May 17, 2001

Honorable City Council:

Petition #2316, Sherwood Forest Association requesting historic designation of the Sherwood Forest area and the appointment of ad hoc representatives in connection with this matter.

We have received the Clerk's referral of the request for historic designation. Staff of the Advisory Board is now prepared to proceed with a study.

The designation was requested by Sherwood Forest Association, who provided reasonable grounds for the study in correspondence to dated January 31, 2000. A resolution for study is attached for your consideration.

Pursuant to that resolution, City Council must appoint two persons to serve as ad hoc members of the Advisory Board in connection with the matter.

The Advisory Board staff is happy to provide two names for your consideration: Linda Jones and Sue McMillan, both are residents of the area and members of the neighborhood association and therefore each has an ownership interest and would also represent the community interest.

Staff is available to answer any questions you may have.

Respectfully submitted,

From The Mayor

May 24, 2001

Honorable City Council:

I completed my review of your changes to my proposed budget for the 2001-02 fiscal year. While I am pleased that we agree on the vast majority of items included in our spending plan, I must comment on one item that I feel very strongly about.

In your action to eliminate, funding for performance coaches in the Performance Planning and Development Process represents what I believe to be a **failure to understand** the positive changes that result from this program.

When I took office in 1994, City of Detroit employees had undergone 10% pay cut, working only four days a week. City services at that time were, at best, sporadic. Employee **pride** was **almost** nonexistent. Employee morale was low for all but a few of our dedicated employees. It was apparent that a systemic change was needed throughout the city government to address human resources issues that affect overall performance.

Implementation of an effective performance and development process requires training to ensure that employees and supervisors alike are aware of the elements of performance planning and are clear about their respective roles in the success of the City of Detroit. I added funding to the Human Resources Department's budget for training to ensure that our employees obtained the skills needed to provide the leadership that is required for successful implementation.

Over the last few years, the Human Resources Department implemented a number of initiatives that benefit employees citywide that includes, but is not limited to, the following:

- Development of several outstanding training programs focused on improving service delivery throughout the city including Seven Habits, Customer Service, Supervisors Academy, Violence Prevention, Communications Skills, Career Development, Financial Planning Continuous Process Improvement to name a few;
- Establishment of Joint Labor Management Quality Improvement Committees;
- World Class Service Awards recognizing employee excellence;
- Reestablished a first rate orientation program for new and transferring employees;
- Workforce Planning Process focused on staffing, employee development, and organizational change and policy development which support our public service environment; and
- Improved delivery of HR services to city departments through thoughtful alignment of limited resources.

One of the most significant initiatives is the establishment of the Performance Planning and Development Process. It is:

- A tool to assist employees and their supervisors in improving communications through training and coaching;
- A focus on internal and external customer satisfaction;
- Assurance that job performance expectations are clear and understood — a two way process;
- Enhances opportunities to increase employee's skills, knowledge and abilities leading to personal growth and an increased potential for promotions; and

- A means to meet collective bargaining provisions.

On-going training is a key component to our process of improvement. Performance coaching is a critical element in making performance planning and development successful throughout the city. Employees are proud when they polish current skills and develop new skills that make them successful on their jobs.

Performance coaches assist both supervisors and employees. They set the stage for improving communication and establishing clear expectations regarding job performance. They provide additional support by helping identify skill development needs for all parties involved. This improved communications and enhancement of employees' skills will go a long way towards the city meeting, not only, the demands of our neighborhoods for high quality services, but attracting more businesses and economic development projects than we have experienced in the last decade.

It is important to note that we have begun negotiations with the City's labor unions. It is significant that performance planning is and remains an element of our labor agreements with the exception of Police and Fire. At the end of this bargaining process, merit pay may not be a component of the compensation package. However, I am fully committed to the Performance Planning and Development Process. The lack of performance coaches will have a negative impact on, not only, this program but also the ability of this government to continue to make improvements in the delivery of city services.

Your unilateral action of summarily eliminating the performance coaches and their valued work will have a detrimental impact on our city and the pride and self-esteem of our valued city employees. It takes us back to the days when our employees were unsure of expectations and not rewarded or acknowledged for a job well done.

I am, therefore, vetoing your decision and have fully restored funding for the above program.

I must also take this opportunity to comment on Council's decision to reduce funding for the human resources payroll module. We know that the current payroll system and processes are, and will continue to be, challenged to produce payroll in a consistent, efficient and reliable manner. The estimated funding requested by me was developed by two outside firms — Oracle and Solbourne. These two firms have a great deal of experience working with the City, its software applications and employees. Both firms indicated that they are not interested in bidding on this RFP.

The projected cost for the work outlined appears to be reasonable and conserva-

tive in light of our experience with outside consultants. Once the responses to the RFP are received, I hope that the projected cost will be in line with your reduced funding. If not, I or my successor will have to return to your Honorable Body to request additional funding.

Sincerely,
DENNIS W. ARCHER
Mayor

Honorable City Council:

Re: Voting Schedule and Overview of Mayor's Partial Veto to the Council's Authorized 2001-2002 Budget.

Attached is the schedule for Council action on the Mayor's partial veto to the Council's recommended budget.

Schedule A reflects the Council's changes to the 2001-2002 Budget and the changes as would be necessary per the Mayor's recommended partial veto.

As outlined in his veto message, the Mayor wishes to restore the \$1.5 million in funding for the Performance Coach program. In order to do that and come up with a balanced budget, all of Council's program additions were cut by 18.46%.

The resolution as written, would allow Council to confirm their original changes and override the Mayor's partial veto.

By Council Member S. Cockrel:

Be It Resolved, That the Fiscal Year 2001-2002 City of Detroit Budget, be adopted, including the items referenced in the attached Schedule A, but not including the partial veto by the Mayor; And Be It Further

Resolved, That the Budget Director be and is hereby authorized to amend the 2001-2002 City of Detroit Budget in accordance with this resolution.

Adopted as follows:

CITY PLANNING COMMISSION

May 24, 2001

Honorable City Council:

Re: Review of the Hart Plaza Rehabilitation Project located in a PC (Public Center District) zoning classification (Recommend Approval).

The City Planning Commission (CPC) has received a building permit application from the Recreation Department to make certain repairs and improvements toward the rehabilitation of Hart Plaza. Mr. Richard Hautau of the Recreation Department was before your Honorable Body on at least two occasions last fall to discuss the needs and desires of the department for Hart Plaza. The primary and most significant issues that needed to be addressed were waterproofing and repair of damage resulting from leaks in underground areas of the Plaza. These repairs would require the re-paving of some portions of the Plaza, while other areas would be re-paved to eliminate severely damaged granite pavers, some of which had formed trip hazards. This is a \$2 million project for which your Honorable Body approved the contract on March 28 of this year. Being located in a PC (Public Center District) zoning classification, your approval of this plan is required. Beyond these sorely needed repairs, the Department also informed the Council that a complete renovation of Hart Plaza would be warranted in the not too distant future and that the master planning for such an undertaking should commence relatively soon.

REVIEW AND RECOMMENDATION

In review of this project CPC and Planning and Development Department staff became immediately aware of an oversight with the primary area to be resurfaced. The large granite pavers within the Jefferson entranceway are being replaced by smaller cement brick pavers. The new pavers are of color called the "Woodward Blend" and match the pavers used around the Coleman A. Young Municipal Center and elsewhere along Woodward Ave. These earth-tone pavers clashed with the gray and red pavers of the arcade, which runs south of and parallel to Jefferson Ave. and intersects with the entranceway to Hart Plaza. The Recreation Department agreed with our concerns and order that the area be redesigned to create a better transition from the arcade to the entry plaza.

CPC staff agrees with the Recreation Department that a complete renovation of the facility is long over-due. However, in the interim, repairs and improvements such as these are necessary for the continued use and operation of Hart Plaza. Staff also recognizes that minor repair work will continue throughout this season, given the condition of the facility and the heavier volume of traffic anticipated as a

result of the celebration of the City's 300th birthday. The Recreation Department clearly recognizes that there are both immediate and long term needs at Hart Plaza, and the department is taking appropriate measures to address them through this project and future efforts. Therefore, City Planning Commission staff recommends approval of the Hart Plaza Rehabilitation Project with the condition that both CPC and P&DD staff be included in the development of the new master plan for Hart Plaza.

Respectfully submitted,

STATEMENT FOR THE RECORD

May 30, 2001

BY COUNCIL PRESIDENT PRO TEM
MARYANN MAHAFFEY

RE: Extension of the Cable Franchise Agreement with Comcast

I voted "Yes" on the Ordinance to extend the Cable Franchise Agreement with Comcast. Although I believe that the Ordinance should have been limited to two months in order to give City Council an opportunity to monitor the good intentions of both Comcast and the Communication Workers of America while bargaining for a new labor agreement is continuing, I recognize the possible financial problems for the City of Detroit and possibility of interruption of cable services for citizens if the current franchise agreement is not extended by the end of May. To have changed the length of the extension of the proposed ordinance would have taken at least a week, possibly creating a loss of income to the city and lack of services to its citizens.

I, however, voted "No" on the accompanying resolution to extend the agreement for six months. I believed that the council resolution agreement should have provided that the agreement only be extended for two months. This would have provided City Council with the opportunity to ensure that both Comcast and the Communication Workers of America were bargaining for a new labor agreement in good faith.

I was seriously troubled by the information that was brought to City Council at today's public hearing concerning the present labor negotiations. City Council was told that negotiations had not progressed from the opening session. The company representative had previously told me that the bargaining was going well. However, Comcast has allegedly told the union that Comcast did not plan to extend the union contract when it terminates at the end of this month. Comcast was invited to attend the public hearing, but decided not to attend.

I only hope that Comcast does not take the six month extension of the Franchise Agreement as justification not to reach a fair and just agreement with its employees.

In the meantime, the city should make sure that any new Franchise Agreement deals with the issue of anti-union activity and bringing outsiders in to do work presently done by Detroiters.

Re: Ella Jean Taylor vs. City of Detroit. Case No.: 00-017579 NO. File No.: A19000.01828 (LH). CLIS No.: 007845.

On May 23, 2001, a mediation panel evaluated the above-captioned lawsuit and awarded Ten Thousand Five Hundred Dollars (\$10,500.00) in favor of Plaintiff. Re: Proposed Ordinance to Amend Section 9.5-3-5 of the 1984 Detroit City Code.

Pursuant to the 1997 Detroit City Charter, this proposed ordinance is being submitted to your Honorable Body for consideration and passage. This pro-

posed ordinance amends Section 9.5-3-5 of the 1984 Detroit City Code.

As you are aware, the Cable Television Franchise Agreement with Comcast Cablevision of Detroit expires on May 30, 2001. The Detroit Cable Communications Commission, the Mayor and the City Law Department have recommended a six-month extension of the franchise until November 30, 2001. It may not be necessary to utilize the entire extension period. However, this extension will provide for a reasonable time period for the negotiation of the franchise, and for consideration by your Honorable Body.

We respectfully request that this proposed ordinance be introduced at the earliest possible Formal Session and that the Public Hearing be held at the earliest possible date. A waiver of reconsideration is requested.

We are available to answer any questions that you may have concerning this proposed ordinance. Thank you for your attention to this matter.

Respectfully submitted,
PHYLLIS A. JAMES
Corporation Counsel

4. The parties agree to negotiate in good faith and to use reasonable efforts to conclude negotiations of the Franchise renewal by July 31, 2001.

**Human Resources Department
Labor Relations Division**

May 24, 2001

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by the Park Management Association.

The Labor Relations Division has recently reached agreement with the Park Management Association. Given the extensive time it will take to type and process the entire contract, it would cause an unreasonably long delay to withhold implementation until the formal contract has been prepared and presented to your Honorable Body for approval.

Therefore, in accordance with standard City procedure, this Office is recommending that your Honorable Body pass a resolution amending the 1998-1999 Official Compensation Schedule by granting a 2% general wage increase for the subject represented employees effective July 1, 1998, amend the 1999-2000 Official Compensation Schedule by granting a 3% general wage increase effective July 1, 1999, and similarly amend the 2000-2001 Official Compensation Schedule to reflect a 3% general wage increase effective July 1, 2000. We are further requesting authorization to implement the following new contract provisions.

1) Special Adjustments for certain classifications based on negotiated operational improvements and recruitment and retention difficulties as outlined in the attached Schedule A.

2) Fringe benefit changes as set forth in the attached Schedule B.

We further respectfully request that your Honorable Body adopt the following resolution with a Waiver of Reconsideration.

Respectfully submitted,

ROGER N. CHEEK

Labor Relations Director

By Council Member Everett:

Resolved, That the 1998-1999 and 1999-2000, and 2000-2001 Official Compensation Schedules and employee wages be amended according to the foregoing letter and be it further

Resolved, That employees in the Park Management Association bargaining unit shall receive special adjustments and fringe benefit improvements as recommended in accordance with the Schedules on file with the City Clerk, and be it further

Resolved, That the Finance Director is

hereby authorized to honor payrolls and vouchers in accordance with this resolution and letter.

SCHEDULE A

Special Adjustments

In order to maintain traditional wage relationships between various classes of employees which share a close working relationship and to alleviate recruitment and retention problems, the maximum rate for all classifications in the bargaining unit shall be increased by 3% effective July 1, 2000, and again by 3% effective January 1, 2001.

This special adjustment shall be applied to all bargaining unit members on the payroll on those dates and is in addition to the general wage increases provided for in the Wage article.

SCHEDULE B

Fringe Benefit Changes

• **Other Compensation —**

1. **Cash Bonus Formula:** All employees on the regular payroll on June 30, 2001, shall be eligible to participate in a possible cash bonus (not exceeding 2%) which shall be determined and paid one-time in accordance with the conditions set forth in the labor agreement.

2. **Work Performance Cash Incentive Payment:** During the term of the 1998-2001 Agreement for a period ending June 30, 2001, the work performance of every bargaining unit member shall be individually evaluated for the purpose of determining if they will be eligible to receive an individual cash incentive payment for their work performance during the period. An employee must receive a minimum overall rating of "Meets Expectations" to qualify for a cash incentive payment of 1% of the employee's base wage to be paid on the first payday in December 2001. This payment shall not increase the employee's base rate of pay.

• **Vacations —**

1. Vacation banks may not exceed more than 40 days on any October 1.

2. Vacation qualifier changed to 1,600 hours. 100% of vacation time allotment shall be credited to an employee's vacation bank after the 1,600 hour qualifier is reached.

• **Private Car Mileage Reimbursement —** Effective July 1, 1999, employees required to drive their personal vehicle on city business shall be paid mileage at the rate of 31 cents per mile.

• **Workers' Compensation —** Employees who are unable to supplement their Workers' Compensation benefit from their off-time banks because the amount of overtime worked causes the benefit to meet or exceed 95% of weekly take-home pay, shall be treated like employees who are able to supplement for the purposes of hospitalization coverage, life insurance coverage and current sick leave accrual.

- **Tuition Refund** — The amount of tuition refund available to employees has been increased based on the following: For those employees seeking a graduate degree the amount is \$850, for those seeking an undergraduate degree the amount is \$700. The total amount of tuition refund may not be pyramided to exceed \$850 in any fiscal year. (The current \$600 amount has been retained for use — not affected by these two increases.)

- **Hospitalization, Medical, Dental, and Optical Care Insurance** —

1. Effective July 1, 1999, through June 30, 2001, the City will contribute \$5.50 per month for employees covered by CO/OP Optical and \$5.43 per month for employees covered by Heritage Optical, resulting in increased optical benefits.

2. Effective July 1, 1999, employees on the active payroll who are covered by a health care plan offered by an employer other than the City, and can furnish proof of such coverage, may elect to take an annual \$950 cash payment (payable quarterly) in lieu of the hospitalization-medical coverage offered by the City. This election shall take place annually during the open enrollment period. The City shall have the sole discretion to offer this opt-out provision to current and future retirees who are eligible for the City's hospitalization-medical coverage.

WHEREAS, The House of Representatives of the State of Michigan is consider-

ing enactment of House Bill 4028 Substitute H-3, also referred to as the "Michigan Blighting Property Program" and the "Spot Blight/Condemnation Bill"; and

WHEREAS, House Bill 4028 Substitute H-3, will enable all Michigan municipalities and counties to receive certain abandoned, vacant and blighted property by gift, transfer, fair value purchase, or condemnation for the purpose of rehabilitating or redeveloping the property thereby removing its blighting influences on its neighboring community; and

WHEREAS, House Bill 4028 Substitute H-3, if enacted, is a permissive authorization that does not mandate that any municipality or county act, take or receive blighted properties for redevelopment, leaving it to the local governments to use this authority in a manner consistent with the legislation, permitting any action to be based on findings in the best interest of the local government and its citizens; and

WHEREAS, The Detroit City Council views this authority as a significant new tool in the fight to eliminate blight in neighborhoods, industrial and commercial districts, but has some reservations regarding some provisions of the bill as proposed, including the extent to which municipalities may have some liability to those with unrecorded interests in real property; the cost to implement and administer such a program; the time frame in which a municipality will have to implement a development plan or have a developer in place to redevelop land under this Bill; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council expresses its qualified support for House Bill 4028 Substitute H-3:

1. Support for efforts to improve the powers of all Michigan municipalities and counties to re-mediate blighting influences in their respective neighborhoods, commercial and industrial districts;
2. Does not support any effort to restrict or prohibit some municipalities or counties from participation under this legislation if passed;
3. Support for the permissive nature of this legislation;
4. Support for legislative measures to provide appropriate and substantial notice hearing and appeal opportunities to any recorded owners prior to designation of blighted property and any taking;
5. Does not support any requirement within the Bill that burdens municipalities with liability to any unrecorded owner; or as the result of the failure to act within six (6) months — the time frame should be lengthened to up to (1) year for implementation of a development plan by either the municipality or a developer; or permit extensions in increments of six (6) months upon showing of progress in implementing a development plan;

Honorable City Council:

Re: Address: 2617 Ferry Park. Name: Kyle Musaid Omar. Date ordered removed: February 14, 2001 (J.C.C. pp. 444-6).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 24, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has entered into a Tax Payment Plan to pay the current taxes due as of April 18, 2001.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition ordered be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. You will be required to obtain relevant permits for all rehabilitation work performed.

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Main-

tenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings.

City Planning Commission

May 25, 2001

Honorable City Council:

Re: Request of Paul Kado for approval of an awning at 620 Woodward in a PCA (Restricted Central Business District) zoning district (Recommend Approval).

Paul Kado is requesting a permit for an awning at 620 Woodward. This property is located in a PCA (Restricted Central Business District) zoning district. PCA zoning districts are located in close proximity to the Public Center District, and the controls of the PCA district are designed to prevent uses and structures from having a deleterious effect on the public center of the city. Section 113.0200 of the Zoning Ordinance requires City Council approval of the exterior alteration of buildings in a PCA district after receiving a report and recommendation from the City Planning Commission.

The proposed awning would be redesigned from the one currently installed over the first floor storefront windows at the subject address. The current awning was installed without benefit of permit. The proposed awning would be 40 feet long and approximately 7 feet high and be made of a dark green vinyl material (see attached drawing). The awning would contain only the wording "Check Plus Check Cashing" and "Woodward Liquor Shoppe" in 12-inch and 8-inch high white letters.

City Planning Commission staff has reviewed the plan for the proposed awning and finds that it is appropriate for the PCA district. The redesigned awning would be a marked improvement over the current awning. We further find that the proposed awning would be consistent with the spirit, purpose and intent of the PCA district. We therefore recommend approval of the proposed awning and submit the attached resolution for your consideration.

Respectfully submitted,
MARCUS D. LOPER
Deputy Director

By Council Member Mahaffey:

Whereas, Paul Kado has requested a permit for an awning at 620 Woodward; and

Whereas, The property at 620 Woodward is located in a PCA (Restricted Central Business District) zoning district classification, and, therefore, requires City Council approval of exterior alterations in accordance with the provisions of Section 113.0200 of the Zoning Ordinance; and

Whereas, The City Planning Commission staff has reviewed the plan for the proposed awning and finds that it is consistent with the spirit, purpose and intent of the district as indicated in the foregoing communication;

Now, Therefore Be It Resolved, That the Detroit City Council hereby approves the design of the proposed awning at 620 Woodward as described in the foregoing communication from the City Planning Commission staff and as presented in the drawing by Jim's Awning and Sign Company received by the Commission office on May 22, 2001.

Re: Public Safety Mall — resolution for a "Safe House".

In response to the concerns of the City Planning Commission relative to the need for a facility at the proposed Public Safety Mall to provide assistance to victims of

domestic violence and their families, City Council requested that a resolution be drafted to support a true "safe house" as part of the Public Safety Mall. Attached is a resolution for your consideration.

If you have any further questions, please let us know.

By Council Member Mahaffey:

Whereas, The Detroit Police Department has proposed the establishment of a new Fourth Precinct Public Safety Mall on property generally bounded by W. Fort St., the Fisher Freeway Service Drive, Clark Avenue, and the alley west of Ferdinand Avenue, and the reallocation of police personnel from the Third and Fourth precincts to the Fourth, Tenth, and Thirteenth Precincts; and

Whereas, The City Planning Commission and the City Council held public hearings on the proposal and the Commission submitted a report to the City Council presenting several issues which arose at its hearing and a recommendation of approval with several conditions; and

Whereas, The City Council approved the proposal based on the Detroit Police Department working with Latino Family Services to include a "safe house" in the Mall for victims of domestic violence; and

Whereas, The Public Safety Mall is a model of a very innovative and progressive concept in the community justice community; and

Whereas, As stated in a report presented at the 1997 International Chiefs of Police Summit, it is vital that law enforcement agencies play a leadership role in promoting public awareness of the traumatic impacts of domestic violence on children, and in initiating local collaborative responses to the problem; and

Whereas, The current plans for the Public Safety Mall now include only space for intake, counseling, and referral of victims of domestic violence rather than a true "safe house" that could provide short-term accommodations for such victims;

Now, Therefore, Be It Resolved, That the Detroit City Council urges the Administration to include a true "safe house" in the Public Safety Mall as agreed to by the Police Department when the Council approved the project;

And Be It Further Resolved, That this resolution be forwarded to the Mayor of the City of Detroit, the Chief of Police, the Fire Commissioner, and the Empowerment Zone Development Corporation.

Re: Public Hearing on Request by Scripps Park Associates L.L.C. for Establishment of "Woodbridge Estates" Area as a Neighborhood Enterprise Zone in Accordance with Public Act 147 of 1992.

In response to Scripps Park Associates' request for designation of the "Woodbridge Estates" area as a Neighborhood Enterprise Zone, the Planning & Development Department, in conjunction with the Assessments Division of the Finance Department, have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that approval of the aforementioned request would be consistent with the Master Plan and the neighborhood preservation and development goals.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local gov-

ernmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The proposed area is 71.552 acres in size and is generally bounded by Canfield on the north, Martin Luther King Boulevard on the south, John C. Lodge Service Drive on the east, and Trumbull on the west.

Attached for your consideration please find a copy of a resolution establishing a date and time for the public hearing together with a legal description of the proposed NEZ.

Whereas, Scripps Park Associates L.L.C. has requested that an NEZ be established for the Woodbridge Estates project, and the Planning & Development Department and the Finance Department — Assessments Division, after a review of the Master Plan and the neighborhood preservation and development goals of the City, recommend that the area specified in the attached legal description be designated an NEZ for new and rehabilitated facilities in accordance with the 10% acreage allowance provided under Section 3(5) of the Act; and

Whereas, An NEZ may not be established without a public hearing first being held, with notice of such public hearing provided to the assessor and governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ at least 60 days prior to passage of a resolution establishing the NEZ; now therefore be it

Resolved, That a public hearing be held by the Detroit City Council in the Committee Room, 13th floor of the Coleman A. Re: Ford Freeway (I-94) Deck Replacement etc. Which Carries Russell Street (Dequindre Yard Bridge) State Agreement #97-5390.

On September 10, 1997 (JCC Page 2218) your Honorable Body approved City Contract No. 076280 with the Michigan Department of Transportation which provided for an estimated amount of \$75,000.00 for the City's share for the project described below:

Replacement of the first five spans of structure R01 of 82024 which carries

highway I-94 over Russell Street (Dequindre Yard Bridge) for approximately the west abutment and ending just east of Russell Street and which includes all maintaining traffic and approach work: together with necessary related work: located within the corporate limits of the city.

On January 28, 1998 (JCC Page 179), your Honorable Body authorized the Finance Director to increase the amount of City Contract No. 076280 from \$75,000 to \$147,200.

WHEREAS, Electronic music innovator,

DJ, producer and Metroplex Records founder "Magic" Juan Atkins will perform during the Detroit Electronic Musical Festival, scheduled for May 26-28, 2001, and

WHEREAS, Mr. Atkins, a native Detroit from the northwest side, is regarded the godfather of techno music, which he helped to create in the early and mid-1980s. His talent was evident very early on, as he merged the sterile, mechanistic sounds of European synthpop with the funk/bass-driven, hypnotic R&B of Parliament/Funkadelic, and

WHEREAS, He attended high school in Belleville, where he met his friends Derrick May and Kevin Saunderson. Together, they began appearing in local clubs, and each worked to shape and refine the dance music now known as techno. Mr. Atkins and partner Rick Davies formed the act Cybotron, which quickly gained national renown by charting in the black music Top 40. Mr. Atkins then ventured on along, taking the name Model 500 and forming Metroplex Records. As Model 500, he released the minimalist high-tech classics "No. UFO's," "The Chase," "Nightdrive" and "Ocean To Ocean," and

WHEREAS, Mr. Atkins contributed his talents to the landmark Inner City project, and "Big Fun" took Europe by storm. With the new, massive techno sound in high gear, Mr. Atkins' reputation soared. He began to remix pop hits from Dr. Robert & Kimmayzelle, Coldcut, Yaz, the Fine Young Cannibals, the Tom Tom Club, the Beloved, Style Council, Dave Clark and Carl Cox. Mr. Atkins also continued to produce cutting-edge dance singles, and in 1994 he released his first mini-LP entitled "Sonic Sunset." It was followed by "Deep Space" in 1995 and "Mind And Body" in 1999, and

WHEREAS, Mr. Atkins' fluid, utopian sound continues to influence the global music industry. His lasting contribution to the techno genre has helped to firmly establish Detroit as the music's birthplace and home. Although Mr. Atkins has many imitators, he remains the innovator — the Buddha of electronic funk. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby recognizes the numerous achievements of Juan Atkins, a gifted artist whose unmatched talent and vision was born in Detroit and has spread worldwide.

TESTIMONIAL RESOLUTION FOR DERRICK MAY

By COUNCIL MEMBER K. COCKREL, JR.:

WHEREAS, Electronic music innovator, DJ, producer and Transmat Records founder Derrick "Mayday" May will perform during the Detroit Electronic Music Festival, scheduled for May 26-28, 2001, and

WHEREAS, Derrick May — born and raised in Detroit — is regarded as one of the founders of techno music, which he helped to launch 17 years ago, and

WHEREAS, He met his mentor, Juan Atkins, and Kevin Saunderson at Belleville High School when all three were students there. The trio began spinning records in local nightclubs during the mid-'80s, pioneering the music form that would later become known as techno. Inspired by the advancing mechanization of the automobile plants in his hometown, Mr. May's techno pulsated with the rhythm of house music, but was fused with the austere electronica of European synthpop such as Kraftwerk. Traveling extensively throughout the world as a performer, Mr. May first found wide acclaim in Europe but became a living legend in the United States as well, and

WHEREAS, Mr. May's work is especially notable for his breakthrough use of strings, subtle modulations, and drum line embellishment — creating a restrained, cerebral sound. Known as Rhythm is Rhythm, Mr. May recorded the seminal tracks "Nude Photo," "Strings of Life," "It Is What It Is," and "Beyond The Dance." Also taking the name Mayday, he mixed many more tracks for other artists, and

WHEREAS, Today, although Mr. May's success has placed him in demand around the world, Detroit is still his home. From his office at Transmat Records on Gratiot Avenue, he continues to promote culture and music in our City. The Detroit techno sound has had a strong impact on the modern music industry. In particular, Mr. May's lasting contribution to the genre not only influenced techno artists from around the world, but also helped to firmly establish Detroit as the birthplace and home of techno. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby recognizes the numerous accomplishments of Derrick May, a gifted artist whose incredible talent and vision were born in Detroit, and spread worldwide.

Invocation

Almighty, Everlasting and Everloving God,

As we begin this Formal Session of the Detroit City Council with this invocation, make us mindful that there is really no need to invoke Your presence, as this is not the beginning of our reality with You, because we are to You as the wave is to the ocean.

Help Your children, the members of this Council, to be ever mindful that You are omnipresent, always with them, because there is no place that You are not. They are to You, as the wave is to the ocean.

Keep them mindful that You are omnipotent; that Your power is always there to protect them; and even when they walk through the valley of the shadows of disagreements — no matter how heated — they need fear no evil, because You are with them. They are to you, as the wave is to the ocean.

Keep them mindful that You are omniscient; that Your knowledge is always available to them; that there is no challenge they cannot conquer, no obstacle they cannot overcome; no provision they cannot procure — Your beloved children, heir to all that is Yours, and all the cattle on 1000 hills are theirs; because they are made in your image; they are to You as the wave is to the ocean.

And finally, O Lord, we ask that You make Your beloved children, the members of this Council, ever mindful that even though this session may close, and they have finished this race, and they have finished this course, and they may be out of the minds of each other, they are never out of Your mind — and they are to you as the wave is to the ocean.

And the people said — Amen, Amen, Amen.

Honorable City Council:

Re: Address: 6327 Linwood. Name: Mansoor Ali. Date ordered removed: December 6, 2000 (J.C.C. p. 3083)

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on May 8, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of April 27, 2001.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition ordered be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. You will be required to obtain relevant permits for all rehabilitation work performed.

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. Re: Petition No. 2722 — Ferrini Contracting Corporation, for renewal of the temporary closure of Auburn St. in the area of Glendale and Chessie railroad.

Petition No. 2722 of "Ferrini Contracting Corporation" requests the renewal of the temporary closing (previously adopted by City Council April 4, 1990; J.C.C. Pgs. 742-744) of Auburn Avenue, 30 and 55 feet wide, between Glendale Avenue and the Chessie System Railroad right-of-way.

The request was approved by the Traffic Engineering Division — DPW and the Planning and Development Department. This petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

The Detroit Water and Sewerage

Department will require unimpeded access to an existing water main and sewer. Any fence and gate installation must provide 13 feet horizontal and 15 feet vertical clearance(s) for maintenance vehicles.

The petitioner agrees to pay all Public Lighting Department expenses to re-install street light(s), if the street is reopened for public use.

All other City departments and privately owned utility companies have reported no objections to the proposal, provided they have the right to ingress and egress at all times to their facilities.

An appropriate resolution, containing the necessary conditions, is attached for consideration by your Honorable Body.

Respectfully submitted,
SUNDAY JAIYESIMI

City Engineering Division — DPW
By Council Member Cleveland:

Provided, This resolution does not permit the storage of materials, displays of merchandise, or signs within the temporary closed public street. Further, the placement of materials, merchandise, or signs on any adjacent berm area is prohibited; and

Provided, That at the expiration of the permit, all obstructions shall be removed at the petitioner's expense. The public property shall be restored to a condition satisfactory to the City Engineering Division — DPW by the petitioner at the petitioner's expense; and

Provided, The petitioner's fence and gate installation shall provide 13 feet horizontal and 15 feet vertical clearance(s) for utility maintenance vehicles; and

Provided, The petitioner's fence or gate installation shall not interfere with ingress or egress into the fenced-in employee parking lot of "Dearborn Fabricating and Engineering Company", 19440 Glendale, Detroit, Michigan 48223; and

Provided, The petitioner shall pay all Public Lighting Department expenses to reinstall street light(s), if the street is reopened for public use; and

Provided, This resolution is revocable at the will, whim or caprice of the Detroit City Council without causes. Honorable City Council:

Re: Petition No. 3585 — Mohamad Aoun, et al, requesting alley closure in the area of 10100 East Warren.

Petition No. 3585 of "Mohamad Aoun, et al," representing Universal Petrol, Inc.

— Sunoco Service Station, request the conversion of a portion of the east-west public alley, 16 feet wide, in the block bounded by Cadillac Boulevard, 66 feet wide, Hurlbut Avenue, 60 feet wide, East Forest Avenue, 60 feet wide and East Warren Avenue, 86 feet wide, into a private easement for public utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

The petitioner plans to use the paved alley return entrance (into Cadillac Blvd.) and request such remain in its present status. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary.

All other City departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution

Honorable City Council:

Re: Supplement No. 1 to Amended and Restated Resolution authorizing the issuance of not to exceed \$190,000,000 General Obligation Bonds, Series 2001-A and General Obligation Refunding Bonds, Series 2001-B.

The attached Resolution authorizes the issuance and sale of the subject Bonds for the purpose of providing an additional not-to-exceed \$45 million in new money, approved as part of the City's 2001-2002 Budget, to pay the costs associated with certain public capital improvement projects.

Favorable bond interest rates under current market conditions and combined issuance costs would make it advantageous to the city to combine previously approved bond financing with the anticipated 2001-02 bond financing at this time.

The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,

By COUNCIL MEMBER HOOD:

WHEREAS, On April 6, 2001, the City Council (the "Council"), of the City of Detroit, County of Wayne, State of Michigan (the "City"), adopted an Amended and Restated Resolution Authorizing the Issuance by the City of not to exceed \$60,000,000 of its General Obligation Bonds (Unlimited Tax), Series 2001-A and not to exceed \$85,000,000 of its General Obligation Refunding Bonds (Unlimited Tax), Series 2001-B (the "Resolution"); and

WHEREAS, The Series 2001-A Bonds and the Series 2001-B Bonds as defined in and authorized for issuance by the Resolution are scheduled to be issued prior to the end of July, 2001; and

WHEREAS, Since the Resolution was adopted, the City Council has approved, as part of the City's 2001-2002 Budget, appropriations for additional capital projects as herein described (the "Additional Projects"), to be financed with the proceeds of additional unlimited tax bonds as approved by the qualified electors of the City, in an aggregate amount not to exceed \$45,000,000 (the "Additional Bonds"); and

WHEREAS, In addition to remaining voter authorization under the Prior Elections, as defined in the Resolution, a portion of the Additional Projects was authorized for bond financing by the qualified electors of the City at an election duly held on November 7, 2000; and

WHEREAS, Because of favorable bond interest rates under current market conditions, the Finance Director believes that it would be in the best interest of the City for the City Council to increase the aggregate amount of the Series 2001-A Bonds authorized under the Resolution by not to exceed \$45,000,000, to accommodate the financing of the Additional Projects; and

WHEREAS, Section 701(v) of the Resolution authorizes the City Council to adopt resolutions supplemental to the Resolution for the purpose, among others, of taking such action not materially, adversely and directly affecting the security of the Bonds; and such action would include increasing the aggregate amount of the Bonds because the Additional

Bonds also would be secured by a pledge of the City's unlimited tax full faith and credit.

WHEREAS, Because the original Order of Approval of the Michigan Department of Treasury limited the aggregate amount of the Series 2001-A Bonds and Series 2001-B Bonds to not to exceed \$110,000,000, it will be necessary for the Finance Director to apply to the Michigan Department of Treasury for a new order of approval or an amendment to the Order of Approval to increase the aggregate bond size to not to exceed \$190,000,000; and

WHEREAS, The Council deems it advisable and necessary at this time to authorize the issuance of additional Series 2001-A Bonds in an amount not to exceed \$45,000,000, or, alternatively, the issuance of the Additional Bonds as one or more series of general obligation unlimited tax bonds of the City, bearing a different designation as provided herein in an aggregate amount not to exceed \$45,000,000, and bearing interest at fixed and/or variable rates of interest on a tax-exempt and/or taxable basis as determined by the Finance Director within the parameters of this Resolution as supplemented by this Supplemental Resolution and confirmed by the Finance Director at the time of sale of such bonds in an Order of the Finance Director (any orders related to the sale of the Bonds or Interest Rate Exchange Agreements, as hereinafter defined, a "Sale Order"), to finance the Additional Projects in the not to exceed amounts appropriated or to be appropriated by the Council for such purposes as more particularly described in this Supplemental Resolution in accordance with the authorization of the qualified electors of the City, all in accordance with such authorization of the qualified electors of the City and as determined and confirmed by the Finance Director in the Sale Order; and

WHEREAS, The Finance Director has determined to sell the Additional Bonds by negotiated sale to the underwriters (the "Underwriters") to be named in a Bond Purchase Agreement; and

WHEREAS, The City Council wishes to state its intent for the City to be reimbursed from the proceeds of the Additional Bonds for any expenditures made by the City for the Additional Projects prior to the issuance of the Additional Bonds; and

WHEREAS, The Council desires to delegate to the Finance Director the authority to make certain determinations with respect to the Additional Bonds, within the parameters of the Resolution and this Supplemental Resolution and to authorize the Finance Director, among other things, (i) to determine the principal amounts of the Additional Bonds to be issued on a fixed or variable interest rate basis and tax

exempt or taxable basis; (ii) to determine the interest rate provisions, tender and other requirements for Additional Bonds issued on a variable rate basis; (iii) to determine and allocate the amount of proceeds of the Additional Bonds to the various Additional Projects; (iv) to negotiate the terms for the sale of the Additional Bonds to the underwriters; (v) to cause the Preliminary Official Statement and the final Official Statement for the Bonds and the Additional Bonds to be prepared and circulated; (vi) to file applications with the Michigan Department of Treasury under Act 202 for a new order or orders of approval (or amendments to the Order of Approval) or an Order or Orders of Exception from Prior Approval to issue the Additional Bonds, and Orders of Approval of interest rate exchange agreements for all or a portion of the Additional Bonds, and for such waivers related to the sale of the Additional Bonds, all as the Finance Director deems advisable; (vii) to negotiate the terms for a letter of credit or other credit enhancement to secure payment of all or a portion of the Additional Bonds; (viii) to negotiate the terms of a remarketing agreement, auction agent agreement, broker-dealer agreement or such other agreements as may be necessary to accomplish the sale and delivery of the Additional Bonds as determined by the Finance Director within the parameters of the Resolution, (ix) to negotiate interest rate exchange agreements with the provider or providers thereof, if economically desirable, in connection with any Additional Bonds issued on a variable or fixed rate basis; and (x) to take such other actions and make such other determinations as may be necessary to accomplish the sale and delivery of the Additional Bonds and the transactions contemplated by the Resolution and this Supplemental Resolution as shall be confirmed by the Finance Director in the Sale Orders.

ARTICLE IV REIMBURSEMENT PROVISIONS

Section 401. **Advancement of Costs of the Additional Projects.** At the direction of the Finance Director, the City may advance certain costs of the Additional Projects from the City's general fund prior to the issuance of the Additional Bonds. The City intends to reimburse itself for any costs of the Additional Projects paid or incurred by the City prior to the issuance of the Additional Bonds with proceeds of the Additional Bonds. The Internal Revenue Service has issued Treasury Regulation Section 1.150-2 pursuant to the Code, governing proceeds of bonds used for reimbursement, pursuant to which the City must declare official intent to reimburse expenditures with bond proceeds as provided in Section 402 below.

Section 402. **Reimbursement Declarations.** The City makes the following declarations for the purpose of complying

with the reimbursement rules of Treas. Reg. Section 1.150-2 pursuant to the Code:

(a) As of the date hereof, the City reasonably expects to be reimbursed for the expenditures described in (b) below with proceeds of the Additional Bonds, as debt to be incurred by the City.

(b) The expenditures described in this paragraph (b) are for the costs of acquiring, constructing and equipping the Additional Projects, together with the sites therefor and all necessary appurtenances and attachments thereto which were or will be paid subsequent to sixty (60) days prior to the date of adoption hereof from the general funds of the City.

(c) The maximum principal amount of debt expected to be issued for the Additional Projects, including issuance costs, is \$45,000,000.

A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the Additional Projects to reimburse the City for a capital expenditure made pursuant to this Supplemental Resolution.

(e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Reg. §1.150-1(b), i.e., any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. §1.150-2(c)) under general Federal income tax principles (as determined at the time the expenditure is paid).

(f) No proceeds of the borrowing paid to the City in reimbursement pursuant to this Supplemental Resolution will be used in a manner described in Treas. Reg. §1.150-2(h) with respect to abusive uses of such proceeds, including but not limited to using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. §1.148-1) within one year of the reimbursement allocation described in (d) above.

(g) Expenditures for the Additional Projects to be reimbursed from the proceeds of the borrowing that are subject to the limitations set forth in this Supplemental Resolution do not include (i) costs for the issuance of the debt, (ii) an amount not in excess of the lesser of \$100,000 or five percent (5%) of the proceeds of the borrowing, or (iii) preliminary expendi-

tures not exceeding twenty percent (20%) of the issue price of the borrowing within the meaning of Treas. Reg. §1.150-2(f) (such preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the Additional Projects, but do not include land acquisition, site preparation, and similar costs incident to commencement of construction).

Honorable City Council:

Re: Resolution Ratifying Statutory Telecommunications Permit Grant to Western Tel-Com, Inc.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced Resolution is being submitted to your Honorable Body for consideration.

The attached Resolution ratifies the grant, with conditions, of a permit to *Western Tel-Com, Inc.* for access to and on-going use of the public rights-of-way of the City to provide telecommunications services, as part of a system to be utilized by Wayne State University. The conditions include payment of an application fee once the amount is established by the City Council. The Resolution waives payment of an annual fee because the installation is for the benefit of Wayne State University.

After a public hearing, the Detroit Cable Communications Commission approved the grant of this franchise, subject to City Council approval. This Commission action was necessary because the *Telecommunications Act of 1996* allows a ninety-day window for the permit approval process. For a variety of reasons, the time ran out before this resolution could be presented to your Honorable Body.

We respectfully request that the

Council act on the Resolution at your next Formal Session and that a Waiver of Reconsideration be granted.

We are available to answer any questions that you may have concerning this proposed Resolution. Thank you for your consideration.

Respectfully submitted,
 PHYLLIS A. JAMES
 Corporation Counsel

By Council Member S. Cockrel:

Whereas, Public Act 216 of 1995 ("Act 216") requires telecommunications providers to obtain a permit from the City of Detroit for access to and ongoing use of public rights-of-way under the City's control and jurisdiction; and

Whereas, The City has adopted a *Use of Public Ways by Telecommunications Providers Ordinance*, Chapter 9.5, Sections 9.5-5-1 through 9.5-5-22 of the 1984 Detroit City Code, to regulate the access to and ongoing use of public ways by telecommunications providers; and

Whereas, Section 9.5-5-5 of the ordinance provides that no person shall install, construct, maintain, repair, or operate a telecommunications system within the public ways, or use the public ways to provide telecommunications services, without a permit issued pursuant to the Ordinance; and

Whereas, Section 254 of Act 216 provides that "a provider using the highways, streets, alleys, or other public places, shall obtain a permit pursuant to Section 251" of that Act; and

Whereas, On or about April 2, 2001, Western Tel-Com, Inc. filed a Permit Application for Access To and Ongoing Use of Public Ways; and

Whereas, The City of Detroit Cable Communications Commission through administrative action as of May 25, 2001 and the City of Detroit Law Department recommends that City Council approve issuance of a Telecommunications Permit to Western Tel-Com, Inc., subject to certain conditions (the "Permit"); and

Whereas, The attached form of permit shall be issued to Western Tel-Com, Inc. subject to the conditions set forth in this Resolution and the Permit, a copy of the Permit is attached to this Resolution as Exhibit A; and

Whereas, Section 9.5-5-6 of the Ordinance requires an applicant to pay a non-refundable application fee in an amount established by ordinance or resolution of the City Council, such fee being designed to reimburse the City for costs of reviewing an application for a permit; and

Whereas, The application fee is Five Thousand Dollars (\$5,000) and Western Tel-Com, Inc. has agreed to pay such fee; and

Whereas, Section 9.5-5-7 of the Ordinance requires a Permittee to pay an annual fee in an amount established from

time to time by ordinance or resolution of the City Council and Western Tel-Com, Inc. has agreed to pay such fee, unless such fee is waived by City Council; and

Whereas, City Council believes that it is in the best interests of the public to waive the annual fees so long as the Permittee is a qualified education institution using the telecommunications system required for, or useful in, the instruction and training, including worker training, of students and other people utilizing the institution's education services, the conducting of research, or the operation of the institution; and

Whereas, In adopting this Resolution and in approving the Permit, the City has relied on information and materials submitted and provided by Western Tel-Com, Inc., and to the extent any such information or materials are deemed by the City to be false, inaccurate, incomplete, or misleading, then the City desires to reserve the right to amend, rescind, modify or otherwise limit this Resolution; and

Whereas, The City of Detroit Law Department recommends that the City approve issuance of the Permit subject to conditions, namely payment of the application fee, and posting of a bond in the form and amount acceptable to the Law Department and which amount shall not exceed the reasonable cost to ensure that the Public Ways are returned to their original condition during and after Western Tel-Com, Inc.'s access and use; and

Whereas, The City of Detroit hereby declares that it is necessary and desirable to protect the public health, safety, and welfare and to reasonably control the City's rights-of-way by granting a permit to Western Tel-Com, Inc. subject to the conditions hereinafter set forth.

Now, Therefore, Be It Hereby Resolved, The City hereby approves of and ratifies issuance of the Permit to Western Tel-Com, Inc., attached hereto as Exhibit A, for access to and ongoing use of the locations in the public rights-of-way of the City of Detroit specified in the Permit, subject to the terms and conditions set forth in the Ordinance entitled Use of Public Ways by Telecommunications Providers and subject, without limitation, to the following conditions:

1. Payment of the Five Thousand Dollars (\$5,000) application fee.

2. Posting of a bond in the amount of at least Five Thousand Dollars (\$5,000) and in a form acceptable to the Law Department and which amount shall not exceed the reasonable cost to ensure that the Public Ways are returned to their original condition during and after Western Tel-Com, Inc.'s access and use.

Be It Further Resolved, That acceptance of the Permit by Western Tel-Com, Inc. constitutes an agreement that issuance of the Permit is not a waiver of

the City's right to enforce the Ordinance and Act 216 in any respect; and

Be It Further Resolved, That the Permit hereby approved and ratified shall not constitute approval of the transfer to Western Tel-Com, Inc. of any permits or authorizations granted by the City to others; and

Be It Further Resolved, The City in adopting this resolution and in approving the permit, has relied on information and materials submitted and provided by Western Tel-Com, Inc., and to the extent any such information or materials are deemed by the City to be false, inaccurate, incomplete, or misleading, then the City reserves the right to amend, rescind, modify or otherwise limit this resolution; and

Be It Further Resolved, That in addition to all rights provided in the Ordinance, City reserves all rights under its police powers and rights and powers conferred by Federal law, the 1963 Michigan Constitution, Michigan statutes and decisions, the 1997 Detroit City Charter, the 1984 Detroit City Code, and City ordinances which City is allowed to exercise, including the ability to amend the Permit from time to time; and

Be It Finally Resolved, That the City Council hereby waives reconsideration on this Resolution.

The enclosed Brownfield Plan for the Kales Building Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was jointly held by the Committee and the Authority on May 23, 2001 to solicit public comments. After receipt of public comments, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On June 5, 2001, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project introduction

The Kales building is located in the heart of the Grand Circus Park Historic District. The building was previously home to the corporate headquarters of the Kresge Corporation. Through an agreement with the City of Detroit, it is anticipated that the ownership of the building will be transferred to Kales Building, L.L.C. ("Kales") for redevelopment into approximately 82 high-rise residential units.

Purpose of the Proposed Plan

Under the proposed Plan and upon approval of this Plan by City Council, Kales will be entitled under state law to seek the approval of the Michigan Economic Growth Authority and the State Treasurer for a single business tax credit for up to 10 percent of its eligible capital investment in its project.

Property Subject to the Proposed Plan

The Plan is for the development of the Kales Building located at 76 W. Adams Street located in Detroit, Michigan.

Projected Costs

The proposed Plan anticipates the cost of the eligible activities for this project will be approximately \$629,600.00. The expense of these eligible activities is the responsibility of Kales.

This proposed Plan has been presented to the Planning Department's Concept Plan Review and DBRA received favorable recommendation for its approval. A copy of the recommendation letter dated May 31, 2001 is attached to the Plan.

Public Comments Received

The Committee's communication to the City Council and the Authority dated May 23, 2001 (Exhibit C), recommending approval of the Plan, including the minutes of the Committee's and the Authority's joint public hearing and the Committee's public meeting are enclosed for City Council's consideration.

At the public hearing, one (1) member of the public, Mr. Bradford Egan, requested to provide public testimony. Mr. Egan, who is involved in the project, stated he felt it was a great project for the City of Detroit and expressed his full support for the Project.

May 24, 2001

Honorable City Council:

Re: Subject: Request to Amend the 2001-2002 Official Compensation Schedule to Adjust Executive Branch Pay Bands A-F.

The Executive-Appointed Total Compensation Plan adopted by your Honorable Body effective April 1, 1997 calls for periodic pay structure review to ensure maintenance of the City's competitive market position. There was no adjustment to the Executive Branch pay structure for fiscal year 2000-2001 as was done for the Legislative Branch. However, analysis of current survey data indicates that a 3% adjustment to the pay ranges of the six-grade structure is in order for fiscal year 2001-2002.

The adjustments are in the table below.

Executive Appointed Total Compensation Plan

Recommended Pay Structure for 2001-2002 Fiscal Year

Grade	2000-2001 Range		2001-2002 Range	
	Minimum	Maximum	Minimum	Maximum
F	93,300	140,000	96,100	144,200
E	73,300	112,000	75,500	115,400
D	59,300	89,000	61,100	91,700
C	52,200	78,200	53,800	80,600
B	37,100	55,700	38,300	57,400
A	25,600	42,200	26,400	43,500

Changes in Executive Branch appointee salaries covered by this plan occur based on performance. Changes also occur, when appropriate, in cases of promotions and transfers to fill vacancies. No general across-the board increases shall be applied to the salaries of staff covered by the Executive Appointed Total Compensation Plan for the 2001/2002 fiscal year.

The Mayor's Office concurs with these adjustments and requests approval of the revised structure. Accordingly, this request is submitted to your Honorable Body to amend the 2001-2002 Official Compensation Schedule to incorporate the Executive-Branch pay structure changes. We further request that the above changes be approved with a waiv-

er of reconsideration.

Planning & Development Department

May 25, 2001

Honorable City Council:

Re: Programming Detroit Housing Commission.

The Planning and Development Department respectfully requests the authorization of your Honorable Body to reprogram \$367,000 of Community Development Block Grant funds from the Planning and Development Department (P&DD) to the Detroit Housing Commission. These funds were allocated to P&DD as part of the 2000-2001 budget to work in partnership with the Housing Commission to implement a Lead

Abatement program. Due to differences in the financial systems between the two departments, implementation of the program has proven to be a difficult task. Both departments believe that it will be in the best interest of the residents of the City of Detroit, who will be served by the program, that the \$367,000 be transferred to the Housing Commission for its sole administration.

Upon approval of this Resolution and transfer of the funds, the Housing Commission will assume responsibility for the reporting and administrative requirements as required by the Department of Housing and Urban Development (HUD).

Respectfully submitted,

Honorable City Council:

Re: Public Hearing on Request by Curis Enterprises, the Lombardo Companies, and the Planning & Development Department for Establishment of the Algonquin Neighborhood Enterprise Zone in Accordance with Public Act 147 of 1992.

The Planning & Development Department, in conjunction with the Assessments Division of the Finance Department, have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that approval of the above referenced request would be consistent with the Master Plan and the neighborhood preservation and development goals.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public

hearing must be held, and the City Clerk must provide written notice to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The proposed area is 142.45 acres in size. The boundaries are irregular, but may generally be described as the alley south of East Jefferson on the north, Clairpointe and the alley west of Tennessee on the west, Avondale and Freud on the south, and Kitchener, Continental, and Eastlawn on the east. Please see attached map for the exact boundaries.

Attached for your consideration, in addition to the aforementioned map, please find a copy of a resolution establishing a date and time for the public hearing together with a legal description of the proposed NEZ.

Respectfully submitted,
ERIC R. SABREE
 Deputy Director
 Planning & Development Department
WM. PATRICK RYDER
 Assessor
 Finance Department

By Council Member Cleveland:

Whereas, Michigan Public Act 147 of 1992, the Neighborhood Enterprise Zone (NEZ) Act ("the Act") provides for the establishment of Neighborhood Enterprise Zones; and

Whereas, Curis Enterprises, the Lombardo Companies, and the City of Detroit Planning & Development Department have requested that an NEZ be established for the Algonquin area, and the Planning & Development Department and the Finance Department — Assessments Division, after a review of the Master Plan and the neighborhood preservation and development goals of the City, recommend that the area specified in the attached legal description be designated an NEZ for new and rehabilitated facilities in accordance with the 10% acreage allowance provided under Section 3(5) of the Act; and

Whereas, An NEZ may not be established without a public hearing first being held, with notice of such public hearing provided to the assessor and governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ at least 60 days prior to passage of a resolution establishing the NEZ; now therefore be it

Resolved, That a public hearing be held by the Detroit City Council in the Committee Room, 13th floor of the Coleman A. Young Municipal Center on the 5th day of July, 2001, at 10:00 a.m. regarding designation of the above

described project as a Neighborhood Enterprise Zone, the legal description of the project being attached hereto.

DOWNTOWN DEVELOPMENT AUTHORITY

June 14, 2001

Honorable City Council:

Re: Downtown Development Authority FY 2001-2002 Budget.

Pursuant to Article 28, Act 197, as amended, we have prepared the attached FY 2001-2002 Downtown Development Authority's General Fund Budget.

The amount of funds available from the one mill tax for FY 2001-2002 has been estimated at \$780,000, net of collection delinquencies and reserves for tax settlements, reflecting a \$5,000 increase from the actual receipts for Fiscal Year 2000-2001. Transfer from the DDA's Tax Increment Fund of an amount of \$500,000 will remain level at the 1999-2000 allocation. The FY 2001-2002 budget reflects revenues of \$42,000 generated from the parking operations representing a \$42,000 decrease from FY 2000-2001 attributed to the 50% utilization of DDA's parking lots due to the construction of the Compuware and other projects. Service fees of \$70,000 represent payments from Detroit/Wayne County Stadium Authority to DDA for administrative costs of the Stadia Project. The \$70,000 decline results from the completion of the Comerica Park. Transfer from Fund Balance has been estimated at \$267,000 which is needed to offset the anticipated shortfall in revenue for FY 2000-2001. This amount represents an increase from FY 2000-2001 of \$263,000 since the majority of DDA's projected expenditures for Special Projects and Contingencies will be funded by prior year balances.

On the appropriations side, contractual services of \$987,000 show a decrease of \$70,000 from FY 2000-2001. This decrease reflects the DEGC contract decrease by \$70,000 for the 2001-2002 Fiscal Year. The budgeted amount of \$260,000 for professional services and fees, inclusive of a \$10,000 expense for Computer Support, reflects a \$21,400 increase from the 2000-2001 Fiscal Year primarily due to an increase in anticipated advertising/marketing and legal expenses. The FY 2001-2002 budgeted expenses of \$17,000 related to parking operations declined by \$17,000 from last year's expenses, as parking operations have been reduced. Finally, \$500,000 of allocated funds for Special Projects and Contingencies for FY 2001-2002 indicates a \$200,000 increase from last year.

We respectfully request City Council's approval of the attached budget at its June 20, 2001 meeting. A Waiver of Reconsideration is requested.

Should any member of the Council have any questions, please contact me at 237-4638.

RESOLUTION

By COUNCIL MEMBER MAHAFFEY
 Joined by ALL COUNCIL MEMBERS:

WHEREAS, The City Council went on record in 1995, and after, that the Vietnam Veterans of America should have the land on Woodward Avenue next to their building, in order to develop a park, a Veterans Memorial Park of Detroit. We are the only major city to lack such memorial, and

WHEREAS, When the Veteran's Memorial Building was leased to Ford and the UAW for a training center, it meant the loss of any recognition in the heart of the city of our war veterans other than the Soldiers and Sailors monument to the City War veterans. The City Council has

been very clear that this must be a priority and this is the only use of the land that the City Council accepts, and

WHEREAS, The arguments against it being there, are that a development is desired that will blend in with surrounding developments, that may mean more money to the city and that the people who come to the park might not be compatible with the development around the park. The City Council totally rejects such arguments. NOW, THEREFORE BE IT

RESOLVED, That the city issue a holding letter to the committee for a Veterans Memorial Monument and Park of Detroit composed of members of the Vietnam Veterans of America, and that they have a year in which to accomplish their activity. In valuable consideration of their services to maintain and secure this property for a period not less than five years, the land shall be made available for an additional amount not to exceed one dollar, plus actual costs for land transfer, recording of deed and preparation of documents not to exceed \$250. The land should be turned over to the Vietnam veterans for one dollar per lot.

Re: Request Authorization for Reprogramming of Bond Sale Proceeds to Support the Woodward/Mack Streetscape Enhancement Project — Planning & Development Department Bond Program (CPO #2544837, SPO #2544840) — \$1,400,000.00.

The Planning & Development Department (P&DD) respectfully requests the authorization of your Honorable Body to reprogram Two Hundred Thousand Dollars (\$200,000.00) from Appropriation

Number 00946 (Mid City — Bond) to Appropriation Number 00949 (Woodward Corridor — Bond) to permit the P&DD to allocate the funds required for this streetscape enhancement project. The total budget based upon cost projections prepared by the Detroit Building Authority is \$1,400,000.00. The original request approved by your Honorable Body on March 28, 2001 indicated that such funds would be available from the Woodward Corridor Bond Account; however the actual balance of this account is \$1,200,000.00. An additional \$200,000.00 is needed to remedy the deficit that currently exists and provide the necessary funding as identified by the preliminary cost prediction prepared by the Detroit Building Authority. Your approval of this reprogramming request will not only allow us to release payment to the Detroit Building Authority for the design work that has already been completed, it will allow Purchasing to encumber the remaining bond funds needed to process this contract.

This project represents a joint venture of the Planning and Development Department, Detroit Building Authority and the University Center Cultural Association. These improvements will greatly improve the Woodward Corridor through the upgrade of existing lighting with brighter decorative light fixtures, sidewalk improvements, landscaping and tree planting along the intersection of Mack and Woodward Avenues. This is the first phase of this Woodward enhancement initiative that will include future streetscape enhancement activities on Woodward Avenue from Mack Avenue to Warren Avenue. We believe that these aesthetic improvements will greatly strengthen this district for the redevelopment projects that are underway and projects that are currently in the conceptual phase.

The Department has identified one financing source which was originally created to fund capital improvement projects located in the Mid City Development Plan district. I am requesting that funds be reprogrammed from this bond fund because there is no expectation that these funds will be needed for project activities in the near future.

Furthermore, this first phase of the project is south of the original Development Plan boundaries; however as the project progresses north on Woodward, the investment of public funds will be within the boundaries as described in the urban renewal plan.

If you have any questions regarding this project, please contact Malinda Jensen of my staff at 224-4472.

Re: Division of Platted Property for 1703 Helen Street and 6925 St. Paul Street (Recommend Approval).

The Planning & Development Department (P&DD) recommends approval of the request of Warren Emerson (Assessors Invoice 01-5) to divide residential property at 1703 Helen Street and 6925 St. Paul Street.

Description

The property is more particularly described as Parcel A the westerly 53 feet of Lot 2 of the Mills Subdivision No. 2 and Parcel B Lot 2, except the westerly 53 feet of Lot 2, Mills Subdivision No. 2, City of Detroit, Wayne County, Michigan and is shown on the attached property survey and land use maps. The subject property is zoned R2 (Two Family Residential) and is developed with one single family home and one duplex residential structure. The division will clarify the property boundaries, property assessments, and land use relationship between the two residential structures on 1703 Helen Street and 6925 St. Paul Street.

Legal Basis for Review

The Planning & Development Department reviewed this request under City of Detroit Ordinance 421-G of April 17, 1969, Chapter 58A, Article 1, *Subdivision of Land*, of the *Detroit City Code* and Sections 45.0200, 43.0200, and 104.0000 of the *Official Zoning Ordinance 390-G*. A copy of Ordinance 421-G is included for reference.

Findings

A review of this request by the Finance Department, Assessment Division and the Law Department discloses that the property descriptions are accurate as listed and that the signatories have necessary interest in the subject property.

The Planning & Development Department's review involved 1) an investigation of water and sewer service in this area, 2) a study of vehicular and pedestrian access, 3) a review of Master Plan and zoning requirements, and 4) interviews with the petitioner.

Based on the aforementioned determinations and our review and analysis, the Planning and Development Department makes the following findings relative to this proposal:

1. The proposal meets the conditions of Section 1, Paragraph 3 of Ordinance 421-G as the property is presently developed and the proposed division creates parcels conforming to existing individual building units, and;
2. The proposal improves pre-existing conditions by legally clarifying the platting and property boundaries, property assessments, and the land use relationship between the two separate residential structures.
3. The proposal is consistent with the Master Plan of Policies. Recommended Future General Land Use for the subject area shown on the Butzel Subsector, East

Sector map is "RM" (Medium Density Residential).

4. The proposal increases the possibility of homeownership within this area by creating an additional ownership interest.

Recommendations

The Planning and Development Department recommends that this request for Division of Platted Property be approved as proposed and that the attached resolution relative to this Division be adopted.

Respectfully submitted,

PAUL A. BERNARD

Director

Division of Platted Property

Honorable City Council:

Re: Petition #2969 of Edward Stewart requesting alley vacation in the area of Pennington, San Juan, W. Seven Mile and Clarita.

The above-named petitioner has requested that the alley bounded by Pennington, San Juan, W. Seven Mile Road and Clarita be vacated and converted into an easement.

The above-referenced petition has been filed with the Detroit City Council by more than two-thirds of the abutting property owners, as required by the Detroit City Code, Article VI, Section 50-6-1. Our investigation of this petition disclosed the following:

1. The public utilities located in the alley can be properly serviced if this alley is converted into an easement.

2. That the alley is the sole means of ingress/egress for the petitioner to his garage.

3. The alley is not required for municipal services (trash collection).

4. No objections to this alley vacation have been received from the various utilities or City departments.

It is therefore the recommendation of the Planning and Development Department that this request be granted with conditions that will address the access needs of the petitioner. We support the installation of a gate at the open alley end so as not to create a dead end alley.

Respectfully submitted,
PAUL A. BERNARD
Director

By Council Member Hood:

Resolved, That part of the east-west public alley of the A. W. Chase Lincoln Highway Subdivision of W. Seven Mile bounded by Pennington and San Juan Streets which includes lots 9, 8, 7 and 1/2 of lot 6, as recorded in Liber 37, Page 81 of Wayne County Records, remain open and that the easterly 1/2 of lot 6 of the A. W. Chase Lincoln Highway Subdivision as recorded on liber 37, page 81 of Wayne County Records and lots 65 and 66 of the Scherers Hugo Seven Mile Drive W. as recorded on liber 42, page 76 of Wayne County Records be closed.

It is recommended that a gate be placed at the alley entrance at lot 9 and lot 204 of the A. W. Chase Lincoln Highway Subdivision.

Furthermore, lots 9. 204, 203, 202 and 148, as well as lots 205, 206. 207 and 208, of the A. W. Chase Lincoln Highway Subdivision as recorded on liber 37, page 81 of Wayne County Records. Lots 200, 198, 197, 196, 195, 194, 193, 192 and lot 148 of the A. W. Chase Lincoln Highway subdivision as recorded on liber 37, page 81, of Wayne County Records, bounded by W. Seven Mile, Clarita and San Juan, and lots 209, 210, 211, 212, 213, 214, 215, and 216 and 217 of the A. W. Chase Lincoln Highway Subdivision as recorded on liber 37, page 81 of Wayne County Records, bounded by Pennington, Clarita and W. Seven Mile is vacated subject to the following conditions:

1. The City reserves an easement for

utility and other purposes.

2. No building, structure, improvements or encroachments of any kind may be placed in the easement area without prior written consent of the City Engineering Division of the Department of Public Works (Including, but not limited to, fences, gates and pavements).

3. A gate to be placed at the alley entrance(s) so as to address a potential dead-end alley condition.

Resolved, That in accordance with MLC Section 560.256 and the City Code Section 50-7-4, the City Clerk is directed to record a certified copy of this resolution with the Wayne County Register of Deeds within 30 days after the effective date of this resolution.

 June 21, 2001
 Honorable City Council:
 Re: Petition No. 3513 — Amanda Com-

munity Development Corporation, requesting vacation of streets and alleys in the area of Lindsay, Biltmore, Outer Drive and Santa Maria.

Petition No. 3513 of "Amandla Community Development Corporation" requests to outright vacate certain streets and alleys all in the block bounded by Santa Maria Avenue, 60 feet wide, West Outer Drive, 150 feet wide, Lindsay Avenue, 60 feet wide, and Ferguson Avenue, 50 feet wide.

The request was approved by Planning and Development, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The Detroit Edison Company (DeCo) reports an estimated cost of \$28,000.00 for removing and/or rerouting services the petitioner has made satisfactory arrangements with the DeCo.

Comcast Cablevision reports an estimated cost of \$2,687.00 for removing and/or rerouting services provided that Comcast Cablevision pole(s) and line(s) along the north side of Santa Maria, within the proposed re-development site, is to remain, in order to maintain service to remaining customers. The petitioner has made satisfactory arrangements with Comcast Cablevision.

Michigan Consolidated Gas Company (MichCon) reports in order to abandon gas mains within the requested rights-of-way to be vacated, an estimated cost of \$3,501.00 for removing and/or rerouting such services is necessary. The estimated cost could increase depending on when the project begins. The petitioner has made arrangements with MichCon to cover the costs.

The Detroit Water and Sewerage Department (DWSD) reports there are existing water mains and sewers in the project area that serve the surrounding community and must therefore remain in service, however, DWSD has no objection provided provisions protecting remaining facilities are made a part of the resolution to City Council.

The Public Lighting Department (PLD) reports there are two overhead fed street lighting circuits and primary high voltage circuit in the project area. In order to vacate the requested streets and alleys, the PLD must relocate its overhead facilities and reroute the primary and street lighting circuits at petitioner's expense. Also, the overhead street lighting removals will be done without charge to the project, after the attached resolution has been approved by City Council. The petitioner has made satisfactory arrangements with the PLD to cover the costs of rerouting and/or removing PLD facilities.

The petitioner owns or controls all property abutting the rights-of-way to be vacated.

All other involved city departments and privately owned utility companies reported no objections to the requested outright vacations or that satisfactory arrangements have been made. Provisions protecting utility installations (if necessary) are part of the resolution.

An appropriate resolution is attached for consideration by your Honorable Body.

Historic Designation Advisory Board Addition to the Hubbard Farms Historic District

Final Report

By a resolution dated November 22, 2000, the Detroit City Council charged the Historic Designation Advisory Board, a study committee, with the official study of the proposed addition to the Hubbard Farms Historic District in accordance with Chapter 25 of the 1984 Detroit City Code and the Michigan Local Historic Districts Act.

The proposed addition to the Hubbard Farms Historic District adds the buildings on the five lots located on the south side of West Vernor Highway between West Grand Boulevard and 25th Street to the existing district. Two of the buildings face West Vernor and the others face 25th Street. All but the westernmost building were residential in use.

Boundaries: The properties included in the proposed addition share the historical and architectural significance of the Hubbard Farms Historic District. The boundaries of the Hubbard Farms Historic District with the proposed addition are as shown on the attached map and are as follows:

On the north, West Vernor Highway;
On the east, West Grand Boulevard and the south side of West Vernor Highway to the centerline of 25th Street;
On the south, West Lafayette Boulevard; and
On the west, Clark Street.

History:

The Hubbard Farms Historic District contains approximately 350 properties, most of which are residential. The five properties included in the proposed addition to the Hubbard Farms Historic District fall within the period of significance established for that district, ranging from 1870 to 1930. The Hubbard Farms Historic District was designated as a local historic district in 1984 and was certified as substantially meeting national register criteria by the National Park Service in 1993.

Hubbard Farms is located in southwest

Detroit, in the former Township of Springwells. Thomas Hubbard purchased the property from Whitmore Knaggs, a multi-lingual trader and interpreter for General Cass during the War of 1812, in 1835 for his son, Bela Hubbard. Bela Hubbard, a noted scholar of geography and geology, had an interest in landscape design. He was instrumental in the creation of West Grand Boulevard, contributing much of his own funds to its development. The land for the boulevard was donated to the City of Detroit by the State of Michigan, without building restrictions. As a result, single family dwellings had apartment houses and even some commercial buildings as neighbors. The five buildings in the addition were built on vacant land on the main street of an older neighborhood, demonstrating the need for new housing in the City of Detroit in the 1910's and 1920's to accommodate its growing population.

The five lots that are the subject of the proposal to add to the Hubbard Farms Historic District were all part of Bela Hubbard's Subdivision. All had associations with William R. Cole, beginning in 1892 when he purchased Lot 10 from Hubbard, and later the Martin family. Not much is known about Cole, except that he was a widower by 1919, and it can be presumed that there was some relationship between he and the Martins. Cole kept the lots until his death in 1931, leaving them all to Imogene Martin in his will. They remained in her name until her death in 1965. All of the buildings have had very few owners.

Description:

1. 3627 W. Vernor Highway

The one-story, "brick and tile factory" was completed in 1930 for John Martin, an auto body worker, at a cost of \$5,000 (building permit #69546, March 7, 1930). The Martin Body Works, an auto bump and painting shop, was added to and/or remodeled in 1936, 1937, 1945, and 1965. In 1984, the building was remodeled to repair fire damage. After that, Ray Martin sold the building and it became the Sparkle-lite glass shop. The most recent business occupying the building was a motor cycle repair and sales shop. The original building, set back on its lot, and its later additions, are utilitarian in appearance.

2. 3615 W. Vernor Avenue, Cole Apartments

The Cole was completed in 1924. The permit application (permit #35725, issued on April 30, 1924) indicated its estimated construction cost to be \$61,200. Mechanics liens were filed against Cole shortly after its construction; R.E. Hamilton's Sons, a concrete products and builders supplies establishment, was one of the claimants. The Cole's original tenants included a variety of middle and

upper middle class people, among them factory workers, such as Rex Salathe, a coremaker, and Richard Quick, a tool clerk; business people, including Jason Manlove, a car insurance salesman, and George Wood, a clerk at the Geoff Campbell grocery; and public officials, such as Ray Earl, a city police officer and Earl Jeremiah, an inspector. Other contemporary apartments buildings still standing in the area include the Wilshire, Savannah, and Harrington, all on West Grand Boulevard.

The Cole is a three and one-half story, red brick, Spanish-Moorish style, twenty-four unit apartment building with a forty foot wide front, 114 foot depth and forty foot height. Symmetrical in arrangement, the center of the front facade features a one-story stone entrance composed of stylized pilasters flanking an arch with the name, "COLE," on top. Three-part windows with stylized keystones and corner blocks are separated between floors by raised brick-framed panels with masonry corner blocks. The side elevations, beyond the decorative raised roof, are faced with common brick and exhibit a regular arrangement of windows.

3. 1739-55 25th Street

The first phase of this vernacular residential building was a four-unit structure constructed in 1913 for Mrs. Charles Martin, owner, on the middle portion of Lot 10, fronting on 25th Street. The permit for its construction was issued on November 10, 1913; its estimated cost was \$5,000. In 1919, two additional units connected with the original structure were constructed at the corner of 25th Street and West Vernor Highway at a cost of \$7,000. William Cole sold this property to Imogene Martin in 1919, only to buy the property back five years later. The original residents of the six-unit apartment building were of middle and upper middle class Detroiters. Charles McCarron was a locomotive engineer, Harry Hadden was an accountant at the Detroit News, and William Atkinson was a watchman, while William Van Zandt was in sales. Charles Martin, a switchman for the railroad, and William R. Cole were occupants of this building at various times.

The two attached buildings were originally accessed off of the 25th Street elevation. Subtle details of the building included the raised brick around the windows and cornice, and the stone water course. Large window openings with masonry sills face West Vernor Highway.

4. 1737 25th Street

This two-story, flat roofed, single-family brick building was completed in 1912 on the rear portion of Lot 10. Its entrance is on its north elevation, facing the multi-unit building forward of it on the lot. It has a simple porch with corner columns supporting a hipped roof. The windows are of

the double hung sash variety, not symmetrically arranged. The only detail on this vernacular building type is the raised brick framing with masonry corner blocks above the entrance.

William R. Cole, owner of this property, apparently rented it to various individuals. Charles Martin resided at this address, 457 25th Street (old number), soon after it was built. Clarence Harshman, a printer, lived there in 1917, and William C. Horen, a hammerman, occupied the building in 1924-25.

Criteria: The historic district with the proposed addition meets the first and third criteria contained in section 25-2-2: (1) Sites, buildings, structures, or archeological sites were cultural, social, spiritual, economic, political or architectural history of the community, city, state or nation is particularly reflected or exemplified; (3) Buildings or structures which embody the

distinguishing characteristics of an architectural specimen, inherently valuable as a representation of a period, style or method of construction.

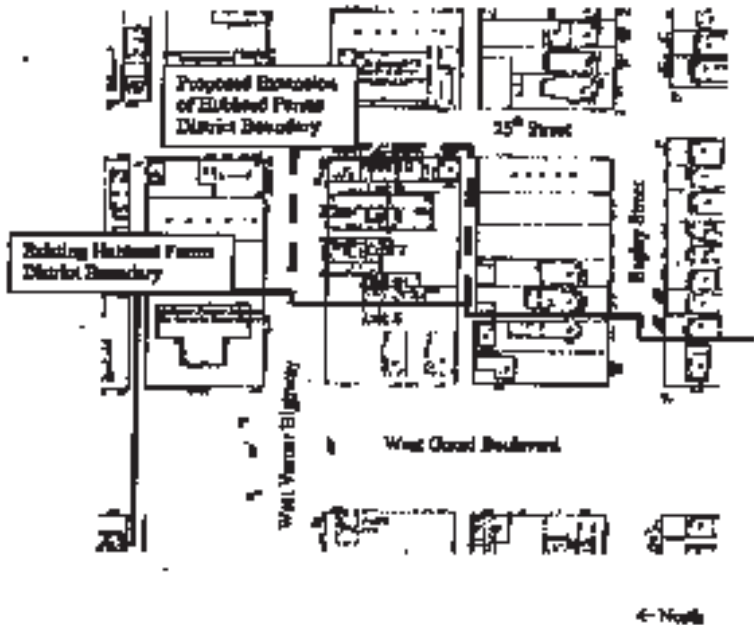

Recommendation: The Historic Designation Advisory Board recommend that City Council adopt an ordinance of designation for the proposed addition to the historic district. A draft of the amended ordinance is attached for City Council's consideration.

(d) The design treatment level of the Hubbard Farms Historic District shall be conservation, as provided for in Section 25-2-2 OF THIS CODE.

(e) The defined elements of design, as provided for in Section 25-2-2 OF THIS CODE, shall be as follows:

(1) *Height.* Commercial and institutional buildings range from one (1) story to four (4) stories in height; some have single stories with very high ceilings and balconies, such as Aijalon Church, the former bank building at 4138 W. Vernor, and Bowen Library. Buildings in Clark Park are generally one (1) or one and one-half (1 1/2) stories tall, with additional height in a steep roof. Residential buildings range from one and one-half (1 1/2) stories to five (5) stories, the smallest being the Workers Cottages seen primarily on Bagley and the tallest being the five-story

Whitel del Apartment Building on Porter and Hubbard. The majority of residential buildings are either two (2) or two and one-half (2-1/2) stories tall, meaning they have two (2) full stories with an attic or finished third floor within the roof. Where height specifications were included in the original subdivision restrictions, they should be complied with for new construction. Detached garages are generally one (1) to one-and-one-half (1-1/2) stories tall. Additions to residential structures shall be related in height to the existing structure; new buildings shall meet the following standards:

(A) The eight (8) adjoining structures on the same block face shall be used to determine an average height. The height of the two (2) adjoining houses shall be added into the total twice, with a divisor of ten (10) used to determine the average. Any new building must have a height of the main roof of at least eighty (80) percent (80%) of the resulting average; in no case shall a new building be taller than the tallest roof height included in the computation. In determining the heights of existing structures and proposed structures, the highest point of the main roof shall be used, even where towers, cupolas, or other minor elements may be taller.

(B) The level of the eaves of a proposed new residential structure having as much or more significance for compatibility as the roof height, an average eave or cornice height shall be determined by the same process as that described above. The proposed new structure shall have a height at the eaves, or cornice, of not less than ninety (90) ~~per cent~~ (PERCENT) (90%) of the average determined from existing structures, and in no case shall the eaves or cornice of the proposed structure be lower than the lowest eave or cornice height used in the computation, nor higher than the highest.

(2) *Proportion of building's front facades.* Proportion varies in the district, depending on type of building, age, style, and subdivision. Most single family houses are neutral to their eaves, although some are wider than tall and some taller than wide. Terrace buildings (rows) are wider than tall, although individual units are taller than wide or neutral. Apartment buildings are generally taller than wide or neutral. No proposed residential building or addition shall create a front facade narrower or wider than those existing on the same block. Commercial buildings on W. Vernor may be wider than tall, taller than wide, or neutral but when they abut other buildings they form a row that is wider than tall. Bowen Library is wider than tall, as is Western High School and Earhart Middle School on Scotten. The Clark ~~St.~~ STREET facade of Maybury School is neutral. Aijalon Church is wider than tall when taken as a whole.

(3) *Proportion of openings within the facade.* Proportion varies according to building type, age, and style. Generally, window openings in the district are predominantly taller than wide; several windows are frequently grouped into combinations wider than tall. Window openings are most often subdivided, the most common window type being double-hung sash, whose area is generally further subdivided by muntins. Queen Anne style buildings and special use buildings, such as Aijalon Church at 330 W. Grand Boulevard, display windows that may be wider than tall, arched, or square. In general, buildings have between fifteen (15) percent (15%) and thirty-five (35) percent (35%) of their area glazed.

(4) *Rhythm of solids to voids in front facades.* Window openings are usually regularly arranged by floor, although there is most often variety between floor levels. In the Queen Anne and Richardsonian Romanesque style buildings, openings are often irregularly arranged. In buildings derived from classical precedents, voids are usually arranged in a symmetrical and evenly-spaced manner within the facade. In bungalows and arts and crafts influenced buildings, large areas of voids are filled with windows. Many of the residential buildings have dormers or gables that are fenestrated.

(5) *Rhythm of spacing of buildings on streets.* The spacing of buildings is generally determined by the setback from the side lot line. There is a variance in the width of lots from subdivision to subdivision. In general, residential and commercial buildings are spaced close together as a result of their narrow lot width and/or maximized building size. Single/two family houses are centered between side lots or are sited very close to one (1) side lot line to provide additional space on the other side. Infrequently, two (2) lots are grouped together, creating a side lot. On Vernor and elsewhere where buildings have been demolished, the continuous line or rhythm of buildings is disrupted.

(6) *Rhythm of entrance and/ or porch projections.* Placement of entrance and porch projections vary from building to building, usually depending on type, size and style. In general, a great variety of porches and entrances characterize Hubbard Farms. In those examples of classical inspiration, entrances and porches tend to be centered on the front facade or balance each other if there are more than one, as on terrace buildings and duplexes. Other examples display more freedom in entrance and porch placement. Secondary entrances are common; Italianate houses and small Queen Anne cottages frequently have small side porches. Porches on houses built around the turn of the century tend to be large, sometimes stretching along most of the first

story, while English and arts and crafts influenced buildings tend to have deemphasized entrances. Where similar houses line a block a rhythmic progression of porches is created. Most of the houses in the district have rear porches.

(7) *Relationship of materials.* Brick and wood are the primary building materials originally used. Brick buildings may have pressed brick front facades with common brick sides and rears. Many wood frame buildings are clad in clapboard. While most buildings have brick foundations, some foundations are of stone. Buildings originally built on wood piers originally had wooden skirting. A few buildings were built of concrete block. Wood trim is most commonly used for window, porch, and functional elements as well as decorative trim; some lintels and sills also exist. Stucco with or without half-timbering is either the main building material or combined with brick on a few English revival and arts and crafts style houses. Front porch step materials are either wood or concrete. Brick of the more substantial buildings, such as Aijalon Church and Maybury and Western High Schools, is contrasted with stone foundations, trim and detail. Earhart Middle School is cast concrete. A small number of original slate roofs are present; the majority of original roofing materials have been replaced by asphalt shingles.

(8) *Relationship of textures.* A variety of rich textural relationships exist in the district — those created by the juxtaposition of various materials, such as brick, stone, stucco, and/or wood, and those created by the repetition of the materials themselves, such as clapboard, wood fish scale shingles or decorative brick. Slate roofs created textural interest, whereas asphalt shingles generally do not. Textured concrete block houses built in the early twentieth century have a large degree of textural interest.

(9) *Relationship of colors.* Natural brick colors (red, brown, orange, buff) predominate on brick wall surfaces. Stucco is usually cream, off white, or pale yellow in color. Wooden elements display a variety of colors, depending on what is appropriate for their style. In general, wooden elements of buildings derived from classical precedents, such as the Neo-Georgian or Colonial revival, are painted in the white-yellow-gray range, while wooden elements of Victorian buildings show more freedom, ranging from shades of rose to green, sometimes with a contrasting color highlighting the architectural detail. Wooden elements of bungalows and arts and crafts influenced buildings tend to be painted in earth tones. Asphalt shingle roofs display a range of colors, from natural slate colors and black to lighter shades of green, gray, brown and red. The original colors of any building, as deter-

mined by professional analysis, are always acceptable for that building, and may provide suggestions for similar buildings.

(10) *Relationship of architectural details.* Architectural details generally relate to style. Colonial revival buildings display classical details, often in wood. Porches are commonly treated and usually have columns of a classical order. Buildings of Victorian substyles also tend to have details of wood located around the entrance, porch, windows, bays, towers, and dormers. Lathe-turned and jig-saw cut wooden elements and details are common. Prairie and arts and crafts style buildings tend to be simply stated, with architectural interest derived from the arrangement of elements and quality of design. In general, the Hubbard Farms District is extremely rich in architectural detail.

(11) *Relationship of roof shapes.* Most every roof type is represented in the district, from flat roofs on terrace buildings and commercial buildings to hipped, pitched, and gambrel roofs on single-family residences. Roof shapes are generally related to style. Bungalows, arts and crafts influenced and Prairie style houses have shallow roofs; Queen Anne and other Victorian substyles exhibit greater heights, intersecting planes and steep slopes.

(12) *Walls of continuity.* The major wall of continuity is created by the front facades of the buildings, where there are uniform setbacks within subdivisions. Trees planted between the sidewalk and the curb create a secondary wall of continuity.

(13) *Relationship of significant landscape features and surface treatments.* The Hubbard Farms District is defined by the curbless, graded grass turf islands in the center of West Grand Boulevard on the east and Clark Park, a major public park, on the west. The northern half of Clark Park is landscaped and graded for passive recreational use. Its widening black asphalt paths are lined with modern black steel slighting standards. Picnic shelters, modest playground equipment and mature and more recently planted trees are located on the northern half. The southern half is occupied by more active recreational facilities, such as tennis courts, basketball courts, a playscape, and a large playfield enclosed by a chain-link fence. The typical treatment of individual properties is a flat or graded front lawn area in grass turf, often subdivided by a straight or curved concrete walk leading to the front entrance. Foundation plantings are of the evergreen and/or deciduous nature; a tree or two (2) are usually planted in the front yard as well. On those parts of streets with graded tree lawns, particularly on the southern ends of

Vinewood and Hubbard, concrete steps lead up to the sidewalk from the curb. Tree lawns between the curb and public sidewalk are generally narrow throughout the district, and do not exist on Vernor. On Hubbard and Vinewood, the original flagstone curbs still exist; elsewhere, curbs are concrete. Because of the narrow lot sizes, there are few side driveways in the neighborhood, and where they exist, they were added after the initial development of the neighborhood. Where there are no driveways or front yard fences, there is a continuous visual progression of front yards. On the western side of the southern end of Hubbard to the rear of Earhart School on Scotten, there is no alley; houses backing on the school have front-facing garages accessed by driveways off of Hubbard. The majority of fences are of the chain link variety; four (4) foot chain-link fenced front yards are seen throughout the district but to a lesser degree at the south end of Hubbard and Vinewood. Rear yards are frequently enclosed by chain link, wood plank, or stockade fencing. A few houses have black wrought iron fences. Few houses have hedges along the lot lines. Chain-link fencing encloses the playfields to the south of Western High School and the Earhart School parcel. The parking lot to the north of Western High School is bermed and has tall steel lighting standards within. Street lights throughout the district are on wooden poles, with the exception of the tall steel light poles with modern lanterns on West Vernor and tall fluted standards with crane-neck pendants and old style lanterns on West Grand Boulevard. Some home owners have installed uniform outdoor lighting standards in their front yards in recent years. Alleys are either concrete or black asphalt; the north-south alley between West Grand Boulevard and Vinewood from Shady Lane to Porter is brick-paved.

(14) *Relationship of open space to structures.* The major open space is Clark Park, which has houses facing it across north-south streets, commercial buildings across Vernor, and Fisher Freeway to its south. The wide grassy islands in the center of West Grand Boulevard provide significant open space to those buildings facing it. The siting of most residential buildings on their lots create rear yards as well as front yards, the exceptions being those buildings situated on zero (0) lot lines, such as the commercial buildings on Vernor, YMCA on Clark, the Yorba Hotel on Lafayette, and Terrace Buildings, on side streets. Because of the minimal setback of some Terrace Buildings, apartment buildings, and houses on the east-west streets, some front yards are very shallow. Side lots are minimal if they exist, unless a vacant lot is joined with the house lot. While some vacant lots exist

throughout the district, large vacant parcels are usually located on Vernor between commercial buildings to provide parking on Lafayette, where demolition occurred due to the construction of the Freeway, leaving irregularly shaped parcels, and on corners, where Terrace Buildings have been demolished. A planted area on the southwest corner of Lafayette at West Grand Boulevard makes an entrance into the district; a grass turf open space is located at the northeast corner of Scotten and Lafayette just south of Earhart Middle School.

(15) *Scale of facades and facade elements.* Houses are generally small to moderate in scale. Facade elements and details vary in scale and are generally dependent on style. Detail on arts and crafts influenced buildings tends to be architectural ARCHITECTONIC in nature; on Victorian Buildings decorative detail tends to be small in scale while facade elements, such as bays, dormers and towers, are large in scale. Classically influenced buildings tend to have large scale elements, such as columns.

(16) *Directional expression of front elevations.* In general, directional expression is neutral, due to inform heights and narrow lots. On Vernor, where commercial buildings are contiguous, the overall directional expression is horizontal HORIZONTAL.

(17) *Rhythm of building setbacks.* Setbacks of front facades are uniform within subdivisions, with few exceptions, although porch projections vary. Houses on the first block of Clark south of W. Vernor and the first block of Clark north of Lafayette have irregular setbacks. Apartment buildings located on corner lots and within blocks on Hubbard are located closer to the front lot line than individual homes, creating inconsistency to the streetscape. On Vernor, facades ARE located directly on the front lot line. On the side streets, such as Bagley and Porter, setbacks are shallow but usually consistent.

(18) *Relationship of lot coverage.* Lot sizes vary within the district, but are generally consistent within subdivisions. Primary buildings on residential lots occupy twenty-five (25) PERCENT (25%) to ninety (90) percent (90%) of their lots. The deep lots with single family houses on Hubbard are at the low end and lots occupied by large apartment buildings, Terrace Buildings (rows), and duplexes on side streets are at the high end of that range. Commercial buildings on West Vernor occupy most of their lots; lot coverages of institutional buildings vary due to the addition of adjoining lots to original parcels but they generally occupy a high percentage of their lots.

(19) *Degree of complexity within the facade.* The degree of complexity has been determined by what is typical and

appropriated for a given style. The classically inspired buildings usually have simple, rectangular facades with varying amounts of ornamentation. The Victorian substyles tend to be more complex, complicated by towers, gables, and decorated porches. The arts and crafts and bungalow style houses are not complex.

(20) **Orientation, vistas, overviews.** The main streets in the district run north-south; Vernor Highway is the major commercial thoroughfare and runs east-west. The secondary streets: Bagley, Porter, Clark Court and Lafayette, run east-west. Fisher Freeway forms an emphatic southern boundary. Terrace Buildings (row) are frequently oriented towards the east-west streets but may have one (1) or more units facing the north-south street at the corner. Lafayette jogs to accommodate modifications made when the Fisher Freeway was constructed; Fisher Freeway forms an emphatic southern boundary to the district. From the Freeway, the Yorba Hotel sign provides a visual landmark in the neighborhood.

(21) *Symmetric or asymmetric appearance.* Classically inspired buildings are generally symmetrical; other styles are generally asymmetric but result in balanced compositions.

(22) *General environmental character.* The Hubbard Farms District appears as a late-nineteenth, early twentieth century neighborhood that grew as a street car suburb off of a busy commercial thoroughfare (Vernor). Its mixed use and multidensity character survives to this day. The area was designed with visual and recreational amenities, such as the grassy treed and graded islands in the middle of West Grand Boulevard and Clark Park. The neighborhood is generally well maintained and intact today, although the commercial thoroughfare is showing signs of decline.

Section 2. All ordinances, or parts of ordinances, that conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Detroit.

Section 4. In the event that this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter. Where this ordinance is passed by less than a two-thirds (2/3) majority of City Council Members serving, it shall become effective no later than thirty (30) days after enactment in accordance with Section 4-115 of the 1997 Detroit City Charter.

Honorable City Council:

Re: Status of Petition No. 3613 — Kmart Corporation, requesting outright vacation of Shiawassee Road north of West 7 Mile Road to Telegraph Road.

The petition was referred to the City Engineering Division — DPW (CED) on April 18, 2001 for investigation (utility review) and report. During CED's initial investigation it was determined from drawings provided by the petitioner, that land deeded to the City of Detroit (March 19, 1986; J.C.C. pgs. 505-07) for a new street turnaround at the Bonnie Brook

Golf Club south property line was incorporated into the boundary of the proposed project site. After, conversation with the Regional Development Manager of the Kmart Corporation adjustments to the original area of investigation had to be made.

The CED is currently completing its review of that part of Shiawassee Road (converted to easement March 19, 1986; J.C.C. pgs. 505-07) to be vacated. All utility companies, to date, have not yet completed their investigations. Due to the urgency of this project CED intends to pursue, expeditiously, the involvement of concerned agencies and prepare the appropriate resolution for your Honorable Body's consideration.

If there are any other concerns, please do not hesitate to contact James Foster at 313-224-3970 or myself for any questions that you or your staff may have.
