Re: Joe Louis Arena and Joe Louis Arena Garage — Lease Agreement and Parking Agreement with Olympia Entertainment, Inc.

The City of Detroit, as the landlord, and Olympia Entertainment, Inc., a Michigan corporation ("Olympia"), as the tenant, and the Detroit Red Wings Inc., a Michigan corporation ("Red Wings"), were parties to a certain Lease Agreement dated August 16, 1978, as subsequently amended in 1980 and again 1990 (collectively, the "Original Lease"), with respect to (a) Cobo Arena, located at 301 Civic Center Drive, Detroit, Michigan, and (b) the Riverfront Arena commonly known as "Joe Louis Arena" and located at 600 Civic Center Drive, Detroit, Michigan ("Joe Louis Arena"). The City and Olympia were also the parties to a certain Operating and Management Agreement for the Riverfront Arena Parking Facility dated August 16, 1978 (the "Original Parking Agreement") with respect to that certain multi-story parking structure commonly known as Joe Louis Arena Garage."

The Original Lease and the Original Parking Agreement expired on June 30, 2010. Olympia has continued to use and occupy Joe Louis Arena and has continued to operate and manage the Joe Louis Arena Garage since that date. The City, Olympia and the Red Wings are desirous of entering into a new lease with respect to Joe Louis Arena (the "New Lease"), and the City and Olympia are desirous of entering into a new agreement for the operation and management of the Joe Louis Arena Garage (the "New Parking agreement"), effective as of July 1, 2010. The City and Olympia are desirous of

resolving all claims either may have against the other related to the Original Lease and the Original Parking Agreement, and the New Lease and the New Parking Agreement up through their dates of execution (the "Mutual Waiver and Release").

The New Lease with respect to Joe Louis Arena will be for an initial term of five years, commencing as of July 1, 2010. It will expire on June 30, 2015 unless earlier terminated by the City or Olympia or as it may be extended by Olympia for up to five more years. Annual rent will be \$1 million, to be offset in whole or in part by real property taxes or their equivalents paid by Olympia in each year. The New Lease will be substantially in the form of the "Sublease of Riverfront Arena between the City of Detroit, Olympia Entertainment, Inc. and the Detroit Red Wings, Inc. attached hereto as Exhibit A. The New Parking Agreement for the operation and management of the Joe Louis Arena Garage will be coterminous with the New Lease, and will be substantially in the form of the "Operating and Management Agreement between the City of Detroit and Olympia Entertainment, Inc. for the Riverfront Arena Parking Facility (Joe Louis Arena Garage)" attached hereto as Exhibit B.

Termination under this Section 2.3 shall be effected by written notice thereof by the party entitled to exercise such right to the other party and shall be effective on a date specified therein not earlier than thirty (30) days after the delivery thereof, unless prior to such date the circumstances giving rise to such notice have changed to such extent that, had such change taken place before delivery of the notice, delivery thereof would not have been justified Such termination under this Section shall not result in liability on the part of any party.

Olympia shall be entitled to a credit against the Rent payable in each Lease Year of the Term for then-current ad valorem real property taxes or any payments in lieu thereof under Act No. 189 of the Public Acts of 1953, as amended, levied or assessed by the City, Wayne County, State of Michigan, school district, or other governmental body (including administration fees required by applicable state law but exclusive of penalties or interest), on all or part of the Riverfront Arena (the "Real Property Taxes"), and billed by the City or the Wayne County Treasurer on the December 1 and July 1 immediately preceding the dates on which each semiannual payment of Rent is due, so long as and to the extent actually paid by Olympia. Other City Taxes shall be deemed not include any sales, income tax, personal property taxes assessed or levied against Olympia's personal property, utility users tax levied against Olympia or other taxes of general applicability.
- (d) Notwithstanding the foregoing, (i) during the Lease Year in which this Term ends, Rent shall be prorated on a per diem basis and (ii) during the Lease Year in which this Term ends, Real Property Taxes and Other City Taxes shall be appropriately prorated (with Real Property Taxes and Other City Taxes being prorated between Olympia and the City as of the end of the Term on a due date basis). 8.10 Insurance Market Availability.

The parties acknowledge and understand that the availability of certain insurance coverages at reasonable prices is subject to market conditions prevalent at the time such coverage is being sought. In that regard, the parties agree that the aforestated specific requirements for types of insurance and limits of liability are subject to the market availability of such insurances in such amounts at reasonable prices. In the event certain such insurance coverages or limits of liability become unavailable at reasonable prices, the aforestated specific requirements for insurance coverages will continue in effect until Olympia and the City can, by mutual good faith negotiations, arrive at mutually agreeable specific requirements for insurance coverages.

In any event, none of Olympia, the Red Wings or the City shall be required to provide any additional funds in excess of the available insurance proceeds in order to repair and restore the Riverfront Arena to substantially the same condition as it existed immediately prior to the loss or damage.

ARTICLE 9. **EMINENT DOMAIN**

If the whole or part of the Riverfront Arena is taken for a public purpose under the power of eminent domain or is voluntarily conveyed for a public purpose for which it might be so taken or is taken in a condemnation proceeding, such that the Riverfront Arena cannot, as reasonably determined by Olympia or the Red Wings, as the case may be, be used for the presentation, staging, promotion, co-promotion, or the like of various sports, entertainment and other events, then this Lease may be terminated by Olympia without liability on account of such termination and none of Olympia, the Red Wings or the City shall have any further rights or obligations under the Lease accruing from and after the date of such termination. In the event of any eminent domain by the City or any agencies, affiliates or departments thereof, or any other condemning authority or entity, including that which results in the termination of this Lease by Olympia as aforesaid, Olympia and the Red Wings shall each be entitled to seek and retain any and all damages, awards and/or relief available to Olympia and/or the Red Wings under Laws and/or in equity arising out of or in connection with such eminent domain.

In the event of a taking of all or part of the Riverfront Arena for temporary use, the immediately preceding provision shall continue to apply and Olympia and the Red Wings shall be entitled to file and prosecute any claim against the condemnor for damages and to recover the same for any negligent use, waste or injury to Riverfront Arena throughout the balance of the term of this Lease. To the extent that Capital Items are necessary, as determined in good faith by mutual agreement of Olympia and the City, the cost of such Capital Items shall be allocated between Olympia and the City as determined in good faith by mutual agreement of Olympia and the City; provided, however, in the event that Olympia and the City are unable to agree upon the allocation of the cost for such Capital Items within ninety (90) days (or such shorter period as may be required in the event of an emergency) after either party has been notified by the other party of the need for such Capital Items, then either party shall have the option to terminate this Lease by at least thirty (30) days' prior written notice to the other party to that effect (provided, however, the City shall have no right to terminate this Lease unless such Capital Items constitute Catastrophic Capital Items), in which event, none of Olympia, the Red Wings or the City shall have any further rights or obligations under this Lease accruing from and after the date of such termination. In the event that Olympia and the City are unable to agree upon the allocation of the cost of Capital Items within said 90-day period and neither party elects to terminate this Lease, then neither party shall have any obligation to make or pay for such Capital Items. Nothing contained herein shall be interpreted to mean that any Repairs or Maintenance to any portion of Riverfront Arena which become damaged by third parties or by fire or other casualty, shall be included in Olympia's Repair obligations.

(b) Notwithstanding anything contained in this Lease to the contrary, to the extent that any Maintenance or Repairs are necessitated by reason of any City Event and/or any negligence or willful misconduct of the City or its agents, contractors or employees, the cost of such Maintenance or Repairs shall be at Olympia's option after notice to the City. either (i) promptly performed by the City in a good and workmanlike manner or (ii) performed by Olympia and reimbursed for the actual and out-of-pocket costs thereof by the City within thirty (30) days after Olympia's written notice therefor (except to the extent covered by the proceeds of any property insurance maintained by Olympia). Olympia shall have the right upon written notice to the City to set-off and/or reduce the payment of any Rent to the City by an amount equal to the actual and out-of-pocket costs incurred by Olympia for said Maintenance and/or Repairs. Olympia shall cause Maintenance and Repairs required to be performed by Olympia under this Article 10 to be performed promptly and diligently, and in a good and workmanlike manner.

(c) Olympia shall promptly notify the City (orally first, then by written notice if written notice is not practicable) whenever Olympia knows of or discovers any material damage to, or destruction of any part of Riverfront Arena that is the responsibility of the City to repair and/or restore under the terms and conditions of this Lease.

10.2 Easements.

During the Term of this Lease, the City acknowledges and agrees that Olympia shall have the non-exclusive right to use the Easements for their intended purposes. During the Term of this Lease, Olympia shall assume the obligations of the City with respect to the Easements, including, without limitation, the direct payment to the Cobo Authority of all separately metered charges for the provision of chilled water to the Riverfront Arena in accordance with the terms and conditions of Exhibit M to the Cobo Lease. Notwithstanding the foregoing, the City, at its expense, hereby agrees to enforce the Easements, including, without limitation, the enforcement of any third parties' obligations thereunder.

10.3 City's Right of Inspection.

The City shall be entitled to inspect the Riverfront Arena not more frequently than on a monthly basis, upon ten (10) days' prior notice to Olympia for the purpose of ensuring compliance with Laws and the terms of this Lease.

Notwithstanding the foregoing, however, nothing herein contained shall limit or affect the right and duty of the City or any of its departments or agencies to carry out any inspections which would normally be required of any similar facility in the City of Detroit in enforcing any lawful codes, health regulations or any other lawful ordinance, law or regulation affecting the public health, safety and welfare. Likewise, nothing herein contained shall limit or affect the right and duty of the City or any of its departments or agencies to request or demand that any Maintenance be performed by Olympia if such request or demand is made pursuant to any lawful codes, health regulations, or any other lawful ordinance, law or regulation affecting the public health, safety or welfare.

10.4 Surrender of Riverfront Arena.

- (a) At the expiration or earlier termination of the Term, Olympia shall surrender the Riverfront Arena in at least the Existing Condition, excepting reasonable wear and tear, damage by casualty and repairs and replacements which are the obligation of the City under this Lease (including, without limitation, as set forth in Section 8.12 above), together with any Improvements which Olympia is not permitted to remove and/or relocate hereunder.
- (b) All of the Olympia Property shall remain the sole property of Olympia. Upon the expiration or earlier termination of this Lease, notwithstanding anything contained herein to the contrary, Olympia shall have the right to remove all Olympia Property from the Riverfront Arena. All damage to the Riverfront Arena occasioned by such removal shall be promptly repaired by Olympia at its expense.

ARTICLE 11. CITY'S RIGHTS TO USE RIVERFRONT ARENA

During the Term, the City will have the following rights regarding the use of the Riverfront Arena:

11.1 Suites.

The City reserves for itself, and Olympia will provide to the City, without payment of fees or any other consideration therefor, the use of Suite #21 within the Riverfront Arena and tickets for all seats in such suite, which suite, in no event, shall include less than twelve (12) seats, for all events in the Riverfront Arena to the same extent as such tickets are provided to all suite holders at Riverfront Arena.

During any such City use of the Riverfront Arena for a City Event, the City will be required to obtain and provide a certificate of commercial public liability insurance in accordance with the terms, conditions of the public liability insurance required under Section 8.2 of this Lease (or a certificate of self-insurance in form reasonably acceptable to Olympia), covering City's use, management and operation of any City Event at the Riverfront Arena, which insurance shall name Olympia as an additional insured thereon. The City shall notify Olympia at least ninety (90) days in advance of any City Event (or such shorter period of time as is mutually agreed upon by Olympia and the City), which notice will allow Olympia to reach a good faith estimate of managerial and operational costs that may be incurred as a result of such City Event, including, without limitation, the cost of any utilities attributable to such City Event and coordinate with Olympia in the scheduling of all such events so as not to interfere with Olympia's rights and duties under this Lease. Within thirty (30) days after receipt of such notice Olympia may preempt the right of the City to use the Riverfront Arena for a City Event upon advising the City that it reasonably believes that the proposed City Event will adversely affect the integrity of the Playing Surface, or that the proposed City Event cannot be held due to a conflict with a previously scheduled event or use of the Riverfront Arena or with the preparation or cleanup of the Riverfront Arena for such events, or that the event is for a purpose not permitted by this Lease. The failure by Olympia to so notify the City shall be deemed an affirmative statement by Olympia that it reasonably believes that the proposed City Event will not harm the integrity of the Playing Surface, that no such scheduling or other conflict exists, and that the event is for a purpose permitted by this Lease. If Olympia does not so notify the City, within thirty (30) business days after receipt of the notice from the City provided for in this Section, Olympia shall provide the City with a good faith estimate of managerial, operational, maintenance, utility and any other costs which will be incurred by Olympia as a result of any City Event.

Any such Improvements shall be performed in a first class workmanlike manner. If plans and specifications are necessary or customarily prepared in the making of the Improvements to Riverfront Arena, Olympia shall cause such plans and specifications to be prepared and will furnish copies thereof to the City prior to the commencement of the Improvements. Olympia further agrees that before the commencement of Improvements to Riverfront Arena, it will file such plans and specifications and obtain all required approvals from the appropriate governmental authorities. The originals of all such approvals, authorizations, permits and consents of governmental authorities shall be delivered to and retained by Olympia, but shall be available to the City for inspection upon request. Any consents by the City shall not operate or be construed as a consent by the City for the purpose of consenting to the filing of any lien or making any charge of any kind whatsoever against the City. All Improvements shall be done subject to and in accordance with all Laws. Olympia shall procure and maintain such bonds and other forms of indemnification, if any, as the City may reasonably require in connection with the Improvements to Riverfront Arena.

13.4 <u>City Ordinances and Executive</u> Orders.

During the Term of this Lease, Olympia agrees to comply with all lawful Executive Orders, Ordinances and other municipal requirements of the City (collectively, "Orders"); provided, however, Olympia shall not be required to comply with any of the Orders which have been determined to be unlawful or have been terminated, and the obligation of Olympia to comply (or require compliance with) the Orders shall be notified to the extent that the Orders are terminated or are amended or modified to provide less stringent requirements

13.5 Certain Contracts.

Olympia shall have the exclusive right to negotiate with any vendors or purveyors to the Riverfront Arena, which it shall choose in its absolute discretion, and to enter into contracts for services or goods for the Riverfront Arena. Furthermore, and without limiting the foregoing, Olympia shall have absolute and complete control over, and the sole and exclusive rights to, all ticket services, providing of sound equipment and services, providing of janitorial services and concessions, concessionaires and concession sales of any type or form whatsoever, in the Riverfront Arena. Olympia shall require that all contractors hired by Olympia or the Red Wings in connection with the Riverfront Arena comply with the provisions of this Article 13 and maintain adequate and sufficient insurance coverage.

The City shall use its reasonable efforts at all times during the Term of this Lease to assure reasonable access to events taking place at Riverfront Arena by patrons attending said events. Notwithstanding anything contained in this Lease to the contrary, Olympia shall in no event be entitled to any money damages by reason of any City Default under terms and conditions of this Section 14.1.

14.2 Police Services.

The City shall fulfill its public duty to provide normal City of Detroit police services for all events taking place at the Riverfront Arena and any special City of Detroit police services, which are reasonably requested by Olympia for events taking place at the Riverfront Arena beyond the normal City of Detroit services provided to the extent Olympia deems such additional police services necessary for the safety and well-being of the attendees of the Riverfront Arena. As compensation for such additional police services, commencing on the Effective Date and continuing through the remainder of the Term (including any Extension Terms) of this Lease. Olympia shall make semi-annual payments of \$50,000 each (for a total of \$100,000 per annum) to the City (each, a "Security Payment," and collectively, the "Security Payments")), with all Security Payments being payable at the same time as Olympia pays Rent under this Lease (with Security Payments for any partial year being prorated on a per diem basis); provided, however, if the total of the Security Payments paid by Olympia during the Initial Term of this Lease is less than Two Hundred Fifty Thousand and 00/100 Dollars (\$250,000.00) (the "Initial Security Payments"), then the entire balance of the Initial Security Payments (i.e., the amount by which \$250,000 exceeds the Security Payments actually paid by Olympia during the Initial Term) shall be paid by Olympia to the City within thirty (30) days after the expiration or earlier termination of the Initial Term. It is the express intent of the parties that no provision of this Lease be deemed a waiver of the City's governmental immunity for tort liability. Notwithstanding anything contained in this Lease to the contrary, Olympia shall in no event be entitled to any money damages by reason of any City Default under terms and conditions of this Section 14.2.

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

City Planning Commission

February 17, 2014

Honorable City Council:

Re: Modification of Planned Development (PD) zoning district in the Elmwood Park #3 Urban Renewal area at 1300 McDougall Drive to allow for the construction of the 82-unit VOA Bradby Place Apartments (Recommending Approval).

The City Planning Commission (CPC) staff has received a site plan review application from Fusco. Schaffer and Pappas Inc. on behalf of Volunteers of America, for the review of a project in a PD (Planned Development) zoning district. The subject site is located south and west of Robert Bradby Drive and north of Lafayette Street. This review is different than that customarily followed in a PD district, because the property is also in an Urban Renewal area (Elmwood Park #3) and the Project Plan supports the PD where there is not a previously approved site plan - hence an ordinance is not required: Council action may be taken via resolution.

The initial CPC review of this development took place its October 3, 2013 meeting. The design of the project was substantially changed since the October presentation, addressing the aesthetics and to type and configuration in order that no more than a minor modification to the Elmwood Park Urban Renewal Plan would be required. These changes due in large part to the suggestions of Planning and Development Department (PDD). Two of the remaining members of the Elmwood Park Citizen's District Council reviewed the proposal on February 2, 2014.

PROPOSED DEVELOPMENT

In response to the various concerns raised when this matter was first presented to the CPC, the request was changed from a 65 unit, three-story apartment building and 20 units in 4 "cottage"/single-family four and six-unit attached one (1) story structures. The revised proposal is for a three (3) -story independent senior living apartment building with a mix of 55 one bedroom units and 27 two bedroom units for a total of 82 units, all for independent living for seniors.

The Elmwood Park 3 Urban Renewal Plan designates the site as medium density residential, where apartments and townhouses can be allowed. The plan as

revised provides 51 parking surface spaces (including 20 in carports) for the apartments, for a ratio of 0.6 spaces/unit, which is an average between the requirements of the Development Plan (.33 cars/unit) and the Zoning Ordinance (.75 cars/unit). The parking lot has been consolidated and condensed to a smaller area to serve fewer cars from the initial proposal. The accessible parking is located adjacent to the drop off area, giving mobility to impaired residents and visitors easy and quick access to front door.

The entrance to the apartment building would be from the north-west. To the west of the site exists a public greenbelt with a walkway. Interior to the site and adjacent to the apartment building courtyard would be an open area of grass and trees with two (2) rain gardens. Substantial land-scaping is shown on the southern edge of the site, screening the development from the existing residential to the south.

Access to the parking lot would be from Bradby Drive on the north. Access for services such as deliveries, emergency vehicles, rubbish removal and truck access are provided via the service entrance on the south side of the building. The total paving area has been significantly reduced from the last submission. The site is proposed to be enclosed with a five-foot tall, wrought-iron style fence. The gate at the entrance to the parking lot would be controlled via access cards.

The proposed buildings in this place of the development will occupy approximately 15% of the available land area, with a 42% Floor to Area Ratio (FAR). The building footprint area has been reduced substantially from the original submission, providing more open space on the site.

The proposed storm drainage system will be designed using "green infrastructure". Building roof and surrounding area storm water will be stored and treated at a series of rain gardens sized for the first-flush event, prior to being discharged to a conventional storm system. Entry-side parking and grade drainage will be served by catch basins furnished with traps. The storm water system will drain to the existing storm water outlet at the Northwest corner of the project site and be sized for the 10-year storm event per DWSD requirements.

The building is primarily clad in a reddish brick with 8 inch horizontal hardisiding. The upper story units have balconies and the ground-floor units would have a small patio area. The drop-off area for the main entrance is covered. The roof-line from the rear was previously unbroken, but this has fortunately been revised to a flat roof with elevation changes. While the style of design does not match some of the adjacent developments it does match the high-rise tower to the west and structures in the greater

APPROVAL CRITERIA

The following are the relevant site plan approval criteria from Sections 61-3-151 through 61-3-167, with staff analysis following in italics.

Sec. 61-3-152. Compliance with master plan. The Master Plan designation is Medium Residential, which appears appropriate.

Sec. 61-3-157. Surroundings.

All elements of the site:

(1) Shall be harmoniously and efficiently designed in relation to the topography, size, and type of lot and in relation to the topography of the surrounding neighborhood; and

(2) Shall be consistent, to the extent practicable, with the character of the adjacent sites and buildings and of the surrounding neighborhood. The PDD feels that the modified design is more consistent than the previous proposal.

Sec. 61-3-158. Open spaces, land-scaping, screening, and buffering. The type, dimensions, and character of open spaces, landscaping, screening, and buffering shall enhance the design, character, use, and value of the property and abutting lands. There appears to be an appropriate amount of open space and landscaping. The screening of the parking from the adjacent road has been addressed in part by a 30 inch high evergreen hedge.

Sec. 61-3-160. Aeshetics. To the extent practicable, the type, dimensions, and character of open spaces, landscaping, earth berms, fencing, screening, buffering, signs, walls, and other site features shall be designed and located on the site so that the proposed development is aesthetically pleasing and harmonious with nearby existing or future developments. The site features appear to be appropriate.

The following are the relevant PD District design criteria from sections 61-11-15, with staff analysis following in italics.

- (b) Scale, form, massing, and density. Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development. While the density is relatively unchanged from what was previously proposed, at the request of the PDD the form has been made more urban and that form is generally perceived as more dense.
- (c) Compatibility. The proposed development should be compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity. *The*

use and function seem compatible. The appearance is discussed above.

- (j) Screening. Appropriate buffering and screening of service, loading, refuse collection, mechanical and electrical equipment and of parking areas should be provided. Parking along the street is buffered. The dumpsters are enclosed in a masonry enclosure. Interior landscaping of the parking lot has been added.
- (t) Urban renewal areas. In addition, in urban renewal areas, the preliminary site plan must conform to the design criteria as stated in the adopted Urban Renewal Development Plan and the Declaration of Restrictions, except as may have been authorized as a minor deviation by the Board of Zoning Appeals in accordance with Sec. 61-2-53 and Sec. 61-4-3. The Planning and Development Department (PDD) has determined that the revised proposal while more compliant than the previous version will require review as a minor deviation.

ANALYSIS

At the October 3 discussion on this matter, several questions were raised. These included the walkability of the site, which has been improved with a path around the rain garden to the south. Also discussed was the inclusion of sustainable concepts, which has been substantially strengthened with the rain gardens. Other measures were presented by the petitioner at the discussion. The scale of the development is 17 units/acre, a relatively low density, and this triggers the minor modification process. The roofline of the building has been improved through elevation changes. The removal of the "cottages" creates the impression of a denser more urban development.

When the matter returned to the CPC on January 23, 2014, the adequacy of the parking was discussed. The Commission felt that an increase in the parking provided by a minimum of eight (8) spaces was warranted.

RECOMMENDATION

The developer has worked to address the concerns raised by PDD staff and by the CPC. The minor deviation from the development plan created by the lowerthan-required density will necessitate the approval of the Board of Zoning Appeals. The CPC took action at its January 23, 2014 meeting to approve the proposed development, acknowledging that a parallel approval by the BZA will be required prior to City Council's approval, with the condition that eight (8) additional parking spaces be added.

Respectfully submitted, LESLEY C. CARR Chairperson DAVID D. WHITAKER Interim Director Legislative Policy Division GREGORY F. MOOTS

By Council Member Leland:

Whereas, The City Planning Commission has received a site plan approval application requesting the approval of the construction of the 82-unit VOA Bradby Place Apartments at 1300 McDougall Drive, on land zoned PD (Planned Development); and

Whereas, The site is subject to the site plan review approval criteria from Sections 61-3-151 through 61-3-167 and the PD District design criteria from sections 61-11-15 of the Zoning Ordinance of the City of Detroit; and

Whereas, In the PD zoning district classification, site plan review is required for all uses in the PD District, and in urban renewal areas, the City Council approves those site plans; and

Whereas, The City Planning Commission took action at its January 23, 2014 meeting;

Now, Therefore, Be It Resolved, That the Detroit City Council approves the plans for the construction of the 82-unit VOA Bradby Place Apartments at 1300 McDougall Drive prepared by Fusco Shaffer and Pappas and dated February 10, 2014 with the following conditions:

- 1. that the eight (8) additional parking spaces be added to the site plan as reviewed by the City Planning Commission
- That final site plans be reviewed and approved by City Planning Commission staff prior to the issuance of building permits.

Detroit Brownfield Redevelopment Authority

March 19, 2014

Honorable City Council:

Re: Amended and Restated 3800

Woodward Brownfield Redevelopment Plan.

The enclosed Brownfield Plan for the Amended and Restated 3800 Woodward Redevelopment Project (the "Plan") (Exhibit A), was submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC"). The Plan was considered and reviewed by the CAC at its December 12, 2013 meeting, where a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the DBRA was approved. A public hearing was held by the DBRA on January 8, 2014 to solicit public comments. The Committee's communication to the City Council and the Authority, dated December 12, 2013 (Exhibit B), recommending approval of the Plan including the minutes of the public hearing held by the Authority on January 8, 2014 are

March 12, 2014, the Authority adopted a resolution (Exhibit C) approving the Plan and authorizing the submission of a copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

enclosed for the City Council's considera-

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

tion.

Midtown Properties, LLC is the project developer (the "Developer"). The Plan entails a newly constructed building and the redevelopment of a two-story building for a total of 195,000 square feet of mixed use space. The Plan also includes construction of a 648 car parking deck. This state-of-the-art facility will include office and medical facilities as well as retail and restaurant space. Total investment is estimated to be \$73,000,000.

The Michigan Economic Development Corporation has expressed a willingness to amend a Michigan Business Tax credit that was approved for the original 3800 Woodward Brownfield Redevelopment in June, 2011. It is currently anticipated that the credit will be \$10,000,000.00 on an eligible investment of \$50,755,702.00.

The Developer is requesting Tax Increment Financing ("TIF") reimbursement of \$8,175,302.00.

Property Subject to the Plan

The property comprising the Amendment (the "Property") consists of one parcel located 3800 and 3750 Woodward Avenue, generally bounded by East Alexandrine Street to the north, John R Road to the east, Mack Avenue to the south, and Woodward Avenue to the west in Detroit's Midtown District.

Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized or is currently utilized for a commercial use; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be a facility in accordance to Part 201 of PA 451.

Eligible Activities and Projected Costs

The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, because they include environmental site assessments, site preparation and demolition, asbestos abatement, preparation of an Act 381 combined Brownfield Plan, infrastructure and interest costs. The eligible activities and budgeted costs are intended as part of the development of the Property and will be financed solely by the Developer. The Authority is not responsible for any costs of eligible activities and will incur no debt. It is currently anticipated that construction will begin in the spring of 2014 and eligible activities will be completed within two (2) years.

Tax Increment Financing (TIF) Capture

The Developer desires to be reimbursed for the costs of eligible activities. Tax increment revenue generatd by the Property will be captured by the DBRA and used to reimburse the cost of the eligible activities completed on the Property after approval of this Amendment pursuant to the terms of a Reimbursement Agreement with the DBRA.

Re: Address: 2400 Ferris. Name: Fannie Mae. Date ordered removed: April 24, 2008 (J.C.C. pg. 822).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 6, 2014 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- 1. A permit for rehabilitation work shall be obtained within 30 days.
- 2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:
- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties
- 3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Department of Public Works Administration Division

March 20, 2014

Honorable City Council:

Re: Resolution endorsing an application to the Federal Transportation Administration for a construction grant under the TIGER 4 program to complete the Inner Circle Greenway.

In 2006, the City of Detroit, adopted a Non-Motorized Transportation Master Plan. Since that time there have been numerous additions to the City's growing network of non-motorized pathways, including the expansion of the Riverwalk, the opening of the Dequindre Cut, and the implementation of 137 miles of bike lanes or paths. Current projects include 17 additional miles of bike lanes and the Link Detroit Multimodal Enhancement Plan including Dequindre Cut North, which will expand the existing cut from Gratiot to Mack, the completion of these projects are only the beginning of an important opportunity for the City; to utilize existing abandoned railways to create a circular non-motorized path entirely around the City's core. This concept has been identified as the Inner Circle Greenway project.

Essential to the realization of this project is the construction of a non-motorized pathway that will follow in part an existing abandoned railroad line formerly known as the Detroit Transfer Rail Road which stretches from a point near the intersection of Joseph Campau and McNichols, east to Intervale, and then south to Lonyo, a total distance of more than eight miles. Other sections, some of them already completed will form the roughly circular path, a map of which is provided as an attachment to this communication.

It is fully understood that the City is not in a position to financially underwrite the cost of this construction. To make the creation of this non-motorized trail possible the City will apply for a grant from the United States Department of Transportation (USDOT) under a program know as TIGER Discretionary Grants (TIGER FY 2014).

It should be emphasized that it is not just construction that will be funded without any City cost. The entire project including land acquisition (already funded through a Federal Transportation

Alternative Program and Michigan Department of Natural Resources Trust Fund grant) construction and maintenance, will be funded, utilizing the successful model employed in the past for the Riverwalk and Dequindre Cut projects.

In order to make the necessary application to the USDOT, an endorsement by the City Council is required. For this purpose we have attached an proposed resolution, and we request that the City Council would take timely favorable action on this resolution so that we will meet the April 28, 2014 deadline for submittal.

Respectfully submitted, RON BRUNDIDGE Director

Department of Public Works By Council Member Benson:

WHEREAS, The City of Detroit adopted a Non-Motorized Transportation Master Plan ("Master Plan") in June 2006; and

WHEREAS, The Master Plan contemplated that the City would from time to time take advantage of opportunities that might occur to acquire abandoned railroad rights of way for re-use as non-motorized pathways commonly known as Greenways, and

WHEREAS, The City is in the process of acquiring a portion of the line that was once known as the Detroit Transfer Railroad ("DTRR") that will be added to other sections already in existence to form a circular non-motorized path known as the Inner Circle Greenway, and

WHEREAS, Construction of this Inner Circle Greenway can only be accomplished with the assistance of a grant from the TIGER FY 2014 program of the United States Department of Transportation (USDOT).

NOW, THEREFORE BE IT

RESOLVED That the City, acting by and through the City Council, authorizes the Department of Public Works to submit an application to the USDOT for the purpose of seeking a grant to be used by the City to construct the Inner circle Greenway.

AND BE IT FURTHER

RESOLVED, That the City Council hereby expresses its support for the construction of a Greenway that, along with other pathways that have already been developed or that are in the planning stage, will form a roughly circular, non-motorized route throughout neighborhoods on both the east and west sides of the City.

BUDGET, FINANCE, AND AUDIT STANDING COMMITTEE Law Department

April 2, 2014

Honorable City Council:

Re: Proposed Ordinance to Amend Chaper 18, Article XII of the 1984 Detroit City Code to add Division 7, titled "Special Assessments for Snow Removal, Mosquito Abatement, and Security Services", to specifically implement the provisions of Section 5i of the Home Rule City Act, MCL 117.5i, which grants the power to "provide by ordinance a procedure to finance by special assessments the provision by private contractors of snow removal from streets, mosquito abatement, and security services [and] authorize the use of petitions to initiate the establishment of a special assessment district."

The Law Department has received information that, at its April 2, 2014 meeting, your Honorable Body's Budget, Finance and Audit Standing Committee approved the proposed ordinance referenced above, and recommended that it be introduced and a public hearing be set.

The proposed ordinance had been under consideration by the Standing Committee without it having been approved as to form, apparently to accommodate any potential revisions to the ordinance. However, the information provided to us indicates that the Standing Committee did not make any revisions to the ordinance. Accordingly, I have

enclosed the ordinance as submitted to and approved by the Standing Committee, with my signature approving it as to form.

> Respectfully submitted, MELVIN B. HOLLOWELL Corporation Counsel

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 18 of the 1984 Detroit City Code, titled "Finance and Taxation," Article XII, titled "Improvements and Assessments," be amended by adding Division 7, titled "Special Assessments for Snow Removal, Mosquito Abatement, and Security Services". Subdivision A. "General Matters", Sections 18-12-120, 125, 18-12-126, 18-12-127, and 18-12-128, Subdivision C, "Establishment of District and Assessment". Sections 18-12-130, 18-12-131, 18-12-132, 18-12-133, 18-12-134, 18-12-135, 18-12-136, 18-12-137, 18-12-138, 18-12-139, 18-12-140, 18-12-141, and 18-12-142, and Subdivision D, "Contracting for Provision of Services", Sections 18-12-145 to 18-12-146, to read as follows:

DIVISION 7. SPECIAL ASSESSMENTS FOR SNOW REMOVAL, MOSQUITO ABATEMENT, AND SECURITY SERVICES

Subdivision A — General matters
Section 18-12-120. Statement of purpose; legislative findings.

(a) The purposes of this division are to implement the provisions of section 5i of the Home Rule City Act codified as MCL 117.5i (the "Act"), which grants cities

with a population of more than 600,000 the power to "provide by ordinance a procedure to finance by special assessments the provision by private contractors of snow removal from streets, mosquito abatement, and security services" and to "authorize the use of petitions to initiate the establishment of a special assessment district."

(b) The Detroit City Council finds:

(1) The population of the City of Detroit exceeds 600,000.

(2) Adequate provision of snow removal from streets, mosquito abatement and security services will strengthen property values and enhance the quality of life in City neighborhoods; however, the cost of such services may be above and beyond the basic level of services the City must provide to all of its citizens.

(3) The various geographic communities within the City will benefit by allowing the geographic communities to decide the appropriate level of additional services to

provide and pay for themselves.

(4) As a matter of fundamental fairness, those benefiting from such additional services should share in the cost of the services; this principal has been recognized in the Act, which provides for the financing of certain additional services by special assessment, as, by its legal nature, the cost of a special assessment is limited to the level of benefit provided by the services financed through the special assessment, and only properties so benefited are subject to assessment. The increased level of benefits provided under this division will be reflected in the enhanced value of the properties so benefited.

(5) There are many neighborhood or community associations within the City of Detroit actively working to maintain and improve the quality of life in their communities.

(6) The close involvement with their communities enables neighborhood or community associations to be responsive to the particular needs and desires of their communities, which may vary from community to community.

(7) In light of the findings above, designated neighborhood or community associations are an appropriate vehicle for the practical implementation of the powers provided in this division to finance, contract for, and deliver the specified additional services authorized by the Act.

(8) In accordance with the Preamble and Declaration of Rights of the City Charter, implementation of this division will help the City realize its goals of addressing the services and needs of its citizens, fostering an environment and structure that reflects citizen participation and desires, and, as a service institution, providing for the public peace, health, and safety of its residents.

Section 18-12-121. Definitions.

<u>"Administering Department"</u> means the Finance Department of the City of Detroit.

"Assessed Cost" means the total annual cost to be paid by special assessment for the provision of all Services within a Special Assessment District, including amounts paid directly to private contractors and any reasonable costs incurred by the City and/or Designated Neighborhood Improvement Organization for initiating, implementing, and administering the Special Assessment District.

"Tax Parcel Share" means the total annual amount assessed throughout the Term of a SAD to each Tax Parcel within a SAD for the provision of all Services. Tax Parcel Share for a Tax Parcel is determined annually for each year of the Term so that each Tax Parcel will pay an even share of the total annual assessment by dividing anticipated Assessed Cost for that year in accordance with Section 18-12-134 by the total number of Tax Parcels within a SAD (excluding those that are exempt pursuant to Section 18-12-136), pursuant to the following formula:

Tax Parcel Share = Assessed Cost ÷ Total Number of Non-Exempt Tax Parcels within SAD

"Term" means the duration of a SAD created pursuant to this division, and shall be as specified in the City Council's resolution pursuant to Section 18-12-132(a)(6), but shall not be less than seven (7) years. The Term of a SAD shall commence from the date of the City Council's confirmation of a special assessment roll pursuant to Section 18-12-133. A Term may be discontinued pursuant to Section 18-12-141 prior to its expiration. Any reassessment pursuant to Section 18-12-134 shall not affect the Term of a SAD.

Section 18-12-122. Certification of a neighborhood organization as a Designated Neighborhood Improvement Organization.

A neighborhood organization may apply to the Administering Department for certification as a DNIO by demonstrating in writing that it meets the definition of a DNIO in Section 18-12-121. The Administering Department shall require the applicant to submit appropriate documentation to assist in its evaluation. The Administering Department may request assistance from other departments or agencies, including but not limited to the Law Department, the Planning & Development Department, the City Planning Commission, and the City

Council Legislative Policy Division. Based on its review of the documentation submitted by the applicant, the Administering Department shall determine whether the applicant meets the definition of a DNIO in Section 18-12-121. Upon completion of evaluation, the Administering Department shall provide a letter to the applicant either certifying that the applicant is a DNIO or indicating the deficiencies in the application. If a neighborhood organization fails to qualify as a DNIO, it may reapply for certification after curing any deficiencies identified in the letter. The Administering Department shall keep a register of all DNIO's and shall provide a copy of such register and of all certification letters to the City Clerk.

Section 18-12-123. Administrative Rules; Fees.

- (a) In accordance with Section 5-106 of the 2012 Detroit City Charter, the Administering Department may adopt rules for the implementation and administration of this division.
- (b) In accordance with subsection (a) of this Section and Section 9-507 of the 2012 Detroit City Charter, the Administering Department may establish a schedule of fees for the services provided by the City under this division. The schedule and rules may require that all such fees be paid in advance of provision of the service, or may provide that some or all of such fees may be deferred until establishment of the SAD. Such fees are eligible expenses of the Assessed Cost of the SAD.

Section 18-12-124. Reserved. Subdivision B — Petition Section 18-12-125. Petition sponsored by a Designated Neighborhood Improvement Organization.

In accordance with this division, a DNIO may, on behalf of the neighborhood or community it represents, sponsor a petition for the creation of a SAD to provide for Services within its geographic boundaries. If a group of residents wishes to circulate a petition under this division, they may form a DNIO solely for the purpose of petitioning to create a SAD under this division and administering the contracts for Services. The geographic boundaries of a proposed SAD need not be contiguous, but may be composed of only the area or portion thereof constituting the DNIO's specific geographic boundaries.

If a DNIO desires to sponsor more than one Service at a time, it may combine the information related to all proposed Services on one petition. In such a case, only one signature per Record Owner of a Tax Parcel is required despite the number of Services reflected on a petition.

Section 18-12-126. Form of petition; information to be provided with petition.

- (a) The Administering Department shall prepare a form of petition to be used to initiate a SAD described in this division and shall make the form available upon request to any certified DNIO. The form of petition shall provide for the inclusion of all of the following information at the top of each sheet:
- (1) The name and address of the DNIO associated with the petition and contact information for one or more DNIO representatives.
- (2) A description of the geographic boundaries of the proposed SAD.
- (3) A description of the Services to be funded by special assessment.
- (4) A preliminary estimate of the Assessed Cost for the Services described in paragraph (a)(3). The estimate shall be based in part on the DNIO's acquisition of three (3) estimates of the costs of providing the Services to be paid by special assessment. Such estimates shall be from contractors licensed to conduct business in the City of Detroit under all applicable laws.
- (5) The estimated Tax Parcel Share for the Services to be provided within the proposed SAD. The petition shall state that the estimated Tax Parcel Share may change after a Record Owner signs the petition and that any such change shall not impact the validity of the petition, although a hearing may be required pursuant to Section 18-12-134(b) during the Term of a SAD as a result of such a change.
 - (6) The proposed Term of the SAD.
- (b) The remainder of each sheet of the petition shall contain a table with columns for Tax Parcel, Record Owner, Record Owner's signature, and the date of such signature. The petition form may contain blank underlined spaces for rows of data for each column, or the petition may be prepared with the data for Tax Parcel and Record Owner pre-printed on the petition form and blank underlined spaces for the signature and date.
- (c) Each sheet of the petition shall have below the table of signatures a place for certification by the person collecting the signatures of the Record Owners on that sheet, including the printed and signed name of the collector and the date of certification.
- (d) To prepare the form of petition described in subsection (a) for circulation, a DNIO may request from the Board of Assessors or any other applicable City agency or department, as needed, the following information:
- (1) A listing of all Tax Parcels, with ward and item numbers, within the geographic boundaries of the proposed SAD, the Record Owner of each Tax Parcel, and the area in square feet of each Tax Parcel.
 - (2) Identification of each Tax Parcel

that would be exempt from assessement pursuant to Section 18-12-136.

(e) The DNIO shall be responsible for circulating the petition to the Record Owners within the proposed SAD and submitting the completed petition to the City Clerk in accordance with the following section. Prior to circulating an unsigned petition, a DNIO shall submit to the Administering Department for approval as to its form and content. If the Administering Department denies the form and content of the unsigned petition, it shall specify any deficiencies. The DNIO shall then have the opportunity to cure any such deficiencies and resubmit the unsigned petition for approval.

Section 18-12-127. Submission of completed petition.

(a) A DNIO seeking to establish a SAD pursuant to this division shall submit the completed petition to the City Clerk. A completed petition may consist of multiple signed counterparts. The Administering Department may require the DNIO to submit on a form provided by the Administering Department a summary of the petition, to include such items as the number of exempt, nonexempt, and total Tax Parcels in the SAD, the area of land in the SAD, the number of signatures, the total area of the Tax Parcels whose Record Owners signed the petition, and the percentage of the land comprising the SAD receiving signatures. To be complete, and in compliance with MCL 117.5i, the petition must be signed by the Record Owners of not less than 51% of the land within the geographic boundaries of the proposed SAD.

(b) If pursuant to Section 18-12-128, the Administering Department finds that a petition lacks sufficient signatures or is deficient in any other manner, a DNIO may submit to the City Clerk a supplemental petition containing additional signatures or otherwise correcting the deficiencies.

(c) For purposes of the calculation in subsection (a), the identities of the Record Owners of Tax Parcels within a SAD and the validity of the signatures on a petition shall be determined as of the records existing on the date a DNIO submits a petition to the City Clerk in accordance with the definition of "Record Owner" under Section 18-12-121.

(d) The City Clerk shall report receipt of the petition to the City Council, file the original petition and any supplemental petitions in its records, and forward a copy of the petition and any supplemental petitions to the Administering Department.

Section 18-12-128. Petition; determination of compliance with requirements.

After its receipt of the copy of the petition and any supplemental petitions from the City Clerk, the Administering

Department shall review the submitted materials to determine if they satisfy the requirements of this division. If the Administrating Department denies the validity of the petition and any supplemental petitions, it shall specifically describe the deficiencies in writing to the DNIO, after which the DNIO shall have the opportunity to cure any such stated deficiencies and re-submit the petition or supplemental petitions.

Section 18-12-129. Reserved.

Subdivision C — Establishment of
District and Assessment
Section 18-12-130. Report from Administering Department; tentative assessment roll.

If, pursuant to Section 18-12-128, the Administering Department determines that the petition and any supplemental petitions meet the requirements of this division, it shall submit a report to the City Council verifying the validity of the petition and including such other information as the Administering Department shall deem appropriate. The Administering Department shall obtain from the Board of Assessors a tentative assessment roll for the proposed SAD, which it shall include with its report to City Council. The Administering Department shall provide the DNIO that submitted the petition a copy of the report and tentative assessment roll.

Section 18-12-131. City Council resolution of intent to establish special assessment district; notice of hearing; hearing.

(a) Upon receipt of the report and tentative assessment roll from the Administering Department, the City Council shall adopt a resolution fixing the time and place of a public hearing. Notice of the public hearing shall be given in accordance with Act 162 of 1962, the Notice of Special Assessment Hearings Act, MCL 211.741 et seq., and shall also be published in a newspaper of general circulation at least five (5) days prior to the date fixed for the hearing.

(b) In addition to the requirements of such statute, the notice shall set forth all of the following:

(1) That the plans and specifications for the proposed Services (including the proposed Term), the estimated annual and aggregate costs for such Services, and the tentative assessment roll are on file in the offices of the City Clerk for public examination. The notice shall set forth the address and hours of those offices.

(2) A description of the geographic boundaries of the proposed SAD.

(3) The estimated Tax Parcel Share, as set forth in the tentative assessment roll.

(4) If periodic redeterminations of cost will be necessary without a change in the SAD, a statement that those redeterminations may be made without further notice, in accordance with Section 18-12-134(b).

- (c) At the hearing, the City Council shall hear public comment regarding the establishment of the SAD, the president, executive director, or other authorized qualified representative of the DNIO shall attend the hearing and provide testimony as may be requested by the City Council regarding the petition, which may include testimony to support the finding described in Section 18-12-132(a)(6). If, after the hearing, the City Council is not satisfied that the proposed SAD is consistent with the purposes and requirements of this division, it may vote at the hearing to revise the proposed SAD, in which case a second public hearing shall be scheduled as soon as practicable, but not later than 60 days after the first hearing. Notice of the second hearing shall be provided as set forth in subsection (a). After considering further comments at the second hearing related to the establishment of the SAD, the City Council may revise the terms of the SAD.
- Section 18-12-132. Final City Council resolution regarding proceeding with establishment of special assessment district.
- (a) At the completion of the hearing(s) required under Section 18-12-131, the City Council may adopt a resolution determining that a petition to create a SAD is consistent with the purposes and requirements of this division, approving establishment of the SAD, and directing the Board of Assessors to prepare and submit to City Council for confirmation a special assessment roll for the proposed SAD. The resolution shall include all of the following:
- (1) A determination as to the sufficiency of the petition.
- (2) The geographic boundaries of the SAD.
- (3) A descripton of the Services to be provided, as originally presented or as revised.
- (4) The total annual estimated Assessed Cost, as originally presented or as revised.
- (5) The estimated Tax Parcel Share for the Services to be provided within the SAD.
- (6) A preliminary finding that the Tax Parcels will be benefited by an amount proportionate to the Tax Parcel Share.
- (7) The Term of the SAD, as originally presented or as revised.
- (8) If the nature of a Service is such that a periodic redetermination of cost will be necessary without a change in the SAD boundaries, the dates upon which the redeterminations are expected to be made.
- (9) A determination that any contractual Services to be provided pursuant to this division are an expansion or addition to

Services already provided by the City and are not a replacement for existing City-provided Services.

- (10) The date upon which the City Council will hold a public hearing to consider the special assessment roll for confirmation.
- (b) Notice of the public hearing described in paragraph (a)(10) shall be provided in the manner described in subsection (a).
- Section 18-12-133. Special assessment roll; confirmation or revision of special assessment roll; endorsement; notice of assessment and collection of assessed amounts; filing protest; appealing to the state tax tribunal.
- (a) After preparing the tentative special assessment roll pursuant to Section 18-12-130, the Board of Assessors shall file it with the City Clerk, who shall forward it to the City Council for confirmation. Immediately after the public hearing described in Section 18-12-132(a)(10), the City Council may confirm the special assessment roll as prepared by the Board of Assessors. If the special assessment roll is inconsistent with the terms of the SAD as stated in the City Council's resolution pursuant to Section 18-12-132, the City Council may request that the Board of <u>Assessors revise the special assessment</u> roll to correct any such inconsistencies.
- (b) Once the City Council confirms the special assessment roll, the City Clerk shall endorse on the special assessment roll the date of the confirmation, and shall deliver copies of the assessment roll to the Board of Assessors, Treasurer, and sponsoring DNIO. The Treasurer shall proceed to collect the special assessment, and shall continue to do so annually during the Term of the SAD. The Treasurer may invoice the Record Owners directly for the special assessment, or the Treasurer may include the special assessment as a separate item on the summer or winter tax bill. If the nature of a Service is such that a periodic redetermination of cost will be necessary without a change in the SAD boundaries, the Treasurer shall include with, or send contemporaneously with, the invoice or property tax bill a statement that the cost redetermination(s) may be made without further notice to Record Owners or parties in interest in the property, subject to the limitations in Section 18-12-134(b).
- (c) Upon confirmation of the special assessment roll, all assessments on that assessment roll are final and conclusive. An aggrieved person may appeal the assessment by filing a petition with the state tax tribunal pursuant to the requirements of the Tax Tribunal Act, Public Act 186 of the Public Acts of 1973, MCL 205.701 to 205.779, but only if the person

protested the assessment at the hearing held for the purpose of confirming the special assessment roll described in subsection (a).

Section 18-12-134. Special assessment; periodic redetermination of assessment; when rehearing is required; insufficient or surplus amount collected.

(a) The Administering Department shall annually conduct an accounting of the status of the SAD collections and the costs incurred under the contracts for Services in the SAD. The results of the accounting shall be used to estimate the amount to be assessed the following year for Services to be provided. The Administering Department shall make a report of such accounting and estimates to City Council and the sponsoring DNIO. After considering the report, the City Council shall ask the Board of Assessors to prepare a new special assessment roll for the SAD for the following year. The reassessment shall incorporate any overassessments or underassessments from the preceding year, and shall take into account any unpaid assessments, any collections of delinquent assessments from prior years, and any changes pursuant to Section 18-13-135. The Board of Assessors shall re-calculate the Tax Parcel Share for all Tax Parcels within the SAD based on this section.

(b) The revised Assessed Cost may exceed the original Assessed Cost (as stated in the City Council's resolution pursuant to Section 18-12-132(a)(4)) by up to fifteen percent (15%) without requiring notice or a public hearing. If at any time during the Term of the SAD the amount of the revised Assessed Cost exceeds the original Assessed Cost by more than fifteen percent (15%), then a reassessment shall be required, including notice, public hearing, and confirmation of the revised special assessment roll. No petition shall be required for a reassessment.

(c) If any Record Owner has paid more than its Tax Parcel Share as provided in the assessment roll, then the City Treasurer shall apply such overpayment to that Record Owner's Tax Parcel Share for the following year. At the conclusion of the Term of the SAD, then any overpayments in excess of five percent (5%) shall be refunded to the Record Owner. Overpayments up to five percent (5%) shall first be applied to unpaid expenses of the SAD, including unpaid assessments. Any balance remaining shall be applied to the City's general fund.

Section 18-12-135. Divisions or combinations of land; changes in exempt status.

(a) If, after a special assessment on the Tax Parcel is confirmed and before a special assessment is collected, a Tax Parcel is divided into two or more Tax Parcels, or two or more Tax Parcels are combined into one Tax Parcel, then payment of the current year's Tax Parcel (Share(s) for the original Tax Parcel(s) shall be due immediately as a condition to the combination or division. For each subsequent year of the Term, each resultant Tax Parcel shall be assessed a Tax Parcel Share as if the resultant Tax Parcel were in existence at the initial assessment.

(b) The exempt status of a Tax Parcel pursuant to the following section shall be determined as of tax day, as that term is defined in Section 2(2) of the General Property Tax Act, Public Act 206 of 1893, MCL 206.2(2). Payment of a Tax Parcel Share shall be required or exempt based on the exempt status as of tax day, not as of the day payment is due. If a Tax Parcel's exempt status changes from exempt to non-exempt, the Tax Parcel shall be assessed a Tax Parcel Share for each subsequent year of the Term that it is non-exempt.

Section 18-12-136. Exempt Tax Par-

- (a) Tax Parcels owned by the following Record Owners shall be exempt from any special assessment under this division:
- (1) The United States; (2) Any state (including the State of Michigan);

(3) The City of Detroit;

- (4) Any public school district; or
- (5) Any authority, municipal corporation, school district, or other governmental or quasi-governmental entity exempted from payment of special assessments by statute or other applicable law.
- (b) Tax Parcels exempt by a Record Owner listed in subsection (a) shall be exempt regardless of the use or purpose of such Tax Parcel. All other Tax Parcels are subject to a special assessment created under this division, even if such Tax Parcels are exempt from property taxes under Michigan's General Property Tax Act, MCL 211.1 et seq., unless such Tax Parcels are otherwise exempt from special assessments under applicable law.

Section 18-12-137. Agreement of exempt person to pay special assessments.

The Record Owner of any Tax Parcel that is exempt pursuant to Section 18-12-136 may nonetheless elect to pay a special assessment against an exempt Tax Parcel by providing written notice of such election to the Board of Assessors. Upon receipt of such notice, the Board of Assessors. Upon receipt of such notice, the Board of Assessors shall proceed to assess such an exempt Tax Parcel as if it were not exempt, and such assessment shall be a valid claim against such Tax Parcel. The election may not be revoked without consent by resolution of the City Council. An election to revoke shall only be effective for subsequent years.

Section 18-12-138. Special assessment as lien.

From the date of confirmation of the special assessment roll, any unpaid Tax Parcel Share, including any part of a Tax Parcel Share deferred as to payment, shall be a lien on the associated Tax Parcel, and shall also be a debt of the Record Owner. The lien shall be of the same character and effect as the lien created for municipal property taxes and shall accrue interest and penalties in the same manner. The lien shall be enforced in the manner prescribed in state law, the Detroit City Charter, and this Code for the enforcement of special assessment liens or tax liens.

Section 18-12-139. Addition of Tax Parcels to special assessment districts.

(a) An SAD shall not be amended so as to add Tax Parcels to the existing district unless notice is provided to the Record Owners of both (1) the Tax Parcels in the existing SAD and (2) the Tax Parcels to be added to the existing SAD, and the City Council holds a public hearing regarding the addition of the tax parcels and approves the amended SAD. If the property to be added to the SAD does not reduce the signatures on the original petition below the 51% threshold, no additional petition is needed. If the property to be added to the SAD does reduce the signatures on the original petition below the 51% threshold, then a supplemental petition shall be filed containing sufficient additional signatures of Record Owners. This section shall not apply to divisions, combinations, or changes in exempt status under Section 18-12-135.

(b) If, after the hearing regarding the addition of Tax Parcels to the SAD, the City Council is satisfied that adding the additional Tax Parcels to the existing SAD is consistent with the purposes and requirements of this division, it shall adopt a resolution confirming the addition of the new Tax Parcels to the existing SAD, after which the Board of Assessors shall re-calculate the Tax Parcel Share for all Tax Parcels within the SAD based on the inclusion of the newly added Tax Parcels. Tax Parcels added to an existing SAD shall have the same Term as the existing SAD.

Section 18-12-140. Continuation of special assessment district upon expiration of Term.

If a DNIO wishes to continue an existing SAD beyond its Term, it must take action to continue the SAD for an additional Term in the same manner that a SAD is created pursuant to this division. The same DNIO does not need to serve as the DNIO during both the initial or subsequent Term of a SAD and any additional Term. To avoid a lapse in Services, a DNIO may begin petitioning to initiate an

additional Term of a SAD prior to the expiration of the existing Term, subject to the requirement in Section 18-12-127(c) regarding the validity of signatures. An additional Term of a SAD shall commence as of the expiration date of the existing Term of the SAD.

Section 18-12-141. Discontinuance of special assessment district through discontinuance petition.

(a) Pursuant to Section 5i(2) of the Home Rule City Act, MCL 117.5i(2), a SAD created under this division may be discontinued at any time during its Term through a discontinuance petition. A discontinuance petition may be completed and submitted to the City Clerk by any Record Owner or Owners within a SAD, or by a DNIO. A discontinuance petition is subject to the same rules as a petition to initiate a SAD as set forth in Sections 18-12-126 and 18-12-127, including among other applicable rules the requirements for signatures of Record Owners of 51% of the land comprising the special assessment district, except that no information regarding Assessed Cost, Tax Parcel Share, or Term shall be required on a discontinuance petition.

(b) After receipt of a completed discontinuance petition, the City Clerk shall report receipt of the petition to the City Council, file the original petition in its record, and forward a copy to the Administering Department and the DNIO if the DNIO is not the submitting party. The Administering Department shall confirm or reject the validity of the discontinuance petition. If the Administering Department rejects the validity of the discontinuance petition, it shall specifically explain to the petitioner in writing the deficiencies in the discontinuance petition, after which the petitioner shall have the opportunity to cure any such stated deficiencies and resubmit the discontinuance petition. If the Administering Department confirms the validity of the original or re-submitted discontinuance petition, it shall submit a report to the City Council verifying the validity of the petition and including such other information as the Administering Department shall deem appropriate.

(c) Upon receipt of the report from the Administering Department, the City Council shall hold a public hearing, with notice provided as set forth in Section 18-12-131. After the public hearing, the City Council shall adopt a resolution either accepting or rejecting the discontinuance petition. If the resolution rejects the discontinuance petition, the SAD shall continue. If the resolution accepts the discontinuance petition, then the contract(s) for services pursuant to Section 18-12-145 <u>shall be terminated, and</u> Administering Department shall conduct a final accounting consistent with Section 18-12-134. The Administering Department shall report the results of the final accounting to City Council. Upon receipt of the final accounting, City Council shall adopt a resolution terminating the special assessment. No further assessments shall be made except for reassessment required to address any deficit shown in the final accounting. Such reassessment shall be subject to notice and public hearing. Any surplus shown by the final accounting shall be distributed as set forth in Section 18-12-134, subsection (c).

(d) Only an entire SAD may be discontinued through a petition under this section, not a portion of a SAD. Any such discontinuance shall not impair any current obligations of the City or the SAD.

Section 18-12-142. Provision of benefits under this division not to reduce provision of general City benefits.

Services funded by a SAD are supplemental to City-provided Services. Notwithstanding the establishment of a SAD under this division, the City shall continue to provide Services to a SAD at the same level and frequency that it provides Services to other comparable areas of the City that do not contain a SAD. The existence of a SAD shall not be a basis for the subsequent discontinuance or diminution of City-provided Services within a SAD.

<u>Section 18-12-143 — 18-12-144. Reserved.</u>

Subdivision D — Contracting for Provision of Services Section 18-12-145. Contracting for Services.

(a) Section 5i of the Home Rule City Act, MCL 117.5i, requires that the services under this division be provided by private contractors. The City prefers to enter into a contract with the DNIO for the services, with the exception that the DNIO will enter into one or more subcontracts with the service providers. If the DNIO desires to administer the SAD services, and the Administering Department determines that the DNIO is qualified, the Administering Department shall negotiate a contract with the DNIO in form satisfactory to the Law Department for administering the SAD. The contract shall address the methods by which the DNIO shall solicit and obtain bids from potential providers of the service(s) for which the SAD was established, and the awarding of subcontracts for such services, the procedures for requesting and obtaining prompt payment from the City (which shall include (1) invoices from private contractors that a DNIO has contracted with for the provision of Services within a SAD, and (2) a statement of the DNIO's reasonable costs incurred for administering the SAD, if any), auditing and accounting procedures, establishment or determination of appropriate administration fee(s), and such other issues as the DNIO, the Administering Department and the Law Department shall deem appropriate. If the DNIO does not desire to administer the contract(s) for services, the Administering Department may identify another entity to administer the contract(s) for services, or may elect to contract directly for such services in accordance with standard city procedures. If both the DNIO and the Administering Department decline to administer the contract(s) for the services, and the Administering Department is unable to identify another entity to administer the contracts, then the special assessment shall be canceled.

(b) The contract shall contain provisions requiring the DNIO and all subcontractors to provide in a timely manner all information needed for redetermining costs in accordance with Section 18-12-134.

(c) The contract shall terminate upon acceptance of a discontinuance petition pursuant to Section 18-12-141, and shall contain a provision so stating.

(d) A DNIO may agree to, but shall not be required to, administer contracts for services in a district outside its own geographical area.

Section 18-12-146. City Council approval of contract(s); source of funds for payment of Assessed Cost.

The contract(s) with the DNIO or other administering entity described in Section 18-12-145, but not the subcontracts with the service providers, shall be submitted for approval by City Council in accordance with the requirements of the Charter and this Code. The Assessed Cost of the improvement shall be paid by the Treasurer out of funds collected pursuant to the special assessment roll. The City's payment obligations under this division shall be limited to payment under the contract(s) entered into by the City pursuant to Subsection 18-12-141(a). The City shall be under no obligation to pay the subcontractors of the DNIO.

Section 2. All ordinances or parts of ordinances in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. If this ordinance is passed by a two-third (2/3) majority of City Council members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-118 of the 2012 Detroit City Charter; if passed by less than a two-thirds (2/3) majority of City Council members serving, it shall become effective no later than thirty (30) days after publication in accordance with Section 4-118 of the 2012 Detroit City Charter; if this ordinance specified a certain date to become effec-

tive, it shall become effective in accordance with the date specified therein, subject to the publication requirement in Section 4-118 of the 2012 Detroit City Charter.

City of Detroit Airport Department

March 24, 2014

Honorable City Council:

Acquire Real Re: Authorization to Property From the School District of the City of Detroit, 10200 Erwin. Detroit, MI / 8096 Lynch Road, Detroit. MI.

The Airport Department ("Airport") is hereby requesting the authorization of your Honorable Body to acquire and accept certain real property at 10200 Erwin, Detroit, MI and 8096 Lynch Road, Detroit, MI ("Property") from the School District of the City of Detroit ("District"). The Property is located at the corner of Lynch Road and Erwin Avenue and is the site of the District's former Davis Aerospace Technical High School, a 65,748 square foot building that sits on three parcels of land. The easterly portion of the building sits on one parcel of land already owned by the City of Detroit and leased to the District through the Airport until 2030. The City wishes to acquire the westerly portion of the building which sits on two parcels of land owned by the District. The lease mentioned above on the easterly portion would be terminated as part of the Property acquisition. The Airport is committed to acquiring the Property as it falls within its airport layout plan on file with the Federal Aviation Administration. The District plans to continue the operation of its public flight school by leasing other space at the airport under a separate agreement.

The City intends to renovate the Property for use by the Fire Department ("Fire") to consolidate certain services and programs. The improved property will provide Fire with an updated facility with increased capacity for firefighter recruiting, testing and training, as well as for public training in first aid and CPR certification. Fire also plans to support the Airport with specialized aircraft rescue firefighting services.

The City and the District have agreed that the City will accept the Property in satisfaction of roughly \$591,827.00 in certain debt that the District owes to the City for unpaid building fire inspection fees.

We respectfully request your approval to accept the District's two parcels of real property in exchange for rendering the \$591,827.00 debt owed to the City paid by adopting the following resolution with a Waiver of Reconsideration.

> Respectfully submitted, JASON WATT Director Airport Department

JONATHAN JACKSON Fire Commissioner Detroit Fire Department

RESOLUTION

By Council Member Benson:

Whereas, The City of Detroit through the Airport Department ("Airport") wishes to acquire certain real property at 10200 Erwin Detroit, MI and 8096 Lynch Road, Detroit. MI more particularly described in the attached exhibit a ("Property") from the School District of the City of Detroit ("District"); and

Whereas, The acquired Property will be improved for use by the Fire Department as a recruiting and training facility; and

Whereas, The District owes the City of Detroit Five Hundred Ninety Thousand Eight Hundred Twenty Seven and 00/100 Dollars (\$591,827.00) in unpaid building fire inspection fees as further described in the attached Exhibit B; and

Whereas, The City of Detroit has agreed to render the above referenced unpaid building fire inspection fees paid in exchange for the property; and

Whereas, The Buildings, Safety Environmental Engineering and Department ("BSEED") has reviewed the environmental conditions of the Property;

Whereas, In accordance with Chapter 2, Division I, Article 2 of the Detroit City Code: (1) the City Council finds that the Property has received appropriate environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) pursuant to the request of the Airport, the City Council finds that despite the presence of environmental contamination, it does not pose a risk based upon the proposed use of the Property: furthermore, acquisition of the Property is necessary as it is included in a project plan and that acquisition of the property will not prejudice the right of the City to recover response costs from any potential responsible parties under State and/or Federal law: (3) the City Council finds and declares that the preservation of the promotion of the public health safety welfare or good outweighs the cost of the environmental assessment and therefore waives the requirement that the seller bear the cost of the environmental assessment; and (4) within 45 days of recording the deed to the Property, the Airport shall have prepared and submit to the Michigan Department of Environmental Quality a Baseline Environmental

Assessment which may be done by the City or on its behalf by the Detroit Building Authority; now therefore be it

Resolved, That in accordance with the foregoing communication, the Airport director or his authorized designee be and is hereby authorized to accept and record a deed to the City of Detroit for the property, as well as execute any such other documents as may be necessary to effectuate transfer of the Property from the District to the City of Detroit for relief of \$591,827.00 in unpaid fees owed by the District to the City of Detroit as further described in the attached Exhibit B; and be it further

Resolved, That the Finance Director is hereby authorized to accept the Property in satisfaction of the district's debt outlined in Exhibit B; and be it further

Resolved, That the Finance Director is hereby authorized to update such City records as required to reflect that the District's debt outlined in Exhibit B has been satisfied.

A waiver of reconsideration is requested.

PUBLIC COMMENT:

Rev. Joan C. Ross: Senior Pastor of Salvation Temple Church North End: a member of Equitable Detroit Coalition, a citywide coalition around community benefits, she came to ask the City Council's support for an ordinance, even though it is still in the Law Department. The community benefits ordinance is practical; common sense projections against fire sale mentality that says Detroiter must lie down and be walked on. A community benefits ordinance is a break with the past of accepting wholesale change to our lives because powerful people will profit from those changes. The community benefits ordinance says we matter; that they have the right to say yes and no. Community benefits ordinance is a logical outcome of democracy; a small offshoot of a basic need for dignity that can only be realized when the needs of people are

placed above others. She asked that the Council approve a community benefits ordinance.

Patrick Driscoll: Long time resident of Detroit, also a member of Detroit Eviction Defense and a member of the Coalition, Save Detroit, Save Our Homes. He sees the land bank as working on a community level but blight must be addressed and there must be a way to figure out how to prevent more blight. The components are the continued loss of homes through foreclosures, particularly tax foreclosures, caused by sub-prime lending; 39% of homeowners in Wayne County owe more on the mortgage than the house is worth: 50 to 70% are in Detroit's hardest hit neighborhoods; 50 to 70% are under water; 10 to 15% are falling behind on their mortgages. Over the last three years, 51,000 homes have been up for auction; 27.000 sold to 4.500 bidders and there are approximately 29,000 going up for auction this year; must address this crisis due to the broken tax assessment system. Millions of dollars are not being used, only 25% of the \$500,000,000 from Step Forward; the City is taking \$52,000,000 of that to tear down more homes. Citizens must fight to make sure that they use this money and get it out to the people; only 4,300 people; according to government statistics; in Wayne County have received Step Forward Funds.

Marguerite Maddox: Requested that everyone reserve June 26, 2014 for WOW Annual Picnic at Peterson Park on Greenfield from 12 pm to 4 pm. She wanted to know what's being done in the area of both NB and SB Lodge Service Drive, especially the three abandoned buildings; an old school, motel and party store. All three are at public transportation stops (Clairmount and Hamilton). DDOT bus schedules on Saturdays are bad; she waited one hour for 8 Mile Road WB from the Meijer's Shopping area. Also mentioned service dogs awareness to educate the public about some of the different kinds of service dogs for every disability; public transit needs to be more informed about these dogs.

John Lauve: They can fix the problem with the buses if they used the money that they are going to waste on this trolley system, \$200,000,000. The Planning meeting is suppose to produce a master plan report for what took place last year and what's planned ahead, that is mandated by the Charter and that hasn't been delivered today. The Illitch lease deal is incredible; they have shown no plans of what it is going to be to the public and the master development agreement, which is part of the lease, they say it doesn't exists and it is a condition for effectiveness of the

lease. So it's no deal, so the lease isn't valid. The City Council needs to be more engaged with this system and the bankruptcy judge because if this is an emergency Detroit needs help not a bankruptcy attorney.

Jasahn Larsosa: Chief organizer for a small non-profit. He wanted to give a framework relative to the community benefits ordinance; livable wages for millions of people are a thing of the past until we can figure out what our next economy is going to be. As you consider community benefits agreements and ordinances he hopes we recognize our responsibilities as Detroiters to set an example for the rest of the world on how we are going to move forward. In order to offer security and uphold integrity of Detroiters the community benefits agreement needs to be focused on looking at the environment and putting land and property in the hands of Detroiters.

Reverend Carey Foster: Associate Minister at Greater St. Matthews Baptist Church, his Pastor is Reverend David Bullock, a change agent consortium and Michigan Concerned Clergy. He came to speak about jobs and economics and express the need for the community benefits agreement.

Dr. Sam Bullock, Jr.: He represents the change agent consortium and wanted to add his voice to the charge that the City Council passes the community benefits ordinance and set the standard on how large scale development, using public dollars, must go forward in the City of Detroit. Gone are the days of land give-a-way and tax abatements with no accountability to the residents of City of Detroit. The ordinance forces developers to realize that large scale development is community development and it must keep community at the forefront; at the table in order for their project to be successful. It must make the community a beneficiary and not a victim of development.

Dawn DeRose: Would also like to ask the City Council to pass the community benefits agreement quickly before anything else is detrimental to Detroiters. Can Council make the documents that are sent by email or on website more accessible to the visually impaired? PDF documents are made into images not text based and she cannot read them. She would like to be an informed resident of the City. Many times citizens cannot hear in the auditorium when the Committee of the Whole Room is too full. She has a problem with the fact that PA 436 has not been determined to be constitutional. It is still in the appeals court and Kevyn Orr is still here taking the City through bankruptcy. She thinks there is still a lot of incorrect information. Early this year she heard that last year, as the accounting was done, there was \$6 million dollar surplus last year. There are other monies that are in dispute and the public is not being fully informed.

Pastor David Bullock: He wanted to echo the comments of those who have already spoken for the desire of citizens to see progressive movement around passing the community benefits ordinance. He thanked the City Council President and other Council Members for their support and as this ordinance comes out of the Law Department look for it to go forward. His reason for being in support of this is as developments are being done in the City of Detroit there is no legally binding framework for figuring out what communitv means and how community is constituted; who actually are the community stakeholders. The community benefits ordinance provides the framework for nailing down who the community is and then the community can enter into conversation with the developer. It is legally binding, preventing verbal agreements. When citizens have elected officials who enact policies that give them tools to advocate for themselves then government begins not just to work for developers and for the corporate community but for the larger citizenry.

Davonne Darby: Mentioned studies that show that private sports arenas paid for with public money are bad deals for the cities where they are built. Studies dating back to 1984 and later studies in 2012 show that cities don't benefit from paying for private sports facilities unless the developers sign contracts for community benefits. There needs to be a mechanism set up for Detroiters to do this. The community benefits ordinance will ensure that all large developers sign contracts for community benefits; no more handshakes, no more promises.

Pastor Robert Blake: He came on behalf of the Concerned Clergy. If Council passes the community benefits ordinance they will be breaking new ground for more efficient, fertile economic development. There will be a process in place that allows development to go forward but still allows for community protection because community representatives will be involved.

Kae Haloenum: She also spoke on behalf of the change agent consortium and Michigan Concerned Clergy. She expressed her support for the community benefits ordinance. The citizens need to have a voice in actually shaping the political and economic destiny of the City. As citizens have a right to choose their political leaders, they also have a right to look at the destiny of a Detroit in transformation.

Cindy Darrah: The hearing on the disclosure statement was held on Thursday in the bankruptcy court. The bankruptcy clerk is located on the 17th floor of the Comerica Bank Building. She recommended sending statements to the judge through the bankruptcy clerk. She mentioned the conflict of interest relating to Jones Day and Bank of America and the City of Detroit.

Sam Stark: Represents Southeast Michigan Job for Justice National Coalition; spoke in favor of the community benefits ordinance as it relates to jobs and the environment. The community benefits ordinance could require food establishments to recycle food waste rather than throw it away. That food waste can be turned into rich compost soil. There is an established community based worker owned recycling center that's developing that. It can create jobs for young people, as well as be good for the environment.

Mr. Cunningham: Agreed with the passing of the community benefits ordinance; provided information for the Public Service Commission through the State of Michigan for individuals who need assistance with their DTE Energy bills. the number is 855-313-3137. DDOT bus service is deplorable; the drivers are great but not the system; there is a need for more buses..

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

Law Department

March 31, 2014

Honorable City Council:

Re: Proposed Land Transfer Resolution.

Enclosed for your consideration is a proposed resolution for the City to transfer all city owned parcels of land that include a residential structure to the Detroit Land Bank Authority. The Detroit Land Bank Authority will effectuate demolition of those in Hardest Hit Fund (HHF) areas or auction for sale those in salvageable condition.

Thank you for your consideration.
Respectfully submitted,
MELVIN B. HOLLOWELL

Corporation Counsel

By Council Member Leland:

Whereas, The City is experiencing severe and widespread blight: nearly one-third of the City's 139 square miles is empty or unused and approximately one-fifth of the City's housing stock is vacant. The City has determined that this blight is an ongoing health and safety risk to every resident, fosters and facilitates crime and unemployment, encourage resident flight from the City, depresses property value, and discourages investment in the City; and

Whereas, The City has previously determined that the City's endemic blight creates a public nuisance and is harmful to public health, affects public morals, and prevents the public from the peaceful use of their land, and constitutes a "Blight Emergency," as described in the EM Order No. 15 "Order suspending certain City Wrecking Requirements to Address Blight," issued on August 29, 2013; and

Whereas, The City has determined that there is a need to quickly and efficiently combat the public nuisances which further contributes to the public emergency affecting life, health, property or the public peace; and

Whereas, The City has determined that eliminating public nuisances through

demolition is a means to promote public health, safety and welfare; and

Whereas, The City has determined that the demolition necessary to abate public nuisances require the expenditure of a variety of resources that are not currently within the capacity of the City given the other obligations and undertakings of the City; and

Whereas, Pursuant to the Land Bank Fast Track Act, 2003 PA 258, MCL 124.751 to 124.774 (Land Bank Act), the Detroit Land Bank Act), the Detroit Land Bank act), was created as a separate legal entity and public body corporate in accordance with an Intergovernmental Agreement dated September 15, 2008, as amended from time to time, by and between the City of Detroit and the Michigan Land Bank Fast Track Authority; and

Corporation Counsel

By Council Member Leland:

Whereas, The City is experiencing severe and widespread blight: nearly one-third of the City's 139 square miles is empty or unused and approximately one-fifth of the City's housing stock is vacant. The City has determined that this blight is an ongoing health and safety risk to every resident, fosters and facilitates crime and unemployment, encourages resident flight from the City, depresses property values, and discourages investment in the City; and

Whereas, The City has previously determined that the City's endemic blight creates a public nuisance and is harmful to publci health, affects public morals, and prevents the public from the peaceful use of their land, and constitutes a "Blight Emergency," as described in the EM Order No. 15 "Order Suspending Certain City Wrecking Requirements to Address Blight," issued on August 29, 2013; and

Whereas, The City has determined that there is a need to quickly and efficiently combat the public nuisances, which further contributes to the public emergency affecting life, health, property or the public peace; and

Whereas, The City has determined that the proceedings necessary to abate public nuisances require the expenditure of a variety of resources that are not currently within the capacity of the City given the other obligations and undertakings of the City; and

Whereas, Pursuant to the Land Bank Fast Track Act, 2003 PA 258, MCL 124.751 to 124.774 (Land Bank Act), the Detroit Land Bank Authority ("Detroit Land Bank") was created as a separate legal entity and public body corporate in accordance with an Intergovernmental Agreement dated September 15, 2008, as amended from time to time, by and between the City of Detroit and the Michigan Land Bank Fast Track Authority; and

Whereas, The Detroit Land Bank was created in order to assemble or dispose of public property in a coordinated manner to foster the development of that property and to promote economic growth in the City of Detroit; and

Whereas, The City and Detroit Land Bank are both governmental agencies with the immunities provided by Public Act 170 of 1964, as amended, Governmental Tort Liability for Negligence, MCL 691.1401 *et seq.*, commonly known as the Governmental Immunity Act; and

Whereas, The United States government, acting through the Department of Treasury and the Michigan State Housing Development Authority ("MSHDA"), has awarded to the Detroit Land Bank approximately \$52 million under the Hardest Hit Fund program to carry out demolition of residential structures on publicly owned land within the City of Detroit, which funds must be expended before April, 2015; and

Whereas, The Detroit Land Bank currently does not have title to a sufficient number of parcels that include a residential structure to expend the \$52 million dollars allocated to it, and if those funds are not expended by April, 2015, they must be returned to the United States government; and

Whereas, The City holds title to a sufficient number of parcels that include a residenital structure within the geographic limitations of the City for the Detroit Land Bank to expend all of the \$52 million if those parcels were owned by the Detroit Land Bank; and

Whereas, The City wishes to authorize transfer to the Detroit Land Bank and the Detroit Land Bank wishes to receive title to parcels owned by the City within the geographic limitations of the City that are identified as having a residential structure so that the Detroit Land Bank can demolish the blighted structures utilizing the Hardest Hit Funds prior to the deadline, and to develop, maintain and re-sell those residential parcels to reduce blight in the City and strengthen and revitalize the economy of the City; and

Whereas, The City has approved the Land Transfer Agreement (Transfer Agreement) attached setting forth certain terms and conditions applicable to the authorization granted by this Resolution.

Now, Therefore, Be It Resolved That:

The Detroit City Council hereby authorizes the Planning & Development Department to transfer all of the City's right, title and interest, for no consideration, in the 16,399 Residential Parcels listed in Exhibit A to the Detroit Land Bank Authority pursuant to the terms and conditions set forth in the Land Transfer Agreement.

LAND TRANSFER AGREEMENT

This Land Transfer Agreement (the "Agreement") dated as of April _____, 2014 (the "Effective Date") is by and between the City of Detroit (the "City") and the Detroit Land Bank Authority (the "Detroit Land Bank").

RECITALS

WHEREAS, The Detroit Land Bank was created by the City and the Michigan Land Bank Fast Track Authority (the "State Authority") pursuant to the

Intergovernmental Agreement dated September 15, 2008 by and between the City and the State Authority (as amended and restated, the "Authority IGA") to provide a separate authority to acquired develop, and re-sell land located in the City in accordance with Public Act 258 of 2003 (the "Land Bank Fast Track Act").

WHEREAS, The Michigan legislature has declared that there exists in the State of Michigan a continuing need to strengthen and revitalize the economy of local units of government and it is in the best interests of the local units of government to assemble or dispose of public property, including tax reverted property, in a coordinated manner to foster the development of that property and to promote economic growth in the local units of government in this state.

WHEREAS, The Michigan legislature has declared it a valid public purpose for a land bank fast track authority to provide for the financing of the acquisition, assembly, disposition, and quieting of title to property, and for a land bank fast track authority to exercise other powers granted to a land bank fast track authority under the Land Bank Fast Track Act, and that the powers conferred by the Land Bank Fast Track Act constitute a necessary program and serve a necessary public purpose.

WHEREAS, Pursuant to this authority, the Detroit Land Bank is implementing a range of policies to provide for the disposition of the properties that it acquires, including but not limited to sales to owner-occupants, sales of side lots, and auctions of properties, as well as the demolition and/or deconstruction of those properties that cannot reasonably be rehabilitated, which create blight in the City.

WHEREAS, The United States government, acting through the Department of Treasury and the Michigan State Housing Development Authority ("MSHDA"), has awarded to the Detroit Land Bank approximately \$52 million under the Hardest Hit Fund program to carry out demolition of residential structures on publicly owned surplus land within the City of Detroit, which funds must be expended before April, 2015.

WHEREAS, The Detroit Land Bank currently does not have title to a sufficient number of parcels that include a residential structure to expend the \$52 million dollars allocated to it, and if those funds are not expended by April, 2015, they must be returned to the United States government.

WHEREAS, The City holds title to sufficient parcels identified as having a residential structure within the geographic limitations of the City for the Detroit Land Bank to expend all of the \$52 million if those parcels were owned by the Detroit Land Bank.

WHEREAS, The City acquired title to a certain number of these parcels in connection with prior Wayne County tax foreclosure sales, in which the City was conveyed title to parcels that were available for sale that did not receive the opening bid of \$500.

WHEREAS, Subject to the terms and conditions of this Agreement, the City wishes to transfer to the Detroit Land Bank and the Detroit Land Bank wishes to receive title to the parcels of surplus land owned by the City by the City within the geographic limitations of the City that are identified by the City's Planning & Development Department ("P&DD") as having a residential structure with no more than four units therein (the "Residential Parcels"), so that the Detroit Land Bank can demolish blighted structures on such Residential Parcels utilizing the Hardest Hit Funds prior to the deadline, and to develop, maintain and re-sell those Residential Parcels to reduce blight in the City and strengthen and revitalize the economy of the City.

WHEREAS, The transfer of the Residential Parcels to the Detroit Land Bank shall be construed as an involuntary transfer in accordance with Section 14(4) of the Land Bank Fast Track Act (MCL 124.764(4)).

NOW THEREFORE, In consideration of the mutual agreements, convenants, representations, warranties and indemnities contained in this Agreement, the City and the Detroit Land Bank agree as follows:

1. Transfer of Residential Parcels.

- (a) Identification of Parcels to be Transferred. Exhibit A is on file at the City Clerk's Office, is a listing of 16,399 Cityowned properties that P&DD has preliminary identified as being a Residential Parcel. Each of these properties will be reviewed initially by P&DD and then by the Detroit Land Bank prior to transfer to confirm that they meet the definition of a Residential Parcel. No property may be transferred under this Agreement if it is not included on the list attached as Exhibit A, but the parties anticipate that some of the parcels listed on Exhibit A will not qualify as Residential Parcels or will otherwise be excluded from transfer pursuant to Section 1(b) of this Agreement, in which case they will not be transferred under this Agreement.
- (b) Transfer of Residential Parcels. For no consideration, as permitted by Section 23 of the Land Bank Fast Track Act (MCL 124.773), as of the Effective Date, the City, acting through the P&DD, is authorized to convey all of the City's right, title and interest to the Residential Parcels to the Detroit Land Bank, by one or multiple quitclaim deeds, in the form attached hereto as EXHIBIT B (the "Quitclaim Deed"), subject to the following exceptions:

- (i) This Agreement does not authorize the transfer of any Residential Parcel which is subject to additional legal requirement beyond City Council approval for disposition (for example, the transfer of historic or urban renewal property that requires, *inter alia*, a public hearing prior to disposition), and for any such parcels all such requirements shall be satisfied by the City prior to transfer to the Detroit Land Bank.
- (ii) This Agreement does not authorize the transfer of any Residential Parcel which the City plans to use in another unrelated City undertaking, which undertakings could include, but are not limited to, the consolidation of parcels for sale and re-development, the transfer of parcels to other governmental entities to facilitate the construction of infrastructure projects, and the development of such parcels as public spaces such as public parks. Notwithstanding the foregoing, if the City later determines in its sole discretion that a Residential Parcel that is included on the list in Exhibit A is not to be used for such other undertakings, P&DD is hereby authorized to transfer such Residential Parcel by a Quitclaim Deed to the Detroit Land Bank pursuant to this Agreement.
- (c) Records. In connection with the transfer of Residential Parcels, the City shall have the right to provide the Detroit Land Bank with any records the City has pertaining to those transferred Residential Parcels.
- (d) Reports. The Detroit Land Bank shall provide to the Mayor and the City Council a regular report every quarter which shall include a listing of the address for each Residential Parcel to which title was received from the City pursuant to this Agreement in the preceding quarter, together with a report on the number of properties demolished, deconstructed and sold during that quarter. In addition, the Detroit Land Bank shall provide a report on public health indicators as identified by the Institute for Population Health or the Detroit Health and Wellness Promotion Department.
- 2. As-Is Transfer. The Detroit Lank Bank acknowledges and agrees that neither the City nor any agent, employee, attorney, or representative of the City has made any statements, agreements, promises, assurances, representations, or warranties, whether express, implied, or otherwise, regarding the City, the condition of the Residential Parcels, the suitability of the Residential Parcels for any uses or purposes contemplated by the Detroit Land Bank, the zoning classification of the Residential Parcels, the tax classification of the Residential Parcels, the right to occupy the Residential Parcels, the environmental condition of the Residential Parcels, the state of title to

the Residential Parcels and/or any other aspect of or matter pertaining to the Residential Parcels or any other fact or matter whatsoever, whether pertaining to the City, the Residential Parcels, or otherwise, except in all cases as expressly provided in this Agreement. The Detroit Land Bank has negotiated the transfer to reflect the current condition of the Residential Parcels, and agrees to accept the Residential Parcels in their present "as is" condition, with all defects, latent and patent, and to make no claims against the City concerning the condition of the Residential Parcels or any matter pertaining to the Residential Parcels.

3. Restriction of Certain Assembling and Sale of Residential Parcels. As a condition to this Agreement, the Detroit Land Bank agrees that if it transfers ten (10) or more parcels and transfers them simultaneously to the same transferee, such transfer shall not be valid or effective without the prior approval of the Mayor and the City Council.

4. Profits on Sale of Residential Parcels.

- (a) Statement Delivery. Within thirty (30) days after the end of each calendar year in which a Residential Parcel or a portion of a Residential Parcel is sold by the Detroit Land Bank, the Detroit Land Bank shall deliver to the Mayor and the City Council a statement (the "Annual Statement") showing the proceeds for the sale of property by the Detroit Land Bank that constituted in whole, or in part, one or more of the Residential Parcels sold in that year (the "Residential Parcel Proceeds") and the expenditures incurred and paid by the Detroit Land Bank in that vear related to its work with respect to the Residential Parcels, including, but not limited to, its operating costs (including its overhead, administrative, advisor and employee costs) and the costs of demolishing and/or deconstructing, acquiring, maintaining, operating and developing Residential Parcels owned by the Detroit Land Bank (the "DLB Operating Costs").
- (b) City's Share of Profits. In the event that the Residential Parcel Proceeds exceed the DLB Operating Costs in any given year, the Detroit Land Bank shall, within ten (10) days after delivery of the Annual Statement, pay to the City 33.33% of the difference between the Residential Parcel Proceeds and the DLB Operating Costs in that year (the "Residential Parcel Profit") in immediately available funds by wire transfer or direct deposit to the City's General Fund.
- (c) Return of Profits. Notwithstanding anything to the contrary in Section 4(b), if the City determines, in its sole discretion, that it would be in the best interests of the City for the Detroit Land Bank to retain the City's share of the Residential Parcel Profit in any given year, then upon written

notice from the Mayor, approved by the City Council, which notice may be provided at any time prior to the delivery of the Residential Parcel Profit for that year, the Detroit Land Bank shall retain the Residential Parcel Profit. In the event the City makes such an election, the amount of the Residential Parcel Profit retained by the Detroit Land Bank will be added to the calculation of the Residential Parcel Proceeds in the following year.

(d) Annual Statement Audit. The City, upon notice given to the Detroit Land Bank within two (2) years after the City's receipt of an Annual Statement may elect to have the City's designated (in said notice) auditor examine such of the Detroit Land Bank's books and records (collectively, the "Records") as are directly relevant to the Residential Parcel Proceeds, the DLB Operating Costs and the Residential Parcel Profit for a period not to exceed 120 days following the date on which all the Records are first made available as provided in this Section 4(d). If it is determined that any amounts on the Annual Statement are misstated by more than 3%, then the Detroit Land Bank shall reimburse the City for the cost of its audit. The City, within 120 days after the date on which the Records are first made available as provided herein, may send a notice ("City's Statement") to the Detroit Land Bank that the City disagrees with the Annual Statement, and, then the City and the Detroit Land Bank shall attempt to resolve such disagreement. If they are unable to do so, then the City may notify the Detroit Land Bank, within 180 days after the date on which the Records are made available to the City in connection with the disagreement in question, that the City desires to have such disagreement determined by a certified public accountant (the "Arbiter") whose determination made in accordance with this Section 4(d) shall be binding upon the parties. In all events, the cost of the Arbiter shall be borne equally by the City and the Detroit Land Bank. The Arbiter shall be a certified public accountant and a member of an independent certified public accounting firm comprised of at least 15 members who shall be certified public accountants. If the City and the Detroit Land Bank shall be unable to agree upon the designation of the Arbiter within 15 days after notice from the City to the Detroit Land Bank requesting agreement as to the designation of the Arbiter, then either party shall have the right to request that the American Arbitration Association (or any organization which is the successor thereto) designate as the Arbiter a certified public accountant having the qualifications described above in this Section 4(d).

5. Term and Survival. This Agreement shall expire upon the demolition or disposition of the last of the Residential Parcels permitted to be transferred pursuant to this Agreement, unless otherwise agreed to in writing by both parties, provided that Section 4 shall survive for so long as the Detroit Land Bank owns Residential Parcels transferred by the City pursuant to this Agreement.

6. Assignment. The parties agree that neither party shall have the right to assign this Agreement without prior written con-

sent of the other party.

7. Notice. All notices or other communications required or permitted hereunder shall be in writing, and shall be personally delivered or sent by overnight air express service or by registered or certified mail, postage prepaid, return receipt requested, addressed to the parties hereto at their respective addresses set forth below. Such notice or other communication shall be deemed given (a) upon receipt or upon refusal to accept delivery if delivered by personal delivery, (b) one business day after tendering to an overnight air express service selecting next business day service, and (c) four business days after mailing if by registered or certified mail.

Honorable City Council:

Re: Request of Jacob Isaac and Marcus LLC, on behalf of US Ice, Inc. to show a B4 (General Commercial District) where a B2 (Local Business and Residential District) zoning classification is shown on Map No. 61 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, for the properties on the south side of Eight Mile Road West between Manor and Pinehurst Streets.

Jacob Isaac and Marcus LLC, on behalf of US Ice Inc. has petitioned to show a B4 (General Commercial District) where a B2 (Local Business and Residential District) zoning classification is shown on Map No. 61 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, for the properties on the south side of Eight Mile Road West between Monte Vista and Pinehurst Streets and for three parcels west of Monte Vista Street. The location of the requested rezoning is specifically indicated as the shaded area on the accompanying public hearing notice and includes 10625, 10635, 10703, 10707, and 10709 West Eight Mile Road. This request will be reviewed under the approval criteria specified in Division 3 of Article III of the Detroit Zoning Ordinance (Chapter 61 of the 1984 Detroit City Code).

PROPOSED DEVELOPMENT

The rezoning would encompass the existing US Ice building at 10625 W. Eight Mile Road, the recently cleared lot adjacent lot to the west, where the applicant desires to expand its building onto, and the three vacant lots west of Monte Vista Avenue which US Ice desires to use as parking. The applicant owns all of these parcels.

The current zoning of B2 does not allow ice manufacturing, whereas that that use is allowed as a conditional use in the B4 zoning district. It seems most appropriate to rezone the existing building as well as the expansion site and the proposed adjacent parking, as opposed to the applicant seeking approval of the expansion of a non-conforming use from the Board of Zoning Appeals. The B4 district description provides for business and commercial uses of a thoroughfare-oriented nature.

SURROUNDING LAND USE AND ZONING

commercial land use along the north side of Eight Mile Road in Oak Park, MI To the south: single family residential, R1 To the east: commercial, B2 To the west: commercial, B2

REVIEW

In accordance with the rezoning criteria of the Zoning Ordnance (Section 61-3-80), reviews of proposed map amendment should be conducted in light of the following relevant criteria, with staff's analysis following in italics:

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact; The business of US Ice proposes an expansion beyond the current building's capacity, and the parking on the current site is inadequate.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance; The Future General Land Use of the Master Plan appears to be "General Commercial."

- (6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract; The adjacent properties should not be negatively impacted, and a meeting was held with the adjacent property owners.
- (7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and The Master Plan seems to indicate that it is suitable, and Eight Mile Road is obviously a major thoroughfare where
- (8) Whether the proposed rezoning will create an illegal "spot zone." It does not appear that would be the case.

PUBLIC HEARING RESULTS

At the January 9, 2014 public hearing on this matter, six (6) persons spoke, none in opposition to the rezoning and one (1) in support. In addition, a letter of support was received from one of the organizations speaking. Several speakers raised concerns about the creation of a cul-de-sac of Monte Vista at Eight Mile Road, a proposal which was explored by the petitioner, but is no longer being pursued. Public concerns centered on noise, both from the condensers on the roof of the facility and noise from the outdoor speaker system. While the operation of the existing business as currently configured is not a specific criterion, when considering a rezoning, these concerns should be addressed where possible. The applicant stated that he is looking at reducing the volume of the outside public address system and evaluating design solutions to the noise generated from the chillers on the roof. One speaker, a nearby resident, stated that this operation had harmed her property values.

There are no violations against the current address that the staff has found, and

the noise would not change as a result of the rezoning, as the proposed expansion area would not house new noise-generating manufacturing operations. The applicant has agreed to attempt to mitigate the noise from the roof-top condensers through sound baffles or other design measures and to add landscaping at the rear of the site to absorb some of the public-address system noise and to look at the operation of the system. A question was also raised about the status of the alley behind the applicant's current operation. Staff has determined that it was closed in 2001, with utility easements remaining.

RECOMMENDATION

The rezoning of the site seems appropriate in light of the Master Plan Future General Land Use designation and the character of Eight Mile Road. The proposed rezoning will not increase the noise of the current operation, and the petitioner has agreed to pursue measures in an attempt to mitigate the noise generation. The rezoning meets the criteria set forth in Sec. 61-3-80. At the January 9, 2014 meeting, the CPC took action to recommend approval of the proposed rezoning.

City of Detroit Historic Designation Advisory Board April 3, 2014

Honorable City Council: Re: Petition #171, Legacy Advisors, LLC, request for local historic designation of the Maurice Ford Fox Building located at 2863-65 East Grand Boulevard and the neighboring Boyer-Campbell Building located at 6540 Saint Antoine Street and the appointment of *ad hoc* representatives in connection with this matter.

This request for historic designation is on our list of proposals for historic designation. The proposed Jam Handy East Grand Boulevard Historic District will be a contiguous multi-building district which will include the Maurice Ford Fox Building located at 2863-65 East Grand Boulevard, and the neighboring Boyer-Campbell Building located at 6540 Saint Antoine Street. Both buildings are representative of the history of the early automobile industry in the City of Detroit. Reasonable grounds for the study of a larger district encompassing both buildings has been provided in that the proposed district includes several buildings associated with the Jam Handy Organization which provided training and promotional films for the automotive industry. A resolution directing the Historic Designation Advisory Board to conduct a study is attached.

Should your Honorable Body adopt that resolution, you must appoint two persons to serve as ad hoc members of the Advisory Board in connection with the matter. The Advisory Board staff is happy to provide two names for your consideration: Ms. Khalilah Burt Gaston, Executive of Vanguard Community Development Corporation, which is located within the proposed district. Ms. Khalilah Burt Gaston resides at 251 Arden Park Blvd., Detroit, MI 48202. Mr. David Laurence Howell, the Managing Director of Legacy Advisors, represents the interest of the current owners of the Maurice Ford Fox Building and the neighboring Bover-Campbell Building, both located within the proposed district. Mr. David Laurence Howell resides at 19767 San Juan, Detroit, MI 48221.

A resolution of appointment is attached for your consideration. Staff is available to answer any questions you may have.

Respectfully submitted,
DAVID WHITAKER

Honorable City Council:

Re: Review and approval of Neighborhood Stabilization Program 3 (NSP 3) Awards and Modifications.

In 2010, the City of Detroit, through the Planning & Development Department ("P&DD"), received from the U.S. Department of Housing and Urban Development ("HUD"), an annual allocation of NPS 3 funds. NSP 3 is authorized under Division B, Title III of the Housing and Economic Recovery Act (HERA) 2008 and is designed exclusively to stabilize communities hardest hit by foreclosures and delinquencies. Activities undertaken with the NSP 3 program include:

- Purchasing and rehabilitating homes and multi-family structures that have been abandoned or foreclosed upon, in order to sale or rent such properties.
- Partnering with the Detroit Landbank to help acquire and dispose of properties.
- Demolishing blighted residential structures

NSP 3 funds were awarded on a formula basis and were included in the annual entitlement award from HUD and are part of the Consolidated Plan.

In August of 2012, P&DD issued a Request for Proposals ("RFP") to solicit projects and development partners to receipve NSP 3 funds. Proposals were ranked for feasibility, development partners to receive NSP 3 funds. Proposals were ranked for feasibility, developer capacity/experience, and impact on Detroit neighborhoods and local housing market. Once the projects and developers were identified, P&DD worked with legal counsel to finalize and effectuate the rele-

vant loan documents so the projects could proceed.

The Department is requesting that your Honorable Body review and approve the attached list. The list contains a project that was previously awarded NSP 3 funds and now requires a modification of agreed upon terms. Upon approval of this list, by your Honorable Body, a commitment for funding can be awarded prior to closing.

With the approval of this request, we are investing approximately \$17,180,000 producing over 57 units of affordable housing in neighborhoods in Detroit. We request approval of the attached resolution so housing investments under the NSP 3 program can continue. Should you have questions or require additional information, please do not hesitate to contact me.

Respectfully submitted,

HENRY BRIGHT NSP Coordinator P&DD

Honorable City Council:

Re: Substantial Amendment to the 2010-11 Consolidated Action Plan to Amend the Neighborhood Stabilization Program 3 ("NSP 3").

In February, 2011, your Honorable Body provided authorization and approval for the City of Detroit, through the Planning & Development Department ("P&DD") to receive and administer NSP 3 Projects and activities. As we move to implement the program, it has become clear that modifications to the target areas are necessary. As such, we respectfully request your review and approval of the attached resolution authorizing an amendment to the 2010-11 Consolidated

Plan for NSP 3 activities. The original NPS 3 plan, as approved by HUD, includes seven (7) census tracts and ten (10) corresponding block groups. Since this time Hardest Hit Funds have become available to demolish vacant and blighted residential properties. In January, 2014 we expanded the NSP 3 target areas to enable the City to compliment the Hardest Hit work in demolishing vacant and blighted commercial structures in these targeted corridors. We now have identified all demolition in those targeted areas and are requesting a budget modification approval to provide additional funding for housing rehab.

After careful analysis of the potential impact we are recommending that a modification to the budget be approved as outlined below:

Original <u>Amount</u>	Proposed Amount
, , , ,	\$ 1,542,710.00
\$15,380,000.00	\$17,180,000.00
\$ 5,000,000.00	\$ 3,200,000.00
\$21,922,710.00	\$21,922,710.00
	Amount \$ 1,542,710.00 \$15,380,000.00 \$ 5,000,000.00

These changes will enable us to effectively meet the program objective of neighborhood stabilization and to expend 100% of the funds. We respectfully

request the authorization of this change to amend the 2010-11 Consolidated Plan by approval of the attached resolution. The public notice period for the budget modification ended on April 2, 2014. Upon approval by your Honorable Body, the Amendment will be transmitted to the Emergency Manager for approval and ultimately HUD for final approval. Thank you for your time and consideration.

Respectfully submitted, HENRY BRIGHT NSP Coordinator, P&DD

By Council Member Leland:

Whereas, The City of Detroit, through P&DD respectfully requests approval and support from this Honorable Body to submit a revised Substantial Amendment to the Consolidated Action Plan that reflects the modified budget:

Activity	Original <u>Amount</u>	Proposed Amount

Re: Petition No. 2878 — Lotus Industries for Outdoor Café Permit at 1407 Randolph.

The above named petitioner has requested permission for Outdoor Cafe Service. This service will convene April 1, 2014 through November 30, 2014, during the hours of 7:00 a.m. through 1:00 a.m.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with the City of Detroit's "Noise Ordinance", applicable City ordinance related to outdoor café activities and the remittance of the annual usepermit fee to the Permit Section of the DPW/CED.

The Institute for Population Health (IPH) has approved this petition, subject to petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from the Institute of Population Health Food Safety Division.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The petitioner has submitted to the Historic District Commission (HDC) the construction drawings related to the Outdoor Café. It will be on the HDC agenda to be reviewed at the May, 2014 meeting.

the attached resolution, the By Planning and Development Department (P&DD) is recommending outdoor café service from April 1, 2014 through November 30, 2014, during the hours of 7:00 a.m. through 1:00 a.m. Anything beyond this period may be granted by application for an extension through DPW. The Planning & Development Department is not aware of any objections from any other city agencies involved. It is therefore the recommendation of P&DD that the petitioner's requested be granted subject to the terms and conditions provided in the attached resolution.

Honorable City Council:

Re: Address: 1651 Edison. Name: Carolyn J. Robinson. Date ordered removed: March 29, 2011 (J.C.C. pages 701-708).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 13, 2014 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

- A permit for rehabilitation work shall be obtained within 30 days.
 - 2. The building shall be maintained

securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.
- The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- 4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

DAVID BELL Building Official

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE RESOLUTION IN MEMORIAM FOR

FRANK "PANCHITO" LOZANO
July 6, 1924-February 18, 2014
By COUNCIL MEMBER CASTANEDA-

LOPEZ: WHEREAS, Mr. Frank "Panchito" Lozano was born in Joliet, Illinois, on July 6, 1924 to Inez and Antonia Lozano, the third of eight brothers and sisters. Shortly after his birth the family settled in Southwest Detroit.

WHEREAS, Mr. Lozano started playing the trumpet as a young boy, and along with his brothers formed a family band. When World War II began, he joined the army where he was assigned to the military band. Once the war was over, Mr. Lozano joined his brothers and formed Panchito & Orchestra.

WHEREAS, Panchito & Orchestra became one of the premier dance bands in the city. Riding the crest of popularity of Swing and Latin dance music, they appeared in venues across the city as well as into Windsor and Ohio. In the golden age of television, Panchito & Orchestra was the "house band" for the Arthur Murray Dance Show. Mr. Lozano was also involved in various community activities. He and his brothers were the clowns for the annual Christmas Day Show for the children of Southwest Detroit. He never missed a Veterans Day Parade, and played the Shriner's Circus every year.

WHEREAS, The music scene changed in the 60's. Mr. Lozano decided the time

was right to resume his education. He enrolled in Eastern Michigan University majoring in Music. He received his Bachelor of Arts and started his career with the Detroit Board of Education as a music teacher in 1975. He became Assistant Principal at Maybury Elementary School and then Principal of Webster Elementary School, the position he held when he retired. That position was particularly gratifying for two reasons, first because he and his siblings attended Webster as children but, more importantly, Mr. Lozano was the first Mexican American principal in the Detroit School System.

WHEREAS, Mr. Lozano was an advocate for children. He believed that Education was essential to success and never failed to advise people to either start or continue their education. Mr. Lozano finished his education in 1990 with a PhD in Education from the University of Michigan. He retired from the school system in 1989, however, he continued to play with his band until late in his seventy's when health concerns sidelined him

WHEREAS, Frank "Panchito" Lozano made his transition on February 18, 2014. He is preceded in death by his wife Barbara; his companion Marie Lukes; brothers, Joseph and Martin; and, sister Mary Moomaw. He is survived by his daughters Stephanie and Antonia; five

grandchildren and six great grandchildren; sister Natalie Armendariz; brothers, Albert, Leon and Phillip; and, numerous other relatives and friends. NOW THEREFORE BE IT

RESOLVED, The Detroit City Council extends our sincere sympathy to the family and friends of the late Frank "Panchito" Lozano. Our thoughs and prayers are with you today as you celebrate his life on April 11, 2014 at the Laural Manor, 39000 Schoolcraft, Livonia, Michigan.

Re: Petition #3031 — Friends of Detroit City Airport, Request to Rename a Portion of Atwater Street Between Civic Center Drive going east one block to Bates Street to "Nelson Mandela Drive" in honor of a Great World Statesman.

The Planning & Development Department (P&DD) is in receipt of Petition #3031 from Friends of the Detroit City Airport requesting to rename a portion of Atwater Street between Civic Center Drive and Bates Street to "Nelson Mandela Drive" in honor of a Great World Statesman.

Included with this letter is a sketch and description defining the boundaries of the proposed street renaming. Our investigation has revealed no objections to secondary street renaming of the street. Furthermore, it does not appear that there are any unusual circumstances that may cause hardship to the properties abutting that portion of Atwater Street.

It is, therefore, the recommendation of the Planning & Development Department that the petitioner's request be granted as a secondary street renaming and that a portion of Atwater Street between Civic Center Drive and Bates Street will have a second sign above Atwater with the name "Nelson Mandela Drive".

Respectfully submitted, JOHN SAAD, P.E.

Engineering Services Coordinator By Council Member Leland:

Whereas, That in accordance with the foregoing petition, the Planning & Development Department has received a request from Friends of Detroit City Airport to rename a portion of Atwater Street between Civic Center Drive and Bates Street to "Nelson Mandela Drive" in honor of a great world statesman;

Whereas, The Planning & Development Department's investigation has revealed no objections to secondary street renaming of the street and all City Departments have agreed to the above-disposition;

Now, Therefore Be It Resolved That a sign be placed on Atwater Street between Civic Center Drive and Bates Street and that the original name remain in place for address identification;

Resolved, That the Petitioners work with the Department of Transportation in

order to determine the number of signs needed, the locations, fabrication and design;

Resolved, That the Petitioners will be responsible for all costs incurred in fabricating and placement of said sign;

Resolved, That your Honorable Body grant authorization for the secondary street renaming of a portion of Atwater Street between Civic Center Drive and Bates Street to "Nelson Mandela Drive" in honor of a great world statesman;

And be it further

Resolved, That a certified copy of this Resolution shall be recorded with the Office of the Register of Deeds for Wayne County at the "permittee's" expense;

Planning & Development Department April 7, 2014

Honorable City Council:

Re: Petition No. 139 — Zante Group, LLC for Outdoor Café Permit at 1346 Broadway.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor cafe activities and the remittance of the annual usepermit fee to the Permit Section of the DPW/CED. In addition, the Petitioner must maintain six feet clearance from the meter, pay stations, poles and signs at all times

The Institute for Population Health (IPH) has approved this petition, subject to petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from The Institute of Population Health Food Safety Division.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Historic District Commission has issued the Certificate of Appropriateness for this location as of March 25, 2014.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three years (3) from the date of your Honorable Body's approval.

Re: Traffic Signal Removal at 2 locations. The following two (2) signalized intersections are currently operating on full time "FLASH/STOP control" mode for over six months in compliance with the Michigan Manual of Uniform Traffic

Control Devices (MMUTCD) and are scheduled for removal due to changes in traffic conditions as described below:

- Abbott and Lodge Freeway Service Drive
- Abbott and Third

Lodge Freeway East Service Drive. As a result, currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified.

As such, the Department of Public Works respectfully requests the adoption of the attached resolution for the removal of the traffic signals at the above mentioned two (2) locations.

NEW BUSINESS Planning & Development Department April 7, 2014

Honorable City Council:

Re: Request for a Public Hearing to Establishment the FD Lofts Neighborhood Enterprise Zone as Requested by Rocky DFD LLC in Accordance with Public Act 147 of 1992.

The Planning & Development and Finance Departments have reviewed the Master Plan and the neighborhood preservation and development goals of the City. They find that the establishment of the FD Lofts Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones". Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to renovate/rehabilitate residential space into 31 condominium units at an estimated cost of \$1.2 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration, please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted, BRIAN ELLISON Deputy Director By Council Member Leland:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish 'Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, The Rocky DFD, LLC has requested establishment of the "FD Lofts" NEZ whose boundaries are particularly described in Exhibit A (legal description) and illustrated in the map attached hereto: and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying ad valorem taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the mater.

Now Therefore Be It

Resolved, That on the MAY 22, 2014 AT 9:10 A.M. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) and illustrated in the map attached hereto; and be it finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all taxing authorities levying an ad valorem tax within the City of Detroit, such notices to be provided not less than fourteen (14) days prior to the public hearing.

Re: Address: 14930 Linwood. Name: Linwood Tire Recycling, LLC. Date ordered removed: May 6, 2014 (J.C.C. pg. ____).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on February 13, 2014 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- 1. A permit for rehabilitation work shall be obtained within 30 days.
- 2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:
- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties
- 3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four

Honorable City Council:

Re: Petition No. 2997 — Michael L. Priest & Associates request to construct a sewer in Arnold Avenue right-of-way (East of Ogden) South of Michigan Avenue, West of Lonyo.

Petition No. 2997 — Michael L. Priest & Associates, whose address is 40655 Koppernick Road, Canton, Michigan, 48187 request to install and maintain encroachment with an underground sewer pipe in Arnold Avenue, 50 feet wide, between Ogden Avenue and the north-south public alley first easterly of Ogden Avenue.

The reason for this request is construction of a new charter school at the site of the former DPS O. W. Holmes School located at 4833 Ogden between Trenton and Ogden south of Arnold Avenue. The existing location has been demolished and the plan is to construct a state of the art facility to provide education to 750 K-12 students.

The sewer line is needed due to the increase in impervious area proposed, and the new sewer line will spit the runoff into two different city sewer lines. The existing line east of the site was designed to support lots in the area that is now a park and so the sewer line has unused capacity.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

Traffic Engineering Division — DPW (TED), reports there is no objection to the encroachment provided certain requirements are met. The specific requirements are included as provisions within the attached resolution.

City Engineering Division — DPW (CED), reports there is no objection to the encroachment provided certain requirements are met. The specific requirements are included as provisions within the attached resolution.

The Public Lighting Department (PLD) reports an overhead high voltage circuit and street lighting circuit running in the area of the request and provisions protecting these facilities are included in the resolution. The contractor and/or the petitioner will be liable for any damages to any PLD underground facilities.

The Detroit Water and Sewerage Department (DWSD) has approved the sewer pipe encroachment provided that the resolution contain the DWSD specific encroachment provisions. The DWSD encroachment provisions are included in the resolution.

All other involved City departments and privately owned utility companies reported no objections, or that satisfactory arrangements have been made.

I am recommending adoption of the attached resolution.

Respectfully submitted, RICHARD DOHERTY City Engineer City Engineering Division—DPW

By Council Member Benson:

Resolved, That the Department of Public Works, City Engineering Division is hereby authorized and directed to issue permits to Michael L. Priest & Associates to construct a sewer which will encroach into the Arnold Avenue right-of-way. The encroachment is being described as follows:

SEWER PIPE ENCROACHMENT

Re: Petition No. 2488 — Sam Kelani on behalf of Ray's Check Cashing, to amend grant agreement permitting alley vacation and erection of fencing, etc. in area of 13746 Gratiot off Seymour.

Also requesting for encroachment into the northerly 3 feet Seymour, 80 feet wide, from Gratiot Avenue, 120 feet wide to the above said public alley, 18 feet wide, first easterly of Gratiot

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

March 20, 2014 Honorable City Council:

Re: Request to Accept the 2013
Community Policing Development
(CPD) Micro Grant for Law
Enforcement Agencies from the
United States Department of
Justice's Office of Community
Oriented Policing Services.

The United States Department of Justice's Office of Community Oriented Policing Services has awarded the Detroit

Police Department (DPD) a Community Policing Development (CPD) Micro Grant (2013 CK-WX-K032) in the amount of \$49,998.00 with no cash match. The grant period is January 3, 2014 through August 31, 2015.

The Detroit Department's Community Policing Development Micro grant has partnered with Wayne State University (WSU) Center for Urban Studies who will assign their AmeriCorp members to Bike Watch (at no cost to the city) to assist with implementing the bike watch program and recruit volunteers to conduct bike watch patrol, in coordination with DPD. Volunteers will assist police patrol to increase the "eyes and ears" and address hot spot crime areas in the central District (1st precinct) area. The program primary goal is to reduce crime, while including

the inclusion of volunteers and citizens to increase a sense of neighborhood ownership. There will be a WSU researcher assigned to the Detroit Department's Community Policing Development Micro Grant Bike Watch Program.

In the event that this grant is accepted, Captain Steven Dolunt, of Central District (1st Precinct), will serve as the project director. The appropriation number for this grant is 13722.

I recommend that the Detroit Police Department accept this grant from the United States Department of Justice's Office of Community Oriented Policing Services.

I request approval from your Honorable Body to accept the grant and adopt the enclosed resolution.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1803, Monday through Friday, 9:00 a.m. to 5:00 p.m.

March 20, 2014

Honorable City Council:

Re: Request Permission to Accept an Increase in the Fiscal Year 2014 "Strategic Traffic Enforcement Program" from the Michigan Office of Highway Safety Planning.

The Michigan Office of Highway Safety Planning (M.O.H.S.P.) has awarded the Detroit Police Department (DPD) for the "FY2014 Strategic Traffic Enforcement Program." The grant number is PT-14-07. The grant period is from February 26, 2014 through September 30, 2014. As a result of the award, the Detroit Police Department will receive \$275,000.00, with no cash match.

The grant is currently in the Fiscal Year 2013/2014 Budget for \$200,000.00 (Appropriation #13521 - Cost Center 372484). Fortunately for the Detroit Police Department, the award was increased by \$75,000.00. With this funding, the Detroit Police Department will continue to pay for personnel overtime wages. To meet the goal of M.O.H.S.P. to increase the use of safety belts and proper use of child safety seats, thus substantially improving the likelihood of surviving a traffic crash and/or reducing the severity of injury. Additionally, during enforcement DPD officers will also focus on removing impaired (intoxicated) drivers from behind the steering wheels of cars, thus reducing their ability to hurt themselves or others.

Police Officer Viera L. Brownlee, of Grants and Contracts, will serve as the Project Director for the above grant.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution. The Chief of Police has been notified of the funding and approved participation.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1803, Monday through Friday, 9:00 a.m. to 5:00 p.m.

RESOLUTION IN MEMORIAM RICKY LAWSON

By COUNCIL PRESIDENT JONES:

WHEREAS, It is with great pleasure and privilege that we, the members of the Detroit City Council, recognize and bestow homage upon the late great "Master Drummer" Ricky Lawson, a highly respected and revered musician; and

WHEREAS, Ricky Lawson, a native Detroit, Michigan, gained recognition as one of the most prolific drummers on planet earth, and he was affectionately known as the "Drummer To The Stars." He learned to play drums at the age of 16 and played in his high school jazz band, which consisted of only 5 members, including the director. Ricky's talents extended far beyond his gifted musical abilities as he proved to be an above average academic prodigy. He excelled as an athlete in water polo and on the swimming team which earned him a scholarship to Saint Rose College after graduating from Cooley High School, His love of all music made him eclectic, and though he could croon a bit, his chosen instruments were percussion and the drums. Early on, he developed expertise in jazz, country and western, pop, R&B, funk and Latin rhythms — a versatility that allowed him to play with artists from diverse backgrounds and genres. He earned his jobs and professional reputation by always being well prepared for his gigs. After moving to Los Angeles his natural talent skyrocketed him into a major career as he became one of the music industry's most sought-after studio and tour musicians in the 1980s; and

WHEREAS, Through a storied career that expanded decades, Ricky Lawson was nominated for four Grammy's and

rose to a level of great fame, becoming one of the most well-known and respected percussionists in the world. Some of the biggest Number 1 and multi-platinum singles and albums have featured his impressive talents. He collaborated with many of the best in the music business, including Michael Jackson, Whitney Houston, Steely Dan, Stevie Wonder, Phil Collins, Al Jarreau, George Benson, Anita Baker, Bette Midler, Lionel Ritchie, Quincy Jones, Roy Ayers, George Duke and countless others. He was also a founding member of the jazz-fusion group, The Yellowjackets, and won a Grammy Award in 1986 for co-writing their hit song "And You Know That." With a following of fans that spanned across the globe, his recognition as a musical genius would take him to places far and wide including playing at the White House for President Barack Obama and First Lady Michelle Obama during the 2011 "Motown Sound" concert performance; and

WHEREAS, In 2001, he released his first solo album titled "Ricky Lawson and Friends," on which he performed, arranged, produced, and wrote all of the songs in collaboration with a little help from some of his superstar artist friends. In 2008, he put together a classic Christmas CD, "Christmas with Friends" featuring special guests. Ricky Lawson was more than a drummer, he was a husband, father, brother and son, a wellspoke man of integrity and peace, and above all, a true professional. He was a warm, caring and kind individual that was truly passionate about music and the education of the next generation of young musicians. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and Office of Council President Brenda Jones, hereby joins with family and friends in honoring the legacy of Ricky Lawson and his outstanding musical achievements.

RESOLUTION APPROVING THE ALLOCATION OF COMMUNITY DEVELOPMENT BLOCK GRANT BUDGET FOR FISCAL YEAR 2014-2015

By ALL COUNCIL MEMBERS:

WHEREAS, Each year the Administration and City Council collectively evaluate proposals for the allocation of Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development (HUD) through the City of Detroit Neighborhood Opportunity Fund (NOF); and

WHEREAS, Under the federal guidelines, CDBG funds may be used to support programs operated by organizations that service low- to moderate-income families and other vulnerable populations within our community. Given the serious challenges in our community, the City of Detroit uses CDBG funding to create economic development, support the stabilization of neighborhoods through home repair and demolition programs and to provide the necessary public service programs to address the vast needs of the vulnerable in our community; and

WHEREAS, While the critical need for these types of services within the City has not diminished, the resources available from HUD to address those needs is consistently being reduced; and

WHEREAS, Over the past few years, there has been an effort by the City to maximize the impact of CDBG funding by making greater allocation amounts to a fewer number of eligible groups. This shift in policy has not only made the selection process more difficult, but it has also impacted the ability of groups that have historically relied on CDBG funds to operate: and

WHEREAS, The need for increased operational efficiencies within CDBG funded organizations could be achieved through greater interagency collaboration such as merger of groups with compatible missions or consolidation of administrative fiduciary functions to increase service capacity. These expressions of encouragement are offered in recognition of the funding trends and the need for even stronger service delivery groups in these times; and

WHEREAS, A review team which included Planning and Development Department representatives, its consultants, Legislative Policy Division (LPD) staff as well as other organizations reviewed the various proposals received of the program and prepared recommendations to the Mayor; and

WHEREAS, The Mayor subsequently prepared recommendations which were submitted to the City Planning Commission (CPC). CPC then recommended twelve (12) adjustments, including the addition of three (3) groups and the deletion of one (1) as well as corresponding changes to funding amounts; and

WHEREAS, City Council, having received the recommendations of the Mayor and the CPC, has reviewed the various proposals, held a public hearing as well as an appeals hearing regarding the organizations that were not initially recommended to receive 2014-2015 CDBG NOF funds; and

WHEREAS, In addition to the fifty-five (55) organizations recommended by the Mayor to receive CDBG funding, City Council has expanded the list to include the following eight (8) groups that provide unique, high impact, or critical services to our community: Forgotten Harvest, United Community Housing Coalition, Mercy Education Project, Wellspring, Coleman Young, SEED, Mosaic Youth Training Program and Detroit Non-Profit Housing Corporation; and

WHEREAS, The City Council elected to include Forgotten Harvest, which the City Planning Commission also recommended and was supported by the Administration for funding. The organization conducts a food service program that provides homeless and low-income individuals direct access to food not only at its own facilities but it also supports the food distribution efforts of other area public service groups, which greatly expands the impact of this CDBG allocation; and

WHEREAS, United Community Housing Coalition (UCHC), a safety net service for our homeless and low-income population, was included. This organization is a comprehensive housing services provider and many of its clients are referred from other service providers for foreclosure and homeless prevention services of all kinds. According to its application, during the last CDBG cycle it assisted 11,485 individuals and 4,594 households. UCHC also provided legal representation at 612 landlord/tenant hearings and 157 clients were provided mortgage foreclosure counseling; and

WHEREAS, Mercy Education Project is a public service education provider with an 80% GED graduation rate and 80% of adult females in the program improve one grade level within 60 days. It provides a supportive learning environment for low-income women and girls who have suffered educational failures to move them to self-sufficiency through mentoring and tutoring. According to its application, during the last CDBG cycle it provided 24,451 hours in literacy training to adults, 9,876 hours to youth in after-school tutoring, and provided transportation to 4,097 riders; and

WHEREAS, Wellspring, a public service education provider, operates the only non-profit Kumon Center in the country. Kumon is an internationally acclaimed education program designed to provide students with a strong foundation in literacy skill development and math that is generally cost-prohibitive to the City's low to moderate income population which greatly needs these services. Wellspring provide reading or math services during a 50 week program year to youth ages 6-21 in Northwest Detroit; and

WHEREAS, The Coleman Young Foundation program increases academic performance and provides college prep, scholarship funds and support services to assist students in completing secondary and post-secondary education. This is also one of the few programs that continue its mentorship through the student's post-secondary education to increase the likelihood of completing their degrees; and

WHEREAS, SEED's application was placed in the public service education category; however, after closer examination

of its work, it was transferred to the public service foreclosure prevention category. SEED supports the City's efforts to increase homeownership. It provides homebuyer education as well as counseling services and its counselors are HUD approved. According to its application, during its last year of operation 350 of its clients became first time homeowners, 107 clients were new homeowners using Housing Choice vouchers and of the 1,000 graduates of the homeownership counseling program, none have experienced foreclosure; and

WHEREAS, The Detroit Non-Profit Housing Corporation was also added under the public service foreclosure prevention category. This organization provides mortgage and tax foreclosure prevention services as well as homebuyer education to avoid foreclosure and retain homes. It uses the Fannie Mae client management system and its counselors, who travel to the homes of clients to meet face to face, are HUD approved. According to its application, during the last CDBG cycle it provided services to 962 households; and

WHEREAS, Mosaic Youth Training Program is a creative and performing arts program housed at the former and recently renovated historic Miller School, a sentimental treasure to our City. It is funded in the public service recreation category. 95% of program participants graduate high school and receive scholarships. For the current 2013 class, nineteen (19) are high school seniors and all are scheduled to graduate on time. This program exposes Detroit youth to careers in the arts, and provides entertainment and professional dramatic performance opportunities locally and throughout the United States. These young performers are valuable ambassadors for the City of Detroit. The program serves young artists (ages 7-18) by providing training opportunities in vocal, acting, professional development activities. Students have opportunities to participate as part of a summer program and/or participate in the core curriculum which rehearses after school and weekends; and

WHEREAS, Given the historic and very public role in the vetting of CDBG applicants as well as its unique knowledge of the residents of the City as their locally-elected representatives, City Council's involvement in the CDBG process is not only mandated by law but critical to the appropriate distribution of these funds; and

WHEREAS, The current fiscal situation in Detroit, coupled with the presence of multiple layers of professional consultants involvement in fundamental City service delivery systems, has created a level of uncertainty that requires heightened transparency for residents and business-

es in our community especially during the CDBG process, which has undergone significant revisions in the past few years. As such, the City has endeavored to make this allocation process, although truncated, as transparent as possible; and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby approves the allocation of Community Development Block Grant Neighborhood Opportunity Fund budget for FY 2014-15 with the addition of the following organizations: Forgotten Harvest, United Community Housing Coalition, Mercy Education Project, Wellspring, Coleman Young, SEED, Mosaic Youth Training Program and Detroit Non-Profit Housing Corporation as set forth in the attached CDBG NOF allocation chart; and BE IT FURTHER

BACKGROUND

City Planning Commission (CPC) staff has been working with the staff of the Planning and Development Department (PDD), community representatives and stakeholders to amend the text of SD1 (Special Development District Residential/ Commercial) and SD2 (Special Development District Commercial/Residential) zoning districts culminating in the proposed amendments to the Zoning Ordinance. Also proposed is an amendment to Chapter 3 of the City Code with the deletion of Sec. 3-4-1, which would remove the prohibition of

projecting signs over Woodward Avenue.

The SD1 and SD2 districts are proposed to be revised to allow more of the mixed-use character that is seen as desirable in the most logical or targeted areas. It is anticipated that once these zoning districts are amended, various areas will be rezoned to one of these classifications. likely those designated as Traditional Main Street overlay areas and portions of Midtown. The SD1 district is seen as being appropriate for lower intensity areas with a greater emphasis on residential development. While the SD2 is seen as more conducive to high intensity uses emphasizing commercial activity, more residential uses would be allowed on a by-right basis in the SD1 district. Both allow a mixture of residential, commercial and low-intensity industrial uses (limited in square footage and mandated to include a retail component) at different scales. Other, non-substantive changes are proposed as well.

Many changes were made to the allowable uses in order to provide for more retail opportunity, as well as the aforementioned low-intensity, small-scale industrial uses that include retail component.

Bars in the SD2 district were removed from the list of regulated uses to acknowledge the entertainment nature of the district. The intensity standards were also simplified to reduce the setbacks for many uses and also to change the height requirements.

PROPOSED AMENDMENTS

Following is the section of Chapter 3 of the City Code proposed to be amended with the proposed change and analysis where applicable in italics.

Maximum height is limited to forty-five (45) feet for non-mixed-use, sixty (60) feet for mixed-use buildings, not to exceed five (5) stories. Additional height is allowed when on a street wider than 60 feet.

Article XII. Use Regulations. The use table and use regulations are updated to reflect the standards and permissibility specified in the zoning districts. Sec. 61-12-230 is deleted, as it becomes redundant: all of the uses are allowed without being in an office building.

Article XIII. Intensity and Dimensional Standards. These are updated to reflect the standards specified in the zoning districts. Many lines of the table are removed as a specific standard for that specific use is deemed not necessary.

Sec, 61-14-7. Off-street parking exemptions and allowances. The maximum distance within which required parking can be provided is 1,320 feet. A district approach for parking is allowed.

Article XIV. Subdivision B. Off-street Parking Schedule "A". Chart is amended to allow reduction in required parking spaces for multi-family dwellings to 1.0 per dwelling unit of 0.75 per dwelling unit if located within 0.25 miles of a bus rapid transit, street car/trolley or light rail line. For retail, service, and commercial uses, where the use is located within 0.25 miles of a bus rapid transit, street car/trolley or light rail line, 0.75 of the minimum required off-street spaces.

Sec. 61-14-103. Waiver of off-street parking requirements for uses or buildings minimally deficient. The Planning and Development Department may grant a waiver of the off-street parking requirements, for the first three thousand (3,000) square feet of pedestrian-oriented retail, service, or commercial uses. This is in addition to the waiver for building under 3,000 square feet.

Sec. 61-14-113. Credit for public paring. City of Detroit public paring lots within one-thousand three hundred and twen-

ty (1,320) feet of the site proposed for occupancy may be used toward the required amount of off-street parking in SD1 or SD2

Sec. 61-14-149. Traditional Main Street overlay areas, SD1 and SD2. The prohibition on parking in front of the building is restated.

Sec. 61-16-124. Words and terms (Ln-Lz). "Manufacture of musical instruments, toys, novelties, metal or rubber stamps, or other small rubber products" is added to Low-impact Manufacturing or Processing.

Sec. 61-16-132. Words and terms (Mh-Mm). "Mixed Use" is defined.

Sec. 61-16-142. Words and terms (Nn-Nz). "Nonconforming use" is defined unless otherwise specified in the "Description" section of the zoning district. This deals with existing single-family homes being defined as conforming in SD1, even though new single-family construction would not be allowed.

PUBLIC DISCUSSION RESULTS

At the November 21, 2013 public hearing on this matter, questions were raised about the appropriateness of the "financial services center" use in the SD1 and SD2 districts, as well as in some of the existing commercial zoning districts. Also discussed was the possibility of adding a spacing requirement between such uses. Removing this use from one or both of the proposed districts is something that the CPC could recommend as part of the approval of this ordinance if it so chooses. The adding of a spacing requirement and/or a comprehensive look at the permissibility of this use City-wide is currently beyond the scope of staff, but it is something that the CPC could request of staff when capacity is increased.

ANALYSIS

The proposed changes are generally in response to the input given by the community representatives of the various TMS areas, other stakeholders, and a focus group of manufacturers. The changes bring the uses and development standards in line with the vision for the mixed-uses areas these districts would seem to be appropriate for. These zoning district provisions as they exist today do not allow the mix of uses that seems most appropriate. It is envisioned that the SD1 district would be appropriate for lessintense streets, such as Livernois Avenue or some of the east-west street in the Midtown area and SD2 for larger streets like portions of Michigan of Cass or Woodward Avenues.

The removal of the projecting sign over Woodward provision has been reviewed with both the Michigan Department of Transportation, who has jurisdiction over most of Woodward Avenue, the Law Department and the Detroit Department of Public Works. We are unable to find any merit in retaining the provision today.

RECOMMENDATION

The proposed amendments eliminate an undesirable provision sign restriction in Chapter 3 of the City Code, while revising and broadening the utility of underutilized zoning classifications of Chapter 61 that have wide appeal. These changes will support various current and future development initiatives and lessen the need to employ the PD classification. At the November 21, 2013 meeting the CPC took action to recommend approval of the proposed text changes, with the following changes:

1. That the Financial Services Center use be removed from SD1.

2. That single family residential use be made conditional in the SD1 district and that the following language in 61-11-161 be removed: "No new single-family residential development will be permitted in this district. However, the existing single or two-family family residential developments will not be considered non-conforming."
