Office of the Emergency Manager Memorandum

September 23, 2014

To: All City Council Members

Re: Transfer of City-Owned Real Property to Detroit Land Bank Authority.

On September 9, 2014, pursuant to Section 12(1)(r) of the Local Financial Stability and Choice Act, Act No. 436, Public Acts of Michigan, 2012 ("Act 436"), I requested approval from the Detroit City Council (the "City Council") to enter into a Land Transfer Agreement (the "Agreement") between the City of Detroit (the "City") and the Detroit Land Bank Authority (the "DLBA"). This Agreement contemplated the transfer of certain Cityowned real property to the Detroit Land Bank Authority in futherance of the City's blight-reduction and economic revitalization strategies.

Under Section 19(1) of Act 436, the City Council had 10 days from the date hereof to approve or disapprove of the Agreement. On September 19, 2014, City Council voted to disapprove the Agreement within the period provided. Pursuant to Section 19(2) of Act 436, City Council is required to submit an alternative proposal to the State Local Emergency Financial Assistance Loan Board (the "Loan Board") within 7 days of the body's disapproval. The Loan Board would then choose between the City Council's alternative proposal and the Agreement.

In light of recent and ongoing discussions between City Council and the

Mayoral Administration, I have determined that it is in the best interest of the City that local government devise a long term strategy for the management and development of the City's foreclosed residential properties. Therefore, I am rescinding from consideration the submission of this Agreement and its related approval request from both City Council and the Loan Board.

Please do not hesitate to contact me with any questions or concerns regarding the matters addressed herein.

Sincerely, KEVYN D. ORR Emergency Manager City of Detroit Received and placed on file.

*WAIVER OF RECONSIDERATION (No. 21) per motions before adjournment.

STATEMENT OF COUNCILMAN ANDRE L. SPIVEY REGARDING THE REMOVAL OF KEVYN D. ORR AS EMERGENCY MANAGER UNDER ACT 436

In March of 2013, under Public Act 436, Governor Rick Snyder appointed Kevyn Orr as Emergency Manager for the City of Detroit. Soon after, the City of Detroit filed for Chapter 9 Municipal Bankruptcy, becoming one of, if not the largest municipality ever to file for Chapter 9 in U.S. History.

Going into this bankruptcy was uncharted territory for all of us. The Council, the Mayor and in some ways I am sure even for Mr. Orr. Our city was clearly in dire straits financially and the future seemed uncertain. As the weeks and months have passed and the proceedings progressed, the City of Detroit has persevered. We have made progress in the courts withstanding many challenges while conducting successful negotiations with numerous interested parties. As a government we are still making strides to bring valuable city services that have been lacking to our citizens.

None of us want our city to be under the control of an Emergency Manager longer than it has to be, but the fact that the start of the bankruptcy trial was pushed back from July 24 to August 27 created a new set of problems.

Under Public Act 436, once the Emergency Manager has served for at least 18 months after his or her appointment, the Emergency Manager may, by resolution be removed by a 2/3 vote of the governing body of the local government with the approval of the Mayor.

According to our legal counsel, September 28 would be the first available date for the City Council to consider removing Kevyn Orr from the office of Emergency Manager.

It is apparent that Mr. Orr's expertise is needed to help move the bankruptcy proceedings and the city's restructuring plan forward. He has been an integral part of this process that has brought the city back to the brink of solvency. The City of Detroit would be taking a gargantuan step backwards if we eliminated Kevyn Orr from the remainder of these most important bankruptcy proceedings.

For these reasons, I voted to remove the Emergency Manager on the Effective Date of the Plan of Adjustment. He will remain in this capacity only until the effective date of the Plan of Adjustment, only dealing with matters associated with the bankruptcy and restructuring initiatives contained in the Plan of Adjustment. An order has been issued returning the operations of the City to the Mayor and Council. I am certain that this is truly in the best interest of the City of Detroit.

On March 28, 2013, Kevyn Orr was appointed as the Emergency Manager for the City of Detroit by Governor Rick Snyder. For the past eighteen (18) months, the City Council, the Mayor, and the Emergency Manager have worked collaboratively to provide residents with the highest level of service possible in the midst of financial receivership.

In accordance with the provisions of the Local Financial Stability and Choice Act, Public Act 326 of 2012, the City Council has the ability to remove the Emergency Manager from office by a 2/3 vote of City Council, with the approval of the Mayor. The earliest date that his could occur is Sunday, September 28, 2014.

As the City approaches the end of its historic bankruptcy proceeding, it is absolutely imperative that the next steps continue the immense progress that has been made and continues to move the City toward an expedient emergence from bankruptcy.

For that reason, Detroit City Council approved a resolution to remove Kevyn Orr upon the effective date of the Plan of Adjustment and remove the City from receivership. The resolution allows Orr to stay on through this date solely for the purposes of executing documents and overseeing litigation related to the bankruptcy proceedings. The Mayor will send a letter to Governor Snyder approving the Council's resolution.

The move will allow the City to finalize key agreements such as the Grand Bargain and secure hundreds of millions of dollars in financing to protect our pensioners and fund improvements to critical city services.

We, as Detroit's elected leadership, are determined to do what's in the best interest of our city and remove the emergency manager quickly and responsibly.

And the Council then adjourned.

Department of Public Works City Engineering Division

August 24, 2014

Honorable City Council:

Re: Petition No. 2254 — URS Corporation, request to install soil borings/monitoring wells located in the Hayes Street area and the alley located behind the strip mall on 15000 E. 8 Mile Road.

Petition No. 2254 of "URS Corporation." whose address is 27777 Franklin Road, Suite 2000, Southfield, Michigan, 48034 request permission to install and maintain Four (4) monitoring wells within Hayes Avenue, 120 feet wide, and the East-West public alley in the block bounded by Carlisle Drive, 60 feet wide, East Eight Mile Road, 204 feet wide, Gratiot Avenue, 120 feet wide and Hayes Avenue, 120 feet wide. The purpose of the bored well is to monitor the existence or extent of soil contamination from leaking underground fuel storage tanks (a.k.a "L.U.S.T.").

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

The Division of Environmental Affairs Of the Buildings, Safety Engineering and Environmental Department (BSEED) is responsible for developing and implementing a coordinated and comprehensive environmental policy for the City of Detroit, including soil remediation from leaking underground fuel storage tanks. To ensure public safety BSEED will review the petitioner's environmental actives prior to the issuance of city permits. A Right-of-Entry is required by BSEED prior to contractor field activity.

Soil borings and monitoring well installations are equivalent to an "open cut" in a public street or alley. Necessary permits have to be obtained for any street or alley opening, backfill, surface restoration, barricade, or occupancy of city rights-of-way to install monitoring wells. The City Engineeirng Division — DPW will require the permit applicant to secure a right-of-entry approval from the Division of Environmental Affairs of BSEED.

It is the responsibility of "URS Corporation." to give reasonable and proper notice to any abutting property owner(s) before commencing any open cut or boring operations within public rights-of-way.

The enforcement of fire safety regulations and building codes is the responsibility of the Fire Marshal and BSEED. Generally, the Fire Marshal and BSEED report no objections to the placement and maintenance of permanent L.U.S.T. monitoring well encroachments within public rights-of-way.

DTE Energy — MichCon Gas Company reports involvement but no objections provided that the installer contact MISS DIG at 1 800 482-7171; and provided that any removal or relocation of gas facilities be done at project expense.

The Public Lighting Department (PLD) reports having a street lighting circuit and no structure or barricades can be built over PLD installations or on existing utility easement areas. As per PLD requirements, any structure proposed to be built shall maintain a 10 feet horizontal clearance from the overhead PLD lines and installations. The contractor should take necessary precautions not to damage PLD utilities, if they plan to use heavy earth moving equipment. The contractor will need liable for any damages to any PLD underground facilities. PLD needs unrestricted easement rights with 24-hour heavy vehicles access to the areas request for encroachment to maintain PLD's facilities.

Traffic Engineering Division — DPW reports involvement, but no objections provided that the grade shall be flush with monitoring wells cover and the grade in original and/or better condition after installation of the monitoring wells.

The Water and Sewerage Department (DWSD) reports involvement, but no objections provided the proposed encroachments for monitoring well installation provide a minimum clearance. The petitioner must follow DWSD provisions.

All other involved City departments and privately owned utility companies request the petitioner(s) make use of "Miss Dig" facilities before any soil borings or permanent monitoring wells are installed in public (street or alley) rights-of-way.

Finally, the City Engineering Division — DPW requires "URS Corporation" to submit certified "as built" drawings, a map and survey, showing the exact location of the

petitioner's completed permanent L.U.S.T. monitoring well installations within public rights-of-way.

In accord with Detroit Code (Sec. 50-1-9), there is an appropriate resolution, granting the encroachment petition, attached for consideration by your Honorable Body.

Respectfully submitted, RICHARD DOHERTY, P.E., City Engineer

Provided, It is the responsibility of "URS Corporation" and/or Shell Oil Company to give reasonable and proper notice to any abutting property owner before commencing any (permitted) open cut or boring operations within public rights-of-way; and further

Provided, Said encroaching L.U.S.T. monitoring well installations shall be according to the specifications of the Public Lighting Department (PLD). Monitoring wells drilling equipment shall use "care and caution" to clear PLD overhead power lines; PLD requires the installer to maintain a minimum ten feet horizontal clearance at all times. The proposed permanent monitoring wells are not allowed to be built over PLD facilities (maintain a minimum of 3.00 feet horizontal clearance from any underground PLD facilities and/or manholes). The fixed encroachments shall not hinder movement of PLD maintenance equipment; and further

Provided, Said encroaching L.U.S.T. monitoring well installations shall be according to the specifications of the and Sewerage Department (DWSD). Honorable City Council:

Re: Art Center Rehabilitation Project. Modification, Assumption and Consent Agreement. Development: Parcel 164-B; generally bounded by E. Palmer, John R, 1st alley north of Palmer and Brush.

On June 9, 2004, your Honorable Body authorized the sale of the above-captioned property, to Art Center Town & Carriages Homes, LLC, a Michigan Limited Liability Company, for the purpose of constructing twenty-three (23) residential units to be comprised of twelve (12) carriage homes and eleven (11) townhomes with parking.

Four (4) of the townhomes and seven (7) carriage homes were completed, but the remainder of the development was not completed due to previous downturns in

the for sale housing market. The Planning and Development Department is now in receipt of a request by Palmer Property, LLC, a Michigan Limited Liability Company, to assume the interest of Art Center Town & Carriage Homes in the remaining undeveloped property. The property consists of vacant land containing approximately 28,760 square feet and is zoned R-5 (Medium Density Residential District).

Under the terms and conditions of a Modification, Assumption and Consent Agreement, Palmer Property, LLC proposed to complete the development by eliminating the carriage homes and constructing three (3) buildings, containing approximately eleven (11) townhomes and extending the development period to December 31, 2016.

Planning The Development Department has reviewed the request of Palmer Property, LLC and has determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement. Palmer Property, LLC possesses the qualifications and has indicated potential financial resources necessary to develop the land in accordance with the Development Plan. The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the proposed Modification, Assumption and Consent Agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing an amendment to the Development Agreement and to extend the completion period of the development.

We, further, request that your Honorable Body adopt the attached resolution authorizing and approving a Modification, Assumption and Consent Agreement between Art Center Town and Carriage Homes, LLC, a Michigan Limited Liability Company, Palmer Property, LLC, a Michigan Limited Liability Company and the City of Detroit, a Michigan Public Body Corporate.

Honorable City Council:

Re: Establish License Fee for Instructional Services Businesses.

Detroit City Council recently approved the amendment of Chapter 5 of the 1984 Detroit City Code, Amusements, by adding Article III, Instructional Services Businesses, which are defined as businesses engaged in bona fide instructional activities such as painting, cooking or sculpture. Division 2 of the new ordinance establishes the criteria for obtaining an Instructional Services Business license. A license is only required if such Instructional Services Business wishes to allow the consumption and/or possession of beer and/or wine on its premises. Section 5-3-23 of the ordinance requires the Director of the Buildings. Safety Engineering and Environmental Department ("BSEED") to establish a license fee that is also approved by Detroit City Council.

Based on the administrative costs to BSEED in issuing and administering such a license, we feel that a \$215.00 fee charged to new applicants for an Instructional Services Business license, as well as an annual fee for a license renewal, is fair and reasonable. A business will have to have a separate license for each site location it wishes to operate.

We respectfully request your approval to establish an application fee of \$215.00 for a business to secure an initial Instructional Services Business license, as well as an annual fee of \$215.00 for each subsequent year the respective business wishes to hold the license.

Respectfully submitted, ERIC JONES Director

By Council Member Benson:

Honorable City Council:

Re: 70 West Alexandrine — Payment in Lieu of Taxes (PILOT) - Amended.

McCormack Baron Salzar, Inc. has formed Strathmore Apartments Limited Dividend Housing Association LLC for the development of the 70 West Alexandrine Apartments Project and is requesting tax exemption for the project consisting of 129 units located near Woodward and MLK bounded by West Forest, Martin Luther King, Jr. Blvd., Woodward and Lodge Freeway in Detroit.

The project will be financed by Low-Equity Income Housing Tax Credit of approximately \$7,652,000 and Federal Historic Tax Credit equity of \$4,692,137, U.S. Bancorp provided by Community Development Corporation: a HOME Investment Partnerships Program (HOME) loan from the City of Detroit in the amount of \$4,100,000 at 0.00% for 40 years; a FHA 221(d)(4) permanent mortgage from Greshman Mortgage of \$4,954,500 at 3.36% for 40 years; an unsecured member loan from 70 West Limited Dividend Housing Association, LLC of approximately \$6,361,213 at 0.00% for 40 years (funded with a Community Revitalization Program equity investment from the Michigan Strategic Fund in the amount \$3,500,000 and an additional equity investment from University Cultural Center Association in the amount of \$2,861,213).

Of the 129 units, 59 are tax credit units. Rents for these tax credit units have been set at or below the 60% limit, adjusted for family size, so that proposed rent levels meet tax credit requirements.

There are 23 HOME units. At least twenty percent (20%), or 5, of the units must be occupied by households having incomes no greater than 50% of the area median income, adjusted for family size. The remaining 18 HOME units must be occupied by households with incomes that do not exceed 60% of the area median income, adjusted for family size. The HOME income restrictions will be in effect for longer of the period of Affordable Housing Restrictions apply or the time required under the Tax Credit Program.

With respect to all units, the income of individuals and area gross median income shall be determined by the U.S. Department of Housing and Urban Development Department (HUD) in a manner consistent with determinations of lower-income families and area median aross income under Section 8 of the U.S. Housing Act of 1937 and Promulgated at 24 CFR 812.

Maximum project rents are determined by HUD annually. Rents for the 59 tax credit restricted units must have rents which equals 30% of annual incomes for households at 60% of median incomes minus tenant-paid utilities. Rents for the 23 HOME-restricted units must have rent restrictions discussed above.

The remaining 70 market rate units are not income or rent restricted; however, such units will be subject to the PILOT based on Section 15a(7) of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCL 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of the lesser of the tax on the project the year before rehabilitation began or ten percent (10%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted, ÁLVIN HORÁN

Assessor

By Council Member Cushingberry, Jr.: Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL125.1415a) if the Michigan State Development Housing Authority

("MSHDA") provides funding for the housing project or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The Sponsor is proposing to undertake to rehabilitate an existing housing project to be known as 70 West Alexandrine consisting of rehabilitation 129 units in apartment buildings located on several parcels of property owned or to be acquired by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with 129 units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate-income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federally-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a(1) of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsor first obtains MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as 70 West Alexandrine as described above is entitled to be exempt from taxation but subject to the provisions of a service charge for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That a service charge for all units in the Program (PILOT) shall be equal to the tax on the property for the year before rehabilitation commenced is established for the Project in accordance with the City Code Section 18-9-13, subject to the terms of this resolution; and be it further

Resolved, That is accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemption; and be it further

Resolved, that the City Clerk furnish the Finance Department — Assessment Division two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Honorable City Council:

Re: A resolution to amend the <u>Detroit</u>

<u>Master Plan of Policies</u> for portions of the Brush Park Urban Renewal Area to allow the proposed land uses to remain consistent with the proposed Brush Park Fourth Modified Development Plan (Master Plan Change #6).

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department's (P&DD) Planning Division has submitted for your consideration and action a proposed Amendment to the Detroit Master Plan of Polices. Adoption by your Honorable Body of this resolution would accommodate changes in the Master Plan of Policies that would allow the proposed land uses to remain consistent with the Brush Park Rehabilitation Project Development Plan, which is presently undergoing its fourth modification.

Northeast of the Woodward Avenue/ I-75 Freeway intersection.

West: B4 (General Business)

Project Proposal

Future general land uses:

"MRC", Mixed-Residential/Commercial "RM", Medium Density Residential "INST", Institutional

"RH", High Density Residential Proposed land and/or building use:

This proposal is prompted by a concurrent proposal to amend the present Brush Park Third Modified Development Plan initiated by a number of community stakeholders, including the Brush Park Citizens' District Council, Midtown, Inc. and others. The consensus of these stakeholders is that an expanded number of uses should be permitted within Brush Park, including new uses within the exist-

ing residential structures built before 1940. In addition, the stakeholders believe that more flexibility should be allowed regarding density, height, parking, and other restrictions as well. These considerations have been addressed in the now proposed Brush Park Fourth Modified Development Plan. This proposed amendment to the Master Plan of Policies will allow its future general land use to remain consistent with that of the Brush Park Fourth Modified Development Plan upon its adoption.

Proposed zoning (most likely):

PD: (Planned Development), PD-H (Planned Development-Historic) and B4-H (General Business-Historic); no changes Interpretation

Impact on Surrounding Land Use

The proposed amendments to the Master Plan and Brush Park Development Plan will help to facilitate the redevelopment of the Brush Park neighborhood. Permitting a variety of new uses as part of an overall strategy to redevelop Brush Park will help to create a more vibrant mixed-use neighborhood.

Impact on Transportation

New off-street parking requirements included in the proposed Fourth Modified Development Plan acknowledge the impending light rail line that will be constructed along Woodward. Consequently, the parking requirements from the Zoning Ordinance have been revised downward to reflect a vision for a more pedestrianfriendly environment. Traffic circulation though and around the area has also been addressed, particularly via the proposed re-opening of Eliot Street between Woodward and John R, and the proposed conversion of Beaubien from one-way to two-way traffic. DDOT bus routes servicing the surrounding area include the Woodward and Mack lines. SMART also operated a bus route along Woodward. Detroit Works Project Analysis

The Market Types in Brush Park are listed as "Distressed" in Census Block Group 5174001 (north of Erskine) and "Steady" in 5174002 (south of Erskine). Block Group 5174001 had a median sales price of \$19,500 from January 2009 through March 2011, while 5174002 had a median sales price of \$110,000 for the same period. A 2009 survey also reported that 42% and 33% of the parcels were vacant lots in block Groups 5174001 and 5174002, respectively.

Detroit Future City Analysis

The <u>Detroit Future City</u> document designates the Brush Park Urban Renewal area as lying within a District Center in its 50-Year Land Use Scenario. In addition, the subject site is located in the Midtown Employment District. The proposed development plan amendment also conforms to the suggested development of dense, walkable, mixed-use neighborhoods (p. 225) with new infill construction for residential and

commercial uses with a walkable retail nodes with services and amenities to support neighborhood residents and attract visitors (p. 229).

Recommended Master Plan Amendment

and Development The Planning Department requests this proposed Amendment to the Master Plan of Policies to maintain consistency with the proposed Brush Park Fourth Modified Development Plan. This proposal will also help to facilitate new mixed-use development within Brush Park, allowing the neighborhood to become an attraction for potential new residents and visitors. The proposed amendment has the full support of local institutions such as the Brush Park Citizens' District Council and Midtown Inc., among others.

The Planning Division of the Planning and Development Department therefore requests that the Future Land Use map in the Master Plan of Policies be changed for the portion of the subject area bounded by Mack, John R. Erskine and Woodward from "INST", Institutional to "MRC", Mixed-Residential/Commercial. In addition, P&DD requests the future land use for the area bounded by Mack, Beaubien, Watson and Brush be changed from "INST", Institutional to "RH", High Density Residential. Finally, P&DD requests that the future land use for the area bounded by Watson, Beaubien, Wilkins and Brush along with the area bounded by Alfred, Beaubien, the Fisher Freeway Service Drive and Brush both be changed from "RM", Medium Density Residential to "RH", High Density Residential.

City Planning Commission

July 21, 2014

Honorable City Council:

Re: Zoning Ordinance, Chapter 61,
Article XVII, of the 1984 Detroit City
Code, District Map No. 5; Request of
the Detroit Planning and Development Department to show an SD2
(Special Development District,
Mixed-use) zoning classification
where an R3 (Low Density
Residential District) zoning classification is currently shown regarding
property generally located on the
west side of Trumbull Ave. between
W. Warren Ave. and the Edsel Ford
Freeway (Recommend Approval).

The City Planning Commission (CPC) has received the request of the Detroit Planning and Development Department to approve a rezoning from the R3 (Low Density Residential District) to SD2 (Special Development District, Mixeduse) on property generally located on the west side of Trumbull Ave. between W. Warren Ave. and the Edsel Ford Freeway service drive (specifically, 5001-5265 Trumbull Ave., odd numbers; as well as 1520 Merrick Ave).

The ordinance to effectuate this rezoning will be submitted to City Council upon its approval as to form by the Law Department.

PROPOSED DEVELOPMENT

No new developments are proposed at this time. However, the existing R3 zoning does not permit many of the current uses of the subject properties, including the Perry Funeral Home (5045 Trumbull), the Woodbridge Pub (5169 Trumbull) and two automobile repair shops. Additionally, there are several vacant commercial buildings in the subject area.

Please recall that the SD2 zoning classification has just been substantially revised, as your Honorable Body voted to approve several amendments on June 17, 2014. The SD1/SD1 text amendment went into effect as Ordinance No. 23-14. In the revised SD2 zoning classification, the funeral home, automobile-related uses, and existing residences would not be permitted as by-right uses (although they would of course be able to continue as nonconforming uses). Office and retail uses (including the Woodbridge Pub) would be conforming uses in the amended SD2; the City Planning Commission has included a provision in the proposed 2014 text amendment, now before Council, to permit funeral homes as a byright use in SD2.

Please note that per Sec. 61-15-22(2), nonconforming single-family homes located in SD2 would be permitted to be maintained or reconstructed as necessary without requiring the approval of the Board of Zoning Appeals.

The Woodbridge Citizens' District Council (CDC), with the understanding that this rezoning is in process, has also amendment proposed an to Woodbridae Rehabilitation Project Second Modified Development Plan to show SD2 in the subject area. This amendment was requested by the Woodbridge CDC at its May 8, 2013 meeting; a public discussion on the matter was held before the City Planning Commission on June 19, 2014. The request was forwarded to your Honorable Body on July 2, 2014.

SURROUNDING LAND USE AND ZONING

To the north: B4; a party store, followed by the Edsel Ford Freeway

To the south: R3; multi-family residences

To the east: R6; Wayne State University athletic fields and open space To the west: R3; multi-family and

single-family residences

DETROIT FUTURE CITY FRAMEWORK

The Detroit Future City framework vision for the subject area is classified as "Greater Downtown," to fulfill a "role as the commercial core of the city" with "unique physical form and zoning, which support higher densities and mixed-use development." The Detroit Future City 20-year land use map designates the area as "traditional medium density."

PUBLIC HEARING RESULTS

Two public hearings were held on the matter, due to an error in the first public notice (the inadvertent omission of 1520 Merrick from the written description of the subject area) which necessitated a second public notice and, consequently, a second public hearing.

At the June 19, 2014 public hearing, twelve persons spoke in support. In summary, supporters suggested that increasing density and new commercial uses would increase the quality of life in the surrounding neighborhood. One person spoke in opposition, concerned that the SD2 classification would allow hotels, cabarets, kennels, and other uses incompatible with the surrounding residential area. At the July 10, 2014 public hearing, one additional person spoke in opposition. Most speakers at the public hearings stated that they were residents or business owners from the subject area or surrounding neighborhood.

REVIEW

In accordance with the rezoning criteria of the Zoning Ordinance (Section 61-3-80), reviews of proposed map amendments should be conducted in light of the following relevant criteria (staff analysis immediately follows each item):

- (1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact; The area has historically been developed with various uses, both consistent and inconsistent with the ordinance. The rezoning to a mixed-use district acknowledges this and generally supports the existing conditions.
- (2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance; The Master Plan shows RM (Medium Density Residential) for the subject area. The Planning and Development Department is preparing its determination for Master Plan consistency.
- (6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract; The current development pattern of the subject area is of a mixed-use character; the rezoning will allow further mixed-use development. The proposed rezoning will render the existing residential uses nonconforming; however, the single-family uses can continue and rebuild if necessary without requiring approval from the Board of Zoning Appeals.
- (7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; The Woodbridge Citizens District Council has requested the proposed rezoning and further supported it with an proposed amendment to the Woodbridge Development Plan.

(8) Whether the proposed rezoning will create an illegal "spot zone." It does not appear that would be the case. RECOMMENDATION

Given the support of the Woodbridge Citizens District Council, consistency with the Woodbridge development plan, and consistency with the Master Plan, the City Planning Commission recommends approval.

*WAIVER OF RECONSIDERATION (No. 10), per motions before adjournment.

Planning & Development Department October 2, 2014

Honorable City Council:

Re: Review and Approval of the Fall 2014 HOME Awards, Modifications and Subordinations.

The City of Detroit, through the Housing and Revitalization Department

("HRD") [formerly called the Planning & Development Department (P&DD)], has worked closely with the U.S. Department of Housing and Urban Development ("HUD"), to make required annual disbursements and commitments of City of Detroit HOME funds for the 2014 fiscal year. The HOME Program is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, and is designed exclusively to create affordable housing for low-income households. Eligible activities under the HOME program include:

- Providing home purchase or rehabilitation financing assistance to eligible homebuyers;
- Building or rehabilitating housing for rent or homeownership; and
- Other reasonable and necessary expenses related to the development of non-luxury housing.

HOME funds are awarded on a formula basis, included in the annual entitlement award from HUD, and are a part of the Consolidated Plan.

On January 10, 2014, P&DD received sixteen (16) responses to a HOME NOFA advertised during October, 2013, and subsequently awarded HOME allocations to five (5) developers. The City is presently requesting to award an additional \$1,600,000.00 for the Strathmore Apartments Project. The additional funding will be used to cover a funding gap identified at the time of original application. The Grantee was not successful in covering the gap through requests from MSHDA, or other project funders. HRD is asking for City Council authorization to increase the allocation of City HOME funds for the project to facilitate an anticipated October closing on funding for the project.

Additionally, HRD requests City Council authorization to reduce the HOME allocation to \$5,700,000.00 for the Coronado Square Project according to a prior project underwriting constraint. The developer will also need additional time to close on all project financing.

Finally, HRD is requesting City Council to authorize more time for the developer of the Treymore Apartments Project to close time to close on project financing (with no additional funding from the City).

The three (3) described allocation transactions will assist HRD in committing additional HOME funding required to meet HUD's 2014 HOME Commitment Requirement well in advance of the December 31, 2014 deadline (See Attached Exhibit 1). Your Honorable Body's approval of this resolution is consistent with the new process for approving HOME awards and development partners (adopted by City Council in 2012).

HRD has also attached two (2) additional lists of HOME and NSP project

modifications and/or subordinations. In the first list of modifications (See Exhibit 2), HRD staff worked with the Great Lakes Capital Fund to develop loan modifications to bring twenty-two (22) jointlyfunded projects into compliance, and ensure the long term viability of the projects. Great Lakes Capital has also applied for \$1.2 million in grant assistance from the Michigan State Housing Development Authority (MSHDA) to assist in replenishing reserves for the projects. HRD requests City Council approval to process and execute documents required to modify and/or discharge loans for developers/borrowers on the Great Lakes' Portfolio modification list.

The second list of project modifications contains projects that require modifications and/or subordinations to ensure long term compliance with HOME or NSP program guidelines (See Exhibit 3), Only one of these projects, McKinley Manor, is being modified and subordinated with a change in the annual loan payment after a period of forbearance consistent with the request of first position lender for this project. The Department is requesting authorization to modify and subordinate four (4) other loans to ensure compliance with HOME regulations or to recognize postclosing contributions of other project lenders. We request approval of the attached resolution so housing investments under the HOME and NSP program can continue. A Waiver of Reconsideration is requested. Should you have questions or require additional information, please do not hesitate to contact me at (313) 628-0034.

Honorable City Council:

Re: Traffic Signal Removal at 3 Loca-

The following three (3) signalized intersections are currently operating on full time "STOP control" mode for over six months in compliance with the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and are scheduled for removal due to changes in traffic conditions as described below:

Junction-McGraw:

The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation on October 10, 2011. The traffic volumes have dropped significantly over the years at this intersection and currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. In February, 2014, the intersection lost power. At that time, signal heads were removed and the intersection was just Stop sign controlled ever since. Traffic Engineering Division has not received any complaint in regards to this intersection. Since October 10, 2011, the intersection has recorded no angle crash. the type which is correctable by traffic signals. Overall, a crash reduction was observed after flashing. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed

McGraw-Twenty Fourth:

The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation on November 16, 2011. Due to the closure of the school adjacent to the intersection, the traffic volumes have dropped significantly at this intersection and currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. Traffic Engineering Division has not received any complaint in regards to this intersection. Since November 16, 2011, the intersection has recorded only 1 angle crash, the type which is correctable by traffic signals. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed.

Twenty Fourth and Warren:

The traffic signal controller at this intersection was badly damaged after an accident that happened on July 24, 2013 and consequently the signals were out of operation. Since the traffic volumes at this intersection were too low, it was decided to consider this signal for removal study. The signal has been working with stop signs controlling Twenty Fourth Street since July 24, 2013. No crashes have been recorded at this intersection after July 24, 2013. Moreover, being unwarranted, these traffic signals will post unnecessary liability for City unless removed.

Re: Traffic Signal Removal at 6 Locations.

The following six (6) signalized intersections are currently operating on full time "STOP control" mode in compliance with the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and are scheduled for removal due to changes in traffic conditions

The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation. The traffic volumes have dropped significantly over the years at these locations. As a result, currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed.

After placing the signals on flashing operation, the before/after crash data was reviewed for each of the intersections and is shown below. The After crash data was reviewed for the period between the date of flashing and the end of June, 2014. For comparison purposes, the Before crash data was also reviewed for a time period of the same length before the flashing date. Overall, a crash reduction was observed after flashing.

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

Planning & Development Department April 4, 2014

Honorable City Council:

Re: Proposed Second Modified Development Plan for Woodbridge Rehabilitation Project.

The Planning and Development Department requests the adoption of the attached resolution authorizing the Second Modified Development Plan for the Woodbridge Rehabilitation Project area. We are requesting the adoption of the Second Modified Development Plan to facilitate development of medium to high density residential use compatible with commercial or institutional uses that support the Woodbridge neighborhood. The aforementioned changes would permit a mix of commercial and residential uses to be developed along the western frontage of Trumbull Avenue (extending to the alley west of Trumbull) north of Warren Avenue. New commercial uses should be encouraged that would contribute to the development of a vibrant mixed-use district.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing the advertising of and the holding of a public hearing concerning this proposed request, as required by statute, no less than thirty (30) days hence.

Respectfully submitted,
JOHN BARAN
Executive Manager,
Planning Division

TESTIMONIAL RESOLUTION FOR GREATER ST. MATTHEW BAPTIST CHURCH

By COUNCIL PRESIDENT JONES:

WHEREAS, It is great pleasure and privilege that we, the members of the Detroit City Council, recognize and bestow due honor upon, the Greater St. Matthew Baptist Church. It was organized on Feb. 19, 1960. The Buildette Club met at the Metropolitan Church of God in Christ located at 74 Kendall Avenue, Highland Park, Michigan, in an organizing meeting chaired by the late Rev. R. W. Wright. He was the moderator of the Pleasant Grove district association and Pastor of Mount Zion Baptist Church; and

WHEREAS, Rev. O.E. Dixon served as Greater St. Matthews first pastor. He was a God fearing shepherd. He was a pastor after God's own heart. The church initially worshiped in the evenings at the Philadelphia Church of God in Christ on Lincoln and Kendall. The church moved to 13734 Thompson and remained there for 28 years. On Feb. 8, 1988, the Greater St. Matthew Baptist Church family marched into our present edifice at 396 LaBelle. Rev. Robert Kegler served as interim Pastor from Dec., 1992-Oct., 1994. He became Pastor of the church in October, 1994. Pastor Kegler served in humility, remained faithful and was reputed for his meekness and biblical wisdom: and

WHEREAS, Rev. D. Alexander Bullock currently serves as the 3rd pastor the church. Pastor Bullock is a 3rd generation pastor and preacher. He is seminary trained and brings both the letter and the spirit to the office of pastor. Confirmed in Oct., 2005 and installed in Dec., 2005, Pastor Bullock is a part of the continuing legacy of God's grace for Greater St.

Matthew. He believes that Greater St. Matthew is poised for greatness in the 21st century; and

WHEREÁS, In spite of the blight and disarray of the surrounding community, Greater St. Matthew has an N/A program. The church has partnered with Forgotten Harvest to feed the hungry and has partnered with the Highland Park NAACP to clothe the needy. The church is home to multiple ministries and outreach programs that bring the Kingdom of God into the earth. We are a blessed church moving towards the prize of providential prosperity under the banner of "One Voice, One Vision, One Victory"; NOW, THEREFORE RE IT

RESOLVED, That the Office of Council President Brenda Jones and the Detroit City Council acknowledge the rich history of Greater St. Matthew Baptist Church and celebrate strong women on Women's Day. The bible teaches us that women played a large part in the ministry of our Lord. Some of his closest friends and faithful followers were women. Women were the last to leave our Lord's cross and the first to see Him resurrected. The women of Greater St. Matthew continue in that same tradition of ministry and servitude. We salute and celebrate the women of this great church today and everyday.

In consideration of FGIC and the City entering into that certain Settlement Agreement, dated as of [•], contemplating, without limitation, withdrawal by FGIC of its objections to the POA, the City and Developer agree to enter into a development agreement (the "Agreement") as follows:

1. Developer Option.

On or before a date which is thirty-six (36) months following full and complete execution of the Agreement (the "Development Proposal Deadline"), the Developer shall identify a developer or a development partner (either as an equity partner or as a construction or development manager) and prepare a comprehensive development plan for the Development, and shall submit such information along with such plan (in form and substance reasonably acceptable to the City) to the City for its prompt review and approval (the "Development Proposal"), which approval shall not be unreasonably withheld, conditioned or delayed, including, without limitation, any condition in such approval that would interfere with the eligibility of the Development for CRP Incentives and TIF Incentives as contemplated hereby. The Development Proposal does not need to disclose any additional equity partners, provided that the Developer will not partner with any third party that is prohibited from doing business with the City, and the Development Proposal does not need to identify a development partner if the rights under the Agreement have been transferred to a developer, which has previously been approved by the City, which approval shall not be unreasonably withheld, conditioned or delayed. Upon request of the Developer, the City may approve an extension of the Development Proposal Deadline by up to twenty-four (24) additional months, which approval shall not be unreasonably withheld, delayed or conditioned. The City agrees that it would be unreasonable to withhold its approval if (i) the Developer requested the extension because development in the immediate vicinity of the JLA Parcel has materially decreased or the general economic condition of the City has deteriorated to such a level that it would not be economically feasible for the Developer to pursue development of the JLA Parcel or (ii) it is reasonable given the complexity of the development contemplated by the Developer.

The City will review the Development

Proposal and within ninety (90) days after receipt either (i) approve the Development Proposal or (ii) provide the Developer with the specific reasons why the Development Proposal is not acceptable, which may include unacceptability of the proposed development partner (if required). If the City does not approve the Development Proposal, the Developer may provide a revised Development Proposal to the City for its approval pursuant to the process herein, which shall continue until the Development Proposal is approved.

Without limiting the Developer's ability to identify and receive approval of a different development partner, the Detroit Regional Convention Facility Authority is deemed an approved development partner for purposes hereof. The Development Proposal shall include an application for the CRP Incentives and the brownfield plan necessary for the application for TIF Incentives, and it shall also identify which components of the Development Proposal are eligible for the CRP Incentives and TIF Incentives, disbursement of which shall be governed by the Economic Incentive Agreements (as defined in Section 3 below), and the City shall use its commercially reasonable efforts to cause the State to grant any approvals necessary for those CRP Incentives and TIF Incentives no later than 120 days after the date of approval of the Development Proposal, subject to the

The Developer shall have until a date which is one hundred eighty (180) days prior to the Development Proposal Deadline to give the City written notice of its intent to inspect the JLA Parcel (the "Deligence Notice"), which inspection may include, without limitation, (i) conducting physical inspections of the JLA Parcel, (ii) performing environmental studies of the JLA Parcel, which studies shall be of a scope acceptable to Developer in its sole discretion, and shall include the right to do invasive soil and groundwater testing, provided, however, the methodology of any such study shall be subject to the City's reasonable approval, and (iii) obtaining surveys of the JLA Parcel (the "Diligence Activities"). The City shall order a title commitment and survey for the JLA Parcel (the "Commitment and Survey") promptly following execution of this Term Sheet and shall deliver the Title Commitment and Survey to Developer. Within twenty (20) business days after the Developer's receipt of the Title Commitment and Survey (in form reasonably acceptable to the Developer) and copies of each of the title exceptions referenced in the Title Commitment and Survey, the Developer shall have examined and Title Commitment and Survey and shall make any objections to any items therein that would cause title to the

JLA Parcel to not be marketable or that would unreasonably interfere with the construction of the Development ("Title Defects") by written notice to the City (the "Title Objection Notice"). The Title Objection Notice shall state with specificity the reasons for Developer's objection(s) and the curative steps requested by the Developer which would remove the basis for the Developer's objection(s). The City shall cure any Title Defects prior to the Closing Date. If the Developer orders an update to the Title Commitment and Survey prior to Closing, and such update shows an additional Title Defect not caused by the Developer, the City shall cause such Title Defect to be cured prior to Closing.

To the extent within the possession of the City and the City Parties, as reasonably determined by the City's corporation counsel upon due inquiry, and not otherwise in the public record, the City shall, promptly upon the request of the Developer, provide, and shall cause all City Parties to provide, to the Developer (i) copies of all environmental studies, asbestos reports or other environmental reports on the JLA Parcel, (ii) copies of all title reports and the underlying documents referenced therein, (iii) copies of all surveys of the JLA Parcel, (iv) copies of any other records, documents, instruments, agreements or files with respect to the use of ownership of the JLA Parcel, to the extent materially relevant after Closing, (v) to the extent not included in the above, copies of the correspondence to or from the City or any City Parties related to the use or ownership of the JLA Parcel, to the extent materially relevant after Closing and (vi) such other documentation as is reasonably requested by Developer with respect to the JLA Parcel. The City shall use its commercially reasonable efforts during the Diligence Period (as defined below) to provide the Developer and its contractors, consultants and their respective agents with such access to the JLA Parcel as may be reasonably requested by the Developer from time to time, subject to any access limitation of the JLA Lease. Prior to conducting any of the Diligence Activities, the Developer and its contractors and consultants performing any of the Diligence Activities shall maintain the insurance coverage and comply with the insurance requirements specified in the City's form of Right of Entry.

The Developer shall notify the City in writing, no later than one hundred twenty (120) days following the Diligence Notice (the "Diligence Period"), that either (i) the Developer intends to proceed to Closing (as defined below) on the JLA Parcel (the "Notice to Proceed"), or (ii) the condition of the JLA Parcel is such that, in Developer's reasonable judgment, the

condition adversely affects Developer's ability to timely complete the development or adversely affects the value of the JLA Parcel (the "Objection Notice"), which Objection Notice shall state with reasonable specifity the particular diligence matter unacceptable to the Developer, including Title Defects ("Objections"). The City, in its sole discretion, shall have the option to cure or remove such Objections within sixty (60) days following the Objection Notice (the "Cure Period"), provided that the City must cure such Objections that are encumbrances for the benefit of the City or the City Parties. Without limiting the generality of the foregoing, the City shall be obligated to cause to be removed of record: (i) mechanic's liens; (ii) judgment liens against the City or any City Parties; (iii) mortgages, similar loan documents and voluntary liens with respect to indebtedness of the City or any City Party; (iv) delinquent taxes, charges, impositions or assessments; (v) fines issued by any governmental or quasi-governmental authority or other liens encumbering the JLA Parcel or any portion thereof which are in liquidated amounted; and (vi) any other monetary liens against the property. To the extent the Developer issues an Objection Notice and Objections are cured to Developer's reasonable satisfaction during the Cure Period or the Developer desires to waive the Objections and proceed to Closing, the Developer shall provide a Notice to Proceed to the City within fifteen (15) days after expiration of the Cure Period.

To the extent the Developer issues a Notice to Proceed prior to the later of (i) expiration of the Diligence Period, and (ii) fifteen (15) days after the expiration of the Cure Period, if applicable, the City and the Developer shall proceed to closing on the JLA Parcel on a mutually agreed upon date which is the later of (i) two (2) years following approval by the City of the Development Proposal, and (ii) six (6) months following completion Demolition (as defined below) (the "Closing Date"). On the Closing Date, the City shall, subject to satisfaction of commercially reasonable conditions precedent and Developer's satisfaction of the requirements of any title company insuring title to the JLA Parcel, convey the JLA Parcel to the Developer by guit-claim deed (the "Closing"). Developer shall pay all costs associated with Closing, including, without limitation, all title charges, escrow, closing and recording fees associated with any conveyance hereunder, with the exception of transfer taxes, if any, and any other costs normally paid by the seller of property under applicable law.

The Developer shall defend, indemnify and hold harmless the City from and against any loss, liability, cost or expense incurred by the City as a result of the Diligence Activities other than any such loss, liability, cost or expense resulting from the negligence or willful misconduct of the City or any City Parties.

The City représents that the City or an instrumentality of the City has the right, power and authority to transfer the JLA Parcel or will have such right, power and authority as of the Closing.

JLA Demolition.

Promptly upon expiration of the JLA Lease, but in no event more than ninety (90) days after expiration of the JLA Lease, the City shall commence or cause to be commenced and demolition of the JLA Demolition Parcel (the "Demolition Commencement Date"), which demolition shall include (i) removal and disposal of all building improvements and materials located thereon and (ii) certain excavation work to be completed at the JLA Demolition Parcel, which excavation work shall include, without limitation, clearing and grubbing, soil erosion and control, and site excavation and embankment on the JLA Demolition Parcel, all in accordance with plans and specifications reasonably acceptable to the Developer and all applicable laws ("Demolition"). For the avoidance of doubt, if the City commences staging for the Demolition by the Demolition Commencement Date, the City will be deemed to have commenced the Demolition.

The Demolition shall include (i) remediation or removal of materials, substances or wastes classified or regulated as hazardous, toxic, or a pollutant or contaminant ("Regulated Hazardous Substances") (including, but not limited to, asbestos-containing materials) related to the removal and disposal of materials from the JLA Demolition Parcel to the extent required by or necessary to comply with applicable laws or is customary for demolition projects of a similar scope and nature and (ii) the investigation, control or removal of any Regulated Hazardous Substances at, on or below the surface of the JLA Parcel that is sufficient under and otherwise causes the JLA Parcel to comply with applicable law for Developer to develop and use the JLA Parcel site consistent with the Development Proposal for its intended purposes as a multiuse hotel. residential condominium, office or retail development ("Sufficient Environmental Remediation"). Sufficient Environmental Remediation may, at the City's election, include controls that do not unreasonably interfere with the Development Proposal; provided such are acceptable to the governmental authorities with jurisdiction over the JLA Parcel. Developer agrees that, in conjunction with Developer, the City may have prepared and submitted to the Michigan Department of Environmental a Baseline Environmental Quality Assessment (Phase II) and associated Due Care Plans approved by and for the benefit of Developer, which approval shall not be unreasonably withheld, delayed or conditioned; however, the submission of such shall not alleviate the City's obligation to undertake such other actions necperform essarv to Sufficient Environmental Remediation to allow for the implementation of the Development Proposal. The Developer agrees that in conducting Sufficient Environmental Remediation, the City may rely on protective barriers to prevent contact with affected soil and deed restrictions to limit groundwater use and other due care requirements approved by the governmental authorities and reasonably acceptable to Developer. Sufficient Environmental Remediation shall not include the construction of measures adopted as controls to the extent that they are otherwise specifically part of the Development Proposal, in which case Developer shall construct them as part of the Development; however, if the costs to do so are increased as a result of government approved controls, the City shall reimburse Developer for the increased costs to satisfy any government imposed controls. Developer or any future owner will be responsible for maintaining any reasonable controls or due care measures adopted as part of the Sufficient Environmental Remediation.

The Demolition Commencement Date is expected to occur on or before September 15, 2017. Demolition shall be completed within one (1) year following the Demolition Commencement Date. The State shall make available to the City certain CRP Incentives set forth below, of which up to \$6,000,000 will be for the purpose of reimbursing the City for the costs and expenses incurred in connection with the Demolition (the "Demolition CRP Incentives"). If there are any remaining Demolition CRP Incentives following the Demolition and the Sufficient Environmental Remediation, such funds shall be made available to reimburse the Developer for other eligible costs for the Development.

3. Economic Development Incentives.

In order to facilitate construction of the Development on the JLA Parcel, the State has agreed to reimburse the Developer for certain eligible project costs through CRP Incentives and TIF Incentives, as more particularly set forth in this Section 3, below.

To the extent that the Development Proposal, as approved by the City pursuant to Section 1 above, meets the eligibility requirements for CRP Incentives and TIF Incentives, the Developer shall be provided up to \$4,000,000 in CRP Incentives, and up to \$14,000,000 in TIP Incentives, which TIF Incentives will accrue interest at 3% per annum on any

outstanding balance thereof, pursuant to one or more subsequent final written grants and loans (forgivable or otherwise), as applicable, and a development agreement or other economic assistance agreement, as applicable, shall be entered into by the Developer and the State no later than 120 days after approval of the Development Proposal (which may be increased by 60 days if the CRP Incentives or TIF Incentives require review by the Michigan Department of Environmental Quality), which shall include (i) a schedule of performancebased project milestones for construction of the Development, and (ii) a pro-forma budget for the Development, as agreed upon between the City, the State and the Developer (collectively, the "Economic Incentive Agreements"). The City will use good faith efforts to cause the cap on the TIF Incentives to be increased to \$18,000,000 in exchange for eliminating the \$4,000,000 in CRP Incentives that are to be provided to the Developer. The Economic Incentive Agreements will be executed in accordance with the standard process, including the filing of any necessary applications.

The Economic Incentive Agreements shall govern disbursement of the CRP Incentives and TIF Incentives, including those project costs related to the Development that are eligible for CRP Incentives and TIF Incentives, as well as conditions precedent, milestones and timing for such disbursement, and shall include customary periodic reporting requirements of the Developer for data related to the Development both during

and after construction.

To the extent the Development includes residential uses, the Economic Incentive Agreement shall also provide for designation of the Development as a Neighborhood Enterprise Zone ("NEZ"), and the City and each of the City Parties shall cooperate with and assist the Developer in applying for the NEZ certificate.

The City and each of the City Parties shall establish either a Commercial Redevelopment Zone (as defined in the Commercial Redevelopment Act) or a Commercial Rehabilitation Zone (as defined in the Commercial Rehabilitation Act), as requested by the Developer, such that the JLA Parcels will be eligible for the property tax abatements available for properties in the applicable zone. The City and each of the City Parties shall cooperate with and assist the Developer in applying for the tax abatements for which the Development is eligible under the Commercial Rehabilitation Act or the Commercial Redevelopment Act.

Until title to the Joe Louis Arena Garage is transferred to the Developer, the City shall also fund or cause to be funded all costs and expenses for the repairs specified on page 15 "Opinion of Expected Construction Costs — July, 2014" in the Physical Conditions Due Diligence Review and Evaluation dated September, 2014 prepared by Desman Associates, except for Item #3 identified therein.

The City shall use its commercially reasonable efforts to assist the Developer in obtaining any additional sources of developer financings and grants not already provided for herein that are identified in writing to the City by the Developer.

4. Further Terms and Conditions.

Subject to Force Majeure Delays, the Developer shall commence Development within twelve (12) months following the Closing Date "Commencement Milestone") and shall achieve substantial completion of the Development within thirty-six (36) months following the Closing Date. For these purposes, commencing the Development on the JLA Parcel shall be deemed to have occurred when the Developer shall have commenced site preparation work on the JLA Parcel, which site preparation work may include renovation or demolition of existing structures located on the JLA Parcel by the Developer, as applicable. In the event the Developer shall fail to achieve the Commencement Milestone, the JLA Parcel will automatically revert to the City. As part of the Closing, the Developer shall provide the City with a commercially reasonable completion guarantee.

To the extent the Developer proceeds to Closing, it shall accept the JLA Parcel on an "as-is, where-is" basis, subject to the City's obligations to perform the Sufficient Environmental Remediation. Other than with respect to the Sufficient Environmental Remediation, the City makes no implied or express representations or warranties of any kind as to its condition that may adversely affect the development, or its fitness for absolutely any purpose whatsoever. By proceeding to Closing after completion of the Diligence Activities, Developer acknowledge that it is satisfied with the condition of the JLA Parcel. By accepting title to the JLA Parcel at Closing, Developer shall be deemed to have waived any right to object to the status of title or to the condition of the JLA Parcel, regardless of the result of any Diligence Activities, and shall be deemed to have declared its full satisfaction with the status of title to and condition of the JLA Parcel, except as otherwise provided in this Agreement.

Upon Closing and subject to the City's obligation to perform the Sufficient Environmental Remediation, the Developer shall release the City and the State, and their respective officials, employees, and agents (but not any third

party) from any and all claims or causes of action the Developer may have against the City for any liability, injury or loss as a result of any physical defects in or physical conditions of the JLA Parcel, including but not limited to any surface, subsurface, latent or patent conditions whether naturally occurring or by action of any party.

Prior to the Closing, the City will (i) subject to the Demolition, maintain the JLA Parcel in at least the same condition and repair (except for environmental condition and repair thereof, which is addressed in sub-clause (ii) below) as of the date of the Agreement, (ii) not, through its own action (or the action of any agency, department, employee, agent, or contractor), alter the environmental condition of the JLA Parcel, as such exists on the date of the Agreement, in a material and adverse manner, (iii) not take zoning or land use action on the JLA Parcel without Developer's written consent, and (iv) not execute or grant any lease, contract, agreement, lien, security interest, encumbrance, easement, or restriction with respect to the JLA Parcel, or amend, modify, renew, extend or terminate any of the foregoing, without prior written consent of the Developer, which consent shall not be unreasonably withheld, conditioned or delayed.

Time is of the essence with respect to the deadlines set forth herein.

The City shall pass no charter, ordinance or other provision that solely affects or primarily targets the Developer or its rights under the Development Agreement which charter, ordinance or other provision has a material adverse impact on the Developer or its rights under this Agreement (it being understood that a "material adverse impact" shall include any adverse financial impact or any contradiction, or adverse impact on the enforceability, of the terms of this Agreement or the Economic Incentive Agreements).

Zoning and Required Approvals

The City shall change the zoning requirement for the JLA Parcel to be designated "B-5", which will permit the Developer to develop the JLA Parcel as a mixed-use development, provided that the City administratively approves the site plans, which approval will not be unreasonably withheld, delayed or conditioned. Approval by the City of the Development Proposal shall not be deemed approval with respect to any site plan, elevation, special land use, environmental, conditional use or other municipal approvals or permits, or variances therefrom, required for the Development (the "Required Approvals"); provided, however, upon approval by the City of the Development Proposal and prior to Closing (as defined below), the Developer may proceed with securing the Required Approvals at its sole cost and expense.

With respect to any formal requests made by Developer or its designee to the City or State for any Required Approvals, the City or State, as applicable: (a) agrees to process such requests promptly and to use commercially reasonable efforts to process them within 30 days of submission by the Developer, (b) shall not unreasonably withhold, condition or delay approvals of the applicable requests, provided that the City or State have the legal authority to grant such approval and that such approval does not violate any applicable law, rule or regulation of general application. (c) shall not unreasonably impede or interfere with the Development, (d) shall not discriminate against Developer in the consideration or approval of such Required Approvals on account of the circumstances surrounding the Settlement Agreement and this Agreement and the events leading up thereto, and (e) shall use reasonable efforts to facilitate such requests, taking into consideration other similar requests for approvals or inducements, as applicable, of third parties granted thereby for similarly situated developments and uses those contemplated for Development; provided, however, the City or State, as applicable, shall process such requests for all Required Approvals pursuant to all then applicable rules, regulations, statutes and similar requirements.

JLA Lease

The City shall not renew or otherwise extend the JLA Lease beyond the date currently set forth in such lease, subject to the right of the existing tenant under the JLA Lease to extend the JLA Lease.

Transferability

Developer shall be entitled to freely transfer or assign its rights hereunder at any time, as long as it provides the City written notice thereof and it does not transfer its rights hereunder to a party that is prohibited from doing business with the City.

Costs and Expenses

The parties hereto shall bear their own costs and attorneys' fees with respect to the matter set forth herein.

Department of Public Works City Engineering Division

September 23, 2014

Honorable City Council:

Re: Petition No. 354 — Marathon Petroleum Company request permission to vacate a section of Oakwood from the intersection of Dix and Oakwood to the north for 1,872,82 ft. and alleys between Sanders and Oakwood.

Petition No. 354 Mannik Smith Group on behalf of Marathon Petroleum LP request City Council to accept the dedication of certain lands for public street purposes being the Oakwood Avenue reroute, also requesting the vacation and conversion to easement of part of Oakwood Avenue and two public alleys, all in the area of Dix Avenue, Oakwood Avenue, and Sanders Avenue. Additionally the Department of Public Works is requesting to convert an existing greenbelt into public right-of-way from the Oakwood Avenue reroute to the Rouge River near Powell Avenue.

The dedication and conversion to easement requested by Mannik Smith Group on behalf of Marathon Petroleum LP is being proposed in order to integrate a planned new administration campus into the existing refinery and for the benefit of creating a larger buffer between the traveling public and the existing refinery.

The Department of Public Works request to convert the existing greenbelt to public right-of-way is being made to allow for a future bike path from relocated Oakwood to the Rouge River near Fordson Island.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request was approved by the Solid Waste Division — DPW and City Engineering Division — DPW. The Traffic Engineering Division — DPW (TED) has approved the request based on the extensive traffic investigation and analysis.

The Detroit Water and Sewerage Department (DWSD) and the Public Lighting Department (PLD) have responded with specific easement provisions that are included in the following resolution.

All City Departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into private easements for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted, RICHARD DOHERTY, P.E. City Engineer

City Engineering Division — DPW

September 26, 2014

Honorable City Council:

Re: Request permission to accept an increase from the State of Michigan's Automobile Theft Prevention Authority (ATPA) Fiscal Year Y2015 "Preventing Auto Theft" (G-21-15) Grant Task Force.

The State of Michigan's Automobile Theft Prevention Authority (ATPA) has awarded the Detroit Police Department (DPD) \$1,495,781.00 to pay a portion (50%) of the salary and fringes of four (4) sergeants and eighteen (18) police officers assigned to the Preventing Auto Theft grant. Additionally, the grant funding will cover 50% of the costs associated with leasing 22 vehicles for task force officers to utilize and the purchase of field operation supplies. The Department will be required to match an additional \$1,495,781.00, which will pay the other

half of the cost for salaries/fringes, leases, and field operation cost.

The combined funding brings the total grant budget to \$2,991,561.00, including the 50% match. This grant is already in the City of Detroit's Fiscal 2014-2015 Budget (Appropriation #13705, Cost Center 372507) for \$1,270,694.00; therefore, formal acceptance of the \$1,720,867.00 increase on the part of the City is necessary.

The project period is from October 1, 2014 through September 30, 2015 and the assigned grant number is G-21-15. Vernal Newson, of Commercial Auto Theft, will continue to serve as the Project

Participation requires the approval of your Honorable Body, via adoption of the attached resolution.

Honorable City Council:

Re: Request permission to accept an increase for the "Detroit Youth

Violence Prevention Capacity-Building Project" from the Office of Juvenile Justice and Delinquency Prevention.

The United States Department of Justice, Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention (OJJDP) have awarded the City of Detroit a "Detroit Youth Violence Prevention Capacity-Building Project" Grant an increase in the amount of \$222,200.00, with no cash match. The previous awarded amount \$295,220.00. The total amount of the grant will be \$517,420,00. The project period will run from October 1, 2012 through September 15, 2015. The federal grant award number is 2012-NY-FX-0027 and the city appropriation number is 13592.

The Detroit Youth Violence Prevention Initiative (YVPI), established by the Office of Mayor Dave Bing, plans to build the program capacity and enhance the prevention, intervention, enforcement, and re-entry efforts through the proposed partial funding of the Chief Service Officer position, evaluation services, and technology tools. Essentially, awarded funding will support the Mayor's Office in the continued management of the strategic growth of the initiative as guided by the steering committee and informed by community partners. Successful funding of those needs will ultimately strengthen the ability of YVPI partners and stakeholders to collectively better serve youth and reduce violence in the targeted areas of Cody, Osborn, and Denby High Schools.

Honorable City Council:

Janice Winfrey
City of Detroit Clerk
2 Woodward Avenue
Detroit, MI 48226
Dear Janice Winfrey:

On Tuesday, November 4, 2014 the Detroit City Council approved the transfer f 77 Detroit Public School properties. While the overall goal of transfer I agree with, I do not agree with the method in

which this transfer came before the body. I voted no for the following reasons:

- First, the School Board did not have an opportunity to review the transfer before it was brought to city council for a vote. As an elected official, I have a concern with another body of elected officials not having the opportunity to do what they were elected to do. The citizens of Detroit voted for school board members to make decision about issues concerning the school system. When the school board is not allowed to make those decisions, it sends a message that the vote of the people is irrelevant.
- · Second, I am a proponent of intergovernmental collaboration. This was the perfect opportunity for city council to collaborate with the school board to facilitate this transaction. The school board has knowledge of the properties and prospective use that could have been valuable to this body while we were pressed to make a decision. For instance, there is an ongoing issue with school that may effect whether the school reopens, and yet Oakman School was on the list of properties that was transferred. The school board was in the perfect position to close the gap between the information we were given and the question that remain unanswered.
- Third, the process of selecting contractors was not put out for bid in the normal RFP process. Contractors were selected from a list after having already completed work for the city. While I understand the sense of urgency in procuring contractor to perform the work, the process excluded other contractors that could have participated. The RFP process ensures industry input from participants and allows the city to secure competitive pricing.

For these reasons I voted no.

Honorable City Council:

Re: Address: 17361 Albion. Name: Guiseppe Iacorelli. Date ordered removed: July 15, 2014 (J.C.C. Pages 1414-1426).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 1, 2014 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current

The proposed use of the property is owner's use and occupancy. This is the 2nd deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- 1. A permit for rehabilitation work shall be obtained within 30 days.
- 2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within three (3) months, at which time the owner will obtain one of the following from this department:
- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties
- 3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- 4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

DAVID BELL Building Inspector

11. Submitting reso. autho. Contract No. 2899593 — 100% DWSD Funding Emergency Procurement as Provided by the Detroit Water and Sewerage Department Procurement Policy of November 2, 2011 — Description of procurement: DWS-898, Springwells and Northeast Water Treatment Plants Sludge Removal and Disposal Services - National Industrial Maintenance, Inc., 4400 Stecker, Dearborn, Michigan 48126 — Contract period: November 10, 2014 thru November 10, 2017 — Contract amount not to exceed: \$15,750,000.00 — Basis for the emergency: This services contract involves the annual removal and disposal of sludge from the sedimentation basins and flocculator chambers at the Springwells and Northeast Water Treatment Plants. Currently, sludge is discharged from the Northeast and Springwells water plants sedimentation basins flocculation chambers by dumping the sludge to the sewer system over a 1-2 week period. The sludge is conveyed to the Detroit Wastewater Treatment Plant (WWTP). These sludge dumps have caused operational problems at the WWTP with the solids handling and dewatering processes. As a consequence, the Michigan Department of Environmental Quality (MDEQ) has imposed new regulatory restrictions on the Detroit Water and Sewerage Department's (DWSD) WWTP in its National Pollution Discharge Elimination System (NPDES) Permit No. MI0022802 issued on March 1, 2013. As a result, the current practice of sludge removal and disposal from the flocculation and sedimentation basins at Northeast and Springwells is often restricted and many times not allowed. Sludge has been accumulating in the basis and is causing higher applied water turbidity at the plants. At the present time, the Springwells and Northeast plants are prohibited from discharging the sludge to the sewer system and WWTP. If this prohibition continues, the sludge accumulation in the sedimentation basins will result in excessive solids carry-over into the filters which may cause substantially reduced water production capabilities at these plants and could even negatively impact filtered water quality. Water and Sewerage Department.

Honorable City Council:

Re: Petition No. 410 — Michigan Humane Society, request to outright vacate certain public right-of-ways bound by I-75 Service Drive, Cameron Street, Melbourne Street and Marston Street.

Petition No. 410 — Michigan Humane Society request for the outright vacation of sewer easements, 18 feet wide, in the block bounded by Clay Avenue, 66 feet wide, Euclid Avenue, 50 feet wide, Cameron Avenue, 66 feet wide and Chrysler Freeway southbound service drive

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report:

The request is being made in order to facilitate the construction of the new Michigan Humane Society Animal Care Facility to be located at 7887 Chrysler Service Drive, Detroit, Michigan, 48211.

The sewer easement is within a vacated alley and on private property. The alley was outright vacated by Detroit Common Council August 14, 1917 and October 21, 1924

The Detroit Water and Sewerage Department (DWSD) has reported no objections to the sewer easement vacation, provided the petitioner agrees to relocate the sewers in accordance with certain provisions and at no cost to DWSD. All other city departments and private utility companies have no involvement to the changes of the sewer easement.

Together with a sewer easement, 18 feet wide, centerline lying 3 feet southerly of and parallel to the northerly line of Lot 20 and beginning at the vacated public alley at the rear of Lot 20 and ending at Cameron Street, 66 feet wide "Curry's Subdivision of Lots 13 and 14 of the Subdivision of Quarter Section 58, 10,000 Acre Tract, Township of Hamtramck (Now Detroit), Wayne County, Michigan" as recorded in Liber 9. Page 57 of Plats, Wayne County Records.

Nays — Council Member Cushingberry, Jr. — 1.

*WAIVER OF RECONSIDERATION (No. 6) per motions before adjournment.

STATEMENT BY COUNCIL MEMBER GEORGE CUSHINGBERRY, JR. CONCERNING NO VOTE EXPLANATION

I voted no, because we should not add to the Charter process. The process that has been adopted is hasty. Wise choices are normally ones, which maximize input.

The choice of fast action and long discussion by the Committee of the Whole, does not substitute for calm reflection and research. The process simply makes it less open and transparent.

Water and Sewerage Department Contracts and Grants Division November 3, 2014

Honorable City Council:

The Contracts and Grants Division of the Water and Sewerage Department recommends Contracts with the following firms or persons:

firms or persons: 2899593 — 100% DWSD Funding -Emergency Procurement as provided by Detroit Water and Sewerage Department Procurement Policy of November 2, 2011 — Description of procurement: DWS-898, Springwells and Northeast Water Treatment Plants Sludge Removal and Disposal Services -National Industrial Maintenance, Inc., 4400 Stecker, Dearborn, Michigan 48126 Contract period: November 10, 2014 thru November 10, 2017 - Contract amount not to exceed: \$15,750,000.00 — Basis for the emergency: This services contract involves the annual removal and disposal of sludge from the sedimentation basins and flocculator chambers at the Springwells and Northeast Water Treatment Plants. Currently, sludge is discharged from the Northeast and Springwells water plants sedimentation basins flocculation chambers by dumping the sludge to the sewer system over a 1-2 week period. The sludge is conveyed to the Detroit Wastewater Treatment Plant (WWTP). These sludge dumps have caused operational problems at the WWTP with the solids handling and dewatering processes. As a consequence, the Michigan Department of Environmental Quality (MDEQ) has imposed new regulatory restrictions on Detroit Water and Sewerage Department's (DWSD) WWTP in its National Pollution Discharge Elimination System (NPDES) Permit No. MI0022802 issued on March 1, 2013. As a result, the current practice of sludge removal and disposal from the flocculation and sedimentation basins at Northeast and Springwells is often restricted and many times not allowed. Sludge has been accumulating in the basins and is causing higher applied water turbidity at the plants. At the present time, the Springwells and Northeast Plants are prohibited from discharging the sludge to the sewer system and WWTP. If this prohibition continues, the sludge accumulation in the sedimentation basins will result in excessive solids carry-over into the filters

which may cause substantially reduced water production capabilities at these plants and could even negatively impact filtered water quality. Water and Sewerage Department.

RESOLUTION CREATING THE DETROIT CITY COUNCIL YOUTH DEVELOPMENT AND EDUCATION TASKFORCE

By COUNCIL MEMBER CASTANEDA-LOPEZ, Joined by COUNCIL MEMBERS SHEFFIELD and TATE:

WHEREAS, A young person's development is affected not only by the quality of their school environment and family circumstances, but also by community conditions. Children require adult supervision and support during the after-school hours when they are most likely to engage in high-risk behavior. Barriers to participation in after school programs include limited program offerings and poor access to transportation. Such barriers tend to be more concentrated in low-income urban areas such as Detroit. (Data Driven Detroit. State of the Child: 2010): and

WHEREAS, Half of Detroit's children live in poverty and far too few Detroit children leave school prepared to enter the workforce or attend college. Education Secretary Arne Duncan has called the DPS drop-out rate "devastating" and told the Detroit Free Press in November, 2010 that DPS is "arguably the worst urban school district in the country now." (Data Driven Detroit, State of the Child: 2010); and

By COUNCIL PRESIDENT JONES:

WHEREAS, It is with great pleasure and privilege that we, the members of the Detroit City Council, recognize and bestow due honor upon the Carter Metropolitan C.M.E. Church. It was organized in 1923 with only eight members. This vision led those eight members to sign a petition for a C.M.E. church. The petitions were gathered and sent to Bishop R. A. Carter, the Presiding Prelate and then sent to Rev. P. R. Jamison with credentials to organize the church in 1925 under the guidance and cooperation of presiding Elder Rev. J. F. Duke; and

They accepted the name and three members were added to the membership the first year. The succeeding pastors who served this church were Rev. S. W. Young (1925). Rev. Fred P. Greggs (1925), Rev. E. M. Dozier (1925-1927), and Rev. J. A. Craig (1927-1929). In 1929, the old St. James was destroyed by fire and the congregation started worshipping in a store front on Kirby, near 23rd Street; and

WHEREAS, In 1929, Rev. Alexander Turner received his first appointment as pastor of the church (1929-1930). He was filled with zeal and determination to build a new church so, with the help of God and friends, a new church was erected. The membership of St. James had grown to 75 members by 1930 under Rev. Ralph Davis as pastor (1943-1954), the church membership increased, a larger church was needed. Rev. . Ralph Davis, pastor-incharge and the trustees, proposed the idea of purchasing the Congregational Church located on West Grand Blvd. at West Warren. The members agreed and Greater St. James was purchased. The current structure we now worship in became a reality in 1945. On Sunday morning, October 21, 1945, over 500 members met at the old church on Vinewood and marched to the building. the new church was renamed Carter Metropolitan C.M.E. to honor Bishop Carter who had played a significant role. To God be the glory for those founding elders. Rev. A Ralph Davis served as our leader for eleven (11) years. Rev. R. V. Johnson was appointed pastor in 1954. He served until 1959. IN 1959, Rev. Robert Potts became the leader of Carter (1959-1961). Rev John M. Exum was assigned pastor of Carter in 1961-1966. Rev. Honorable City Council:

Re: 9167 Gratiot Development - Payment in Lieu of Taxes (PILOT).

The 9167 Gratiot LDHA, LLC, sponsored by Detroit Catholic Pastoral Alliance (DCPA) will develop a (24) unit new construction residential building located at 9167 Gratiot on the eastside of Detroit. All units will be leased to households at or below 60% of the area median income. Three (3) units will be reserved for families with children.

The project will be located at 9167 Gratiot Avenue between Belvidere

Avenue and Lambert Avenue on the eastside of Detroit. Gratiot Avenue is a major thoroughfare and state trunk line highway connecting Downtown Detroit to the northeast suburbs with traffic counts in excess of 24,000 per day both ways. Because of its proximity to the Gratiot/I-94 intersection, the project will be located at a significant gateway to Downtown Detroit. The site is also located at a prominent point of entry to the DCPA's CHDO project area, the Gratiot Woods Community. This area is defined by the boundaries of the I-94 freeway on the north, Gratiot on the northwest, Warren on the south, Cadillac on the east, and Rohns on the west.

The 9167 Gratiot project consists of the new construction of (1) multi-story residential building on the eastside of Detroit between Lambert and Belvidere Avenues. The building will be (4) stories tall and 37,840 sq. ft. It will have a total of (12) two-bedroom and (12) three-bedroom residential apartments on the second, third, and fourth floors. Thirty-one (31) parking spaces will be located in an enclosed parking lot in the rear of the building. The building will have a main corridor on each residential floor that runs parallel to Gratiot and terminates at egresses located at each end of the building. The first floor will have a main stairway, elevator, lobby, mailroom, laundry room, mechanical room, and storage.

The following sources will be used to fund the 9167 Gratiot project: Developer Equity Contribution of \$328,018, loans from MSHDA in the amounts of \$1,808,055, and Low-Income Housing Tax Credit of \$1,381,372.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346. as amended, MCLA 125. 1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of ten percent (10%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted, GARY EVANKO Chief Assesso

Chief Assessor By Council Member Cushingberry, Jr.:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. (the "Act"), a request for exemption from property taxes has been received on behalf of (the "Sponsor"); and

Whereas, The Sponsor is proposing to undertake a housing project to be known as 9167 Gratiot Development property owned or to be acquired by the Sponsor as described by street address and tax parcels in Attachment A to this resolution, with 24 units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is primarily to serve low to moderate-income persons; and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federally-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

low income persons or families, as that term is defined in the Act, shall pay a service charge in lieu of taxes equal to the full amount of the taxes that would be paid on that portion of the Project if it were not tax exempt; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the Project and that all necessary journal entries with respect to the same be prepared by the Finance Department; and be it further

Resolved, That the exemption granted by this resolution shall not be effective until the Board of Assessors has received from the Sponsor the filed affidavit, certified by MSHDA, that the Project is eligible for exemption; and be it further

Resolved, That the specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemption; and be it further

Resolved, That the City Clerk furnish the Finance Department — Assessments Division two certified copies of this resolution

Re: Northend Development, LLC (16) scatter site rental Housing Development — Payment in Lieu of Taxes (PILOT).

The Northend Development, LLC (16) scatter site rental Housing Development project consists of the rehabilitation of 16 scatter sites including 2 single homes and 7 duplex homes. The project will be bounded by the Clairmount (North), Woodward Avenue to the (East), John C. Lodge to the (West), and West Boulevard to the (South).

The feasibility is based on the developer capital contribution of \$16,000 annis also based on the Mortgagor's participation in the City of Detroit's Neighborhood Stabilization Program III (NSP III) with a 0.00% interest rate 0year permanent conditional loan for \$3,998,075. Based upon the developer's proposed rent levels targeting 8 of the units at 50% of area median income, adjusted for family size; the remaining 8units targeted at 80% of area median income, adjusted for family size: the developer's proposed rent levels are well below the NSP requirements for the income-restricted units. The targeted 80% AMI rents have been adjusted down to a 50% AMI dollar amount pending market absorption and adjustment to the 80% AMI rents level.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346. as amended, MCLA 125. 1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of the lesser of the tax on the project the year before

rehabilitation began or ten percent (10%) of the annual net shelter rent obtained from this housing project.

Finance Department Board of Assessors

November 18, 2014

Honorable City Council:

Re: Colony and Fisher Arms Apartments 9303, 9333, 9373 East Jefferson Avenue, Detroit, MI 48214 — Payment in Lieu of Taxes (PILOT).

Building Blocks Non-Profit Housing Corporation, has formed Colony and Fisher Arms BB Limited Dividend Housing Association Limited Partnership for the redevelopment of the Colony and Fisher Arms Apartments and is requesting tax exemption for the property consisting of 161 units, located on East Jefferson, bounded on the south by the Berry Subdivision, on the east Parkview Avenue, on the north by Agnes Street, and on the west by McClellan Avenue, in Detroit

The project will be financed by Low-Income Housing Tax Credit equity of approximately \$13,689,126 and Federal Historic Tax Credit equity of \$3,432,872, with both provided by the Great Lakes Capital Fund; an FHA 223(a)7 Permanent Mortgage Loan provided by Red Capital Mortgage in the amount of \$3,077,100, at 4.20% interest for 30 years; a cash flow dependent Subordinated and Restructured Permanent Mortgage Loan provided HUD in the amount of \$3,078,327 at 7.00% interest for 30 years; a cash flow dependent Sponsor Loan of \$500,000 from proceeds of an Affordable Housing Program (AHP) grant from the Federal Home Loan Bank of Indianapolis at 3% for 30 years; and, a deferred developers fee in the amount of \$323,968 to be repaid from cash flow.

All 161 units are Tax Credit units. Rents for all units have been set at or below 60% of the area median income, adjusted for family size. All residents will contribute only 30% of their adjusted gross income towards the rent amount.

A 20-year Project-based Housing Assistance Payment Contract (HAP Contract) is provided by HUD for all units. The income of individuals and area median income shall be determined by the U.S. Department of Housing and Urban Development in a manner consistent with determinations of lower-income families and area median gross income under Section 8 of the U.S. Housing Act of 1937 and Promulgated at 24 CFR 812. All utilities are paid by the owner.

All 161 units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966, (P.A. 346 as amended, MCLA 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of the lesser of the tax on the project the year before rehabilitation began, or four percent (4.00%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted, ALVIN HORHN Assessor

By Council Member Cushingberry, Jr.:
Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. (the "Act"), a request for exemption from property, taxes has been received on

Whereas, The Sponsor is proposing to undertake the rehabilitation of an existing housing project to be known as Colony and Fisher Arms Apartments, consisting of the rehabilitation of 161 units in the apartment buildings located on several parcels of property owned, or to be acquired by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with 161 units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federally-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsor first obtains MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known Colony and Fisher Arms Apartments as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of 4% for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

NEIGHBORHOOD AND COMMUNITY SERVICES STANDING COMMITTEE City Council

Legislative Policy Division

November 6, 2014

Honorable City Council:

Re: Request for approval of resolution authorizing the submittal of grant applications to the State Historic Preservation Office for a federal grants.

Attached hereto for your Honorable Body's consideration are four resolutions authorizing the Historic Designation Advisory Board (HDAB) staff to submit four separate applications to the State Historic Preservation Office (SHPO), Michigan State Housing Development Authority (MSHDA) for federal grants — Belle Isle Aquarium and Conservatory Pass-Through Assessment, Belle Isle Carillon Complex Stabilization, Scarab Club Roof Rehabilitation, and the United Sound Systems Recording Studio Rehabilitation.

The purpose of the grant proposal, Belle Isle Aquarium and Conservatory Pass-Through Assessment, is to assist in planning for a reconnection of the Belle Isle Aquarium to the Anna Scripps Whitcomb Conservatory. The Aquarium and Conservatory were designed by Albert Khan as one building, but in the years following its construction the building was divided into two parts. If the City is awarded the grant not to exceed \$24,000 (with a total project cost of \$40,000), we would provide a thorough investigation into how the building can be reconnected and how to address joint-use issues of circulation, heating, humidity, and the other effects of reopening the building.

The Belle Isle Carillon Complex is in a severe state of disrepair and requires immediate attention to protect its structural integrity. In September of 2014, we completed a Conditions Assessment Report of the Belle Isle Carillon Tower Complex, and prioritized much-needed repair. If the City is awarded a grant not to

exceed \$128,400 for the Belle Isle Carillon Complex Stabilization (with a total project cost of \$214,000), we would address critical stabilization repair, including repair of the limestone façade and roof replacement.

The Scarab Club located in the heart of Midtown has been a venue for visual art, music, and literature since the 1920s. The roof is currently leaking and has shown other signs of much-needed repair. If the City is awarded the grant not to exceed \$58,000 for the Scarab Club Roof Rehabilitation (with a total project cost of \$96,000), we would provide a new clay tile roof on a portion of the historic building, and assist in preventing further water infiltration.

The United Sound Systems Recording Studio has recently undergone efforts to reopen the historic recording studio and to attend to the building's much-needed repair. If the City is awarded the grant not to exceed \$60,000, for the *United Sound Systems Recording Studio Rehabilitation* (with a total project cost of \$100,000), we would provide roof repair of the flat membrane roof, minor masonry repair of the front façade, and design an interior educational display area.

All four grants have a 40% match requirement which can be a combination of cash and in-kind services. If the City is awarded the grants, the matching funds will be provided by a cash match from the non-profit organization associated with the grant project. The in-kind services portion of the match would be met by the Legislative Policy Division's staff serving HDAB who would provide administrative and supervisory services for all four projects.

Respectfully submitted, DAVID WHITAKER

Director

City of Detroit City Council

STATEMENT ON OPPOSING VOTE ON CDBG HUD CONSOLIDATED PLAN RESOLUTION AND COMPANION ADMINISTERING CONTRACT #2900808

Council Member Mary Sheffield, District 5

As our city continues to move towards eliminating blight, and rebuilding our neighborhoods, it is as important that long time Detroit residents get some of the assistance being offered through the CDBG Home Repair Program.

Given those challenges, while I support the overall goal that this proposal seeks to meet, I cannot support removing funds from the Home Repair Grant Program to fund a loan program, at this time. I want to be clear that I'm not opposed to leveraging public funds to spur private investment; in fact, I strongly encourage it where it will not have an adverse impact on residents. However, with numerous residents seeking this assistance at this time, who have limited financial resources, I disagree with the method proposed to address this problem.

Since taking office in January, I can't express how many residents, often seniors, who are current on their property taxes, with significant structural needs on their properties, have inquired about applying for the Home Repair Grant program. As a result more funds should be added to the grant program, not reduced

Therefore, while I support the overall goal, I can't support the action. Consequently, I cannot support the accompanying contract, #2900808.

City Planning Commission

November 17, 2014

Honorable City Council:

Re: Delegation of City Council Special District Review and approval of building permit applications during winter recess 2014 (Recommend Ap-

According to the City of Detroit Zoning Ordinance the Detroit City Council approves by resolution any work undertaken by permit on land zoned PC or PCA after receiving recommendation from the Planning and Development Department and the City Planning Commission. For the last ten years or more it has been the practice of your Honorable Body to delegate this responsibility to the staff of the City Planning Commission during periods of recess when permit applications of this sort are anticipated. During the winter recess applications for work related to the North American International Auto Show are typically presented to the City. The Council's delegation of this responsibility allows work compliant with the City Code to advance during recess, when the Body is not conducting business in the context of your regular meetings.

Attached for your consideration you will find a resolution effectuating the delegation of Special District Review and action to the Legislative Policy Division staff serving the City Planning Commission for your winter recess 2014.

Respectfully submitted, DAVID D. WHITAKER Director LPD MARCELL R. TODD, JR. Senior City Planner By Council Member Benson:

Whereas, The Detroit Zoning Ordinance requires that any permit application submitted to the Buildings and Safety Engineering and Environmental Department related to the Exterior design, location and appearance of work within a the Public Center (PC) District and the Public Adjacent/Restricted Center Business (PCA) District must be reviewed by the City Planning Commission (CPC) and the Planning and Development Department (P&DD); and

Whereas, Consistent with Sec. 61-3-182 of the Zoning Ordinance, the City Council approves by resolution, any such permit application subsequent to receipt of a report and recommendation from the City Planning Commission; and

Whereas, The Detroit City Council will be on recess from November 26, 2014 through January 2, 2015; and

Whereas, The City anticipates permit requests related to the Auto Show and potentially other requests; and

Whereas, It is the desire of the Detroit City Council to facilitate such request and not unnecessarily delay the issuance of building permits.

Now Therefore Be It Resolved, The Detroit City Council authorizes the Legislative Policy Division staff serving the City Planning Commission, and the Planning and Development to review, approve, approve with conditions and deny any permit applications for land zoned PC and PCA submitted between November 25, 2014 and January 5, 2015, and in consultation with other departments as appropriate.

Honorable City Council:

Re: Special District Review for PC (Public Center) zoning district for Cobo Center modifications to allow for the installation of directional signage around the Detroit Regional Convention Facility (Recommend Approval).

REQUEST

As you know, the PC (Public Center District) zoning classification in which Cobo Center is located calls for City Council approval of the location and design of any exterior changes following the review and recommendation of CPC and the Planning and Development Department (Sections 61-3-182 and 61-11-76 of the Zoning Ordinance).

The City Planning Commission (CPC) is in receipt of a request from SDG Inc., on behalf of the Detroit Regional Convention Facility Authority (DRCFA), to review and approve directional signage for the exterior of the Cobo Center Complex.

REVIEW AND RECOMMENDATION

Attached you will find a set of drawings detailing the sized, type and location of the signage proposed for the Cobo Center complex in order to direct and orient both vehicular and non-motorized traffic. The package includes surface mounted, pole mounted and monument type signs of static and changeable copy designed to complement the appearance of the convention center. Some of these items were included in previous visuals received by the Council in the recent past, but this is the first full submission of directional signage.

Staff has reviewed the proposed package of directional signage and found it consistent with the spirit and intent of the PC zoning district as well as the design vocabulary of the evolving Cobo Center complex. Therefore we recommend approval and have for your consideration a result on effectuating our recommendation.

By Council Member Benson:

Whereas, SDG, on behalf of the Detroit Regional Convention Facility Authority, seeks approval to install various directional signs about the exterior of Cobo Center: and

Whereas, The Cobo Center complex is subject to provisions of Section 61-11-61, the PC (Public Center District) zoning classification of the Detroit Zoning Ordinance: and

Whereas, The PC zoning district classification requires that any exterior building alteration or changes to the site plan within a PC district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission and Planning and Development Department; and

Whereas, Both the Planning and Development Department and the City Planning Commission have reviewed the proposal in order to ensure that the proposed construction is in keeping with the spirit, purpose and intent of the PC zoning district classification; and

Now, Therefore, Be It Resolved, That the Detroit City Council approves the installation of the proposed directional signage described in the foregoing communication from the City Planning Commission staff within the Legislative Policy Division dated November 17, 2014 and as depicted in the drawings in the package prepared by SDG dated October ____, 2014.

Planning & Development Department November 7, 2014

Honorable City Council:

Re: A resolution to amend the <u>Detroit Master Plan of Policies</u> for the area generally bounded by West Grand Boulevard, Lincoln Avenue, the Grand Trunk Railroad, Rosa Parks Boulevard, and Avery Avenue to accommodate new mixed-use development (<u>Revised</u> Master Plan Change #8).

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department's (P&DD) Planning Division has submitted for your consideration and action a proposed Amendment to the <u>Detroit Master Plan of Policies</u>. Adoption by your Honorable Body of this resolution would accommodate changes in the <u>Master Plan of Policies</u> that would accommodate new mixed-use redevelopment south of the Henry Ford Hospital campus at the intersection of West Grand Boulevard and the John C. Lodge Freeway.

P&DD had previously submitted a recommendation to the City Clerk's Office dated July 2, 2014 for a Master Plan amendment to change the future land use of the original (and larger) subject site to Mixed-Residential/ "MRC", Commercial. This revised amendment reduces the size of the subject area to be changed and carves out the portion bounded by Marquette Avenue, the alley west of Commonwealth Avenue, the northern boundary of the Grand Trunk freight yards, and Rosa Parks Boulevard, which P&DD now requests to be changed to "IL", Light Industrial rather than MRC. P&DD believes that the Light Industrial land use category is most appropriate for the development of a warehouse facility, which is the proposed use for that site.

Location

Southwest of the West Grand Boulevard/ John C. Lodge Freeway intersection

The subject site is located in the Neighborhood Cluster 6, Rosa Parks Neighborhood of the Master Plan of Policies. The site is generally bounded by West Grand Boulevard on the north, Lincoln Avenue on the east, the Grand Trunk Railroad on the south, and Rosa Parks Boulevard and Avery Avenue on the west

East: B4 (General Business District) north of W. Baltimore

M4 (Intensive Industrial District) south of W. Baltimore

South: M4 (Intensive Industrial District) PD (Planned Development District)

West: R2 (Two-Family Residential District)

Project Proposal

Future general land use: "MRC",

Mixed-Residential/Commercial and "IL", Light Industrial

Proposed land and/or building use: The petitioner, Henry Ford Health System (HFHS) is currently proceeding with a multi-faceted redevelopment project that will link the subject site south of W. Grand Boulevard with the existing Henry Ford Hospital campus north of Grand Boulevard. HFHS has already begun development on the site of a medical/surgical supply warehouse south of Marguette Avenue that will service HFHS. the Detroit Medical Center, and other related facilities. Coming next will be the creation of a mixed-use district that will include major medical facilities and the multi-phase Grand Trunk Crossing project for the area lying north of Marquette. Grand Trunk's Phase I (a) consists of 48 total units in 5 buildings that includes the rehabilitation of a three-story 9-unit building at 6465 Sterling, the rehabilitation of a set of townhouses at 1494 Holden, the adaptive reuse of building at 6420 Sterling into a four-story 12-unit residence, and the new construction of two three-story buildings with 22 total units at 6303-6335 Lincoln. Phase II (b) will consist of the construction of a 36-unit, 3-1/2-story building with approximately 11,000 square feet of ground-floor commercial space. More multi-family housing along with senior housing will come in later phases.

Proposed zoning: B5 (Major Business) and PD (Planned Development) north of Holden; medical/surgical supply site south of Marquette has already been rezoned to M2 (Restricted Industrial); remainder of subject area is unchanged

Interpretation

Impact on Surrounding Land Use

The proposed development will be a transformative catalyst for both the subject site and much of the surrounding area, especially to the west. The HFHS development can build off the stability of the nearby New Center area east of the Lodge Freeway. In addition, the proposed new housing will likely increase the area's population by attracting employee's who wish to live closer to their jobs. The surrounding neighborhood has suffered from disinvestment for many years, and the new development will revitalize the area and encourage existing property owners to make improvements.

Impact on Transportation

Structured parking will be provided as a part of the mixed-use redevelopment of Henry Ford's south campus project area. Secure off-street parking should also be made available to serve each of the rehabilitated residential buildings. Henry Ford Health System is currently working with the Traffic Engineering Division to establish appropriate truck routes in the vicinity of the new medical/surgical supply ware-

house, which is likely to experience a significant increases in traffic when the facility opens. DDOT bus routes servicing the surrounding area include the Dexter (on W. Grand Blvd.), Hamilton (on the John C. Lodge Service Drive), and Fenkell (on Rosa Parks Blvd.) lines. SMART does not provide service in the area.

Detroit Works Project Analysis

The Market Type for this Census Block group (5224001) is listed as "Steady". Overall, the area has experienced a significant population loss of 61% along with a 55% decline in households between 2000 and 2010. Nevertheless, 91% of the housing is in good/fair condition and the median sales price of the existing homes was \$74,000 for the period between 2009 and the first quarter of 2011.

Detroit Future City Analysis

The <u>Detroit Future City</u> document designates the subject area as lying within a District Center and Live+Make area in its 50-Year Land Use Scenario. In addition, the subject site is immediately adjacent to the Midtown Employment District.

Recommended Master Plan Amendment

Planning and Development The Department requests this proposed Amendment to the Master Plan of Policies to accommodate Henry Ford Health System's plan to redevelop the area immediately south of the Henry Ford Hospital campus. HFHS has also been working with community stakeholders as West Grand Boulevard Collaborative to ensure that their needs and concerns will be addressed moving forward. The subject area has suffered from disinvestment and the proposed redevelopment project will bring new vitality to the neighborhood. The Planning Division of the Planning and Development Department therefore requests that the proposed Future Land Use map in the Master Plan of Policies be changed for the area generally bounded by West Grand Boulevard on the north, Lincoln Avenue on the east, the Grand Trunk Railroad on the south, and Commonwealth Avenue and Avery Avenue on the west from a combination of "RLM", Low-Medium Density Residential and "IL" Light Industrial uses to entirely "MRC" Mixed-Residential/Commercial. It is also requested the future land use be changed for the area bounded by Marquette Avenue on the north, the alley west of Commonwealth Avenue on the east, the northern boundary of the Grand Trunk freight yards on the south, and Rosa Parks Boulevard on the west from "RLM", Low-Medium Density Residential to "IL", Light Industrial.

Planning & Development Department November 24, 2014

Honorable City Council:

Re: Property for Sale by Purchase Agreement: 151 W. Jefferson Avenue (former Veterans Memorial Building) and Parking Garage.

The Planning and Development Department (P&DD) requests approval for the sale of the building located at 151 W. Jefferson Avenue and the adjacent parking garage (the "Property"), and the granting of appurtenant easements, to UAW-Ford National Programs, a Michigan non-profit corporation ("UAW-Ford"), for the amount of Seven Million, One Hundred Thousand Dollars (\$7,100,000.00).

The building on the Property, formerly known as the Veteran's Memorial Building (the "Building"), is ten stories tall, containing 141,000 square feet of which 131,713 square feet are rentable. Built in 1951, it was extensively renovated in 1996. The Building sits on .95 acres, with frontage on Jefferson Avenue to the north, Civic Center Drive across from Cobo Center on the west, the RiverWalk and the Detroit River to the south, and Hart Plaza to the east. The north façade of the Building is adorned with the thirty foot wide bas relief marble sculpture "Victory Eagle" by Marshall Fredericks. The property includes a 40-car underground parking garage. The property is zoned PC, and is consistent with the proposed land use.

UAW-Ford has had sole possession and has exclusively occupied the Property since 1996; from 1996 to 2007, as the lessee under a certain Lease Agreement dated as of March 7, 1996 (the "Lease"), and on a month-to-month basis after the Lease expired on July 6, 2007. UAW-Ford made substantial improvements to the Property upon the commencement of the Lease, and has since then continuously maintained and repaired the Property as needed, at its sole cost and expense. UAW-Ford has and will continue to use the Property as an educational and training center, to pro-

vide training, retraining, and personal and professional development opportunities for employees of Ford motor Company, and for office space for personnel involved in such education and training and for administrative use of UAW-Ford and its affiliates. The planned use is the same as under the Lease.

The proposed sale of the Property includes easements for UAW-Ford's access to and use of Building's loading dock, and for utilities, as more particularly described on the attached Exhibit C (the "Easements"). UAW-Ford also desires a nonexclusive license to continue its present use of the City's property adjacent to the Property, commonly known as "T-Lot) and more particularly described on the attached Exhibit D, for employee and visitor parking (the "License").

The City will retain, for its benefit and for the benefit of the public, appropriate easements for pedestrian and vehicular traffic, open space, and recreation, over portions of the Property; for sidewalks, pedestrian and vehicular traffic, utilities services, directional and informational signage and lighting, over the sidewalks and driveways located on the property; for utilities; for support of City Property over or adjacent to the Property; and for the exterior illumination lights and the security cameras located on the roof of the Building. The deed of conveyance will also include certain restrictions and limitations on UAW-Ford's use of the Property, and certain covenants regarding UAW-Ford's maintenance of the exterior of the Building.

Consistent with the Home Rule City Act and the City Charter, it is a condition to the sale that UAW-Ford not be in arrears to the City upon any debt or contract, or be in default to the City. UAW-Ford was notified in 2010 that it was in breach of the Lease for, among other things, nonpayment of "Additional Rent." in February of 2013, a demand for payment was made to UAW-Ford. To clarify my letter to City Council dated November 13, 2014, the Purchase Price for the Property includes the settlement of all past due Additional Rents as may be owing under the Lease.

We therefore request that your Honorable Body approve the sale of the Property and the granting of the Easements and the License to UAW-Ford authorize the Planning and Development Department's Director or an authorized designee to execute an agreement with UAW-Ford to purchase the Property, and to execute a deed to the Property and such other documents as may be needed to effectuate the sale.

Respectfully submitted, F. THOMAS LEWAND Group Executive for Jobs and Economic Growth By Council Member Benson:

Resolved, That the sale of the Property, more particularly described in the attached Exhibit A, to UAW-Ford National Programs, a Michigan nonprofit corporation ("UAW-Ford"), in consideration for its payment of seven million, one hundred thousand dollars (\$7,100,000.00) and its commitment to fully maintain the Property for use as an educational and training center, is hereby approved;

Resolved, That the Director of the Planning and Development Department, or his or her designee, is hereby authorized to execute the Purchase Agreement in the form of the attached Exhibit B and otherwise in accordance with the terms of this resolution and the letter accompanying this resolution:

Resolved, That easements pertaining to the property described in the attached Exhibit C are hereby approved, and the Director of the Planning and Development Department, or his or her designee, is hereby authorized to execute the Easement Agreement pursuant to and in accordance with the Purchase Agreement;

Resolved, That the License pertaining to the property described in the attached Exhibit D is hereby approved, and the Director of the Planning and Development Department, or his or her designee, is hereby authorized to execute the License Agreement, pursuant to and in accordance with the Purchase Agreement;

Resolved, That the Director of the Planning and Development Department, or his or her designee, is authorized to execute deeds and other documents necessary or convenient for the consummation of the transaction pursuant to and in accordance with the Purchase Agreement: and be it finally

Resolved, That the Purchase Agreement and related documents be considered confirmed when executed by the Director of the Planning and Development Department or his or her designee, and approved by the Corporation Counsel as to form.

Recitals

A. On the date hereof, the City has sold to UAW-Ford, and UAW-Ford has purchased from the City, certain property in the City of Detroit commonly known as the Veterans Memorial Building, located at 151 W. Jefferson Avenue, together with certain adjacent land (together, called the "Building Parcel" and is as described in Exhibit A to this Easement Agreement) and the attached underground parking garage, together with the land underlying the parking garage (the "Garage" is as described in Exhibit B to this Easement Agreement).

B. It is the intent of the City and UAW-Ford that from and after the date hereof UAW-Ford be responsible for the Garage, including the land above and below the Garage, but that the City control the land lying above the Garage, as extended to Jefferson Avenue (the land lying above the roof of the Garage as extended to Jefferson Avenue is referred to as the "Surface Parcel" and is as described in Exhibit C to this Easement Agreement).

- C. The physical configuration of the Building Parcel as it relates to the adjoining Hart Plaza requires that the City and UAW-Ford share a driveway upon the land described on Exhibit D to this Easement Agreement, and that the City grant to UAW-Ford an easement for access to and use of that portion of the loading dock for the Veterans Memorial Building that lies under Hart Plaza in the area described on Exhibit E to this Easement Agreement.
- **D.** It is necessary for the City to reserve to itself certain easements across, upon, and within the Building Parcel and the Garage for utilities in the locations described on Exhibit F to this Easement Agreement.

Now, therefore, in consideration of the agreements set forth in this Easement Agreement and the Lease Agreement, the City and UAW-Ford hereby declare and agree as follows:

- (1) The City hereby grants to UAW-Ford the following appurtenant easements for the use of UAW-Ford, its successors and assigns (and their respective guests, licensees, invitees and permittees):
- (a) A non-exclusive easement for those footings, foundation piles, building walls, utility lines (such as, but not limited to, sewers and electrical conduits) and other appurtenances to the Garage which lie under, adjacent to or above property of the City adjacent to the Garage.
- (b) A non-exclusive easement for those footings, foundation piles, building walls, utility lines (such as, but not limited to, sewers and electrical conduits) and other appurtenances to the Building which lie under, adjacent to or above property of the City adjacent to the Building Parcel.
- (c) An exclusive easement (the "Loading Dock Easement") over the land described on Exhibit E, for access to and use of the loading dock of the Building.
- (d) A non-exclusive easement (the "Loading Dock Access Easement") in, over and across the land described on Exhibit D for access to the Loading Dock Easement.
- (2) UAW-Ford shall have the obligation to maintain and repair the Garage so long as it remains in existence. UAW-Ford shall continually maintain the roof and structure of the Garage lying beneath the Surface Parcel in a condition such that it does not

interfere with the use of the Surface Parcel for vehicular or pedestrian traffic.

- (3) The City hereby retains and reserves the following easements, covenants, and restrictions unto itself, and UAW-Ford affirmatively grants, consents, and agrees to the following easements, covenants, and restrictions:
- (a) A non-exclusive easement over, across and on the Surface Parcel for the benefit of the public for the purposes of pedestrian and vehicular traffic, open space, and recreation.
- (b) An easement in, over and across the sidewalks, exterior stairways and driveways located upon the Surface Parcel and/or the Building Parcel, for sidewalks, pedestrian and vehicular traffic, utilities services, directional and informational signage and lighting.
- (i) The City shall have the right, from time to time, to close portions of or all of the driveway located on the Surface Parcel when necessary in the public interest for occasional parades and occasional ceremonial and other occasional public functions, with the prior approval of the City Council, and upon five (5) days' prior notice to UAW-Ford. The City shall endeavor to minimize interference with pedestrian and vehicular access to the Building Parcel during such events.
- (ii) The City, the County, or the State (whichever has jurisdiction) shall have the right, from time to time, to close and/or vacate such portions of the driveways as are public streets, and to maintain, repair, replace and operate the utilities located thereunder, the City in its discretion may relocate the driveway between Jefferson Avenue and the Building Parcel so long as vehicular access between Jefferson and the Building Parcel is maintained; provided, that any such relocation shall be at the City's expense but without compensation to UAW-Ford.

UAW-Ford shall maintain repair and replace, at its cost, existing sidewalks, pavers, curbs, lighting, landscaping and other physical, visible, aesthetic and decorative elements on the Surface Parcel. if the surface (including any improvements thereon) of the Surface Parcel is disturbed whether by UAW-Ford's activities or otherwise, then UAW-Ford shall, at its sole cost and expense, promptly restore same to the condition which pre-existed such activities, or such other condition as may be approved by the City. The City may from time to time at its expense, install pavers or other sidewalk surface treatments, curbing material, landscaping, lighting or other elements, all of which shall thereafter be maintained, repaired and replaced by UAW-Ford at its cost and

expense; provided, that the cost to UAW-Ford to maintain such replacement or additional elements will not be unreasonably increased without its consent.

- (c) A perpetual appurtenant easement and right for the support of the Surface Parcel on over and through the Garage. Any construction affecting the walls, columns, or roof of the Garage or construction in or utilization of the land beneath the Garage shall require the prior written consent of the City, which may condition its consent in any manner it deems reasonably necessary to ensure that the Surface Parcel is not in any way adversely affected by such construction, including, but not limited to, (i) requiring UAW-Ford and its contractors to furnish insurance in amounts and with companies reasonably satisfactory to the City, naming the City as an additional insured and (ii) requiring UAW-Ford to pay for (and to furnish satisfactory security for such payment) any cost loss, damage, expense or liability imposed upon or incurred by the City caused by UAW-Ford or its contractors or agents in such construction).

UAW-Ford hereby covenants that it shall not in any manner interfere with the lateral or subjacent support for such property of the City. Should UAW-Ford wish to construct upon the Building Parcel, the City and UAW-Ford shall first execute and record the documentation necessary to provide explicitly the rights and obligations of UAW-Ford regarding the maintenance, repair and use of the portion of land adjacent to the construction parcel, which documentation shall be in form and substance acceptable to the City. In no event shall UAW-Ford's utilization of the Building Parcel interfere with or adversely affect the Surface Parcel of other property or interests of the City or the use thereof by the City or the public. Any construction affecting the walls, columns, or support of

- Hart Plaza, the Civic Center, or other property of the City adjacent to UAW-Ford;s property shall require the prior written consent of the City, which may condition its consent in any manner it deems reasonably necessary to ensure that the City's property is not in any way adversely affected by such construction, including, but not limited to, (a) requiring UAW-Ford and its contractors to furnish insurance in amounts and with companies reasonably satisfactory to the City, naming the City as an additional insured and (b) requiring UAW-Ford to pay for (and to furnish satisfactory security for such payment) any cost, loss, damage, expense or liability imposed upon or incurred by the City caused by UAW-Ford or its contractors or agents in such construction).

The City shall have access at all times necessary in order to maintain, operate, inspect, replace and repair the utility facilities currently located in and under the Garage and the Surfaced Parcel. The City agrees to repair and restore any portion of the improvements owned by UAW-Ford that may be materially damaged by the City in the course of its operation, maintenance, replacement or repair of said utilities to the same extent as the City would be required to restore for any other property owner.

- (i) The City may at any time relocate the Pylons and replace Pylons as originally placed, in front of the Building to the west along the walkway leading to the entrance. All necessary site modifications shall be at the City's sole expense. If the Pylons are so relocated, the preservation and maintenance of the Pylons shall thereafter also be at the City's sole expense. If the Pylons are so relocated, "Sculpture" as used herein shall thereafter include the Pylons.
- (ii) UAW-Ford shall not perform or permit any destruction, distortion or mutilation of the Sculpture, not alter obscure, or remove said artwork from its location affixed to and adjacent to the Building without the City's prior written consent. In the event the Sculpture is removed from the Building (other than temporarily for repair or maintenance purposes), title shall re-vest in the City and UAW-Ford shall deliver the artwork undamaged to the City's custody and care.
- (4) This Easement Agreement, and the easements and rights created herein, may only be modified, amended or terminated by agreement between the owner of the Garage and the City (such amendment, modification or termination to be approved by the City in accordance with the procedures prescribed by law).
- (5) In the event that any provision contained in this Easement Agreement is held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision of this Easement Agreement, and this Easement Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Re: Address: 15487 Birwood. Name: Jovce D. Combs. Date ordered removed: September 22, 2009 (J.C.C. pg. 2062-2068).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 23, 2014 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- 1. A permit for rehabilitation work shall be obtained within 30 days.
- 2. The building shall be maintained securely barricaded until rehabilitation is

complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties
- 3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- 4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Department of Public Works City Engineering Division

November 5, 2014

Honorable City Council:

Re: Petition No. 239 — Giffels Webster, request to vacate certain public streets and alleys in the area bounded by Clifford, Woodward, Temple and the Fisher Freeway Southbound Service Drive. Request to vacate the south 5.0 feet of Sproat between Park and Woodward. Request to vacate and convert to utility easement Clifford between Sibley and Sproat and Sproat between Park and Woodward. Requesting easements be retained for vehicular and pedestrian traffic across Clifford and Sproat utility easements.

Petition No. 239, submitted by Giffels Webster, 28 W. Adams, Suite 1200, Detroit, Michigan 48226, on behalf of the City of Detroit Downtown Development Authority (DDA) whose address is 500 Griswold, Suite 2200, Detroit, Michigan 48226 and Olympia Development of Michigan, Inc., whose address is 2211 Woodward Avenue, Detroit, Michigan 48201, who respectfully request to vacate (outright):

- Sibley Street, 50 feet wide, between Clifford Street, 60 feet wide, and Woodward Avenue, 120 feet wide; Park Avenue, 60 feet wide, between Henry Street, 50 feet wide, and Sproat Street, 50 feet wide;
- The South 5.0 feet of Sproat Street,
 50 feet wide, between Woodward Avenue,
 120 feet wide, and Park Avenue, 60 feet wide.

- All of the north-south and east-west public alleys 15 and 20 feet wide, in the block bounded by Park Avenue, Woodward Avenue, Sproat Street and Temple Avenue, 60 feet wide:
- All of the north-south and east-west alleys 15 feet wide, in the area bounded by Clifford Street, Woodward Avenue, Henry Street and Sproat Street;
- Åll of the north-south and east-west public alleys, 15 feet wide, in the block bounded by Park Avenue, Fisher Freeway (I-75) South Bound Service Drive, Henry Street and Woodward Avenue.

Also, requesting to vacate and convert to subsurface utility easement of Clifford Street, 60 feet wide, between Sibley Street, 50 feet wide, and Sproat Street, 50 feet wide; and Sproat Street, between Park and Woodward Avenue(s), with vehicular and pedestrian easement(s) retained for across said easements.

In December, 2013, the Detroit City Council has approved the transfer of certain city-owned parcels to the DDA to facilitate construction of a \$650 million Detroit Events Center and Entertainment District. As part of the coordinated efforts of the City of Detroit, the DDA and Olympia Development of Michigan, the requested rights-of-way changes are necessary to complete the land assemblage required for the Detroit Event Center.

This request has been reviewed by the appropriate City Departments. This is our report.

The request has been approved by the Solid Waste Division and the Street Design Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report.

The Traffic Engineering Division of DPW has no objection to the requested changes in public rights-of-way, provided the petitioner has 100% of the abutting property owners consent, and provided that plans are submitted and approved by the City Engineering and Traffic Engineering Divisions — DPW prior to construction of the vehicular and pedestrian easement areas.

The Planning and Development Department (P&DD) has no objection to the requested rights-of-way vacations. however, because the requested streets are adjacent to the Eddystone and Park Avenue Hotel Historic Districts, P&DD will require notification prior to any changes made to these properties.

The Detroit Water and Sewerage Department (DWSD) has no objection to the out-right vacation of the public rights-of-way or the conversion to subsurface utility easement, provided the petitioner relocates the sewer and provides a suitable easement to DWSD, that the petitioner owns all adjacent properties; and that when it becomes necessary to

reroute certain Water and Sewerage Department (DWSD) water main and sewer facilities, the petitioner agrees that all work is performed in accordance with plans and specifications approved by DWSD, constructed under the inspection and approval of DWSD, and all necessary work is to be at the petitioner's expense and at no costs to DWSD.

The Public Lighting Department (PLD) reports having manholes and underground fed street lighting circuits running in the area of the requested right-of-way changes. PLD has no objections to the requested changes in public rights-of-way. Any construction activities in the area must protect PLD installations per PLD specifications. Any structure, if proposed, must maintain clearances acceptable to the PLD. Any damage to PLD installations will be the liability of the contractor.

DTE Energy — Gas reports having an existing Gas Main Line that runs East and West in Sibley and another that runs North and South in Park. Satisfactory arrangements have been made for abandoning, removing, relocating and/or rerouting DTE Energy — Gas facilities.

Satisfactory arrangements have been made with a Customer Account Representative of DTE Energy — Electric for the cost and scope of work in order to remove or reroute its facilities.

AT&T reports having existing facilities within the area proposed to be vacated. However, arrangements have been made with the Customer Growth Group to reroute, remove or abandon the facilities and to provide new service to the future development.

All other city departments and privatelyowned utility companies have reported no objections to the requested rights-of-way changes or that satisfactory arrangements have been made. Provisions protecting utility installations (if necessary) are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted, RICHARD DOHERTY, P.E. City Engineer

City Engineering Division — DPW By Council Member Benson:

Whereas, Your Honorable City Council has previously approved the "Funding Agreement" and "Transfer of Land Agreement" with the Detroit Downtown Development Authority (DDA) in order to facilitate the new \$650 million Detroit Events Center and Entertainment District Project; and

Whereas, As part of coordinated efforts of the City of Detroit, the DDA and Olympia Development of Michigan, it's critical that the requested rights-of-way changes take place in order to break ground and begin the phase of constructing the new 20,000-seat arena; and

Whereas, Because the requested streets are adjacent to the Eddystone and Park Avenue Hotel Historic Districts, the petitioner is required to notify the Planning and Development Department prior to any changes made to said properties; and

Whereas, Pedestrian and vehicular easements are hereby reserved over parts of Clifford and Sproat Streets; and

Whereas, Above ground utilities such as light poles, hydrants, guy poles or those above ground utility features usually found in a public street shall not be installed within the subsurface easement streets; and

Whereas, Detroit Events Center and Entertainment District Project represents an exciting opportunity to redevelop a significant portion of vacant and dormant land, generating jobs and economic opportunity for the City of Detroit; therefore be it

TESTIMONIAL RESOLUTION FOR

LEWIS LaMONT SMITH

By COUNCIL PRESIDENT JONES, Joined By COUNCIL MEMBER CASTANEDA-LOPEZ:

WHEREAS, Lewis LaMont Smith graduated from Detroit East Catholic High School on June 1, 1986 and began a nearly 30 year career in politics, government, and law the very next day as a Special Projects Assistant with the Research & Analysis Division ("RAD") of the Detroit City Council; and

WHEREAS, "LOU" continued to intern with RAD during winter and summer breaks while earning his undergraduate degree from Dillard University in New Orleans, Louisiana where he majored in Political Science, minored in Theatre and Economics, and pledged Alpha Phi Alpha Fraternity, Inc.; and

WHEŘEAS, Upon graduation in May of 1993, LOU accepted a position with the Law Office of Ronald Zajac; shortly thereafter he joined the Detroit Housing Commission ("DHC") as Executive Assistant to the Director. While at DHC, LOU was part of a team which worked tirelessly to remove DHC from HUD's "Troubled Housing" list. Experiencing the interaction between local and federal government led LOU to the hallowed halls of Capitol Hill. In June, 1997, LOU joined the staff of United States Congressman Sander M. Levin. Hired as a Staff

Assistant, he was quickly promoted to Legislative Assistant, aiding the Congressman in his work on the Ways and Means Committee as well as a host of other issues including education, civil rights, and banking; and

WHEREAS. Before relocating to Washington, D.C., LOU withdrew from the University of Detroit Law School. However, law kept calling his name. In September of 2000, he returned to Michigan to attend the Thomas M. Cooley Law School in Lansing. As with other endeavors, this was not without challenges; LOU completed his law degree on the weekends while working as a Policy Analyst with RAD and in August of 2006, he was sworn into the Michigan State Bar. In April, 2008, LOU Joined the City of Detroit's Law Department as an Assistant Corporation Counsel where he has served as the Legislative Liaison to the Detroit City Council. In this position, LOU has helped to write numerous ordinances which, among many others address Council's budget calendar, anti-idling of

trucks to curb dangerous emissions, "Ban the Box" on the job applications of Detroit's vendors, regulation of petroleum coke, drafting of a Community Benefits Agreement ordinance, as well as assisting with the writing of the Detroit Police Department's LGBT policy; and

WHEREAS, Service is of the utmost importance to LOU, and he volunteers as a cast member in the Underground Railroad Experience at the Friends of Living Museum located at the First Congregational Church of Detroit, where he is the Moderator, General Counsel, and a licensed Minister. LOU also served as Board Member and General Counsel of KICK, the agency of LGBT African Americans and is the former Vice President of Congressional Black Associates, a Capitol Hill Staff organization. Further, each summer Lou hires and mentors a recent high school graduate to work with his office, understanding that the opportunity once afforded him must also be shared with others.

WHEREAS, LOU has decided that it is time to step out on faith and pursue his passion for acting. He has appeared in many production ranging from local community theatre to the Michigan Opera Theatre, as well as AMC's Detroit-produced "Low Winter Sun." In January, 2014 he will matriculate at the prestigious American Academy of Dramatic Arts in Los Angeles. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones hereby expresses their deepest admiration, respect and gratitude to Lewis LaMont Smith for his phenomenal achievements, his passion for law and helping people, and especially for his positive contributions to the City of Detroit, and wishes him much success.

RESOLUTION IN OPPOSITION TO HB 5977

By ALL COUNCIL MEMBERS:

WHEREAS, The Michigan Constitution, Art. VIII, Sec. 21, states that "Under such general laws, the electors of each city and village shall have power and authority to frame, adopt and amend its charter, and to amend an existing charter of the city or village heretofore granted or passed by the legislature for the government of the city or village and, through its regularly constituted authority, to pass all laws and ordinances relating to its municipal concerns, subject to the constitution and general laws of this state"; and

WHEREAS, The Michigan Home Rule City Act, MCL 117.1 et seq, recognizes the lawful and proper powers of local City government to make local laws, adapt to local conditions, and provide transparent and accountable governance of local communities: and

WHEREAS, On December 2, 2014, the lame duck session of the Michigan State Legislature introduced HB 5977, the "local government employer mandate prohibition act"; and

WHEREAS, HB 5977 contradicts the intent of the above-cited provisions of the Michigan State Constitution and the Home Rule City Act, by seeking to impose a rigid, one-size-fits-all policy prescription prohibiting Community Benefits Agreement Ordinances and local requirements "related to employee wages or benefits, such as a requirement for an employer to provide an employee with a minimum wage, particular benefits, a specified amount of paid or unpaid leave time, or the payment of a prevailing wage"; and

WHÉREAS, In most instances because of proximity to the issues, local government is more knowledgeable and better able to assess specific needs and prescribe such standards and regulations for their own local community than is State government in Lansing; and the overly broad proposed legislation undercuts many carefully considered existing development and economic policies; and

WHEREAS, Local governments have a particular interest in negotiations with recipients of tax abatements and development incentives, because they are diverting monies that would otherwise be available for local government services, and therefore should be in a position to require returns on such investments, including specific economic benefits for their residents through employment benefits: and

WHEREAS, HB 5977 therefore undermines the essential spirit and structure of the constitutionally envisioned authority of municipalities to self-govern; and

WHEREAS, HB 5977, with respect to any and all issues of community benefits,

wages and benefits from employment and related goals of equitable economic development, Detroit and all other local municipal governments in Michigan would be deprived of any and all legal power to mandate, require or regulate such local issues and benefits, which would be inappropriate and inadvisable; NOW THEREFORE BE IT

RESOLVED, That Detroit City Council joins the Michigan Municipal League, the Detroit Free Press and other municipalities in vigorously opposing HB 5977; and NOW THEREFORE BE IT FINALLY

RESOLVED, That copies of this resolution shall be transmitted to the Mayor and Corporation Counsel, the City's State lobbyists, the Governor and the Michigan delegation in the State Legislature.
