CITY OF DETROIT CITY COUNCIL

January 6, 2014

In last year's general election, Detroiters sent a message loud and clear demanding integrity, transparency and stronger advocacy as the city goes through the stages of a historic bankruptcy. Today, the Detroit City Council reaffirmed the citizens' voice by naming me as your Council President. I would also like to congratulate the Honorable George Cushingberry, Jr., who was selected as President Pro-Tem.

I thank my colleagues for the vote of support and all who wrote, called, advocated and urged council to select me to lead the efforts of those who are charged with saving the city. As I have said, we must ALL work together to restore our city to greatness. Council plays a key role in the process and our unity will be a critical factor in the city's success.

As President, I will work to unify members by promoting respect and professional courtesy among council peers and with the larger community. This will require better communication, working together and information sharing from all. Those we serve must know they are dealing with servants who have their best interests at heart.

Also, I will strive to instill a strong sense of inclusion between new and returning councilmembers. Our new councilmembers bring fresh ideas, enthusiasm and energy to tackle the numerous problems faced within their districts. This exuberance, reinforced by leadership, stability and experience, can yield great and lasting results.

Finally, I will build collaborative partnerships with all stakeholders to define needs, anticipate issues and take a proactive approach to solving Detroit's problems. Delivering city services, improving finances and managing the pain of employee pension and benefit reductions will require courage and due diligence. I am poised to lead this effort and I am asking for your help and continuing support throughout the process.

Thanks again!
BRENDA JONES
President
Detroit City Council

MEMBER REPORTS:

Council President Brenda Jones expressed her congratulations to everyone and looks forward to working with everyone in moving this city forward.

Council President Brenda Jones stated that there had been several complaints that she made in the past and was not able to communicate with the Emergency Manager, but yesterday they had a very good meeting where they met for about two (2) hours. There was a lot accomplished in the meeting, and they both committed to future meetings.

Council Member George Cushingberry, Jr. inquired about Council's meeting schedule.

Council Member Saunteel Jenkins spoke relative to the stadium that President Pro Tem Cushingberry brought up earlier. Last year, during the last meeting, Council approved the DDA expansion and the tax increment financing, but not the land transfer, for the following reasons: 1) to provide an opportunity for the new council members to receive an update on what's going on, and, 2) to also to provide the a greater opportunity for community input. The community felt that there was no transparency and no real opportunity for community feedback. What was agreed to was that Council would meet and have everything voted on by the 13th or 14th of February, which would mean the meetings should start taking place soon, consisting of a working

group to include the DDA, Council, and a member of the community and a member. Thinks this is something that should be discussed and move forward with

Mr. Whitaker added that some preliminary discussions had been held with the downtown CDC, but there will be other meetings with attorneys for all parties concerned, primarily, subsequent to that meeting to get some understanding, then council will be advised and then the meeting will be opened up for the larger groups so things can be ironed out.

Council Member George Cushingberry, Jr. asked about the timeframe and Mr. Whitaker responded that the timeframe is February 4th.

Council Member reminded the Clerk that the internal Operations Standing Committee will be expanded to include all council members, on Wednesday, January 8th and friday January 10th which will start at 9:00 a.m.

PUBLIC COMMENTS

 John Lauve: Expressed concerns regarding the Illitch Hockey Rinks: they want to create a home for the Red Wings with an outrageous amount of money, a half a billion dollars. That is as much as they spent building two (2) stadiums. He suggested that the money could be used to rehab 10,000 homes in the community. if that same giveaway deal was available for that purpose it could have a great impact on the entire City instead of helping out one person. He handed out a district map because the citizens were never presented a map of the land and how it is distributed. There is no documentation to explain the request for additional money for the extra bonus district. He included a copy of pages from the actual contract to the Council for review; this included costs to relocate the team. He mentioned Illitch's track record regarding other facilities that have not been taken care of and the removal of the proposed land off the tax rolls and loss of revenue to the City.

- Randy Pierce: He looked over the land transfer agreements, including the ancillary development; it is an open ended deal. It is not a good deal for the City. It is not bringing in economic diversity to the City, no jobs, no homes. Local contractors will not be working; it is going to be a broad based project. It is not a good deal for the residents of the City. He would encourage everybody to read the entire land transfer documents.
- Mable Love: Here to promote Detroit pride. She is glad, optimistic and looking forward to great things that are happening in this City. She mentioned some of the activities she has been doing with the youth; going out to churches and different communities because they want the young people to be able to uncover their gifts, skills and passions. She is preparing "Gifts of Love" cups to pass them out to children in the community. She asked for donations of craft materials to complete this project.
- Stephen Boyle: He attended the casino tax meeting. There was not sufficient notice relative to a public meeting. There needs to be more openness so more people will be able to attend these meetings. The only recorder was a court reporter and video recording that he did. There was a request for interaction during the meeting but the facilitator of that meeting failed to comply with the request. The DDOT schedule information is not on Google docks or any of the other services and "Text My Bus" is still not working. It is inappropriate for the Mayor's office to let this slide; it is completely inappropriate especially in this weather. Marathon Refinery is under public comment period leading up to a public hearing on February 19, 2014 at the Kemeny Center. He is hoping that people wake up to the fact that Marathon Oil has exceeded its emissions limitations for twelve consecutive guarters; that's three solid years of excessive emissions. They are seeking to increase the limitations on their emissions, etc. This is a very serious heath issue impacting the entire City and those in Canada. He is working with a group called the Detroit Coalition against Tire Sands: website is D-CATS.org.

- Valarie Glenn: She is pleased with the leadership of this Council. She belongs to several grassroots organizations and they are carefully evaluating the Council's actions, their patterns of voting and spending patterns during their official capacity. She is anxious to see the District 5 Advisory Council take place.
- Lucinda Darrah: Hoping Council is scheduling the public hearing for the proposed stadium in the auditorium after 5:00 p.m. She expressed her curiosity regarding land Illitch controls; indicating that when he didn't have enough money to build Comerica Park, the City of Detroit lent him land on the west side of Woodward. She did not know whether it was lent or given; was curious to know if some of this land, along with City money, will be used to build this stadium.
- Jerry Belanger: Talked about the proposed stadium and expressed his disappointment in the expansion of the Downtown Detroit Authority's tax capture, never to have that returned to the City of Detroit again. Since "trickle down" economics has been introduced, it has become so culturalized now that it is the way to grow an economically. Your political affiliation does not matter because no matter how many times it fails there is this ideal that we just need to give them more. We know that this does not work based on all the quantitative studies. The middle class is dying, the poor is growing and the rich is getting so rich because they have done such a great job of capturing the political power and using public monies to enrich themselves.
- Mrs Person: She was there on behalf of a meeting she went to last week regarding Downtown Conservative Business and the plan to fix up downtown. This was the first invitation she had received. The new City Council members were running it. This organization has only been downtown for 10 years and half of them don't pay taxes. The neighborhoods will remain in disastrous conditions. Citizens are invited to meetings after all plans have been made; which is against the law

NOW, THEREFORE BE IT

RESOLVED, That it is hereby found and determined that the attached proposed amended 2014 poverty exemption application policies, procedures and guidelines provide for the exemption from taxation the principal residence of persons who, by reason of poverty, are unable to contribute toward the public charges; and be it further

RESOLVED, That the proposed amended 2014 poverty exemption application policies, procedures and guidelines are hereby adopted and approved.

Detroit Citizens Board of Review 2014 Process for Reviewing Poverty Exemption Application

- 1. Each Applicant must own and occupy the Property as his/her primary Homestead as of December 31, 2013.
- 2. A Homestead with a Taxable Value of \$95,000.00 and above will not be considered for exemption unless there are extenuating circumstances. All Homesteads and/or any applicant with this set of circumstances must submit signed legal and/or medical documentation to the Board of Review.
- 3. Taxpayer's household income that does not exceed proportioned amount over the stated guidelines for full exemption can be granted a fifty-percent (50%) partial exemption.

Applicant is required to submit completed 5-page application form along with

ALL required documentation verifying family composition, all sources of annual income (i.e. wages/salaries, Social/Supplemental Security, rents, Family Independence Agency/FIA grants, child support, alimony), Michigan Homestead credit, medical and household bills, all other assets, bank statements and other pertinent data requested on the application. (A copy of the application is attached.)

The Applicant is required to submit to the Board of Review the Federal and State Income Tax Returns with ALL schedules, including any Homestead Property Tax Credit and Home Heating Credit returns, filed in the current tax year or in the immediately preceding year or Michigan Treasury Form 4988 Poverty Exemption Affidavit and IRS 4506-T, for ALL persons residing at the property who DID NOT file taxes, and submit a signed release of information request for any and all authorities or services requested including IRS, State of Michigan, etc.

The applicant is also required to submit to the Board of Review the most current report card (or transcript) or any third party verification from all appropriate government, educational, employment or other entity that will be accepted by the Board of Review containing the address for all persons residing at the property under the age of 18 supporting residency.

4. HOUSEHOLD (RELATED AND NON-RELATED) COMPOSITION AND ANNUAL INCOME — While recognizing that there is no universally agreed upon view as to what constitutes poverty, the Detroit Board of Review has established the following maximum eligible income as a "guideline" and as an aid in eliminating subjective judgments for reviewing 2014 petitions:

Number in Household	Maximum Income For Full Exemption	Maximum Income For Partial Exemption
1	\$16,660.00	\$19,160.00
2	\$19,950.00	\$22,450.00
3	\$22,100.00	\$24,600.00
4	\$25,600.00	\$28,100.00
5	\$27,570.00	\$30,070.00
6	\$31,590.00	\$34,090.00
7	\$35,610.00	\$38,110.00
8	\$39,630.00	\$42,130.00

Add \$4,020.00 to the income limit for each household member above eight for a Full Exemption and add \$1,500.00 to the proportioned Full Exemption for a Partial Exemption.

In addition, the total household assets (i.e. bank accounts, other real property, boats, campers, stocks, bonds, IRA's, etc.) **SHALL NOT** exceed \$12,000.00. Verification of additional assets will be done for all parties and household members applying for a poverty exemption.

Information not provided by applicant that is discovered by the Board of Review may result in a denial of application.

5. Each application is reviewed as to its individual circumstances based upon all facts submitted by the applicant. The Board of Review, in judging the taxpayer's ability to meet the tax obligation, utilizes all information. If the taxpayer is within the above guidelines, the taxpayer will be granted a full or partial exemption. If the taxpayer is outside the above guidelines, the exemption will usually be denied.

If the taxpayer shows extraordinary circumstances that are substantial and compelling, the Board of Review may deviate from the above guidelines and grant or deny a full or partial exemption. In such an instance, the taxpayer shall be advised in writing of the substantial and compelling reasons for granting or denying of an exemption and the reason shall also be noted on the application. These guidelines are in accord with the amendments to Section 7(u) of M.CLA.211.et seq.

It should be noted that each taxpayer's circumstances are considered anew each year. Respectfully submitted,

Re: Address: 9040 Fielding. Name: Rynicia Caldwell. Date ordered removed: November 7, 2013 (J.C.C. pg.____).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on November 11, 2013 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- 1. The building shall be maintained in accordance with the vacant property ordinance (see attachments) and securely barricaded until rehabilitation is complete and occupied. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:
- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties
- 2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- 3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the

Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Buildings and Safety Engineering Department

November 14, 2013

Honorable City Council:

Re: Address: 11483-85 Sanford. Name: Juliet Jones. Date ordered removed: October 29, 2013 (J.C.C. pg. ____).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on November 12, 2013 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- 1. The building shall be maintained in accordance with the vacant property ordinance (see attachments) and securely barricaded until rehabilitation is complete and occupied. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:
- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties
- 2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- 3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four

COUNCIL MEMBER LELAND: Congratulated Council Member Castaneda-Lopez on a great job with her community meeting. November 13, 2013

Honorable City Council:

Re: Petition No. 2442 — Great Lakes Geomatics L.L.C./Detroit Economic Growth Corporation (DEGC) request the vacation and conversion to easement of Erskine Avenue. between Orleans and Grand Trunk Railroad. Additionally, the DEGC on behalf of the City of Detroit, Department of Public Works, would like to take this opportunity to officially request the City accept land for the widening of Mack Avenue, currently improved, between Orleans and Dequindre.

Petition No. 2442 of Great Lakes Geomatics L.L.C./Detroit Economic Growth Corporation (DEGC) whose address is 500 Griswold, Suite 2200, Detroit, Michigan 48226, request for the conversion of Erskine Street. 40 feet wide. between Orleans Street, 50 feet wide, and Grand Trunk Railroad, 60 feet wide, into a private easement for public utilities. Also,

the DEGC on behalf of the City of Detroit. Department of Public Works (DPW), would like to take this opportunity to officially request that the City accept land for the widening of a portion of Mack Avenue, (currently improved) from 50 feet wide, to 120 feet wide (a portion was previously dedicated by your Honorable Body, 3/7/1990; J.C.C. Pgs. 515-521), between Orleans Street, 50 feet wide and Dequindre Avenue, 30 feet wide. These rights-of-way changes are being requested in order to reflect the current conditions of existing parcels of land.

That part of Erskine Avenue is unimproved. There is no pavement, curb, or sidewalk and essentially appears to be vacant land. The City of Detroit has no plans to improve this right-of-way and agrees to allow it to become part of the abutting property. That part of Mack Avenue being dedicated (opened) as right-of-way has been an improved widening for a number of years. We are simply taking this opportunity to correct the current conditions.

The "DEGC" has been coordinating improvements within the Dequindre Project on behalf of the City of Detroit. These improvements are required to accommodate existing property owners, non-motorized transportation traffic and future private development anticipated. At the same time insuring that the City of Detroit standards within public rights-ofway are adhered to.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

City Council is requested to accept the deeds for street openings for public purposes; provided said property complies with the requirements of Detroit codes and ordinance No. 29-94, Detroit Code Sections 2-2-11 through 2-2-15 also known as the 'Environmental Review Guidelines.'

The Public Lighting Department (PLD) reports having high voltage underground circuits running in the area of the requested easement. No structure or barricades can be built over PLD installations or on exiting utility easement areas. As per requirements, any structure proposed shall maintain 10 feet horizontal clearance from the overhead PLD lines and installations. Also, any structure proposed to be built shall maintain a minimum 3 feet horizontal clearance and 12 inch vertical clearance from PLD conduit bank and manholes. The contractor should take necessary precautions not to damage PLD utilities, if they plan to use heavy earth moving equipment. The contractor will be liable for any damages to any PLD

underground facilities. The PLD requires unrestricted easement rights with 24 hour heavy vehicle access to the area to maintain PLD facilities.

The Detroit Water and Sewer Department (DWSD) have reopened no objections to the requested conversion to easement and street dedication, provided that an easement of the full width of the streets is reserved.

All other City departments and privately owned utility companies have reported no objections to the dedications of public rights-of-way and the conversion of public right-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted, RICHARD DOHERTY, P.E.

Department of Public Works City Engineering Division

November 6, 2013 Honorable City Council:

Re: Petition No. 2669 — HAL Architectural Design Group PLLC, request for conversion of existing easements under Petition number 695 to be vacated outright and nonstandard approach in the area of Hilldale, E. Seven Mile, Omira, and the railroad.

Petition No. 2669 of "HAL Architectural Design Group, PLLC", request the outright vacation of the streets and alleys

(converted to easement in April, 2012) and approval for a non-standard approach in the block bounded by East Seven Mile Road, 66 feet wide, Hildale Avenue, 50 feet wide, Omira Avenue, 50 feet wide, and The Railroad right-of-way. This resolution is necessary for the present and future expansion, also to accommodate the current day to day operations of Milton's Industrial.

It is necessary to seek City Council approval for the waiver of a non-standard condition within the public right-of-way.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division (with conditions) — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The Detroit Water and Sewerage

Department (DWSD) reports sewers and water mains located in the streets and alleys requested to be outright vacated. DWSD has no objections to the requested outright vacations and non-standard approach, provided that the attached provisions are to be strictly followed. If necessary, the water mains and sewers are to be relocated by the petitioner and/or property owner there is to be no cost to DWSD or the city.

The Traffic Engineering Division — DPW (TED) reports no objections to the outright vacation or the non-standard approach, provided that the petitioner has 100% of abutting property owner signatures. The non-standard approach/driveway must be ADA complaint.

The Public Lighting Department (PLD) reports the outright vacation area has PLD overhead arc circuits running in said area, and will remove PLD facilities at property owner/petitioner/project expense. PLD has not objections to the non-standard approach.

AT&T reports having an extensive telephone plant in said outright vacated area feeding businesses on Omira and East Seven mile. Must contact CGG to obtain estimate for removing and/or rerouting of services, at 1-888-901-2779.

DTE Energy Electric Division reports overhead facilities in said outright vacated area. Therefore, object to the outright vacation in the location of Alley south of Seven mile, Alley south of Brentwood and alley south Robinwood only, but have no objection to maintaining a full width easement.

DTE Energy — MichCon Gas Company reports no objections to the outright vacation and non-standard approach provided that contact be made to Jay Williams at 313-389-7303 (Supervisor) or Laura Forrester at 313-389-7261 (Gas Planner) for the estimated cost of our services in abandoning, removing, and/or relocation/rerouting of DTE's facilities.

The Petitioner and/or property owner is responsible to pay all cost such as, but not limited to the cost of removal and rerouting of utilities associated to vacate the said streets and alleys as it relates to this development and no cost to the City.

All other city departments and private utility companies have reported no objections to the changes of the public rights-of-way. Provisions protecting utility installations are part of this resolution (if necessary).

An appropriate resolution is attached for the outright vacation and non-standard approach for consideration by your Honorable Body.

Respectfully submitted, RICHARD DOHERTY, P.E. City Engineer City Engineering Division — DPW By Council Member Benson:

STATEMENT OF COUNCIL MEMBER
MARY SHEFFIELD ON THE
RESOLUTION APPROVING THE
TRANSFER OF CITY-OWNED LAND,
WITH CONDITIONS, TO THE
DOWNTOWN DEVELOPMENT
AUTHORITY FOR THE CATALYST
DEVELOPMENT PROJECT

While my colleagues and I share a number of concerns regarding the provisions of the Land Transfer and the Concession Management Agreement, I voted in favor of this project because it will create jobs for our residents and create a significant community involvement aspect.

Unfortunately, most of the Concession Management Agreement had been heavily negotiated before my colleagues and I arrived on Council, giving us less than 3 weeks to advocate effectively on behalf of the community, and to include tangible benefits in the agreement for the residents of the City of Detroit.

One of the main points of my candidacy for City Council was to make our city economically competitive. Job creation and attracting new investment are key components of that objective. As a result, I cannot in good conscience turn down 8,300 construction jobs and 1,100 post-construction jobs this project offers. My

office has received several communications from residents speaking to this issue.

In addition, this project will result in neighborhood revitalization, and create a link between Downtown Detroit and Midtown. It will also be an engine for economic opportunity by creating living-wage jobs for Detroiters, expanding the city's tax base while attracting new residents and investment.

Over the course of the last 3 weeks, with leadership from my colleague, Raquel Castaneda-Lopez and my office, we were successful in creating a "Neighborhood Advisory Committee". This achieves a stated element of the community's requests by providing substantial community engagement on a plethora of issues related to the project.

While I was not completely satisfied with the overall negotiations surrounding this development. I intend on keeping a close eye on the project and holding the parties involved accountable to the commitments they have made to this community.

RESOLUTION CREATING THE CITY COUNCIL TASK FORCE ON BLACK MALE ENGAGEMENT

By ALL COUNCIL MEMBERS:

WHEREAS, It is clear that African Americans bear a unique historical scar that has harshly impacted generations of individuals in the United States. Across the country, a growing number of African American men face significant socioeconomic challenges that threaten the stability of their families and their neigh-

borhoods. Empirical evidence and statistical data consistently reveal that African American men have higher rates of incarceration/recidivism, drug/alcohol use, institutionalization, premature death (violence and illness related) as well as poverty. Many institutional as well as self-induced factors contribute to the generational challenges these same men encounter; and

WHEREAS, A great number of African American men have overcome the shared challenges that plague inner cities across the U.S. and validate that an individual's beginning point in life does not determine their future. These men are the fathers, uncles and neighbors that are working to repair the damage that the scourge of apathy that has besieged upon too many communities in America. Concerned individuals working collaboratively to pool their resources and talents has been proven to be the best approach to solve major issues; and

WHEREAS, The United States House of Representatives established "Congressional Caucus on Black Men and Boys" in 2013 to address the crisis among African American men on a national level. Unfortunately, the impact of any positive solution based conversation from that entity has not been felt by the population of the City of Detroit. The need for a locally based task force whose sole purpose is to improve the trajectory for African American males in Detroit is evident. Nonaction regarding this matter will only allow the current situation to worsen, thus continuing to hamper the quality of life for city residents; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby creates the Task Force on Black Male Engagement until December 31, 2014. The Task Force on Black Male Engagement will work diligently with community stakeholders to deliberate on the socioeconomic challenges facing African youth and men residing in the city, create a strategic plan of action to provide strong leadership and mentoring where needed; and BE IT FURTHER

RESOLVED, The many areas of concern for the Task Force on Black Male Engagement will include cultural awareness, community service, family responsibility, health/disease prevention, character building, career preparation, education advancement, and financial literacy; and BE IT FURTHER

RESOLVED, That the Task Force on Black Male Engagement will be chaired jointly by Council Members James E. Tate, Jr. and Andre L. Spivey; and BE IT FINALLY

RESOLVED, That the Task Force on Black Male Engagement meetings are open to the public; with dates, times and locations to be noticed by the Office of the City Clerk.

PUBLIC COMMENT

Michael Cunningham rendered Holy Scripture to the listening audience. He also spoke regarding DDOT service, DTE Energy and property tax assessments.

Ruth Johnson expounded on DDOT bus service. She remarked that her organization, TRU, along with the University of Detroit Mercy and Foster White McCullum consulting group did a poll which showed that 86% of likely voters in the four county region support public transit improvements. 67% support public funding. Those polled said they would pay \$10-\$40 more in a vehicle registration fee to pay for transit improvements.

John Lauve spoke with regard to the

Joe Louis Arena land transfer. He contends that there were costs omitted from the analysis reports. One was a \$7.5 million for repair fund split and the second is the loss of property tax of the private property currently controlled by the Illitch family. The analysis only mentioned one tem of cost from the abandonment of Joe Louis Arena, which was demolition. It did not include the loss of revenue. Revenue is not mentioned in the executive summary. He contends that it's not mentioned because there will be no revenue realized by the City.

<u>Paul Palazzolo</u> spoke regarding development along the river and his objection to pet coke.

<u>Cindy Darrah</u> spoke regarding her objection to the Joe Louis Arena project and her desire to see mass transit in the City.

<u>Ida Byrd-Hill</u> spoke regarding the DDOT system's poor service.

Helen Moore urged City Council to make the right decisions regarding a inaudible matter.

Honorable City Council:

Re: Substantial Amendment to the 2010-11 Consolidated Action Plan to Amend the Neighborhood Stabilization Program 3 ("NSP 3").

In February, 2011, your Honorable Body provided authorization and approval for the City of Detroit, through the Planning & Development Department ("P&DD") to receive and administer NSP 3 Projects and activities. As we move to implement the program, it has become clear that modifications to the target areas are necessary. As such, we respectfully request your review and approval of the attached resolution authorizing an amendment to the 2010-11 Consolidated Plan for the NSP 3 activities.

The original NSP 3 plan, as approved by HUD, includes seven (7) census tracts and ten (10) corresponding block groups. Since this time Hardest Hit Funds have become available to demolish vacant and blighted residential properties. Expansion of the NSP 3 target areas will enable the City to demolish vacant and blighted commercial structures in the targeted corridors to compliment the Hardest Hit work and further stabilize neighborhoods.

After careful analysis of the potential impact we are recommending that twelve (12) commercial corridors be added to the approved Target Areas as outlined below:

Original Target Areas:

Grandmont Rosedale Northend/Virginia Park EEV/Morningside Southwest West Village Palmer Park

Expanded Areas:

These changes will enable us to effectively meet the program objective of neighborhood stabilization and the March, 2014 deadline to expend 100% of the funds. We respectfully request the authorization of this change to amend the 2010-11 Consolidated Plan by approval of the attached resolution. The public notice period for the additional census tracts ended on December 20, 2013. Upon approval by your Honorable Body, the Amendment will be transmitted to the Emergency Manager for approval and ultimately HUD for final approval. Thank you for your time and consideration.

Department of Public Works City Engineering Division

January 15, 2014

Honorable City Council:

Re: Petition No. 2959 — Mannik and Smith Group request for encroachment on Stocker Street right-of-way 480 feet east of Fort Street.

Petition No. 2959 of Mannik and Smith Group, whose address is 65 Cadillac Square, Suite 3311, Detroit, Michigan 48224, request to install and maintain encroachment with an overhead pipe bridge across Stocker Avenue, 50 feet wide and being 408 feet easterly of Fort Street.

The proposed pipe bridge to span the Stocker Avenue right-of-way will be constructed with foundations on private property located outside the Stocker Street right-of-way. There will be no portion of the bridge foundations or supports constructed into the public right-ofway. The pipe bridge will be constructed to provide a minimum clearance of 20 feet between the bottom of the bridge and the existing roadway. The pipe bridge will contain three pipes moving product between Marathon's refinery and their asphalt plant north of Stocker. The pipe bridge will be constructed with containment pipes to prevent any leakage onto the right-of-way.

There are existing pipes crossing Stocker buried underground at this location. The existing pipes are scheduled for replacement due to existing underground conditions. This new pipe bridge will allow the existing pipes to be replaced onto an elevated bridge eliminating the future potential for any maintenance excavations within Stocker Avenue.

The portion of Stocker Avenue that will be affected is a dead end street located in a heavy industrial section within the City of Detroit; there are no residential properties adjacent to this part of Stocker Avenue.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

Traffic Engineering Division — DPW (TED), reports there is no objection to the aerial encroachment provided that a clear height of 20 feet shall be maintained between the pavement surface and the bottom of the pipe bridge.

City Engineering Division — DPW (CED) has approved the design with containment pipes around the transmission pipes.

The Public Lighting Department (PLD) reports an overhead street lighting circuit running in the area of the request and provisions protecting these facilities are included in the resolution. The contractor and/or the petitioner will be liable for any damages to any PLD underground facilities.

The Detroit Water and Sewerage Department (DWSD) has approved the pipe bridge encroachment provided that the resolution contain the DWSD specific encroachment provisions. The DWSD encroachment provisions are included in the resolution.

DTE Energy Gas and Electric Divisions
— report involvement and provisions
protecting the Gas and Electric lines in
the encroachment area are a part of the
resolution.

All other involved City departments and private owned utility companies reported no objections, or that satisfactory arrangements have been made.

I am recommending adoption of the attached resolution.

Respectfully submitted, RICHARD DOHERTY City Engineer City Engineering Division—DPW

By Council Member Benson:

On December 4, 2013, the Detroit Public

PUBLIC COMMENT:

JOHN LAVAE: We have two (2) bus lines running down Woodward; they are

going to move the stops around; if the trolley stop is here they are going to have the bus stop somewhere else. They are going to take two lane out of access; there is only going to be parking on one side of the street that is going to be a disaster to the flow of traffic down Woodward our main artery. The two new bridges will cost \$40 million to put the rails over the two (20 expressways; that's money that could be used to pave a lot of streets in this City. The potholes are going to be a disaster this spring that is where the money should be going.

LaVERNE HOLLWAY: I want to ask, has Mike Illitch paid those back income taxes; \$250 million? Mike Illitch owes \$250 million in back income taxes, has he paid them.

Council President Jones: What I can tell you is that the emergency manager and his team have been working with the Illitch's for collecting the money that is owed to the City. I can't tell you how much has been collected. The emergency manager is handling that.

Ms. Hollway: Can you tell me if any has been collected? It just does not make sense to her that the City would invest in someone who has bad credit. How is he able to get so many Detroit benefits when he has bad credit?

Finance Department Assessment Division

January 31, 2014

Honorable City Council:

Re: McKinstry Place — PILOT.

McKinstry Place Limited Dividend Housing Association Limited Partnership, sponsored by Southwest Housing Solutions Corporation ("Southwest") is a 25-unit project located in Southwest Detroit. McKinstry Place, located on scattered sites in Southwest Detroit will consist of 25 affordable town homes and single-family homes. All homes will be built to achieve 2013 Enterprise Green Standards.

All of the units will be rented to families whose incomes are below 60% of area median income ("AMI"). More specifically, 13 units will be rented to families at or below 60% AMI; two (2) units to families at or below 50% AMI; nine (9) units to families at or below 40% AMI; and one (1) unit to a family below 30% AMI, pursuant to the Michigan State Housing Development Authority's Low income Targeting Point Calculation Form. This project is the third

phase of Southwest's scattered site developments following the Hubbard Communities and Scotten Park projects, which collectively include 101 units of townhomes in the same geographic area. These Southwest developments have dramatically transformed and stabilized this area of Detroit, while providing muchneeded affordable housing for families.

Financing for the acquisition and preservation of the property will be through the following; Low-Income Housing Tax Credits, Project-Based Vouchers, Deferred Developer Fee, tax credit equity from the National Development Council and a construction loan from JPMorgan Chase Bank.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966, (P.A. 346, as amended, MCLA 125.1415A).

LEGISLATIVE POLICY DIVISION

By COUNCIL MEMBER CUSHINGBERRY,

WHEREAS, In April of 2012, the Detroit City Council by an unanimous vote, submitted a resolution to the Michigan State Legislature recommending that the Legislature and Governor Snyder reject the call to eliminate the personal property tax (PPT) for businesses in this state, and if the legislature was inclined to implement the tax cut proposal, that it should fully replace all of the PPT funds loss that local governments rely upon to pay for

needed government services; and

WHEREAS, The state government proceeded with its plan to phase out the PPT for industrial and commercial personal property for businesses in the State of Michigan without establishing through the legislature a sound methodology that guarantees the full replacement of PPT revenue, despite Council's prior efforts and similar efforts from the Michigan Municipal League (MML) and from other cities and townships throughout the state. So in December, 2012, the state legislature passed and the Governor signed a

series of bills to cut PPT, without a plan to fully replace lost PPT revenue; and

WHEREAS, Overall, the new personal property legislative package consists of a total of eleven public acts that amends or sets in place various statutes that effectively reduce property taxes levied on industrial and commercial personal property with an eye toward a phased elimination of the tax over time, and provides mechanisms that potentially replaces only a portion of the PPT revenue lost by local units of government, and

WHEREAS, Already experiencing serious financial stress due, in substantial part, to falling major revenue sources, including property taxes, the City of Detroit, acting through its EM, declared bankruptcy on July 18, 2013, in an effort to stabilize its financial position; and

WHEREAS, The new legislation if approved by a vote of the electors of the state in the statewide election scheduled for August, 2014, will ultimately eliminate all personal property taxes for state businesses. The resulting loss of all PPT revenue, could curtail Detroit's efforts to regain financial stability; and

WHEREAS, This complex series of public acts, which includes the instruments to exempt personal property taxes, coupled with an even more nebulous reimbursement mechanism, ultimately will result in decreased revenue for the City of Detroit and the rest of the local taxing units throughout the state, and

WHEREAS, To a considerable degree, the level of reimbursements of lost revenue to local taxing units will be left up to a board appointed by the governor, the Metropolitan Areas Metropolitan Authority (MAMA) and the level of annual appropriations allocated (or not), for this purpose by the state legislature through the year 2023, could fluctuate widely and could shift on political winds, and

WHEREAS, The Michigan Municipal League is on record stating the following regarding the new PPT legislation, "These bills do not provide the revenue replacement guarantees the League has requested and could be yet another financial blow to Michigan communities already strapped with declining property tax revenue and loss of revenue sharing dollars", and

WHEREAS, In addition, the MML has questioned the utility of the non-elected Metropolitan Areas Metropolitan Authority (MAMA), asking: "Why create a new level of government with its added cost and bureaucracy that appears to have broad power with little to no state oversight?" MML also indicated that the authority could create new conditions on funding that is vital for local operations, and

WHEREAS, Finally, the MML has indicated the PPT legislation may cut revenue by varying amounts across the state without providing relief, which may force local taxing units statewide to make up the revenue elsewhere, and

NOW BE IT THEREFORE RESOLVED, That the Detroit City Council is opposed to the new legislation in its current form and urge the voters in Detroit and throughout the State to vote NO on the ballot referendum on the new personal property tax legislation in August, 2014 statewide election: and

BE IT FINALLY RESOLVED, That Detroit City Council also calls on the Mayor and the Detroit delegation of the Michigan State House and Senate to join in the campaign to urge the voters to vote against the new PPT legislation in the August, 2014 statewide election and ultimately seek to repeal the new PPT legislation through all appropriate means available

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE Law Department

February 7, 2014

Honorable City Council:
Re: Detroit Land Bank Propose

Re: Detroit Land Bank Proposed Resolution.

Enclosed for your consideration is a proposed Resolution to authorize the Detroit Land Bank Authority (the "DLBA") to exercise certain of the police powers of the City of Detroit (the "City") to abate public nuisance, including such public nuisance caused by abandoned homes and blight within the City by pursuing civil litigation against the owners of such abandoned homes. Any litigation undertaken will be done so at the cost of the DLBA. In order to effectuate this authorization, the City's Corporation Counsel will name attorneys, identified by the DLBA, as Special Assistant Corporation Counsels, to pursue such litigation. In the event that the DLBA succeeds in such nuisance suits. title to the property will vest with the DLBA, and the DLBA will be entitled to retain all proceeds from the sale of such

Thank you for your consideration.

Respectfully submitted,

MELVIN B. HOLLOWELL

Corporation Counsel

By Council Member Leland:

Whereas, The City is experiencing severe and widespread blight: nearly one-third of the City's 139 square miles is empty or unused with some 80,000 vacant homes, constituting more than one-fifth of the City's housing stock. The City has determined that this blight is an

ongoing health and safety risk to every resident, fosters and facilitates crime and unemployment, encourages resident flight from the City, depresses property values, and discourages investment in the City; and

Whereas, The City has previously determined that the City's endemic blight creates a public nuisance and is harmful to public health, affects public morals, and prevents the public from the peaceful use of the their land, and constitutes a "Blight Emergency," as described in the EM Order No. 15 "Order Suspending Certain City Wrecking Requirements to Address Blight," issued on August 29, 2013; and

Whereas, The City has determined that there is a need to quickly and efficiently combat the public nuisances, which further contributes to the public emergency affecting life, health, property or the public peace: and

Whereas, The City has determined that eliminating public nuisance through nuisance abatement proceedings is a means to promote public health, safety and welfare; and

Whereas, The City has determined that the proceedings necessary to abate public nuisances require the expenditure of a variety of resources that are not currently within the capacity of the City given the other obligations and undertakins of the City; and

Whereas, Pursuant to the Land Bank Fast Track Act, 2003 PA 258, MCL 124.751 to 124.774 (Land Bank Act), the Detroit Land Bank Authority ("Detroit Land Bank") was created as a separate legal entity and public body corporate in accordance with an Intergovernmental Agreement dated September 15, 2008, as amended from time to time, by and between the City of Detroit and the Michigan Land Bank Fast Track Authority; and

Whereas, The Detroit Land Bank was created in order to assemble or dispose of public property, including tax reverted property, in a coordinated manner to foster the development of that property and to promote economic growth in the City of Detroit; and

Whereas, The City and Detroit Land Bank are both governmental agencies with the immunities provided by Public Act 170 of 1964, as amended, Governmental Tort Liability for Negligence, MCL 691.1401 et seq., commonly known as the Governmental Immunity Act; and

Whereas, The City believes, at this point in time, that to more effectively address the Blight Emergency it is in the City's best interests to authorize, on a non-exclusive basis, the Detroit Land Bank to exercise the City of Detroit's police power to abate the public nuisances throughout the City, by any and all available legal remedies, subject to the terms, conditions and limits contained in this Resolution (the "Proposed Authorization");

Now, Therefore, Be It Resolved That:

- 1. The City is authorizing the Detroit Land Bank, on a non-exclusive basis, to exercise the power to abate public nuisances by pursuing any action legally available, or that will become available to the City, including but not limited to, civil litigation, to promote the public health, safety and welfare of the residents, provided that the City shall retain the power to exercise such rights on its own behalf.
- 2. The City, through the City of Detroit's Corporation Counsel, shall name attorneys, who will be identified by the Detroit Land Bank, to serve as Special Assistant Corporation Counsels. With the approval of the Corporation Counsel, such Special Assistant Corporation Counsel's shall have the authority, on a non-exclusive basis, to pursue, any and all litigation matters necessary to abate the public nuisances.
- 3. The Detroit Land Bank shall be authorized to pursue and complete legal or other proceedings against the owners of public nuisance properties, and shall bear the expense of such proceedings, provided that the City shall retain the power to pursue such actions on its own behalf.
- In the event the outcome of the legal proceedings is in favor of the Detroit Land Bank, title shall vest with the Detroit Land Bank
- 5. The Detroit Land Bank shall be entitled to retain any and all proceeds from the disposition or abatement of the properties that were acquired by the Detroit Land Bank through the nuisance abatement proceedings.
- 6. All other Čity enforcement powers and responsibilities including, but not limited to, law enforcement, foreclosure, the pursuit of property tax deficiencies, the management of City land and the exercise of City police powers shall remain in full force and effect within the sole power of the City to exercise such powers.

City Planning Commission

January 31, 2014

Honorable City Council:

Re: Request of Queen Lillian II LLC. to rezone property at 13 Stimson Avenue and 3439-3455 Woodward Avenue bounded by Stimson Avenue to the north, Woodward Avenue to the east, Peterboro Avenue to the south, and Cass Avenue to the west from an R6 (High Density Residential District) zoning classification to a B4 (General Business District) zoning classification (Recommending Approval).

Queen Lillian II, LLC has petitioned the City Planning Commission (CPC) to amend Article XVII, District Map No. 3 of Chapter 61 of the 1984 Detroit City Code, the Detroit Zoning Ordinance, to show a B4 (General Business District) zoning classification where an R6 (High Density Residential District) zoning classification is presently shown on property identified as the westernmost portion of 3439-3455 Woodward Avenue and 13 Stimson Avenue, generally bounded by Stimson Avenue to the north, Woodward Avenue to the south, and Cass Avenue to the west.

BACKGROUND AND PROPOSAL

The subject property consists of approximately 1.6 acres, and is currently owned by the City of Detroit. The Planning and Development Department (P&DD) has indicated that an offer to purchase has been accepted, granting the petitioner all rights to pursue the subject rezoning request. The subject property consists of two addresses. The 13 Stimson address is zoning R6. The second address at 3439-3455 Woodward Avenue, is split in zoning classification. Fronting Woodward Avenue and extending westward for approximately 175 feet is property zoned B4, while the remainder of the parcel is zoned R6. In pursuing the purchase of this property from the City, the petitioner discovered the split zoning and, to meet the needs of the proposed development, is seeking to have the western portion of the 3439-3455 Woodward Avenue parcel as well as, the 13 Stimson Avenue parcel rezoned from R6 to B4.

In reviewing the petitioner's rezoning request, CPC staff initially entertained the possibility of pursuing a Planned Development zoning classification. However, given the nature of the proposed development and its apparent consistency with Master Plan, the more direct course of action would be to pursue the B4 zoning classfication.

Queen Lillian II, LLC is proposing to utilize the approximately 1.6 acre site for the construction of a five (5) story mixed use retail/office building oriented towards the Woodward Avenue frontage and a two (2) story parking garage with roof top parking at the rear of the proposed development orientated along Stimson Avenue. The uses of retail, office and structured parking are all considered by-right uses (per Sec. 61-9-76(22), (24) and (33) of the zoning ordinance) in the B4 district zoning classification. Presently, the petitioner is in negotiations with several potential tenants which include a dental practice, a medical practice, a pharmacist and nonprofit organization. The proposed multi level parking structure would house approximately 280 parking spaces.

The proposed plans for this site will be forwarded under separate cover along with the ordinance effectuating the rezon-

ing once it has been approved as to form by the Law Department. Since this is a rezoning to a zoning classification that does not require speciall district review, the actual site plans are not subject to the rezoning approval.

SURROUNDING ZONING AND LAND USES

The zoning classification and land uses surrounding the subject area are as follows:

North: B4 & R6; with an eleven (11) story senior housing complex.

East: PD-H; with a two (2) story university office building (The Bonstelle) Wayne State University Theatre building.

South: B4 & R6; with a restaurant, a six (6) story mixed use retail/office building and an eight (8) story residential complex.

West: R6; with a vacant parcel.

PUBLIC HEARING AND COMMUNITY FEEDBACK

On May 2, 2013, the City Planning Commission held a public hearing on the subject rezoning request. One member of the public, Mr. Matt Pearson a representative of C.O.T.S., spoke in favor of the proposed rezoning. Mr. Pearson indicated that he looks forward to the proposed development and the positive effect it will have on the westward traffic on the eastwest alley which exists between the proposed development and the Detroit One Coney Island. There were no members of the public present who spoke in opposition to the proposed rezoning request. One letter of support was issued via email from Susan Mosey, President of Midtown Detroit, Inc., which is attached for your review.

ANALYSIS

Master Plan Consistency

The subject site is located within the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Mixed Residential/Commercial for the subject properties. The P&DD has found this proposal to be consistent with the Master Plan of Policies.

Suitability of the Property

One of the criteria for rezoning states that, "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 3 generally shows a mix of B4 and R6 zoning to the north, east, south and west of the subject property for several blocks. This section of Woodward Avenue at Stimson Avenue is currently vacant and undeveloped and has remained as such for at least ten (10) years, having been marketed by the City of Detroit via P&DD for a development opportunity such as the proposed development presented by the petitioner. The greater area is primarily developed with residential, commercial and institutional uses, which all build on the Master Plan's

design of a mixed-use residential/commercial corridor.

In general, CPC looks favorably on the rezoning of the vacant parcels to accommodate the construction of a new five story mixed use retail/office building, in addition to a two story supportive parking structure. The petitioner has demonstrated to the Commission that there is both a demand and a need for the proposed development, having pre-sold approximately 30% of the proposed developments inhabitable space. With existing commercial and institutional uses adjacent to the subject properties, the development of these two parcels would contribute to the economic growth and revitalization of this locale.

Land Use

The CPC finds that a B4 zoning classification is an appropriate designation consistent with the greater surrounding area, primarily the commercial and institutional uses comprising Ye Olde Butcher Shop, Wayne State University, Michigan State University, University of Michigan and the many indepedent business and shops along the Woodward Corridor.

Significant Impact on Other Property

The CPC is of the opinion that the rezoning of this property and the potential development, which is pending, would add to the stability of the surrounding community by providing a needed commodity along this viable section of Woodward Avenue which is vacant and blighted. The proposed development would create temporary construction jobs as well as provide additional space retail and office space in an area of the City which is experiencing steady growth.

RECOMMENDATION

Based on the Commission's analysis and consistent with the approval criteria of Sec. 61-3-80 of the Zoning Ordinance, the City Planning Commission recom-mends approval of the Queen Lillian II, LLC request to amend District Map No. 3 of the Detroit Zoning Ordinance (Chapter 61, Article XVII) to show a B4 zoning classification where an R6 zoning classification is presently shown on one parcel and a parcel and a partial parcel identified as 13 Stimson Avenue and 3439-3455 Woodward Avenue respectively, generally bounded by Stimson Avenue to the north, Woodward Avenue to the east, Peterboro Avenue to the south, and Cass Avenue to the west.

Law Department

January 30, 2014

Honorable City Council:

Re: Proposed Ordinance to amend Sections 42-3-1, 42-3-2, 42-3-3 and 42-3-4 of the 1984 Detroit City Code, to allow overhead wires and cables by the public lighting department or a municipal lighting authority for public lighting system purposes, and to make technical corrections.

Enclosed for your consideration is a proposed ordinance to amend Chapter 42 of the 1984 Detroit City Code, *Poles and Wires*, Article III, *Overhead Wires*, by amending Sections 42-3-1, 42-3-3 and 42-3-4, to allow overhead wires and cables by the public lighting department or a municipal lighting authority for public lighting system purposes, and to make technical corrections.

The current provisions of Article III of Chapter 42 of the City Code prohibit overhead wires and cables on a number of streets and alleys in downtown Detroit and on several major thoroughfares. The Public Lighting Authority has reported that

these prohibitions impose a burden that would materially increase the cost of and time needed for system upgrades, and therefore decrease its ability to accomplish its mission of expeditiously improving the city's public lighting system. At the request of the Mayor's Office, the Law Department has prepared the attached ordinance, approved as to form, to amend Chapter 42 to allow overhead wires and cables of the public lighting department or the public lighting authority for the public lighting system. In addition, certain technical corrections were made to correct or update obsolete terms. The Public Lighting Authority has indicated its support for this proposed ordinance.

Thank you for your consideration.

Respectfully submitted, MELVIN B. HOLLOWELL Corporation Counsel

Honorable City Council:

Re: Address: 2933 Second Ave. Name: Employee's Benefit Trust of New York. Date ordered removed: November 5, 2013 (J.C.C. pg. ____).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on December 16, 2013 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes and is current.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- 1. A permit for rehabilitation work shall be obtained within 30 days.
- 2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:
- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a
 Housing Inspection
- Certificate of Inspection, required for all residential rental properties
- The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- 4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted, DAVID BELL

RESOLUTION IN MEMORIAM FOR

CHEF ERIC GILES
By COUNCIL PRESIDENT JONES:

WHEREAS, We, the members of the Detroit City Council, solemnly pause today to honor the memory of the late Chef Eric Giles, an award winning entrepreneur, culinary artist, and longtime social activist who departed this life on January 31, 2014; and

WHÉREAS, A perennial entrepreneur, Giles opened his first business — Clyde's Cleaning Service in 1983 as a high school senior. His business prowess continued to manifest early in his professional career as he sought challenging, innovative and creative employment opportunities. During the '90's he honed his management, training and development skills as the operations manager for the First Impressions staffing company, which staffed major citywide events including the Grand Prix and the NAACP Freedom Fund Dinner. Mr. Giles' first work as a chef

came in 2002 at the Kingdom Men's Café, a full-service soul food restaurant opened inside the Historic East Lake Church of Detroit, where he was a member. It was at the café that Eric Giles became the persona Chef Giles. The legacy of the café lives on in the form of Chef Giles' Café Salad Dressing and Marinade which can still be found on grocery store shelves; and

WHEREAS, Chef Eric Giles built an astonishing professional repertoire in the food service industry during his lifetime. He believed in giving second chances and one of his most important community contributions working with his "ministry" of at-risk youths occurred in 2010, when he and his business partner opened The Sunday Dinner Company in Detroit. The restaurant used a business model that employed returning citizens from Goodwill Industries' "Flip the Script" program to renovate the historic building using exclusively recycled materials. The wait staff was mostly young people with little or no prior work experience whom Mr. Giles trained. Regardless of whether he was catering a luncheon at the Governor's mansion, hosting a dinner for President Obama staffers at his restaurant, or serving homeless people in a shelter, he brought the same level of elegance and excellence to the event; and

WHEREAS, In 2013, Chef Eric Giles was invited to participate in Model D's Idea Lab as part of a business conference hosted by the Ross School of Business at the University of Michigan. He was the recipient of numerous awards and honors for his business and civic work, including a 2012 Knight Foundation special award, and The Sunday Dinner Company Restaurant received recognition as one of 2013's "50 Coolest Small Businesses in America" by the Business Insider. His most recent venture, a "Pop — Up Restaurant, Lunch at Techtown" was scheduled to premiere February 5, 2014 in Detroit. Recognized and respected as one who gave his life's efforts to the people and beliefs he most cherished, Chef Eric Giles has left an indelible mark on Detroit and has ensured that his impact would be forever embedded in the hearts of both kin and friends alike. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council, and office of Council President Brenda Jones, hereby joins with family's and friends in honoring the legacy of Chef Eric Giles.

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE City Planning Commission

February 17, 2014

Honorable City Council:

Re: Special District Review for PC (Public Center) zoning district for Cobo Center for the installation of a pole-mounted Shinola Clock at the Detroit Regional Convention Facility (Cobo Center), temporarily located in the plaza at the southwest corner of Washington Boulevard and West Larned Street and permanently in the plaza on the south side of West Jefferson Avenue east of the former Cobo Arena (RECOMMEND APPROVAL).

PROPOSED DEVELOPMENT

As the Council is aware, the PC (Public Center District) zoning classification, in which Cobo Center is located, calls for City Council approval of the location and design of any exterior changes following the review and recommendation of the City Planning Commission (CPC) and the Planning and Development Department (PDD) (Sections 61-3-182 and 61-11-76 of the Zoning Ordinance).

The CPC is in receipt of a request from SDG Inc., on behalf of the Detroit Regional Convention Facility Authority (DRCFA) to install a pole-mounted Shinola clock at Cobo Center. Proposed are both a temporary location, to be installed by daylight savings time on March 9, 2014, and a permanent location, where the temporarily located clock would be relocated to in September of this year. The temporary site is in the existing plaza at the southwest corner of Washington Boulevard and West Larned Street. The permanent site is in the new plaza under construction on the south side of West Jefferson Avenue east of the former Cobo Arena. See the attached site plans.

The proposed clock would be donated to the Detroit Regional Conference

Facility authority (DRCFA). As designed it would place four feet tall pocket watch, mounted on the top of an eight and a half foot tall pole in the above mentioned locations. See the attached image. The Public Art Site Review Committee has reviewed the proposed installation and recommends approval.

REVIEW

In accordance with the PC provisions of the Zoning Ordinance (Section 61-11-77), reviews of proposed changes should be conducted in light of the following relevant criteria, with the analysis following in italics:

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development; The scale of the proposed clock appears appropriate for the proposed locations.

(3) The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties; The clock is compatible with both locations.

(15) Urban design elements of form and character should be carefully considered; such elements include, but are not limited to: richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting of important visual features; preservation/ enhancement of important views and vistas: The addition of the clock adds interest to both the temporary and permanent locations.

The proposed modifications appear to meet these criteria. The permanent installation will also have to be reviewed by the Historic District Commission prior to its installation

This process, and the other three clocks that staff understands will be located in other locations around the City, which may also require Council approval, highlight an apparent need to coordinate the placement of items in City rights-of-way or on City property and/or the acceptance of gifts to ensure that the items are both appropriate and appropriately placed. Staff would like to work with the necessary city agencies to review the other sites, and possibly form a working group or continue to work through the Public Art Site Review Committee.

RECOMMENDATION

CPC and PDD staffs have reviewed the proposed addition of a clock, first in a temporary location in the plaza at the southwest corner of Washington Boulevard and West Larned Street and

then in a permanent location in the plaza on the south side of West Jefferson Avenue east of the former Cobo Arena. The design and locations of the clock (temporary and permanent) appear appropriate for the public plazas. If the Historic District Commission review results in a substantive change to the permanent location, the change will have to be reviewed and approved body the City Council.

Respectfully submitted,
DAVID D. WHITAKER
Interim Director
Legislative Policy Division
GREGORY F. MOOTS

By Council Member Leland:

Whereas, SDG, on behalf of the Detroit Regional Convention Facility Authority seeks approval to install a pole-mounted Shinola clock at Cobo Center at a temporary location, to be installed by daylight savings time on March 9, 2014, and a permanent location, where the temporary clock would be relocated to in September 2014; and

Whereas, The requested temporary site is in the plaza at the southwest corner of Washington Boulevard and West Larned Street and the permanent site is in the plaza on the south side of West Jefferson Avenue east of the former Cobo Arena: and

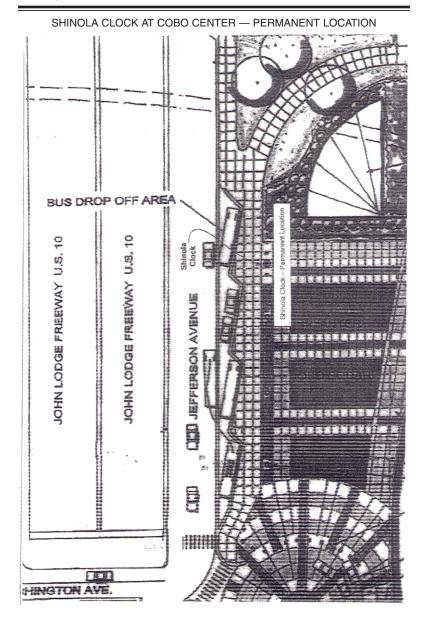

Whereas, The subject area is subject to provisions of Section 61-11-61, the PC (Public Center District) zoning classification of the Detroit Zoning Ordinance; and

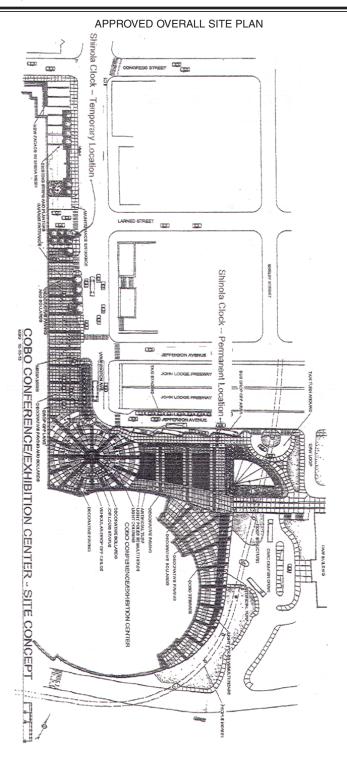

Whereas, The PC zoning district classification requires that any exterior building alteration or changes to the site plan withing a PC district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission and the Planning and Development Department; and

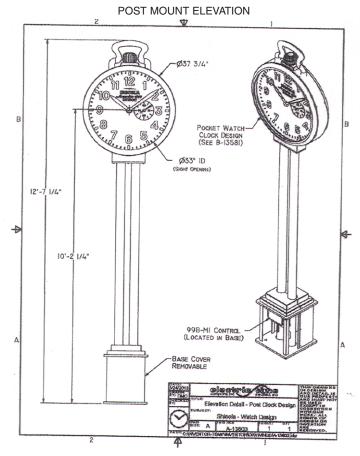

Whereas, The staffs of both the Planning and Development Department and the City Planning Commission have reviewed the proposal in order to ensure that the proposed appearance and siting are in keeping with the spirit, purpose and intent of the PC zoning district classification:

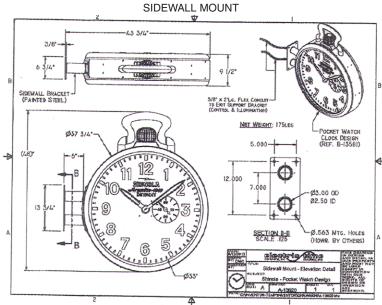

Now, Therefore Be It

Resolved, That the Detroit City Council approves the installation of a pole-mounted clock temporarily in the plaza at the southwest corner of Washington Boulevard and West Larned Street and permanently in the plaza on the south side of West Jefferson Avenue east of the former Cobo Arena, described in the foregoing communication from the City Planning Commission staff dated February 17, 2014 and as depicted in the drawings in the package prepared by SDG dated "10 February 2014", noting that, contrary those drawings, the proposed clock will be double-faced, with the condition that the final site plan be reviewed and approved by CPC staff prior to issuance of building permits and that the Historic District Commission review and approve the permanent installation.

Honorable City Council:

Re: Definition of "Local Neighborhood" for purposes of the Creation of the Neighborhood Advisory Committee to advise Olympia Development of Michigan in the developments within the Downtown Development Authority expansion area (Resolution attached).

The boundaries of "Local Neighborhood" for purposes of the creation of the Neighborhood Advisory Committee to advise Olympia Development of Michigan in the developments within the Downtown Development Authority expansion area were discussed at the February 20, 2014 Planning and Economic Development Standing Committee meeting. The Committee refined the 1/4 mile boundary originally submitted by the Legislative Policy Division staff and asked that staff prepare a map of and resolution approving the boundaries. The boundaries recommended by the Committee generally "square off" the submitted boundary and include one more block of the Brush Park neighborhood.

Attached is the map showing the Committee-recommended boundaries and a resolution approving those boundaries. Staff is exploring options for Council to select its representatives to the Neighborhood Advisory Committee and will have a report to the Planning and Economic Development Standing Committee prior to its February 27, 2014 meeting.

CHAUNCY GLOVER
By COUNCIL PRESIDENT JONES:

WHEREAS, It is with great pleasure and privilege that we, the members of the Detroit City Council, recognize and bestow due honor upon Chauncy Glover, a motivational speaker, actor, playwright, Emmy Award winning news reporter and anchor for NBC affiliate WDIV Local-4, and founder of The Chauncy Glover Project; and

WHEREAS, A real southern gentleman, Chauncy Glover was born and raised in Athens, Alabama, and has worked on air in, Georgia and Florida and now Michigan. Chauncy was bitten by the news bug quite early. In fact, his father built him his very own "anchor news desk" at the age of six! He "anchored" his news show every Sunday evening after church for his family and friends. He later turned his hobby into a career. Chauncy went on to study Broadcast Journalism, Music and Theatre at Troy University. He also has a degree in Public Relations; and

WHEREAS, The recipient of several honors and awards including the Senior Algernon Sydney Sullivan Award from Troy University (an honor given for the highest GPA and community excellence), and being recognized by the Associated Press, National Association of Black Journalists, the Liberty Theater Company, Broadcasting Association, Unsung Heroes and many more. He was nominated for two Emmy's and won his first Emmy in June of 2013 in the "Best on Camera Talent-Live" category. As a professional TV Host and actor, Chauncy Glover is no stranger to the Entertainment industry. He has traveled the world in productions, like "A Raisin in the Sun," "The Whiz" "The Piano Lesson," "The Piano Lesson," Scottsboro Boys," and "The Vegas Show." He's also made appearances in several independent films including, "Time Is Running Out," and "Mamma's Boy," He even performed for the American Idol judges and has shared the Music platform with some of the industry's best such as McClurkin, Vanessa Armstrong, Hezekiah Walker and Patti LaBelle. But his proudest moment was being asked to honor the late civil rights activist Rosa Parks, by singing at her funeral. As a playwright, he has written, produced and starred in several of his stage plays; and

WHEREAS, In 2012, Chauncy Glover took \$10,000 of his own money and launched The Chauncy Glover Project after a year of reporting on the streets of Detroit. Murder after murder, story after story, he grew sick and tired of interviewing the mothers of young men who had lost their lives in senseless violence. The hands-on mentoring programs' mission is

"To empower, encourage and inspire young men to become strong, moral, and confident leaders of society." His first mentees are a group of 12th grade young men from Martin Luther King Jr. Senior High School known as the "Fearless 14." There are monthly Empowerment sessions where the young men gather with their mentors for training, personal enrichment classes, tutoring sessions and college prep seminars. The mentees are also involved in volunteer work and service projects to better understanding the importance of giving back to the community. NOW THEREFORE BE IT

RESOLVED, That Chauncy Glover, be awarded this Testimonial Resolution from the Detroit City Council, and office of Council President Brenda Jones, as an acknowledgement of his outstanding achievements and his unwavering dedication to our youth in the City of Detroit.

Buildings, Safety Engineering & Environmental Department

January 29, 2014

Honorable City Council:

Re: Address: 18981 Pinehurst. Name: Metro Property Management. Date ordered removed: May 7, 2013 (J.C.C. pages 782-791).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on January 24, 2014 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

- A permit for rehabilitation work shall be obtained within 30 days.
 - 2. The building shall be maintained

securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.
- 3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
- 4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted, DAVID BELL Building Official

(i) The Digital Video Unit (DVR) may consist of either a single, or series of modular self-contained units capable of video image export via CD/DVD, SD card, and/or USB thumb drive. The DVR(s) may be "PC" based utilizing the Microsoft Windows operating system or, in the alternative, a dedicated device. The DVR(s) must record at a rate of at least seven (7) images per second, per camera. Motion activated systems must record at a rate of seven (7) images per second, per camera, when activated.

(ii) The DVR(s) must be capable of retaining all original recorded data for a minimum of ten (10) days. Recognizing that there currently are no industry standards for the coding and decoding of digital data (codec), any unit placed in operation by the licensee must be capable of exporting video in its native format with an accompanying player, and in an industry standard file format capable of display on any Windows XP, or updated Windows, operating system.

(iii) Video equipment placement.

(A) Indoor Cameras. Cameras must be equipped with a minimum 1/3" CCD with a minimum resolution of 480 TV lines. The cameras must be placed so that all areas accessible to customers may be viewed and recorded. In addition, cameras shall be placed in areas that a person involved in illegal activity would use and at possible points of illegal entry. Ceiling mounted cameras should not be placed over doorway entrances or exits, but positioned so that the face of an individual can be seen. This requirement does not apply to cameras positioned to capture "Point(s) of Sales." Cameras mounted to cover low, or no light areas should be mounted in a manner that encompasses the area needed to be captured. Where the distance/ area to be viewed is sixty-five (65) feet, or more, two (2) cameras, or a single camera with an IR range of sixty-five (65) feet shall be used.

(B) Outdoor Cameras. Cameras should be equipped with a minimum 1/3" CCD with a minimum resolution of 480 TV lines with a minimum IR (Infrared) range of thirty-five (35) feet. The cameras must be placed so that all customer

accessible areas may be viewed and recorded, including customer parking areas, fuel service islands and compressed air dispensers. Cameras shall be positioned so images can be captured of all adjoining walkways of the business, and commonly used ingress and egress points. Overhang mounted cameras should not be placed directly over doorway entrances or exits in order to avoid downward views. Motion detection, if used, shall be configured to capture significant movement within the viewed range of the video camera.

(Č) Pan and Tilt Cameras. Unmanned pan and tilt camera installations may not be used to satisfy the requirements of this section due to the amount of time required more most cameras to "sweep" from side to side limits the capture of

images significantly.

(iv) Digital Video Unit accessibility. While the primary concern of the business licensee is to maintain the security and integrity of their DVR System, accessibility to the video system by authorized City of Detroit officials is required. Subject to any constitutional restrictions or unreasonable searches and seizures and upon reasonable notification to the business licensee of the need to conduct an investigation at the licensed establishment, the Chief of Police is authorized to designate Detroit Police Department personnel to enter a business licensed under this section for the purpose of accessing, obtaining, or reviewing digital video recordings installed by the licensee pursuant to this section. Where access to digital recordings is denied by the licensee, or the employee certified by the Fire Marshal to have access to all areas of the selfservice gas station, or where access is otherwise not obtained, the Detroit Police Department may pursue recourse, as provided by law, to review and obtain digital video recordings created and maintained pursuant to this section.

Accordingly, the licensee shall be responsible for making arrangements for access to a key to the office, or access to the equipment, so that accessibility to the video surveillance is achieved within one hour of the notification by the Detroit Police Department of an investigation at the business. Also, where exigent circumstances exists, video system passwords shall be made available to authorized members of the Detroit Police Department to facilitate review of video recordings. Failure to provide accessibility to digital video equipment required by this section may result in the Police Department making a request for a search warrant to seize the video equipment, or any part or unit of the equipment, depending on the nature of the incident.

(b) Additional public security requirements. In addition to the video surveillance requirements of subsection (a) of this section, a licensed self-service station that has had three (3) or more separate documented criminal incidents at the location in the previous license year shall be required to provide additional public security measures as recommended and approved by the Detroit Police Department prior to the renewal of the City business license for the location. Additional public security measures may include, but not limited to, assigned bonded security personnel at the location or mobile security patrols.

(c) Compliance with state statutes or regulations and the Detroit City Code. The licensee of a self-service station shall comply with all state statutes and provisions of this Code regulating, controlling, or in any way relating to the sale of food, as defined by the Michigan Food Law, Public Act 92 of 200, being MCL 289.1101 et seq., or any other good or sale by the federal or state governments.

(d) Enforcement. In accordance with the prescribed procedures of the City, the Director of the Buildings, Safety Engineering and Environmental Department, the Public Health Director, or any successor, the Detroit Fire Marshal, and the Chief of Police shall have the authority to designate technical officers and personnel to ensure compliance with this section of the Code, conduct inspections and re-inspections, and to issue and serve upon a person a written order, where the authorized local official has reasonable cause to believe that there has been a violation of this section.

28-2.1.6.5 Investigations Required. In addition to the inspections and reports required by Section 28-2.1.6.4 of this division, upon application and before any license required by Section 28-2.1.6 of this Code shall be issued or renewed, it shall be the duty of the Buildings, and Safety Engineering and Environmental Department to refer such application to the Finance Director who shall cause an investigation to be completed to determine whether any property tax, income tax, and/or special assessments are unpaid, outstanding and/or delinquent.

A self-service station <u>business</u> license shall not be issued or renewed by the Buildings, and Safety Engineering and Environmental Department <u>Business License Center</u> until the Finance Director has given his or her written confirmation that the applicant is not in arrears for taxes, or assessments, which are delineated in this section.

28-2.1.6.6 License Posting Required; Non-transferable. Upon issuance by the Buildings, and Safety Engineering, and Environmental Department and after receipt by the applicant, a self-service station license shall be posted at all times

by the licensee inside the licensed premises in a conspicuous location near the entrance.

All self-service station licenses that are issued pursuant to this Chapter shall not be transferable.

28-2.1.6.7 Expiration and Renewal Dates. All self-service station licenses that are issued pursuant to this Chapter shall expire on August 31st of each year.

COMMUNICATIONS FROM MAYOR AND OTHER GOVERNMENTAL AGENCIES

CITY OF GROSSE POINTE WOODS 20025 Mack Plaza Drive Grosse Pointe Woods, Michigan 48236-2397 CERTIFIED RESOLUTION

A resolution of the City Council of the
City of Grosse Pointe Woods
Advocating an amendment to
Michigan Public Act 33 of 1951 to
provide one additional option to cities
to utilize in providing public safety to
its citizens

Motion by Bryant, seconded by Shetler, that the City Council adopt the following resolution:

Whereas, municipalities raise funds for special purposes by imposing special assessments as an alternative to imposing a tax; and

Whereas, the combination of the Headlee amendment and Proposal A allow property values to drop greater than the rate of inflation but do not allow them to rebound in a similar manner requiring municipalities to raise millage rates to compensate in attempts to achieve the same revenue as once received; and

Whereas, the ability to raise the millage

rate is limited by both State Constitution and these same state acts; and

Whereas, a special assessment has some of the same characteristics of a tax millage but is different in that a special assessment may be levied only on land may be imposed only to pay the cost of improvement or service by which the assessed land is specifically benefitted; and

Whereas, to impose a special assessment, a municipality must first have the statutory authority to make the improvement or provide the service for which the assessment will be imposed and the assessment must be apportioned among the landowners in the district pursuant to the city charter and state law by methods requiring public input and hearing; and

Whereas, special assessments for public safety are limited by law and in such a manner consistent with applicable laws however are not calculated as the millage tax rates are and thus limited by specific statute limitations; and

Whereas, the City of Grosse Pointe Woods along with numerous other Michigan cities has suffered considerable losses in revenue from property tax value decreases. In fact, the City of Grosse Pointe Woods is among the hardest hit communities regarding property value loss. Taxable value for Grosse Pointe Woods in 2007 was at \$867,467,911 or \$117,432 per parcel and declined to \$601,362,400 or \$81,563 per parcel in just six years; and

Whereas, to offset the loss of this amount of taxable value the City of Grosse Pointe Woods would require an additional 4.65 mills, an amount not permitted by existing law; and

Whereas, it is projected that if property values grow by at least 10% each year for the next 10 years the constraints of Headlee and Proposal A will severely limit the taxable value roll up to 5% or the rate of inflation whichever is less, resulting in a scenario of taxable value per parcel rebounding to only \$132,858 under current maximum tax rates; and

Whereas, the total amount of property taxes raised in fiscal year 2013/14 is \$12.2 million; and

Whereas, the cost to operate only the police and fire departments for 2013/14 fiscal year is \$5.2 million or 42% of the general fund, following numerous reductions in pension, healthcare, salary, and salary related benefits as well as a reduction of 11 police and fire positions since 2007; and

Whereas, other factors leading to the City's diminished fiscal condition is the growing postemployment benefits or legacy costs including pension and retiree healthcare. With the annual required cost to fund retiree healthcare reaching \$3.4 million and current pension liabilities of \$906,000 a mandatory cost and large por-

tion of general fund revenues cannot be reduced; and

Whereas, in consideration of these factors the City continues to employ a strategic fiscal management policy that seeks out alternative answers to this growing challenge and has resolved that an option for service continuation of public safety includes the option for assessment in particular implementation of Public Act 33 of 1951 special assessments for public safety; and

Whereas, the City of Grosse Pointe Woods presently has no statutory authority to provide police and fire services by imposing a special assessment and seeks to amend Public Act 33 of 1951 to fairly include Grosse Pointe Woods as it is presently excluded due to an arbitrary population requirement included in this statute: and

Whereas, Public Act 33 of 1951 provides: "AN ACT to provide police and fire protection for townships and for certain areas in townships, certain incorporated villages, and certain cities; to authorize contracting for fire and police protection; to authorize the purchase of fire and police equipment, and the maintenance and operations of the equipment; to provide for defraying the cost of the equipment; to authorize the creation of special assessment districts and the levying and collecting of special assessments; to authorize the issuance of special assessment bonds in anticipation of the collection of special assessments and the advancement of the amount necessary to pay such bonds, and to provide for reimbursement for such advances by reassessment if necessary; to authorize the collection of fees for certain emergency services in townships and other municipalities; to authorize the creation of administrative boards and to prescribe their powers and duties; to provide for the appointment of traffic officers and to prescribe their powers and duties; and to repeal acts and parts of acts.

Under the act a qualified city is one with a population of less than 15,000 people or a city with a population of 15,000 to not more than 70,000 in a County of less than 235,000. The City of Grosse Pointe Woods is then not a qualified city under MCL 41.810 as the city's population is 16,135 and the County of Wayne population is 1,820,584; and

Whereas, specifically the amendment to Section 41.810 Fire protection for townships, villages, and qualified cities; "qualified city" defined is where the suggested amendment would apply.

POLICE AND FIRE PROTECTION (EXCERPT)

Act 33 of 1951

41.810 Fire protection for townships, villages, and qualified cities; "qualified city" defined.

Sec. 10.

(1) This act applies to townships and

adjoining townships and incorporated villages and qualified cities. If reference is made in this act to townships, that reference shall apply to townships and incorporated villages and qualified cities. If reference is made in this act to township boards, that reference shall apply to township boards and the legislative bodies of incorporated villages and qualified cities. A township, incorporated village, or qualified city shall not use this act to lessen the number of paid full-time firefighters in that township, incorporated village, or qualified city.

- (2) As used in this act, "qualified city" means either of the following:
- a) A city with a population of less than 15,000.
- b) A city with a population of 15,000 or more and less than 70,000 located in a county with a population of more than 200,000 and less than 235,000, if the question of raising money by special assessment and the amount of the special assessment to be levied annually under this act is approved by a majority of the electors in the special assessment district. The amount of the special assessment to be levied annually under this act that was approved under this subdivision shall not be increased unless that increase is first approved by a majority of the electors in the special assessment district.

Proposed amendment to read:

- a) A city with a population of less than 15,000. 70,000.
- b) A city with a population of 15,000 or more and less than 70,000 located in a county with a population of more than 200,000 and less than 235,000, if the question of raising money by special assessment and the amount of the special assessment to be levied annually under this act is approved by a majority of the electors in the special assessment district. The amount of the special assessment to be levied annually under this act that was approved under this subdivision shall not be increased unless that increase is first approved by a majority of the electors in the special assessment district.

Whereas, the City of Grosse Pointe Woods is otherwise qualified under all other aspects of the Act, the simple amendment to fairly allow this option to cities of up to 70,000 populations in any County will then qualify Grosse Pointe Woods in Wayne County;

Now, therefore, be it resolved that the City Council of the City of Grosse Pointe Woods, Michigan requests that the Michigan legislature through and by our representatives and the governor of the State of Michigan introduce, pass, and sign into law this requested amendment to equitably and fairly provide all qualified cities this financing option for the purpose of preserving, maintaining and securing

proper and effective police and fire services to our residents, and in other qualified cities and our fellow residents of the State of Michigan.

Motion carried by the following vote: Yes: Bryant, Granger, Ketels, Koester, McConaghy, Novitke, Shetler.

No: None.

Absent: None.

Honorable City Council:

Re: Transfer of Jurisdiction, 2820 Central, Detroit, MI (Former Detroit Fire Department Engine 37).

The Detroit Fire Department ("DFD") has recently requested that the Finance Department transfer jurisdiction of 2820 Central to the Detroit Police Department ("DPD") for the purposes of housing its operations from Belle Isle, which have recently been displaced.

2820 Central is the former site of DFD's Engine 37, which utilized the site for fire fighting and EMS operations. The property contains an approximately 4,000 sq. ft. two-story building, a small storage garage and paved parking in the rear. Engine 37 is in the process of relocating to the DFD's facility at 4700 W. Fort, therefore DFD no longer requires use of the property.

City Planning Commission

January 13, 2014

Honorable City Council:

Re: Request of the Detroit Recreation Department to show an SD4 (Special Development District, Riverfront Mixed Use) where a PR (Parks and Recreation District) zoning classification is shown on Map Nos. 3 and 11 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, for the eastern portion of Chene Park and portions of the area, including a portion of Mt. Elliott Park, at the intersection of Wight Street and Mt. Elliott Street.

BACKGROUND AND PROPOSED DEVELOPMENT

The Detroit Recreation Department has petitioned the City Council to show an SD4 (Special Development District, Riverfront Mixed Use) where a PR (Parks and Recreation District) zoning classification is shown on Map Nos. #29 and #11 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, for the eastern portion of Chene Park and portions of the area, including a portion of Mt. Elliott Park, at the intersection of Wight Street and Mt. Elliott Street. The specific addresses are: 2200 E. Atwater, 3414 Wight Street, 301 Mt. Elliott Street and 110 Mt. Elliott Street.

This proposed change is being requested to allow redevelopment of a 0.72 acre portion of Chene Park and the light house depot building (0.85 acres of 3414 Wight Street) and its parking lot (0.67 acres of 301 Mt. Elliott Street) to the north for private development. Also proposed is the conveying of a 0.5 acre portion of Mt. Elliott Park (110 Mt. Elliott Street) and 0.24 acres of 3414 Wight Street to the Coast Guard for the expansion of their facilities.

This matter originally appeared on the July 18, 2013 City Planning Commission (CPC) agenda as a public hearing, but an error was made in listing the affected zoning maps and this was deemed to be a substantive error. Hence the hearing was re-held on January 9, 2014, at which time the (CPC) recommended approval. We are hopeful that the requisite ordinance will be approved-as-to-form by the Law Department prior to your January 16, 2014 Planning and Economic Development Committee meeting. Upon receipt of that ordinance and the full CPC recommendation the Committee could recommend the scheduling of a public hearing.

Respectfully submitted, DAVID L. WHITAKER, Esq. Interim Director, LPD GREGORY F. MOOTS

Staff

By Council Member Leland:

Department of Public Works City Engineering Division February 6, 2014

Honorable City Council:

Re: Petition No. 3013 — Jewish Vocational Services, Inc., request for renewal of the temporary closure of the northerly portion of the northsouth public alley in the area of Woodward, John R, Willis and Canfield.

Petition No. 3013 of Jewish Vocational Services, Inc., request the renewal of the temporary closing of the northerly portion of the north-south public alley, 15 feet wide, in the block bounded by Woodward Avenue, 120 feet wide, John R Street, 60 feet wide, Canfield Avenue, 60 feet wide and Willis Avenue, 100 feet wide.

City Council granted the first temporary public alley closing on the subject alley on June 9, 1970 (J.C.C. Pages 1424-25). City Council has approved extension and renewals of this temporary closing including January 21, 2004 (J.C.C. Pages 222-24).

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All involved City departments and privately owned utility companies have reported no objections to the temporary closure of this alley, provided they have the right to ingress and egress at all times to their facilities.

Provisions protecting the rights of the utilities and the City are a part of this resolution.

I am recommending adoption of the attached (renewal) resolution.

Respectfully submitted, RICHARD DOHERTY City Engineer City Engineering Division — DPW By Council Member Benson:

Whereas, The previous petitions to temporarily close the northerly portion of the north-south public alley, 15 feet wide, in the block bounded by Woodward Avenue, John R Street, Canfield Avenue and Willis Avenue have been granted by City Council.

Whereas, The petitioner complied with the terms, conditions and restrictions of the previously granted Council resolutions; therefore be it

Resolved. The City Engineering Division — DPW is hereby authorized and directed to issue a permit to Jewish Vocational Services, Inc., to temporarily close the north-south public alley, 15 feet wide, in the block bounded by Woodward Avenue, 120 feet wide, John R Street, 60 feet wide, Canfield Avenue, 60 feet wide and Willis Avenue, 100 feet wide lying westerly of and abutting the West line of Lot 4: also lying easterly of and abutting the East line of Lots 1 and 2 and the north 50.38 feet of Lot 3 (Park Lot 30) of "Fisher and Shearer's Subdivision of Park Lots 30 and 31" City of Detroit, Wayne County, Michigan as recorded in Liber 1, Page 15, Plats, Wayne County Records; on a temporary basis to expire March 1, 2019;

Provided, That the petitioner shall file with the Finance Department and/or City Engineering Division — DPW an indemnity agreement in form approved by the Law Department. The agreement shall save and protect the City of Detroit harmless from all claims, damages or expenses that may arise by reason of the issuance of permits and the faithful or unfaithful performance by the petitioner of the terms thereof. Further, the petitioner shall agree to pay all claims, damages or expenses that may arise out of the maintenance of the temporary public alley closing; and

Provided, The property owned by the petitioner and adjoining the temporary public alley closing shall be subject to the proper zoning or regulated use (Board of Zoning Appeals Grant) over the total width and length of the alley; and

Provided, The petitioner shall agree to pay all claims, damages or expenses that may arise out of the maintenance of the temporary public alley closing, and

Provided, No buildings or other structures of any nature whatsoever (except necessary line fence), shall be constructed on or over the public rights-of-way. - (c) Secured Party may transfer its rights and duties under this Agreement to a transferee to which, by contract or operation of law, the Secured Party transfers substantially all of its rights and duties under the Indenture or which is named as successor trustee under the Indenture.
- (d) No transfer under this Section will be binding upon a non-transferring party until the transferring party or the transfere notifies the non-transferring parties of the transfer in a writing signed by the transferee that identifies the transferee, gives the transferee's address for commu-

nications under this Agreement, and states that the transferee is a successor of the transferor or other transferee permitted under this Section and is entitled to the benefit of the transferring party's rights and has assumed all of the transferring party's duties under this Agreement.

- (e) A non-transferring party need not request proof of any transfer or that the transferee is a successor of the transferor or other transferee permitted by this Section. If requested by a non-transferring party, however, the transferring party or the transferee will provide reasonable proof thereof. If Bank or Secured Party, as a non-transferring party, requests such proof, then the effectiveness of the notification of transfer as to the non-transferring party will be suspended until the proof is provided.
- (f) When a transfer becomes binding on the non-transferring parties, the transferring party will not be entitled to exercise any rights, and will be relieved of its obligations, accruing under this Agreement from and after that time. Those rights may be exercised and those obligations will be incurred by the transferee.

(g) The provisions of subsections (d) and (e) requiring notification for a transfer to be binding on the non-transferring parties and suspending the effectiveness of the notification of transfer until reasonable proof of the transfer has been provided do not apply to Bank as the transferring party if the transfer is by operation of law and by operation of the law (i) the transferee succeeds to all or substantially all of the rights and becomes generally bound by all of the duties of Bank, including Bank's duties under this Agreement, and (ii) the Bank ceases to exist

Post-Petition Bond Financing —Commitment Fee

Dear Mr. Orr:

1. Reference is made to (i) the Commitment Letter dated as of October 6, 2013, as amended, and together with all attachments thereto, (the "Commitment Letter"), (ii) The Fee Letter, dated as of October 6, 2013, as amended, and together with all attachments thereto, (the "Fee Letter"), and (iii) the Commitment Letter Extension, dated as of January 7, 2014, in each case, between the City of Detroit, Michigan (the "City") and Barclays Capital Inc. ("Barclays"). Capitalized terms not defined herein have the meanings assigned to them in the Commitment Letter. Pursuant to the Commitment Letter, in exchange for, among other financial and other accommodations, Barclays' commitment to provided postpetition financing in an amount up to \$350,000,000, the City paid Barclays a commitment fee of \$4,375,000 (the "Commitment Fee"), which pursuant to the terms of the Fee Letter was fully earned on October 6, 2013, and was nonrefundable.

2. Originally, the Post-Petition Facility was expected to close in December 2013. In light of recent developments, the City and Barclays now intend to consummate a financing in an amount up to \$120,000,000. A significant portion of the Commitment Fee has been expended by Barclays on legal and other expenses between October 6, 2013 and today, but in light of the new lower facility amount, Barclays has agreed to refund to the City \$1,000,000 of the Commitment Fee at the closing of the contemplated transaction.

3. Moreover, notwithstanding the City's agreement pursuant to the Commitment Letter Extension to reimburse Barclays for certain legal fees in connection with potential litigation over the Post-Petition Facility, the City and Barclays agree as follows: (i) the City's obligations, if any, under the Commitment Letter Extension are terminated, (ii) the City will be responsible to Barclays for any reasonable legal fees and legal expenses incurred by Barclays after the date of this letter solely to the extent that such legal fees and legal expenses are incurred by Barclays as a result of third-party discovery or thirdparty litigation, in each case directed at Barclays in its capacity as lender, in connection with the city's efforts to obtain approval of the Post-Petition Facility in the bankruptcy court, and (iii) this agreement does not affect in any respect the City's obligations to Barclays, if any, for any professional fees or expenses incurred after closing by Barclays in connection with the Post-Petition Facility that arise under writagreements other than the

Commitment Extension Letter, Barclays hereby agrees that as of the date hereof, the City is not liable, in any respect, for any professional fees or expenses incurred to date by Barclays in connection with the Post-Petition Facility or otherwise. Finally, the parties agree that if the closing of the Post-Petition Facility has not occurred as of April 15, 2014 and not as a result of any action or inaction of Barclays, then it is the expectation of Barclays that it will not be requested to close the Post-Petition Facility unless the City reimburses it for transactional legal fees and expenses incurred after April 15. 2014 and through the date of closing; provided, however, that the City will not actually be liable for any such legal fees or expenses after April 15, 2014 unless there is a further written agreement between the parties evidencing such obligation.

As always, we are pleased to have been given the opportunity to continue to assist you in connection with this important financing.

Very truly yours,

BARCLAYS CAPITAL, INC.

COMMUNICATIONS FROM MAYOR AND OTHER GOVERNMENTAL OFFICIALS AND AGENCIES NONE.

PUBLIC COMMENTS:

Mr. John Lavue: Felt the lease for Joe Louis Arena was a crime. One year lease for a million dollars . . . it's just outrageous.

Also felt the deal that is taking place with the bankruptcy is a crime (loan for quality of life). It's a scheme to squeeze money out of the group that's in bankruptcy. The two crimes need to be dealt with; we don't need to just lay down on the tracks and say, i guess, that's the way it has to be.

Mr. Mike Cunningham: Complaint against the Detroit Department of Transportation's slow bus service (2 to 3 hours wait time) on major lines and Woodward Ave. Thanked the Mayor and City Council for going out and riding the buses, so thy can get a feel of what everyday citizens go through riding the buses. He is applauded the bankruptcy is trying to touch the Detroit Police Officer's pension. If anyone wants the Governor's phone number, call Toll Free (855) 313-3137 . . . and call also to get the number for Public Service Commission regarding regulations if you are having any problems with DTE Energy or anything of that magnitude.

Mr. Steve Boyle: There will be a rally today at 4:30 p.m. at Hart Plaza pertaining to being on the verge of potential war. We need Detroit to be addressed. Come to the rally and meet with people. Stand up for your city. March 22, 2014 is World Water Day. Get involved. it's our water, its our land, and it's our air.

Ms. Mary Lacey: We are forgetting about our seniors. Too many foreclosures — there are 40,000 in the State. Main objective is to make the Council Members and the people aware there are seniors out there suffering because of the eviction from Midtown to Downtown by any means necessary is a fraud by getting them evicted without due process.

Ms. Cindy Darrah: Felt Joe Louis Arena and Cobo Hall were never properly managed/monitored by Olympia, LLC (arena agreement from 2010). Originally they were in charge of the parking for Cobo Hall and Joe Louis Arena. They had a turn over of the manager I. They never rectified what they turned in for their receipts. Ms. Darrah stated she would leave a copy for City Council of the contract with the Clerk's Office. Last report was in 2007 — not sure if another report was done.

Mr. Aaron Goodman: Here on behalf of Community Advisory Councils. His organization is interested in seeing it move forward. Thanked City Council for continued efforts to implement this important Charter provision. His organization is encouraged by the discussion and the progress with the ordinance and the urgency of which Council has acted/worked to get it done. There are a couple

of concerns pertaining to the draft of the ordinance (i.e. the selection of the youth and senior members — City Council will have a role in selecting those members). His organization felt that would undermine the legitimacy of the CAC's role as an independent voice. Council President Brenda Jones directed Mr. Goodman to submit his concerns in writing to her office.

City Planning Commission March 17, 2014

Honorable City Council:

Re: Exterior changes to the Renaissance City Apartments, located at 555 Brush Street (Recommend Approval). The staff of the City Planning Commission (CPC) has received a request from Village Green Apartment to approve various exterior changes to the eastern façade of the Millender Center, for the Renaissance City Apartments, addressed as 555 Brush Street. These changes include:

- the replacement of the awning above the entrance to the apartments, located on Brush Street (which has already been done, prior to the issuance of the permit);
- a decorative cladding to the façade on the first two stories;
- the installation of new signage, both on the new awning and a vertical "blade" sign.

The PCA (Public Center Adjacent/Restricted Central Business District) zoning classification in which the building is located, calls for City Council approval of the location and design of proposed exterior alterations following the review and recommendation of the CPC and the Planning and Development Department (P&DD) (Sections 61-3-182 and 61-11-96 of the Zoning Ordinance).

PROPOSED MODIFICATIONS

The three maroon vinyl awnings which had been above the entrance are proposed to be replaced with a 65 foot-wide blue metal flat awning, suspended from the building by two cables, and extending over the sidewalk. This will likely require an encroachment permit from the Department of Public Works (DPW) prior to a building permit being issued. Presently a blue canopy has been erected over the door, again apparently without a permit. Faux plantings will be mounted to the awning. Also proposed is brown cladding with blue stripes, located above the new awning, that will be attached to the building above the awning and extending up one story.

Individual stainless steel letters will be located on top of the awning at its front edge, spelling "Renaissance City Apartments', and illuminated by uplighting. These will be 18 inches tall and span 31 feet. These will total 46.5 square feet of signage. Also proposed is a blue vertical sign at the northern end of the awning, mounted to a column and saying "RCA" in white illuminated 36 inch tall letters. It will extend thirty feet above the awning and be five feet eight inches wide.

Finally proposed are planters on the sidewalk in front of the apartment entrance. These will require a separate encroachment permit from the DPW.

REVIEW

In accordance with the Special District Review provision of Sec. 61-3-185 of the Detroit Zoning Ordinance and the PCA provisions of Section 61-11-97, reviews of proposed changes are to be addressed as follows:

(11) Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner. The individual letters on the awning appears tasteful. The scale of the blade sign appears to be somewhat larger than necessary, but could be approved.

(15) Urban design elements of form and character should be carefully considered; such elements include, but are not limited to: richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate: continuity of experience, visual activity and interest; articulation and highlighting of important visual features; preservation/ enhancement of important views and vistas. The plantings on the awnings certainty break up the façade. The planters on the sidewalk will have to be carefully reviewed in their final placement to avoid blocking the public sidewalk. They do add visual interest.

After review and discussion with P&DD staff, the proposed changes appear to meet the requirements of the Zoning Ordinance. The planters on the sidewalk and awning will require a separate encroachment permit from the Department of Public Works.

RECOMMENDATION

CPC staff has completed its review of the proposed alterations, as has the Planning and Development Department staff. We find that the exterior changes would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed change. Please find attached the appropriate resolution to effectuate your approval.

City Planning Commission March 17, 2014

Honorable City Council:

Re: Exterior changes to the City Market, located at 575 Brush Street (Recommend Approval).

The staff of the City Planning Commission (CPC) has received a request from Sign Emporium, on behalf of City Market, to approve various exterior changes to the northern and eastern

façades of the Millender Center. The City Market is located at 575 Brush Street. These changes include:

- the removal of the red awnings and signage above the entrances to the store, facing on Brush Street;
- the installation of a "City Market" sign above the northern set of doors;
- The installation of two (2) vertical "blade" signs, one facing north-south and the other east-west, at the corner of East Congress and Brush Streets;
- a decorative light band wrapping around the corner.

The PCA (Public Center Adjacent/Restricted Central Business District) zoning classification in which the building is located, calls for City Council approval of the

location and design of proposed exterior alterations following the review and recommendation of the CPC and the Planning and Development Department (P&DD) (Sections 61-3-182 and 61-11-96 of the Zoning Ordinance).

PROPOSED MODIFICATIONS

The two maroon vinyl awnings with painted-on signage above the entrances are proposed to be removed. A new 20.8 square foot "City Market Since 1987" sign would be mounted to the building. The "City Market" letters would be individual 25 inch tall channel letters mounted to a green back-lit backerboard.

At the northeast corner of the building two internally illuminated "blade" signs would be mounted, one visible to Brush Street traffic and the other to East Congress Street traffic. These are proposed to be 9 feet, 10 inches tall and project approximately 30 inches from the building, and total 22 square feet in size. These would be green with white letters, mounted above the first floor of the building.

A 12 inch tall white light band is proposed to be mounted at the bottom of the brown horizontal accent band of the building along Brush Street and East Congress around the whole perimeter of the store, extending 138 feet in total.

REVIEW

In accordance with the Special District Review provision of Sec. 61-3-185 of the Detroit Zoning Ordinance and the PCA provisions of Section 61-11-97, reviews of proposed changes are to be addressed as follows:

(11) Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner. The individual letters are preferable to the painted-on signage on the current awnings. The scale of the blade signs appears to appropriate. The sign band has the potential to either add liveliness to the corner or be overwhelming. Appropriate brightness, with of course dimming at night, is essential.

After review and discussion with P&DD staff, the proposed changes appear to meet the requirements of the Zoning Ordinance. The blade signs will require a separate encroachment permit from the Department of Public Works.

RECOMMENDATION

CPC staff has completed its review of the proposed alterations, as has the Planning and Development Department staff. We find that the exterior changes would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed change, with the condition that the light band have a dimmer that automatically reduces the brightness at night. Please find attached the appropriate resolution to effectuate your approval.

City Planning Commission February 3, 2014

Honorable City Council:

Re: The request of Third New Hope Baptist Church to show a P1 (Open Parking) zoning district classification (Single-Family an R1 Residential District) zoning district classification is currently shown on Map No. 70 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, for the land bounded on the east by Steel Ave., the alley north of Plymouth Ave. to the south, Sorrento to the west and on the north by a line approximately 400' north of the Plymouth (Recommending Approval).

NATURE OF REQUEST

The City Planning Commission (CPC) has received the request of Third New Hope Baptist Church to amend District Map No. 70 of the Detroit Zoning Ordinance to show a P1 zoning classification where an R1 zoning district classification is presently shown on vacant land bounded on the east by Steel Ave., the alley north of Plymouth Ave. to the south, Sorrento to the west and on the north by a line approximately 400' north of Plymouth Rd.

The request is being made to allow for

a parking lot with requisite paving, landscaping and fencing. The parking will serve the church which is immediately to the east across Steel, fronting on Plymouth. Subsequently, the Church intends to develop a community center on the remaining R1 land to the north. The community center will be subject of a future review and approval when the petitioner is prepared to proceed. The vacant B4 frontage is currently used for parking. This land along with the lone commercial structure, which is occupied by an unrelated church, in that B4 district would also become part of the larger institutional campus with the existing Third New Hope Baptist Church to the east and the future community center.

Third New Hope Baptist Church is the owner of the subject property and several other properties in the area. The entire block, which is bounded by Plymouth, Sorrento, Wadsworth and Steel, is vacant with the exception of two single-family homes fronting Sorrento just north of the property to be rezone as well as the above mentioned unrelated church. The petitioner indicates that the other church has no objection to these plans and the Commission has not received any communication to the contrary.

The proposed plans for this site and the ordinance effectuating this rezoning will be forwarded under separate cover once the Ordinance has been reviewed and approved as to form by the Law Department. Since this is a rezoning to a zoning classification that does not require

special district review, the plans for this surface parking lot are not subject of the rezoning approval.

SURROUNDING ZONING AND LAND

The zoning classification and land uses surrounding the subject area are as fol-

North: R1; vacant land existing occupied single family residential structures

R1 and B4 (General Business District); existing single-family residential structures, surface parking and the church

South: B4 and R1: existing commercial structures and single-family residential beyond

West: R1 and B4; existing single and multiple-family residential structures

ANALYSIS

Zonina

A P1 zoning classification would allow the use of a parking lot for operable private passenger motor vehicles as a byright use. As designed, the P1 classification is intended to serve as a buffer between non-residential districts and residential districts.

In this instance, the P1 District would serve to alleviate the neighborhood from cars parking on both sides of the streets and the related traffic movements concurrent with activities at the church. The proposed P1 District would provide for ingress and egress along Sorrento, Plymouth, through the B4 frontage and keep the additional traffic from the local residential streets.

The Zoning Ordinance in Section 61-14-222 requires a ten (10) foot-wide side setback for accessory parking lots that abut residential areas with an existing structure. In addition, a five (5) foot-wide setback is required along the public rightof-way not exceeding 60-feet in width. The P1 District requirements in Section 61-13-81 of the Zoning Ordinance mandate that the front setback must be equal with the existing set-back of the residential structure along adjoining streets. Lastly, a 6foot high opaque fence is required within the ten (10) foot-wide side yard. Non compliance with these or any other dimensional requirements of the Zoning Ordinance may result in seeking relief via the Board of Zoning Appeals.

Master Plan

The subject site is located within Neighborhood Cluster 7 of the Mackenzie Subsector of the Detroit Master Plan of Policies. The existing land use designation for the subject area is vacant and the future land use designation is Low Density Residential. The Planning and Development Department makes the determination as to the proposal's consistency with the Master Plan and finds this proposal to be in keeping with its provisions

CONCLUSIONS AND RECOMMENDA-TION

The P1 zoning district is intended to serve non-residential uses in order to reduce or avoid conflicts with residentially used land. This P1 district will serve an institutional use, the Church, with major street frontage along Plymouth. It will work in conjunction with the other existing surface lots that presently serve the Church and also front on Plymouth or Steel. Ultimately, this property is envisioned as serving as a key component of a neighborhood institutional campus.

Based on the Commission's analysis and consistent with the approval criteria of Sec. 61-3-80 of the Zoning Ordinance, the City Planning Commission recom-mends approval of this request by Third New Hope Baptist Church.
