RESOLUTION Affirming Inland Waters Pollution Control, Inc.'s Petition No. 263 for the Re-Bid of Contracts DWS-886 and DWS-887

By Council Member Benson:

Whereas, The Detroit City Council received on May 16, 2014, Petition Number 263 from Inland Waters Pollution Control, Inc. seeking to appeal the Detroit

Water and Sewerage Department's (DWSD) denial of their bid protest regarding the award of contracts DWS-886 and DWS-887; and

Whereas, Bids were solicited for DWS-886 to provide certain diagnostic and preventive maintenance and repair work of sewer lines on City's east side including inspection and in-place rehabilitation; and DWS-887 to provide the same scope of work on the City's west side; Each contract is for a term of three (3) years and up to \$10,000,000 per year in expenditures for a combined total of \$60,000,000.00; and

Whereas, Eight (8) bids were received on June 23, 2013, and pursuant to its policies and procedures the bids were submitted to a panel of DWSD contract procurement evaluators; the evaluations ranked the bids on work plans, ability to perform work, technical proposal, safety plan and cost; the bids were ranked in the following order from highest to lowest: Lakeshore Toltest Corporation, Lanzo Corporation, Blaze Contracting, Inland Waters Pollution Control, Utility Services Authority, Tooles Contracting Group, Rickman Enterprise Group; based on the evaluation, the Department recommended the award of both contracts to Lakeshore Toltest Corporation: and

Whereas, The petitioner and the Water and Sewerage Department have stated that during the evaluation process, before the ranking process had been completed, one of the members of the Board of Water Commissioners (BOWC) improperly attended meetings of the Evaluation Committee and allegedly expressed his preference that Lanzo Corp. become the vendor selected at the conclusion of the process; the evaluators have collectively expressed that they were not influenced by the actions of the BOWC member, as Lakeshore Toltest Corp. emerged as the successful bidder; and

Whereas, It was alleged and the facts support that only weeks after receiving the bid, Lakeshore Toltest Corporation and the DWSD determined that it was in the best interests of the department to assign the contracts following the approval with Lakeshore Toltest to a subsidiary corporation, Lakeshore Global, to fulfill the obligations of the contracts; the BOWC approved on April 23, 2014 the contracts with Lakeshore Toltest and the assignment of the contracts to Lakeshore Global; and

Whereas, Following the BOWC approval of the contracts, Lakeshore Toltest Corporation filed for bankruptcy, resulting in the cancellation of DWS-866 and DWS-877 with Lakeshore Toltest; DWSD proceeded to negotiate with the second-ranked bidder, Lanzo Corporation, resulting in the department recommendation to award DWS-886 and DWS-887 to Lanzo Corporation; and

Whereas, DWSD determined that due to financial constraints on the department, the scope of service under these contracts should be substantially modified from performing comprehensive inspection and rehabilitation of water and sewer lines in the City of Detroit, to addressing emergency conditions of failed, or collapsed water or sewer lines and reduce the anticipated costs of the contracts from \$10,000,00,000 per year (for a total of \$30,000,000 per contract) to \$5,000,000 per year (for a total of \$15,000,000 per contract). These modified contracts, were not re-bid before Lanzo was awarded the contracts: and

Whereas, Inland Waters Pollution Control filed a protest of BOWC approval of the contracts to Lakeshore Toltest and the assignment to Lakeshore Global on April 30, 2014; the protest was denied by the BOWC on May 9, 2014; Inland Waters Pollution Control filed an appeal of their protest to the City Council on May 16, 2014; and

Whereas, Inland Waters Pollution Control filed a second protest of the award of these contracts to Lanzo Corporation with the BOWC; the Commission denied the second protest on June 11, 2014; Inland Waters filed an appeal of the denial of their protest with the Detroit City Council on June 18, 2014; and

Whereas, The Detroit City Council is concerned that all city processes must be transparent and held to the highest standards, and it appears from the petition filed by Inland Waters Pollution Control that significant questions can be raised regarding the process for evaluating and awarding contracts DWS-886 and DWS-887; and

Whereas, The Detroit City Council finds that the evaluation process was compromised in the following ways:

- The presence of a member of the Board of Water Commissioners at meetings of the Evaluation Committee, who voiced an opinion about the vendors being considered; and
- The decision to assign the contracts from Lakeshore Toltest to Lakeshore Global followed by the cancellation of the contracts due to Lakeshore Toltest filing for bankruptcy; and
- Upon the changes to the scope of the contracts, resulting in reductions to the estimated expenditures on each contract, the contracts should have been rebid.

Now Therefore Be It

Resolved, That the Detroit City Council agrees with the petitioner, Inland Waters Pollution Control, that the bidding, evaluation and award process for contracts DWS-886 and DWS-887 has been significantly compromised, lacking transparency, which contributes to questions of credibility and integrity concerning the process that has resulted in the award of contract; and

Be It Finally

Resolved, That the Detroit City Council affirms the petitioner's request that the contracts DWS-886 and DWS-887 be rebid.

City Planning Commission

July 14, 2014

Honorable City Council:

Re: The request of PDRM LLC, to amend Map No. 39 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, to show a B2 (Local Business and Residential District) zoning classification where an R1 (Single Family Residential District) and B1 (Restricted Business District) zoning classifications are presently shown on property located at 4290 Marseilles (the site of the Hanstein School and school administration building) as well as the request of the City Planning Commission to show a B4 (General Commercial District) zoning classification where an R1 classification is presently shown at 17801 Mack Avenue, both of which are north of Mack Avenue and east of Marseilles. (Recommend Approval)

The City Planning Commission (CPC) has received the request of PDRM LLC, to approve a rezoning from the R1 (Single Family Residential District) and B1 (Restricted Business District) to B2 (Local Business and Residential District) on property located at 4290 Marseilles (the site of the Hanstein School and school administration building). Additionally, the City Planning Commission request to rezone the northerly portion of 17801 Mack Avenue from R1 to the B4 (General Commercial) zoning district. The request-

ed amendments are both on Map No. 39 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning and are north of Mack Avenue and east of Marseilles. The proposed change to B2 is being requested to allow for the redevelopment of the school site into an indoor recreation facility. The rezoning to B4 of the northerly 25 feet of the Ray Laetham car dealership property is being requested to make the existing use conforming under zoning. The ordinance to effectuate these rezonings will be submitted to City Council upon its approval as to form by the Law Department.

PROPOSED DEVELOPMENT

The petitioner has requested the rezoning to allow for the demolition of a nowvacant Hanstein school and construct an indoor sports dome. Also proposed is the conversion of the existing vacant Detroit Public Schools (DPS) administration building to a workout facility and indoor batting cages. These uses are not allowed in the existing R2 and B1 zoning districts.

Also proposed is the rezoning of the northerly 25 feet of the existing Ray Laetham car dealership property from R1 to B4. While the property does hold a Board of Zoning appeals use variance, it seems appropriate to rezone the property to acknowledge the long-standing use and to unify the zoning of the parcel.

PUBLIC HEARING RESULTS

At the June 19, 2014 public hearing on this matter, 14 persons spoke. One person spoke in support, the owner of the Ray Laetham auto dealership. One person requested a different site layout and had questions about the adequacy of parking. The remainder of speakers spoke in support of a tenant in the administration building, the New Breed Community Development Corporation (which did submit a letter of support subsequent to the public hearing). This organization provides various types of assistance to community members. Their lease with the property owner, the Detroit Public Schools, has expired and they are considerable behind on rent and utility payments.

REVIEW

In accordance with the rezoning criteria of the Zoning Ordinance (Section 61-3-80), reviews of proposed map amendments should be conducted in light of the following relevant criteria. Staff's analysis follows immediately in italics:

- (1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact: A new owner wishes to use the building and property for a different use than the current one. Staff feels that the Mack frontage property should have been rezoned previously.
- (2) Whether the proposed amendment is consistent with the Master Plan and the

stated purposes of this Zoning Ordinance: The Master Plan shows RL (Low Density Residential) for the 4290 Marseilles parcel, and the Planning and Development Department (PDD) has determined that the rezoning generally complies with the surrounding CN (Neighborhood Commercial) land use designation. Based on PDD staff review, the proposed rezoning would not change the general characteristics of this area. The Master Plan shows GC (General Commercial for the rezoning of the portion of 17801 Mack Avenue and the rezoning to the commercial designation is consistent with this designation.

- (6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract: The parcels to the east and south are commercially-developed. The institutional use across the street would seem to be compatible with the proposed Local Business and Residential District. There should not be a negative impact on the residential uses to the north.
- (7) The suitability of the subject property for the existing zoning classification and proposed zoning classification: The PDD staff has determined that the Master Plan seems to indicate that it is suitable for the proposed zoning and that it generally complies with the surrounding Master Plan land use designation and that the proposed rezoning would not change the general characteristics of this area as much of the adjacent development is commercial or institutional.
- (8) Whether the proposed rezoning will create an illegal "spot zone." It does not appear that would be the case.

 RECOMMENDATION

The requested rezoning to the B2 district seems appropriate. The site has commercial developments on two sides and an institutional development to the west. The displacement of the New Breed Community Development Corporation is certainly unfortunate, and hopefully an alternative location can be found for them. Staff understands that Council Member Spivey, in whose district this site is located, is working with them to find a new location.

If the proposed building is over 20,000 square feet, site plan review would be required under current code and the site issues can be addressed at the time of the building permit application. The other uses in the B2 district would seem to fit in the subject area as well.

The rezoning from R1 to B4 seems appropriate and would make a long-standing nonconforming use conforming. The CPC took action to recommend approval of the proposed rezonings to B2 and B4 at its July 10, 2014 meeting. Again, the ordinance to effectuate these

rezoning will be submitted to City Council upon its approval as to form by the Law Department.

City Planning Commission

July 14, 2014

Honorable City Council:

Re: Proposal of the Midtown Project, LLC to modify the plans for the existing PD (Planned Development District) zoning classification on District Map No. 4 Article XVII of the 1984 Detroit City Code, for properties at 3750, 3780 and 3800 Woodward Avenue generally located on the east side of Woodward Avenue between East Alexandrine Avenue and Mack Avenue for the construction of a four-story medical office building and a 3-1/2 level parking structure (Recommending Approval).

BACKGROUND

In October, 1998, the City approved a petition from the Planning and Development Department (P&DD) to rezone the block generally bounded by vacated Martin Place on the north, John R on the east, Mack Avenue on the south, and Woodward Avenue on the west (totaling about 9.2 acres) from B4 (General Business) to PD codified in Ordinance No. 37-98

The subject northern 4.7 acres is presently developed with the Professional Plaza office complex, which includes a 2story office building at the southwest corner of the site and a 12-story office building at the northwest corner of the site both built in 1965. This site also currently has approximately 466 parking spaces in a large surface lot on the east side of the site. In addition, the State of Michigan Historic Marker for the Detroit Medical College is also located on the site between the two existing buildings. In 1998, a developer was going to build an office tower, residential tower, retail mall. hotel, and parking deck, but the proposed expansion of Professional Plaza never happened. Starting in 2001, the City Council approved the redevelopment of the south 4.5 acres with the Ellington and 6-story parking garage with 954 spaces and later the Whole Foods store which occupy this same PD zoning district.

The subject site is urban renewal land located within the Medical Center Rehabilitation Project Center Number 1 Plan.

PROPOSAL

The petitioner is proposing to clear the entire north 4.7 acre site. The approximately .92 acres surrounding the 12-story tower is part of a later phase and is not part of this PD modification. The remaining 3.79 acres is an L-shaped parcel and is the subject of the proposed PD modification.

The petitioner is proposing the construction of a five-story medical office building facing Woodward Avenue, which would include a diagnostics center, medical office suites, retail, and café. The plan includes a small outdoor dining area along Woodward Avenue. Along John R Street, the petitioner is proposing a 3-1/2 level parking garage with some adjacent surface parking. The first floor of the garage would include a small retail space facing John R.

The medical building would house the Wayne State University (WSU) Physician Group medical clinics. The doctors would utilize the Detroit Medical Center (DMC) hospitals for major surgeries and maintain their offices at WSU. However, the proposed building would contain diagnostics, such as blood draw, X-ray, MRI and CT scans with a small pharmacy.

The Commission first acted on this matter in July of 2013, the design scheme

and tenant profile continued to evolve. The Detroit Medical Center (DMC) joined the development and as a result an additional floor was added to the office buildings. Parking, which was already in excess of requirements, was increased by 29 spaces. Also in an effort to elevate the exterior appearance of the office building, a folded glass and metal wall feature was introduced at the northwest corner giving the design added character...

SURROUNDING ZONING & LAND USES

To the north: PD (Planned Development District) and B4 (General Business District) — senior residential building (Bicentennial Towers) and Martin Place right-of-way;

To the east: R6 (High Density Residential District) — Harper Hospital and WSU School of Pharmacy:

To the south: PD — existing commercial with parking deck, residential building (The Ellington) and retail and grocery (Whole Foods Grocery Store); and

To the west: PD and B4 — Max Fisher Music Center and Detroit Public Schools Detroit School of Arts.

PUBLIC HEARING

On May 16, 2013, the City Planning Commission held a public hearing on the subject PD modification.

The CPC asked a number of questions for clarification on the proposal, expressing concerns about the number of parking spaces provided. At the time of the hearing, the developer wanted to incorporate the existing public walkway at the north end of the site (on the now vacated Martin Place Street). There were several questions about the status and use of the proposed walkway.

Two persons from the nearby community spoke regarding the project. One person said she was in support of the project, but the City needed to do a better job of informing area residents of the proposal. The manager of the Bicentennial Tower senior building to the north said he was in favor of the project.

ANALYSIS

Public Hearing Follow-up

Following the public hearing, numerous discussions were held in cooperation with other City departments including P&DD regarding the proposed project. Since that time, the developer has agreed to make the following changes (these changes have been reflected in revised site plans):

- Move the building along Woodward Avenue 5 feet eastward in order to provide a larger pedestrian zone along Woodward Avenue:
- 2) Remove any conceptual plans for the phase two portion of the project; this would result in a separate application being submitted at a later date; the developer agreed to install a decorative 6 foot high fence separating phase one and phase two;

3) Eliminate from the plans any encroachment onto the existing public walkway at the north end of the site;

4) Redesign of the Woodward Avenue driveway which would be used for deliveries based on feedback from the State of Michigan; and

5) Add four wayfinding signs to help with circulation within the site.

Walkway

Initially, the petitioner wanted to purchase the existing public walkway at the north end of the project to be included in the proposed PD District. The public walkway, owned by the City of Detroit, is a paved and lighted path for pedestrians traveling from Woodward to John R. In the future, the developer may petition the City to buy the walkway, but it is not part of the subject PD modifications at this time. Any change to the walkway would need to be supported by the urban renewal plan.

Master Plan

Regarding the Detroit Master Plan of Policies, the subject property is located in Woodward Lower area Neighborhood Cluster 4. The future land use designation for the subject parcel is Mixed-Residential/Commercial (MRC). The Master Plan states that, "MRC areas consist predominantly of medium-to-high density housing developed compatibly with commercial and/or institutional uses. This classification is well suited to areas proximal to existing centers of major commercial activity, major thoroughfares, transportation nodes, or gateways into the city." It appears the proposed project complies with the Master Plan of Policies.

Development Plan

The subject site is located within the Medical Center Rehabilitation Project Number 1 urban renewal area. For the subject site, the urban renewal plan (the Plan) allows for commercial, residential, and institutional uses. The definition of commercial uses within the Plan includes medical clinics, retail stores, restaurants, etc.

The Plan states in part that the arrangement of structures, including accessory structures, on each parcel shall be subject to the review and approval of the P&DD. In terms of setbacks, the Plan states in part that a zero lot line setback may be allowed at the discretion of P&DD in the subject area. It appears to staff that the proposed project complies with the urban renewal plan. Signage

The proposed plans show signage for the building noting the WSU and DMC logos and the name — University Physician Group. In addition, the plans include signage for the various retail uses. The developer indicates all signs will be non-internally illuminated metal letters or logos. As noted earlier, the developer is proposing four 6 foot high by approximately 2 foot wide wayfinding signs.

Circulation

The project is proposing two new curb cuts on Woodward Avenue; one as the main entrance and one as a delivery only drive. The project also includes two new curb cuts on John R: one for the parking lot and one only for staff parking and deliveries. The middle of the site would include a larger circular drop off area. CPC is supportive of the proposed circulation plan and thinks the additional wayfinding signs will help with navigating the site.

Landscaping Plan

The petitioner has included a landscaping plan with the submittal, which the Commission supports. Shifting the entire building 5 feet eastward has resulted in the loss of a portion of the landscaped setback along John R. Furthermore, removing the development from the walkway to the north has resulted in the loss of some landscaping on the north end of the parking structure. CPC is supportive of these changes in light of the resultant benefits.

Building Design and Historic Issues

CPC was generally pleased with the design for the exterior façade, finding the proposed design to be attractive with appropriate fenestration and architectural details that match the context of the area. The subsequently revised design made the façade all the more striking and distinct

The addition of a fifth floor adds 26,970 gross square feet to the office building, bringing the total to 154,776. The fifth floor adds a glass curtain wall and metal screen atop the roof. The previous building height as measured to the parapet of the four story building was 64'-8". The additional fifth floor raises the height to 79'-0" and 90'-0" to the top of the metal screen wall. At the northwest corner of the building there is now proposed an iconic wall of folded glass planes, which angle out beyond the vertical plane of the north and west façades. This feature angles upward over and above the flat roof line of the additional fifth floor and metal screen wall to a height of 110'-11-1/2" at the apex of the northwest corner.

The subject site is not within a historic district. However, the site is adjacent to two historic districts, the Willis Selden and Orchestra Hall historic districts. As a result, the Historic District Commission will need to review the project prior to the issuance of permits. The developer has proposed moving the State of Michigan Historical marker to the median at the covered drop off area.

Parking

When first acted upon by the Commission the project include a total of 640 parking spaces of which 616 were to be provided via the proposed deck and 24 via surface parking. Staff previously esti-

mated that the zoning ordinance would require 616 total spaces for the project, while the Urban Renewal Plan, which governs in this instance, would require 434 spaces. With the additional floor space gained from the fifth floor addition to the office building the parking requirement would increase by 135 spaces per the Zoning Ordinance or 90 spaces per the Urban Renewal Plan. In either event the revised proposal of 645 total spaces in the deck is less than the corresponding increase, were either the Zoning Ordinance or the Urban Renewal Plan numbers to be applied. The proposed total increase in parking from 640 to 669 is justified by the increase in floor area to be served.

Community Input

On Wednesday, April 10, 2013 the petitioner held a community meeting in the project area regarding the proposal. Approximately 35 individuals attended including residents, community stakeholders, business owner representatives from WSU parking division, and Midtown Detroit, LLC. The attendees inquired about the proposed type of retail, the M-1 Rail system and duplication of existing medical services by the WSU Physician Group doctors of those provided by DMC doctors. Others were concerned about being forced out of the area because of all the new development.

On March 31, 2013, the petitioner met with a few members of the Medical Center Citizens' District Council, community members and Senator Coleman Young Jr. to present their proposal. The chairman of the CDC, Steve Bryant, was in attendance, but stated that a quorum for the CDC was not present.

PD District Design Criteria

Section 61-11-15 of the Zoning Ordinance lists twenty design criteria for PD Districts, which are attached for reference. Staff has reviewed these criteria and finds that the proposal meets the subject design criteria.

CONCLUSION AND RECOMMENDA-TION

Based on the above analysis, LPD — CPC staff recommends approval of the plan modification. The Legislative Policy Division (LPD) — City Planning Commission (CPC) staff recommends approval of Midtown Project, LLC's request to modify the approved plans for the existing PD zoning classification on District Map No. 4 of the Detroit Zoning Ordinance at 3750, 3780, and 3800 Woodward Avenue subject to the following condition:

The final site plans, elevations, landscaping, lighting and signage plans be submitted to the Legislative Policy Division, CPC staff for review and consistency with approved plans prior to making application for applicable permits. Please contact the office if you have any questions.

Resolved, That a public hearing will be held by this body in the Committee Room, 13th Floor of the Coleman A. Young Municipal Center on TUESDAY, JULY 29, 2014 AT 2:40 P.M., for the purpose of considering the advisability of adopting the foregoing proposed ordinance to amend Chapter 61 of the 1984 Detroit City Code, 'Zoning,' commonly known as the Detroit Zoning Ordinance, by amending Article XVII, District Map No. 4, to modify an existing PD (Planned Development District) zoning classification established by Ordinance No. 37-98 on the property located at 3750, 3780, and 3800 Woodward Avenue, in the area generally located on the east side of Woodward Avenue between East Alexandrine and Mack Avenue to include a 4 story office building and 3-1/2 story parking structure.

Honorable City Council:

Re: Petition No. 140 — Bert's Marketplace for Outdoor Café Permit at 2727-2739 Russell.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroach-

ment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual usepermit fee to the Permit Section of the DPW/CED. In addition, the Department of Public Works/Traffic Engineering Division (DPW/TED) has no objection to the proposed plan provided that a minimum of four feet clear sidewalk be maintained at all times.

The Institute for Population Health (IPH) has approved this petition, subject to petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from the Institute of Population Health Food Safety Division.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three years (3) from the date of your Honorable Body's approval, subject to final approval by the Detroit Emergency Financial Manager.

Respectfully submitted, JOHN SAAD, P.E. Engineering Services Coordinator

By Council Member Leland:

Provided, That the café meets the regulations set by the "Outdoor Café Guidelines" as adapted by the City Council and guided by Chapter 58, Section 50-2-8.1 of the City Code; and

Provided, That the "permittee", prior to obtaining said permit, file an indemnity agreement in a form approved by the Law Department, saving and protecting the City of Detroit harmless from any or all claims, damages or expenses that may arise by reason of the issuance of said permit and the faithful performance by the "permittee" of the terms thereof; and in addition, to pay all claims, damages or expenses that may arise out of the maintenance of said encroachments; and

Provided, That the filing of said indemnity agreement for this current year shall be construed as acceptance of this Resolution by the "permittee"; and

Provided, That the permit is revocable at the will, whim and caprice of the City Council; and hereby expressly waives any right to claim damages or compensation for removal of encroachment, and further, that "permittee" acquires no implied or other privileges hereunder not expressly stated herein; and

Provided, That no other rights in the public streets, alley or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachment shall be removed at the expense of the "permittee" at any time when so directed by City Council, and that the public property so affected shall be restored to a condition satisfactory to the DPW/CED by said "permittee" at its expense; and

Provided, That the permit shall not be assigned or transferred without a written approval of the City Council; and

Provided, That the petitioner follow the mandated minimum four (4) foot wide pedestrian clearance on the sidewalk, free of all obstacles such as existing planters, parking meters, utility poles, transformer boxes, etc., to allow for pedestrian movement; and

Provided, That the designated outdoor seating area shall be properly identified through the use of railings in order to regulate and control the serving of liquor within the perimeter of the cafe; and

Provided, That if any tent or other enclosure is to be utilized on the subject site, the applicant shall secure prior approval from Buildings and Safety Department and Engineering of Public Works/City Department Engineering Division; and

Provided, That all railing equipment and fixtures shall be removed from the public right-of-way during the months of non-operation and placed in storage; and

W-F LLC wishes to acquire Parcel 613, remove all debris and expand the area. This use is permitted as a matter of right in a M-4 zone. Expansion of the area will also allow for the utilization of the site for contractors associated with the M-1 Light Rail System, to stage and pre-assemble portions of the railway.

We, therefore, request that your Honorable Body approve the land sale resolution with a Waiver of Reconsideration and authorize the Mayor of the City of Detroit, or his authorized designee, to issue a quit-claim deed to the property and such other documents as may be necessary to effectuate the sale, with W-F, LLC, a Michigan Limited Liability Company, subject to final approval by the Detroit Emergency Financial Manager, or his authorized designee.

Honorable City Council:

Re: Amendment of Sales Resolution. Development: 4209 Woodward & 22-28 W. Willis.

On November 15, 2006 your Honorable Body authorized the sale of the above-captioned property to University Cultural Center Association, a Michigan Non-Profit Corporation, for the purpose of constructing a twenty-two (22) residential unit, three (3) story, mixed-use complex with retail space and parking. On September 13, 2011, an amendment was approved by your Honorable Body, extending the completion period of the development to December 31, 2012.

University Cultural Center Association has informed the Planning and Development Department that, due to previous downturns in the housing market, the development project was delayed and reformatted. They now wish to assign all of their interest in this property to Woodward Willis, LLC, a Michigan Limited Liability Company, a wholly owned subsidiary of University Cultural Center Association.

Under the terms and conditions of a Modification, Assignment, Assumption and Consent Agreement, Woodward Willis, LLC requests to extend the development period to March 31, 2015. Additionally, they propose to remove the residential housing component, construct retail/office space on the ground floor and loft office space on the second and third floors.

The Planning & Development Department has reviewed the request of Woodward Willis, LLC, and determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement. Woodward

Willis, LLC, possesses the qualifications and has indicted potential financial resources necessary to develop the land in accordance with the development plan. The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the proposed Modification, Assignment, Assumption and Consent Agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution, authorizing an amendment to the Development Agreement and to extend the completion period of the development.

We, further, request that your Honorable Body adopt the attached resolution authorizing and approving a Modification Assignment, Assumption and Consent Agreement between Woodward Willis, LLC, a Michigan Limited Liability Company, University Cultural Center Association, a Michigan Non-Profit Corporation and the City of Detroit, a Michigan Public Body Corporate.

Recreation Department

June 24, 2014

Honorable City Council:

Re: Declaration of surplus and transfer of property from the Planning & Development Department to the Economic Development Corporation of the City of Detroit and U.S. Coast Guard.

This is a joint request by the City's Recreation Department, Planning and

Development Department ("PDD") and Finance Department to this Honorable Body to provide such approvals as may be necessary to effectuate the following, all as further described below: (i) the transfer of certain City-owned property to the United States Coast Guard (the "USCG") and the Economic Development Corporation of the City of Detroit (the "EDC"); (ii) the transfer of certain riverfront property to the City from the EDC in order to connect the Riverwalk; and (iii) the approval of the conversion of certain City-owned federally designated park space.

By way of background, the EDC is a public body corporate established by ordinance adopted by the City Council in 1976 pursuant to Act 338, Public Acts of Michigan, 1974 (the "EDC Act") for purposes of assisting local industrial and commercial enterprises to strengthen and revitalize the economy of the City of Detroit and the State of Michigan. The EDC is governed by a Board of Directors made up of members appointed by the Mayor of the City of Detroit, with the advice and consent of the City Council. Pursuant to the EDC Act, the EDC may, among other things, implement development projecs in specified project areas in accordance with project plans that have been approved by the City Council. Pursuant to the EDC Act, the City may transfer property to the EDC for less than fair market value and, likewise, the EDC may transfer property for less than fair market value. Historically, the City and the EDC have found this flexibility to provide a useful tool for incentivizing economic development projects and for filling gaps in financing models available for such projects.

On May 6, 2008, this Honorable Body approved the EDC's Amended and Restated Project Plan for the Mt. Elliot-Wight Development Project (the "Mt. Elliot Project Plan"), the project area for which is shown on Exhibit A (the "Mt. Elliot Project Area"). The Mt. Elliot Project Plan contemplates, among other things, the City's transfer of certain Cityowned land located in the Project Area to the United States Coast Guard (the "USCG") to accommodate the Project Plan"), the project area for which is shown on Exhibit B (the "Waterfront Project Area"). The Waterfront East Project Plan contemplates, among other things, that the City will retain ownership of certain parts of the Waterfront Project Area, including the area necessary for the Riverwalk, for public access and other public purposes, and transfer all areas not utilized for public access and other public purposes to the EDC for \$1.00 for purposes of implementing the Waterfront East Project Plan.

Requests for Transfer of City-Owned Property

Consistent with the Mt. Elliot Project Plan and the Waterfront East Project Plan, the EDC has requested the transfers of certain City-owned properties as The described below. Recreation Department has relinquished jurisdictional control over those requested parcels currently under its jurisdictional control and the Planning and Development Department ("P&DD") seeks to have these properties declared to be surplus to accommodate their transfer to the USCG and/or EDC, as further described below.

1. Transfer to USCG of City-owned land in the Mt. Elliot Project Area (Shown as Parcels 1 & 2 on Exhibit A-1) (collectively, the "City CG Parcels")

In January, 2011, the City, the EDC, and the USCG entered into a certain Exchange Agreement (the "Exchange Agreement"), pursuant to which the City agreed to transfer to the USCG the above-referenced parcels. In exchange, the USCG will transfer to the EDC a USCG-owned parcel located in the Waterfront Project Area (Shown as "Coast Guard Atwater Parcel" on Exhibit B-1) to enable the EDC to assemble a prime development site for purposes of implementing the Waterfront East Project Plan. Thereafter, as further described below, the EDC will transfer a portion of said parcel to the City to close a gap in the Riverwalk. In order for the Exchange Agreement to be consummated, the City Council must (i) consent to the transfer of jurisdictional control of the City CG Parcels to PDD, (ii) declare the CG Parcels surplus, and (iii) approve and ratify the Exchange Agreement.

2. Transfer to EDC of City-owned land in the Mt. Elliot Project Area (Shown as Parcels 3 & 4 on Exhibit A-1) (collectively, the "Lighthouse Depot Property")

The Lighthouse Depot buildings are not currently being used by the City. The new Riverfront Conservancy Pavilion, located elsewhere in Mt. Elliott Park is expected to provide recreation center amenities to the public. The buildings and the related adjacent parking are contemplated by the Mt. Elliot Project Plan for transfer to the EDC to facilitate an adaptive commercial development reuse of the buildings. In order for the transfer of Lighthouse Depot Property to the EDC to be consummated, the City Council must (i) consent to the transfer of jurisdictional control of the Lighthouse Depot Property to PDD, (ii) declare the Lighthouse Depot Property surplus, (iii) and approve a new land transfer agreement between the City and the EDC for the transfer of the Lighthouse Depot Property.

3. Transfer to EDC of City-owned

land in the Waterfront Project Area (Shown on Exhibit B-1) as Parcel 40 and Parcel 44, collectively, the "Waterfront Omitted Parcels")

Pursuant to the Waterfront East Project Plan, all City-owned land in the Waterfront Project Area, other than land to be retained for public access and other public purposes, would be transferred to the EDC for purposes of implementing the Waterfront East Project Plan. In 2006, the City transferred such property to the EDC pursuant to a land transfer agreement approved by the City Council in 2005 (the "Waterfront LTA"). Since such time, the EDC has been actively pursuing the redevelopment of the Waterfront Project Area, including the recent redevelopment of the Globe Trading Building to hold the Michigan Department of Natural Resources' ("MDNR") planned outdoor adventure center. Recently, while conducting title review for a planned residential development consisting of approximately 290 units over five formerly owned-City blocks, it was discovered that (i) the City-owned parcel identified as "Parcel 40" was approved by the City Council for transfer to the EDC but inadvertently omitted from the related land transfer agreement, and (ii) the Cityowned parcel identified as "Parcel 44" was inadvertently omitted from the 2005 City Council land transfer approvals. These parcels are integral to the redevelopment of the Waterfront Project Area. The transfer of the Waterfront Omitted Parcels to the EDC requires your Honorable Body declare the Waterfront Omitted Parcels surplus and approve the transfer of the Waterfront Omitted Parcels pursuant to an amendment to the Waterfront LTA.

4. Transfer to EDC of a portion of Chene Park in the Waterfront Project Area (Shown on Exhibit B-1) as "Chene Conversion Parcel")

The easternmost 100' of Chene Park presently holds a soundproofing berm that is no longer necessary due to the relocation of the neighboring cement company. Under the Waterfront East Project Plan, the Chene Conversion Parcel would be re-zoned and transferred to the EDC. When combined with the adjacent former cement silo site already owned by the EDC and with the USCGowned property to be transferred to the EDC under the Exchange Agreement, it will allow the creation of a prime Waterfront development site. The transfer of the Chene Conversion Parcel to the EDC requires your Honorable Body (i) consent to the transfer of jurisdictional control of the Chene Conversion Parcel to PDD, (ii) declare the Chene Conversion Parcel surplus, and (iii) approve the transfer of the Chene Conversion Parcel pursuant to an amendment to the Waterfront LTA.

Request for Transfer to City of EDC-Owned Property

Subject to the consummation of the Exchange Agreement, the EDC and the Recreation Department seek approval of the transfer by the EDC to the City of a portion of the Coast Guard Atwater Parcel (Shown as "Riverwalk Parcel" on Exhibit B-1). The acquisition by the City of the Riverwalk Parcel will fill a gap in the Riverwalk between Chene Park and Stroh's River Place. City's Buildings, Safety Engineering and Environmental Department has reviewed and is satisfied with the environmental condition of the Riverwalk Parcel. The transfer of the Riverwalk Parcel to the City requires that your Honorable Body approve the transfer of the Riverwalk Parcel to the City pursuant to an amendment to the Waterfront LTA, subject to the consummation of the Exchange Agreement.

Request for Approval of Conversions

This Honorable Body's approval of a conversion process, started a number of years ago, is necessary for certain of the requested City-owned properties to be put to the uses intended hereunder. Property acquired or improved using federal Land Water Conservation Funds (the "Grant Funds") are required to be used exclusively for recreational purposes in perpetuity unless, with National Park Service ("NPS") and MDNR approval, such property is "converted", in which event such property will be released from such restriction and replacement or mitigation recreational property will instead assume such restriction ("Conversion").

Each of the City CG Parcels, the Lighthouse Depot Property, and the Chene Conversion Parcel were acquired or improved by the City using Grant Funds. Further, the St. Aubin Marina, located within the Waterfront East Project Area, is encumbered by Grant Funds, including an approximately 2,000 square foot portion thereof which was used in the expansion of Atwater Street between Rivard and Orleans Streets, as depicted on Exhibit D (the "Marina Parcel"). In addition, the site of the former Atkinson Playfield, located near the intersection of W. Warren Avenue, Livernois Avenue and I-94 Freeway and depicted on Exhibit E (the "Atkinson Field") and collectively with the City CG Parcels, the Lighthouse Depot Property, the Chene Conversion Parcel, and the Marina Parcel referred to as the "Conversion Parcels"), remains encumbered by Grant Funds although a portion thereof was previously transferred by the City for use in the expansion of the adjacent Thyssen Steel facility pursuant to the EDC's Thyssen Steel Group project plan, approved by City Council in 1997, and the remaining portion of the Atkinson Field is being held by the City, through PDD. for future development. Because the

use of the Marina Parcel and the Atkinson Field changed prior to the Conversion, the City is technically not in compliance with the requirements of the Grant Funds; however, the City Council's approval of the Conversion as requested herein will remedy this issue.

The EDC and the Recreation Department previously submitted Conversion requests with respect to the Conversion Parcels to the NPS and the MDNR, proposing the dedication of 13.68 acres of Milliken State Park to recreational property in order to mitigate the loss of the Conversion Parcels as recreational space. The Conversion requests have been granted by both the NPS and the MDNR, subject to approval by the City Council.

We, therefore, request that your Honorable Body adopt the attached resolution (i) approving the requested transfers of jurisdiction and declarations of surplus, (ii) authorizing the above-referenced transfers of City-owned property by way of the Exchange Agreement, a Mt. Elliot Land Transfer Agreement, an amendment to the Waterfront Land Transfer Agreement, (iii) approving the City's acquisition of the Riverwalk Parcel pursuant to the terms of an amendment to the Waterfront LTA, and (iv) approving the Conversion of the Conversion Parcels.

NEW BUSINESS

City Planning Commission

July 16, 2014

Honorable City Council:

Re: Request of Mission Point of Detroit, LLC to approve a rezoning from the R3 (Low-Density Residential) to R5 (Medium Density Residential) zoning district on Map No. 2 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, located at 2102 Orleans Street, south of Antietam Street and west of the Dequindre Cut. (RECOMMENDING APPROVAL.)

The City Planning Commission (CPC) has received the request of Mission Point of Detroit, LLC to approve a rezoning from the R3 (Low-Density Residential) to R5 (Medium Density Residential) zoning district on Map No. 2 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, located at 2102 Orleans Street, south of Antietam Street and west of the Dequindre Street. This request will be reviewed under the approval criteria specified in Division 3 of Article III of the Detroit Zoning Ordinance (Chapter 61 of the 1984) Detroit City Code). This proposed change is being requested to allow for the conversion of the existing adult foster home to a skilled nursing facility.

PROPOSED DEVELOPMENT

The petitioner has requested the rezoning to allow the existing building to be redeveloped. The existing R3 zoning does not allow the requested nursing home use. The requested R5 zoning district does allow that use, along with other

higher-density residential uses, such as multiple-family dwelling, group day care home, and adult foster care facility.

SURROUNDING LAND USE AND ZONING

To the north: Church, R3
To the south: Multi-family, R6

To the east: Vacant property, R3 and the Cut

To the west: Multi-family, R6
PUBLIC HEARING RESULTS

At the June 5, 2014 public hearing on this matter, no members of the public spoke. Commissioners asked for further information about the other nursing home facilities in Detroit that are operated by this petitioner. Pictures of those facilities are attached.

Also requested was a list of the community organizations the petitioner has discussed the rezoning with. According to the petitioner they have met with Joel Landy, owner of The Lofts at 1395 Antietam; Sam Mager, President of Mager & Company, managers of the Nicolet & Lafayette Townhouses, as well as the Hyde Park Cooperative; property manager of Skyview Towers at 1600 Antietam.

REVIEW

In accordance with the rezoning criteria of the Zoning Ordinance (Section 61-3-80), reviews of proposed map amendment should be conducted in light of the following relevant criteria, with staff's analysis following in italics:

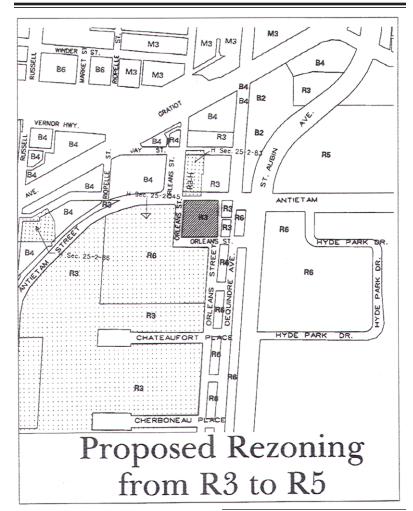

- (1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact. A new owner wishes to use the building for a different use than the current one.
 - (2) Whether the proposed amendment

is consistent with the Master Plan and the stated purposes of this Zoning ordinance; The Master Plan shows CT (Thoroughfare Commercial) for the area between W. Fort Street and the expressway.

- (6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract; The properties to the south and west contain high-density residential uses, which would seem compatible with the proposed zoning. The church to the north would also seem compatible with medium-density residential uses.
- (7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; The Master Plan seems to indicate that it is suitable for the proposed zoning, and much of the adjacent development is commercial or institutional and contains parking.
- (8) Whether the proposed rezoning will create an illegal "spot zone." It does not appear that would be the case. RECOMMENDATION

CPC having held the requisite public hearing and completed its review of the recommends approval of the proposed rezoning pending final determination by P&DD as to its compliance with the Master Plan and the uses allowed in the R5 district and it appears to fit with the surrounding uses.

July 15, 2014

Honorable City Council:

Re: Transfer of Jurisdiction. 3501 Chene, Detroit. MI.

The Water and Sewerage Department ("DWSD") has recently requested that the Finance Department transfer Jurisdiction of 3501 Chene ("Property") to the Police Department ("DPD") to utilize for its 7th Precinct operations."

The Property is a 2.77 acre lot that includes a 27,070 square foot building and a fenced parking lot. Police intends to renovate the building to meet Police standards. The property is no longer needed by DWSD to continue the operation of any City owned public utility furnishing water and sewer service, therefore it is in the best interests of the City to transfer jurisdiction of the property to DPD.

The property has been appraised at \$271,000.00. In exchange for transfer of jurisdiction of the Property to DPD, DPD has agreed to credit DWSD with \$271,000 worth of secondary employment services. Additionally, DPD has agreed to maintain the Property's perimeter fencing and allow DWSD access to the building's roof to operate and maintain a DWSD rain gauge and communications equipment. Based on these terms, transfer of the property was approved by the DWSD Board of Water Commissioners on July 9, 2014. Police hereby agrees to provide the secondary employment services and allow DWSD access to the building roof.

Pursuant to Sec. 14-8-3 of the Detroit City Code, it is hereby requested by the Finance Department that Detroit City Council approve the transfer of jurisdiction over 3501 Chene to DPD. Sincerely,

FINANCE DEPARTMENT

John Naglick Finance Director

City of Detroit Brownfield Redevelopment Authority July 15, 2014

Honorable City Council:

Re: 711 West Alexandrine Brownfield Redevelopment Plan.

The enclosed Brownfield Plan for the 711 West Alexandrine Redevelopment (the "Plan") (Exhibit A), was submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC") on June 25, 2014. The Plan was considered and reviewed by the CAC and a joint public hearing was held by the DBRA and the CAC on July 8, 2014 to solicit public comments. The Committee's communication to the City Council and the Authority, dated July 8, 2014 (Exhibit B), recommending approval of the Plan, including the minutes of the joint public hearing held by the Authority on July 8, 2014, are enclosed for the City Council's consideration.

On July 9, 2014, the Authority adopted a resolution (Exhibit C) approving the Plan and authorizing the submission of a copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

711 Alexandrine, LLC is the project developer ("Developer"). The Plan entails the extensive rehabilitation of a vacant, four story plus a garden level, 35,000 square foot apartment complex constructed in 1923 into modern market rate apartments. The building will be reconfigured from its current 56-unit layout to 36 units complete with modern amenities. Units will range in size from 514 square feet to 791 square feet. The garden level floor will include approximately 1,800 square feet of space for a future retail tenant with potential outdoor seating space. Total investment is estimated \$6,700,000.00. The Developer is requesting Tax Increment Financing (TIF) reimbursement of \$346,280.00.

Property Subject to the Plan

The property in the Plan (the "Property") consists of three parcels located at 711 West Alexandrine and 3971 and 3981 Third Avenue bounded by Alexandrine to the north, the alley between Third and Second Streets to the

east, the alley between Alexandrine and Selden Streets to the south and the alley between Third and Fourth Street to the west in Detroit's Midtown district.

Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized for a residential purpose; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be a historic resource and/or adjacent or contiguous to a historic resource as defined by Act 381.

Eligible Activities and Projected Costs
The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, because they include Baseline Environmental Assessment activities, building and or site demolition, lead and asbestos abatement, site preparation, infrastructure improvements and Brownfield plan and work plan preparation. It is currently anticipated that construction will begin in fall 2014 and eligible

year.

Tax Increment Financing (TIF) Capture
This Plan anticipates the capture of tax
increment revenues to reimburse the
Developers for the costs of eligible activities under this Plan in accordance with
the Reimbursement Agreement. A table of
estimated tax increment revenues to be
captured is attached to this Plan.

Honorable City Council:

Re: Surplus Property Sale. Development: Parcel 617; generally bounded by Marquette, Hecla, Grand Trunk Railroad and Avery.

We are in receipt of an offer from Henry Ford Health System, a Michigan Non-Profit Corporation, to purchase the above-captioned property for the amount of \$6,770. This property consists of vacant land measuring approximately 15,030 square feet and is zoned both M-3 (General Industrial District) and R-2 (Two-Family Residential District).

In the fall of 2012, your Honorable Body approved the sale and rezoning to M-2

(Restricted Industrial District) of adjacent property to the east, south and west of Parcel 617, to allow for the development of the Cardinal Medical Warehouse, a medical supply warehouse and distribution center. The Purchase of Parcel 617 by Henry Ford Health System, together with adjacent properties that they own, will allow for Phase 2 of the development, providing open space for screening, buffering from adjacent uses and allowing for vehicular staging/circulation, directly north of the yet to be built facility.

An amendment including Parcel 617 and other adjacent property, requesting a change from the current M-3 (General Industrial District) and R-2 (Two-Family Residential District) zoning classifications, to M-2 (Restricted Industrial District), was submitted before your Honorable Body on July 8 2014. The aforementioned proposed usages are permitted as a matter of right in a M-2 zone.

The Planning and Development Department (P&DD) has reviewed the request by Henry Ford Health System and determined it to be appropriate.

We, therefore, request that your Honorable Body approve the land sale resolution, contingent upon the rezoning of the project area to M-2 (Restricted Industrial District) and authorize the Mayor of the City of Detroit, or his authorized designee, to issue a Quit Claim Deed to the property and such other documents as may be necessary to effectuate the sale, with Henry Ford Health System, a Michigan Non-Profit Corporation, subject to final approval by the Detroit Emergency Financial Manager, or his authorized designee.

Respectfully submitted, JAMES MARUSICH Manager —

Real Estate Development Division Planning & Development Department By Council Member Leland:

Whereas, Detroit City Council's land sale policy (J.C.C. April 5, 1995, Page 814) prescribes that land sales be consistent with land use laws; and

Whereas, A portion of Parcel 617 is not yet zoned appropriately for the proposed medical supply, repackaging and distribution warehouse center; and

Whereas, The City Planning Commission has held the statutorily mandated rezoning public hearing and has recommended approval of the proposed rezoning that would permit the establishment of the proposed use; and

Whereas, The 2012 Charter of the City of Detroit requires City Council to hold a public hearing, subsequent to the provision of the public notice at least five (5) days prior to the public hearing, before voting on the rezoning ordinance;

Resolved, That the Detroit City Council finds it appropriate to waive its land sale policy of April 5, 1995 for Parcel 617;

Resolved, That in accordance with the foregoing communication, the Mayor of the City of Detroit, or his authorized designee, be and is hereby authorized to issue a Quit Claim Deed to Parcel 617, more particularly described in the attached Exhibit A, to execute such other documents as may be necessary to effectuate the subsequent sale of this property to Henry Ford Health Systems, a Michigan Non-Profit Corporation, for the amount of \$6,770.

RESOLUTION URGING THE DETROIT PUBLIC SCHOOLS TO REEVALUATE AND REBID THE PROPOSED SALES OF FORMER PUBLIC SCHOOL BUILDINGS AND REAL PROPERTY

By All Council Members:

Whereas, The dramatic loss of population experienced by the City has had a profound impact on the delivery of services by both the City of Detroit as well as the Detroit Public Schools (DPS). In order for the City to grow, improve life for its residents, and attract new residents and businesses, the City is working to aggressively eliminate blight; and

Whereas, Decreased student population, as well as other factors, have left the Detroit Public Schools with empty school buildings it is no longer able to maintain, thus putting further strain on the community. These large school buildings have traditionally been the centerpieces of the surrounding neighborhoods and thus their use and condition can either enhance of destroy the community. It is, therefore, of critical concern to the City administration that these focal community spaces be free of blight and productive in order to redevelop and reinvigorate the neighborhoods; and

Whereas, Due to economic necessity, the Detroit Public Schools has offered various school properties for sale, including the former Burton School at 1333 Pine Street in the increasingly popular Corktown community, as well as the

Barbour Middle School/Joyce Elementary School campuses adjacent to Indian Village; the Emergency Manager of DPS proposes to accept an offer from the same purchaser for both properties for conversion to mixed-use development, despite opposition by members of the Board of Education who have indicated that the proposed purchaser has a history of purchasing large properties, with the announced intent of rehabilitation, that have not then been returned to productive use but have rather caused sustained blight:

Now, Therefore Be It

Resolved, That the Detroit City Council hereby strongly urges the Emergency Manager of the Detroit Public Schools to reevaluate its policies regarding the disposition surplus school properties to consider additional factors beyond that of highest bid amount such as the development histories of prospective buyers, and to, if possible, entertain new offers of purchase from prospective buyers with proven track record for redeveloping school buildings; and that these factors be contemplated in the case of the proposed sale of both the former Burton School building and the Barbour complex; and

Be It Further

Resolved, That the entities charged with monitoring and eliminating blight in the city, including the City of Detroit's Buildings, Safety Engineering and Environmental Department and the Detroit Land Bank Authority will aggressively and diligently track and vigilantly monitor these sales to deter purchasers of properties from inflicting further negative effect on the city neighborhoods by not engaging in the re-development of these important properties in a timely and efficient manner; and

Be It Finally

Resolved, That a copy of this resolution be forwarded to Jack Martin, Emergency Manager of the Detroit Public Schools, Governor Rick Snyder, Mayor Mike Duggan and the Detroit Land Bank Authority.

Adopted as follows:

Yeas — Council Members Castaneda-Lopez, Cushingberry, Jr., Jenkins, Leland, Sheffield, Spivey, Tate, and President Jones — 8.

Department of Public Works City Engineering Division

June 12, 2014

Honorable City Council:

Re: Petition No. 2799 — Giffels Webster, on behalf of 1145 Griswold Street LLC, request an aerial encroachment over the Public Alley in the block bounded by State Street, Michigan Avenue, Griswold Avenue and Shelby Street; amended to also

request the City Engineering Division/ DPW investigate the installation of an "Up Lighting System" within the public rights-of-way adjacent to 1145 Griswold.

Petition No. 2799 of Giffels Webster, 28 W. Adams, Suite 1200, Detroit, Michigan 48226 on behalf of 1145 Griswold Street LLC, 401 S. Washington Square, Suite 102, Lansing, Michigan 48933, respectfully request an "aerial encroachment easement" across the east-west public alley, 20 feet wide, in the block bounded by State Street, 69 feet wide, Michigan Avenue, 100 feet wide. Griswold Avenue, 90 feet wide, and Shelby Street, 60 feet wide, in order to install and maintain a pedestrian bridge connecting a newly renovated 1145 Griswold to the existing parking garage at 150 Michigan Avenue.

Additionally, during the investigation of said aerial encroachment, the petitioner has since amended Petition No. 2799 to also request the City Engineering Division/DPW investigate the installation of an "Up Lighting System" within the public right-of-way adjacent to 1145 Griswold Street.

The "Up Lighting System" will is proposed to include the installation of eight (8) — 8" Diameter; Drive-over in-ground heavy gauge stainless steel floodlights, into the deck of existing areaways. Four (4) will be installed no more than 2.8 feet at center into the Griswold Street right-ofway, while still providing 10 feet of clear pedestrian passage. Four (4) will also be installed approximately 2.2 feet at center into the southerly right-of-way of State St., also, maintained 10 feet clear pedestrian passage. The flood lights consist of a pressed glass, faceted reflector, sealed in place, at grade, designed to bear pressure loads up to 4400 lbs.

The proposed 20 foot x 6 foot x 14 foot pedestrian bridge "aerial encroachment easement" being within the east-west public alley, 20 feet wide, in the block bounded by State Street, 69 feet wide, Michigan Avenue, 100 feet wide, Griswold Street, 90 feet wide, and Shelby Street, 60 feet wide, will span over the public alley with a bottom elevation of approximately 18 feet over the finished grade of said public alley connecting 1145 Griswold to the existing parking garage at 150 Michigan Avenue.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The City of Detroit Planning and Development Department/Historic District Commission (P&DD/HDC) reports that the requested encroachments are within the Capital Park Historic District. The P&DD/HDC has determined that the scope of work is appropriate and has issued a "Certificate of Appropriateness" to 1145 Griswold Street LLC. Therefore.

P&DD/HDC has no objections to the requested encroachments.

The Traffic Engineering Division -DPW reports no objections with the requested encroachment(s) provided that a minimum of 10 feet clear margin is accommodated between the curb and the proposed "Up Lighting System" encroachment and provided that any alteration to sidewalk is constructed in accordance with City of Detroit standards and approved by the City Engineering Division - DPW. Also, that the requested pedestrian bridge encroachment within the public alley shall be a minimum of 16.00 feet above the alley surface, and shall be fully cantilevered (no support permitted from the ground).

The Public Lighting Department (PLD) requires a minimum horizontal clearance of 3-feet 6-inches and a vertical clearance of 1'-0" must be maintained from their facilities. The PLD reports having manholes, underground street lighting, traffic signal and communication circuits running in the proposed area requested for encroachment. The petitioner will be liable for any damages to any PLD installations. Also, the PLD will require underground and overhead easement rights 24 hours for heavy vehicles for maintenance of PLD installations.

The Detroit Water and Sewerage Department (DWSD) has no objection to the proposed encroachment(s) provided that a horizontal clearance of 5-feet is maintained between the proposed "Up Lighting System" and DWSD facilities and that a minimum clearance of 16.00 feet be maintained between bottom of the proposed aerial pedestrian bridge encroachment and the surface of the alley to allow access by maintenance vehicles and the petitioner abides by all of the terms and conditions of the attached resolution.

SBC/Ameritech reports that the petitioner must maintain access to its manholes and conduit, in order to perform maintenance

The Petitioner or its assigns must obtain permits from the City Engineering Division-DPW for any street openings, backfill, surface restoration, barricade, or occupancy of city rights-of-way to install and/or maintain the encroachments. The Petitioner will be required to become a participating member of the "MISS DIG" organization. This will minimize the chance of damage to the "Up Lighting System".

The installation, renovation or adjustments of areaways or vaults must be approved by the City Engineering Division — DPW and built to City of Detroit specifications, prior to any work commencing.

City Engineering Division — DPW also requires the Petitioner to submit certified "as built" drawings, a map and survey,

showing the exact location of the completed encroachment(s).

All other involved Citý departments and privately owned utility companies have reported no objections to the proposed encroachments. Where appropriate, provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted, RICHARD DOHERTY, P.E. City Engineer

City Engineering Division—DPW By Council Member Jenkins:

The proposed 20 foot x 6 foot x 14 foot pedestrian bridge will span over the public alley with a bottom elevation of approximately 18.00 feet over the finished grade of the public alley; also, the installation and maintenance of an "Up Lighting System" within the public right-of-way adjacent to 1145 Griswold Street, which is proposed to include the installation of eight (8) — 8" Diameter; Drive-over in-ground heavy gauge stainless steel floodlights, into the deck of existing areaways. Four (4) will be installed no more than 2.8 feet at center into the Griswold Avenue right-of-way, four (4) to be installed approximately 2.2 feet at center into the southerly right-ofway of State Street, both maintaining 10 feet of clear pedestrian passage adjacent to the following described property(s):

Department of Public Works City Engineering Division

Honorable City Council: Re: Petition No. 2873 — Giffels Webster,

on behalf of 1212 Griswold Street LLC, request to encroach into Griswold Street and State Street with the installation of a "Trench Drain System" and "Up-lighting" at 1212 Griswold.

Petition No. 2873 of "Giffels Webster", 28 W. Adams, Suite 1200, Detroit, Michigan 48226 on behalf of "1212 Griswold Street LLC", 401 S. Washington Square, Suite 102, Lansing, Michigan 48933, respectfully request to encroach into the easterly right-of-way of Griswold Street, 60 feet wide, and the northerly right-of-way of State Street, 60 feet wide, in order to install and maintain a "Trench Drain System" and "Up-lighting" adjacent to 1212 Griswold Street, Detroit, Michigan.

The proposed "Trench Drain System" will be approximately 101.00 feet in length running parallel to the property line; 10.5 feet into the easterly Griswold Street, right-of-way. The System is a poly and galvanized drain, that will tie into the existing storm structures, below grade, with ADA approved stainless steel grating. Additionally, we propose installing a total of sixteen (16) - 8" diameter; Drive-over in-ground heavy gauge stainless steel floodlights. Eight (8) will be installed no more than 1.7 feet at center into the Griswold Street, right-of-way, while still providing 20-30 feet of clear pedestrian passage. Eight (8) will also be installed approximately 4.4 feet at center into the northerly right-of-way of State Street, also, maintaining 10-12 feet of clear pedestrian passage. The flood lights consist of a pressed glass, faceted reflector, sealed in placed, at grade, designed to bear pressure loads up to 4400 lbs. 'the encroachments are being installed within existing areaway(s) that the property owner plans to continue to maintain as part of the basement space.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The Traffic Engineering Division — DPW reports no objections with the requested encroachment(s) provided that the proposed encroachment(s) are ADA compliant and that all work is constructed in accordance with City of Detroit standards and approved by the City Engineering Division — DPW.

The City of Detroit Planning and Development Department/Historic District Commission (P&DD/HDC) reports that the requested encroachments are within the Capital Park Historic District. The P&DD/HDC has determined that the

scope of work is appropriate and has issued a "Certificate of Appropriateness" to 1212 Griswold Street LLC. Therefore, P&DD/HDC has no objections to the requested encroachments.

The Public Lighting Department (PLD) requires a minimum horizontal clearance of 3-feet 6-inches and a vertical clearance of 1'-0" be maintained from their facilities. The petitioner will be liable for any damages to any PLD installations.

The Detroit Water and Sewerage Department (DWSD) has no objection to the proposed encroachment(s) provided that a horizontal clearance of 5-feet is maintained between the proposed "Up Lighting System" and DWSD facilities and that any alterations to the City's water mains and sewers as a result of the Trench Drain System installation be done under DWSD's permit and inspection, in accordance with plans approved by DWSD. Also, these alterations are to be done at the petitioner's expense at no cost to DWSD.

SBC/Ameritech reports that the petitioner must maintain access to its manholes and conduit, in order to perform maintenance.

The Petitioner or its assigns must obtain permits from the City Engineering Division-DPW for any street openings, backfill, surface restoration, barricade, or occupancy of city rights-of-way to install and/or maintain the encroachment(s). The Petitioner will be required to become a participating member of the "MISS DIG" organization. This will minimize the chance of damage to the requested encroachment(s).

The installation, renovation or adjustments of areaways or vaults must be approved by the City Engineering Division-DPW and built to City of Detroit specifications, prior to any work commencing.

City Engineering Division-DPW also requires the Petitioner to submit certified "as built" drawings, a map and survey, showing the exact location of the completed encroachment(s).

All other involved City departments and privately owned utility companies have reported no objections to the proposed encroachments. Where appropriate, provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted, RICHARD DOHERTY, P.E.

Honorable City Council:

Re: Petition No. 2937 — Jimmie Henderson, request to close an inactive city street, South Martindale Avenue located on the East side of Metro Customs and Repairs, located at 8911 W. Grand River.

Petition No. 2937, Jimmie Henderson on behalf of Metro Customs and Repairs requests conversion of part of Martindale Avenue, 98 feet wide, lying between West Grand River Avenue, 100 feet wide, and the public alley, 18 feet wide, first Westerly from said Grand River Avenue (alley is adjoining Jeffries Freeway) into a private easement for utilities.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request was approved by the Solid Waste Division — DPW, Traffic Engineering Division — DPW and City Engineering — DPW.

All City Departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into a private easement for public utilities.

Provisions protecting utility installations are part of the attached resolution. Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution. Public Lighting Department (PLD) has no objection to the conversion to easement. Department of Public Works City Engineering Division

June 30, 2014

Honorable City Council:

Re: Petition No. 2940 — Dee & L Development Corporation request for an encroachment permit to allow the concrete pillar fence located at 1439 Griswold, Detroit, MI, 48226 to become permanent.

Petition No. 2940, Dee & L Development Corporation request for an encroachment with a concrete pillar fence located at 1439 Griswold, located on the westerly side of Griswold, 60 feet wide, and being 100 feet to 140 feet southerly of Clifford, 60 feet wide, and northerly of Grand River, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The petitioner's request was reviewed by City Engineering Division — DPW. A request for an outdoor café at this location (Petition No. 2671) has been objected to by Department of Public Works — Traffic Engineering Division (DPW — TED) also objected to by Department of Public Works — City Engineering Division (DPW — CED). The reason for the objections of the outdoor café petition was insufficient clearance for pedestrian traffic.

The City of Detroit outdoor café guidelines require 6 feet wide pedestrian clearance. The subject site has a full width sidewalk 9.5 feet wide. The available 3.5 feet wide portion of the sidewalk is insufficient for an outdoor café.

Field visits to the site by DPW — TED and DPW — CED have been made on several occasions. The current usage is noncompliant, does not conform to the design provided and there is no provision for the safety of pedestrian traffic. The establishment is sometimes using the full width of the sidewalk and a pedestrian would have to walk in the street to pass by.

Whereas, The Petition for an outdoor café requested under Petition No. 2671 has raised objections due to insufficient clearance for pedestrian traffic, and

Whereas, DPW — TED and DPW — CED both have objections to the requested encroachment and the current usage is noncompliant, and

Whereas, The proprietor has agreed to a judgment by Judge King of 36th District Court that he would remove the furniture and appurtenances in front of his establishment and no longer serve patrons outside. Therefore be it,

Resolved, City Engineering Division — DPW recommends <u>**DENIAL**</u> of this petition.

Submitted for your consideration, RICHARD DOHERTY, P.E.

NEW BUSINESS

City of Detroit Mayor's Office

July 23, 2014

Honorable City Council:

Re: Petition to Detroit City Council regarding obtaining grant funding for the Returning Manufacturing/Mt. Elliot Employment District Project, Detroit, Michigan.

The staff of the Mayor's Office and the Detroit Economic Growth Association (DEGA), would like to pursue a project called the Returning Manufacturing/Mount Elliott Employment District Project (the "Project"). The Project will develop a comprehensive strategy for revitalizing the Mt. Elliott Employment District as the center for a rejuvenated manufacturing cluster for Detroit. The Mt. Elliott Employment District (Exhibit A) runs from

I-94 generally along Van Dyke (M-53) and Mt. Elliott Roads north to the city limits at Eight Mile, lies in the heart of the region's automotive manufacturing corridor, and its potential is bolstered by its proximity to major infrastructure assets such as Coleman A. Young Airport, freight rail and rail yards, and direct access to I-94. The Mt. Elliott Employment District is particularly strong in the automotive, metals, and transportation, distribution and logistics clusters with significant employers like GM Detroit Hamtramck Assembly Plant, Detroit Chassis, and Chrysler Tool & Die, and according to the Detroit Future City strategic framework, is the single largest industrial corridor in the city by employment — and the third largest industrial or non-industrial employment district in Detroit — with an estimated 15,000 employees within its boundaries as of

In order to capitalize on these opportunities, the City and the DEGA would like to undertake a comprehensive action strategy that prioritizes (1) infrastructure improvements, (2) land assembly and site development opportunities, (3) transportation and other amenities needed to attract workforce, (4) marketing, and (5) the maintenance and upkeep of the district at-large over time. The City and the DEGA have been in discussions with the U.S. Department of Commerce Economic Development Administration (EDA) about the project, its goals and objectives and the budgetary needs to undertake the Project. The EDA has identified a grant opportunity through its Economic Assistance Program, and has recently encouraged the City and DEGA to apply as co-applicants. The City and DEGA have undertaken the application process. As part of the application process, the EDA requires the City of Detroit formally acknowledge the DEGA as lead applicant to the EDA in order to obtain grant funding from its grant program.

DRAFT RESOLUTION

CITY COUNCIL RESOLUTION
APPROVING PARTNERSHIP BETWEEN
THE CITY OF DETROIT AND THE
DETROIT ECONOMIC GROWTH
ASSOCIATION TO PURSUE FUNDING
FROM THE U.S. DEPARTMENT OF
COMMERCE ECONOMIC
DEVELOPMENT ADMINISTRATION

By Council Member Leland:

Whereas, Detroit's many problems related to land use, neighborhood stability, high unemployment, and weak fiscal forecasts can be traced back to the severe and persistent historical decline in its employment and tax base; and

Whereas, Growing the number and strength of businesses, as well as their

employment levels, is a critical element of Detroit's future success and stability; and

Whereas, The 2012 Detroit Future City (DFC) strategic framework lays out economic growth strategies that are integrated with other aspects of strategic action, and recommends focusing on efforts that create competitive employment districts, grow specific clusters for which Detroit is rich in existing assets, cultivate talent pipelines amongst Detroiters, and leverage entrepreneurial opportunities; and

Whereas, The City of Detroit and the Detroit Economic Growth Association, would like to pursue a project that will maximize the intersection of these sets of strategies, which is The Returning Manufacturing/Mount Elliott Employment District Project (the "Project"); and

Whereas, The Project will develop a

comprehensive strategy for revitalizing the Mt. Elliott Employment District as the center for a rejuvenated manufacturing cluster for Detroit; and

Whereas, The Mt. Elliott Employment District (Attachment 1 to this Resolution) runs from I-94 generally along Van Dyke (M-53) and Mt. Elliott Roads north to the city limits to Eight Mile, lies in the heart of the region's automotive manufacturing corridor, and its potential is bolstered by its proximity to major infrastructure assets such as Coleman A. Young Airport, freight rail and rail yards, and direct access to I-94; and

Whereas, The Mt. Elliott Employment District is particularly strong in the automotive, metals, and transportation, distribution and logistics clusters with significant employers like GM Detroit Hamtramck Assembly Plant, Detroit Chassis, and Chrysler Tool & Die, and according to the Detroit Future City strategic framework, is the single largest industrial corridor in the city by employment and the third largest industrial or nonindustrial employment district in Detroit with an estimated 15,000 employees within its boundaries as of 2010; and

Whereas, In order to capitalize on these opportunities, the City and the DEGA must undertake a comprehensive action strategy that prioritizes (1) infrastructure improvements, (2) land assembly and site development, (3) transportation and other amenities needed to attract workforce, (4) marketing, and (5) sustainability; and

Whereas, The City of Detroit Mayors Office recognizes the role of the DEGA as its partner and recognizes its importance to the success of the Project, and desires to have the Detroit City Council formally acknowledge the DEGA as lead applicant to the U.S. Department of Commerce Economic Development Administration (EDA) in order to obtain grant funding from its Economic Adjustment Assistance Program, acting in cooperation with City of Detroit officials; and

Whereas, The DEGA has committed to the City of Detroit that as its partner, it will contribute One Hundred Twenty Five Thousand and 00/100 (\$125,000.00) Dollars in in-kind contributions and cash towards the 20% local match requirement, and the City of Detroit Airport Department has agreed to contribute Twenty Five Thousand and 00/100 (\$25,000.00) Dollars towards the 20% local match requirement, in order to attract the remaining 80% federal share or Six Hundred Thousand and 00/100 (\$600,000.00) Dollars in grants from the EDA.

Now, Therefore, Be It Resolved by the City Council of the City of Detroit, as Follows:

1. The City of Detroit does hereby acknowledge its role as co-applicant and the role of the DEGA as its partner,

Authorized Representative, and lead applicant to the U.S. Department of Commerce Economic Development Administration in order to obtain grant funding from its Economic Adjustment Assistance Program to support the project, that DEGA will provide One Hundred Thousand and 00/100 (\$100,000.00) Dollars in in-kind contributions and Twenty Five Thousand and 00/100 (\$25,000.00) dollars cash towards the 20% local match requirement, and the City of Detroit Airport Department has agreed to contribute Twenty Five Thousand and 00/100 (\$25,000,00) Dollars towards the 20% local match requirement, in order to attract the remaining 80% federal share or Six Hundred Thousand and 00/100 (\$600,000.00) Dollars in grants from the EDA.

2. The City of Detroit authorizes the Mayor to serve as the Authorized Representative for the City of Detroit for the purpose of signing and executing all related documents and agreements pertaining to the grant award from the EDA.

 The City Clerk is hereby directed to provide five (5) certified copies of this Resolution to the Secretary of the EDC Board.

4. All resolutions and parts thereof insofar as they conflict with the provisions of this Resolution are hereby repealed, but only to the extend of such conflict.

Detroit Recreation Department Administration Office

July 8, 2014

Honorable City Council:

Re: Lease of 9200 Olivet, Detroit, MI from the School District of the City of Detroit.

The Recreation Department ("Recreation") is hereby requesting authorization of your Honorable Body to lease the property at 9200 Olivet, Detroit, MI ("Property") from the School district of the City of Detroit ("District") for a period of

twenty five (25) years to develop and utilize as a public playfield.

The 2.2 acre property is the site of the former Higgins Elementary School, which consists of three buildings totaling roughly 52,000 square feet. The District has closed the elementary school and the building has sat vacant for quite some time in an otherwise vibrant southwest Detroit Springwells neighborhood.

This blighted Property makes for an ideal playfield in the southwest Detroit community and for several years now the General Services Department ("GSD") has sought funding to tear down the structures and develop the Property as a public playfield. With the assistance of NSP3 funds through the Planning and Development Department, demolition of the property's blighted structures can take

place. GSD has earmarked funding for construction of a new soccer field and other playfield improvements to take place upon approval of the lease. The demolition work and playfield improvements would be made in lieu of paying rent to DPS on the Property.

We respectfully request your approval and grant of authority to Recreation to enter into and execute a twenty five (25) year lease pursuant to the above referenced terms and for the benefit of the City of Detroit by adopting the attached resolution with a Waiver of Reconsideration.

Respectfully submitted,
ALICIA C. MINTER
Director

Resolved, That in accordance with the foregoing communication, Detroit City Council hereby authorizes and approves a twenty five (25) year lease with the District for the Property to be used by Recreation as a public playfield; and be it further

Resolved, That Detroit City Council hereby authorizes the Recreation Director, or her designee, to enter into, execute and approve a lease agreement that includes the terms approved above and to execute and approve any other documents necessary to effectuate the lease; and be it further

RESOLUTION TO RECONVENE THE VEHICLE FOR HIRE COMMISSION

By COUNCIL MEMBER CASTANEDA-LOPEZ, Joined By COUNCIL MEM-BER CUSHINGBERRY, JR.:

WHEREAS, Section 9-301 of the 1974 Detroit City Charter created the Vehicle for Hire Commission, which was codified as section 58-2-5 of the City Code and consists of nine members including four appointed by the Mayor, to provide a process by which vehicle for hire rates are established; and

WHEREAS, The City of Detroit has recently seen the development of a new unregulated private car transportation service business model, such as Uber Technologies and Lyft. These services have created financial stress on taxi cabs and also skirts the City's regulatory and licensing scheme which adversely impacts the financial viability of the taxi industry; and

WHEREAS, The Vehicle for Hire Commission has not met to review rates in several years and rates have, therefore, not been raised in 15 years while gas prices have gone up substantially; thus, there is a great need for the Commission to reconvene for the purpose of reviewing the current vehicle for hire rates. NOW THEREFORE BE IT

RESOLVED, That The Detroit City Council hereby requests that the Mayor appoint the following representatives to the Vehicle for Hire Commission: taxicab and luxury sedan owners, limousine owners, commuter van owners, and a representative of the public; and BE IT FURTHER

RESOLVED, That the Detroit City Council requests that the Auditor General, under the authority of City Code section 58-2-6, reconvene the Vehicle for Hire Commission.

By COUNCIL MEMBER CASTANEDA-LOPEZ:

WHEREAS, Detroit voters are being asked on the August 5, 2014 primary election ballot to approve a countywide two-mill, six year education enhancement millage; and

WHEREAS, The current per-pupil foundation grant allocated to each Wayne County school district has been greatly reduced over the past several years in every district, and despite substantial reductions in expenditures, schools continue to struggle to balance budgets without cutting programs essential to prepare graduates for college or career; and

WHEREAS, The future of Southeast Michigan depends on high quality schools, enabled by the ability to attract and retain the best teachers to lead every classroom, the provision of exceptional, well-rounded educational and enrichment experiences for every student, as well as safe and secure environments in school and in transit to and from school; and

WHEREAS, As indicated by Detroit Public Schools administration, a county-wide education enhancement millage, if approved by the voters, will be distributed on a per pupil basis to each public school district (not including charter, private, or Education Achievement Authority schools) in Wayne County. Based on current pupil populations. the proposed millage would result in an additional \$18.5

million to support the Detroit Public Schools. NOW THEREFORE BE IT

RESOLVED, That The Detroit City Council supports and endorses the passage of the Wayne County Education Enhancement Millage to assist our professional educators in providing exceptional educational services to the students of the Detroit Public Schools and all public school students in Wayne County, regardless of economic condition; and BE IT FINALLY

RESOLVED, That this resolution be forwarded to Mayor Mike Duggan, Detroit Emergency Manager Kevyn Orr, Wayne County Executive Robert Ficano, Members of the Wayne County Commission, Members of the Detroit Board of Education, and Detroit Public Schools Emergency Manager Jack Martin, and the municipalities of Wayne County.

'Zoning' commonly known as the Detroit Zoning Ordinance, by amending Article XVII, District Map No. 4, to modify an existing PD (Planned Development District) zoning classification established by Ordinance No. 37-98 on the property located at 3750, 3780, and 3800 Woodward Avenue, in the area generally located on the east side of Woodward Avenue between East Alexandrine and Mack Avenue to include a 4 story office building and 3-1/2 story parking structure, laid on the table July 22, 2014.

The Ordinance was then placed on the order of third reading.

THIRD READING OF ORDINANCE. The title to the Ordinance was read a third time

The Ordinance was then read.

The question being "Shall Ordinance Now Pass?"

The Ordinance was passed, a majority of the Council Members present voting therefore as follows:

City Planning Commission July 16, 2014

Honorable City Council:

Re: Proposed 2014 Zoning Ordinance Text Amendment.

TEXT AMENDMENTS

Text amendments to the Zoning Ordinance are considered and processed pursuant to Article III, Division of the Detroit Zoning Ordinance. From time to time as directives, initiatives, opportunities and needs arise as well as the result of regular maintenance, staff to City Planning Commission (CPC) will prepare amendments to the text of the Zoning Ordinance. Below you find the Proposed 2014 Zoning Ordinance Text Amendment.

Initially 17 items were prepared and

presented to the Commission following discussions with staff from the Planning and Development Department (P&DD), the Building Safety Engineering and Environmental Department (BSEED), the Board of Zoning Appeals (BZA) and the Following I aw Department. Commission's public hearing and deliberations it determined to advance 13 of those items for City Council's consideration plus three additional items that were added at the time of the public hearing

SCOPE OF THE 2014 TEXT AMEND-

MENT

This amendment revises regulations and procedures relative to 1 issues, labeled A through Q, and described below. The proposed 2014 Zoning Ordinance Text amendment is an assortment of provisions — some substantive and significant land use regulations; some substantive, procedural provisions; and some non-substantive or "housekeeping" provisions. Several are related to actions by the state legislature or votes of the people. Numerous are proposed by the Law Department or Buildings, Safety Engineering and Environmental Department or City Planning Commission staff. The draft ordinance (to be provided be email) shows the corresponding letter label in a box in the right hand margin.

A - 2012 Charter

The Zoning Ordinance currently makes reference to the "1997 Charter" in seventeen (17) different sections. The 1997 Charter was replaced by a vote of the people in 2012. All references to 1997 are corrected to specify "2012 Charter." (Secs. 61-2-12, 61-2-21, 61-3-7, 61-3-12, 61-3-20, 61-3-21, 61-3-23, 61-3-24, 61-3-54, 61-3-58, 61-3-75, 61-3-172, 61-11-361, 61-11-372, 61-11-373, 61-12-85, 61-15-55)

B — Michigan Zoning Enabling Act

Earlier this year, the Law Department alerted City Planning Commission staff of numerous new statutes passed by the legislature and approved by the governor, including a revision to the Michigan Zoning Enabling Act. The state has empowered its municipalities to decline to process applications for various zoning authorizations in cases where the applicant is delinquent in paying fines assessed for blight violations. This new authority is recited in twelve (12) appropriate sections. (Secs. 61-3-5,61-3-73, 61-3-94, 61-3-122, 61-3-212, 61-3-261, 61-3-301, 61-4-85, 61-4-89, 61-4-104, 61-5-32, 61-15-7)

C — Crematories

In recent years, permit applicants have noted that crematories are prohibited except where they are accessory to cemeteries. Cemeteries are only permitted on land zoned R1, R2, and R3. CPC staff understands that current technology is such that crematories can operate without off-site impacts. Many more people are opting for cremation for cultural, religious, and economic reasons. In fourteen (14) sections throughout the Zoning Ordinance, wherever the land use, "Mortuary or Funeral home" is mentioned, it is amended to read: "Mortuary or funeral home, including those containing a crematory." Crematories would now be allowed as accessory uses to both cemeteries and mortuaries/funeral homes; however, they would remain prohibited as stand-alone, principal uses of the land. (Secs. 61-9-42, 61-9-62, 61-9-76, 61-9-96, 61-9-116, 61-10-16, 61-10-36, 61-10-56, 61-10-76, 61-11-106, 61-12-51, 61-12-175, Appendix A, Divisions 3 and 13) D — Signs

As a First Amendment-sensitive use, signs enjoy constitutional protection that most other land uses lack. As such, court rulings have clarified that a clear "statement of purpose" is needed where a municipality places limitations on signage. In Detroit, signs are regulated in two different chapter of the City Code — Chapter 3, Advertising and Signs and Chapter 61, Zoning. This amendment recites in both chapters the city's long-standing public safety and environmental aesthetics rationale for reasonable regulation.

Additionally, sign ordinance enforcement has become more complicated with the widespread use of digital signage for on-premises business signs. The Chapter 3 provision for sign operation presently specifies that at least 75% of the area of a business sign must speak to the principal business on the premises; this means that 25% of the area of the business sign could display incidental information such as the specific items that might be on sale at a grocery store. The proposed amendment would allow an electronic message board to display such incidental or product-specific information as much as 25% of the time in a ten minute period, as long as for 75% of the time in that ten minute period the sign's display related to the principal business on the premises. Seven (7) sections are amended to reflect these changes. (Secs. 3-7-1, 3-7-2, 3-7-3, 61-6-1, 61-6-7, 61-6-14, 61-16-173)

E — Delegation of Authority to CPC staff

CPC Bylaws (Section 7.5) identifies eleven matters where the Commission has delegated staff to take action on its behalf. However, the Law Department brought to CC staff's attention that the longstanding practice of CPC staff signing off on minor modifications of plans approved by the Planning Commission, such as for Planned Developments (PDs), was not explicitly authorized in the Zoning Ordinance. The proposed amendment expands the wording in seven (7) sections to authorize action by CPC staff where it

would be consistent with the Commission's bylaws. (Secs. 61-2-11, 61-3-97, 61-3-121, 61-3-141, 61-3-142, 61-11-242, 61-11-276)

F — Bars, Brewpubs, Microbreweries and Small Distilleries

Stadiums, theaters, and restaurants have been significant in enhancing the city as a destination for residents and visitors. Many of the city's new restaurants have pointed out the difficulty of obtaining approval because of the inclusion of bars ("consumption on the premises") in the list of Regulated Uses. The Zoning Ordinance prescribed that not more than two Regulated Uses be concentrated within a 1,000-foot radius. Regulated Uses include brewpubs/microbreweries/small leries, cabarets, public dance halls, bars, hotels, public lodging houses, motels, pawnshops, plasma donation centers. and secondhand stores/secondhand iewelry stores. A concentration of these uses in a given area was viewed as fostering a "skid row" atmosphere on a commercial strip.

Standard, sit-down restaurants have generally not proven to be deleterious, but are often the engine of revival for an area. The proposed amendment would keep bars, brewpubs, microbreweries, and small distilleries on the list of Regulated Uses, but only where they do not operate in conjunction with a standard restaurant. Bars, brewpubs, microbreweries, and small distilleries that operate in conjunction with a standard restaurant would no longer be a Regulated Use and would not be subject to the over-concentration provisions and would not have to go to the Board of Zoning Appeals to seek a waiver of the spacing provisions. Twenty-nine (29) sections of the ordinance are amended to reflect this change. (Secs. 61-3-253, 61-9-56, 61-9-62, 61-9-76, 61-9-82, 61-9-96, 61-9-102, 61-9-116, 61-9-122, 61-10-16, 61-10-22, 61-10-36, 61-10-42, 61-10-56, 61-10-62, 61-10-76, 61-10-82, 61-11-86. 61-11-92. 61-11-106. 61-11-112. 61-11-166, 61-11-172, 61-11-222, 61-11-228, 61-12-43, 61-12-94, 61-12-158, 61-16-162)

G — Hotels

One of several items communicated to the CPC staff by a former director of the Buildings, Safety Engineering and Environmental Department (BSEED), was the fact that "hotels," as distinct from "motels," are a desirable use for the city and should be removed from the list of Regulated Uses. Staff notes that hotel development has mainly occurred downtown and has been significant in attracting additional convention business to the city. The proposed amendment is reflected in three (3) sections. (Secs. 61-3-253, 61-12-94)

H — Carry-out/Fast-food Restaurants BSEED staff has noted that carry-out/

fast-food restaurants without drive-up or drive-through facilities come up regularly in special land use hearings but that the public typically doesn't appear to testify. Generally, where a conditional land use is never denied, it merits consideration as a by-right use. Although, such restaurants raise some concerns over littering and loitering, staff notes that these are enforcement issues better addressed by management and the police. Eight (8) sections are revised to reflect that allowance of carry-out/fast-food restaurants without drive-up or drive-through facilities as a byright use in the B2, B3, and B4 Districts where they are currently conditional uses. Such restaurants in gas stations, however, would remain a conditional use. (Secs. 61-9-36, 61-9-42, 61-9-56, 61-9-76, 61-9-82, 61-10-16, 61-12-228, 61-12-401)

I — Urban agriculture

After adoption of the "Urban Ag" provisions last year in Ord. No. 10-13, growers noted that existing setback provisions would leave little usable land on a typical, small lot for a green house or hoop house. The proposed ordinance amends eleven (11) sections to reduce the rear setback requirement from 30 feet to 5 feet — the same setback as applies for crop areas. (Secs. 61-3-121, 61-3-141, 61-13-2, 61-13-3, 61-13-4, 61-13-69, 61-13-7)

J—Residential parking lots

The Zoning Ordinance currently permits small parking lots on land zoned R1, R2, or R3 but only where it would provide surplus or overflow parking to a principal use; it expressly prevents BSEED from consideration requests from a principal use to provide its required off-street parking on nearby residential lots. The rationale for this longstanding limitation is not at all clear and seems contrary to common sense. One (1) section is amended to allow BSEED to conduct special land use hearings for small accessory parking lots in R1, R2, and R3 regardless of the parking lot's purpose, be it for required or overflow parking. (Sec. 61-12-219)

K — Secondhand stores/Secondhand jewelry stores

Another of the items recommend by BSEED is removal of "Secondhand Stores/Secondhand Jewelry Stores" from the list of Regulated Uses where they are on land zoned M1, M2, M3, or M4. Elsewhere, they would remain a Regulated Use, subject to the overconcentration rule and spacing provisions. This change is reflected in fourteen (14) sections. (Secs. 61-3-253, 61-10-16, 61-10-22, 61-10-36, 61-10-82, 61-11-86, 61-11-92, 61-11-10-6, 61-11-112, 61-12-43)

L — Tattoo and/or Piercing Parlors

Also on BSEED's list of uses whose permissibility merited reconsideration are

Tattoo and/or Piercing Parlors. Currently, a special land use hearing is required in a B4 District. Public apathy over the use at BSEED hearings prompts the proposed change in three (3) sections to make them a by-right use in B4. (Secs. 61-9-76, 61-9-82, 61-12-51)

M — Convalescent, Nursing, or Rest Home

BSEED has suggested that, rather than a conditional use, Convalescent, Nursing, or Rest Homes should be a by-right use in the R4 District, just as it is in the other higher intensity residential districts. Three (3) sections are amended to reflect this change. (Sec. 61-8-74, 61-8-80, 61-12-11)

N — Indoor commercial recreation/ health clubs

BSEED has noted the public' increased interest in health and fitness — yoga studios, health clubs, boxing. The B2 District requires a special land use hearing. As a way to encourage such businesses, three (3) sections are proposed to be changed to allow them on a by-right basis on land zoned B2. (Secs. 61-9-36, 61-9-42, 61-12-47)

O — Lawn Parking

Council Member James Tate has noted to CPC staff the difficulty for the Detroit Police Department (DPD) to enforce the existing Zoning prohibition of parking cars on residential lawns. The numerous parking provisions of Chapter 55 of the City Code, Traffic and Motor Vehicles, are routinely enfoced by DPD. Since an existing section, Sec. 55-6-17, already deals with "parking on private property," that section is expanded to echo the provisions in Chapter 61, Zoning, prohibiting Zoning, prohibiting parking on a single- or twofamily dwelling's lawns or other unpaved areas. Importantly, it expresses the presumption that the vehicle owner is responsible for the violation, whereas a zoning violation is typically written against the land owner. Three (3) sections in two different chapters are proposed to be amended. (Secs. 55-6-17, 61-8-26, 61-14-176)

P — B&SE

In every instance where a section that is already being revised refers to the "Buildings and Safety Engineering Department," it is corrected to read, "Buildings, Safety Engineering and Environmental Department. This correction is made ten (10) times in two different chapters. (Secs. 3-7-3, 61-2-21, 61-3-7, 61-3-73, 61-3-172, 61-3-212, 61-3-301, 61-5-32, 61-11-242, 61-12-85)

Q — Scrivener's error

The SD1/SD2 ordinance, recently approved by the CPC, contained a scrivener's error in one (1) section, which is corrected. (Sec. 61-11-186)

R — Educational institutions

The Law Department to clarify the per-

missibility of "educational institutions" on land zoned PC and PCA. (1) section, which is corrected. (Sec. 61-12-134)

S — SD1/SD2 addition

Per CPC staff observation, funeral homes were omitted from the list of permitted uses on land zoned SD2 in the recently approved SD1/SD2 text amendment. (Sec. 61-11-186)

T — Banquet hall

Per the re-codification of the 1984 Detroit City Code (Clerk's office), define the term "banquet hall" consistent with the definition to be included with the forthcoming licensing provisions for banquet halls (BSEED, Business License Center) and expand the land use label, "rental hall," to specify "rental hall or banquet hall." (Secs. 61-16-33, 61-16-41, and 61-16-212 and expand the use lists in Secs. 61-9-82(37), 61-9-96(35), 61-9-116(38), 61-10-16(40). 61-10-37(41). 61-10-56(41), 61-10-76(41), 61-11-92(13), 61-11-106(40), 61-12-42, 61-12-85, 61-12-91, 61-12-224, 61-12-227.)

RESULTS OF THE PUBLIC HEARING

On May 22, 2014 the Commission held a public hearing on the proposed amendment. There was little discussion or concern voiced over the provisions of a procedural nature or that were non-substantive. Both provisions that would enhance the City's ability to enforce existing law were heartily endorsed by the public, especially the provision that would facilitate Detroit Police enforcement of the "lawn parking" prohibition.

Greater discussion ensued on those items where the permissibility of a specific land use was proposed to be changed from conditional — where a public hearing at the Buildings. Safety Engineering and Environmental Department (BSEED) is required — to by right, where a land use is legislatively pre-determined to be appropriate for a given zoning district classification. Proposed changes to the Regulated Use list prompted much dis-

Compelling testimony from the public with regard to tattoo parlors and carryout/fast-food restaurants (without drive-up or drive-through facilities) prompting the Commission to consider removal of these provisions from the draft ordinance and to defer them for further consideration at a later date when more empirical evidence is available to support the appropriateness of those uses being permitted citywide on a by-right basis.

ANALYSIS

Strong statements were made for and against removing bars, brewpubs, microbreweries and small distilleries from the list of Regulated Uses if they operate in conjunction with a standard restaurant. Staff notes that establishment of a "standard restaurant" typically signifies a considerable investment in a business — a wait-staff is required to provide table service; unlike fast-food restaurants, food is not presented in disposble containers.

Throughout the Zoning Ordinance, standard restaurants (without driveup/drive-through facilities) are largely permitted on a by-right basis. Much of the commercial revitalization of Downtown and Midtown and their nearby neighborhoods has been driven by standard restaurants. A seemingly universal complaint of restaurateurs has been over the difficulty in obtaining city approval for the "bar" portion of their standard restaurant, since "consumption on the premises" places any restaurant into the category of a Regulated Use.

Staff indicated that the Regulated Use category is a valid one — that too many bars, secondhand stores, pawnshops, motels, plasma donation centers, public lodging houses, and dance halls in a given area (1,000 foot radius) can have a deleterious effect on a commercial strip and the adjacent residential neighborhood. However, observation of recently established bars that operate in conjunction with standard restaurants supports the conclusion that these are not the kinds of uses likely to promote a "skid row." To the contrary, they can give vitality to an area and, when in close proximity to each other, can create or support a viable restaurant or entertainment district.

Removing "bars-with-standard-restaurants" from the list of Regulated Uses would typically spare the developer from having to go through two public hearings - the first at BSEED for the special land use hearing, the second at the Board of Zoning Appeals to waive the over-concentration rule. The time and expense of the hearings are, of course, a cost of doing business; the fact that such bars-withstandard-restaurants are typically approved suggests that the additional procedural burden is misplaced.

It was the position of staff the proposed provision is both business-friendly and supportive of neighborhood vitality: rather than requiring the dispersal of bars-with-standard-restaurants (as mandated by Regulated Use provisions), staff noted that it has been the concentration of these uses along a particular corridor or within a given district that has helped revive a street or a neighborhood. There was much debate among Commissioners over this item and they determined to bring it back at a later date for further discussion.

Indoor commercial recreation was generally supported by the Commission. However, concerns for the size of the given development and spacing from one to another caused the Commission to direct staff to given further thought to those two areas and revise the provision accordingly for future discussion.

CONCLUSION AND RECOMMENDA-TIONS

The Commission elected to eliminate a couple of proposals (items H and L) and parts of another (Item D) from consideration and retained two others (items F and N) for further review and future consideration by the Commission. The Commission also included items added at the time of the public hearing. Attached is a summary of the items the Commission is recommending for adoption.

ARTICLE XV. NONCONFORMITIES DIVISION 1. IN GENERAL Sec. 61-15-7. Board of Zoning Ap-

peals.

The Board of Zoning Appeals shall have the authority to hold hearings and render decisions with respect to nonconforming uses, buildings, and structures.

Pursuant to MCL 125.3406(2), a person is not eligible to apply for a decision with respect to nonconforming uses, buildings, and structures if the person is delinquent in paying a civil fine, costs, or a justice system assessment imposed by an administrative hearings bureau established pursuant to section 4q of the Home Rule City Act, 1909 PA 279, MCL 117.4q. This ineligibility does not apply to an applicant for a zoning authorization if the applicant became the owner of the property by foreclosure or by taking a deed in lieu of foreclosure as provided in MCL 125.3406(3). Further, this ineligibility does not apply if the zoning authorization will correct, in whole or in part, the blight violation that was the subject of the delinquent payment.

DIVISION 5. PUBLIC ACQUISITION OF NONCONFORMITIES

Sec. 61-15-55. Disposition of property.

Upon the transfer of title of property to the City of Detroit, the City Council shall cause the discontinuance or removal of the nonconformity. Thereafter, the City Council may elect to retain all or part of acquired property for municipal purposes, other than public housing. Where acquisition costs are to be assessed against a special district, the amount to be assessed shall be reduced by the market value of the property which is retained for public use. Thereafter, the City Council shall order such portion of the property not retained for municipal purposes to be sold, or otherwise disposed of, but only for a conforming use, and not public housing. The City Council shall confirm the cost of such project and report any assessable cost to the Board of Assessors, which shall then prepare an assessment roll in the manner provided for in the 1997 2012 Detroit City Charter and this Code. At the discretion of the City council, such an assessment may be paid in one or more, but not to exceed ten (10), annual installments.

Office of the Emergency Manager Memorandum

August 11, 2014

To: All City Council Members

Re: Emergency Manager's Order No. 5 Approval of Financial Recovery Bonds (B Notes).

Pursuant to Section 12(1)(u) of the Local Financial Stability and Choice Act, Act No. 436, Public Acts of Michigan, 2012 ("Act 436") the Emergency Manager has proposed to seek approval from the Detroit City Council and the Local Emergency Financial Assistance Loan Board to issue Financial Recovery Bonds, Series 2014B (the "Bonds"), in an aggregate principal amount not to exceed \$632,000,000, in one or more series. pursuant to Section 36a of the Home Rule City Act, Act No. 279, Public Acts of Michigan 1909, as amended, to provide for a portion of the Bankruptcy Plan of Adjustment financing for the City of Detroit (the "Financing").

The proceeds of the Bonds will be used to satisfy certain unsecured claims as provided in the City's Plan of Adjustment. The Bonds will be secured by a pledge of the City's limited tax full faith and credit, and payable as a first budget obligation of the City from its general fund and in case of insufficiency thereof, from the proceeds of an annual levy of ad valorem taxes on all taxable property in the City, subject to applicable constitutional, statutory and charter tax rates limitations.

Pursuant to Section 19 of Act 436, the Emergency Manager hereby submits his Order No. 5 approving the issuance of the Bonds (the "Order") and describing the terms and conditions and parameters for the Financing to the Detroit City Council for consideration. Under Section 19(1) of Act 436, the City Council has 10

days from the date of submission of the Order (i.e. August 21, 2014) to approve or disapprove the Financing. If the City Council does not act within this period, the Financing will be considered approved by the City Council and the Emergency Manager may proceed to obtain approval of the Financing from the State Local Emergency Financial Assistance Loan Board. If the City Council disapproves the Financing within the period provided under Section 19(1) of Act 436 as described above, the City Council is required, pursuant to Section 19(2) of Act 436, to submit an alternative proposal to the State Local Emergency Financial Assistance Loan Board within seven (7) days of such disapproval, which such alternative proposal shall "yield substantially the same financial result as the" Financing. Pursuant to Section 19(2) of Act 436, the State Local Emergency Financial Assistance Loan Board would then choose between the City Council's alternative proposal and the Financing.

Please do not hesitate to contact my office with any questions or concerns regarding the matters addressed herein. We look forward to your prompt response to this matter.

Sincerely, KEVYN D. ORR Emergency Manager City of Detroit

Office of the Emergency Manager Memorandum

August 11, 2014

To: All City Council Members

Re: Emergency Manager's Order No. 4 Approval of Distributable State Aid Bonds (UTGO).

Pursuant to Section 12(1)(u) of the Local Financial Stability and Choice Act. Act No. 436, Public Acts of Michigan, 2012 ("Act 436") the Emergency Manager has proposed to seek approval from the Detroit City Council and the State Local Emergency Financial Assistance Loan Board to issue Distributable State Aid Fourth Lien Restructured Bonds (Unlimited Tax General Obligation), Series 2014 (the "Bonds"), in an aggregate principal amount not to exceed \$287,560,790, in one or more series, pursuant to the Revised Municipal Finance Act, Act No. 34. Public Acts of Michigan 2001, as amended, to provide for a portion of the Bankruptcy Plan of Adjustment financing related to the settlement of certain unlimited tax general obligation bond claims for the City of Detroit (the "Financing").

The proceeds of the Bonds will be used to refund a portion of the City's outstanding unlimited tax general obligation bonds. The Bonds will be secured by money received or to be received by the City derived from the imposition of tax by the State of Michigan and returned or to be returned to the City as provided by law (Distributable State Aid), and in addition, a pledge of the City's unlimited tax full faith and credit.

Pursuant to Section 19 of Act 436, the Emergency Manager hereby submits his Order No. 4 approving the issuance of the Bonds (the "Order") and describing the terms and conditions and parameters for the Financing to the Detroit City Council for consideration. Under Section 19(1) of Act 436, the City Council has 10 days from the date of submission of the Order (i.e. August 21, 2014) to approve or dis-

approve the Financing. If the City Council

does not act within this period, the Financing will be considered approved by the City Council and the Emergency Manager may proceed to obtain approval of the Financing from the State Local Emergency Financial Assistance Loan Board. If the City Council disapproves the Financing within the period provided under Section 19(1) of Act 436 as described above, the City Council is required, pursuant to Section 19(2) of Act 436, to submit an alternative proposal to the State Local Emergency Financial Assistance Loan Board within seven (7) days of such disapproval, which such alternative proposal shall "yield substantially the same financial result as the" Financing. Pursuant to Section 19(2) of Act 436, the State Local Emergency Financial Assistance Loan Board would then choose between the City Council's alternative proposal and the Financing.

Please do not hesitate to contact my office with any questions or concerns regarding the matters addressed herein. We look forward to your prompt response to this matter.

Sincerely, KEVYN D. ORR Emergency Manager City of Detroit

(b) If any such mutilated, destroyed, lost or stolen Bond has become or is about to become due and payable, the City in its discretion may, instead of issuing a new Bond, pay such Bond.

(c) Any new bond issued pursuant to this Section in substitution for a Bond alleged to be mutilated, destroyed, stolen or lost shall constitute an original additional contractual obligation on the part of the City, and shall be equally secured by and entitled to equal proportionate benefits with all other Bonds of like tenor issued under this Order.

The negotiated transaction will allow the Municipal Obligations to be transferred to the MFA in consideration for the MFA Bonds to successfully implement a portion of the Plan of Adjustment.

The fees and expenses of Miller, Canfield, Paddock and Stone, P.L.C. as Bond Counsel and other accumulated bond related fees and expenses shall be payable as a cost of issuance from available funds in accordance with the agreement of such firm on file with the Emergency Manager.

Office of the Emergency Manager Memorandum

August 11, 2014

To: All City Council Members

Re: Emergency Manager's Order No. 6 Approval of Financial Recovery Bonds (Limited Tax General Obligation).

Pursuant to Section 12(1)(u) of the Local Financial Stability and Choice Act, Act No. 436, Public Acts of Michigan, 2012 ("Act 436") the Emergency Manager has proposed to seek approval from the Detroit City Council and the State Local Emergency Financial Assistance Loan Board to Financial Recovery Bonds (Limited Tax General Obligation), Series 2014 (the "Bonds"), in an aggregate principal amount not to exceed \$55,000,000, in one or more series, pursuant to Section 36a of the Home Rule City Act, Act No. 279, Public Acts of Michigan 1909, as amended, to provide for a portion of the Bankruptcy Plan of Adjustment financing for the City of Detroit (the "Financing").

The proceeds of the Bonds will be used to finance the City's settlement of certain claims of the holders and insurer of certain City limited tax general obliga-

tions bonds as provided in the Plan of Adjustment. The Bonds will be secured by a pledge of the City's limited tax full faith and credit, and payable as a first budget obligation of the City from its general fund and in case of insufficiency thereof, from the proceeds of an annual levy of ad valorem taxes on all taxable property in the City, subject to applicable constitutional, statutory and charter tax rate limitations

Pursuant to Section 19 of Act 436, the Emergency Manager hereby submits his Order No. 6 approving the issuance of the Bonds (the "Order") and describing the terms and conditions and parameters for the Financing to the Detroit City Council for consideration. Under Section 19(1) of Act 436, the City Council has 10 days from the date of submission of the Order (i.e. August 21, 2014) to approve or disapprove the Financing. If the City Council does not act within this period, the Financing will be considered approved by the City Council and the Emergency Manager may proceed to obtain approval of the Financing from the State Local Emergency Financial Assistance Loan Board. If the City Council disapproves the Financing within the period provided under Section 19(1) of Act 436 as described above, the City Council is required, pursuant to Section 19(2) of Act 436, to submit an alternative proposal to the State Local Emergency Financial Assistance Loan Board within 7 days of such disapproval, which such alternative proposal shall "yield substantially the same financial result as the" Financing. Pursuant to Section 19(2) of Act 436, the State Local Emergency Financial Assistance Loan Board would then choose between the City Council's alternative proposal and the Financing.

Please do not hesitate to contact my office with any questions or concerns regarding the matters addressed herein. We look forward to your prompt response to this matter.

Sincerely, KEVYN D. ORR Emergency Manager City of Detroit

Office of the Emergency Manager Memorandum

August 11, 2014

To: All City Council Members

Re: Emergency Manager's Order No. 8 Water Supply System Revenue and Refunding Bonds.

Pursuant to Section 12(1)(u) of the Local Financial Stability and Choice Act, Act No. 436, Public Acts of Michigan, 2012 ("Act 436") the Emergency Manager has proposed to seek approval from the Detroit City Council to issue Supply System Revenue Refunding Senior Lien Bonds of the City of Detroit (the "City") and Water Supply System Revenue Refunding Second Lien Bonds of the City (collectively, the "Bonds"), in one or more series, pursuant to the Revenue Bond Act of 1933, Act No. 94, Public Acts of Michigan, 1933, as amended, to provide for a portion of the Bankruptcy Plan of Adjustment financing of the water supply bond tender transaction (the "Financing").

The proceeds of the Bonds will be used to refund a portion of the City's outstanding water supply system bonds. The Bonds will be secured by a pledge of the net revenues and other pledged assets of the water supply system of the City.

Pursuant to Section 19 of Act 436, the Emergency Manager hereby submits his Order No. 7 approving the issuance of the Bonds (the "Order") and describing the terms and conditions and parameters for the Financing to the Detroit City Council for consideration. Under Section 19(1) of Act 436, the City Council has 10 days from the date of submission of the Order (i.e. August 21, 2014) to approve or disapprove the Financing. If the City Council does not act within this period, the Financing will be considered approved by the City Council and the Emergency Manager may proceed to obtain approval of the Financing from the State Local Emergency Financial Assistance Loan Board. If the City Council disapproves the Financing within the period provided under Section 19(1) of Act 436 as described above, the City Council is required, pursuant to Section 19(2) of Act 436, to submit an alternative proposal to the State Local Emergency Financial Assistance Loan Board within 7 days of such disapproval, which such alternative proposal shall "yield substantially the same financial result as the" Financing. Pursuant to Section 19(2) of Act 436, the State Local Emergency Financial Assistance Loan Board would then choose between the City Council's alternative proposal and the Financing.

Please do not hesitate to contact my office with any questions or concerns regarding the matters addressed herein. We look forward to your prompt response to this matter.

Sincerely, KEVYN D. ORR Emergency Manager City of Detroit

Office of the Emergency Manager Memorandum

August 11, 2014

To: All City Council Members
Re: Emergency Manager's Order No. 7
Approval of Sewerage Disposal

System Revenue and Revenue Refunding Bonds.

Pursuant to Section 12(1)(u) of the Local Financial Stability and Choice Act, Act No. 436, Public Acts of Michigan, 2012 ("Act 436") the Emergency Manager has proposed to seek approval from the Detroit City Council to issue Sewage Disposal System Revenue and Revenue Refunding Senior Lien Bonds of the City of Detroit (the "City"), Sewage Disposal System Revenue Refunding Second Lien Bonds of the City and/or Sewage Disposal System Revenue SRF Junior

Lien Bonds of the City (collectively, the "Bonds"), in one or more series, pursuant to the Revenue Bond Act of 1933, Act No. 94, Public Acts of Michigan, 1933, as amended, to provide for a portion of the Bankruptcy Plan of Adjustment financing and sewerage disposal system bond tender financing (the "Financing").

The proceeds of the Bonds will be used to refund a portion of the City's outstanding sewerage disposal system bonds and to provide funds for additional system improvements. The Bonds will be secured by a pledge of the net revenues and other pledged assets of the sewerage disposal system of the City.

Pursuant to Section 19 of Act 436, the Emergency Manager hereby submits his Order No. 7 approving the issuance of the Bonds (the "Order") and describing the terms and conditions and parameters for the Financing to the Detroit City Council for consideration. Under Section 19(1) of Act 436, the City Council has 10 days from the date of submission of the Order (i.e. August 21, 2014) to approve or disapprove the Financing. If the City Council does not act within this period, the Financing will be considered approved by the City Council and the Emergency Manager may proceed to obtain approval of the Financing from the Local Emergency Financial Assistance Loan Board. If the City Council disapproves the Financing within the period provided under Section 19(1) of Act 436 as described above, the City Council is required, pursuant to Section 19(2) of Act 436, to submit an alternative proposal to the State Local Emergency Financial Assistance Loan Board within 7 days of such disapproval, which such alternative proposal shall "yield substantially the same financial result as the" Financing. Pursuant to Section 19(2) of Act 436, the State Local Emergency Financial Assistance Loan Board would then choose between the City Council's alternative proposal and the Financing.

Please do not hesitate to contact my office with any questions or concerns regarding the matters addressed herein. We look forward to your prompt response to this matter.

Sincerely, KEVYN D. ORR Emergency Manager City of Detroit

The City of Detroit, Michigan c/o James Doak Managing Director Miller Buckfire & Co., LLC 601 Lexington Avenue, 22nd Floor New York, New York 10022

\$275,000,000 Exit Financing — Commitment Letter

Dear Mr. Doak and Mr. Saxton:

Barclays Capital Inc. ("Barclays," or the "Purchaser") understands that the City of Detroit, Michigan (the "City") filed a voluntary petition for relief under chapter 9 of title 11 of the United States Code, 11 U.S.C. §§ 101-1532 (as amended, the "Bankruptcy Code"), in the Bankruptcy Court for the Eastern District of Michigan (the "Bankruptcy Court"). The City's bankruptcy case bears case number 13-53846 (the "Bankruptcy Case") and has been assigned to the Honorable Steven W. Rhodes. On August 20, 2014, the City filed with the Bankruptcy Court its Sixth Amended Plan for the Adjustment of Debts of the City of Detroit Docket No. 6910 (as may be further amended from time to time, the "Plan"). The confirmation hearing to determine whether the Plan can be confirmed is currently scheduled to begin on September 2, 2014. The Plan contemplates, as part of its implementation, that the City will obtain exit financing through the issuance of financial recovery bonds (the "City Bonds") pursuant to Section 36a(7) of the Home Rule City Act upon its emergence from bankruptcy protection.

You have further advised Barclays that provisions of Section 36a(7) of the Home Rule City Act require that the City Bonds be sold to the Michigan Finance Authority ("MFA" and, together with the City, "you") and that the MFA will issue bonds (the "Bonds") secured by the City's bonds in order to implement the exit financing facility (the "Exit Facility").

Capitalized terms used but not defined herein are used with the meanings assigned to them in Exhibit A attached hereto (collectively with all exhibits attached thereto, the "Term Sheet" and, together with this letter, collectively, the "Commitment Letter"). As used herein, the term "Transactions" means, collectively, the entering into and funding of the Exit Facility, the consummation of certain other transactions contemplated by the Commitment Letter and all other related transactions, including the payment of fees and expenses in connection therewith.

The City has previously entered into an Engagement Letter, dated October 6, 2013, with Barclays (the "Engagement Letter") relating to the subject matter of the Exit Facility. The City acknowledges that the Engagement Letter remains in full force and effect.

1. Commitments, Titles and Roles

You hereby appoint Barclays, and

Barclays hereby agrees to act, as exclusive underwriter and syndication agent (in such capacities, the "Underwriter") for the Exit Facility. You hereby appoint Barclays to act, and Barclays hereby agrees to act, as sole lead arranger and sole bookrunner (in such capacities, the "Arranger"), for the Exit Facility. Each of the Arranger and the Underwriter will have the rights and authority customarily given to financial institutions in such roles. In connection with the Transactions, the Purchaser is pleased to advise you of its commitment (the "Commitment") to provide an exit financing facility in the aggregate principal amount of up to \$275,000,000 on the terms and subject to the conditions set forth in this Commitment Letter and the Term Sheet.

As consideration for the execution and delivery of this Commitment Letter by the Purchaser, the City agrees to pay or cause to be paid the fees and expenses set forth in this Commitment Letter and the Term Sheet as and when payable in accordance with the terms hereof.

No additional underwriters, agents, arrangers, bookrunners or lenders may be appointed or engaged with respect to the Exit Facility without our written consent and neither the City nor the MFA will directly or indirectly offer or sell any securities to, or otherwise contact, approach or negotiate with respect thereto with any third party with respect to the Exit Facility during the term of this engagement without the prior written consent of Barclays. Barclay's advertising name will apear at the bottom center of the front page of any offering or information memorandum related to the Exit Facility. Barclays, in consultation with the City and the MFA, shall have the sole responsibility to (i) coordinate the schedule for investor meetings, (ii) coordinate all pre-marketing activity, (iii) coordinate roadshow logistics, (iv) coordinate the final allocation of any commitments or notes issued in connection with the Exit Facility, (v) if applicable, act as billing and delivery agent, (vi) if applicable, act as stabilization agent, and (vii) determine, after consultation with the City and the MFA, whether and to what extent to exercise the Flex Provisions described in the Term Sheet in order to achieve a Successful Syndication on the terms set forth in the Term Sheet within 150 days after the Closing Date of the Bonds.

2. Conditions Precedent

The Purchaser's commitments and the Underwriter's agreements hereunder are subject to the conditions set forth in this Section 2 and in the Term Sheet under the heading "Conditions Precedent."

The Purchaser's commitments hereunder and the Purchaser and the Underwriter's agreements to perform the services described herein are further subject to the following conditions: (i) the Purchaser and the Underwriter shall not have become aware, after the date hereof, of any information or other matter regarding the City, which was not (x) previously disclosed to the Purchaser and the Underwriter by the City and (y) not otherwise publicly available to them, that either of them reasonably determines to be material and adverse relative to the information or other matters regarding the City disclosed to them by the City prior to the date hereof; (ii) the Purchaser's satisfaction that there is no competing offering, placement, arrangement or syndication of any debt securities or debt facilities by or on behalf of the City, other than debt securities or debt facilities contemplated in connection with the City's Plan (including the financing contemplated in the City's Motion to approve postpetition financing in connection with a tender of water and sewer bonds [Docket No. 6644] (the "Tender Financing")); (iii) the City's performance of (x) all of its obligations hereunder to provide information and other diligence materials to the Purchaser and otherwise assist in the efforts to underwrite and syndicate the Exit Facility, and (y) compliance with all of its obligations hereunder to pay fees and expenses; and (iv) the execution of a bond purchase agreement and other transaction documents containing such terms, covenants, conditions, representations. warranties and indemnities as set forth in the Term Sheet and providing for the delivery of legal opinions (consistnet with the terms set forth in the Term Sheet).

All fees and expenses payable hereunder and under the Term Sheet will be payable in U.S. dollars in immediately available funds to Barclays for its own account, or as directed by it, free and clear of and without deduction for any and all present or future applicable taxes, levies, imposts, deductions, charges or withholdings and all liabilities with respect thereto (with appropriate gross-up for withholding taxes) and will not be subject to reduction by way of setoff or counterclaim. Once paid, no fee or expense will be refundable under any circumstances.

3. Syndication; Underwriting

Within 150 days of the closing date of the Bonds (the "Closing Date"), the Underwriter will undertake a coordinated, one-day secondary market sale and syndication of the Bonds in a manner similar to a primary offering of bonds in the municipal bond market, with the purpose of establishing a fair market value for the Bonds and selling the Bonds at the price described in the Term Sheet. The Underwriter will lead the underwriting and syndication and exclusively manage all aspects of the underwriting and syndication, including determining the timing of all offers to prospective purchasers, the

acceptance of commitments and the amounts offered. You hereby acknowledge and agree that the Underwriter will have no responsibility other than to arrange the underwriting and syndication as set forth herein and in no event shall the Underwriter or the Purchaser be subject to any fiduciary or other implied duties in connection with the transactions contemplated hereby.

The City agrees to actively assist the Underwriter in completing timely and orderly sales of the Bonds satisfactory to the Underwriter. Such assistance shall include (a) contact between the City. its agents, representatives and advisors, on the one hand, and the Underwriter and proposed purchasers, on the other hand, (b) the hosting, with the Underwriter, of one or more meetings of or telephone conference calls with prospective purchasers at times and locations to be mutually agreed upon, (c) seeking to procure credit ratings in respect of the Bonds from two of Standard & Poor's Rating Services ("S&P"), Fitch Ratings Inc. ("Fitch") and Moody's Investors Services, Inc. ("Moody's"), (d) completing, prior to the settlement of the Bonds, a rating evaluation service or equivalent procedure with two of Moody's, S&P and/or Fitch, and (e) there being no competing issues, offerings, placements or arrangements of debt securities or commercial bank or other credit facilities of the City or the MFA being issued, offered, placed or arranged, other than debt securities or debt facilities contemplated in connection with the City's Plan, including the Tender Financing. The completion of any syndication of the Bonds shall not constitute a condition to the commitments hereunder or the purchase of the Bonds by the Purchaser on the Closing Date.

The City agrees that it will deliver such documents as shall be required for the Underwriter to comply with Rule 15c2-12, the MSRB rules and other applicable rules and regulations, including, without limitation, delivery of a Preliminary Official Statement, final Official Statement, Continuing Disclosure Agreement and such documents as Barclays may reasonably request to qualify the Bonds for offer and sale under the "Blue Sky" or other securities laws and regulations of such states and other jurisdictions of the United States of America as Barclays may (in its sole discretion) designate. The City shall provide such representations and certifications as deemed appropriate by Barclays for the purpose of compliance with Rule 10b-5 of the Securities Act.

4. Information

To assist the Underwriter in its underwriting and syndication efforts, the City agrees to promptly prepare and provide to the Underwriter all information with respect to you and the Transactions in

form and substance satisfactory to the Underwriter, including such financial information and projections as the Underwriter may reasonably request in connection with the structuring, arrangement, syndication and underwriting of the Exit Facility. The City represents, warrants and covenants that: (i) all information (other than the Projections (as defined below) that has been or will be made available to the Underwriter, the purchasers or any of their respective affiliates directly or indirectly by or on behalf of the City or the MFA or their agents or representatives in connection with the Transactions is and will be, when taken as a whole, complete and correct in all material respects and does not and will not, when furnished, contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements contained therein not misleading in light of the circumstances under which such statements are made and (ii) the projections and other forward looking information (the "Projections") that have been or will be made available directly or indirectly to the Underwriter, the purchasers or any of their respective affiliates by or on behalf of the City or the MFA or their agents or representatives have been and will be prepared in good faith upon assumptions that are believed by the City to be reasonable when made and when made available to the Underwriter, the purchasers and their respective affiliates. The City agrees that if at any time prior to the Closing Date, during the underwriting period, and thereafter pursuant to any continuing disclosure requirements, any of the representations in the preceding sentence would be incorrect in any material respect if made at such time, then the City will promptly supplement, or cause to be supplemented, the information and Projections so that such representations will be correct in all material respects in light of the circumstances in which statement are made. The City understands that in providina services pursuant to Commitment Letter, the Purchaser and the Underwriter may use and rely on the information and Projections without indepedent verification thereof.

The City will advise Barclays immediately of the occurrence of any event or any other change known to it that results in any offering circular, private placement memorandum, prospectus or other similar disclosure document relating to the Bonds containing an untrue statement of a material fact or omitting to state any material fact required to be stated therein or necessary to make the statements contained therein, in light of the circumstances under which they were made, not misleading and will promptly supplement, or cause to supplemented, such offering circular, private placement memorandum,

prospectus or other similar disclosure document so that such offering circular, private placement memorandum, prospectus or other similar discosure document so that such offering circular, private placement memorandum, prospective or other similar disclosure document will be correct in all material respects under those circumstances.

5. Indemnification and Expenses

To induce the Purchaser and the Underwriter to enter into this Commitment Letter and to proceed with the documentation of the Exit Facility, the City hereby agrees, to the extent permitted by law, to indemnify upon demand and hold harmless the Underwriter, the Arranger, the Purchaser and their respective affiliates and each partner, trustee, shareholder, director, officer, employee, advisor, representative, agent, attorney and controlling person thereof (each of the above, an "Indemnified Person") from and against any and all actions, suits, proceedings (including any investigations or inquiries), claims, losses, damages, liabilities, costs or expenses (including fees, disbursements, settlement costs and other charges of counsel), joint or several, of any kind or nature whatsoever that may be brought or threatened by the City, any of its agents, representatives, employees, creditors or any other person or entity (whether or not the City is a party to such action, suit proceeding or claim and regardless of whether such claim is brought by or on behalf of the City) which may be incurred by or asserted against or involve any Indemnified Person (whether or not any Indemnified Person is a party to such action, suit, proceeding or claim) as a result of or arising out of or in any way related to or resulting from this Commitment Letter, the Exit Facility, the Bankruptcy Case (to the extent related to the Transactions) or the Transactions, and, to the extent permitted by law, to reimburse each Indemnified Person upon demand for any documented and reasonable legal or other out-of-pocket costs and expenses incurred in connection with investigating or defending any of the foregoing (whether or not we or any other Indemnified Person is a party to any action, suit, proceeding or claim out of which any such expenses arise); provided that the City will not have to indemnify an Indemnified Person against any action, suit, proceeding (including any investigation or inquiry), claim, loss, damage, liability, cost or expense (a) to the extent that the same resulted from the gross negligence or willful misconduct of such Indemnified Person (to the extent determined by a court of competent jurisdiction in a final and non-appealable judgment) or (b) to the extent that the same arose in connection with the syndication, underwriting or other public distribution of the

Bonds by the Purchaser or Underwriter after the Closing Date. <u>Disclosure Regarding SEC Municipal</u> Advisor Rule

IRMA EXEMPTION

On July 11, 2014, Miller Buckfire and Co., LLC ("Miller Buckfire") notified market participants that it was contractually engaged to serve the City of Detroit (the "City") as an independent registered municipal advisor ("IRMA") with respect to the issuance of municipal securities in connection with the City's proposed Exit Financing and or pursuant to the Plan of Adjustment. By obtaining such representation, neither BCI nor Barclays Bank PLC ("BBPLC" and together with BCI, "Barclays") is acting as municipal advisor to the City and neither BCI nor BBPLC is subject to the fiduciary duty set forth in section 15B(c)(1) of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

In the context of a potential underwriting engagement between Barclays and you (including the MFA's proposed issuance on behalf of the City of Financial Recovery Bonds, Series 2014), in any discussions, communications, conferences, negotiations and undertakings, Barclays: (a) will act as a principal and not in a fiduciary capacity; (b) has not assumed an advisory or fiduciary responsibility in favor of you; and (c) is acting as underwriter and not as financial advisor. As such, (i) the primary role of BCI as an underwriter is to purchase, or arrange for the placement of, securities; (ii) any purchase or placement will be effected in an arm'slength commercial transaction between you and Barclays; and (iii) Barclays has financial and other interests that may differ from yours. Further, Barclays advises you to consult your own legal, financial and other advisors to the extent you deem appropriate.

Barclays is not aware of any current Barclays employee who in the past two years qualified as an "associated" (as defined in section 15B(e)(7) of the Exchange Act) person of your IRMA. Addtionally, Barclays has no knowledge of any former Barclays employee currently qualifying as an "associated" person of your IRMA. Accordingly, Barclays is assuming, unless you inform us otherwise, your IRMA is independent from Barclays for purposes of relying on the IRMA exemption available under the Securities and Exchange Commission's final rule relating to the registration of municipal advisors.

If you would like your IRMA to be present for all planned communications with Barclays, please inform us as soon as possible. Absent such notification, Barclays' understanding is that you will separately seek, consider and rely on the advice, analysis and perspective of your IRMA to evaluate any advice provided by Barclays.

UNDERWRITER EXEMPTION

The City and the MFA are both aware of the "Municipal Advisor Rule" of the Securities and Exchange Commission (effective July 1, 2014) and the underwriter exclusion from the definition of "municipal advisor" for a firm serving as an underwriter for a particular issuance of municipal securities.

The MFA has, pursuant to the Commitment Letter dated August 26, 2014, designated Barclays Capital Inc. ("BCI") as sole underwriter for the Financial Recovery Bonds, Series 2014. The MFA anticipates issuing the Bonds on behalf of the City and expects that BCI will provide advice on the structure, timing, terms, and other matters concerning the Bonds.

3. CERTAIN PAYMENT PROVISIONS Interest Rate Structure:

The Bond Documents will incorporate a multi-modal rate structure with current interest.

The Taxable Bond rate will reset monthly on the first business day of each calendar month and interest will be calculated monthly on the basis of such rate. Interest Rates Upon Public Offering:

On the date of consummation of the Public Offering (as defined below), the Bonds will be remarketed as fixed rate bonds with fixed rates as follows (which fixed rates shall become effective on the remarketing date):

The sum of:

- (i) the yield on Thomson Reuters Municipal Market Data 15-year² AAA Index, plus

In the event that the Closing Date has occurred and the Bond Documents have been executed and delivered prior to the consummation of the Public Offering of the Exit Facility, the City and MFA hereby agree, at the City's expense, to take all such action as may be reasonably required in order to effect any amendments to the Exit Facility or disclosure documents, or other changes, as may be necessary or reasonably requested by the Secondary Bond Purchaser to document any changes pursuant to this Section. Flex Provisions:

The City and the MFA will agree that the Underwriter may, after consultation with the City and the MFA, increase the fixed rates of the Bonds (expressed as a positive Market Flex) or decrease the fixed rates of the Bonds (expressed as a

negative Market Flex) and make any or all of the changes to the Exit Facility necessary to implement the flex provisions, which will be approved by the Bankruptcy Court in the Confirmation Order and will require no additional authorizations or approvals, at any time, and from time to time (including after the Closing Date), if the Underwriter determines, in its reasonable discretion and in consultation with the City, that a Successful Syndication on the terms set forth in this Term Sheet is unable to be achieved within 150 days after the Closing Date without exercising such flex provisions. market value (the "Public Offering").

If at the time of the Public Offering, the Bonds carry at least one long-term public credit rating from either Moody's or S&P in the investment grade category, a "Successful Syndication" will be deemed to be one in which the Bonds are sold to the market at par plus accrued interest. If at the time of the Public Offering, the Bond do not carry at least one long-term public credit rating from either Moody's or S&P in the investment grade category, a "Successful Syndication" will be deemed to be one in which the Bonds are sold to the market at a price equal to par plus an amount equal to \$2.50 per \$1.000 bonds and plus accrued interest. This amount of \$2.50/\$1,000 will be retained by Barclays. See also "Underwriting Discount", below.

In the event that the Closing Date has occurred and the Bond Documents have been executed and delivered prior to the consummation of the Public Offering of the Exit Facility, the City and MFA agree, at the City's expense, to take all such action as may be required in order to effect any amendments to the Exit Facility or disclosure documents, or other changes, as may be necessary or reasonably requested by the Secondary Bond Purchaser to document any changes pursuant to the Flex Provisions. The City further agrees to reasonably cooperate with the Secondary Bond Purchaser with regard to immaterial changes requested by potential participants or purchasers prior to the consummation of the Public Offering of the Exit Facility. N/A

Optional Prepayments:

The Tax-Exempt Bonds may be called for redemption in whole or in part on any business day upon 30 days' prior written notice at any time on or after the tenth anniversary of the Closing Date, at a redemption price of 100% of the principal amount, plus accrued and unpaid interest.

Prior to the consummation of the Public Offering, the Taxable Bonds may be called for redemption in whole or in part on any interest payment date upon 30 days' prior written notice, at a redemption price of 100% of the principal amount, plus accrued and unpaid interest.

Following the consummation of the Public Offering, the Taxable Bonds may be called for redemption in whole or in part on any business day upon 30 days' prior written notice at any time at the Make-Whole Redemption Price.

For purposes hereof, the "Make-Whole Redemption Price" is the greater of (i) 100% of the principal amount of the Bonds to be redeemed and (ii) the sum of the present value of the remaining scheduled payments of principal and interest to the maturity date of the Bonds to be redeemed, not including any portion of those payments of interest accrued and unpaid as of the date on which the Bonds are to be redeemed, discounted to the date on which the Bonds are to be redeemed on a semi-annual basis, assuming a 360-day year consisting of twelve 30-day months, at the adjusted Treasury Rate (as defined below) plus 30 basis points, plus, in each case, accrued and unpaid interest on the Bonds to be redeemed on the redemption date.

The "Treasury Rate" will be the yield to maturity as of the redemption date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) that has become publicly available at least five (5) business days prior to the redemption date (excluding inflation indexed securities) (or, if such Statistical Release is no longer published, any publicly available source of similar market data) most nearly equal to the period from the redemption date to the maturity date of the Bonds to be redeemed; provided, however, that if the period from the redemption date to such maturity date is less than one (1) year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one (1) year will be used.

The Make-Whole Redemption Price of

the Bonds to be redeemed pursuant to the optional redemption provision described above will be determined by an independent accounting firm, investment banking firm or financial advisor retained by the City at the City's expense to calculate such Make-Whole Redemption Price. The Indenture Trustee and the City may conclusively rely upon the determination of such Make-Whole Redemption Price by such independent accounting firm, investment banking firm or financial advisor and neither the Indenture Trustee nor the City will be liable for such reliance.

Collateral:

The obligations owing by the City with respect to the City's bonds will be secured by a lien on income tax revenues of the City (the "Pledged Income Tax Revenue") and, to the extent permitted by law, income tax receivables of the City (collectively with the Pledged Income Tax Revenue, the "Pledged Income Tax"). Pursuant to section 36a(7) of the Michigan Home Rule City Act, once Pledged Income Tax Revenue is received by the Indenture Trustee in the Indenture Trustee Account (as defined below), the obligations owing by the City with respect to the City's bonds shall be secured by a first priority statutory lien in the Pledged Income Tax Revenue. Notwithstanding anything to the contrary herein, Pledged Income Tax Revenue shall exclude that portion of income tax revenues transferred into the budget of the City's police department at any time, to be used exclusively to retain and hire police officers, in an amount equal to the sum of 0.2% of the income tax rate levied on resident individuals and 0.1% of the income tax rate levied on non-resident individuals for so long as bonds, obligations or other evidences of indebtedness of the City's Public Lighting Authority are outstanding and payable from taxes levied by the City under the Utility Users Tax Act 100, Public Acts of Michigan, 1990, as amended, MCL 141.1151, et. seq.

The City shall maintain the deposit account at Comerica into which the Citv's income tax revenues are deposited, currently bearing account number XXXXXX6191 (the "Comerica Account") in its own name, subject to the control of the Indenture Trustee pursuant to the Deposit Account Control Agreement. A new deposit account in the name and under the exclusive control of the Indenture Trustee, on behalf of the holders of the Bonds, shall be established at Comerica Bank (the "Indenture Trustee Account") into which, on a daily basis, all Pledged Income Tax Revenues shall be directly remitted and deposited by Comerica Bank ("Daily Transfer Obligation") and, thereupon, shall be subject to the statutory lien in favor of the Indenture Trustee. The Indenture Trustee Account shall be maintained in the name of the Indenture Trustee, on behalf of the holders of the Bonds, for so long as the Bonds (or any portion thereof) remain outstanding. Pledged Income Tax Revenues remitted and deposited into the Indenture Trustee Account will be used only to (a) cure any deficiency in the Debt Service Fund and/or Debt Service Reserve Fund balances and (b) fund the City's obligations to make any Debt Service Fund Deposits.

Notwithstanding the Daily Transfer Obligation, at any time during which (a) there is no deficiency in the Debt Service Fund balance or the Debt Service Reserve Fund balance, in each case, as required under the Bond Documents and (b) the City's obligations under the Bond Documents to make any Debt Service Deposits have been fully funded, the City, in its discretion, may transfer from the Comerica Account any Pledged Income Tax Revenue to one or more deposit accounts in the name of the City to be used by the City in its sole discretion, and neither the City nor Comerica Bank shall have any Daily Transfer Obligation with respect to that portion of the Pledged Income Tax Revenue.

Release of Lien:

Release not applicable.

Other Terms:

Definitive documentation in respect of the Bonds will contain representations, warranties, affirmative and negative covenants, and other terms and conditions to be specified by the parties. 5. MAJOR BOND COVENANTS

Events of Default:

Events of Default shall be:

- (i) the failure to make any payment when such payment is due under the Bond Documents;
- (ii) the failure of the City to comply with the Debt Service Covenant (described below).

Debt Service Covenant:

The City will maintain income tax rates sufficient to generate on an annual basis deposits of Pledged Income Revenues deposited to the Comerica Account which are no less than 2.0X the aggregate maximum annual debt service on the Bonds plus any parity indebtedness and the City shall increase income tax rates in accordance with applicable law to the extent necessary to satisfy such requirement; provided, however, that to the extent that income tax rates in the City are set at the maximum rate allowed by law, the City shall not be in default if annual deposits of Pledged Income Tax Revenues to the Comerica Account are less than 2.0X the aggregate maximum annual debt service on the Bonds plus any parity indebtedness.

At least 75% of all Pledged Income Tax

Revenues net of refunds collected each month will be deposited to the Comerica Account.

Debt Service Reserve Fund:

The City will maintain with the Indenture Trustee a cash funded Debt Service Reserve Fund sized to the lesser of (i) maximum annual debt service on the Bonds, (ii) 10% of the par amount of the Bonds, or (iii) 125% of average annual debt service on the Bonds, based, in each of (i) and (iii), on debt service calculated upon an assumed fixed rate.

Debt Service Fund Deposits:

Following the consummation of the Public Offering, each month, on a firstdollar basis an amount equal to 1/6 of the next interest payment requirement and 1/12 of the next principal payment requirement will be transferred from the Comerica Account to the Indenture Trustee Account and then deposited by the Indenture Trustee into the Debt Service Fund or equivalent. In each case, the Debt Service Fund shall be fully funded one month in advance of any applicable debt service payment requirement. Documents will also reflect (i) a monthly, first dollar pledge of Pledged Income Tax Revenues for the purpose of curing any deficiencies in the Debt Service Fund balances and (ii) a pledge of Pledged Income Tax Revenues for the purpose of curing any deficiencies in the Debt Service Revenue Fund balances, payable monthly after the payment of the other amounts specified in this paragraph.

Following the transfers set forth herein to the Indenture Trustee Account to fund the Debt Service Fund Deposits and to cure any deficiency in the Debt Service Fund and/or Debt Service Reserve Fund balance, all Pledged Income Tax Revenues deposited in the Comerica Account will be transferred from the Comerica Account to the City.

Additional Obligations:

The City will confirm that no existing obligations (other than the \$120 million DIP which will be repaid in full on the date of issuance of the Bonds using a portion of the proceeds of the Bonds) are secured by the City's income tax revenues.

As long as the Bonds are outstanding, the City will not create or permit the creation of or issue any additional indebtedness or interest rate exchange which will be secured by a charge or lien on the Pledged Income Tax that has a lien or payment priority which is superior to the Bonds.

Prior to the date of consummation of the Public Offering, the City will not create or permit the creation of or issue any additional indebtedness or interest rate exchange agreement which will be secured by a charge or lien on the Pledged Income Tax that has a lien or payment priority which is on parity with the Bonds.

Following the date of consummation of the Public Offering, additional parity indebtedness will be permitted, subject to satisfaction of the "Debt Service Covenant" above assuming that such proposed parity indebtedness had been issued, and based upon historical Pledged Income Tax Revenues deposited to the Comerica Account.

6. UNDERWRITING COMMITMENT Amount:

Not to exceed \$275 million Sale Type:

Private Placement to Barclays
7. FEES AND EXPENSES

Commitment Fee:

The City shall pay an amount equal to 0.15% of the aggregate principal amount of the Bonds for any settlement period (from the date on which the City and the MFA execute the Commitment Letter (the "Commitment Date") to the date of issuance of the Bonds) of up to three months (the "Commitment Period"). The City and Barclays may agree to extend the Commitment Period for up to three (3) additional 30-day periods (each, an "Extended Commitment Period"). Barclays may charge the City an additional 0.07% of the aggregate principal amount of the Bonds (the "Additional Commitment Fee") for each Extended Commitment Period. The Commitment Fee shall be payable by the City on the Commitment Date, and any Additional Commitment Fee shall be due on the first business day of the related Extended Commitment Period. The City shall request each Extended Commitment Period by providing such request in writing to Barclays not less than five (5) business days prior to the last day of the Commitment Period (or then-current Extended Commitment Period). Underwriting Discount:

Barclays shall receive an underwriting discount equal to \$5.00 per \$1,000 par amount of Bonds issued, to be deducted from the gross proceeds thereof.

See "Syndication" above with respect to additional compensation payable to Barclays in connection with the Public Offering of the Bonds.

Out-of-Pocket Costs:

In addition to the Underwriting Discount, whether or not an Exit Facility is completed or any financing is arranged, the City shall pay all reasonable out-of-pocket costs and expenses of Barclays in connection with the Exit Facility, including the reasonable fees, expenses and disbursements of legal counsel. All out-of-pocket costs and expenses payable by the City hereunder shall be capped at \$750,000 and shall be limited to those costs and expenses incurred prior to the date of consummation of the Public Offering; provided, however, that the City will be responsible at all times to Barclays

for any legal fees and expenses incurred by Barclays that arise and are incurred at any time as a result of (a) third-party discovery or litigation directed at Barclays, in its capacity as Secondary Bond Purchase or Underwriter (or any related capacity, including, without limitation, as syndication agent), in connection with the City's efforts to obtain approval of the Exit Facility or (b) any revisions to or re-drafting of the Bond Documents and related documentation which are not anticipated by the Commitment Letter and this Term Sheet and which arise as a result of litigation or other legal proceedings relating to the Bankruptcy Case, in each case without regard to the cap set forth in this sentence.

8. TERMINATION

In the event the Closing Date has not occurred on or prior to November 26, 2014, the Commitment shall terminate on such date unless the parties agree to an Extended Commitment Period. The termination of the Commitment shall not adversely affect or otherwise limit any rights that Barclays may have pursuant to any prior agreement or understanding between Barclays and the City, including, without limiting the foregoing, the Engagement Letter.

9. CERTAIN OTHER PROVISIONS Authority to Borrow

Prior to the Closing Date, the City shall have received authorization from the ELB under Section 36a(7) of the Michigan Home Rule City Act, the City Council or the ELB under P.A. 436, and the Financial Review Commission, as applicable, and the MFA board shall have adopted a sup-

plemental resolution authorizing the MFA

Governing Law:

Michigan.

Assignment and Participation:

Prior to the date of the consummation of the public offering by the Underwriter, the Secondary Bond Purchaser may assign, sell or sell participations in the Bonds in consultation with and with the consent of the City and the MFA, such consent not to be unreasonably withheld, delayed or conditioned; provided that no consent shall be required with respect to any transfer or assignment by the Secondary Bond Purchaser pursuant to the terms of the section above entitled "Secondary Bond Purchaser". Following assignment, sale or sale of any participation in the Bonds which occurs prior to such public offering, the Secondary Bond Purchaser shall retain all rights and authority, and shall, as between the City and the Secondary Bond Purchaser, be solely responsible and authorized, with respect to exercising any and all rights and remedies or otherwise administering the Bonds and related transaction documents. The City shall not, prior to the consummation of the public offering, be required to take any direction from any transferee or participant in the Bonds, nor shall any transferee or participant in the Bonds have authority to exercise any rights or remedies with respect thereto.

Appendix C Form of Bond Counsel State Law Approving Opinion

City of Detroit County of Wayne State of Michigan

We have acted as bond counsel to the City of Detroit, County of Wayne, State of Michigan (the "City") in connection with the issuance by the City of bonds in the aggregate principal sum of \$_____, designated Financial Recovery Tax Revenue and Refunding Bonds, Series 2014 (the "Bonds"), for the purposes described in the Bonds. In such capacity, we have examined such law and the transcript of proceedings relating to the issuance of the Bonds and such other proceedings, certifications and documents as we have deemed necessary to render this opinion.

The Bonds are in fully-registered form in the denominations of \$100,000 each or integral multiples of \$5,000 in excess thereof, numbered in order of registration, bearing original issue date of _______, 2014, payable as to principal and interest as provided in the Bonds, subject to redemption prior to maturity in the manner, at the times and at the prices specified in the Bonds.

As to questions of fact material to our opinion, we have relied on the certified proceedings and other certifications of public officials and others furnished to us.

Based upon the foregoing, we are of the opinion that, under existing law:

1. The Bonds have been duly authorized and executed by the City, and, except as otherwise set forth in this opinion letter, are valid and binding obligations of the City, enforceable in accordance with their terms. The Bonds are issued pursuant to Section 36a of Act 279, Public Acts of Michigan, 1909, as amended ("Act 279"), orders of the Emergency Manager for the City, dated ______, 2014, authorizing the issuance of the Bonds (the "Authorizing

- Orders"), and a Financial Recovery Bond Trust Indenture (the "Trust Indenture"), dated ______, 2014 between the City and UMB Bank, N.A., as trustee (the "Trustee"). Capitalized terms used herein without definitions shall have the meanings ascribed to them in the Trust Indenture.
- 2. The Bonds are payable in the first instance from the proceeds of certain ad valorem taxes levied by the City on all taxable property in the City, subject to applicable constitutional, statutory and charter tax rate limitations. Pursant to the Authorizing Orders and Act 279, at the times and to the extent provided in paragraph 3 of this opinion, the Bonds are secured by a first priority lien on the Pledged Income Tax Revenue (as defined in the Authorizing Orders and the Trust Indenture).
- Section 36a(7) of Act 279 creates a lien on the City's interest in all of the Pledged Income Tax Revenue that the City has pledged in connection with the Bonds on the terms and subject to the conditions described in the statute. Pursuant to Act 279, the City has provided in the Authorizing Orders for the deposit of the Pledged Income Tax Revenue into a deposit account dedicated solely to the receipt of Pledged Income Tax Revenue (the "Income Tax Deposit Account") at Comerica Bank, as Income Tax Depository Bank (the "Depository Bank"), all pursuant to the terms and conditions of (a) the Trust Indenture, and (b) a Deposit Account Control Agreement (as defined in the Authorizing Orders) by and among the City, the Trustee and the Depository Bank. The Income Tax Deposit Account will be owned by and in the name of the City and the City shall cause all Pledged Income Tax Revenues to be deposited directly by the applicable taxpayers, or by the City if remitted by the taxpayers to the City, into the Income Tax Deposit Account. Pursuant to the Deposit Account Control Agreement, Depository Bank will be instructed to transfer on a daily basis the Pledged Income Tax Revenues into an escrow account designated the "Pledged Income Tax Subaccount" of the Debt Service Fund, which will be an account at the Depository Bank established in the name of the Trustee under the Trust Indenture and to be used for the sole purpose of paying the principal of and interest on the Bonds and related administrative costs. Income Tax Set-Aside Once the Requirements (as defined in the Trust Indenture) have been satisfied from time to time in the Pledged Income Tax Subaccount such that (a) there is no deficiency in the Debt Service Fund balance or the Debt Service Reserve Fund balance, in each case, as required under the Trust Indenture, and (b) the City's obliga-

tions to make any deposits to the Debt Service Fund as of such date have been fully funded in accordance with the Trust Indenture, the balance of the Pledged Income Tax Revenue or any portion thereof, in the discretion of the City, may be released from the Income Tax Deposit Account and transferred to one or more accounts in the name of the City or otherwise, at the discretion of the City. By the terms of Act 279, a statutory lien and trust is created applicable to those Pledged Income Tax Revenues that are received by the Trustee from the Depository Bank once they are deposited into the Pledged Income Tax Subaccount of the Debt Service Fund, Act 279 provides that the Pledged Income Tax Revenue paid to the Trustee for the purpose of paying principal of and interest on the Bonds shall be subject to a lien and trust, which is a statutory lien and trust paramount and superior to all other liens and interests of any kind. for the sole purpose of paying the principal of and interest on the Bonds and any other bonds subsequently issued by the City sharing a parity or subordinate pledge of that Pledged Income Tax Revenue. Act 279 further provides that the Pledged Income Tax Revenue held by the Trustee shall be held in trust for the sole benefit of the holders of the Bonds and is exempt from being levied upon, taken, sequestered, or applied toward paying the debts or liabilities of the City other than for payment of debt service on the Bonds to which the lien applies.

4. [For Tax Exempt Portion Only] The interest on the Bonds (a) is excludable from gross income for federal income tax purposes and (b) is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations. It should be noted, however, that with respect to corporations (as defined for federal income tax purposes), the interest is taken into account in determining adjusted current earnings for the purpose of computing the alternative minimum tax imposed on such corporations. Further, the Bonds and the interest thereon are exempt from all taxation by the State of Michigan or by any taxing authority within the State of Michigan except inheritance and estate taxes and taxes on gains realized from the sale, payment or other disposition thereof. The opinions set forth in this paragraph are subject to the condition that the City comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied subsequent to the issuance of the Bonds in order that interest thereon be (or continue to be) excludable from gross income for federal and Michigan income tax purposes. The City has covenanted to comply with all such requirements. Failure to comply with certain of such requirements

could cause the interest on the Bonds to be included in gross income retroactively to the date of issuance of the Bonds.

Except as stated in paragraph 4 above, we express no opinion regarding other federal or state tax consequences arising with respect to the Bonds and the interest thereon.

We express no opinion under paragraphs 2 or 3 of this opinion, or otherwise, on (a) the effect of Act 279 on Pledged Income Tax Revenue prior to the actual deposit of Pledged Income Tax Revenue into the Pledged Income Tax Subaccount of the Debt Service Fund in the name of the Trustee pursuant to the Trust Indenture (that time, the "Actual Deposit"). (b) except to the extent expressly provided in paragraph 3 of this opinion concerning the lien that arises under Section 36a(7) of Act 279 at the time of Actual Deposit, the validity, enforceability, perfection or priority of any security interest or other lien on Pledged Income Tax Revenue or any other collateral security for the Bonds; or (c) the effect of title 11 of the United States Code on the validity, enforceability, perfection or priority of any pledge of or lien on Pledged Income Tax Revenue. The rights and remedies of the Trustee and bondholders may be affected by bankruptcy, insolvency, fraudulent conveyance or other laws affecting creditors' rights generally, now existing or hereafter enacted, and by the application of general principles of equity, including those relating to equitable subordination.

This opinion is given as of the date hereof, and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law that may hereafter occur.

Very truly yours, MILLER, CANFIELD, PADDOCK and STONE, P.L.C.

Re: Disclosures by Barclays as Sole Underwriter Pursuant to MSRB Rule G-17 — \$275,000,000* Michigan Finance Authority Financial Recovery Bonds, Series 2014 (Exit Financing Bond Facility) issued on behalf of the City of Detroit, Michigan.

Dear Mr. Fielek:

Barclays Capital Inc. ("Barclays") is writing to provide you, as Executive Director of the Michigan Finance Authority ("Issuer"), with certain disclosures relating to the captioned Exit Financing Bond Facility (the "Exit Financing") as required by the Municipal Securities Rulemaking Board ("MSRB") Rule G-17 as set forth in MSRB Notice 2012-25 (May 7, 2012).

In the context of this engagement between Barclays and you, in any discussions, communications, conferences, negotiations and undertakings, Barclays: (a) will act as a principal and not in a fiduciary capacity; (b) has not assumed an advisory or fiduciary responsibility in favor of you or the City of Detroit ("Borrower"); and (c) is acting as underwriter and not as financial advisor. As such, (i) the primary role of Barclays as an underwriter is to purchase or arrange for the placement of, securities; (ii) such purchase or placement will be effected in an arm's-length commercial transaction between you and Barclays; and (iii) Barclays has financial and other interests that may differ from yours and the Borrower's. Further, Barclays advises you and Borrower to consult your own legal, financial and other advisors to the extent you or the Borrower deem appropriate.

As part of our services as sole underwriter, Barclays may provide advice concerning the structure, timing, terms and other similar matters concerning the issuance of the Exit Financing.

As the issuer of the Exit Financing the Issuer will be a party to a Commitment Letter and Bond Purchase Agreement or similar agreement and certain other legal documents to be entered into in connection with the issuance of the Exit Financing. The material financial risks described in this letter will be borne by the Borrower, as set forth in those legal documents. A copy of this letter is also being sent to the Borrower. Proposed terms of the Exit Financing are set forth in more detail in the Commitment Letter dated August 27, 2014 from Barclays to the Borrower (the "Commitment Letter") and the Term Sheet attached thereto.

I. Disclosures Concerning Barclays' Role:

- (i) MSRB Rule G-17 requires an underwriter to deal fairly at all times with both municipal issuers and investors.
- (ii) The underwriters' primary role is to purchase the Exit Financing in an arm'slength commercial transaction with the Issuer with a view to distributing the Exit Financing to investors (which may include one or more affiliates of the underwriting)

and/or syndicating all or a portion of the Exit Financing. Barclays has financial and other interests that differ from those of the Issuer and Borrower.

- (iii) Unlike a municipal advisor, Barclays does not have a fiduciary duty to the Issuer or the Borrower under the federal securities laws and is, therefore, not required by federal law to act in the best interest of the Issuer or the Borrower without regard to its own financial or other interests.
- (iv) Barclays has a duty to purchase the Exit Financing from the Issuer at a fair and reasonable price, but must balance that duty with its duty to sell the Exi-Financing to investors, including its affiliates, at prices that are fair and reasonable.
- (v) Barclays will review the Bond Purchase Agreement and other legal documents for the Exit Financing in accordance with, and as part of, its respective responsibilities to investors under the federal securities laws, as applies to the facts and circumstances of this transaction².

II. Disclosures Concerning Barclays' Compensation:

Barclays has been or will be compensated by a fee with respect to the Exit Financing that will be set forth in the relevant Commitment Letter, Term Sheet and/or Bond Purchase Agreement to be negotiated and entered into in connection with the issuance of the Exit Financing. The amount of the commitment fee of the Exit Financing will be based on a percentage of the principal amount of the Exit Financing, as more fully described in the Term Sheet attached to the Commitment Letter. The commitment fee in respect of the Exit Financing will be fully earned by Barclays upon the Borrower's delivery of its signed signature page to the Commitment Letter to Barclays, regardless of whether the Exit Financing is ultimately issued. The amount of the underwriting fee of the Exit Financing will be based on a percentage of the principal amount of the Exit Financing, as more fully described in the Term Sheet. While this form of compensation is customary in the Exit Financing market, it presents a conflict of interest since the underwriter may have an incentive to discuss with the Issuer or Borrower a transaction that is unnecessary or to propose that the size of the transaction be larger than is necessary. III. Additional Conflicts Disclosures:

Barclays has identified the following additional potential or actual material conflicts:

- Conflicts of Interest: Ordinary Course of Business Relationships
- o Barclays has conducted a search of certain databases used to check for investment banking conflicts, and has not discovered any relationship which would create a conflict of interest or the appearance of a conflict of interest if the firm

were to act as an Underwriter to the Issuer. With that said, in the ordinary course of its business Barclays maintains relationships with financial advisory firms, investment banks and law firms, some of which may have relationships with the Issuer or Borrower. We are a full service investment bank, dealing in products provided by certain firms, we may utilize the professional services of certain of these entities for our own purposes, and we may work in concert with them for, and on behalf of, our clients. Further, in the conduct of its varied and extensive business activities, Barclays enjoys professional relationships with many and varied clients and customers, some of whom may have some relationship to the Issuer or Borrower. Barclays does not keep databases of employees' family relationships.

o Barclays and its affiliates may receive compensation from the Issuer or Borrower for other services provided, such as: providing a letter of credit or standby bond purchase agreement, or acting as trustee, serving as remarketing agent swap counterparty, escrow bidding agent, or GIC bidding agent. Affiliates of Barclays may serve in separate capacities in connection with the issuance of the Exit Financing, including serving as liquidity provider. The affiliated entity will be separately compensated for serving in that capacity. Barclays expects to receive a payment value, or credit from its affiliated swap dealer if the Issuer decides to enter into an interest rate swap on the Exit Financing.

- o Barclays and its respective affiliates also may communicate independent investment recommendations, market advice, or trading ideas and/or publish or express independent research views in respect of such assets, securities or other financial instruments and at any time may hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and other financial instruments.
- Other Potential Conflicts of Interest Disclosure
- o A Barclays affiliate may receive swap termination payment, loan repayment, post-petition facility repayment or redemption of bank bonds
- o Barclays may represent multiple issuers/obligors on the same project
- o Barclays affiliate is a referenced bank for purposes of setting LIBOR IV. Disclosures Concerning a Municipal Securities Financing

Since Barclays has discussed with the Issuer and Borrower a financing structure that may be a "complex municipal securities financing" for purposes of MSRB Rule G-17, attached is a description of the material financial characteristics of that financing structure as well as the material financial risks of the financing that are known to us and reasonably foreseeable

at this time.

V. Conclusion and Acknowledgement

If you or any other Issuer officials have any questions or concerns about these disclosures, please make those questions or concerns known immediately to the undersigned. It is our understanding that you have been authorized to bind the Issuer by contract with us, and that you are not a party to any conflict of interest relating to the subject transaction. If our understanding is incorrect, please notify the undersigned immediately.

We are required to seek your acknowledgement that you have received this letter. Accordingly, please send me an email to that affect, or sign and return the enclosed copy of this letter to me at the address set forth above. If additional potential or actual material conflicts are identified, we may be required to send you additional disclosures. At that time, we also will seek your acknowledgement of receipt of any such additional disclosures.

We look forward to working with you and the Borrower in connection with the issuance of the Exit Financing. Thank you.

Sincerely,

John Gerbino Managing Director

DRAFT September 11, 2014 Alternate Proposal

Re: Sale of Land in Delray required for the New International Trade Crossing.

Addendum to the Neighborhood Development Agreement between the City and State

We acknowledge and appreciate the current engagement on the part of our City Administration with the State and the formation of a Neighborhood Development Agreement (NDA) as a step in the process to guarantee protections for the immediate Host Community where the New International Trade Crossing (NITC) will have the greatest impact on residents, businesses, churches and other stake-belders.

This Addendum to the NDA is intended to provide concrete commitments by the State of Michigan and the City of Detroit regarding the NITC project in Delray, beginning a mutual community benefits process that will include other legally-binding agreements with the selected bridge concessionaire and possible other entities.

The following are proposed in addition to the provisions in the Neighborhood Development Agreement.

1. Community Advisory Group and Host Community Inclusion

In defining expectations and operations for the *Community Advisory Group* (*CAG*), the following shall be included in that definition:

- A. The Community Advisory Group shall consist primarily of residents of Delray and Southwest Detroit, and members of the Southwest Detroit Community Benefits Coalition.
- B. Meetings between the Community Advisory Group and the US/Michigan Members of the International Authority shall be bi-weekly, or as often as mutually agreed, in development and execution of the RFQ/RFP process and implementation of community benefits.
- C. Michigan members of the International Authority shall present, and advocate, for what the Community Advisory Group selects regarding the currently undetermined community benefits criteria for the RFP process and a community benefits agreement with the concessionaire.
- D. The CAG shall review and select priorities among bidding concessionaire responses for community benefits in an anonymous process that preserves the legal rights of bidders (For exampe: Bidder "A" proposes..., Bidder "B" proposes..., etc.)

2. Reinvest funds from the sale of Delray land assets back into Delray to address impacts

A minimum of [50%] of the revenue from the sale of city-owned land required for the NITC project shall be reinvested in the host community of Delray/Southwest Detroit to address rehabilitation and quality of life impacts.

The NITC project will displace hundreds of families and affect quality of life for additional hundreds of families who will remain. The long study period and delay of the NITC has affected the community, and funding has not been avail-

able to remove dangerous structures, address rampant illegal dumping and scrapping, or fix street lighting, for example.

Communities that host Major Projects — beginning with the planning stages — have clearly linked impacts. Reinvesting funds from the sale of community assets is the right thing to do for the city's neighborhoods and residents.

The Delray community, in collaboration with the City, will develop a plan for use of the reinvestment funds to address needs including: Removing dangerous structures and dumping, providing ADA busstop improvements like benches and covers (40% of Delray residents do not drive). fixing street lights and restricting truck traffic, and possible home repair grants. [For example, an amount of \$1.4-million could provide 140 families with \$10,000 home improvement grants (a mid-range for city grants) to repair roofs and porch steps or replace windows and furnaces to improve quality of life for seniors and families overall.]

It is recommended that the remaining percentage of funds for the \$1.4-million Delray land sale, be used in Detroit neighborhoods that, like Delray, do not have access to funding for neighborhood improvements from federal, foundation or other sources.

 State of Michigan re-designate \$1.9million previously awarded housing funding for Delray community

The Michigan State Housing Development Authority previously awarded a total of \$1.9-million in Federal HOME Funds for a matching grant intended to provide 26 new houses for those being relocated by the NITC who wished to stay in their community. The project was to commence with the NITC development, but was not realized with the long delay of the bridge project start. In the next HOME Funding cycle, an equal amount of funding shall be granted toward housing and neighborhood revitalization in the Delray community.

(definition) Host Community means the neighborhood community in which the construction of the international bridge crossing project occurs, including bridge, plaza, and direct access roads, and where residences and businesses are displaced due to the international bridge crossing project or will co-exist in close proximity with the completed development.

Re: Petition No. 3023, Mona Ross, request to vacate unused alley located off the Fisher Freeway between Brush and Beaubien in Brush Park, Detroit, Michigan, 48210.

Petition No. 3023, Mona Ross, request conversion of the two North-South public alleys, 12 feet wide, and the East-West alley, 12 feet wide, into a private easement for utilities; being all of the alleys in the block bounded by Fisher Freeway southbound service drive Winder Street, 50 feet wide, Brush Street, 60 feet wide, and Beaubien Street, 40 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request will enable Mona Ross to consolidate and proceed with the development of her properties.

All City departments and privately owned utility companies have reported no objections to the conversion of the public right-of-way into a private easement for public utilities. The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW.

Provisions protecting utility installations are part of the attached resolution. Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution. Public Lighting Department (PLD) has no objection to the conversion to easement. The specific PLD provisions for easements are included in the resolution.

I am recommending adoption of the attached resolution.

Re: Petition No. 2417, Invest Detroit, for vacation of the alley located east of 3100 Woodward; to ingress and egress a proposed secure parking area dedicated to the commercial space at the first floor. Correction: deletion of call for deed in resolution.

Petition No. 2417 by David Blaszkiewicz requests the conversion of the northsouth public alley, 20 feet wide, in the

WHEREAS, Larry D. Swygert, the

youngest of six, born to Viola Swygert and Perry Rand was born September 5, 1955 in Little Rock, Arkansas; and

WHEREAS, Larry D. Swygert was born during a time when discrimination was extremely prevalent in the south. In 1957 when tensions were high, the NAACP registered a group of African American students, nicknamed the "Little Rock Nine", to enroll in the previously all-white Little Rock Central High School. This was the start of desegregation in public schools. Afraid for her children, Larry's mother, a laundry maid, left the south to better her life and to make a better life for her children: and

WHEREAS, Larry D. Swygert after graduating from high school attended Virginia Farrell Beauty School, the foundation place of training that met his initial desire and motivation to become a premier hairstylist. After he completed training he became employed by J.L. Hudson Salon. There he established the high standards of business protocol and atmosphere for client/stylist relations; and

WHEREAS, Larry D. Swygert in 1983 was invited to become a part of a prestigious hair salon in downtown Detroit, when the doors of J.L. Hudson closed.

After many years of service, it was time for a change. Larry wanted to create a platform for stylist to operate from and to partner in. Eventually, Larry was led to Livernois, also known as the Avenue of Fashion, where he sought property for his dream and displayed his spirit of giving and appreciation by being the first to create an "Award" show just for stylists and shop owners. Orchestra Hall was the first of many memorable, high-quality shows; and

WHEREAS, Larry D. Swygert has opened his fifth shop. Marketing became an accelerating force. Lessons and experiences of his past qualify him to become the caretaker of his dreams; and

WHEREAS, Larry D. Swygert believes in all people and is generous to all he meets. "You reap what you sow." When you deal with people on a daily basis, you have a constant mirror of reflection of yourself; and

RESOLUTION APPROVING THE TRANSFER OF PROPERTY TO THE DETROIT LAND BANK AUTHORITY

By Council Member Leland:

Whereas, The Detroit Land Bank Authority (the "Detroit Land Bank") was created by the City of Detroit (the "City") and the Michigan Land Bank Fast Track Authority (the "State Authority") pursuant to the Intergovernmental Agreement dated September 15, 2008 by and between the City and the State Authority (as amended and restated, the "Authority IGA") to provide a separate authority to acquire, develop, and re-sell land located in the City in accordance with Public Act 258 of 2003 (the "Land Bank Fast Track Act"); and

Whereas, The Michigan legislature has declared that there exists in the state of Michigan a continuing need to strengthen and revitalize the economy of local units of government and it is in the best inter-

ests of the local units of government to assemble or dispose of public property, including tax reverted property, in a coordinated manner to foster the development of that property and to promote economic growth in the local units of government in this state; and

Whereas, The Michigan legislature has declared it a valid public purpose for a land bank fast track authority to provide for the financing of the acquisition, assembly, disposition, and quieting of title to property, and for a land bank fast track authority to exercise other powers granted to a land bank fast track authority under the Land Bank Fast Track Act, and that the powers conferred by the Land Bank Fast Track Act constitute a necessary program and serve a necessary public purpose; and

Whereas, Pursuant to this authority, the Detroit Land Bank is implementing a range of policies to provide for the disposition of the properties that it acquires including but not limited to sales to owner-occupants, sales of side lots, and auctions of properties, as well as the demolition and/or deconstruction of those properties that cannot reasonably be rehabilitated, which create blight in the City; and

Whereas, The City holds title to certain parcels within the geographic limitations of the City; and

Whereas, The City acquired title to certain of the Existing Residential Parcels in connection with prior Wayne County Tax foreclosure sales, in which the City was conveyed title to all parcels that were available for sale that did not receive the opening bid of \$500; and

Whereas, Subject to the terms and conditions of the Agreement, the City wishes to transfer to the Detroit Land Bank and the Detroit Land Bank wishes to receive title to the Existing Residential Parcels, so that the Detroit Land Bank can demolish blighted structures from, develop, maintain and re-sell those Existing Residential Parcels to reduce blight in the City and strengthen and revitalize the economy of the City; and

Whereas, The City also has title to certain real property located within the geographic limits of the City of Detroit, classified as "residential real property" in accordance with Section 34c of the General Property Tax Act, Public Act 206 of 1893, as amended and codified at MCL 211.34c ("Residential Parcels"), including the parcels set forth in EXHIBIT A (the "Existing Residential Parcels"); and

Whereas, The City anticipates that it, or its designee, will have the right to receive title to parcels within the geographic limitations of the City in connection with future Wayne County tax foreclosure sales because the City, or its designee,

will have the right to either (i) elect to purchase property prior to public auction in accordance with Public Act 206 of 1893 (MCL 211.78m) or (ii) be conveyed those parcels that do not receive the opening bid (the "Future Parcels", together with the Existing Residential Parcels and the Existing Unconveyed Residential Parcels, the "Parcels"); and

Whereas, The City anticipates that it will desire to transfer, and the Detroit Land Bank will receive, certain of the Existing Unconveyed Residential Parcels, so that the Detroit Land Bank can demolish blighted structures from, develop, maintain and re-sell those Existing Unconveyed Residential Parcels to reduce blight in the City and serve a necessary public purpose; and

Whereas, The City and Detroit Land Bank are both governmental agencies with the immunities provided by Public Act 170 of 1964, as amended, Governmental Tort Liability for Negligence, MCL 691.1401 *et seq.*, commonly known as the Governmental Immunity Act; and

Whereas, The transfer of the Existing Residential Parcels and Existing Unconveyed Residential Parcels to the Detroit Land Bank shall be construed as an involuntary transfer in accordance with Section 14(4) of the Land Bank Fast Track Act (MCL 124.764(4));

Now, Therefore Be It

Resolved, That the Detroit City Council (the "City Council") approves the consideration of the mutual agreements, covenants, representations, warranties and indemnities contained in this Agreement between, the City and the Detroit Lank Bank dated September 9, 2014:

Re: Petition No. 170 — Checker Bar, Inc. for Outdoor Café Permit at 124-128 Cadillac Square.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on city right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Institute for Population Health (IPH) has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from the Institute of Population Health Food Safety Division.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. In addition, this petition is subject to the approval of the Detroit Police Department and any prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three (3) years, from the date of your Honorable Body's approval, subject to final approval by the Detroit Emergency Financial Manager.

Water and Sewerage Department Office of the Director

August 27, 2014

Honorable City Council:

Re: Petition 215, Mannik Smith Group, Request to Execute an Agreement and Grant of Easement for the Detroit Water and Sewerage Department Combined Sewers from Marathon Company.

At the request of your Honorable Body, the Detroit Water and Sewerage

Department (DWSD) is responding to the above referenced petition.

The Agreement and Grant of Easement was executed by the Board of Water Commissioners on August 26, 2009, but was not approved by City Council at that time. The intent was to correct the original Agreement and Grant of Easement. The original Agreement and Grant Easement granted from Marathon years ago, allowed DWSD access to the property but was not specific with legal descriptions for the sewer's easements. Attached are revised Exhibits A and B for Petition 215. The revised exhibits have been corrected to reflect the easements as a 30 foot combined sewer easement for 10 foot DWSD sewer, and a 25 foot combined sewer easement for 60 inch DWSD sewer.

The consideration of your Honorable Body in adopting the attached resolution for Petition 215 is greatly appreciated. After City Council has acted on the petition, please send a copy of the City Council resolution to: Detroit Water and Sewerage Department, 6425 Huber, Detroit, MI 48211. Attention: Debra Singleton.

Respectfully submitted, SUE F. McCORMICK Director

Re: Petition No. 195, Professional Engineering Associates Inc., request vacation of all utility easements throughout the property boundaries to construct a planned grocery store, gas station and future retail. Addresses affected by the vacation are 21415, 21431 Grand River and 21555 W. McNichols Road.

Petition No. 195 of "Professional Engineering Associates" on behalf of Meijer, Inc. and Lomax Stern Detroit Development LLC request for the outright vacation of all utility easements within the property boundaries being: Burgess Avenue, 50 feet wide, on the West; Westbrook Avenue, 50 feet wide, on the East; Verne Avenue, 50 feet wide, on the South and Grand River Avenue, 100 feet wide, also McNichols Road, variable width, on the North. (The site being formerly the location of Redford High School.

The new development will have private

water, storm, sanitary and electric services, which will not require an easement by the city. DTE energy plan to supply electric service, and to construct a new gas transmission line through the site. The transmission line will be granted an easement for construction and maintenance. Easement vacations are necessary since the proposed building layout will be constructed over existing easements.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

DTE Energy — Gas Division reports having existing and proposed gas main lines and a high-pressure line in the area of this request. Contact MichCon Gas Company Public Improvement Department; Jay Williams (supervisor) at 313-389-7303 or Laura Forrester (Gas Planner) at 313-389-7261 for the estimated cost of removing, rerouting, relocation, design and drawing of DTE's facilities.

DTE Energy — Electric Division reports there may be energized underground cables in the DTE manhole in Chapel Street (easement) South of Grand River Avenue.

AT&T Telecommunication reports an estimated cost of removing and/or relocation of such services to be determined at the time of construction or before time of construction.

The Public Lighting Department (PLD) reports having extensive underground conduit, manholes and overhead lines in the subject area. The relocation cost of PLD facilities in Chapel Avenue (easement) must be borne by the project. PLD provisions are a part of the resolution.

The Detroit Water and Sewerage Department (DWSD) reports no objections to outright vacation of the existing easements provided that the petitioner/property owners/developer agrees to relocate the sewers and water mains in accordance with the provisions for relocation at no cost to DWSD.

All other city departments and private utility companies have reported no objections to the vacation of the easement. Provisions protecting utility installations are part of this resolution (if necessary).

NEW BUSINESS

MEMORANDUM Mayor's Office

July 23, 2014

Honorable City Council:

Re: Proposed Resolution to Transfer City-Owned Vacant Residential Land to the Detroit Land Bank.

On May 5th, the Detroit Land Bank Authority (DLBA) successfully launched its BuildingDetroit.org auction website. The auction sells two vacant homes a day that are in need of rehabilitation and are sold pursuant to a contract to ensure that rehabilitation is complete within 6 months. With the theme "Neighbors Wanted" the DLBA has structured the auction program to encourage responsible investment that will change the landscape of our neighborhoods.

The DLBA is now using the same successful website to launch its Side Lot program. For \$100 a property owner may purchase the lot next to his/her home. Residents may simply fill out an online questionnaire and purchase the lot via credit card. Within 2 weeks the DLBA will provide a successful purchaser with a deed to the side lot. The DLBA has been using this method to sell the few side lots in its inventory and the website has the capacity to do a full rollout of a far larger inventory of properties.

Side lot sales are an excellent way to combat blight and abandonment in the city. When a vacant lot is sold to an adjacent neighbor the lot can be incorporated into the resident's yard and will be maintained and kept clear of illegal dumping. This increases property values for the neighborhood and fights blight on a parcel by parcel basis.

While the infrastructure and capacity are in place for the DLBA to run a successful side lot program, it only holds title to a few hundred side lots. The City owns nearly 40,000 vacant lots. Transferring as many of these city-owned vacant lots to the Land Bank as quickly as possible will allow us to make these properties available to Detroit residents. It will place prop-

erties back on the tax rolls, and will combat dumping and blighted vacant land throughout the City.

Respectfully submitted, CHARLIE BECKHAM Director Department of Neighborhoods

Department of Neighborhoods MELVIN HOLLOWELL, JR. Corporation Counsel

By Council Member Leland:

Whereas, The City is experiencing severe and widespread blight: nearly one-third of the City's 139 square miles is empty or unused and approximately one-fifth of the City's housing stock is vacant. The City has determined that this blight is an ongoing health and safety risk to every resident, fosters and facilitates crime and unemployment, encourages resident flight from the City, depresses property values, and discourages investment in the City; and

Whereas, The City recognizes that one strategy for eliminating blight is to facilitate the transfer of vacant lots to residents who will maintain and preserve this vacant land thereby increasing the property values of neighborhood parcels and fostering economic growth; and

Whereas, The City holds title to an estimated 10,316 vacant residential parcels of land in the Hardest Hit Fund Target Areas within the geographic limitations of the City, which parcels are set forth in Exhibit A; and

Whereas, Pursuant to the Land Bank Fast Track Act, 2003 PA 258, MCL 124.751 to 124.774 (Land Bank Act), the Detroit Land Bank Authority ("Detroit Land Bank") was created as a separate legal entity and public body corporate in accordance with an Intergovernmental Agreement dated September 15, 2008, as amended from time to time, by and between the City of Detroit and the Michigan Land Bank Fast Track Authority; and

Whereas, The Detroit Land Bank was created in order to assemble or dispose of public property in a coordinated manner to foster the development of that property and to promote economic growth in the City of Detroit; and

Whereas, The Detroit Land Bank has established a "side lot" program allowing Detroit Residents to quickly and easily purchase the vacant lot next to their home or one hundred dollars; and

Whereas, The Detroit Land Bank agrees that if it transfers ten (10) or more parcels and transfers them simultaneously to the same transferee, such transfer shall not be valid or effective without the prior approval of the Mayor and the City Council.

Whereas, The City and Detroit Land Bank are both governmental agencies with the immunities provided by Public Act 170 of 1964, as amended, Governmental Tort Liability for negligence, MCL 691.1401 et seq., commonly known as the Governmental Immunity Act: and

Whereas, The transfer of these parcels to the Detroit Land Bank shall be construed as an involuntary transfer in accordance with Section 14(4) of the Land Bank Fast Track Act, MCL 124.764(4); and

Whereas, The City wishes to authorize transfer to the Detroit Land Bank and the Detroit Land Bank wishes to receive title to certain parcels owned by the City within the Geographic limitations of the City that are identified as residential land with no structure so that the Detroit Land Bank can sell these parcels to reduce non-structural blight in the City and strengthen and revitalize the economy of the City;

Now, Therefore, Be It

Resolved That the Detroit City Council hereby authorizes the Planning & Development Department to transfer all of the City's right, title and interest, for no consideration, in residential parcels listed in Exhibit A to the Detroit Land Bank Authority.
