' compensation are to be returned to active employment in available alternate positions which are consistent with any medically-determined work restrictions if such persons cannot be returned to their former positions, (see page 50).

Article 43 — Retirement

- **Work Performance Cash Incentive Payment:** effective for "third year of the contract", 1% of annual pay can be earned by employees who, as a result of a program of formal work performance evaluations, are rated "Meets Expectations" (or better); on employee performance evaluations to be conducted at end of 2000-2001 Fiscal Year. This is a cash payment which does not go into the employee's annual base rate of pay, (see page 65).

- **Cash Bonus Formula:** effective for "third year of the contract" a percentage of an employee's annual straight time base pay, up to a maximum of 2%, will be payable, *dependent entirely* on the City experiencing a budget surplus in its "undesignated reserves" funds for the 2000-2001 Fiscal Year. This is a one-time cash payment which does not go into the employee's annual base rate of pay, (see page 64).

- **Special Pay Adjustments** which will provide for additional pay implemented for classifications which there is a recruitment and retention problem, special skills upgrades, and/or other special circumstances. Such classifications are listed in a separate Memorandum of Understanding, (see page 80).

The current \$600 annual benefit continues to apply for other approved training programs. The annual amount of tuition refund which an employee may receive, however, cannot be pyramided to exceed \$850.00 in any fiscal year, (see page 72).

Article 51 — Private Care Mileage Reimbursement

- Increased mileage for employees required to drive their personal vehicles on City business to 31¢ per mile (previously was 26¢), effective July 1, 1999, (see page 72).

**Human Resources Department
Labor Relations Division**

April 25, 2001

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by the Paving Forepersons' Association.

The Labor Relations Division has recently reached agreement with the Paving Forepersons' Association. Given the extensive time it will take to type and process the entire contract, it would cause an unreasonably long delay to withhold implementation until the formal contract has been prepared and presented to your Honorable Body for approval.

Therefore, in accordance with standard City procedure, this Office is recommending that your Honorable Body pass a resolution amending the 1998-99 Official Compensation Schedule by granting a 2% general wage increase for the subject represented employees effective July 1, 1998, amend the 1999-2000 Official Compensation Schedule by granting a 3% general wage increase effective July 1, 1999, and similarly amend the 2000-2001 Official Compensation Schedule to reflect a 3% general wage increase effective July 1, 2000. We are further requesting authorization to implement the following new contract provisions:

1) Special Adjustments for certain classifications based on recruitment and

retention difficulties as outlined in the attached Schedule A.

2) Fringe benefit changes as set forth in the attached Schedule B.

We further respectfully request that your Honorable Body adopt the following resolution with a Waiver of Reconsideration.

Respectfully submitted,

ROGER N. CHEEK
Labor Relations Director

By Council Member Scott:

Resolved, That the 1998-1999, 1999-2000, and 2000-2001 Official Compensation Schedules and employee wages be amended according to the foregoing letter and be it further

Resolved, That employees in the Paving Forepersons' Association bargaining unit shall receive special adjustments and fringe benefit improvements as recommended in accordance with the Schedules on file with the City Clerk, and be it further

Resolved, That the Finance Director is hereby authorized to honor payrolls and vouchers in accordance with this resolution and letter.

**SCHEDULE A
SPECIAL ADJUSTMENTS**

In order to maintain traditional wage relationships between various classes of employees which share a close working relationship and also facilitate the harmonious interaction of such employees, the maximum rate for all classifications in the bargaining unit shall be increased by 2% effective July 1, 2000, and again by 3% effective January 1, 2001.

This special adjustment shall be applied to all bargaining unit members on the payroll on those dates and is in addition to the general wage increases provided for in the Wage article.

**SCHEDULE B
Fringe Benefit Changes**

• **Other Compensation —**

1. **Cash Bonus Formula:** All employees on the regular payroll on June 30, 2001, shall be eligible to participate in a possible cash bonus (not exceeding 2%) which shall be determined and paid one-time in accordance with the conditions set forth in the labor agreement.

2. **Work Performance Cash Incentive Payment:** During the term of the 1998-2001 Agreement for a period ending June 30, 2001, the work performance of every bargaining unit member shall be individually evaluated for the purpose of determining if they will be eligible to receive an individual cash incentive payment for their work performance during the period. An employee must receive a minimum overall rating of "Meets Expectations" to qualify for a cash incentive payment of 1% of the employee's base wage to be paid on the first payday

in December, 2001. This payment shall not increase the employee's base rate of pay.

• **Vacations** —

1. Vacation banks may not exceed more than 40 days on any October 1.

2. Vacation qualifier changed to 1,600 hours. 100% of vacation time allotment shall be credited to an employee's vacation bank after the 1,600 hour qualifier is reached.

• **Private Car Mileage Reimbursement**

— Effective July 1, 1999, employees required to drive their personal vehicle on city business shall be paid mileage at the rate of 31 cents per mile.

• **Workers' Compensation** — Employees who are unable to supplement their Workers' Compensation benefit from their off-time banks because the amount of overtime worked causes the benefit to meet or exceed 95% of weekly take-home pay, shall be treated like employees who are able to supplement for the purposes of hospitalization coverage, life insurance coverage and current sick leave accrual.

• **Tuition Refund** — The amount of tuition refund available to employees has been increased based on the following: For those employees seeking a graduate degree the amount is \$850, for those seeking an undergraduate degree the amount is \$700. The total amount of tuition refund may not be pyramided to exceed \$850 in any fiscal year. (The current \$600 amount has been retained for use — not affected by these two increases.)

• **Hospitalization, Medical, Dental, and Optical Care Insurance** —

1. Effective July 1, 1999, through June 30, 2001, the City will contribute \$5.50 per month for employees covered by CO/OP Optical and \$5.43 per month for employees covered by Heritage Optical, resulting in increased optical benefits.

2. Effective July 1, 1999, employees on the active payroll who are covered by a health care plan offered by an employer other than the City, and can furnish proof of such coverage, may elect to take an annual \$950 cash payment (payable quarterly) in lieu of the hospitalization-medical coverage offered by the City. This election shall take place annually during the open enrollment period. The City shall have the sole discretion to offer this opt-out provision to current and future retirees who are eligible for the City's hospitalization-medical coverage.

Planning & Development Department
March 13, 2001

Honorable City Council:

Re: A resolution to amend the Detroit Master Plan of Policies in the vicinity of the John C. Lodge Freeway and Martin Luther King Jr. Boulevard to accommodate a new residential/retail development on the former Jeffries Homes West site.

Attached for your consideration and action is a proposed Amendment to the Detroit Master Plan of Policies for the area generally bounded by Selden Avenue on the north, the John C. Lodge Service Drive on the east, Martin Luther King Jr. Boulevard on the south, and Gibson Street on the west. The proposed Amendment is the second Amendment for the site of the former Jeffries Homes West (see Master Plan Amendment #13; July, 1997). The proposed land use for the portion of Jeffries Homes West north of Selden had previously been amended to allow for a less dense development that would include 296 units of townhouse, duplex, and single-family residences to be built by the Detroit Housing commission. However, in a new proposal to be known as Woodbridge Estates, a for-profit developer, Scripps Park Associates, LLC, has now proposed to develop 238 units of owner-occupied single family homes and two, three, and four-family for-sale and rental townhomes north of Selden. South of Selden the developer has proposed to construct 40,000 square feet of retail space, a medical facility, an assisted living facility, condominiums, and additional townhomes, while retaining 297 senior

units in three high-rise buildings. Adoption by your Honorable Body of this resolution would enable the rezoning of the southern portion of the former Jeffries Homes West from an R6 (High Density Residential District) zoning classification to a PD (Planned Development District) zoning classification and accommodate the proposed residential/retail redevelopment.

The subject area to be changed, which covers an area of approximately 20 acres, is shown on the Master Plan of Policies, Map #309-8B, Jeffries Subsector, Southwest Sector "Recommended Future General Land Use". Presently, the subject area is designated "RH" High Density Residential. It is recommended that the land use designation for the subject area be changed to "RM/GC" Medium Density Residential/General Commercial. The subject area is also recommended to be changed on the attached Southwest Sector "Generalized Rezoning Concept" map from an R6 (High Density Residential) zoning district classification to a PD (Planned Development) zoning district classification.

The preliminary site plan drawn by Kadushin Associates and dated February 13, 2001 shows the construction of the proposed Woodbridge Estates development. The proposed development is in keeping with the national trend of making public housing sites less dense as the overall density has been reduced from 38 units per acre to 15 units per acre. The inclusion of market-rate housing is another major difference between this proposal and earlier policy. Scripps Park Associates has proposed to construct 96 new home-ownership units (56 market-rate) along with 262 new rental units (81 Market-rate). This proposed new development has been designed to attract a mix of income levels and create an appealing neighbor to the adjacent Woodbridge community. Retail, along with an assisted living facility and a medical facility are proposed for the Martin Luther King Jr. Boulevard frontage at the southern end of the site.

The proposed Woodbridge Estates development would be a welcome addition to a surrounding neighborhood that is in the process of renewal. An attractive residential development that includes a mix of incomes and housing types can only increase the reinvestment potential of the larger community. Therefore, it is our belief that the proposed land use change is appropriate for the subject area to create a more attractive environment on the former Jeffries Homes West site.

Respectfully submitted,
PAUL A. BERNARD
Director

During the Committee of the Whole session on May 2, 2001, Council Member Brenda M. Scott requested that the Law Department prepare an appropriate resolution to set a closed session to discuss negotiations related to land acquisition for the Waterfront Reclamation and Casino Development Project.

As presented, it is the understanding of the Law Department that Council Member Scott has requested a closed session to discuss allegations related to on-going negotiations for the purchase of land in the Waterfront Reclamation and Casino Development Project. In accordance with your request, attached is an appropriate resolution for your consideration.

Re: Transfer for Big Clean Up

As you are aware, the Mayor has initiated the Big Clean-Up effort. This is a city-wide initiative to clean illegal dumpsites and alleys. DPW and GDRRA have begun a pilot program to assess the best way to proceed with this citywide effort. They are currently working in one Neighborhood City Hall area clearing illegal dumpsites and cleaning alleys. DPW is in the process of purchasing 1,000 trash containers for bus shelters and major streets. Recreation is purchasing 5,000 trash containers plus improving signage for parks.

The attached resolution is appropriating half of the 1999-2000 surplus (\$1,150,988) to cover these costs. The 2000-01 Budget assumed no prior year surplus.

The following is a breakdown of 2000-01 cost:

Trash containers DPW	\$ 200,000

The proposed site is located in the Core City Area of Detroit bounded by Grand River to the North, Trumbull to the South, Rosa Parks to the West, and Cochrane to the East.

MSHDA has indicated that such development receiving low income tax credits but receiving no financing from the Authority are eligible to receive tax abatements pursuant to Section 15a of Act 346 of the Public Act of 1966 as amended.

In order to make the development economically feasible, it is necessary for the development to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P. 346, as amended MCLA 125.1415A).

In accordance with the National Housing Act and the criteria for the award for reservation of Low Income Housing Tax Credits and the Planning and Development Home Investor Loan Program at least twenty percent (20%) or 14 of the units must be occupied by households having income no greater than 50% of the area median income, adjusted for family size. The remaining 80% or 53 of the units must be occupied by households with income that do not exceed 60% of the area median income, adjusted for family size. These income restrictions will be in effect for the longer of the period the Affordable Housing Restrictions apply or the time required under the Tax Credit Program.

Adoption of the resolution by your Honorable Body will satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a four percent (4%) service charge for this housing project.

Respectfully submitted,
WM. PATRICK RYDER

 Re: Linda Mack v. City of Detroit, Wayne
 County Circuit Case No. 98-803967

This matter was mediated before a Wayne County Mediation Panel for One Hundred and Ten Thousand Dollars (\$110,000.00) as to the claims of the plaintiff in this case against Defendant City of Detroit. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial, however, the party rejecting the evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned civil lawsuit, the facts and particulars of which are set forth in the memorandum submitted under separate cover. From this review, it is our considered opinion that acceptance of the mediation evaluation in the amount of One Hundred and Ten Thousand Dollars (\$110,000.00) is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial. However, an eventual settlement of this matter in this amount is prudent.

We, therefore, request your Honorable Body to authorize the acceptance of the mediation evaluation and to direct the Finance Director to issue her draft in the amount of One Hundred and Ten

Thousand (\$110,000.00) payable to Linda Mack and Peter Macuga, her attorney, to be delivered upon receipt of the notice of mediation settlement, and Order of Dismissal.

Budget Department

May 3, 2001

Honorable City Council:

Re: Correction of Errors and Amendments to the 2001-02 Mayor's Budget.

After further review of the 2001-02 Budget presented to City Council on April 12, 2001, errors have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors which must be corrected as an amendment to the Recommended Budget. Second, there are typographic and/or data entry errors, which do not affect appropriation totals or budget balancing. The "substantive" corrections will be identified with an asterisk (*), and will be addressed in the attached resolution.

One significant correction relates to uniform payment. The current recommendation does not accurately reflect the approved agreement for uniform pension distribution. The effect is a change to our 2000-01 surplus estimate from -0- to \$14,980,944. Half of the surplus is deposited in Budget Stabilization Fund and half reflected as Prior Year Surplus in 2001-2002. The Recommended Budget does not include a uniform pension payment, however, \$5,170,186 should have been included. Also the current wage agreement with our employees includes a cash bonus formula if the City reports a General Fund surplus for 2000-01. Since we are now estimating a 2000-01 surplus this General Fund payment would be \$1,916,085. Following are the details:

Non-Departmental (35)*

Pages 35-3, 4 and 25 of the Executive Budget should be amended as follows:

<u>Appropriation</u>	<u>Object</u>	<u>Current</u>	<u>Amount</u>	<u>Difference</u>
04739 General Revenue Non-Departmental	475100 Prior Years Surplus	-0-	\$7,454,472	\$7,454,472

<u>Appropriation</u>	<u>Organization</u>	<u>Current</u>	<u>Amended</u>	<u>Difference</u>

2001-2002 Legislative Policy Resolution on its Priorities in the Reduction and Reallocation of CDBG Funds/Consolidated Plan

By All Council Members:

WHEREAS, In order to address the major threat to the health, safety and welfare of Detroit's children presented by dangerously high blood lead levels the City Council has made a public policy decision that the first priority for Minor Home Repair funds be for those houses in which children are found to have blood lead levels of 10 micrograms per deciliter and above and the City Council has allocated funds as a single line item rather than to community based organizations so that children with elevated blood lead levels citywide may be served; NOW THEREFORE BE IT

RESOLVED, That the City Council has reduced the allocation of Community Development Block Grant funds to the Planning and Development Department Housing Services Section by \$367,000 and has allocated the same amount to the Detroit Housing Commission to provide funds to supplement the Lead Abatement grant from HUD, and it is the intent of the City Council to approve a future request for reprogramming of \$367,000 of previously allocated Community Development Block Grant funds to the Planning and Development Department for home repair technical assistance in the Housing Services Section;

RESOLVED, That the City Council requests City Planning Commission staff to work with the State Department of Community Health, Detroit Health Department, and Wayne State University to conduct outreach and identify potential home repair candidates among the existing lead cases to assist the Planning and Development Department in establishing a caseload to spend existing funds that have been allocated to individual community group areas;

Resolved, That City Council has allocated \$350,000 in Community Development Block Grant funds for lead control activities with the intent that a portion of these funds would be used for small grants to community organizations, materials, etc. to provide financial incentives and assistance to do lead education and outreach, as well as to help families apply for home repair, and to advocate for them during the home repair process and a portion of the funds would provide for super cleaning and/or other initiatives that address lead hazards in homes where children are identified with lead poisoning.

Resolved, That the City Council requests that the Mayor make all efforts to coordinate services for those families who have children identified with elevated blood lead levels as well as promote increased testing to identify other children at risk and to maximize available resources to address this problem and that all efforts be made by the Health Department, Detroit Housing Commission, Buildings and Safety Engineering Department, Planning and Development Department, and the City Planning Commission on behalf of City Council, in collaboration with the State, the Department of Housing and Urban Development, and the Center for Disease Control in exploring more effective program models for lead remediation, interdepartmental coordination, and code enforcement.

Resolved, That the City Council has reduced the proposed allocation for the Senior/Emergency Home Repair program by \$1 million with the intent that the Council would approve a future request for reprogramming at least \$1 million in previously allocated Community Development Block Grant funds for Senior/Emergency Home Repair from existing upspent Home Repair (minor and substantial) funds from projects identified on the demolition reprogramming list, including Bangor Block Club, Barlow Enhancers, Briggs Community Coalition, Burlingame Webb Lawrence Collingwood, Conant Dequindre, Emerson Community Homeowners (ECHO), Kercheval Community Development, Kercheval McClellan, Kercheval Riverfront, McNichols East, Mt. Elliott Conant Triangle, NOF Residential Rehab, Patton Block Club, People in Faith United, Positive Image, Public Housing Improvements, Rental Rehab Loan, SemiQuois, SW Community Can DO, SW Detroit Improvement, University City NSA, Wilshire Drive Block Club, and Woodbridge NSA or from other identified funds;

Resolved, That the City Council requests that, as necessary, the Administration seek HUD waivers from the 15% public services cap for the following groups that provide services within the Empowerment Zone: Alternatives for Girls, Association of Chinese Americans, Bridging Communities, Inc., Cass Community United Methodist Church, Cass Corridor Youth Advocates, Core City Neighborhoods, Delray United Action Council, Latin Americans for Social and Economic Development, Inc., Latino Family Services, Michael Searcy Community Center, New Day Multi Purpose Center, and Young Detroit Builders Youthbuild; and BE IT FINALLY

RESOLVED, That the City Clerk is directed to provide a copy of this resolution to the Mayor, the Health Department, the Detroit Housing Commission, regional office of HUD, Buildings and Safety Engineering Department, and the City Planning Commission, WSU, State Department of Community Health, immediately following its publication.

City Council will consider such issues at the time that a contract to implement the lease-purchase program is submitted for approval, and for each subsequent term of the program. The City Council will receive and consider information that is submitted by a labor organization representing City employees and the Administration that addresses the labor concerns raised before this Council prior to its action on a lease-purchase agreement. Detroit City Council 2001-2002 Budget Address Council President Gil Hill, Thursday, May 17, 2001

Introduction

The City of Detroit celebrates its 300th Birthday this summer and we all look forward to having our city continue to prosper. Detroit's economy has improved due to an unprecedented eight year national economic boom under the Administration of Bill Clinton and Al Gore. We owe a huge debt to these two men and we should not underestimate their help in making the City of Detroit prosper.

The City of Detroit under Mayor Archer, has taken this national economic opportunity and capitalized on it. We have more new housing and business construction underway, unemployment is at a ten year low, crime has declined and investment and reinvestment in the city continues to grow. The City of Detroit has gone from deficits, layoffs and budget savings plans, to a budgetary surplus, rising property values and billions of dollars in new development. We have gone from the financial watch list to the preferred list as our bond ratings continue to increase and the budget stabilization fund continues to grow.

Yes, much has been accomplished in this last decade, but much remains to be completed. We are now faced with complex organizational and structural problems that must be addressed to take our city to the next level. Just a few of these problems are abandoned housing, illegal dumping, drug abuse, infrastructure improvements, youth violence and HIV/AIDS.

Throughout this year the citizens have given the same message over and over to City Council and the Administration. They want safe clean neighborhoods, jobs and economic opportunity.

During the Council Budget deliberations and throughout the current fiscal year, three major internal structural problems have been identified that must be addressed in City government. Reorganization and Reinvestment in Our Police Department, A Citywide Comprehensive Housing Strategy and Reorganization of the Human Resources Department.

Police

The bond between the citizens and the police officers that they entrust to protect them, must be restored. City Council has held hearings and taken testimony from countless citizens and organizations resulting in Legislative Findings that are designed to improve accountability for the actions of our officers.

Housing

The City of Detroit needs a comprehensive housing plan that addresses all aspects of housing in the City of Detroit both public and private. Currently, members of this Council have indicated that this strategy does not include separation of the Housing Commission from city government. It is clear that current strategies for saving homes in the neighborhoods must be overhauled to produce workable and effective programs. The complex

nature of saving housing today with reduced funding, changing federal regulations and new mandates, requires that the City carefully craft policies that encourage development and rehabilitation instead of impeding it.

Human Resources Department

A major overhaul of the Human Resources Department is needed to reduce the number of unfilled employee positions. The failure to hire city workers across our departments directly effects the quality of services delivered to our citizens. The effective delivery of public services to citizens cannot be accomplished if the City continues to operate with a depleted workforce in critical areas. Historically, there has been a ten percent (10%) vacancy rate across all job classifications. Specifically, the unfilled positions in the Public Works, Building Safety and Engineering and Recreation Departments, directly effect the quality of life of citizens in our neighborhoods.

Budget Examined

On April 12, 2001, the Mayor presented to City Council a proposed 2001-2002 operating budget of \$3.3 Billion that anticipates a \$14 million dollar surplus. The \$14 million projected surplus results from a recent police and fire pension agreement for the distribution of surplus funding. \$7.5 million is to go into the budget stabilization fund. \$5 million will go into the police and fire pension system in the upcoming budget year. \$2 million will fund an employee bonus for roughly 11,000 general city employees. \$368,000 is being used to fund City Council priorities.

Over the past month, City Council has examined and reviewed this proposed budget in deliberations with each of the department directors. Additionally, the City Council has received and reviewed the budget reports and recommendations of the Ombudsman, the Auditor General, the City Planning Commission, the City Council Research & Analysis Division and the City Council Fiscal Analyst.

The Mayor's proposed budget contains \$94 million dollars to be generated by Casino Taxes based on the operation of the three temporary casinos. This includes the property taxes and payroll taxes being paid by these enterprises.

The citizens have expressed their budget priorities to the City Council through e-mail, letters, facsimiles and in two public hearings on the Community Development Block Grant and the General Fund Budget.

Based on all of this information, City Council acted to retain all but, \$9 million of the Mayor's \$3.3 billion proposed budget. The City Council changes to the proposed budget represent less than one-half of one percent of the Mayor's Budget. However, these changes we adopt today, send a clear message of the priorities the City Council will expect to be carried out in the upcoming fiscal year.

Community Development Block Grant

Historically, the greatest amount of budgetary changes have been in the Community Development Block Grant Program.

The 1974 legislation creating the Community Development Block Grant program in the Department of Housing and Urban Development, limits the amount of public service spending to 15% and limits the amount of administrative spending to 20% of the entitlement amount in any one year. This spending limitation needs to be reexamined in light of the Federal and State actions over the past twenty years, which shifts the burden of providing essential services to low and moderate income citizens, to local government.

Two years ago Council created a Commercial Strip Revitalization Task Force to explore and compare innovative and community based models of neighborhood and retail redevelopment in other cities. The Mayor and the City Council have now agreed to pursue a public/private partnership which will be administered out of the Mayor's Office. Council has already provided \$240,000 and is adding an additional \$490,000 in this budget to fully fund the partnership and to begin the project in our neighborhoods. Once a workable commercial strip model is identified it can be used to redevelop commercial strips throughout the City.

The City of Detroit is faced with new challenges using its Community Development Block Grant funding to rehabilitate low and moderate income homes. Under current Federal Regulations, any rehabilitation of homes using federal funds that exceeds \$5,000 requires the city to test and abate lead. This new mandate has complicated the housing rehabilitation programs operated by the Planning and Development Department. The additional lead abatement cost limits the number of homes that the city can reach with its existing Community Block Grant Funding. The City of Detroit has the majority of this State's lead exposed cases. The City Council will request increased lead abatement funding through the Clean Michigan Initiative.

Additionally, City Planning Commission staff will conduct outreach efforts using existing data in order to identify children with Elevated Blood Lead Levels and refer them to the appropriate programs including the Health Department.

City Council will work to deploy all relevant City agencies to explore more effective program models for lead abatement, inter-departmental coordination, code enforcement and identification of other potential partners and resources that can effectively address the City's lead problem.

City Council funded a total of 181 community groups representing \$15,717,250 or twenty five percent (25%) of the \$59,873,910. In addition to this community funding, the City Council has funded home repair as citywide activities. City Council has allocated \$1,024,210 for Minor Home Repair and \$1,448,029 for Emergency Senior Home Repair. The closing budget resolution is requesting the Mayor to reprogram \$1,098,000 for home repair from the pending 9 million dollars requested for demolition.

Improving City Services

Recreation Department

The conditions of our parks, playfields and recreation centers continue to be a concern for the City Council. Residents and visitors have expressed dismay at the condition that exist in and around our recreation facilities. Poor maintenance, lack of supplies and personnel continue to limit the use of our recreation assets. City Council is adding \$300,000 to the Recreation Department Budget to fund two (2) dedicated building attendants in each of our recreation centers. This new dedicated personnel will replace the current rotating maintenance crews and result in better upkeep of our centers. City Council has also added an additional \$50,000 in each and every recreation center budget to ensure that minor repairs and maintenance can be completed in a timely manner.

Organized, safe and available evening recreation for our youth is a high priority in our neighborhoods and City Council is providing an additional \$640,000 to the Youth Department to be combined with \$360,000 already allotted to expand the existing after school recreation programs. The additional funding will be used to operate the program and leverage foundation funding.

Public Lighting Department

The Detroit City Council is also encouraged by this year's budget attempt to address the concerns of the cleanliness of our city. We are coordinating our cleaning efforts on our highways with the State of Michigan, Department of Transportation. The city has also made a concentrated effort to clean up various parts of the city with special attention given to our neighborhoods.

In recognition of this effort, This Honorable Body is appropriating \$100,000 in the budget to remove old tattered banners from City light poles.

Building Safety & Engineering

City Council has added \$2,500 to place the City of Detroit Zoning Code on the Municipal Code Website, making it readily available to anyone having access to the internet.

\$140,000 has been added to provide for Municipal Infraction Hearing Officers who will hear cases of civil infractions. This will improve our ability to enforce compliance with our city codes.

Department of Public Works

\$100,000 is being added to provide additional equipment to more efficiently service calls to the Assistance Center and to ensure that all citizens complaints are processed in timely manner.

Human Rights Departments

\$50,000 has been added to hire one Senior Government Analyst to reestablish the Women's Commission that will promote Women's Equality and monitor the City's progress toward implementation of a Sexual Harassment Ordinance by focusing on sexual harassment policies and issues in our city departments. This position will help identify problems and develop corrective actions that will lead to better morale among our workforce and a reduction in litigation.

Finance Department

\$70,000 has been added to fund two (2) purchasing agents to monitor contractor compliance and enhance enforcement of the provisions of the Living Wage Ordinance. The Living Wage Ordinance requires that contractors providing \$50,000 dollars or more in services to the City of Detroit must pay their employees a living wage and/or health care benefits. Currently, only one individual is assigned to monitor Living Wage compliance for the thousands of city contracts that are being processed by the Finance Department.

Elections Department

\$234,500 has been added to provide for seven (7) additional clerical personnel to process the voter registrations, qualified voter list and computer support.

\$2,500 has been added to place City of Detroit City Code on the Municipal Code Website making it readily available to anyone having access to the internet.

Public Health Improved

According to Detroit Health Department and the census, 95% of the city housing was built before 1955 and therefore, contains paint with a high proportion of lead. The State of Michigan data for the year 2000 indicated that approximately 25,000 children ages birth through 6 were tested and were found positive for blood lead in Detroit. Elevated blood lead levels over 10 micrograms have been shown to cause nervous system problems in children, learning disabilities and other medical problems if they are left untreated. Our highest priority must be children that are exposed to lead by ingesting paint chips in our older homes.

Based on this growing problem \$400,000 is being added to the Health Department to provide funding for Public Health Nurses and Outreach Workers. This will allow the city to increase the testing of children for lead exposure and for outreach workers to manage the identified cases of lead exposure and provide educational outreach in the community.

Public Housing

Increasingly, seniors living in senior citizen housing are faced with criminal activities in and around their buildings. Those who are least able to defend themselves and are totally dependent upon the management of their building, need to be provided with appropriate security. Property theft, assault, and even murder has occurred in some of our senior facilities. In response to this problem City Council is adding \$437,000 to increase senior citizen building security to twenty-four hours.

City Council has allocated \$367,000 to the Detroit Housing Commission to facilitate spending the lead abatement grant and making the City competitive for future funds. The City Council has set aside funds to assist community groups to facilitate community-level outreach and education as well as to identify potential home repair candidates.

Homeless Shelters

Detroit's homeless population continues to outpace our pool of available shelters and this problem can only be addressed by increasing the number of shelters available to families and individuals. City Council restored funding to Human Resources to continue shelter funding at its current level.

Public Safety

Emergency Medical Service

During the year our Emergency Medical Service did not have enough resources to handle all of the emergency calls. Over the past several budgets Council has seen fit to add resources, both manpower and equipment to this Division of the Fire Department. Despite this effort, EMS still needs significant resources to adequately accomplish their life saving mission. Therefore, the Detroit City Council is allocating \$1,050,000 in this budget to purchase 2 new ambulances and staffing for the vehicles.

Fire Department

Council has been clear in its desire to see the Fire Department and its brave members excel. To this end, Council has placed \$71,000 in this budget to assist the department in augmenting its Vehicle Maintenance centers. This includes diagnostic equipment and repairs to hoists.

Police Department

Council has demonstrated its concern for several aspects of the Police Department's operations. It has mostly demonstrated this concern over officer conduct and misconduct and departmental policy through Legislative Hearings and awaits results of a federal investigation. In addition to publicized incidents my colleagues and I review millions of dollars in settlements concerning misconduct of officers.

Council has been made aware of some of the less than optimal conditions in the precinct cell blocks. Council has encouraged the Administration to address these conditions and some progress was made. However, Council believed that still more could be done and added \$60,000 to the Police Department budget for Hygiene kits to all the precinct lockups so that detainees can maintain their basic hygiene while awaiting arraignment.

Additionally, Council added \$175,000 for three building attendants and five female detention facilities officers for the Police Department's Detention area. The Police Department's Headquarters detention area needs as much or more attention than the precinct detention centers need.

One of the outstanding issue over the last year was the woeful inability of the Board of Police Commissioners to properly carry out their charge. Council on several occasions heard from the Commission that it simply did not have the resources to monitor and propose policy for the Department. Council took its first opportunity to add six investigators to the Police Department's budget, which represented \$365,000 in reallocated dollars.

Public Lighting

Council has taken a step to assist the current or future administration in determining the policy of underground wiring of street lights as opposed to overhead wiring. The current administration has consistently indicated that underground wiring was cost prohibitive. However, there is significant evidence that there is an affordable plastic encased underground wiring option. Council has allocated \$580,000 for an underground wiring pilot project in the Oakman Boulevard Historic Neighborhood.

Supporting Small Businesses

The Detroit City Council created an appropriation in Finance Department entitled "Office of Targeted Business Development" funded at \$300,000 in the FY 2001-2002 Budget. For the first time, there will be a unit of city government solely dedicated and focused on increasing opportunities for targeted businesses to supply goods and services to the City of Detroit, to participate in city supported development projects, public-private partnerships and joint ventures.

The Office of Targeted Business Development will be empowered to monitor the pro-

curement practices of all departments and will assist city agencies to develop new strategies to increase targeted business utilization. Given the importance of targeted businesses to Detroit's economy in terms of job creation and tax revenues, this comprehensive approach to addressing the needs of small businesses is vital to the continued economic growth of the City of Detroit.

Funding the Council Changes

City Council funded all of the previously mentioned changes by selectively increasing the Turnover Savings in the Buildings Safety & Engineering, Finance, Health and Information Technology Services Departments. City Council increased revenues for the Casino Wagering Tax and Emergency Medical Services billing collections. In the Human Resources Department City Council decided not to fund the Performance Coaching Program, reduced contractual DRMS program spending and Information Technology Systems Contractual Services.

Conclusion

The Detroit City Council is deeply grateful to: Irvin Corley, Fiscal Analyst; Kathie Dones-Carson, Director, Research and Analysis; Marsha Bruhn, Director, City Planning Commission; Jackie Currie, City Clerk; Joseph Harris, Auditor General; Roger Short, Budget Director; and all other staffs, the City Council Committee clerks, our own individual staffs, and everyone else who labored with us during this arduous and demanding budget period.

Honorable City Council:
Re: Proposed Ordinance To Authorize The Issuance Of Water Supply System Revenue Bonds.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above

referenced proposed ordinance is being submitted to your Honorable Body for consideration and passage. This proposed ordinance would amend and restate Ordinance No. 32-85, as amended.

The proposed ordinance will authorize the issuance of Water Supply System Revenue Bonds under the authority of the Revenue Bond Act of 1933. Ordinance No. 32-85 has been amended seven times since its adoption in 1985. The proposed ordinance will delete the provisions repealed by prior amendments, restate the provisions that will remain in effect, and add new provisions to conform the ordinance to current law and the pending issuance of Water Supply System Revenue Bonds. We are providing two versions of the proposed ordinance to your Honorable Body. The blacklined version shows the changes that the proposed ordinance would make. The clean version shows the text of the proposed ordinance as it would read after it has been approved by your Honorable Body.

We request that your Honorable Body adopt this proposed ordinance with a waiver of reconsideration. Thank you for your consideration.

Respectfully submitted,
J. EDWARD HANNAN
Director

An Ordinance to Amend and Restate Ordinance No. 32-85, as Amended by Ordinance No. 33-85, Ordinance No. 23-88, Ordinance No. 8-92, Ordinance No. 30-95, Ordinance No. 34-95, Ordinance No. 23-97 and Ordinance No. 34-99 of the City of Detroit, and to Repeal Ordinance No. 34-99 of the City of Detroit and to Repeal of Ordinance No 30-95, as Amended by Ordinance No. 34-95, Ordinance No 23-97 and Ordinance No. 34-99 of the City of Detroit.

Whereas, the City Council (the Council) of the City of Detroit, Michigan, adopted Ordinance No. 32-85 (the Ordinance) on October 30, 1985, to provide for the financing and refinancing of capital improvements by the issuance of Water Supply System Revenue Bonds and Revenue Refunding Bonds (Senior Lien Bonds) and has extensively amended the Ordinance seven times since its adoption in 1985; and

Whereas, the Council adopted Ordinance No. 30-95 (the Second Lien Ordinance) on October 12, 1995, to provide for the financing and refinancing of capital improvements by the issuance of Second Lien Water Supply System Revenue Bonds and Second Lien Revenue Refunding Bonds (Second Lien Bonds) and has extensively amended the Ordinance three times since its adoption in 1995; and

Whereas, the Council has determined that it is in the best interest of the City to further amend the Ordinance and to restate the Ordinance so as to consolidate the authority to issue Senior Lien Bonds and Second Lien Bonds in one ordinance, eliminate obsolete provisions and integrate this amendment and all prior amendments into one ordinance and to repeal the Second Lien Ordinance.

The City may at any time fulfill its obligation to fund the Reserve Account or a Reserve Subaccount by acquiring an irrevocable Financial Facility for the benefit of such Account or Subaccount equal to any portion of the particular Reserve Requirement and not expiring before the maturity of the last of the Securities in respect of which such Financial Facility was obtained (the "*Subject Securities*").

(1) Before any such Financial Facility is substituted for moneys or applied in lieu of moneys within the Reserve Account or a Reserve Subaccount, there shall be filed with the Commissioners:

(i) an opinion of nationally recognized bond counsel to the effect that such substitution will not adversely affect the tax-exempt status of interest on any Securities;

(ii) evidence that such Financial Facility is provided by a provider rated by any Rating Agency then rating the Subject Securities in the highest rating category of such Rating Agency;

(iii) a copy of the Financial Facility; and

(iv) an opinion of counsel satisfactory to said nationally recognized bond counsel to the effect that the Financial Facility is valid and enforceable in accordance with its terms.

2) The City reserves the right, if it deems it necessary in order to acquire such a Financial Facility, to amend this ordinance without the consent of any Securityholders to grant to the provider of such Financial Facility such additional rights as may be necessary or appropriate if such rights will not impair or reduce the security hereby granted to the owners of Securities.

Section 7. Management.

The operation, repair and management of the System, including all projects financed by the issuance of Additional Securities, shall remain under the supervision and control of the Commissioners in the manner provided in Article 7, Chapter 15 of the Charter of the City sub-

ject to the rights, powers and duties in respect thereto which are reserved by law and the City Charter to the City Council.

Section 8. Fixing and Revising Rates; Rate Covenants.

(a) As used in this Section, the "Rate Coverage Percentage" is as follows:

<u>Priority of Securities</u>	<u>Rate Coverage Percentage</u>
Bonds	120%
Second Lien Bonds	110%

Prior to or concurrently with the issuance of a Priority of Securities lower than Second Lien Bonds, this subsection shall be amended to provide for the Rate Coverage Percentage of such Priority, but in no case shall the Rate Coverage Percentage be less than 100. Such amendment shall not require the consent of holders of any Securities.

(b) The rates for water service and the regulations shall be the rates and regulations required to be established by Act 94. Such rates shall be fixed and revised from time to time as may be necessary to produce the greater of:

(1) the amounts required:

(i) for the payment of the interest upon and the principal of all Securities payable from the Revenues (exclusive of accrued and/or capitalized interest for which proceeds of any Securities have been deposited in the Redemption Fund or Account established for the particular Securities);

(ii) to provide the creation and maintenance of reserves therefor as required by this Ordinance or any ordinance or resolution adopted in accordance with the terms thereof and hereof;

(iii) to provide for the payment of the expenses for maintenance of the System as are necessary to preserve the same in good repair and working order; and

(iv) to provide for such other expenditures and funds for the System as this Ordinance may require; and

(2) an amount so that the Net Revenues during each future Fiscal Year are projected to be equal to not less than, as to each Priority of Securities, the Rate Coverage Percentage of the annual principal and interest requirements (exclusive of accrued and/or capitalized interest for which proceeds of any Securities have been deposited in the Redemption Fund or Account established for the particular Securities) coming due during such Fiscal Year on all Securities of such Priority (the "Reference Securities") and on all Securities, if any, of each Priority higher than the Reference Securities (the Reference Securities and the Securities of each higher Priority, if any, the "Included Securities"), calculated as provided in the definition of Combined Annual Debt Service with respect to each Priority of Included Securities, and the

City hereby covenants and agrees at all times to fix and maintain such rates for services furnished by the System as shall be sufficient to provide for the foregoing.

For the purpose of determining the interest rate on any Variable Rate Securities, clause (iii) of the definition of Maximum Annual Debt Service shall not be applicable and such interest rate shall be determined as follows:

(i) for any outstanding Variable Rate Securities that have been outstanding for the entire Fiscal Year preceding the date of calculation, the rate shall be the average daily annualized rate for such Fiscal Year; and

(ii) for all other outstanding Variable Rate Securities, the applicable rate shall be the rate in effect on the day of determination for the purposes of this Section.

(c) Without taking into account any transfers from the Rate Stabilization Fund established pursuant to Section 22, the City shall at all times observe and comply with the covenant contained in subsection (b)(2) above as if the Rate Coverage Percentage were 100% for all outstanding Securities.

(d) The charges for water service which are under the provisions of Section 21 of Act 94, Public Acts of Michigan, 1933, as amended, are made a lien on all premises served thereby, unless notice is given that the tenant is responsible, are hereby recognized to constitute such lien and whenever any such charge against any piece of property shall be delinquent for six months, the City official or officials in charge of the collection thereof may certify to the tax assessing officer of the City not later than April 1 of each year the fact of such delinquency, whereupon such charge shall be entered upon the next tax roll as a charge against such premises and the lien thereof enforced in the same manner as general City taxes against such premises are collected and the lien thereof enforced; *provided, however*, where notice is given that a tenant is responsible for such charges and service as provided by said Section 21, no further service shall be rendered such premises until a cash deposit equal to the estimated amount of the next ensuing bill shall have been made as security for payment of such charges and services.

(e) In addition to other remedies provided, the City shall have the right to shut off and discontinue the supply of water to any premises for the nonpayment of water rates when due.

Section 9. No Free Service or Use; Metered Service.

No free service or use of the System, or service or use of the System at less than cost, shall be furnished by the System to any person, firm or corporation, public or private, or to any public agency or instrumentality including the City and any other

municipality. All service provided to customers of the System, with the exception of temporary connections and certain public service uses of the City which are billed on an estimated basis, shall be metered.

Section 10. Operating and Fiscal Year.

The System shall be operated on the basis of the Fiscal Year.

Section 11. Funds and Accounts; Flow of Funds.

All Revenues shall be set aside as collected and credited to a fund designated Water Supply System Receiving Fund (the "*Receiving Fund*"). The Revenues credited to the Receiving Fund are pledged for the purpose of the following funds and shall be transferred or debited from the Receiving Fund periodically in the manner and at the times and in the order of priority hereinafter specified:

A. Operation and Maintenance Fund:

Out of the Revenues credited to the Receiving Fund there shall be first set aside, monthly as of the first day of each month, in, or credited to, a fund designated Operation and Maintenance Fund (the "*Operation and Maintenance Fund*") a sum sufficient to provide for the payment of the next month's expenses of administration and operation of the System and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order.

B. Bond and Interest Redemption Fund:

(a) There shall be established and maintained a separate depository fund designated Bond and Interest Redemption Fund (the "*Redemption Fund*"). The moneys in the Redemption Fund (including the Bond Reserve Account and the other accounts established by or pursuant to this Section) shall be kept on deposit with one of the banks or trust companies where the principal of and interest on the Bonds are payable, i.e., the Transfer Agent or a transfer agent for Additional Bonds.

(b) Out of the Revenues remaining in the Receiving Fund, after provision for the Operation and Maintenance Fund, there shall be set aside, monthly as of the first day of each month, in the Redemption Fund for the purpose of paying interest on and Principal Installments of Bonds and related Parity Reimbursement Obligations, if any, an amount that, when added to all other amounts then on deposit in the Redemption Fund for such purpose, shall be equal in amount to the Debt Service Installment Requirement for Bonds and related Parity Reimbursement Obligations, if any, for such month.

(c) Concurrently with making the set aside pursuant to subsection (b) above,

there shall be deposited in the Sinking Fund Account, if any, established for each series of Term Bonds an amount that when added to all other amounts then on deposit in such Sinking Fund Account shall be equal in amount to the Sinking Fund Installment Requirement for such Term Bonds, if any, for such month.

(d) If there shall be insufficient funds to make the set aside and deposits required by subsections (b) and (c) above, in full then:

First: there shall be set aside an amount that when added to all other amounts then on deposit in the Redemption Fund for the purpose of paying interest shall be equal in amount to the Interest Installment Requirement for Bonds and related Parity Reimbursement Obligations, if any, for such month; and

Second: pro rata, or an aggregate basis (without preference of any Principal Installment Requirement over any Sinking Fund Requirement, or vice versa, or preference of Sinking Fund Requirement over any other Sinking Fund Requirement) there shall be:

(i) set aside an amount that when added to all other amounts then on deposit in the Redemption Fund for the purpose of paying Principal Installments shall be equal in amount to the Principal Installment Requirement for Bonds and related Parity Reimbursement Obligations, if any, for such month; and

(ii) deposited in each Sinking Fund Account established for a series of Term Bonds an amount that when added to all other amounts then on deposit in each Sinking Fund Account shall be equal in amount to the Sinking Fund Installment Requirement for the related Term Bonds for such month.

(e) There is hereby established in the Redemption Fund a separate account to be known as the "Ancillary Subordinated Obligations Account" into which shall be next deposited monthly from remaining Revenues for the purpose of paying Ancillary Subordinated Obligations, an amount that when added to all other amounts then on deposit in the Ancillary Subordinated Obligations Account shall be equal in amount to the Ancillary Subordinated Obligations Installment Requirement for such month.

(f) There is hereby established in the Redemption Fund a separate account to be known as the Bond Reserve Account into which shall be next deposited monthly from remaining Revenues, an amount that when added to all other amounts then on deposit in the Bond Reserve Account shall be equal to the Bond Reserve Requirement for such month.

(1) Except as otherwise provided herein, moneys in the Bond Reserve Account shall be used solely for the payment of the principal (including Mandatory

Redemption Requirements) of and interest on Bonds and related Parity Reimbursement Obligations as to which there would otherwise be default.

(2) If at any time, the amount on deposit in or credited to the Bond Reserve Account exceeds the Bond Reserve Requirement, the amount of such excess may be transferred therefrom and deposited in or credited to the Receiving Fund.

(3) Unless a surety bond is provided therefor in accordance with Section 6 hereof, there shall be deposited in the Bond Reserve Account from the proceeds of the sale of each issue of Additional Bonds an amount which, when added to the amount on deposit therein on the date of delivery of such issue of Additional Bonds, will equal the Bond Reserve Requirement for all Bonds then outstanding including such Additional Bonds.

(4) No further payments need be made into the Redemption Fund in respect of principal and interest after enough of the Bonds have been retired so that the amount then held in said Fund, including the Bond Reserve Account, is equal to the entire amount of principal and interest which will be payable at the time of maturity of all the then outstanding Bonds.

(5) The City reserves the right to establish a separate Bond Reserve Account for any issue of Additional Bonds.

(i) Any such separate Bond Reserve Account may contain either cash or investments permitted by this ordinance for a Bond Reserve Account, an insurance policy or any other form of security deemed advisable by the City.

(ii) Additional Bonds secured by such Bond Reserve Account may be issued but only if such separate Bond Reserve Account is fully equal to the Bond Reserve Requirement for the issue of Additional Bonds to which it pertains at the time such Additional Bonds are issued.

(iii) The amounts to be paid into each separate Bond Reserve Account to restore it to its Bonds Reserve Requirement shall be made on a parity with payments into all other Bond Reserve Accounts and shall not exceed, in any Fiscal Year, its proportionate deficit payment. "Proportionate Deficit Payment" means for a separate Bond Reserve Account the same proportion that the amount available to remedy deficits in all separate Bond Reserve Accounts bears to the aggregate deficit in all separate Bond Reserve Accounts.

(g) The City shall establish a Sinking Fund Account for one or more series of Bonds in the Redemption Fund (each, a "Sinking Fund") for the purpose of paying Mandatory Redemption Requirements on the series of Bonds for which the Sinking Fund was established.

(1) A Mandatory Redemption Require-

ment for the Term Bonds may be satisfied by the redemption of such Term Bonds in the principal amount equal to the Mandatory Redemption or by the purchase and surrender to the Transfer Agent of such Term Bonds from moneys allocated therefor in the Sinking Fund or purchased with other funds legally available therefor. The City shall elect the manner in which it intends to satisfy a Mandatory Redemption Requirement not less than 40 days prior to the due date of each Mandatory Redemption Requirement unless otherwise provided in the supplemental ordinance authorizing such series of Bonds.

(2) Unless otherwise provided in a supplemental ordinance authorizing a series of Bonds, the City will receive a credit with respect to any Mandatory Redemption Requirement on account of Term Bonds of the same maturity that have been redeemed (other than by application of Mandatory Redemption Requirements) or otherwise acquired by the City prior to the giving of the notice of redemption and that have not been applied as a credit against any other Mandatory Redemption Requirements.

(i) Not less than 40 days prior to any mandatory redemption date for Term Bonds, the City shall give notice to the Transfer Agent that such Term Bonds are to be so credited.

(ii) Each such Term Bond shall be credited by the Transfer Agent at 100% of the principal amount thereof against the Mandatory Redemption Requirement, and the principal amount of Term Bonds to be redeemed on such mandatory redemption date shall be reduced accordingly and any excess over such amount shall be credited to future Mandatory Redemption Requirements in such order as the City shall elect; provided, however, that any excess resulting from the purchase, at less than par, of such Term Bonds shall be transferred to the Receiving Fund.

C. Junior Lien Bond and Interest Redemption Fund:

(a) The Junior Lien Bond Fund shall consist of the accounts established pursuant to this section and grouped as provided in subsection (b).

(b) At or before the authorization by the City of the initial series of Junior Lien Bonds of a Priority, the City shall establish and maintain a separate depository account for the purpose of paying the principal, redemption premiums, if any, and interest on the Junior Lien Bonds of such Priority and any related Ancillary Obligations as they come due (a "Redemption Account") and may establish and maintain one or more other separate depository accounts with respect to such Priority of Junior Lien Bonds, including, by way of illustration, a Reserve Account.

(1) All accounts created for a Priority of Junior Lien Bonds shall constitute a junior lien Account Group (an "Account Group").

(2) Any reference in this Ordinance, unless the context otherwise requires, to the Junior Lien Bond Fund shall constitute a collective reference to all Account Groups; *provided that* no such reference shall impair in any manner the relative priorities of such Junior Lien Bonds.

(c) Revenues remaining in the Receiving Fund after provision for the requirements of Sections 11A and 11B hereof shall be set aside monthly, in the Redemption Account for each Account Group seriatim in accordance with the relative Priorities of the Junior Lien Bonds and only, as to each Account Group for each successively lower Priority of Junior Lien Bonds, if the requirements for each account in an Account Group for each higher Priority of Junior Lien Bonds have been satisfied in full.

(d) Amounts deposited in the Redemption Account established for such Priority of Junior Lien Bonds shall be applied as provided below unless otherwise provided by supplemental ordinance with respect to such Priority of Junior Lien Bonds (but subject to any otherwise applicable requirements for approval by the holders of one or more priorities of Securities) or, in the case of Hedge Receivable or Hedge Payables, otherwise provided in the supplemental ordinance authorizing the particular Hedge (but subject to any otherwise applicable requirements for approval by the holders of one or more priorities of Securities).

(1) If the City is obligated to pay Ancillary Obligation Fees and Expenses in respect of such Junior Lien Bonds, from the first amounts that become available for deposit in the Redemption Account established for such Junior Lien Bonds, there shall be segregated monthly in such Redemption Account a sum proportionally sufficient to provide for the payment of such Ancillary Obligation Fees and Expenses on the next payment date thereof.

(2) After segregating any Net Revenues required to be segregated pursuant to paragraph (1) above, there shall be set aside monthly in such Redemption Account for the purpose of paying interest on and Principal Installments of such Junior Lien Bonds and related Parity Reimbursement Obligations, if any, an amount that, when added to all other amounts then on deposit in the Redemption Fund for such purpose, shall be equal in amount to the Debt Service Installment Requirement for such Junior Lien Bonds and related Parity Reimbursement Obligations, if any, for such month.

(3) Concurrently with making the set aside pursuant to paragraph (2) above,

there shall be deposited in the Sinking Fund Account, which shall be established for the Term Junior Lien Bonds of such Priority, if any, an amount that when added to all other amounts then on deposit in such Sinking Fund Account shall be equal in amount to the Sinking Fund Installment Requirement for such Term Junior Lien Bonds for such month.

(4) If there shall be insufficient funds to make the set aside and deposits required by paragraphs (2) and (3) above, in full then:

First: there shall be set aside an amount that when added to all other amounts then on deposit in such Redemption Account for the purpose of paying interest shall be equal in amount to the Interest Installment Requirement for such junior Lien Bonds and related Parity Reimbursement Obligations, if any, for such month; and

Second: pro rata, or an aggregate basis (without preference of any Principal Installment Requirement over any Sinking Fund Requirement, or vice versa, or preference of Sinking Fund Requirement over any other Sinking Fund Requirement) there shall be:

(i) set aside an amount that when added to all other amounts then on deposit in such Redemption Account for the purpose of paying Principal Installments shall be equal in amount to the Principal Installment Requirement for such Junior Lien Bonds and related Parity Reimbursement Obligations, if any, for such month; and

(ii) deposited in each Sinking Fund Account for such Term Junior Lien Bonds an amount that when added to all other amounts then on deposit in each Sinking Fund Account shall be equal in amount to the Sinking Fund Installment Requirement for such Term Junior Lien Bonds for such month.

(5) There is hereby established in such Redemption Account a separate subaccount to be known as the "Ancillary Subordinated Obligations Subaccount" into which shall be next deposited monthly from remaining Revenues for the purpose of paying Ancillary Subordinated Obligations in respect of Junior Lien Bonds of such Priority, an amount that when added to all other amounts then on deposit in the Ancillary Subordinated Obligations Account shall be equal in amount to the Ancillary Subordinated Obligations Installment Requirement for such month.

(6) The City may establish a Reserve Subaccount for such Junior Lien Bonds in the Redemption Account and may make different provisions for such Reserve Subaccount than are hereafter provided. If a Reserve Subaccount is established, the City shall establish a Reserve Subaccount Requirement for such

Reserve Subaccount, and there shall be next deposited monthly from remaining in such Reserve Subaccount, an amount that when added to all other amounts then on deposit in such Reserve Subaccount shall be equal in amount to the Reserve Subaccount Requirement for such month.

(i) Except as otherwise provided herein, moneys in such Reserve Subaccount shall be used solely for the payment of the principal (including Mandatory Redemption Requirements) of and interest on Junior Lien Bonds of such Priority and related Parity Reimbursement Obligations as to which there would otherwise be default.

(ii) If at any time, the amount on deposit in or credited to such Reserve Subaccount exceeds the Reserve Requirement, the amount of such excess shall be transferred therefrom and deposited in or credited to the Receiving Fund.

(iii) Unless a surety bond is provided therefor in accordance with Section 6 hereof, there shall be deposited in such Reserve Subaccount from the proceeds of the sale of each issue of Additional Junior Lien Bonds of such Priority an amount which, when added to the amount on deposit therein on the date of delivery of such issue of Additional Bonds, will equal the Bond Reserve Requirement for all Bonds then outstanding including such Additional Bonds.

(iv) No further payments need be made into the Redemption Account in respect of principal of and interest after enough of such Junior Lien Bonds have been retired so that the amount then held in said Account, including such Reserve Subaccount, is equal to the entire amount of principal and interest which will be payable at the time of maturity of all the then outstanding Junior Lien Bonds.

(v) The City reserves the right to establish a separate Reserve Subaccount for each or any issue of Additional Junior Lien Bonds of the same Priority.

(A) Any such separate Reserve Subaccount may contain either cash or investments permitted by this ordinance for a Bond Reserve Account, an insurance policy or any other form of security deemed advisable by the City.

(B) Additional Junior Lien Bonds secured by such separate Reserve Subaccount may be issued but only if such separate Reserve Subaccount is fully equal to the Reserve Subaccount Requirement for the issue of Additional Bonds to which it pertains at the time such Additional Junior Lien Bonds are issued.

(C) The amounts to be paid into each separate Reserve Subaccount to restore it to its Bonds Reserve Subaccount Requirement shall be made on a parity with payments into all other Reserve Subaccount for the same Priority of Junior

Lien Bonds and shall not exceed, in any Fiscal Year, its proportionate deficit payment. "Proportionate Deficit Payment" means for a separate Reserve Subaccount the same proportion that the amount available to remedy deficits in all separate Reserve Subaccount for the same Priority of Junior Lien Bonds bears to the aggregate deficit in all separate Bond Reserve Accounts.

(7) The City shall establish a Sinking Fund Subaccount for one or more series of Junior Lien Bonds of a Priority in the Redemption Account for the purpose of paying Mandatory Redemption Requirements on the series of Junior Lien Bonds for which the Sinking Fund Subaccount was established.

(i) A Mandatory Redemption Requirement for the Term Junior Lien Bonds may be satisfied by the redemption of such Term Junior Lien Bonds in the principal amount equal to the Mandatory Redemption or by the purchase and surrender to the Transfer Agent of such Term Junior Lien Bonds from moneys allocated therefor in such Sinking Subaccount or purchased with other funds legally available therefor. The City shall elect the manner in which it intends to satisfy a Mandatory Redemption Requirement not less than 40 days prior to the due date of each Mandatory Redemption Requirement unless otherwise provided in the supplemental ordinance authorizing such series of Junior Lien Bonds.

(ii) Unless otherwise provided in a supplemental ordinance authorizing a series of Junior Lien Bonds, the City will receive a credit with respect to any Mandatory Redemption Requirement on account of Term Junior Lien Bonds of the same maturity that have been redeemed (other than by application of Mandatory Redemption Requirements) or otherwise acquired by the City prior to the giving of the notice of redemption and that have not been applied as a credit against any other Mandatory Redemption Requirements.

(A) Not less than 40 days prior to any mandatory redemption date for Term Bonds, the City shall give notice to the Transfer Agent that such Term Bonds are to be so credited.

(B) Each such Term Junior Lien Bond shall be credited by the Transfer Agent at 100% of the principal amount thereof against the Mandatory Redemption Requirement, and the principal amount of Term Junior Lien Bonds to be redeemed on such mandatory redemption date shall be reduced accordingly and any excess over such amount shall be credited to future Mandatory Redemption Requirements in such order as the City shall elect; *provided, however*, that any excess resulting from the purchase, at less than par, of such Term Junior Lien Bonds shall be transferred to the Receiving Fund.

D. Extraordinary Repair and Replacement Reserve Fund:

(a) Out of the Revenues remaining after meeting the monthly requirements of the foregoing Funds, there shall be deposited monthly in a separate depository account, to be designated Extraordinary Repair and Replacement Reserve Fund, so long as the balance of such Fund is less than the Requirement (as hereinafter defined) due to reason other than withdrawal for major unanticipated repairs and replacement as provided below, 1/12 of 3% of the budgeted operation and maintenance expense of the System for the Fiscal Year in which the set aside is made. The deposits required hereby shall be mandatory and cumulative. Earnings on this Fund shall be transferred to the Receiving Fund.

(b) Revenues shall be deposited into this Fund until the total amount of money accumulated in such fund equals an amount not less than 15% of the then current Fiscal Year's budgeted operation and maintenance expense of the System (the "Requirement"). Once the amount accumulated in this Fund equals or exceeds the Requirement, such monthly deposits to such Fund may cease. The deposits required hereby shall be mandatory and cumulative. Earnings on this Fund shall be transferred to the Receiving Fund.

(c) The money deposited in this Fund shall be used only for the purpose of paying the costs of making major unanticipated repairs and replacements to the System which individually have cost or are reasonably expected to cost in excess of \$1,000,000 as determined by the Commissioners.

(d) Any moneys of this Fund withdrawn to be used to pay the costs of a major unanticipated repair or replacement to the System which remain unpaid to this Fund at the end of the second Fiscal Year following such withdrawals shall be repaid by depositing Revenues in the amount of 1/12 of 3% of the budgeted operation and maintenance expense of the System for the Fiscal Year in which the repayment is made until the amount in the Fund equals the Requirement. The City may also issue Securities to repay any and all amounts withdrawn from such Fund. The City shall fix rates and charges for the services supplied by the System sufficient to permit it to meet its obligations under this subsection.

(e) If all deposits and repayments have been made as required hereinabove, and all borrowings from prior Fiscal Years, as hereinafter provided, have been repaid, on or after the first day of each Fiscal Year the City may borrow, for transfer to and use from the Improvement and Extension Fund hereinafter created up to 50% in aggregate of the balance in this Fund on the first day of such Fiscal Year. Any such

borrowing shall be repaid before any deposits are made to the Improvement and Extension Fund created hereinafter.

(f) The City shall fix rates and charges for the services supplied by the System sufficient to permit it to meet its obligations under Section 11D.

E. Improvement and Extension Fund:

There shall be established and maintained a separate depository account designated Improvement and Extension Fund. Out of the revenues remaining in the Receiving Fund after meeting the requirements of the Operation and Maintenance Fund, the Redemption Fund, including the Bond Reserve Account, any fund created for the benefit of Junior Lien Bonds, including any Reserve Subaccount, and the Extraordinary Repair and Replacement Fund, if any, there shall be deposited into the Improvement and Extension fund, in any month, such sums as the Commissioners may deem advisable, to be used for improvements, enlargements, extensions or betterment to the System.

F. Surplus Fund:

(a) Money remaining in the Receiving Fund at the end of any Fiscal Year, after satisfaction of the requirements of the foregoing funds, shall be transferred to a separate depository account designated Surplus Fund.

(b) Moneys from time to time on hand in the Surplus Fund may, at the option of the Commissioners, be used and applied for any of the purposes related to the System for which the foregoing funds and accounts were established or for any other lawful purpose of the System; *provided, however*, that if and whenever there should be any deficit in the Operation and Maintenance Fund or the Redemption Fund or any Redemption Account (including the Reserve Account and any Reserve Subaccount), then transfers shall be made from the Surplus Fund to such funds in the priority and order named to the extent of any such deficit.

G. Construction Fund:

(a) There shall be established and maintained a separate depository fund designated the Construction Fund. The City may designate separate accounts in the Construction Fund for different series of Securities for administrative purposes and to better enable the City to comply with its tax covenants in supplemental ordinances or resolutions regarding the exclusion from federal income taxation of interest on Securities.

(b) Moneys in the Construction Fund shall be applied solely in payment of the cost of repairs, extensions, enlargements, and improvements to the System ("construction costs") and any costs of engineering, legal, bond insurance premiums,

if any, and other expenses incident thereto, to the financing thereof.

(1) Payments of construction costs, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Commissioners a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor; that it was done pursuant to and in accordance with the contract therefor; that such work is satisfactory; and that such work has not been previously paid for.

(2) Payment of the cost of engineering, legal, financial, bond insurance premium, etc., as provided in this section shall be made upon submission of appropriate documentation to the Finance Director of the City.

(c) Any unexpended balance remaining in the Construction Fund may in the discretion of the Commissioners be used for meeting requirements of the Bond Reserve Account or any Reserve Subaccount, if any, established for the relevant Securities or for further improvements, enlargements and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury Municipal Finance Division, if such permission is then required by law. Any remaining balance after such expenditure shall be paid into the Redemption Fund for the purpose of purchasing the relevant Securities at the fair market value thereof but not more than the price at which such Securities may next be called for redemption or used for the purpose of calling such Securities for redemption. The City may provide additional or different lawful uses for such unexpended balance or remaining balance by supplemental ordinance which shall, nonetheless, be subject to the City's relevant tax covenants.

Section 12. Depository and Funds on Hand.

(a) Moneys in the several funds, accounts and subaccounts established pursuant to this Ordinance shall be kept in one or more accounts separate and apart from all other accounts of the City, and if kept in only one account shall be allocated on the books and records of the City in the manner and at the times provided in this Ordinance.

(b) The depository of all funds and accounts, except as otherwise specifically provided for herein, shall be those banks or trust companies designated from time to time as such by the Finance Director of the City.

Section 13. Priority of Funds.

(a) If moneys in the Receiving Fund are insufficient to provide for the current requirements of the Operation and Maintenance Fund, the Redemption Fund or any Redemption Account, *then* any

moneys or securities held in the Surplus Fund, Improvement and Extension Fund and the Extraordinary Repair and Replacement Fund shall be credited or transferred, first, to the Operation and Maintenance Fund and second, to the particular Redemption Fund or Account, to the extent of the insufficiency therein from the aforesaid funds in the order listed.

(b) *If* any principal (and redemption premium, if any) of or interest on Securities of a Priority, or any related Ancillary Obligations become due (whether or a stated or scheduled date, by reason of call for redemption or otherwise), *and* there are insufficient amounts for the payment thereof in the related Redemption Fund or Account after applying payments in the Reserve Account or Subaccount, if any, established for such Priority of Securities (but only to the extent amounts in such Reserve Account may be applied to such purpose), *then* there shall be applied to such payment amounts in each Redemption Account established for each lower Priority of Securities, beginning with the lowest Priority and proceeding seriatim in inverse order of Priority, until such payments are made in full.

(c) Any application to be made pursuant to subsection (b) from a Redemption Account shall be made as follows:

First: From the Ancillary Subordinated Obligations Subaccount, if any, established in such Redemption Account;

Second: From the Reserve Subaccount, if any, established in such Redemption Account;

Third: Prorata, from amounts held in such Redemption Account for paying Principal Installments from amounts credited to the Sinking Fund Subaccount, if any, established in such Redemption Account;

Fourth: From amounts held in such Redemption Account for paying interest (and related Parity Reimbursement Obligations); and

Fifth: From amounts held in such Redemption Account for paying Ancillary Obligations Fees and Expenses.

(c) Subject to applicable requirements of Section 20, the City may agree with the holders of Securities of any Priority and the obligee of any related Ancillary Obligations to extend, renew, modify or amend the terms of such Securities or such related Ancillary Obligations or any security therefor, and any such holders or obligees may release, sell, exchange such security and otherwise deal freely with the City, and the City with any of them, all without notice to or consent of the holders of any Securities of any lower Priority or the obligees under any Ancillary Obligations related to such lower

Priority without affecting the liabilities of the City to such holders or obligees.

Section 14. Investments.

(a) Subject to the limitations contained in subsection (b) below, moneys in the funds and accounts established herein and moneys derived from the proceeds of sale of any Securities may be invested by the City in:

(i) United States of America obligations or in obligations the principal of and interest on which is fully guaranteed by the United States of America, including U.S. Treasury Trust Receipts,

(ii) repurchase agreements with respect to the foregoing obligations, with the collateral held by a third party custodian pursuant to a custodial agreement,

(iii) Commercial paper that is rated in the highest rating category by a Rating Agency,

(iv) Obligations of a state of the United States or of a political subdivision of a state of the United States that are rated in one of the three highest rating categories by a Rating Agency,

(v) A collective investment fund that invests solely in or more of the securities authorized for investment by this Section.

(b) Not more than 25% of the moneys in each of the funds and accounts established herein, other than the Redemption Fund or any Redemption Account (including any Reserve Account or Subaccount established for any Securities), may also be invested in certificates of deposit of any bank whose deposits are insured by the Federal Deposit Insurance Corporation and with a reported capital and surplus in excess of \$250,000,000.

(c) Investment of moneys in the Redemption Fund, Sinking Fund or any Redemption Account or Sinking Fund Account being accumulated for payment of the next maturing Principal Installments or Sinking Fund Installments or interest on Securities shall be limited to:

(i) United States government obligations or obligations the principal and interest of which are fully guaranteed by the United States that mature not later than 10 days after the date for which the money is being accumulated, and

(ii) Repurchase agreements that are to settle on or before the date of payment and that are secured by the United States government obligations or obligations fully guaranteed by the United States and that are held by an independent third party, which have a value at the time of purchase (inclusive of accrued interest) at least equal to 102% of the full amount of the repurchase agreement.

(d) Investment of moneys in any Bond Reserve Account or any Reserve Subaccount relating to any series of Securities shall be limited to obligations bearing maturity dates or subject to

redemption, at the option of the holder thereof, not later than ten years from the date of the investment.

(e) In the event investments are made, any securities representing the same shall be kept on deposit with the bank or trust company having on deposit the fund or funds or accounts form which the purchase was made.

(f) Profit realized or interest income earned on investment of funds in the Receiving Fund, Operation and Maintenance Fund, Redemption Fund (including the Bond Reserve Accounts) or any Redemption Account (including any Reserve Subaccount established for any Securities), the Extraordinary Repair and Replacement Reserve Fund, and Improvement and Extension Fund shall be deposited in or credited to the Receiving Fund.

(g) Profit realized or interest earned on investments of funds in the Construction Fund relating to any series of Securities and any Escrow Fund or any Redemption Account (including any Reserve Account or Subaccount established for any Securities) shall be deposited in or credited as received to the funds from which such investments were made; *provided, however*, that profit realized or interest earned on the Construction Fund relating to any series of Securities may, if permitted by law, be deposited in the Receiving Fund at the option of the Commissioners.

Section 16. Trustee.

(a) The City shall at all times maintain a Trustee in order to further assure prompt compliance with all of the requirements, duties and obligations of the City with respect to the System and the Securities and to perform such other duties as may be provided in a supplemental ordinance; *provided that* no such additional duties shall be imposed on an existing Trustee without its consent.

(b) All fees, costs, and expenses of any legal proceedings that may be brought by the Trustee to enforce the duties and obligations of the City hereunder or under any Securities and any moneys advanced by Securityholders to the Trustee for such costs and expenses shall be paid by the City to the Trustee or such Securityholders, or both, as the case may be, in the first instance from the Revenues, but only after providing for all requirements of the Operation and Maintenance Fund, the Redemption Fund and each Redemption Account, if any (including the Reserve Account and any Reserve Subaccount), as provided by Section 11 of this Ordinance, and, to the extent that sufficient moneys are not available from the Revenues therefor, from general funds of the City.

Section 17. Covenants

The City covenants and represents with the registered owners of Securities outstanding from time to time that so long as any Securities remain outstanding and unpaid:

(a) The City is the lawful owner of the System; the System is free from any and all liens and encumbrances; and the City has good right and lawful authority to encumber and pledge the Revenues and Net Revenues of the System as such Revenues and Net Revenues are herein encumbered and pledged.

(b) The City will, through its Commissioners, or such successor board or body as may hereafter be legally charged with the duty of the operation of the System, maintain the System in good repair and working order and will operate it efficiently and will faithfully and punctually perform all duties with reference to the System required by the Constitution and Laws of the State of Michigan, including the making and collecting of sufficient rates for services rendered by the System and the segregation and application of the revenues of the System in the manner provided in this Ordinance. The City will from time to time make all needful and proper repairs, replacements, additions and betterments to the System so that the System may at all times be operated properly and advantageously, and whenever any portion of the System shall have been worn out, destroyed or become obsolete, inefficient or otherwise unfit for use, the City will procure and install substitutes of at least equal utility and efficiency so that the value and efficiency of the System shall at all times be fully maintained.

(c) The City will maintain and keep proper books of record and account separate from all other records and accounts in which shall be made full and correct entries of all transactions relating to the System, and the City will also cause an annual audit of such books of record and account for the proceeding Fiscal Year to be made by an accountant who shall comment on the manner in which the City has complied with the requirements of this Ordinance. The City will make such audit available to the holders of any of the Securities upon request.

(d) The City will not sell, lease or dispose of the System or any substantial

part thereof until all of the Securities have been paid in full.

(1) This covenant shall not be construed to prohibit the disposition or lease of any property comprising part of the System which is no longer necessary, appropriate, required for the use of, or profitable to the System, or which is no longer necessary to the proper operation and maintenance thereof, or which may be sold and leased back to the extent such arrangement is permitted by law.

(2) The provisions of paragraph (1) shall not be construed to authorize or permit the sale, lease or disposition of any substantial part of the System.

(3) The City may alter, repair or replace any buildings or structures, make any change in the location of its water mains, pipes, water supply tunnel, aqueducts, pumping stations and appurtenances thereto, and any buildings or structures therefor as the Commissioners determine necessary for the System.

(e) The City will acquire and construct all extensions, enlargements, and improvements to the System promptly and in accordance with the plans therefor.

(f) The City will not, and will not to the extent permitted by law permit others to, operate a water supply system that will compete with the System.

Section 18. Additional Securities.

(a) *Limitations on Indebtedness.* The City shall not incur any indebtedness payable from Net Revenues except for indebtedness evidenced by Securities and their related Ancillary Obligations, and no indebtedness shall be secured by a lien on Net Revenues except as otherwise provided in this Ordinance.

(b) *Limitations on Issuing Securities.* The City shall not issue any Securities except in accordance with this Section. Ancillary Obligations in respect of such Securities may be incurred and shall be payable as elsewhere provided in this Ordinance.

(1) No Securities of any Priority may be issued if the effect of such issuance (after also taking into account all outstanding Securities of each higher Priority, if any) is to reduce the amount of Net Revenues available in each Fiscal Year for payment of Annual Debt Service on outstanding Securities of each lower Priority to an amount below the Coverage Percentage for such outstanding Securities. Net Revenues shall be determined for the purposes of this paragraph in the same manner that Net Revenues are determined for the Securities to be issued at the particular time.

(2) No Bonds or Second Lien Bonds shall be issued pursuant to the authority contained in subsection (c) if the City shall then be in default in making its required payments to any funds or accounts created hereunder.

(3) As used in this Section, the following terms have the following respective meanings:

“Coverage Percentage” means, as to any Priority of Securities, the Coverage Priority set forth below, opposite such Priority of Securities:

Priority of Securities	Coverage Percentage
Bonds	120%
Second Lien Bonds	110%

Prior to or concurrently with the issuance of a Priority of Securities lower than Second Lien Bonds, this subsection shall be amended to provide for the Percentage for such Priority, but in no case shall the Coverage Percentage be less than 100. Such amendment shall not require the consent of holders of any Securities

“Equal and Higher Priority Securities” means, as to any Additional Securities, all Securities of a Priority equal to or higher than such Additional Securities, and such Additional Securities shall be the “Reference Securities” for the purposes of the definition of Combined Annual Debt Service and Combined Maximum Annual Debt Service.

“Required Coverage” means the result obtained by multiplying the applicable Coverage Percentage by, as the case may be, the amount of Annual Debt Service or Maximum Annual Debt Service.

(c). *“New Money” and Refunding.* The City may issue Securities of any Priority (herein, “Additional Securities”) for repairs, extensions, enlargements, and improvements to the System, refunding all or a part of any outstanding Securities and paying costs of issuing such Additional Securities, including deposits, if any, to be made to any Reserve Fund or Account established or to be established for such Additional Securities, *if but only if* the conditions contained in paragraph (1) or (2), determined as provided in paragraph (3), are met, and the determination by the Council as to the satisfaction of such conditions shall be conclusive:

(1) The projected Net Revenues of the System for the then current or the next succeeding Fiscal Year shall be at least equal to the Required Coverage of Combined Maximum Annual Debt Service payable in any Fiscal Year on the then outstanding Equal and Higher Priority Securities and the Additional Securities to be issued.

(i) Projected Net Revenues may include 100% of the estimated increase in Net Revenues to accrue as a result of the acquisition of the repairs, extensions, enlargements and improvements to the System to be paid for in whole or in part from the proceeds of the Additional Securities.

(ii) In projecting Net Revenues, the City shall engage the services of and be guided by a consultant of national reputation for advising municipalities with respect to setting rates and charging for the use of water supply systems.

(2) The actual Net Revenues of the System for the immediately preceding audited Fiscal Year shall be equal to the Required Coverage of Combined Maximum Annual Debt Service payable in any future Fiscal Year on the then outstanding Equal and Higher Priority Securities and on the Additional Securities then to be issued.

(i) Instead of the immediately preceding audited Fiscal Year, the City may use any audited Fiscal Year ending not more than sixteen months prior to the date of delivery of such Additional Securities.

(ii) If any change in the rates, fees and charges of the System has been authorized at or prior to the date of sale of such Additional Securities, the Net Revenues for the particular preceding Fiscal Year shall be augmented by an amount reflecting the effect of such change had the System's billings during such Fiscal Year been at the increased rates.

(iii) Net Revenues for the particular preceding audited Fiscal Year also may be augmented by 100% of the estimated increase in Net Revenues to accrue as a result of the acquisition of the repairs, extensions, enlargements and improvements to the System to be paid for in whole or in part from the proceeds of such Additional Securities and 100% of any acquisition, extension or connection which was made subsequent to the end of the particular preceding audited Fiscal Year.

(iv) With respect to augmentation of Net Revenues, the City shall engage the services of and receive the certificate of a consultant of national reputation for advising municipalities with respect to setting rates and charges for the use of water supply systems regarding the existence of such conditions.

(v) Audited financial statements may be relied upon if no augmentation of Net Revenues is required.

(3) The following shall apply in making determinations for the purposes of paragraph (1) or (2):

(i) Interest payable from accrued or capitalized interest deposited in the Redemption Fund or a Redemption Account in connection with the issuance of such accrued Securities shall be disregarded.

(ii) If any Additional Securities (or Additional Securities issued pursuant to subsection (c) below) (all of such, the "Refunding Securities") are to be issued to refund outstanding Securities of equal and any higher Priority (all of such, the "Securities to be Refunded"), Combined

Annual Debt Service shall be determined by substituting the Combined Annual Debt Service on the Refunding Securities for the Combined Annual Debt Service on Securities to be Refunded.

(d) *Debt Service Reduction Refunding.* The City may issue Securities of any Priority (herein, "Additional Securities") for refunding all or part of Securities then outstanding and paying costs of issuing the Refunding Securities, including deposits which may be made to any Reserve Fund or Account established or to be established for such Additional Securities *if but only if*

(i) the Combined Annual Debt Service coming due in the current Fiscal Year and each Fiscal Year thereafter until maturity of (A) the Additional Securities and (B) giving effect to the refunding, all outstanding unrefunded Equal and Higher Priority Securities *is less than*

(ii) the Combined Annual Debt Service coming due in the current Fiscal Year and each Fiscal Year thereafter until maturity of all Equal and Higher Priority Securities, without giving effect to the refunding.

Section 19. Accession of Junior Lien Bonds to Parity Status.

In accordance with this Section, the City may provide for the accession of Junior Lien Bonds to the status of complete parity with Senior Lien Obligations when there shall have been filed with the Commissioners a certificate of a national consulting firm meeting the requirements of Section 18(c) or a national firm of certified public accountants, and further reciting the opinion:

(i) that the Bond Reserve Account contains an amount equal to the Bond Reserve Requirement computed on a basis which includes all Bonds then outstanding and such Junior Lien Bonds;

(ii) that all payments into the various funds and accounts hereinabove required to be held are current as of the date of accession; and

(iii) that the Redemption Fund contains the amounts which would have been required to be accumulated therein on the date of accession if such Junior Lien Bonds had originally been issued as Bonds; such amounts shall be shown in said certificate.

The accession of such Junior Lien Bonds shall be conclusively evidenced by notice from the City to the Trustee and each such Junior Lien Bondholder.

Section 20. Amendments; Consent of Securityholders.

(A) The City, from time to time and at any time, subject to the conditions and restrictions in this Ordinance contained, may enact one or more ordinances or resolutions or both which thereafter shall form a part hereof, for any one or more or all of the following purpose:

(i) To issue Securities of any Priority;

(ii) To add to the covenants and agreements of the City in this Ordinance contained, other covenants and agreements thereafter to be observed or to surrender, restrict or limit any right or power reserved to or conferred upon the City (including but not limited to the right to issue Additional Securities of any Priority);

(iv) To increase the size or scope of the System; and

(v) To facilitate the administration of the auction procedures established pursuant to a supplemental ordinance or resolution authorizing the issuance of TEAS and IFTEAS, and in the event the TEAS and IFTEAS are no longer each represented by a global bond registered in the name of the bond depository or its nominee appointed under such Supplemental ordinance or resolution.

Any amendment or supplemental ordinance or resolution authorized by the provisions of this Section 20(A) may be enacted by the City without the consent if the owners of any of the Securities at any time outstanding, notwithstanding the provisions of Section 20(B) below.

(B) With the consent of the owners of not less than 51% in principal amount of the outstanding Securities affected thereby, the City may from time to time and at any time adopt an ordinance or ordinances supplemental hereto for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of this ordinance or of any supplemental ordinance; *provided, however, that no such supplemental ordinance shall:*

(i) reduce the aforesaid percentage of owners of Securities required to approve any such supplemental ordinance without the consent of the owners of all Securities then outstanding, or

(ii) without the consent of the holder of each Security affected thereby:

(A) extend the fixed maturity of such Security or reduce the rate of interest thereon or extend the time of payment of interest, or reduce the amount of the principal or redemption premium thereof, or reduce or extend the time for payment of any premium payable on the redemption thereof, or

(B) deprive such holder of the right to payment of such Security from the Net Revenues.

No amendment may be made under this Section 20(B) which affects the rights or duties of the insurer or obligee of a Financial Facility or counterparty to a Hedge without its consent.

It shall not be necessary for the consent of the Securityholders under this Section to approve the particular form of any proposed supplemental ordinance, but it shall be sufficient if such consent shall approve the substance thereof.

Promptly after the enactment by the City of any supplemental ordinance pursuant to the provisions of this Section, the City shall cause the Transfer Agent to mail a notice by registered or certified mail to the registered owners of all Securities outstanding at their addresses shown on the bond register or at such other address as is furnished in writing by such registered owner to the Transfer Agent setting forth in general terms the substance of such supplemental ordinance.

Revenues and then *only if*: (i) such Prior Revenue is deposited into the Rate Stabilization Fund in the Fiscal Year in which it was recognized by the City as Net Revenue or within 90 days after the end of such Fiscal Year, (ii) the amount of such Prior Revenue is deducted from the amount of Net Revenue recognized in such Fiscal Year for all purposes of this Ordinance and (iii) the amount of Net Revenue recognized in such Fiscal Year at least meets the minimum applicable coverage requirements of this Ordinance for such Fiscal Year *after* (y) such deduction and (z) all prior deductions in respect of such Fiscal Year pursuant to this clause.

(e) Prior to the transfer of any Reserved Amount to the Receiving Fund, such Reserved Amount shall not be used or applied to any purpose *except* pursuant to Section 13 and then only after all other amounts then in the Rate Stabilization Fund have been applied pursuant to Section 13.

(f) The Rate Stabilization Fund shall constitute a "fund of the System" for the purposes of, but only for the purposes of, Section 13.
