Re: North Industrial Rehabilitation Project Development: Parcel 2 & 3 and 1481 Woodland.

On September 12, 2000, a public hearing in connection with the proposed transfer of property in the North Industrial Rehabilitation was held before your Honorable Body. All interested persons and organizations were given an opportunity to be heard.

Brimar Corporation, a Michigan Corporation proposes to purchase and develop the captioned property as a gravel parking lot for the amount of Twenty Six Thousand and 00/100 Dollars (\$26,000.00). This site measures approximately 26,094 square feet.

The North Industrial Rehabilitation Project Development Plan presently shows that a portion of the lot to be sold to Brimar Corporation is to be reserved for the construction of a cul du sac for Woodland Avenue at the Grand Trunk Railroad Right-of-Way. At the conclusion of that hearing on September 12, 2000, Brimar Corporation was required to petition the Board of Zoning Appeals (BZA) for a grant of a minor deviation from the approval Development Plan for the North Industrial Rehabilitation Project in order to delete the cul de sac and obtain the approval of this sale by your Honorable Body.

This minor deviation from the Development Plan for the North Industrial Rehabilitation Project was granted by the Board of Zoning Appeals on August 30, 2001.

The proposed redeveloper has submitted satisfactory evidence that they possess the necessary financial resources required to develop land in accordance with the Development Plan for the project.

We, therefore, request that your Honorable Body authorize and confirm the sale and authorize the Finance Department Director to execute an Agreement to Purchase and Develop Parcels 2 & 3 and 1481 Woodland in the North Industrial Rehabilitation Project with Brimar Corporation, a Michigan Corporation, for the amount of \$22,200.00.

Economic Development Corporation of the City of Detroit

November 2, 2001

Honorable City Council:

Re: Village at Woodward Project Plan.

By way of background, the City of Detroit Planning and Development Department ("P&DD") issued a Request for Proposals (the "RFP") on June 18, 2001 for the development of a site located just north of the Central Business District and approximately one-quarter mile from the Fox Theatre District, Comerica Park and Ford Field. The proposed site is bounded by Sibley on the south, Charlotte on the north, Park on the west and Woodward on the east.

The RFP called for a mix of complementary uses including but not limited to office, hotel, residential, retail, restaurant and institutional. P&DD eventually selected Village of Woodward L.L.C. (the "Developer"), a Michigan limited liability company consisting of Sterling Group, Schostak Brothers & Company, Melvin "Butch" Hollowell, Walter C. Watkins, Jr., W. Anthony Jenkins, and Reverend Edgar Vann, Jr., to be the developer of the site. The Developer has proposed a mixed-used development including residential loft and townhome/brownstone units, retail shops and extensive streetscape improvements.

On October 16, 2001, the Board of Directors of the Economic Development Corporation of the City of Detroit (the "EDC") adopted a Resolution requesting your Honorable Body to designate the Project District Area and the Project Area for the Project pursuant to Act 338, Public Acts of Michigan, 1974, as amended ("Act 338"). Moreover, pursuant to Section 4(2) and 4(3) of Act 338, the EDC requested the Mayor to appoint two additional Directors to the EDC Board who shall serve for the duration of the Project and who will be representative of neighborhood residents and/or business interests

likely to be affected by the Project. Subsequently, on October 24, 2001 your Honorable Body approved the establishment of the Project District Area and the Project Area and confirmed the Mayor's appointment of two additional Directors to the EDC Board.

Pursuant to Act 338, the EDC has prepared a Project Plan, which sets forth the pertinent details regarding the Project including but not limited to the location of the proposed Project, the description of the existing and proposed site improvements, the estimated time of completion and the proposed method of financing. The Project Plan was approved by the EDC Board of Directors on November 1, 2001.

The EDC hereby submits the attached Project Plan (Exhibit A) to your Honorable Body for review and consideration and respectfully requests the following subsequent actions:

November 7, 2001

Line item the Project Plan and Resolution setting Public Hearing.

November 7, 2001

Adopt attached Resolution setting Public Hearing (Exhibit B).

November 19, 2001

Hold Public Hearing on the Project Plan.

November 21, 2001

Adopt Resolution approving the Project Plan and Land Transfer Resolution (to be provided by P&DD).

If you have any questions or concerns, please do not hesitate to contact me at 237-4638.

PROJECT PLAN OF THE ECONOMIC DEVELOPMENT CORPORATION OF THE CITY OF DETROIT FOR THE VILLAGE AT WOODWARD PROJECT

A. Provide the location and extent of existing streets and other public facilities within the development area and designate the location, character, and extent of the categories of public and private land uses now existing and proposed for the project area, including residential, recreational, commercial, industrial, educational, and other uses. Attach a legal description of the project area as Exhibit A.

The project area is bounded generally by Charlotte to the north, Sibley to the south, Woodward to the east, and Park to the west. This parcel is bisected by Sprout and Temple Streets. Currently, there are no public or private uses of the property within the project area. The project area consists of mostly vacant land, with the exception of one abandoned structure and three commercial buildings. As more particularly

described below, the proposed use for the project area is a mixed-use development consisting of residential brownstone/townhouse style units, extensive streetscape improvements and retail. Legal descriptions for the parcels in the project area are provided under Exhibit A-1.

B. Provide a description of existing improvements in the project area to be demolished, repaired, or altered, a description of repairs and alterations, and an estimate of the time required for completion.

The project area includes mostly vacant land, which will be altered to accommodate the proposed new mixed-use development inclusive of parking, landscaping, access, and park settings. The commercial building located on 66 Sibley, which formerly housed Film Craft Laboratory as well as the abandoned residential structure located at 48 Sproat will be demolished in connection with the project. It is contemplated that the location of existing streets and public improvements will be maintained. Certain alleys will be improved with landscape treatments and converted to parking courtyards and pocket parks. The current estimate of time for completion of the project is set forth in Section D below.

C. Provide the location, extent, character, and estimated cost of the improvements including rehabilitation contemplated for the project area and an estimate of the time required for completion.

As set forth above in Section A, the project area is located just north of the vibrant entertainment and central business districts and south of the cultural, medical and university districts.

The project will restore the urban fabric and density of the neighborhood by offering high quality, multi-story brick townhouses and architectural styling that fits the historic context of the surrounding area. New structures will be constructed displaying the scale, massing and detailing that will complement the remnants of the architecture that still exists in the area.

The project will feature loft style buildings along the Woodward Avenue frontage with large storefront window treatments and ground floor entrances open to the sidewalk. It is contemplated that the loft style buildings will contain approximately 96 loft apartments with windows and balconies facing Woodward Avenue on the east side and the planned pocket parks on the west side.

Approximately 84 townhouse units will line the existing street grid and enclose the planned streetscape improvements. The units will be multi-storied and will be constructed with materials and architectural details indicative of the historic character of the area. Behind the townhomes will be landscaped parking areas, court-

yards, and pedestrian ways, which link to pocket parks and the Woodward Avenue retail shops.

The project will also feature linear rows of canopy street trees, low shrubs, flowering trees, and grassed areas. Traffic calming elements such as sidewalk bump-outs, on street parking and tighter turning radii are contemplated throughout the project area in order to emphasize the pedestrian environment.

It is anticipated that the retail component of the project will be located in the buildings planned along Woodward Avenue with on street parking and a surface parking courtyard in the rear. It is contemplated that approximately 50,000 square feet of retail space will be realized within these buildings. It is anticipated that the planned retail space will feature various offerings such as a deli, coffee shop, drug store, dry cleaners, bank, restaurant/bar, etc.

The project will cost approximately \$33 million to complete. See Section D below for completion schedule.

D. Provide a statement of the construction or stages of construction planned and the estimated time of completion of each stage.

It is anticipated that from commencement of design to completion of construction will last approximately 36 months. The contemplated phasing is summarized as follows:

Phase I: 18 months

- A) Finalize site design and complete site due diligence and analysis.
- B) Obtain commitments from retail tenants and commence pre-leasing loft units.
- C) Obtain commitment for project financing, zoning and site plan approvals.
- D) Prepare construction drawings for retail/loft buildings and townhouse units.
- E) Obtain all requisite building permits to commence construction.
- F) Perform environmental remediation

Phase II: 18 months

- A) Site preparation and construction of infrastructure improvements.
- B) Construction of retail/loft buildings and townhouse units.

E. Provide a description of the parts of the project area to be left as open space and the use contemplated for the space.

A large portion of the project area will be open space inclusive of landscaped areas, sidewalks, courtyards, outdoor cafes, and pocket parks.

F. Provide a description of the portions of the project area which the corporation (EDC) desires to sell, donate, exchange, lease to, or from the municipality and the proposed terms.

The City of Detroit acting through its Planning and Development Department (P&DD) will transfer the city owned

parcels in the project area (see Exhibit B) to the EDC. The EDC will subsequently convey title to the Developer pursuant to the terms and conditions of a development agreement by and between the EDC and the Developer for the price of One Hundred Thousand and 00/100 Dollars (\$100,000.00). The Developer is contributing the land that it owns and/or controls within the project area, which is valued at more than \$3.6 million. Moreover, the City of Detroit stands to realize other valuable consideration including the creation of over 300 construction jobs and approximately 125 permanent jobs. Also, it is anticipated that the project will bring over 300 new residents to the area, which will significantly stimulate the City's tax base. Further, the development will feature a wide array of retail offerings, which will serve the needs of the residents as well as create spin off development opportunities for additional residential and commercial developments in the surrounding areas.

G. Provide a description of the desired zoning changes and changes in streets, street levels, intersections, and utilities.

Certain alleys within the project area may be vacated. The project area is currently zoned B4 — General Business. However, if it is determined that the planned uses would not comply with the City's zoning ordinance, then the requisite approvals from the appropriate City departments and agencies of jurisdiction will be necessary, including possible rezoning.

No changes to street levels and intersections are contemplated. It is anticipated that certain alleys will be vacated, improved with landscape treatments for parking courtyards and pocket parks. It is not contemplated that private utilities will have to be relocated in connection with the project. The public utilities in the alleys, to the extent that they exist, may have to be relocated or abandoned in place.

H. Provide a statement of the proposed method of financing the project and the ability of the corporation (EDC) to arrange the financing.

The project is estimated to cost approximately \$33 million to complete. The project will be financed through a combination of the Developer's equity and conventional construction and term mortgages with local banks.

I. Please list the persons who will manage or be associated with the management of the project for a period of not less than one year from the date of approval of the project plan.

Honorable City Council:

Re: Departmental Recommendation Residential Alley Vacation Petition Numbers: 0131, 0383, 1287 and 1420.

The above-referenced four (4) petitions requesting residential alley vacation have been reviewed by the Planning and Development Department (P&DD). These petitions were initially to be presented to your Honorable Body at the Public Hearing of September 25, 2001. However, in response to the public hearing notice, objections were received that required the follow-up of P&DD. Upon further investigation, we discovered that substantive reasons exist that support denying each of the four (4) petitions, thus leaving these alleys open.

The Detroit City Code, Article VI, Section 50-6-3 requires that the P&DD transmit a report of its findings to your Honorable Body. Our findings in each of the four petitions, as summarized below, disclosed that property access was a substantive concern.

PETITION #0131: Conversion of the alley bounded by LaSalle, John C. Lodge,

Normandy and Pilgrim. Objections were received from three property owners on LaSalle. Field investigation confirmed that these and other residents do not have front driveway access to their properties.

PETITION #0383: Conversion of the alley bounded by Van Buren, Burnette, Julian and Livernois. Though only one objection was heard, field investigation confirmed that there were several garages that do require rear access via the alley.

PETITION #1287: Conversion of the alley bounded by W. Grand Boulevard, Woodrow Wilson, Bethune and Kipling. Field investigation indicated that garage access is through the alley.

PETITION #1420: Conversion of the alley bounded by Novara, Monarch, Liberal and Queen. One objection received. Field investigation revealed that several properties require rear alley access.

Therefore, since the alleys cited above are the sole means of access to abutting properties, the Planning and Development Department recommends that Petitions #0131, #0383, #1287 and #1420 be denied.

Respectfully submitted,
PAUL A. BERNARD
Director

By Council Member Hood:

Resolved, That Petitions #0131, #0383, #1287 and #1420 have been submitted to the City requesting that four (4) residential alleys be vacated and converted to easements.

Upon review of the above four (4) referenced petitions, the Planning and Development has found that the residential alleys are the sole means of access to abutting properties.

Resolved, That Petitions #0131, #0383, #1287 and #1420 that these four (4) alleys be left open.

A waiver of reconsideration is requested.

Adopted as follows:

Planning & Development Department
October 2, 2001

Honorable City Council:

Re: Departmental Recommendation Residential Alley Vacation Petition Numbers: 0243, 0358, 0527, 0671, 0704, 0763 (0011), 1283, 1389, 1445, 1566, 1613, 1619, 1778, 2131, 2240, 2311, 2421, 2522, 2560, 2823, 3625, and 4121.

The above-referenced twenty two (22) petitions were presented by the Planning and Development Department (P&DD) for

consideration at a Public Hearing before your Honorable Body on September 25, 2001.

Thirty-five (35) petitions were originally scheduled for this public hearing. Four (4) petitions were withdrawn. Under separate cover, P&DD will be forwarding a report to your Honorable Body recommending that these four (4) petitions be denied and that the alleys remain open. Eight (8) petitions were partial alley vacations that were withdrawn because the City Council requested that the Department of Public Works and Planning and Development meet to ensure that both departments are comfortable with the partial vacation recommendations. A complete report on these partial alley vacation petitions will be prepared for your Honorable Body. One petition was referred to P&DD for further follow up. The balance of twenty-two (22) petitions are those referenced above for which the City Council supported the recommendation of P&DD. Attached, herewith, is the resolution that will enable the City Council to take formal action causing the vacation of the twenty-two referenced petitions.

The above-referenced petitions have been processed in compliance with the Detroit Code, Article VI, Section 50-6-1. Our investigation of each of these petitions discloses the following:

1. The public utilities located in the alley can be properly served if this alley is converted into an easement.
2. That the alley does not serve as the sole means of ingress/egress to abutting properties.
3. No objections to this alley vacation have been received from any utilities or City Departments.

Therefore, it is the recommendation of the Planning and Development Department that the attached resolution be approved.

Respectfully submitted,
PAUL A. BERNARD
Director

ORDINANCE

By Council Member Tinsley-Talabi:

AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-139 to establish the Lower Woodward Avenue Historic District, to establish conservation as the design treatment level for the district, and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II, of the 1984 Detroit City Code be amended by adding Section 25-2-139 to read as follows:

AVENUE; THENCE SOUTHEAST ALONG THE CENTERLINE OF SAID ALLEY TO ITS INTERSECTION WITH THE CENTERLINE OF EAST GRAND RIVER AVENUE; THENCE SOUTHWEST ALONG THE CENTERLINE OF EAST GRAND RIVER AVENUE TO ITS INTERSECTION WITH THE CENTERLINE OF WOODWARD AVENUE; THENCE SOUTHEAST ALONG

THE CENTERLINE OF WOODWARD AVENUE TO THE POINT OF THE BEGINNING (LEGAL DESCRIPTION: LOTS 17-19, 24-39, PLAT OF SECTION 8, GOVERNOR & JUDGES PLAN, LIBER 34 OF DEEDS, PAGE 543; LOTS 22-32, PLAT OF SECTION 7, GOVERNOR & JUDGES PLAN, LIBER 34 OF DEEDS, PAGE 544.)

(D) THE DESIGN TREATMENT LEVEL OF THE LOWER WOODWARD AVENUE HISTORIC DISTRICT SHALL BE CONSERVATION AS PROVIDED FOR IN SECTION 25-2-2(3) OF THIS CODE.

(E) THE DEFINED ELEMENTS OF DESIGN, AS PROVIDED FOR IN SECTION 25-2-2 OF THIS CODE, SHALL BE AS FOLLOWS:

(1) *HEIGHT.* BUILDING HEIGHTS IN THE LOWER WOODWARD AVENUE HISTORIC DISTRICT ARE NOT UNIFORM. THEY RANGE FROM ONE (1) STORY TO THIRTY-FOUR (34) STORIES, MOST RANGING BETWEEN FOUR (4) AND EIGHT (8) STORIES TALL. THE FEW ONE (1) AND TWO (2) STORY BUILDINGS TEND TO BE LATER ADDITIONS TO THE STREETSCAPE. THE THIRTY-FOUR (34) STORY EATON TOWER, ON THE CORNER OF WITHERELL AND WOODWARD AVENUES, IS THE TERMINUS ON THE EAST SIDE OF WOODWARD AT GRAND CIRCUS PARK. ALTHOUGH NOT LOCATED IN THIS HISTORIC DISTRICT, THE DAVID WHITNEY BUILDING, ON THE CORNER OF WOODWARD AND PARK AVENUES, PROVIDES THE SAME TERMINAL FUNCTION ON THE WEST SIDE OF WOODWARD AVENUE.

(2) *PROPORTION OF BUILDINGS' FRONT FACADES.* PROPORTION VARIES IN THE DISTRICT, DEPENDING ON THE SIZE OF THE BUILDING, ITS PERIOD OF CONSTRUCTION, AND ITS STYLE. ALL OF THE INDIVIDUAL BUILDINGS THAT CONTRIBUTE TO THE DISTRICT ARE TALLER THAN WIDE, BUT, WHEN TAKEN AS A WHOLE, RESULT IN AN UNBROKEN, CONTINUOUS, COMMERCIAL STREETSCAPE. WHERE INDIVIDUAL BUILDINGS ARE CONNECTED TO ADJACENT BUILDINGS AT THE LOWER LEVELS, THE PROPORTIONAL RELATIONSHIP OF THE FACADES IS ALTERED, RESULTING IN THE IMPRESSION THAT THE COMBINED BUILDINGS APPEAR WIDER THAN TALL AT THE LOWER LEVELS. WHERE BUILDINGS OCCUR ON CORNER LOTS, THEIR VISIBLE SIDE ELEVATIONS MAY APPEAR WIDER THAN TALL.

(3) *PROPORTION OF OPENINGS WITHIN THE FACADES.* LARGE, SQUARE STOREFRONT WINDOWS AND ENTRANCE BAYS LINE THE

GROUND FLOOR OF MOST BUILDINGS ALTHOUGH MANY ARE COVERED WITH TEMPORARY BOARDS, METAL GUARDS, OR GATES, MASKING THEIR VISIBILITY. INDIVIDUAL WINDOW UNITS ABOVE THE GROUND FLOOR ARE USUALLY TALLER THAN WIDE BUT ARE FREQUENTLY GROUPED IN OPENINGS THAT ARE AS TALL AS WIDE OR WIDER THAN TALL. TYPICAL GROUPINGS INCLUDE THE "CHICAGO-STYLE" WINDOW COMPOSED OF A LARGE CENTRAL LIGHT BETWEEN TWO NARROWER LIGHTS, ROWS OF TWO (2) OR THREE (3) SIMILARLY SIZED WINDOWS, AND PAIRS OF WINDOWS. OPENINGS CONTAINING MORE THAN THREE (3) WINDOW UNITS ALSO EXIST. TRANSOM WINDOWS ARE COMMON ABOVE BOTH SINGLE AND GROUPED WINDOWS, AS WELL AS STOREFRONT WINDOWS. GROUPINGS IN ARCHED CONFIGURATIONS EXIST AT THE UPPER FLOORS OR MEZZANINE LEVEL OF SOME OF THE OLDER BUILDINGS IN THE DISTRICT. DOUBLE-HUNG SASH ARE PREVALENT, WITH PIVOT WINDOWS AND OTHER SINGLE-PANED TYPES PRESENT. WINDOWS ARE FREQUENTLY SUBDIVIDED BY MUNTINS. NON-ORIGINAL MATERIALS ON THE FACADES, WHERE THEY EXIST, OFTEN OBSCURE THE ORIGINAL PROPORTIONS OF OPENINGS WITHIN THE FACADES. CONSEQUENTLY, AREAS OF VOIDS ARE APPROXIMATE, AND ORIGINALLY RANGED FROM APPROXIMATELY ONE-THIRD (1/3) TO TWO-THIRDS (2/3) OF THE FRONT FACADE AREAS OF CONTRIBUTING BUILDINGS.

(4) *RHYTHM OF SOLIDS TO VOIDS IN FRONT FACADES.* OPENINGS WITHIN THE FACADES ARE GENERALLY REGULARLY ARRANGED, HORIZONTALLY BY FLOOR AND VERTICALLY BY BAY, DUE TO THE CLASSICAL STYLISTIC DERIVATION OF MOST OF THE BUILDINGS AND THEIR STEEL FRAME AND CURTAIN WALL CONSTRUCTION.

(5) *RHYTHM OF SPACING OF BUILDINGS ON STREETS.* ALL BUILDINGS COMPRISING THE LOWER WOODWARD AVENUE HISTORIC DISTRICT OCCUPY THEIR FULL LOT AND ABUT EACH OTHER, RESULTING IN A CONTINUOUS STREETScape.

(6) *RHYTHM OF ENTRANCE AND/OR PORCH PROJECTIONS.* THE ORIGINAL ARRANGEMENT OF STOREFRONT WINDOWS AND RECESSED ENTRANCES CREATES A PATTERN ALONG THE STREET. THE PLACEMENT OF ORIGINAL ENTRANCES ON INDIVIDUAL FACADES IS NOT CONSISTENT, BUT IS DEPENDENT ON THE WIDTH OF THE BUILDING AND THE NUMBER OF RETAIL SPACES

ENTERED FROM THE STREET. BUILDINGS ON CORNERS SOMETIMES HAVE CORNER ENTRANCES RECESSED AND ANGLED BEHIND A CORNER POST. THE ENTRANCE TO THE WASHINGTON ARCADE/HIMELHOCH BUILDING AT 1545 WOODWARD IS DEEPLY RECESSED BENEATH A BROAD ARCH THAT PROVIDES ACCESS TO DISPLAY WINDOWS ON EITHER SIDE. NO FACADE PROJECTIONS BEYOND THE FRONT LOT LINE EXIST INTO THE PUBLIC RIGHT-OF-WAY.

(7) *RELATIONSHIP OF MATERIALS.* BUILDING MATERIALS COMMON TO EXTERIOR SURFACES IN THE DISTRICT ARE LIMESTONE, BROWNSTONE, BRICK, CAST IRON, AND TERRA-COTTA. WINDOW FRAMES AND MULLIONS ARE OF WOOD, CAST IRON, OR STEEL, WHILE SASH ARE OF WOOD OR STEEL. METAL SPANDRELS ARE COMMON. MATERIALS USED FOR MODERNIZATION INCLUDE ONE OR MORE OF THE FOLLOWING: STAINLESS, ENAMELED OR PORCELAIN STEEL; GRANITE; AND GLASS. METAL FIRE ESCAPES AND DECORATIVE WINDOW GRATES ARE VISIBLE ON SOME SIDE ELEVATIONS.

(8) *RELATIONSHIP OF TEXTURES.* THE LOW RELIEF PATTERN OF MORTAR JOINTS IN BRICK, JUXTAPOSED WITH SMOOTH MASONRY TRIM, WHERE IT EXISTS, PROVIDES TEXTURAL INTEREST. GLAZED BRICK, GLAZED TERRA COTTA, AND LARGE GLASS SURFACES ARE SMOOTH IN TEXTURE. CARVED AND/OR MOLDED REPETITIVE ORNAMENTAL DETAIL IN TERRA COTTA OR MASONRY CONTRASTS WITH THE SURFACE MATERIAL, PROVIDING A HIGH DEGREE OF TEXTURAL INTEREST. SUBDIVIDED WINDOWS, PATTERNED SPANDRELS, AND CORNICES WITH REPETITIVE DETAIL, WHERE THEY STILL EXIST, ARE OFTEN AREAS OF TEXTURAL INTEREST. IN GENERAL, THE DISTRICT IS RICH IN TEXTURAL RELATIONSHIPS.

(9) *RELATIONSHIP OF COLORS.* THE MAJORITY OF BUILDINGS IN THE LOWER WOODWARD HISTORIC DISTRICT ARE IN A LIGHT COLOR RANGE. WITHIN THIS RANGE, MOST FACADES ARE WHITE OR LIGHT BEIGE TERRA COTTA, WHILE SOME ARE LIMESTONE, AND/OR BUFF BRICK. RED BRICK, TERRA COTTA, AND SANDSTONE ALSO EXIST. WINDOW FRAMES TEND TO BE PAINTED IN DARK TONES, SUCH AS BLACK OR DEEP GREEN.

(10) *RELATIONSHIP OF ARCHITECTURAL DETAILS.* ARCHITECTURAL DETAILS GENERALLY RELATE TO ARCHITECTURAL STYLES. LATE NINE-

TEENTH AND EARLY TWENTIETH CENTURY BUILDINGS EXHIBIT ROMAN ARCHES, CARTOUCHES, FLUTED PILASTERS, ROSETTES AND OTHER CLASSICALLY DERIVED DETAILS. WHERE THEY STILL EXIST, CORNICES ARE RICHLY ORNAMENTED WITH BRACKETS AND TRIM; WHERE CORNICES HAVE BEEN REMOVED, PLAIN SURFACES HAVE REPLACED THEM. OTHER AREAS OF THE FACADE THAT ARE FREQUENTLY ORNAMENTED INCLUDE SPANDRELS BENEATH WINDOWS AND BETWEEN ARCHES, TOPS OF PILASTERS, AND STRING COURSES. STOREFRONTS TYPICALLY HAVE APRON WALLS AND TRANSOMS.

(11) *RELATIONSHIP OF ROOF SHAPES.* NONE OF THE ROOFS IN THE DISTRICT ARE VISIBLE FROM STREET LEVEL.

(12) *WALLS OF CONTINUITY.* THE MAJOR WALL OF CONTINUITY IS CREATED BY THE CONTINUOUS ROW OF ABUTTING BUILDINGS WITH UNIFORM SETBACKS. TREES PLANTED IN SIDEWALK GRATES AND UNIFORMLY PLACED HISTORIC STREET LIGHTS CREATE SECONDARY WALLS OF CONTINUITY.

(13) *RELATIONSHIP OF SIGNIFICANT LANDSCAPE FEATURES AND SURFACE TREATMENTS.* THE MAJOR AREA OF SURFACE TREATMENT IS THE PUBLIC SIDEWALK IN FRONT OF THE BUILDINGS AND THE ROADBED OF WOODWARD AVENUE, BOTH OF WHICH WERE REPAVED IN THE EARLY 1980'S. CLOSE TO THE BUILDING LINE IS A CONCRETE SIDEWALK OF STANDARD WIDTH; SQUARE REDDISH-ORANGE AND BROWN PAVERS SET DIAGONALLY EXTEND TO THE GRANITE CURBS. SOUTH OF GRAND RIVER AVENUE ARE RED AND GRAY AREAS OF PAVERS ON THE STREET. NORTH OF GRAND RIVER, THE STREET IS CONCRETE WITH LANES MARKED WITH GRANITE PAVERS. ALONG THE SIDEWALK ARE TREES PLANTED IN METAL SIDEWALK GRATES, CLUSTERS OF ROUND PLANTERS OF UNPOLISHED GRANITE OR PEBBLE AGGREGATE IN DIFFERENT SIZES AND HEIGHTS, WASTE RECEPTACLES, AND WATER FOUNTAINS OF THE SAME MATERIAL. WOOD BENCHES AND STEEL AND GLASS BUS STOPS EXIST NORTH OF GRAND RIVER AVENUE. TRAFFIC LIGHTS ARE OF MODERN STEEL AND REACH OVER THE STREET. DOUBLE ORNAMENTAL PENDANT STREET LIGHTING STANDARDS (#4229 STEEL STANDARDS) ARE PAINTED BLACK. MODERN POLES WITH A FIVE-GLOBE ARRANGEMENT ARE ON THE SIDE-STREETS.

(14) *RELATIONSHIP OF OPEN SPACE TO STRUCTURES.* THE MAJOR OPEN SPACE IS STREET AND SIDEWALK IN FRONT OF THE BUILDINGS.

(15) *SCALE OF FACADES AND FACADE ELEMENTS.* INDIVIDUAL BUILDING FACADES RANGE FROM SMALL IN SCALE TO LARGE, WITH THE MAJORITY BEING THE MODERATE RANGE. DETAILS WITHIN INDIVIDUAL FACADES RANGE FROM SMALL TO MODERATE IN SCALE; THE REPETITION OF SMALL SCALE DETAIL IS COMMON. SIGNAGE IS OFTEN PLACED ABOVE THE GROUND FLOOR STOREFRONT WINDOWS, OFTEN IN A PANEL DESIGNED FOR SUCH PURPOSE, AND IS LARGE IN SCALE.

(16) *DIRECTIONAL EXPRESSION OF FRONT ELEVATIONS.* INDIVIDUAL BUILDINGS ARE VERTICAL IN DIRECTIONAL EXPRESSION, AN IMPRESSION REINFORCED BY THE REPETITION OF TALL, VERTICAL, ARCHITECTURAL ELEMENTS THAT DEFINE BAYS. THE BUILDINGS, WHEN TAKEN AS A WHOLE, FORM AN UNBROKEN HORIZONTAL STREETSCAPE.

(17) *RHYTHM OF BUILDING SETBACKS.* A CONSISTENCY OF BUILDING SETBACK CREATED DUE TO THE SITING OF ALL BUILDINGS ON THE FRONT BUILDING LINES THROUGHOUT THE DISTRICT.

(18) *RELATIONSHIP OF LOT COVERAGES.* ALL OF THE BUILDINGS OCCUPY THEIR ENTIRE LOTS.

(19) *DEGREE OF COMPLEXITY WITHIN THE FACADES.* THE DEGREE OF COMPLEXITY RANGES FROM VERY SIMPLE TO MODERATELY COMPLEX.

(20) *ORIENTATION, VISTAS, OVERVIEWS.* THE VISTA LOOKING NORTH OR SOUTH IS OF A SINGULAR, INTACT STREETSCAPE DEFINED BY THE WALL OF HISTORIC BUILDINGS THAT CREATES A CANYON EFFECT. THE REPETITION OF VERTICAL ARCHITECTURAL ELEMENTS THROUGHOUT THE DISTRICT, SEEN FROM EITHER END, CREATES AN OVERALL RHYTHM AND TEXTURE TO THE ENTIRE DISTRICT. ALL OF THE BUILDINGS ARE ORIENTED TOWARD WOODWARD AVENUE; THE BUILDINGS ON CORNER LOTS MAY HAVE SECONDARY ENTRANCES ON THE SIDE STREETS. AT ITS NORTHERN END, THE DISTRICT CULMINATES WITH TWO (2) SKYSCRAPERS, ONE (1) ON EACH CORNER, AND THE OPEN SPACE OF GRAND CIRCUS PARK. THE ELEVATED PEOPLE MOVER TRACK INTERFERES WITH THE VISTA AT THAT NORTHERN END OF THE DISTRICT. THE STREETSCAPE SOUTH OF THE DISTRICT IS LESS INTACT, WITH NEW CONSTRUCTION ON THE EAST SIDE OF THE

Honorable City Council:

Re: Address: 2250 14th. Name: Robert Ruscoe. Date ordered removed: July 5, 2001 (J.C.C. pp. 1949-1950).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on August 31, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 12, 2001.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition ordered be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. You will not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Honorable City Council:

Re: Address: 14245 Fordham. Name: Ogunyinka Y. Ogunleye. Date ordered removed: September 17, 2001 (J.C.C. p.)

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 29, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of October 2, 2001.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition ordered be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. You will not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Respectfully submitted,

Re: Petition No. 2087. Neighborhood

No. 1 CityHomes Project — Street
and Alley Vacations, Easements and
Public Street Names containing the
Phase Three Parcels in the area
bounded by Meadowbrook, St. Jean,
Freud and E. Jefferson; also naming
all dedicated public streets in the
Project Plan.

City Council adopted a Project Plan for
the Neighborhood Development Corpora-
tion Project No. 1 on March 20, 1998. That
Plan provides for public street and alley
modifications. City Council adopted a res-
olution on April 25, 2001 approving the
public right-of-way adjustments within the
"Phase One Parcels." City Council adopt-
ed a resolution on August 1, 2001 approv-
ing the public right-of-way adjustments
within the "Phase Two Parcels." This part
of Petition No. 2087 for the Neighborhood
Development Corporation Project No. 1
requests public street and alley vacations,
and easements for the remaining area
bounded by Meadowbrook, St. Jean,
Freud and E. Jefferson Avenues. The
attached resolution contains the public
right-of-way adjustments required to con-
struct within the "Phase Three Parcels."

The petition was referred to City
Engineering Division — DPW for investi-
gation and report. This is our report:

Traffic Engineering Division — DPW
approved the public street closing(s).

The Project Plan calls for underground
burial of public utility services. Ameritech
Company, Detroit Edison Company and
Comcast Cablevision reviewed the
Project Plan. Necessary provisions pro-
tecting certain utility installations are part
of the resolution.

The Water and Sewerage Department
(DWSD) condition their approval of the
Project Plan on ten stipulations (listed in
the attached resolution) for Petition No.
2087. Seven existing easement(s) cross-
ing private property used for sewage
transport and/or public street drainage
into Beniteau, Lillibridge, Fairview and
Meadowbrook must be vacated and extin-
guished.

All other involved city departments and
privately owned utility companies report-
ed no objections to the outright vacations.
Provisions protecting certain utility instal-
lations are part of the resolution.

All dedicated public streets for the
Project Plan are named in the resolution;
selected and approved by the Planning
and Development Department.

I am recommending adoption of the
attached resolution.

HISTORICAL BACKGROUND FOR THE PUBLIC STREET NAME "LISETTE AVENUE"

Elizabeth Denison Forth, known as **Lisette**, was born around 1787 within the boundaries of the [post of Detroit, then part of Upper Canada. William and Catherine Tucker held the Denison family in bondage. While Elizabeth's parents, Hannah and Peter Denison, Sr., were freed after the death of William Tucker, their children remained slaves.

In 1807, a lawsuit requesting the freedom of the Denison children was filed against Tucker's widow. While Judge Augustus B. Woodward ruled in favor of the youngest Denison child, the older children were to remain slaves. In October of the same year another opinion stated that slaves who traveled to Canada in search of their freedom and later returned to the Michigan Territory, would remain free. As a result, Lisette and her brother went to Canada and eventually returned to Michigan as free individuals.

In 1827, Lisette married Scipio Forth, who ran a freight business between Detroit and Pontiac. Some time later, Lisette took up residence at 14 Macomb, on the edge of the Detroit business district. Lisette owned land in Detroit and Pontiac. Additionally, with the advice of Detroit area notables such as Elijah Brush, Solomon Sibley, John Biddle, and Charles Trowbridge, she purchased stock in the steamboat MICHIGAN.

Upon her death in 1866, a portion of Lisette's estate was given to her family and the rest assigned to build a church for the poor. Thus Elizabeth Denison Forth, a former slave, provided the initial funding for the building of St. James Episcopal Church, located on Grosse Isle. Today, the church serves as the chapel for a much larger church built in 1958. The chapel doors are dedicated to Lisette. — from *Black Historic Sites in Detroit* by The Black Historic Sites Committee, © The Detroit Historical Department, January 1989.

Budget Department

November 9, 2001

Honorable City Council:

In 1969, 1973, and again in 1993, when it became evident that there would be a change of City administrations following an election, the City of Detroit provided a modest sum of money to finance a transition office. This office was officially known as the Interim Office of the Mayor-Elect.

Following the past practice, I am recommending an amount sufficient to operate a small office for six weeks. A hypothetical budget is attached based on costs similar to our City costs. Discretion can be permitted on specific application of these funds so long as the overall limitation is not exceeded.

The following resolution will provide \$90,000 for this purpose. It will also require appropriate record keeping and will authorize review by the Auditor General. Any payments to current City employees will be prohibited, and a complete report on actual spending will be provided to City Council on or before March 31, 2002.

By adopting the following resolution, your Honorable Body will assist in eliminating much of the uncertainty attendant to a change in administration, and will allow the new Chief Executive to form an administrative team that is prepared for

aggressive leadership on the same date that the oath of office is administered. Requesting Waiver of Reconsideration.

City of Detroit Executive Office

November 19, 2001

Honorable City Council:

Re: Five Proposed Ordinances to Amend Chapter 27 of the 1984 Detroit City Code Titled 'Human Rights', and Chapter 13 of the 1984 Detroit City Code Titled 'Civil Service and Personnel Regulations' Concerning Domestic Partnerships.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced ordinances are being submitted to your Honorable Body for consideration. The first establishes a registry for domestic partnerships, while the remaining four provide benefits regarding sick and funeral leave; the hospital, surgical, and death benefit plan; the employees' group insurance protection plan; and hospitalization and surgical benefits for duty connected disability retirees.

These proposed ordinances are the product of the Domestic Partnership Taskforce. The Task Force was established by City Council resolution which was joined in and adopted by all Council Members on July 12, 1995.

The resolution provided that the Taskforce would formulate a domestic partnership ordinance. The passage of these proposed ordinances will fulfill the mission of the Taskforce as memorialized in the resolution.

As a matter of courtesy, I was forwarded a copy of these proposed ordinances which I submitted to the Law Department for review. The Law Department has completed its review and the Corporation Counsel has approved the ordinances as to form.

On behalf of Council President Pro Tem Maryann Mahaffey, who I understand is unavailable today, I am transmitting these proposed ordinances which are requested to be introduced at the next Adjourned Formal Session and be scheduled for Public Hearings before the end of your term. The Law Department is available to answer any technical questions that you may have concerning the text of these proposed ordinances.

Thank you for your consideration.

Respectfully submitted,

DENNIS W. ARCHER

Mayor

City of Detroit Policy on Banners on Public Lighting Poles October 10, 2001

The City of Detroit will allow on its light poles only banners that promote or celebrate the City, its civic institutions, or public activities and events in the City. The City's public lighting poles will **not** be used for commercial advertising or for promoting any political or social advocacy organization or political message.

Section 1: Definitions.

“**City Banner**” shall be defined as a banner or series of related banners sponsored by the City of Detroit, any of its operating departments, boards, commissions, bureaus, and authorities.

“**Community Banner**” shall be defined as a banner, or series of related banners, which promotes civic pride in a local community or residential business district and which is not a purely commercial enterprise and where the proceeds, if any, will directly benefit a charitable, non-profit organization, religious, or community-based organization or business association. Community banners include, but are not limited to, banners to promote or to celebrate a church anniversary, neighborhood or community-based activity or event, or to promote civic pride.

“**Non-Profit Banner**” shall be defined as a banner, or series of related banners, sponsored by an organization which is incorporated or otherwise organized as a non-profit organization pursuant to the Internal Revenue Code Section 501(C)(3) and where the proceeds, if any, will directly benefit either a charitable, non-profit or religious organization.

“**Business District Banner**” shall be defined as a banner, or series of related banners, which promotes civic pride in a business district located in the greater downtown area which is not a purely commercial enterprise. Business districts include, but are not limited to, the following: Central Business, Cultural Center, New Center Area, Rivertown, Harbortown, Greektown, and Mexicantown. Additional areas may be added where appropriate.

“**Special Event Banner**” shall be defined as a banner or series of related banners promoting a special event to be held in the City of Detroit which due to its unique, significant, and/or national importance would further enhance the image of Detroit as a most desirable place to reside, visit, and conduct business. Examples of special events could include events such as Van Gogh, Stanley Cup, World Series, NFL Playoffs, etc. Sports seasons or cultural events would not in and of themselves qualify under this category. There may be some special considerations for attractions, and these will be considered on a case-by-case basis.

“**Holiday Banner**” shall be defined as

banners acknowledging or celebrating the Holiday season beginning no sooner than November 1st and ending no later than January 2nd of any given year. The City reserves the right to designate poles for Holiday banners in the Central Business District, or other greater downtown business districts, as appropriate, from November 1st through January 2nd.

Section 2: Permit Required.

No person or entity shall install, place, or affix or attach a banner on any property within the City of Detroit without first obtaining a permit. Public lighting poles and the public right-of-way are owned and controlled by the City of Detroit only. Permission to hang banners granted by banner permittees or entities other than City authorized agencies will not be honored by the City.

Section 3: Application Process.

Persons seeking approval for a banner permit must complete a Banner Permit Application Form and provide required attachments. The Banner Permit Application Form is available at the City Clerk's Office, Neighborhood City Halls, and Consumer Affairs Department. Banner permit applications are to be submitted to the Consumer Affairs Department.

An application for a banner permit shall be made jointly by the organization requesting banners and the commercial entity installing the banners. The banner permit application must be submitted a minimum of 60 days prior to the requested installation date. The application must include a clear replica of the proposed banner or banners, including any text and/or graphics for each proposed installation. One application may include a number of locations, provided that the applicant submits replicas of all different banners proposed along with a drawing indicating location of the poles for banners.

Banner permit applications must include the name of the applicant organization, any sponsoring corporation or organization, the purpose of the banners, a detailed description of the graphics and text on the banners, the period of time for which the banners will be displayed, and a list and/or map of the specific pole locations for the banners.

Applicants seeking a permit should include the following items in the banner permit application package:

- Completed banner permit application form
- Signed and dated indemnity agreement (Attachment A)
- Signed and dated maintenance and removal agreement (Attachment B)
- Copy of certificate of insurance
- Sketch, drawing, or actual sample of the banner to be displayed
- Listing and/or map of the specific locations for the banners

- \$100 non-refundable permit fee
- A refundable deposit in the amount specified in Section 4 of the policy to be held in escrow presented to the Consumer Affairs Department prior to the issuance of a banner permit

Banner permit application packages will be reviewed for **completeness** by the Consumer Affairs Department. Banner permit application packages that are determined to be incomplete will be sent back to applicant without being considered.

Banner permit applications that request banners on poles along State of Michigan trunk lines or Wayne County roadways require the approval of the City of Detroit, the State of Michigan and/or Wayne County. Except for special event banners (which due to unique, significant, and/or national importance would further enhance the image of Detroit as a most desirable place to reside, visit, and conduct business [see Section 1 for a more thorough definition]), banner requests involving State trunk lines or County roadways must be submitted a minimum of 180 days prior to requested installation date.

Section 4. Application Fee and Refundable Deposit.

All fees shall be used to fund the activities of the Department of Public Works and the Public Lighting Department directly related to the administration and enforcement of City's laws, rules, and regulations governing the placement of street banners within the City of Detroit. The application fee shall be received by the Consumer Affairs Department.

A one hundred dollar (\$100) **non-refundable application fee** for all banner permit requests shall be required with the submission of the application. The non-refundable application fee shall not be waived or refunded under any circumstances.

A **refundable deposit** for all banner permit requests shall be required upon approval of banner design and installation permit and will be held in escrow for the duration of the application process and permit, if issued. A five hundred dollar (\$500) refundable deposit will be required for applications requesting to hang up to 5 banners. A one thousand dollar (\$1,000) refundable deposit will be required for applications requesting to hang 6 or more banners. The refundable deposit shall cover costs incurred by the City to remove banners remaining 72 hours after the approved display period expires, to inspect banners whenever appropriate, and/or to repair City light poles should damage occur. If the expense of removal or repair exceeds the amount of deposit, the excess amount shall be collected from the person/entity to which the permit was issued.

Section 5: Permit Approval.

Provided that an application for a permit to install street banners meets the eligibility requirements of this policy and is approved by the Detroit City Council, a permit authorizing the installation of the requested banners shall be issued, as long as the required insurance policy, fees and deposits have been submitted and accepted by the Consumer Affairs Department.

The number of banners to be installed and the location of each banner shall be approved by the City of Detroit Department of Public Works Traffic Engineering Division, the Public Lighting Department, the Planning and Development Department and the Detroit City Council. Banner permits are approved on a first-come, first-serve basis.

Section 6: Permit Duration.

City banners sponsored by a City operating department, board, commission, bureau, or authority for City administered programs and/or events can be displayed for a period as determined by the inter-departmental banner permit application review board.

Community banners to promote community identification and pride sponsored by a non-profit community-based organization can be displayed for 90 days. The permit, at the discretion of the City, may be renewed or extended for an additional 180 days to a maximum of 270 days in a 12-month period provided no other requests have been received for the light poles and subject to payment of renewal fees for each renewal period (see Section 7).

Non-profit banners can be displayed for up to 90 days within a 12-month period with the possibility of permit renewal. The permit, at the discretion of the City, may be renewed or extended for an additional 90 days to a maximum of 180 days in a 12-month period provided no other requests have been received for the light poles and subject to payment of renewal fees for each renewal period (see Section 7).

Permits for **special event** banners will be based on the duration of the special event. Special event banners can be displayed a maximum of 30 days prior to the starting date of the event and must be removed within 72 hours of the closing date of the event.

Permits for **Holiday** banners will start no sooner than November 1 and end no later than January 2 of any given year.

After expiration of a **permit**, or should the banner change in any way, an organization would need to submit a new banner application to the Consumer Affairs Department.

For all types of banners, permit duration must comply with State and County guidelines.

Section 7: Renewal Process and Fees.

Renewals must be submitted a minimum of 20 calendar days prior to the expiration date of the banner permit. The renewal application form must be submitted along with a twenty-five (\$25) renewal request fee that will be assessed for each renewal request. Renewals will be considered on a first-come, first-serve basis, provided that no other requests have been received and/or approved for the light poles.

Section 8: Banner Design.

Street banners shall not exceed thirty (30) inches in width by ninety-four (94) inches in height and should be acrylic or vinyl with standard slitting (also called "happy faces").

Hardware shall be designed as not to cause damage to the light pole. The hardware shall be attached with stainless steel bands and fasteners. The banner shall be affixed to allow a minimum of fifteen (15) vertical feet clearance from the walkway surface.

Commercial advertising is strictly prohibited on all banners, including telephone numbers, mailing addresses, and website addresses. If a business sponsors the cost of the banner(s) for a non-profit organization and wishes to be identified, the designation of the sponsor (including all graphics and/or text) shall be placed on the bottom of the banner in a space no more than ten (10) inches in height and thirty (30) inches in width with letter size limited to four (4) inch maximum and placed within this space. Banners with business sponsorship must include the words "sponsored by" preceding the sponsor information within the 30 inch by 10 inch space.

Two banners will be allowed on a single pole only if a double-banner design is being proposed or if both banners have the same design. Two banners unrelated in design or content will not be allowed under any conditions.

Banners may not include messages pertaining to the following:

- Tobacco and related products
- Alcoholic beverages
- Firearms
- Adult Entertainment and sexually explicit products
- Political campaigns or related agendas
- Advertising a product

Horizontal banners, including banners hung across a street, are not permitted.

Once the banner has been approved, no changes shall be made, including but not limited to, text, graphics, size, etc. without the City's written approval. If changes are made without City's written approval, the City reserves the right to withdraw the approval to hang banners and recover the cost of removal from the sponsor.

Section 9: Installation, Maintenance and Removal.

Installation

Banner placement must be a minimum of 120 feet or every other pole apart, whichever is greater, including banners that may exist at the time of installation. Banner installation shall be limited within the poles that may have banners to a two thousand (2,000) foot radius area of event location or within the stated organization boundaries. Petitioner shall not remove existing banners of other groups under any circumstances.

Every street banner must be installed and maintained so as to the safe at all times. Banners shall be displayed on the designated and approved Public Lighting Department light poles only. Banners shall not be attached to any traffic control device, on historically designated light poles, or as to obstruct visibility of signs and signals that may be attached to other light poles or supports. Banner permits will not be issued for poles that are not owned by the City.

The permittee shall hire a professional company to install and remove the banners and hardware (i.e., arms only, not the casting that is affixed to the pole) in accordance with the conditions of the approved permit and at no cost to the City.

Maintenance

During the initial permit period and subsequent renewal period, applicants shall be responsible for inspecting banners and poles, replacing and/or removing banners that are torn, defaced or in general disrepair, including rigging.

Removal

Upon expiration of a permit, all street banners covered thereby must be removed by the permittee within seventy-two hours (72) of expiration unless a renewal is granted. Any street banner not removed may be removed by the City without notice to the permittee. In addition, where any street banner presents an immediate threat of harm to the public health, welfare or safety, the City shall summarily cause its removal. The City reserves the right to have any banner removed by the permittee at no cost of the City if it is determined to be obstructing traffic controls.

If the City removes banners either because they present an immediate threat, are in disrepair, are obstructing traffic controls, or because the permit has expired, the permittee will forfeit a portion or all of the \$1,000 refundable deposit in order to cover the City's costs for banner removal. If there is a remaining balance, it will be refunded to the permittee.

In such cases when the City removes banners there is no guarantee that the banners can be reclaimed by the sponsoring organization.

If the expense of removal exceeds the \$1,000 deposit, the excess amount shall be collected from the person/entity to which the permit was issued.

Section 10: Indemnification.

No permit shall be issued hereunder unless the applicant and/or commercial entity installing the street banners has on file with the City a satisfactory policy of insurance so conditioned as to insure the City, its officers and employees against any loss, cost, expense, injury, damage or liability incurred by reason of any personal injury or property damage sustained by any person, caused by or resulting from or which may be claimed to have been caused by or to have resulted from the installation or maintenance of any street banner or appurtenance installed under the permit, or from any failure to install or maintain any such street banner or appurtenance in the manner required by this policy or from any dangerous or defective condition or nuisance created thereby or resulting therefrom. Furthermore, by the policy, the City must be named as an additional insured against any property damage or personal injury resulting from any such cause.

The limit of liability upon any policy posted or maintained hereunder shall not be less than \$1,000,000.

Section 11. Banner Permits and Other Signage Programs.

If a signage program (i.e., directional, interpretive, etc.) is requested within a specific geographic area where a banner program exists, the City reserves the right to review and place limitations on either or both programs in order to reduce any potential overall negative impacts that both programs may have on the area.

Section 12. Compliance.

It is expected that petitioners will make a good faith effort to comply with this City of Detroit Policy on Banners in the Public Right-of-Way. Non-compliance with any part of the policy may affect the evaluation and approval of the petitioner's future banner permit applications or renewals.

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 6, Articles I, II, III, IV and V, of the 1984 Detroit City Code, newly titled "Animal Control, Regulation and Care".

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced proposed ordinance is being submitted to your Honorable Body for consideration and approval. The proposed ordinance changes the title of Chapter 6 of the Code from "Animals and Fowl" to "Animal Control, Regulation, and Care."

This proposed ordinance amends Chapter 6, Articles I, II, III, IV and V, of the 1984 Detroit City Code 1) by recodifying and updating the chapter. In particular, this proposed ordinance amends Chapter 6 of the Code by amending, repealing, and adding sections to make the chapter commensurate with state law, specifically the Michigan Dog Law of 1919, being MCL 287.261 *et seq.*; the Michigan Pet Shops, Animal Control Shelters, and Animal Protection Shelters Act, being MCL 287.331 *et seq.*; the Michigan Use of Dogs and Cats for Research Act, being MCL 287.381 *et seq.*; and the Michigan Bodies of Dead Animals Act, being MCL 287.651 *et seq.*, and 2) by defining and redefining certain terms used throughout the chapter.

This proposed ordinance amends Chapter 6 of the Code by limiting the number of licensed dogs and the number of cats that a person may harbor, keep, or maintain at a residence within the City to four (4) each; by prohibiting the operation of a kennel within the City without the required City approvals; and by amending the provisions which govern the Animal Control Division, including certain provisions concerning the public servants who are designated and authorized to enforce the chapter. In addition, this proposed ordinance clarifies provisions governing rabies control; repeals registration and tattoo requirements for pit bulls and/or mixed breeds of pit bulls; authorizes the Animal Control Division to investigate a dangerous animal complaint; and authorizes the Administrator of the Animal Control Division to make a dangerous animal determination and to order that the owner of the animal comply with certain requirements or the humane destruction of such an animal, and for an appeal of such a determination.

We request that this proposed ordinance be introduced at your next Formal Session and that a Public Hearing be held before the end of your term. We are available to answer any questions that you may have concerning this proposed ordinance.

Thank you for your consideration.

Respectfully submitted,

JAMES BUFORD

In no case shall any benefits be paid under this paragraph on account of the death of a retirant if he/she had elected option 1, 2, 3 provided for in the retirement system provisions.

(4) Notwithstanding any provisions to the contrary, in no case shall benefits paid under this section exceed ninety percent (90%) of average final compensation. Furthermore, in no case shall benefits paid by the Retirement System, under this or any other section, exceed Section 415 of the Internal Revenue Code. REPEALED.

Sec. 47-10-13. Recommendation of benefits for certain retirees.⁵

(1)(a) Effective July 1, 1992, a retirant (or beneficiary of such retirant) of the General Retirement System, who retired before July 1, 1992 and received service retirement pension benefits pursuant to Title IX, Chapter VI, Article VI of the 1918 Detroit City Charter as in effect June 30, 1974 and continued in effect by Section 11-102 of the 1974 Detroit City Charter, as amended, which became effective July 1, 1974, shall receive an increase in the pension portion (defined benefit plan) of

their retirement allowance using a recalculation based upon one and one-half percent (1.5%) times their original average final compensation times credited service. Benefits afforded by this section are not retroactive prior to July 1, 1992.

(b) Effective July 1, 1992, a former employee, who separated from City service prior to July 1, 1992 with a vested future benefit who begins to receive vested pension benefits on or after July 1, 1992, shall receive a pension or an increase in the pension portion (defined benefit plan) of any retirement allowance using a calculation, or recalculation, made based upon one and one-half percent (1.5%) times their original average final compensation times credited service. Benefits afforded under this section are not retroactive prior to July 1, 1992.

Minimum Benefit. With respect to regular service retirants only (and excluding persons who receive vested benefits), in no case shall the total of the straight life Pension be less than three hundred sixty and 00/100 (\$360.00) dollars times each of the first ten (10) years of service at retirement plus one hundred twenty and 00/100 (\$120.00) dollars for each year of service in excess of ten (10) years. The recalculation of the pension benefit shall not include special increases granted by prior separate ordinances.

(1)(c) *Findings.* Pursuant to Section 11-101 of the 1997 Detroit City Charter, and MCL Section 117.3(j); MSA 5.2073(j), the City Council finds:

(1) benefits paid to retirants who retired from the General Retirement System prior to July 1, 1992 and their beneficiaries were based on pay rates much below present levels, due to subsequent inflationary pressures greater than anticipated at the time those benefits were granted;

(2) these inflationary pressures threaten the economic security and health of a substantial number of City retirees;

(3) it was the intent of the General Retirement System to provide retirement benefits to former City employees and their beneficiaries as part of their compensation and as additional compensation for valuable services rendered to provide a certain measure of income security during retirement; and

4) greater than anticipated inflationary pressures have eroded and impoverished that measure of income security, thus undermining the intent of the General Retirement System.

Pursuant to these findings, the City Council increases the defined benefit plan pension benefits for retirants who retired prior to July 1, 1992 and their beneficiaries. The City Council determines that it is in the public interest to make this increase to ensure that these former City employees are fully compensated for their valuable

services rendered and that they are not and do not become impoverished. The City Council is resolved to provide for the economic security and health of public retirees.

(d) Computation of increase for retirees from the General Retirement System who retired prior to July 1, 1992, and their beneficiaries.

(1) Effective July 1, 1997, defined benefit plan pension benefits shall be computed for retirees who retired prior to July 1, 1992 and their beneficiaries, and vested former employees who separated prior to July 1, 1992 and who begin to receive pension benefits after July 1, 1992, using a pension multiplier of one and one half percent (1.5%) for the first ten (10) years of service and a pension multiplier of one and 63/100 percent (1.63%) for service in excess of ten (10) years.

(2) There shall be no change to the base pension upon which future increases are based. REPEALED.

Sec. 47-10-14. Maximum benefits for present and future non-duty and duty disability retirees.

Effective July 1, 1992, with respect to present and future non-duty disability retirees, the maximum non-duty disability benefit shall not exceed three thousand nine hundred and 00/100 (\$3,900.00) dollars, and with respect to present and future duty disability retirees, the maximum duty disability benefit shall not exceed five thousand seven hundred and 00/100 (\$5,700.00) dollars. Upon conversion to a regular service retirement formula benefit computation, no such retiree shall receive less than the amounts they received on disability retirement. REPEALED.

Sec. 47-10-15. Non-duty death in service benefit for certain surviving children of single parents.

Effective July 1, 1992, if any member, who is a single parent and continues in the employ of the city on or after the date he/she either (1) acquires twenty (20) years of credited service, regardless of age, or (2) acquires ten (10) or more years of credited service and attains age sixty (60) years, dies while in the employ of the city, leaving a surviving child or children under the age of nineteen (19) years, such child or children shall receive a retirement allowance in the amount of five thousand seven hundred and 00/100 (\$5,700.00) dollars per annum, with each child sharing the benefit equally, until that child reaches the age of nineteen (19) years; however, such surviving child who is mentally or physically impaired shall continue to receive said benefit during the period of such mental or physical impairment. The board of trustees shall make determinations of mental or physical impairment in accordance with current regulations utilized by the City of Detroit's

hospitalization carriers or equivalent regulations. The five thousand seven hundred and 00/100 (\$5,700.00) dollars shall be divided among all surviving children who are either under nineteen (19) years of age, or are over nineteen (19) years of age and determined to be mentally or physically impaired. The total benefit payable per year under this section shall not exceed five thousand seven hundred and 00/100 (\$5,700.00) dollars.

No payments shall be made under the provisions of this section on account of the death of a member if any other mandatory benefits are paid under what was previously cited as Title IX, Chapter VI, Article VI, Part C of the 1918 City Charter, as amended, which refers to duty related death benefits. REPEALED.

Sec. 47-10-16. Authority of Board of Trustees.

The Board of Trustees is authorized to resolve any issues and make all determinations with respect to the benefits provided by Section 47-10-6.1 and Sections 47-10-8 through 47-10-15 of this code. Nothing in this section shall be considered a diminution of the general authority and responsibility for the general administrative management for the proper operation of the defined benefit plan and defined contribution plan of the general retirement system previously provided to the Board of Trustees prior to applicable law. No person, who would have been entitled to any higher pension amount pursuant to the provisions in existence prior to the adoption of Section 47-10-6.1 and Section 47-10-8 through 47-10-15, shall suffer a reduction of said benefits or benefit calculation because of Section 47-10-6.1 and Sections 47-10-8 through 47-10-15 and any such greater benefit is hereby authorized. REPEALED.

Section 2. All ordinances, or parts of ordinances, that conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Detroit.

Section 4. In the event that this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter. Where this ordinance is passed by less than two-thirds (2/3) majority of the City Council Members serving, it shall become effective no later than thirty (30) days after enactment in accordance with Section 4-115 of the 1997 Detroit City Charter.

¹Repealed by Ordinance 2-93.

²Sections 47-1-6-1(1), (2), 47-10-8 through 47-10-16, were added by Ordinance 2-93.

Ordinance No. 6-91.

Ordinance No. 2-93, as amended by Ordinance No. 21-97, as amended by Ordinance No. 1-98, as amended by Ordinance No. 3-98, as amended by Ordinance No. 9-99.

By Council Member Everett:

AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-140 to establish the New Amsterdam Avenue Historic District, to establish conservation as the design treatment level for the district, and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II, of the 1984 Detroit City Code be amending by adding Section 25-2-140 to read as follows:

SEC. 25-2-140. NEW AMSTERDAM HISTORIC DISTRICT.

(A) A HISTORIC DISTRICT TO BE KNOWN AS THE NEW AMSTERDAM HISTORIC DISTRICT IS HEREBY ESTABLISHED IN ACCORDANCE WITH THE PROVISIONS OF THIS ARTICLE.

(B) THIS HISTORIC DISTRICT DESIGNATIONS IS HEREBY CERTIFIED AS BRING CONSISTENT WITH THE DETROIT MASTER PLAN.

(C) THE BOUNDARIES OF THE NEW AMSTERDAM HISTORIC DISTRICT ARE AS SHOWN ON THE MAP ON FILE IN THE OFFICE OF THE CITY CLERK, AND SHALL BE: BEGINNING AT A POINT, THAT POINT BEING THE INTERSECTION OF THE CENTERLINE OF SECOND AVENUE WITH THE SOUTHERN BOUNDARY OF THE GRAND TRUNK RAILROAD RIGHT-OF-WAY; THENCE EASTERLY ALONG THE SOUTHERN BOUNDARY OF THE GRAND TRUNK RAILROAD RIGHT-OF-WAY TO ITS INTERSECTION WITH THE WESTERN BOUNDARY, EXTENDED SOUTHERLY, OF OUT LOT 116, SUB OF PART OF CASS FARM (LIBER 1, PAGES 175-6 PLATS); THENCE SOUTHERLY ALONG THE WESTERN BOUNDARY OF SAID OUT LOT 116, AS EXTENDED TO ITS INTERSECTION WITH THE CENTERLINE OF AMSTERDAM AVENUE; THENCE EASTERLY ALONG THE CENTERLINE OF AMSTERDAM AVENUE TO ITS INTERSECTION WITH THE CENTERLINE OF WOODWARD AVENUE; THENCE SOUTHERLY ALONG THE CENTERLINE OF WOODWARD AVENUE TO ITS INTERSECTION WITH THE SOUTHERN BOUNDARY OF LOT 4 OF THE PLAT OF PARK LOTS 47 AND 48 (LIBER 1, PAGE 64), EXTENDED EASTERLY; THENCE WESTERLY ALONG THE SAID SOUTHERN BOUNDARY OF LOT 4 AS EXTENDED TO ITS INTERSECTION WITH THE CENTERLINE OF CASS AVENUE; THENCE SOUTHERLY ALONG THE CENTERLINE OF CASS AVENUE TO ITS INTERSECTION WITH THE CENTERLINE OF ANTOINETTE AVENUE; THENCE WESTERLY ALONG THE CENTERLINE OF ANTOINETTE AVENUE TO ITS INTERSECTION WITH THE CENTERLINE OF THE NORTH/SOUTH ALLEY LYING PARALLEL TO AND APPROXIMATELY ONE HUNDRED FIFTY (150) FEET WEST OF CASS AVENUE; THENCE NORTHERLY ALONG THE CENTERLINE OF SAID ALLEY TO ITS INTERSECTION WITH THE EAST/WEST ALLEY LYING IN THE CENTER OF THE BLOCK BOUNDED BY CASS, ANTOINETTE, YORK, AND SECOND AVENUES; THENCE WESTERLY ALONG THE CENTERLINE OF SAID ALLEY TO ITS INTERSECTION WITH THE NORTH/SOUTH ALLEY LYING APPROXIMATELY ONE HUNDRED FORTY (140) FEET EAST OF SECOND AVENUE; THENCE SOUTHERLY ALONG THE CENTERLINE OF SAID ALLEY TO ITS INTERSECTION WITH THE CENTERLINE OF ANTOINETTE AVENUE; THENCE WESTERLY ALONG THE CENTERLINE OF ANTOINETTE AVENUE TO ITS INTERSECTION WITH THE CENTERLINE OF SECOND AVENUE; THENCE NORTHERLY

ALONG THE CENTERLINE OF SECOND AVENUE TO ITS INTERSECTION WITH THE CENTERLINE OF YORK AVENUE; THENCE EASTERLY ALONG THE CENTERLINE OF YORK AVENUE TO ITS INTERSECTION WITH THE WESTERN BOUNDARY OF THE NORTH/SOUTH ALLEY, NOW PARTIALLY VACATED, LYING PARALLEL TO AND APPROXIMATELY ONE HUNDRED FORTY-FIVE (145) FEET WEST OF CASS AVENUE; THENCE NORTHERLY ALONG THE SAID WESTERN BOUNDARY OF THE ALLEY TO ITS INTERSECTION WITH THE CENTERLINE OF BURROUGHS AVENUE; THENCE WESTERLY ALONG THE CENTERLINE OF BURROUGHS AVENUE TO ITS INTERSECTION WITH THE CENTERLINE OF SECOND AVENUE; THENCE NORTHERLY ALONG THE CENTERLINE OF SECOND AVENUE TO THE POINT OF BEGINNING. (LEGAL DESCRIPTION: THAT PART OF LOT 1 OF THE PLAT OF PARK LOTS 47 AND 48 (PLATS) LYING SOUTH OF THE CENTERLINE OF AMSTERDAM AVENUE AND LOTS 2-4 OF THE PLAT OF PARK LOTS 47 AND 48 (LIBER 1, PAGE 64, PLATS); CASS FARM COMPANY SUBDIVISION OF BLOCKS 111-116 (PLATS), BLOCK 10, LOTS 1-9; BLOCK 11, LOTS 1-7; AND BLOCK 12, LOTS 1-11 (LIBER 19, PAGE 35); AND MANDELBAUM'S SUBDIVISION OF OUT LOT 117 OF THE CASS FARM (PLATS), LOTS 15-24, 37-46, AND 49-60 (LIBER 2, PAGE 8).

(D) THE DESIGN TREATMENT LEVEL OF THE NEW AMSTERDAM HISTORIC DISTRICT SHALL BE CONSERVATION AS PROVIDED FOR IN SECTION 25-2-2(3) OF THIS CODE.

(E) THE DEFINED ELEMENTS OF DESIGN, AS PROVIDED FOR IN SECTION 25-2-2 OF THIS CODE, SHALL BE AS FOLLOWS:

(1) *HEIGHT.* BUILDING HEIGHTS IN THE NEW AMSTERDAM HISTORIC DISTRICT RANGE FROM ONE (1) STORY TO SIX (6) STORIES TALL, THE MAJORITY OF STRUCTURES BEING EITHER TWO (2) OR THREE (3) STORIES TALL.

(2) *PROPORTION OF BUILDINGS' FRONT FACADES.* THE MAJORITY OF THE BUILDINGS IN THE DISTRICT ARE WIDER THAN TALL, WITH THE NOTABLE EXCEPTIONS OF THE BUILDINGS AT 6126 SECOND AVENUE AND THE THREE (3) STORY ADDITION TO 6200 SECOND AVENUE, WHICH ARE TALLER THAN WIDE, AND THE LARGER BUILDINGS ON CASS AND BURROUGHS AVENUES, THAT ARE EITHER TALLER THAN WIDE OR AS WIDE AS TALL WHERE ADDITIONS TO BUILDINGS AND/OR INDIVIDUAL BUILDINGS ABUT EACH OTHER, THE OVERALL IMPRESSION IS OF A ROW

OF BUILDINGS WIDER THAN TALL.

(3) *PROPORTION OF OPENINGS WITHIN THE FACADES.* GROUND FLOORS OF FRONT FACADES ARE GENERALLY CHARACTERIZED BY LARGE, SQUARE OR HORIZONTALLY RECTANGULAR WINDOW OPENINGS, A PEDESTRIAN ENTRANCE, AND, PARTICULARLY ON SIDE ELEVATIONS, GARAGE DOOR OPENINGS. UPPER STORIES FEATURE EITHER INDUSTRIAL SASH, PIVOT, OR AWNING WINDOWS IN LARGE OPENINGS, OR DOUBLE HUNG SASH WINDOWS IN VERTICALLY RECTANGULAR OPENINGS, SOMETIMES ARCHED. ORIGINAL WINDOW AND DOOR MATERIALS HAVE FREQUENTLY BEEN REPLACED WITH WOOD BOARDS, GLASS BLOCK OR CONCRETE BLOCK, MOST OFTEN INTENDED TO BE TEMPORARY. AREAS OF VOIDS ORIGINALLY RANGED FROM APPROXIMATELY ONE-THIRD (1/3) TO TWO-THIRDS (2/3) OF FRONT FACADE AREAS OF CONTRIBUTING BUILDINGS. THE FIRE HOUSE AT THE CORNER OF SECOND AVENUE AND BURROUGHS AVENUE FEATURES DOUBLE HUNG SASH WINDOWS TWO (2) TIMES TALLER THAN WIDE ON BOTH FLOORS, TWO (2) PAIRS OF FIRE HOUSE DOORS ON THE SECOND AVENUE ELEVATION, A SINGLE OPENING PEDESTRIAN ENTRANCE AT THE CORNER OF SECOND AND BURROUGHS AVENUES, AND A SINGLE PAIR OF FIRE HOUSE DOORS ON THE BURROUGHS ELEVATION. WHERE BUILDINGS ARE ON CORNER LOTS, THE TWO (2) VISIBLE FACADES ARE SOMETIMES FENESTRATED ALIKE. SIDE ELEVATIONS OF OTHER BUILDINGS OFTEN EXHIBIT EXPOSED STRUCTURAL ELEMENTS AND A MORE UTILITARIAN APPEARANCE.

(4) *RHYTHM OF SOLIDS TO VOIDS IN FRONT FACADES.* OPENINGS WITHIN THE FRONT FACADES ARE REGULARLY ARRANGED HORIZONTALLY BY FLOOR AND VERTICALLY BY BAY, MOST OFTEN DUE TO THE SPACING OF A REINFORCED CONCRETE FRAME CONSTRUCTION.

(5) *RHYTHM OF SPACING OF BUILDINGS ON STREETS.* IN AREAS WHERE BUILDINGS AND THEIR ADDITIONS OCCUPY THE WIDTH OF THEIR LOTS AND ABUT EACH OTHER, PRIMARILY ALONG SECOND AVENUE, A CONTINUOUS STREETSCAPE RESULTS. WHERE THERE ARE LARGE BUILDINGS SITUATED ON THE FRONT LOT LINES AND SEPARATED BY SIDE STREETS AND/OR VACANT LOTS, AS ON CASS AVENUE, A REGULAR PROGRESSION OF BUILDINGS ALONG THE STREET IS CREATED. WHERE THERE ARE LARGE EXPANSES OF VACANT LAND BETWEEN STRUCTURES, RHYTHMS ARE INTERRUPTED.

(6) *RHYTHM OF ENTRANCE AND/OR PORCH PROJECTIONS.* MOST BUILDINGS IN THE DISTRICT ARE ENTERED AT GROUND LEVEL. A FEW BUILDINGS HAVE A LOW STEP LEADING TO THEIR ENTRANCES, PARTICULARLY THOSE ON SECOND AVENUE SOUTH OF YORK. THE PORCH ON THE DETROIT EDISON COMPANY SUBSTATION AT 6134 SECOND AVENUE HAS BEEN REPLACED BY A METAL HANDICAPPED RAMP OCCUPYING THE ENTIRE WIDTH OF ITS FRONT FACADE. ENTRANCES OF BUILDINGS AT THE CORNER OF SECOND AND YORK AVENUES, AND SECOND AND AMSTERDAM AVENUES FACE THE CORNERS.

(7) *RELATIONSHIP OF MATERIALS.* BUILDING MATERIALS COMMON TO EXTERIOR SURFACES IN THE DISTRICT ARE LIMESTONE, BRICK, GRANITE, CONCRETE BLOCK, CAST STONE, EXPOSED CONCRETE, AND TERRA-COTTA. WOOD AND/OR STEEL SUBDIVIDE AND SURROUND GLASS AND WIRE GLASS WINDOW PANES. DECORATIVE METAL WINDOW GRATES OCCUPY LARGE OPENINGS ON SOME BUILDINGS; METAL FIRE ESCAPES ARE VISIBLE ON SOME SIDE ELEVATIONS. A LIMITED NUMBER OF BRONZE LIGHT FIXTURES AND ARCHITECTURAL FEATURES, SUCH AS THE ROSETTES ON THE FACADE OF 6050 CASS, STILL EXIST.

(8) *RELATIONSHIP OF TEXTURES.* WHERE IT EXISTS, THE JUXTAPOSITION OF THE LOW RELIEF PATTERN OF MORTAR JOINTS IN BRICK WITH SMOOTH MASONRY TRIM PROVIDES TEXTURAL INTEREST. GLAZED BRICK, GLAZED TERRA COTTA, AND LARGE GLASS SURFACES ARE SMOOTH IN TEXTURE. CARVED AND/OR MOLDED REPETITIVE ORNAMENTAL DETAIL IN TERRA COTTA OR MASONRY CONTRASTS WITH THE SURFACE MATERIALS, PROVIDING A HIGH DEGREE OF TEXTURAL INTEREST. SUBDIVIDED WINDOWS, PATTERNED SPANDRELS, AND CORNICES WITH REPETITIVE DETAIL ARE OFTEN AREAS OF TEXTURAL INTEREST. REPETITIVE STRUCTURAL MEMBERS, SUCH AS PILASTERS AND EXPOSED REINFORCED CONCRETE STRUCTURAL ELEMENTS, RESULT IN PATTERNS OF TEXTURAL INTEREST. IN GENERAL, THE DISTRICT IS RICH IN TEXTURAL RELATIONSHIPS.

(9) *RELATIONSHIP OF COLORS.* THE MAJORITY OF BUILDINGS IN THE NEW AMSTERDAM HISTORIC DISTRICT ARE IN A LIGHT COLOR RANGE GENERALLY IN CREAM OR BUFF TONES; WHEN BRICK IS PAINTED, IT IS IN A SIMILAR RANGE. NATURAL RED AND ORANGE-BROWN

BRICK ALSO EXISTS. WINDOW FRAMES ARE PREDOMINANTLY LIGHT OR DARK BROWN OR BEIGE WHEN THEY ARE PAINTED BUT ARE ALMOST OFTEN METALLIC GRAY.

(10) *RELATIONSHIP OF ARCHITECTURAL DETAILS.* ARCHITECTURAL DETAILS RELATE TO THE STYLE, PERIOD AND FUNCTION OF THE BUILDINGS. CORNICES, SPANDRELS, ENTRANCES, BELT COURSES AND PARAPET WALLS ARE AREAS COMMONLY ORNAMENTED. MOST FACADES ARE COMPOSED OF BAYS THAT ARE SEPARATED BY PILASTERS AND FLOORS THAT ARE SEPARATED BY SPANDRELS OR BELT COURSES. THE STRUCTURAL MEMBERS ARE SOMETIMES LEFT VISIBLE, ESPECIALLY ON THE SIDES AND REAR OF THE BUILDINGS. BRICK- OR MASONRY-FACED PILASTERS ARE SOMETIMES DECORATIVELY TRIMMED AT THE BASE AND CAPITAL. CLASSICALLY INSPIRED BUILDINGS FEATURE ENGAGED COLUMNS OR PILASTERS BETWEEN WINDOWS, DECORATIVE BALUSTRADES, AND DETAILS SUCH AS ROSETTES, DENTICULATION, AND CARTOUCHES. MODERNISTIC BUILDINGS BEAR LIMITED STYLIZED GEOMETRIC OR CHEVRON PATTERNS IN BRICK OR CAST STONE. THE MOST ORNATE BUILDING, AT 41-47 BURROUGHS, HAS DETAIL REMINISCENT OF THE BYZANTINE AND ROMANESQUE STYLES. ITS ROMANESQUE ARCHES ARE FILLED WITH VERDIGRIS MARBLE, AND MARBLE SPANDRELS SEPARATE FLOORS. WHERE IT EXISTS, HISTORIC SIGNAGE IS GENERALLY LOCATED IN A FRIEZE ABOVE THE FIRST FLOOR, OR BELOW THE PARAPET WALL, OR, AS WITH THE AMERICAN BEAUTY IRON WORKS AT 6100 CASS AVENUE, ELEVATED ABOVE THE ROOF LINE AT ITS TWO (2) PRIMARY ELEVATIONS. SOME BUILDINGS HAVE EMBLEMS OR MEDALLIONS BEARING A COMPANY LOGO INTEGRATED INTO THE FACADE ORNAMENTATION. THE DECORATIVE FRONT FACADE OFTEN CONTINUES AROUND TO THE SIDES OF SOME BUILDINGS FOR ONE OR TWO BAYS BEFORE IT GIVES WAY TO A MORE UTILITARIAN APPEARANCE WITH VISIBLE REINFORCED CONCRETE STRUCTURAL MEMBERS AND UNADORNED FENESTRATION ON THE REMAINDER OF THE SIDES AND REAR.

(11) *RELATIONSHIP OF ROOF SHAPES.* VERY FEW OF THE ROOFS IN THE DISTRICT ARE VISIBLE FROM STREET LEVEL, WITH MANY HIDDEN BY PARAPET WALLS. THE FIRE HOUSE HAS A SHALLOW HIPPED ROOF. THE ONE-STORY BUILDING AT 445 YORK

HAS A METAL SAWTOOTH MONITOR ROOF.

(12) *WALLS OF CONTINUITY.* THE MAJOR WALL OF CONTINUITY IS CREATED BY CONTINUOUS ROWS OR REGULAR SPACING OF BUILDINGS WITH UNIFORM SETBACKS. THE TREES ON THE WIDE TREE LAWNS ON SECOND AVENUE CREATE A SECONDARY WALL OF CONTINUITY. PARKING METERS AND MODERN LIGHT AND TELEPHONE POLES GENERALLY DO NOT CONTRIBUTE TO A WALL OF CONTINUITY.

(13) *RELATIONSHIP OF SIGNIFICANT LANDSCAPE FEATURES AND SURFACE TREATMENTS.* THE MAJOR AREA OF SURFACE TREATMENT IS THE PUBLIC SIDEWALK IN FRONT OF THE BUILDINGS AND THE ROADBED. THE LOTS FRONTING ON WOODWARD AND CASS AVENUES AND THE EAST-WEST SIDE STREETS ARE GENERALLY NOT LANDSCAPED. SECOND AVENUE IS DIVIDED IN ITS CENTER BY A GRASS TURF AND TREE-PLANTED MEDIAN AND A WIDE TREE LAWN IN THE PUBLIC RIGHT-OF-WAY. A FEW OF THE BUILDINGS ON SECOND AVENUE BETWEEN BURROUGHS AND AMSTERDAM AVENUES ARE SET BACK FROM THE SIDEWALK, CREATING AN AREA FOR INDIVIDUAL LANDSCAPING. THE FIREHOUSE IS ATTRACTIVELY LANDSCAPED WITH FOUNDATION PLANTINGS AND FLOWER BEDS AT ITS CORNER AND SOUTH ELEVATIONS. THE MAJORITY OF STREET LIGHTING THROUGHOUT THE DISTRICT IS RECENT. WHERE PARKING LOTS ARE FENCED WITHIN THE DISTRICT, THE FENCING CONSISTS OF EITHER CHAIN LINK, OR METAL PICKETS BETWEEN BRICK PIERS.

(14) *RELATIONSHIP OF OPEN SPACE TO STRUCTURES.* SINCE MOST OF THE BUILDINGS SIT ON OR NEAR THEIR FRONT LOT LINES AND DO NOT HAVE SIDE YARDS, THE STREET AND PUBLIC SIDEWALK IN FRONT OF THE BUILDINGS PROVIDE THE IMMEDIATE OPEN SPACE. THERE ARE UNLANDSCAPED PARKING LOTS ADJACENT AND BETWEEN SOME BUILDINGS, AND AMPLE OPEN SPACE IN THE FORM OF PARKING IN THE IMMEDIATE VICINITY OF THE DISTRICT. WHERE THEY OCCUR ALONG SECOND AVENUE, SHALLOW FRONT YARDS AND WIDE GRASS-TURF BERMS BETWEEN THE PUBLIC SIDEWALK AND CURB PROVIDE ADDITIONAL OPEN SPACE. THE ONE HUNDRED FIFTY (150) FOOT RIGHT-OF-WAY AND MEDIAN STRIP IN THE CENTER ADD TO THE IMPRESSION OF OPENNESS OF THE SECOND AVENUE STREETSCAPE. AT THE NORTHERN

END OF THE DISTRICT AT SECOND AVENUE, A CONCRETE RETAINING WALL SEPARATES A NARROW UNIMPROVED LOT FROM THE VIADUCT OF THE ELEVATED RAILROAD TRACKS TO THE NORTH.

(15) *SCALE OF FACADES AND FACADE ELEMENTS.* INDIVIDUAL BUILDING FACADES RANGE FROM SMALL TO LARGE IN SCALE, DEPENDING ON THE SIZE AND STYLE OF THE INDIVIDUAL BUILDING, ELEMENTS AND DETAILS WITHIN FACADES RANGE FROM MODERATE TO LARGE IN SCALE; THE REPETITION OF LARGE SCALE ELEMENTS SUCH AS COLUMNS AND PILASTERS IS COMMON. WHERE HISTORIC SIGNAGE EXISTS, IT IS SCALED APPROPRIATELY FOR ITS PLACEMENT ON OR ABOVE THE FACADE.

(16) *DIRECTIONAL EXPRESSION OF FRONT ELEVATIONS.* MOST INDIVIDUAL BUILDINGS ARE HORIZONTAL IN DIRECTIONAL EXPRESSION, AN IMPRESSION REINFORCED BY LONG EXPANSES OF ROWS OF WINDOWS. IN SOME BUILDINGS, THE HORIZONTAL EMPHASIS IS BALANCED BY THE REPETITION OF VERTICAL ELEMENTS SUCH AS PILASTERS OR COLUMNS BETWEEN BAYS. AN EXCEPTION IS THE AMSTERDAM AVENUE SUBSTATION AT 6126 AMSTERDAM AVENUE, WHOSE DIRECTIONAL EXPRESSION IS EMPHATICALLY VERTICAL. ON STREETSCAPES WHERE BUILDINGS ABUT OR ARE CLOSE TOGETHER, THE OVERALL IMPRESSION IS HORIZONTAL.

(17) *RHYTHM OF BUILDING SETBACKS.* CONSISTENCY OF BUILDING SETBACKS EXISTS WHERE BUILDINGS ARE SITUATED ON THE FRONT LOT LINES ON A STREETSCAPE OR BLOCK. WITH FEW EXCEPTIONS, THIS PATTERN IS VISIBLE THROUGH THE DISTRICT.

(18) *RELATIONSHIP OF LOT COVERAGES.* CONTRIBUTING BUILDINGS IN THE NEW AMSTERDAM HISTORIC DISTRICT OCCUPY THE MAJORITY OF THEIR PARCELS OF LAND, GENERALLY RANGING BETWEEN SIXTY PERCENT (60%) AND ONE HUNDRED PERCENT (100%), WITH THE NOTABLE EXCEPTION OF THE FIRE STATION AT 6100 SECOND AVENUE, WHICH OCCUPIES BETWEEN THIRTY-FIVE PERCENT (35%) AND FORTY PERCENT (40%) OF ITS PARCEL.

(19) *DEGREE OF COMPLEXITY WITHIN THE FACADES.* THE DEGREE OF COMPLEXITY RANGES FROM VERY SIMPLE TO MODERATELY COMPLEX, DEPENDING ON THE AMOUNT OF STYLISTIC DETAIL. GENERALLY, THE FACADES ARE ARRANGED ACCORDING TO THEIR STRUCTURAL

ELEMENTS, RESULTING IN REGULAR AND REPETITIOUS PATTERNS OF FENESTRATION, ELEMENTS AND ORNAMENTAL DETAIL.

(20) *ORIENTATION, VISTAS, OVER-VIEWS.* BUILDINGS ARE GENERALLY ORIENTED TOWARD THE STREET. THE AMERICAN BEAUTY IRON WORKS AT 6100 CASS AVENUE HAS TWO (2) MAIN ELEVATIONS, ONE (1) ON CASS AVENUE AND THE OTHER ON WOODWARD AVENUE. SOME BUILDINGS SITUATED ON CORNER PARCELS ON SECOND AVENUE HAVE ENTRANCES FACING THE CORNERS. THE VISTA LOOKING NORTH FROM THE NEW AMSTERDAM HISTORIC DISTRICT IS TOWARDS THE RAISED RAILROAD TRACKS AND NEW CENTER, WITH THE TOWER OF THE FISHER BUILDING RISING BEYOND. TO THE SOUTH IS THE FORD FREEWAY AND THE UNIVERSITY/CULTURAL CENTER AREA.

(21) *SYMMETRIC OR ASYMMETRIC APPEARANCE.* MOST BUILDINGS WERE ORIGINALLY SYMMETRICAL IN APPEARANCE ABOVE THE FIRST FLOOR. MANY WERE SYMMETRICAL ON THE FIRST FLOOR AS WELL, DEPENDING ON THE TYPE, POSITION AND NUMBER OF ENTRANCES. MULTIPLE CHANGES TO DISPLAY WINDOWS AND/OR OTHER OPENINGS HAVE RESULTED IN THE CREATION OF INCREASED ASYMMETRY ON THE LOWER LEVELS.

(22) *GENERAL ENVIRONMENTAL CHARACTER.* THE NEW AMSTERDAM HISTORIC DISTRICT IS AN ARCHITECTURALLY SIGNIFICANT CLUSTER OF EARLY TWENTIETH CENTURY INDUSTRIAL BUILDINGS, TWO (2) DETROIT EDISON SUBSTATIONS AND A FIRE STATION THAT, DESPITE MODIFICATIONS OVER TIME, RETAIN A HIGH DEGREE OF ARCHITECTURAL INTEGRITY, DESPITE UNDERUTILIZATION OF SOME BUILDINGS IN THE NEW AMSTERDAM HISTORIC DISTRICT, ITS LOCATION BETWEEN NEW CENTER ON THE NORTH AND THE UNIVERSITY/CULTURAL CENTER AREA ON THE SOUTH, AND IT PROXIMITY AND ACCESS TO MAJOR TRANSPORTATION LINES, BODES WELL FOR ITS REVITALIZATION.

Section 2. All ordinances, or parts of ordinances, that conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Detroit.

Section 4. In the event that this ordinance is approved by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in

accordance with Section 4-116 of the 1997 Detroit City Charter. Where this ordinance is passed by less than a two-thirds (2/3) majority of City Council Members serving, it shall become effective no later than on the thirtieth (30th) day after enactment in accordance with Section 4-115 of the 1997 Detroit City Charter.

Honorable City Council:

Re: Address: 13902 Mackay. Name: Robin Saffold. Date ordered removed: June 20, 2001 (J.C.C. pp. 1737-8)

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 24, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of October 16, 2001.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition ordered be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. You will not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made

substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Respectfully submitted,

**City of Detroit
Fiscal Analysis Division
November 16, 2001**

Honorable City Council:
Re: Resolution Regarding Mayor Archer's Upcoming Budget Reduction Plan.

The City Council Budget Monitoring Task Force was informed on Wednesday, November 14, that the Mayor is currently reviewing departmental budget cut plans during his quarterly review sessions, which end on Wednesday, November 21. The Mayor has scheduled a quarterly review session on Council's budget at 11:00 a.m. on November 21. The Mayor will then synthesize the individual budget cut plans into one plan that may incorporate some changes made by the Mayor.

Members of the Budget Monitoring Task Force indicated that the Council should receive the departmental budget cut plan proposals as a benchmark and for their analysis. Also, the task force directed the Fiscal Analysis Division to develop a survey form that will be sent to departments requesting how a budget cut will impact their delivery of services. The task force felt the survey results would assist Council's review of the budget cut proposals. (The survey is under separate cover for Council's review). In addition, the task force wants the Council to receive from the Mayor his criteria determining what are essential and nonessential services and classifications. Finally, the task force suggested that the Council convey to the Mayor its desire that he would **not** include in his final budget cut plan any of

the Council budgetary changes that were appropriated in the current fiscal year's budget.

The task force directed the Fiscal Analysis Division to prepare a resolution that expresses Council's intent concerning a budget cut plan as outlined above. A draft of the resolution is attached for your consideration.

Respectfully submitted,
IRVIN CORLEY, JR
Fiscal Analyst

By Council Member Everett:

Whereas, The Mayor informed the City Council in September, 2001 that fiscal year 2000-01 will end up with a budget deficit, and

Whereas, The Mayor also informed the City Council that the current fiscal year, 2001-02, may also end up with major revenue shortfalls as a result of slow recovering economy, and

Whereas, It is the Mayor's and City Council's desire that the current fiscal year end up with a balanced budget, and

Whereas, The Mayor has mandated a freeze on hiring in nonessential areas and on nonessential purchases, and proposes to develop a budget reduction plan to assist in achieving a balanced budget for the current fiscal year, and

Whereas, The City Council desires to receive from the Mayor his definition of and criteria used to determine what is an essential and a nonessential service and employee classification, and

Whereas, The City Council desires that

recreational services be considered essential City services, and

Whereas, The City Council anticipates receiving a budget reduction plan from the Mayor within the next couple weeks, and

Whereas, The Mayor's budget reduction plan will be a synthesis of cut plans submitted by each of the departments with additional analysis and input from the executive staff departments, and

Whereas, The City Council wants to compare the department's recommended reductions with the Mayor's final plan, and

Whereas, The City Council wants to perform a thorough analysis of the recommended budget reduction plan proposals, and

Whereas, The City Council will send out a survey to the departments asking how the proposed budget cut impacts their ability to provide City services and will utilize the survey results in its analysis of the budget reduction plan proposals, and Now Therefore Be It

Resolved, The City Council respectfully requests that the Mayor **does not** include in his budget reduction plan any of City Council's budgetary changes that were appropriated in the current fiscal year's budget, And Be It Finally

Resolved, That the Mayor also consider recreational services to be deemed essential City services for the citizens of Detroit.

Cultural Affairs Department

November 8, 2001

Honorable City Council:

This comes to you to request that earned income from the sale of up to 20,000 Detroit Cultural Maps at \$1.50 each be placed in an account created specifically to receive and appropriate

these revenues to the CityArts Grant Program.

Last April the Mayor and the Budget Director asked every department to reduce their projected 2001-02 budgets by 5 percent, a \$33,785 reduction for the Cultural Affairs Department. Part of the reduction came in a 20 percent (\$20,000) cut in the city's annual contribution of \$100,000 to the CityArts Grant Program. The Skillman Foundation has been our funding partner for the past three years with a \$50,000 annual match to the City's \$100,000 annual contribution.

CityArts grants are awarded to Detroit's small and midsize nonprofit arts and cultural organizations for programs in our local communities. Grants range from \$750 to \$7,500. In any given year the department may receive as many as 56 proposals, and on average 87 percent of project proposals are funded. Funding decisions are made by a group of peer review and master panelists whose professional backgrounds are in one or more of the arts (theater, music, visual arts, dance, film, and literature).

The CityArts Grant Program has always been a partnership program between the City of Detroit and funding agencies such as the National Endowment for the Arts, McGregor Fund, Arts Foundation of Michigan, and The Skillman Foundation.

The CityArts Grant Program will be 25 years old in 2002 and we are planning to celebrate the occasion by publicly honoring all former CityArts grant recipients, funders, and peer review and master panelists.

It is my hope that your Honorable Body will approve the Cultural Affairs Department's request to get the City's contribution to the CityArts Grant Program back to \$100,000 for FY 2002/03 by establishing an account for revenues generated from the sale of Detroit Cultural Maps.

Housing Department

October 25, 2001

Honorable City Council:

Re: Memorandum of Understanding between the Detroit Housing Commission and the Public Lighting Department for Infrastructure Improvements at Jeffries Homes.

The Detroit Housing Commission ("DHC") is a significant recipient of HOPE VI Program funding, a major national effort sponsored by the U.S. Department of Housing and Urban Development ("HUD"). Under the HOPE VI Program, HUD's overall goals include (a) eliminating blight in existing public housing sites and their adjacent neighborhoods and (b) creating stable, mixed income communities. To maximize the impact of HOPE VI resources, HUD authorized a "mixed finance" approach which allows public housing capital and operating subsidy to be combined with other public and private resources. This approach requires that the City provide a capital infusion to complement the redevelopment program.

To this end, DHC and the Public Lighting Department ("PLD") have agreed to work toward their mutual goals of providing safe and well-lit streets and afford-

able public housing throughout the City of Detroit by forming a partnership memorialized in a Memorandum of Understanding ("MOU") which committed the amount of \$1,879,463 to support the public works infrastructure improvements at Jeffries Homes.

We therefore request your Honorable Body's approval of the transfer of the amount of \$1,299,382, the unpaid amount of the commitment, from PLD Appropriation #00966 to DHC Appropriation #10245.

Section 4. Bonds Authorized; Issuance of Series 2001-SRF2 Bond; Incorporation of the Bond Ordinance. To pay all or a part of the costs of the Project, including payment of legal, financial, printing and other expenses incident thereto and incident to the issuance and sale of the Series 2001-SRF2 Bond, payment of capitalized interest, if necessary and permitting by the State Revolving Fund program, the City shall borrow the sum of not to exceed \$100,000,000 (the "Maximum Bond Amount") and issue the Series 2001-SRF2 Bond therefor pursuant to Act 94 and the Bond Ordinance. The Series 2001-SRF2 Bond shall be issued as an SRF Junior Lien Bond under the Bond Ordinance, and shall be of junior standing and priority of lien and secured on a subordinate basis to Senior Secured Obligations, and Senior Subordinated Bonds any other Junior Subordinated Bonds which may be issued under the Bond Ordinance with a higher priority of lien on Net Revenues than that granted the SRF Junior Lien Bonds, and the Ancillary Obligations related to each of the foregoing. The proceeds of the Series 2001-SRF2 Bond shall be used for the purpose of acquiring and constructing the Project, for capitalized interest, if necessary and permitted by the State Revolving Fund program, and to pay issuance costs described above. The balance of the costs of the Project and the other costs, expenses, and deposits shall be paid from the proceeds of additional Securities issued under the Bond Ordinance, if any, and moneys of the System now on hand

and legally available therefor and such moneys are hereby appropriated therefor.

Except as otherwise provided in this Resolution, all of the provisions of the Bond Ordinance shall apply to the Series 2001-SRF2 Bond, the same as through set forth in full in this Resolution, the purpose of this Resolution being to supplement the Bond Ordinance to authorize the issuance of SRF Junior Lien Bonds as herein provided for the purpose herein set forth, such purpose being authorized by the Bond Ordinance, upon the conditions therein stated, which conditions have been fully met or will be fully met prior to the issuance of the Series 2001-SRF2 Bond.

Section 5. Series 2001-SRF2 Bond Details; Issuance in Series; Registration Execution and Transfer of Bond. The Series 2001-SRF2 Bond shall be designated SEWAGE DISPOSAL SYSTEM SRF JUNIOR LIEN REVENUE BONDS, SERIES 2001-SRF2, or such other name as shall be determined by the Finance Director of the City, and shall be payable out of the Net Revenues, as set forth more fully in Section 6 hereof. The Series 2001-SRF2 Bond shall be issued in the maximum principal amount of \$100,000,000, or such lesser amount as shall be set forth in the DEQ Order or the Purchase Contract, and shall be payable as to principal on April 1 or October 1, or such other date as set forth in the DEQ Order or the Purchase Contract with respect to the Series 2001-SRF2 Bond, in the years 2006 to 2025, inclusive, or such other years as are set forth in the DEQ Order or the Purchase Contract with respect to the Series 2001-SRF2 Bond, provided, however, that the maximum aggregate amount of interest and principal becoming due in any Fiscal Year (whether at maturity or by reason of Mandatory Redemption Requirements) on all bonds outstanding under the Bond Ordinance, including the Series 2001-SRF2 Bond, shall not exceed the amount permitted by the Bond Ordinance.

The Series 2001-SRF2 Bond shall bear interest at a rate of 2.5% per annum, or such other interest rate as shall be set forth in the DEQ Order or the Purchase Contract with respect to the Series 2001-SRF2 Bond, payable, except as hereinafter provided, on each April 1 or October 1 or such other dates as shall be set forth in the DEQ Order or the Purchase Contract with respect to the Series 2001-SRF2 Bond, by check made by the Transfer Agent, and mailed, or sent by other means, to the registered owner at the registered address, as shown on the registration books maintained by the Transfer Agent; provided, however, that at the written request of the Authority or other registered owner of at least \$1,000,000 principal amount of the Series

2001-SRF2 Bond (which request may provide that it will remain in effect with respect to subsequent Interest Payment Dates unless and until changed or revoked at any time prior to an Interest Payment Date by subsequent written notice to the Transfer Agent), interest shall be paid by wire transfer or other immediately available funds acceptable to the Transfer Agent and the City. Except as hereinafter provided, interest on the Series 2001-SRF2 Bond shall be payable to the registered owner of record as of the 15th day of the month immediately preceding any Interest Payment Date. The date of determination of registered ownership for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future. The principal of the Series 2001-SRF2 Bond shall be payable in the same manner as interest thereon on the annual payment date set forth in the first paragraph of this Section 5. The Series 2001-SRF2 Bond shall be sold upon such terms as provided in the DEQ Order or the Purchase Contract.

Notwithstanding any other provision of this Resolution, so long as the Authority is the owner of the Series 2001-SRF2 Bond, (a) the Series 2001-SRF2 Bond is payable as to principal, premium, if any, and interest at the corporate trust office of Bank One Trust Company, NA, or at such other place as shall be designated in writing to the City by the Authority (the "Authority's Depository"); (b) the City agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on the Series 2001-SRF2 Bond in immediately available funds at least five (5) business days prior to the date on which any such payment is due (whether by maturity, redemption or otherwise); and (c) the Series 2001-SRF2 Bond may be subject to redemption prior to maturity at the times and prices, in the manner and upon the conditions set forth in Exhibit A hereto.

The Series 2001-SRF2 Bond will be dated December 20, 2001, or such other date as provided in the DEQ Order or the Purchase Contract. The Series 2001-SRF2 Bond will be issued as a single, fully registered bond, subject to the transfer and exchange requirements of this Resolution in authorized denominations of \$5,000 or any multiple thereof.

Unless waived by any registered owner of the Series 2001-SRF2 Bond to be redeemed, official notice of redemption shall be given by the Transfer Agent on behalf of the City. Such notice shall be dated and shall contain at a minimum the following information: complete official name of the issue, including series; original issue date; payment dates; interest rate; the date of redemption notice; the redemption date; the redemption price;

the place where the Series 2001-SRF2 Bond, or portions thereof called for redemption, are to be surrendered for payment; the Transfer Agent's name and address with contact person and phone number, and a statement that interest on the Series 2001-SRF2 Bond or portions thereof called for redemption shall cease to accrue from and after the redemption date if moneys are on hand with the Transfer Agent to redeem the Series 2001-SRF2 Bond or portions thereof called for redemption.

In addition, further notice shall be given by the Transfer Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner affect the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

Section 6. Payment of Bonds. The Series 2001-SRF2 Bond and the interest thereon shall be payable solely from the Net Revenues, and to secure such payment, the statutory lien upon the whole of the Net Revenues created in the Bond Ordinance, subject to prior lien thereon of Senior Secured Obligations Senior Subordinated Bonds, any other Junior Lien Bonds which may be issued under the Bond Ordinance with a higher priority of lien on Net Revenues than that granted the SRF Junior Lien Bonds, and the Ancillary Obligations related to each of the foregoing, is hereby confirmed in favor of the Series 2001-SRF2 Bond.

The obligation of the City to pay the principal of and interest on the Series 2001-SRF2 Bond shall continue until such payment in full has been made or until sufficient cash or sufficient Government Obligations shall have been deposited in trust for payment in full of the principal of and the interest on the Series 2001-SRF2 Bond to be defeased to its maturity, or, if called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any. Upon deposit of cash or sufficient Government Obligations, as provided in the previous sentence, the statutory lien herein referred to shall be terminated with respect to the Series 2001-SRF2 Bond, the holders of the Series 2001-SRF2 Bond shall have no further rights under this Resolution except for payment from the deposited funds and registration and replacement of bonds, and the Series 2001-SRF2 Bond shall no longer be considered to be outstanding under the Bond Ordinance and his Resolution.

Section 7. Funds and Accounts; Flow of Funds. Except as otherwise provided in this Resolution, all of the provisions relative to funds and accounts, their maintenance, the flow of funds and other

details relative thereto, shall remain as specifically set forth in the Bond Ordinance.

Section 8. Series 2001-SRF2 Bond Proceeds. The portion of the proceeds of the sale of the Series 2001-SRF2 Bond representing capitalized interest, if any, as received, shall be deposited in the redemption fund for SRF Bonds established by the Bond Ordinance, and the City may take a credit for the amount so deposited against the amount required to be deposited in such fund for payment of the next maturing interest payment on the Series 2001-SRF2 Bond.

The balance of the proceeds of the sale of the Series 2001-SRF2 Bond, as received, shall be deposited in a sub-account of the Construction Fund account established by the Bond Ordinance to be designated the "Construction Fund Series 2001-SRF2," which sub-account shall be established and maintained as a separate depository account with a depository qualified to be a depository of moneys under Michigan law as designated by the Finance Director. Moneys in the Construction Fund Series 2001-SRF2 shall be applied solely in payment of the costs of the Project and any engineering, legal, financial or printing costs, and other expenses incident thereto and to the financing thereof. Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file a signed statement with the Commissioners to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and that such work has not been previously paid for. Payment of the costs of engineering, legal, financial, printing, and other costs of issuance with respect to the Series 2001-SRF2 Bond as provided in this section shall be made upon submission of appropriate documentation to the Finance Director of the City.

Any unexpended balance remaining in the Construction Fund Series 2001-SRF2 after completion of the Project may, with the prior approval of the Authority and at the discretion of DWSD, be used for further improvements, enlargements, and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Series 2001-SRF2 Bond from gross income for federal income tax purposes. Any remaining balance after such expenditure shall, with the prior approval of the Authority, be paid into the Redemption Fund for the purpose

of redemption or purchase, at not more than the fair market value, of the outstanding Series 2001-SRF2 Bond or portions thereof. Bonds acquired by purchase shall be canceled and shall not be reissued.

Section 9. Series 2001-SRF2 Bond Form. Series 2001-SRF2 Bond shall be in substantially the form set forth in Appendix A hereto, with such changes and additions as shall be determined appropriate by the Finance Director.

Section 10. Covenants Regarding Exclusion of Interest on the Series 2001-SRF2 Bond for Federal Tax Purposes. The City hereby covenants with and represents to the Authority and any other registered owners of the Series 2001-SRF2 Bond that so long as any portion thereof remains outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain, and will refrain from taking any action which would impair, the exclusion of the interest on the Series 2001-SRF2 Bond from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Series 2001-SRF2 Bond proceeds and moneys deemed to be Series 2001-SRF2 Bond proceeds, and to prevent the Series 2001-SRF2 Bond from being or becoming a "private activity bond" as that term is used in Section 141 of the Code.

Section 11. Department of Treasury Approval; Sale of Series 2001-SRF2 Bond. The Finance Director is hereby authorized to notify the Michigan Department of Treasury of the City's intent to issue the Series 2001-SRF2 Bond, and to make application to the Michigan Department of Treasury for authority to issue and sell the Series 2001-SRF2 Bond or for an exception from prior approval for the sale of the Series 2001-SRF2 Bond and for authorization, if any, to obtain such waivers from the Michigan Department of Treasury as may be applicable to the sale of the Series 2001-SRF2 Bond at the discretion of the Finance Director and which are permitted by Act No. 202, Public Acts of Michigan, 1943, as amended, and the regulations pertaining thereto, and Act 94, and to pay any related fees. The Finance Director shall do all other acts and take all other necessary procedures required to accomplish the sale, issuance and delivery of the Series 2001-SRF2 Bond.

Section 12. Finance Director and Deputy Finance Director Authorizations. During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy

Finance Director shall exercise all the powers, perform all the duties, and make all the determinations herein required or permitted with respect to the Series 2001-SRF2 Bond.

Section 13. Execution of Series 2001-SRF2 Bond. The Mayor and the Finance Director are hereby authorized and directed to execute the Series 2001-SRF2 Bond by manual or facsimile signature for and on behalf of the City and in its name, to affix thereto the official seal of the City either by manual signature or by facsimile, and to deliver the Series 2001-SRF2 Bond to the Authority upon the terms and conditions set forth in the Purchase Contract.

Section 14. Execution of Authority's Document. The Series 2001-SRF2 Bond shall be sold to the Authority pursuant to the Purchase Contract. The Purchase Contract, the Supplemental Agreement, and the Issuer's Certificate, in the forms on file with the Finance Director, are hereby approved; and the Mayor, the Finance Director, and the Director of DWSD or their deputies are each hereby authorized to execute and deliver, for and on behalf of the City, the Purchase Contract, the Supplemental Agreement, and the Issuer's Certificate to the Authority in the forms hereby approved with such changes and insertions in such Purchase Contract, Supplemental Agreement, and Issuer's Certificate as the Finance Director shall determine are necessary or desirable. The executed forms of the Purchase Contract, the Supplemental Agreement, and the Issuer's Certificate shall be deemed to be the final forms thereof.

Section 15. Deposit to Construction Fund. Portions of the proceeds of the Series 2001-SRF2 Bond, as received and in amounts determined by the finance Director, shall be deposited, pursuant to the Bond Ordinance, in the Construct Fund Series 2001-SRF2 relating solely to the Series 2001-SRF2 Bond, which shall be established and maintained as a separate depository account as selected by the Finance Director in accordance with this Resolution.

Section 16. Authorization of Other Officials. The Mayor, City Clerk, Finance Director, Treasurer, Corporation Counsel, Director of DWSD, other officials of the City, their deputies and staff, or any of them, are hereby authorized to execute and deliver such certificates, documents, instruments, opinions, and other papers as may be deemed necessary or appropriate to complete the sale, execution, and delivery of the Series 2001-SRF2 Bond as determined by such officials executing and delivering the foregoing items. Any actions heretofore taken by such persons in furtherance of the foregoing are hereby ratified and confirmed.

Section 17. Declaration of Official Intent. The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. §1.150-2 pursuant to the Code:

(a) The City plans to finance the Project through the issuance of the Series 2001-SRF2 Bond in amount not to exceed the Maximum Bond Amount.

(b) The City Council of the City hereby declares its intent to reimburse itself from the proceeds of the Series 2001-SRF2 Bond for expenditures made or to be made for the Project.

(c) The maximum principal amount of the Series 2001-SRF2 Bond expected to be issued for the Project is the Maximum Bond Amount.

(d) Advances to be made for the Project will be borrowed from the Improvement and Extension Fund of the City's Sewage Disposal System Fund, which shall be reimbursed upon the issuance of the Series 2001-SRF2 Bond.

Section 18. Resolution Constitutes a Contract Interpretation; Modification.

The provisions of this Resolution shall constitute a contract between the City and any registered owner of the Series 2001-SRF2 Bond. The provisions of this Resolution shall be construed and interpreted liberally in order to effectuate the purposes of the Bond Ordinance, Act 94, the Shared Credit Rating Act, which creates the Authority, Act No. 227, Public Acts of Michigan, 1985, as amended, and the State Clean Water Assistance Act, Act No. 317, Public Acts of Michigan, 1988, as amended. The provisions of this Resolution, including, but not limited to, provisions with respect to disbursements of bond proceeds, disbursements, and payments of capitalized interest on the Series 2001-SRF2 Bond and payments by the City to the Authority in amortization of the Series 2001-SRF2 Bond, may be modified by agreement of the City and the Authority without the consent of the holders of Bonds outstanding under the Bond Ordinance, so long as such modifications do not prejudice such holders of Bonds.

Section 19. Repeal, Savings Clause. All other ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this Resolution are, to the extent of such conflict, hereby repealed.

Section 20. Severability; Paragraph Headings; and Conflict. PRINCIPAL AMOUNT: ****\$_____ ****

The CITY OF DETROIT, Wayne County, Michigan (the "Issuer"), for value received, hereby promises to pay to the Michigan Municipal Bond Authority (the "Authority"), out of the hereinafter described Net Revenues of the Issuer's Sewage Disposal System, the principal amount of _____ Dollars (\$ _____) or so much thereof as shall have been advanced to the Issuer pursuant to the Purchase Contract between the Issuer and the Authority dated as of _____, 2001 and a Supplemental Agreement by and among the Issuer, the Authority, and the State of Michigan, acting through the Department of Environmental Quality, in lawful money of the United States of America, with interest on the principal from the date each disbursement of such principal is advanced by the Authority to the Issuer at the rate of two and one-half percent (2.5%) per annum until paid. Interest is first payable on _____, 20__ and semiannually on each _____ and _____ thereafter, and principal is payable on the first day of _____, commencing _____, 20__, and annually thereafter in the principal installments indicated on the Payment Schedule attached as Appendix A hereto, unless prepaid prior thereto as hereinafter provided. The bond is payable as to principal, premium, if any, and interest at the corporate trust office of Bank One Trust Company, NA, or to such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's Depository").

This bond is subject to redemption prior to maturity by the Issuer only with the prior written consent of the Authority and on such terms as may be required by the Authority.

Notwithstanding any other provision of this bond, so long as the Authority is the owner of this bond, (a) this bond is payable as to principal, premium, if any, and interest at Bank One Trust Company, N.A., or to such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's Depository"); (b) the Issuer agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this bond in immediately available funds at least five (5) business days prior to the date on which any such payment is due whether by maturity, redemption, or otherwise; and (c) written notice of any redemption of this bond shall be given by the Issuer and received by the Authority's Depository at least forty (40) days prior to the date on which such redemption is to be made.

In the event of a default in the payment of principal hereof or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this bond, but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the Issuer's default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the Issuer shall and hereby agrees to pay on demand only the Issuer's pro rata share (as determined by the Authority) of such deficiency as additional interest on this bond.

During the time funds are being drawn down by the Issuer under this bond, the Authority will periodically provide the Issuer a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such statement or to reflect a disbursement or the correct amount on a disbursement shall relieve the Issuer of its

obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this bond. Capitalized terms not defined herein and defined in the hereinafter Bond Ordinance are used herein as therein defined.

For the prompt payment of the principal of and interest on this bond, the revenues of the Sewage Disposal System of the City (the "System"); including all appurtenances, extensions and improvements thereto, after provision has been made for reasonable and necessary expenses of operation, maintenance and administration (the "Net Revenues"), are irrevocably pledged and a statutory lien thereon is recognized and created. The bonds of this series are of equal standing and priority of lien as to Net Revenues as all other SRF Junior Lien Bonds issued under and in accordance with the Bond Ordinance and are of junior standing and priority of lien as to Net Revenues, and secured on a subordinate basis, to all Senior Secured Obligations, Senior Subordinated Bonds heretofore and hereafter issued under and in accordance with the Bond Ordinance, and such Junior Subordinated Bonds hereafter issued under and in accordance with the Bond Ordinance with a higher lien than that granted SRF Junior Lien Bonds, and any Ancillary Obligations related to any of the foregoing.

This bond is issued pursuant to Ordinance No. 27-86, as supplemented and amended (the "Bond Ordinance"), and under and in full compliance with the Constitution and statutes of the State of Michigan, including specifically Act No. 94, Public Acts of Michigan, 1933, as amended, for the purpose of paying all or part of the cost of acquiring and constructing replacements, repairs, extensions and improvements to the System and paying the costs of issuing this bond.

This bond is a self-liquidating bond which is not a general obligation of the Issuer and does not constitute an indebtedness of the Issuer within any constitutional, statutory, or charter limitation, but is payable, both as to principal and interest, solely from the Net Revenues of the System. The principal of and interest on this bond are secured by the statutory lien hereinbefore mentioned.

For a complete statement of the revenues from which and the conditions under which this bond is payable, a statement of the conditions under which additional bonds of equal standing may hereafter be issued, and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Bond Ordinance.

The Issuer has covenanted and agreed, and does hereby covenant and agree, to fix and maintain at all times while any

bonds payable from the Net Revenues of the System shall be outstanding, such rates for service furnished by the System as shall be sufficient to provide for payment of the interest on and the principal of this bond and any other bonds of superior and equal standing payable from the Net Revenues as and when the same shall become due and payable, and to create and maintain a bond redemption fund therefor, to provide for the payment of expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the same in good repair and working order, and to provide for such other expenditures and funds for the System as are required by the Bond Ordinance.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond and the series of bonds of which this is one have been done and performed in regular and due time and form as required by law.

IN WITNESS WHEREOF, the City of Detroit, Wayne County, Michigan, by its City Council has caused this bond to be signed by the manual or facsimile signatures of its Mayor and its Finance Director and its corporate seal to be impressed on this bond, all as of December ____, 2001.

Honorable City Council:

Re: Ferry Street Inn Project.

As this Honorable Body is aware, the Ferry Street Inn Project consists of the acquisition and rehabilitation of six historic buildings located on Ferry Street between Woodward Avenue and John R

for conversion into a 42-room bed and breakfast inn, which is being assisted with a \$2.9 Section 108 Loan and a \$452,012 UDAG Loan from the City to the Developer. Beginning in 1993, this Honorable Body has taken various actions authorizing the Ferry Street Inn Project, which is in the process of being completed and is scheduled to open soon. Because the Project as originally authorized did not include the UDAG Loan, we are asking that you adopt the attached resolution so that the Finance Department may disburse funds from the UDAG appropriation this Honorable Body has already established for the Project. Waiver of reconsideration is requested.

Respectfully submitted,
PAUL A. BERNARD
 Director

By Council Member Hood:

Whereas, On December 1, 1993, this City Council authorized a Section 108 Guaranteed Loan for the Ferry Street Inn Project and authorized the Director of the Planning and Development Department to negotiate and enter into contracts to administer the Ferry Street Inn Project; and

Whereas, On October 22, 1997, this City Council approved certain changes in the Section 108 financing package for the Ferry Street Inn Project; and

Whereas, The Director of the Planning and Development Department has executed and delivered that certain Development and Loan Agreement, dated as of January 31, 2000, with Ferry Street Development Company L.L.C. for the Ferry Street Inn Project which envisioned both the Section 108 Loan previously approved by this City Council, and a UDAG Loan which was subject to the approval of HUD; and

Whereas, The UDAG Loan for the Project was subsequently approved by HUD and on June 27, 2001, this City Council authorized the amendment of the relevant UDAG agreements with HUD in order for the City to make UDAG Loan for the Ferry Street Inn Project and approved the transfer and appropriation of the UDAG funds to the Ferry Street Inn Project; and

Now Therefore Be It Resolved, That the Development and Loan Agreement, dated as of January 31, 2000, for the Ferry Street Inn Project, covering both the Section 108 and the UDAG Loans, is hereby approved, ratified and confirmed.

Adopted as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood, Mahaffey, Scott, Tinsley-Talabi, and President Hill — 9.

Nays — None.

Ordinance No. 570-H, Chapter 21, Article 3, requires the approval of your Honorable Body for the purchase of goods and services over the value of \$25,000, all contracts for personal services renewals or extensions of contracts or the exercise of an option to renew or extend a contract. Based upon the above scheduled recess, there will be a delay in obtaining your approval for needed goods and services. As a result, I will be unable to meet my obligation to obtain needed goods and services for the user agencies, and they, in return, will be unable to meet their obligation to supply mandated services to the people of the City of Detroit.

Therefore, during the recess, I request that your Honorable Body approve our purchase of goods and services requiring your approval under Ordinance No. 570-H under provisions as follows:

1. Weekly list of awards, which are distributed by the Office of the City Clerk to members of the City Council each Thursday, will be held through Wednesday of the following week. In the event any Council Member objects to the contract or purchase, the contract or purchase will be held either until formal action by the City Council or withdrawal of the objection by the objecting Council Member.

2. No contact or purchase order shall be issued if a protest has been filed, or if a vendor has not obtained any required clearance.

The final list of awards submitted prior to recess will be prepared Thursday, November 29, 2001 and processed the following Wednesday, December 5, 2001. The first list, under the Recess procedures, will be prepared by the Purchasing Division on Thursday, December 6, 2001 and the final list will be prepared December 28, 2001.

Health Department

November 2, 2001

Honorable City Council:

Re: Women & Children Expansion/Enhancement Grant. Organization #258871, Appropriation #10729.

The Health Department has been notified by the U.S. Department of Health and Human Services Substance Abuse and Mental Health Services Administration that new funding has been awarded in the amount of \$450,000 for the Women & Children Expansion/Enhancement Grant. This is the first year of a three year grant program which covers the fiscal period September 30, 2001 through September 29, 2002. The complete program will cover three fiscal periods starting September 30, 2001 and ending September 29, 2004.

The targeted population is composed of addicted women who are in need of residential treatment and have dependent children who have no caretaker other than the addicted mother. Because the mother requires intensive residential services, the program will provide care for the dependent children, and perform ongoing case management. The project includes an in depth evaluation of the incoming status of both women and their children, and of changes that occur during the mother's treatment.

We, therefore, request authorization to accept these funds from the U.S. Department of Health and Human

Services in accordance with the foregoing information.

Respectfully submitted,
JAMES A. BUFORD, M.P.H.
Public Health Director

Housing Commission

October 25, 2001

Honorable City Council:

Re: Subject: Infrastructure Improvements at Jeffries Homes.

The Detroit Housing Commission ("DHC") is a significant recipient of HOPE VI Program funding, a major national effort sponsored by the U.S. Department of Housing and Urban Development ("HUD"). Under the HOPE VI Program, HUD's overall goals include a) eliminating blight in existing public housing sites and their adjacent neighborhoods and (b) creating stable, mixed income communities. To maximize the impact of HOPE VI resources, HUD authorized a "mixed finance" approach which allows public housing capital and operating subsidy to be combined with other public and private resources. This approach requires that the City provide a capital infusion to complement the redevelopment program.

To this end, the Department of Public Works ("DPW") has agreed, pursuant to a Memorandum of Understanding ("MOU") entered into between DHC and DPW, to reimburse DHC an amount of \$1,369,189 for Sector 1 infrastructure improvements at Jeffries Homes. Said improvements include: reconstruction of Canfield, Willis and Calumet Streets from John C. Lodge to Gibson, reconstruction of Gibson and Brooklyn from Canfield to Willis, and new street construction of Jeffries Boulevard from Canfield to Willis.

We therefore request your Honorable Body's approval of the transfer of the amount of \$1,369,189 from DPW Appropriation #4189 (Major Street Fund Capital) to DHC Appropriation #10245.

Respectfully submitted,
STEPHANIE R. GREEN

Department of Public Works

Honorable City Council:

Re: City Council Recess from December 3, 2001 through January 4, 2002.

Ordinance 4-96 to amend Chapter 14, Article V, Section 14-5-10 requires the approval of your Honorable Body for contracts, purchase orders or amendments for the procurement of goods or services that are otherwise required for the alteration, construction, extension, improvement, maintenance, operation, reconstruction, or repair which are not excluded under 14-5-10(c) that are in excess of

\$25,000. Based on the recess schedule, there could be a delay in obtaining necessary goods or services without a mechanism to process awards. This could have an adverse impact on the services to the residents of Public Housing in this city.

Therefore, during the recess, I hereby request that your Honorable Body authorize the Detroit Housing Commission to purchase required goods and services which require your approval under the following provisions.

1. Weekly list of awards, which are distributed by the Office of the City Clerk to members of the City Council each Thursday, will be held through Wednesday of the following week. In the event any Council Member objects to the contract or purchase, the contract or purchase will be held either until formal action by the City Council or withdrawal of the objection by the objecting Council Member.

2. No contact or purchase order shall be issued if a protest has been filed, or if a vendor has not obtained any required clearance.

The final list, under the recess procedures, will be prepared by the Detroit Housing Commission on Thursday, November 29, 2001 and the final list of awards, submitted during this recess, will be prepared on December 20, 2001 and processed the following Wednesday, December 28 2000.

Re: Correction of Legal Description, Jefferson-Chalmers Rehabilitation Project, Parcel 1C, bounded by Jefferson, Conner and Clairepointe

On May 2, 1994, your Honorable Body authorized the sale of the captioned property to Eastlake Baptist Church, a Michigan Ecclesiastical Corporation for the development of a worship center and family life center with parking and landscaping to accommodate these facilities.

Re: Public Hearing on Request by New Center Council for Establishment of the "New Amsterdam (Cass Block) Neighborhood Enterprise Zone" in Accordance with Public Act 147 of 1992.

In response to the above referenced request, the Planning & Development Department, in conjunction with the Assessments Division of the Finance Department, have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that approval of the request would be consistent with the Master Plan and the neighborhood preservation and development goals.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public

hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are Amsterdam on the North, Cass on the East, Burroughs on the South, and the vacated alley immediately west of, and parallel to, Cass on the West.

Attached for your consideration please find a resolution establishing a date and time for the public hearing, together with a legal description of the proposed NEZ.

Re: I-94 North Industrial Park Project Waiver Requests/Environmental.

Your Honorable Body adopted a Resolution of Necessity on August 4, 1999 (J.C.C. 2294-2295), with respect to certain parcels of land to be acquired as part of the above-referenced project.

Requests for authorization to waive various costs related to environmental matters with respect to a number of properties in this project area were approved by your Honorable Body on November 29, 1999 (J.C.C. 3475), August 2, 2000 (J.C.C. 2001), November 29, 2000 (J.C.C. 3037), and August 3, 2001. The City's environmental consultants have now obtained access to certain additional parcels in the project area.

The purpose of this letter is to provide a report on the environmental condition of certain properties to be acquired pursuant to the Resolution of Necessity, as required pursuant to Section 2-1-13(C) of the 1984 Detroit City Code, as amended (the "City Code"). In addition, the purpose of this letter is to request that your Honorable Body authorize waiver of the following in the City's good faith offer, appraisal, and declaration of taking: 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity at a facility from the present owner (as that term is defined in 1980 PA 87, as amended), for certain of the non-City owned parcels of land in the project area, as described more fully herein.

A Phase I Environmental Assessment of each of the parcels included in this request has been conducted in accordance with current ASTM standards, and in accordance with the requirements of the Detroit City Code.

With respect to the following parcels, the Phase I did not disclose 1) that these parcels had been used for any purposes other than residential/vacant, nor did it indicate 2) evidence of any recognized environmental conditions:

With respect to the following parcels, the Phase I showed that the parcels are being or have been used in the past for purposes other than residential (the purposes are set forth below); however, the Phase I did not reveal any evidence of recognized environmental conditions, other than conditions that could be anticipated with residential or commercial use, such as asbestos, lead based paint, and above-ground storage tanks for heating purposes:

With respect to the following parcels, the Phase I showed that the parcels are being or have been used in the past for purposes other than residential (the purposes are set forth below); the Phase I did not indicate evidence of recognized environmental conditions, however, the Phase II investigation indicated that a waiver was appropriate because it is unlikely that the current owner/operator was responsible for the conditions identified at the site:

Under the terms of the applicable portions of the City Code (Sections 2-1-15(a), 2-1-15(b) and 2-1-15(c)), City Council may waive 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity at a facility from the present owner (as that term is defined in 1980 PA 87, as amended). In this case, we respectfully submit that the conditions for such waiver are met, because your Honorable Body has previously declared the project necessary and essential to the interests of the public peace, health, safety and welfare of the City, and the acquisition is being accomplished by the exercise of the City's power of eminent domain in a manner consistent with the Uniform Condemnation Procedures Act, 1980, PA 87. In addition, as noted above, no evidence of recognized environmental conditions were found for these properties, except in certain cases, conditions that could be anticipated with residential or commercial use.

Accordingly, for those properties listed above, your Honorable Body is respectfully requested to adopt the attached resolution authorizing waiver of such costs associated with the properties in the City's good faith offer, appraisal, and declaration of taking, with respect to the present owner only. 1980 PA 87, as amended, provides that the condemning authority must state its intent to "waive or reserve" recovery of response costs from the property owner in the appraisal of the property and the good faith offer. MCL Section 213.55. A decision is needed by your Honorable Body at this time in order to comply with the requirements of the statute. A waiver of reconsideration is also hereby respectfully requested.

Respectfully submitted,
PAUL A. BERNARD
Director

By Council Member S. Cockrel:

Whereas, The Planning and Development Department has submitted a report regarding the environmental assessments conducted with respect to the parcels described in Exhibit A, which are a part of I-94 North Industrial Park project area; and

Whereas, The results of said environmental assessments do not indicate any recognized environmental conditions, except, in certain cases, those which could be anticipated with residential or commercial use; and

Whereas, The project has been declared necessary and essential to the interests of the public peace, health, safety and welfare of the city, and the acquisition is being accomplished by the exercise of the city's power of eminent domain in a manner consistent with the Uniform Condemnation Procedures Act, 1980, PA 87; and

Whereas, Based upon the foregoing, the conditions of Article 1, Division 2, Section 2-1-15 of the 1984 Detroit City Code, as amended, for granting a waiver of certain claims have been met;

Now Therefore Be It Hereby Resolved, That, with respect to the present owner of each parcel listed on Exhibit A, waiver of the following costs in the City's good faith offer, appraisal, and declaration of taking be and is hereby authorized: 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity of that parcel.

Honorable City Council:

Re: Acquisition of Property for Road

Right of Way Arts Center Project.

395 E. Ferry.

The acquisition of the above-refer-

enced property is needed for the purpose of widening Brush Street in the Art Center area. The property is located on the northeast corner of Brush and Ferry. The Planning and Development Department is requesting authorization

from your Honorable Body to acquire this property on an opportunity purchase basis for the amount of \$20,000. We believe that this amount is fair and equitable, and reflects fair market value for vacant land in the area.

As required by Section 2-1-11 (et seq.) of the 1984 Detroit City Code, as amended, Phase I and Phase II Environmental Assessments have been completed with respect to the subject parcel. The results of these investigations are summarized in the attached report.

The Phase I Environmental Site Assessment indicates that, during the seller's period of ownership of the property, the property has been vacant, or used for parking. Accordingly, there is no reason to believe that there is a causal relationship between the seller's use of the site and the contamination identified at the property.

In addition, the acquisition of this property is necessary to preserve or promote the public health, safety, welfare or good, and the cost of the environmental assessment would be cost prohibitive to the current owner of the property. Accordingly City Council's authorization to waive the requirement that the seller of the subject parcel bear the cost of the environmental assessment is hereby requested, in accordance with the provisions of Section 2-1-15b of the Detroit City Code.

Respectfully submitted,

PAUL A. BERNARD

Director

By Council Member S. Cockrel:

Resolved, That the Land Acquisition Section of the Planning and Development Department be and is hereby authorized and directed to purchase land in the City of Detroit, County of Wayne and State of Michigan being (described in the foregoing communication, and more particularly described as (Ward: 01 Item 001512) "W40" of Lot 9; B28; Brush Sub Between Farnsworth & Harper (Plats); Liber: 00017, Page: 028, WCR," to be used for the widening of Brush Street, for \$20,000.00 plus necessary closing cost prorations and adjustments, and be it

Further Resolved That, The acquisition of this property is necessary to preserve or promote the public health, safety, welfare or good, and that the cost of the environmental assessment would be cost prohibitive to the current owner of the property, and be it

Further Resolved That, The requirement that the seller of the subject parcel bear the cost of the environmental assessment is hereby waived, in accordance with Section 2-1-15 of the Detroit City Code.

**395 E. Ferry
Report Regarding
Environmental Investigations**
The Phase I Environmental Site

Assessment showed that this property is currently a vacant lot, a small portion of which had formerly been used for auto painting operations. Prior to 1953, the property was owned by Standard Oil Company, and may have been operated in conjunction with an adjacent filling station. After 1953, during the period of ownership by the seller, the property was vacant or used for parking. In addition, the Phase I ESA indicated that the adjacent parcel to the southwest was a former filling station, and the adjacent parcel to the northwest was a former auto repair shop.

A Phase II Environmental Site Assessment was performed in October, 2001. The Phase II investigation showed that several constituents (lead, arsenic and benzo (a) pyrene) exceeded applicable residential criteria. Accordingly, the property is a facility, as defined by state law.

Honorable City Council:

Re: Medical Center Rehabilitation Project No. 1. 3600 Woodward Project, 3670 Woodward, located on the northeast corner of Woodward and Mack Avenue.

On June 9, 1998, your Honorable Body authorized an Agreement by and between the City of Detroit, Woodward Millennium Limited Partnership, a Michigan limited partnership and H. F. Campbell Company, a Michigan Corporation, for the development of the property described above. Under the terms of said agreement dated June 26, 1998, H. F. Campbell conveyed the captioned property to Woodward Millennium for the development of the 3600 Woodward Project.

Woodward Millennium Limited Partnership proposes to construct an urban mixed-use development consisting of (1) 45 loft style condominiums with approximately 20,145 square feet of street-level retail, (2) an 810 space parking garage, and (3) a three story garden style apartment building with 135 units. The site is zoned PD (Planned Development) and is located within the boundaries of the Second Modified Development Plan for Medical Center Rehabilitation Project No. 1 (approved by Detroit City Council on October 22, 1998). The site plan for this project was presented to the Medical Center Rehabilitation Project Citizen's District Council for their review on July 26, 2001 and approved by Detroit City Council on September 26, 2001.

Woodward Millennium Limited Partnership has requested that the Agreement be amended to:

1. Permit the development of the property in three phases, corresponding to the description of the development set forth above;
2. Provide the Certificates of Completion may be issued independently for each of the three phases;
3. Provide that the City's reverter interest may be released with respect to a condominium unit upon the completion of that unit;
4. Extend the commencement and completion dates under the terms of the agreement as follows: commencement within 1 year; completion of Phases I and II by December 31, 2004.
5. Allow the City to convey and transfer title to affiliated entities controlled by Woodward Millennium Limited Partnership allowing the developer to finance, develop and sell or lease portions of the project in different entities, provided that Woodward Millennium Limited Partnership shall remain responsible for the development of the project; and
6. Allow the interest of H. F. Campbell to be acquired by Peter Cummings or an entity controlled by Peter Cummings.

We have evaluated the request and have determined that the requested changes will lead to the orderly and timely development of the site and thus are in the best interest of the City of Detroit. A resolution consistent with the above is submitted for your consideration. Due to the desire of both the City and the Developer to commence construction as soon as possible, we respectfully request that your Honorable Body adopt the attached resolution with a waiver of reconsideration.

Respectfully submitted,
PAUL A. BERNARD

Honorable City Council:

Re: Transfer of Jurisdiction and Exchange of Surplus Property Development: Parcel 194; located on the Northeast corner of W. Warren & Rosa Parks Blvd.

On October 1, 1963 (JCC Page 2491) your Honorable Body authorized the transfer of the above-captioned property to the Department of Public Works (DPW) to be dedicated as street right-of-way to accommodate the future widening of W. Warren and Twelfth Streets. Since that time, DPW has decided not to move forward with the development and has now declared this property surplus to their needs. DPW is requesting that P&DD assume jurisdictional control over this property and for it to be made available for development.

We are now in receipt of an offer to purchase the captioned property from Detroit Area Boy Scouts of America, a Michigan Non-Profit Corporation for the amount of \$7,000.00 and to develop this property. This vacant land is located on the Northeast corner of W. Warren and Rosa Parks Blvd. and contains approximately 18,425 square feet and is zoned B-1 (Restricted Business District).

The Offeror proposes to use this property in conjunction with its adjacent property to construct a new scout community center with a paved surface parking lot for the storage of licensed operable vehicles to accommodate the new facility. This use is permitted as a matter of right in a B-1 zone.

We, therefore, request that your Honorable Body rescind the dedication as street right-of-way and authorize the transfer of jurisdiction of Parcel 194 from the Department of Public Works to the Planning & Development Department.

We, further, request that your Honorable Body authorize the sale with a Waiver of Reconsideration and authorize the Finance Department Director to execute an agreement to purchase and develop this property with Detroit Area

Council Boy Scout of America, a Non-Profit Corporation.

Respectfully submitted,
PAUL A. BERNARD

Director

By Council Member S. Cockrel:

Honorable City Council:

Re: Amended Applications for Industrial Facilities Exemption Certificates (IFECs) Submitted by ArvinMeritor O. E., L. L. C., and Accompanying New Written Agreements, which Replace Meritor Light Vehicle Systems, Inc., as the Title Holder/Taxpayer on Applications for IFECs which your Honorable Body has Previously Approved (Petition Nos. 3006 and 3026).

On September 25th, your Honorable Body conducted discussions on two applications for IFECs, under Public Act 198 of 1974, submitted by Meritor Light Vehicle Systems, Inc. One application was for an IFEC providing tax abatement for the company's investment in personal property at a temporary facility located at 2301 W. Lafayette, the other for tax abatement for the company's investment in personal property, and commitment for the payment of property taxes on leased real property, at the company's permanent facility at 6401 W. Fort. Your Honorable Body gave formal approval to both of these applications and accompanying written agreements on September 26th, and the applications and written agreements were forwarded to the Michigan State Tax Commission for a final decision, as provided by the Act.

Late in the processing of these two applications, the Department was advised that title to the assets and/or responsibility for the payment of property taxes on leased improvements which were the subject of the two applications had been transferred from Meritor Light Vehicle Systems, Inc. to ArvinMeritor O. E., L. L. C., a sister company within the Arvin/ Meritor group of companies. We were advised by the Michigan State Tax Commission that, inasmuch as the two companies were closely related, and no IFEC had as yet been issued, that the issuance of IFEC's in the name of the new title holder/taxpayer could be accomplished by the new title holder/taxpayer submitting to the Detroit City Clerk amended applications for IFECs, changing only the name from the original applications filed by Meritor Light Vehicle Systems, Inc., and by the new title

holder/ taxpayer entering into new written agreements with the City of Detroit.

At the September 25th discussions your Honorable Body stipulated that the new written agreements must be submitted for your review and approval prior to their submission to the Michigan State Tax Commission. Attached please find copies of the two new written agreements, which incorporate the amended applications, and also two resolutions, reviewed by the Law Department, approving the new written agreements. If these written agreements and resolutions meet with your approval, they will be forwarded to the Michigan State Tax Commission.

Respectfully submitted,
ERIC R. SABREE

By Council Member S. Cockrel:

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facilities on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under

Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility costs are less than that to which the Applicant committed itself in the Application; 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this agreement.

6. Payment of Abated Taxes for Shortfall of Employment.

If the average number of new and retained full-time employees at the Facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

7. Reimbursement of City Costs upon Discontinuance of Operations.

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during

the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

8. Living Wage Ordinance.

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is attached as Exhibit "D" and made a part hereof, and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificates. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

9. Prevailing Wage Requirements.

The Applicant agrees that Detroit Ordinance Ch 18, Art 5, Div 4 is made applicable to this Agreement by Section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

10. Reservation of Remedies.

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

11. Effective Date.

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void and of no

force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

12. Notice to Employees at Facility.

Upon issuance of an IFEC by the Michigan State Tax Commission, the Applicant will inform employees at the Facility that tax abatement has been approved by the City and the State. Such notice will include all commitments made in this agreement such as the number of jobs to be crated and retained, the investment to be made, and job training and any other economic or social programs to be provided as set forth in this agreement.

13. Headings.

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

Honorable City Council:

Re: Amended Applications for Industrial Facilities Exemption Certificates (IFECs) Submitted by ArvinMeritor O. E., L. L. C., and Accompanying New Written Agreements, which Replace Meritor Light Vehicle Systems, Inc., as the Title Holder/ Taxpayer on Applications for IFECs which your Honorable Body has Previously Approved (Petition Nos. 3006 and 3026).

On September 25th, your Honorable Body conducted discussions on two appli-

cations for IFECs, under Public Act 198 of 1974, submitted by Meritor Light Vehicle Systems, Inc. One application was for an IFEC providing tax abatement for the company's investment in personal property at a temporary facility located at 2301 W. Lafayette, the other for tax abatement for the company's investment in personal property, and commitment for the payment of property taxes on leased real property, at the company's permanent facility at 6401 W. Fort. Your Honorable Body gave formal approval to both of these applications and accompanying written agreements on September 26th, and the applications and written agreements were forwarded to the Michigan State Tax Commission for a final decision, as provided by the Act.

Late in the processing of these two applications, the Department was advised that title to the assets and/or responsibility for the payment of property taxes on leased improvements which were the subject of the two applications had been transferred from Meritor Light Vehicle Systems, Inc. to ArvinMeritor O. E., L. L. C., a sister company within the Arvin/Meritor group of companies. We were advised by the Michigan State Tax Commission that, inasmuch as the two companies were closely related, and no IFEC had as yet been issued, that the issuance of IFEC's in the name of the new title holder/taxpayer could be accomplished by the new title holder/taxpayer submitting to the Detroit City Clerk amended applications for IFECs, changing only the name from the original applications filed by Meritor Light Vehicle Systems, Inc., and by the new title holder/ taxpayer entering into new written agreements with the City of Detroit.

At the September 25th discussions your Honorable Body stipulated that the new written agreements must be submitted for your review and approval prior to their submission to the Michigan State Tax Commission. Attached please find copies of the two new written agreements, which incorporate the amended applications, and also two resolutions, reviewed by the Law Department, approving the new written agreements. If these written agreements and resolutions meet with your approval, they will be forwarded to the Michigan State Tax Commission.

Respectfully submitted,

ERIC R. SABREE

By Council Member S. Cockrel:

Whereas, Title to the assets and/or responsibility for payment of the property taxes on leased improvements which are the subject of the aforesaid application and written agreement have been transferred from Meritor Light Vehicle Systems, Inc., to ArvinMeritor O. E., L. L. C., a sister company within the ArvinMeritor group of companies; and

Whereas, The Michigan State Tax Commission has stipulated that an IFEC may be issued to the new title holder/taxpayer upon the new title holder's/taxpayer's submission of an application to the Detroit City Clerk which amends Meritor Light Vehicle System, Inc.'s original application, changing only the name of the applicant, and upon the Commission's receipt of a new written agreement executed by the new title holder/taxpayer and the City of Detroit; and

Industrial Facilities Exemption Certificate Agreement

THIS AGREEMENT, made this 7th day of November, 2001 by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and ArvinMeritor O. E. L. L. C. ("the Applicant"):

WITNESSETH:

Whereas, The Applicant has submitted an Amended Application ("Application") to the City for adoption of a resolution giving the City's approval of an Industrial Facilities Exemption Certificate ("IFEC") pursuant to Public Act 198 of 1974, as amended, for real and personal property ("Facility") to be located at 6401 W. Fort, Detroit, Michigan (A copy of the Amended Application is attached hereto as Exhibit "A"); and

Whereas, The Amended Application was submitted for the purpose of transferring title of a previous application for an IFEC, submitted by Meritor Light Vehicle Systems, Inc., which was approved by the Detroit City Council on September 26, 2001, and submitted on October 22, 2001 to the Michigan State Tax Commission for the Commission's approval; and

Whereas, ArvinMeritor OE, L.C.C., agrees to assume all responsibilities and obligations of Meritor Light Vehicle Systems, Inc., as Meritor Light Vehicle Systems, Inc., stated in its application for an IFEC and in the Industrial Facilities Exemption Certificate Agreement, dated July 24, 2001 entered into by Meritor Light Vehicle Systems, Inc., with the City of Detroit if such IFEC has been granted or is granted in the future for the investment being made at 6401 W. Fort; and

Whereas, The Applicant has made personal property improvements for the purpose of establishing a glass encapsulation process; and

Whereas, As part of its application for an IFEC, Meritor Light Vehicle Systems, Inc., submitted an employment plan to the City of Detroit Human Rights Department wherein it represented that during the term of the IFEC it would not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the eco-

nomie growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

1. General.

a. The Applicant will make real and personal property improvements as set forth in the Application.

b. The Applicant will be required to create one hundred thirty two (132) new full time employees at the Facility within two years of the Approval Date.

c. The Applicant will retain:

I) one hundred forty one (141) full time employees for two (2) years from the approval date.

II) two hundred seventy three (273) full-time employees at the Facility commencing two (2) years from the approval date and throughout the term of this agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

2. Annual Affirmative Action Report by the Applicant.

On or before July 5, 2002 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

3. Annual Status Report by the Applicant.

On or before February 1, 2002, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facilities during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facilities on March 31st, June 30th,

September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

4. Review and Audit of Applicant Employment Information.

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility costs are less than that to which the Applicant committed itself in the Application.; 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this agreement.

6. Payment of Abated Taxes for Shortfall of Employment.

If the average number of new and retained full-time employees at the Facility during the calendar year preceding the

date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

7. Reimbursement of City Costs upon Discontinuance of Operations.

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

8. Living Wage Ordinance.

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is attached as Exhibit "D" and made a part hereof, and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall

constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificates. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

9. Prevailing Wage Requirements.

The Applicant agrees that Detroit Ordinance Ch 18, Art 5, Div 4 is made applicable to this Agreement by Section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

10. Reservation of Remedies.

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

11. Effective Date.

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

12. Notice to Employees at Facility.

Upon issuance of an IFEC by the Michigan State Tax Commission, the Applicant will inform employees at the Facility that tax abatement has been approved by the City and the State. Such notice will include all commitments made in this agreement such as the number of jobs to be created and retained, the investment to be made, and job training and any other economic or social programs to be provided as set forth in this agreement.

13. Headings.

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive

content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

Re: Skywalk linking Millender Center and Renaissance Center.

The City of Detroit ("City"), the City of Detroit Downtown Development Authority ("DDA"), and Riverfront Holdings, Inc. ("RHI"), as successor in interest to Millender Center Associates and Renaissance Center Ventures, Inc. are parties to several agreements governing the construction, maintenance, repair, replacement and removal of the skywalk linking the Millender Center and the Renaissance Center ("Skywalk"). The City, RHI and the DDA are also parties to a certain Infrastructure Improvements Development Agreement dated as of April 30, 1999 ("Development Agreement").

The Development Agreement allows RHI, land holding company of General Motors, to remove the mechanical berms along the south line of Jefferson Avenue as part of its redevelopment of the Renaissance Center, which includes the construction of a pedestrian plaza. The west berm presently acts as structural support to the Skywalk. The Development Agreement provides that RHI shall amend the Skywalk agreements requiring RHI to provide adequate structural support for the Skywalk in place of the berms.

Attached for your consideration is a resolution authorizing the City to enter into and execute an amendment to the Skywalk agreements for the aforementioned purpose.

Petition No. 3713B of "Riverfront Holdings, Inc.," a Delaware corporation having its principal place of business at 200 Renaissance Center, Suite 1300, Detroit, Michigan 48243 ("RHI") requests to vacate, amend and grant certain Permanent and New Temporary Easements for streets lying within Renaissance Center Phases I and II, currently the site of the GM Global Headquarters and the East Riverfront Area.

To develop properties in the Renaissance Center Project area it is necessary to obtain Council approval for numerous adjustments in streets. This phase will address the following:

(1) Modification to Agreement and Grant of Easement for Permanent Easement Streets, by and between Renaissance Center Partnership and the City dated November 15, 1974 recorded

in Liber 18986 Page 361 (the "PES Agreement") as follows:

(i) Renaissance Drive North, including the Brush Street connector to Jefferson Avenue shall become a private road.

(ii) Renaissance Drive West shall become a private road and connect to vertically realigned Atwater Street.

(iii) Renaissance Drive South has been demolished and replaced by said vertically realigned Atwater.

(b) The permanent easements granted to the City for Lobby Level Streets are to be altered as follows:

(i) Parkway Drive (north/south road running north from Atwater Street) easement shall be vacated as will be specified in a legal description to be subsequently provided by RHI and certified by the City Engineering Division — Survey Bureau of the Department of Public Works.

(ii) A permanent easement shall be granted by RHI to the City for that portion of Atwater Street west of the property known as Renaissance Center Phase I ("Phase I") to the east right of way line of Bates Street.

(iii) A permanent easement shall be granted by RHI to the City for that portion of Atwater Street east of Phase I to the west right-of-way line of St. Antoine Street as will be dedicated pursuant to the Dedication Agreement by and between RHI and the City ("St. Antoine Dedication Agreement")

(iv) The entire permanent easement in Atwater Street shall be vertically realigned as will be specified in a legal description to be subsequently provided by RHI and certified by the City Engineering Division — Survey Bureau of the Department of Public Works based on as-built conditions.

(v) The permanent easement in Beaubien Street shall be vertically realigned as will be specified in a legal description to be subsequently provided by RHI and certified by the City Engineering Division — Survey Bureau of the Department of Public Works based on as-built conditions.

(c) The permanent easements granted to the City in all Service Level Streets shall be vacated.

(2) Modification to Agreement and Grant of Easement for Phase II Permanent Easement Streets, by and between Renaissance Center Partnership and the City dated February 18, 1980 recorded in Liber 21459 Page 409 (the "PES II Agreement") to vacate the public easements in Franklin Street Phase II in the area west of St. Antoine which area comprises a ramp leading only to the lower level of Phase I and in Renaissance Drive North Phase II (also known as

Woodbridge Street) east of the east line of Phase I and St. Antoine Street.

(3) Modification to Agreement and Grant of Easement for New Temporary Easement Streets, by and between Renaissance Center Partnership, Ford Motor Properties, Inc. and the City dated February 1977 (the "NTES Agreement")

(a) The temporary easement granted to the City for Atwater Street between the west line of Phase I and the east right-of-way line of Bates Street shall be vacated and a permanent easement shall be granted pursuant to an amendment of the PES Agreement in (1)(b)(ii) above.

(b) The temporary easement granted to the City for Atwater Street commencing at the east line of Phase I and proceeding easterly and northerly to the intersection of St. Antoine Street and vacated Atwater Street shall be vacated.

(i) The vacation for that portion lying west of the west right-of-way line of that portion of St. Antoine to be dedicated, which is a ramp shall be effective immediately.

(ii) The vacation for that portion lying west of the west right-of-way line of that portion of St. Antoine to be dedicated, which is at grade shall be effective immediately for the reason that this portion will simultaneously be granted as a permanent easement.

(iii) The vacation for that portion lying east of the west right-of-way line of that portion of St. Antoine to be dedicated, also known as Parcels "U" and "Z" shall become effective upon the dedication of Parcels "U" and "Z" as public right-of-way.

The City Engineering Division — DPW/Street Design Bureau and the Traffic Engineering Division of DPQ approved the request. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All city departments and privately owned utility companies have no objections to the requested change in public rights-of-way.

An appropriate resolution is attached for consideration by your Honorable Body.

Respectfully submitted,

Taken from the Table

The ordinance was then placed on the order of third reading.

THIRD READING OR ORDINANCE.

The title to the Ordinance was read a third time.

The ordinance was then read.

Council Member Everett then moved to amend the ordinance by the following substitute ordinance:

Law Department

November 20, 2001

Honorable City Council:

Re: Non-Substantive Clarifications of 2001 Defined Benefit/Defined Contribution Ordinance.

On November 16, 2001, attorney Doyle O'Connor, representative of various labor organizations, sent a letter to Labor Relations Director Roger N. Cheek raising concerns about potential ambiguities in the language of certain sections of the Defined Contribution Plan portion of the above-referenced ordinance. His letter reflected distribution of copies of the letter to all City Council members, in addition to the enumerated labor union representatives.

We have considered the points raised by Mr. O'Connor's letter, which boil down to the contentions that: 1) Section 47-3-14(A) might be misread to imply that the City has usurped the right to unilaterally amend the ordinance and the Defined Contribution Plan in derogation of the terms of collective bargaining agreements, despite the express recognition in Section 47-3-14(G) of the ordinance that a collective bargaining agreement shall control in the event of conflict between the ordinance and a labor agreement; and 2) that Section 47-3-14(H) grants the Board of Trustees the power and discretion to modify or amend the Defined Contribution Plan without action by the City Council or other authorization, despite the express provision at Section 47-1-11(B) that the Board has no power to modify or alter the Plan, and the Board's established past practice consistent with this basic limitation on its authority.

Although we do not believe that there is any serious jeopardy that these provisions of this ordinance may or will be misconstrued in the manner suggested by Mr. O'Connor, nevertheless, out of an abundance of caution we will add the clarifying language outlined in bold on the attached pages to Sections 47-3-14(A) [recognized that the ordinance is subject to the terms of collective bargaining agreements] and 47-3-14(H) [recognizing that the Board of Trustees has the power and discretion to modify or alter administrative rules and procedures adopted in implementation of the Plan].

By copy of this letter, we are also providing these language revisions to Mr. O'Connor for distribution to his client organizations.

Because these language additions are clarifications, and do not change the substance of the ordinance, they do not require reintroduction of the ordinance. However, a new and complete substitute version of the entire ordinance incorporating these changes will be provided to your Honorable Body and the City Clerk for your consideration and action.

Please do not hesitate to raise to us any questions concerning the above.

Respectfully submitted,

PHYLLIS A. JAMES

Corporation Counsel

Honorable City Council:

Re: Proposed Fourth Amendment to Casino Development Agreements.

As you recall, a multi-party agreement which resolved the legal controversy surrounding siting of Detroit's three permanent casino complexes and other related issues was memorialized in a March 29, 2001 Memorandum of Understanding ("MOU") executed by the City of Detroit, the Economic Development Corporation of the City of Detroit, Greektown Casino, L.L.C., MGM Grand Detroit, L.L.C. and Detroit Entertainment, L.L.C. Subsequent to the execution and announcement of that MOU, the parties conducted extensive negotiations and drafting of a full-scale Fourth Amendment to the Casino Development Agreements incorporating the MOU's business terms.

Despite the execution of the MOU and

several subsequent reaffirmations of it by all casino developers, Greektown Casino, L.L.C. and Detroit Entertainment, L.L.C. terminated drafting and execution of the final version of the Fourth Amendment for presentation to City Council, citing "political reasons." Thereafter, during the ensuing mayoral campaign, Fourth Amendment negotiations ceased.

Negotiations were recommenced after the election on November 6, 2001. However, the Administration and the three casino developers were not able to reach consensus on several new points raised by the developers, in addition to the renewed issue of siting of all three permanent casino complexes.

Accordingly, all parties have agreed to a form of Fourth Amendment to the Casino Development Agreements which extends their closing date (December 31, 2001) for ninety days into Year 2002, resulting in deferral of these issues to the next Administration. Enclosed please find a form of Fourth Amendment which accomplishes this extension of the agreements and thus maintains their viability. Of course, the existence of valid development agreements with the City of Detroit are a prerequisite to maintenance by the casino developers of valid licenses to operate their casinos. We are still in the process of obtaining the executed signatures on these documents, and will present the executed Fourth Amendment documents to you when we have obtained them.

Re: Address: 12600 Camden. Name: Lakeisha Mallory. Date ordered removed: July 25, 2001 (J.C.C. pp. 2119-2120).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 26, 2001 revealed the building is secured and appears to be sound and repairable.

The owner has entered into an approved Tax Payment Plan to pay the current taxes due as of October 19, 2001.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition ordered be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. You will be required to obtain relevant permits for all rehabilitation work performed. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. You will not occupy or allow occu-

pancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, you must contact this department to arrange an inspection to evidence you have met the conditions of the deferral or have made substantial progress toward rehabilitation. If the building becomes open to trespass or if you do not comply with the conditions of the deferral, we are authorized to notify City Council and request the Department of Public Works to proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Historic Designation Advisory Board

November 27, 2001

Honorable City Council:

Re: Petition #3455, Petition of Kales Bldg., L.L.C. requesting historic designation of Kales Building at 75 W. Adams.

The Historic Preservation Advisory Board is now prepared to proceed with an official study responding to the above-captioned petition.

As was explained in our communication to Council of April 11, 2001, this staff is concerned that this request for a single building likely will not meet the National Register criteria for designation of historic structures. We are required by the Michigan Historic Districts Act to be "guided" by those federal criteria in considering local historic designation. The Kresge/ Kales Building is one structure of many already designated by the National Register as the Grand Circus Park Historic District. While the City might well consider a district with boundaries that differ from the National Register Grand Circus Park Historic District, it would appear that the designation of this single building would violate the federal criteria. Therefore, if your Honorable Body wishes to proceed, we would recommend that you direct this staff to study the area and to recommend to Council a larger area for study, including the Kresge/Kales Building.

The petitioner is associated with the Ferlito development interests; the firm desires to use the state tax credit for historic structures in association with the rehabilitation of the Kales Building. We believe that there are other rehabilitation projects in the area now in planning or actual construction which would likewise benefit.

I am pleased to attach a draft resolution for your consideration, directing this board to study the Grand Circus Park area for possible local historic designation. The boundaries given are for the purpose of defining the study area, and will not necessarily be those recommended to your Honorable Body should the HDAB recommend designation.

We will provide a draft resolution appointing HDAB ad hoc members satisfying the legal requirements for such membership in connection with this study within twenty-four hours.

Respectfully submitted,
WILLIAM M. WORDEN

Director

By Council Member Everett:

Whereas, The City Council has received a request to designate the Kales Building located on Grand Circus Park as an historic district, and

Whereas, The City Council has determined that it is more appropriate under the terms and condition of the Michigan Local Historic Districts Act to consider the

Kales Building as part of a larger proposed historic district, and

Whereas, The City Council finds that there are reasonable grounds for such a request,

Now, Therefore, Be It Resolved, That the City Council hereby directs the Historic Designation Advisory Board, a study committee, to conduct studies to determine whether a proposed Grand Circus Park Historic District, meets the criteria for historic designation and to issue appropriate reports in accordance with the Michigan Local Historic Districts Act and Chapter 25-2 of the Detroit City Code. The area for said study is to include Grand Circus Park and all properties adjacent to it on Adams Avenue, Park Avenue, and Witherell Street.

They are David DiChiera, or his representative, who would represent the ownership interest of properties in the area; and Ray Litt, of the Downtown CDC, or his representative, would represent the community interest. A resolution of appointment is attached for your consideration.

Staff is available to answer any questions you may have.

Respectfully submitted,
WILLIAM M. WORDEN

By Council Member Everett:

Whereas, The City Council has adopted a resolution for study of the Grand Circus Park area as a proposed Historic District, and

Whereas, The Historic District Ordinance (Chapter 25-2) requires the appointment of ad hoc members to the Historic Designation Advisory Board to represent the interests of property owners and those interested in the preservation of this historic resource,

Now, Therefore, Be It Resolved, That the City Council appoints David DiChiera, or his representative, representing an ownership interest; and Ray Litt, chair-

person of the Downtown CDC, or his representative, as ad hoc members of the Historic Designation Advisory Board in connection with the study of the Grand Circus Park area as a proposed Historic District.

Honorable City Council:

Re: Proposed Expansion of I-94 (Departmental Status Report and Resolution).

At your Honorable Body's October 2, 2001 discussion of the above matter, you requested that City Planning Commission (CPC) staff meet with the Executive Branch departments to develop a unified City position on this matter and to draft a resolution for your action. Following is a status report and attached is a resolution for your consideration.

At the October 2 discussion, the Director of the Department of Public Works (DPW) expressed concern about the recommendation from CPC. Your Honorable Body requested that CPC staff meet with representatives from DPW and from the other affected Executive Branch departments to come to a consensus regarding the City's position and recommendations to the Michigan Department of Transportation (M-DOT) regarding the project. A meeting did take place between CPC, DPW, the Planning and Development Department, and the Department of Transportation. Comments were made by all departments, and recommendations were developed. From these recommendations, a resolution was developed. The resolution substantially reflects the recommendation made by CPC.

One issue that remained regarding the expansion, that has been raised by members of the community, is how the proposed continuous service drive conflicts with the buffer between Hendrie Street and the freeway called for in the Art Center Development Plan. Questions have been raised as to whether a State project has to conform to local development Plans. The CPC certainly feels that the concerns need to be addressed to avoid Hendrie Street becoming a service drive, with all the attendant traffic and noise. The attached resolution addresses this issue.

By Council Member Everett:

Whereas, The City of Detroit, through various departments, including Public Works, Transportation, and Planning and Development, and the City Planning Commission (CPC), has been involved with the Michigan Department of Transportation (M-DOT) in the planning of the reconstruction and expansion of the I-94 Expressway between Connor and I-96; and

Whereas, M-DOT has produced a draft Environmental Impact Statement (DEIS); and

Whereas, As part of the DEIS, a Build Alternative was proposed; and

Whereas, That build Alternative contains numerous significant modifications, many of which improve the functioning and safety of the freeway; and

Whereas, Both the City Council and the CPC have held public hearings on the DEIS and received many constructive comments from the public urging the inclusion of provisions for mass transit and expressing concerns about the widening of the right-of-way; and

Whereas, Upon review of the document, the City Planning Commission found that mass transit alternatives or mass transit complements to the selected design do not appear to have been adequately explored or, if explored, are not properly represented within the DEIS; and

Whereas, Near-in suburbs and those lining the highway network are facing the impacts of improvement to that network, necessitated by a decaying and/or inefficient infrastructure, existing traffic congestion and projected future demand; and

Whereas, The current climate, with so much interest in new and improved transit, seems to present an opportunity for the city and suburbs to finally unite, cross the intrinsic barriers of class, race, etc., and pursue and develop a regional transit agenda, as shown in SEMCOG's adoption of a transportation plan; and

Whereas, I-94 is a key component of the area's transportation network, linking the City with many suburban cities; and

Whereas, Both the CPC and Executive Branch departments have met and developed a joint recommendation regarding the DEIS;

Now, Therefore, Be It Resolved, That the Detroit City Council supports the proposed Build Alternative with the following changes:

1. the removal of the fifty-five foot wide center median,
2. the addition of continuous 38 feet wide service drives in each direction (two 11 foot wide traffic lanes and a 16 foot wide multi-purpose lane for potential mass transit use),
3. in conjunction with the continuous service drive concept, the addition of a street east of Woodward and parallel to

the service drive for local traffic in order to protect the residences along Hendrie St.,

4. the preparation of an Environmental Assessment considering the impact of the proposed widening over the entire I-94 corridor from Wyoming to I-696,

5. the inclusion in the EIS of consideration of the Detroit Intermodal Freight Terminal Study's impact on truck traffic on I-94,

6. the reduction in the spacing between the auxiliary lanes and mainline lanes as much as possible and the "tightening" of ramping geometrics in order to limit the taking of private property,

7. the provision of special consideration to the schools along the corridor regarding noise mitigation, including that they are not to be treated as residences in determining whether noise barriers are justified,

8. the provision of a close examination in the EIS of using rapid transit as a traffic construction mitigation component, using flexible TEA 21 funding in the corridor,

9. the correction by M-DOT of all existing noise and air quality violations as part of any reconstruction of the freeway, per federal guidelines,

10. the securing by M-DOT of all funding for the noise barriers — walls, landscaping, buffering, etc. — as well as funding for modifications of streets intersecting the service drives and on-going maintenance of the barrier walls before any highway approvals are given,

11. the analysis of the railroad right-of-way east of I-75 and south of I-94 for use as both a vehicular road and continuing as a railroad line, given its importance as a link in the railroad line linking Metro Airport/Ann Arbor and downtown Detroit.

And Be It Further Resolved, That a copy of this resolution be forwarded to the Michigan Department of Transportation, the Federal Highway Administration, SEMCOG, the Detroit Regional Chamber of Commerce and other as appropriate.

October 12, 2001

Honorable City Council:

Re: Policy Proposal on Banners on Public Lighting Poles. (Follow-up Report; Submitting Revised Policy and Code Amendment for Approval).

Submitted for City Council review and approval is a copy of a revised policy proposal on banners on public lighting poles prepared collaboratively with the Public Lighting Department (PLD), Department of Public Works (DPW) Traffic Engineering, the Office of Protocol of the Mayor's

Office, the Law Department, and the City Planning Commission (CPC) staff. Attached for your consideration is a resolution for your Honorable Body to endorse and adopt the proposed policy for all banner decisions made after the date the resolution is adopted. In addition, please find a proposed amendment to Section 42-1-15 of the City Code.

COMMUNITY FEEDBACK PROCESS

City Planning Commission (CPC) staff originally submitted a copy of the proposed policy to your Honorable Body on November 28, 2000. At that time, you requested CPC staff to notify community organizations who use banners of the proposed changes and obtain their feedback. CPC staff identified fifty-one organizations based on a database maintained by DPW Traffic Engineering as well as the City Clerk's records of banners requests over a one-year period. Of these, 17 were churches, 7 were community organizations, 10 were private businesses, and the rest were non-profit institutions.

A letter and copy of the proposed policy was mailed to all fifty-one organizations. In addition, the organizations were invited to a community meeting to discuss the proposed changes hosted by CPC staff on Wednesday, February 21, 2001. One community organization, three non-profit institutions, and three representatives of private business attended the meeting. In addition, there were representatives from DPW Traffic Engineering and PLD to answer questions. After the meeting, two additional community organizations and one church provided their feedback in writing.

CPC staff recently sent the revised policy, application, and evaluation criteria to the organizations that provided feedback in order to thank them for the participation and notify them of the revisions made as a result of the information they provided.

COMMUNITY CONCERNS

There were some valid concerns raised, and the policy has been modified to address them. Please find below the major concerns and how they have been addressed in the final draft of the policy.

Banner size

Organizations who use banners as well as a company that manufacturers them were concerned that the policy specified a maximum size of 32 inches in width and 84 inches in height. They noted that the standard banner size is 30 inches in width by 94 inches in height, and many organizations have invested in banners and hardware of this size. After PLD confirmed that 30 by 94 sized banners are safe for public lighting poles, the policy was changed so that the maximum banner size is 30 inches in width and 94 inches in height.

Banner spacing

The original draft of the policy required

a minimum spacing of 250 feet apart, including banners that exist at the time of the installation. Banner users were very concerned that the overall effect of banners would be greatly minimized at this distance between banners. At the same time, City departments wanted to be sure that banners are not too highly concentrated in any specific area as a safety precaution and way to prevent visual clutter. The banner policy has been revised to require a minimum of 120 feet or every other pole apart, whichever is greater, including banners that exist at the time of installation.

Permit duration

The banner policy establishes permit durations that differ by banner type. In the original draft, permits for community banners could last up to 90 days with possible extension up to a maximum of 270 days. Permits for non-profit banners could last up to 90 days with no possibility of extension. Permits for special event banners could begin a maximum of 30 days prior to the start of the event and end within 72 hours of the close of the event.

Concerns were raised about whether the timeframe for community and non-profit banner permits was too restrictive. In particular, there was great concern about prohibiting renewal of non-profit banner permits. There were also questions about whether anniversaries and sport teams' playoffs would be allowed under the "Special Events" banner category.

The revised policy allows renewal of non-profit banner permits for an additional 90 days for a maximum of 180 days. The inter-departmental working group noted that non-profit banners frequently occupy poles that are in high demand (e.g., Cultural Center and Central Business District). Allowing one 90-day renewal will make banners more economically feasible for non-profits without occupying poles for extensive periods of time. The working group did not support increasing the community banner permit duration, although there was some support for decreasing it to 180 days.

Also, some language was added to the "Special Event Banner" definition to clarify whether anniversaries and/or playoffs would be included. It reads, "Examples of special events include events of national importance (e.g., Van Gogh, Stanley Cup, World Series, NFL Playoffs, etc.). Sports seasons or cultural events would not in and of themselves qualify under this category. There may be some special considerations for attractions, and these will be considered on a case-by-case basis."

Petitioner eligibility

Some organizations believed the policy is not clear about what types of organizations are eligible to apply for a banner permit. The working group disagrees. The

policy articulates the type of banners that are eligible in Section 1. These include: City sponsored, community, non-profit, business district, special event, and holiday. The policy is very clear that the public right-of-way is not to be used for commercial or political advertising. Telephone numbers, addresses, and website addresses are also prohibited. The purpose of banners is clearly stated, i.e., "to celebrate the City, its civic institutions, or public activities and events in the City."

Burdensome application requirements

The proposed policy requires an application fee, a refundable deposit that varies by the number of banners requested, and \$1 million in liability insurance. Some organizations were concerned about meeting these requirements. The inter-departmental working group wants to be sure that the policy helps protect the City and offsets the excessive cost to the City of running a banner program. At the same time, it wants to make sure that smaller community organizations are still able to participate.

The policy does allow private sponsorship as a means for smaller community organizations to offset the cost of banners. Also, the revised policy requires the application be filed jointly by organizations and the banner installation company. This means that either entity can carry the \$1 million liability insurance policy.

State and County roadways

As the policy indicates, the banner permit application process is longer when it includes State trunk lines or County roadways (180 days in advance versus 60 days in advance). This is because, in addition to the City's process, the State and County have their own processes that the City must follow. Community organizations want to know up-front whether their request involves State or County roadways. As a result, the banner permit application now includes a listing of State trunk lines and county roadways.

Removal of banner hardware

The original draft of the banner policy required a professional company to remove banners "and hardware" after the permit expires. There was a question about whether the policy allows removal of the banner and the arm only. Removing the actual brackets would be time consuming and would add to an organization's removal cost. Recognizing the validity of this point, the revised policy does not include "and hardware" so that just the banners and arms must be removed and the banding could remain to be used for future banners.

Other signage programs

One organization wanted clarification about how the banner policy relates to other signage programs proposed in a given area (e.g., directional, interpretive, etc.) Members of the inter-departmental

working group were concerned that the desired effects of the banner policy could be compromised if other types of signage programs were allowed without review of the banner program in the area. On the other hand, it is difficult to specify how the banner policy should relate to other signage programs without knowing what types of signage will be proposed in the future.

Therefore, Section 11 of the revised policy indicates that if another signage program is requested within an area that already has a banner program, "the City reserves the right to review and place limitations on either or both programs in order to reduce any potential overall negative impacts that the programs may have on the area."

OTHER CONCERNS

Since CPC staff submitted the first draft of the proposed policy, some Council members have raised concerns about the fairness of the application fee and refundable deposit.

There is a precedent in other major cities for charging a banner application fee and/or refundable deposit. New York's policy is most similar to the proposed policy. New York charges a \$100 application fee and a \$1,000 refundable deposit to be returned as long as the organization removes the banners after the permit expires. Los Angeles charges a \$100 application fee and a \$5 to \$35 per pole fee (non-refundable). Boston charges a \$50 to \$200 per pole fee (non-refundable). Chicago charges a \$100 per pole fine to organizations failing to remove banners after the permit expires.

The proposed policy requires a \$100 application fee at the time the application is submitted (\$25 for renewal applications). The rationale for the application fee is twofold. First, it would allow the City to recoup a portion of the City's cost to review banner applications. This includes staff time at Consumer Affairs to collect and distribute the application, PLD to review the locations and integrity of the poles, DPW Traffic Engineering to review the locations and how the banners affect traffic and pedestrian safety, the Mayor's Office to monitor the banner application, review, and permit compliance processes, and the Historic District Commission to review applications when banners are proposed in designated historic areas.

Second, the application fee could encourage organizations to submit complete applications. A major challenge that departments face under the current policy is the staff time associated with obtaining additional information from organizations requesting banners. Under the proposed policy, the application fee is submitted along with the application package. If the application is determined to be incomplete, it will be sent back to the organiza-

tion without further review. Checklists of the items that must be submitted with the application are provided in the policy, the application form, and the list of evaluation criteria (see documents attached). This should encourage organizations to submit all necessary information up front and thus substantially reduce the City's costs during the review process.

The proposed policy also requires a \$500 (for up to 5 banners) or a \$1,000 (for 6 or more banners) refundable deposit at the time the application package is submitted. The rationale for this is twofold. First, it would allow the City to recoup a portion of the City's cost to remove banners if the organization fails to do so within 72 hours after the permit expires, to inspect banners whenever appropriate, and/or to repair the City light poles should damage occur. If the expense of removal or repair exceeds the amount of the deposit, the excess amount would be collected from the person/entity to which the permit was issued. PLD estimates that it costs its staff \$200 per hour to remove banners, and PLD crews can remove banners at a rate of approximately 4 per hour.

Second, the refundable deposit would provide an incentive for organizations to comply with the banner policy. Estimates for banner removal from local banner firms range from \$105 to \$185 for the first pole and \$20 to \$40 for subsequent poles. The inter-departmental working group was concerned that if the refundable deposit was set too low it would encourage groups to let the City remove the banners and keep the deposit. This needs to be discouraged because removing banners takes PLD crews away from other important work in the City.

When removal estimates of private firms are compared to the City's cost, it is more economical for organizations to hire local firms to remove the banners (See Table 1). The refundable deposit is set higher than the City's cost in the event that there are other unforeseeable costs such as damage to the poles. The decision was made to have only two different amounts because organizations frequently hang more banners than formally requested.

Table 1. Estimates for Banner Removal

Number of poles	KBW	J.H. Corp.	City's Cost*	Refundable deposit*
1	\$185	\$105	\$ 200	\$ 500
6	\$285	\$205	\$ 300	\$1,000
10	\$400	\$285	\$ 500	\$1,000
20	\$800	\$485	\$1,000	\$1,000

*Assumes there is one banner per pole.

It is also important to keep in mind that banner fabrication is very expensive and can range from \$100 to \$300 per banner plus the costs of typesetting, design, hardware, and installation. This is a very

expensive activity, and organizations interested in hanging banners must be financially prepared. Allowing private sponsorship should be helpful in this respect.

CITY CODE

An amendment to Section 42-1-15 of the City Code will be necessary in order to implement the proposed Policy on Banners on Public Lighting Poles. Currently, Sections 42-1-15 prohibits hanging any sign, etc. on public lighting poles or on any other part of the public lighting system. Please find attached a proposed amendment that would provide an exception to Section 42-1-15 by allowing banners to be hung on public lighting poles subject to the approval of City Council and in accordance with the adopted Policy on Banners on Public Lighting Poles.

RECOMMENDATION

CPC staff recommends that a public hearing for the amendment to the City Code and the proposed banner policy be scheduled in the near future. After the public hearing, CPC staff recommends *approval* of both the attached resolution authorizing adoption of the proposed policy on banners on public lighting poles and the proposed amendment of City Code Section 42-1-15.

Whereas, The City has recently experienced an estimated 60% to 70% increase in the number of requests to place banners on public lighting poles and anticipates that the number will continue to rise; and

Whereas, The City's existing banner policies do not adequately address inefficiencies that occur in processing requests to hang banners on public lighting poles and enforcement of the conditions of a banner permit, if granted; and

Whereas, The existing banner policies do not hold permittees accountable for providing information in the initial banner request and/or inspecting and removing the banners at their own expense; and

Whereas, Different departments have different criteria for reviewing banner requests and therefore may provide conflicting recommendations on a particular banner request to the Detroit City Council under the existing banner approval process; and

Whereas, The City incurs excessive administrative costs under the existing banner policies due to inefficiencies in the process and permit enforcement; and

Whereas, The proposed Policy on

Banners on Public Lighting Poles is a product of a collaborative effort among representatives of the Public Lighting Department, Department of Public Works Traffic Engineering Division, the Office of Protocol of the Mayor's Office, the Law Department, and City Planning Commission staff; and

Whereas, The proposed Policy on Banners on Public Lighting Poles addresses the inefficiencies of the current policies;

Now, Therefore, Be It Resolved, That, in accordance with the foregoing communication, the Detroit City Council adopts the proposed Policy on Banners on Public Lighting Poles including, but not limited to, the proposed approval process, fee requirements, and restrictions on banner design and placement; and

Be It Further Resolved, That the Detroit City Council strongly supports the implementation of an inter-departmental banner committee to meet regularly to review banner permit applications and provide a single recommendation to the Detroit City Council regarding each banner request; and

Be It Finally Resolved, That, unless further revised, the proposed Policy on Banners on Public Lighting Poles will be used by the Detroit City Council, the Mayor's Office, and City departments in evaluating all banner requests.

City Planning Commission

November 29, 2001

Honorable City Council:

Re: Michigan Labor Legacy Project, proposed labor monument for Hart Plaza located in a PC (Public Center District) zoning classification (Recommend Approval).

On October 19, 2001 your Honorable Body was formally presented with the Michigan Labor Legacy Project proposal to donate to the City a monument to the labor movement and the working people of this state. The monument is to be sited within the small grove of trees on the south side of Jefferson Avenue between the UAW-Ford Training Center and the main entryway to Hart Plaza. The design consists of an approximately 50 foot tall stainless steel arch placed on an 80 foot wide circular base, which would also contain 14 rough cut stone markers. The arch would be broken at the top where a light source would be placed to simulate a spark. The interior face of the arch would be cut like a cog with text placed on some of the notched faces. The markers would carry bronze reliefs telling the story of the

labor movement and working people. Other features include two 30" high donor walls, bench seating around the monument, an interpretive walkway and future additions. Since Hart Plaza falls within a PC (Public Center District) zoning classification, this project was referred to the City Planning Commission (CPC) for the required review.

ISSUES AND ANALYSIS ISSUES

When this proposal came to the attention of the Planning and Development Department (P&DD) and CPC staff, prior to the presentation to your Honorable Body, the significance of the proposed art work was most apparent. Its potential impact both as a piece of public art and as a destination place raised the question of whether or not an even better site was available. Therefore, staff began exploring the possibility of relocating the monument to a more visible, prominent and dramatic site — a location that would have equal, if not better, visibility and foot traffic and serve to anchor and define an area, possibly an area of new development on the riverfront. Unfortunately, before that effort could really begin to be pursued, the petitioner informed staff that, while another site might be identified and suggested, their preference was to remain at the original location as proposed. While staff regrets that time constraints, previous planning efforts of which P&DD and CPC were not a part, the resulting findings of those efforts and other factors keep us from pursuing another site, we do believe that the chosen site is acceptable and that both it and the monument can be optimized to create an inviting and unique setting.

In review of the monument as proposed, CPC noted a few initial concerns. There are a number of other pieces of public art that presently exist within about 600 feet of this site. Four of these other monuments are quite visible and significant in size themselves. Given the height and expanse of the proposal, CPC was concerned for the impact the proposed monument would have on the others. We were also concerned with the loss of programmable space for events at Hart Plaza that could result from the siting and construction of the monument as proposed. This area is often used in association with large events. The Recreation Department indicated that it could accommodate the situation and that this new factor would be included in ongoing planning for the Hart Plaza and the Civic Center. We also felt that the current design may also present some safety and access issues that the city would rather avoid. Other concerns include the loss of trees and other modifications, and increased maintenance for the area that may be necessitated by the monument itself and changes in traffic

patterns and activities that result. These issues and others were addressed in a meeting with the petitioner's representative, the synopsis of which is provided below.

CPC STAFF REVIEW WITH PETITIONER

On Wednesday, November 14, 2001, CPC staff met with Mr. Charlie Merz, consultant architect for the petitioner, to discuss refinements to the design concept for the Michigan Labor Legacy Monument. The meeting focused on the base of the monument and matters relating to the setting around it. The base or pedestal is proposed at eighteen inches in height and would be constructed of concrete with a finished surface of granite pavers. The outer ring surrounding the pedestal would be paved with concrete and carry two rows of bench seating, also made of concrete. Lighting would also be included in the monument, but those details have yet to be worked out.

Staff expressed concerns for safety and accessibility to the pedestal of the monument. As it has been conceived as a piece of art to be traversed and interacted with, we believe the users' safety and comfort should be maximized without detracting from the art itself. This would also address the City's liability by reducing the potential for injury.

The use of concrete in the outer ring presents a world of possibilities. Concrete can be used to economically achieve the look and feel of higher priced, higher quality materials. It can be colored, stamped, sculpted, formed into smaller units, or used as the medium to contain a composite of other materials. In many situations, however, we find that poured in place concrete with a broom finish (the standard, utilitarian means of providing a sidewalk) is what occurs when concrete is indicated as a paving material. The final design and composition of the outer ring have not been determined. Staff believes, and Mr. Merz agrees, that the paving and benches of the outer ring should be of a higher quality design and finish to complement both the monument and Hart Plaza.

Lastly, we discussed the need for other modifications to the surrounding area. Staff believes that with the proposed monument in place there will no longer be a need for the sunken seating area just to the east of the monument site. If the area were filled in, it would better complement the monument by creating symmetry on both sites of the monument, formalizing its relationship to Hart Plaza and the street. The arch of the monument was intended to frame a view and create a view corridor along Griswold extended. This may require the removal of more trees and/or additional modifications to Hart Plaza south of the monument. Such improvements may have to be part of the ongoing planning efforts for Hart Plaza.

CONCLUSIONS

Unfortunately, the removal or modification of the sunken seating area immediately to the east of the site and the potential for further modifications to south of the site establish a view corridor will require additional time to be fully explored and addressed. Other details such as final coordination and selection of the materials, colors and finishes for paved surfaces and seating areas will also require additional time and involvement of City agencies. The petitioner has agreed to explore and utilize the flexibility and finishing options of concrete in the paving around the monument and to consider the use of color to complement the colored paving of the arcade adjacent to the site. The developer has also agreed to tier the eighteen-inch high pedestal of the monument to provide steps, increasing both safety and ease of access. This improvement would work in conjunction with the access ramp for the physically challenged as originally proposed. Lastly, as this monument is being donated to the City, some understanding and provisions for maintaining the monument should be established, particularly since it is not just intended to be viewed but is to be physically interacted with.

RECOMMENDATION

The petitioner has expressed a sincere willingness to refine the design of the monument to address the concern discussed above. The CPC believes the monument as conceived and discussed above is consistent with the spirit and intent of the PZ zoning district. The Commission also believes that the final details of the project can be satisfactorily addressed working with the petitioner, the Recreation Department, the Planning and Development Department and other City Agencies as appropriate as the project moves forward. Therefore, the CPC recommends approval with the following conditions:

1. that the pedestal of the monument be tiered to create steps for easier access and improved safety;
2. that the petitioner work with the City to finalize the details of material, composition, color, finish and lighting around the monument itself; and
3. that the City and petitioner work together to address the potential removal of the seating area to the east of the monument and other potential modifications to Hart Plaza as well as clarify the maintenance responsibilities to be borne by the City.

Whereas, The City Council has already passed a resolution formally accepting this donation; and

Whereas, The monument will be sited in Hart Plaza which is located within the a PC (Public Center District) zoning classification and, therefore, City Council approval is required for alteration to the design, appearance or location of facilities on such premises in accordance with Section 112.0200 of the Zoning Ordinance; and

Whereas, The proposed monument will create a new attraction and establish a new setting within Hart Plaza along Jefferson Ave.; and

Whereas, The proposed monument has been reviewed by the City Planning Commission and the Planning and Development Department and found to be consistent with the spirit and intent of the Public Center zoning district; and

Honorable City Council:

Re: Detroit Wayne County Port Authority.

As this Honorable Body is aware, the Detroit Wayne County Port Authority has proposed the development of a public dock and passenger terminal at the site of the former Boblo ferry facilities at the foot of Clark Street, and the redevelopment of the 32-acre property adjacent to it now

operated by Detroit Marine Terminals. This, among other things, was described in the Development Plan of the Authority which was approved by this Honorable Body on July 25, 2001. Both sites are now owned by the Detroit Port Development Corporation and leased to Detroit Marine Terminals, but when the existing bonds which were originally issued in 1966 have been paid off, the entire site will become the property of the City of Detroit.

Attached to this communication are drafts of two ground leases, one for fifty years dealing with the public dock and passenger facility and the other for twenty years dealing with the larger 32-acre site. Both would become effective only upon the payment in full of all existing bonds, the vesting of title in the City of Detroit, and the execution and delivery of appropriate agreements by and among the Detroit Wayne County Port Authority and other third parties, including Federal Marine Terminals, Inc., a subsidiary of Fednav Limited of Montreal, to ensure the development of the property as envisioned by the Development Plan.

Attached for your consideration is a Resolution authorizing the Mayor or his designee to negotiate, execute and deliver two ground leases in substantially the form attached.

Respectfully submitted,
PAUL A. BERNARD
Director

By Council Member Everett:

Whereas, On July 25, 2001, this City Council approved the Development Plan of the Detroit Wayne County Port Authority and directed appropriate City agencies to work with the Detroit Wayne County Port Authority to explore the siting of a future passenger terminal and other plans for the mutual benefit of the Authority and the City; and

Whereas, Among other things, the Development Plan of the Detroit Wayne County Port Authority envisions the development of a public dock and passenger terminal at the site of the former Boblo ferry facilities at the foot of Clark Street, and the redevelopment of the 32-acre property adjacent to it now operated by Detroit Marine Terminals; and

Whereas, Both sites are now owned by the Detroit Port Development Corporation and leased to Detroit Marine Terminals, but when the existing bonds originally issued in 1966 have been paid off, the entire site will become the property of the City of Detroit; and

Detroit, and the execution and delivery of appropriate agreements by and among the Detroit Wayne County Port Authority and other third parties, including Federal Marine Terminals, Inc., a subsidiary of Fednav Limited of Montreal, to ensure the development of the property as envisioned by the Development Plan;

Now Therefore Be It Resolved, That the Mayor or his designee is hereby authorized to negotiate, execute and deliver two ground leases in accordance with the foregoing communication.

Honorable City Council:

Re: Correction of Legal Description
Development: Part of 2931 E. Jefferson.

On October 18, 2001 (Legal News, Page 14), your Honorable Body authorized the correction of a legal description for part of 2931 E. Jefferson which is part of an exchange agreement between the Planning & Development Department, the Recreation Department and Thru-Put Services, LLC, a Michigan Limited Liability Company.

Under the terms of an exchange agreement, Thru-Put Services, LLC proposes the development of a one way driveway with angled parking from East Jefferson to East Larned on the City owned property at 2941 East Jefferson with an approximate 40 feet frontage on the north side of East Jefferson.

In exchange, the property owned by Thru-Put Services, LLC, a portion of 2931 East Jefferson on the north side of East Jefferson will be transferred to the Recreation Department and shall be developed into a pedestrian walkway from East Jefferson to Larned. Thru-Put Services, LLC shall maintain the site for a period of five years. After five years, this property will revert to the Recreation Department which will be responsible for the maintenance of the site. At that time, the City shall encourage the use of an "adopt a park" program to maintain the project. This transaction constitutes an equitable exchange.

The Elmwood Park Rehabilitation Project Citizen's District Council and the Board of Zoning Appeals approved the transaction on Tuesday, July 25, 2001.

It has come to our attention that the amended resolution reflected language referring to a sales resolution. This is incorrect since there is no sale and the

land is being exchanged.

We, therefore request that your Honorable Body adopt the attached resolution with a Waiver of Reconsideration and authorize an amendment correcting the sales resolution and authorize a resolution with the acceptance of the property known as part of 2931 E. Jefferson as required by City Charter under the terms of an exchange agreement.

Honorable City Council:

Re: Authorization to submit a grant to the Michigan Department of Transportation, Transportation Enhancement Program for the construction of a Boulevard/Center Median in Livernois Avenue between McNichols (Six Mile Rd.) and M-10 (Lodge Freeway).

The Planning and Development Department is hereby requesting the support of your Honorable Body for a grant application to the Michigan Department of Transportation (MDOT), under the 2003 Transportation Enhancement Program for the construction of a Boulevard/Center Median in Livernois Avenue between McNichols (Six Mile Rd.) and M-10 (Lodge Freeway). The City of Detroit will serve as the applicant, although the sponsors will be University of Detroit Mercy and Wayne County.

The proposed project consists of the construction of a 30 feet wide center median/boulevard within the Livernois Avenue right-of-way. Currently, Livernois is a nine lane road which strongly favors high-speed automobile traffic and serves as a barrier between the University of Detroit Mercy on the east side of the road and the commercial and residential community on the west side of the road. The establishment of the center median is intended to make the street more pedestrian-oriented and aesthetically pleasing. The coordinated use of special paving, pedestrian-scale lights, street trees, seasonal plantings and traffic signals will serve as visual cues for motorist to slow down and to stop at pedestrian crossing points. These traffic calming features will also make Livernois more accessible and desirable for pedestrians from the campus and the community, as well as significantly easier to cross. The proposed project is one component of the Wayne County sponsored, Ways of Life program which selected the Livernois-McNichols corridor for a pilot study for commercial strip redevelopment.

With your authorization, the City of Detroit, Planning and Development Department will submit a grant request. The TEA-21, Michigan Transportation Enhancement Program, Participating Portion of this project is \$967,206, of which \$773,765 is being requested from MDOT through the Michigan Transportation Enhancement Program. The remaining \$193,441 is being requested as a local match.

The Planning and Development Department respectfully requests that you adopt, with a waiver of reconsideration, the following resolution authorizing the application.

Respectfully submitted,

PAUL A. BERNARD

Director

By Council Member Hood:

Whereas, The City of Detroit's Planning and Development Department desires to strengthen the area along Livernois surrounding the University of Detroit Mercy within the Livernois right-of-way between McNichols and M-10 through the construction of a boulevard/center median with new decorative paver crosswalks, landscaping, and pedestrian lighting.

Whereas, The Planning and Development Department has requested authorization from the City Council to submit an application for financial assistance in the amount of \$773,765 from the Michigan Department of Transportation, Transportation Enhancement Program for the construction of a boulevard/center median within the Livernois right-of-way between McNichols and M-10.

Resolved, That the Mayor of the City of Detroit, or his designee, is hereby authorized to submit an application to the Michigan Department of Transportation for Michigan Transportation Enhancement Program grant for the University Commons/Livernois Boulevard Project; and be it further

Resolved, That the Mayor of the City of Detroit, or his designee, is hereby designated to act in connection with the aforesaid application and to provide Michigan Department of Transportation (M-DOT) such information as may be required; and be it further

Resolved, That the Detroit City Council reserves the right to, for any reason, direct that the grant application be withdrawn.

Adopted as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood, Mahaffey, Scott, Tinsley-Talabi, and President Hill — 9.

Re: Pedestrian Overpass Easement over Randolph St. between the Civic Center and the Renaissance Center.

The City of Detroit (the "City") has looked at the possibility of constructing an elevated pedestrian walkway across Randolph Street south of Jefferson Avenue. Such an overpass would serve to facilitate pedestrian travel between the Civic Center and the Renaissance Center and properties east of Renaissance Center by avoiding vehicular traffic at the entrance to the Detroit-Windsor Tunnel.

Both Riverfront Holdings, Inc., the land holding company of General Motors, ("RHI") and the City concur that linking the Civic Center and the Renaissance Center by way of an elevated passage would be mutually beneficial. While General Motors is undergoing the design and implementation of its Plaza improvements, RHI has agreed to grant an easement to the City for the purpose of constructing, maintaining and repairing such an overpass and providing for ingress and egress between such an overpass and the public right-of-way should it ever be constructed.

Attached for your consideration is a resolution accepting such a grant of easement for the aforementioned purposes.

Honorable City Council:

Re: Planning Development Department, requesting the outright vacation of the alleys and to rescind seven (7) non-transferable encroachment within the block commonly known as the Monroe Block, being the area bounded on the south by Cadillac Square, the west by Monroe Avenue, the north by Farmer Street and the east by Bates Street.

The Planning Development Department (P&DD), as current trustee of the land, requires certain changes to the public rights-of-way to finalize the preparation of the Campus Martius Redevelopment Project to allow clear title to the land.

The purpose of this resolution is to respectfully request the approval of your Honorable Body of the vacation (outright) of the public alleys and to rescind six non-transferable encroachments, in the block bounded by Cadillac Square, 200 feet

wide, Monroe Avenue, 120 feet wide, Farmer Street, 60 feet wide and Bates Street, 60 feet wide, in connection with the fulfillment by the City of Detroit Downtown Development Authority (DDA) of requirements contained in the Restated Tax Increment Financing Plan and Development Plan for Development in Area No. 1, as amended, (the DDA Plan). Pursuant to the Campus Martius Redevelopment Project as set forth in Section 407.2.6 of the DDA Plan, the City and the DDA have entered into a Development Agreement with Kern Woodward Associates, L.L.C., pursuant to the terms of which the DDA and the City are obligated to permanently vacate the alleys in the Monroe Block in order that the site may be made available for eventual development of office or other commercial buildings on the Monroe Block.

In addition to the requested changes, itemized below, our investigation revealed seven non-transferable encroachments recorded in City of Detroit records in the area commonly known as the Monroe Block that must be rescinded to allow clear title to land for the Campus Martius Redevelopment Project.

In conjunction with the requested changes in rights-of-way, the City and the

DDA are exercising the same governmental powers that were exercised in connection with the utility relocations that were required in connection with the Compuware Building Project. Therefore in requesting the vacations the City and the DDA are exercising a governmental function. The attached resolution does not address the concerns of potentially involved agencies and utilities. Payment of any costs for relocating utilities will be handled in accordance with the terms of the Restated Development Agreement approved by your Honorable Body.

An appropriated resolution is attached for consideration by your Honorable Body. I am recommending adoption of the attached resolution. A waiver of reconsideration is respectfully requested.

Whereas, The City of Detroit Council (the "City Council") adopted its resolution authorizing the Director of the Planning Development Department ("P&DD") to execute that certain development agreement by and among the City of Detroit ("City"), the City of Detroit Downtown Development Authority ("DDA"), and Kern Woodward Associates, LLC, which development agreement contemplates, among other things, the transfer from the City of the property more commonly known as the Monroe Block and that property more commonly known as the Monroe Block to the DDA, for reconveyance to and development by Kern Woodward Associates, LLC., or its designated developer of the Monroe Block; and

Whereas, In connection with the fulfillment by the City of Detroit Downtown Development Authority (DDA) of requirements contained in the Restated Tax Increment Financing Plan and Development Plan for development in Area No. 1, as amended, (the DDA Plan) and pursuant to the Campus Martius Redevelopment Project as set forth in Section 407.2.6 of the DDA Plan, the City and the DDA have entered into a Development Agreement with Kern Woodwad Associates, L.L.C., pursuant to the terms of which the DDA and the City are obligated to permanently vacate the alleys in the Monroe Block in order that the site may be made available for eventual development of office or other commercial buildings on the Monroe Block, and

Payment of any costs for relocating utilities will be handled in accordance, with the terms of the Restated Development Agreement approved by your Honorable Body, and

Whereas, The City, the DDA, and Kern Woodward Associates, LLC., have agreed upon the description of the contiguous parcel of land to be conveyed pursuant to the Transfer Agreements, such parcel of land described as:

Hereafter referred to as the "Project Site", as such description may be corrected by the City Engineering Division — DPW, pursuant to a certified survey; and

Whereas, To permit the conveyance of the Project Site for development in accordance with the Development Agreement and the Transfer Agreement, P&DD request City Council approval (I) to rescind seven (7) non-transferable encroachments appurtenant to the Monroe Block recorded in City of Detroit records between 1943 and 1971, the six grants do not have expiration dates. Unless they are removed from city records, encroachments can entangle the orderly transfer of property (II) for the vacation (outright) of certain public alley(s) hereinafter provided;

Now, Therefore, Be it Resolved, By The City of Detroit City Council that the following seven non-transferable encroachments recorded in City of Detroit records and connected with the Project Site, in the area bounded on the south by Cadillac Square, the west by Monroe Avenue, the north by Farmer Street and the east by Bates Street, be and the same are hereby rescinded;

Honorable City Council:
 Re: Petition No. 3281 — Planning and Development Department, requesting vacation of alley in the area of John R, E. Grand River, Broadway and Farmer.

Petition No. 3281 of "Planning and Development Department" (P&DD), request to vacate (outright) the North-South public alley, 20 feet wide, in block bounded by John R Street, 52 feet wide, East Grand River Avenue, 60 feet wide,

Farmer Street, (variable width) and Broadway Avenue, 100 feet wide, in order to construct the new Downtown Detroit YMCA.

The request was approved by Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

The attached resolution does not address the concerns of potentially involved agencies and utilities. Therefore satisfactory arrangements would have to be made between the proposed developers of the property. In order to continue the development process the YMCA understands that the relocation and/or abandonment of active utilities will need to take place.

The YMCA has agreed, by a letter dated November 26, 2001, ATT: James Foster, City of Detroit, Department of Public Works, City Engineering Division, 65 Cadillac Square, 9th Floor, Detroit, Mi. 48226, from Scott Landry, Executive Vice President, YMCA of Metropolitan Detroit, 10900 Harper Ave., Detroit, Mi. 48213, assuring the City of Detroit that, in connection with development of the block bounded by John R, E. Grand River, Broadway and Farmer for a YMCA Facility.

The Developer shall pay the costs required to abandon and relocate active utility lines in the public alley in said block.

All of the land adjacent to the proposed alley to be vacated is currently under the jurisdiction of the Municipal Parking Department. Therefore the City will be the fee owner of the alley right-of-way and may reserve any utility easements until such time satisfactory arrangements have been made between the utility and the potential Developer. Before the property is conveyed to the YMCA, it is the intention to transfer the jurisdiction to P&DD.

Being that the City of Detroit is owner in fee of the public alley to be vacated, the P&DD must execute a quit claim deed to transfer the vacated public right-of-way.

An appropriate resolution is attached for consideration by your Honorable Body. I am recommending adoption of the attached resolution.
