3. POOR — Accumulation of deferred maintenance items — visible major deficiencies, numerous minor deficiencies.
4. DILAPIDATED — Multiple major deficiencies — evidence of general lack of care, numerous minor deficiencies.
5. ABANDONED — Vacant, open to trespass, vandalized and dangerous.

In the evaluation of rehabilitation feasibility, factors of original quality of the structures and factors of their potential remaining life and long-term economic value to the Detroit community are also considered. Generally, the residential structures in Hubbard-Richard are of moderate original quality, of wood frame construction, and on rather small lots. While the property survey indicates a large number of houses with major deficiencies, most houses are still occupied and the population appears to be fairly stable. The neighborhood is not in an extensive process of abandonment at the present.

With rapid implementation of the development plan objectives; such as removing blighting and non-conforming influences, public improvements, and a housing rehab program, it is probable that the residential neighborhood can continue to exist.

Viewing all the factors involved the determination is that the Hubbard-Richard neighborhood merits retention. To help achieve the primary objective of the development plan, which is to preserve, protect, and improve the existing residential neighborhood, the finding is, therefore, that a moderate program of rehabilitation assistance is justified. This program should help homeowners alleviate serious code violations and improve the appearance, to extend the livability of their houses.

**REHABILITATION STANDARDS**

The basis for rehabilitation standards for the Hubbard-Richard project shall be the building ordinances of the City of Detroit. The codes and ordinances of the City of Detroit including the most current edition of the Building Code, and the codes for Plumbing, Electrical, Air Pollution, Heating, Zoning, and Fire Safety and Prevention provide a sound basis for rehabilitation of structures. They outline sound contemporary standards of construction and sound basis for provisions of building equipment, use and occupancy. These code standards are

hereby incorporated by reference to constitute the project rehabilitation standards for the Hubbard-Richard Project and to be included in the Project Development plan.

#### **APPEARANCE OBJECTIVE**

In addition to the code standards stated above there shall be an objective of good appearance. The exterior of the structures should be clean, bright, well painted and repaired. Accessory buildings should be repaired, painted or removed. Fences should be straightened, repaired or replaced. Grounds should be clean and free of rubbish and debris and the usefulness of yards enhanced by grass and decorative paintings.

#### **RESPONSIBILITY TO MEET STANDARDS**

The primary responsibility for meeting these standards relating to the condition and appearance of residential structures shall rest with the owner. The responsibility for the elimination of code violations in or about the structures and their future maintenance in a code deficiency free condition as well as the achievement and maintenance of an exterior appearance pleasing and desirable to the neighborhood is entirely the owner's. The agency's role (Planning and Development Department — P&DD) will be to provide assistance to the owners to help them meet standards. The assistance will consist of advice, inspection, identification of deficiencies and in some instances, financing.

Prerequisite to the use of any financial assistance under the program shall be the correction by the owner, of any health and safety code violations which do not require repair. For example, housekeeping conditions which are unsanitary shall be properly corrected and junk extraneous building material, illegally stored junk cars, trash and noxious weeds must be removed from the premises by the owner prior to the issuance of any financial aid under the program.

#### **REHABILITATION FINANCING**

In addition to the rules and regulations governing the issuance of loans and grants, policies regulating the application of such funds are established herewith.

All expenditure of loan and grant funds shall be in conformance with the project rehabilitation standards established for the Hubbard-Richard Project. In those instances where financial assistance is made available through the agency it is not to be construed that the amount of financing made available must be sufficient to discharge, on behalf of the owner, the entire responsibility to meet project standards.

The lease application of loan and grant funds in any case where the applicant is an owner occupant of a 1 to 4 unit structure will be that of correction of hazardous

code violations. The least application of such funds in the case of an investor owner will be correction of all code violations. The character and extent of program financed work items may differ depending on whether the financing method is a loan or a grant.

**Grant:** The work requirement for the use of grant funds shall be the elimination of all those code deficient conditions which are hazardous in character and other existing or incipient conditions which seriously impinge upon the prospects of continued occupancy; plus an exterior treatment to improve appearance.

**Loans:** Loan funds may be used generally for a wider range of work including all items necessary to bring a property to a project standard condition. Loans may also be used for property improvements and for restoration work within established loan limits. The first priority, however, for use of loan funds shall be the correction of hazardous and other code violations.

#### **REHABILITATION ACTIVITIES**

The activities to accomplish the rehabilitation objective will include:

##### **Securing Community Response:**

Through public information, through working with the community organizations, through systematic contact with owners the widest possible community response will be sought. It is expected that direction and assistance for this purpose will be provided through the good offices of the Citizens' District Council established for the project.

**Acceptance of Applications:** Applications for rehabilitation assistance will be accepted at a rehabilitation field office established in the area. Evaluations of eligibility for financial assistance will be made and services given which will culminate in the execution of a construction contract.

**Inspections:** For all structures for which the owners make application, qualified City personnel shall inspect to determine deficiencies, and evaluate what repairs need to be undertaken to bring the house into compliance with these rehabilitation standards.

**Services:** Through competent and professional staff assigned to the rehabilitation office, construction and finance counseling will be provided. The homeowner will be assisted in the identification of work items, the writing of specifications, the evaluation and selection of contractors, the negotiation of contract, the monitoring of construction work in progress and the acceptability of completed work. The field staff will assist in the solution of problems that may arise from construction and may advise the owner in settlement of contract disputes.

#### **ELIGIBLE WORK ITEMS**

October 20

3436

2004

Following is a list of rehabilitation work items eligible for grant financing. The list is intended to allow treatment of serious deficiencies which will improve and extend the livability of the houses. The existing condition of any listed item must be that it presently is in a serious state of disrepair in order to qualify for grant expenditure.

Rat walls: May be installed as necessary around the house only if rat infestation cited in code report.

#### INTERIOR

Extermination: Exterminate as necessary, prior house cleaning must be accomplished by owner as necessary to ensure effective extermination.

Electrical: Make minor repairs necessary; replace and extend to safe condition if present condition is hazardous.

Heating: Repair as necessary; replace present unit with similar type if condition is hazardous.

Plumbing: Drainage — clear drains if obstructed. Water supply — repair or replace as necessary to assure adequate water supply. Faucets, Drains — Repair or replace as necessary. In a loan situation the listed items should have priority. Once the essential listed items are provided for, additional loan funds may be provided for other items as requested by the owner. In a loan and grant combination situation the part of the work financed by the grant will have to comply with the listing and the conditions stated above. In the case of a loan it will not be necessary to apply the evaluation of serious disrepair in relation to the listed items in order to make them eligible.

Re: Cancellation of City-wide Land Contracts.

Your Honorable Body authorized the sale or reacquisition of the attached list of properties (Exhibit 'A') on a land contract basis.

Subsequently, the land contract vendees failed to make the monthly payments; therefore the Planning and Development Department initiated summary court action which resulted in judgements which returned all interest in all captioned properties to the City of Detroit.

Your Honorable Body is requested to rescind the authority to sell each of the properties and authorize the Planning and Development Department to cancel the sale of each of the land contracts as described in attached Exhibit "A".

Respectfully submitted,

Honorable City Council:

Re: Public Hearing on the Establishment of the College Park Enterprise Zone as Requested by the People First Community Outreach and NPHC in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the College Park Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to construct 70 single family dwellings with 2 and 3 bedroom configurations consisting of 1100 to 2000 square feet and rehabilitate 10 additional units. The total investment is estimated at \$2.8 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted,

HENRY B. HAGOOD

Director of Development Activities  
By Council Member Tinsley-Talabi:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, The People First Community Outreach and NPHC has requested establishment of the College Park NEZ whose boundaries are particularly describe in Exhibit A (legal description) and illustrated in the map attached hereto; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter;

Now Therefore Be It

Resolved, That on Thursday, November 18, 2004 at 11:45 a.m. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) and illustrated in the map attached hereto; and be it finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all taxing authorities levying an *ad valorem* tax within the City of Detroit, such notices to be provided no earlier than sixty (60) days prior to the public hearing.

Honorable City Council:

Re: Petition No. 2584 — Goch and Sons Towing Inc., for the conversion of alleys to easement in the area of Oakwood, Bayside, and Sanders Streets.

Petition No. 2584 of "Goch and Sons Towing Inc.", at 795 Oakwood Boulevard, Detroit, Michigan 48217, request conversion of the North-South public alley, 20 feet wide, (Dedicated to the City of Detroit on August 17, 1948 — J.C.C. Pgs. 2245-2246), a portion of the East-West public alley, 20 feet wide, and a portion of Bayside Avenue, 60 feet wide (previously vacated and converted to an easement on February 4, 1987 — J.C.C. Pgs. 255-56) into private easements for the utilities; also the Dedication of land, 20 feet wide,

for a new alley outlet all in the block bounded by Oakwood Avenue, 100 feet wide, Bayside Avenue, 60 feet wide, Sanders Avenue, 66 feet wide, and the Wabash Railroad Right of Way.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The intent of the attached resolution is to also request the Honorable City Council to accept the deed for the public alley opening purpose; provided said property complies with the requirements of Detroit City codes and Ordinance No. 29-94, Detroit City Code Sections 2-2-11 through 2-2-15 also known as the "Environmental Review Guidelines", and that the fee owner submit a properly executed "warranty" deed; proof of lien-free ownership; proof of paid Wayne County taxes and proof of paid Detroit property taxes.

If the petitioner at any time plans to discontinue use of the paved alley entrance (into Bayside Avenue), the petitioner shall pay all incidental removal costs.

All other city departments and privately owned utility companies have reported no objections to the conversion of the public right-of-way into private easement for utilities. Provisions protecting utility installations are part of this resolution.

I am recommending adoption of the attached resolution.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. Honorable City Council:

Re: Address: 8300 Lyndon. Name: Al Foster. Date ordered removed: February 27, 2002 (J.C.C. p. 593).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 11, 2004 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of June 14, 2004.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection.
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear

of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we will proceed with demolition without further hearings. Pursuant to the Property Maintenance Code our Municipal Civil Infractions (MCI) Unit will issue the appropriate violations/tickets.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we will proceed with demolition without

Re: Address: 8640 Penrod. Name: Gary Moran. Date ordered removed: July 7, 2003 (J.C.C. p. ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 22, 2004 revealed the building is secured and appears to be sound and repairable.

The owner has entered into an approved Tax Payment Plan to pay the current taxes due as of September 15, 2004.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we will proceed with demolition without further hearings. Pursuant to the Property Maintenance Code our Municipal Civil Infractions (MCI) Unit will issue the appropriate violations/tickets.

Honorable City Council:  
Re: Address: 14103 Steel. Name: Rona Davis. Date ordered removed: February 10, 2003 (J.C.C. p. ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 21, 2004 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 14, 2004.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.
  2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:
    - Certificate of Acceptance related to building permits
  3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
  4. The yards shall be maintained clear of weeds, junk and debris at all times.
- At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Honorable City Council:

Re: Application for an NEZ Certificate for 2525 Lillibridge within the Jefferson North Park area; and application for an NEZ Certificate for 16050 Tireman within the West Town I area (Departmental Report).

During the City Council's Committee of the Whole meeting on September 8,

2004, the Council withheld approval of the above-referenced Neighborhood Enterprise Zone (NEZ) certificates. City Council requested more information about the developers of each of the projects involved (West Town I and Jefferson North Park). Additionally, Council wanted to know whether the two developers were for-profit or non-profit.

The City Planning Commission (CPC) staff has obtained the following information.

#### **West Town Homes I**

West Town Homes I, LLC is a limited liability company comprised of a joint venture between Community Planning Association and Urban Entity Group VI, LLC. It is a 501(c)(3) non-profit organization. Mr. Peter Barclae represents the Community Planning Association, while Stephanie Madden represents Urban Entity Group VI, LLC.

West Town Home, LLC would construct 31 single-family houses with three and four bedrooms in the West Town I NEZ area.

The West Town NEZ was approved by Council on May 12, 2004.

#### **Jefferson North Park**

The Jefferson North Park development team consists of Jim Jenkins of Jenkins Construction and Anthony Parker of Parkstone Development, LLC. The team will work collaboratively as Jefferson North Park LLC, a for-profit entity. Other members of the project include: Architect: Design Partnership/Urban Works; Housing Manufacturer: Pinnacle Homes; Construction Manager: Jenkins Construction; Lender: Charter One Bank; and Sales/Marketing: Keller/Williams Realty.

The developer would build a total of 123 single-family homes with attached garages in the NEZ area.

The Jefferson North Park NEZ was approved by Council on April 16, 2003.

#### **CONCLUSION AND RECOMMENDATIONS**

The CPC staff has obtained and reviewed the above information relating to the applications for NEZ certificates named above and found it consistent with the Neighborhood Enterprise Zone Act as it is currently written. As stated in our previous report, we recommend the two certificates be approved as proposed.

Honorable City Council:

Re: Russell Street Project Brownfield Plan.

The enclosed Brownfield Plan for

October 27

3494

2004

Russell Street (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on September 27, 2004 to solicit public comments. At its September 15, 2004 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On October 6, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

#### **Project Introduction**

Russell Street Development, LLC is the project developer. The project involves the rehabilitation of the buildings at 2501 Russell and 1350 Adelaide/1351 Winder, located on the west side of Russell, bounded by Adelaide to the north and Winder to the south. Built in the Eastern Market in 1917 and 1898, the two buildings are connected and together total 20,800 square feet. The first floor will have a restaurant and small banquet area, and the second floor will have a larger banquet hall. Total project costs are estimated at \$2,405,000.

#### **Purpose of the Proposed Plan**

The primary purpose of this Plan is to promote the redevelopment of and private investment in certain "brownfield" properties within the City. Inclusion of property within this Plan will facilitate financing of environmental responses and other eligible activities at eligible properties, and will also provide tax incentives to eligible taxpayers willing to invest in revitalization of eligible sites, commonly referred to as "brownfields." By facilitating redevelopment of brownfield properties, this Plan is intended to promote economic growth for the benefit of the residents of the City and all taxing units located within and benefited by the Authority.

#### **Property Subject to the Proposed Plan**

The Property is an eligible property under Act 381 and consists of three functionally obsolete and blighted parcels:

2501 Russell, 1350 Adelaide and 1351 Winder.

#### **Basis of Eligibility**

The Property is considered to "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously used for commercial purposes; (b) it is located within the City of Detroit, a qualified local government unit; and (c) the Property is functionally obsolete and blighted as defined by Act 381. They are vacant and their deterioration has left them dangerous and unable to be used to adequately perform the function for which they were intended due to a substantial loss in value. This loss in value has resulted primarily from the following items.

- Mechanical, electrical and plumbing systems will have to be replaced due to out-of-date conditions, or having been removed from the buildings.
- The elevator will have to be refurbished in order to bring it up to code.
- All of the windows will have to be replaced.
- New stairs will have to be constructed in order to bring it up to code.

#### **Eligible Activities and Projected Costs**

The following eligible activities and budgeted costs are intended as part of the development of the Property and are to be financed solely by the Developer. The Authority is not responsible for any cost of eligible activities and will incur no debt. The total eligible investment for the Russell Street Project will be \$1,311,300 that includes eligible activity costs from demolition totaling \$32,000.

#### **Public Comments Received**

The Committee's communication to the City Council and the Authority, dated September 15, 2004 (Exhibit C), recommending approval of the Plan including the minutes of the Public Hearing held by the Authority on September 27, 2004, are enclosed for the City Council's consideration.

#### **Authority's Request**

The Authority is respectfully requesting the following actions from the City Council:

##### a) **October 27, 2004**

Honorable City Council:

Re: Silvercup Project Brownfield Plan.

The enclosed Brownfield Plan for Silvercup (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on September 27, 2004 to solicit public comments. After receipt of the public comments, the Committee considered and approved a resolution at its September 27, 2004 meeting, recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On October 6, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

**Project Introduction**

The DBRA is working with Silvercup JV LLC, the project developer who plans to construct 86 condominium units that will be available for homeownership. The cost of construction is approximately 14.6 million dollars. The condominiums will range in price from \$130,000 to \$200,000 and will range in square footage from 1400-2200 sq. ft. Silvercup JV LLC plans to utilize Tax Increment Financing (TIF) and the Single Business Tax Credit (SBT) as a method to offset the additional cost caused by the environmental concerns of the Properties. Eligible investment is estimated at \$14,600,000.

**Property Subject to the Proposed Plan**

The property comprising the eligible

October 27

3496

2004

property (hereinafter "the Properties"), is located within the general boundaries of Vernor, Dubois, the alley east of Chene, and the alley north of Hendricks, consists of 2 parcels approximately 3.5 acres. The Properties are currently 2 of the 27 parcels that are scheduled for the Silvercup Redevelopment Project. The Properties are covered with natural vegetation and portions of concrete foundations.

#### **Purpose of the Proposed Plan**

The proposed Plan is intended to accomplish two purposes. First, upon approval of this Plan by City Council, Silvercup JV LLC will be entitled under state law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project. Second, the Detroit Brownfield Redevelopment Authority will be authorized to capture tax increment revenues produced from the development of properties subject to this Plan to offset the cost of Silvercup JV LLC for environmental, infrastructure and site preparation work performed on the property subject to the Plan.

#### **Basis of Eligibility**

The Properties are considered "eligible property" as defined by Act 381, Section 2 because (a) the Properties were previously utilized for an industrial purpose; (b) they are located within the City, a qualified local government unit under Act 381; and (c) the Properties are determined to be blighted as defined by Act 381.

The Properties qualify as "blighted" under the definition in Act 381. Further description of eligibility is outlined below.

#### **Blighted**

- The Properties were tax reverted properties owned by a qualified local governmental unit, the City. This also includes 4.82 acres of vacant land that used to house the Silvercup Bakery.

- There are Underground Storage Tanks located on the Properties.

Multi Solutions, the environmental consultant, conducted a Phase I environmental assessment of the Properties. They observed evidence of UST tanks on both parcels. Based on a previous Phase I assessment, Silvercup JV LLC know that there are 2 UST tanks on 2295 Vernor, a 12,000 gallon diesel fuel tank, and a 11,200 gallon fuel oil tank. There was also a steam tunnel that serviced both properties.

#### **Projected Costs**

It is currently anticipated construction will begin in the fall of 2004 and eligible activities will be completed in 18 months. Silvercup JV desires to be reimbursed for the cost of eligible activities. Tax increment revenues generated by the

Properties will be captured by the Authority and used to reimburse the cost of the eligible activities completed on the Property after approval of this Plan.

The eligible activities are to be financed solely by Silvercup JV LLC. The Authority will reimburse Silvercup JV for the cost of approved eligible activities, but only from tax increment revenues generated from the Properties. No advances have been or shall be made by the City or the Authority for the cost of eligible activities under this Plan.

Tax increments are projected to be captured and applied to (i) reimbursement of eligible activity cost and payment of authority administrative cost, and (ii) make deposits into the Authority's Local Site Remediation Revolving Fund, as follows:

Eligible Activity Cost	
Reimbursement:	\$ 845,000
Administrative Fees:	\$ 230,031
Revolving Fund:	\$ 458,510
Total:	\$1,533,541

#### **Public Comments Received**

The Committee's communication to the City Council and the Authority, dated September 29, 2004 (Exhibit C), recommending approval of the Plan including the minutes of the joint Public Hearing held by the Committee and the Authority on September 29, 2004, are enclosed for the City Council's consideration.

#### **Authority's Request**

The Authority is respectfully requesting the following actions from the City Council:

#### **a.) October 27, 2004**

October 21, 2004

Honorable City Council:

Re: A Resolution Authorizing the Issuance and Sale of Water Supply System Revenue and Revenue Refunding Bonds of the City of Detroit of Equal Standing and Junior Standing with the City's Water Supply

System Revenue Bonds and Water Supply System Revenue Refunding Bonds Now Outstanding and Which May Remain Outstanding, for the Collective Purposes of Defraying Part of the Cost of Acquiring and Constructing Replacements, Repairs, Extensions and Improvements to the City's Water Supply System and Refunding Certain Water Supply System Revenue Bonds, Providing for the Form of the Securities Herein Authorized; Providing for the Rights of the Owners of such Securities and Enforcement Thereof; Providing for Financial Facilities and Interest Rate Exchange Agreements; and Determining Other Matters Relating to such Securities and the System.

The attached Resolution authorizes the issuance and sale of the subject bonds, including application to the Michigan Department of Treasury, for purpose of providing approximately \$545 million in financing for the ongoing Water Supply System Capital Program.

In addition, because of a continued decline in interest rates, an additional \$490 million of previously issued Bonds may be refinanced, thereby producing interest savings. The actual amount of Bonds will likely be reduced, depending on which Bonds may be economically refunded at the time of the actual sale.

It is anticipated that the sale will occur in January, 2005. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,

(d) Series 2005 Second Lien Refunding Bonds.

(1) From the proceeds of the sale of Series 2005 Second Lien Refunding Bonds there shall be immediately deposited in the Second Lien Bond and Interest Redemption Fund, an amount equal to any accrued interest received on the delivery of the Series 2005 Second Lien Bonds, and the City may take credit for the amount so deposited against the amount required to be deposited in the Second Lien Bond and Interest Redemption Fund for payment of the next maturing interest payment on the Series 2005 Second Lien Refunding Bonds.

(2) From the proceeds of the Series 2005 Second Lien Refunding Bonds there shall next be applied an amount sufficient to acquire a Credit Facility in an amount at least equal to the Series 2005 Second Lien Refunding Bond Reserve Requirement or an amount shall be deposited in the Second Lien Bond Reserve Account at least equal to the Series 2005 Second Lien Refunding Bond Reserve Requirement, or a combination thereof.

(i) The manner of funding the Series 2005 Second Lien Refunding Bond Reserve Requirement shall be determined by the Finance Director in the Sale Order.

(ii) The Finance Director may establish separate subaccounts in the Second Lien Bond Reserve Account to relate to each separate series of Series 2005 Second Lien Refunding Bonds in such amounts as shall be confirmed in the Sale Order.

November 3

2004

(3) From the proceeds of the Series 2005 Second Lien Refunding Bonds there shall next be deposited in the Construction Fund Series 2005 an amount sufficient to pay the Issuance Costs of the Series 2005 Second Lien Refunding Bonds after taking into consideration other moneys deposited therein for such purpose. Such amount shall be held in a separate account and not as part of the Construction Fund Series 2005, but shall be disbursed to pay Issuance Costs of the Series 2005 Second Lien Refunding Bonds in the same manner as amounts are disbursed to pay Issuance Costs from the Construction Fund Series 2005.

(4) The balance of the proceeds from the sale of the Series 2005 Second Lien Refunding Bonds shall be used to acquire Government Obligations, which together with any remaining balance of such proceeds in the form of cash, shall constitute all or part of the Escrow Deposit to be held in the Escrow Fund.

(e) Construction Fund.

A subaccount of the Construction Fund established by the Ordinance shall be designated the "Construction Fund Series 2005," and shall be established and maintained as a separate depository account with a depository qualified to be a depository of moneys under Michigan law as designated by the Finance Director.

(1) Moneys in the Construction Fund Series 2005 shall be applied solely in payment of:

(i) the Issuance Costs of the Series 2005 Project Securities and

(ii) the costs of the Project, including engineering, legal and other expenses incident thereto and to the financing thereof.

(2) Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Commissioners a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and that such work has not been previously paid for.

(3) Payment of the costs of engineering, legal, financial, printing, escrow verification, bond insurance premium, credit enhancement, etc., as provided in this Section shall be made upon submission of appropriate documentation to the Finance Director.

(4) Any unexpended balance remaining in the Construction Fund Series 2005 after completion of the Project may in the discretion of the Commissioners be used for meeting the Reserve Requirement of the Senior Lien Bond Reserve Account and, to the extent such monies are not

needed to meet the Reserve Requirement of the Second Lien Bond Reserve Account, for meeting the Reserve Requirement of the Second Lien Bond Reserve Account or for further improvements, replacements, enlargements and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on Series 2005 Securities from gross income for federal income tax purposes.

(5) Any remaining balance after all expenditures made pursuant to paragraph (4), if any, have been made shall be paid into the Senior Lien Bond and Interest Redemption Fund or the Second Lien Bond Interest and Redemption Fund, as the Commissioners shall determine, for the purpose of redemption or purchase at not more than the fair market value, plus accrued interest, of outstanding Series 2005 Securities. Series 2005 Securities acquired by purchase shall be canceled.

(f) Escrow Fund.

(1) The Escrow Deposit shall be held in or credited to an account designated as the "City of Detroit Water Supply System Revenue Bonds Series 2005 Senior Lien Refunding Bonds Escrow Fund" or the "City of Detroit Water Supply System Revenue Bonds Series 2005 Second Lien Refunding Bonds Escrow Fund" pursuant to one or more escrow agreements (the "Escrow Agreement").

(2) The Finance Director is authorized to enter into the Escrow Agreement on behalf of the City with U.S. Bank National Association as "Escrow Trustees."

(3) The Escrow Agreement:

(i) shall be in the form and substance customary for refunding escrow agreements;

(ii) may permit any balance after paying the principal (and premium, if any) and interest on the Bonds to be Refunded to be applied to any lawful purpose of the System if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Series 2005 Refunding Securities from gross income for federal income tax purposes; and

(iii) shall otherwise be in the best interests of the City.

(4) In the event all Bonds to be Refunded will be paid or redeemed within 90 days of the date of issuance of the Series 2005 Refunding Securities, then in lieu of the establishment of an Escrow Fund and the execution of an Escrow Agreement as described above, the Finance Director is authorized to transfer the Escrow Deposit (or cash sufficient to

acquire the securities making up all or a portion of the Escrow Deposit) to the paying agent for the Bonds to be Refunded together with irrevocable instructions to (i) call the Bonds to be Refunded on the applicable call date and (ii) use the Escrow Deposit to pay principal of and interest and redemption premiums, if any, on the Bonds to be Refunded to and including the scheduled call date. The proceeds described in this subsection (4) shall be employed only if, in the opinion of Bond Counsel, after use of such procedures the Bonds to be Refunded will no longer be Outstanding under the Ordinance.

#### **Section 12. Tax Covenant.**

The City hereby covenants and represents with the registered owners of the Series 2005 Securities that so long as any of the Series 2005 Securities remain outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain and will refrain from taking any action which would impair the exclusion of the interest on the Series 2005 Securities from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as currently amended, including, but not limited to, actions relating to any required rebate or arbitrage earnings and the expenditure and investment of Series 2005 Bond proceeds and moneys deemed to be Series 2005 Bond proceeds, and to prevent the Series 2005 Securities from being or becoming "private activity bonds" as that term is used in Section 141 of the Internal Revenue Code of 1986, as currently amended.

#### **Section 13. Preliminary and Final Official Statements.**

(a) The Finance Director shall cause the preparation of a preliminary official statement and other offering materials in a form satisfactory to him to be used in conjunction with the offering of the Series 2005 Securities and is authorized to deem the preliminary official statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission (the "Rule").

(b) The preliminary official statement with such changes and additions as the Finance Director shall approve shall constitute the final Official Statement, and the Finance Director is authorized to execute the final Official Statement on behalf of the City approved by him with such changes as the Finance Director may authorize.

(c) Such final preliminary official statement and final Official Statement and other offering materials satisfactory to the Finance Director are authorized to be distributed by the Underwriters in conjunction with the offering and sale of the

Series 2005 Securities.

#### **Section 14. Continuing Disclosure.**

Unless otherwise set forth in the Sale Order because of an exemption from the Rule, the Series 2005 Securities are hereby made subject to the Continuing Disclosure Agreement, and if so subject the City hereby agrees to abide by the provisions thereof so long as any Series 2005 Securities are outstanding.

#### **Section 15. Sale of Series 2005 Securities.**

The Series 2005 Securities shall be sold by negotiated sale to the Underwriters pursuant to a Purchase Agreement in customary form with such changes thereto as the Finance Director shall determine are in the best interests of the City, within the parameters established hereby. Such determination shall be conclusively established by the Finance Director's execution and delivery of the Purchase Agreement to the Representative. The reasons for choosing a negotiated sale instead of a competitive sale include the belief of the Council, based upon the recommendation of the Finance Director and the City's Financial Advisor, that a negotiated sale will allow the Series 2005 Securities to be offered to investors in the most efficient manner possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs to the City.

(a) The Finance Director is authorized to accept, on behalf of the City, an offer from the Representative to purchase the Series 2005 Securities wherein the aggregate compensation to be paid to the Underwriters in such capacity shall not be more than 1% of the original principal amount of the Series 2005 Securities.

(b) The Finance Director is authorized to determine whether the Purchase Agreement shall provide for liquidated damages and if so, the amount thereof, and whether the Representative shall be required to provide a good faith check in the amount of the liquidated damages.

#### **Section 16. Cash Defeasance of Outstanding Securities.**

(a) The Finance Director is hereby authorized to defease outstanding Securities pursuant to the Ordinance from funds of the System available thereof other than from proceeds of Series 2005 Securities.

(b) The series, maturities (or portions thereof) and principal amounts of the Securities to be defeased shall be determined by the Finance Director and set forth in the Sale Order.

(c) An Escrow Deposit for the Securities to be defeased shall be (i) held in or credited to an account designated as the "City of Detroit Water Supply System Revenue Bonds [Designation appropriate

to the cash defeased Securities] Escrow Fund" pursuant to an escrow agreement entered into pursuant to and complying with Section 11(f)(2) and (3) hereof and shall be transferred to the paying agent for the Securities to be defeased subject to the same conditions and requirements set forth in Section 11(f)(4) hereof.

(d) Such defeasance shall occur on or prior to the issuance of the Series 2005 Refunding Securities.

**Section 17. Delegation of Authority to, and Authorization of Actions of, Finance Director.**

(a) The Finance Director shall make all determinations herein provided to be made in the Sale Order and shall make all such determinations in accordance with the best interests of the City and within the parameters of this Resolution.

(b) In addition to determinations authorized elsewhere in this Resolution, the Finance Director shall determine the aggregate principal amount of Series 2005 Securities to be issued, but not in excess of the aggregate principal amount authorized by this Resolution, on the basis of his evaluation of the maximum amount of Series 2005 Securities which can be sold, given anticipated interest rates and the revenue coverage requirements with respect to the Series 2005 Securities and for any other reasons the Finance Director deems appropriate.

(1) Such determination shall also include the type or types of Series 2005 Securities to be issued and if in one or more series and whether to issue Series 2005 Securities as Senior Lien Bonds or Second Lien Bonds or a combination thereof and the redemption provisions for Series 2005 Securities.

(2) The Finance Director shall also determine and establish, in accordance with this Resolution, the maturities of Series 2005 Securities, whether such maturities shall be serial or term maturities and the Mandatory Redemption Requirements for any term maturities.

(3) The Finance Director shall also determine whether to issue the Series 2005 Refunding Securities and, if so, the Bonds to be Refunded.

(c) For the purpose of more effectively managing debt service requirements of outstanding Securities and the Series 2005 Securities the Finance Director is hereby authorized in his discretion to enter into one or more Interest Rate Agreements with such counterparties and containing such provisions as shall meet the requirements of Act 34, the Swap Management Plan, and the Debt Management Plan. Any such Interest Rate Agreement may be obtained on a forward starting or delayed delivery basis if determined by the Finance Director to be in the best interests of the City. To the extent, if any, provided in the Sale Order,

the Transaction dated January 29, 2004 pursuant to the ISDA Master Agreement dated as of the May 22, 2003 (Water System Transactions), as amended and supplemented, between the City and Morgan Stanley Capital Services Inc. may be related to the Series 2005 Securities.

(1) The Council acknowledges the potential risks associated with the Interest Rate Agreements including, counterparty risk, termination risk, rollover risk, basis risk, tax event risk, and amortization risk, as set forth in the Swap Management Plan.

(2) The Finance Director is authorized to negotiate the terms of the Interest Rate Agreements, provided, that such terms are consistent with Act 34, the Swap Management Plan, the Debt Management Plan, the Ordinance and this Resolution and are not materially adverse to the City.

(3) The Finance Director is further authorized to enter into such ancillary agreements, including, without limitation, agreements to obtain insurance on some or all of the payments due under Interest Rate Agreements, in connection with the Interest Rate Agreements, as may be necessary or appropriate and are consistent with Act 34 and the terms of the Swap Management Plan, the Debt Management Plan, the Ordinance and this Resolution.

(4) The determinations made by the Finance Director in connection with the Interest Rate Agreements shall be confirmed in the Sale Order.

(d) The Finance Director is authorized to enter into such Financial Facility Agreements as provided in Section 8 hereof of the City as the Finance Director determines to be cost effective, make such ancillary agreements and do such other things and take such other actions in connection therewith as may be necessary or appropriate and not otherwise inconsistent with the Ordinance or the parameters hereof.

(e) The Mayor or, if permitted by law, the Finance Director, is authorized to file applications and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for one or more Orders of Approval to issue all or a portion of the Series 2005 Securities, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the Series 2005 Securities as authorized herein, and as required by the Michigan Department of Treasury or Act 34.

(f) The Finance Director is hereby authorized and directed to do and perform any and all other acts and things with respect to the Series 2005 Securities which are necessary or appropriate to carry into effect, consistent with the Ordinance and this Resolution, the authorizations therein and herein contained

including without limitation the securing of ratings by bond rating agencies, and the incurring of reasonable fees costs and expenses incidental to the foregoing, for and on behalf of the City.

(g) All determinations and decisions of the Finance Director with respect to the issuance and sale of the Series 2005 Securities as permitted or required by this Resolution shall be confirmed and approved by the Finance Director in the Sale Order.

(h) During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director shall exercise all the powers, perform all the duties and make all the determinations herein required or permitted by the Finance Director.

**Section 18. Advancement of Costs of the Project.**

At the direction of the Finance Director, the City may advance certain costs of the Project from the City's funds prior to the issuance of the Bonds. The City intends to reimburse itself for any costs of the Projects paid or incurred by the City prior to the issuance of the Series 2005 Project Securities with proceeds of the Series 2005 Project Securities. The Internal Revenue Service has issued Treas. Reg. §1.150.2 pursuant to the Code, governing proceeds of bonds used for reimbursement, pursuant to which the City must declare official intent to reimburse expenditures with bond proceeds as provided in Section 19 below.

(c) The maximum principal amount of debt expected to be issued for the Project, including issuance costs, is \$545,000,000.

(d) A reimbursement allocation of the expenditures described in (b) above with the proceeds of the borrowing described herein will occur not later than 18 months after the later of (i) the date on which the expenditure is paid, or (ii) the date the Project is placed in service or abandoned,

but in no event more than three (3) years after the original expenditure is paid. A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the project to reimburse the City for a capital expenditure made pursuant to this Resolution.

(e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Reg. §1.150-1(b), i.e., any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. §1.150(2)(c)) under general Federal income tax principles (as determined at the time the expenditure is paid).

(f) No proceeds of the borrowing paid to the City in reimbursement pursuant to this Resolution will be used in a manner described in Treas. Reg. §1.150-2(h) with respect to abusive use of such proceeds, including but not limited to using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. §1.148-1) within one year of the reimbursement allocation described in (d) above.

(g) Expenditures of the Project to be reimbursed from the proceeds of the borrowing that are subject to the limitations set forth in this Resolution do not include (i) costs for the issuance of the debt, (ii) an amount not in excess of the lesser of \$100,000 or five percent (5%) of the proceeds of the borrowing, or (iii) preliminary expenditures not exceeding twenty percent (20%) of the issue price of the borrowing within the meaning of Treas. Reg. §1.150-2(f) (such preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the Project, but do not include land acquisition, site preparation, and similar costs incident to commencement of construction).

**Section 20. Ratification.**

All determinations and decisions of the Finance Director and of the Deputy Finance Director of the City with respect to the issuance and sale of the Series 2005 Securities as permitted or required by the Ordinance or law are hereby ratified, confirmed and approved.

**Section 21. Additional Authorization.**

The Mayor, City Clerk, Finance Director, Treasurer, Corporation Counsel, Director of the Water and Sewerage Department, any such officials acting in an interim or acting capacity, other officials of the City, their deputies and staff, or any of them, are hereby authorized to execute and deliver such certificates, documents, instruments, opinions and other papers as may be deemed neces-

sary or appropriate to complete the sale, execution and delivery of the Series 2005 Securities, the refunding of the bonds to be Refunded and otherwise give effect to the transactions, contemplated by this Resolution, as determined by such officials executing and delivering the foregoing items.

**Section 22. Resolution a Contract.**

The appointment by the Finance Director of the law firms of Lewis & Munday, A Professional Corporation and Miller, Canfield, Paddock and Stone, P.L.C., as Co-Bond Counsel for the Series 2005 Securities is hereby ratified and confirmed, notwithstanding the periodic representation by Lewis & Munday, A Professional Corporation or Miller, Canfield, Paddock and Stone, P.L.C., in unrelated matters of other parties and potential parties to the issuance of the Series 2005 Securities. The fees and expenses of Lewis & Munday, A Professional Corporation and Miller, Canfield, Paddock and Stone, P.L.C., shall be payable as an Issuance Cost from the proceeds of the Series 2005 Securities or other available funds in accordance with the letters of such firms on file with the Finance Director.

The Finance Director is authorized to engage other consultants, including, without limitation, a verification agent to verify the mathematical sufficiency of the Escrow Deposit, financial advisors, or other parties as he deems necessary or appropriate in connection with the sale, issuance and delivery of the Series 2005 Securities and to pay the fees and expenses thereof from the proceeds of the Series 2005 Securities or other available funds.

Bonds called for redemption shall not bear interest after the date fixed for redemption, whether presented for redemption or not, provided that funds are on hand with the Transfer Agent to redeem the Bonds or portions of Bonds called for redemption.

THIS BOND IS A SELF-LIQUIDATING BOND AND IS NOT A GENERAL OBLIGATION OF THE CITY AND DOES NOT CONSTITUTE AN INDEBTEDNESS OF THE CITY WITHIN ANY CONSTITUTIONAL, STATUTORY OR CHARTER LIMITATION, BUT IS PAYABLE, BOTH AS TO PRINCIPAL AND INTEREST SOLELY FROM THE PLEDGED ASSETS OF THE SYSTEM. THE PRINCIPAL OF AND INTEREST ON THIS BOND ARE SECURED BY THE STATUTORY [FIRST] [SECOND] LIEN HEREINBEFORE MENTIONED.

This Bond is transferable only upon the books of the City kept for that purpose at the office of the Transfer Agent by the registered owner hereof in person, or by his attorney duly authorized in writing, upon the surrender of this Bond together with a written instrument of transfer satisfactory to the Transfer Agent duly executed by the registered owner or his attorney duly authorized in writing, and thereupon a new registered Bond or Bonds of the same type, in the same aggregate principal amount and of the same maturity shall be issued to the transferee in exchange therefor as provided in the Bond Ordinance and upon the payment of the charges, if any, therein prescribed.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this Bond and the series of Bonds which

Honorable City Council:

Re: MLK Homes — Payment in Lieu of Taxes (PILOT).

MLK Homes Limited Dividend Housing Association Limited Partnership is developing a housing project consisting of 45 newly constructed three and four bedroom single-family units. The project area is bounded by Lodge Freeway to the east; I-96 to the west; Warren to the north and Martin Luther King Blvd. to the south.

Financing for the development will be provided by Stearns Bank with a mortgage of one million five hundred and twenty-five thousand (\$1,525,000) at 7.00% for 15 years and Low Income Tax Housing Tax Credits of six million two hundred and eighty thousand dollars (\$6,280,000) dollars. Total development cost is expected to be \$7,805,000.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

Thirty-one percent (31%) or 14 of the units will be occupied by households with incomes no greater than 30% of the area median income adjusted for family size. Twenty-six percent (26%) or twelve (12) of the units will be occupied by households with incomes no greater than thirty-five percent (35%) of the area median income adjusted for family size. Twenty-six percent or twelve of the units (12) of the units will be occupied by households with incomes no greater than forty percent (40%) of the area median income adjusted for family size. The remaining fifteen percent (15%) or seven (7) units will be occupied by households with incomes no greater than sixty percent (60%) of the area median income adjusted for family size.

Honorable City Council:

Re: Ethel Sabin and Clifford Sabin v Melissa Dennett, Kellie Hall, Christopher Gunn, Thomas E. Phillips, James Markham, Bruce Debouvue, Patrick Tinney, K. McCloud and Gary Loftis. Case No.: 03 335344 NO, File No.: A37000.004514 (PGR).

On October 5, 2004, a case evaluation panel evaluated the above-captioned lawsuit and awarded Fifteen Thousand Dollars (\$15,000.00) in favor of Plaintiffs. The parties have until November 2, 2004, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a corrected confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

The Law Department notes that the evaluation panel separated their award so that each of the two plaintiffs received an award in the amount of \$7,500.00 and there is a possibility that only one plaintiff may accept the award while the remaining plaintiff may continue forward towards trial.

We, request your Honorable Body to authorize acceptance of the case entire evaluation award in the total amount of \$15,000.00 as explained in the corrected memorandum.

We also request that, in the event that Plaintiff Ethel Sabin accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Seven Thousand and Five Hundred Dollars (\$7,500.00) payable to Ben M. Gonek, P.C., attorneys, and Ethel Sabin to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 03 335344 NO, approved by the Law Department.

We further request that, in the event that Plaintiff Clifford Sabin accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Seven Thousand Five Hundred Dollars (\$7,500.00) payable to Ben M. Gonek, P.C., attorneys, and Clifford Sabin, to be delivered upon receipt of properly executed Releases and Stipulation and Order of

Honorable City Council:

Re: Address: 15365 Chatham. Name: Lysa Kowalik. Date ordered removed: October 8, 2003 (J.C.C. p. 2992).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 22, 2004 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 17, 2004.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not main-

tained, we will proceed with demolition without further hearings. Pursuant to the Property Maintenance Code our Municipal Civil Infractions (MCI) Unit will issue the appropriate violations/tickets.

gated the issue of separation involving  
the City of Detroit and the Detroit Housing  
Commission (DHC) that resulted in the  
Michigan Supreme Court, in the matter  
entitled *American Federation of State,  
County and Municipal Employees vs. City  
of Detroit*, 468 Mich 388; 662 NW2d 695  
(2003), opining that Michigan Public Act  
18 of 1933 (Extra Session) as amended,  
being MCL 125.651 et seq., mandates the  
severance of a coemployment relation-  
ship between a municipality and its hous-  
ing commission, including the DHC; and

Whereas, Following the ruling, the  
Detroit City Council's five (5) resolutions  
had the effect of staving off planned lay-  
offs by the DHC, goods and services to  
the DHC which were continued through  
various City departments until October  
31, 2004, and the DHC purportedly has  
been billed for the City's cost in providing  
the those goods and services; and

Whereas, The Executive Branch of the  
City of Detroit and DHC have expressed  
their collective desire to permit the DHC  
to continue to procure goods and services  
through various City departments beyond  
October 31, 2004, and expressed their  
intention to present a proposed  
Memorandum of Understanding (MOU)  
between the City and DHC that purports  
to establish the contractual framework to  
permit DHC to contract with City depart-  
ments for the goods and services it  
desires; and

Whereas, To date, the Detroit City  
Council has not received sufficient infor-  
mation to make an informed decision on  
establishing the contractual framework to  
permit DHC to contract with City depart-  
ment for the goods and services it  
desires, as the Council has not received a  
current proposed MOU as promised by  
the Executive Branch of the City of Detroit  
and the DHC; Now Therefore Be It

Resolved, That the Detroit City Council,  
in order to fulfill its legislative responsibil-  
ities, requires the following information: a  
complete history of all real property on  
DHC's inventory of properties, a detailed  
response to the City Council's inquiries  
including, but not limited to, how the DHC

will reimburse the money that the City expenses for goods and services it obtains, the timetable for the reimbursements, and the penalties for DHC's failure to meet its obligations, and requests that revised intergovernmental agreements that, among other things, clearly acknowledge and set forth the City Council's role and responsibilities to approve City contracts and to protect City owned assets, be submitted to this Honorable Body within thirty (30) days; and Be It Further

Resolved, That the Finance Director is hereby authorized to take appropriate actions to extend all existing intergovernmental relationships the DHC has with various City departments for the procurement of goods and services through January 10, 2005, or until a MOU between the City and DHC to establish the contractual framework to permit DHC to contract with the City for goods and services is executed, whichever occurs first; and Be It Further

Resolved, That all funds expended by the City of Detroit to furnish goods and services to the DHC be reimbursed by the DHC within thirty (30) days of written notification; and Be It Further

**Planning & Development Department**  
 July 8, 2004

Honorable City Council:

Re: A Resolution to Amend the Detroit Master Plan of Policies for the Perfecting Church Development Project.

Pursuant to the City of Detroit Charter, Section 8-102, the Planning and Development Department, Planning Division, submits for your consideration and action a proposed Amendment to the City of Detroit Master Plan of Policies. Adoption of this resolution by your Honorable Body would accommodate the proposed Perfecting Church development project through a change in the future general land use for the proposed development site.

**Location**

Northeast corner of Woodward Avenue and Seven Mile Road.

The project site is located entirely within the North Sector, State Fair Subsector. Woodward Avenue, Bryson Avenue, Bauman Avenue and Larchwood Avenue bound the project site.

**Previous Interpretations**

This proposed Amendment follows a Master Plan interpretation dated June 28th for the rezoning of the development site from B4, General Business, and R2, Two-family Residential, to PD, Planned Development. That interpretation concluded that the proposed development does not conform with the future general land use of the community as described in the Master Plan of Policies.

**Existing Site Information**

Future General Land Use

MUR (Mixed Use Residential) — along Woodward

RLM (Low-Medium Density Residential) — east of the alley behind Woodward

Existing Land and/or Building Use

Commercial uses exist along Woodward Avenue, though most properties exhibit significant blight and most structures are dilapidated or in disrepair. In the neighborhood east of Woodward Avenue, few scattered houses remain on the project site, but most of the residential structures have been demolished. The land is largely clear for development.

Existing Zoning

B4 (General Business) — along Woodward

R2 (Two-family Residential) — east of the alley behind Woodward

**Surrounding Site Information**

Future General Land Use

GC (General Commercial) — along Woodward and Seven Mile, south of Larchwood

MUR (Mixed Use Residential) — along Woodward, north of Bryson

RLM (Low-Medium Density Residential) — east of the alley behind Woodward

Existing Land and/or Building Use

Commercial uses exist along Woodward Avenue, though most properties exhibit significant blight and most structures are dilapidated or in disrepair. Similarly, many residential properties in the surrounding neighborhoods to the north and the east exhibit significant blight and a number of properties are vacant.

Existing Zoning

B4 (General Business) — along Woodward, south of Larchwood and north of Bryson

R2 (Two-family Residential) — east of the alley behind Woodward

**Project Proposal**

Future General Land Use

MUR (Mixed Use Residential) — along Woodward

RLM (Low-Medium Density Residential) — east of the alley behind Woodward

Proposed Land and/or Building Use

The project includes a 4,236-seat church, and 11,930-square foot office building, a 1,079-space parking structure and 188 surface parking lots.

Proposed Zoning

PD (Planned Development)

**Interpretation***Impact on Surrounding Land Use*

The proposed development has the potential to stimulate commercial reinvestment along Woodward Avenue and Seven Mile Road and stimulate residential reinvestment in surrounding neighborhoods to the north and to the east.

*Impact on Transportation*

The size and scope of the project and the activities related to the development may complicate traffic flow, particularly along residential streets. Strict enforcement of speed limits and traffic signals, along with appropriate measures and devices for pedestrian access and safety, will alleviate traffic concerns. Additionally, the potential for reinvestment could increase ridership on regional and local transit systems at points along Woodward Avenue and Seven Mile Road.

*Additional Analysis*

This proposed development is part of a larger phased development that includes condominium residential units adjacent to the north of the initial development site. While the residential units conform to the recommended future general land use of the Master Plan (Low-Medium Density Residential or RLM), the initial phase of this development is inconsistent with the recommended future general land use of the community outlined in the Master Plan of Policies.

The Amendment is necessary to accommodate the development of the Perfecting Church. The Perfecting Church project fulfills the mandates of the community as outlined in the Master Plan of Policies. These mandates include "the

clearance of obsolete structures, encouragement of reinvestment, disposal of vacant lots and rehabilitation of the housing stock" (Article 305, *North Sector Policies*, p. III-83). The Perfecting Church development represents a higher and better use for this site by acting as a stimulus for investment in the surrounding community and acting as a provider of diverse services and activities for City residents.

**Recommended Master Plan Amendment**

The Planning Division of the Planning and Development Department therefore recommends that the future general land use of the Master Plan of Policies change from Mixed Use Residential, MUR, and Low-Medium Density Residential, RLM, to Institutional, or INST.

#### Finance Department

October 28, 2004

Honorable City Council:

Re: Request to adopt the Resolution authorizing an Installment Purchase under the existing GE Capital Master Lease Agreement dated February 27, 1998 between the City of Detroit and GE Capital.

We are prepared to proceed with financing the acquisition and installation of copier equipment to be utilized by the Fire, Buildings & Safety, Mayor's Office, Police and Finance Departments. The financing will allow the City to raise approximately \$150,000 for the equipment. While various financing alternatives were considered, we have determined that the most cost-effective option for financing the equipment is through GE Capital Corporation.

The attached Resolution will authorize the City to execute Equipment Schedule No. 015 under the existing Master Lease Agreement dated February 27, 1998 between the City and GE Capital.

Adoption is respectfully requested with waiver of reconsideration at your next scheduled formal session.

Mayor's Office, Police and Finance Departments at various locations within the city (the "Property"); and

Whereas, It is determined to be necessary and desirable and in the best interest of the City that the acquisition and installation of the Property be financed by an installment contract authorized under the provisions of Act No. 99, Public Acts of Michigan, 1933 as amended, and more specifically by the acquisition and installation of the Property pursuant to an installment contract identified as a Master Lease Agreement (the "Lease"), dated February 27, 1998, between the City and GE Capital Public Finance, Inc. (the "Lessor"), and Equipment Schedule No. 014 to be attached thereto relating to the Property, in the aggregate principal amount not to exceed \$150,000 (the "Schedule" and together with the Lease, collectively the "Contract"); and

Whereas, The aggregate outstanding balance, exclusive of interest, of all purchases made by the City pursuant to Act 99, including the Contract, does not exceed 1-1/4% of the taxable value of the real and personal property of the City.

Now, Therefore, Be It Resolved, That

The City Clerk's Office forwarded to this office an application for a Neighborhood Enterprise Zone (NEZ) certificate for 5099 Belvidere, within the Gratiot Woods NEZ.

The Gratiot Woods NEZ was approved by City Council on February 18, 2004. The applicant is proposing to rehabilitate a two bedroom single-family house.

The subject property is confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. It appears that the request for certificate has been filed prior to construction, as the State Act requires. The true cash value of the housing unit involved in the rehabilitation is \$30,900, well below the \$80,000 per unit maximum required by the State Act. The rehabilitation will involve the upgrading of heating, electrical and plumbing systems, a new roof and a bedroom addition with a total estimated cost of \$50,000.

The City Planning Commission staff, therefore, recommends approval of the requested certificate in the Gratiot Woods NEZ.

Re: Neighborhood Enterprise Zone (NEZ) Certificate Application for new housing at 4105 Miracles Blvd. in the Woodbridge Estates NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office an application from Scripps Park Associates, LLC for a Neighborhood Enterprise Zone (NEZ) certificate at 4105 Miracles Blvd. within the Woodbridge Estates NEZ. Your Honorable Body approved the Woodbridge Estates NEZ designation on September 19, 2001. City Planning Commission staff has reviewed the application and recommends approval.

The property involved is confirmed as being within the boundaries of the NEZ and should be eligible for an NEZ certificate under State Act 147 of 1992 as currently written. Scripps Park Associates, LLC. has applied for the certificate, prior to the issuance of building permits, on behalf of the future owner who will occupy the property. It is appropriate for them to apply for certificate at this time, even if a buyer has not yet been identified. It is appropriate for them to apply for certificate at this time, even if a buyer has not

yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he or she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to build a four bedroom single-family home. The site has been cleared and construction is anticipated to begin soon. The developer will need to submit to the State Tax Commission the parcel to receive the certificate with a map showing the parcel.

Please let us know if you have any questions.

#### City Planning Commission

November 8, 2004

Honorable City Council:

Re: Proposal to rezone land in downtown Detroit located at the intersection of Woodward Ave., Michigan Ave., Fort St., Cadillac Square and Monroe Ave. from a B5 (Major Business District) to a PC (Public Center District) classification and the establishment of a PC classification on contiguous land that is currently without a zoning district classification (RECOMMEND APPROVAL).

The City Planning Commission (CPC) staff proposes the rezoning of land in downtown Detroit located at the intersection of Woodward Ave., Michigan Ave., Fort St., Cadillac Square and Monroe Ave. from a B5 (Major Business District) to a PC (Public Center District) classification and the establishment of a PC classification on contiguous land that is currently without a zoning district classification. The subject property is the nearly completed Campus Martius Park at the heart of the Campus Martius district. The site is 1.6 acres in size, publicly owned and privately operated via contract with the City.

#### PURPOSE

The proposed rezoning would establish a single unified zoning lot for the Park and provide the appropriate restrictions and regulations for a civic, cultural and recreational space such as this park within the downtown area. The western edge of the Park is a remnant of what was Kennedy Square, and bears a B5 zoning district classification. The northeast edge of the Park also bears B5 zoning, as it was part of the Old Kern block, which is now the site of the new Compuware headquarters. The remainder of the Park is without zoning as it is part of the Campus Martius right-of-way, the historic parade ground and civic assembly area.

#### SURROUNDING LAND USE AND ZONING

To the North: office, commercial retail, residential — B5

To the South: office, commercial retail — PCA

To the East: office, commercial retail, surface parking, residential — B5

To the West: office, commercial retail, below grade parking — B5

#### BACKGROUND

In March of 2000 Mayor Archer created the Campus Martius Task Force, which was charged with developing a vision for the overall character of Campus Martius Park. The Task Force fulfilled that charge and then moved through a selection process, whereby a design team was chosen in the summer of that year to

develop and carry out the vision. Since that time, this project has progressed through the concept, schematic and design development stages with input from the Task Force and other stakeholders including both your Honorable Body and the Commission. The project is in the final stages of construction and is scheduled for a ribbon cutting on Friday, November 19th.

The Campus Martius Park project was originally identified by Detroit 300 as one of its Legacy Projects, a permanent gift to the City marking its 300th birthday. Detroit 300 became the Detroit 300 Conservancy, and has continued to lead the funding and management efforts for the construction and maintenance of the Park. In September of 2003, your Honorable Body approved agreements with the Conservancy for the construction and operation of the Park.

#### REVIEW

The design of Campus Martius Park is basically the same as what was last presented to the Council in 2003. It includes the café with outdoor seating along the west side of the Park where Michigan Ave. terminates. North and south of the café are garden areas with varied plantings, including fixed seating and water features. The southern edge of the Park features the relocated Soldiers and Sailors Monument with the addition of seating and water tables via a new base. North of the Monument, along the east side of the Park, is a small open lawn area and north of that, the Woodward Fountain, that will serve as the centerpiece of the Park. The Fountain will be capable of a multitude of water displays and will run at all times, even during the winter or when a platform is erected above to act as stage or to hold the City's Christmas tree. North of the Fountain will be a larger lawn panel that will convert to an ice rink during the winter months. At the center of the Park between the café and the Fountain will be pavement markings and accents denoting the City's Point of Origin — the place from which Judge Woodward re-platted the City. The Park is completed by unique lighting fixtures and public art of varied scale and media placed throughout.

Under the Detroit 300 Conservancy, the Park will be open daily with access to the café, Fountain, ice-skating rink (seasonal) and other components. It will provide for everything from vending to art shows, street musicians to major concerts, and casual conversation to political speeches. In addition to housing the City's holiday tree, the park will hold the distinction of being the culmination point for the America's Thanksgiving Day Parade.

The proposed PC zoning district would provide for the Park as designed and its intended uses. While the café is not

specifically named as a use permitted on a matter of right basis in a PC zoning district, Section 112.0197 of the Zoning Ordinance provides for, "Other similar uses when found by the Planning and Development Department to be consistent with the general character of the district". The existing B5 zoning would allow for the Park, but also provides for a wide range of uses that are neither desirable nor envisioned for this site. The PR (Parks and Recreation) zoning district classification would be appropriate. However, the PR zoning district has a minimum size requirement of four acres. Likewise, the PD (Planned Development District) classification also has a minimum size standard of two acres.

CPC staff felt a more restrictive zoning district was best for this site, leaving the PC and PCA (Restricted Central Business District) zoning district classifications for consideration. Both districts make provision for civic uses and features and also require design review and approval. The PCA district allows a broader range of uses more similar to the B5 district. This factor, in conjunction with the Park's unique history, locale and similarity of activities to Hart Plaza (PC zoned), lead staff to include that the PC zoning district classification was the most appropriate for Campus Martius Park.

#### **CPC PUBLIC HEARING RESULTS**

Only one member of the public spoke at the Commission's November 4, 2004 public hearing on this matter. A representative of historic Second Baptist Church indicated that the Church had been informed earlier that it would participate in the rededication of the Soldiers and Sailors Monument but had not received any communication regarding the November 19th ceremony. Subsequent to the hearing it was clarified that though it was thought that the rededication might take place on November 19th, in fact the Monument is to be rededicated in April, 2005 and the Church is scheduled to participate.

#### **CONCLUSIONS AND RECOMMENDATION**

The City Planning Commission has completed its review of the proposed establishment of a PC zoning district for Campus Martius Park. The design features and the varied activities of the park liken it to a compressed version of the Hart Plaza. While not located in the Civic Center proper, as is Hart Plaza, the civic stature being given the Campus Martius Park and the volume of programming being put in place for it should give it equal, if not greater, significance. Although the park is small in size, the unique nature of this site, existing and future adjacent development and the City's radial street pattern give it the potential to establish itself as a town square..

The City Planning Commission finds the

character and vision of the park to be consistent with the spirit and intent of the PC zoning district. The PC zoning district offers a very limited spectrum of allowed uses and provides for review of proposed alterations, which is consistent with the operating agreement between the City and the Detroit 300 Conservancy. Therefore, the Commission recommends approval of the proposed zoning change and establishment of a PC zoning district for Campus Martius Park. The appropriate amendatory ordinance to effectuate this recommendation is attached for your consideration.

## Finance Department

October 22, 2004

Honorable City Council:

Re: An Ordinance Providing for an Alternative Funding Mechanism for Funding Unfunded Actuarial Accrued Liability of the General Retirement System; An Ordinance Providing for an Alternative Funding Mechanism for Funding Unfunded Actuarial Accrued Liability of the Policemen and Firemen Retirement System; and An Ordinance Authorizing the Creation of Two Nonprofit Corporations, Authorizing the Form of a Service Contract and Authorizing Hedges under the Service Contract which Enable the City to Utilize the Alternative Funding Mechanisms.

Attached are three Ordinances and the form of a Service Contract, which together enable the City to realize benefits from funding the existing Unfunded Actuarial Accrued Liability (UAAL) of its two Retirement Systems through an Alternative Funding Mechanism. The UAAL is a current obligation of the City that must be paid-down over a period of 15 years. The Alternative Funding Mechanism is a part of the 2004-05 Budget approved by Council and provides a cost-effective alternative for the City to pay-down this obligation.

The two Ordinances that amend the sections of the Code relating to the two Retirement Systems establish the Alternative Funding Mechanism for each of the Systems. In order to take advantage of the Alternative Funding Mechanism, the City will create one non-profit corporation for each System — the sole purpose of each will be to assist the City in maintaining the actuarial integrity of the respective System by funding its UAAL.

If the Ordinances are approved by the Council, the Corporations will be promptly formed through the filing of Articles of Incorporation and the Finance Director will be authorized to enter into a separate Service Contract with each Corporation to fund all or a portion of each System's UAAL. The Board of Directors of each Corporation will proceed to perform under the Service Contract by funding the UAAL with a Funding Trust that will sell Certificates of Participation to investors.

Also included herein for *informational purposes* are copies of the proposed Articles of Incorporation and By-laws for each of the two Corporations and a preliminary draft of the form of Trust Agreement establishing each Funding Trust.

Corporation Counsel has approved these Ordinances as to form. I request that all three Ordinances be introduced and a public hearing take place at the earliest possible date. I recommend the

Respectfully submitted,

Chief Financial Officer

By Council Member McPhail:

**AN ORDINANCE to amend Chapter 47 of the 1984 Detroit City Code by amending Section 47-2-18, Method of financing, and Section 47-2-20, Management of Funds, to provide for an alternative funding mechanism with respect to the City's obligation to make annual contributions to fund the benefits available under the General Retirement System in accordance with Article 9, Section 23 of the 1963 Michigan Constitution and Section 1140m of the Public Employee Retirement System Investment Act, MCL 38.1140m. This Ordinance does not rescind any substantive rights, entitlements or obligations with respect to benefits earned or accrued by members, retirees or beneficiaries of the System. This Ordinance does not supersede any conflicting provision of any collective bargaining agreements.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 47 of the 1984 Detroit City Code, be amended by amending Section 47-2-18 and 47-2-20, to read as follows:

**Sec. 47-2-18. Method of financing.**

(a) *Annuity Savings Fund of the 1973 Defined Contribution Plan.*

(1) The *Annuity Savings Fund of the 1973 Defined Contribution Plan* shall be the fund in which shall be accumulated at regular interest, the contributions of Members to provide their annuities. At the election of the Member, the amount of the basic contribution of a Member to the Retirement System may be zero percent (0%), three percent (3%), five percent (5%), or seven percent (7%) of annual compensation. If a Member elects three percent (3%), his or her contribution shall be that amount which is subject to taxation under the provisions of the *Federal Insurance Contribution Act*, 26 USC 3101 et seq. (Act), plus five percent (5%) of the portion of annual compensation, if any, which exceeds the amount subject to taxation under that Act.

(2) The contribution rate elected by the Member under Section 47-2-18(a)(1) of this Code shall be deducted from the Members' compensation notwithstanding that the minimum compensation provided by law for any Member shall be reduced thereby. Payment of compensation, less said deductions, shall be a complete dis-

charge of all claims and demands whatsoever for the services rendered by the said Member during the period covered by such payment, except as to benefits provided under this Article.

(3) Upon retirement of a Member with a *Retirement Allowance*, the Member's accumulated contributions shall be transferred from the *Annuity Savings Fund* to the *Annuity Reserve Fund*, refunded to the Member, or a combination thereof.

(b) *Annuity Reserve Fund.*

The *Annuity Reserve Fund* shall be the fund from which all annuities and benefits in lieu of annuities payable as provided in this Article, shall be paid. If a disability retiree is reinstated to active City service, the retiree's *Annuity Reserve* at that time shall be transferred from the *Annuity Reserve Fund* to the *Annuity Savings Fund* and credited to his or her individual account therein.

(c) *Pension Accumulation Fund.*

The *Pension Accumulation Fund* shall be the fund in which shall be accumulated reserves for the pensions and other benefits payable from the contributions made by the City, and from which shall be paid pensions and other benefits on account of Members with prior service credit, and transfers as provided in this Section. Contributions to and payments from the *Pension Accumulation Fund* shall be made as follows:

(1) Upon the basis of such mortality and other tables of experience and ~~Regular Interest~~, as the Board shall adopt from time to time, the Actuary shall annually compute the amount of contributions, which, when ~~paid~~ made annually by the City during the entire prospective City service of Members without prior service credit, will be sufficient to provide the pension reserves required at the time the Members leave City employment, to cover the pensions to which they might be entitled or which might be payable because of their City employment. Upon the retirement of a Member without prior service credit, or upon a Member's death in the performance of duty, the *Pension Reserve Fund* for the pension or pensions to be paid on the Member's account shall be transferred from the *Pension Accumulation Fund* to the *Pension Reserve Fund*.

(2) Upon the basis of such mortality and other tables of experience and regular interest as the Board shall adopt from time to time, the Actuary shall compute annually the pension reserve liabilities for pensions being paid to Retirees and Beneficiaries.

(3) On an annual basis, the Board shall ascertain and report to the Mayor and the Council the amount of City contributions due to the System. The Council shall appropriate and the City shall pay such contributions during the ensuing

Fiscal year. When paid, such contributions shall be credited to the *Pension Accumulation Fund*.

(4) If the amount appropriated by the City and paid to the System for any Fiscal year is insufficient to make the transfers and pay the pensions from the *Pension Accumulation Fund* as provided in this Section, the amount of such insufficiency shall be provided by the appropriating authorities of the City.

~~(d) *Pension Reserve Fund*.~~

~~The *Pension Reserve Fund* shall be the fund from which pensions shall be paid to beneficiaries. Should a Disability Retiree be reinstated to active service, the Retiree's pension reserve at that time, shall be transferred from the *Pension Reserve Fund* to the *Pension Accumulation Fund*.~~

(d) *Accrued Liability Fund*. Pursuant to Ordinance No. \_\_\_\_\_, which authorizes the creation of the *Detroit General Retirement Service Corporation*, the City has entered into a transaction (the "Pension Funding Transaction") to obtain funds as an alternative to those available through the traditional funding mechanism described above in Subsection (c). The proceeds generated by the Pension Funding Transaction (or any Additional Pension Funding Transactions, as described below) that will be deposited into the System will be termed the "Funding Proceeds." The Funding Proceeds will be deposited into a new fund in the System to be called the *Accrued Liability Fund*. The purpose of the Funding Proceeds will be to fund all or part of the heretofore unfunded actuarial accrued liability ("UAAL") of the System, as determined as of a date certain, *i.e.*, the "Determination Date," pursuant to the System's actuarial valuation as of that date. The Funding Proceeds will be assets of the System and will be applied, together with all other assets of the System, to fund the System's obligation to pay accrued benefits.

This *Accrued Liability Fund* shall contain only the Funding Proceeds of this Pension Funding Transaction, and any earnings thereon. Should the City, by future ordinance, choose to raise additional moneys by additional pension funding transactions ("Additional Pension Funding Transactions") in order to fund the then existing UAAL of the System as of a future date certain, a new and separate *Accrued Liability Fund* shall be created within the System to contain the proceeds, and any earnings thereon, of any Additional Pension Funding Transactions, and a new *Accrued Liability Fund* will be created for each successive Additional Pension Funding Transaction undertaken by the City, if any. The treatment of any Additional *Accrued Liability Fund* shall be the same as described below:

(1) The Funding Proceeds deposited in the *Accrued Liability Fund* will be subject to the oversight and investment direction of the Board of Trustees of the General Retirement System, consistent with the Board's obligations under Section 47-2-20 (Management of Funds). The Board will invest the Funding Proceeds as part of the System's overall assets, and will not differentiate the Funding Proceeds from other System assets for investment purposes.

(2) All interest, dividends and other income derived from the investment of the Funding Proceeds shall be credited annually to the applicable *Accrued Liability Fund* on a total System rate of return basis determined by crediting the applicable *Accrued Liability Fund* with the investment return experienced by the System in total for all of its investments for the year. This shall be done by first determining the rate of return for the total assets in the System for the fiscal year, and then crediting back to each *Accrued Liability Fund* an amount that is determined by multiplying that rate of return times the balance in the *Accrued Liability Fund* as of the beginning of the fiscal year, less an amount obtained by multiplying one-half of the System's rate of return times the amount transferred to the *Pension Accumulation Fund* for that year.

As provided in Section 47-2-18(g), the interest, dividends and other income derived from the investment of the Funding Proceeds deposited in any *Accrued Liability Fund* are "other moneys" the disposition of which is specifically provided for in this Article, and these moneys will not be credited to the *Income Fund*. The interest, dividends and other income derived from the investment of the Funding Proceeds deposited in any *Accrued Liability Fund* will not be credited to any Funds other than the *Pension Accumulation Fund*.

(3) Upon the creation of the *Accrued Liability Fund* and the deposit of the Funding Proceeds into the applicable *Accrued Liability Fund*, there shall be established a schedule for transferring assets of the *Accrued Liability Fund* by crediting them to the *Pension Accumulation Fund* on a regular basis over the period required to fully amortize that portion of the System's UAAL determined as of the applicable Determination Date.

The System's UAAL determined as of the applicable Determination Date shall be the "Determined Accrued Liability." The period over which the Determined Accrued Liability is to be fully amortized, as specified in the System's actuarial valuation as of the applicable Determination Date, is the "Amortizing Period." The amount to be transferred each fiscal year (or monthly portion thereof) to the

*Pension Accumulation Fund* from the *Accrued Liability Fund* is the "Scheduled Amortizing Amount."

With respect to the Pension Funding Transaction and any Additional Pension Funding Transactions, the Scheduled Amortizing Amount will equal a level percentage of the City's monthly payroll during the fiscal year, as determined by the City's weekly payroll reports made available to the Board. The level percentage of the City's monthly payroll that will be used to determine the Scheduled Amortizing Amount will be a level percentage that is equal to the level percentage that is specified in the actuarial valuation as of the applicable Determination Date as being the percentage of the City's monthly payroll required to amortize the Determined Accrued Liability over the Amortizing Period multiplied by a fraction. The numerator of the fraction shall be the amount of the applicable Funding Proceeds up to the full amount of the Determined Accrued Liability as of the Determination Date. The denominator of the fraction shall be the System's Determined Accrued Liability on that date.

**Commentary:** By way of example only, the Scheduled Amortizing Amount would be determined as follows: (1) the Determination Date is June 30, 2004, (2) the Funding Proceeds are deposited into the System during the 2004-2005 Fiscal Year, (3) the June 30, 2004 actuarial valuation produced a UAAL of \$800 million, (4) the City's contribution required to amortize that UAAL is 16% of the City's payroll, and (5) the Funding Proceeds are \$600 million, then the Scheduled Amortizing Amount for Fiscal Year 2005-06 would be 16% times (\$600 million/\$800 million) times the City's payroll for 2005-2006. This would be 12% times the City's payroll for that fiscal year.

With respect to the Pension Funding Transaction, or any Additional Pension Funding Transactions, where the applicable Determination Date occurs after the date of the actuarial valuation that determines the City's contribution for the fiscal year during which the applicable Funding Proceeds are deposited into the System, for such fiscal year, there will be transferred from the applicable *Accrued Liability Fund* to the *Pension Accumulation Fund* an amount that is specified in such actuarial valuation as being the City's required contribution needed to amortize the System's UAAL as of the date of such actuarial valuation, multiplied by a fraction. The numerator of the fraction shall be the amount of the applicable Funding Proceeds up to the full amount of the UAAL specified in such actuarial valuation, and the denominator of the fraction shall be the System's total UAAL as set forth in that same actuarial valuation.

**Commentary:** By way of example only, the Scheduled Amortizing Amount in this case would be determined as follows: (1) the Determination Date is June 30, 2004, (2) the Funding Proceeds had been deposited into the System during the 2004-2005 Fiscal Year, (3) the June 30, 2003 actuarial valuation produced a UAAL of \$733 million, (4) the City's contribution required to amortize that UAAL is 13.9% of the City's payroll, and (5) the Funding Proceeds are \$600 million, then the Scheduled Amortizing Amount for Fiscal Year 2004-05 would be 13.9% times (\$600 million/\$733 million) times the City's payroll for 2004-2005. This would be 11.4% times the City's payroll for that fiscal year.

Should the Board at some future time adopt a different period for amortizing the System's UAAL (a "Revised Amortizing Period"), the Scheduled Amortizing Amount for ensuring years may change. If the Revised Amortizing Period provides for a longer period during which to amortize the System's UAAL (i.e., an "Extended Amortizing Period"), then the Amortizing Period initially used to amortize the applicable Determined Accrued Liability will also be revised. There will then be established a new schedule for amortizing the Determined Accrued Liability, and the Scheduled Amortizing Amount will be based on the level percentage of the City's monthly payroll being equal to what it would be if the then unamortized balance of the Determined Accrued Liability were re-amortized over the Extended Amortizing Period. If the Revised Amortizing Period is changed so that the System's UAAL is to be amortized over a shorter period than the one initially used to amortize the applicable Determined Accrued Liability, then that Scheduled Amortizing Amount will not be changed.

(4) Each year (or monthly portion thereof), when the City is required to make its regular contribution to the System — the amount of which is to be determined pursuant to Subsection (c) and the timing of which is set forth in Section 47-2-19(b) — the Board will transfer the Scheduled Amortizing Amount from the *Accrued Liability Fund* and credit it to the *Pension Accumulation Fund*; provided, however, that this transfer cannot occur unless and until the Board has been notified pursuant to the Pension Funding Transaction, or any Additional Pension Funding Transaction, if applicable, that the City is current on the service payments required under the applicable Pension Funding Transaction.

(5) Should the Scheduled Amortizing Amount not be available for transfer because of the City's failure to make a timely service payment pursuant to the applicable Pension Funding Transaction,

the Board is authorized to file a civil action against the City, as contemplated in Section 47-4-3(3), to effectuate the transfer of the Scheduled Amortizing Amount.

Should the City's Finance Director certify to the Board by a duly attested notice that the City has no available funds to make the service payments required by the applicable Pension Funding Transaction, in that specific circumstance, the Board shall be authorized to transfer the Scheduled Amortizing Amount for that fiscal year (or monthly portion thereof) to the *Pension Accumulation Fund*, absent the notice requirement set forth in Section 47-2-18(d)(4).

(6) Since the Funding Proceeds are to be considered assets of the System and are intended to fund the applicable Determined Accrued Liability, the City shall be required to make only a proportional contribution for any fiscal year (or monthly portion thereof) ending after the date the Funding Proceeds are deposited into the applicable Accrued Liability Fund, but prior to a fiscal year whose corresponding actuarial valuation includes the Funding Proceeds in the System's total assets. The proportional contribution to fund the System's then existing UAAL, if any, shall be the level percentage of the City's payroll specified in the actuarial valuation for the applicable fiscal year as the City's required contribution needed to amortize the System's then existing UAAL, multiplied by a fraction. The numerator of the fraction shall be the amount of the System's total UAAL as determined in such actuarial valuation minus the amount of the applicable Funding Proceeds, but not less than zero. The denominator of the fraction shall be the amount of the System's total UAAL in such valuation. Actuarial valuations following the deposit of the applicable Funding Proceeds into the System shall include the Funding Proceeds in the total assets of the System to determine any ensuing UAAL of the System, and the Funding Proceeds shall offset any such actuarial liability accordingly.

**Commentary:** By way of example only, the following indicates how the procedure described above would operate. Assume the following facts — (1) the Determination Date is June 30, 2004; (2) the June 30, 2004 actuarial valuation produced a UAAL of \$800 million and a contribution toward the UAAL of 16% of the City's payroll; (3) the Funding Proceeds were \$600 million and were deposited in the System during the 2004-2005 Fiscal Year; (4) the first actuarial valuation which included the Funding Proceeds in the System's assets was as of June 30, 2005 and (5) the June 30, 2003 valuation which determines the City's required contribution for fiscal 2004-05 produced a total UAAL of \$733 million and a contribution

toward that UAAL of 13.9% of the City's payroll. Then:

- The fiscal year ending after the date of deposit would be the year ending June 30, 2005, or the 2004-2005 Fiscal Year.

- The first fiscal year whose corresponding valuation reflected the Funding Proceeds in its assets would be the 2006-2007 year.

- Thus, the City's required UAAL contribution for fiscal 2004-2005 would be 13.9% of the City's payroll times (\$733 million — \$600 million) divided by \$733 million, or 2.5% of payroll. The City's required UAAL contribution for fiscal 2005-06 would be 16% of the City's payroll times (\$800 million — \$600 million) divided by \$800 million, or 4% of the City's payroll.

- Beginning with the Fiscal Year 2006-2007, whose contribution is determined by the June 30, 2005 actuarial valuation, the City's required UAAL contribution would be the percentage of its payroll developed in the corresponding actuarial valuation that included the Funding Proceeds as being part of the System's assets.

Any contribution the City has made to the System for any fiscal year during which the Funding Proceeds from any applicable Pension Funding Transaction have become assets of the System. Where the amount of the contribution is equal to or less than the normal cost of that fiscal year, the City's contribution shall be deemed to have been made in satisfaction of its obligation to contribute an amount equal to the System's normal cost for that fiscal year, and not as payment towards any portion of its obligation to pay an amortized portion of the System's UAAL due in that fiscal year. The term "normal cost" as used in this Section 47-2-18(d)(6), shall be given its generally accepted actuarial meaning.

To the extent the City's contribution for that fiscal year exceeds its required contribution for normal cost owed in that fiscal year, its excess contributions shall be deemed as having been made for the immediately following fiscal year, and shall offset the City's normal cost contribution obligation for the immediately following fiscal year.

**Commentary:** By way of example only, the following indicates how the procedure described in the preceding paragraphs would operate. Assuming the same facts as in the prior *Commentary*, and the City contributed \$40 million for the 2004-2005 Fiscal Year and the total normal cost for that year was \$40 million:

- The entire \$40 million would be deemed as payment of the required normal cost for 2004-2005, and

- No part of the \$40 million contribution would be deemed payment toward UAAL.

Now assume that the facts remain the

2004

same, but that the City had contributed a total of \$45 million for 2004-2005:

- The City's total required contribution for 2004-2005 would be deemed paid in full, and

- \$5 million, *i.e.*, \$45 million minus \$40 million, would be deemed prepayment of the City's required normal cost for 2005-2006 and its required normal cost contribution for 2005-2006 would be reduced accordingly.

(7) The System's auditor shall verify (a) the assets credited to the *Pension Accumulation Fund* and any *Accrued Liability Fund* at the beginning and end of each fiscal year, (b) that each Fund had been properly credited, and (c) that transfers from the *Accrued Liability Fund(s)* to the *Pension Accumulation Fund* had occurred as intended under this Section 47-2-18(d).

(8) Should the System's auditor certify that the total assets then existing in the System, not including the assets in any *Accrued Liability Fund*, together are insufficient to pay the benefits then due under the System, the System's auditor will then determine and certify the minimum amount needed to fund the benefits then due and owing (the "Minimum Necessary Amount"). In this limited circumstance, the Board is authorized to transfer the Minimum Necessary Amount from the *Accrued Liability Fund* to the *Pension Accumulation Fund* absent the notification required pursuant to Section 47-2-18(d)(4).

(9) At the end of the Amortizing Period, or the end of the Extended Amortizing Period, if applicable, should there be any moneys that remain credited to the *Accrued Liability Fund*, the Board may transfer, at its discretion, any such remaining moneys, in whole or in part, by crediting them to the *Pension Accumulation Fund*. The *Pension Accumulation Fund* is the only Fund into which the remaining moneys credited to any *Accrued Liability Fund* may be transferred.

(e) Pension Reserve Fund.

The *Pension Reserve Fund* shall be the fund from which pensions shall be paid to beneficiaries. Should a Disability Retiree be reinstated to active service, the Retiree's pension reserve at that time, shall be transferred from the *Pension Reserve Fund* to the *Pension Accumulation Fund*.

(f) Expense Fund.

The *Expense Fund* shall be the fund to which shall be credited all money provided by the City to pay the administrative expenses of the Retirement System, and from which shall be paid all the expenses necessary in connection with the administration and operation of the System.

(g) Income Fund.

The *Income Fund* shall be the Fund to

which shall be credited all interest, dividends, and other income derived from the investments of the System (other than those derived from the investments credited to any *Accrued Liability Fund*), all gifts and bequests received by the System, and all other moneys the disposition of which is not specifically provided for in this Article. There shall be paid or transferred from the *Income Fund*, all amounts required to credit Regular Interest to the various Funds of the Retirement System-, except for the *Accrued Liability Fund* which is to be credited with interest, dividends and other earnings pursuant to Section 47-2-18(d)(2). Whenever the balance of the *Income Fund* is more than sufficient to cover current charges to the fund, such excess amount may be used for contingency reserves or may be transferred to any of the other Charter-created funds of the Retirement System within this Article II except the *Expense Fund*, to cover special needs of the Funds as the Board shall determine; provided, however, that in determining whether the balance of the *Income Fund* is more than sufficient to cover current charges to the Fund, the balance credited to any *Accrued Liability Fund* shall not be taken into account. In the event the balance in the *Income Fund* is insufficient to cover the charges to the Fund, the amount of the insufficiency shall be transferred from the *Pension Accumulation Fund* to the *Income Fund*.

(h) Maintenance of Reserves.

(1) The maintenance of proper reserves in the various Charter-based funds of the Retirement System within this Article II except the *Expense Fund* are hereby made obligations of the *Pension Accumulation Fund*.

(2) City contributions to the Retirement System to the extent necessary to provide pensions on account of members who are employees of a revenue-supported division of the City shall be made from the revenues of the said division. Any City contribution to the Retirement System from any Fund by law with a certain and definite purpose shall at the direction of the Finance Director, be accounted for separately.

**Sec. 47-2-20. Management of Funds.**

(a) *Board Named Trustee for Various Funds.*

The Board shall be the Trustee of the funds of the 1973 *Defined Benefit/Defined Contribution (Annuity) Plan* of the Retirement System. the Board shall have the full power to invest and reinvest such funds subject to all terms, conditions, limitations, fiduciary duties, and restrictions imposed by *The Public Employee Retirement System Investment Act*, as amended, provided, that notes, bonds, or obligations of the City shall not be subject to said restrictions or limitations. The

Board shall have the power to purchase notes, bonds, or obligations of the City before or after the same are offered to the public and with or without advertising for bids.

(b) *Purchase, sale, etc., of securities and investments.*

The Board shall have full power to hold, purchase, sell, assign, transfer, and dispose of any of the securities and investments of the Retirement System, as well as the proceeds of said investments and any moneys belonging to the System.

(c) *Annual interest.*

The Board annually shall allow ~~Regular interest~~ on the mean balance in each of the Funds of the Retirement System, except the *Income Fund* and the *Expense Fund*. The amounts so allowed shall be due and payable to said Funds, and shall be annually credited thereto from interest and other earnings on the moneys and investments of the System; provided, however, that moneys, including all investment earnings, credited to any *Accrued Liability Fund* shall not be credited to other Funds in the System, unless and until such moneys have been transferred from the applicable *Accrued Liability Fund* to the *Pension Accumulation Fund*.

(d) *Custodian of Funds.*

The City Treasurer or other person or entity designated by the Board of Trustees of the General Retirement System shall be the custodian of the Funds of the Retirement System. All payments from such Funds shall be made by the Treasurer or other designated custodian. Payments made by the *General Retirement System* shall be based upon vouchers signed by two persons designated by the Board. A duly attested copy of a resolution of the Board designating such persons and bearing upon its face specimen signatures of such persons, shall be filed with the Finance Director and the custodian of the Funds as their authority for making payments upon such vouchers. No voucher shall be drawn unless it shall have been previously authorized by a specific or continuing resolution adopted by the Board.

Available funds shall be kept on deposit for the purpose of meeting disbursements for pensions, annuities, and other payments.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 18 of the 1984 Detroit City Code, be amended by adding Division 9 to Article 5 as follows:

**DIVISION 9. DETROIT RETIREMENT SYSTEM SERVICE CORPORATION**  
**Sec. 18-5-120. Legislative Findings.**

The Detroit City Council expressly finds and determines that:

(A) The *Home Rule City Act, 1909 PA 279*, at MCL 117.4o(1), authorizes cities such as the City of Detroit the *City* to authorize the formation of a nonprofit corporation under the *Nonprofit Corporation Act, 1982 PA 162*, at MCL 450.2101, *et seq.*, as amended for valid public purposes of the authorizing city.

(B) Article 9, Section 24 of the 1963 Michigan Constitution obligates the City

to maintain the actuarial integrity of its *General Retirement System* (the **GRS**) and its *Police and Fire Retirement System* (the **PFRS**), together, the **Retirement System**.

(C) Maintaining the actuarial integrity of the Pension System is both a constitutional obligation and an important public purpose of the City.

(D) By Ordinances No. and No. (the **Alternative Funding Mechanism Ordinances**), the City has provided an alternative funding mechanism for each, respectively, of the GRS and PFRS (each, an **Alternative Funding Mechanism**) to provide for funding unfunded actuarial accrued liability (**UAAL**) of the GRS (**GRS UAAL**) and the UAAL of the PFRS (**PFRS UAAL** and either the GRS UAAL or the PFRS UAAL, as the context may require, the **Retirement System UAAL**).

(E) The Alternative Funding Mechanism Ordinances are separate and distinct from this Ordinance, and this Ordinance provides only a means of funding particular Retirement System UAAL and thereby reducing the financial burden to the City of such Retirement System UAAL.

(F) This Ordinance shall not be deemed to affect any benefits under either the GRS or the DPFS or other subjects of collective bargaining or Act 312 Arbitration Awards, and shall be so interpreted.

(G) The respective Retirement System's actuaries (the **Actuaries** of the respective Retirement System) estimate that GRS UAAL is \$732,958,801 and that PFRS UAAL is \$516,076,553, with additional unrecognized market losses of, respectively, \$213,844,162 and \$327,251,711, as of their respective reports (each, an **Actuary Report**) as of June 30, 2003, with UAAL of each Retirement System expected to increase in the future.

(H) The City desires to act pursuant to *Home Rule City Act* and authorize the formation of a nonprofit corporation with respect to each Retirement System, to be known respectively as the "**Detroit General Retirement System Service Corporation**" and the "**Detroit Police and Fire Retirement System Service Corporation**" (each, a **Corporation**), to assist the City in maintaining the actuarial integrity of the respective Retirement System through the respective Alternative Funding Mechanism by funding the particular Retirement System UAAL and thereby achieving financial benefits for the City.

(I) Each Corporation will be acting as an instrumentality and enterprise of the City and performing an important public purpose by assisting the City to meet its constitutional obligations with respect to

the particular Retirement System and thereby is an integral part of the City for federal income tax purposes and it is intended that the income of each Corporation will not be subject to federal income taxation or any taxation under the laws of the State of Michigan to the extent the same applies to the City.

(J) Each Corporation shall be separate and distinct from the City, and the City shall not be responsible for any debts or other obligations of either Corporation, and no such debt or obligation shall constitute "indebtedness" within the meaning of *The Home Rule City Act*.

(K) It is in the best interest of the City to obtain the services of each Corporation in connection with the Alternative Funding Mechanism for the respective GRS and PFRS by approving the form of service contracts between each of the Corporations and the City (each, a **Service Contract**) to be funded by means of a funding trust for the respective Retirement System (each, a **Funding Trust**) in connection therewith.

(L) It is further in the best interest of the City that it enter into two specific Service Contracts to fund, respectively, not more than (i) the GRS UAAL in an amount not in excess of the UAAL in the Actuary Report as of June 30, 2003, or in the Actuary Report as of June 30, 2004, whichever is greater (**Maximum GRS UAAL**) and (ii) the PFRS UAAL in an amount not in excess of the UAAL in the Actuary Report as of June 30, 2003, or in the Actuary Report as of June 30, 2004, whichever is greater (**Maximum PFRS UAAL**).

**(A) Scheduled Payments**

(1) In addition to the amount of the Subject UAAL, the aggregate amount of Scheduled Payments may include amounts, not in excess of seven percent (7%) of Subject UAAL acceptable to the Finance Director, in connection with the Corporation funding its obligations under the Service Contract through the issuance of COPs, including: Costs of Issuance, prefunded Service Charges, a reserve against delinquent Service Payments, Underwriters' Discount *plus* accretions in connection with any Capital Appreciation COPs *so long as* the Accreted Value of Capital Appreciation COPs does not result in such COPs having a yield-to-maturity (computed in accordance with customary municipal finance practice) that exceeds the Maximum Funding Rate.

(2) Scheduled Payments shall be paid over a period of not more than fifteen (15) years, as determined by the Finance Director, *provided that*, such period may be extended to not in excess of any extension authorized by the Board of the particular Retirement System amortizing period.

(3) Scheduled Payments may be prepaid in accordance with a schedule of mandatory prepayment installments (**Sinking Fund Installments**) as determined by the Finance Director.

(4) Provider Scheduled Payments may be subject to such mandatory prepayment as may be required by the respective Provider (**Provider Prepayments**).

(5) Except for Sinking Fund Installments and Provider Prepayments, no Scheduled Payment shall be subject to mandatory prepayment or acceleration; *provided that*, nothing in this prohibition shall prohibit the payment of amounts necessary to purchase COPs with a mandatory or optional tender option feature.

**(B) Service Charges**

(1) No Service Charge shall be based on a Funding Rate (expressed as an annual percentage) rate in excess of the

maximum rate permitted by law (the **Maximum Funding Rate**).

(2) Funding Rates may be fixed or variable (or any combination of fixed or variable) and if variable may be determined by Dutch auction, index (such as the London Interbank Offered Rate or "LIBOR") or by remarketing or any other means customarily used to determine variable rates in municipal finance (**Funding Rate Methodology**).

(3) It is not required that Service Charges for all installments of Scheduled Payments under a Service Contract 2004 be computed on the basis of one Funding Rate or under one Funding Rate Methodology. Service Charges with respect to different installments of Scheduled Payments under a Service Contract 2004 may be computed under a different Funding Rate or Funding Rate Methodology *subject* in all cases to **paragraph B(1)** above.

(4) Service Charges may provide for a rate or rate methodology required by a Provider (a **Provider Rate**) to compensate it for any unrepaid disbursements in respect of its Financial Facility. A Provider Rate shall not exceed the maximum rate permitted by law.

(5) Each Service Contract 2004 may provide that Funding Costs of the Corporation shall be the Provider Rate with respect to Service Payments representing unrepaid amounts in respect of the Financial Facility and that the relevant Service Charges shall be adjusted accordingly.

**Sec. 18-5-134. Nonprofit Corporation; Service Contract 2004; Additional Service Payments.**

Each Service Contract 2004 may provide for the following in addition to the Service Payments (**Additional Service Payments**):

(1) Periodic amounts equal to customary trustee fees and expenses to compensate each Trustee of a Funding Trust;

(2) Periodic amounts equal to customary fees of remarketing agents, auction agents and broker-dealers if the Finance Director determines that it is in the best interest of the City that some or all of the COPs are of the variable rate type.

(3) Periodic amounts equal to customary fees and expenses of a Provider or Providers if the Finance Director determines that it is in the best interest of the City that some or all of the COPs have the benefit of a Financial Facility provided by any such Provider;

(4) Periodic amounts for the general administration of the Corporation.

**Sec. 18-5-135. Nonprofit Corporation; Service Contract 2004; Hedge Provisions.**

(A) No Service Contract shall provide for Service Payments based on payments in respect of a Hedge other than an

Authorized Hedge.

(B) A Service Contract 2004 shall contain provisions to the following effect if such Service Contract 2004 provides for Service Payments in respect of an Authorized Hedge:

(1) Any amount due the respective Corporation as a periodic payment of Service Charges shall be offset by any amount (a **Hedge Periodic Receipt**) received by the Trustee on behalf of such Corporation as a correlative periodic payment from the counterparty to the Hedge (the **Hedge Counterparty**) to the extent the City is otherwise current in making Service Payments.

(2) Payments of Hedge Periodic Payables and Hedge Termination Payables shall be made by the City to the Trustee on behalf of the respective Corporation in the amounts and on the due dates thereof.

(3) Any amount received by the Trustee on behalf of the Corporation as a Termination Payment from the Hedge Counterparty (a **Hedge Termination Receipt**) shall be paid to the City to the extent the City is current in making Service Payments.

**Sec. 18-5-136. Nonprofit Corporation; Service Contract 2004; Financial Facilities.**

If the Finance Director determines that one or more Financial Facilities will result in more favorable terms to the City, the Finance Director is authorized to sign a Service Contract on behalf of the City containing provisions with respect to any such Financial Facility.

**Sec. 18-5-137. Nonprofit Corporation; Service Contract 2004; Hedges; Express Approval.**

Such instruments as are acceptable to the Finance Director as being in accordance with **Sec. 18-5-139** shall constitute a Hedge (an **Authorized Hedge**) for which the City may make Service Payments under a Service Contract 2004. One or more Authorized Hedges are permitted for each Service Contract 2004 with Hedge Counterparties selected by the Finance Director.

**Sec. 18-5-138. Nonprofit Corporation; Service Contract 2004; Hedges; References to Act 34 and Swap Management Plan.**

(A) The City Council recognized that neither the *Revised Municipal Finance Act*, being 2001 PA 34, as amended (**Act 34**), nor the *City of Detroit, Michigan, Swap Management Plan* as adopted on November 26, 2002, as the same may be thereafter amended (the **Swap Management Plan**), is applicable to the Corporation; however, since a Service Contract 2004 will obligate the City to make payments correlative to payments made by the Corporation under an Authorized Hedge, the City has deter-

mined to generally apply criteria of Act 34 and the Swap Management Plan as a prudential matter as they relate to Authorized Hedges.

(B) The use of Act 34 and the Swap Management Plan as prudential criteria shall not make or be interpreted to make Act 34 or the Swap Management Plan applicable to the Corporation or its transactions as a matter of law.

**Sec. 18-5-139. Nonprofit Corporation; Service Contract 2004; Hedges; Requirements.**

(A) *Counterparty.* The counterparty shall meet the applicable requirements of Act 34.

(B) *Term.* The term of the Hedge shall not extend beyond the due date of the last Scheduled Payment installment.

(C) *Notional Amount.* The notional amount shall not exceed the aggregate amount of the Scheduled Payments.

(D) *Corporation Rate.* The rate payable by the Corporation shall not exceed the Maximum Funding Rate.

(E) *Counterparty Rate.* The rate payable by the counterparty shall not unduly expose the Corporation to material basis risk in the opinion of the Finance Director.

(F) *Termination.* The termination events shall be customary for interest rate swaps of the nature of the Hedge and shall comply with the Swap Management Plan.

(G) *Compliance.* The Hedge shall conform to the requirements of Act 34 and comply with the Swap Management Plan in all material respects.

**Sec. 18-5-140. Nonprofit Corporation; Service Contract 2004; Hedges; Risk Acknowledgment.**

(A) Hedges have inherent risks. Inherent risk that are generally recognized and reasonably foreseen are set forth in the Swap Management Plan as previously approved by the City Council. Any evaluation of risks necessarily involves expectations and assumptions about future events, which by their nature are uncertain and may not occur as anticipated. Furthermore, unforeseen events may occur which may have material adverse effects on present expectations and assumptions. Hence, there can be no assurance that all risks, regardless of remoteness or other unforeseeability, have been evaluated.

(B) Subject to the limitations in any risk evaluation, the City Council expressly acknowledges the risks associated with each Authorized Hedge.

(C) The City Council understands that in order to prudently manage Service Charges and reduce Funding Cost volatility, a Service Contract 2004 may obligate the City to make Service Payments in respect of Hedge Periodic Payables and Hedge Termination Payables even

though, due to events beyond the control of the City or the Corporation, the Subject UAAL is not funded.

**Sec. 18-5-141. Nonprofit Corporation; Service Contract 2004; Public Offering of Certificates of Participation; Underwriting Agreement.**

(A) Since the public offering of the COPs is for the benefit of the City, the Finance Director shall make the City a party to the Underwriting Agreement by executing it in the name and on behalf of the City.

(B) The City shall not be a party to the Underwriting Agreement if it provides for compensation to underwriters in excess of one percent (1%) of the aggregate amount of Scheduled Payments (*Underwriters' Discount*) or if the original issue discount in connection with the initial public offering of any COP is greater than ten percent (10%) *except* in the case of Deep Discount COPs.

(C) The original issue discount for any Deep Discount COPs shall not result in such Deep Discount COPs having a yield-to-maturity (computed in accordance with customary municipal finance practice) that exceeds the Maximum Funding Rate.

(D) An Underwriting Agreement may provide for liquidated damages payable by the City in the event the closing conditions required to be satisfied by either the City or the Corporation are not satisfied. If a good faith check in the amount of the liquidated damages payable by the Underwriters is required to be provided by the Representative, then such good faith check shall be payable to the order of the City.

**Sec. 18-5-142. Disclosure Information.**

(A) The Finance Director is authorized to prepare or cause the preparation of information relating to the City (*the City Information*) for inclusion in the Disclosure Document; to deem the City Information "final" for purposes of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the *Securities and Exchange Act of 1934*, as amended (*the Rule*); and to sign the City Information in the name of and on behalf of the City.

(B) The Finance Director may authorize the distribution of the City Information by the Underwriters in connection with the initial public offering of the COPs.

**Sec. 18-5-143. Continuing Disclosure.**

The Finance Director may enter into a Continuing Disclosure Agreement in the name of and on behalf of the City and respect to the City Information in customary form in order to permit the Underwriters and other Persons subject to the Rule to comply therewith in connection with the purchase and sale of COPs.

**Sec. 18-5-144. Actions on Behalf of the City.**

In addition to the authority herein

expressly granted to the Finance Director, the Finance Director is hereby authorized and directed to do all things and take all actions necessary or desirable to consummate the other transactions contemplated by this Ordinance.

**Section 2.** If any word, clause, sentence, paragraph, provision, or section of this ordinance is invalidated by any Court of competent jurisdiction, the remaining words, clauses, provisions, paragraphs, and sections shall not be affected and shall continue in full force and effect.

**Section 3.** All ordinances, or parts of ordinances, in conflict with this ordinance are repealed.

**Section 4.** This ordinance is declared necessary to preserve the public peace, health, safety, and welfare of the People of the City of Detroit.

**Section 5.** In the event that this ordinance is approved by a two-thirds (2/3) majority of City Council Members serving, this ordinance shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter.

**AN ORDINANCE to amend certain provisions of Chapter 54 of the 1964 Detroit City Code and certain sections of Title 9, Chapter 7, Article I-IX of the 1918 Detroit City Charter, which pursuant to Section 11-102 of the 1997 Detroit City Charter and Section 47-1-1 of the 1984 Detroit City Code, as amended; incorporates by reference and saves from repeal certain ordinances contained in the 1964 Detroit City Code and certain provisions contained in the 1918 Detroit City Charter regarding the *Policemen and Firemen Retirement System* of the City of Detroit, by amending Title 9, Chapter 7, Article VII, Sections 6 and 7 and Title 9, Chapter 7, Article VIII, Section 3 of the 1918 City Charter; by adding Sections 54-43-1 to establish and rename the *Policemen and Firemen Retirement System*, by amending Section 54-43-4; by renumbering the current Section 54-43-4 as Section 54-43-5, and the current Section 54-43-5 as 54-43-6 of the 1964 City Code; and by adding**

**new Sections 54-43-4 and Section 54-43-7 to the 1964 City Code to provide for an alternative funding mechanism with respect to the City's obligations to make annual contributions to fund the benefits available under the *Policemen and Firemen Retirement System* in accordance with Article 9, Section 23 of the 1963 Michigan Constitution and Section 1140m of the *Public Employee Retirement System Investment Act*, MCL 38.1140m. This Ordinance does not intend to and does not rescind any substantive rights, entitlements or obligations with respect to benefits earned or accrued of members, retirees or beneficiaries of the System. This Ordinance does not supersede any conflicting provision of any collective bargaining agreements, or Act 312 Arbitration Awards.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 54, Chapter II, of the 1964 Detroit City Code, which was saved from repeal by Section 11-102 of the 1997 Detroit City Charter and Section 47-1-1 of the 1984 Detroit City Code, be amended by adding Section 54-43-1 to establish and rename the *Policemen and Firemen Retirement System*; by amending Section 54-43-4; by renumbering the current Section 54-43-4 as Section 54-43-5, and the current Section 54-43-5 as 54-43-6 of the 1964 City Code; and by adding new Sections 54-43-4 and 54-43-7, to read as follows:

**Sec. 54-43-1. Police and Fire Retirement System established; Renamed.**

A Pension System for employees of the City of Detroit Police and Fire Departments is hereby established for the purpose of providing retirement allowances, death and survivor benefits for eligible police and fire employees and their beneficiaries. The effective date of this System is July 1, 1941. Upon the effective date of this Ordinance, the former *Policemen and Firemen Retirement System* shall be called the *Police and Fire Retirement System*.

**~~Sec. 54-43-4. Contributions to any payments from pension accumulation fund.~~ Alternative Financing Method.**

Except as provided regarding the *Survivors Benefit Fund*, the *Pension Accumulation Fund* shall be the Fund in which shall be accumulated reserves for the pensions and other benefits payable from contributions made by the City, and from which transfers shall be made as provided in this section. ~~Contributions to and payments from the pension accumulation fund shall be made as follows:~~

(a) ~~Upon the basis of such assumptions as to future financial experiences as~~

the board of trustees shall from time to time adopt, the actuary shall annually compute the city's contribution, expressed as a percent of active member contributions, to provide the pension reserves covering the pensions of other city financed benefits to which members might be entitled or which might be payable at the time of their discontinuance of city employment; provided, such contribution percents shall not be less than amounts which, expressed as percents of active member compensations, will remain level from generation to generation of Detroit citizens. Upon the retirement or death of a member, the pension reserve for any benefits payable on his behalf shall be transferred from the pension accumulation fund to the pension reserve fund, to the extent of there being assets in the pension accumulation fund.

(a) *Accrued Liability Fund.* Pursuant to Ordinance No. \_\_\_\_\_, which authorizes the creation of the *Detroit Police and Fire Retirement System Service Corporation*, the City has entered into a transaction ("the Pension Funding Transaction") to obtain funds as an alternative to those available through the traditional funding mechanism described in Section 54-43-5. The proceeds generated by the Pension Funding Transaction (or any Additional Pending Funding Transaction, as described below) that will be deposited into the System will be termed the "Funding Proceeds." The Funding Proceeds will be deposited into a new Fund in the System to be called the *Accrued Liability Fund*. The purpose of the Funding Proceeds will be to fund all or part of the heretofore unfunded accrued liabilities ("UAAL") of the System, as determined as of a date certain, *i.e.*, the "Determination Date," pursuant to the System's actuarial valuation as of that date. The Funding Proceeds will be assets of the System and will be applied, together with all other assets of the System, to fund the System's obligation to pay accrued benefits.

This *Accrued Liability Fund* shall contain only the Funding Proceeds of the Pension Funding Transaction, and any earnings thereon. Should the City, by future ordinance, choose to raise additional monies by additional pension funding transactions ("Additional Pension Funding Transactions") in order to fund the then existing UAAL of the System as of a future date certain, a new and separate *Accrued Liability Fund* shall be created within the System to contain the proceeds, and any earnings thereon, of any Additional Pension Funding Transactions, and a new *Accrued Liability Fund* will be created for each successive Additional Pension Funding Transaction entered into by the City, if any. The treatment of any *Additional Accrued Liability Funds* shall be

the same as described below.

(b) The board of trustees shall annually ascertain and report to the mayor and the council the amount of contributions due to the retirement system by the city, and the council shall appropriate and the city shall pay such contributions to the retirement system during the ensuing fiscal year. When paid, such contributions shall be credited to the pension accumulation fund.

(b) The Funding Proceeds deposited in the applicable *Accrued Liability Fund* will be subject to the oversight and investment direction of the Board of Trustees of the *Police and Fire Retirement System*, consistent with the Board's obligations under Article VIII (Management of Funds). The Board will invest the Funding Proceeds as part of the System's overall assets, and will not differentiate the Funding Proceeds from other System assets for investment purposes.

(c) All interest, dividends and other income derived from the investment of the Funding Proceeds shall be credited annually to the *Accrued Liability Fund* on a total System rate of return basis, determined by crediting the applicable *Accrued Liability Fund* with the investment return experienced by the System in total for all of its investments for the year. This shall be done by first determining the rate of return for the total assets of the System for the fiscal year, and then crediting back to each *Accrued Liability Fund* an amount that is determined by multiplying that rate of return times the balance in the *Accrued Liability Fund* as of the beginning of the fiscal year.

The interest, dividends and other income derived from the investment of the Funding Proceeds deposited in any *Accrued Liability Fund* will not be credited to any Funds other than the *Pension Accumulation Fund*. Moreover, because the *Accrued Liability Fund* has been impressed with a certain and definite purpose, it shall be accounted for separately as provided for in Section 54-43-8, *Maintenance of Reserves*.

(d) Upon the creation of an *Accrued Liability Fund* and the deposit of the Funding Proceeds into the applicable *Accrued Liability Fund*, there shall be established a schedule for transferring assets of the applicable *Accrued Liability Fund* by crediting them to the *Pension Accumulation Fund* on an annual basis over the period required to fully amortize the System's UAAL determined as of the applicable Determination Date.

The System's UAAL determined as of the Determination Date shall be the "Determined Accrued Liability." The period over which the Determined Accrued Liability is to be fully amortized, as specified in the System's actuarial valuation as of the applicable Determination Date, is

the "Amortizing Period." The amount to be transferred each fiscal year to the *Pension Accumulation Fund* from the *Accrued Liability Fund* is the "Scheduled Amortizing Amount."

With respect to the Pension Funding Transaction and any Additional Pension Funding Transactions, the Scheduled Amortizing Amount will equal a level percentage of the City's payroll for each fiscal year. The level percentage of the City payroll that will be used to determine the Scheduled Amortizing Amount be a level percentage that is equal to the percentage that is specified in the actuarial valuation as of the applicable Determination Date as being the percentage of City's annual payroll required to amortize the Determined Accrued Liability over the Amortizing Period, multiplied by a fraction. The numerator of the fraction shall be the amount of the applicable Funding Proceeds up to the full amount of the Determined Accrued Liability as of the Determination Date. The denominator of the fraction shall be the System's Determined Accrued Liability on that date.

**Commentary:** By way of example only, the Scheduled Amortizing Amount would be determined as follows: (1) the Determination Date is June 30, 2004, (2) the Funding Proceeds are deposited into the System during the 2004-2005 Fiscal Year, (3) the June 30, 2004 actuarial valuation produced a UAAL of \$600 million, (4) the City's contribution required to amortize that UAAL is 21% of the City's payroll, and (5) the Funding Proceeds are \$400 million, then the Scheduled Amortizing Amount for Fiscal Year 2005-06 would be 21% times (\$400 million/\$600 million) times the City's payroll for 2005-2006. This would be 14% times the City's payroll for that fiscal year.

With respect to the Pension Funding Transaction or any Additional Pension Funding Transactions, where the applicable Determination Date occurs after the date of the actuarial valuation that determines the City's contribution for the fiscal year during which the applicable Funding Proceeds are deposited into the System, for each fiscal year, there will be transferred from the applicable *Accrued Liability Fund* to the *Pension Accumulation Fund*, an amount that is specified in such actuarial valuation as being the City's required contribution needed to amortize the System's UAAL as of the date of such actuarial valuation, multiplied by a fraction. The numerator of the fraction shall be the amount of the applicable Funding Proceeds up to the full amount of the UAAL specified in such actuarial valuation, and the denominator of the fraction shall be the System's total UAAL as set forth in that same actuarial valuation.

**Commentary:** By way of example only, the Scheduled Amortizing Amount in this

case would be determined as follows: (1) the Determination Date is June 30, 2004, (2) the Funding Proceeds had been deposited into the System during the 2004-2005 Fiscal Year, (3) the June 30, 2003 actuarial valuation produced a UAAL of \$516 million, (4) the City's contribution required to amortize that UAAL is 19.07% of the City's payroll and (5) the Funding Proceeds are \$400 million, then the Scheduled Amortizing Amount for Fiscal Year 2004-2005 would be 19.07% times (\$400 million/\$516 million) times the City's payroll for 2004-2005. This would be 14.77% times the City's payroll for that fiscal year.

Should the Board at some future time adopt a different period for amortizing the System's UAAL (a "Revised Amortizing Period"), the Scheduled Amortizing Amount for ensuring years may change. If the Revised Amortizing Period provides for a longer period during which to amortize the System's UAAL (*i.e.*, an "Extended Amortizing Period"), then the Amortizing Period initially used to amortize the applicable Determined Accrued Liability will also be revised. There will then be established a new schedule for amortizing the Determined Accrued Liability and the Scheduled Amortizing Amount will be based on the level percentage of the City's payroll being equal to what it would be if the then unamortized balance of the Determined Accrued Liability were re-amortized over the Extended Amortizing Period. If the Revised Amortizing Period is changed so that the System's UAAL is to be amortized over a shorter period than the one initially used to amortize the applicable Determined Accrued Liability, then that Scheduled Amortizing Amount will not be changed.

(e) Each year, when the City is required to make its annual contribution to the System — the amount of which is to be determined pursuant to Section 54-43-5 and the timing of which is set forth in Section 54-43-5(b) — the Board will transfer the Scheduled Amortizing Amount from the *Accrued Liability Fund* and credit it to the *Pension Accumulation Fund*; provided, however, that this transfer cannot occur unless and until the Board has been notified pursuant to the Pension Funding Transaction, or any Additional Pension Funding Transaction, that the City is current on the service payments required under the applicable Pension Funding Transaction.

(f) Should the Scheduled Amortizing Amount not be available for transfer because of the City's failure to make a timely service payment as required by the applicable Pension Funding Transaction, the Board is authorized to file a civil action against the City, as contemplated in Section 54-43-10, to effectuate the trans-

November 15

3690

2004

fer of the Scheduled Amortizing Amount.

Should the City's Finance Director certify to the Board by a duly attested notice that the City has no available funds to make the service payments required by the applicable Pension Funding Transaction, in that specific circumstance, the Board shall be authorized to transfer the Scheduled Amortizing Amount for that fiscal year to the *Pension Accumulation Fund*, absent the notice requirement set forth in Section 54-43-4(e).

(g) Since the Funding Proceeds are to be considered assets of the System and are intended to fund the applicable Determined Accrued Liability, the City shall be required to make only a proportional contribution for any fiscal year ending after the date the Funding Proceeds are deposited into the applicable *Accrued Liability Fund*, but prior to a fiscal year whose corresponding actuarial valuation includes the Funding Proceeds in the System's total assets. The proportional contribution to fund the System's then existing UAAL, if any, shall be the level percentage of the City's payroll specified in the actuarial valuation for the applicable fiscal year as the City's required contribution needed to amortize the System's then existing UAAL, multiplied by a fraction. The numerator of the fraction shall be the amount of the System's total UAAL as determined in such actuarial valuation minus the amount of the applicable Funding Proceeds, but not less than zero. The denominator of the fraction shall be the amount of the System's total UAAL in such valuation. Actuarial valuations following the deposit of the applicable Funding Proceeds into the System shall include the Funding Proceeds in the total assets of the System to determine any ensuing UAAL of the System, and the Funding Proceeds shall offset any such actuarial liability accordingly.

**Commentary:** By way of example, the following indicates how the procedure describe above would operate. Assume the following facts — (1) the Determination Date was June 30, 2004, (2) the June 30, 2004 actuarial valuation produced a UAAL of \$600 million and a contribution toward the UAAL of 21% of the City's payroll, (3) the Funding Proceeds were \$400 million and were deposited in the System during the 2004-2005 Fiscal Year, (4) the first actuarial valuation which included the Funding Proceeds in the System's assets was as of June 30, 2005 and (5) the June 30, 2003 valuation which determines the City's required contribution for fiscal 2004-05 produced a total UAAL of \$516 million and a contribution toward that UAAL of 19.07% of the City's payroll. Then:

- The fiscal year ending after the date of deposit would be the year ending June

30, 2005, or the 2004-2005 Fiscal Year.

- The first fiscal year whose corresponding valuation reflected the Funding Proceeds in its assets would be the 2006-2007 year.

- Thus, the City's required UAAL contribution for fiscal 2004-2005 would be 19.07% of the payroll times (\$516 million — \$400 million) divided by \$516 million, or 4.3% of payroll. The City's required UAAL contribution for fiscal 2005-06 would be 21% of payroll times (\$800 million — \$400 million) divided by \$600 million, or 7% of the City's payroll.

- Beginning with the Fiscal Year 2006-2007, whose contribution is determined by the June 30, 2005 actuarial valuation, the City's required UAAL contribution would be the percentage of payroll developed in the corresponding actuarial valuation that included the Funding Proceeds as being part of the System's assets.

Any contribution the City has made to the System for any fiscal year prior to the date the Funding Proceeds from any applicable Pension Funding Transaction have become assets of the System. Where the amount of the contribution is equal to or less than the normal cost of that fiscal year it shall be deemed to have been made in satisfaction of the City's obligation to contribute an amount equal to the System's normal cost for that fiscal year, and not as payment towards any portion of its obligation to pay an amortized portion of the System's UAAL due in that fiscal year. The term "normal cost" as used in this Section 54-43-4(g), shall be given its generally accepted actuarial meaning.

To the extent the City's contribution for that fiscal year exceeds its required contribution for the normal cost owed in that fiscal year, its excess contributions shall be deemed as having been made for that immediately following year, and shall offset the City's normal cost contribution obligation for the immediately following fiscal year.

**Commentary:** By way of example, the following indicates how the procedure described in the preceding paragraphs would operate. Assuming the same facts as in the prior *Commentary*, and the City contributed \$40 million for the 2004-2005 Fiscal Year and the total normal cost for that year was \$40 million:

- The entire \$40 million would be deemed as payment of the required normal cost for 2004-2005, and

- No part of the \$40 million contribution would be deemed payment toward UAAL, as no UAAL contribution is required for that year.

Now assume that the facts remain the same, but that the City had contributed a total of \$45 million for 2004-2005:

- The City's total required contribution for 2004-2005 would be deemed paid in

full, and

• \$5 million, *i.e.*, \$45 million minus \$40 million, would be deemed prepayment of the City's required normal cost for 2005-2006 and its required normal cost contribution for 2005-2006 would be reduced accordingly.

(h) The System's auditor shall verify (a) the assets credited to the Pension Accumulation Fund and any *Accrued Liability Fund* at the beginning and end of each fiscal year, (b) that each Fund had been properly credited, and (c) that transfers from the *Accrued Liability Fund(s)* to the *Pension Accumulation Fund* had occurred as intended, under this Section 54-43-4.

(i) Should the System's auditor certify that the total assets then remaining in the System, not including the assets in any *Accrued Liability Fund*, together are insufficient to pay the benefits then currently due under the System, the System's auditor will then determine and certify the minimum amount needed to fund the benefits then due and owing (the "Minimum Necessary Amount"). In this limited circumstance, the Board is authorized to transfer the Minimum Necessary Amount from the *Accrued Liability Fund* to the *Pension Accumulation Fund* absent the notification pursuant to Section 54-43-4(4)(e).

At the end of the Amortizing Period, or the end of the Extended Amortizing Period, if applicable, should there be any moneys that remain credited to the *Accrued Liability Fund*, the Board may transfer, at its discretion, any such remaining funds, in whole or in part, by crediting them to the *Pension Accumulation Fund*. The *Pension Accumulation Fund* is the only Fund into which the remaining moneys credited to any *Accrued Liability Fund* may be transferred.

**~~Sec. 54-43-5. Retireants paid from pension reserve fund; reinstatement of retireants to active service.~~**

~~Except as to the survivor's benefit fund, the pension reserve fund shall be the fund from which shall be paid pensions on account of members. Should a disability retireant be reinstated to active service, his pension reserve, at that time, shall be transferred from the pension reserve fund to the pension accumulation fund.~~  
Repealed.

**~~Sec. 54-43-45. Contributions to any payments from Pension Accumulation Fund.~~**

~~Contributions to and payments from the *Pension Accumulation Fund* shall be made as follows:~~

~~(a) Upon the basis of such assumptions as to future financial experiences as the Board of Trustees shall from time to time adopt, the Actuary shall annually compute the City's contribution,~~

STATEMENT BY COUNCIL PRESIDENT  
MARYANN MAHAFFEY ON VOTE  
AGAINST INTRODUCTION OF  
ORDINANCES TO ISSUE  
CERTIFICATES OF PARTICIPATION

Today, November 16, 2004, I voted against the introduction of ordinances that would permit the City to issue Certificates Of Participation to fund the city's current unfunded actuarial accrued liability (UAAL) of the General Retirement System and the Police and Fire Retirement System, estimated to be between \$1.2 to 1.7 billion.

The City Council requested a legal opinion on the issuance of COPS last spring, and just received the opinion last week. A significant transaction of this magnitude deserves more analysis and scrutiny by experts in the field than has been done at this point. While Lewis & Munday opines on the legality of entering into the service contracts required by this type of transaction, by their own admission, they are not experts in the intricacies of this funding mechanism. In fact, we have not retained any expert in this field.

In the absence of research and analysis by experts in this field, we are forced to rely on experiences in other cities where COPS have been tried. To date, results have been mixed, with both successes and failures. Without assurance that the Administration's proposal represents a completely sound transaction, we are essentially gambling on current and future taxpayers' money.

Funding the current UAAL will not prevent any future increases in the UAAL. It may have a chilling effect on any future pension benefit requests.

This particular transaction is in reality a deficit financing tool. It is aimed at providing budget relief at a time when the City is indeed in dire financial straits. While the projected annual savings of \$12-16 million from this transaction are anticipated to be for 14-15 years, and while the Mayor's budget was predicated on the actualization of COPS, we still have no long term deficit financing plan. To solve our budget woes, we need long term solutions instead, that zero in on fixing systemic, structural problems.

In order to realize projected savings, an annual return of 8-1/4% has to be realized. In the event of any future market downturns and in the event the system does not earn the assumed pension factor, then additional unfunded actuarial liability is created and we return to the same precarious situation we face today.

There is no question that our budget challenges are immense and finding solutions to averting layoffs and service cut-backs will be extremely difficult. The

Administration has stated that even if it were to issue COPS, there is no guarantee that layoffs would not occur. Pension obligation bond financing, or COPS, has to be done only as a last resort. It is a temporary fix for an emergency situation. Given the risks as well as the unknowns about this transaction, we should not gamble our tax dollars away on schemes that depend upon unknown, market volatility. It is time to confront our structural deficit with more disciplined, sound fiscal strategies.

STATEMENT BY COUNCIL MEMBER  
KENNETH V. COCKREL, JR. ON VOTE  
TO INTRODUCE PENSION  
OBLIGATION CERTIFICATES (POC)  
ORDINANCES

Today I joined with three other Council Members in voting to support the introduction of three ordinances authorizing the issuance of Pension Obligation Certificates.

This plan would be used to make an upfront payment of \$1.2 million to satisfy the city's accrued liability to both the General Retirement System and the Police and Fire Retirement System.

Because of the risk associated with such proposals, which have been executed in other cities with mixed results, this proposal has generated great controversy. I continue to have great concerns about this proposal and have a number of questions that I will be submitting to the Finance Department. However, because today's vote called for simply introducing these ordinances so that a formal public hearing could be set — not a final vote, I voted to support this move. Given the magnitude of this deal I believe the debate should be elevated and moved forward through an introduction and formal public hearing.

However, this measure failed on a four to four Council vote. But it is highly likely that the Kilpatrick Administration will bring this matter before Council again in the near future.

While I will likely vote in support of the introduction at that time, I will not vote to grant final approval of this deal until my concerns have been satisfied.

STATEMENT OF COUNCIL MEMBER  
S. COCKREL IN SUPPORT OF  
THE INTRODUCTION OF THREE  
PROPOSED ORDINANCES TO  
PROVIDE FOR AN ALTERNATIVE  
FUNDING MECHANISM FOR THE  
FUNDING OF UNFUNDED ACTUARIAL  
ACCRUED LIABILITY OF THE  
RETIREMENT SYSTEMS

On Tuesday, November 16, 2004, I voted in support of introducing the three (3) ordinances referenced above. Combined, the ordinances would establish an alternative system of issuing Pension

Obligation Certificates (POC) in order to address the unfunded actuarial accrued liability (UAAL) of the retirement systems.

The City of Detroit has an obligation imposed by the Michigan Constitution to fully fund the pensions of its retirees. In order to meet this obligation, money is put into the retirement system funds. This money accrues interest and checks are issued to the City's retirees in order to pay for the pensions. Currently, in order to meet the pension requirements, the retirement systems have an assumed rate of return on its investment of 7.8-7.9%. If the actual rate of return falls below the assumed rate of return, the retirement system funds have a shortfall. Additionally, whenever improvements are made to retiree benefits, this may also create a shortfall. Once these shortfalls become actuarially recognized, the City is required to make up the difference typically from the general fund. This amount is what is called UAAL.

The current UAAL is approximately \$1.2 billion. It is likely that in the very near future, if it has not happened already, another \$541 million of prior losses will be recognized by the Systems' actuary which would add that amount to the UAAL to bring the total UAAL to approximately \$1.7 billion. Be that as it may, the current \$1.2 billion UAAL amounts to total amortized payments by the City of \$2.2 billion over the next 14-15 years. This is because these payments would come from the general fund in monthly or annual payments at a rate of 7.8-7.9%.

The Administration has presented an alternative funding mechanism for this current liability to the City of Detroit. Instead of making payments at 7.8-7.9% over the next 14-15 years on the \$1.2 billion dollar liability, the City could issue POCs for the full \$1.2 billion dollars. The POCs would require interest payments of only approximately 5.8%. The money received from the POC issuance would be placed into a segregated trust within the retirement system and the UAAL would be paid on an annual or monthly basis from that fund. The key point of this transaction would be that the City would only have to make payments to the trust (via a separately created nonprofit corporation) at a rate of 5.8% instead of making payments directly to the retirement systems at a rate of 7.8-7.9%. This difference in interest rates is known as an arbitrage and could provide very significant savings to the City of Detroit.

This financial transaction does provide certain financial risks. However, the risk of losing money on this transaction would only materialize should the return on the retirement system investment fall below the anticipated 5.8% rate. In other words, if the retirement systems realize a return on their investments of 7.8-7.9%, then the

City will realize the expected savings of about \$277 million. If the systems realize a rate of return greater than 7.8-7.9%, then the City will realize even greater savings. If the retirement systems realize a return of less than 7.8-7.9%, then the City's expected savings would be reduced. Only at the point that the systems realize a return of less than 5.8% would the City be faced with total loss of savings, and perhaps even increased aggregate cost. Given that the systems have a reported annual rate of return of over 10% over the past ten years, and of 8.8% and 9.8% over the past five years, it appears unlikely that the systems would experience returns of less than 5.8% over the next 14-15 years. Assuming the unlikely event that the rate of return does fall below 5.8% at that point in time, the City will be faced with the most dire of circumstances that nearly nothing could alleviate anyway.

With respect to this issue, there are several misconceptions about this funding alternative that need to be addressed. First, this transaction would have no effect on creating any new UAAL. Secondly, this transaction has no bearing on potential future increases to retiree benefits. This proposed transaction is designed to only deal with the current UAAL. The method that the City chooses to fund its current liability does not affect any future UAAL nor does it effect the City's ability to choose to provide additional benefits. UAAL results when the systems' investments fail to meet the assumed rates of return and when improvements are made to retiree benefits that were not originally factored into the financial formulas that provide for retiree benefits. The mere fact that the City chooses to pay for its contribution in another way has no corresponding effect on the systems financial performance nor does it by itself prohibit the City from providing improvements to benefit improvements.

It is my opinion that all necessary due diligence has been done with respect to this proposal. There have been adequate discussions and reports on all of the various risks and benefits associated with this transaction. The Finance Department, through the City's Chief Financial Officer, the City Council's Fiscal Analyst and the Auditor General, all recommend approval of this transaction. The City is placed in a position where we can choose to take a risk on being in financial trouble, or being in financial trouble for certain. The bond rating agencies do not appear to look negatively on this transaction. We have received a legal opinion on this financial transaction. In sum, the ordinances that would provide for the issuance of POCs are ready for introduction, public hearing and are finally ready to be either voted up or down. For all of the reasons stated

above, I am ready to cast my vote in favor of this transaction, and I voted in support of the introduction of these ordinances.

**STATEMENT OF COUNCIL MEMBER  
S. COCKREL IN SUPPORT OF  
VARIOUS ORDINANCES AND  
RESOLUTIONS TO ESTABLISH  
AND APPROVE THE DEPARTMENT  
OF ADMINISTRATIVE HEARINGS  
AND CONVERSION OF CERTAIN  
MUNICIPAL CIVIL INFRACTIONS  
TO BLIGHT VIOLATIONS**

Over several recent formal sessions, I  
voted in support of various ordinances and  
resolutions that had been presented to  
City Council in order to establish the  
Department of Administrative Hearings  
(DAH). The purpose of the DAH is to effi-  
ciently adjudicate blight violations.

Prior to creation of the DAH, most viola-  
tions pertaining to property maintenance  
and illegal dumping were designated as  
municipal civil infractions and handled  
through tickets adjudicated at the 36th  
District Court of the State of Michigan.  
Prior to and during the Council's 2003-  
2004 budget deliberations, it became  
apparent that the 36th District Court could  
not handle the volume of violation notices.  
There were additional issues identified  
pertaining to multiple hearing procedures,  
disproportionate penalties and time-con-  
suming adjudication procedures. In an  
effort to deal with these issues, recent  
amendments to the Michigan Home Rule  
Cities Act and Revised Judicature Act  
enabled the establishment of a new sys-  
tem of administratively handling these  
types of issues.

Specifically, these amendments autho-  
rized the issuance of blight violation  
notices for violations related to zoning,  
property maintenance, solid waste and  
illegal dumping, disease and sanitation,  
noxious weeds and abandoned vehicles.  
MCL 117.4q. The City was further autho-  
rized to establish the Department of  
Administrative Hearings to adjudicate  
these violations through administrative  
hearings officers. Any appeal of a determi-  
nation of an administrative hearing officer  
would go to the Circuit Court of the State  
of Michigan.

As a direct result of this enabling legis-  
lation, the City Council was presented with  
a series of ordinances and resolutions  
designed to create the DAH and to convert  
the violations referenced above into "blight  
violations" in order to allow the DAH to  
adjudicate them. During the various hear-  
ings and discussions on these issues,  
there were two specific points that needed

November 17

3698

2004

to be addressed. First, on November 3, 2004, the Council approved a resolution authorizing the lease of property located at 561 E. Jefferson in order to house the Department of Administrative Hearings. There were some concerns as to the adequacy of parking availability at that location. My staff physically reviewed the site and the Buildings and Safety Engineering Department assured the City Council of its determination that there was adequate parking available at the site. Secondly, there were concerns over the requirement that snow and ice must be removed within 24 hours, and that the City should be held to the same standard. After raising these concerns, the Buildings and Safety Engineering Department, through a report dated November 12, 2004, indicated that the City would make all effort to comply with those very same rules imposed on the citizens of Detroit.

It is anticipated that the new DAH will provide fast, efficient and impartial adjudication of blight violations. This new hearings process will relieve the backlog of cases at the 36th District Court and will aid the administration and enforcement of those ordinances designed to keep the city clean and free of dangerous conditions. Having received the required assurances from the Administration that the DAH will in fact accomplish its stated objectives, I voted in favor of the ordinances and resolutions that came before the Council in this regard.

Honorable City Council:

Re: A Resolution Authorizing the Issuance and Sale of Sewage Disposal System Revenue and Revenue Refunding Bonds of the City of Detroit of Equal Standing and Junior Standing with the City's Sewage Disposal System Revenue Bonds and Sewage Disposal System Revenue Refunding Bonds Now Outstanding and Which May Remain Outstanding, for the Collective Purposes of Defraying Part of the Cost of Acquiring and Constructing Replacements, Repairs, Extensions and Improvements to the City's Sewage Disposal System and Refunding Certain Sewage Disposal System Revenue Bonds, Providing for the Form of the Securities Herein Authorized; Providing for the Rights of the Owners of such Securities and Enforcement Thereof; Providing for Financial Facilities and Interest Rate Exchange Agreements; and Determining Other Matters Relating to such Securities and the System.

The attached Resolution authorizes the issuance and sale of approximately \$350 million for financing the ongoing Sewage

Disposal System Capital Improvement Program. In addition, because of a continued decline in interest rates, an additional \$600 million of previously issued Bonds may be refinanced, thereby producing interest savings.

It is anticipated that the sale will occur in January, 2005. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with WAIVER OF RECONSIDERATION, at your next formal session.

Respectfully submitted,  
SEAN K. WERDLOW  
Chief Finance Officer

(1) Moneys in the Construction Fund Series 2005 shall be applied solely in payment of:

(i) the Issuance Costs of the Series 2005 Project Securities and

(ii) the costs of the Project, including engineering, legal and other expenses incident thereto and to the financing thereof.

(2) Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Commissioners a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and that such work has not been previously paid for.

(3) Payment of the costs of engineering, legal, financial, printing, escrow verification, bond insurance premium, credit enhancement, etc., as provided in this Section shall be made upon submission of appropriate documentation to the Finance Director.

(4) Any unexpended balance remaining in the Construction Fund Series 2005 after completion of the Project may in the discretion of the Commissioners be used for meeting the Reserve Requirement of the Senior Lien Bond Reserve Account and, to the extent such monies are not needed to meet the Reserve Requirement of the Second Lien Bond Reserve Account, for meeting the Reserve Requirement of the Second Lien Bond Reserve Account or for further improvements, replacements, enlargements and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on Series 2005 Securities from gross income for federal income tax purposes.

(5) Any remaining balance after all expenditures made pursuant to paragraph (4), if any, have been made shall be paid into the Senior Lien Bond and Interest Redemption Fund or the Second Lien Bond Interest and Redemption Fund,

as the Commissioners shall determine, for the purpose of redemption or purchase at not more than the fair market value, plus accrued interest, of outstanding Series 2005 Securities. Series 2005 Securities acquired by purchase shall be canceled.

(2) The Finance Director is authorized to enter into the Escrow Agreement on behalf of the City with U.S. Bank National Association as "Escrow Trustees."

(3) The Escrow Agreement:

(i) shall be in the form and substance customary for refunding escrow agreements;

(ii) may permit any balance after paying the principal (and premium, if any) and interest on the Bonds to be Refunded to be applied to any lawful purpose of the System if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Series 2005 Refunding Securities from gross income for federal income tax purposes; and

(iii) shall otherwise be in the best interests of the City.

(4) In the event all Bonds to be Refunded will be paid or redeemed within 90 days of the date of issuance of the Series 2005 Refunding Securities, then in lieu of the establishment of an Escrow Fund and the execution of an Escrow Agreement as described above, the Finance Director is authorized to transfer the Escrow Deposit (or cash sufficient to acquire the securities making up all or a portion of the Escrow Deposit) to the paying agent for the Bonds to be Refunded together with irrevocable instructions to (i) call the Bonds to be Refunded on the applicable call date and (ii) use the Escrow Deposit to pay principal of and interest and redemption premiums, if any, on the Bonds to be Refunded to and including the scheduled call date. The proceeds described in this subsection (4) shall be employed only if, in the opinion of Bond Counsel, after use of such procedures the Bonds to be Refunded will no longer be Outstanding under the Ordinance.

(g) UBS Hedge Swap Termination Payment.

Any termination payment received by the City pursuant to the UBS Hedge Swap and allocated in the Sale Order to the

Series 2005 Securities shall be deposited in the Receiving Fund.

**Section 12. Tax Covenant.**

The City hereby covenants and represents with the registered owners of the Series 2005 Securities that so long as any of the Series 2005 Securities remain outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain and will refrain from taking any action which would impair the exclusion of the interest on the Series 2005 Securities from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as currently amended, including, but not limited to, actions relating to any required rebate or arbitrage earnings and the expenditure and investment of Series 2005 Bond proceeds and moneys deemed to be Series 2005 Bond proceeds, and to prevent the Series 2005 Securities from being or becoming "private activity bonds" as that term is used in Section 141 of the Internal Revenue Code of 1986, as currently amended.

**Section 13. Preliminary and Final Official Statements.**

(a) The Finance Director shall cause the preparation of a preliminary official statement and other offering materials in a form satisfactory to him to be used in conjunction with the offering of the Series 2005 Securities and is authorized to deem the preliminary official statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission (the "Rule").

(b) The preliminary official statement with such changes and additions as the Finance Director shall approve shall constitute the final Official Statement, and the Finance Director is authorized to execute the final Official Statement on behalf of the City approved by him with such changes as the Finance Director may authorize.

(c) Such final preliminary official statement and final Official Statement and other offering materials satisfactory to the Finance Director are authorized to be distributed by the Underwriters in conjunction with the offering and sale of the Series 2005 Securities.

**Section 14. Continuing Disclosure.**

Unless otherwise set forth in the Sale Order because of an exemption from the Rule, the Series 2005 Securities are hereby made subject to the Continuing Disclosure Agreement, and if so subject the City hereby agrees to abide by the provisions thereof so long as any Series 2005 Securities are outstanding.

**Section 15. Sale of Series 2005 Securities.**

The Series 2005 Securities shall be sold by negotiated sale to the Underwriters pursuant to a Purchase

Agreement in customary form with such changes thereto as the Finance Director shall determine are in the best interests of the City, within the parameters established hereby. Such determination shall be conclusively established by the Finance Director's execution and delivery of the Purchase Agreement to the Representative. The reasons for choosing a negotiated sale instead of a competitive sale include the belief of the Council, based upon the recommendation of the Finance Director and the City's Financial Advisor, that a negotiated sale will allow the Series 2005 Securities to be offered to investors in the most efficient manner possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs to the City.

(a) The Finance Director is authorized to accept, on behalf of the City, an offer from the Representative to purchase the Series 2005 Securities wherein the aggregate compensation to be paid to the Underwriters in such capacity shall not be more than 1% of the original principal amount of the Series 2005 Securities.

(b) The Finance Director is authorized to determine whether the Purchase Agreement shall provide for liquidated damages and if so, the amount thereof, and whether the Representative shall be required to provide a good faith check in the amount of the liquidated damages.

**Section 16. Cash Defeasance of Outstanding Securities.**

(a) The Finance Director is hereby authorized to defease outstanding Securities pursuant to the Ordinance from funds of the System available therefor other than from proceeds of Series 2005 Securities.

(b) The series, maturities (or portions thereof) and principal amounts of the Securities to be defeased shall be determined by the Finance Director and set forth in the Sale Order.

(c) An Escrow Deposit for the Securities to be defeased shall be (i) held in or credited to an account designated as the "City of Detroit Water Supply System Revenue Bonds [Designation appropriate to the cash defeased Securities] Escrow Fund" pursuant to an escrow agreement entered into pursuant to and complying with Section 11(f)(2) and (3) hereof and shall be transferred to the paying agent for the Securities to be defeased subject to the same conditions and requirements set forth in Section 11(f)(4) hereof.

(d) Such defeasance shall occur on or prior to the issuance of the Series 2005 Refunding Securities.

**Section 17. Delegation of Authority to, and Authorization of Actions of, Finance Director.**

(a) The Finance Director shall make all determinations herein provided to be

made in the Sale Order and shall make all such determinations in accordance with the best interests of the City and within the parameters of this Resolution.

(b) In addition to determinations authorized elsewhere in this Resolution, the Finance Director shall determine the aggregate principal amount of Series 2005 Securities to be issued, but not in excess of the aggregate principal amount authorized by this Resolution, on the basis of his evaluation of the maximum amount of Series 2005 Securities which can be sold, given anticipated interest rates and the revenue coverage requirements with respect to the Series 2005 Securities and for any other reasons the Finance Director deems appropriate.

(1) Such determination shall also include the type or types of Series 2005 Securities to be issued and if in one or more series and whether to issue Series 2005 Securities as Senior Lien Bonds or Second Lien Bonds or a combination thereof and the redemption provisions for Series 2005 Securities.

(2) The Finance Director shall also determine and establish, in accordance with this Resolution, the maturities of Series 2005 Securities, whether such maturities shall be serial or term maturities and the Mandatory Redemption Requirements for any term maturities.

(3) The Finance Director shall also determine whether to issue the Series 2005 Refunding Securities and, if so, the Bonds to be Refunded.

(c) In accordance with the UBS Hedge Swap Resolution, the Finance Director is hereby authorized designate all or a portion of the notional amount of the UBS Hedge Swap to the Series 2005 Project Securities, and to designate the Series 2005 Project Securities as Future Related Securities, as defined in the UBS Hedge Swap Resolution; provided, however, if less than all of the notional amount of the UBS Hedge Swap is designated to the Series 2005 Project Securities, then the proportion of the termination payment on the UBS Hedge Swap payable as UBS Hedge Swap Capitalized Interest shall be no greater than the proportion of the notional amount of the UBS Hedge Swap which is designated to the Series 2005 Project Securities.

(d) For the purpose of more effectively managing debt service requirements of outstanding Securities and the Series 2005 Securities the Finance Director is hereby authorized in his discretion to enter into one or more Interest Rate Agreements with such counterparties and containing such provisions as shall meet the requirements of Act 34, the Swap Management Plan, and the Debt Management Plan. Any such Interest Rate Agreement may be obtained on a forward starting or delayed delivery basis

if determined by the Finance Director to be in the best interests of the City.

(1) The Council acknowledges the potential risks associated with the Interest Rate Agreements including, counterparty risk, termination risk, rollover risk, basis risk, tax event risk, and amortization risk, as set forth in the Swap Management Plan.

(2) The Finance Director is authorized to negotiate the terms of the Interest Rate Agreements, provided, that such terms are consistent with Act 34, the Swap Management Plan, the Debt Management Plan, the Ordinance and this Resolution and are not materially adverse to the City.

(3) The Finance Director is further authorized to enter into such ancillary agreements, including, without limitation, agreements to obtain insurance on some or all of the payments due under Interest Rate Agreements, in connection with the Interest Rate Agreements, as may be necessary or appropriate and are consistent with Act 34 and the terms of the Swap Management Plan, the Debt Management Plan, the Ordinance and this Resolution.

(4) The determinations made by the Finance Director in connection with the Interest Rate Agreements shall be confirmed in the Sale Order.

(e) The Finance Director is authorized to enter into such Financial Facility Agreements as provided in Section 8 hereof of the City as the Finance Director determines to be cost effective, make such ancillary agreements and do such other things and take such other actions in connection therewith as may be necessary or appropriate and not otherwise inconsistent with the Ordinance or the parameters hereof.

(f) The Mayor or, if permitted by law, the Finance Director, is authorized to file applications and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for one or more Orders of Approval to issue all or a portion of the Series 2005 Securities, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the Series 2005 Securities as authorized herein, and as required by the Michigan Department of Treasury or Act 34.

(g) The Finance Director is hereby authorized and directed to do and perform any and all other acts and things with respect to the Series 2005 Securities which are necessary or appropriate to carry into effect, consistent with the Ordinance and this Resolution, the authorizations therein and herein contained including without limitation the securing of ratings by bond rating agencies, and the incurring of reasonable fees costs and expenses incidental to the foregoing, for and on behalf of the City.

(h) All determinations and decisions of the Finance Director with respect to the issuance and sale of the Series 2005 Securities as permitted or required by this Resolution shall be confirmed and approved by the Finance Director in the Sale Order.

(i) During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director shall exercise all the powers, perform all the duties and make all the determinations herein required or permitted by the Finance Director.

The City intends to reimburse itself for any costs of the Projects paid or incurred by the City prior to the issuance of the Series 2005 Project Securities with proceeds of the Series 2005 Project Securities. The Internal Revenue Service has issued Treas. A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for

the project to reimburse the City for a capital expenditure made pursuant to this Resolution.

(e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Honorable City Council:

Re: Address: 13430 Hasse. Name:  
Camara Ruffin. Date ordered  
removed: September 15, 2004  
(J.C.C. p. ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 22, 2004 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 2, 2004.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we will proceed with demolition without further hearings. Pursuant to the Property Maintenance Code our Municipal Civil Infractions (MCI) Unit will issue the appropriate violations/tickets.

Re: Petition #1162, S. A. Restaurants, Inc. — MLCC Entertainment and Topless Activity Permit (Revised Resolution of Disapproval).

At your Honorable Body's formal session of 03 November 2004, Council pulled the Law Department's resolution of disapproval with regard to the petition of S. A. Restaurants, Inc. and asked that it be revised and expanded by City Planning Commission staff.

This petition from the Michigan Liquor Control Commission relates to the transfer of an entertainment permit and topless activity permit for the adult cabaret located at 20771 W. Eight Mile Road in the City of Detroit.

City Planning Commission staff respectfully submits a revised resolution of disapproval, attached hereto, reflecting the nonconforming status of the adult cabaret and Council's deliberations concerning it. If the revisions accurately respond to Council's concerns, we recommend that the resolution be put on for a vote at the November 17th formal session.

By Council Member McPhail:

Whereas, Section 916(6)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, a combination dance-entertainment permit, or a topless activity permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located;

Whereas, the MLCC has forwarded a Local Approval Notice (Request ID 134102) to City Council, which has been designated by the City Clerk as Petition No. 1161, concerning the request of S. A. Restaurants, Inc. for approval or disapproval of the issuance of entertainment and topless activity permits in conjunction with the transfer of stock ownership of an MLCC licensed business at 20771 W. Eight Mile Road from John Jarjosa, deceased to Jerry Jarjosa;

Whereas, Upon this body's approval of the issuance of an entertainment and a topless activity permit by the MLCC to S. A. Restaurants, Inc., the issuance of a City of Detroit Group "D" adult cabaret business license by the Consumer Affairs

Business License Center, and the MLCC's approval of the transfer of stock ownership of the licensed business, the location would be approved for entertainment, and topless activity on the premises by the petitioner;

Whereas, Zoning District Map No. 72 identifies the land at 20771 W. Eight Mile Road as zoned B4; and

Whereas, The Buildings and Safety Engineering Department records indicate that 20771 W. Eight Mile is an adult cabaret; and

Whereas, Adult cabarets are a nonconforming use on land zoned B4; and

Whereas, The City Council has considered the Local Approval Notice requesting the approval or disapproval of the issuance of entertainment and topless activity permits by the MLCC to S. A. Restaurants, Inc., in accordance with its procedures and this Body's August 1, 2003 and July 7, 2004 resolutions on the procedures and criteria for the approval or disapproval of the issuance of such permits;

Whereas, Detroit City Council has found it inconsistent to take actions that would have the effect of lengthening the life of a nonconforming use; and

Whereas, The information presented by the petitioner at a hearing on October 18, 2004 before City Council failed to provide information adequate and appropriate to overcome the presumption against taking legislative actions that would have the effect of lengthening the life of a nonconforming use;

Now Therefore It Is Resolved, Pursuant to Section 916(6)(b) of the Michigan Liquor Control Code, being MCL 436.1916(6)(b), that the Detroit City Council, disapproves the transfer of entertainment and topless activity permits by the MLCC for 20771 W. Eight Mile Road; and

It Is Further Resolved, That copies of this Resolution, and the City Clerk's certification of this disapproval of MLCC request ID number 134102, be forwarded to the Michigan Department of Consumer and Industry Services, Liquor Control Commission, 7150 Harris Drive, P.O. Box 30005, Lansing, MI 48909-7575, the Detroit Police Department, Liquor License Unit, 2100 Park Street, Room 114-2, and the Consumer Affairs Business License Center, 105 Coleman A. STATEMENT OF COUNCIL MEMBER  
S. COCKREL IN OPPOSITION TO  
RESOLUTION DISAPPROVING

TRANSFER OF ENTERTAINMENT  
AND TOPLESS ACTIVITY PERMITS  
BY THE MLCC FOR  
20771 W. EIGHT MILE ROAD

On Wednesday, November 17, 2004, I voted no on the resolution referenced above. Petition No. 1162 of S. A. Restaurants, Inc. was a request for the Detroit City Council, as the local legislative body, to approve the issuance of entertainment and topless activity permits by the Michigan Liquor Control Commission (MLCC) in conjunction with a transfer of stock ownership of a licensed business located at 20771 W. Eight Mile Road.

The business located at that address featured adult entertainment in a B4 zoning district. Adult cabarets located on land zoned B4 are nonconforming uses. With respect to such nonconforming uses, in August of 2003, the Detroit City Council passed a resolution establishing "procedures and criteria for the approval/disapproval of MLCC activity permits." In pertinent part, the rules provide that it is the policy of the City Council to not lengthen the lives of nonconforming uses. Further, the petition is allowed to present evidence to rebut this presumption.

There were two particular factors that impacted my decision on this issue. First, the actual owner of the license and permit was not changing. The owner is SA Restaurants, Inc. of which the sole shareholder was John Jarjosa. Secondly, the death of John Jarjosa was what necessitated the transfer of his stock in SA Restaurants, Inc. to his uncle, Jerry Jarjosa. This situation is readily distinguishable from the more typical case in which a business seeks to sell and transfer its licenses thereby lengthening a nonconforming use. In this case, the actual owner remains the same and the stock transfer was required because of some very unfortunate circumstances.

Consumer Affairs reported that the location was in compliance with all applicable provisions of the 1984 Detroit City Code. The Buildings and Engineering Safety Department indicated that the building had a nonconforming occupancy as a Group D adult cabaret business. The Police Department reported that there had been four (4) MLCC violations with no record of serious crime within the past year. In consideration of all of the factors including the fact that this appeared to be a legal nonconforming use and the fact that this was a simple stock transfer required by the untimely death of John Jarjosa, I did not vote in favor of disapproving the transfer of ownership.

For all of the reasons stated above, I voted no.

Re: Proposed New Zoning Ordinance (Submitting Resolution to Extend Period for Council Consideration).

On March 26, 2004, your Honorable Body concurred with the recommendation of the City Planning Commission staff to freeze the proposed new Zoning Ordinance to include only those provisions recommended by the City Planning Commission (CPC) on May 15, 2003, as well as those items transmitted by CPC staff in reports dated March 12, 2004 and March 24, 2004.

As a result of that action, CPC staff generated a 6th draft of the Ordinance that contains all of the requisite changes. This draft was forwarded to the Law Department on June 18, 2004 for its approval as to form. On October 1, 2004, the Law Department relayed its comments to CPC staff, indicating the need for minor substantive corrections and various stylistic changes. Those corrections and changes are presently being made. However, the desirability of immediately amending the current Zoning Ordinance, Ordinance No. 390-G, to reflect the processing of blight violations so that the Department of Administrative Hearings might begin work in January, 2005, results in changes to as many as 51 sections of the 6th draft.

As indicated in the City Planning Commission (CPC) reports of August 29, 2003 and November 12, 2003, and as required by Sections 64.0700 of the Zoning Ordinance, City Council needs to act on the recommended ordinance within 120 days of receipt of the Planning Commission's report and recommendation. The original 120-day review period would have expired on January 2, 2004 but has been extended by resolutions of City Council until May 1, 2004, August 29, 2004, and December 27, 2004.

Since the Law Department's finalization of its review and insertion of the "Blight Ordinance" amendments will continue into Council's end-of-year recess after November 22, 2004, CPC staff recommends that the attached resolution be put on for a vote prior to your Honorable Body's recess. The resolution will extend the review period of the proposed, new Zoning Ordinance for an additional 120 days until April 26, 2005.

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by the Utility Workers of America, Local 531.

We are also requesting authorization to implement the following new contract provisions:

Honorable City Council:

Re: Establishment of the Orton Development (aka Argonaut Bldg.) Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will establish the Orton Develop-

ment Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on September 24, 2004, as required by the Act. No impediments to the establishment of the NEZ were presented at the public hearing.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. The date of the notice of the public hearing is August 10, 2004 and we therefore recommend that you approve the resolution at your next regular formal session.

Respectfully submitted,  
HENRY B. HAGOOD

Director of Development Activities

By Council Member Bates:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the Orton Development Neighborhood Enterprise Zone NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by

a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the Orton Development Neighborhood Enterprise Zone NEZ was conducted before the Detroit City Council on September 24, 2004, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the Orton Development Neighborhood Enterprise Zone NEZ are known;

Now Therefore Be It

Resolved, That the land area described in the attached legal description, and shown on the attached map, is hereby established as the Orton Development Neighborhood Enterprise Zone NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Re: Authorization to Accept Depart-

ment of Housing and Urban Development Department (HUD) Grant Award in the amount of \$4 Million.

In response to the City of Detroit's application submission to the 2004 Notice of Funding Availability (NOFA) entitled "Lead Hazard Demonstration, the Department of Housing and Urban Development, through its Office of Healthy Homes and Lead Hazard Control Office awarded the City of Detroit, a grant award in the amount of \$4 million. This is a two-year grant, effective date of the grant award is October 1, 2004.

The purpose of the grant award is to assist the City of Detroit in the continued efforts of community education, awareness, outreach and testing programs, conducting inspections/assessments, per-

forming lead hazard control measures in privately owned housing units and to also provide relocation for families in the City of Detroit for the two-year grant period.

We are hereby requesting authorization to accept this grant award.

Respectfully submitted,  
WALTER C. WATKINS, JR.,  
Chief Development Officer

By Council Member Tinsley-Talabi:

Whereas, The City of Detroit is three to four times greater than those within the State of Michigan ranking Detroit seventh nationally for childhood lead poisoning, and even more glaring is in some areas of the city one in every five children is lead poisoned according to the Center for Disease Control (CDC).

Whereas, The City of Detroit submitted to the Department of Housing and Urban Development (HUD), an application for the SuperNofa: Lead Based Paint Hazard Reduction Demonstration Grant on July 9, 2004.

Whereas, The City of Detroit, through its Planning and Development Department was selected for a two-year grant award in the amount of \$four million dollars to assist the City in it's effort to combat lead based paint poisoning in our children on September 27, 2004. Now, Therefore Be It

Resolved, The City of Detroit request the authorization to accept the grant award in the amount of four million dollars (\$4-million) to assist in the eradication and education of lead based paint poisoning in the children in the City of Detroit.

-----  
STATEMENT BY  
COUNCIL MEMBER S. COCKREL  
IN SUPPORT OF RESOLUTION  
AUTHORIZING ACCEPTANCE  
OF DEPARTMENT OF HOUSING  
AND URBAN DEVELOPMENT  
DEPARTMENT (HUD) GRANT AWARD  
IN THE AMOUNT OF \$4 MILLION

On Wednesday, November 17, 2004, I voted in support of the resolution referenced above. Lead is a neurotoxin that can cause severe brain damage in children resulting in reduction in intelligence and creation of a host of behavioral and health problems. According to a Proposed Work Plan/Action Activities/Funding Match Requirements document dated November 1, 2004 from the City of Detroit Planning and Development Department, the City of Detroit ranks fourth in the nation in the estimated number of children with elevated blood lead levels in cities with populations over 100,000. 56% of the City's housing stock was built prior to 1950

which are the homes considered to be prime sources of lead-based paints. This problem is exacerbated by the fact that according to the 2000 U.S. census, 93,365 children under the age of five live in poverty. Of these children, many live in rental homes. Under these circumstances, it is clear that funding aid is required in order to abate the lead problem.

In major part, the addressing of this issue was initiated on January 22, 2003, when the Detroit City Council adopted a resolution referring the Lead Poisoning problem in Detroit to its Public Health and Safety Standing Committee of which I am co-chair. The first discussion was held on January 28, 2003 when the committee heard from Dr. Lyke Thompson of Wayne State University and Glenn Brown of the Lead Free Partnership Coalition. The Public Health and Standing Committee held several more discussions and made multiple reports to the Committee of the Whole on the issue.

The U.S. Department of Housing and Urban Development (HUD), through its Office of Healthy Homes and Lead Hazard Control Office, awarded a \$4 million grant to the City of Detroit over a two-year period. This was due to the Planning and Development Departments application in response to HUD's 2004 Notice of Funding availability (NOFA). This grant will provide additional funding for the City to continue its efforts to create awareness of the lead problem through education and outreach, to conduct inspections, to perform lead control measures and to provide relocation.

This grant provides a very significant source of additional funding to address a major problem for the health of the City's children. The Planning and Development Department is to be commended for its outstanding efforts in this regard and I am proud to vote in full favor of the resolution to approve the acceptance of this grant.

By COUNCIL MEMBER TINSLEY-TALABI:

WHEREAS, The Check Clearing Act for the 21st Century, also known as Check 21, went into effect on October 28, 2004 across the nation; and

WHEREAS, Check 21 creates a new legal document, called the "substitute check," which allows checks to be scanned, digitized and transported electronically. Substitute checks are paper copies created from electronic images of original paper checks. This process creates an advantage to the banking industry because it allows them to access funds more quickly. Currently, most checks must be physically transported across the country; and

WHEREAS, This new system will forever change the way consumers have handled their checking by eliminating the

previous 3 day average for checks to clear, also known as 'Float' time. The implementation of Check 21 will allow checks to clear in seconds as opposed to days; and

WHEREAS, The new legislation represents a paradigm shift and will have tremendous impact on the banking industry overall, and in particular its customers, who may or may not have the ability to fully comprehend the changes the law presents; and

WHEREAS, Check 21 creates a totally new environment for customers who have become accustomed to the current system. Customers may incur a considerable amount of overdraft fees, especially those populations who can least afford it because there has not been enough education regarding the impact of Check 21; and

WHEREAS, There exists an imperative need to educate the general public regarding Check 21 throughout the State of Michigan, NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the Michigan Bankers Association to intensify outreach efforts aimed at alerting citizens of the implications of Check 21 in radio, television and print media; AND BE IT FINALLY

RESOLVED, That copies of this resolution be forwarded to Michigan Governor Jennifer Granholm, the Detroit Delegation of the House and Senate, Wayne County Executive Robert Ficano, Wayne County Commissioners, the Michigan Bankers Association, Mayor Kwame Kilpatrick, and the Presidents of all banks in the Detroit metropolitan area.

## Planning & Development Department July 30, 2004

Honorable City Council:

Re: A Resolution to amend the Detroit Master Plan of Policies for the Seven Mile Crossings proposed development.

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department's Planning Division has submitted for your consideration and action a proposed Amendment to the Detroit Master Plan of Policies. Adoption by your Honorable Body of this resolution would accommodate changes in the Master Plan of Policies that would establish a "GC", General commercial recommended future land use where an "RL", Low density residential land use classification currently exists; and would allow for the development of the Seven Mile Crossings retail development.

### Location

**Northwest quadrant of the intersection of Telegraph and Seven Mile Roads**

The proposed development is bounded generally by Frisbee Street on the north, Telegraph Road on the east, a line approximately 780 feet north of West Seven Mile Road on the south and Lenore Street on the west. The site falls into the Redford Subsector of the West Sector of the Master Plan of Policies.

### Existing Site Information

**Future general land use:** "RL", Low density residential

**Existing land and/or building use:** Single-family houses

**Existing zoning:** R1, Single-family residential district

**Size:** Approximately 32 acres

Single-family residences currently occupy the site. Most of the residences sit on lots of more than 300 feet in depth. The large lots make acquisition of sufficient acreage significantly easier for the development team. That, combined with the favorable demographics in the surrounding area led the development team to propose retail development for this site.

### Surrounding Site Information

#### Future general land use:

North and west: "RL", Low density residential;

East: "RL" along Telegraph, north of Vassar and "RLM", Low-medium density residential along Telegraph at the site of the Crescent House Apartments;

South: "RL" immediately adjacent, and "GC" (General commercial) and "RLC", or Residential/local commercial along Seven Mile Road

#### Existing land and/or building use:

North and west: single-family houses ("RL");

East: single-family houses ("RL") along Telegraph, north of Vassar, and the Crescent House Apartment complex ("RLM") directly across Telegraph from the proposed Home Depot;

South: commercial on Telegraph ("GC") and a mix of commercial and multi-family residential (together making up "RLC") between the subject site and Seven Mile Road

#### Existing zoning:

North and west: R1;

East: R1 along Telegraph north of Vassar and R2, Two-family residential district along Telegraph south of the R1;

South, a mix a PD, Planned Development District and B2, Local business and residential district along Seven Mile Road

### Project Proposal

**Future general land use:** "GC", General commercial

#### Proposed land and/or building use:

Large-scale retail uses

**Proposed zoning:** PD, Planned development district

The petitioner seeks a PD zoning classification and a Master Plan "GC", General commercial future land use classification for the proposed development to accommodate retail uses consisting of two big-box retailers plus three outlots for bank and restaurant tenants. Presumed tenants include a Home Depot anchor and on the outlots, a Starbucks store and two bank branches. The project is designed to a large, automobile-oriented scale.

### Interpretation

#### Impact on Surrounding Land Use

The site of the proposed development

November 22

3786

2004

has high visibility along a high volume stretch of Telegraph Road, making it desirable to retailers. Extending nearly 800 feet from Telegraph Road west into a neighborhood of single-family homes, the project will isolate a small area of single-family homes between itself and apartment buildings and commercial uses to the south along Seven Mile Road. Woodbine Street, west of Telegraph, will dead end into the parking lot at the south line of the property, behind the Topinka's Plaza Shopping Center at the corner of Telegraph and Seven Mile Roads.

The proposed project will remove several dozen homes from a stable neighborhood. The neighborhood will nonetheless benefit from the convenience of nearby shopping. It should also benefit in terms of increased housing values and the vote of confidence this large investment, in combination with the nearby, recent Kmart development at Bonnie Brook signifies for the area. The retail uses will be buffered from the surrounding neighborhood by a masonry wall and landscaping. Additional landscaping will help screen the site from residences across Telegraph.

#### *Impact on Transportation*

Traffic will no doubt increase on Telegraph when the project opens, but excess capacity exists to handle it. There will be no vehicular access from the site to the residential streets to the north and west, minimizing conflicts with neighborhood traffic. The development team has indicated its willingness to include facilities for mass transit on or adjacent to the site. The site is well served by transit, with three DDOT and three SMART routes passing within one half mile of it. Employees or customers may thus find transit use a favorable alternative to driving to the site.

#### *Additional Analysis*

The development team has agreed to alter site plans to address concerns expressed by community residents and Planning and Development staff, including screening the proposed detention basins from nearby residences, enhancing landscaping to soften the appearance of the development and altering ingress/egress and parking lot design to better manage traffic flow to, from and within the site. Planning is thus satisfied that the revised site plan will sufficiently improve the project aesthetically and functionally.

#### **Recommended Master Plan Amendment**

The amendment of the Master Plan of Policies to permit this development will allow for the construction of needed retail uses in the City of Detroit. It will bring a number of new jobs to the area and strengthen the Seven Mile/Telegraph area as a commercial destination. It will enhance tax base through increased pay-

roll and property taxes not only onsite, but according to an informal City study done on the site surrounding the Seven Mile/Meyer retail location, in terms of added property values in surrounding neighborhoods.

The Planning Division of the Planning and Development Department therefore recommends that the future general land use in the Master Plan of Policies be changed from an "RL", Low density residential to a "GC", General commercial land use classification.

Re: Resolution authorizing the issuance and sale of not to exceed \$14,500,000 General Obligation Notes (Limited Tax) Series 2005 for the purpose of approving the Real Estate Purchase Agreement and paying part of the costs of the Detroit Police Department Forensic Laboratory Facility Project.

The attached Resolution authorizes the issuance and sale of the subject Notes for the purpose of approving the real estate purchase agreement and financing the construction, improvement and equipping of a new forensic laboratory for the Detroit Police Department.

On November 2, 2004 the electorate approved \$120,000,000 for Public Safety capital projects. By issuing General Obligation Notes now, work can begin quickly on the forensic laboratory. not exceeding the Maximum Interest Rate, payable on such dates as shall be determined and confirmed by the Finance Director in the Sale Order. (h) In making the determinations set forth in this Resolution with respect to the Sale Order for the issuance and sale of the Notes, the Finance Director shall be limited to the parameters as follows:

(1) The final maturity dates for the Notes shall not be later than the earlier of (i) (3) years from the date of issuance (ii) 60 days after the expected date of issuance of that portion of the Bonds in anticipation of which the Notes have been issued.

The registration of this Note is transferable only upon the Note Registry by the Registered Owner hereof or by his attorney duly authorized in writing upon the presentation and surrender hereof at the designated corporate trust office of the Paying Agent together with a written instrument of transfer satisfactory to the Paying Agent, duly executed by the Registered Owner hereof or his attorney duly authorized in writing, and thereupon one or more fully executed and authenticated Notes in any authorized denominations of like maturity and tenor, in equal aggregate principal amount shall be issued to the transferee in exchange therefor as provided in the Resolution upon the payment of the charges, if any, therein prescribed.

It is hereby certified, recited and declared that all acts, conditions and things required to exist, happen and to be performed, precedent to and in the issuance of this Note and the Notes of this issue do exist, have happened and have been performed in due time, form and manner as required by the Constitution and statutes of the State of Michigan, and that the total indebtedness of the City, including this Note and the Notes of this

issue does not exceed any constitutional, statutory or charter limitation.

This Note is not valid or obligatory for any purpose until the Paying Agent's Certificate of Authentication on this Note has been executed by the Paying Agent.

Section 308. **Registration.** The City and the Paying Agent may treat and consider the Noteowner of any Note as the absolute owner of such Note, whether such Note shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal (and premium, if any) thereof and interest thereon and for all other purposes whatsoever, and all such payments so made to such Noteowner or upon his order shall be valid and effectual to satisfy and discharge the liability upon such Note to the extent of the sum or sums so paid.

Section 309. **Mutilated, Destroyed, Stolen or Lost Notes.** (a) Subject to the provisions of Act 354, Public Acts of Michigan, 1972, as amended and any other applicable law, if (i) any mutilated Note is surrendered to the Paying Agent or the City and the Paying Agent and the City receive evidence to their satisfaction of the destruction, loss or theft of any Note and (ii) there is delivered to the City and the Paying Agent such security or indemnity as may be required by them to save each of them harmless, then, in the absence of notice to the City or the Paying Agent that such Note has been acquired by a bona fide purchaser, the City shall execute and the Paying Agent shall authenticate and deliver in exchange for or in lieu of any such mutilated, destroyed, lost or stolen Note, a new Note of like tenor and principal amount, bearing a number not contemporaneously outstanding.

(b) If any such mutilated, destroyed, lost or stolen Note has become or is about to become due and payable, the City in its discretion may, instead of issuing a new Note, pay such Note.

(c) Any new Note issued pursuant to this Section in substitution for a Note alleged to be mutilated, destroyed, stolen or lost shall constitute an original additional contractual obligation on the part of the City, and shall be equally secured by and entitled to equal proportionate benefits with all other Notes issued under this Resolution.

Section 310. **Book-Entry Only System Permitted.** (a) If determined by the Finance Director in the Sale Order, the Notes shall be issued to a securities depository selected by the Finance Director (the "Security Depository") to be held pursuant to the book-entry-only system maintained by the Security Depository and registered in the name of

the Security Depository or its nominee. Ownership interests in Notes held under such book-entry-only system shall be determined pursuant to the procedures of the Security Depository and Article 8 of the applicable Uniform Commercial Code (such persons having such interests, "Beneficial Owners").

(b) If (i) the City and the Paying Agent receive written notice from the Security Depository to the effect that the Security Depository is unable or unwilling to discharge its responsibilities with respect to the Notes under the book-entry-only system maintained by it or (ii) the Finance Director determines that it is in the best interests of the Beneficial Owners that they be able to obtain Notes in certificated form, then the City may so notify the Security Depository and the Paying Agent, and, in either event, the City and the Paying Agent shall take appropriate steps to provide the Beneficial Owners with Notes in certificated form to evidence their respective ownership interests in the Notes. Whenever the Security Depository requests the City and the Paying Agent to do so, the Finance Director on behalf of the City and Paying Agent will cooperate with the Security Depository in taking appropriate action after reasonable notice to make available Notes registered in whatever name or names the Beneficial Owners transferring or exchanging Notes shall designate.

(c) Notwithstanding any other provision of this Resolution or the Sale Order to the contrary, so long as the Notes are held pursuant to the book-entry-only system maintained by the Security Depository.

(i) all payments with respect to the principal and interest on such Notes and all notices with respect to such Notes shall be made and given, respectively, to the Security Depository as provided in the representation letter from the City and the Paying Agent to the Security Depository with respect to such Notes; and

(ii) all payments with respect to principal of the Notes and interest on the Notes shall be made in such manner as shall be prescribed by the Security Depository.

#### ARTICLE IV SPECIAL COVENANTS

Section 401. **Tax Exemption Covenant.** The City covenants that it will not take any action, or fail to take any action required to be taken, if taking such action or failing to take such action would adversely affect the general exclusion from gross income of interest on the Notes (determined by the Finance Director to be issued on a tax-exempt basis), from federal income taxation under the Code.

Section 402. **Arbitrage Covenant.** (a) The City will not directly or indirectly (1)

use or permit the use of any proceeds of the Notes (determined by the Finance Director to be issued on a tax-exempt basis) or other funds of the City or (2) take or omit to take any action required by Section 148(a) of the Code in order to maintain the exclusion from gross income of the interest on the Notes (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes. To that end, the City will comply with all requirements of Section 148 of the Code to the extent applicable to the Notes and the requirements set forth in the Non-Arbitrage and Tax Compliance Certificate of the City.

(b) Without limiting the generality of subsection (a), above, the City agrees that there shall be paid by the City from time to time all amounts, if any, required to be rebated to the United States pursuant to Section 148(f) of the Code. This covenant shall survive payment in full or defeasance of the Notes.

(c) Notwithstanding any provision of this Section, if the City obtains an opinion of Note Counsel to the effect that any action required under this Section is no longer required, or that some further action is required, to maintain the exclusion from gross income of the interest of the Notes (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes pursuant to Section 103 of the Code, the City may conclusively rely on such opinion in complying with the provisions hereof.

#### ARTICLE V FUNDS AND ACCOUNTS; DISPOSITION OF NOTE PROCEEDS

Section 501. **Establishment of Accounts and Funds.** The City hereby establishes and creates the following special, separate and segregated accounts and funds which shall be held for and on behalf of the City by a bank or banks or other financial institution which the Finance Director or Treasurer of the City designates as depository of the City:

- A. Debt Retirement Fund;
- B. Note Issuance Fund; and
- C. Acquisition Fund.

The Finance Director is hereby authorized to establish such accounts, sub-accounts or funds as shall be required for each series of the Notes, if any, to accommodate the requirements of such series of Notes, including, but not limited to, such accounts, subaccounts or funds necessary to facilitate the allocation and use of Note proceeds to finance the Project or the purchase and payment of variable rate Notes. The Finance Director is authorized to allocate any net original issue premium received upon the sale of the Notes to such accounts and in such amounts as permitted by applicable law

and the Code.

**Section 502. Debt Retirement Fund.** From the proceeds of the sale of the Notes there shall be set aside in the Debt Retirement Fund the accrued interest, if any, received from the purchasers of the Notes at the time of delivery of the Notes. Proceeds of the Bonds, general funds of the City, proceeds of all taxes levied pursuant to Section 301 hereof and any amounts transferred from the Acquisition Fund under Section 505 hereof shall be used to pay the principal of and interest on the Notes when due. The foregoing amounts shall be placed in the Debt Retirement Fund and held in trust by the Paying Agent, and so long as the principal or interest on the Notes shall remain unpaid, no moneys shall be withdrawn from the Debt Retirement Fund except to pay such principal and interest. Any amounts remaining in the Debt Retirement Fund after payment in full of the Notes and the fees and expenses of the Paying Agent shall be retained by the City to be used for any lawful purpose.

**Section 503. Note Issuance Fund.** From the proceeds of the Notes there shall be set aside in the Note Issuance Fund a sum sufficient to pay the costs of issuance of the Notes. Moneys in the Note Issuance Fund shall be used solely to pay expenses of issuance of the related series Notes. Any amounts remaining in the Note Issuance Fund after payment of issuance expenses shall be transferred to the Acquisition Fund.

**Section 504. Reserved.**

**Section 505. Acquisition Fund.** (a) After making the deposits required by Sections 502 and 503 the remainder of the proceeds of the sale of the Notes shall be deposited in the Acquisition Fund. A portion of the proceeds, in an amount determined by the Finance Director to be sufficient to finance the purchase of the Property for the Project under the Purchase Agreement, shall be set aside separately in the Acquisition Fund Project Property Subaccount, which shall be disbursed to the Owner at the direction of the Finance Director or his designee to acquire the Property for the Project under the terms of the Purchase Agreement. Except for investment pending disbursement and as hereinafter provided, moneys in the Acquisition Fund shall be used by the City solely and only to pay the costs of the Project as such costs become due and payable and, if necessary, to rebate arbitrage earnings, if any, to the United States Department of Treasury as required by the Code.

(b) The Finance Director is hereby authorized and directed to expend money from the Acquisition Fund for other costs of the Project, including legal, engineering, architectural, and consulting fees and expenses and for reimbursement to the

City for moneys previously expended in anticipation of issuance of the Notes, to the extent reimbursement for such Project expenditures has been properly included by resolution of the City Council in accordance with the Code, if required, or is subject to the reimbursement provisions of Article IX of this Resolution.

(c) Upon payment of all costs of the Project, any balance in the Acquisition Fund shall be transferred to the Debt Retirement Fund or used in any other manner which in the opinion of nationally recognized Note counsel is permitted by law and which will not cause the interest on the Notes (issued on a tax exempt basis) to become includible in gross income for federal income tax purposes.

**Section 506. Investment of Monies in the Funds and Accounts.** (a) The Finance Director shall direct the investment of monies on deposit in the Funds and Accounts established hereunder, and the Paying Agent, upon written direction or upon oral direction promptly confirmed in writing by the Finance Director, shall use its best efforts to invest monies on deposit in the Funds and Accounts in accordance with such direction.

(b) Monies on deposit in the Funds and Accounts may be invested in such investments and to the extent permitted by applicable law.

#### ARTICLE VI THE PAYING AGENT

**Section 601. Paying Agent.** The Paying Agent for the Notes shall act as Note registrar, transfer agent and paying agent for the Notes and shall be initially U.S. Bank National Association, Detroit, Michigan, or such other bank or trust company located in the State of Michigan which is qualified to act in such capacity under the laws of the United States of America or the State of Michigan. The Paying Agent means and includes any company into which the Paying Agent may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which the Paying Agent may sell or transfer all or substantially all of its corporate trust business, provided, that such company shall be a trust company or bank which is qualified to be a successor to the Paying Agent as determined by the Finance Director, shall be authorized by law to perform all the duties imposed upon it by this Resolution, and shall be the successor to the Paying Agent without the execution or filing of any paper or the performance of any further act, anything herein to the contrary notwithstanding. The Finance Director is authorized to enter into an agreement with such a bank or trust company, and from time to time as required, may desig-

nate a similarly qualified successor Paying Agent and enter into an agreement therewith for such services.

#### ARTICLE VII

##### SUPPLEMENTAL RESOLUTIONS

Section 701. **Supplemental Resolutions Not Requiring Consent of Holders of the Notes.** The City may without the consent of any Noteowner adopt resolutions supplemental to this Resolution for any one or more of the following purposes:

(i) to confirm or further assure the security hereof or to grant or pledge to the holders of the Notes any additional security;

(ii) to add additional covenants and agreements of the City for the purposes of further securing the payment of the Notes;

(iii) to cure any ambiguity or formal defect or omission in this Resolution;

(iv) to amend provisions in the Resolution relating to rebate to the United States Government or otherwise, which in the opinion of Note Counsel are required in order to maintain the exclusion of interest on the Notes from gross income for federal income tax purposes; and

(v) such other action not materially, adversely and directly affecting the security of the Notes;

provided that (A) no supplemental resolution amending or modifying the rights or obligations of the Paying Agent shall become effective without the consent of the Paying Agent and (B) the effectiveness of any supplemental resolution is subject to Section 702 to the extent applicable.

Section 702. **Opinion and Filing Under Act 34.** Before any supplemental resolution under this Article shall become effective, a copy thereof shall be filed with the Paying Agent and as provided in Act 34, if applicable, together with an opinion of Note Counsel that such supplemental resolution is authorized or permitted by this Article; provided that, Note Counsel in rendering any such opinion shall be entitled to rely upon certificates of the Finance Director or other City official, and opinions or reports of consultants, experts and other professionals retained by the City to advise it, with respect to the presence or absence of facts relative to such opinion and the consequences of such facts.

#### ARTICLE VIII DEFEASANCE

Section 801. **Defeasance.** Notes shall be deemed to be paid in full upon the deposit in trust of cash or direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, or any combination thereof, not redeemable at the option of the issuer thereof, the principal and interest pay-

ments upon which, without reinvestment thereof, will come due at such times and in such amounts, as to be fully sufficient to pay when due, the principal of such Notes and interest to accrue thereon, as confirmed by a verification report prepared by an independent certified public accountant; provided, that if any of such Notes are to be called for redemption prior to maturity, irrevocable instructions to call such Notes for redemption shall be given to the Paying Agent. Such cash and securities representing such obligations shall be deposited with a bank or trust company and held for the exclusive benefit of the Owners of such Notes. After such deposit, such Notes shall no longer be entitled to the benefits of this Resolution (except for any rights of transfer or exchange of Notes as therein or herein provided for) and shall be payable solely from the funds deposited for such purpose and investment earnings, if any, thereon, and the lien of this Resolution for the benefit of such Notes shall be discharged.

#### ARTICLE IX

##### REIMBURSEMENT PROVISIONS

Section 901. **Advancement of Costs of the Project.** At the direction of the Finance Director, the City may advance certain costs of the Project from the City's general fund prior to the issuance of the Notes or Bonds. The City intends to reimburse itself for any costs of the Project paid or incurred by the City prior to the issuance of the Notes or the Bonds with proceeds of the Notes or the Bonds. The Internal Revenue Service has issued Treasury Regulation Section 1.150-2 pursuant to the Code, governing proceeds of bonds used for reimbursement, pursuant to which the City must declare official intent to reimburse expenditures with bond proceeds as provided in Section 902 below.

Section 902. **Reimbursement Declarations.** The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. Section 1.150-2 pursuant to the Code:

(a) As of the date hereof, the City reasonably expects to be reimbursed for the expenditures described in (b) below with proceeds of the Notes or Bonds, as debt to be incurred by the City.

(b) The expenditures described in this paragraph (b) are for the costs of acquiring, constructing and equipping the Project, together with the sites therefor and all necessary appurtenances and attachments thereto which were or will be paid subsequent to sixty (60) days prior to the date of adoption hereof from the general funds of the City.

(c) The maximum principal amount of debt expected to be issued for the Project, including issuance costs, is

\$29,000,000.

(d) A reimbursement allocation of the expenditures described in (b) above with the proceeds of the borrowing described herein will occur not later than 18 months after the later of (i) the date on which the expenditure is paid, or (ii) the date the Project is placed in service or abandoned, but in no event more than three (3) years after the original expenditure is paid. A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the Project to reimburse the City for a capital expenditure made pursuant to this Resolution.

(e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Reg. §1.150-1(b), i.e., any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. §1.150-2(c)) under general Federal income tax principles (as determined at the time the expenditure is paid).

(f) No proceeds of the borrowing paid to the City in reimbursement pursuant to this Resolution will be used in a manner described in Treas. Reg. §1.150-2(h) with respect to abusive uses of such proceeds, including but not limited to using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. §1.148-1) within one year of the reimbursement allocation described in (d) above.

(g) Expenditures for the Project to be reimbursed from the proceeds of the borrowing that are subject to the limitations set forth in this Resolution do not include (i) costs for the issuance of the debt, (ii) an amount not in excess of the lesser of \$100,000 or five percent (5%) of the proceeds of the borrowing, or (iii) preliminary expenditures not exceeding twenty percent (20%) of the issue price of the borrowing within the meaning of Treas. Reg. §1.150-2(f) (such preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the Project, but do not include land acquisition, site preparation, and similar costs incident to commencement of construction).

#### ARTICLE X OTHER PROVISIONS OF GENERAL APPLICATION

Section 1001. **Credit Enhancement; Remarketing Agreement; and Interest Rate Exchange Agreements.** (a) There is hereby authorized to be obtained municipal Note insurance or other credit enhancement or a combination thereof to secure the payment of all or part of the Notes, if, and provided that, it shall be

determined by the Finance Director that such cost of such Municipal Note Insurance Policy or other credit enhancement or a combination thereof is less than the interest rate savings therefrom or otherwise that it is in the best interest of the City. Such municipal note insurance or other credit enhancement providers may be afforded certain rights and remedies to direct the proceedings with respect to the enforcement of payment of the Notes as shall be provided in the documents relating thereto. In the event a commitment for a Municipal Note Insurance Policy is obtained or a commitment for other credit enhancement is obtained, the Finance Director is hereby authorized, to approve the terms, perform such acts and execute such instruments that shall be required, necessary or desirable to effectuate the terms of such commitment and the transactions described therein and in this Resolution and the Sale Order provided that such terms are not materially adverse to the City.

(b) In the event that any of the Notes are issued bearing interest on a variable rate basis and are subject to tender for purchase from time to time by the holders thereof as determined in the Sale Order, the Finance Director is authorized in his discretion to enter into a Remarketing Agreement for tendered Notes with a qualified firm, chosen by the Finance Director, as remarketing agent. The Finance Director is also authorized to negotiate and enter into an auction agent agreement, broker-dealer agreement or such other agreements with such qualified firms chosen by the Finance Director as may be necessary to accomplish the sale and delivery of the Notes as determined by the Finance Director within the parameters of this Resolution and confirmed in the Sale Order.

(c) For the purpose of more effectively managing the debt service with respect to all or any portion of the Notes, of any series or the Other Outstanding Notes, the Finance Director is authorized in his discretion and in accordance with the requirements of Act 34, to negotiate the terms of an Interest Rate Exchange Agreement with respect to such Notes with Interest Rate Exchange Agreement providers, all as determined by the Finance Director and confirmed by the Council by resolution.

(d) In connection with the execution of any of the agreements authorized by this Section, the Finance Director is authorized to include therein such covenants as shall be appropriate.

Section 1002. **Approval of Other Documents and Actions; Treasury Approval.** The Mayor, the Finance Director, the Treasurer and the City Clerk are hereby authorized and directed on behalf of the City to take any and all other

actions, perform any and all acts and execute any and all documents that shall be required, necessary or desirable to implement this Resolution.

The Finance Director is authorized to file applications with and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for an Order or Orders of Approval to issue all or a portion of the Notes, and to enter into one or more Interest Rate Exchange Agreements, remarketing agreements, letters of credit and reimbursement agreements, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the Notes, and as required by the Michigan Department of Treasury and Act 34. The Finance Director is authorized and directed to pay any post closing filing fees required by Act 34 to the Michigan Department of Treasury or other specified agency, as a cost of issuance or from other legally available funds.

**Section 1003. Continuing Disclosure Undertaking.** The City shall enter into a continuing disclosure undertaking pursuant to Rule 15c2-12 promulgated by the Securities and Exchange Commission (the "Rule") for the benefit of the holders and beneficial owners of the Notes as to which the Rule is applicable, as more specifically set forth in Exhibit A hereto (the "Undertaking"); provided, however, that the terms of the Undertaking are subject to completion and modification prior to delivery of the Notes by the Finance Director to such extent as the Finance Director shall deem necessary to comply with law or market requirements of the Underwriters. The Finance Director is authorized to execute and deliver the Undertaking after completion and modification as provided in this Resolution and the Sale Order.

**Section 1004. Delegation of City to, and Authorization of Actions of the Mayor and the Finance Director.** (a) Prior to the sale date for the Notes, the Mayor and/or the Finance Director may cause the preparation and approve the form and distribution of a Preliminary Official Statement and an Official Statement and other offering materials to be used in conjunction with the sale or offering of the Notes, and the Mayor or Finance Director shall deem the Preliminary Official Statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission.

(b) The Finance Director is hereby authorized and directed to do and perform any and all acts and things with respect to the Notes and the Project which are necessary and appropriate to carry into effect, consistent with this Resolution, the authorizations therein and herein contained, including without limitation, the

securing of ratings by Note rating agencies, if cost effective, the negotiation for and acquisition of Note insurance and/or other credit enhancement, if any, to further secure the Notes or any portions thereof, the acquisition of an irrevocable surety Note to fulfill the City's obligation to fund any reserve account, the printing of the Notes and the incurring and paying of reasonable fees, costs and expenses incidental to the foregoing and other costs of issuance of the Notes including, but not limited to fees and expenses of Note counsel, financial advisors, accounts and others, from Note proceeds or other available funds, for and on behalf of the City.

(c) Except as otherwise provided herein, all determinations and decisions of the Finance Director with respect to the issuance and sale of the Notes or the negotiation, execution or delivery of Interest Rate Exchange Agreements as permitted or required by this Resolution shall be confirmed by this Finance Director in a Sale Order or Sale Orders, and such confirmations shall constitute determinations that any conditions precedent to such determinations and decisions of the Finance Director have been fulfilled.

**Section 1005. Act 34 Approval of the Notes.** The Notes shall neither be sold nor issued unless and only so long as the issuance of the Notes as provided herein shall have been authorized and approved in accordance with the applicable provisions of Act 34.

**Section 1006. Approving Legal Opinions with Respect to the Notes.** Sale of the Notes shall be conditioned upon receiving, at the time of delivery, the approving opinion of Note Counsel, approving legality of the Notes and, with respect to Notes determined by the Finance Director to be issued on a tax-exempt basis, the exclusion from gross income of the interest paid thereon from federal and State income taxation only.

**Section 1007. Sale of Notes/Good Faith Check.** (a) Pursuant to Section 309(1) of Act 34 the Council determines to sell the Notes at a negotiated sale. The Notes shall be sold by negotiated sale to the Underwriters as represented by the Representative, all as determined by the Finance Director in the Note Purchase Agreement, at prices and on terms and conditions provided in the Note Purchase Agreement approved by the Finance Director within the parameters established hereby, and confirmed by this Finance Director in the Sale Order. The reasons for choosing a negotiated sale instead of a competitive sale include the belief of Council based on recommendation of the Finance Director and the City's Financial Advisor that a negotiated sale will allow the Notes to be offered to investors in the most efficient manner

possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs for the City. Sale may be on a forward delivery basis if determined by the Finance Director to be beneficial to the City, on the terms and conditions contained in the Note Purchase Agreement.

(b) Subject to the foregoing, the Note Purchase Agreement shall be dated the date of the sale of the Notes. The Finance Director is hereby authorized and directed to execute the Note Purchase Agreement for and on behalf of the City.

(c) The Finance Director is authorized to determine whether to require a good faith check from the Underwriters or in lieu thereof or not whether to require the Underwriters to pay liquidated damages to the City for the failure (other than as permitted by the Note Purchase Agreement) to accept delivery of and pay for the Notes.

**Section 1008. Delivery of Notes.** Subject to the approval of the Sale Order, the Finance Director is hereby authorized to deliver the Notes to the Underwriters upon receiving the purchase price therefor in lawful money of the United States.

**Section 1009. Official Statement.** The Finance Director is hereby authorized to execute the Official Statement or other offering materials with respect to the Notes in the form approved by him with such changes as the Finance Director may authorize. Such Official Statement or other offering materials to be used in conjunction with the sale or offering of the Notes are hereby authorized to be printed and used by the Underwriters in connection with the sale of the Notes to the public. Circulation of the Preliminary Official Statement, if any, or other preliminary offering materials by the Underwriters is hereby approved.

**Section 1010. Appointment of Note Counsel; Engagement of Other Parties.** The appointment by the Finance Director of the law firm of Miller, Canfield, Paddock and Stone, P.L.C. of Detroit, Michigan, as Note Counsel for the Notes is hereby ratified and confirmed, notwithstanding the periodic representation by Miller, Canfield, Paddock and Stone, P.L.C., in unrelated matters of other parties and potential parties to the issuance of the Notes. The fees and expenses of Miller, Canfield, Paddock and Stone, P.L.C. as Note Counsel and other accumulated Note and preliminary project related fees and expenses shall be payable as a cost of issuance from proceeds of the Notes or other available funds in accordance with the letter of such firm on file with the Finance Director.

The Finance Director is authorized to engage other consultants, financial advisors, or other parties as he deems neces-

sary and appropriate in connection with the sale, issuance and delivery of the Notes and the disbursement of the Acquisition Fund to finance the Project, and to pay the fees and expenses thereof from the proceeds of the Notes or other available funds.

**Section 1011. Preservation of Records.** So long as any Note remains Outstanding, all documents received by the Paying Agent under the provisions of this Resolution shall be retained in its possession and shall be subject at all reasonable times to the inspection of the City, and the Noteowners, and their agents and representatives, any of whom may make copies thereof.

**Section 1012. Parties in Interest.** Nothing in this Resolution, expressed or implied, is intended or shall be construed to confer upon, or to give to, any person or entity, other than the City, the Paying Agent and the Owners of the Notes, any right, remedy or claim under or by reason of this Resolution or any covenant, condition or stipulation hereof, and all covenants, stipulations, promises and agreements in this Resolution contained by and on behalf of the City or Paying Agent shall be for the sole and exclusive benefit of the City, the Paying Agent and the Noteowners.

**Section 1013. No Recourse Under Resolution.** All covenants, agreements and obligations of the City contained in this Resolution shall be deemed to be the covenants, agreements and obligations of the City and not of any councilperson, member, officer or employee of the City in his or her individual capacity, and no recourse shall be had for the payment of the principal of or interest on the Notes or for any claim based thereon or on this Resolution against any councilperson, member, officer or employee of the City or any person executing the Notes in his or her official individual capacity.

**Section 1014. Severability.** If any one or more sections, clauses or provisions of this Resolution shall be determined by a court of competent jurisdiction to be invalid or ineffective for any reason, such determination shall in no way affect the validity and effectiveness of the remaining sections, clauses and provisions hereof.

**Section 1015. Cover Page, Table of Contents and Article and Section Headings.** The cover page, table of contents and Article and Section headings hereof are solely for convenience of reference and do not constitute a part of this Resolution, and none of them shall affect its meaning, construction or effect.

**Section 1016. Conflict.** All resolutions or parts of resolutions or other proceedings of the City in conflict herewith shall be and the same hereby are repealed insofar as such conflict exists.

Section 1017. **Governing Law and Jurisdiction.** This Resolution shall be governed by and construed in accordance with the laws of the State.

Section 1018. **Resolution and Sale Order are a Contract.** The provisions of this Resolution and the Sale Order shall constitute a contract between the City, the Paying Agent, the Note Insurer, if any, and the Noteowners.

Section 1020. **Notices.** All notices and other communications hereunder shall be in writing and given by United States certified or registered mail, expedited courier overnight delivery service or by other means (including facsimile transmission) that provides a written record of such notice and its receipt. The Detroit Code of Ordinances §§2-1-11 to 2-1-15 requires that, before the City may accept a conveyance of real property, either (i) the City must determine that the Property is not a facility or (ii) the Detroit City Council must determine, at the request of the Planning and Development Department and based upon sufficient environmental inquiries, investigations, and assessments conducted at the expense of the owner or seller, whether it will complete the transaction described in this Agreement notwithstanding that the Property is a facility. Not more than ten (10) business days after the Effective Date, the Owner shall, at its expense, deliver to the City documentation which, at a minimum, satisfies the requirements of ASTM designation E 1527-00, and shows either that, in the City's determination, the Property is not a facility as defined in M.C.L. § 324.20101 and 42 U.S.C. § 9601 or that, in the City's sole determination, the Additional Environmental Requirements provided in Paragraph 5(B) are required before Closing.

B. Additional Environmental Requirements. If the City determines that the Property is a "facility" as defined Paragraph 5(A) hereto, the City shall notify the Owner not more than ten (10) business days after receiving from the Owner the documentation required in Paragraph 5(A) hereto, of such determination and of the "Additional Environmental Requirements," if applicable, that must be satisfied at Owner's expense prior to issuance of the payment of the Purchase Price. Additional Environmental Requirements may include, but are not limited to, con-

ducting remedial investigations and environmental response activities, preparation of Baseline Environmental Assessments and Due Care Plans meeting the requirements of Part 201 of the Natural Resources and Environmental Response Act, M.C.L. § 324.20101 *et seq*, and such other requirements as may be necessary to protect human health and the environment and the City from liability. The City may require, as an Additional Environmental Requirement, disclosure of a Baseline Environment Assessment, as provided under M.C.L. § 324.20126(1)(c) and receipt from the Michigan Department of Environmental Quality of affirmative determinations under M.C.L. § 324.20129a that the City meets the requirements for exemption from liability and that the proposed use of the Property satisfies the City's obligations under M.C.L. § 324.20107a.

**6. TITLE; DEED**: Owner shall transfer marketable fee simple title to the Property to the City by warranty deed ("Warranty Deed") in a form acceptable to the City, subject only to those encumbrances to title to the Property to which the City has expressly waived its objections or agreed to insure over with title insurance (the "City's Permitted Encumbrances" Exhibit B).

**7. TITLE COMMITMENT; SURVEY**: The Owner shall deliver to the City a title commitment (the "Title Commitment") issued by Lawyers Title Insurance Corporation ("Title Company"). Not more than twenty (20) business days after the Effective Date, the Owner shall deliver to the City at Owner's expense ALTA/ASCM Surveys ("Survey") for the Property. The Survey shall be of sufficient quality to enable the Title Company, when given an owner's affidavit meeting the Title Company's requirements, to delete the standard exceptions from the title insurance policy. The cost of the Title Commitment and title insurance shall be paid by the Owner.

**8. TITLE AND SURVEY OBJECTIONS**: Not more than ten (10) business days after the City receives both the title Commitment and the Survey from the Owner, the City shall notify the Owner of the City's objections to title and survey matters. If the Owner does not cure such title and survey matters to the City's satisfaction within ten (10) days after the owner receives the objections (the "Cure Period"), the City shall have the option of terminating this Agreement before the end of the Cure Period or expressly waiving or accepting insurance over any title or survey matter objected to by the City. Any title or survey matter not timely objected to shall be considered waived. The City may, with the written consent of the Owner, elect to permit any title or survey matter timely objected to but not

cured by the Owner during the Cure Period, (i) to be cured no later than a mutually agreed date; (ii) expressly waived by the City no later than a mutually agreed date; or (iii) insured over as a condition of closing with all costs for insurance paid by the Owner.

over or place into escrow the amount necessary to pay such claim.

N. No Change. On or after the Effective Date, the Owner shall not enter into any leases, licenses, tenancies, concessions, obligations or occupancy agreements or execute any amendments or modifications to any existing agreements with respect to the Property ("Commitments") if such Commitments would bind the City or the Property after Closing. Owner shall obtain City's written

consent to enter into any other agreement or obligation that would bind the City or the Property after the Closing.

T. No Environmental Notices. Owner, to the best of Owner's knowledge and belief, nor any present or prior tenant or occupant of the Property has received notice from a governmental authority having jurisdiction over the Property stating that the Property contains toxic or hazardous substances or wastes, pollutants or contaminants in amounts that exceed governmental limitations or pose any risk of environmental harm. As used herein, "toxic or hazardous substances or wastes, pollutants and contaminants" includes all such substances so defined under federal and state laws and are sometimes collectively referred to herein as "Hazardous or Toxic Substances".

U. Environmental. Upon acceptance of the Property by the City, the Owner warrants that no Hazardous or Toxic

Substances have been released into or deposited upon or below the surface of the Property or into any water systems on or below the surface of the Property or stored or used on or in the Property. **15. NO ASSUMPTION OF LIABILITIES:** The Parties acknowledge that this transaction contemplates only the sale and purchase of the Property and that the Owner is not selling a business nor do the Parties intend that the City be deemed a successor of Owner with respect to any liabilities of the Owner to any third party other than liabilities arising from and after the Closing to utility companies for utility service furnished to the Property. Except for the foregoing, the City shall neither assume nor be liable for any of the debts, liabilities, taxes or obligations of, or claims against, Owner, or of any other person or entity, of any kind or nature, whether existing now, on the Closing Date or at any time thereafter. Re: River Park Village Senior Apartments — PILOT.

Phoenix Communities Inc., the sponsor has formed River Park Village Senior Apartments Limited Dividend Housing Association Partnership. River Park Village Apartments is being financed by

City of Detroit — HOME Investor Loan Program in the amount of Seven Million Three Hundred Thousand Dollars (\$7,300.00); Tax Exempt Bonds in the amount of \$4,984,752 and Low Income Tax Credits.

The project area is bounded by: Jefferson to the north, the Detroit River to the south, Burns drive to the east and Iroquois Street to the west. The project will consist of the rehabilitation of 2 eight-story buildings.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

The project consists of 140 Senior Apartment units, (eighty-four of the units will be Home assisted units): 28 Efficiencies, 1-bath units; 84 1-bedroom 1-bath and 28 2-bedroom 1-bath units. At least twenty percent 20% or 17 of the Home-assisted units must be occupied by households having incomes no greater than 50% of the area median income adjusted for family size. The remaining eighty percent 80% or 67 of the Home-assisted units must be occupied by households having incomes no greater than 60% of the area median income adjusted for family size. Households with incomes 60% and 80% of the area median incomes will occupy the remaining 56 units. These income restrictions will be in effect for the longer of the period the Affordable Housing Restriction applies or the time required under the Low Income Housing Tax Credit Program.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of: the lesser of the tax on the property for the year before rehabilitation commenced or 10% of the net shelter rent.

Re: Adela Rivera vs. City of Detroit. Case No.: 03-336-8117-CZ. File No.: A36000.000709.

On November 1, 2004, a Case Evaluation panel evaluated the above-captioned lawsuit and awarded Three Hundred Sixty Seven Thousand One Hundred Eighteen and No/100 Dollars (\$367,118.00) in favor of Plaintiff. The parties have until November 29, 2004, to either accept or reject the Case

Evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the Case Evaluation Award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the Case Evaluation Award; and, in the event that Plaintiff accepts the Award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Three Hundred Sixty Seven Thousand One Hundred Eighteen and No/100 Dollars (\$367,118.00) payable to Adela Rivera and her attorney, Ackerman & Ackerman, P.C., to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 03-336-811-CZ, approved by the Law Department.

Honorable City Council:

Re: The Byrne Memorial Formula "Blitz & Broom" Grant.

Through efforts of Law Department staff, the City of Detroit was selected by the Wayne County Prosecuting Attorney's office to receive funds from a Byrne Memorial Formula Grant for a program titled "Blitz & Broom."

Through the "Blitz & Broom" program, the Wayne County Prosecuting Attorney's Office will award the City of Detroit Law Department \$69,503.00 of the Byrne Memorial Formula Grant funds to allow the City of Detroit to provide the services of one Assistant Corporation Counsel and one Legal Secretary through a personal services contract.

With the assistance of the grant funds, the City of Detroit will have additional personnel to work with the Detroit Police Department in target areas to enforce code violations and abandoned vehicle violations. This additional personnel is needed to aggressively target crime and blight in specific areas caused by drug trafficking and devote the special attention the public expects in efforts to address drugs in the City of Detroit, and the social ills that result therefrom.

The City of Detroit Law Department respectfully requests that this Honorable Body adopt the attached resolution which authorizes acceptance of the grant, execution of the grant contract, establishment of an appropriation and requisite authorization for the Finance Department.

A Waiver of Reconsideration is requested.

Re: Edward Watkins City of Detroit and Officer Stevie Perry, et al. Case No.: 03 74489. File No.: A37000.004520 (DB).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. We, therefore, request that you adopt the resolution submitted herewith, to direct the Finance Director to issue a draft payable to Gregory D. - A. 1. The parties, by their attorneys, agree to submit this matter to binding arbitration.
- 2. The parties shall submit to arbitra-

tion all matters in controversy raised in the above-named lawsuit.

3. Arbitration shall be conducted in accordance with the Federal Rules of Evidence, except as may be modified by stipulation of the parties.

4. The matter shall be arbitrated by a panel of three arbitrators, all of whom shall be practicing Michigan attorneys. The Plaintiff shall select one arbitrator, the Defendant shall select one arbitrator, and the Plaintiff and Defendant shall jointly select the neutral arbitrator. Plaintiff shall pay all fees and costs associated with the arbitrator that he selects. Defendant shall pay all fees and costs associated with the arbitrator that it selects. All fees and costs of the neutral arbitrator shall be paid fifty percent (50%) by Plaintiff, and fifty percent (50%) by Defendant.

All other costs and fees, including attorney fees, shall be borne by the party which incurs them.

5. In the event that the neutral arbitrator is unavailable for a hearing on the date set by the parties, either by failure to accept appointment, disqualification, withdrawal, or incapacity, the position shall be filled by agreement of the parties.

6. Pre-hearing briefs shall be required by Plaintiff and Defendant, and shall be submitted to the arbitration panel prior to commencement of the arbitration.

Medical records and reports may be used at the hearing in lieu of the personal appearance of physicians, medical care providers or record custodians.

7. The maximum amount of any award to the Plaintiff shall be in the amount of Twenty-Five Thousand Dollars (\$25,000.00).

8. A decision of two of the three arbitrators shall be binding.

Any award under \$25,000.00 shall be interpreted to be in the amount of \$25,000.00.

There shall be no costs, fees or interest taxable with respect to the award rendered by the arbitrators.

The award of the arbitrators shall represent a full and final settlement of any amounts due and owing to Plaintiff for any and all claims arising out of the incident which occurred on November 11, 2001 at or near Manor near Grand River.

9. Neither the "high-low" amounts nor the mediation award shall be disclosed to the arbitrators. Disclosure of the "high-low" amounts or the mediation award to the arbitrators shall render the arbitration agreement voidable by any non-disclosing party.

10. Discovery proceedings may continue, and each party shall have the opportunity to take "discovery only" depositions of the opponent's experts, to the extent that such depositions have not already been completed. The parties shall be able to take depositions of parties or

witnesses for use as evidence at arbitration, without regard to witness availability.

11. The parties agree that they will faithfully observe the terms of the Agreement to Arbitrate, and that they will abide by and satisfy the award rendered by the arbitrators. In the event that any party refuses to abide by the arbitrators' decision, the other party may petition the Court to confirm the award and enter judgment thereon.

12. The proceedings convened by the arbitrators need not be recorded. However, if any party wishes to have the proceedings recorded, then any costs incurred shall be borne exclusively by said party.

B. Promptly after the arbitrators announce their decision, the Law Department shall inform City Council in writing of that decision.

C. Upon certification by the Law Department that the arbitrators have announced a decision requiring the City to pay part or all \$25,000.00 to the Plaintiff, the Finance Director is authorized to issue a draft drawn upon the proper account in favor of Edward Watkins and his attorney, Gregory D. Mortimore, P.C., in the amount of the arbitrators' decision, but said draft may not exceed Twenty-Five Thousand Dollars (\$25,000.00).

Re: William Gardner vs. City of Detroit, Water Department. File #: 13979 (TSW).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential attorney-client memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Forty-Five Thousand Dollars (\$45,000.00) is in the best interests of the City of Detroit.

We, therefore, request authorization to settle this matter in the amount of Forty-Five Thousand Dollars (\$45,000.00) and that your Honorable Body authorize and direct the Finance Director to issue a draft in that amount payable to William Gardner and his attorney, Mark I. Mellen, to be delivered upon receipt of properly executed releases and order of dismissal in Workers Compensation Claim #13979, approved by the Law Department.

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 5 of the 1984 Detroit City Code Titled 'Amusements'.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced ordinance is being submitted to your Honorable Body for consideration. This proposed ordinance will amend certain provisions in Chapter 5, Articles II, VII, XIII and XV, of the 1984 Detroit City Code to make them commensurate both with the 4th Amendment of the U.S. Constitution and with the administrative rules promulgated by the Michigan Liquor Control Commission.

In addition, enactment of this proposed ordinance will vitiate the issues that have been raised by members of the adult entertainment industry including owners, employees, and adult entertainers. In particular, we expect enactment of this proposed ordinance will moot the claims that are made in *Metro Stars, Inc. vs. City of Detroit et al.*, U.S. District Court for the Eastern District of Michigan Case No. 04-71308, which was the subject of a closed session that was held recently by your Honorable Body.

We request that this proposed ordinance be introduced and that a public hearing be scheduled at the earliest possible dates. We are available to answer any questions that you may have concerning this proposed ordinance.

Thank you for your consideration.

Respectfully submitted,

BRENDA E. BRACEFUL

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN SUPPORT OF THE INTRODUCTION OF A PROPOSED ORDINANCE TO AMEND CHAPTER 5, ARTICLES II, VII, XIII AND XV, OF THE 1984 DETROIT CITY CODE TITLED "AMUSEMENTS"

On Monday, November 22, 2004, I voted in support of introducing the ordinance referenced above. The adult entertainment ordinance has been under review for a very long time. In November of 2001, the Law Department and the City Planning Commission brought forth a series of amendments. Many of the proposed amendments were excellent. There were, however, key provisions that raised serious constitutional issues. For that reason, the amendments were referred back to the Law Department for additional refinements.

At the urging of Councilwoman McPhail, the City Planning Commission, Law Department and Police Department brought forward the same ordinance with truly minor changes, replete with the previously existing serious constitutional flaws.<sup>1</sup> One could argue that the flaws were actually designed to be a backdoor effort to cripple what some would consider to be less than desirable land uses in our city; a strategy that I believe to be improper and illegal on its face.

The politically-inspired hurried introduction of the ordinance without a preparatory discussion at the table was calculated to bully Council Members into voting for any ordinance language that was proffered. It has been the practice of the City Council to hold discussions of ordinances prior to introduction in order to permit careful review and due diligence on the language. This process ensures that the amendments are both legal and grounded in sound public policy. This procedure was cast aside because there were some Council Members who chose to push their personal agendas without regard to the law.

At the public hearing, held on March 22, 2004, there were a number of concerns raised as to the effect the ordinance would have on the adult entertainment industry in addition to the aforementioned

concerns about the constitutionality of the proposed ordinance. On March 22, 2004, I made a specific request that the City Council hold off on voting on the proposed ordinance until the Research and Analysis Division, Law Department, City Planning Commission and representatives from the industry have one week to come discuss the ordinance and perhaps propose a compromise. Concurrently, Council President Mahaffey requested that an unrelated issue on domestic partnership be taken off of the agenda. Where President Mahaffey's request was honored by those Council Members present, mine was wholly disregarded. Over my objection, the Council passed the ordinance that day. However, given my continuing concerns about the ordinance, I issued some additional questions, in addition to issues identified by the City Planning Commission in a memorandum dated April 2, 2004 (Attached).

Predictably, on April 7, 2004, a lawsuit was filed against the City of Detroit challenging the constitutionality of the newly enacted ordinance. A working group consisting of City Council Members' staffs and various city agencies met to in order to provide input on recommendations for further amendments to the proposed ordinance. On Monday, November 22, 2004, a new set of amendments to Chapter 5 of the 1984 Detroit Code was presented to Council. The fact that yet another lawsuit was filed on the patently unlawful aspects of the ordinance, coupled with the fact that the Law Department eventually drafted new amendments provides ample evidence that Ms. McPhail is prepared to sacrifice the City's reputation for her own agenda.

Given the tumultuous history of this ordinance, my personal concerns regarding its constitutionality, and the usual practice of Council, I would have preferred to set a discussion on the ordinance prior to its introduction. However, there was a concerted push to introduce the ordinance that day. In light of the fact that there is pending litigation over this issue and the desirability of a speedy outcome, I voted in favor of introducing the ordinance. However, this was with the understanding that I will diligently review it over this upcoming recess in advance of the public hearing to be scheduled in January.

<sup>1</sup>I again raised concerns about potential constitutional infirmities on February 25, 2004 (Attached).

Honorable City Council:

Re: Proposed Ordinance to Amend Section 9.5-3-5 of the 1984 Detroit

City Code.

On November 9, 2004, the Detroit Cable Communications Commission adopted a resolution urging favorable action by your Honorable Body on an amendment to the Franchise Agreement and to Section 9.5-3-5 of the 1984 Detroit City Code, in order to extend the term of the cable television franchise to June 30, 2005.

Pursuant to the 1997 Detroit City Charter, this proposed ordinance is being submitted to your Honorable Body for consideration and passage.

The Franchise Renewal Team has made significant progress on the Cable Franchise renewal, but has been hampered by personnel changes at Comcast and the City. Very few issues remain to be resolved. The requested extension is to insure that the Cable Communications Commission, the Law Department, and your Honorable Body will have adequate time for a thorough review of the proposed document.

As you are aware, the Cable Television Franchise Agreement with Comcast Cablevision of Detroit expires on December 30, 2004. For that reason, the amendment of the ordinance requires action by your Honorable Body, with waiver of reconsideration, prior to Recess.

We are available to answer any questions you may have concerning the proposed ordinance. Thank you for your attention to this matter.

Honorable City Council:

Re: Appropriation Transfer for the Consumer Affairs-License & Permits Unit.

During the development of the 2004-2005 Budget, it was your Honorable Body's decision to restore funding to the Consumer Affairs Department. Funding was transferred from several departments including Senior Citizens, Police and Buildings and Safety.

Unfortunately, the reduction in Buildings and Safety was insufficient. The Mayor's Recommended Budget included \$243,570 more than the amount transferred. The current appropriation will primarily allow for the payment of personnel cost only. Non-personnel costs including rental payments, costs for the contractual investigators etc., have not been provided for.

In order to adequately fund the unit, it is requested that the 2004-005 Budget be amended as follows:

Therefore, it is recommended that the demolition order be deferred for a period of one (1) months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

Re: Neighborhood Enterprise Zone Certificate Application for 3111-3113 Trumbull in the Corktown area (Recommend Approval).

The City Clerk's Office forwarded to our office an application for a Neighborhood Enterprise Zone (NEZ) certificate 3111-13 Trumbull. City Planning Commission staff's research indicates that the above property is within the boundaries of the North Corktown NEZ, which was approved by City Council in April, 2003.

The certificate is for an extensive two phase rehab project totaling \$250,000. It appears the true cash value of the structure is under \$30,000 which is less than the \$80,000 per unit maximum allowed under the NEZ Act.

Based on the above analysis, CPC staff recommends approval of the subject

The office of the City Planning Commission (CPC) has received a total of 8 applications for Neighborhood Enterprise Zone (NEZ) certificates, forwarded from the office of the City Clerk and submitted by Lancaster Development, LLC. The subject properties have been confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The applications are for a single structure located at 242 Palmer between John R and Brush. The structure is to be rehabilitated to provide eight units of housing, identified as 242 Palmer, Unit #1 through 8.

This property is also located within the boundaries of an urban renewal area, the Art Center Rehabilitation Project. This project is consistent with the development plan for the area and was supported by the Citizens District Council.

November 16, 2004

Honorable City Council:

Re: Historic Designation Advisory Board submitting its final report on the proposed Hook & Ladder No. 5/DFD Repair Shop Historic District.

At the direction of the Historic Designation Advisory Board at its meeting of October 14, 2004, I am pleased to submit to your Honorable Body the board's final report on the proposed Hook & Ladder No. 5/DFD Repair Shop Historic District. The recommendation of the Advisory Board is for designation and, therefore, a draft ordinance of designation is attached. The ordinance has been approved as to form by the Law Department.

This designation was requested by the owner, Robert Heide, who was appointed to an ad hoc membership with the Advisory Board representing the ownership interest. Kevin Hanson acted as an ad hoc representative to the Advisory Board representing the community interest.

Also attached is a copy of the minutes of the public hearing held by the Advisory Board on this matter. The Historic District Commission report and comment and its Master Plan Review as it relates to the proposed historic district is also attached,

along with copies of all correspondence received regarding this matter.

If you should have any questions, I may be reached at 4-3487.

Respectfully submitted,  
WILLIAM M. WORDEN

By Council Member Collins:

**AN ORDINANCE to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-153 to establish the Hook & Ladder No. 5/DFD Repair Shop Historic District and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** That Chapter 25, Article II of the 1984 Detroit City Code be amended by adding Section 25-2-153 to read as follows:

**Sec. 25-2-153. Hook & Ladder No.5/ DFD Repair Shop Historic District.**

(A) A historic district to be known as the Hook & Ladder No. 5/DFD Repair Shop Historic District is hereby established in accordance with the provisions of this article.

(B) This historic district designation is hereby certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Hook & Ladder No. 5/DFD Repair Shop Historic District are as shown on the map on file in the office of the City Clerk, and shall be as follows: On the west, the centerline of Russell Street (90 feet wide); on the south, the centerline of Erskine Street (56 feet wide); on the east, the centerline of the north-south alley (15 feet wide) between Russell and Riopelle; and, on the north, a line 265.00 feet north of and parallel to said Erskine Street. The district contains part or all of the following described parcels, which are included here for reference and recording purposes only and do not alter the boundaries of the district as set forth in the previous sentence: E RUSSELL ST ALL THAT PT OF O L 25 GUOIN FARM L9 P83 CITY RECORDS, WCR 7/23 DESC AS BEG AT

[2003 DIVISION ITEM 0024581] 02-13-03.

(D) The defined elements of design, as provided for in section 25-2-2 of this code, shall be as follows:

(1) *Height.* The firehouse is two and one-half stories tall, having two full stories and a full story within the roof. It has a small one-story addition at its rear elevation. The repair shop and annex are two stories in height; the height of the annex corresponding to the eaves of the firehouse and the repair shop being taller. Additions to the rear of the repair shop are one story tall.

(2) *Proportion of Building's Front Facade.* Hook & Ladder No. 5/DFD Repair Shop is wider than tall when taken as a whole. The firehouse component is approximately as tall as wide to its eaves but is taller than wide when considering the height of its roof. The repair shop is substantially wider than tall, and the annex joining the two is taller than wide.

(3) *Proportion of Openings Within the Facade.* The first floor of the front facade of the firehouse displays one pair of swing doors flanked by a window on each side. Two pairs of double-hung sash windows with transoms separated by stone lintels occupy the second story. Above the roof line, the large dormer contains three double-hung sash windows with eight over two lights. The south elevation of the firehouse, its secondary elevation, is fenestrated by an uneven placement of double-hung sash windows per floor and a secondary entrance towards each end. Also on the south elevation are two roof dormers, one narrower than the other. All openings are generally taller than wide, with the exception of the transoms, which are wider than tall. The swing door vehicular openings are also slightly taller than wide. Openings amount to approximately forty per cent (40%) of the front facade of the firehouse. The annex has a pair of wooden swing vehicular doors on the first floor and a pair of second story windows sharing an opening above. The angled entrance of the repair shop is composed of a wide opening with four tall and narrow hinged doors fenestrated with three rows of two panes in each section. Running along Russell Street are eight bay arrangements, the northernmost bay containing the same hinged door vehicular opening as the vehicular opening in the

angled corner of the southwest corner of the repair shop. The pedestrian entrance into the repair shop is located in the first full bay on the south end of the west (Russell Street) elevation, and is composed of a single door with sidelights and an arched transom above. In general, windows are set deeply within their openings on the front facade. The north elevation of the repair shop, once not as visible when a building was located to its north, is fenestrated with square industrial type windows in a utilitarian fashion. Both brick, one-story additions jutting out into the courtyard also display angled southeast corners with vehicular style openings and large squarish industrial sash windows.

(4) *Rhythm of Solids to Voids in The Front Facade.* A regular rhythm of solids to voids exists on the front facade of the firehouse; its south elevation is arranged more according to function, resulting in an irregular rhythm of solids to voids. The annex and repair shop have regular rhythms of solids to voids in their front facades.

(5) *Rhythm of Spacing of Buildings on Streets.* The firehouse, annex and repair shop abut each other, creating a continuous flow. However the repair shop is positioned on the front lot line, transitioning with an angled entrance where it abuts the annex.

(6) *Rhythm of Entrance and/or Porch Projections.* Not applicable due to single complex district. The only projection from the front, or Russell Street, elevation is the set of three concrete steps extending out from the pedestrian entrance of the repair shop.

(7) *Relationship of Materials.* The major relationship of materials on the firehouse is that of common brick with red sandstone lintels, sills, quoins, and banding around the swing doors. The foundations are coursed rock-faced limestone. Doors, window frames, sash, and trim are painted wood; the roof has wooden eave brackets. The dormers and roof are clad with asphalt slate-like shingles. The annex and repair shop are also brick but trimmed in terra cotta, also with wooden window frames, sash, and doors. Steel and glass windows also characterize the repair shop. Vehicular swing doors feature large strapped metal hinges.

(8) *Relationship of Textures.* The major textural relationship is that of flush common bond brick juxtaposed with rustic, coursed stone foundations, wood trim, and smooth red sandstone or terra cotta. Repetition of elements, such as the eave brackets under the overhanging roof of the firehouse or the series of pilasters of the repair shop, creates textural interest; asphalt shingled roofing materials generally do not. In general, the district is rich in textural relationships.

(9) *Relationship of Colors.* The orange brick wall surface of the firehouse contrasts subtly with the red sandstone trim. Window trim on the first floor is painted yellow/gold and the second floor is green, a color scheme suitable for the 1888 Late Victorian period. The asphalt shingles of the dormers and the roof are black. The foundations are a natural stone color. The repair shop features a reddish-brown brick color contrasted with the glossy white terra cotta detail and the rusted brownish metal of the industrial sash. Vehicular doors in the front facades of all buildings of the complex are yellow.

(10) *Relationship of Architectural Details.* The firehouse is Queen Anne in style, with details characteristic of the building type as well as its style. Steep roofs with broad overhanging eaves, decorative hardware, contrasting materials and textures, and subdivided lights are characteristic of the Queen Anne style. Original swing doors are bordered by red sandstone quoins and banding. The hip roof, punctured by shingled dormers with rounded corners and steeply pitched roofs, has a two foot wide tongue and groove overhang supported on wooden eave brackets. Centered on the frieze beneath the dentilled cornice is an inscription of the year 1888, and, adjacent to the swing doors above the first floor windows, the identification of the firehouse, No. and 5. The annex between the firehouse and the repair shop is less detailed, but has a pair of wooden swing doors with original opening mechanisms, and terra cotta coping. The repair shop features industrial style windows with repetitive elements and details per bay, like the vertically laid bricks in spandrels that divide the first and second stories between pilasters topped with terra cotta capitals with medallions and other terra cotta accents. The crest of the Detroit Fire Department is centered above the terra cotta plate bearing the buildings date of construction, 1917, at the coping.

(11) *Relationship of Roof Shapes.* The annex and the repair shop, with its additions, have flat roofs that are not visible from the street. The firehouse has a tall hipped roof with one large squat dormer with rounded corners, flared tips and overhanging eaves facing Russell, two of similar style but different sizes facing Erskine, and a smaller one facing the rear. Two tall metal flag poles with flags extend skyward from the southwest, angled entrance of the repair shop and its northern bay, attached to the parapet with decorative hardware. A tall brick chimney projects from a courtyard.

(12) *Walls of Continuity.* Although a single complex of three distinct buildings, the angled entrance of the repair shop acts as a transition from the firehouse and the annex, which maintain the same set-

backs.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Concrete pavement surrounds the complex on its front (west) and south side elevations. To its north is a vacant field; to its rear, or east, is a blacktopped yard/parking lot. No landscaping elements presently exist.

(14) *Relationship of Open Space to Structures.* Open space in front of the firehouse exists because of its setback and the angled positioning of the repair shop. Open space exists within the courtyard created by the three buildings and their additions extending to the rear, or east. This space is presently paved and used for parking and vehicular access. The property is either fenced, as one the south behind the firehouse, or defined by the walls of the buildings, as on the north and west. Brick and concrete block walls separate the property on the east. Open space outside of the district to the north was created by demolition.

(15) *Scale of Facade and Facade Elements.* Details are generally moderate in scale and, in the case of the firehouse, are particular to the type and style of the building. For example, the swing doors with metal hinges are typical of firehouses of its age, as are the panels bearing the name and number of the company. The other two buildings are more industrial in nature, featuring repetitive detail in identical bays.

(16) *Directional Expression of Front Elevation.* The directional expression of the front facade of the firehouse is vertical. The annex provides a transition to the horizontal sweep of the repair shop.

(17) *Rhythm of Building Setbacks.* Not applicable due to single complex district.

(18) *Relationship of Lot Coverages.* The Hook & Ladder No. 5/DFD Repair Shop occupies approximately sixty per cent (60%) of its parcel.

(19) *Degree of Complexity Within the Facade.* The front facade of the Hook & Ladder No. 5/DFD Repair Shop is simple in its arrangement of openings, elements, and detail but made complex because of the three distinct components.

(20) *Orientation, Vistas, Overviews.* The Hook & Ladder No. 5/DFD Repair Shop is oriented toward Russell Street, the spine of Eastern Market, with an emphasis on the Russell/Erskine corner. It is located in a less-dense area of the market, towards its northern end, where the street narrows. A tall brick chimney punctuates its presence. The historic function of the property has been replaced by a newer facility, the Apparatus Division of the Detroit Fire Department, to its south across Erskine, which also houses Ladder No. 5/3rd Battalion/Engine No. 6 along Russell Street. West across Russell Street are

November 22

3882

2004

market buildings.

(21) *Symmetric or Asymmetric Appearance.* The front facade of the firehouse is symmetrical in appearance; the repair shop is asymmetrical at its outer bays.

(22) *General Environmental Character.* The Hook & Ladder No. 5/DFD Repair Shop stands on a half-block parcel in the northern end of Eastern Market, Detroit's major wholesale food market. Its surroundings are less dense than the southern part of the market because it was historically occupied by public functions, such as a cemetery, a school, and the horse training facility of the Detroit Fire Department, all since demolished. Non-historic produce buildings, two restaurants in historic buildings, a new, large bakery with a retail component, and the Detroit Fire Department facility, occupy this end of the market north of the market sheds. The Hook & Ladder No. 5/DFD Repair Shop, significant due to its architecture and historic function, contributes to the larger area of Eastern Market and provides a historic anchor at its north end.

**City Planning Commission**

November 17, 2004

Honorable City Council:

Re: Request from the Planning and Development Department for approval of the Federal Commercial Revitalization Deduction Application for Huber-Manchester Investments (Recommend Approval).

The Planning and Development Department (P&DD) is requesting that your Honorable Body approve the attached resolution (prior to City Council recess) authorizing the City of Detroit to submit the application of the Huber-Manchester Project to the U.S.

Department of Housing and Urban Development (HUD) for a \$10 million Commercial Revitalization Deduction for the year 2004.

#### **BACKGROUND**

In November, 2003, City Council approved a resolution supporting the Detroit Renewal Community Program and authorized the submission of the Tax Incentive Utilization Plan (TIUP) and the Commercial Revitalization Deduction Plan (CRD) to HUD. The TIUP outlines how the City will implement the Federal and State and local benefits that are available in the designated area. The Commercial Revitalization Deduction is a tax incentive whereby businesses that construct or rehabilitate commercial property can deduct a portion of the costs of acquisition and rehabilitation over a shorter period of time than permitted under standard depreciation rules.

As City Council may recall, the City Planning Commission staff and Planning and Development Department staff worked for approximately a year to craft language for both documents that protected the City from commitments that might not be in the best interest of the City as well as giving City Council review and approval authority. Attachment A is a copy of the CRD plan that was approved by City Council. The changes made to the document to insure the involvement of City Council are highlighted on pages 5, 7, 9, and 11. In brief, City Council will: 1) approve or deny applications for the CRD allocation; 2) receive monitoring and reporting documents; 3) have the authority to take final action on any proposal to rescind an allocation; and 4) approve or deny any proposed amendments to the plan.

#### **THE FEDERAL COMMERCIAL REVITALIZATION DEDUCTION (CRD)**

As described in the CRD plan, the CRD is a tax incentive where businesses that construct or rehabilitate commercial property within the Renewal Community (RC) area can deduct a portion of the costs of acquisition and rehabilitation over a shorter period of time than permitted under standard depreciation rules. This can be accomplished either by deducting half of the eligible expenses for the tax year the building is placed in service; or by amortizing all of the eligible expenses over a 120-month period beginning with the month the building is placed in service.

The deduction is available in the RC for buildings placed in service after December 31, 2001 and before January 1, 2010. The State of Michigan may allocate up to \$12 million in deductions in the RC for each year from 2002 to 2009. The limit on any single deduction is \$10 million. Any portion of the \$12 million that is not awarded within any given year does not carry forward to a later year. The Planning and

Development Department included a document, with request to City Council, titled "Tax Incentive Guide for Businesses" that described the CRD in detail.

#### **THE HUBER-MANCHESTER APPLICATION**

Attachment B is the application submitted by Huber-Manchester Investments, LLC for the CRD. The subject facility is located at 6500 Huber Street. Construction of the 300,000 square foot building started in December of 2003 and was completed on May 1, 2004. It is located within the I-94 Industrial Park, which is also a Renaissance Zone.

Huber-Manchester LLC is leasing the facility to TDS Automotive and Excel, which perform various manufacturing services including light assembly and warehousing. Total project investment is estimated at \$25,368,606. TDS and Excel hosted a job recruitment fair in March of 2004 that was attended by over 2000 prospective applicants. As a result of this project, 250 new, full-time jobs have been created since June, 2004. It is estimated that 83% of the new employees are Detroit and RC residents; 94% are African-American and 35% are female. TDS and Excel utilized the Detroit offices of Michigan Works to help promote their job recruitment activities. Attachment C is a letter of support from the I-94 Industrial Park CDC.

The Coordinating Responsible Authority (CoRA) is recommending the full allowable deduction of \$10 million for this project. According to P&DD, the maximum deduction is being recommended because: the applicant submitted an investment summary to support the cost of the newly constructed facility; the CRD guidelines allow a maximum deduction of \$10 million to one company; this applicant was the only qualified applicant for the year 2004; and it is the expectation of HUD that all RC designations make an attempt to use the \$12 million yearly allocation.

There is a point system associated with the application (see page 10 of the CRD plan) based on number of jobs created or retained; whether or not benefits are offered with employment; the use of a local contractor; and the length of time for the project to be placed in service. The maximum number of points is 170. The applicant scored 120 points which is the maximum the applicant could receive since this is a new project and doesn't involve job retention. We anticipate that the point system will be relevant in ranking applicants in future years in which there may be more than one qualified applicant.

Attachment D contains questions about the applicant and the process posed to P&DD by the Fiscal Analyst and CPC staff, and the respective responses.

Lastly, Attachment E is the resolution that the Planning and Development Department is requesting that your Honorable Body approve, so that the application can be forwarded to HUD.

**RECOMMENDATION**

CPC staff has reviewed the application, the Tax Incentive Guide provided by P&DD and the CRD Plan that describes the program and process. The application appears to meet the qualifications of the CRD, and the project provides a substantial number of jobs for Detroiters. Therefore, the City Planning Commission staff recommends approval of the CRD application for Huber-Manchester LLC.

**City of Detroit  
Brownfield Redevelopment Authority**

November 17, 2004

Honorable City Council:

Re: Woodbridge Project Brownfield Plan.

The enclosed Brownfield Plan for the Woodbridge Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a joint public hearing was held by the Authority and the Committee on November 9, 2004 to solicit public comments. At its November 11, 2004 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On November 17, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

**Project Introduction**

The project is a collaborative effort with the Detroit Housing Commission ("DHC") with the support of the City of Detroit. The developer will own the homeowner portion of the site under a land contract and lease the remaining portion from the City under a 75-year (including renewal extensions) Ground Lease. The property is currently zoned for residential/commercial use. Scripps Park Associates, L.L.C. is the project developer (the "Developer"). The Developer is in the process of redeveloping a site in the City of Detroit as rental units consisting of townhouses and apartments and for-sale residential development. The project consists of six phases: five phases of rental units, and a single phase of owner occupied units. Two phases of rental units have already been completed and are being marketed. This Plan applies to the four phases that have not been initiated.

**Purpose of the Proposed Plan**

The Property is included in this Plan to enable "qualified taxpayers" as defined by Michigan Public Act 382 of 1996, as amended, Michigan Public Act 143 of 2000, as amended, or Michigan Public Act 726 of 2002, as amended (the "SBT Credit Acts") to avail themselves of eligi-

bility for a credit against their Michigan single business tax liability for "eligible investments", as defined by Section 38g of Michigan Public Act 228 of 1975, as amended ("Act 228"), incurred on the Property after the adoption of this Plan.

Eligible investment is estimated at approximately \$45 million.

**Property Subject to the Proposed Plan**

The eligible property consists of functionally obsolete parcels in the City, Ward 6, Item number(s) 1050-9 and 11111-21. The property covers approximately 44 acres and was formerly used as residential housing, some of which was demolished after the area became blighted. Attachment A includes a location map and a site map of the property as it currently exists. Legal descriptions are provided in Attachment B.

The property is located in the south-central portion of Detroit near the downtown area, and is bounded by west Canfield Avenue to the north, the John C. Lodge (M-10) Service Drive to the east, Brainard Street extended to the south, and Gibson Avenue to the west.

**Basis of Eligibility**

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized for a residential purpose; (b) it is located within the City of Detroit, a qualified local governmental unit under the Act 381; and (c) the Property is determined to be functionally obsolete as defined by Act 381.

The Property is functionally obsolete because it contains dilapidated structures, residual foundations from demolished structures, and non-functioning/non-existent utilities. An affidavit from a Level IV Assessor to that effect is attached as Attachment C.

The Property also qualifies as "blighted" as defined by Act 381, Section 2 because it has had the utilities, plumbing, heating, or sewerage permanently disconnected, destroyed, removed, or rendered ineffective so that the property is unfit for use as a residential neighborhood.

The Woodbridge Project has been reviewed and received a letter of support from the City of Detroit Planning and Development Department. The project has also received a written approval of a Notice of Intent Document from the Michigan Economic Development Corporation.

**Public Comments Received**

The Committee's communication to the City Council and the Authority dated November 11, 2004 (Exhibit C), recommending approval of the Plan, including the minutes of the Public Hearing held by the Authority and the Committee on November 9, 2004, are enclosed for the

City Council's consideration.

**Authority's Request**

The Authority is respectfully requesting the following actions from the City Council:

a) **November 22, 2004**

Re: Vinton Building Project Brownfield Plan.

The enclosed Brownfield Plan for the Vinton Building (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on November 3, 2004 to solicit public comments. At its October 27, 2004 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On November 3, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

**Project Introduction**

The Vinton Loft Condominiums and retail space includes the renovation and rehabilitation of the Vinton office building located at 600 Woodward in the City of Detroit. Eleven pre-sold condominiums will undergo extensive refinishing to create open space single floor loft units, suitable for a combination of live/work

lifestyles. The ground floor retail has also been pre-sold and is slated to house the high-end clothier, Solomon and Son. Common areas including stairways, lobbies, and hallways as well as the exterior, will undergo careful preservation and rehabilitation activities in order to maintain the historic feel and characteristics of the building.

**Purpose of the Proposed Plan**

The proposed plan is intended to accomplish the following purpose. Upon approval of this Plan by City Council, Vinton Building, LLC will be entitled under State law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project.

**Property Subject to the Proposed Plan**

The property is located at the center of downtown Detroit in the Central Business District at the corner of Woodward Avenue and Congress. The proposed redevelopment project includes 11 full-floor condominium live/work units with street-level commercial/retail space. The residential units will be renovated into loft-style condominiums with an open floor plan. The exterior of the building as well as common areas will be rehabilitated in order to preserve the historic character of the structure.

**Basis of Eligibility**

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the property was previously utilized for a commercial and/or residential purpose and the property has been deemed to be functionally obsolete. The City of Detroit Assessor has determined that the Vinton Building at 600 Woodward Avenue is functionally obsolete within the definition of the Assessor's Manual and the Brownfield Redevelopment Financing Act.

The property is unable to be used to adequately perform the function for which it was intended due to a substantial loss in value resulting from factors such as overcapacity, changes in technology, deficiencies or superadequacies in design, or other similar factors that affect the property itself or the property's relationship with other surrounding property.

**Eligible Activities and Projected Costs**

The following eligible activities and budgeted costs are intended as part of the development of the Property and are to be financed solely by the Developer. The Authority is not responsible for any cost of eligible activities and will incur no debt. This is an SBT only project and as such there will be no TIF tax capture for this project.

**ESTIMATED COSTS OF ELIGIBLE ACTIVITIES**

Description of Eligible Activities	Budgeted Cost
(1) Environmental Site Assessment	\$ 10,000.00
(2) Site Preparation	\$205,000.00
<b>Total Cost of Eligible Activities</b>	<b>\$215,000.00</b>

The total eligible investment for the Vinton Building Project is estimated at \$4,500,000.

The Vinton Building Project has been reviewed and received a letter of support from the City of Detroit Planning and Development Department. The project has also received a written approval of a Notice of Intent Document from the Michigan Economic Development Corporation.

**Public Comments Received**

The Committee's communication to the City Council and the Authority dated October 27, 2004 (Exhibit C), recommending approval of the Plan, including the minutes of the Public Hearing held by the Authority on November 3, 2004, are enclosed for the City Council's consideration.

Re: Michigan Opera Theatre Project Brownfield Plan.

The enclosed Brownfield Plan for the Michigan Opera Theatre (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on November 3, 2004 to solicit public comments. At its October 27, 2004 meeting, the Committee considered and approved a resolution recommending

approval of the Plan by the Authority and City Council in the form presented by the Authority.

On November 3, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

**Project Introduction**

Michigan Opera Theatre is the project developer ("Developer"). The project consists of demolition of a functionally obsolete structure and construction of a new 783 space parking structure with 20,000 square feet of retail frontage along Broadway Avenue. The parking structure has been designed to accommodate visitors, support events and provide parking to attract residents complementing the plan of the City of Detroit to revitalize the Downtown area. The project has been designed to create commercial/retail space along Broadway Avenue with an outdoor plaza area complementing the public streetscape improvements currently under construction by the City of Detroit Downtown Development Authority.

**Purpose of the Proposed Plan**

The Property is included in this Plan to enable "qualified taxpayers" as defined by Michigan Public Act 382 of 1996, as amended, Michigan Public Act 143 of 2000, as amended, or Michigan Public Act 726 of 2002, as amended (the "SBT Credit Acts") to avail themselves of eligibility for a credit against their Michigan single business tax liability for "eligible investments", as defined by Section 38g of Michigan Public Act 228 of 1975, as amended ("Act 228"), incurred on the Property after the adoption of this Plan. Eligible investment is estimated at \$14,556,300. (Demolition \$1,026,000 and Construction \$13,530,300).

**Property Subject to the Proposed Plan**

The eligible property consists of an entire City block titled as 1 parcel with the address of 1426 Broadway. The property is located in Detroit's Central Business District, on the east side of Woodward, bounded by John R to the north, Centre Street to the east, Grand River to the south and Broadway Avenue to the west. The land is covered by a functionally obsolete parking deck built in 1949.

Address — 1426 Broadway, Detroit, MI 48226

Tax ID — Parcel #01004011

Owner — Michigan Opera Theatre

**Basis of Eligibility**

The Property is considered “eligible property” as defined by Act 381, Section 2 because (a) the Property was previously utilized for a commercial, purpose; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be functionally obsolete as defined by Act 381.

The building’s deterioration has left it with significantly reduced parking capacity and is unable to be used to adequately perform the function for which it was intended due to a substantial loss in value. The requisite affidavit signed by a level 3 or level 4 assessor certifying the assessor’s expert opinion that the Property is functionally obsolete shall be provided by Developer to the Authority. Further description of its eligibility is outlined below.

*Functionally Obsolete*

- The current configurations do not meet market demand for the original purpose of the building, nor does it meet market demand for its future use.
- Mechanical and electrical systems must be replaced.
- The two elevators must be brought up to code.
- Structural Deterioration has reduced parking capacity.
- Changes in public street improvements limit access.

**Eligible Activities and Projected Costs**

The “eligible activities” that are intended to be carried out at the Property are considered “eligible activities” as defined by Sec 2 of Act 381, because they include demolition, lead and asbestos abatement, site preparation and construction. A summary of the eligible activities and the estimated cost of each eligible activity are shown in the table below:

<b>Estimated Cost of Eligible Activities</b>	<b>Description of Eligible Activities</b>	<b>Estimated Cost</b>
1.	MEGA Work Plan Preparation	\$ 5,000

Payment of eligible activities is the responsibility of the Developer. No TIF reimbursement is requested for this project. It is currently anticipated construction will begin in the winter of 2004 and eligible activities will be completed within 10 months. Eligible investment is estimated at \$14,556,300.

The Michigan Opera Theater Project has been reviewed and received a letter of support from the City of Detroit Planning and Development Department. The project has also received a written approval of a Notice of Intent Document from the Michigan Economic Development Corporation.

Honorable City Council:

Re: Resolution of Necessity for Temporary Acquisition of Private Property for Reconstruction, Repair, Realignment and Improvement of the Harding Canal Seawall — Flood Plain Mitigation Project.

There exists in the City of Detroit, Michigan the need to provide for the repair, reconstruction, renovation, rebuilding, enhancement and improvement of the seawall that currently abuts the Harding Canal (the "Flood Plain Mitigation Project"). The City is empowered to protect the general health, safety and welfare of its citizens, including the power to protect them from potentially hazardous flooding conditions that endanger the public health, safety and welfare pursuant to the Michigan Home Rule Cities Act, MCL 117.1 *et seq.*, as amended, City of Detroit Ordinance 38-6-4, as amended, and Article IX, Chapter 5, § 9-501 of the City of Detroit Charter, as amended.

We respectfully request your Honorable Body's approval of the attached resolution authorizing the City of Detroit, through the Director of the Department of Environmental Affairs, temporary Acquisition of Private Property for Reconstruction, Repair, Realignment and Improvement of the Harding Canal Seawall — Flood Plain Mitigation Project.

OF THE HARDING CANAL SEAWALL  
— FLOOD PLAIN MITIGATION  
PROJECT**

By Council Member S. Cockrel:

Whereas, There exists in the City of Detroit, Michigan (the "City") the need to provide for the repair, reconstruction, renovation, rebuilding, enhancement and improvement of the seawall that currently abuts the Harding Canal (the "Flood Plain Mitigation Project"); and

Whereas, The City is empowered to protect the general health, safety and welfare of its citizens, including the power to protect them from potentially hazardous flooding conditions that endanger the public health, safety and welfare pursuant to the Michigan Home Rule Cities Act, MCL 117.1 *et seq.*, as amended, City of Detroit Ordinance 38-6-4, as amended, and Article IX, Chapter 5, § 9-501 of the City of Detroit Charter, as amended; and

Whereas, Pursuant to the Home Rules Cities Act of the State of Michigan, MCL 117.1 *et seq.* and specifically MCL 117.5(g), and MCL 117.4(h), the Michigan Natural Resources Environmental Protection Act, MCL 324.33708, as amended, Sections 1, 2, 3, 3a and 4 of 1911 PA 149, as amended, MCL 213.21 *et seq.*, and the Uniform Condemnation Procedures Act, MCL 213.51 *et seq.*, as amended, (collectively the "Acts"), the City may acquire property by the power of eminent domain for purposes of reconstructing, repairing, rebuilding, enhancing and improving the seawall at the Harding Canal; and

Whereas, The Federal Emergency Management Agency ("FEMA") has completed its evaluation of the flood plain within the Detroit River flood way and determined that the height of the base flood (100-year flood plain) has increased by 1-1/2 feet thereby raising the 100-year Base Flood Elevation ("BFE") to 579.5 (NGVD Datum), which requires a seawall elevation of 583 (NGVD Datum) consisting of a 100-year wave run-up of 582.8 (NGVD Datum) plus one foot in order to prevent flooding in the Project Area as defined in the Project Plan adopted by the Detroit City Council on March 20, 1998 (the "Project Area"); therefore, pursuant to the determinations by FEMA, substantial portions of the project area for NDC Project No. 1 now lie within the 100-year flood-plain and potential homeowners will have to acquire flood insurance as a prerequisite to purchasing any home in the Project Area; and

Whereas, The City has conducted a

complete survey of the Project Area and its experts have determined that potential homeowners remain subject to the risk of flooding unless immediate actions are undertaken to alleviate the potential risk of flooding and that the Harding Canal is a likely and primary source of entry flood waters into the Project Area; and

Whereas, The Harding Canal has various types of seawall configurations in varying stages of decay and decline and consists of, in part, an alley which has not been vacated and the City's Department of Public Works is the custodian of the alley and is responsible for its maintenance; and

Whereas, The City has proposed to alleviate potential flooding conditions and to address the change in the BFE by repairing, reconstructing, renovating, rebuilding, enhancing and improving the seawall that currently abuts the Harding Canal; and

Whereas, Each and all of the owners listed on Exhibit A have been afforded the opportunity to voluntarily undertake the actions contemplated by the Flood Plain Mitigation Project and have refused or failed to respond to the notice from the City pursuant to Ordinance 38-6-4; and

Whereas, Each and all of the owners listed on the attached Exhibit A are owners of property that abut the seawall and the Harding Canal; and

Whereas, The City's sole interest in this case is to acquire temporary and permanent easements and interests in property to allow the construction and maintenance of this new and improved seawall in accordance with the plans attached at Exhibit B; and

Whereas, Each and all of the property owners in question have refused to grant the City the requisite access to the properties described on Exhibit C in order to design and construct the seawall improvements; and

Whereas, The City is a participating member of the National Flood Insurance Program; and

Whereas, If immediate measures are not taken to address the BFE changes, persons living within the new BFE area will not be entitled to receive emergency funding from FEMA during otherwise eligible flood events; and

Whereas, The Director of the Department of Environmental Affairs and the Director of the Department of Public Works have determined that there is a potential for rising levels of waters in canals, rivers and navigable streams in the City, abutting the Detroit River, including the Harding Canal, and that the public health, safety, property and general welfare is endangered by this potential flooding and that immediate action is necessary to protect the public interest; and

Whereas, The owners identified on

Exhibit A have been notified of this potential and asked to provide adequate barriers, dikes and other embankments to protect against the overflow of flood waters from the Harding Canal and have failed to provide such protection and the Director of the Department of Environmental Affairs, pursuant to City of Detroit Ordinance 38-6-4, is prepared to proceed with the repair, renovation, reconstruction and rehabilitation of the seawall to protect against such flooding and overflow; and

Whereas, Pursuant to MCL 324.33708, any city may acquire an interest in land necessary to design and implement a flood control, drainage, beach or erosion control project by purchase, gift, exchange, condemnation or otherwise; pursuant to MCL 324.33708, and, therefore, the Detroit City Council may institute and prosecute proceedings using its powers of eminent domain for the purposes of alleviating flooding, managing floodwaters and controlling floodplains in accordance with the Detroit City Charter; and

Whereas, The City's Department of Environmental Affairs is charged with the duty of coordinating programs for the protection and conservation of land, water and air resources and for developing and implementing programs for response to emergency conditions which pose an immediate danger to the health and safety of the City or its citizens under Detroit City Charter § 603; and

Whereas, The City has determined that the construction of the seawall on the subject property is the most feasible and cost effective design available; and

Whereas, Pursuant to the Acts, as amended, the City is authorized to take private property necessary for public improvements and/or a public facility for the purposes within the scope of its powers and for the use and benefit of the public and to institute and prosecute proceedings for such purpose, including but not limited to proceedings pursuant to 1980 Public Acts of Michigan 87, as amended; and

Whereas, It is necessary to acquire the subject property described on Exhibit C attached hereto, incorporated herein by reference to accomplish the public objectives, purposes and uses of the project and it is essential for the public health, safety, general welfare and peace of the City and its citizens; and

Whereas, It is necessary to acquire said private property described on Exhibit C (i.e., the "subject properties") for public purposes under the scope of the statutory powers prescribed by the Acts for the use and benefit of the public; and

Whereas, The most recent State-equalized valuation for all of the subject properties was \$28,325.00; and

Whereas, The initial estimate of the

total aggregate cost for acquiring the subject properties, including but not limited to the estimated total aggregate just compensation to be paid plus contingencies, is \$31,725.00; and

Whereas, The initial estimate of the total aggregate relocation benefits to be paid to any displaced person in connection with properties to be acquired plus contingencies is zero dollars since there will be no displacement of any person; and

Whereas, Based upon preliminary environmental investigations, past experience, representations by the Department of Environmental Affairs, an allowance for funds for site investigations, site assessments, response activities, remedial actions, removal actions, and abatement of any hazardous substance mandated by and anticipated to be performed in compliance with applicable environmental laws, including but not limited to the Comprehensive Environmental Response Compensation and Liability Act, and the Michigan Natural Resource and Environmental Protection Act and the Toxic Substances Control Act and disposal of any sediments, plus contingencies is sought in the amount of \$300,000.00; the amount of the allowance retained will be finally determined by order of the Court; and

Whereas, The approval of this Resolution of Necessity is necessary for contemplated implementation of this Flood Plain Mitigation Project, and it is in the best interests of the citizens of the City of Detroit and imperative to the public health, safety and welfare.

Now, Therefore, Be It Resolved:

1. This Honorable Body hereby declares that the repair, reconstruction, renovation, rebuilding, enhancement and improvement of seawall that currently abuts the Harding Canal is necessary and essential to the interests of the public peace, health, safety and welfare of the City, and to the enhancement of the quality of life in the City of Detroit and of the residents of the City of Detroit and Southeastern Michigan;

2. This Honorable Body hereby (a) finds that the owners identified on Exhibit A have failed or refused to take measures to repair, reconstruct or renovate the seawall abutting their property on the Harding Canal to alleviate the threat of flooding; (b) declares that the development of an improved seawall is necessary; (c) determines that the Flood Plain Mitigation Project constitutes a major public improvement and/or the development of public facilities for the use and benefit of the public; (d) declares it necessary to take private property for the purpose of these public improvements; and (e) determines that the permanent and temporary easements necessary for such Project

7. The Corporation Counsel or her designee is authorized to accept deeds and/or requisite documents related to the acquisition and to authorize payment of the estimated just compensation presently held by the Lamont Title Company as the City's designated escrow agent;

8. Lamont Title Company, as the City's designated escrow agent, is directed to prorate all City and County taxes to the date of closing on property acquired;

9. The Finance Director or his designee is authorized to honor applications and/or vouchers covering payment for the estimated just compensation deposited with the City Treasurer or his designee when deeds and/or the requisite documents related to the acquisition are presented in advance of regular trial on any contested parcel;

**Detroit Housing Commission**

November 12, 2004

Honorable City Council:

Re: Subject: Amendment to the Woodbridge Estates Master Development Agreement and Master Ground Lease. DHC Request for Qualifications H354 — Master Developer, Woodbridge Estates (formerly Jeffries Homes West).

The Detroit Housing Commission (“DHC”) has entered into a Master Development Agreement, including a Master Ground Lease, for the redevelopment of the former Jeffries Homes West into the new community of Woodbridge Estates. Your Honorable Body approved the Master Development Agreement and Master Ground Lease on June 19, 2001. The approval did not include the parcel of land that was the site of the fourth public housing tower that has now been demolished. This parcel was intentionally excluded from the approval to allow the development team to investigate the best possible use for this parcel.

After careful investigation, it has been determined that the parcel will be developed as additional rental housing to complement the other rental phases and the for-sale phases of development at the site. The development provides housing to low and moderate income families and other residents of varying income levels. Lease Parcel No. 3 described in Exhibit A attached hereto includes the fourth tower land and adjacent land to be used for parking. The U.S. Department of Housing and Urban Development (“HUD”) has approved the amendment to the revitalization plan to include Lease Parcel No. 3, and HUD has approved the demolition of the fourth tower building and the subsequent disposition application for this parcel.

DHC requests that your Honorable Body approve the inclusion of Lease Parcel No. 3 under the Master Ground Lease for the development of Woodbridge Estates. Lease Parcel No. 3 will be governed by and developed in accordance with the provisions of the Master Development Agreement as amended and the Master Ground Lease as amended.

Scripps Park Associates, LLC, with principals Herbert J. Strather of Detroit, Michigan, The Slavik Company of Farmington Hills, Michigan, and Rosenberg Housing Group, Inc. of New York, New York, is the Master Developer

The Labor Relations Division has recently reached agreement with the bargaining unit which represents most of the City's seasonal employees, AFSCME Local 542, Motor City Seasonals. November 12, 2004

Honorable City Council:

Re: Amendment of Sales Resolution

Development: Parcel A-1, A-2 and A-3; located on the south side of West Outer Drive between Oakland and the first alley east of Biltmore.

On July 13, 2001 (Detroit Legal News, July 23, 2001, Pg. 10), your Honorable Body authorized the sale of the above-captioned property to Amandla Community Development Corporation, a Michigan Non-Profit Corporation, to construct a three phased development project consisting of a church sanctuary (Parcel A-1), a community center (Parcel A-2) and approximately sixty-five (65) townhouse units (Parcel A-3).

Amandla Community Development Corporation has informed the Planning and Development Department that due to unavoidable circumstances, they were not able to complete the three-phased project within the time allotted in the present Development Agreement. The delay stemmed from financial constraints experienced by Amandla Community Development Corporation, which led to the creation of Fellowship Estates, LLC, a Michigan Limited Liability Company, a 50/50 partnership between Amandla Community Development Corporation and Strather & Associates, Inc., a Michigan Corporation.

Amandla Community Development Corporation is now requesting that the Development Agreement be amended as follows to enable the completion of their project:

- 1) An Assignment of the Development Agreement from Amandla Community Development Corporation, a Michigan Non-Profit Corporation, to Fellowship Estates, LLC, a Michigan Limited Liability Company;

November 22

3942

2004

2) To extend the Development Agreement construction period to April 30, 2007; and

3) In lieu of the Parcel A-2 project, the construction of the community center, the Developer desires to expand Parcel A-3 to include the construction of approximately one hundred four (104) housing units instead of sixty-five (65) housing units as originally proposed.

Under the terms of an Assignment, Assumption and Consent Agreement, Fellowship Estates, LLC, will develop approximately one hundred four (104) housing units, which will consist of approximately thirty-nine (39) single-family homes and sixty-five (65) town-house units.

The Planning and Development Department has reviewed the request of Amandla Community Development Corporation and has determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement. Fellowship Estates, LLC, possesses the qualifications and has indicated potential financial resources necessary to acquire and develop the land in accordance with the Development Plan. The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the proposed agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing an amendment to the Development Agreement to extend the completion period of the development.

We, further, request that your Honorable Body adopt the attached resolution authorizing and approving an Assignment, Assumption and Consent Agreement between Amandla Community Development Corporation, a Michigan Non-Profit Corporation, Fellowship Estates, LLC, a Michigan Limited Liability Company and the City of Detroit, a Michigan Public Body Corporate.

We, also, request that your Honorable Body adopt the attached resolution authorizing the expansion of the Parcel A-3 project to include the construction of approximately one hundred four (104) housing units, in lieu of the Parcel A-2 project, the construction of the community center.

Honorable City Council:

Re: Amendment to Sales Resolution.

Development: 2220-2222 Conner.

On October 4, 2000 (Detroit Legal News, October 9, 2000, Pg. 9), your Honorable Body authorized the sale of the above-captioned property to CJ Federal Credit Union, a Federally Chartered Credit Union, to construct a service facility with a drive thru lane and a paved surface parking lot.

CJ Federal Credit Union has informed the Planning & Development Department that due to unavoidable circumstances

they were not able to complete the project within the time allotted in the present Development Agreement. The delay stemmed from financial constraints experienced by CJ Federal Credit Union which has led to the planned merger of the assets of CJ Federal Credit Union into ABD Federal Credit Union, as approved by the National Credit Union Administration to be effective no later than January 31, 2005.

CJ Federal Credit Union is requesting that the Development Agreement be amended to extend the development period to December 31, 2005, and an Assignment of the Development Agreement from CJ Federal Credit Union, a Federally Chartered Credit Union, to ABD Federal Credit Union, a Federally chartered Credit Union. Upon completion of the merger, under the terms of an Assignment, Assumption and Consent Agreement, ABD Federal Credit Union will then develop the same service facility with a drive thru lane and a paved surface parking lot.

The Planning & Development Department has reviewed the request of CJ Federal Credit Union and has determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement. ABD Federal Credit Union possesses the qualifications and has indicated potential financial resources necessary to develop the land in accordance with the Development Plan. The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the proposed Assignment, Assumption and Consent Agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing an amendment to the Development Agreement to extend the completion period of the development.

We, further, request that your Honorable Body adopt the attached resolution authorizing and approving an Assignment, Assumption and Consent Agreement between CJ Federal Credit Union, a Federally Chartered Credit Union, ABD Federal Credit Union, a Federally Chartered Credit Union and the City of Detroit, a Michigan Public Body Corporate.

Honorable City Council:

Re: Lafayette Redevelopment Project. Development: 1544-1556 E. Lafayette, located at the southwest corner of E. Lafayette Blvd. at Orleans St.

On July 16, 2002, the City of Detroit entered into an agreement to purchase the above-captioned property from the U.S. Department of Housing and Urban Development (HUD). This acquisition was necessary in order to ensure that development occurs and to promote the public health, safety and welfare of the surrounding community. Per the terms of the agreement, the buildings on the site were demolished and cleared in accordance to specifications outlined by the City of Detroit. This property was transferred to the City of Detroit with no use restrictions, thus allowing the City to determine the future use of the property.

We are now in receipt of an offer from Du Charme Place Partners, LLC, a Michigan Limited Liability Company, to purchase the above-captioned property for the amount of \$453,923 and to develop such property. This property contains approximately 150,416 square feet or 3.45 acres and is zoned R-6 (High Density Residential District).

The Offeror proposes to construct approximately sixty-six (66) townhouse units comprised of brick with vinyl siding and attached garages. Each unit will range in size from 1400 to 1,800 square feet and consist of one (1) to three (3) bedrooms. This use is permitted as a matter of right in a R-6 zone and is in compliance with the guidelines of the Lafayette Redevelopment Project Plan.

Upon closing of this land sale, the Planning and Development Department will remit \$263,288 to the U.S. Department of Housing and Urban Development (HUD) for the purchase of the property and retain the balance of \$190,635 to cover the demolition expenses incurred in connection with the property.

We, therefore, request that your Honorable Body adopt the sale and authorize the Planning & Development Department Director of Development Activities to execute an agreement to purchase and develop this property with Du Charme Place Partners, LLC, a Michigan Limited Liability Company, together with a deed to the property and such other documents as may be necessary to effect the sale.

Respectfully submitted,

Re: Extension of Empowerment Zone Memorandum of Agreement and Modification of Empowerment Zone Strategic Plan to Include a Tax Incentive Utilization Plan.

The Planning and Development Department respectfully requests your Honorable Body's approval, with waiver of reconsideration, of the attached resolution.

The Department received notice, on November 3, 2004, from the U.S. Department of Housing and Urban Development (HUD), of requirements for extension of the City of Detroit's Empowerment Zone designation for the purpose of extending eligibility for federal tax incentives through December 31, 2009. The requirements are that the underlying Memorandum of Agreement between HUD, the State of Michigan and the City of Detroit be amended to extend the designation through December 31, 2009 and that the City of Detroit modify the Empowerment Zone Strategic Plan to include a Tax Incentive Utilization Plan. The deadline for submission of these documents to HUD is December 1, 2004. Failure to meet this deadline will result in the termination of Detroit's Empowerment Zone designation on December 21, 2004.

A copy of the required Tax Incentive Utilization Plan is attached. This document will be presented to the Board of the Empowerment Zone Development Corporation on November 17, 2004.

Respectfully submitted,  
 BURNEY JOHNSON

Director of Planning Activities

**City of Detroit Empowerment Zone  
 Tax Incentive Utilization Plan**

**Introduction**

Detroit is very committed to maximizing the use of federal empowerment zone tax incentives to add value to its economic development and employment strategies. The City of Detroit and its Empowerment Zone Development Corporation have prepared a comprehensive plan based on three key objectives included as goals 1, 2, and 3 in the Detroit Empowerment Zone Strategic Plan:

**Goal 1:** To assist community-based organizations, businesses and entrepreneurs to gain access to capital resources and technical assistance;

**Goal 2:** To strengthen the business and technology base of the Zone to spur economic growth;

**Goal 3:** To link federal, state and local entities to the EZ tax initiatives that will supply residents with jobs, expand the labor force, foster entrepreneurship and promote business development through

effective marketing and implementation.

**Assessment/Strategy/Implementation**

Detroit's Tax Incentive Utilization Plan rests upon several innovative approaches by different agencies that will focus the strength of the state/local/quasi-governmental partnership:

**City of Detroit**

*Planning and Development Department*

The City of Detroit, through the Planning and Development Department, will act as the lead coordinating agency for providing information to audiences seeking to take advantage of EZ tax credits by targeting promotion and marketing to:

- Employers in target industries (manufacturing, industrial, etc.) that want to locate work sites in the Zone;
- Qualified private, for-profit developers and retailers seeking sites;
- Other businesses with large projects critical to the City's tax base; and
- Small and minority business enterprises including new businesses created through Entrepreneurship incubators

The Planning and Development Department will act as the information clearinghouse for tax incentives in the EZ. The *P&DD Welcome Center* will work in coordination with the Detroit Economic Growth Corporation to fully service the aforementioned tax incentive seekers.

*Office of Neighborhood Commercial Revitalization*

This department currently acts as a catalyst for stimulating Detroit's commercial/retail districts. The ONCR has committed to promoting all available tax incentives for establishments located in the EZ that are involved in the many program initiatives of their department.

**Detroit Economic Growth Corporation**

The Detroit Economic Growth Corporation (DEGC) will take the closest hands-on approach to help businesses leverage private investment and tax incentives in the City of Detroit. It is structured as a public/private entity. In partnership with city government mentioned above, the DEGC will serve as a secondary informational agency and the lead implementing agency for tax incentive involvement up to and including:

- Employer wage/tax credits
- Tax-exempt bond financing
- IRS Section 179 deductions
- Brownfields tax deduction

The DEGC will continue to interact to sustain business retention, attraction and economic development initiatives within the Empowerment Zone.

**State of Michigan**

To support Detroit Empowerment Zone's emphasis on job training and placement, the State of Michigan will coordinate with other mentioned organizations and the City of Detroit's

Employment and Training Department to provide a prospective employee pool to facilitate employer wage tax credits. The State of Michigan *Work First!* welfare reform program is designed to establish and maintain a connection to the labor market for welfare recipients, thus providing group of applicants for EZ based jobs.

#### **Marketing Plan**

**Operating premise** The underlying premise of Detroit's Tax Utilization Incentive Plan is that decision makers in the business community will choose to take advantage of tax incentives to the extent that they are aware of them, understand them technically and conclude that they will improve the performance of their business or businesses in bottom line terms.

#### **Target Audiences**

The City of Detroit believes that the Tax Incentive Utilization Plan must encompass methods to communicate with appropriate individuals in business, including owners and financial managers. Communication with these persons will be accomplished, in large part, by using the database that the Empowerment Zone Development Corporation has developed over the 10 year EZ period. The City of Detroit will continue to update this database. In addition, owners and financial accounting managers will be targeted through trade associations and business groups to which they belong. Examples of such organizations include, but are not limited to:

- **Greater Detroit Chamber of Commerce**
- **Black Chamber of Commerce**
- **Arab American Chamber of Commerce**
- **Hispanic Chamber of Commerce**
- **Detroit Renaissance**
- **Booker T. Washington Business Association**
- **Small Business Association (SBA)**

- **Michigan Minority Business Development Council**
- **Association of Certified Public Accountants**
- **Entrepreneurship Incubators: Wayne State University Technology Park/Mexicantown Business Incubator/Detroit Entrepreneurship Institute**

#### **Marketing Implementation**

The City of Detroit Empowerment Zone will encompass various tools that will be utilized in communicating and creating synergy with the aforementioned business entities seeking EZ tax incentives. These tools include:

- Glossy Brochures describing EZ facility bond and tax incentive programs
- Locally produced video productions of EZ tax incentive seminars available on various media formats (CD, DVD, Divx streaming video, etc.)
- Published case studies of businesses that have benefited from the use of EZ tax incentives. Along with descriptive information regarding tax incentives, the case studies will be placed in newspapers, magazines and various other publications that are routinely distributed by target audience organizations.
- Links to target audience websites with HTML tracking mechanisms to gauge interest via number of site-hits, virtual polls, requests for information, etc.
- Face-to-face marketing to trade group meetings and conventions. The City of Detroit, consistent with resources, will establish a presence in targeted venues to disseminate information. Contacts will be incorporated in a City of Detroit maintained master database of businesses and contacts.
- Coordination of marketing with the City of Detroit Renewal Community Program, Detroit Economic Growth Corporation and Office of Neighborhood Commercial Revitalization outreach efforts.

Re: Petition No. 4244 — Detroit Public Schools, requesting to vacate a portion of a public alley, dedicate land for a new public alley and to install and maintain encroachments, in the area of Selden and Cass Avenues, in order to facilitate the construction of the new Fine, Performing, Communication Media Arts (FPCMA) High School.

Petition No. 4244 of the "Detroit Public Schools" (DPS), requests that a northerly portion of the north-south, public alley, 15 feet wide, first east of Cass Avenue, 80 feet wide, south of Selden Avenue, 60 feet wide, be vacated (outright), that the City accept the dedication of a new east-west public alley, between said Cass Avenue and said north-south public alley, and to install and maintain encroachments of a concrete seat wall, concrete steps and pedestrian lighting within the easterly right-of-way of said Cass Avenue, south of Selden Avenue. Also, the attached resolution will vacate (outright) the east-west public alley, 10 feet wide, lying between Lots 13 and 23.

The proposed right-of-way changes are required to complete the construction of the new Fine, Performing, Communication Media Arts (FPCMA) High School, located on the south side of Selden Avenue, between Cass Avenue, and Woodward Avenue.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report:

The Detroit Water and Sewerage Department (DWSD) report an existing sewer in the north-south portion of alley to be vacated (outright). However, the DWSD has no objection to the outright vacation of the alley, provided the DWSD existing 15'x20" sewer is relocated and easements are provided.

The Public Lighting department (PLD) has no objection to the proposed vacation, dedication, and encroachments. The PLD has overhead fed streetlights in the alley to be vacated. PLD will remove one lighting unit (fixture & bracket arm) at no cost to the petitioner.

If necessary, satisfactory arrangements must be made with DTE Energy for the removal and/or rerouting of its facilities located in the alley to be vacated.

Also, should damages to utilities occur the petitioner shall be liable for all incidental repair costs and waives all claims for damages to the encroaching installations.

All other involved city departments and privately owned utility companies have reported no objections to the requested outright vacation, encroachments and dedication or that satisfactory arrangements have been made. **Water and Sewerage Department**

November 18, 2004

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 56, Article III, Division 3, of the 1984 Detroit City Code, Titled "Wastewater Discharge Control."

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above referenced proposed ordinance is being submitted to your Honorable Body for consideration and approval. The proposed ordinance was considered and approved by the Detroit Board of Water Commissioners in late February, 2004.

This proposed ordinance amends Chapter 56, Article III, Division 3, by adding, revising, and removing certain specific pollutant prohibitions to bring the Detroit Water and Sewerage Department (DWSD) into compliance with its National Pollutant Discharge Elimination System (NPDES) Permit No. MI0022802 and the new National Categorical Pretreatment Standards adopted by the U.S. Environmental Protection Agency (EPA) since the last revision of the ordinance in 1996. Under the NPDES permit, DWSD was required to conduct a technical evaluation study of its existing limitations in accordance with federal and state regulatory requirements. The proposed changes to the ordinance are a result of this study. The intent of the study is also to protect the operations and workers of the Detroit Wastewater Treatment Plant, the collection system, and ultimately the Detroit River.

The technical evaluation study was conducted using data collected from the Wastewater Treatment plant, data from the DWSD service area which covers most of Southeastern Michigan, and from Commercial and Industrial users in the service area. The study utilized good engineering practices and applicable Michigan Department of Environmental

Quality (MDEQ) criteria. The study calculated the Maximum Allowable Headworks Loadings based upon NPDES permit pass-through, aquatic toxicity pass-through, secondary treatment inhibition, sludge quality for incineration and where applicable, fire/explosion and fume toxicity criteria were also considered. The pollutant limitations were then calculated using several accepted methods. The proposed changes in local limitations have been reviewed and approved by the MDEQ.

The proposed ordinance amends Chapter 56, Article III, Division 3, by changing the pollutant limitations for compatible pollutants, specifically BOD and Phosphorous, by changing the pollutant limitations for non-compatible pollutants, specifically Cadmium, Copper, Cyanide, Silver, Zinc, and Total Phenolic Compounds. The proposed ordinance also removes the conditional language for "Total Phenolic Compounds," changes the pollutant limitation for mercury and adds a pollutant limitation for Total PCB as opposed to only a limit on Arochlor 1260. The proposed ordinance also adds a section which provides the conditions and time frame for the "Compliance Period" for Industrial Users following the effective date of the new ordinance. In addition, the proposed ordinance amends the Sections titled, "Pollution Prevention" and "Enforcement" to clarify conditions and requirement for Industrial Users who must implement pollution prevention initiatives. Appendix A of Chapter 56, Article III, Division 3, is amended to incorporate by reference the new National Categorical Pretreatment Standards adopted by the U.S. EPA since the last revision to the ordinance in 1996. Finally, an Appendix B is added to provide an alternative method of calculating limits for Total Phenolic Compounds.

The Detroit Water and Sewerage Department respectfully requests that this proposed ordinance be introduced at your next Formal Session and that a Public Hearing be held. We are available to answer any questions that you may have concerning the proposed ordinance.

Thank you for your consideration.

Respectfully submitted,  
VICTOR M. MERCADO  
Director

**Sec. 56-3-59.1. Discharge prohibitions.**

(a) *General pollutant prohibitions.* No user shall discharge or cause to be discharged into the POTW, directly or indirectly, any pollutant or wastewater which will cause interference or pass through. These general discharge prohibitions shall apply to all users of the POTW whether or not the user is subject to national categorical pretreatment standards or to any other federal, state, or local pretreatment standards or requirements. In addition, it shall be unlawful for a user to discharge into the POTW:

(1) Any liquid, solid or gas, which by reason of its nature or quantity, is sufficient either alone or by interaction with other substances to create a fire or explosion hazard or to be injurious in any other way to persons, to the POTW, or to the operations of the POTW. Pollutants, which create a fire or explosion hazard in a POTW, include, but are not limited to, wastestreams with a closed cup flash point of less than 140°F or 60°C using the test methods specified in 40 C.F.R. § 261.21; or

(2) Any solid or viscous substance in concentrations or quantities, which are sufficient to cause obstruction to the flow in a sewer or other encumbrances to the operation of the POTW, including, but not limited to, grease, animal guts or tissues, bones, hair, hides or fleshing, entrails, whole blood, feathers, ashes, cinders, sand, cement, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, strings, fibers, spent grains, spent hops, wastepaper, wood, plastics, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, mud or glass grinding or polishing wastes, or tumbling and deburring stones; or

(4) Any wastewater containing petroleum oil, non-biodegradable cutting oil, products of mineral oil origin, or toxic pollutants in sufficient concentration or quantity either singly or by interaction with other pollutants to cause interference, or pass through, or constitute a hazard to humans or animals; or

(5) Any liquid, gas, solid or form of energy, which either singly or by interaction with other waste is sufficient to create toxic gas, vapor, or fume within the POTW in quantities that may cause acute worker health and safety problems, or may cause a public nuisance or hazard to life, or are sufficient to prevent entry into the sewers for their maintenance and repair; or

(6) Any substance which is sufficient to cause the POTW's effluent or any other product of the POTW, such as residue, sludge, or scum to be unsuitable for reclamation processing where the POTW is pursuing a reuse and reclamation program. In no case shall a substance discharged into the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria guidelines or regulations developed under 33 U.S.C. § 1345, with any criteria, guidelines, or developed and promulgated regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Federal Clean Air Act, the Federal Toxic Substances Control Act, or with ~~State~~ state criteria applicable to the sludge management method being used; or

(7) Any substance which will cause the POTW to violate either the Consent Judgment in *U.S. EPA v. City of Detroit et al.*, Federal District Court for the Eastern District of Michigan Case No. 77-1100, or the City's National Pollutant Discharge Elimination System permit; or

(8) Any discharge having a color uncharacteristic of the wastewater being discharged; or

(9) Any wastewater having a temperature which will inhibit biological activity in the POTW treatment plant resulting in interference, but in no case wastewater with a temperature at the introduction into a public sewer which exceeds 150°F or which will cause the influent at the wastewater treatment plant to rise above 104°F (40°C); or

(10) Any pollutant discharge which constitutes a slug; or

(11) Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established in compliance with applicable federal or ~~State~~ state regulations; or

(12) Any floating fats, oil or grease

which are sufficient to cause interference with or pass through the POTW; or

(13) Any solid materials having a specific gravity greater than 1.2 or a cross section dimension of one-half (1/2) inch or greater which are sufficient to cause interference with the POTW.

(b) *Specific pollutant prohibitions.* No user shall discharge wastewater containing any of the following pollutants in excess of the following limitations:

(1) Compatible pollutants:

a. Any Fats, Oil or Grease (FOG) in concentrations greater than ~~2000~~ 750 mg/l based on the average of all samples collected within a twenty-four (24) hour period.

b. Any total suspended solids (TSS) in concentrations greater than ~~40,000~~ 6,300 mg/l.

c. Any biochemical oxygen demand (BOD) in concentrations greater than ~~40,000~~ 4,000 mg/l.

d. Any phosphorus in concentrations greater than ~~500~~ 25 mg/l.

Unless otherwise stated, all limitations are based upon samples collected over an operating period representative of a ~~User's~~ user's discharge, and in accordance with 40 C.F.R. Part 136.

(2) Non-compatible pollutants. No user shall discharge wastewater containing in excess of:

	mg/l

Appendix B .....	0.5 1.0

All limitations are based on samples collected over an operating period representative of an industrial user's discharge, and in accordance with 40 C.F.R. Part 136.

a. The limitation for Total PCB is Non-detect. Total PCB shall not be discharged at detectable levels, based upon U.S. EPA Method 608, and the quantification level shall not exceed 0.2 ug/m<sup>3</sup>, unless a higher level is appropriate because of

demonstrated sample matrix interference. Where one (1) or more samples indicate detectable levels of Total PCB, the user shall be required to demonstrate compliance. For purposes of this section, this demonstration may be made using analytical data showing that the Total PCB concentration is below the detection level, or submission of a BMP in accordance with 56-3-66.1(d).

b. The limitation for Mercury (Hg) is Non-detect. Mercury (Hg) shall not be discharged at detectable levels, based upon U.S. EPA Method 245.1, and the quantification level shall not exceed 0.2 ug/ml, unless a higher level is appropriate because of demonstrated sample matrix interference. Where one (1) or more samples indicate detectable levels of Mercury, the user shall be required to demonstrate compliance. For purposes of this section, this demonstration may be made using analytical data showing that the mercury concentration is below the detection level, or submission of a BMP in accordance with 56-3-66.1(f)(1)(d).

All limitations are based on samples collected over an operating period representative of an industrial user's discharge, and in accordance with 40 C.F.R. Part 136.

(3) Compliance Period. Within thirty (30) days of the effective date of this ordinance, the Department shall notify all industrial user's operating under an effective wastewater discharge permit of the requirement to submit a compliance report within one hundred eighty (180) days after the effective date of this ordinance. The Compliance Report shall demonstrate the user's compliance or non-compliance with these limitations, and, in the event of non-compliance, include the submission of a plan and schedule for achieving compliance with the stated limitation. In no event shall a compliance schedule exceed eighteen (18) months from the effective date of this ordinance.

An Industrial User who does not demonstrate compliance may petition the Department for a second extension as part of an Administrative Consent Order. The Department shall include appropriate monitoring, reporting, and penalties into an Administrative Consent Order that relates to a second extension, and shall enter into such an agreement only upon a good-faith showing by the industrial user of the actions taken to achieve compliance with this provision.

(c) National Categorical Pretreatment Standards. All users shall comply with the applicable National Categorical Pretreatment Standards and requirements promulgated pursuant to the act as set forth in 40 C.F.R. Subchapter N, Effluent Guidelines and Standards, which are

hereby incorporated by reference and with all other applicable standards and requirements, provided, ~~however,~~ that where a more stringent standard or requirement is applicable pursuant to state law or regulation, or to this division, then the more stringent standard or requirement shall be controlling. Affected dischargers shall comply with applicable reporting requirements under 40 C.F.R. Part 403 and as established by the Department. The National Categorical Pretreatment Standards which have been promulgated as of the effective date of this section are delineated in Appendix A.

(1) *Intake water adjustment.* Industrial users seeking adjustment of National Categorical Pretreatment Standards to reflect the presence of pollutants in their intake water must comply with the requirements of 40 C.F.R. § 403.15. Upon notification of approval by the Department, the adjustment shall be applied by modifying the permit accordingly. Intake water adjustments are not effective until incorporated into an industrial user's permit.

(2) *Modification of national categorical pretreatment standards.* The Department may apply to the U.S. Environmental Protection Agency, or to the Michigan Department of Environmental Quality, whichever is appropriate, for authorization to grant removal credits in accordance with the requirements and procedures in 40 C.F.R. § 403.7. Such authorization may be granted only when the POTW treatment plant can achieve consistent removal for each pollutant for which a removal credit is being sought, provided, that any limitation of such pollutant(s) in the NPDES permit neither are being exceeded nor pose the prospect of being exceeded as a result of the removal credit being granted. Where such authorization is given to the Department, any industrial user desiring to obtain such credit shall make an application to the Department, consistent with the provisions of 40 C.F.R. § 403.7 and of this division. Any credits which may be granted under this section may be subject to modification or revocation as specified in 40 C.F.R. § 403.7, or as determined by the Department. A requisite to the granting of any removal credit may be that the industrial user pay a surcharge based upon the amounts of such pollutants removed by the POTW, such surcharge being based upon fees or rates which the Board may establish and, when appropriate, revise from time to time. Permits shall reflect, or be modified to reflect, any credit granted pursuant to this section.

(3) *New sources.* Industrial users who meet the new sources criteria shall install, maintain in operating condition, and 'start-up' all pollution control equipment required to meet applicable pretreatment

standards before beginning to discharge. Within the shortest feasible time and not to exceed ninety (90) days, new sources must meet all applicable pretreatment standards.

(4) *Concentration and mass limits.* When limits in a categorical pretreatment standard are expressed only in terms of mass of pollutants per unit of production, the department may convert the limits to equivalent limitations expressed either as mass of pollutant discharged per day or effluent concentration for purposes of calculating effluent limitations applicable to individual industrial users. Equivalent limitations shall be calculated in accordance with Sections 40 C.F.R. § 403.6(c)(3) and/or 40 C.F.R. § 6(c)(4) and shall be deemed pretreatment standards for the purposes of 33 U.S.C. § 1317(d) and of this division. Industrial users will be required to comply with the equivalent limitations in lieu of the promulgated categorical standards from which the equivalent limitations were derived.

(5) *Reporting requirements for industrial users upon effective date of categorical pretreatment standards-baseline report.* Within one hundred eighty (180) days after the effective date of a categorical pretreatment standard, or one hundred eighty (180) days after the final administrative decision made upon a category determination submission under Section 40 C.F.R. § 403.6(a)(4), whichever is later, existing industrial users subject to such categorical pretreatment standards and currently discharging into or scheduled to discharge into the Detroit POTW shall submit to the Department a report containing the information listed in 40 C.F.R. § 403.12(b)(1-7). Where reports containing this information have already been submitted to the director or regional administrator in compliance with the requirement of 40 C.F.R. § 128.140(b), the industrial user will not be required to resubmit this information. At least ninety (90) days before commencement of any discharge, each new source and any existing sources that become industrial users after the promulgation of an applicable categorical pretreatment standard shall submit to the Department a report which contains the information listed in 40 C.F.R. § 403.12(b)(1-5). In such report, new sources shall include information concerning the method of pretreatment that the source intends to use to meet applicable pretreatment standards. New sources shall provide estimates of the information requested in 40 C.F.R. § 403.12(b)(4) and (5).

(d) *Dilution prohibited.* Except where expressly authorized to do so by an applicable pretreatment standard or requirement, no user shall increase the use of process water, or in any way dilute or attempt to dilute a discharge as a par-

tial or complete substitute for adequate treatment to achieve compliance with the limitations contained in the national categorical pretreatment standards, or in any other pollutant specific limitation or requirement imposed by the City of Detroit or by the State of Michigan.

(e) *Hauled in wastewater.* Any waste material or wastewater which is hauled into or within the service region for discharge to the POTW, is subject to the requirements of this division including, but not limited to, permits, inspection, monitoring and enforcement. Unloading liquid or solid waste from hauling vehicles, directly or indirectly, into the POTW, with or without the benefit of pretreatment, is prohibited unless the person proposing to unload such waste has applied for and received a permit from the Department for unloading such waste in accordance with the Board's rules pertaining thereto. The discharger shall be subject to applicable terms and conditions, surcharges, fees or rates as established by the Board. Hauled in wastewater shall only be discharged at points designated by the POTW after authorization or approval issued pursuant to the general permit requirements specified in Section 53-3-61.1 of the Code. The Department may establish specific limitations for sludge from municipally owned or operated POTW treatment plants which are different than the specific limitations in this division.

(f) *Centralized waste treatment.* It is unlawful for a centralized waste treatment (CWT) facility to discharge any industrial waste or wastewater into the POTW without wastewater discharge permit from the department. Any authorization granted, or permit issued, by the department to a centralized waste treatment (CWT) facility shall specify the type of wastewater for which treatment is provided, and discharge approval is sought, from the POTW. Unless such industrial waste or wastewater is determined by the Department to require further authorization, a Centralized Waste Treatment (CWT) facility that has submitted an application to, and received previous approval from, the Department to discharge wastewater is not required to obtain further authorization from the department before discharging such wastewater.

An industrial user, that provides centralized waste treatment services and files an application for the treatment and discharge of such types of wastewater to the POTW, shall provide the following minimum information in support thereof:

(1) The general nature, source and processes generating the type of wastewater. Any wastewater, which is generated from those processes and is subject to National Categorical Pretreatment Standards as delineated in Appendix A, shall be so designated;

(2) The identity of the toxic pollutants known or suspected to be present in the wastewater;

(3) At least one (1) sample report showing the results of an analysis for the EPA priority pollutants for each type of wastewater for which application is made in Subsection (f)(1) of this section;

(4) A statement, that is certified by a professional engineer, which addresses the treatability and compatibility of the wastewater, received or collected by the facility's treatment processes;

(5) The identity of the materials and/or pollutants whose transport or treatment are regulated by the EPA, by the state, or by any other governmental agency. Upon request, the centralized waste treatment (CWT) facility shall provide a copy of its permit and/or license to the Department; and

(6) Other information requested by the Department including, but not limited to, information required by Section 56-3-61.1(c)(1) through (18) of this Code, or the rules adopted by the Board.

The discharge from a Centralized Waste Treatment (CWT) facility will be deemed approved for those specific types of wastewater delineated in a permit and, upon issuance of such permit in accordance with the procedures contained in Section 56-3-61.1 of this Code, will be deemed approved for discharge into the POTW. The Centralized Waste Treatment (CWT) facility shall comply with all applicable provisions contained in Section 56-3-61.1 of this Code regarding permits. In furtherance of its obligations as control authority, the Department may include in the permit a requirement to report at selected intervals the information mandated in Subsections (1) through (6) of this section.

All users granted a permit under this section shall maintain records which, at a minimum, identify the source, volume, character, and constituents of the wastewater accepted for treatment and disposal. These records may be reviewed at any time by the Department.

(g) *Ground water discharges.* Unless authorization has been granted by the Department, the discharge of any groundwater into the POTW is prohibited. The Department may authorize the discharge of groundwater resulting from maintenance and related activities of gas, steam, or electrical utilities through the use of general permits. Subject to appropriate reporting requirements, the general permit shall authorize discharge in accordance with the terms of the permit. Utilities shall comply with this provision within one hundred eighty (180) days after its enactment.

If a person, who proposes to discharge groundwater resulting from purge, response activity, or UST projects, has

applied for and received a permit from the Department, the Department may authorize the discharge of such wastewater. Permits shall be issued in accordance with the procedures contained in Section 56-3-61.1 of this Code, or in accordance with any rules adopted by the Board.

(h) *City's right of revision.* The City of Detroit reserves the right to establish rules or regulations adopted by the Board, additional or more stringent limitations or requirements on discharges to the POTW. These rules and regulations shall be adopted in accordance with the rule-making procedures in Section 2-111 of the 1997 Detroit City Charter. Ninety (90) days after adoption by the Board, industrial users shall comply with such rules and regulations.

(i) *Accidental discharges.*

(1) Each industrial user, which does not currently have an approved spill prevention plan or slug control plan, shall provide protection from accidental discharge of prohibited materials or other substances regulated by this division, and all significant industrial users shall submit to the Department detailed plans which show facilities and operating procedures to be implemented to provide protection against such accidental discharges. Facilities and measures to prevent and abate accidental discharges shall be implemented, provided, and maintained at the owner's or industrial user's cost or expense. Unless the significant industrial user has an approved spill prevention or slug control plan, all existing significant industrial users shall complete and submit such a plan within sixty (60) days of the effective date of this division [November 19, 1986]. New significant industrial users shall submit such a plan prior to the time they commence discharging.

For purposes of this section, the information provided shall include the approximate average and maximum quantities of such prohibited materials or substances kept on the premises in the form of raw materials, chemicals and/or waste therefrom and the containment capacity for each. Only substances that are in a form which could readily be carried into the POTW and constitute a concentration of five (5) percent or greater in the raw material, chemical solution or waste material, are required to be reported. Volumes of less than fifty-five (55) gallons, or the equivalent thereof, need not be reported unless lesser quantities could cause pass through or cause interference with the POTW. The industrial user shall promptly notify the Department of any significant changes or modifications to the plan including, but not limited to, a change in the contact person, or substance inventory.

(2) At least once every two (2) years, the Department shall evaluate whether a

significant industrial user needs a plan to control slug discharges, as defined by 40 C.F.R. § 403.8(f)(2)(v). Unless otherwise provided, all significant users shall complete, implement, and submit such a plan within thirty (30) days of notification by the Department.

(j) *Notification requirements.* Unless a different notice is provided by this division or applicable law, within one (1) hour of becoming aware of a discharge into the POTW which exceeds or does not conform with federal, state, or City of Detroit laws, rules, regulations or permit requirements, or which could cause problems to the POTW, or which has the potential to cause the industrial user to implement its plan prepared in accordance with Subsection (i) of this section, the industrial user shall telephone the Department at its control center and notify the Department of the discharge. The notification shall include the name of the caller, the location and time of discharge, the type of wastewater, the estimated concentration of excessive or prohibited pollutants and estimated volume, and the measures taken, or being taken, to abate the discharge into the POTW. Within five (5) calendar days after the discharge, the industrial user shall submit a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences and, when required by the Department, the industrial user's wastewater discharge permit may be modified to include additional measures to prevent such future occurrences. Such notification shall not relieve the industrial user of any expense, cost of treatment, loss, damages or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other environmental impairment or any other damage to persons or property.

(k) *Notice to employees.* A notice shall be permanently posted on the industrial user's bulletin board, or other prominent place, advising employees whom to contact in the Department in the event of an actual or excessive or prohibited discharge.

(l) *Recovery of costs.* Any user discharging in violation of any of the provisions of this division, which produces a deposit or obstruction or causes damages to or impairs the Department's POTW, or causes the department to violate its NPDES permit, shall be liable to the Department for any expense, loss, damage, penalty or fine incurred by the Department because of said violation or discharge. Prior to assessing such costs, the Department shall notify the user of its determination that the user's discharge was the proximate cause of such damage, obstruction, impairment, or violation of the City's NPDES permit and the

Department's intent to assess such costs to the user. Any such notice shall include written documentation which substantiates the determination of proximate cause and a breakdown of cost estimates. Failure to pay the assessed costs shall constitute a violation of this division. Such charge shall be in addition to, and not in lieu of, any penalties or remedies provided under this division, or this Code, or other statutes and regulations, or at law or in equity.

(m) *Hazardous waste notification.* All industrial users, who discharge into the Detroit Collection System, shall notify the Department in writing of any discharge of a substance which, if otherwise disposed of, would be a hazardous waste as set forth in 40 C.F.R. Part 261. Such notification must comply with the requirements of 40 C.F.R. § 403.12(p).

(n) *Authorized representative.* The authorized representative, as defined in Section 56-3-58.1(a)(2) of this Code, may designate a duly authorized representative of the industrial user designated in Section 56-3-58.1(a)(2)(i) or (ii) where:

(1) The authorization is made in writing by the individual defined in Section 56-3-58.1(a)(2)(i) or (ii);

(2) The authorization specifies either an individual or a position having responsibility for the overall operation of the facility where the industrial discharge originates, such as the position of plant manager, operator of a well or well field superintendent, or a position of equivalent responsibility, or having overall responsibility for environmental matters of the company; and

(3) The written authorization is submitted to the Department.

(o) *Pollution prevention.* The Department shall encourage and support industrial users to develop and implement pollution prevention programs which that are designed to eliminate or reduce pollutant contributions beyond the levels required by this division. The Department may require an industrial user to implement pollution prevention initiatives, or BMP, as part of an enforcement response, or as necessary to comply with its NPDES permit.

#### **Sec. 56-3-66.1. Enforcement.**

(a) *Violations.* It shall be a violation of this division for any user to:

(1) Fail to completely and/or accurately report the wastewater constituents and/or characteristics of the industrial user's discharge;

(2) Fail to report significant changes in the industrial user's operations or wastewater constituents and/or characteristics within the time frames provided in Section 56-3-61.1(g)(1) of this Code;

(3) Refuse reasonable access to the industrial user's ~~premises~~ premises, waste discharge, or sample location for the purpose of inspection or monitoring;

(4) Restrict, lockout or prevent, directly or indirectly, access to any monitoring facilities constructed on public or private property. The locking or securing of the monitoring facility shall not constitute a violation pursuant to this subsection, provided, that upon request reasonable access to the facility is promptly provided to the Department;

(5) Restrict, interfere, tamper with, or render inaccurate any of the Department's monitoring devices including, but not limited to, samplers;

(6) Fail to comply with any condition or requirement of the industrial user's wastewater discharge permit;

(7) Fail to comply with any limitation, prohibition, or requirement of this division including any rule, regulation, or order issued hereunder. Industrial users acting in full compliance with wastewater discharge permits issued prior to the effective date of this division shall be deemed to be in compliance with the requirements of this division, and such permits shall remain in effect and be enforceable under this division until a superseding permit is effective. Industrial users shall comply with applicable National Categorical Pretreatment Standards and requirements on the date specified in the Federal Regulations regardless of compliance schedules.

(b) *Upsets*. An upset shall constitute an affirmative defense to an action brought for noncompliance with National Categorical Pretreatment Standards where the requirements of Subsection (1) of this section are met.

(1) An industrial user who wishes to establish the affirmative defense shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence, that:

a. An upset occurred and the industrial user can identify the cause(s) of the upset;

b. At the time, the facility was being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures;

c. The industrial user has submitted the following information to the Department, orally or in writing, within twenty-four (24) hours of becoming aware of the upset and, where this information is provided orally, a written submission must be provided within five (5) days:

(i) A description of the discharge and cause of noncompliance;

(ii) The period of noncompliance including exact dates and times or, if not corrected, the anticipated time the non-compliance is expected to continue; and

(iii) Steps being taken and/or planned to reduce, eliminate and prevent recurrence of the noncompliance.

(2) In any enforcement proceeding, the industrial user seeking to establish the

occurrence of an upset shall have the burden of proof;

(3) The industrial user shall control production of all discharges to the extent necessary to maintain compliance with this division upon reduction, loss, or failure of its treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost or fails.

(c) *Bypass*. Bypasses are prohibited unless the bypass does not cause a violation of pretreatment standards or requirements, but only if it is for essential maintenance to ensure efficient operation of the treatment system. These bypasses are not subject to the provisions of Subsections (1) and (2) of this section.

(1) Notice of anticipated bypass. Industrial users anticipating a bypass shall submit notice to the Department at least ten (10) days in advance.

(2) Notice of unanticipated bypass. An industrial user shall submit oral notice of an unanticipated bypass that exceeds applicable pretreatment standards within twenty-four (24) hours from the time the industrial user becomes, or should have become, aware of the bypass. A written submission shall be provided within five (5) days of the time the industrial user becomes, or should have become, aware of the bypass. The written submission shall contain a description of the bypass including exact dates and times, and if the bypass has not been corrected, the anticipated time it is expected to continue, and the steps taken or planned to reduce, eliminate and prevent reoccurrence of the bypass.

(3) Prohibition of bypass and enforcement. Bypass is prohibited, and the Department may take enforcement action against a user for a bypass, unless:

a. The bypass was unavoidable to prevent loss of life, personal injury, or severe property damage.

b. There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated waste, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventative maintenance; and

c. The industrial user properly notified the Department as described in Subsection (c)(2) of this section.

(4) Bypass approval. Where it meets all conditions in Subsection (c)(3) of this section, the Department may approve an anticipated bypass.

(d) Where one (1) or more of all of the measurements taken for any pollutant defined in Section 56-3-59.1(b) of this Code during a six (6) month period exceed by any magnitude the daily maximum non-detect limit for the same parameter, the industrial user may develop and implement pollution prevention initiatives, or a BMP, as part of an enforcement response. The Department may also require development of a BMP as part of an enforcement response. Upon approval of the Department, these pollution prevention initiatives, or BMPs, shall be made an enforceable part of the wastewater discharge permit. Industrial users shall provide, at six (6) month intervals, analytical results and a certification in support of its implementation of the approved pollution prevention initiatives or BMPs. Upon demonstration of compliance, the industrial user may request to be relieved of this implementation requirement.

~~(d)~~(e) Emergency suspensions and orders. The Department may order suspension of the sewer or wastewater treatment service and/or a wastewater discharge permit where, in the opinion of the Department, such suspension is necessary to stop any actual or threatened discharge which presents or may present an imminent or significant hazard to the health or welfare of persons or to the environment, interferes or may interfere with the POTW, or causes or may cause the City of Detroit to violate any condition of its NPDES permit. Any person notified of a suspension of the sewer or wastewater treatment service and/or the wastewater discharge permit shall immediately stop or eliminate the contribution. In the event the Department provides informal notification under this section, written confirmation and an order shall be provided within twenty-four (24) hours. In the event of a failure of the person to comply voluntarily with any suspension or revocation order, the Department shall take such steps as deemed necessary, including immediate severance of the sewer connection or services, to prevent or minimize damage to the POTW system or danger to any individual or the environment. In the event such steps are taken, the Director shall notify the industrial user within twenty-four (24) hours in writing of such action and order, and the specific recourse available. In any event, the Department shall provide the industrial user with an opportunity for a hearing before the Director, or his or her designated representative, within ten (10) days of such action. The industrial user shall submit a detailed written statement to the Department within fifteen (15) days of the occurrence describing the causes of the harmful contribution and the measures taken to prevent any future occurrence. Upon proof of elimina-

tion of the noncomplying discharge the Department shall reinstate the wastewater discharge permit and/or the sewer or wastewater treatment service.

~~(e)~~(f) Notice of violation. Except in the case of an actual or threatened discharge as specified in Subsection (d) of this section, whenever the Department has reason to believe that any industrial user has violated or is violating this division, the Department shall serve a written notice stating the nature of the violation upon such industrial user. Where applicable, the Department shall pursue appropriate escalating enforcement action as defined within its approved enforcement response plan. The failure of the Department to issue a notice of violation shall not preclude the Department from escalating its enforcement response.

~~(f)~~(g) Administrative actions. Whenever the Department has reasonable grounds to believe that a user is violating, or has violated, a provision of its wastewater discharge permit, or a pretreatment standard or requirement or any prohibition of this division, the Department, ~~except in the case of emergency or flagrant violation,~~ may initiate appropriate administrative enforcement action, except in the case of emergency or flagrant violation, in order to compel the industrial user to eliminate or to remedy such violation as soon as possible.

(1) a. Conferences. The Department may order any person, who violates this division, to attend a conference wherein the Department may endeavor to cause the user to eliminate or remedy the violation by establishing an enforceable compliance schedule. The notice of violation shall be served at least ten (10) days before the scheduled conference and shall set forth the date, time, and place thereof. The conference shall be conducted by a representative of the Department. The industrial user shall present a plan and schedule for achieving compliance with this division. Nothing contained herein shall require the Department to accept or agree to any proposed plan or schedule, or to prevent the Department from proceeding with a show cause hearing as set forth in Subsection (2) of this section. If the attendees agree upon a compliance schedule, the user and the Department's duly authorized representative may enter, by consent, into a compliance agreement or an administrative order setting forth the terms of such agreement. An industrial user must exhibit good faith and expeditious efforts to comply with this division and any procedures, requirements, and agreements hereunder.

b. Compliance schedules. The user and the Department may agree upon a schedule which sets forth the terms and conditions, and time periods or schedules for completion of actions to remedy or to

eliminate the causes of violation. These schedules may be developed as part of a compliance agreement, or an administrative consent order. Schedules developed under this subsection shall adhere to the following conditions:

(i) The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of upgraded or additional pretreatment facilities, or to the implementation of additional operation and maintenance procedures required for the industrial user to meet the applicable pretreatment requirements and standards including, but not limited to, hiring an engineer, completing preliminary plans, completing final plans, executing contracts for major components, commencing construction, and completing construction;

(ii) No single increment referred to in Subsection (b)(i) of this section shall exceed nine (9) months;

(iii) Not later than fourteen (14) days following each date in the schedule and the final date for compliance, the industrial user shall submit a progress report to the Department including, at a minimum, whether it complied with the increment of progress to be met on such date and, if not, the date which it expects to comply with this increment of progress, the reason(s) for delay, and the steps being taken by the industrial user to return to the established schedule; and

(iv) Any deviations from the compliance schedule may result in the industrial user being found in violation of this division.

c. Administrative orders. The Department may order any industrial user, who violates or continues to violate this division or a duly issued permit, to install and to properly operate devices, treatment facilities, or other related appurtenances. In addition, orders may contain such other requirements as might reasonably be necessary and appropriate to address the violation including the installation of pretreatment technology, additional self-monitoring and management practices, implementation of a waste minimization assessment to identify and implement feasible source reduction, and recycling practices to reduce the generation or release of pollutants at the facility. An order may be either an administrative consent order, which is the result of an agreement, or a unilateral administrative order.

(2) *Show cause hearing.* The Department may order any industrial user, who violates this division or allows such violation to occur, to show cause before the Department why a proposed enforcement action should not be taken. A notice shall be served upon the industrial user speci-

fying the time and place of a hearing before the Department regarding the violation, the reason(s) why the action is to be taken, the proposed enforcement action, and directing the industrial user to show cause before the Department why any proposed enforcement action should not be taken. The notice of the hearing shall be served personally, or by registered or certified mail with return receipt requested, at least ten (10) days before the hearing. Service may be made upon any agent or officer of a corporation, or its authorized representative.

a. Hearing Proceeding. The hearing shall be conducted in accordance with the procedures adopted by the Board. A hearings officer shall conduct the show cause hearing and take the evidence, and may:

(i) In the name of the Board, issue notices of hearing requesting the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in such hearing;

(ii) Transmit a report of the evidence and hearing, including transcripts and other evidence, together with recommendations to the Director for action thereon.

b. Transcript. At any show cause hearing held pursuant to this division, testimony shall be recorded by a court reporter.

(3) *Actions.* After a show cause hearing has been conducted, the hearings officer shall issue an order to the industrial user directing any of the following actions:

a. Immediate compliance with the industrial user's wastewater discharge permit or with any applicable limitation, condition, restriction or requirement of this division, or applicable local, state or federal law or regulation;

b. Pretreatment of waste by installation of adequate treatment equipment or proper operation and maintenance of existing treatment equipment be accomplished within a specified time period;

c. Submission of compliance reports on effluent quality and quantity as determined by self-monitoring and analysis during a specified time period;

d. Submission of periodic reports on effluent quality and quantity determined by self-monitoring analysis throughout the final period set by a compliance date;

e. Control of discharge quantities;

f. Payment of costs for reasonable and necessary inspection, monitoring, and administration of the industrial user's activities by the Department during compliance efforts; and/or

g. Any such other orders as are appropriate including, but not limited to, immediate termination of sewer or wastewater treatment services, or revocation of a wastewater discharge permit, or orders directing that following a specified time period sewer or wastewater treatment service will be discontinued unless adequate treatment facilities, devices, or

operation and maintenance practices have been employed.

h. A finding the user has demonstrated by a preponderance of the evidence that a violation either of this division, or of a duly issued permit, did not occur.

(4) *Public notification of significant noncompliance.* The Department shall publish in the largest daily newspaper published in the City of Detroit a list of all industrial users which were in significant noncompliance with applicable pretreatment requirements at any time during the previous twelve (12) months. All industrial users identified in a proposed publication shall be provided with a copy of the proposed notice at least thirty (30) days before publication and allowed an opportunity to comment as to its accuracy.

(g)(h) *Legal actions.*

(1) Criminal action: Any user, who violates any provision of this division including the failure to pay any fee, fine, charge or surcharge imposed hereby, or any condition or limitation of a permit issued pursuant thereto, or who knowingly make any false statement, representation of certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this division or wastewater discharge permit, or who tampers with or knowingly renders inaccurate any monitoring device required under this division, is guilty of a misdemeanor and, upon conviction, shall be punished by a fine not to exceed five hundred dollars (\$500.00) for each violation per day, or by imprisonment for not more than ninety (90) days, or by both. The Department is hereby authorized, through its counsel, to seek prosecution of criminal charges against any person violating any provision of this division.

(2) Civil action: whenever the Department has reasonable grounds to believe that a user is violating, or has violated, a provision of its wastewater discharge permit, a pretreatment standard or requirement or any requirement of this division, the Director may commence a civil action to compel compliance in a court of competent jurisdiction to enjoin the user from discharging, and/or to obtain appropriate relief to remedy the violations. The Department or Board may also seek additional legal and/or equitable relief. The commencement of suit ~~does not~~ neither constitutes an exclusive election of remedies and ~~does not~~ nor prohibits the Department, Director, Board, or City of Detroit from commencing action in federal court for discharges believed to be in violation of this division, state and federal requirements contained in the Clean Water Act, the City's NPDES permit, or other applicable laws or requirements. In addition, the City of Detroit may recover the reasonable attorney fees, court costs, court reporters' fees, and other unusual

expenses related to enforcement activities or litigation against the person found to have violated this division, or the orders, rules, regulations and permits issued hereunder.

(3) All fines, costs, and penalties which are imposed by any court of competent jurisdiction shall be payable to the City of Detroit Water and Sewerage Department.

2-Chlorophenol	2.0 mg/l
4-Chlorophenol	2.0 mg/l
4-Chloro-3-methylphenol	1.0 mg/l
2,4-Dichlorophenol	5.5 mg/l

**RESOLUTION  
RELATIVE TO THE IMAGE OF  
DETROIT**

By COUNCIL MEMBER BATES:  
WHEREAS, Most of the nation is well aware of the recent brawl among fans and players at the Detroit Pistons v Indiana Pacers game that took place at the Palace of Auburn Hills, in Auburn Hills, Michigan on Friday, November 19, 2004.  
WHEREAS, Being televised by ESPN, the event immediately attracted nationwide attention. Unfortunately, much of the media indicated that the incident was another "Black Eye for Detroit".  
WHEREAS, The negative incident that occurred outside of the City of Detroit, took precedence over the positive story about the Grand Opening of Campus Martius, which also took place on the same day.  
WHEREAS, Once again the image of the City of Detroit and the reputation of Detroiters has been depicted in an unfavorable light.  
WHEREAS, The nation should be made aware of the true facts, that the City of Detroit was not the center of the brawl as is the case with many events in the Metropolitan Detroit area. Regrettably, it appears that Detroit has been associated with negative news reports, and the actual suburban communities were not mentioned.  
WHEREAS, To continue to blame the City of Detroit for what occurred at the Palace of Auburn Hills on November 19, 2004 can have a detrimental effect on our city as we move forward with events like the annual North American Auto Show, Super Bowl 2006, the MLB All-Star Game 2005 and the NCAA Final Four Tournament in 2009. Therefore, Let It Be  
RESOLVED, That the Detroit City Council hereby make known to the national media and ESPN that the City of Detroit, Michigan is a separate municipality from any of its suburban communities; and that future news reports and media coverage, appropriately indicate the locale of the event, and further  
RESOLVED, That the Detroit City Council hereby requests that Detroit be described in a positive manner when appropriate, as prominently as negative stories are chronicled, and further  
RESOLVED, That the Detroit City Council continues to support the Detroit Pistons and that the fans from Detroit will continue to respond to the World Champions in only a positive manner, as we did when we celebrated the 2004 championship with a parade of over one (1) million loyal law-abiding fans. The City of Detroit welcomes the team back to the City at any time and see the positive image that the Pistons display on the court as a direct reflection of the hard working Detroit citizen. And Be It Finally  
RESOLVED, That copies of this resolution immediately be forwarded to ESPN, Detroit Pistons Organization, and the

**RESOLUTION**

By COUNCIL MEMBER K. COCKREL, JR.:

WHEREAS, The Detroit City Retired Employee Association (DCEA) has requested that City Council provide economic relief to general retirees who retired as of July 1, 2004, and

WHEREAS, The DCEA has requested specifically that Council continue on the previously established practice of providing relief to groups of retirees by reducing the medical insurance co-payment for the 1994-95 and 1995-96 general retirees, and

WHEREAS, The preliminary annual cost for these improvements is estimated by the DCEA to be \$780,510, and

WHEREAS, The Council is aware that recent state legislation, PA 306 of 2004, has increased the projected City's wagering tax revenue collection by \$20.9 million for the current fiscal year and \$25.2 million annually for subsequent years that the additional tax is in effect, and

WHEREAS, The state legislation, PA 306 of 2004, allows continuation of the collection of an additional 1% of the wagering tax increase after the development agreements have been complied with, and this additional 1% is sufficient to fund the increase retiree benefits, and

WHEREAS, The Council is also aware that this projected revenue is not yet budgeted, NOW THEREFORE BE IT

RESOLVED, That the DCEA and/or Pension Division of the Finance Department present appropriate data and information which establishes and/or supports the request that the requested adjustments are necessary to prevent the affected retirees from becoming impoverished and that the proposed adjustments are reasonably calculated to accomplish that purpose, AND BE IT FURTHER

RESOLVED, That copies of this resolution be distributed to the Mayor, and the Detroit Retired City Employee Association (DCEA).

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN SUPPORT OF TWO RESOLUTIONS TO REQUEST ADDITIONAL INFORMATION PERTAINING TO REQUESTS OF THE DETROIT RETIRED CITY EMPLOYEE ASSOCIATION

On Monday, November 22, 2004, I voted in support of the two resolution referenced above. The Detroit Retired City Employee Association (DRCEA) has made two requests to the City Council on behalf of its members. The first request is to reduce the medical insurance co-payment for the 1994-95 and 1995-96 general retirees which has an estimated cost of \$780,510. The second request was for an increase in the minimum pension formula for all general retirees who retired as of July 1, 2004 for an estimated cost of \$828,510. The total cost of funding these improvements would be approximately \$1.6 million.

President *Pro Tempore* Kenneth V. Cockrel, Jr. put forth two resolutions in this regard. His proposal would consider using a portion of the projected tax revenue collections from the wagering tax increase imposed by Public Act 306 of 2004. There are several legal issues related to this proposal that merit close scrutiny. In this regard, the City Council held a closed session on November 18, 2004.

The laudable desire to provide enhanced benefits for the City's retirees must be balanced against the harsh realities of the City's current financial status. As it has become increasingly clear that the City's fiscal outlook is very dim, the City Council must tread carefully when considering additional expenditures on any level. These resolutions request the Administration and the DRCEA to provide additional information to the Council in order to carefully investigate the possibility of increasing retiree benefits. Specifically, the Council is requesting:

...data and information which enables and/or supports the request that the requested [reduction of medical insurance co-payment] are necessary to prevent the affected retirees from becoming impoverished and that the proposed adjustments are reasonably calculated to accomplish that purpose

...an actuarial valuation to support [the retirees'] estimated 2004-05 annual cost and total cost of an increase in the minimum pension.

The requested information is crucial to a proper determination of necessity and is an important step in maintaining fiscal responsibility. For this reason, I fully supported the passage of these resolutions.

-----  
STATEMENT BY COUNCIL MEMBER  
SHEILA M. COCKREL IN SUPPORT OF  
THE INTRODUCTION OF AN  
ORDINANCE THAT AMENDS  
CHAPTER 56, ARTICLE III, DIVISION 3  
OF THE 1984 DETROIT CITY CODE,  
TITLED, "WASTEWATER DISCHARGE  
CONTROL"

On Monday, November 22, 2004, despite having some reservations, I voted in support of the introduction of the ordinance referenced above. The purpose of the ordinance is to bring the Detroit Water and Sewerage Department (DWSD) into compliance with its National Pollutant Discharge Elimination System (NPDES) permit. DWSD is required to implement technically-based limits for the discharge of a variety of pollutants.

On August 5, 2004, the Michigan Department of Environmental Quality (MDEQ) issued a notice letter indicating that DWSD had failed to comply with terms and conditions of its NPDES permit. One of the listed violations was that, "the DWSD has failed to adopt the ordinance revision to implement the proposed technically-based limits by June 1, 2004 in accordance with Part I.B.2 of the permit."

According to the cover letter to the proposed ordinance from DWSD dated September 13, 2004, the Detroit Board of Water Commissioners had considered and approved a proposed ordinance in late February of 2004. However, the proposed ordinance was not presented to the City Council until it appeared as a line item on its agenda for September 27, 2004. Considering that the ordinance was viewed as being technical changes required by the terms of the NPDES permit, it was introduced and a discussion and public hearing was held on October 15, 2004.

During the discussion and public hearing, concerns relating to the proposed ordinance were raised by various stakeholders including the Detroit Regional Chamber, the Michigan Association of Metal Finishers and Centralized Waste

November 22

4014

2004

Treaters. Chief among these concerns was that there are various methods of allocating pollutant discharge available and that the method chosen by DWSD was unfair and could destroy many of the businesses in the City of Detroit.

As a result of the discussion and public hearing, DWSD was requested to meet with representatives of the stakeholders in order to address some of these concerns and potentially make further amendments to the proposed ordinance. A meeting occurred on November 16, 2004 with DWSD and stakeholder representatives and the City Council was informed that additional amendments to the proposed ordinance would be forthcoming. The proposed ordinance along with the additional amendments was the one that was eventually introduced on Monday, November 22, 2004.

Members of the City Council received additional correspondence from some of the stakeholders' representative requesting further time and meetings in order to fully address the issues.

As one member of the City Council, I did not like the fact that Administration waited until the last minute to present an ordinance to the Council for enactment. I would have preferred that the Administration seek an extension from the MDEQ in order to provide more time for the Council to fully deliberate on this ordinance. Be that as it may, I have received reassurances that during this upcoming period of recess, there would be further meetings between DWSD and the stakeholders in order to address the few remaining issues. Having received such assurance, I voted in favor of introducing this ordinance at this time, and will continue to do due diligence and reserve judgment until the ordinance is up for a public hearing upon the Council's return in January of 2005.

-----  
 STATEMENT BY COUNCIL MEMBER  
 SHEILA M. COCKREL IN OPPOSITION  
 TO RESOLUTION CALLING FOR A  
 FORENSIC AUDIT OF THE  
 EXPENDITURES OF THE DETROIT  
 PUBLIC SCHOOL REFORM BOARD  
 AND CEO KENNETH BURNLEY TO  
 DETERMINE WHETHER THERE HAS  
 BEEN MISMANAGEMENT AND  
 MISAPPROPRIATIONS OF DETROIT  
 PUBLIC SCHOOL FUNDS

On Monday, November 22, 2004, I voted in opposition to the resolution referenced above. This resolution is a baseless request calling upon the Mayor of the City of Detroit to expend public resources to conduct an audit of the actions of a governing body that does not fall under the jurisdiction of the City of Detroit.

It goes without saying that the education of our children is of primary concern to all of the citizens of Detroit, including the members of the Detroit City Council. However, it needs to be recognized that the Detroit City Council does not govern

the Detroit Public School system. The responsibility of ensuring a high level of educational services ultimately rests with the State of Michigan. The Michigan Revised School Code is the controlling authority regarding the operation of public schools. The governance of public schools in Michigan is also provided for by state statute.

By virtue of the Michigan Home Rule City Act and the 1997 Detroit City Charter, the City Council is vested with the authority to enact local legislation and with certain other powers pertaining to the operation of the City. Similarly, the Mayor has been given the executive authority of City government. However, there are no provisions that permit the Detroit City Council, Mayor, nor city government as a whole to interfere with the affairs of the Detroit Public School system in the manner contemplated by this resolution. For this reason, I do not believe that the request that the Mayor commission a forensic audit of the Detroit Public Schools is a valid one.

As a practical matter, the City is under dire financial circumstances. We are facing potential budget shortfalls in the hundreds of millions of dollars and thousands of potential layoffs with increasing costs and steadily falling revenue. To spend a single cent of city funding under these circumstances in an attempt to malign an independent governing body would take the City to the peak of fiscal irresponsibility. This is especially true given that there are host of other mechanisms in place designed to hold the Detroit Public School system accountable. For example, anytime there is evidence of political corruption, the Michigan Attorney General is always free to launch an investigation, and if warranted, file suit.

Assuming for the moment that the City Council had the legal authority to request an audit of the school system, I have not been presented with any evidence whatsoever that would support such a request. In the Fall 2004 Report to the Community on the Capital Improvement Program, expenditures of the 1994 \$1.5 billion bond approval were detailed. It was indicated that of the \$1.5 billion, 49% was allocated to new construction, 20% to facility improvement projects, 11% to technology, 10% to major remodeling, 8% to support services, 1.5% to special education and only one half of one percent went to administrative costs. In this regard, eight new elementary schools were opened, six elementary and middle schools received major additions, two new middle schools were opened, three high schools will open in 2005 and two historic high schools are being completely renovated. Of all of the funds, 48% were committed to Minority Business Enterprises, and 72% were committed to Detroit Based Business Enterprises. Throughout this enormous

endeavor, community input was prioritized through the reconvening of the Community, Civic and Corporate Committee. Community meetings called Community Dialogues on School Modernization were held which provided valuable community input on the Capital Improvement Program.

On another note, it is imperative that the Council consider the potential unintentional consequences to this action. I certainly hope that the Republican-controlled State legislature does not use this resolution against the City and its school system. Be that as it may, the governing body of the City of Detroit has no authority over the operation of the Detroit Public School system. Even if it does, I have seen no evidence indicating any sort of misappropriation of public school dollars. Accordingly, I will not engage in this sort of political witch-hunt, and furthermore, will not vote in favor of expending scarce city resources in order to do so. For all of these reasons, I voted no.

**RESOLUTION SUPPORTING THE  
MAYORS FOR PEACE CAMPAIGN TO  
BAN NUCLEAR WEAPONS**

By COUNCIL PRESIDENT MAHAFFEY:

WHEREAS, Nuclear weapons are more threatening today than during the Cold War. Every day that nuclear weapons continue to exist on Earth is a day that courts catastrophe as was inflicted upon Hiroshima and Nagasaki in August 1945. Hundreds of thousands of people were killed instantly by the blast, fire and radiation effects of just two nuclear weapons, with health consequences that continue to this day, and

WHEREAS, More than 30,000 nuclear weapons exist in the world today, including tens of thousands left over from the Cold War between the US and the former Soviet Union. This despite the fact that the largest and oldest nuclear weapons states — the US, Russia, China, France and the UK — promised more than 30 years ago to eliminate their nuclear weapons when they signed the Nuclear Non-Proliferation Treaty (NPT) in 1970, and reiterated that promise at the conclusion of the NPT Review Conference in 2000. The proliferation of nuclear weapons to Israel, India, Pakistan and North Korea, and possible acquisition of products of nuclear weapons by non-state actors, has only increased the danger that nuclear weapons use or a full-scale nuclear war will take place deliberately or by accident, and

WHEREAS, The NPT process is in serious disarray. This makes little sense given the growing concern over nuclear, biological and chemical weapons proliferation. Meanwhile, the Nuclear Weapons States refuse to listen to a global majority of people who seek the total abolition of

all nuclear weapons, and

WHEREAS, The US has embarked on programs to develop a new generation of nuclear weapons, missile defenses, and space based weapons that could be used in pre-emptive wars such as the most recently launched against Iraq. This double standard is fueling nuclear proliferation rather than curtailing it. It is a violation of treaty obligations and international law. The International Court of Justice in 1996 concluded unanimously that governments are legally obliged to negotiate a complete prohibition of nuclear weapons under strict and effective international control, and

WHEREAS, Led by the mayors of Hiroshima and Nagasaki, the Mayors for Peace Emergency Campaign to Ban Nuclear Weapons has proposed a reasonable timetable for achieving a nuclear weapons free world by 2020, with negotiations to begin in 2005 and to conclude by 2010, with global disarmament implementation no later than 2020. NOW THEREFORE BE IT,

RESOLVED, That the Detroit City Council urges Kwame M. Kilpatrick, Mayor of Detroit to join the Mayors for Peace Emergency Campaign to Ban Nuclear Weapons, and to make a personal commitment, along with the City Council, to support the call for a nuclear weapons free world.

-----  
 STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN SUPPORT OF RESOLUTION AUTHORIZING SETTLEMENT IN LAWSUIT OF ROBERT CHARLES HAYWOOD VS. DONALD M. STREHL, P/R OF THE ESTATE OF DAVID KRAMER, DECEASED, CASE NO. 84-413369-CZ

On Monday, November 29, 2004, I voted in support of the resolution referenced above. The lawsuit was originally filed in April of 1984 for allegations of false arrest. Over the last twenty years, this case languished in the court system and was procedurally tossed back and forth between the 36th District and Wayne County Circuit Courts.

Via a memorandum dated November 12, 2004, the Corporation Counsel of the City of Detroit sought City Council's approval to settle this case for the amount of \$3,250,000.00. Based on information received by the Council in a privileged and confidential attorney-client communication, there were several issues that the Council wished to address with respect to the settlement of this case.

Article 6, Chapter 4 of the 1997 Detroit City Charter provides that the Corporation Counsel is the attorney for the City of Detroit and the City Council. In this instance, after reviewing all of the particulars of this case, it was the considered opinion of the Corporation Counsel that settlement of this case for the recommended amount was proper. Additional due diligence was done by the Council as well. Council received additional information that it had requested and a closed session on this matter was held November 29, 2004. It is important that Council acknowledge the Charter-derived

role of the Corporation Counsel as the City's attorney. In this regard, I concur with the opinion of the Corporation Counsel that settlement of this case is in the best interest of the City of Detroit and for all the reasons above, I voted yes.
