City Planning Commission

July 10, 2017

Honorable City Council:

Re: Special District Review and approval for waterproofing, repair and replacement of the grounds and subsurface structure at the eastern end of the Coleman A. Young Municipal Center **(RECOMMENDING APPROVAL)**

REQUEST AND PROPOSED ACTIVITIES

The Detroit-Wayne Joint Building Authority has proposed and otherwise conducted work around the Coleman A. Young Municipal Center, which requires Your review and approval under the Special District Review provisions for the Public Center zoning classification under Section 61-3-181 through 61-3-187 of the Zoning Ordinance.

From November through December of last year waterproofing repairs were made below grade at the north east corner of the building from the parking lot along the access ramp to the loading dock. This work was subject to Special District Review, but it was submitted by the Building Safety Engineering and Environmental Department to the City Planning Commission staff until long after the work was completed. Today work begins on the surface parking lot that is also subject of Special District Review. Repairs to the catch basins, replacement of crumbling sections of concrete and the resurfacing of the entire lot are to be conducted this week.

REVIEW AND RECOMMENDATION

City Planning Commission staff has met with representatives of the building authority in review of these projects as well as the required process of the zoning ordinance. This information is also been shared with our colleagues at the Planning and Development Department via this communication. Given that the primary thrust of these projects is/was the repair and replacement of existing systems. We recommend retroactive approval of both projects as the waterproofing project is complete and the work on the parking lot is expected to be complete by July 17th subsequent before your next Formal Session. Staff would like to remind City Council that this work was at least spoken to during presentations by the Authority to Your Honorable Body over the course of the last year and a half.

A resolution approving this work and authorizing the issuance of building permits will be prepared consistent with Your Honorable Body's direction in this regard. Should you have any questions please contact this office.

Respectfully submitted,

MARCELL R. TODD, JR., Director

A RESOLUTION RETROACTIVELY AUTHORIZING WORK AT THE COLEMAN A. YOUNG MUNICIPAL CENTER AND ADDRESSING CONCERNS WITH THE EXECUTION OF SPECIAL DISTRICT REVIEW

By Council Member Leland:

Whereas, The Coleman A. Young Municipal Center (CAYMC) is located within an established PC (Public Center) zoning district; and

Whereas, The Detroit-Wayne Joint Building Authority, which owns and operates the CAYMC, has initiated various improvements and repairs to the Center over the years of its existence; and

Whereas, most recently the Detroit-Wayne Joint Building Authority, has initiated waterproofing repairs below grade to the east end of the building as well as alterations to the loading dock and adjacent landscaping, and is currently undertaking repairs to catch basins, replacement of concrete and resurfacing of the parking lot at the east end of the Center; and

Whereas, work to be performed within a PC zoning district requires Special District Review and the purpose of the PC zoning district classification is provided for in Section 61-11-61 of the Zoning Ordinance as follows:

This district includes areas used or to be used for governmental, recreational, and cultural purposes of particular or special civic importance. All construction or other improvement within this district requires that the Planning and Development Department and the City Planning Commission review and make recommendations to City Council, as provided for in ARTICLE III, DIVISION 6 of this Chapter so as to ensure a completely harmonious, pleasing, and functional public center; and

Whereas, these most recent works undertaken by the Detroit-Wayne Joint Building Authority, as described above, were not submitted for Special District Review prior to the commencement of the work or the securing of applicable permits and, therefore, lacks Your approval; and

Whereas, The Detroit City expects the provisions of the Zoning Ordinance to be followed; and

Whereas, the PCA (Public Center Adjacent) zoning classification is also

subject to Special District Review and the purpose of that district is provided for in Section 61-11-81 of the Zoning Ordinance as follows:

The Public Center Adjacent District (Restricted Central business district) includes property in close proximity to the Public Center District, and the controls specified in this division are designed to prevent any uses or structures within the district from having a deleterious effect upon the public center. Uses in this district shall include, to the maximum extent possible, ground-floor commercial space or other space oriented to pedestrian traffic; to enhance the public streetscape and street-level activity; and

Whereas, the integrity of this Special District Review process as well as the zoning districts it serves is dependent upon adherence to these provisions of the Zoning Ordinance by the requisite City agencies/personnel as well as the owners and managers of properties within those zoning districts; and

Whereas, the City Council has received the CPC staff recommendation relative to recently performed or currently in progress work by the Detroit-Wayne Joint Building Authority at the CAYMC in the report dated July 10, 2017 and as discussed at the Planning and Economic Development Standing Committee meeting of Thursday, July 13, 2017; and

Whereas, it may be necessary to reinforce knowledge of the circumstances and corresponding regulation described above. Now, Therefore Be It

Resolved, That the Detroit City Council hereby authorizes, retroactively, the recent work undertaken by the Detroit-Wayne Joint Building Authority to repair and alter the premises of the Coleman A. Young Municipal Center; And Be It Further

Resolved, That the City Planning Commission prepare and distribute communications to the Detroit Wayne Joint Building Authority, the Buildings, Safety Engineering and Environmental Department and other agencies as deemed appropriate, as well as the taxpayer of record and/or property manager of those properties located within PC and PCA zoning districts informing them of the provisions and processes for these zoning districts as provided for in Chapter 61 of the Detroit City Code, Zoning.

Housing and Revitalization Department

July 12, 2017

Honorable City Council:

Re: Revised Request for Approval of the July 2017 HOME Loan Modification and NSP Contract Amendment with General Fund Allocation

The Housing and Revitalization Department (H&RD) is working to extend affordability periods with existing HOME developers/borrowers, and is recommending modification of loans to conditional loans for developers of two HOME projects. These projects are nearing the end of their respective affordability periods and are no longer able to keep pace with increasing overhead costs and make required repairs. H&RD has negotiated partial loan payoff and debt forgiveness for one project, Petoskey Place, and debt forgiveness of principal and interest payments for the second project, Pilgrim Meadows. Petoskey Place LDHA LP will make a onetime principal payment of $84,000 in order to convert the unpaid balance of its HOME loan to a self-amortizing loan (conditional) over 14 years with no additional debt payments. College Park Manor is requesting to convert an existing HOME loan to a self-amortizing loan (conditional) over 15 years with no additional loan payments. Both loan modifications will extend the affordability period for tenants for the balance of the new conditional loan term, 14 and 15 years respectively.

H&RD has also been working with the Villages CDC (an NSP3 developer) to facilitate the rehabilitation of two remaining homes in their inventory for middle income purchasers (market rate). To accomplish this objective, H&RD will reimburse construction and prorated soft costs expenditures made on these properties prior to the end of the NSP 3 program. The sum of these expenditures totals $252,217, and an additional sum of $7,500 will be used to discharge mortgages, remove NSP3 restrictions from NSP3 contracts and agreements and record new documents.

The properties were originally "mothballed" for completion with program income after the NSP3 program closeout. Now, repair costs have substantially increased, but, the neighborhood housing market has strengthened. H&RD has approved the developer's request to remove NSP3 income limits, affordability, and other NSP3 program restrictions from 1450 and 1813 Seyburn. This action will allow the developer and purchasers of the homes to take advantage of other private financing tools, to complete the rehabilitation of the homes (without additional City Assistance).

The proceeds of the project buyout will be returned to the City's NSP program account and will be available to assist other NSP3 housing activities that include homebuyer assistance and or repairs to rental development occupied by income eligible tenants. H&RD has identified General Funds to be carryover from the 2016-17 budget to fund the reimbursement.

Consistent with the new process adopted by City Council in 2012 for approving HOME, NSP and other Development awards and development partners, the Department is requesting your Honorable Body's approval of the attached resolution with the list of developers and borrowers with appropriate allocation actions and HOME Loan modification requests. A Waiver of Reconsideration is requested.

City of Detroit
Office of the Chief Financial Officer

June 5, 2017

Honorable City Council:

Re: Office of the Chief Financial Officer (OCFO) Proposal to Establish the City of Detroit Retiree Protection Trust Fund.

The OCFO respectfully requests the Detroit City Council's approval of the proposed ordinances to establish the City of Detroit Retiree Protection Trust Fund (Exhibit A) and to repeal defunct provisions in the Detroit City Code related to the Pension Obligation Certificates of Participation, which were eliminated in the City's bankruptcy proceedings (Exhibits B and C). The key elements of the Retiree Protection Fund are summarized below and in the attached fact sheet (Exhibit D).

The OCFO also respectfully requests the City Council's approval by resolution of the proposed Retiree Protection Trust Fund Agreement between the City of Detroit and the Bank of New York Mellon Trust Company, N.A. (Exhibit G), as the initial trustee, and with the attached fee schedule (Exhibit H).

Background

Under the City's bankruptcy plan of adjustment (POA), the City's required pension contributions to its legacy plans are based on a fixed schedule through FY 2023. Beginning in FY 2024, the City's required pension contributions to its legacy plans will be based on a funding policy to be established by the Retirement Systems to amortize the remaining unfunded actuarial accrued liabilities of each legacy plan. Under these requirements, the City's General Fund required contributions will increase from zero in FY 2023 to an estimated $143 million annually beginning in FY 2024. That FY 2024 estimate is based on the City's proposed 30-year level dollar amortization and is subject to future change based on the pension plans' actual results and adopted funding policies.

To meet this challenge, the City has already taken substantial actions to date, including:

- March 2016: Approved the FY 2017-2020 Four-Year Financial Plan, which included an initial $10 million annually in additional legacy pension funding above the POA requirement.
- June 2016: Appropriated an additional $30 million for legacy pensions in FY 2016.
- June 2016: Retained actuarial consultant Cheiron to assist the City in developing a legacy pension funding strategy.
- March 2017: Adopted a pension funding strategy (attached as Exhibit E and discussed below) to provide an additional $335 million above the POA requirement through FY 2023 and built the strategy into the approved FY 2018-2021 Four-Year Financial Plan.
- April 2017: Appropriated the additional $50 million in FY 2017 included in the pension funding strategy, bringing total appropriated funds to $90 million through FY 2017 out of the $335 million proposed through FY 2023.

The City's legacy pension funding strategy is to contribute to the proposed Retiree Protection Fund (RPF) through FY 2023 to build up trust assets that will be used to partially offset the City's required pension plan contributions beginning in FY 2024. This process allows the City to gradually build up its capacity to meet the annual required pension contributions from its General Fund budget.

Once the RPF is established, the City

will deposit the $90 million appropriated through FY 2017 into the RPF. During FY 2018, the City will deposit the $15 million appropriated in that year into the RPF. In subsequent years through FY 2023, the City will deposit the amounts appropriated in those years into the RPF. In addition to these principal deposits, the RPF assets will earn investment income. Beginning in FY 2024, the annual pension contributions appropriated in the City's budgets, together with any RPF withdrawals, will satisfy the City's required annual contributions.

Establishing the Retiree Protection Trust Fund

The proposed ordinance attached as Exhibit A would establish the RPF as a permanent irrevocable trust to receive, maintain and invest City funds restricted for future deposits to the legacy pension plans. Once funds enter the RPF, the City cannot take them back so long as the City has an unfunded legacy pension liability. Through the annual budget process, the City retains discretion over when and how much to utilize from the RPF to support its annual legacy pension contributions. The City also retains control over RPF investment risk, subject to applicable State law (see Exhibit F for additional detail).

The RPF Trustee must be a financial institution with trust powers and be eligible under applicable law to serve as a trustee. The Trustee will be answerable to the City through the Chief Financial Officer (CFO), who supervises all of the City's financial and budget activities pursuant to State Law. the proposed financial institution is Bank of New York Mellon (BNYM), which has a downtown Detroit office, and meets the requirements to serve as trustee. The proposed trust agreement with BNYM, as the initial trustee, is attached as Exhibit G. Its fee schedule is attached as Exhibit H.

The Trustee invests RPF assets per the CFO's instructions. An investment advisory committee advises the CFO on RPF investments. The eight-member investment advisory committee is chaired by the CFO (or a designated Deputy CFO) and includes three independent members each from the General Retirement System and Police and Fire Retirement System investment committees (selected by their respective chairpersons) as well as one member appointed by the City Council.

Through FY 2023, the CFO will deposit the amounts appropriated in those years into the RPF in one or more installments made during each year. Beginning in FY 2024, the Trustee will transfer RPF assets to the pension plans per the CFO's instructions, which are made in accordance with the City's approved annual budgets to fund legacy pension contributions. Once all RPF assets have been completely transferred to the pension plans over a number of years, the City will terminate the RPF as it will no longer serve a purpose. At that point, the City will have gradually built up its capacity to meet the annual required pension contributions from its General Fund budget.

Repealing Defunct Provisions in the Detroit City Code related to the Pension Obligation Certificates of Participation.

The proposed ordinances attached as Exhibits B and C would repeal defunct provisions in the Detroit City Code related to the Pension Obligations Certificates of Participation (POCs), which were eliminated in the City's bankruptcy proceedings. If desired, the Law Department can provide additional detail on why these provisions have no continuing purpose or validity, and thus, should be repealed.

We thank you in advance for your consideration of the above proposals.

Sincerely,
JOHN W. HILL
Chief Financial Officer
Office of Grants Management

Re: City Council Recess from: Wednesday, July 26, 2017 through Wednesday, September 5, 2017.

Ordinance No. 15-00, Chapter 21, Article 3, requires the approval of your Honorable Body for the purchase of goods and service over the value of $25,000, all contracts for person services renewals or extensions of contracts, or the exercise of an option to renew or extend a contract. Based upon the above scheduled recess, there will be a delay in obtaining your approval for needed goods and services. Therefore, during the Recess, I request that your Honorable Body approve our purchase of Goods and Services requiring your Approval under Ordinance No. 15-00 under provisions as follows:

1. Weekly list of Contract Agenda Items, which are distributed by the Office of the City Clerk to Members of the City Council each Thursday, will be held through Wednesday of the following week. On May 30, 2017, your Honorable Body approved authority to accept a case evaluation award and settle the above-captioned lawsuit in the amount of thirty Thousand Dollars and No Cents ($30,000.00) in favor of Plaintiff Daletha Forts. Mayor's Office

July 19, 2017

Honorable City Council:

At the suggestion of the Legislative Policy Division, I am attaching a revised Resolution regarding the Agreements relating to the Gordie Howe International Bridge Project.[1]

There is only one substantive difference between this revised Resolution and the previous draft. That is a clarification that — of the 13 City-owned property parcels being purchased by MDOT — the City of Detroit holds title to twelve, and the Department of Water and Sewerage ("DWSD") holds title to the remaining parcel.[2] The monies received from that DWSD parcel will ultimately remain with DWSD.

Relatedly, I also wish to provide some clarification as to the amount of money the City will receive from the Agreements. All told, the Agreements will provide for approximately $45,021,630.00 in payments made to the City. That number is inclusive of $8,500,000.00 in workforce-development funds that will be paid by the State to the Detroit Employment Solutions Corporation ("DESC") — the City-affiliated entity that is eligible to receive federal and state workforce development funds.

In addition, four other city-related entities also sold properties and assets pursuant to the Agreements. Specifically, DLBA, PLA, DWSD and the Economic Development Corporation all sold properties and assets located in the Gordie Howe project footprint. The monies received for those assets are restricted for use by the entities that owned them. The total amount of money that will be paid to DLBA, PLA, DWSD and the Economic Development Corporation pursuant to the Agreements is $3,393,836.00.

Thus, the total amount that is being paid to the City and City-related entities pursuant to the Agreements is $48,415,466.00. That figure represents the sum of the $45,021.630.00 that will be paid to the City (and DESC), and the $3,393,836.00 that will be paid to DLBA, PLA, DWSD and the Economic Development Corporation.

In addition to the revised Resolution, I have attached two documents. The first is a Sources and Uses chart specifying the breakdown of bridge-related funds, with the monies that are to be received by DLBA, PLA, DWSD and the Economic Development Corporation highlighted. The second is a flow chart indicating how funds related to the Agreements are to be received and used.

For avoidance of any doubt, none of the underlying Agreements have been changed, nor have any of the City's obligations under the Agreements. The revision outlined above is solely for the sake of clarification.

I look forward to answering any of your questions.

Sincerely,
ELI SAVIT
Senior Advisor and
Counsel to the Mayor

Collectively, these entities are referred to as the "Parties" and each as a "Party".

The purpose of this Agreement is to effectuate the transfer of properties, assets and/or interests that are owned and jurisdiction that is exercised by any Detroit Party and located within the boundaries of the GHIB project to facilitate construction of the GHIB.

This Agreement is consistent with the 2012 Crossing Agreement between Michigan and Canada, which requires Michigan to acquire properties, and related assets and interests, located within the GHIB project boundaries. All amounts required to be paid by MDOT under this Agreement are being initially buy MDOT but this Agreement are being initially paid by MDOT but fully reimbursed by the Windsor-Detroit Bridge Authority, a Canadian Crown corporation. The conveyance, transfers, dates and payments set forth in this Agreement have been established in consideration of the anticipated construction schedule and other requirements for the GHIB project.

The obligations outlined in this Agreement shall not bind any of the Parties until such time as this Agreement is fully executed by all the Parties, is approved by the respective boards of DWSD, DLBA, PLA, and EDC in a resolution acceptable to MDOT, and the Detroit City Council approves both this Agreement and the vacation of the Permanent Road Segments (defined below) in a resolution acceptable to MDOT (the "Effective Date").

Agreement – Jurisdictional Transfer

AGREEMENT
JURISDICTIONAL TRANSFER
(Between City of Detroit and MDOT)

This Agreement (**"Agreement"**) is entered as of June 19, 2017, between the Michigan Department of Transportation (**"MDOT"**), and the City of Detroit and all of its agents, officers, and departments, all acting by and through the City's Mayor's Office (**"City"**), for the purpose of transferring jurisdictional control of certain road and alley segments within the City of Detroit to MDOT to help facilitate construction and operation of the proposed Gordie Howe International Bridge project (**"Facility"**). Collectively, these entities are referred to as the "Parties" and each as a "Party". The Facility will provide a new transportation bridge connection between the United States and Canada over the Detroit River.

The road and alley segments are defined in the attached Exhibit A, and shown on attached Exhibit B. Certain road and alley segments identified in Exhibits A-1, A-2 and B shall be permanently transferred to MDOT (**"Permanent Road Segments"**). Certain other road segments identified in Exhibits A-3 and B shall be temporarily transferred to MDOT (**"Temporary Road Segments"**) and will be returned to the City at the completion of construction of the Facility. The Permanent Road Segments and Temporary Road Segments are collectively referred to as the "Road Segments".

The City is willing to transfer jurisdictional control of the Road Segments to MDOT and MDOT is willing to accept jurisdictional control of the Road Segments on the terms and conditions set forth in this Agreement.

In addition, MDOT agrees to make certain infrastructure improvements on the terms and conditions set forth in this Agreement.

This Agreement is consistent with the 2012 Crossing Agreement between Michigan and Canada, which requires Michigan to acquire properties located within the Facility. All costs associated with the jurisdictional transfer of the Road Segments and the infrastructure improvements transfers addressed in this Agreement are being initially paid by MDOT but fully reimbursed by the Windsor Detroit Bridge Authority, a Canadian entity. The transfers and construction set forth in this Agreement have been established in consideration of the anticipated construction schedule and other requirements for the Facility.

This Agreement is conditioned on the Detroit City Council's adoption of a resolution approving both that certain "Agreement – Transfer of Properties, Assets, Interest, and Jurisdiction" and that certain "Agreement – Leases and Services", and is further conditioned on each of those Agreements being signed by all the parties thereto and in full force and effect. The effective date of this Agreement (**"Effective Date"**) shall be the same as the effective date of the foregoing "Agreement – Transfer of Properties, Assets, Interest, and Jurisdiction".

EXHIBIT C
CONNECTIVITY & COMPLETE STREETS IMPROVEMENTS

I. **Service Drive Pedestrian Bridge Access Points at Beard, Waterman, Solvay, Junction and Lansing.**

Ensure safe pedestrian and cyclist access to these pedestrian bridges by providing enhanced Service Drive crossings. This work shall include the following at a minimum:

1. Build pedestrian bridges across I-75 at Beard, Waterman, Solvay, and Lansing and at grade crossings of the service drives.

2. Build pedestrian bridge across I-75 and the service drives at Junction (in replacement of the crossing at Morrell contemplated in the EIS). On the north side of (I-75 and the service drive the bridge will transition to grade. The entrance to the bridge structure will align with any future multi-use trails in the area.

3. Curb extensions to minimize the pedestrian/cyclist crossing distance across the Service Drive.

4. Raised intersections at either the closest intersect or at mid-block crossings along the Service Drive, such that the function of the service drive is not altered.

5. Provide FHWA-standard "international" thermoplastic crosswalk striping to clearly define pedestrian crossing areas both along and across the Service Drive.

6. Provide pedestrian countdown signals at all signalized intersections and pedestrian signals at all mid-block crossings related to the pedestrian bridges along the Service Drive.

7. A continuous, fully accessible sidewalk will be provided along the City side of the Service Drive at a minimum, and sidewalks will be provided between the Service Drive and the I-75 main line when necessary to connect the entrance of each pedestrian bridge to the nearest intersection both to the east and west, or to a signalized mid-block crossing.

8. 2.5-inch caliper deciduous shade trees will be provided in the parkway between the sidewalk and the street every 25 feet between Springwells and Clark. Where there is no sidewalk between the Service Drive and the I-75 mainline 2.5-inch caliper deciduous shade trees will be provided every 25 feet. SucKh trees shall be planted so as not to obstruct intersection sight distance.

9. Landscape enhancements at the City side of the sound walls with year-round interest.

10. The maintenance of all landscaping installed by the project will be the responsibility of the City, including landscaping on the road bridges over (I-75. Landscaping installed in I-75 right-of-way shall be the responsibility of the State of Michigan.

11. All plant material plans and specifications that will be the maintenance responsibility of the City of Detroit will be reviewed by the City of Detroit prior to installation.

12. On the south side of I-75 and the service drive the bridge will transition to grade on the Junction right of way between the east bound service drive and Fort Street per the cross-section in the detail drawings below. The bridge will be on structure until clearance below bridge structure is 10' or less. Once the clearance is less than 10' the bridge will be on fill. Lighting will be provided on the underside of the bridge to address safety but not light trespass in adjacent residents or businesses. Junction will be reconstructed in this area to match the cross section in the detail drawings below for the entire length between the east bound service drive and Fort street, including 2.5" caliper street trees every 25' on the east side of the street and irrigated planters adjacent to the west retaining walls which will contain vines or other plant material to be recommended approved by the City of Detroit. The bridge will safely transition to the Junction and Fort intersection.

13. Junction will be converted into a one way street between the service drive and Fort Street and MDOT will work with the City of Detroit to cause this to happen and determine the flow of traffic.

14. The mid-block alley on the west side of Junction will be closed with decorative bollards to through vehicle traffic but remain open for pedestrian and bicycle traffic.

15. The retaining walls and columns of the bridge will have a decorative treatment to match both the aesthetics of the bridge and the materials and style of the adjacent buildings.

16. New street lighting will be provided on Junction between the east bound service drive and Fort Street.

II. **Service Drive: Vehicular Crossings at Springwells, Green, Livernois and Clark Street.**

Provide the following enhanced multimodel infrastructure along the Service Drive at Vehicular crossings:

1. Remove vehicular turn-around lanes on freeway bridges; to be replaced with standard left-hand turn lanes, pending the City's Department of Public Works ("DPW") traffic review and approval.

2. Provide protected intersections per NACTO guidelines at Service Drive to ensure connectivity and safety of all modes at these locations.

3. Provide FHWA-standard "international" thermoplastic crosswalk striping to clearly define pedestrian crossings on the Service Drive to vehicular bridges, complete with all countdown pedestrian signals, and bike signals (as required for a multi-use path, or to separate left-turn or turn-around from bicycle movements). Provide clear bike-lane markings through the intersection following NACTO guidelines.

4. Work with the City to study, determine and implement changes to Livernois/Dragoon to allow for logical flow of two-way traffic and to identify if traffic should run two-way or one-way on these streets due to the removal of the Dragoon overpass connection.

5. The following applies to Livernois and Clark only: Include 8-12-foot sidewalks on both sides of the bridges, 6-foot protected bike lanes on both sides of the bridges and at least 6-foot landscape buffers on both sides of the bridges. Final number of traffic lanes, not to exceed two in each direction, to be determined through a review of traffic movements and approval of DPW. Refer to detail drawings below.

6. The following applies to Green and Springwells only: Include 12' and 8' respectively (refer to detail drawings below) sidewalks on these bridges, 6-foot protected bike lanes on both sides of the bridges and 6-foot landscape buffers on both sides of the bridges. Final number of traffic lanes, not to exceed two in each direction, to be determined through a review of traffic movements and approval of DPW. Refer to detail drawings below.

7. Provide adequate lighting for pedestrians, cyclists and motorists.

8. Provide irrigated landscape buffers between motorists and bicyclists, and motorists and pedestrians.

9. All landscaping, including irrigation systems, to be maintained by the City. Plant material and irrigation plans and specification to be reviewed by the City of Detroit prior to installation.

III, **South Bound Service Drive: Realignment to accommodate future multi-use trail on north side of eastbound Service Drive.**

MDOT will work with the City to review the alignment of the Southbound Service Drive, and to the extent possible, with minimal cost, re-align the road up to 15 feet, between Casgrain and the alley east of Cavalry.

IV. **Complete Bicycle Network on Campbell and Green.**

Complete the following work to construct a greenway from GHIB Plaza to I-75 Freeway crossings at Green St. and Campbell/Junction streets, including:

1. Extend the proposed, separated multi-use path along Green and Campbell to the enhanced pedestrian crossings over I-75 at Green and the new pedestrian bridge at Junction.

2. Identify and provide a safe transition from the two-way off-road path to the two single-direction protected on-street bike lanes, complete with all required pavement markings, countdown pedestrian signals (or bike signals, if required), and way-finding to make this transition safe and intuitive.

3. Provide 2.5" caliper trees 25' on center wherever a parkway between the sidewalk and street is provided and at the transition slopes on either side of the cross section, see detail drawings below.

V. **Jefferson Avenue.**

Provide improvements between Campbell and West End Avenue (improvements to be mirrored on both sides of the street, unless otherwise noted) as follows:

1. Installation of new 6-foot sidewalk with a 5-foot, curb-adjacent grass parkway; right-of-way permitting on the south side.

2. Installation of a row of shade trees along the sidewalk in the parkway, no less than 2.5 inches in caliper, spaced at 25 feet on center.

3. A protected two-way cycle track along the north side of Jefferson a minimum of 11' wide and buffered from the street with a minimum 5' irrigated landscape buffer.

4. In areas not scheduled for reconstruction, patch and repair curb and gutter and mill and fill asphalt. Pavement section to consist of 1.5" depth of milling and1.5" overlay with HMA 5E3 Top Course.

VI. **Fort Street between Green and Junction.**

Provide improvements between Green and Junction in connection with the construction of the Facility (improvements to be mirrored on both sides of the street, unless otherwise noted). The City agrees to effect changes in street parking to incorporate the desired cross-section:

1. Installation of new 7-foot sidewalk, with a 5-foot, curb-adjacent parkway.

2. Repair of existing sidewalks including ADA ramps at all intersections where they do not already exist to meet code. Driveway reconstructions with continuous pedestrian path design per NACTO standards.

3. Installation of row of shade trees within the sidewalk adjacent to the curb, no less than 2.5 inches in caliper, spaced at 25 feet on center and curb adjacent with tree grates.

4. A 6-foot protected cycle track along both sides of the street, separated from traffic by a minimum 3-foot raised buffer.

5. Protected intersections at Springwells, Green, Livernois, Campbell and Clark, per NACTO standards. Pedestrian refuge islands should be installed at intersections wherever possible per NACTO standards.

6. FHWA-standard "international' thermoplastic crosswalks at all intersections.

7. Countdown pedestrian signals at all intersections.

8. Bicycle signals are required to separate left-hand vehicle turning from bicycle movements, or at any two-way cycle tracks where these cross Fort Street.

Collectively, these entities are referred to as the "Parties" and each as a "Party". The Facility will provide a new transportation bridge connection between the United States and Canada over the Detroit River.

The road and alley segments are defined in the attached Exhibit A, and shown on attached Exhibit B. Certain road and alley segments identified in Exhibits A-1, A-2 and B shall be permanently transferred to MDOT (**"Permanent Road Segments"**). All costs associated with the jurisdictional transfer of the Road Segments and the infrastructure improvements transfers addressed in this Agreement are being initially paid by MDOT but fully reimbursed by the Windsor Detroit Bridge Authority, a Canadian entity. The transfers and construction set forth in this Agreement have been established in consideration of the anticipated construction schedule and other requirements for the Facility.

This Agreement is conditioned on the Detroit City Council's adoption of a resolution approving both that certain "Agreement – Transfer of Properties, Assets, Interest, and Jurisdiction" and that certain "Agreement – Leases and Services", and is further conditioned on each of those Agreements being signed by all the parties thereto and in full force and effect. EXHIBIT C
CONNECTIVITY & COMPLETE STREETS IMPROVEMENTS

I. **Service Drive Pedestrian Bridge Access Points at Beard, Waterman, Solvay, Junction and Lansing.**

Ensure safe pedestrian and cyclist access to these pedestrian bridges by providing enhanced Service Drive crossings. This work shall include the following at a minimum:

1. Build pedestrian bridges across I-75 at Beard, Waterman, Solvay, and Lansing and at grade crossings of the service drives.

2. Build pedestrian bridge across I-75 and the service drives at Junction (in replacement of the crossing at Morrell contemplated in the EIS). On the north side of (I-75 and the service drive the bridge will transition to grade. The entrance to the bridge structure will align with any future multi-use trails in the area.

3. Curb extensions to minimize the pedestrian/cyclist crossing distance across the Service Drive.

4. Raised intersections at either the closest intersect or at mid-block crossings along the Service Drive, such that the function of the service drive is not altered.

5. Provide FHWA-standard "international" thermoplastic crosswalk striping to clearly define pedestrian crossing areas both along and across the Service Drive.

6. Provide pedestrian countdown signals at all signalized intersections and pedestrian signals at all mid-block crossing related to the pedestrian bridges along the Service Drive.

7. A continuous, fully accessible sidewalk will be provided along the City side of the Service Drive at a minimum, and sidewalks will be provided between the Service Drive and the I-75 main line when necessary to connect the entrance of each pedestrian bridge to the nearest intersection both to the east and west, or to a signalized mid-block crossing.

8. 2.5-inch caliper deciduous shade trees will be provided in the parkway between the sidewalk and the street every 25 feet between Springwells and Clark. Where there is no sidewalk between the Service Drive and the I-75 mainline 2.5-inch caliper deciduous shade trees will be provided every 25 feet. Such trees shall be planted so as not to obstruct intersection sight distance.

9. Landscape enhancements at the City side of the sound walls with year-round interest.

10. The maintenance of all landscaping installed by the project will be the responsibility of the City, including landscaping on the road bridges over (I-75. Landscaping installed in I-75 right-of-way shall be the responsibility of the State of Michigan.

11. All plant material plans and specifications that will be the maintenance responsibility of the City of Detroit will be reviewed by the City of Detroit prior to installation.

12. On the south side of I-75 and the

service drive the bridge will transition to grade on the Junction right of way between the east bound service drive and Fort Street per the cross-section in the detail drawings below. The bridge will be on structure until clearance below bridge structure is 10' or less. Once the clearance is less than 10' the bridge will be on fill. Lighting will be provided on the underside of the bridge to address safety but not light trespass in adjacent residents or businesses. Junction will be reconstructed in this area to match the cross section in the detail drawings below for the entire length between the east bound service drive and Fort street, including 2.5" caliper street trees every 25' on the east side of the street and irrigated planters adjacent to the west retaining walls which will contain vines or other plant material to be recommended approved by the City of Detroit. The bridge will safely transition to the Junction and Fort intersection.

13. Junction will be converted into a one way street between the service drive and Fort Street and MDOT will work with the City of Detroit to cause this to happen and determine the flow of traffic.

14. The mid-block alley on the west side of Junction will be closed with decorative bollards to through vehicle traffic but remain open for pedestrian and bicycle traffic.

15. The retaining walls and columns of the bridge will have a decorative treatment to match both the aesthetics of the bridge and the materials and style of the adjacent buildings.

16. New street lighting will be provided on Junction between the east bound service drive and Fort Street.

II. **Service Drive: Vehicular Crossings at Springwells, Green, Livernois and Clark Street.**

Provide the following enhanced multimodel infrastructure along the Service Drive at Vehicular crossings:

1. Remove vehicular turn-around lanes on freeway bridges; to be replaced with standard left-hand turn lanes, pending the City's Department of Public Works ("DPW") traffic review and approval.

2. Provide protected intersections per NACTO guidelines at Service Drive to ensure connectivity and safety of all modes at these locations.

3. Provide FHWA-standard "international" thermoplastic crosswalk striping to clearly define pedestrian crossings on the Service Drive to vehicular bridges, complete with all countdown pedestrian signals, and bike signals as required for a multi-use path, or to separate left-turn or turn-around from bicycle movements). Provide clear bike-lane markings through the intersection following NACTO guidelines.

4. Work with the City to study, determine and implement changes to Livernois/Dragoon to allow for logical flow of two-way traffic and to identify if traffic should run two-way or one-way on these streets due to the removal of the Dragoon overpass connection.

5. The following applies to Livernois and Clark only: Include 8-12-foot sidewalks on both sides of the bridges, 6-foot protected bike lanes on both sides of the bridges and at least 6-foot landscape buffers on both sides of the bridges. Final number of traffic lanes, not to exceed two in each direction, to be determined through a review of traffic movements and approval of DPW. Refer to detail drawings below.

6. The following applies to Green and Springwells only: Include 12' and 8' respectively (refer to detail drawings below sidewalks on these bridges, 6-foot protected bike lanes on both sides of the bridges and 6-foot landscape buffers on both sides of the bridges. Final number of traffic lanes, not to exceed two in each direction, to be determined through a review of traffic movements and approval of DPW. Refer to detail drawings below.

7. Provide adequate lighting for pedestrians, cyclists and motorists.

8. Provide irrigated landscape buffers between motorists and bicyclists, and motorists and pedestrians.

9. All landscaping, including irrigation systems, to be maintained by the City. Plant material and irrigation plans and specification to be reviewed by the City of Detroit prior to installation.

III, **South Bound Service Drive: Realignment to accommodate future multi-use trail on north side of eastbound Service Drive.**

MDOT will work with the City to review the alignment of the Southbound Service Drive, and to the extent possible, with minimal cost, re-align the road up to 15 feet, between Casgrain and the alley east of Cavalry.

IV. **Complete Bicycle Network on Campbell and Green.**

Complete the following work to construct a greenway from GHIB Plaza to I-75 Freeway crossings at Green St. and Campbell/Junction streets, including:

1. Extend the proposed, separated multi-use path along Green and Campbell to the enhanced pedestrian crossings over I-75 at Green and the new pedestrian bridge at Junction.

2. Identify and provide a safe transition from the two-way off-road path to the two single-direction protected on-street bike lanes, complete with all required pavement markings, countdown pedestrian signals (or bike signals, if required), and way-finding to make this transition safe and intuitive.

3. Provide 2.5" caliper trees 25' on center wherever a parkway between the sidewalk and street is provided and at the

transition slopes on either side of the cross section, see detail drawings below.

V. **Jefferson Avenue.**

Provide improvements between Campbell and West End Avenue (improvements to be mirrored on both sides of the street, unless otherwise noted) as follows:

1. Installation of new 6-foot sidewalk with a 5-foot, curb-adjacent grass parkway; right-of-way permitting on the south side.

2. Installation of a row of shade trees along the sidewalk in the parkway, no less than 2.5 inches in caliper, spaced at 25 feet on center.

3. A protected two-way cycle track along the north side of Jefferson a minimum of 11' wide and buffered from the street with a minimum 5' irrigated landscape buffer.

4. In areas not scheduled for reconstruction, patch and repair curb and gutter and mill and fill asphalt. Pavement section to consist of 1.5" depth of milling and1.5" overlay with HMA 5E3 Top Course.

VI. **Fort Street between Green and Junction.**

Provide improvements between Green and Junction in connection with the construction of the Facility (improvements to be mirrored on both sides of the street, unless otherwise noted). The City agrees to effect changes in street parking to incorporate the desired cross-section:

1. Installation of new 7-foot sidewalk, with a 5-foot, curb-adjacent parkway.

2. Repair of existing sidewalks including ADA ramps at all intersections where they do not already exist to meet code. Driveway reconstructions with continuous pedestrian path design per NACTO standards.

3. Installation of row of shade trees within the sidewalk adjacent to the curb, no less than 2.5 inches in caliper, spaced at 25 feet on center and curb adjacent with tree grates.

4. A 6-foot protected cycle track along both sides of the street, separated from traffic by a minimum 3-foot raised buffer.

5. Protected intersections at Springwells, Green, Livernois, Campbell and Clark, per NACTO standards. Pedestrian refuge islands should be installed at intersections wherever possible per NACTO standards.

6. FHWA-standard "international' thermoplastic crosswalks at all intersections.

7. Countdown pedestrian signals at all intersections.

8. Bicycle signals are required to separate left-hand vehicle turning from bicycle movements, or at any two-way cycle tracks where these cross Fort Street.

VIII. **Detail Drawings.**

GHIB PROJECT BOUNDARIES

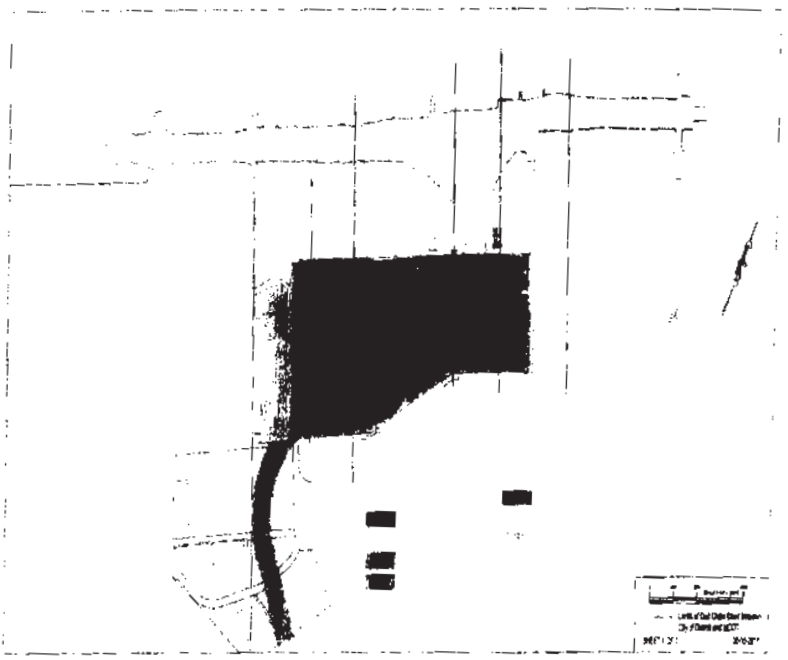

Exhibit 3
Agreement – Leases and Services
AGREEMENT
LEASES AND SERVICES
(Between Certain Detroit Parties and WDBA)

This ("Agreement") regarding the Gordie Howe International Bridge (**"GHIB"**) project is made and entered into as of June 19, 2017, by and between, on the one part, the City of Detroit and all of its agents, officers, and departments, all acting by and through the City's Mayor's Office (**"City"**), the Economic Development Corporation of the City of Detroit (also known as the Detroit Economic Development Corporation)(**"EDC"**), and the Detroit Land Bank Authority (**"DLBA"**) (collectively, the **"Detroit Parties"** and individually a **"Detroit Party"**), and, on the other part, the Windsor-Detroit Bridge Authority, a Canadian Crown corporation (**"WDBA"**). Collectively, these entities are referred to as the "Parties" and each is a "Party".

The purpose of this Agreement is to effectuate the leasing of properties by the Detroit Parties and the provision of services by the City to facilitate construction of the GHIB.

This Agreement is conditioned on the adoption of a resolution by the respective boards of the EDC and DLBA approving this agreement and that certain "Agreement – Transfer of Properties, Assets, Interest, and Jurisdiction", and is further conditioned on the Detroit City Council's adoption of a resolution approving both that certain "Agreement – Transfer of Properties, Assets, Interest, and Jurisdiction" and that certain "Agreement – Jurisdictional Transfer", and is further conditioned on each of those Agreements being signed by all the parties thereto and otherwise in full force and effect. The effective date of this Agreement ("Effective Date") shall be the same as the effective date of the foregoing "Agreement – Transfer of Properties, Assets, Interest, and Jurisdiction".

ARTICLE I
LEASE

A. Lease of Property to WDBA. The Detroit Parties hereby lease to WDBA the parcels of land, including all buildings, improvements and fixtures thereon, listed on Exhibit A and depicted on Exhibit B (each a **"Leased Parcel"** and collectively the **"Leased Property"**) for a term of seven (7) years (**"Lease Term"**), commencing on a date to be identified by WDBA but not earlier than June 1, 2018, and not later than December 1, 2018 (the **"Commencement Date"**). WDBA, or its assigns, subtenants, or contractors, may use the Leased Property for any lawful

use, including but not limited to construction staging for the GHIB project. As total fixed rent for the Leased Property for the Lease Term, WDBA shall pay the total sum of $4,100,002.00 to be paid in seven (7) annual installments of $820,000.00 for each of the first five (5) years of the Lease Term and $1.00 for each of the last two (2) years of the Lease Term, commencing on the Commencement Date. The total fixed rent for the Lease Term shall be divided as follows between the Detroit Parties: $1,100,000.00 to be paid to the City, $1.00 to be paid to the DLBA; and $3,000,001.00 to be paid to the EDC, with each payment of the annual installment of rent being proportionally divided to reflect the foregoing division of the total rent for the Lease Term. At the end of the Lease Term, WDBA shall return the Leased Property in the condition received, reasonable wear and tear excepted. The Detroit Party that is the owner of each respective Leased Parcel shall continue to maintain such Leased Parcel in its current condition, reasonable wear and tear excepted, until the later of the Commencement Date or the date WDBA, or its assignee or contractor, actually occupies such Leased Parcel. WDBA may terminate its tenancy early for any respective Leased Parcel, but such termination shall not reduce or abate the total rent hereof, by providing the respective owner of the Leased Parcel advanced written notice. In such case the tenancy for that respective Leased Parcel shall end and the owner may sell, lease or utilize such property as it so chooses. WDBA shall be responsible for all utilities and maintenance required for the Leased Property, except as provided above.

B. Addition and/ or Substitution of Leased Property. The Parties acknowledge and agree that the Leased Property, as listed on Exhibit A and depicted on Exhibit B, constitutes approximately 34.04 acres and that WDBA may add additional property in the vicinity of the GHIB project to the Leased Property at no additional rent to WDBA (but otherwise on the same terms as set out in Section 1.A., above) so that the total amount of Leased Property is approximately 60 acres (+/-1 acre) provided that: such additional property is owned by a Detroit Party, such additional property is not at the time of notice to add the property leased or under a contract of sale to a third party, and the City determines, in its reasonable discretion, that such additional property is appropriate for use as construction staging area. In addition, WDBA may substitute property in the vicinity of the GHIB project with all or a portion of the Leased Property at no additional rent to WDBA (but otherwise on the same terms as set out in Section 1.A., above) provided that: the total amount of Leased Property remains equal to or less than approximately 60 acres (+/- 1acre), such substitution property is owned by a Detroit Party, such substitution property is not at the time of notice to substitute the property leased or under a contract of sale to a third party, and the City determines, in its reasonable discretion, that such substitution property is appropriate for use as construction staging area. Upon such addition or substitution of property, Exhibits A and B to this Agreement shall be updated and signed by the Parties to reflect the addition and/or substitution.

C. Representation and Warranty. The Detroit Parties represent and warrant that the Leased Property is not otherwise being conveyed to MDOT.

D. Indemnification. No use of a Leased Parcel by WDBA or an assignee, subtenant or contractor of WDBA (collectively, "Contractor"), may commence until such time as the Detroit Party owner of such Leased Parcel and all associated, affiliated, allied or subsidiary entities or commissions of the Detroit Party owner of such Leased Parcel now existing or hereafter created, their agents and employees, (each a "Detroit Party Owner Beneficiary") is provided liability protection in the form of third-party insurance, indemnity by WDBA, or indemnity by Contractor, or any combination thereof, with respect to all liabilities, obligations, damages, penalties, claims, costs, charges and expenses (including, without limitation, reasonable fees and expenses of attorneys, expert witnesses, architects, engineers and other consultants) which may be imposed upon, incurred by or asserted against any Detroit Party Owner Beneficiary by reason of any of the following occurring on a Leased Parcel during the term of such use: (1) any work, act, error, omission or thing done in or about Leased Parcel, or any part thereof or affecting same, by Contractors for whose acts they might be liable; (2) any use, nonuse, possession, occupation, condition, operation, maintenance or management of a Leased Parcel or any part thereof or any street, alley, sidewalk, curb, passageway or space adjacent thereto, or of Contractors' equipment; (3) any negligent or tortious act or omission of Contractors; (4) any accident, injury or damage to any person or property occurring on the Leased Property.

ARTICLE II
SERVICES

A. Services Agreement. Promptly after the Effective Date, the City and WDBA shall enter into a separate Services Agreement (**"SA"**) wherein the City shall facilitate and provide assistance for the prompt issuance of licenses, easement and permit, will provide advice, will attend meetings, and will provide liaison services, including but not limited to the services set forth in Sections II.B. and C.

below or listed on Exhibit C, and any and all other services necessary to facilitate and expedite the GHIB project. The SA shall commence on a date to be identified by WDBA but not later than August 1, 2017, and shall continue for six (6) years thereafter. As payment for the services to be provided by the City under the SA, WDBA shall pay the sum of $6,000,000.00 to the City for the entire term of the SA (the **"Services Amount"**) in monthly installments of $83,333.33 per month. Each monthly installment shall be paid promptly by WDBA upon receipt of an end-of-month invoice from the City. The Services Amount does not, however, include payment of standard application or permit-related fees charged by the City or services otherwise provided for free by the City.

B. GLWA Acquisition/ Relocation Matters. The City shall exercise good faith and best efforts and act with all reasonable promptness to facilitate, assist and advise on all matters related to the acquisition and/or relocation of the Great Lakes Water Authority's real and personal property interests in the GHIB project boundaries.

C. Relocation Services. The City shall exercise good faith and best efforts and act with all reasonable promptness to facilitate, assist and advise on any necessary rezoning or permitting relating to relocation of residents and/or businesses due to GHIB project property acquisition.

MISCELLANEOUS

B. Further Assurances. Each of the Parties shall execute any documents reasonably required to effectuate the intent of this Agreement for no additional consideration.

C. Delegation. To carry out the intent of this Agreement, each Detroit Party hereby authorizes the Mayor of the City and/or the person signing below (and his/her successors in such office) for such Detroit Party to execute any documents reasonably required to effectuate the intent of this Agreement for no additional consideration and without any additional authorization from City Council.

D. Merger. This Agreement, which includes the Exhibits attached hereto and forming a part hereof, sets forth all the covenants, promises, agreements, conditions and understandings between and among the Parties concerning the subject matter of this Agreement. There are no covenants, promises, agreements, conditions or understandings, either oral or written, between them concerning the subject matter of this Agreement other than set forth in this Agreement. No alteration, amendment, change or addition to this Agreement shall be binding upon a Party unless reduced to writing and signed by such Party.

Honorable City Council:

Re: Request of Clifford A. Brown on behalf of the Coe Van Dyke, LLC, and the initiative of the City Planning Commission to amend Article XVII, District Map No. 29 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing an SD1 (Special Development District — Small-Scale, Mixed Use) zoning classification where an R2-H (Two-Family Residential) and R5-H (Medium Density Residential District) zoning classifications exist on land bounded by Coe Avenue to the north, Parker Street on the east, Agnes Street on the south and Van Dyke on the west. **(RECOMMENDING APPROVAL.)**

Nature of Request.

The City Planning Commission (CPC) has received and completed it's processing of the request of Clifford A. Brown on behalf of the Coe Van Dyke, LLC (Coe) to rezone property at the southeast corner of Van Dyke Avenue and Coe Avenue from R5 (Medium Density Residential) to SD1 (Special Development District — Small-Scale, Mixed Use). The Commission joined this request with a corresponding initiative to rezone the remainder of the block bounded by Coe Avenue to the north, Parker Street on the east, Agnes Street on the south and Van Dyke on the west from R5 and R2 (Two-Family Residential) to SD1. The proposed rezoning would amend Article XVII, District Map No. 29 of the 1984 Detroit City Code, Chapter 61, Zoning. These properties are located within the West Village Historic District (please see attached public hearing notice and map).

City Planning Commission views the request for the Coe as an opportunity to address a number of non-conformities on the remainder of the block and the potential interpretation of a spot zone if the Coe project site were pursued only.

Project Proposal

The Coe is a mixed-use residential development presently under construction at the southeast corner of the intersection of Coe and Van Dyke. The project features eight (8), three (3) story attached townhouses fronting Coe, which include one car garages accessed from a parking court in the rear. This project also includes a three-story mixed-use building fronting Van Dyke. This structure includes two ground floor commercial tenant spaces and above a studio apartment and three one bedroom units.

The balance of the block consists of two (two) two-family residential dwellings immediately south of the Coe along Van Dyke. South of that is an open space which has served as a dog park and beer garden most recently. Continuing south of that is a parking lot that serves the West Village Manor which fronts along Agnes anchoring the northeast corner of the intersection of Agnes and Van Dyke. The Parker frontage contains the Parkstone Apartments and corresponding surface parking lot.

The West Village Manor is a recently renovated three-story mixed-use structure. The ground floor offers four commercial tenant spaces and the entry lobby for

the residential units above. At present three of tenant spaces are occupied including standard restaurant, a coffee and baked goods shop and a fitness center. The fourth space is still undergoing renovation. The third and fourth floors offer a total of 16 one and two bedroom apartments.

The Parkstone is an 11 story structure that sits at the northwest corner of Agnes and Parker. The Parkstone offers 118 units of housing in studio, one and two-bedroom units. The ground floor includes a single large tenant space accessed from Agnes Street currently occupied by Kraft Work, a standard restaurant and bar. This space was formerly occupied for a number of years by the Harlequin Café.

Surrounding Land Use and Zoning

To the North: single, two and multi-family, residential, vacant land beyond R2 and R5.

To the South: single, two and multi-family, residential, structured parking — R2 and R5.

To the East: single and two-family, residential, structured parking, commercial recreation — R2.

To the West: single and two-family, residential, commercial, institutional vacant land — R2 and R5.

Zoning

The Coe as proposed and under construction is consistent with the land use provisions of R5 zoning, which comprises the western portion of the subject block. However, the type of commercial uses that could occupy the commercial tenant space are limited. Furthermore, while the BZA has granted waivers for the front and rear yard setbacks as well as a parking deficiency, a side yard deficiency appears to have been created between the new development and the two-family dwelling immediately to the south. The requested rezoning would provide a wider range of options for the commercial tenant space and address the side yard setbacks deficiency. The other items addressed by the BZA grant would still be in effect meaning that uses would be conforming but the structure would still be monitoring.

Of the other structures and uses on the subject block only the two-family structure are compliant with the current zoning. Two-family structures are permitted by right in the R5 district these two dwellings would become conditional uses, but still conforming under the SD1.

The West Village Manor is deficient parking and has a nonconforming mix of uses, but would be conforming under SD1. The eastern half of the subject block is R2 and the Parkstone Apartments present both a nonconforming use and a nonconforming structure. Under SD1 the use including the surface parking would conform, but the building would remain a nonconforming structure as it exceeds the 80 feet height limitation of the SD1 classification. Both structures would of course continue to be grandfathered in.

Master Plan

The subject property sits within the Butzel area of Neighborhood Cluster 3. The land use designation is RLM (Low-Medium Density Residential), which has a design density of up to 16 units per acre. The actual density of the subject site, including existing units and those that are under construction is 58.4 units per acre. The Planning and Development Department finds the proposed rezoning to be consistent with the Master Plan despite the high density, because the subject property represents such a small portion of the local area bearing the RLM land use designation. However, given the number of other multi-family structures in the area and the resulting higher densities, CPC staff suggests that PDD reevaluate the Van Dyke corridor and surrounding area to determine if the Master Plan designation for the area is in fact appropriate.

Analysis

Section 61-3-80 of the Detroit Zoning Ordinance lists eight criteria that must be considered in making recommendations and decisions on rezoning requests of this type. Below you will find the criteria invoked by this proposal and our response.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

While single and two-family dwelling once dominate the Van Dyke frontage mixed use residential development is now the trend. Lower density housing type may continue to exist but mixed use is the current character and direction evidenced by the subject property.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The Planning and Development Department has found the proposal to be consistent with the Master Plan of Policies. While we agree, we also believe that existing uses and trending uses in the area warrant a reevaluation by the department. Work in the general area by departmental consultants should facilitate this investigation and future consideration

(3) Whether the proposed amendment will protect the health, safety and general welfare of the public;

In the course of establishing new land uses adjacent to residentially zoned land, any and all developments should take into consideration buffering, setbacks, screening, etc., insuring that the site is accessible to and safe for pedestrians adjacent users. Based on the site plans provided for the Coe and approvals already obtained, we believe best practices and

the Development Standards of the Zoning Ordinance are being or will be adhered to.

(4) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The closest adjacent residential properties to the south of the proposed development will be buffered and screened with the required six foot high masonry wall and additional to trees and shrubs per Article XVI — Development Standards of the Zoning Ordinance. These standards are intended to reduce potential nuisances by requiring a visual screen between uses to mitigate the adverse effects and impacts associated with adjoining or nearby uses.

(5) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

As noted previously, the existing and under construction uses could exist under current zoning. However, the Zoning Ordinance has the stated goal of eliminating nonconformity. The proposed rezoning addresses nonconformity, at least in part.

(6) Whether the proposed rezoning will create an illegal "spot zone".

The proposed rezoning would not constitute an illegal "spot zone". Staff was concerned that pursuing only petitioner's request could result in such.

Public Engagement

The Coe has received quite a bit of public engagement via the developers outreach to neighboring property owners and community groups as well as the public hearings held before the Historic District Commission and the Board of Zoning Appeals. While there is clear support for the Coe project in the community, the Commission was not quite as certain how the CPC initiative to rezone the remainder of the block to SD1 as well was being received. CPC staff has communicated directly with all but one property owner, but understood that all are in support of the proposed rezoning. Since the West Village Association did not hold its June meeting, CPC did not get the chance to engage the community at large at that time. While staff was able to engage a handful of area residents, and business owners during site visits who were supportive, and communications in objection had been received, the Commission looked forward to the results of the June 15 public hearing.

The public hearing in fact was uneventful. Three persons spoke: the owner of the West Village Manor and the father and son of the family owner Park Stone and Park Hurst properties. Each was supportive, seeking to verify the impact of the rezoning as described above, on their sites.

Conclusions and Recommendation

The City Planning Commission has completed its review of this rezoning proposal. We find the matter to be consistent with the approval criteria and believe the promotion of a mixed use regulatory scheme to be most appropriate way to address the past, present and future development needs of this unique block with this historic community. We therefore recommend approval of the rezoning as proposed.

CPC also recommends that the Planning and Development Department review the current Master Plan provisions for the area to determine what if any modification are needed in light of existing high density residential uses, commercial activities and changing trends. Staff has shared this concern with the Department and looks forward to more dialogue.

The ordinance for this matter has just been drafted for review by the Law Department. Therefore, this item should be brought back in one week as it is unlikely that the ordinance will be returned to us in time introduction next, if in fact that is the desire of your Honorable Body.

Honorable City Council:

Re: Delegation of City Council Special District Review and approval of building permit applications during Summer recess 2017 (Recommend Approval).

According to the City of Detroit Zoning Ordinance the Detroit City Council approves by resolution any work undertaken by permit on land zoned PC or PCA after receiving recommendation from the Planning and Development Department and the City Planning Commission. It has become the practice of Your Honorable Body to delegate this responsibility to the staff of the City Planning Commission during periods of recess when permit applications of this sort may be submitted and need to be addressed in a timely fashion. The Council's delegation of this responsibility allows work compliant with the City Code to advance during recess and/or when the Body is not conducting business in the context of Your regular meetings.

Attached for Your consideration You will find a resolution effectuating the delegation of Special District Review and corresponding action jointly to the Planning and Development Department and the City Planning Commission staff for Your Summer recess 2017.

Respectfully submitted,

Whereas, The Detroit Zoning Ordinance requires that any permit application submitted to the Building and Safety Engineering and Environmental Department related to the Exterior design, location and appearance of work within the Public Center (PC) District and the Public Center Adjacent / Restricted Central Business (PCA) District must be reviewed by the City Planning Commission (CPC) and the Planning and Development Department (P&DD); and

Whereas, Consistent with Sec. 61-3-182 of the Zoning Ordinance, the City Council approves by resolution, any such permit application subsequent to receipt of a report and recommendation from the Planning and Development Department and the City Planning Commission; and

Whereas, The Detroit City Council will be on recess July 26, 2017 through September 4, 2017, but the City Council's Committees will not resume meeting until that time; and

City Planning Commission

July 14, 2017

Honorable City Council:

Re: Special District Review - On-premises signage and façade enhancements at Millender Center (RECOMMEND APPROVAL)

Attached, please find a resolution authorizing the Buildings, Safety Engineering and Environmental Department to issue sign/building permits for the Millender Center which is located within the PCA (Public Center Adjacent/Restricted Central Business District).

Per Sec. 61-3-185 of the Detroit Zoning Ordinance, any exterior alteration to a building or premises on land zoned PCA, including signage, requires review by Your Honorable Body upon receipt of a written report and recommendation from the City Planning Commission (CPC) and the Planning and Development Department (P&DD).

PROPOSED ALTERATIONS

Several modifications have been proposed for the Millender Center in conjunction with new restaurant tenants and corresponding changes to the interior. The improvements are to be made to the façade of the hotel portion of the building fronting E. Jefferson Ave. and Brush St. Portions of the first and second floors, in particular where precast concrete panels presently comprise the façade, are to be reclad in brick, stone and metal panel. Glass and spandrel panel in the curtain wall are to be removed and replaced with new glazing. There will also be some reconfiguration, including the addition of a new door just east of the hotel lobby entrance. Lastly a black metal mesh screen is to be added to the southern façade to carry some of the new signage and to add another new feature improved aesthetic. Awnings are added along the Brush Street faced to shield the dining area and to add more character.

The requested signage comes from two sources:

• Application from David Paschke/ Metro Signs to "legalize" five (5) existing window signs (Courtyard; Liquor, etc.;

Ashley's Flowers; Andrew's Wines, etc.).

• Application from Signs by Crannie to replace/install six (6) wall signs (Applebee's; IHOP; Courtyard Marriott),

Attached you will find copies of the sign permit requests and drawing depicting the modifications to the building façade.

Our initial review of the building revealed that several existing signs had not been properly reviewed and did not have permits. The petitioner addressed these concerns for the signs that are to remain and they are included in this request along with the new signs. CPC and P&DD staff have reviewed the proposed signage. On June 23, 2017, staff met with representatives for the Millender/Courtyard/Applebee's/IHOP signage and resolved staff concerns over size and appearance of the displays. CPC staff and the P&DD recommend Your Honorable Body authorize BSEED to issue sign permits consistent with the attached images.

Whereas, The Millender Center is located on land zoned PCA; and

Whereas, David Paschke/Metro Signs has applied for five (5) sign permits to "legalize" existing window signage on the Millender Center; and

Whereas, Crannie Signs has applied for six (6) sign permits to replace/install wall signs for Courtyard by Marriott and the forthcoming Applebee's/IHOP restaurant at the Millender Center; and

Whereas, CBRE (property manager) has petitioned for Special District Review for these signs as well as related façade improvements to the first and second floors of the E. Jefferson Ave. and Brush St. frontages of the building; and

Whereas, staff of the City Planning Commission and Planning and Development Department have reviewed the proposed signage, conferred with the applicants, find the proposed signs to be appropriate in the PCA District in close proximity to the public center, and recommend approval of same; and

Now, Therefore Be It Resolved, That the Detroit City Council authorizes the Buildings, Safety Engineering and Environmental Department to issue sign permits to David Paschke/Metro Signs and to Crannie Signs for proposed signage on the Millender Center, and also authorizes the issuance of permits for the façade improvements identified in the City Planning Commission report, dated July 14, 2017 and presented the Planning and Economic Development Standing Committee on Thursday, July 20, 2017.

Housing and Revitalization Department

July 10, 2017

Honorable City Council:

Re: Affordable Housing Agreement with Bedrock Management Services LLC

The City of Detroit Housing & Revitalization Department (HRD) requests that this Honorable Body authorize the City to enter into the attached agreement with Bedrock Real Estate Services. Bedrock has a goal to develop up to 3,500 residential rental units that rely on tax abatements or tax increment financing.

To help secure those incentives as they are presented, Bedrock is committing that at least 20% of those units will be affordable at or below 80% Area Median Income (AMI) for 30 years. Meaning that one (1) out of every five (5) units of residential rental housing will be developed or preserved as affordable housing. The Agreement can be extended to more units if the 3,500 unit cap is or will be reached. This means that, of the proposed 3,500 unit portfolio, at least 700 will be affordable housing units.

Bedrock proposes to meet the obligation to provide 20% affordable units in two ways:

a. New Affordable Housing Units: Developing new affordable units to expand affordable housing options at the same time as new market-rate housing is being developed.

b. Preservation Projects: Preserving existing affordable housing at the end of its affordability period, so that it stays affordable and does not convert to market rate, displace existing residents, and reduce the affordable housing stock. This kind of housing usually serves households between 30-60% of AMI.

All of the affordable units will be provided within the "Affordable Housing Priority Area," defined as the Downtown, Midtown, New Center, and Corktown areas, where affordable housing needs to be developed and preserved.

Bedrock may create or preserve affordable housing directly as the developer or through strategic alliances with affordable housing developers where Bedrock enters into a joint venture, is an equity partner in a project.

Importantly, Bedrock is agreeing to an option where it will provide minimum per-unit financing from the preservation units on largely the same terms as the HUD

HOME Partnership program, supplementing the City's limited supply of these critical affordable housing funds.

We look forward to the discussion of this agreement in the coming weeks.

Respectfully submitted,
ARTHUR JEMISON
Director
Housing & Revitalization Department

By Council Member Leland:

Whereas, the City of Detroit, acting by and through its Housing and Revitalization Department, requests approval of that certain affordable housing agreement with Bedrock Management Services LLC ("Affordable Housing Agreement") which is attached hereto as Exhibit A; and

Resolved, that Detroit City Council hereby approves the Affordable Housing Agreement.

EXHIBIT A
Affordable Housing Agreement
City of Detroit

THIS AFFORDABLE HOUSING AGREEMENT ("Agreement") is entered into as of the Effective Date (as hereinafter defined) by and between the City of Detroit ("City"), a Michigan public body corporate acting by and through its Housing and Revitalization Department ("HRD") with an address of Two Woodward Avenue, Suite 908, Detroit, Michigan 48226, and Bedrock Management Services LLC ("Developer"), a Michigan Limited Liability Company, with an address of 630 Woodward Avenue, Detroit, Michigan 48226.

WITNESSETH

WHEREAS, the City has vested interest to: (1) promote the health, safety and general welfare of the citizens of the City through the implementation of housing goals, objectives and policies that support economically integrated housing opportunities in the development or rehabilitation of housing, (2) stimulate the production of rental housing available to low income individuals or families, (3) optimize benefits available to low and moderate income residents by incentivizing affordable residential housing projects;

WHEREAS, the City's current policy for granting Financial Incentives (as hereinafter defined) for a residential or mixed-use housing development project seeks commitments that at least 20% of the total residential dwelling units within the project be Affordable (as hereinafter defined) for households with incomes of 80% or less of AMI; and

WHEREAS, Developer (through Developer Affiliates, as hereinafter defined) has a goal of developing up to 3,500 residential units across multiple residential and mixed-use developments within the City that may require the receipt of Financial Incentives;

WHEREAS, to encourage such multiple residential housing development projects; promote the development of inclusive, mixed-income districts and communities; and support economically integrated housing opportunities, the City and Developer are entering into this agreement to ensure and provide for affordable housing on a portfolio-wide basis;

WHEREAS, This Agreement will ensure that at least 20% of the total residential rental dwelling units developed in connection with Developer's receipt of Financial Incentives will be Affordable Units (as hereinafter defined) located within the Affordable Housing Priority Area (as hereinafter defined)

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the City and Developer agree as follows:

1. **Definitions.** The following terms used throughout this Agreement shall be defined as follows:

a. "Affordable" means, as generally defined by the U.S. Department of Housing and Urban Development ("HUD"), housing for which the occupants are paying no more than thirty percent (30%) of their income for gross housing costs, including a utility allowance consistent with the annual rate established by the applicable funding resources for the respective project. If there is no utility allowance rate that can be utilized from such applicable funding resources, the utility allowance shall be consistent with an annual rate established by the Detroit Housing Commission.

b. "Affordable Housing Priority Area" means that certain boundary area within the City of Detroit as further defined in the attached Exhibit A, which is incorporated herein by reference. The Affordable Housing Priority Area may be amended from time to time by an amendment to this Agreement, which amendment shall be subject to approval by Developer and HRD.

"Affordable Housing Requirement" means that if Developer (or a Developer Affiliate) obtains a Financial Incentive for a Project, Developer (or Developer Affiliates) must provide Affordable Units (or cause Affordable Units to be provided) either at the Project that has obtained such Financial Incentive or at any location within the Affordable Housing Priority Area such that the Affordable Units comprise twenty percent (20%) of the total number of residential rental dwelling units to be developed or provided in connection with the Project that has obtained such Financial Incentive. For example, if Developer obtains a Financial Incentive for a Project with eighty (80) market-rate residential rental units, Developer (or Developer Affiliates) must provide twenty (20) Affordable Units (or cause such units to be provided) (resulting in a total of one

hundred (100) residential rental units) either in the Project that has obtained the Financial Incentive or at any location within the Affordable Housing Priority Area.

d. "Affordability Period" means the specific time period for which residential rental dwelling units must be maintained as Affordable Units. The Affordability Period for a respective project shall begin once that project has satisfied all requirements for the issuance of a temporary certificate of occupancy or its equivalent from the City and shall expire thirty (30) years thereafter.

e. "Affordable Units" mean residential rental dwelling units within the Affordable Housing Priority Area that are (i) leased to households whose annual gross incomes are equal to or less than 80% of the AMI; (ii) rented for an amount that does not exceed the Affordable rent for a household whose annual gross income is equal to or less than 80% AMI, as adjusted for household size and published by HUD; and (iii) restricted only to such income-qualifying tenants and to the Affordable rent for the Affordability Period.

f. "AMI" means the median family income for the Detroit-Warren-Livonia Metropolitan Statistical Area as published by the U.S. Bureau of Census and HUD.

g. "Cap" means a total of three thousand five hundred (3,500) residential rental dwelling units to which this Agreement applies, which shall consist of all residential rental dwelling units developed by Developer (or a Developer Affiliate) and receiving a Financial Incentive from and after the Effective Date of this Agreement, as well as all corresponding Affordable Units designated to meet an Affordable Housing Requirement under this Agreement. Developer may, by notice to HRD, increase the Cap ("Extended Cap"), in which case this Agreement shall apply to the Extended Cap. h. "Developer" means Bedrock Management Services LLC.

i. "Developer Affiliate" means an entity controlling, controlled by, or under common control with Developer.

j. "Financial Incentive" means any real property tax abatement, PILOT, tax increment financing, grant (including federal grant funds provided by the City for the benefit of Developer or a Developer Affiliate where the City has discretion over the disbursement or allocation of the federal grant funds), or discounted sale of real property, in all events only if provided directly by the City or an instrumentality of the City for a Project.

k. "Preservation Project" means a project that preserves existing units that are subject to an expiring affordability restriction by (i) acquiring or rehabilitating such units (to the extent rehabilitation is necessary), and (ii) extending the affordability commitment such that the units will remain Affordable Units for the Affordability Period, which Affordability Period shall commence either (x) on the date that all requirements have been satisfied for the issuance of a temporary certificate of occupancy or its equivalent if the project is being rehabilitated; or (y) on the date of acquisition if the project is not being rehabilitated. A Preservation Project may be accomplished by a Third Party Developer being involved in a Third Party Project.

l. "Project" means a residential rental development project for which Developer (or a Developer Affiliate) has secured a Financial Incentive.

m. "Qualified Affordable Housing Financing" means debt financing that, similar to the features of the HUD HOME Investment Partnership Program as in existence on the Effective Date, provides subordinate (to a first lien mortgage), low-interest, long-term financing for the acquisition, development, or rehabilitation of Affordable Units. Financing provided by Developer (or a Developer Affiliate) that meets the following criteria shall qualify as Qualified Affordable Housing Financing: the financing (i) is subordinate to a first lien mortgage; (ii) is offered at an interest rate that does not exceed the applicable federal rate in effect pursuant to Section 1274(d) of the Internal Revenue Code of 1986 (the "AFR"); and (iii) is for a term of at least fifteen (15) years. Financing provided at a rate of interest that exceeds the AFR shall qualify as Qualified Affordable Housing Financing if (x) Developer (or the applicable Developer Affiliate) reinvests that portion of the interest payments it receives that is is in excess of the AFR in the acquisition, development, rehabilitation, preservation, maintenance, repair, operation, or replacement of Affordable Units either at the project that has received Qualified Affordable Housing Financing or at another project within the Affordable Housing Priority Area (or donates such additional interest to the City for the provision of affordable housing); and (y) the financing otherwise meets the requirements of this Section.

n. "Third Party Developer" means the owner of record for a project designed to provide Affordable Units that is not owned by Developer (or a Developer Affiliate).

o. "Third Party Project" means a project by a Third Party Developer to provide Affordable Units (which may be provided through a Preservation Project) and which involves (i) a joint venture with Developer (or a Developer Affiliate); (ii) an equity investment by Developer (or a Developer Affiliate); (iii) Developer (or a

Developer Affiliate) making a loan in the form of Qualified Affordable Housing Financing that is at least equal to $7,500 per Affordable Unit in such Third Party Project; or (iv) any combination of the foregoing; provided, however, in a Third Party Project that is also a Preservation Project, before making an equity investment in such Third Party Project that is also a Preservation Project, Developer (or a Developer Affiliate) must first provide Qualified Affordable Housing Financing for such Third Party Project that is also a Preservation Project in an amount that is at least equal to $7,500 per Affordable Unit in such Third Party Project that is also a Preservation Project. Developer's (or a Developer Affiliate's) involvement in a Third Party may be directly with a Third Party Developer, or indirectly through an affiliate of a Third Party Developer or a direct or indirect owner of a Third Party Project or Third Party Developer.

2. **Term of Agreement.** This Agreement shall be effective upon approval of the Agreement by Detroit City Council, which occurred on _____, 2017 (the "Effective Date") and shall expire at the end of the latest applicable Affordability Period.

3. **Obligations of Developer.**

a. Provision of Affordable Units. Subject to the Cap, Developer shall meet the Affordable Housing Requirement, and may do so by any combination of the following, subject to the limitations herein:

1) Developing New Affordable Units. Developer may satisfy the Affordable Housing Requirement by acquiring, constructing, or developing new Affordable Units (either directly, through a Developer Affiliate, or through Developer's or a Developer Affiliate's involvement in a Third Party Project).

2) Preserving Existing Affordable Units. Developer may also satisfy the Affordable Housing Requirement through a Preservation Project (either directly, through as Developer Affiliate, or through Developer's or a Developer Affiliate's involvement in a Third Party project); provided, that: (i) Affordable Units preserved under a Preservation Project extend the expiring affordability restriction for an additional thirty (30) years beginning either (x) on the date that all requirements have been satisfied for the issuance of a temporary certificate of occupancy or its equivalent if the project is being rehabilitated or (y) on the date of acquisition if the project is not being rehabilitated; and (ii) Developer (or a Developer Affiliate) will have invested at least $7,500 per Affordable Unit in the acquisition and/or rehabilitation of the Preservation Project (which investment may be made by making a loan in the form of Qualified Affordable Housing Financing or by otherwise participating in a Third Party Project).

Developer and the Director of HRD may, within (60) days after the Effective Date, agree on procedures relating to designation of Affordable Units under this Agreement and other items agreed to in connection with the implementation of this Agreement.

b. Credit for Units Developed in Advance. Notwithstanding anything to the contrary contained in this Agreement, if Developer, a Developer Affiliate, or Third Party Project provides Affordable Units within the Affordable Housing Priority Area in advance of a corresponding Affordable Housing Requirement, those Affordable Units will be credited against a subsequent Affordable Housing Requirement.

c. Compliance and Completion Periods. if a Financial Incentive is approved by the City for a certain Project based on Affordable Units being available within another project within the Affordable Housing Priority Area (each, a "Qualifying Project"), and the Financial Incentive is approved by the City before development has commenced on the Qualifying Project, Developer (or the applicable Developer Affiliate) must cause the entity that is developing the Qualifying Project, subject to force majeure and delays caused by City or an instrumentality thereof, to:

1) Commence construction or rehabilitation within a two (2) year period ("Compliance Period"), which Compliance Period shall start on the date of the final approval of the Financial Incentive that is approved in reliance on a Qualifying Project; provided, however, that Developer (or the applicable Developer Affiliate) may extend the Compliance Period for up to six (6) months if Developer (or the applicable Developer Affiliate) has identified a specific Qualifying Project to the City's HRD Director, has proceeded in good faith with the development of the Qualifying Project, and additional time is required to commence construction or rehabilitation of the Qualifying Project; and

2) Substantially complete construction or rehabilitation within a thirty (30) month period from the date of actual commencement of construction or rehabilitation of the Qualifying Project ("Completion Period"); provided, however, that Developer (or the applicable Developer Affiliate) may extend the Completion Period for up to twelve (12) months if Developer (or the applicable Developer Affiliate) has proceeded in good faith with the construction or rehabilitation of the Qualifying Project and additional time is required to substantially complete the Qualifying Project.

If a Qualifying Project is a Preservation Project that does not involve rehabilitation or other construction, Developer (or the applicable Developer Affiliate) must cause

the Qualifying Project to be acquired and the affordability commitments extended (so as to satisfy the definition of a Preservation Project) within two (2) years from the date of the final approval of the Financial Incentive that is approved in reliance on such Qualifying Project.

4. **Credit for BPDC Project.** The City and Developer recognize that the City and Brush Park Development Company Phase I LLC ("BPDC"), a Developer Affiliate, have entered into that certain Agreement on Use Restrictions and Executive Orders (the "Use Agreement") dated as of August 29, 2016 and recorded at the Wayne County Register of Deeds in Liber 53194, Page 306-325 regarding a certain proposed residential housing development project in the Brush Park neighborhood to be developed by BPDC (the "BPDC Project"). Notwithstanding anything to the contrary that may be contained in this Agreement, City and Developer agree that all Affordable Units created by the BPDC Project shall be counted towards the Affordable Units required pursuant to this Agreement.

5. **Credit for 28 Grand Project.** The City and Developer recognize that a Developer Affiliate is developing eighty-five (85) Low Income housing Tax Credit units in the micro-loft development at 28 W. Grand River, Detroit, MI ("28 Grand Project"). Notwithstanding anything to the contrary that may be contained in this Agreement, City and Developer agree that (a) all Affordable Units created by the 28 Grand Project shall be counted towards the Affordable Units required pursuant to this Agreement; and (b) further agree that the one hundred and thirty-three (133) units that are not Low Income Housing Tax Credit ("LIHTC") units in the 28 Grand Project do not create an Affordable Housing Requirement requiring offsetting Affordable Units and do not count against the Cap.

6. **Consideration of For-Sale Units**. The award or approval of a Financial Incentive for a residential dwelling unit that will initially be offered for sale by Developer or a Developer Affiliate ("For Sale Units") shall not be subject to this Agreement or counted against the Cap; provided, however, that if Developer or a Developer Affiliate develops and is awarded Financial Incentives on more than seven hundred (700) For Sale Units prior to the Cap being reached, then each additional For Sale unit beyond the initial seven hundred (700) For Sale units shall be subject to this Agreement and shall be treated as a residential rental unit creating a corresponding Affordable Housing Requirement. For example, if Developer or Developer Affiliates have received Financial Incentives on seven hundred (700) For Sale Units, and subsequently secure Financial Incentives on another two hundred (200) For Sale Units, the additional two hundred (200) For Sale units shall be treated as residential rental units creating a corresponding Affordable Housing Requirement and shall count as two hundred (200) units against the Cap. If there is an Extended Cap, the allowance for For Sale Units shall be extended proportionately with the increase under the Extended Cap.

7. **Allocation of Affordable Units.** Developer (and Developer Affiliates) may allocate Affordable Units either at a Project that has obtained a Financial Incentive or at any location within the Affordable Housing Priority Area as determined by Developer (or the applicable Developer Affiliate), and may reallocate units over time. Except following a casualty event under Section 13, any reallocation of Affordable Units from an existing project containing such units to an alternative project within the Affordable Housing Priority Area (a) shall be subject to the approval of the HRD Director, which approval shall not be unreasonably withheld, conditioned, or delayed, and (b) shall require a minimum of six (6) months advance written notice to the tenants residing at the Affordable Units that are the subject of the reallocation.

8. **Affordable Unit Specifications.** For each respective project containing Affordable Units, the Affordable Units shall be comparable in overall quality of construction to the typical and similarly-situated market-rate units contained in that project.

9. **Reporting to City.** Within sixty (60) days after the end of each calendar year of this Agreement, Developer (or the applicable Developer Affiliate) shall provide the City's HRD Director and Detroit City Council with a status report that includes the following for the previous calendar year for all projects and Affordable Units subjects to this Agreement: (i) the total number of units developed or in development in the Affordable Housing Priority Area; (ii) the number of units that are Affordable Units per project; (iii) the applicable income and/or rent restriction for the Affordable Units; (iv) the actual rent charged for each of the Affordable Units; (v) the actual income of each household that leased an Affordable Unit in each project; (vi) the market rental rate that would apply to each Affordable Unit absent the affordability restriction; and (vii) if applicable, the information used to establish compliance with LIHTC income qualification requirements. If Affordable Units are located in a Third Party Project, the sole obligation under this Section 9 of Developer (or the applicable Developer Affiliate) shall be to use commercially reasonable efforts to cause the applicable Third Party Developer to provide the foregoing infor-

mation. Developer (or the applicable Developer Affiliate) shall have a two (2) week cure period commencing after receipt of notice from the City of failure to satisfy the terms of this Section 9 before the City may exercise its remedies with respect to a breach of this Section 9. The City's sole remedies for Developer's (or the applicable Developer Affiliate's) failure to satisfy the reporting requirements under this Section 9 shall be as set forth in Section 14.d below.

10. **Notification of End of Affordability Period.** At least three (3) years prior to the end of the required Affordability Period, Developer (or the applicable Developer Affiliate) shall submit notice to the tenants of the Affordability Units, the City's HRD Director, and Detroit City Council indicating the end date of the Affordability Period and the Developer's (or the applicable Developer Affiliate's) plan for the expiring Affordable Units after the end of the Affordability Period. After this initial notification, the Developer (or the applicable Developer Affiliate) shall submit similar notices at eighteen (18) months prior to the end of the required Affordability Period and every six (6) months thereafter with such notices to the same parties listed above, indicating the Affordability Period remaining on the Affordable Units and notifications of the plan for the Affordable Units after the end of the Affordability Period. The foregoing notices shall be provided in the English and Spanish languages, as well as in any other language that Developer (or the applicable Developer Affiliate) knows that a significant group of tenants living in a project speak, and shall also include the posting of a notice in a visible location within a project.

Developer (or the applicable Developer Affiliate) shall, while negotiating its agreement with a Third Party Developer with respect to a Third Party Project, use commercially reasonable efforts to include in such agreement an obligation by the Third Party Developer to satisfy the notification requirements under this Section 10 (however the failure to obtain such an obligation from a Third Party Developer shall not be considered a default by Developer or the applicable Developer Affiliate under this Agreement.)

Notwithstanding anything to the contrary contained in this Agreement, (a) in the event that Affordable Units exist at a Third Party Project, and Developer (or the applicable Developer Affiliate) remains involved in the Third Party Project at such time as the foregoing notices are required to be provided, then Developer's (or the applicable Developer Affiliate's) sole obligation under this Section 10 shall be to utilize commercially reasonable efforts to cause the applicable Third Party Developer to provide the foregoing notices; and (b) in the event that Affordable Units exist at a Third Party Project, and Developer (or the applicable Developer Affiliate) is no longer involved in the Third Party Project at such time as that the foregoing notices are required to be provided, then Developer (or the applicable Developer Affiliate) shall have no obligation under this Section 10 to send any such notices.

Developer (or the applicable Developer Affiliate) shall have a two (2) week cure period commencing after receipt of notice from the City of failure to satisfy the terms of this Section 10 before the City may exercise its remedies with respect to a breach of this Section 10. Notwithstanding anything to the contrary contained in this Agreement, in the event the Developer (or the applicable Developer Affiliate) fails to provide the notices required under this Section 10, Developer (or the applicable Developer Affiliate) shall not be considered in default under this Agreement (and such failure shall not give rise to any of the City's remedies under this Agreement); provided, however, in the event of any such failure (beyond all applicable notice and cure periods), the City may extend the Affordability Period for the project for which Developer (or the applicable Developer Affiliate) has failed to provide such notices for an additional three (3) months for each failure to provide such a notice, up to a total maximum additional period of six (6) months. Such extension shall be in addition to any extension of an Affordability Period under Section 14.d below.

11. **Obligations of City.**

a. In the event Developer (or a Developer Affiliate) pursues an application for an allocation of Low Income Housing Tax Credits for any Project within the Affordable Housing Priority Area ("Application"), the City shall support Developer (or the applicable Developer Affiliate) in such Application by providing Developer (or the applicable Developer Affiliate) a letter of support that satisfies the requirements of the Michigan State Housing Development Authority.

b. The City shall make commercially reasonable efforts to assist Developer and Developer Affiliates through City permitting, site plan approval, financing applications and other City processes. Notwithstanding the foregoing obligation, the City's efforts do not guarantee final City approvals or Detroit City Council approval.

12. **Recording & Subordination.** Developer (or the applicable Developer Affiliate) shall cause the owner of a project that includes Affordable Units to execute and record a restriction encumber-

ing the project in a manner consistent with this Agreement for the duration of the applicable Affordability Period ("Recorded Restriction"). Once recorded, Developer (or the applicable Developer Affiliate) shall provide a copy of each Recorded Restriction to the HRD Director. Any such Recorded Restriction shall be subordinate in all respects, notwithstanding order of recording, to the following: (a) the rights and remedies provided by Developer or the project owner(s) to Michigan State Housing Development Authority under each and every regulatory agreement when recorded against the project in connection with an allocation of LIHTC; (b) all other regulatory or similar agreements when recorded against the project benefitting a governmental or quasi-governmental agency; and (c) all rights and remedies imposed against Developer and/or the project owner(s) arising under all current or future mortgages, assignments of leases and rents, UCC fixture filing and financing statements, easements, liens, leases, licenses and/or restrictions when recorded against the Project.

A Recorded Restriction recorded against a project shall be immediately and automatically discharged and of no further or effect at the end of the applicable Affordability Period, or shall be discharged at an earlier time if alternate Affordable Units are provided at another project within the Affordable Housing Priority Area. At such time as a Recorded Restriction is to be discharged, Developer (or the applicable Developer Affiliate) may unilaterally cause the Recorded Restriction to be discharged by recording an affidavit of discharge signed exclusively by Developer (or the applicable Developer Affiliate), or, if a project is a Third Party Project, the applicable Third Party Developer may, together with Developer (or the applicable Developer Affiliate) unilaterally sign such affidavit of discharge.

13. **Casualty Events.** If the Affordable Units cease to be available as the result of fire, damage, or other casualty ("Casualty Event"), Developer (or the applicable Developer Affiliate) shall provide prompt written notice of such Casualty Event to the City, and Developer (or the applicable Developer Affiliate) shall proceed with one of the following options, which Developer (or the applicable Developer Affiliate) may elect in its sole discretion:

a. Developer (or the applicable Developer Affiliate or Third Party Developer) may use the insurance proceeds that are actually made available to it to restore the Affordable Units that have been damaged as as a result of the Casualty Event. If Developer (or the applicable Developer Affiliate) elects this option, then same time periods (and extension rights) set forth in Section 3.c. shall apply with respect to the commencement and substantial completion of the restoration of the damaged Affordable Units, which time periods shall initially run from the date of the Casualty Event. If commencement and substantial completion of the restoration does not occur with the applicable time periods, the City may impose the remedies provided for in Section 14 (a) and (b); provided, however, Developer (or the applicable Developer Affiliate or Third Party Developer) shall not be required to spend any money to restore the damaged Affordable Units in an amount over and above the insurance proceeds that are actually made available to such entity for the restoration of the Affordable Units damaged as a result of a Casualty Event, and in the event that such insurance proceeds are only sufficient to restore some but not all of the Affordable Units that existed prior to the occurrence of the Casualty Event, then, so long as all such insurance proceeds have been spent on the restoration of such Affordable Units, Developer (or the applicable Developer Affiliate or Third Party Developer) will be deemed to have restored all of the Affordable Units that were damaged as a result of the Casualty Event for all purposes under this Agreement.

b. Developer (or the applicable Developer Affiliate) may replace the Affordable Units that have been damaged as a result of the Casualty Event with additional existing or planned Affordable Units within the Affordable Housing Priority Area. If such units do not yet exist, then the same time periods (and extension rights) set forth in Section 3.c. above shall apply with respect to the commencement and substantial completion of the construction or rehabilitation of the damaged Affordable Units, which time periods shall initially run from the date of the Casualty Event. If commencement and substantial completion of the replacement does not occur with the applicable time periods, the City may impose the remedies provided for in Section 14 (a) and (b).

c. Developer may elect to pay liquidated damages as set forth in Section 14 (b) for the remainder of the Affordability Period; provided, however, that (a) Developer shall have a period of time equivalent to the Commencement Period before any liquidated damages are to be paid, which time period shall initially run from the date of the Casualty Event, unless Developer elects to commence paying such liquidated damages earlier; and (b) if Developer elects to pay such liquidated damages but thereafter provides Affordable Units to satisfy its Affordable Housing Requirement under this Agreement, such liquidated damages shall no longer be due with respect to the

Affordable Units that Developer has thereafter provided.

The Affordability Period for the Affordable Units which are the subject of the Casualty Event shall be tolled during the period of time such units do not exist in the Qualifying Project or other Project in the Affordable Housing Priority Area; provided, however, that if Developer elects to pay liquidated damages, the tolling period shall terminate as of the date that such liquidated damages commence being paid.

14. **Default and Remedies.** Any failure to satisfy the obligations in this Agreement shall solely be a breach of this Agreement (and not a breach of any other agreement or contract pertaining to either a Qualifying Project or a project that is relying on the Qualifying Project to satisfy the terms of this Agreement). The City's sole remedies under this Agreement are as follows:

a. Failure to Commence Construction. If construction or rehabilitation does not commence on the required number of Affordable Units within the applicable Compliance Period or any extension thereof, the Affordability Period shall be extended for a period equal to the amount of time between when construction or rehabilitation was required to commence in satisfaction of the Compliance Period and when construction or rehabilitation actually commenced; provided, however, that if the Affordable Units are ultimately completed within the Completion Period, such extension of the Affordability Period shall not occur.

b. Failure to Complete Construction. If the Affordable Units are not substantially completed within the Completion Period or any extension thereof, the City may require that Developer pay or cause to be paid to the City as liquidated damages (and not as a penalty) an amount equal to Two Thousand Five Hundred Dollars ($2,500.00) per year for each Affordable Unit that is in violation of this Agreement (pro-rated for any time periods that any such Affordable Unit is brought into compliance with this Agreement). Upon the payment of any such liquidated damages, Developer (and the applicable Developer Affiliate(s)) shall be deemed to be in compliance under this Agreement with respect to each Affordable Unit for the time period to which the liquidated damages that have been paid pertain.

c. Violation of Agreement With Respect to Existing Affordable Units. If Affordable Units physically exist but Developer or an applicable Developer Affiliate or Third Party Developer markets or charges rent for such Affordable Units in a manner that is inconsistent with the definition of Affordable Units under this Agreement, the City may declare an event of default by providing notice to the Developer. Upon Developer's receipt of such notice, the Developer (or the applicable Developer Affiliate) shall have sixty (60) calendar days to cure the default by either: (1) marketing or charging rent for such Affordable Units in a manner that is consistent with the definition of Affordable Units under this Agreement, (2) providing the Affordable Units within the respective project or an alternative project; or (3) Developer (and not a Developer Affiliate) paying damages in the following amount:

(i) the excess of actual rent received by Developer (or the applicable Developer Affiliate or Third Party Developer) over the Affordable rent that would otherwise apply for each unit not in compliance; plus

(ii) a penalty for each unit not in compliance in the amount of 25% of the Affordable monthly rent for each month or part of a month of noncompliance; plus

(iii) the enforcement costs of the City with respect to the Affordable Units that are subject to such damages.

If the City is entitled to pursue its remedies under this Section 14.c, then Developer shall provide the City an accounting of the actual rent received by Developer (or the applicable Developer Affiliate or Third Party Developer) as referenced in Section 14.c.i above. If Developer fails to do so within thirty (30) days after Developer's receipt of a request for such information, then, with respect to the units that Developer has failed to provide such information only, (i) the City may calculate the damages under Section 14.c.1 using the applicable market rental rate that would apply to each Affordable Unit absent the affordability restriction that Developer has reported to the City pursuant to Section 9.vi above (in lieu of the actual rent received); and (ii) the penalty under Section 14.c.ii. shall increase to 30% of the Affordable monthly rent (in lieu of 25%); provided, however, no such increase shall be applicable with respect to Affordable Units in a Third Party Project if Developer, after using commercially reasonable efforts, has been unable to obtain (or has been delayed in obtaining) information from a Third Party Developer regarding the actual rent received by such Third Party Developer.

Upon the payment of any such liquidated damages, Developer (and the applicable Developer Affiliate(s)) shall be deemed to be in compliance under this Agreement with respect to each Affordable Unit for the time period to which the liquidated damages that have been paid pertain.

Notwithstanding anything to the contrary that may be contained in this Agreement, only Developer (and not any Developer Affiliates) shall be obligated to

pay any damages that may be owed under this Agreement as a result of a default by Developer or a Developer Affiliate beyond applicable notice and cure periods, and under no circumstances shall any Developer Affiliate ever have any such obligation.

d. Failure to Satisfy Reporting Obligation to City: If Developer (or the applicable Developer Affiliate) fails to provide the information to the City required under Section 9 above (after the passage of all applicable notice and cure periods), then the City's sole remedy shall be to extend the Affordability Period for the project for which Developer (or the applicable Developer Affiliate) has failed to provide such information for an additional three (3) months for each breach of Section 9, up to a total maximum additional period of six (6) months. Such extension shall be in addition to any extension of an Affordability Period under Section 10 above.

e. Third Party Defaults. Notwithstanding anything to the contrary contained in this Agreement, if a default under this Agreement by Developer or a Developer Affiliate results from a Third Party Project, then, prior to the City exercising its remedies under Sections 14(a), 14(b), and 14(c) above, Developer (or the applicable Developer Affiliate) shall have a period of twelve (12) months after receipt of written notice from the City of a violation of this Agreement to cure or cause the applicable Third Party Developer to cure such violation. If, after the expiration of such cure period, some or all of the Affordable Units at the Third Party Project are still not in compliance with this Agreement then the City may pursue its applicable remedies under this Agreement with respect to such Affordable Units (which shall only be considered to be in violation of this Agreement from and after the expiration of such cure period).

f. Payment into Affordable Housing Preservation Fund: Any amounts required to be paid to the City under this Agreement shall be utilized by the City for its affordable housing preservation fund, if such City fund exists. As of the Effective Date, such fund is currently contemplated as the "Detroit affordable housing development and preservation fund" (which has not yet been formed). Developer is still obligated to pay the City such amounts under this Agreement regardless of whether or not such City fund exists.

15. **Other Financial Incentive Agreements.** Nothing contained in this Agreement shall limit the exercise of any remedy contained in any other agreement or law relating to a Financial Incentive as long as any such remedy: (i) does not relate to a breach of any affordable housing requirement, and (ii) relates to a breach by the owner of the Project to whom the Financial Incentive was awarded.

16. **Notices.** All notices, consents, approvals, requests and other communications, herein collectively called "Notices", required or permitted under this Agreement shall be given in writing, signed by an authorized representative of City, Developer or the owner of a Project, as the case may be, and either mailed by certified or registered mail return receipt requested; or sent by recognized overnight delivery service for next day delivery, and addressed as follows:

Any party to this Agreement may change its address for the receipt of Notices to an address in the United States or designate additional addresses to whom copies of Notices shall be sent at any time by giving Notice thereof to the others as herein provided.

17. **Effect of Reduced Financial Incentives.** Notwithstanding anything to the contrary contained in this Agreement, if, taking into consideration Section 19 below, any Financial Incentive granted for a Project does not include the maximum benefits otherwise permitted pursuant to standard underwriting criteria for a project with such characteristics (e.g., a Financial Incentive is for a shorter duration than the duration that the Project is qualified for based on standard underwriting criteria for a project with such characteristics and taking into consideration Section 19 below), the number of Affordable Units that are required by the Affordable Housing Requirement result-

ing from such Project will be proportionately reduced. For example, if a Project that is to include eighty (80) market-rate residential units is qualified based on standard underwriting criteria (taking into consideration Section 19 below) for a ten (10) year tax abatement, but is only approved for a seven (7) year tax abatement, then the number of Affordable Units required by the Affordable Housing Requirement that results from such Project will be reduced by thirty percent (30%) (i.e., fourteen (14) Affordable Units would be required instead of the twenty (20) Affordable Units that would have been required had a ten (10) year tax abatement been granted). For purposes of this Section, a qualified historic building shall be treated in the same manner as a non-historic building in determining the maximum benefit permitted by law.

18. **Continuing Ability of Developer to Satisfy Affordable Housing Requirements within the Affordable Housing Priority Area.** The City and Developer acknowledge and agree that Developer and Developer Affiliates have and will continue to place material reliance on the terms and conditions of this Agreement in making development plans, investments, and financial commitments, including in particular, but not limited to, Developer's and Developer Affiliates' ability under this Agreement to satisfy Affordable Housing Requirements within any portion of the Affordable Housing Priority Area (in lieu of being required to satisfy such requirements solely within a Project that has received a Financial Incentive). Given Developer's and Developer Affiliates' existing and continuing material reliance on this Agreement (and particularly upon such ability under this Agreement to satisfy Affordable Housing Requirements within any portion of the Affordable Housing Priority Area), the City agrees that, notwithstanding the future implementation by the City (or an instrumentality thereof) of an ordinance, regulation, practice, or procedure related to affordable housing, Developer and Developer Affiliates will continue to have the ability under this Agreement to satisfy Affordable Housing Requirements within any portion of the Affordable Housing Priority Area. In the event that either (a) an ordinance or executive order related to affordable housing enacted by the City after the Effective Date imposes requirements that are less stringent than the requirements under this Agreement, or (b) despite the existence of this Agreement, it is determined that Developer and Developer Affiliates no longer benefit from the ability under this Agreement to satisfy Affordable Housing Requirements within any portion of the Affordable Housing Priority Area, then, in either such event, Developer may elect to continue the effectiveness of this Agreement with respect to the satisfaction by Developer and Developer Affiliates of all Affordable Housing Requirements in existence as of the date of such enactment or determination, but terminate this Agreement with respect to any future Affordable Housing Requirements that accrue after such date. The City will also be bound by such election by Developer.

19. **Underwriting Process for Financial Incentives.** For purposes of the underwriting process to determine the qualification for Financial Incentives for any Project that does not include Affordable Units equal to 20% of all residential rental dwelling units within such Project, and where the required number of Affordable Units are or will be provided at another Qualifying Project, at the request of Developer, the underwriting for such Project shall take into account the cost of providing the required number of Affordable Units in a Qualifying Project, which cost analysis shall consider the effect of any Financial Incentives for the Qualifying Project; and shall account for the different market conditions in which the units are located, if applicable. This provision is in recognition of the Developer's obligation and right under this Agreement to satisfy the Affordable Housing Requirement either at a Project receiving a Financial Incentive or at any other location within the Affordable Housing Priority Area. This provision shall be binding on the City and any other instrumentality, body, or other person or entity that conducts underwriting with respect to Financial Incentives or otherwise determines the qualifications of a project for Financial Incentives, and the City shall take such steps as are necessary to ensure that any such body, instrumentality, person or entity complies with the terms of this Section 19.

20. **Confirmatory Certificate.** At the request of Developer or a Developer Affiliate, the HRD Director, on behalf of the City, shall execute and deliver, within twenty-one (21) days of its receipt of a written request, a certificate addressed as requested stating that: (a) this Agreement is in full force and effect; (b) there is no default under this Agreement, or if there is any default, the extent and nature thereof; (c) this Agreement has not been modified or amended in any way, or if it has been modified or amended, the subject matter and dates of any such modifications or amendments; (d) confirming how many Affordable Units must be provided at a given Project pursuant to this Project and for what duration, or, if a Project is relying on Affordable Units at a Qualifying Project to satisfy its applicable Affordable Housing Requirement, confirming that no Affordable Units must be provided at

such Project; and (e) such other information relating to the subject matter of this Agreement as Developer or the applicable Developer Affiliate may reasonably require. Such certificate may be relied upon by the party to whom it is addressed and its mortgagees, successors, and assigns.

21. **Location of Certain Affordable Units.** Notwithstanding anything to the contrary contained in this Agreement, so long as Financial Incentives are awarded for all of the Projects listed in this Section 21, Developer and the applicable Developer Affiliates agree that at least a total of twenty-five (25) Affordable Units, in the aggregate, shall be located across the following planned Projects: (a) the property commonly referred to as the "Hudson's Site," which is located at 1206 and 1208 Woodward Avenue; (b) the property commonly referred to as the "Monroe Blocks," which consists of the area bounded by Monroe Avenue, Randolph Street, Bates Street, Cadillac Square, and Woodward Avenue; (c) the property commonly referred to as the "Book Building and Tower," which is located at 1265 Washington Boulevard; or (d) the property commonly referred to as the "David Stott Building," which is located at 1150 Griswold Street. Developer (and the applicable Developer Affiliates) may allocate the foregoing twenty-five (25) Affordable Units across any of the foregoing Projects in their discretion, provided that (i) at least five (5) Affordable Units shall be located at the property commonly referred to as the "Hudson's Site;" and (ii) the Affordable Units required under this Section shall be allocated among at least (3) of the four (4) Projects identified in this Section.

22. **Miscellaneous Provisions.**

a. All obligations of Developer and Developer Affiliates under this Agreement shall be subject to force majeure. For purposes of this Agreement, force majeure means an event beyond the control of Developer (or a Developer Affiliate or Third Party Developer) which prevents or impairs Developer (or a Developer Affiliate or Third Party Developer) from complying with its obligations under this Agreement, including but not limited to delays caused by the City or any instrumentality of the City; a natural disaster; fire; flood (whether natural or man-made); failure in essential water, sewer, power, or other infrastructure (such as a sewer or storm water failure); act or threat of terrorism; environmental hazard; or other casualty event causing substantial damage to the property or project or preventing completion of the project.

b. This Agreement shall be binding upon the successors and assigns of a Developer Affiliate owning a Project or Qualifying Project. Upon the sale of a Project or Qualifying Project, (i) the purchaser of a Project or Qualifying Project shall be subject to the terms of this Agreement with respect to such Project or Qualifying Project, (ii) the purchaser of the Project or Qualifying Project shall comply with the provisions of this Agreement with respect to such Project or Qualifying Project from and after the purchaser's acquisition of the Project or Qualifying Project, and (iii) Developer (and the applicable Developer Affiliate) shall be released from all obligations under this Agreement with respect to such Project or Qualifying Project. Notwithstanding the foregoing or anything to the contrary contained in this Agreement, the Affordable Housing Requirement at a project shall automatically terminate if a project is taken by eminent domain, foreclosed upon by a bona fide lender, or a deed in lieu of foreclosure is given to a bona fide lender.

c. Nothing contained in this Agreement, nor any act of Developer Affiliate, Third Party Developer, or the City shall be deemed or construed by any of the parties hereto or by any third person to create any relationship of third-party beneficiary, principal and agent, limited or general partnership, or joint venture, or of any association or relationship other than that of contracting parties.

d. Notwithstanding any other provisions of this Agreement, any required permitting, licensing or other regulatory approvals by any governmental authority shall be subject to and undertaken in accordance with the established procedures and requirements of such authority, as may be applicable, with respect to similar projects and in no event shall the governmental authority by virtue of any provision of this Agreement be obligated to take any actions concerning regulatory approvals.

e. If this Agreement contains any unlawful provisions not an essential part of this Agreement and which shall not appear to have a controlling or material inducement to the making thereof, such provisions shall be deemed of no effect and shall be deemed stricken from this Agreement without affecting the binding force of the remainder. In the event any provision of this Agreement is capable of more than one interpretation, one which would render the provision invalid and one which would render the provision valid, the provision shall be interpreted so as to render it valid.

f. The laws of the State of Michigan shall govern the validity, performance and enforcement of this Agreement. This Agreement has been negotiated by Developer and the City, and the Agreement, including, without limitation, the Exhibits, shall not be deemed to have been negotiated and prepared by Devel-

oper or the City, but by both of them.

g. This Agreement, and all the documents and agreements described or referred to herein, including, without limitation, the Exhibits hereto, constitute the full and complete agreement between the parties hereto with respect to the subject matter hereof, and supersedes and controls in its entirety over any and all prior agreements, understandings, representations and statements whether written or oral by each of the parties hereto.

h. The headings used in connection with the Sections and paragraphs of this Agreement are for convenience only and shall not be deemed to construe or to limit the meaning of the language of this Agreement.

i. This Agreement may be executed in counterparts, each of which shall be deemed to be an original document and together shall constitute one instrument.

23. **Authority of City.** Notwithstanding anything in this Agreement or otherwise to the contrary, this Agreement shall not be effective until it has been fully executed by the duly authorized representatives of the City, as well as approved by the Detroit City Council, the Mayor of the City of Detroit, the City of Detroit Law Department and any other City financial review board or commission as required by law. Except as otherwise expressly provided in this Agreement, any amendments or modifications must likewise be duly approved by the City Council, the Mayor, and the Law Department.

b. Applicant will verify the income of an applicant proposing to lease an Affordable Unit.
c. In the event that a tenant's income is no longer not more than 80% of AMI, his or her unit shall be considered to comply with paragraph 1 above notwithstanding renewals of the lease and until the termination of the lease for his or her unit.
d. Applicant currently intends to offer 0 studios, 30 one-bedroom units and 0 two-bedroom units as Affordable Units. Applicant may alter this unit mix in its discretion.

f. The commitments set forth herein may be terminated in the event an arms-length lender forecloses on a mortgage secured by the Project.

2. Payment for Exempted Taxes for Violation of Undertaking. If Applicant is not in compliance with its obligations under paragraph 1 of this Addendum and fails to cure its non-compliance within 60 days of written notice from the City, the Applicant shall pay the City, in addition to the Obsolete Properties Tax due under the OPREC on the Property, an amount equal to the difference for the year of non-compliance between the amount of ad valorem tax otherwise due on the Property without the OPREC and the amount of the Obsolete Properties Tax due on the Property with the OPREC, multiplied by a fraction, the numerator of which is shortfall of the number of units that are not in compliance and the denominator of which is 6. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this paragraph 2, the City shall afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this Addendum and shall consider whether to waive the payment obligation described in this paragraph 2.

Re: Re-conveyance of Tax-Foreclosed Property to Wayne County Treasurer 9031 Thaddeus

Under the 2015 First Right of Refusal, the City of Detroit acquired 9031 Thaddeus as tax foreclosed property from the Wayne County Treasurer for the amount of $3,221.39. This property measures approximately 3100 square feet and is zoned M-4 (Intensive Industrial District). On May 24, 2016, your Honorable Body authorized the transfer of jurisdiction of the property from the Planning and Development Department to the Detroit Water and Sewerage Department.

The Wayne County Treasurer has informed us that due to a payment application error this property was incorrectly placed on its' 2015 foreclosure list. Accordingly, so that they may correct this oversight, they are asking that the property be re-conveyed from the City of Detroit back to the Wayne County Treasurer. The Planning and Development Department (P&DD) agrees that this action is necessary and appropriate.

We, therefore, request that your Honorable Body return the jurisdiction of 9031 Thaddeus to the Planning and Development Department. We, further, request that your Honorable Body authorize the Mayor of the City of Detroit, or his authorized designee, to issue a quit claim deed to the property and such other documents as may be necessary to effectuate the conveyance of 9031 Thaddeus to the Wayne County Treasurer, for the amount of $3,221.39.

Whereas, the Wayne County Treasurer has informed P&DD that due to an error 9031 Thaddeus was incorrectly placed on its' 2015 foreclosure list and has requested that the property be deeded back to Wayne County;

Re: Request of SDG Associates on behalf of their client, UAW Ford for PC (Public Center) Special District Review of exterior changes to the Veterans Memorial Building, located at 151 W. Jefferson Avenue, the proposed expansion of the 2nd floor W. Jefferson Ave. lobby. **(Recommending Approval With Conditions)**

REQUEST

The City Planning Commission (CPC) has received the request of SDG Associates on the behalf of their client, UAW Ford, for PC (Public Center) Special District Review of exterior changes proposed for 151 W. Jefferson Avenue, the Veterans Memorial Building. The petitioner seeks authorization of a single story expansion of the 2nd floor or W. Jefferson Ave. lobby along the eastern facade of the existing building. This request is being made consistent with the provisions of Section 61-3-82 of the Detroit Zoning Ordinance. The Commission received an informational presentation of this request at its regular meeting of June 1, 2017 and subsequently took at its meeting of June 29th and now submits this report and recommendation.

PROPOSED PROJECT

The Special District review is being

conducted in response to the UAW Ford's desire to erect a single story expansion, adding approximately 2300 square feet to the lobby along the eastern facade of the Veterans Memorial Building along W. Jefferson Ave. The plan view of the building as seen from above is in a "L" shape, with the interior angle opening to the northeast and partially enclosing the sunken Lincoln Plaza at the western edge of Hart Plaza. The space is to be used as exhibit space and otherwise serve the primary function of the building as an education and training facility.

The expansion essentially takes the form of a glass box (including the roof) extruded from the existing lobby about 21 feet beyond the plane of the overhanging upper floors of the east facade and matching the plane of the overhang on the north facade. The structural glass enclosure is to be supported by new columns and beams in conjunction with the existing columns that currently support the east facade and the existing first floor structure and foundation below grade. Direct access to the expanded space from the exterior may be gained via the introduction of the Nana Wall (folding wall) system that will provide wide uninterrupted openings within the northernmost 14 feet of the east facade and two sections of the easternmost 12 feet of the north facade. To accomplish this the demolition plan calls for the removal of the existing six (6) door entry way to the lobby along the east facade and the reestablishment of an access point in the north facade relocated via a new four (4) door vestibule to the west of the proposed Nana Wall system. Lastly, a double door emergency exit is to be provided along the south facade of the addition.

The expanded lobby will be finished with terrazzo flooring and contain seating of various types and arrangements, video kiosks, art work, historical and other displays. It will continue to serve as a lobby as well as a place of assembly with greater capacity for people and exhibits. The expansion also includes the introduction of programmable LED lighting to the lobby, which will have the capability to illuminate the space in varying colors in order to celebrate holidays and other designated days recognizing various charities and events. Lastly, the construction of this space with disturb the surrounding pavement. New colored concrete will be added potentially in association with paving extending from Cobo Center. *(Please note the attached project booklet contains in image under exhibit C that is not part of the project. That image is simply intended to depict another installation of the NanaWall system. Also, Exhibit D is an image of the UAW Ford logo that is not printing properly).*

BACKGROUND

Since the UAW Ford took control of the Veterans Memorial Building as its training center via lease agreement in 1997, $40 million in renovations/alterations have been made to the building and grounds. While the building does not have a historic designation it is recognized as architecturally significant as a component of the Civic Center plan. The building and grounds are adorned by works of the late master sculptor Marshall Fredericks. The first alterations to the building included the expansion of the penthouse space atop the roof and the insertion of a large two story window in the front facade above Frederick's iconic Victory Eagle relief sculpture that faces W. Jefferson Avenue. These additions, particularly the window, where hotly-contested by historic preservationist, architectural purist and the artists community. Eventually, the changes were allowed to go forward. Marshall Fredericks work also includes seven (7) 20 feet tall pylons each depicting reliefs of military images. They were originally placed on the eastern edge of the property along the entry drive and overlooking the Lincoln Plaza (see the image below at the bottom of this page, ca 1960). These elements were relocated and placed on an axis perpendicular to the original placement and running to the west of the building toward Cobo Center as part of the railing for the bridge above Civic Center Bridge Drive (see below image on top of next page).

In 2015 the UAW Ford purchased the building from the City and continues make improvements to the building and grounds in order to support their operation and to beautify the complex. They are also working with Cobo Center to jointly address parking and traffic concern as well adjoining paved and landscaped areas.

When UAW Ford originally conceived of this expansion, it was thought of as a commemoration to the Arsenal of Democracy, another nickname of the City derived from the auto industries support of our military efforts in World War II. Such an undertaking would have qualities more a kin to an exhibit hall, gallery or museum. To that end the introduction of such a component to the building would restore some of the public/civic character and use lost in 1997. However, such an undertaking, done in full fashion, might overwhelm the repurposing of the building for education and training. Eventually, the UAW Ford determined to pursue the commemoration of the Arsenal of Democracy elsewhere in a more conducive setting.

ISSUES

When this property was sold to the UAW Ford in 2015, the conveyance included a deed restriction (see attached deed). This deed restriction limited the

use of the property, above and beyond zoning provisions, to education and training. The intent of the Law Department was to insure that the activities and character of the property would be that of in education or training facility and be in keeping with the institutional nature of the Civil Center campus. However, the deed restriction also includes a provision allowing for other uses to be established with the written consent of the City. It is the position of the Law Department that the expanded lobby, if it is to be used like a museum or exhibition hall, would warrant such additional written consent. The zoning ordinance would permit such use in the PC district, but the deed restriction would not and require written consent.

Law Department and CPC staff have determined that the Planning and Development Department (PDD), as the agency responsible for disposition of City held surplus real estate, is the most likely candidate for making a determination and preparing such consent. Given that the remaining expertise from the former Real Estate Division of the old Planning and Development Department is now housed within the to draft such a document, if needed.

At this point what remains is to understand just how the UAW Ford now intends to use the expansion area or any other part of the building and if such use is consistent with or incidental to the restriction of education and training. The UAW Ford has submitted a letter (included in the project booklet) to Director Cox of PDD describing their past present and future activities. Among them they indicate the intent to offer training as well as supportive services to veterans similar to their current support of auto workers. Again, to the extent these activities are determined to be inconsistent with the deed restriction, consent will have to be granted in conjunction with this Special District Review or otherwise continue to operate the facility as expanded in a manner that is consistent with the restriction.

Staff shares the concern that activities at this location should be limited given the building's prominence within the Civil Center and the spirit and intent of the PC district. Among the intent of restricting activities to education and training is to eliminate or reduce conflicts with other major events taking place at Cobo Center, Hart Plaza or along the riverfront. The UAW Ford acknowledges this general concern and this request presents the first opportunity to formally address the import of the deed restriction, its interpretation, application and any reconciliation with actual or desired use of the property by the UAW Ford.

REVIEW

While the sentiment remains among some to retain the building in its original form, as much as possible, we respect the UAW Ford's desire to further alter the building to enhance the space according to their needs. Were the originally requested and allowed alterations described above handled differently, we might be looking at a more conservative approach today. However, both the PDD and CPC staff feel that the proposed expansion and other related alterations are approached in such a way as to complement the building without detracting from its architecture and or the appeal and use of the grounds. PDD and CPC find the proposal to be acceptable to use and deed the restriction we believe all issues have been addressed.

CONCLUSIONS AND RECOMMENDATION

Having completed our review of the above captioned request the City Plans the proposed project to be consistent with the provisions, spirit and intent of the PC district zoning classification. The design including ground treatment around the addition will require some additional refinement as the project moves toward the permitting. CPC staff and PDD can address this with the petitioner/developer going forward. The proposed use of LED lighting to provide colored accept lighting is generally acceptable, but the operation will require the coordinated review of appropriate city agencies to insure against the creation of incompatible aesthetics, nuisance or hazard. The potential uses of the space and the building as discussed above and indicated in the project booklet are consistent with the provisions of PC zoning. However, the desired uses must be reconciled with the deed restriction by the PDD and the Law Department with assistance as may be needed from HRD and acknowledged by City Council concurrently with the consideration of this Special District Review.

The City Planning Commission recommends approval with the following conditions:

1. that the use of the property and any conflict with the deed restriction be determined, and consent, if required, be obtained prior to City Council action on this Special District review request;

2. that the use and operation of LED lighting to display color illumination of the lobby be subject to the review of the Planning and Development Department, City Planning Commission staff; and other agencies as may be necessary.

3. that the petitioner work with the Planning and Development Department and CPC staff to finalize the design and materials for the project; and

4. that final site plans, elevations, landscaping, lighting and signage plans be submitted to the staff of the City Planning

Commission for review and approval prior to application being made for applicable permits.

Planning and Development Department

July 12, 2017

Honorable City Council:

Re: Wholesale Distribution No. 3 Project Development: Parcel 572 (part of 3500 Riopelle): generally bounded by Hale, Orleans, Erskine and Riopelle.

The Planning and Development Department (P&DD) is in receipt of an offer from Ventra Group LLC, a Michigan Limited Liability Company, to purchase the above-captioned property (the "Property") for the amount of $700,000 and to develop such property. The total development site consists of an area of land measuring approximately 272,832 square feet (6.02 acres). it is comprised of the former Detroit Water and Sewerage Department (DWSD) Old Central Yard warehouse, an approximately 104,000 square foot, vacant, blighted brick structure situated between Erskine and vacated Scott streets and zoned M-3 (General Industrial District). The remaining area, north and adjacent between vacated Scott and Hale streets, is zoned B-6 (General Services District).

The Offeror proposes to convert the blighted structure into a mixed use development. Proposed uses for the site consist of a brewery, food processing and production, related retail, a food preservation/storage facility and restaurants. In addition, space will be built for business accelerator opportunities, focusing on small and emerging companies needing mentorship and/or to expand their production/sale capacity. These uses are permitted a a matter of right in a M-3 zone.

The remaining area is located in a B-6 zone and will contain a paved surface parking lot for the storage of licensed operable vehicles with landscaping, greenspace, proposed bicycle racks with other amenities and related uses as allowable in a B-6 zone.

The entire development is expected to create an opportunity for up to 150 new jobs and the development team is committed to utilizing their best efforts to hire at least 50% Detroit residents on this project. The projected cost of the development is approximately nineteen-million ($19,000,000), representing a significant investment into the Eastern Market District. The Eastern Market Corporation (EMC) is in support of this project and will manage the business accelerator space.

The Planning and Development Department has evaluated the proposal from Ventra Group LLC, a Michigan Limited Liability Company and now wishes to move forward with the conveyance of the subject property. The disposal of this land by negotiation is an appropriate method for making the land available for development.

We, therefore, request that your Honorable Body approve the sale and

authorize the Director of the Planning and Development Department, or his authorized designee, to execute an Agreement to Purchase and Develop Parcel 572, as more particularly described in the attached Exhibit A, with Ventra Group LLC, a Michigan Limited Liability Company, together with a deed to the property and such other documents as may be necessary to effectuate the sale, for the amount of $700,000.

Honorable City Council:

Re: Re-conveyance of Tax-Foreclosed Property to Wayne County Treasurer 13326 Chicago.

In January 2015, pursuant to Act 206 of

Public Acts of 1893, as amended by Act 123 of Public Acts of 1999, the Office of the Treasurer of the Charter County of Wayne, Michigan conveyed and quit claimed to the City of Detroit at no cost, 13326 Chicago, as it was not purchased at the 2014 auction of tax-foreclosed property. This property consists of vacant land measuring approximately 7500 square feet and is zoned B-4 (General Business District).

The Wayne County Treasurer has informed us that the former owner was to pay the taxes after an illness and there may have been miscommunication regarding the payment. Accordingly, they are asking that the property be conveyed from the City of Detroit back to the Wayne County Treasurer, without cost to any party. The Planning and Development Department (P&DD) agrees that this action is necessary and appropriate.

We, therefore, request that your Honorable Body authorize the Planning and Development Department Director, or his authorized designee, to issue a quit claim deed to the property and such other documents as may be necessary to effectuate the conveyance of 13326 Chicago to the Wayne County Treasurer, without cost to any party.

A suitable resolution to that effect is attached for your consideration and approval.

By Council Member Leland:

Whereas, In January 2015, the City of Detroit acquired 13326 Chicago (the "Property"), more particularly described in the attached Exhibit A, from the Wayne County Treasurer, without cost; and

Whereas, The Wayne County Treasurer has informed the Planning and Development Department that due to an oversight the Property was incorrectly placed on its' 2014 foreclosure list and has required conveyance of the Property from the City of Detroit back to the Wayne County Treasurer, without cost to any party;

Now, Therefore, Be It

Resolved, That the Planning & Development Department Director, or his authorized designee, be and is hereby authorized to execute a quit claim deed for 13326 Chicago, the property more particularly described in the attached Exhibit A, along with any and all such documents as may be necessary to effect the conveyance of the property to the Wayne County Treasurer, without cost to any party.

RESOLUTION IN SUPPORT OF SENATE BILL 469 FOR THE REESTABLISHMENT OF THE STATE HISTORIC TAX CREDIT

By Council Member Benson:

Whereas, Historic preservation tax incentives are used to promote the preservation and rehabilitation of these resources around the state. The Michigan State Historic Preservation Tax Credit, which expired in December 2011, formerly provided a direct economic benefit to the City of Detroit by facilitating significant investments in the rehabilitation of Detroit's historic building stock, enhancing the aesthetic character of our community and the quality of life of our residents; and

Whereas, In 2011, the State of Michigan repealed the Michigan Historic Preservation Tax Credit, an invaluable resource for owners of both commercial and residential historic properties. This credit was particularly useful in simulating the rehabilitation of real estate in Detroit's historic districts; and

Whereas, In the thirteen years the tax credit existed, between January 1999 and December 2011, approximately 200 projects were approved. Over this period, the $42 million in state historic preservation credits helped leverage over $122 million in federal credits for local developers. Commercial projects comprised the largest investment in historic properties; and

Whereas, Senate Bill 469 has been introduced, which if passed into law, will restore this important investment tool for both local homeowners and commercial property owners. Like the previous version of the historic preservation tax credit, property owners who undertake qualified rehabilitations of certain historic resources can apply for a credit against their state general income tax of 25 percent of qualified rehabilitation expenditures. It also offers a supplemental five percent credit to the 20 percent federal historic preservation credit for income producing properties, and is the only credit available for owner-occupied historic homes.

Now, Therefore Be It

Resolved, That the Detroit City Council staunchly supports Senate Bill 469 which reestablishes a state historic preservation tax credit that will help incentivize homeowners, commercial property owners, and

businesses to rehabilitate historic commercial and residential resources; Be It Finally

Resolved, That a copy of this resolution be transmitted to the Michigan Senate Committee on Finance, the Michigan House Committee on Tax Policy and the Detroit Delegation in the Michigan Legislature.

RESOLUTION AUTHORIZING THE ESTABLISHMENT OF A SECONDARY STREET NAME IN HONOR OF FATHER CLEMENT KERN AT THE INTERSECTION OF SIXTH STREET AND PORTER STREET

By Council Member Leland:

Whereas, the Detroit City Council has received a request from Council Member Castaneda-Lopez, on behalf of Historic Most Holy Trinity Catholic Church, to assign a Secondary Street Name to Father Clement Kern, to be located at the intersection of Sixth Street and Porter Street; and

Whereas, the Historic Most Holy Trinity Catholic Church located at the intersection of Sixth Street and Porter Street is historically significant, having served as the seat of Father Kern's ministry to the residents of the City of Detroit for more than fifty years; and

Whereas, in recognition of his legacy and dedication in serving the Corktown community and the people of Detroit as Pastor and later as Monsignor of the Historic Most Holy Trinity Catholic Church, Father Kern was often referred to as the "Conscience of Detroit;" and

Whereas, Father Kern saw the needs of the community and established a board range of programs which included the St. Frances Cabrini Medical Clinic, a free legal clinic; the Corktown Cooperative, which provided work experience for recovering alcoholics; and the Corktown Housing Cooperative; which provided low cost housing for the poor; and

Whereas, Father Kern was best known as the labor priest and a great friend of migrant workers and labor unions. Now, Therefore Be It

Resolved, That the City Council finds the above-mentioned individual and the proposed location meets the criteria for Secondary Naming of a Street in accordance with Article VII, Sections 50-7-31 through Sections 50-7-50 of the 1984 Detroit City Code; Be It Further

Resolved, That the intersection of Sixth Street and Porter Street be assigned the secondary street name "Father Clement Kern Avenue" in celebration of his noteworthy contributions; Be It Further

Resolved, That the projected cost of designing, producing, erecting, replacing and removing the necessary signs and markers shall be paid, in advance, to the street fund by the petitioner requesting the secondary name; And Be It Finally

Resolved, A certified copy of the resolution shall be transmitted by the City Clerk to the Fire Department, Police Department, Department of Public Works and its City Engineering and Traffic Engineering Divisions, Department of Transportation and the United States Postal Service.

Department of Public Works
Administration Division

July 18, 2017

Honorable City Council:

Re: Approval and Authorization to Purchase Property from Consolidated Rail Corporation for the Inner Circle Greenway Project

The Department of Public Works (DPW) requests your approval and a authorization to purchase from Consoli-

dated Rail Corporation the approximately seventy-eight (78) acres of abandoned railway shown on the attached Exhibit A (the "Property") for up to four million three hundred and twenty thousand dollars ($4,320,000.00).

As identified in the City's Non-Motorized Transportation Master Plan, the Inner Circle Greenway is a critical link in creating a continuous non-motorized network. The purchase of the Property will allow DPW to incorporate the railway into the non-motorized greenway connecting over 200 miles of existing bike lanes and shared-use paths in the City as well as to provide a link to many, in cities of Hamtramck, Highland Park and Dearborn.

The City intends to use funds available in Street Fund (3301-13817-193353-641100-005517-00000-0000-000000) to purchase the Property and it will be reimbursed from the following grants (1) a Natural Resources Trust Fund grant to cover 75% of the purchase price, not to exceed $3,431,300.00, from the Michigan Department of Natural Resources, and (2) a Michigan Department of Transportation – Federal Transportation Alternatives Program grant to cover 25% of the purchase price, not to exceed $1,143,700.00.

We respectfully request your approval and authorization to purchase the Property for the Inner Circle Greenway Project and be opened or dedicated as public right-of-way for public outdoor recreational purposes and placed under the jurisdiction of DPW.

Respectfully submitted,
RON BRUNDIDGE
Director
Department of Public Works

Approved:
TANYA STOUDEMIRE
Budget Director

By Council Member Benson:

Whereas, the City of Detroit, through its Department of Public Works ("DPW"), wishes to purchase from Consolidated Rail Corporation the approximately seventy-eight (78) acres of abandoned railway shown on the attached Exhibit A (the "Property") for up to four million three hundred and twenty thousand dollars ($4,320,000.00); and

Whereas, the purchase of the Property will allow the City of Detroit to establish the Inner Circle Greenway as a non-motorized transportation network for commuting, biking, and walking that will stimulate community revitalization, connection to employment and points of interest including school, parks, business districts, Eastern Market, Detroit Riverwalk and Belle Isle State Park; and

Whereas, in accordance with Chapter 2, Article I, Division 2, of the Detroit City Code, where there is a finding and a declaration that the acquisition of real property without prior environmental review or environmental assessment is necessary to preserve and promote the public health, safety, welfare or good, this Honorable Body may authorize the execution of a purchase agreement for the acquisition of such real property which is contingent upon satisfaction of such conditions as this Honorable Body may require; and

Now Therefore Be It Resolved, that this Honorable Body hereby finds and declares (1) that the acquisition of the Property is necessary to preserve and promote the public health, safety, welfare and good; and (2) that the preservation of the promotion of the public health, safety, welfare or good outweighs the costs of the environmental assessment and therefore waives the requirement that the seller bears the cost of the environmental assessment; and (3) within 45 days of recording the deeds to the Property the Baseline Environmental Assessment shall be prepared and submitted to the Michigan Department of Environmental Quality; and

Be It Further Resolved, that the DPW Director, or his authorized designee, be and is hereby authorized to execute and deliver a purchase agreement for the acquisition of the Property from Consolidated Rail Corporation, contingent upon satisfaction of the requirements of Chapter 2, Article I, Division 2 (being Section 2-1-11 through and including 2-1-15) of the Detroit City Code; and be opened or dedicated as public right-of-way for public outdoor recreational purposes and placed under the jurisdiction of DPW; and

Be It Further Resolved, that after the review and evaluation of an environmental inquiry and environmental assessment of the Property by the Building, Safety Engineering and Environmental Department ("BSEED") and BSEED's determination that the Property can be made safe for the planned recreational use and there is no contamination that will reduce the overall usefulness of the Property for public recreation; the DPW Director, or his authorized designee, is hereby authorized to accept and record deeds to the City of Detroit for the Property, as well as execute any such other documents as may be necessary to convenient in connection with the transfer of the Property from Consolidated Rail Corporation to the City of Detroit.

Re: Petition No. 241 — Faygo Beverages Inc. request to renew the vacation (Temporary Closure) of Superior Street due to the location of their docks which creates a high volume of traffic located at 3579 Gratiot Avenue.

Petition No. 241 — Faygo Beverages Inc., request to temporary close and later amended to vacate and convert to easement the westerly 508 feet of Superior Street, 50 feet wide, between Moran Avenue, 50 feet wide and Gratiot Avenue, 120 feet wide.

The request is being made because a long standing temporary closure has expired. Faygo Beverages Inc. had approval by your Honorable Body to close a portion of Superior Street. The petition 3897 approved on February 5, 1986 allowed the temporary closure. The closure is still needed because of the high volume of truck traffic and the loading docks in the area.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW (TED), TED has certain conditions that have been made a part of the resolution.

All involved City Departments, including the Public Lighting Department, the Public Lighting Authority and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution.

I am recommending adoption of the attached resolution.

RESOLUTION ESTABLISHING FOUR ANNUAL JOB FAIRS IN THE CITY OF DETROIT

BY: HONORABLE COUNCIL PRESIDENT BRENDA JONES:

Whereas, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

Whereas, The City of Detroit is defining its comeback through various large-scale development projects and initiatives designed to spur redevelopment within the neighborhoods across the City. While the city is being reinvigorated, it is imperative that the unemployed and the underemployed citizens of the city, benefit from the expanding number of job opportunities; and

Whereas, At the request of the City Council, the Detroit Economic Growth Corporation (DEGC), recently provided a report, which projected the creation of 2,261-2,265 jobs from 55 Council approved tax incentivized projects. However, it is also projected that only one third or 33% of those projected new hires will be Detroiters. Consequently, the Detroit City Council is continuously seeking creative ways to provide a greater percentage of these job opportunities to Detroit residents; and

Whereas, The job projection data in the aforementioned report, is inclusive of the Detroit Brownfield Redevelopment Authority's (DBRA) job projection data from the time period of 2010-2017 and DEGC's tax abatement job projection data for the years 2015-2017. In 2015, with its implementation of Impact Datasource's "Total Impact" software, the City's internal departments and DEGC began collectively tracking and reporting tax abatement projections to analyze the benefits resulting from abatements. Consequently, the DEGC's tax abatement job projection data is reflective of only two years. This is a bit late, but there is now a system in place go quantitatively measure the impacts of tax abatements in Detroit; and

Whereas, While the Council's goals of creating jobs through development incentives is a crucial objective, it is also a desired goal of the Council to have more of its citizens benefit from the current and soon to be realized job opportunities than what recent history and future projection conclude; and

Whereas, In order to maximize the success rate of matching unemployed and underemployed Detroit residents to expanding job opportunities in the city of Detroit's growing job market, the Detroit City Council urges the Administration to assist in the development and implemen-

tation of four City of Detroit sponsored job fairs; Now Therefore Be It

Resolved, That the Detroit City Council urges the Administration to establish a policy which requires the DEGC, the City's Human Resources Department, and Detroit Employment Solutions (DESC), to work collaboratively with the Detroit City Council to host four annual job hiring fairs, two on the west side and two on the east side of the city; and; Be It Finally

Resolved, That the City's Law Department draft an ordinance that requires the City hold the four annual job fairs.

RESOLUTION
ESTABLISHING THE TASKFORCE ON WORKFORCE AND ECONOMIC INCLUSION

By Council Member Spivey:

Whereas, The City of Detroit is experiencing substantial redevelopment in the downtown and central business district which is fostering growth in entrepreneurial opportunities, employment, housing and participation in the economic resurgence in the downtown corridor. It is vital to the progress and future stability of the city that ALL neighborhoods receive needed investment and resources; and

Whereas, Detroit's unemployment rate remains significantly higher than that of the surrounding metropolitan area and the State of Michigan; and

Whereas, The City of Detroit, as a purchaser of goods and services, annually spends approximately $2.29 Billion dollars to procure these goods and services, but only 30.6% of these goods and services are provided by Detroit-based and Detroit-headquartered businesses; and

Whereas, Economic Gardening is an economic development model that recognizes that entrepreneurial activity drives economies through creating jobs by supporting existing companies in the local community; and

Whereas, Increasing the participation of Detroit-based and Detroit-Headquartered businesses in City of Detroit procurement opportunities and economic development projects will serve to reduce the local unemployment rate and strengthen the local tax base; and

Whereas, Governmental agencies must make the necessary revisions to city code, departmental rules, processes and procedures, to create an environment for the willing and accessible participation in the resurgence of the City of Detroit by Detroit residents and Detroit-based and Detroit headquartered businesses; and

Whereas, In order to make the entire city thrive and prosper, Detroit-based and Detroit-headquartered businesses and residents must have real opportunities to participate at every level of the rebirth and economic vitality of this great city.

Now Therefore Be It

Resolved, That the Detroit City Council hereby forms the Taskforce on Workforce and Economic Inclusion effective immediately with a meeting time and day to be determined, and continuing until August 26, 2018; And Be It Further

Resolved, That the Taskforce on Workforce and Economic Inclusion will be chaired by Council Member Andre L. Spivey; And Be It Further

Resolved, That the Taskforce on Workforce and Economic Inclusion will include representatives from the community, workforce development, and the business sector, as well as any other individuals interested in participating;

And Be It Further

Resolved, That the Taskforce on Workforce and Economic Inclusion will focus its efforts on Four (4) areas: Workforce & Training, Business & Economic Development, Innovation & Entrepreneurship, Economic Inclusion & Policy;

And Be It Finally

TESTIMONIAL RESOLUTION
PHI BETA SIGMA
FRATERNITY CONCLAVE 2017

By COUNCIL PRESIDENT JONES:

WHEREAS, Phi Beta Sigma Fraternity, was founded at Howard University in Washington, D.C., January 9, 1914, by three young African-American male students. The Founders, Honorable A. Langston Taylor, Honorable Leonard F. Morse, and Honorable Charles I. Brown, wanted to organize a Greek letter fraternity that would truly exemplify the ideals of brotherhood, scholarship, and service.

WHEREAS, The Founders deeply wished to create an organization that viewed itself as "a part of" the general community rather than "apart from" the general community. They believed that each potential member should be judged by his own merits, rather than his family background or affluence ... without regard to race, nationality, skin tone or texture of hair. They desired for their fraternity to exist as part of an even greater brotherhood which would be devoted to the "inclusive we" rather than the "exclusive we".

WHEREAS, From its inception, the Founders also conceived Phi Beta Sigma as a mechanism to deliver services to the general community. Rather than gaining skills to be utilized exclusively for themselves and their immediate families, they held a deep conviction that they should return their newly acquired skills to the communities from which they had come. This deep conviction was mirrored in the Fraternity's motto, "Culture For Service and Service For Humanity".

WHEREAS, Today, Phi Beta Sigma has blossomed into an international organization of leaders. No longer a single entity, members of the Fraternity have been instrumental in the establishment of the Phi Beta Sigma National Foundation, the Phi Beta Sigma Federal Credit Union and The Sigma Beta Club Foundation. Zeta Phi Beta Sorority, founded in 1920 with the assistance of Phi Beta Sigma, is the sister organization of the Fraternity.

THEREFORE BE IT RESOLVED, That the Office of City Council Member Mary Sheffield and the Detroit City Council salutes and commends Phi Beta Sigma Fraternity for their service to the city, and the contributions they have made to academia.

NEW BUSINESS

CITY COUNCIL
LEGISLATIVE POLICY DIVISION

August 31, 2017

Honorable Council Members

RE: Resolution to promote sensitivity training for the Michigan State Police officers and other neighboring communities deployed in the secure cities partnership and other similar programs

Council member Benson requested that the Legislative Policy Division (LPD) draft a resolution that strongly urges the Michigan State Police and all other neighboring police forces operating in the city of Detroit within the bounds of a neighboring policing agreement, to implement Cultural awareness programs for its officers.

Attached, please find our draft of the aforementioned resolution.

Please contact us if we can be of any further assistance.

RESOLUTION TO PROMOTE SENSITIVITY TRAINING FOR THE MICHIGAN STATE POLICE OFFICERS AND OTHER NEIGHBORING COMMUNITIES DEPLOYED IN THE SECURE CITIES PARTNERSHIP AND OTHER SIMILAR PROGRAMS

By Council Member Benson:

Whereas, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

Whereas, In March 2012, Governor Rick Snyder delivered a message to the State Legislature on Public Safety which promoted a system of "smart justice" that led to the development and implementation of the "Secure Cities Partnership Program." The program involved the Michigan State Police providing additional law enforcement personnel to provide "a regionalized, no-boundary, data-driven policing model" in Detroit, Flint and Saginaw. There are also several other similar programs involving neighboring police departments operating in the city of Detroit; and

Whereas, Stephen M. Hennessy, nationally renowned police consultant, author, and associate professor of criminal justice at St. Cloud State University, St. Cloud Minnesota, in his scholarly writing, "Cultural Awareness Training for Police in the United States," indicated that cultural awareness challenges for law enforcement are more unique than in any other profession, due to the power held by police, which creates a special need for understanding by law enforcement officers. Hennessy also indicated, that due to the power of law enforcement, it is critical that law enforcement officials understand the communities they police and differences between themselves and the community due to race, culture, socioeconomics and ethnicity. The Michigan State Police, and other neighboring police officers, though well trained, are relatively new to policing the city of Detroit and it is critical that they truly understand the cultural folkways, more and challenges of the community; and

Whereas, Cultural awareness is understanding the differences between oneself and people from other cultures or backgrounds, especially differences in attitudes and values. Cultural sensitivity is important because it allows individuals to effectively function in other cultures, it allows individuals to respect and value other cultures, and can reduce cultural barriers. Many of the cultural, economic and environmental issues and challenges in the city of Detroit, are unique from any other area of the state;

Now Therefore Be It

Resolved, That the Detroit City Council strongly urges the Michigan State Police and all other neighboring police forces operating in the city of Detroit within the bounds of a neighboring policing agreement, to implement Cultural awareness programs for its officers. In addition, the Council requests an immediate review of all neighboring police partnership agreements between the City of Detroit and any neighboring community; and

Be It Finally

Resolved, That a copy of this resolution be forwarded to the Mayor of the City of Detroit, the Governor of the State of Michigan and the leadership of the Michigan State Police and all other neighboring police forces operating in the city of Detroit within the bounds of a neighboring policing agreement.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate and President Jones — 8.

Nays — None.

WAIVER OF RECONSIDERATION (No. 1) per motions before adjournment.

RESOLUTION TO AMEND THE DATE OF THE SEPTEMBER 2017 DISTRICT 2 EVENING COMMUNITY MEETING TO ALLOW FOR CITY COUNCIL MEMBERS TO ATTEND THE CONGRESSIONAL BLACK CAUCUS' 47TH ANNUAL LEGISLATIVE CONFERENCE

By Council Member Spivey:

Whereas, Evening Community Meetings are mandated by the City Charter Article "4-102 meetings" and have historically been for the primary purpose of giving citizens the opportunity to voice their concerns within their own community;

Whereas, on January 31st the City Council voted to adopt the 2017 Evening Community Meeting schedule by resolution to solidify the dates and locations of all meetings for the calendar year with the caveat that items related to the meeting schedule can only be amended by resolution;

Whereas, City Council has elected to amend the Evening Community Meeting schedule in order to allow for members of the Council to travel to the Congressional Black Caucus' 47th Annual Legislative Conference which will be held in Washington D.C. on September 20-24, 2017;

Whereas, the September 2017 Evening Community Meeting is currently scheduled to be held in Council District 2 on September 19th at Northwest Activities Center and is in direct conflict with the travel dates for the Congressional Black Caucus' 47th Annual Legislative Conference and thus needs to be rescheduled;

Now, Therefore Be It Resolved, the

September 2017 Evening Community Meeting in Council District 2 is rescheduled to be held on September 26th at Northwest Activities Center at 7 p.m.;

Be It further Resolved, that all responsible parties will circulate this information to the necessary departments, media sources, community organizations and citizens informing all whom may desire to attend of the rescheduled meeting; Be It Finally

Resolved, that a copy of this resolution be forwarded to the Mayor's Office and the Media Services Department.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate and President Jones — 8.

Nays — None.

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

TESTIMONIAL RESOLUTION FOR LIFE DIRECTIONS (DETROIT) Celebrating 43 Years of Dedicated Service August 17, 2017

By Council Member Castaneda-Lopez:

WHEREAS, Life Directions was born out of the issue of violence. In 1973, Detroit was called the "Murder Capital" of the United States. On average one young adult was dying every twelve hours. The founders of Life Directions — Reverend John Phelps, C.Ss.R.; Reverend Alex Steinmiller, C.P.; Sister Rosalie Esquerra, O.P.; and, Alexander and Judith MacDonald arrived at the intuitive understanding that it was necessary to "get to the cause of the violence." The dynamic of Peers Inspiring Peers through Forgiving was forged through a series of neighborhood discussions directed at determining its root causes with people experiencing its effects; and

WHEREAS, Life Directions first response was to design the Focus Life Weekend for training and developing young adult peer leaders. The process centered on engaging the values that give direction to actions through forgiveness. The young adult leaders then entered three public arenas, Neighborhoods, Public High Schools and Churches to awaken peers to be a part of the solution to the violence of their peers; and

WHEREAS, Life Directions efforts, in Detroit, through continuous improvement, were formed into the three interconnected programs that exist today, Neighborhood Enrichment Program; Peer Motivation Program (High School; and, Peer Mentor Program (Middle School). As Life Directions discoveries were refined it prepared to expand its work; and

WHEREAS, In the 1990's, Life Directions exported its work to Chicago, New Orleans, San Antonio, Tucson and Marion County, Oregon. To date over 163,000 young adults, ages 13-35 have partnered with Life Directions to inspire their peers to embrace the values and virtues that make life grow.

NOW THEREFORE BE IT

RESOLVED, Council Member Raquel Castaneda-Lopez and her colleagues on the Detroit City Council celebrate with the founders of Life Directions on their 43rd year of Raising Hope and Building Peace to youth and young adults throughout the city of Detroit.

ALPHA & OMEGA REFORMED
Missionary Baptist Church

By Council Member Jones:

WHEREAS, The Alpha & Omega Reformed Missionary Baptist Church will commence its 50th Church Anniversary with a series of worship service celebrations, climaxing with a banquet on Sunday, July 30, 2017. Alpha & Omega Reformed Missionary Baptist Church was organized in August 1967, under the pastorate of Pastor Grover L. Stubbs, an anointed man of God. The Stubbs and Brown families gathered at the home of Rev. Calop and Sister Ruth Brown, at 19368 St. Aubin in Detroit. Their home was always open to needy families. These excited pioneers spread the good news and the Word of God, provided light to guide their path and the love to inspire fellowship. Alpha & Omega was officially incorporated on August 15, 1968. In the early 70s, the church moved to various locations which included: Joy Road, Linwood at Leslie, Epworth at Oregon and Puritan at Littlefield. Under Pastor Stubbs's leadership, the congregation continued to flourish and make great strides. Pastor Stubbs, being led by the Holy Spirit, laid hands on a commercial building at 2540 Fenkell, which was filled with debris and seemed to be unsalvage-

able. That building still stands today as the church edifice. During Pastor Stubbs's tenure, many ministers were called into the ministry: Rev. Daniel Helen, Rev. Charles Stubbs, Rev. Gibson, Rev. Michael Berry, Rev. Robert Powell, Rev. Bobby Lovett and the current pastor, Rev. Ricky Godwin. On October 18, 1995, Pastor Grover L. Stubbs made his heavenly transition and the shepherd staff was passed to the Associate Minister, Rev. Ricky Godwin; and

WHEREAS, Rev. Godwin was installed as the new pastor on June 22, 1996. He continued the vision of his pastor, teacher and friend, the late Rev. Grover Stubbs, to prepare Alpha & Omega for its River Jordan crossing experience. At the close of 1997, Rev. Godwin created the church's mission statement, "A Church Moving Upward." Rev. Godwin has worked unselfishly for the building of God's Kingdom and continue to be an advocate for change in the community. He is truly a model of what a pastor can and should be. Alpha & Omega serves the community through its various outreach ministries which include: summer vacation bible school, nursing home visitations, blanket and clothing drives for the homeless, adult education programs, youth mentoring, free summer lunch programs, angel tree project for economically challenged families during the holidays, and partnerships with the Detroit Police Department and Goodfellows. In 2005, Alpha & Omega had a "mortgage burning" and installed the Church Cornerstone. In 2006, the church purchased several lots at the corner of Fenkell and Baylis. The church worship building has undergone many renovations and improvements over the years. A new Baptismal Pool was installed in the sanctuary, the Pastor's study was renovated, the peak portion of the roof was replaced in 2012, and in 2015 the roof's flat portion was replaced; and

WHEREAS, Alpha & Omega is "A Church Moving Upward." For fifty years, Alpha & Omega Reformed Missionary Baptist Church has been a faithful and intricate part of the spiritual and physical restoration of the nearby community and the city. TESTIMONIAL RESOLUTION
FOR
BELL BIV DEVOE

By All Council Members:

WHEREAS, Ricky Bell, Michael Bivins, and Ronnie DeVoe formed the group at the suggestion of producer Jimmy Jam & Terry Lewis. Upon accepting the idea, MCA Records wrote down the name Bell Bivins DeVoe, but Bivins suggested they remove the *ins* from his name and just call the group Bell Biv DeVoe. With help from Public Enemy producers Eric Sadler, Hank and Keith Shocklee, and several others, Bell Biv DeVoe released its debut album *Poison* in 1990, on MCA Records. The album was credited as pioneering the "new jack swing" sound of the early 1990s, combining hip-hop, funk, soul, and pop music. This fusion of styles helped to expose them to a fan base who prefer a harder edge sound.

WHEREAS, *Poison* reached number 1 on Billboard's R&B/Hip-Hop chart, and its title track, along with its second single, "Do Me!' both reached number 3 on Billboard's Hot 100 chart. *Poison* also spawned the singles, "B.B.D. (I Thought It Was Me)?", "When I See You Smile Again" and "She's Dope!" *Poison* sold over four million copies, and was followed up by a remix album titled *WBBD – Bootcity.* Richard Wolf and Epic Mazur helped create BBD's premiere album, blending rhythm, blues, pop, and rock, and Poison achieve triple Platinum success.

WHEREAS, Bell Biv DeVoe went on to release *Hootie Mack* in 1993 on MCA Records, and the more hardcore rap/R&B influenced *BBD* in 2001 on Biv 10 Records. Neither album was as successful as *Poison;* however, *Hootie Mack* did reach Gold success. Despite the fact that their last album was released in 2001, the members of Bell Biv DeVoe continue to perform together as a group. They also participated in several New Edition reunions, and continue to perform with them on tour as part of the group.

WHEREAS, On May 30, 2013, Bell Biv DeVoe performed their hit song "Poison" for Boston Strong, a benefit concert to raise money for victims of the Boston Marathon bombing. In 2016 BBD released their first track in 15 years, "Run," along with an accompanying music video. It was the first single off the album *Three Stripes,* which was released January 27, 2017.

NOW THEREFORE BE IT

RESOLVED, That the Office of City Council Member Mary Sheffield and the Detroit City Council salutes and commends Bell Biv DeVoe for their success in the music industry.

Honorable City Council:

Re: Kamper and Stevens I LDHA LLC — Payment in Lieu of Taxes (PILOT)

Roxbury Manager, LLC and the Invest Detroit Foundation has formed Kamper and Stevens I Limited Dividend Housing Association, LLC in order to rehabilitate the existing Kamper building and Stevens buildings containing one hundred sixty-five (165) units of senior housing with one hundred forty-nine (149) one-bedroom units and sixteen (16) two-bedroom units. The Project site is bounded by Clifford on the north, Griswold on the east, Grand River on the south and Washington Boulevard on the west.

Rehabilitation plans include renovation and upgrade of all residential units including kitchens, bathrooms, flooring, paint, window treatments and appliances. Lobbies and common areas will be repaired and renovated. There will be upgrades and replacement of all building systems, including safety features, electrical, HVAC, plumbing and elevator service.

MSHDA financing is being provided with a HOME Loan of $3,866,295, a tax-exempt bond construction loan of $14,271,447 and a permanent loan of $8,688,295. The City of Detroit will provide a HOME Loan of $2,000,000. PNC Bank is providing equity from the sale of Low Income Housing Tax Credits and Historic Tax Credits of $10,037,277. An existing HUD Loan of $1,550,000 will be assumed.

Rents for one hundred sixty-three (163) units have been set at or below sixty percent (60%) of the area median income, adjusted for family size. Two (2) units (one-bedroom units) will be used as manager's units. All residents will contribute no more than 30% of their adjusted gross income towards the rent amount. The project has a project-based Housing Assistance Payment (HAP) contract.

All units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended. In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415a).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,
ALVIN HORHN
Deputy CFO/Assessor

By Council Member Cushingberry, Jr.:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. (the "Act"), a request for exemption from property taxes has been received on behalf of Roxbury Manager, LLC and the Invest Detroit Foundation; and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA: and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake the rehabilitation of an existing housing project to be known as Kamper and Stevens I, consisting of the rehabilitation of one hundred and sixty-five (165) units in the apartment building located on two (2) parcels of property owned as described by street address and tax parcel in Exhibit A to this resolution, with one-hundred sixty-three (163) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federally-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsor first obtains MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors;

Whereas, pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31st of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Kamper and Stevens I as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.;

And be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Finance Department;

And be it further

Resolved, That the specific legal description for the Project shall be as set forth in the certification from MSHDA;

And be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions;

And be it further

Resolved, That the City Clerk furnish the Finance Department — Assessments Division two certified copies of this resolution;

And be it further

Resolved, that this resolution is adopted with a waiver of reconsideration.

Respectfully submitted,
ALVIN HORHN
Deputy CFO/Assessor

By Council President Pro Tem Cushingberry, Jr.:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. (the "Act"), a request for exemption from property taxes has been received on behalf of Norstar Development USA LP (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA: and

Whereas, Section 15a of the Act (MCLA 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolution of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake the construction of a housing project to be known as Gardenview Estates Phase 5 as described by street address and tax parcel in Exhibit A to this resolution, with ninety-seven (97) units for low and moderate income housing; and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415A(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federally-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsor first obtains MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Gardenview Estates Phase 5 as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of ten percent (10%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Finance Department; and be it further

Resolved, That the specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemption; and be it further

Resolved, That the City Clerk furnish the Finance Department — Assessments Division two certified copies of this resolution;

And be it further

Resolved, that this resolution is adopted with a waiver of reconsideration.

Re: Resolution Approving a New Personal Property Tax Exemption Certificate in the area of 87 Monroe, Detroit, Michigan, for Microsoft Corporation in accordance with Public Act 328 of 1998. Petition #1551.

On September 7, 2017, a public hearing in connection with approving a New Personal Property Tax Exemption Certificate for the above-captioned property was held before your Honorable Body. All interested persons and organizations were given an opportunity to be heard. No impediments to the approval of the certificate were presented during the hearing.

Microsoft Corporation has submitted satisfactory evidence that they possess the necessary financial resources required to complete this project in accordance with Public Act 328 of 1998 ("the Act") and the Development Agreement for the project.

Respectfully submitted,
ARTHUR JEMISON
Director

By Council Member Leland:

Whereas, Microsoft Corporation, (the "Applicant"), a qualified business as defined by Public Act 328 of 1998 (the "Act"), has filed an Application for Exemption of New Personal Property Tax under the Act in the City of Detroit in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, The City of Detroit is an Eligible Distressed Area as defined by the Act; and

By Council Member Leland:

Whereas, The Elestine, LLC, has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate, under Public Act 146 of 2000 ("the Act") in City of Detroit Obsolete Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

RESOLUTION TO EXERCISE RIGHT OF FIRST REFUSAL ON FORECLOSED HOMES, AND TO REPROGRAM CURRENT AND NEW HARDEST HIT FUNDS FOR TAX FORECLOSURE PREVENTION IN THE CITY OF DETROIT

By Council Member Sheffield:

Whereas, In July 2016, City Council adopted the attached Resolution to Reprogram Current and Future Hardest Hit Funds for Tax Foreclosure Prevention in the City of Detroit; and

Whereas, In the past year the need for additional resources to keep residents of Detroit facing foreclosure in their homes, and the consequences – for Detroit's neighborhoods and the community as a whole – of the failure to augment the blight removal program with foreclosure prevention funding that fulfills the original stated Congressional purpose of keeping people facing foreclosure in their homes by writing down sustainable mortgages, have only grown more dire and clear to those concerned about the quality of life for residents of Detroit; and

Whereas, Pursuant to MCL 211.78m,

the State and after them the City, has a statutory right of first refusal to purchase residences after tax foreclosure for a public purpose; and

Whereas, As recognized by Congress in its original enactment of the Hardest Hit Funds, keeping people facing tax foreclosure in their homes is a valid public purpose, with many benefits for the community as a whole; and

Whereas, Funding expanded affordable housing areas to benefit residents facing tax foreclosures throughout the City, for this critical public purpose would benefit the most vulnerable residents of the City and the community as a whole; and

Now, Therefore, Be It Resolved That The Detroit City Council strongly urges the Duggan Administration to exercise its right of first refusal on all occupied homes within the City of Detroit that are foreclosed on for unpaid taxes, and reprogram a portion of "Hardest Hit Fund" (HHF) dollars from blight elimination to return those residents to their homes under sustainably affordable mortgages; and

Be It Finally Resolved That copies of this Resolution shall be delivered to The Mayor's Office, Michigan State Housing Development Authority (MSHDA), Housing and Urban Development Department Detroit office, Congressional Representatives Conyers and Lawrence, and Senators Stabenow and Peters.

RESOLUTION TO REPROGRAM CURRENT AND NEW HARDEST HIT FUNDS FOR TAX FORECLOSURE PREVENTION IN THE CITY OF DETROIT

By Council Member Sheffield:

Whereas, as reported in the Detroit Free Press on April 20, 2016, "Conceived as a response to the housing crisis of 2008-9, the [federal government's] $7.6-billion Hardest Hit Fund was at first limited to state-based programs aimed at keeping residents in their homes, largely through mortgage assistance and principal reduction efforts. In that initial round, Michigan received $498 million. But in the years that followed, Michigan asked for and received permission to use some funding for blight removal efforts, especially in Detroit, where as many as 40,000 blighted, abandoned buildings have been identified. The Treasury agreed, believing that removing such structures helped to stabilize neighborhoods and, in turn, keep other residents in place in their homes."; and

Whereas, As noted above, the original Congressional intent of appropriating the Hardest Hit Funds was to enable residents threatened with foreclosure to keep their homes; and

Whereas, Tragically, for a number of bureaucratic, legal, social, political and economic reasons, a majority of homeowners in many states – specifically including Michigan – have not been able to access funds and benefit from the program; and

Whereas, The City of Detroit has been the hardest hit community in the country by residential home foreclosures, which have left many previous Detroit homeowners now homeless and devastated, and harmed many Detroit residential neighborhoods, as well as the City's tax base; and

Whereas, Detroit today still has an unparalleled large number of families threatened with foreclosure on their homes, and would therefore benefit more than other communities if these funds were used for their intended purpose of foreclosure prevention; and

Whereas, Although the Duggan administration and associated anti-blight agencies have made the understandable decision to reprogram Hardest Hit Funds to blight removal by demolishing vacant structures, there are compelling reasons for using at least some of these funds for the competing purposes of foreclosure prevention; and

Whereas, Failing to stem the tide of foreclosure leads to more blight as fast or faster than it can be eliminated via demolition, and the benefits to the City of removing blight have come at a great cost of lost home ownership and associated population loss; and

Whereas, From a human perspective, foreclosure prevention has even greater impact on neighborhood quality of life than does blight removal, and therefore stemming the tide of foreclosures should be a high priority; and

Whereas, At least a substantial portion of Hardest Hit Funds used for demolition could be spent in more efficient and balanced ways, versus only demolishing occupied or potentially repairable homes, thereby potentially increasing blight, poverty and homelessness; and

Now, Therefore, Be It Resolved That a portion of the "Hardest Hit Fund" (HHF) dollars should be reprogrammed from blight elimination to tax foreclosure prevention in the City of Detroit; and

Be It Further Resolved That Copies of this Resolution shall be delivered to the Mayor's Office, Michigan State Housing Development Authority (MSHDA), Housing and Urban Development Department Detroit office, Congressional Representatives Conyers and Lawrence, and Senators Stabenow and Peters.

RESOLUTION
IN SUPPORT OF SENATE BILL 110 TO ALLOW MUNICIPALITIES TO INCREASE THE SUPPLY OF MODERATE AND LOW-COST HOUSING THROUGH INCENTIVES

By Council Member Sheffield:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, On February 7, 2017, Michigan State Senator Wayne Schmidt introduced Senate Bill 110, which would allow a local unit of government to implement a plan by resolution or ordinance, to implement a policy to increase the amount of moderate and/or low cost housing residential property available for lease through incentives; and

WHEREAS, This bill is intended to address restrictions of Michigan Public Act 226 of 1988, Leasing of Private residential Property, found at MCL 123.411, which provides that: "A local governmental unit shall not enact, maintain, or enforce an ordinance or resolution that would have the effect of controlling the amount of rent charged for leasing private residential property." This language effectively prevents the City of Detroit from enacting an Inclusionary Housing Ordinance that would serve to create and preserve affordable rental residential housing in the city; and

WHEREAS, Overall, in 50 of the largest cities in the nation, nearly 20 percent (20%) of neighborhoods with lower incomes and home values have experienced gentrification since 2000, compared to only nine percent (9%) during the 1990s. There is some evidence that select neighborhoods in the City of Detroit are experiencing evidence of undue gentrification with its accompanying displacement, and steps should be taken to ameliorate these negative consequences going forward; and

WHEREAS, Currently in the City of Detroit, the Detroit City Council and the Duggan Administration have worked collaboratively to develop and implement an ordinance that would require affordable housing set asides in exchange for incentives such as tax abatements, discounted land, reduced zoning requirements, etc. for housing development projects; and

WHEREAS, Senate Bill 110 would facilitate the City's Inclusionary Housing efforts, which would allow the City elected leaders to play an important role in determining the course of development in the City of Detroit by providing a reasonable mechanism to achieve an affordable component in City supported housing products and at the same time, continuing to support the renewed development and investment in Detroit; and

WHEREAS, The Detroit City Council is a supporter of Inclusionary Housing and renewed investment in the City of Detroit, and is thereby calling for the Detroit Delegation in the State Senate and House of Representatives, the Senate Committee on Local Government, the Michigan State Senate, the Michigan State House of Representatives and the Governor to approve Senate Bill 110;

NOW THEREFORE BE IT

RESOLVED, That this resolution be forwarded to the City of Detroit's Leasing Lobbyist, the Detroit Delegation in the Michigan State Senate and House of Representatives, the Senate Committee on Local Government, the Michigan State Senate, the Michigan State House of Representatives and the Governor.

WHEREAS, Pastor Griffin served as a Director and Acting Vice President for Blue Cross Blue Shield of Michigan. During his twenty-six years of service with Blue Cross Blue Shield of Michigan he served as a mentor to hundreds of employees, where he was instrumental in establishing practices and programs which lead to the increased hiring of qualified African American and other persons of color who were under represented in the company in the 1970's and 1980's;

NOW THEREFORE BE IT

RESOLVED, That the City Council finds the above-mentioned individual and the proposed location meets the criteria for Secondary Naming of a Street in accordance with Article VII, Sections 50-7-31 through Sections 50-70-50 of the 1984 Detroit City Code;

*WAIVER OF RECONSIDERATION (No. 2), per motions before adjournment.

By Council Member Sheffield:

AN ORDINANCE to amend Chapter 26 of the 1984 Detroit City Code, *Housing,* by adding Article III, *Affordable Housing Notification,* which consists of Sections 26-3-1 through 26-3-3, provide for the maintenance and protection of the health, safety and general welfare of the public and to ensure that the City of Detroit, appropriate state and federal agencies, and the affected tenants receive adequate advanced notice that existing publicly subsidized affordable housing may terminate; to enable those notified to respond to the conditions created by such termination; to ensure that the affected tenants are provided with information to enable them to secure alternative residence in the event of the conversion of such units to market-rate housing or the sale of the affordable housing development.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 26 of the 1984 Detroit City Code, *Housing,* be amended by adding Article III, *Affordable Housing Notification;* Sections 26-3-1 through 26-3-3, to read as follows:

(4) Moderate income means a household having an income equal to or less than the Section 8 low-income limit established by HUD.

(5) Multi-family rental unit means any residential building consisting of four or more units.

Sec. 26-3-2. Purpose and application

The purpose of this article is to do the following:

(b) This article is applicable to any multifamily rental housing unit which development has received or receives any public subsidy including but not limited to, a loan, grant, tax abatement, tax incentive, or rent subsidy from any federal, state or local governmental body or agency and whose rent levels are restricted as a result of the receipt thereof, so as to be affordable to, low and moderate income households.

(c) It is the purpose of this article to provide the City, any applicable state or federal agencies, and the tenants of an affordable housing development adequate notice that affordability restrictions may terminate and/or the conversion of the affordable housing development to market-rate housing may occur providing the ability to respond to any housing problems created therefrom.

(d) It is the intent that the provisions of this article are in addition to applicable state or federal laws governing the sale, or the disposition of a development that would either result in either (1) the discontinuance of its use as an affordable housing development or (2) the termination of any low-income use restriction which would apply to the development.

(e) It is the intent of this article not to infringe upon a property owner's right to sell or dispose of the property to the highest bidder or to raise rents to market value upon the expiration of applicable affordability covenants, but to establish notice requirements that would provide for the City, any applicable state or federal agencies, and the tenants of the affordable housing development to work with the owner of the property to explore options that could lead to the property maintaining its affordable status.

Sec. 26-3-3. Notice of Intent to Terminate.

(1) At least eighteen (18) months prior to the termination of affordable housing restrictions, an owner of an affordable housing development shall deliver to the Director of the Housing and Revitalization Department and to each affected tenant a notice of intent to terminate an existing federal, state, or local government contractual arrangement, financial loan, assistance or subsidy that is the underlying foundation of the affordable housing restriction.

(c) Within 30 days of receiving the termination notice the Housing and Revitalization Department shall deliver to the City Council a copy of the notice material received and will also provide to the affected tenants of the Affordable Housing Development a document detailing information including but not limited to rights the affected tenant may have and contact information regarding agencies or entities that may be of assistance.

(2) The eighteen (18) month notice period shall commence on the date the notice of intent to terminate has been received by both the Director of the Housing and Revitalization Department and by all affected tenants. The notice shall be deemed received five (5) days after being deposited with the U.S. Mail, return receipt requested.

(3) If on the effective date of this article, the federal, state, or local government contractual arrangement, financial loan, assistance or subsidy that is the underlying foundation for the affordable housing restriction will terminate or expire in less than eighteen months (18), the owner shall provide immediate notice to the City and the affected tenants as set forth in subsection (1).

(4) Owners of the affordable housing developments are exempt from this noticing requirement when:

Honorable City Council:

Re: Petition #1431 – Olympia Development of Michigan Events Center, LLC, request to convert traffic operations of various streets from one-way to two-way operations including Second Avenue, Henry Street, Park Avenue, Witherell Street, and Clifford Street.

On February 13, 2017, the Department of Public Works, Traffic Engineering Division (TED) received the request from the City Clerk's office for our investigative report regarding the subject matter. Upon the receipt of the request, TED conducted review of the above request under petition #1431 and below are our findings and recommendations.

Background Information

Olympia Development of Michigan (ODM) Events Center, LLC submitted this petition through the offices of the City Clerk requesting the conversion of certain streets in the vicinity of the new Little Caesars Arena (LCA) and other new development projects under construction. The development plan includes the addition of 865,000 square feet office, 728,000 square feet of retail, 2,700 residential units, 600 hotel rooms, and 120,000 square feet of educational space in addition to 20,000 seat stadium. These developments will have significant traffic impact on the City's existing traffic infrastructure in the vicinity of the stadium area bounded by Mack/MLK Boulevard to the north, I-75 to the east, John C. Lodge Freeway (M-10) to the west, and Grand River Avenue (M-5) to the south. The street conversion requests are being made for the purpose of improving the anticipated increase in traffic flow after the opening of the Little Caesars Arena.

TED has met with the development team and their consultants on numerous occasions since June 2014. A development project of this magnitude requires the consultant to perform a traffic impact study to assess the impact on the existing street system and to propose mitigation measures to minimize traffic impact. The traffic impact study details a modified traffic circulation plan by proposing two-way conversion of certain streets in the study area.

ODM requested the two-way conversion of the following streets prior to the opening day of the LCA on September 12, 2017.

1). Park Avenue, from Adams Street to South Fisher Freeway Service Drive

2). Clifford Street, from Adams Street to 78' North of Henry Street

3). Columbia Street, from Cass Avenue to Park Avenue

4). Henry Street, from Second Avenue to Clifford Street

5). Park Avenue, from Sproat Street to Peterboro Street

6). Witherell Street, from Adams Avenue to Montcalm

Existing and proposed condition of the requested streets

1). Park Avenue (36 feet wide) from

Adams Street to South Fisher Freeway Service Drive.

Existing Condition: Parking is allowed on both sides of the street; valet staging operation is in effect on east side, south of Elizabeth and north of Montcalm; loading zone for hotel on west side, south of Elizabeth.

Proposed Condition: No changes to the existing parking conditions; parking will continue to be allowed on both sides of the street; volume of traffic and the width of the roadway supports the conversion to two-way negative impact.

2). Clifford Street (42 feet wide) from Adams Street to 78' North of Henry Street

Existing Condition: Parking allowed with one-hour limit on both sides with two northbound moving lanes.

Proposed Condition: 10 feet wide drop-off lanes on both sides of Clifford, between Fisher and Columbia; 10 feet wide parking will continue to be allowed on both sides of Clifford between Columbia and Adams; volume of traffic and the width of the roadway supports the conversion to two-way without negative impact.

3). Columbia Street (31 feet wide) from Cass Avenue to Park Avenue

Existing Condition: Parking allowed on south side of street with two westbound moving lanes.

Proposed Condition: No changes, parking will continue to be allowed on south side of Columbia with one lane each direction; width of roadway and volume of traffic support conversion to two-way.

4). Henry Street (40 feet wide) from Second Avenue to Clifford Street

Existing Condition: Parking allowed on both sides with two eastbound moving lanes.

Proposed Condition: No changes, parking will continue to be allowed on both sides with one moving lane each direction; converting Henry to two-way will allow for traffic exiting the new parking structure to travel directly west, away from the arena after events; the width of Henry as well as the resultant positive impact supports this conversion to two-way.

5). Park Avenue (36 feet wide) from Sproat Street to Peterboro Street

Existing Condition: Parking allowed on both sides with two southbound moving lanes.

Proposed Condition: Eight feet wide parking allowed on both sides with one lane each direction.

DPW is only recommending the two-way conversion of Park Avenue between Sproat and Charlotte at this time. DPW is awaiting requested information from the petitioner confirming that all impacted property owner(s) along Park Avenue between Charlotte and Peterboro have no viable objection to the conversion. Once this data is provided, the department will reconsider the two-way conversion of Park Avenue to include the segment between Charlotte and Peterboro.

6). Witherell Street from Adams Avenue to Montcalm

Existing Condition: Parking prohibited on both sides.

Proposed Condition: Parking prohibited on both sides.

Not recommended for two-way conversion at this time.

Recommendation

Based on the mitigation measures detailed in the traffic impact study and the construction of numerous parking facilities in the vicinity of the LCA, DPW is in agreement to recommend two-way conversion of the following streets:

1). Park Avenue from Adams Street to South Fisher Freeway Service Drive

2.) Clifford Street from Adams Street to 78' North of Henry Street

3). Columbia Street from Cass Avenue to Park Avenue

4). Henry Street from Second Avenue to Clifford Street

5). Park Avenue from Sproat Street to Charlotte Street. Charlotte to Peterboro will be considered later upon concurrence form abutting property owner(s).

Our recommendation is based on the fact this conversion will not impact the on-street parking facilities and will maintain the approved valet and loading facilities. This plan also will provide shuttle drop off/pickup zones for patrons to reduce parking demand in the near vicinity of LCA.

Respectfully submitted,
RON BRUNDIDGE
Director
Department of Public Works

By Council Member Benson:

Whereas, This resolution, if approved by Your Honorable Body, will allow for the conversion of five (5) separate street segments, in the area of the new Little Caesars Arena, from existing 1-way travel to 2-way.

Whereas, This resolution, if approved by Your Honorable Body, shall allow the immediate conversion to 2-way traffic for **Park Avenue,** from Adams to South Fisher Service Drive; **Clifford,** from Adams to 78 feet North of Henry Street; **Columbia,** from Cass Avenue to Park Avenue; Park Avenue, from Sproat to Peterboro; and **Henry Street,** from Second Avenue to Clifford.

Whereas, This resolution acknowledges that there will be significant increase in traffic volumes in the area surrounding the Little Caesars Arena before and after events and that the conversions of these streets to 2-way will assist in decreasing traffic congestion after events, and that the conversions are being implemented with no negative impact on needed on-street parking on the listed streets.

Whereas, This resolution acknowl-

edges that the specific 2-way conversion of Henry Street will lead westbound Henry Street traffic beyond Second Avenue, to a privately owned segment of Henry Street that is the property of the Detroit Public Schools – Cass Technical High School, and that a separate Agreement has been executed between DPS and the representatives of the Arena to effectively and safely manage the westbound traffic that will continue on Henry onto the Cass Tech property, and that all required signage and crosswalks have been installed on the Cass Tech property prior to the approval of this resolution to ensure maximum safety for the students, faculty and parents that will have cause to use the vacated portion of Henry during the periods after events when it will open for westbound Henry traffic, and that said signs and crosswalks will continuously be maintained, including replacing signs and restriping crosswalks as needed, during the operation of the Little Caesars Arena.

And Be It Further Resolved that the City Council hereby expresses its support of conversion of the above referenced segments of Park, Clifford, Columbia, Park, and Henry to two-way streets.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate and President Jones — 9.

Nays — None.

RESOLUTION IN SUPPORT OF DETROIT POLICE DEPARTMENT IN PARTICIPATION IN THE ICITAP BANGLADESH LAW ENFORCEMENT PROGRAM

By Council Member Benson:

Whereas, The United States Department of Justice's International Criminal Investigative Training Assistance Program ("ICITAP") was established to work with foreign governments to develop professional and transparent law enforcement institutions that protect human rights, combat corruption, and reduce the threat of transnational crime and terrorism; and

Whereas, ICITAP has been in Bangladesh since 2003 working on programs aimed at improving human rights and eradicating human trafficking. A significant share of the human trafficking problems in Bangladesh are men recruited to work overseas with fraudulent employment where the men are subsequently exploited under conditions of forced labor or debt bondage; and

Whereas, In July 2010 ICITAP began a community policing program in Bangladesh that provides training, technical assistance and limited with the Bangladesh National Police aimed at supporting the development of positive police/community relationships and partner-

ships. The program has been designed to enhance the technical leadership management and instructional skills of the Bangladesh police in order to professionalize police service; and

Whereas, An opportunity has arisen for the Detroit Police Department to participate in the ICITAP Bangladesh Law Enforcement Development Program by sending officers to train members of the Bangladesh Police Department for a 28-day period; and

Whereas, The participating officers' salaries will be paid by the State Department; however, any overtime will be borne by the City of Detroit Now, Therefore Be It

RESOLUTION IN SUPPORT OF THE FEDERAL DACA (DEFERRED ACTION ON CHILDHOOD ARRIVALS) AND THE DREAMERS

By Council President Jones:

Whereas, The administration of President Barack Obama wisely and mercifully adopted the DACA program for the benefit of undocumented immigrants to America who arrived here as children and who, in effect, have never known any other home except the United States ("Dreamers"); and

Whereas, On September 5, 2017, President Donald Trump announced the termination of the DACA program with a six (6) month time period for Congress to take action to reform the United States immigration law; and

Whereas, This latest immigration action by the Trump administration is cruel, arbitrary and deeply unfair to hundreds of thousands of young people who are Americans in every way except on paper, and innocent victims of the inadequate and unjust state of the nation's immigration laws; and

Whereas, Deferring deportations actions against the Dreamers harms no one; and

Whereas, Congress should act immediately to protect the human rights of the Dreamers and reform immigration law to protect the rights of all persons within the jurisdiction of the United States; and

Now, Therefore Be It Resolved, That the Detroit City Council strongly denounces the Trump administration's termination of the DACA program, and urgently petitions Congress to act forthwith to protect the human rights of the Dreamers and other immigrants by reforming U.S. immigration law; and

Be It Further Resolved, That copies of this resolution shall be transmitted to the Mayor, media representatives, the White House, the State Department, the U.S. Attorney General, U.S. Immigration and Customs Enforcement, and the members of the Michigan legislative delegations in the United States House of Representatives and Senate.

(c) The buildings, safety engineering and environmental department shall maintain a registry of all rental properties for which a certificate of compliance has been issued, and shall make the registry available on the city's website. The department may combine the registry with the registry required by Sec. 9-1-81(d).

(d) Notwithstanding Sec. 9-1-36(d), and subject to subsections (e), (f) and (g) of this section, it shall be unlawful for an owner to allow any unoccupied rental property to be occupied, or to collect rent from a tenant for occupancy of a rental property, during or for any time in which there is not a valid certificate of compliance for that rental property. During the first ninety days in which an occupied rental property lacks a certificate of compliance, tenants of that property shall pay the rent that would otherwise have been due into an escrow account, established by the buildings, safety engineering and environmental department with a third party financial institution. If the owner of the rental property obtains a certificate of compliance within those first ninety days, the rent in the escrow account shall be paid to the owner, less the actual administrative fee charged by the third party financial institution. If the owner fails to obtain a certificate of compliance within those first ninety days, the rent in the escrow account shall be paid to the tenant, less the actual administrative fee charged by the third party financial institution. A tenant of a rental property that lacks a certificate of compliance shall have no obligation to pay into the escrow account after those first ninety days. Nothing in this article shall be construed to permit eviction of an existing tenant from a rental property or to deprive existing tenants of their rights to possession of a rental property under the laws of the State of Michigan and City of Detroit, and such existing tenants shall have a right under the laws of the City of Detroit to retain possession of a rental property notwithstanding an owner's inability to collect rent from such tenants pursuant to this subsection.

(e) A tenant who retains possession of a rental property under subsection (d), notwithstanding an owner's inability to col-

lect rent, may nevertheless be evicted if an owner establishes that the tenant is subject to eviction for reasons other than non-payment of rent.

(f) Sec. 9-1-36(d) shall not be construed to penalize the tenant or occupant of a rental property for occupancy of a rental property that does not have a valid certificate of compliance except as set forth in this subsection. Notwithstanding subsection (d) of this section, where an inspection of a rental property or a notice of suspension or denial of a certificate of compliance states there is an immediate danger due to a violation or violations of this article or other applicable laws, codes or regulations, the dwelling may be ordered immediately vacated by the director of the buildings, safety engineering and environmental department, or his or her designee, and any occupancy shall thereafter be unlawful.

~~(d)~~(g) It shall be unlawful for the owner of a rental property, ~~as defined by section Sec. 9-1-3 of the 1984 Detroit City Code,~~ on which the original construction was completed prior to January 1, 1978 and required to be registered pursuant to ~~Section~~ Sec. 9-1-81 ~~of the 1984 Detroit City Code,~~ allow that rental property to be occupied without a lead-clearance report being obtained and provided to the ~~Buildings and Safety Engineering Department~~ buildings, safety engineering and environmental department in accordance with Division 3, Subdivision B, of this article, provided, that the owner shall not be required to obtain a lead clearance until the next prescribed annual inspection date for the owner for the rental property occurring after the effective date of the ordinance that added this section.

(h) Nothing in this section shall be interpreted as limiting or controlling the amount of rent an owner may charge to a tenant pursuant to a lawful agreement with the tenant.

(i) Section 9-1-82(d) shall take effect by ZIP code according to a schedule promulgated by the director of the buildings, safety engineering and environmental department and posted on the city's website. Such schedule shall be promulgated no later than 60 days following the effective date of the ordinance that added this subsection, and may thereafter be amended periodically at the discretion of the director of the buildings, safety engineering and environmental department.

Sec. 9-1-83. ~~Inspection and lead clearance risk assessment for lead-based paint hazards, where required,~~ Lead inspection, risk assessment, lead clearance; when required.

(a) *Lead inspection upon registration; risk assessment upon change of tenant.* An owner shall have a lead inspection performed on a rental property in accordance with Division 2, Subdivision B of this article whenever an owner registers a rental property for the first time in accordance with Sec. 9-1-81. If the lead inspection reveals a lead-based paint hazard, a risk assessment shall be performed as well. Thereafter, until such time as all lead paint is removed from the rental property in accordance with subsection (e), a risk assessment shall be performed on that rental property each time a new tenant occupies that property. Provided, however, that an owner shall not be obligated to have more than one lead inspection/risk assessment performed on a property in accordance with this subsection per calendar year.

~~(a)~~(b) *Inspections after interim controls.* Where interim controls were used to reduce lead-based paint hazards in a rental property, as prescribed in Division 2, Subdivision B, of this article, or where a lead inspection reveals the presence of lead paint on the rental property, the owner shall have an annual ~~lead inspection/~~risk assessment performed on the rental property, and obtain an annual lead-clearance report in accordance with this section.

~~(b)~~(c) *Inspections after abatement by encapsulation*. Where abatement was used to remove all indentified lead-based paint hazards, as prescribed in Division 2, Subdivision B, of this article, by permanent encapsulation of lead-based paint and permanent covering of soil lead hazards, as indicated in the post-remedy clearance report, the owner shall have a risk assessment performed on the rental property every ~~three (3)~~ two years, and the lead-clearance report shall be valid for ~~three (3)~~ two years. If, as a result of such risk assessment, it is determined that the lead-based paint hazard is no longer fully abated, the owner must immediately take any actions necessary to remedy the lead-based hazard pursuant to Sec. 9-1-93. Provided, however, that if an owner at any time becomes aware that the integrity of a permanent encapsulation or permanent covering of soil lead hazards may have been damaged, that owner must immediately schedule an inspection by a certified risk assessor and take any actions necessary to remedy the lead-based paint hazard pursuant to Sec. 9-1-93.

(d) *Inspections after abatement by enclosure.* Where abatement was used to remove all identified lead-based paint hazards, as prescribed in Division 2, Subdivision B, of this article, by permanent enclosure of lead-based paint, as indicated in the post-remedy clearance report, an owner shall have a visual inspection for risk assessment, as that term is defined in the Michigan Lead Abatement Act, Part 54A of the Michigan Public Health Code, 1978 PA 368, being MCL 333.5451 through 333.5479, of the enclosure performed by a certified lead inspector or risk assessor no less than

once every 5 years to ensure that the lead-based paint hazards remain fully abated. If, as a result of such visual inspection for risk assesment, it is determined that the lead-based paint hazard is no longer fully abated, the owner must immediately take any actions necessary to remedy the lead-based paint hazard pursuant to Sec. 9-1-93. Provided, however, that if an owner at any time becomes aware that the integrity of a permanent enclosure may have been damaged, the owner must immediately schedule an inspection by a certified risk assessor and take any actions necessary to remedy the lead-based paint hazard pursuant to Sec. 9-1-93.

~~(c)~~(e) *Inspections after abatement by removal or elimination.* Where all lead-based paint ~~was~~ has been fully abated ~~in~~ by removal or other permanent elimination from a rental property in accordance with the Michigan Lead Abatement Act, Part 54A of the Michigan Public Health Code, 1978 PA 368, being MCL 333.5451 ~~et seq.~~ through 333.5479, ~~and~~ as certified by a certified lead inspector or risk assessor, or where a certified lead inspector or risk assessor certified that no lead-based paint exists on ~~the~~ a rental property, no further lead inspection, risk assessment, or lead clearance shall be required in order to obtain a certificate of compliance or certificate of registration for that rental property.

Honorble City Council:

Re: Saint Rita Apartments LDHA LP – Payment in Lieu of Taxes (PILOT)

Detroit Central City CMH, Inc. has formed Saint Rita Apartments LDHA LP in order to develop the Saint Rita Apartments Project. The proposed single-build-

ing development will consist of the full gut rehab of twenty-six (26) units. The Project site is bounded by Leicester Court on the north, John R on the east, Owen on the south and Woodward on the west.

The Project will include twenty-six (26) 1 bedroom units. Rents for all units have been set at or below sixty percent (60%) of the area median income, adjusted for family size, so that proposed rent levels meet all City HOME rent requirements. All residents will contribute only thirty percent (30%) of their adjusted gross income towards the rent amount.

Permanent financing will be provided by a City of Detroit 30-year HOME Loan of $1,320,000, a JPMorgan Chase Loan of up to $5,000,000 MSHDA low income housing tax credits and U.S. Historic tax credits.

All units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of ten percent (10%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,
ALVIN HORHN
Deputy CFO/Assessor

By Council President Pro Tem Cushingberry, Jr.:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 se seq., (the "Act"), a request for exemption from property taxes has been received on behalf of Detroit Central City CMH, Inc. (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake the rehabilitation of an existing building to be known as Saint Rita Apartments, consisting of the rehabilitation of twenty-six (26) units in the apartment building located on a parcel of property owned as described by street address and tax parcel in Exhibit A to this resolution, with all units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsor first obtains MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHD, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Saint Rita Apartments as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of ten percent (10%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Finance Department; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415 a(3), the exemption from taxation shall remain in effect for as long as the

MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Finance Department – Assesment Division two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.
