AND
CITY COUNCIL OF
THE CITY OF DETROIT

1. **Parties.** This Memorandum of Understanding (hereinafter referred to as "MOU") is made and entered into by and between the City of Detroit Board of Water Commissioners (Board) and the City of Council of the City of Detroit.

2. **Purpose.** To provide the community with increased opportunities for public comment to the Board and, specifically, on the Detroit Water and Sewerage Department budget, rates, contract decisions, and overall operations, the Board will hold five (5) evening community meetings in various non at-large districts. The five (5) evening community meetings are in lieu of and replace regular monthly business meetings held during the day in Board chambers.

3. **Background.** The Detroit City Council, as the duly elected representatives of the citizens of Detroit, requests the Board to hold several community meetings per year in various Districts and desires to enter into this MOU to increase citizens' accessibility to Board meetings. The Board has a commitment to public engagement, welcomes this request and will move expeditiously to host meetings in the community. The Board will hold five (5) evening community meetings each calendar year in various Districts, including one (1) meeting in January during which the Board will hold its annual budget discussion, one (1) meeting during which the Board will hold its annual public hearing on rates, and one (1) meeting during which the Board will vote on rates that will be separate from meetings on rates held before City Council. Seven (7) other regular monthly meetings will be conducted during daytime hours in Board chambers.

4. **Procedure and Responsibilities.**

A. The five (5) evening community meetings are in lieu of and replace regular monthly business meetings held during daytime hours in the Board chambers, and the Board will conduct its normal business, including approval of contracts, setting policies and procedures, attending to employment issues, etc.

B. The evening community meetings shall begin between the hours of six (6) o'clock P.M. and seven (7) o'clock P.M. at a location in one of the seven (7) City Districts and shall not conflict with an evening City Council meeting scheduled under City Charter Section 4-102 or a Mayoral meeting scheduled under City Charter Section 5-110.

C. The meeting shall be published and noticed in the manner set forth in the Michigan Open Meetings Act. The Board will also notify City Council Members and Department of Neighborhoods District Managers representing the district in which the meeting will be held and the two or three districts with the closest proximity to the meeting location.

F. The Board will set two (2) additional evening community meetings during the calendar year.

G. Each community meeting will be held in a different City District. At least two (2) of the five (5) meetings will combine two adjacent districts (i.e. District 3 & 4 will be a combined meeting).

H. The Detroit City Council will not approve a resolution to submit a ballot proposal for amendment of Charter Section 7-1202 unless the Board fails to uphold the terms of this MOU.

5. **General Provisions.**

C. **Entirety of Agreement.** This MOU, consisting of three (3) pages, represents the entire and integrated agreement between the parties and supercedes all prior negotiations, representations and agreements, whether written or oral. No supplement, modification, or amendment of this Agreement shall be binding until there is a majority vote by the respective parties. A waiver of any of the provisions of this Agreement shall not constitute a waiver of any other provisions of this Agreement, nor shall any one waiver constitute a continuing waiver.

Re: Bert McCants and John Smith vs City of Detroit. et al. Case No.: 16-009741-NI. File No.: L16-00639.

On May 2, 2017, a case evaluation panel evaluated the above-captioned lawsuit and awarded Seven Thousand Five Hundred Dollars ($7,500.00) in favor of Plaintiff Bert McCants and Ten Thousand Dollars ($10,000.00) to Plaintiff John Smith. The parties have until May 30, 2017, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of Your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Seven Thousand Five Hundred Dollars ($7,500.00) payable to Robert Malleis and Bert McCants, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 16-009741-NI, approved by the Law Department.

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

CITY PLANNING COMMISSION

May 5, 2017

HONORABLE CITY COUNCIL:

RE: Request of Devon Renewal, LLC to approve site plans and elevations for an existing Planned Development (PD) zoning classification shown on

Article XVII, District Map No. 4, of the 1984 Detroit City Code, Chapter 61, Zoning, for the development on residential property commonly referred to as 64 Watson **(RECOMMEND APPROVAL WITH CONDITIONS)**

BACKGROUND

Before Your Honorable Body is the request of Devon Renewal, LLC to approve site plans and elevations for an existing PD (Planned Development District) zoning classification to accommodate the redevelopment of the property commonly known as 64 Watson in the Brush Park Historic District and referred to as the Devon Building (See attachment A.)

The proposal calls for the demolition of the majority of the existing building, while reconstructing the front façade of the proposed new building to mimic the primary elements of the original design. The plan also calls for the building to house five (5) residential units within 3 stories to be sold at market-rate value. These five (5) units are planned to consist of two (2) garden condos, two (2) townhouse condos and one (1) penthouse condo.

The associated parking that is required for the development will be housed in a garage that will be located immediately off of the rear alley. To provide five (5) parking spaces, the development plans to utilize a mechanical parking car lift system in one of the four available stall. (See attachment B).

Lastly, the proposal would also provide a private courtyard for residents of the development. The total lot size for the subject parcel is less than a quarter of an acre. The gross floor square footage for the project inclusive of the garage is 9,357 square feet[1].

Historic District Criteria

In accordance with Chapter 25 of the Detroit Zoning Ordinance, the Historic District Commission (HDC), along with the City Planning Commission, are charged to participate in site plan reviews (SPR). The HDC is tasked with reviewing development proposals to determine if the project is consistent with the historic district Elements of Design and other criteria, and that proposed developments maintain the character of the designated area. This matter is set to go before the HDC on May 10th. HDC staff has relayed to CPC staff that they do not see any "red flags" within the subject proposal and plan to recommend approval to the Historic District Commission. By the time that this item reaches the Planning and Economic Development Standing Committee with its request for action, HDC will have already entertained this matter.

ANALYSIS

This project is generally in conformance with the PD District design criteria found in Sec. 61-11-15 of the Zoning Ordinance.

In regard to criterion (b) which speaks to *scale, form, massing, and density* and also criterion (c) which speaks to *compatibility;* this project seeks to reconstruct (to the extent possible) the same form of structure as what currently exists in a dilapidated condition. Since the intent of the project is to reestablish the same dimensions, massing, form and aesthetic of the existing structure, when it is rebuilt, staff has no concerns with the building fitting the context of Watson Street.

Criterion (e) mandates that p*arking and loading* should allow for adequate vehicular off-street parking facilities. This project offers the typical parking configuration that many Brush Park multi-family dwellings offer. A parking garage is planned to be located directly off of the alley. The garage will host (5) parking spaces with one of those needed spaces being satisfied by a car lift. The car lift is a mechanical parking system developed to accommodate multi-story vertical storage of vehicles.[2] This helps to maximize on space by allowing cars to be stored above vehicles parked on a surface space.

In regard to criterion (m) *security considerations,* the developer has responded to CPC's request to add exterior lighting on the east building elevation. To our request, path way-finding lights were added just above the windows for the partially below-grade units on the building. Plans also show sconce lighting fixtures on the north/south elevations of the garage, which will also contribute to security and way-finding for the perimeter.

COMMUNITY INPUT

The Brush Park CDC has submitted a letter of support for the project stating that this proposal meets their goals for the desired type of development that the community is seeking (See Attachment C). At the April 5th CPC public discussion, there were no members from the public that spoke to this proposal.

CONCLUSIONS AND RECOMMENDATION

The developer has cooperated with the Brush Park CDC and City agencies to come to a proposal that reflects input from all parties. The proposal also appears to be in conformance with the requirements of the Zoning Ordinance and City plans for the area. Based upon these conclusions and CPC recommends approval of the proposal of Devon Renewal, LLC with the following conditions:

1. That the developer work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise; and

2. That final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review and approval prior to submitting applications for applicable permits.

Re: Brush Park CDC Letter of Support – 64 Watson

Brush Park Community Development Corporation (the "CDC") forwards this letter to show our support of the design of the redevelopment of the dilapidated property located at 64 Watson (the "Project").

The Project was presented before the CDC and the Brush Park community at a public meeting held on April 14, 2015. The community was excited to hear about a proposed new use for a building that has become an eyesore. The housing options promote the communities desires for neighborhood density. The initial design as shown would preserve the façade of the building and the historic nature of our neighborhood. Overall, the community response was very positive to the Project.

Much consideration was given to the project by the CDC Board. With a vote of 9 yes, 0 no and 0 abstentions, the CDC Board voted to support the sale of City-owned property to effectuate this development.

We thank you for your time and your interest in Brush Park. A copy of this letter will be forwarded to the City of Detroit Planning and Development office.

Sincerely,

KARISSA HOLMES
Secretary

By Council Member Leland:

Whereas, the PD district zoning classification requires that plans be reviewed and approved by the Detroit City Council following the receipt of a written report and recommendation from the City Planning Commission; and

Whereas, the Detroit City Council has reviewed the preliminary site plan and found the proposed development to be in agreement with the applicable site plan review approval criteria described in Article III, Subdivision D of the Zoning Ordinance; and

PROJECT NARRATIVE

64 Watson is a redevelopment project of the designated Ennis Building located at 64 Watson Street in historic Mount Park, Detroit. The project will be comprised of a total of five condominiums, including two new bedroom units and three two-bedroom units ranging in size from approximately 850 sf to 1,700 sf. The gross building area is approximately 6,200 sf.

The existing, historic building was restored by a dynamic engineer and partner and structurally saved for future. As part of the purchase agreement with the city, the front facade will be reconstructed to resemble the historic, Ennis Building façade. The project will maintain the height and scale of the historic building, with three stories above grade, one story partially below grade, and with the historic stairs and archway entry at Watson Street. Materials will consist of glass fiber reinforced concrete to match the historic detailing with brick at the lower levels. The remaining facades will consist of brick, and the rear facade will consist of balconies providing unique views.

Parking will be provided off the rear alley in private garages containing parking spaces for each unit. The site will feature a common backyard for all tenants. The project will also feature energy efficient windows and mechanical, electrical and plumbing fixtures and equipment.

The project aims to provide a human scale development, elegant design, and energy efficient solutions.

City Planning Commission

April 28, 2017

Honorable City Council:

Re: Request of Brush Park Development Company Phase I, LLC to modify the provisions of existing PD (Planned Development District) zoning districts established by Ordinance 25-96 and Ordinance 07-16 on land bounded by Brush St., Alfred St., Beaubien St. and Division St. The developer proposes to modify the configuration of the PD districts to better facilitate the development of a mixed-use residential structure on the western portion of the subject block. The proposed structure is part of a larger previously approved project providing a total of 350-400 units of housing across studio through multi bedroom unit types, via the preservation and renovation of four existing historic homes and the construction of new townhouses, carriage houses, duplexes and apartments with restaurants, retail and office uses (**RECOMMEND APPROVAL WITH CONDITIONS) Petition #1519**

NATURE OF REQUEST

Before Your Honorable Body is the request of Brush Park Development Company Phase I, LLC to modify the provisions of existing PD (Planned Development District) zoning classifications established by Ordinance 25-96 and Ordinance 07-16 on land bounded by Brush Street, Alfred Street, Beaubien Street and Division Street. The developer proposes to modify the configuration of the PD districts to better facilitate the development of a mixed-use residential structure on the western portion of the subject block.The proposed structure is part of a larger previously approved project providing a total of 405 units of housing across studio through multi bedroom unit types, via the preservation and renovation and renovation of four existing historic homes and the construction of new townhouses, carriage houses, duplexes and apartments with restaurants, retail and office uses.

This request is coming before this Honorable Body in order to accommodate changing conditions within this existing PD district, as the Brush Park Development Company Phase I, LLC has recently entered into a land swap agreement with the abutting property owner, known as Brush Park Partners, LLC. The land that is being swapped is contained within the same block as previously described and is contiguous with the project site. The swap will help facilitate the City Modern (formerly referred to as Parcels A+B) housing project that is currently under construction, as well as a possible future development by the adjacent Brush Park Partners, LLC property owner in the future.

The land being exchanged between the two parties consists of a 76' x 22' linear portion of land that is immediately adjacent and parallel to Alfred Street and has been under the site control of Brush Park Development Company Phase I, LLC. That piece of land will be exchanged for a 51.50' x 24.25' portion of land that is centrally located on the subject block and under the ownership of Brush Park Partners, LLC (See Attachment B).

The portion of land that is being transferred into the ownership of the Brush Park Development Company Phase I, LLC, is planned to host DTE switchgear equipment. The originally approved, City Modern site plan called for the equipment to be housed on the Alfred Street frontage. The new plan, however, proposes no modifications to the actual building elevations and overall general site plan that were approved in 2016[1]. The only modifications in the proposed plan that deviate from the original 2016 plan as approved, is that the property line will be changed, slightly altering the landscape and additionally that the DTE switch gear equipment needed for the site will now be located on the newly acquired portion of the property.

This request is urgent in nature in that construction for the project has already commenced for this development.To account for the land swap, the subject ordinances will need to be modified swiftly, in order for construction timelines to continue on schedule. For this reason we are submitting the CPC report and recommendation in advance of receiving the ordinance effectuating the request from the Law Department approved as to form.

Background

The PD ordinance that was adopted in 2016[2] stands as the current provisions for the subject property which was established to allow for the City Modern housing development. The 1996 ordinance established the provisions that are in place for the remaining land which are predicated upon the former urban renewal plan for the area.

The City Modern project stems from a 2014 issued, Request For Proposals (RFP) that was awarded to Rock Ventures and Brush Park Development Partners LLC to redevelop 8.4 acres of land generally bounded by John R Ave., Edmund Place, Brush Street, and the alley first south of Alfred St., as well as the properties on the southwest corner of John R and Alfred and the southeast corner of Brush and Alfred.

The architectural and planning team for the project, in conjunction with Rock Ventures and the Brush Park Development Partners, LLC met with the Brush Park Community Development Corporation (CDC) and larger community, over the course of several months prior to the project being approved for at least 40 differ-

ent meetings in order to refine the designs of the project. The development team has continued to meet with the Brush Park CDC on a continuous basis that is planned to proceed through the construction and completion of the development and likely beyond.

PLANNING CONSIDERATIONS AND ANALYSIS

Surrounding Zoning and Land Use

The zoning classifications and land uses surrounding the full project subject area are as follows:

North: PD-H; Village Brush Park Retirement home
East: R6; Unoccupied parcels
South: PD; Unoccupied parcels
West: PD-H; the City Modern multi-unit mixed-residential development

Master Plan Consistency

The subject site is located within the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows High Density Residential for the subject property. A Master Plan amendment was undertaken by the Planning and Development Department and legislatively approved to permit the proposal in 2016.

The proposed modification currently before this Body does not impose any change in density or character for the development. Therefore it maintains consistency with the Master Plan as previously determined.

ANALYSIS

Overall, it is staff's opinion that the requested PD modification is consistent with the approval criteria outlined in Sec. 61-3-96 of the Zoning Ordinance and does not present any deleterious impacts that would conflict with the previously approved PD and associated plans (ordnance 07-16). This proposal is simply to accommodate changing conditions of the development that is currently under construction. There will be no change in the footprint, massing or design of the building that was originally approved for this site. Therefore, there is no major change in the character of the development.

The only modification to the approved site plan is the configuration of the project site facilitating the location of the DTE switchgear to the location that is being proposed for inclusion within the PD. The land swap that is depicted in the supporting site plan (see attached site plan) shows the change in property boundaries as proposed. Due to this boundary change[3], it is necessary to effectuate a PD modification[4].

PUBLIC HEARING RESULTS

The CPC held a public hearing on April 20th at which the developer spoke to the rationale for the request. No members of the public spoke to this item. Same day action was requested to which CPC staff had no objections. The Commission elected to adopt staff's recommendation for approval.

RECOMMENDATION

The City Planning Commission has completed its review and analysis of the requested PD modification. Based upon the above findings including conformance with the approval criteria the CPC voted on April 20, 2017 to approve the request with the following conditions:

1. That the developer work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise; and

2. That the subject property adhere to the originally approved site plan and design package that was adopted and referenced by Ordinance 07-16, with the exception of placement of the DTE switch gear site and possible landscaping deviations on the portion of land to be included in the land swap that abuts Alfred Street.

3. That final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review and approval prior to submitting applications for applicable permits.

Please that these conditions will be altered slightly in the ordinance per the review as to form by the Law Department.

---

[1]The original proposal is described in the report from the City Planing Commission dated February 22, 2016 and can be found at *http://www.detroitmi.gov/How-do-I/View-City-of-Detroit-Reports/Legislative-Policy-Division-Reports*.

[2]Ordinance 25-96 established the current PD-H ordinance for the eastern portion of the subject land under Brush Park Partners, LLC's current ownership.

[3]The boundary change initiates a change in the legal description of the property, resulting in the ordinance requiring a PD modification to facilitate the request.

[4]Due to the seemingly minor deviation being proposed from the originally approved Ordinance 07-16, CPC staff originally investigated the criteria for a minor modification according to Sec. 61-3-176 which would have allowed staff to administratively sign-off on this proposed change. After review of the proposal, it was determined that the only way the request could be effectuated is through a PD modification of Ordinance 07-16 due to the boundary change and the language found in the approved ordinance.

Honorable City Council:

Re: Request to use NSP III Program Income for Acquisition

The Housing & Revitalization Department (H&RD) is in the process of closing out the NSP III Program, and is requesting to use NSP III Program income in the amount of $258,000.00 for the acquisition of 214 public housing units located at Lee Plaza, 2240 W. Grand Blvd., Detroit, Michigan. In addition to this transaction, the City will be receiving 44 units located at Woodland Apartments, 31 Woodland, Detroit, Michigan for zero dollars. These units are currently part of the Detroit Housing Commission's inventory of public housing, but have stood vacant since the mid-1990s.

Although the money is currently in an appropriation and does not require reprogramming, the Department is requesting this allocation to complete the aforementioned transaction.

Re: Request to appropriate unobligated Urban Development Action Grant (UDAG) miscellaneous revenue.

The Housing & Revitalization Department (H&RD) is requesting to appropriate $1,489,275.35 of unobligated UDAG Miscellaneous Revenue to the City's General Ledger Account.

In the process of closing out checking accounts associated with both the Planning & Development Department (P&DD) and H&RD, outstanding balances were identified in the UDAG miscellaneous revenue account. After completing research on these funds with the U.S. Department of Housing & Urban Development (HUD), it was determined that $1,489,275.35 was not obligated and remaining in the bank account. The City evaluated strategic investments that it could make to advance the affordable housing policy items identified in the HR&A report regarding affordable housing policy, and posted on the City's website.

The City came to the conclusion that using these funds to eliminate blight and assist the Detroit Housing Commission (DHC) to become a high performer, through acquisition of 386 public housing units, would be a strategic investment. These units would not only provide over 258 mixed-income housing units in LaSalle Gardens and Boston Edison, but provide needed rehabilitation capital for public housing development and move DHC closer to achieving Moving-To-Work status, getting the City access to more rental assistance.

The Housing & Revitalization Department respectfully requests your Honorable Body's approval of the attached resolution with a Waiver of Reconsideration.

Housing and Revitalization Department

May 12, 2017

Honorable City Council:

Re: Authorization to Acquire Real Property from the Detroit Housing Commission 2 Former Apartment Building Sites in Detroit, Michigan.

The Housing & Revitalization Department ("H&RD") is hereby requesting the authorization of your Honorable Body to acquire two (2) former apartment building sites within the City of Detroit from the Detroit Housing Commission ("DHC"). The sites are comprised of 31 Woodland (also known as the former Woodland Apartments), as well as 2240 and 2250 West Grand Boulevard and 2700 Ferry Park (also known together as the former Lee Plaza) (collectively the "Properties").

The Properties were acquired by DHC through a U.S. Department of Housing and Urban Development ("HUD") program used to broaden access to housing in higher income neighborhoods. The program was undermined over a period of time by decreasing HUD operating subsidies, increased maintenance costs and Detroit depopulation trends. DHC has since been left with real estate that it cannot afford to maintain or market for sale.

The City proposes to use $258,000.00 in Neighborhood Stabilization III Program Income to purchase the Properties. Once acquired, the City plans to utilize the Detroit Building authority to secure and market the Properties for sale as residential housing developments.

We respectfully request your approval to purchase the Properties from DHC for Two Hundred Fifty-Eight Thousand and 00/100 Dollars ($258,000.00) by adopting the attached resolution with a Waiver of Reconsideration.

Respectfully submitted,

ARTHUR JEMISON
Director

By Council Member Leland:

Whereas, the City of Detroit ("City") through the Housing & Revitalization Department ("H&RD") wishes to purchase and acquire four (4) parcels within the City of Detroit, MI more particularly described in the attached Exhibit A ("Properties") from the Detroit Housing Commission ("DHC") for the sum of Two Hundred Fifty-Eight Thousand and 00/100 Dollars ($258,000.00) ("Purchase Price"); and

Whereas, the Purchase Price is broken down as follows: 1) Two Hundred Fifty Eight Thousand and 00/100 Dollars ($258,000.00) for 2240 and 2250 West Grand Boulevard and 2700 Ferry Park (collectively the "Lee Plaza Site") and 2) Zero and 00/100 Dollars ($0.00) for 31 Woodland (the "Woodland Apartments Site"); and

Whereas, after acquisition, the City plans to: 1) utilize the Detroit Building Authority to secure and improve the Lee Plaza Site, 2) demolish the Woodland Apartments Site and 3) market the Properties for sale; and

Whereas, the Buildings, Safety Engineering and Environmental Department ("BSEED") has reviewed the environmental conditions of the Properties; and

Whereas, in accordance with Chapter 2, Article I, Division 2 of the Detroit City Code: (1) the City Council finds that the Properties have received appropriate environmental inquiry and assessment in accordance with the review referred to in the preceding paragraph; (2) pursuant to the request of HRD, the City Council finds and declares that despite the presence of environmental contamination at the Lee Plaza Site, acquisition of the Properties is necessary to promote and protect the health, safety and welfare of the public and such acquisition does not pose a risk based upon the proposed use of the Properties; furthermore, acquisition of the Properties is necessary as they are included in a project plan and such acquisition of the Properties will not prejudice the right of the City to recover response costs from any potential responsible parties under State and/or Federal law; (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and assessment, and therefore waives the requirement that the seller bear the cost of the environmental inquiry

and assessment; and (4) within 45 days of recording the deed to the Properties, HRD shall have prepared and submitted to the Michigan Department of Environmental Quality a Baseline Environmental Assessment and a Documentation of Due Care Compliance for the Lee Plaza Site which may be done by the City or completed on its behalf by the Detroit Building Authority;

Now Therefore Be It Resolved, That Detroit City Council hereby approves acquisition of the Properties from DHC for the purchase Price of Two Hundred Fifty-Eight Thousand and 00/100 Dollars ($258,000.00); and be it further

Resolved, that prior to closing on acquisition of the Properties, the City shall receive for the Lee Plaza Site satisfactory completion of an environmental review and receipt of a release of funds from the U.S. Department of Housing and Urban Development pursuant to 24 CFR Part §58; and be it further

Resolved, that the HRD Director, or his authorized designee, be and is hereby authorized to accept and record a deed to the Properties to the City of Detroit, as well as execute any such other documents as may be necessary to effectuate transfer of the Properties from DHC to the City of Detroit; and

Be It Finally Resolved, That the Finance Director is hereby authorized to increase the necessary accounts and honor expenditures, vouchers and payrolls when presented in accordance with the foregoing communication and standard City procedures.

A WAIVER OF RECONSIDERATION IS REQUESTED.

Housing and Revitalization Department

May 12, 2017

Honorable City Council:

Re: Authorization to Acquire Real Property from the Detroit Housing Commission, then Transfer to the Detroit Land Bank Authority — 127 Properties in Detroit, Michigan

The Housing & Revitalization Department ("H&RD") is hereby requesting the authorization of your Honorable Body to acquire 127 single family homes within the City of Detroit ("Properties") from the Detroit Housing Commission ("DHC"), and then transfer those Properties to the Detroit Land Bank Authority ("DLBA") to secure, maintain, market and sell. A list of the Properties is included as Exhibit A to the attached resolution.

The Properties, comprised of scattered sites throughout the City of Detroit, some of which are in the general area of the University District/Bagley, Grandmont-Rosedale and Fitzgerald neighborhoods, were acquired by DHC through U.S. Department of Housing and Urban Development ("HUD") program used to broaden access to housing in higher income neighborhoods. The program was undermined over a period of time by decreasing HUD operating subsidies, increased maintenance costs and Detroit depopulation trends. DHC has since been left with real estate that it cannot afford to maintain or, because of public housing rules, market for sale.

HUD restrictions require that DHC receive fair market value for the Properties to lift the restrictions. The City proposes to use $1,186,600.00 in aging federal Urban Development Action Grant funding to purchase the Properties. Unrestricted, the Properties are more easily managed and marketed for sale by the DLBA using its existing resources.

The benefits to the City from this transaction include:

• Addressing long standing blight nuisance properties in otherwise stable, active neighborhoods.

• Increased access to roughly $11M in additional project-based (ex. Section 8 vouchers) rental assistance that can be used to support the 30-50% area median income range.

• Expenditure of aging federal grant funding to satisfy HUD expectations and advancement of the City's housing agenda.

By Council Member Leland:

Whereas, The City of Detroit ("City")

through the Housing & Revitalization Department ("H&RD") wishes to purchase and acquire one hundred twenty seven (127) properties within the City of Detroit, MI more particularly described in the attached Exhibit A ("Properties") from the Detroit Housing Commission ("DHC") for the sum of One Million One Hundred Eighty-Six Thousand Six Hundred and 00/100 Dollars ($1,186,600.00); and

Whereas, After acquisition, the City wishes to transfer the Properties to the Detroit Land Bank Authority for the sum of One and 00/100 Dollar ($1.00) to secure, maintain, market and sell; and

Whereas, The Buildings, Safety Engineering and Environmental Department ("BSEED") has reviewed the environmental conditions of the Properties; and

Whereas, In accordance with Chapter 2, Article I, Division 2 of the Detroit City Code: (1) the City Council finds that the Properties have received appropriate environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) the environmental inquiry has shown that past use of the Properties for the period investigated has been solely for residential purposes and that the Properties do not pose an adverse environmental impact, therefore none of the Properties are considered a facility; and (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and assessment, and therefore waives the requirement that the seller bear the cost of the environmental inquiry;

Now Therefore Be It

Resolved, That Detroit City Council hereby approves acquisition of the Properties from DHC for the purchase Price of One Million One Hundred Eighty Six Thousand Six Hundred and 00/100 Dollars ($1,186,600.00); and

Resolved, That the HRD Director, or his authorized designee, be and is hereby authorized to accept and record a deed to the Properties to the City of Detroit, as well as execute any such other documents as may be necessary to effectuate transfer of the Properties from DHC to the City of Detroit; and

Resolved, That Detroit City Council hereby approves transfer of the properties from the City of Detroit to the DLBA for the consideration of One and 00/100 Dollar ($1.00) after the Properties have first been acquired by the City of Detroit; and

Resolved, That the HRD Director, or his authorized designee, be and is hereby authorized to execute a deed to the Properties to the DLBA, as well as execute any such other documents as may be necessary to effectuate transfer of the Properties from the City of Detroit to the DLBA; and

Be It Finally

Resolved, That the Finance Director is hereby authorized to increase the necessary accounts and honor expenditures, vouchers and payrolls when presented in accordance with the foregoing communication and standard City procedures.

A WAIVER OF RECONSIDERATION IS REQUESTED.

We respectfully request your approval to purchase the Properties from DHC for One Million One Hundred Eighty-Six Thousand Six Hundred and 00/100 Dollars ($1,186,600.00), then transfer the Properties to the DLBA by adopting the attached resolution with a Waiver of Reconsideration.

Housing and Revitalization Department

May 12, 2017

Honorable City Council:

Re: Request for Approval of the 2017 Regular Review of HOME and CDBG Allocations.

The City of Detroit, through the Housing and Revitalization Department ("H&RD") has continued to work closely with the U.S. Department of Housing and Urban Development ("HUD"), in making required obligations and disbursements of City HOME and CDBG Development funds to meet upcoming project closeout, commitment and disbursement deadlines. H&RD issued a NOFA in December 2016, to assist in making allocations for "ready to proceed projects" from available HOME, NSP and CDBG funding. The HOME program is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, and is designed exclusively to create affordable housing for low-income households. Eligible activities under the HOME program include:

• Providing home purchase or rehabilitation financing assistance to eligible homebuyers;

• Building or rehabilitating housing for rent or homeownership; and

• Other reasonable and necessary expenses related to the development of non-luxury housing.

HOME funds are awarded on a formula basis, are included in the annual entitlement award from HUD and are part of the Consolidated Plan.

During the Regular Review, new allocations of CDBG and/or HOME were

approved for two developers in the Fitzgerald Neighborhood, Southwest Solutions and Fitz Forward LLC. City funding will provide development subsidy and Homebuyer assistance required to rehabilitate and sell single-family homes to eligible homebuyers. The Fitzgerald neighborhood is the land bound by McNichols Road (North), Puritan Avenue (to the South), Greenlawn Street (East).

The projects will continue to encourage development in this neighborhood also bound by Marygrove College and the University of Detroit. Challenge Grants in the amount of $350,000 and $1,600,000 have been approved for Southwest Solutions LLC and Fitz Forward LLC, respectively.

By Council Member Leland:

Whereas, the City of Detroit receives an annual allocation of HOME and CDBG and Development funds from the U.S. Department of Housing and Urban Development ("HUD"), through the Housing and Revitalization Department ("H&RD"), for the purpose of creating affordable housing opportunities in Detroit neighborhoods; and

Whereas, the City Council authorized the Housing and Revitalization Department's Director to accept and utilize HUD HOME and CDBG funds according to HUD regulations during the City's annual Budget process; and

Whereas, the City Council also authorized the Budget Director to appropriate HUD HOME and CDBG Development funds, and establish appropriation numbers; and

Whereas, the Finance Director was also authorized to establish necessary accounts, and honor vouchers and payrolls in accordance with H&RD requests and HUD regulations; and

Resolved, that the City Council approves HOME and CDBG Loans and/or grants for Developers and borrowers in the amounts indicated on the attached list, provided that loan amounts may vary by not more or less than 10%; and

Be It Finally Resolved, that the Housing & Revitalization Department Director or his designee, is authorized to process, prepare and execute all loan and grant documents required to close, secure, and use HOME and CDBG funds according to HUD regulations for the approved list of developers and borrowers.

Waiver of Reconsideration per motions before adjournment.

Also during the Regular Review, H&RD approved increases to prior HOME allocations for Kampere Stevens Apartments and Saint Rita Apartments to accommodate reductions in Low Income Housing Tax Credit pricing. Both of these, 100% affordable, rental development projects have required approvals, and are preparing to close within sixty (60) to ninety (90) days.

Consistent with the new process adopted by City Council in 2012 for approving HOME, CDBG and other Development awards and development partners, the Department is requesting that your Honorable Body's approval of the attached resolution with the list of developers and appropriate allocation. A Waiver of Reconsideration is requested.

Respectfully submitted,

DARWIN L. HEARD

Department of Public Works Administrative Division

August 1, 2016

Honorable City Council:

Re: Traffic Signal Removal at eight (8) locations.

The following eight (8) signalized intersections are currently operating on full time "STOP control" mode in compliance with the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and are scheduled for removal due to changes in traffic conditions.

The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation. The traffic volumes have dropped significantly over the years at these locations. As a result, currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed.

The traffic signals were placed in 24-hour flash mode for a minimum of 90 days beginning at flashing date listed in the table below. During this time period, further evaluation of the intersections was completed; the evaluation included a review of vehicle and pedestrian volumes, crash data and overall intersection operation. The table below illustrates the crash data for each intersection for an equal time period before and after flashing. Crash analysis at the eight (8) intersections did not indicate any significant increase in correctable (angle) crashes.

			Crashes Before Flashing				Crashes After Flashing			
No.	Location	Flashing Date	Angle	Rear End	Other	Total	Angle	Rear End	Other	Total

8	Sylvester & Van Dyke	10/9/15	0	0	0	0	0	0	0	0

As such, the Department of Public Works respectfully requests the adoption of the attached resolution for the removal of the traffic signals at the above mentioned eight (8) locations based on the following:

1. Traffic volumes no longer meet warranting criteria for signalization.
2. Pedestrian activity does not warrant signalization.
3. No correctable crash pattern exists at the intersections.

Respectfully submitted,
RON BRUNDIDGE
Director Department of Public Works

By Council Member Ayers::

Resolved, that, in accordance with the foregoing communication, removal of traffic signals at the following eight (8) locations is hereby approved.

Honorable City Council:

Re: F.Y. 2016-2017 Act 51 Michigan Transportation Fund

Each year the City of Detroit receives a distribution of Michigan Transportation funds in accordance with Act 51, Public Act of 1951, as amended.

Past experience has indicated that the level of expenditure required to maintain the Local Streets has been somewhat greater than the amount of funds received for this purpose.

Section 13(6) of Act 51, P.A. 1951 as amended, however, allows a city to use on the street system up to 50 percent per annum of funds returned to the City of its major street system.

To take advantage of this allowable transfer of funds and to more accurately reflect expenditures of the street system, we respectfully request that your Honorable Body adopt the attached resolution, which authorizes the Finance Director to accomplish the transfer.

Respectfully submitted,
RON BRUNDIDGE
Director

By Council Member Leland:

Whereas, The City of Detroit, acting by and through its Planning and Development Department ("P&DD"), requests approval of that certain development agreement with Pistons Performance, LLC ("Development Agreement") which is attached hereto as Exhibit A and supports the relocation of the Detroit Pistons' practice facility and corporate offices to the City of Detroit; and.

Resolved, That Detroit City Council hereby approves the Development Agreement.

EXHIBIT A
Development Agreement

This Development Agreement ("Agreement") is entered into on _____, 2017 by and between Pistons Performance, LLC, a Delaware limited liability company (with its affiliates, "PPLLC"), and the City of Detroit ("City"), a Michigan public body corporate acting by and through its Planning and Development Department.

Whereas, Palace Sports and Entertainment, LLC ("PS&E"), an affiliate of PPLLC, and the City executed a Memorandum of Understanding on February 10, 2017 (the "City MOU") regarding various matters related to the proposed relocation of PS&E and its affiliate, Detroit Pistons Basketball Company ("DPBC"), including Detroit Pistons basketball home games, to the City of Detroit, as well as the relocation of the DPBC practice facility and the corporate offices of PS&E and DPBC to the City of Detroit; and

Whereas, the Detroit City Council adopted a resolution on February 21, 2017 in support of the City MOU; and

Whereas, PPLLC plans to construct the DPBC practice facility, corporate offices of PS&E and DPBC, and a parking garage in the City of Detroit at 690 Amsterdam, 6201 Second Avenue and 6235 Second Avenue (the "Headquarters"); and

Whereas, PS&E committed in the City MOU to following a voluntary community engagement process with respect to construction of the Headquarters and similar to the community engagement process of the City's Detroit Community Benefits Ordinance for Tier 1 Development Projects; and

Whereas, PS&E and the City have completed the voluntary community engagement process contemplated by the City MOU by: (1) engaging in a community engagement public meeting process, (2) creating and seating a neigh-

borhood advisory council, (3) administering a series of meetings with the neighborhood advisory council and (4) drafting a community benefits report that summarizes the entire voluntary community engagement process ("P&DD Report"); and

Whereas, PPLLC will be the developer of the Headquarters;

Whereas, PPLLC and the City desires to enter into this Agreement with respect to certain matters contained in the P&DD Report; and

1. Facility Access by the Community. PPLLC or its affiliates will facilitate within the City of Detroit at least one (1) Detroit Pistons practice per NBA season that is open to the public and free of admission costs. Furthermore, PPLLC will use commercially reasonable efforts to include public-facing retail on the ground level of the Headquarters.

2. Parking and Street Closures. The Headquarters shall include a parking structure that will be sufficient in size to accommodate all anticipated PPLLC employees and visitors. PPLLC will make commercially reasonable efforts to minimize any negative impact to the post-construction parking situation of the neighborhood surrounding the Headquarters. PPLLC does not anticipate any permanent street closures with respect to construction of the Headquarters and, in the event that temporary street closures are required, PPLLC will work with the City to notify surrounding residents of such closures to help minimize any impact.

3. Lighting. PPLLC will cooperate with the City to comply with all local laws regarding exterior lighting and signage related to the Headquarters.

4. Detroit Public Schools Community District Partnership. PPLLC, and its affiliate the Detroit Pistons Foundation ("DPF"), will continue to engage the Detroit Public Schools Community District and its students through its grantees and non-profit partners, including but not limited to (1) City Year, which DPF is helping to expand programming from 7 to 15 schools over the next two years, and (2) DPF's annual college scholarship competitions, which include Detroit Public Schools Community District students.

RESOLUTION

By Council Member Leland:

Whereas, the City of Detroit, acting by and through its Planning and Development Department ("P&DD"), requests approval of that certain agreement with Palace Sports and Entertainment, LLC ("Agreement") which is attached hereto as Exhibit A and supports the relocation of the Detroit Pistons' practice facility and corporate offices to the City of Detroit; and

Resolved, that Detroit City Council hereby approves the Agreement.

EXHIBIT A
Agreement

This Agreement ("Agreement") is entered into on _____, 2017 by and between Palace Sports and Entertainment, LLC, a Delaware limited liability company (together with its affiliate entities, ("PS&E"), and the City of Detroit ("City"), a Michigan public body corporate acting by and through its Planning and Development Department.

Whereas, PS&E and the City of Detroit Downtown Development Authority (the "DDA") executed a Memorandum of Understanding on December 1, 2016 (the "DDA MOU") regarding various matters related to the proposed relocation of PS&E and its affiliate, Detroit Pistons Basketball Company ("DPBC"), including Detroit Pistons basketball home games, to the City of Detroit, as well as the relocation of the DPBC practice facility and the corporate offices of PS&E and DPBC to the City of Detroit; and

Whereas, PS&E and the City executed a separate Memorandum of Understanding on February 10, 2017 (the "City MOU") regarding certain matters substantially similar to the subject of the DDA MOU; and

Whereas, the Detroit City Council adopted a resolution on February 21, 2017 in support of the City MOU; and

Whereas, PS&E and/or its affiliate, Pistons Performance, LLC ("PPLLC"), a Delaware limited liability company, plan to construct the DPBC practice facility, corporate offices of PS&E and DPBC, and a parking garage in the City of Detroit at 690 Amsterdam, 6201 Second Avenue and 6235 Second Avenue (the "Headquarters"); and

Whereas, PS&E and the City desire to enter into this Agreement with respect to certain matters contained in the City MOU; and

Now therefore, PS&E and the City agree as follows:

1. PS&E will ensure, or cause its affiliate PPLLC to ensure, that at least fifty-one percent (51%) of the workforce related to construction of the Headquarters are City residents and that City residents perform at least fifty-one percent (51%) of the hours worked on construction of the Headquarters in accordance with the requirements of Executive Order 2016-1. The requirements of Executive Order 2016-1 shall apply to the construction of the Headquarters regardless of whether or not such construction is considered to be a publicly-funded construction project. PS&E shall be in compliance with its obligations under this paragraph if it is in compliance with its obligations under Executive Order 2016-1, including any obligations to make monetary contributions under the Executive Order.

2. PS&E will use its best efforts, or cause PPLLC to use its best efforts, to ensure that at least thirty percent (30%) of the total dollar value of contracts related to the construction of the Headquarters are awarded to Detroit Based Businesses or Detroit Headquartered Businesses, which are defined by Sec. 18-5-1 of the Detroit City Code, similar to the purchasing requirements of Executive Order 2014-5. Best efforts may be demonstrated by taking any or all of the following actions in advance of construction of the Headquarters:

A. Hosting a contracting and jobs fair;

B. Participating in the Detroit

Economic Growth Corporation's PROS and D2D program;

C. Presenting the project to construct the Headquarters at the Skilled Trades Task Force; or

D. Seeking Detroit businesses through other means recommended by the Detroit Economic Growth Corporation and the City's Mayor's Office.

3. Job Creation. PS&E shall employ a minimum of 150 Full-Time Jobs at the Headquarters by December 31, 2019. For purposes of this Agreement, a "Full-Time Job" shall include a person: 1) who is employed by PS&E or its affiliates on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week and 2) from whose compensation PS&E, or its affiliates, including a staffing agency are required by law to withhold City of Detroit income taxes. Part-time jobs do not count towards this job creation requirement. For certainty, an individual's absenteeism will not be taken into consideration in determining whether PS&E employs that individual in a Full-Time Job. For purposes of this Agreement, a "Detroiter" shall be a person who is domiciled in the City of Detroit.

Additionally, with respect to the 150 Full-Time Jobs that PS&E shall employ, PS&E shall adhere to the following:

A. PS&E has created and submitted an initial City of Detroit Resident Employment Plan with this Agreement in a form and with sufficient information reasonably acceptable to the City. PS&E's operations and employees currently span departments and functions including administrative (e.g., legal, finance, human resources, and other), operational (e.g., facility management and maintenance), sales, marketing, creative, communications, and basketball-related functions. PS&E anticipates maintaining Full-Time Jobs in these departments and functions.

B. PS&E will provide the City, at least once per year and starting on or before February 15, 2020, with anonymized data about the number of persons PS&E has employed at time of reporting who are Detroiters. PS&E has the goal of hiring as many Detroiters as possible.

C. PS&E acknowledges that it is committed to hiring qualified Detroiters.

D. PS&E will work closely with the City to publicize relevant PS&E job openings. This includes holding one career or contracting fair where interested Detroiters can learn more about the types of jobs and contracting opportunities that exist within PS&E and can apply for any such available jobs.

E. PS&E will also work with local private sector and none-governmental entities to publicize relevant PS&E job openings.

F. When appropriate, PS&E will partner with the City and a workforce development agency to promote the hiring, training and employability of Detroit residents, consistent with State and Federal law.

4. By no later than December 31, 2017, PS&E will make a one-time donation of $100,000 to the Detroit Employment Solutions Corporation, a Michigan domestic nonprofit corporation, in support of workforce development opportunities for City of Detroit residents.

5. PS&E will work with the City's Mayor's Office and the Detroit City Council to provide mentorship opportunities for young residents of the City of Detroit.

6. PS&E will participate in the Grow Detroit's Young Talent ("GDYT") summer jobs program for 2017, as well as make a donation of $100,000 to GDYT in 2017. Subject to an annual evaluation of the GDYT's program by PS&E to ensure that the program's mission and that of PS&E continue to align, PS&E will continue to participate in the summer jobs program, as well as make an annual donation of $100,000 to GDYT for as long as PS&E deems fit.

7. Beginning in 2017, PS&E will invest a total of $2,500,000 over six (6) years in the construction, renovation and refurbishment of over 60 community recreational basketball facilities in the City of Detroit in cooperation with the City of Detroit's Parks and Recreation Department, provided that prior to the commencement of such investment by PS&E, the City shall adopt a reasonable maintenance plan for such facilities that is reasonably acceptable to PS&E.

8. Beginning with (or during) the 2017-18 NBA season and continuing for six (6) years, PS&E will host at least two (2) free annual youth basketball camps, clinics or other events for City of Detroit residents that promote youth basketball and youth enrichment programs at a basketball facility in the City of Detroit.

9. Beginning with (or during) the 2017-18 NBA season and continuing for at least six (6) years, PS&E will develop a program to enable City of Detroit youth and other residents to attend Detroit Pistons NBA basketball games in support of and in connection with community educational programs and initiatives, including by making available twenty thousand (20,000) tickets per season for regular season games, free of charge to City of Detroit youth and other residents.

10. PS&E will appoint and maintain a liaison to meet, communicate and engage regularly with the Events Center Neighborhood Advisory Committee.

11. PS&E and the City each designate the following official representative, or such other designee as each party may identify from time to time to the other's official representative, for purposes of administering the terms of this Agreement.

A. City's Official Representative is:

In the event that the City believes that PS&E, (or, if applicable, PPLLC) has not materially complied with its obligations hereunder, the City's Official Representative shall notify the PS&E Official Representative in writing (or by e-mail) of its concern. The two Official Representatives shall meet and shall use their best efforts to work together to resolve any concerns of the City's Official Representative. If the concerns have not been resolved within thirty (30) calendar days of PS&E Official Representative's receipt of the City's Official Representative's notice, the City's Official Representative may refer the City's concerns to the City's Corporation Counsel for enforcement of the PS&E's obligations hereunder.

13. This Agreement will become effective upon approval by Detroit City Council. This Agreement may only be amended by a written instrument executed by the parties hereto that has received separate approval by the Detroit City Council.

Legislative Policy Division

May 24, 2017

Honorable City Council:

Re: Draft Resolution in Opposition to State Legislation Regarding Carrying Concealed Weapons

Council Member Spivey directed LPD to draft a resolution in opposition to the state legislature's legislation regarding carrying concealed weapons without a permit. The draft resolution is attached.

If Council has any other questions or concerns regarding this subject, LPD will be happy to provide further research and analysis upon request.

By Council Member Andre L. Spivey:

Whereas, The Michigan State Legislature has recently introduced proposed tie-barred legislation as HB 4416, 4417, 4418 and 4419, that would, *inter allia,* allow anyone not prohibited by state or federal law from carrying concealed firearms, without a required license; and

Whereas, Under current law a resident of Michigan is required to obtain a CCW (carrying concealed weapon) permit, providing at least potential oversight and safeguards against dangerous and unstable persons of ill will having ready access to deadly firearms and the legally permitted ability to use them in public without notice to others around them that they are armed and dangerous, a sound public policy objective; and

Whereas, Rather than eliminating the requirement of licensure for carrying concealed firearms, and otherwise expanding permission to carry dangerous knives and for security guards and others to carry concealed firearms, as in the proposed legislation, it would be better public policy and better for the quality of life in Michigan if regulation and oversight of such concealed weapons were strengthened, rather than being gutted by the referenced legislation; and

Whereas, The routine presence and availability of concealed firearms on the streets of the City of Detroit has been in significant part responsible for far too many deaths and serious injuries; and

Now, Therefore, Be It Resolved That Detroit City Council opposes HB 4416-4419, and urges Michigan legislators to vote against them; and

Be It Further Resolved That Copies of this resolution shall be delivered to the mayor, the Michigan State House of Representatives Judiciary Committee, the Michigan state legislators in the Detroit delegation and others, news media and interested residents of Detroit and other communities.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate and President Jones — 9.

Nays — None.

*WAIVER OF RECONSIDERATION (No. 8), per motions before adjournment.

May 24, 2017

Honorable City Council:

Re: Draft Resolution in Opposition to State Legislation against So-Called "Sanctuary Cities"

Council Member Castaneda-Lopez directed LPD to draft a resolution in opposition to the state legislature's preemption legislation targeting so-called "sanctuary cities." The draft resolution is attached.

If Council has any other questions or concerns regarding this subject, LPD will be happy to provide further research and analysis upon request.

By Council Member Castaneda-Lopez:

Whereas, The Michigan State Legislature has introduced proposed legislation

designated as HB 4105 and 4334 that is intended to preempt local municipal authorities' powers, rights and duties supporting the quality of life and human rights of all persons in our cities and other local jurisdictions, by seeking to prohibit local governments from adopting well-established, common sense policies against inquiring into individuals' immigration status in the course of law enforcement and other local government functions, programs and activities that have no relevance to immigration or citizenship status; and

Whereas, In response to the prejudiced, regressive and unlawful attacks on immigrant communities incited by the Trump administration, Detroit City Council has on February 17, 2017, previously passed one resolution opposing the administration's "Border Security and Immigration Enforcement Improvement" order, and another opposing their "Enhancing Public Safety in the Interior of the United States" order; and

Whereas, HB 4105 and 4334 seek to prohibit local government bodies from enforcing any policies and rules against communication with immigration officials, a stated scope which itself misstates the policies of the City of Detroit and other local jurisdictions, loosely referred to as "sanctuary cities", which limit their officials' investigations of immigration status to those required by law, and refuse to adopt illegal and unconstitutional retainer policies that confine persons upon request, and without legal authorization, for purposes of racially biased federal immigration fishing expeditions seeking immigrants to victimize; and

Whereas, Detroit City Council, for the same reasons stated on February 17 in the above-noted resolutions, opposes HB 4105 and 4334, and urges Michigan state legislators to vote against such legislation; and

Whereas, Since February 17, the Trump administration's misguided immigration policies, especially their unconstitutional Muslim Ban, have been successfully challenged in the federal courts, while the administration's other positions have required the appointment of an independent counsel to investigate alleged criminality, obstruction of justice and collusion by administration representatives in their improper conduct of United States foreign relations, so that further state legislation supporting the administration's challenged immigration policies risks liability for pursuing these unlawful policies and actions; and

Whereas, Indeed the very designation of a "sanctuary city" in this proposed legislation reflects a misrepresentation of well established, lawful and common sense distinctions between the investigative, detention and prosecutorial roles of federal immigration vs. state and local law enforcement activities, whereby it is not the proper or lawful role of local authorities to enforce federal immigration laws, or to detract from the enforcement of local and state laws by interrogating people about their immigration status for no legitimate reason; and

Whereas, Immigration status is often misused as a proxy for race, and vice-versa, entailing unlawful and unconstitutional racial profiling, and the Michigan legislative sponsors of HB 4105 and 4334 should be ashamed of this racist attempt to force local officials to racially profile Latino/a, Arab, Asian and other "foreign-appearing" persons in local communities on behalf of federal authorities in the Trump administration who have repeatedly displayed their contempt for the human rights of immigrants and other people of color; and

Now, Therefore, Be It Resolved That Detroit City Council opposes HB 4105 and 4334, and urges Michigan legislators to vote against them; and

Be It Further Resolved That Copies of this resolution shall be delivered to the mayor, the Michigan state legislators in the Detroit delegation and others, news media and interested residents of Detroit and other communities.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate and President Jones — 9.

By: Council Member Benson:

An Emergency Ordinance to amend Chapter 33, Minors, Article III, Regulation of Minors in Public Places and Adult Responsibility for Violations, Division 2, Curfew, of the 1984 Detroit City Code by adding Sections 33-3-14 and 33-3-15 to provide for a superseding curfew for all minors beginning at 8:00 p.m. on Monday, June 26, 2017 (being the scheduled date for the Detroit Annual Fireworks Display, or any rescheduled date) and continuing until 6:00 a.m. the following morning, applicable only in the area within and bounded by the Detroit River, Third Street, the Lodge Freeway (M-10), the Fisher Freeway (I-75), the extension of the Fisher Freeway (I-75) easterly to Gratiot Avenue, Gratiot Avenue, Vernor Highway, Chene Street, Atwater Street, and Chene Park.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. DECLARATION OF EMERGENCY

The Detroit City Council, upon receipt of testimony and evidence from the Detroit Police Department and others, and after public hearing, upon due consideration makes the following findings:

(A) On the day of and especially the evening of the Detroit Annual Fireworks Display that takes place on the Detroit River there have been numerous incidents of harassment, nuisance, vandalism, and violence committed by persons at the viewing, parking, and public places of the City before, during, and after the fireworks display;

(B) These acts of harassment, nuisance, vandalism, and violence have endangered the peace, health, safety, and welfare of the People of the City of Detroit, the many persons traveling from outside the City limits to attend this annual event, and in particular unsupervised minors before and during the City's regular curfew hours for minors and;

(C) There exist public peace, health, safety, and welfare needs for effectively governing the conduct of such minors as it pertains to harassment, nuisance, vandalism and violence for the purpose of alleviating and eliminating these problems, whether committed against minors or committed by minors;

(D) Due to law enforcement considerations and logistics concerns, a City-wide curfew is necessary to enhance the public peace, health, safety, and welfare for the many thousands of minors and adults who attend this annual event;

(E) Due to the fact that spectators begin to gather in the viewing areas in advance of the commencement of the Detroit Annual Fireworks Display on the day of the event, the regular curfew hours for minors provided for in the City's Curfew Ordinance, codified in Chapter 33, Article III of the Detroit City Code, are not sufficient to alleviate and curtail criminal activity involving unsupervised minors in the fireworks display viewing areas;

(F) The peace, health, safety, and welfare of the community-at-large and particularly that of minors will benefit from additional curfew controls for minors in a localized area of the City during the Detroit Annual Fireworks Display;

(G) The curfew for minors in the City provides for reasonable exceptions during the specified curfew period to allow for minors accompanied by their parent, legal guardian, or responsible adult, for minors at or traveling to and from places of employment, education and training facilities, and sponsored activities under adult supervision, for minors involved in emergencies or constitutionally protected activities such as interstate travel or freedom of speech, assembly or exercise of religion, for minors on the sidewalks in front of their homes, and for minors sent on errands by their parents if the minors have proper written permission.

Section 2. Chapter 33, *Minors,* Article III, *Regulation of Minors in Public Places and Adult Responsibility for Violations,* Division 2, *Curfew,* of the 1984 Detroit City Code is amended by adding Sections 33-3-14 and 33-3-15, to read as follows:

May 8, 2017

Honorable City Council:

Re: Quality of Life Appropriation #13824 Increase

The Office of the Chief Financial Officer, Department of Financial Planning & Analysis, requests authorization to increase the fiscal year 2017-18 budget — revenue and expense — by $5,684,723.79 in the Quality of Life special project appropriation #13824.

As backdrop, the Emergency Manager's budget for FY 2015 was approved for $200M of revenue and expense in appropriation #13824 for Quality of Life Special Projects (see **Exhibit A**). This consisted of $120M of Post-Petition Financing (the associated debt was redeemed in the exit financing) and $80M of anticipated Exit Financing. Subsequent to finalization of the budget, the City actually received Exit Financing proceeds in the amount of $85,684,723.79 for Quality of Life Projects. Exhibit B provides a fund flow of Exit Financing which highlights the amounts being provided for RRI in exit financing.

This request is to reconcile the budget with the cash received.

I am requesting your Honorable Body to adopt the enclosed resolution.

If you have any questions or concerns regarding this matter, please feel free to contact me at 224-3821 or *jamisonm@detroitmi.gov*.

Honorable City Council:

Re: Hassan Boussi vs. City of Detroit, et. al. Case No.: 16-010247-NI. File No.: L16-00600.

On May 23, 2017, a case evaluation panel evaluated the above-captioned lawsuit and awarded Seventeen Thousand Five Hundred Dollars and No Cents ($17,500.00) in favor of the Plaintiff Hassan Boussi. The parties have until June 20, 2017, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of Your Honorable Body, it is our considered opinion that a settlement in the amount of Seventeen Thousand Five Hundred Dollars and No Cents ($17,500.00) to Plaintiff Hassan Boussi is in the best interests of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount indicated above, payable to HASSAN BOUSSI and THE DOLLAR LAW FIRM, PLLC, his attorney, to be delivered upon receipt of properly executed Release and Stipulation and Order of Dismissal entered in Lawsuit 16-010247-NI, approved by the Law Department.

City Planning Commission

June 2, 2017

Honorable City Council:

Re: Request of MoGo-Detroit Bike Share for Special District Review to allow for one (1) 23-dock bike share station to be located in the PC (Public Center) zoning classification more specifically identified as the Cobo Center entry plaza just south of Congress Street **(RECOMMEND APPROVAL).**

BACKGROUND

On May 18, 2017, the City Planning Commission held a public discussion to consider the request of MoGo-Detroit Bike Share for Special District Review to approve site plans and elevations to allow for one (1) 23-dock bike share station to be located in the PC (Public Center) zoning classification (see attachment). This request is a part of a larger comprehensive bike share system plan.

MoGo-Detroit Bike Share is currently in implementation phase of a bike share system roll-out that includes bike share stations primarily in the greater downtown area. The bike share system is a 24hour, 7 day a week, 365 day-a-year service that will allow for short-term bicycle rentals within a network of locations. The intention of the bikes is to serve users for brief one (1) to two (2)-mile trips within the network.

In order for the system to function appropriately stations must be located in areas with appropriate density that are conducive to short trips and create enough turnover of bicycles to ensure users have the opportunity to ride[1].

Phase 1 of the project plans for 43 stations that will house 430 bikes. The bikes will be available to be rented according to the pricing schedule below:

$8 per day
$18 per month
$80 per year
$5 annual pass for individuals who qualify for state benefits

Payment methods that would be accepted include: credit card, cash, and smart phone.

PROPOSAL

This specific proposal calls for a 62 ft. x 6 ft. bike share station at Cobo Center within the entry plaza space between the retaining wall and columns of the building south of Congress (see attachment). The stations will primarily be composed primarily of steel components. The bike station will stand 10'-8" tall and host 23 bike docks. Those docks will be situated upon a steel plate.

Additional elements of the station will include a photovoltaic panel as well as a map frame with tempered glass panels and a kiosk. The photovoltaic panels will capture solar energy, converting it to power the stations' kiosks. The kiosks located on the bike stations will be used for the bike share rental operations, allowing users to make payments and release a bike to ride. Lastly, the steel map frame is also planned to display sponsorship and/or other materials (See attachment).

ANALYSIS

Zoning

According to Sec. 61-3-181 of the zoning ordinance, *"development in the PC and PCA Districts are intended to ensure that the exterior appearance and function of any building or other development in or near the downtown Civic Center and Cultural Center are compatible with and complementary to the central urban core."*

As opposed to the majority of the bike share locations that are located in the public right-of-way and under the purview of the Department of Public Works (DPW), this particular station is on private property which is zoned PC. Due to this zoning the Planning and Development Department (PDD) and the City Planning Commission are charged with the review of the proposals for such property to ensure that they are appropriate for the space and do not have any deleterious impact on the character and aesthetic of the area. No permits are to be issued for such work without City Council approval.

After reviewing this proposal, CPC staff does not believe that the overall proposal will negatively impact the area that it is proposed to occupy. From review of the drawings that have been provided, it seems that the proposed station would occupy minimal area of the Cobo Center property and not cause a significant disturbance to current pedestrian traffic flow. Also, based on staff's site visits the character of the site should not be negatively impacted by the proposed station.

In the past, when it comes to reducing the amount of space on public or semipublic spaces, CPC has been sensitive to the reduction of those spaces for private purposes or purpose that limit the public. Although this proposal plans to reduce the walkable space, it will be utilized to provide a service that is for the public benefit to the greater downtown. The width of the space between the base of the retaining wall and the row of columns is 20'-1". The installation of the station will reduce the width in this area to 13'-7". The remaining width is larger than most sidewalks in the downtown and will be ample to accommodate the current pedestrian movements and bike share related traffic.

CONCLUSION

The Cobo Center authority was not amenable to MoGo's initial proposal to place this particular station in the public right-of-way on the sidewalk immediately fronting COBO, but offered this alternative location as one that they were agreeable to. Staff believes that this proposed location will not place any burden on the public welfare. The station will not be permanent infrastructure and is able to be moved at any time. Due the limited impact that it will have on the site, CPC believes that it appropriate to allow for the station with the caveat that it can be directed for relocation if it is shown via future study that it presents any presently unforeseen negative consequences once installed.

RECOMMENDATION

Based on the foregoing considerations the City Planning Commission voted to accept staff's recommendation for approval of the installation of the MoGo-Detroit Bike Share System. The Commission recommends approval of the drawings titled, Site ID: 20-Cobo Center and presented the CPC on May 18, 2017 with the following conditions:

1. That the petitioner, the Cobo Authority and appropriate City agencies continue to work cooperatively to ensure the appropriateness of the proposed bike station for the site;

2. That the organization work with CPC staff to mitigate injurious impacts of the proposed project site subsequent to approval and that CPC staff is hereby authorized to reconcile such changes that may be in conflict with section 61-3-97 of the Zoning Ordinance;

3. That if as a result of a study of the

impacted area, once the bike share station is installed, it is found that the station operations are causing continuous negative impacts to the harmony, pedestrian flow, and/or public safety of the site, that matter return before the City Planning Commission and City Council to determine a more appropriate location for the station.

4. That the organization submit any applicable final site plans and elevations, landscaping, lighting, and signage plans to the staff of the CPC for review and approval prior to submitting applications for required permits.

By Council Member Leland:

Whereas, as a part of a comprehensive bike share system in the greater downtown area MoGo-Detroit Bike Share is requesting Special District Review to approve the installation of one (1) 23-dock bike share station at Cobo Center near the entry plaza along Washington Blvd. just south of Congress Street between the low retaining wall and columns of the building; and

Whereas, Cobo Center is located within an existing PC (Public Center) District and consequently subject to the provisions of Article III, Division 6; "Special District Review," (Section 61-3-181 through 187) of the Detroit Zoning Ordinance; and

Whereas, the Special District Review requires that exterior design, appearance and location of all development within a PC district be reviewed by the Planning and Development Department and City Planning Commission, and approved by the Detroit City Council following the receipt of a written report and recommendation in order to ensure conformity with the spirit, intent, and purpose of the PC zoning classification; and

Whereas, the Planning and Development and City Planning Commission have found the proposed development to be in conformance with the provisions of the Special District Review; and

Whereas, the Detroit City Council has reviewed the plans, and in concurrence with departmental review, found the proposed development to be in agreement with the applicable Special District Review approval criteria described in Article III, Sec. 61-3-186 of the Zoning Ordinance;

Now,Therefore, Be It

Resolved, that the Detroit City Council approves the installation of the MoGo-Detroit Bike Share System station as depicted in the plans titled Site ID: 20-Cobo Center and presented to the Detroit City Council Planning and Economic Development Standing Committee on June 8, 2017 with the following conditions:

1. That the petitioner, the Cobo Authority and appropriate City agencies continue to work cooperatively to ensure the appropriateness of the proposed bike station for the site;

2. That the organization work with CPC staff to mitigate injurious impacts of the proposed project site subsequent to approval and that CPC staff is hereby authorized to reconcile such changes that may be in conflict with section 61-3-97 of the Zoning Ordinance;

3. That if as a result of a study of the impacted area, once the bike share station is installed, it is found that the station

operations are causing continuous negative impacts to the harmony, pedestrian flow, and/or public safety of the site, that matter return before the City Planning Commission and City Council to determine a more appropriate location for the station.

4. That the organization submit any applicable final site plans and elevations, landscaping, lighting, and signage plans to the staff of the CPC for review and approval prior to submitting applications for required permits.

[1]The City Planning Commission has inquired about the system locating in the local neighborhoods in the City of Detroit. MoGo Detroit noted that in every instanced around the country, bike share systems have initially located in downtown areas due to those areas having the density appropriate to allow such a program to succeed. MoGo however, is studying other areas of the city that may have the conditions necessary to extend the program in the future.

Historic Designation Advisory Board

May 24, 2017

Honorable City Council:

Re: Petition #1568: Midtown Detroit requesting interim designation of the historic Clay School located at 453 Martin Luther King Boulevard as a local historic district and the appointment of ad hoc representatives in connection to this matter.

April 7, 2017, Midtown Detroit, Inc., submitted a request for an interim designation for the proposed Clay School Local Historic District. Clay School is listed in the National Register of Historic Places (July 8, 1982) and is the oldest school building still extant in the City of Detroit.

A provision in the local designation ordinance, Sec. 25-2-4(c), states, "Upon receipt of substantial evidence demonstrating definite...significance in a proposed historic district, the city council may, at its discretion, adopt a resolution of interim historic designation, requiring that all applications for permits for work within the proposed historic district be referred to [Historic District] commission as provided for in section 25-2-18 et seq." Interim designation would require that, for a period of up to one year, the Historic District Commission would have the same powers as it would if Clay School were a designated local historic district.

The proposed Clay School local historic district consists of a single building located at 453 Martin Luther King Boulevard. Clay School is the oldest school building in the city of Detroit. Constructed in 1888, Clay School is a two-story Italianate rectangular building designed by architect J. B. Tarleton.The front of the building on Martin Luther King Boulevard displays a round arched entry decorated in stone. There is a masonry tower that was, for about nine decades, topped with a wood cupola soaring above the hipped roof. The building has a high basement which extends above the ground and is demarked with a visible stone watertable.

From 1888 to 1923 this was a Detroit elementary school. For the subsequent 8 years it served as an educational center for boys with discipline problems. Later it became an office building for the school system. In 1981, it was sold to a developer who gradually converted this former school building into an office building.

Reasonable grounds for the study have been provided. I have attached a resolution for your consideration directing the Historic Designation Advisory Board staff to begin the designation process.

Should Your Honorable Body adopt that resolution, you must appoint two persons to serve as *ad hoc* members of the Advisory Board in connection with the matter.

Staff is available to answer any questions you may have in regards to this proposed designation.

Respectfully submitted,

JANESE CHAPMAN

Senior Historic Planner

By Council Member Leland:

Whereas, The City Council has received a request to designate the Historic Clay School Local Historic District, located at 453 Martin Luther King, Detroit, MI 48202.

Whereas, The City Council finds that there are reasonable grounds for such a request,

Whereas, The Historic District Ordinance (Chapter 25-2) requires the appointment of ad hoc members to the Historic Designation Advisory Board to represent the interest of property owners and those having a demonstrated interest in the preservation of this historic resource,

Now, Therefore, Be It Resolved, That the City Council appoints the property owner, their representative; and a resident of the neighborhood to serve as ad hoc members of the Historic Designation Advisory Board in connection with the study for the proposed Historic Clay School Local Historic District.

Be It Further Resolved, That an interim designation be placed upon Clay School Historic District while the study is underway.

Planning & Development Department
June 1, 2017

Honorable City Council:

Re: Forest Park Rehabilitation Project. Development: Transfer of Jurisdiction Parcel 9 (part of Forest Park) – Sale of Parcel 9 (part of Forest Park) and Parcel 10; generally bounded by Canfield, vacated Orleans, Superior and Dequindre.

The Planning and Development Department ("P&DD") is in receipt of an offer from Wolverine Packing Company ("Wolverine"), a Michigan Corporation to purchase the above-captioned property (the "Property") for the amount of $1,150,000. This Property is vacant land measuring approximately 349,786 square feet (8.03 acres) and is zoned PD (Planned Development).

Wolverine is a family owned and operated business located in Eastern Market that specializes in meat processing. Wolverine's business has continued to grow and they are out of space to expand at their current location. Therefore, Wolverine proposes to combine Parcel 9

(part of Forest Park) with Parcel 10, to construct an approximately 147,000 square feet cold refrigeration and production complex.

The development will complement Wolverine's existing Eastern Market operations. It will consist of freezer storage, a production area and machine room, an adjoining two (2) story office, two (2) paved surface parking lots for the storage of approximately fifty-seven (57) licensed operable vehicles and a truck staging area. Any area not paved will be appropriately lighted and landscaped to enhance the overall site. As part of the storm water management system, all roof drainage will be directed to a Bio-swale and adjacent rain garden.The total development cost of the project is estimated at approximately $30,000,000.Wolverine also anticipates this additional space will provide approximately 50 to 100 permanent new jobs.

Your Honorable Body has approved the adoption of the proposed development in accordance with the PD (Planned Development) zoning designation guidelines. Additionally, your Honorable Body has approved an amendment to the Master Plan of Policies, for the area generally bounded by East Canfield Avenue, the Dequindre Cut, the northern boundary of the Pepsi Cola bottling plant and vacated Riopelle Street, changing the proposed Future Land Use from Recreation (PRC) and Institutional (INST) to Light Industrial (IL).

Forest Park currently is approximately 9.8 acres. The part of Forest Park that Wolverine is proposing to purchase and develop is approximately 4.59 acres and further described in Exhibit A. This part of Forest Park contains two (2) basketball courts, a softball diamond and kickball field. These amenities are underutilized and can be incorporated by the Recreation Department into the redesign of the remaining park area.

The remaining Forest Park area will be approximately 5.25 acres.The Recreation Department intends to acquire and install new equipment and make other improvements to the remaining Forest Park area at an estimated cost of $675,000. Wolverine has agreed to donate to the City of Detroit the amount of $300,000 to be used for the purchase and installation of new park amenities at the remaining Forest Park area. This donation is separate from the purchase price of the property and is to be paid at closing. The remaining $375,000 of improvements is to be funded from the purchase price of the property received from Wolverine.

It is anticipated that the Recreation Department will be submitting a separate resolution requesting an amendment to its budget authorizing the Recreation Department to accept the donation from Wolverine Packing Company and to establish an appropriation specifically in the amount of $675,000 for the installation of equipment and improvements to Forest Park.

Therefore, we respectfully request that your Honorable Body approve the transfer of jurisdiction of a portion of Forest Park, part of Parcel 9 as described in the attached Exhibit A, from the Recreation Department to the Planning and Development Department and the designation of this property as surplus.

Additionally, we request that your Honorable Body authorize the Finance Director to accept $300,000 from Wolverine Packing Company, to be used by the Recreation Department for the acquisition and installation of new amenities to the remaining Forest Park area.

Finally, we respectfully request that your Honorable Body approve the sale and authorize the Director of the Planning and Development Department, or his authorized designee, to execute an agreement to purchase and develop part of Parcel 9 and Parcel 10, as more particularly described in the attached Exhibit B, with Wolverine Packing Company, a Michigan Corporation, together with a deed to the property and such other documents as may be necessary to effectuate the sale, for the amount of $1,150,000, of which the amount of $375,000 is to be allocated directly to the Recreation Department from the sale proceeds, for use by the Recreation Department to make improvements to the remaining Forest Park area.

Respectfully submitted,

Honorable City Council:

Re: Conversion of a portion of Riverside Park – Meeting, Discussion, and Vote in Support.

We are seeking this Honorable Body's expression of its support for the conversion of the easternmost portion of Riverside Park, in furtherance of the City's efforts to expand and improve the Park.

On July 28, 2015, this Honorable Body approved a Land Exchange Agreement between the City and the Detroit International Bridge Company ("DIBC"). Under the terms of the Agreement, DIBC agreed, among other things, to transfer to the City 4.71 acres of land immediately west of Riverside Park ("News Warehouse Property"), and the City agreed, among other things, to transfer to DIBC approximately 3.783 acres comprising the easternmost portion of Riverside Park ("City Property"). This exchange was subject to certain conditions, one of which was state and federal approvals of the conversion of the City Property to other than recreational use.

The conversion of the City Property is necessary under the terms of the federal Land and Water Conservation Fund ("LWCF") and the Michigan Natural Resources Trust Fund ("MNRTF"), funds from both of which have been used to expand and improve Riverside Park. Under LWCF and MNTRF requirements, the U.S. National Parks Service ("NPS") and the Michigan Department of Natural Resources ("MDNR") must approve of the conversion of any grant-encumbered parkland before it can be used for anything other than public outdoor recreational purposes, as well as its replacement with property of equal or greater value.

In accordance with the terms of the Land Exchange Agreement, the City applied to the MDNR for preliminary approval of the conversion in August of 2016. In a letter dated February 8, 2017, MDNR advised the City of its preliminary approval and stated that the News Warehouse Property "has the potential to be an acceptable replacement" for the City Property and authorized the City to proceed with the remaining steps of its conversion application." The next step in the City's conversion application is a well-publicized meeting of this Honorable Body

to discuss the proposed conversion and mitigation and pass a resolution supporting the request to convert the portion of Riverside Park comprised of the City Property.

It is the City's desire to transform Riverside Park into world-class regional park. In support of that goal, DIBC agreed to contribute $5 million, of which the First Installment of $3 million has been paid. These funds are already being used for Riverside Park's renovation and expansion. The Second Installment of $2 million will be paid upon the approval of the conversion and consummation of the land exchange. Those funds are needed to bring more public outdoor recreational amenities to park users, and substantially increase the overall recreational value of the park. This Honorable Body's support of the conversion is necessary for those improvements to occur.

Thank you for your consideration of this request to affirm your support for the proposed conversion through this Honorable Body's adoption of the attached resolution.

Sincerely,
KEITH FLOURNOY
Interim Director
Parks & Recreation Department

A RESOLUTION SUPPORTING THE PARTIAL CONVERSION OF RIVERSIDE PARK

By Council Member Leland:

Whereas, The City of Detroit desires to expand and transform Riverside Park to provide new and improved public outdoor recreational amenities to the surrounding community; and

Whereas, the City has entered into a Land Exchange Agreement, dated April 29, 2015 ("Land Exchange Agreement"), which sets forth a series of transactions between the City and the Detroit International Bride Company ("DIBC") to facilitate the expansion and transformation of Riverside Park; and

Whereas, the Detroit City Council adopted a resolution on July 28, 2015 approving of the Land Exchange Agreement; and

Whereas, in accordance with the Land Exchange Agreement, DIBC has conveyed to the City 4.81 acres of waterfront property, located at 3801 West Jefferson Avenue adjacent to the west of Riverside Park ("News Warehouse Property"), and has razed the building thereon years ahead of schedule, allowing the City to increase the size of Riverside Park; and

Whereas, in exchange for acquisition of the News Warehouse Property, the City agreed, upon the satisfaction of various conditions, to convey to DIBC certain property consisting of the easternmost 3.783 acres of Riverside Park ("City Property"); and

Whereas, Riverside Park has at various times been expanded and improved using grant funding from the federal Land and Water Conservation Fund ("LWCF") and the Michigan Natural Resources Trust Fund ("MNRTF"), both of which require grant-encumbered parkland to continue to be used only for public outdoor recreational purposes; and

Whereas, under the terms of the LWCFR and the MNRTF, the "conversion" of any grant-encumbered parkland to a use for any purpose other than public outdoor recreation must be approved by the U.S. National Parks Service ("NPS") and the Michigan Department of Natural Resources ("MDNR"); a

Whereas, in order to obtain NPS and MDNR approvals, the parkland that is subject to the conversion must be replaced with alternative property that is equal or greater in recreational usefulness and monetary value than the parkland to be converted; and

Whereas, in fulfillment of the terms of the Land Exchange Agreement, the City desires to convert the City Property, to be replaced by the News Warehouse ("Proposed Conversion"); and

Whereas, on February 8, 2017, MDNR confirmed that the News Warehouse Property could be an acceptable replacement for the City Property as to its recreational usefulness and authorized the City to proceed with the remaining steps of the conversion application process; and

Whereas, the City has undertaken rigorous community engagement regarding the proposed conversion, including publication of documentation regarding the Proposed Conversion for public inspection for more than thirty days, hosting a well-publicized community meeting at the Patton Recreation Center on April 25, 2017, and widespread notification of a public meeting before this Honorable Body regarding the Proposed Conversion; and

Whereas, in response to its community engagement efforts, the City has received over 100 comments from the public, which collectively demonstrate substantial public support for the Proposed Conversion; and

Whereas, in addition to conveyance of the News Warehouse Property, DIBC agreed to provide a private contribution of up to $5 million to the City to invest in the transformation of Riverside Park; and

Whereas, DIBC has paid the first installment of its private contribution in the amount of $3 million and will make the second installment in the amount of $2 million upon the City's conveyance of the City Property to DIBC; and

Whereas, this Honorable Body is being asked to provide its support for the Proposed Conversion in satisfaction of applicable conversion application requirements;

Now, Therefore, Be It

Resolved, That this Honorable Body

hereby expresses its unqualified support of the Proposed Conversion of the City Property; and be it further

Resolved, that the execution of the application for the conversion of the City Property by the Director of the City's Parks and Recreation Department is authorized, and the submission of the application to the MDNR is approved.

Re: Request to Accept and Appropriate the FY 2017 Comprehensive Agreement, Volunteer Reception Centers Program.

The Michigan Department of Health and Human Services (MDHHS) has awarded the City of Detroit Health Department with the FY 2017 Comprehensive Agreement, Volunteer Reception Centers Program, for a total of $6,000.00. There is no match requirement for this program. The grant period is May 1, 2017 to September 30, 2017.

The objective of the grant is to promote MRC unit development of Volunteer Reception Centers (VRCs) for assisting with multi-agency coordination to organize, assemble, dispatch, and properly out-process volunteers. The funding allotted to the department will be utilized to develop mechanisms for directing, processing, and referring responders and volunteers, establish a cohort of volunteers trained and competent in VRC operations, and to create robust and sustainable VRC Go Kits, including supplies and training material. This is a reimbursement grant.

If approval is granted to accept and appropriate this funding, the appropriation number is 20398.

I respectfully ask your approval to accept and appropriate funding in accordance with the attached resolution.

Sincerely,
NICHELLE HUGHLEY
Deputy CFO
Office of Grants Management

Department of Public Works City Engineering Division

May 2, 2017

Honorable City Council:

Re: Petition No. 241 – Faygo Beverages Inc. request to renew the vacation (Temporary Closure) of Superior Street due to the location of their docks which creates a high volume of traffic located at 3579 Gratiot Avenue.

Petition No. 241 – Faygo Beverages Inc., request to temporarily close and later amend to vacate and convert to easement the westerly 508 feet of Superior Street, 50 feet wide, between Moran Avenue, 50 feet wide, and Gratiot Avenue, 120 feet wide.

This request is being made because a long standing temporary closure has expired. Faygo Beverages Inc. had approved by your Honorable Body to close a portion of Superior Street. The petition 3897 approved on February 5, 1986 allowed the temporary closure. The

closure is still needed because of high volume of truck traffic and the loading docks in the area.

The petition was referred to the City Engineering Division – DPW for investigation (utility review) and report. This is our report.

The request was approved by the Solid Waste Division – DPW, and Traffic Engineering Division – DPW (TED). TED has certain conditions that have been made a part of this resolution.

All involved City Departments, including the Public Lighting Department, the Public Lighting Authority, and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.
City Engineer
City Engineering Division – DPW

By Council Member Benson:

Honorable City Council:

Re: Petition No. 1165, Mike Fisher, request to combine and vacate the alley located at 2437 S. Schaefer Hwy., Detroit, MI 48237.

Petition No. 1165 – Mike Fisher request to vacate and convert to easement the east-west public alley, 20 feet wide in the block of Schaefer Highway, 120 feet wide, Toronto Avenue, 60 feet wide, Annabelle Avenue, 60 feet wide and Beatrice Avenue, 60 feet wide.

This request is being made to enhance the security at 2437 S. Schaefer Hwy. and the security of the neighborhood.

The petition was referred to the City Engineering Division – DPW for investigation (utility review) and report. This is our report.

The petition has the support of the adjoining owner on Annabelle Avenue. The adjoining owner at 1624 S. Beatrice is opposed to the closing of the alley because of the zoning; and feels the closure would bring the commercial property line closer to the residential property. She states that she has maintained the alley adjoining her property. The objecting party is:

Gloria D. Davis Telephone No.
1624 S. Beatrice (313) 842-0392
Detroit, MI

DPW – City Engineering will inform Gloria D. Davis when this report leaves our office; and we will give her the City Clerk's office contact information so that she may voice her objection at the appropriate time.

The request was approved by the Solid Waste Division – DPW, and Traffic Engineering Division – DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution.

All other involved City Departments, including, Public Lighting Authority and Public Lighting Department, also privately owned utility companies have reported no objections to the conversion of the public right-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

This resolution to vacate and convert to easement the public alley is offered for your consideration.

Respectfully submitted,
RICHARD DOHERTY, P.E.
City Engineer
City Engineering Division — DPW

Provided, That if at any time in the future, the owners of any lots abutting on said vacated alley shall request the removal and/or relocation of the aforementioned utilities in said easement, such owners shall pay all costs incident to such removal and/or relocation. It is further provided that if sewers, water mains, and/or appurtenances in said easement shall break or be damaged as a result of any action on the part of the owner, or assigns, then in such event, the owner or assigns shall be liable for all cost incident to the repair of such broken or damaged sewers and water mains, and shall also be liable for all claims for damages resulting from his action; and be it further

Provided, That if it becomes necessary to remove the paved alley returns at the entrances (into Beatrice Avenue, or Annabelle Avenue) such removal and construction of new curb and sidewalk shall be done under city permit and inspection according to City Engineering Division – DPW specifications with all costs borne by the abutting owner(s), their heir or assigns; and further

Honorable City Council:

Re: Petition No. 1027, Wayne State University, request for an outright vacation of street and alley conversions to public utility easements on Anthony Wayne Drive, Vacated Putnam Ave., vacated Fourth Ave. and West Kirby Blocks.

Petition No. 1027, Wayne State University request for outright vacation of Merrick, 70 feet wide from Anthony Wayne Drive, variable width to Fourth Avenue, 50 feet wide; also for the outright vacation of 2 North-South public alleys in the blocks of Putnam Avenue, 70 feet wide, Merrick Avenue, Kirby Avenue, 60 feet wide, Anthony Wayne Drive and Fourth Avenue.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearances) and report. This is our report.

All the requested rights-of-way were previously vacated and converted to easements by Detroit City Council on May 10, 1966, J.C.C. pages 1325-1329.

The request is being made in order to facilitate the construction of a new building to address the demand for on-campus housing. Wayne State University is prepared to work with the City and utility agencies on any infrastructure disposition issues.

The request was approved by the Solid Waste Division – DPW, and the Traffic Engineering Division – DPW.

AT&T reports being involved. The developer will need to contact AT&T for the relocation and removal of their facilities.

DTE Energy – Gas reports that there is an existing gas main in Merrick Avenue that will need to be relocated at the developer's expense.

The Detroit Water and Sewerage Department (DWSD) reports no objection if the petitioner agrees to relocate the sewers in accordance with the DWSD provisions for relocation at no cost to DWSD. The DWSD provisions are part of this resolution.

All other city departments including Public Lighting Department and the Public Lighting Authority report no involvement or no objections to the proposed outright vacations.

All other utilities have reported no objections to the vacations and provisions for all utility relocations have been made a part of the attached resolution.

I am recommending adoption of the attached resolution.

RESOLUTION FOR COMMEMORATION OF JUNETEENTH AS AN ANNUAL CELEBRATION OF BLACK ECONOMIC LIBERATION

By Council Member Ayers:

WHEREAS, Juneteenth is recognized as the end of chattel slavery in the United States and liberation from the greatest robbery of black wealth in our country's history; and

WHEREAS, President Abraham Lincoln first issued the Emancipation Proclamation effective January 1, 1863, freeing the slaves in the South. However, southern slave owners ignored that order. On June 19th, 1865, Union soldiers arrived in Galveston, Texas and enforced the president's order, freeing the slaves two and a half years after it was first decreed. This day has since come to be known as Juneteeth; and;

WHEREAS, Through other systems of oppression, such as sharecropping, Jim Crow, redlining, mass incarceration, and gentrification the plunder of black bodies and black wealth continued past slavery and persists to this day, affecting the physical and mental health, safety, and education of African Americans; and

WHEREAS, Liberation from these systems of oppression must include black economic liberation. This liberation is manifested in ways such as financial literacy, access to loans, jobs, and the means of self-improvement, and the ability to own the land in one's own neighborhood; and

WHEREAS, Many African Americans have worked and continue to work to build wealth within the black community. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council recognizes Juneteenth, June 19, as an annual celebration of the past, present, and future of black economic liberation and those who work towards that liberation.

RESOLUTION IN SUPPORT OF HB 4619 — ACCESS FOR RESIDENTS WITH LIMITED ENGLISH PROFICIENCY

By Council Member Castaneda-Lopez:

WHEREAS, The State of Michigan and particularly, the Detroit metropolitan area is increasingly becoming more diverse, as such, it is imperative that essential governmental communications be available to all of its citizens; and

WHEREAS, we have recently seen a poignant example where a public health crisis was exacerbated by the government's inability to communicate in languages other than English. Such was the case in Flint, Michigan where the non-English speaking population continued to drink the contaminated water because they failed to receive any communication in a language that could be understood; and

WHEREAS, HB-4619 has been introduced in the Michigan House of Representatives that would increase access to State services to individuals with limited English proficiency free of charge; and

WHEREAS, Each State department, agency or entity would be required to provide equal language access to public services when language skills are necessary to effectively communicate with a constituent. This would include providing face-to-face, in-house oral language services. Oral language services would include interpreters, bilingual staff, telephone interpreter programs televideo interpretation services and private interpreter programs; and

WHEREAS, Additionally, the State agencies will be required to translate vital documents ordinarily provided to the public into any language spoken by a population with limited English proficiency that constitutes at least 3% of the overall population within the local area being served; and

WHEREAS, In an effort to make sure the appropriate services are being provided, every 2 years each agency would be required to make an assessment of the linguistic needs of the agency including the number of bilingual staff needed, which documents have been translated and a plan to make the public aware of the availability of these services. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly supports HB 4619 in its effort to make services available to members of our communities with limited English proficiency by providing equal language access; BE IT FINALLY

RESOLVED, A copy of this resolution be forwarded to the Detroit Delegation in the Michigan Legislature, the Michigan State House Committee on Government Operations and Infrastructure and the Michigan State Senate Committee on Government Operations.

Office of the Chief Financial Officer
Office of Budget

June 7, 2017

Honorable City Council:

Re: Authorization to Amend the Fiscal Year 2018 Budget.

The Office of Budget is requesting authorization to amend Fiscal Year 2018 Budget to record certain changes in debt service requirements in the Sinking Interest and Redemption Fund and the General Fund. In August 2016, the City of Detroit refunded certain outstanding debt with the Michigan Finance Authority (MFA) which resulted in lower interest and principal payment requirements for the two funds noted above. Of particular note is the elimination of the Plan of Adjustment requirement to fund the repayment of Stub bonds used to pay into the City's Retirement Systems - Income Stabilization Fund. this Budget Amendment will reduce interest and principal payments in the Debt Service Agency 18 and eliminate the related transfer and contribution to the Pension System recorded in the Non-Departmental Agency 35.

FY 2018 Budget

Decrease Appropriation No. 13970	
Debt Service Pension	$2,199,639
Decrease Appropriation No. 00212	
Debt Service General Bond Redemption	$3,908,983
Decrease Revenue Appropriation No. 00212	
Debt Service General Bond Redemption	$6,108,622
Decrease Appropriation No. 13854	
Non-Departmental Retirement Systems	$3,907,977
Decrease Revenue Appropriation No. 04739	
Non-Departmental Revenues	$3,907,977

The attached resolution authorizes decreases in revenues and appropriations for the Debt Service Agency 18 and the Non-Departmental Agency 35 due to the refunding of Unlimited Tax General Obligation (UTGO) debt. A waiver of reconsideration is requested.

Respectfully submitted,
TANYA STOUDEMIRE, J.D.
Deputy CFO/Budget Director

By Council Member Cushingberry, Jr.:

Whereas, On August 11, 2016, the City of Detroit refunded its outstanding Unlimited Tax General Obligation Stub Bonds issued for the purpose of financing the City's Retirement Systems income Stabilization Funds in accordance with the City's Plan of Adjustment. Proceeds from the 2016 refunding transaction will be used to redeem the refunded Stub debt, therefore eliminating the need for interest and principal payments budgeted in the Debt Service Agency 18 and the related transfer to the Non-Departmental Agency for the GRS and PFRS Retirement Systems.

Now, Therefore Be It

Resolved, That the Office of the Chief Financial Officer - Office of Budget be and is hereby authorized to amend the Fiscal Year 2018 Budget as follows:

FY 2018 Budget

Decrease Appropriation No. 13970	
Debt Service Pension	$2,199,639
Decrease Appropriation No. 00212

Decrease Revenue Appropriation No. 04739	
Non-Departmental Revenues	$3,907,977

And Be It Further

Resolved, That the Finance Director be and is hereby authorized to increase the necessary accounts and honor vouchers and payrolls when presented in accordance with the foregoing communications and regulations of the City of Detroit.

Honorable City Council:

Re: Affordable Housing Agreement with American Community Developers, Inc. Five (5) Development Projects within the Vicinity of Little Caesars Arena

Please see the attached Affordable Housing Agreement by and between the City of Detroit and American Community Developers, Inc. related to the City of Detroit's support of five (5) residential development projects ("Projects") in the vicinity of the new Little Caesars Arena in exchange for certain affordable housing requirements.

Although the Affordable Housing Agreement requires certain affordable housing obligations to the City in exchange for certain financial incentives, it is anticipated that American Community Developers, Inc. will pursue Low-Income

Housing Tax Credits ("LIHTC") that require rents to be affordable at 60% of Area Median Income or below for thirty (30) years. The Affordable Housing Agreement protects the development of affordable housing in Detroit should the developer be unsuccessful in securing LIHTC.

We respectfully request your approval of the Affordable Housing Agreement by approving the attached resolution.

Respectfully submitted,
ARTHUR JEMISON
Director

Housing & Revitalization Department

By Council Member Leland:

Whereas, the City of Detroit, acting by and through its Housing and Revitalization Department, requests approval of that certain affordable housing agreement with American Community Developers, Inc. ("Affordable Housing Agreement") which is attached hereto as Exhibit A; and

Resolved, that Detroit City Council hereby approves the Affordable Housing Agreement.

EXHIBIT A

Affordable Housing Agreement

THIS AFFORDABLE HOUSING AGREEMENT ("Agreement") is by and between the City of Detroit ("City"), a Michigan public body corporate acting by and through its Housing and Revitalization Department ("HRD") with an address of 2 Woodward Avenue, Suite 908, Detroit, MI 48226, and American Community Developers, Inc. ("Developer"), a Michigan corporation with an address of 20250 Harper Avenue, Detroit, Michigan 48225.

WITNESSETH

WHEREAS, The City has a vested interest to: (1) promote the health, safety and general welfare of the citizens of the City through the implementation of housing goals, objectives and policies that support economically integrated housing opportunities in the development or rehabilitation of housing, (2) stimulate the production of rental housing available to low income individuals or families, (3) optimize benefits available to low and moderate income residents by incentivizing affordable residential housing projects, and (4) promote the development of residential housing projects in which at least 20% of the total residential dwelling units within a project are Affordable for households with incomes of 80% or less of Area Median Income; and

WHEREAS, Developer has proposed multiple residential housing development projects within the City that may be economically impracticable without receipt of property tax abatements, PILOT programs, tax increment financing, subrecipient grant funding or other financial support from the City (collectively referred to herein as "Financial Incentive(s)"); and

WHEREAS, The City's current policy for granting Financial Incentives for a residential housing development project requires that at least 20% of the total residential dwelling units within the project be Affordable for households with incomes of 80% or less of AMI; and

WHEREAS, to encourage such multiple residential housing development projects, the City shall allow Developer to spread the aggregate total of Affordable Units required for all of its projects amongst the multiple sites such that some sites may be comprised of more than 20% Affordable Units and some sites may be comprised of less than 20%, Affordable Units, but that the Project Area as a whole meets the Affordable Housing Requirement; and

1. **Definitions.** The following terms used throughout this Agreement shall be defined as follows:

c. "Affordable Period" means the specific time period for which Developer shall be required to maintain Affordable Units at a particular Project within the Project Area. Such Affordability Period for a respective Project shall begin once that Project` has received a certificate of occupancy from the City and shall expire thirty (30) years thereafter.

d. "Affordable Units" mean residential dwelling units within the Project Area that are leased to tenants whose annual gross incomes are equal to or less than 80% AMI.

e. "Area Median Income" or "AMI" means the median family income for the Detroit-Warren-Livonia Metropolitan

2. **Term of Agreement.** This Agreement shall be effective upon approval of the Agreement by Detroit City Council ("Effective Date") and shall expire at the end of the latest Affordability Period within the Project Area.

3. **Obligations of Developer.**

a. **Construction of Projects.** Developer shall develop the Projects within the Project Area as further detailed in Exhibit A.

b. **Lease of Affordable Units.** Developer shall meet the Affordable Housing Requirement. Such allocation of Affordable Units may be allocated to Projects across the Project as further detailed in Exhibit A.

c. **Affordable Unit Specifications.** For each respective Project containing Affordable Units, the Affordable Units shall be comparable in bedroom mix ratio, design and overall quality of construction to the market-rate units in the Project.

d. **Reporting to City.** Within sixty (60) days after the end of each calendar year of this Agreement, Developer shall provide the City's HRD Director and Detroit City Council with a status report that includes the following for the previous calendar year; 1) the total number of units developed or in development in the Project Area; 2) the number of units that are Affordable Units per Project; 3) the applicable income and/or rent restrictions for the Affordable Units; 4) the actual rent charged for each of the Affordable Units; 5) the actual income of each household that leased an Affordable Unit in each Project; 6) the actual rent charged for each market rate unit in each Project; and 7) if applicable, the information used to establish compliance with LIHTC income qualification requirements.

e. **Notification of End of Affordability Period.** At least three (3) years prior to the end of the required Affordability Period, Developer shall submit notice to the tenants of the Affordable Units, the City's HRD Director, and Detroit City Council indicating the end date of the Affordability Period and the Developer's plan for the expiring Affordable Units after the end of the Affordability Period. After this initial notification, the Developer shall submit similar notices at two (2) years prior to the end of the required Affordability Period, eighteen (18) months prior to the end of the required Affordability Period and quarterly thereafter with such notices to the same parties listed above, indicating the Affordability Period remaining on the Affordable Units and an annual notification of the plan for the Affordable Units after the end of the Affordability Period. Developer shall have a two (2) week grace period to comply with any notice requirements deadline required by this Section 3.e. before the City may exercise its remedies under Section 7.c.

4. **Obligations of City.**

a. In the event that Developer pursues an application for an allocation of Low Income Housing Tax Credits for any Project within the Project Area ("Application"), the City shall support Developer in such Application by providing Developer a letter of support that satisfies the requirements of the Michigan State Housing Development Authority ("MSHDA").

b. The City shall make commercially reasonable efforts to assist Developer through City permitting, site plan approval, financing applications and other City processes. Notwithstanding the foregoing obligation, the City's efforts do not guarantee final City approvals or Detroit City Council approval.

5. **Recording & Subordination.** This Agreement may be recorded by the City with the Wayne County Register of Deeds as a restriction encumbering the Project Area, running with the land and applicable to the Developer's successors and assigns. This Agreement shall be subordinate in all respects, notwithstanding order of recording, to the following: (a) the rights and remedies provided by Developer or the Project Owners to Michigan State Housing Development Authority under a certain regulatory agreement when recorded against the Project in connection with an allocation of LIHTC; (b) all other regulatory or similar agreements when recorded against the Project benefitting a governmental or quasi-governmental agency; and (c) all rights and remedies imposed against Developer and/or the Project Owners arising under all current or future mortgages, assignments of leases and rents, UCC fixture filing and financing statements, easements, liens, leases, licenses and/or restrictions when recorded against the Project. After the Agreement has expired, Developer or its successor in interest in the Projects may, at its option, unilaterally execute and record an Affidavit of Discharge with the Wayne County Register of Deeds referencing the expiration of this Agreement. All persons reviewing such recorded Affidavit of Discharge may rely on it to be the final and accurate determinant of the expiration of this Agreement, along with the rights and remedies thereunder.

6. **Casualty Events.** If any of the Affordable Units cease to exist as the result of fire, damage, or other casualty ("Casualty Event"), the Developer shall provide prompt written notice of such Casualty Event to the City. Further, the Developer shall provide prompt written notice to the City of the Project Owner's plan to replace any of the Affordable Units in the Project.

So long as the Project Owner is taking affirmative steps to restore the Affordable Units affected by the Casualty Event, the Developer shall not be penalized pursuant to Section 7 of this Agreement for failure to provide those Affordable Units in the Project which are the subject of the Casualty Event until such time as the affected Affordable Units are restored. The Affordability Period for such affected Affordable Unit shall be extended by the amount time it takes the Project Owner to restore the affected Affordable Unit.

For illustrative purposes only, if the Project is destroyed by a Casualty Event and the Affordable Units are not restored for eighteen (18) months, the Affordability Period with respect to the Affordable Units which are the subject of the Casualty Event will be extended for an additional eighteen (18) months.

7. **Default and Remedies.** If there is a breach of any provision of this Agreement, the following shall be among the City's remedies:

a. **Failure to Commence Construction.** If the Developer fails to commence construction of part or all of a Project pursuant to Exhibit A, the City may declare an event of default by providing notice to the Developer. Upon Developer's receipt of such notice, the City shall elect within a period of fourteen (14) calendar days either Option (i), Option (ii) or a combination thereof as the City's remedy for such a default:

• **Option (i).** The Developer shall lease all vacant units in the Project Area as Affordable Units sufficient to meet any shortfall in the Affordable Housing Requirement. In the event that the vacant units are insufficient to meet the shortfall in the Affordable Housing Requirement, then all future vacant units shall be leased as Affordable Units until the shortfall is met. Leases on market rate units may not be renewed until the Affordable Housing Requirement has been met; or

• **Option (ii).** For each month that the Developer is in default of construction commencement pursuant to Exhibit A and until such time as the Developer is no longer in default of commencing construction, the Developer shall pay the City a monthly amount for each shortfall unit equal to:

(a) the excess of actual rent received over the Affordable rate that would otherwise apply, plus

(b) a penalty for each unit not in compliance in the amount of 25% of the Affordable monthly rent that would otherwise apply, plus

(c) the enforcement cost of the City.

If the City fails to elect an option by the end of the fourteen (14) calendar day period, Developer shall have the option to elect either Option (i), Option (ii) or a combination thereof as the City's remedy.

b. **Failure to Complete Construction.** If the Developer fails to develop part or all of a Project pursuant to Exhibit A, the City may declare an event of default by providing notice to the Developer. Upon Developer's receipt of such notice, the City shall elect within a period of fourteen (14) calendar days either Option (i), Option (ii) or a combination thereof as the City's remedy for such a default:

• **Option (i).** The Developer shall lease all vacant units in the Project Area as Affordable Units sufficient to meet any shortfall in the Affordable Housing Requirement. In the event that the vacant units are insufficient to meet the shortfall in the Affordable Housing Requirement, then all future vacant units shall be leased as Affordable Units until the shortfall is met. Leases on market rate units may not be renewed until the Affordable Housing Requirement has been met; or

• **Option (ii).** For as long as the Developer is in noncompliance with the Affordable Housing Requirement, the Developer shall pay the City a monthly amount for each shortfall unit equal to:

(a) the excess of actual rent received over the Affordable rate that would otherwise apply, plus

(b) a penalty for each unit not in compliance in the amount of 25% of the Affordable monthly rent that would otherwise apply, plus

(c) the enforcement costs of the City.

If the City fails to elect an option by the end of the fourteen (14) calendar day period, Developer shall have the option to elect Option (i), Option (ii) or a combination thereof as the City's remedy.

c. **Failure to Lease Affordable Units.** If a Project is constructed and the Developer fails to lease the Affordable Units required for that Project to meet the Affordable Housing Requirement, the City may declare an event of default by providing notice to the Developer. Upon Developer's receipt of such notice, the Developer shall have sixty (60) calendar days to cure the default by either: (1) providing the Affordable Units within the respective Project or (2) elect from Section 7.a. above either Option (i), Option (ii) or a combination thereof. If after sixty (60) calendar days, the Developer has not cured the default to the satisfaction of the City, then Developer shall pay to the City all of the following penalties:

(1) Both of the following:

(i) the excess of actual rent received over the Affordable rate that would otherwise apply for each unit not in compliance, and

(ii) a penalty for each unit not in compliance in the amount of 25% of the Affordable monthly rent for each month or part of a month of noncompliance.

(2) The enforcement costs of the City.

d. **Failure to Provide Notification of the End of Affordability Period.** If a Developer fails to provide notification at the end of the Affordability Period for any Affordable Unit pursuant to Section 3.e. of this Agreement, the Affordability Period shall be extended by a three (3) month period for each missed notification for such Affordable Unit affected by each missed notification.

e. Any amounts Developer is required to pay the City under this Agreement may be utilized by the City for its affordable housing preservation fund, if such City fund exists. Developer is still obligated to pay the City such amounts under this Agreement regardless of whether or not such City fund exists.

8. **Other Financial Incentive Agreements.** Nothing contained in this Agreement shall limit the exercise of any remedy contained in any other agreement or law relating to the Financial Incentive as long as any such remedy: 1) does not relate to a breach of any affordable project requirement in another agreement with the City, and 2) relates to a breach by the Project Owner to whom the Financial Incentive was awarded.

9. **Notices.** All notices, consents, approvals, requests and other communications, herein collectively called "Notices", required or permitted under this Agreement shall be given in writing, signed by an authorized representative of the City, Developer or the Project Owners, as the case may be, and either mailed by certified or registered mail return receipt requested; sent by recognized overnight delivery service, and addressed as follows:

Whereas, The Act requires that the

designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the American Community Developers, Inc. NEZ was conducted before the Detroit City Council on June 8, 2017 with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Re: Property transfer to Wayne County Treasurer, 21564 W. Grand River.

Under the 2016 First Right of Refusal, the City of Detroit acquired 21564 W. Grand River a tax foreclosed property from the Wayne County Treasurer for the amount of $3,200.73. This property consists of a 725 square feet commercial structure located on an area of land measuring approximately 1500 square feet and is zoned B-3 (Shopping District).

Re: Real property at 1151 Taylor, 8700 Byron, 1501 Hazelwood, and 9027 John C. Lodge, Detroit, MI.

The City of Detroit Planning and Development Department ("P&DD") has received an offer from Herman Kiefer Development LLC, a Michigan Limited Liability Company ("Offeror") requesting the conveyance by the City of Detroit (the "City") of the real property, having a street address of 1151 Taylor, 8700 Byron, 1501 Hazelwood, and 9027 John C. Lodge, Detroit, MI (the "Property") described in Exhibit A; and

On September 29, 2015, the Honorable Detroit City Council authorized the City to transfer and convey the Property to the Offeror for $925,000 and enter into a development agreement with the Offeror in furtherance of the development of the Property. P&DD and the Offeror entered into a development agreement, the Master Agreement to Purchase and Develop Land by and between the City of Detroit and Herman Kiefer Development, LLC (the "Development Agreement"), on May 25, 2016.

Due to title issues and encumbrances on the Property, the City and Offeror were unable to execute the transaction before the original closing deadline in the Development Agreement. The City and Offeror now wish to make or incorporate amendments or changes to the Development Agreement including, but not limited to, extending the closing deadline, amending the schedule of reimbursement for security and utilities fees associated with the Property, permitting the Offeror to obtain financing secured by the Property and default provisions relevant thereto, and extensions of development timelines.

We request that your Honorable Body adopt the attached resolution to authorize the Director of P&DD to execute an amendment to the Development Agreement and such other documents as may be necessary or convenient to effect the transfer of the Property by the City to the Offeror.

Honorable City Council:

Re: Address: 16801 Salem. Name: Sedrick L. Thomas. Date ordered removed: April 4, 2016 (J.C.C. Page).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information.

A special inspection on April 24, 2017 revealed the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

• Certificate of Acceptance related to building permits

• Certificate of Approval as a result of a Housing Inspection

• Certificate of Inspection, required for all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

The Detroit City Council, upon receipt of testimony and evidence from the Detroit Police Department and others, and after public hearing, upon due consideration makes the following findings:

(A) On the day of and especially the evening of the Detroit Annual Fireworks Display that takes place on the Detroit River there have been numerous incidents of harassment, nuisance, vandalism, and violence committed by persons at the viewing, parking, and public places of the City before, during, and after the fireworks display;

(B) These acts of harassment, nuisance, vandalism, and violence have endangered the peace, health, safety, and welfare of the People of the City of Detroit, the many persons traveling from outside the City limits to attend this annual event, and in particular unsupervised minors before and during the City's regular curfew hours for minors and;

(C) There exist public peace, health, safety, and welfare needs for effectively governing the conduct of such minors as it pertains to harassment, nuisance, vandalism and violence for the purpose of alleviating and eliminating these problems, whether committed against minors or committed by minors;

(D) Due to law enforcement considerations and logistics concerns, a City-wide curfew is necessary to enhance the public peace, health, safety, and welfare for the many thousands of minors and adults who attend this annual event;

(E) Due to the fact that spectators begin to gather in the viewing areas in advance of the commencement of the Detroit Annual Fireworks Display on the day of the event, the regular curfew hours for minors provided for in the City's Curfew Ordinance, codified in Chapter 33, Article III of the Detroit City Code, are not sufficient to alleviate and curtail criminal activity involving unsupervised minors in the fireworks display viewing areas;

(F) The peace, health, safety, and welfare of the community-at-large and particularly that of minors will benefit from additional curfew controls for minors in a localized area of the City during the Detroit Annual Fireworks Display;

(G) The curfew for minors in the City provides for reasonable exceptions during the specified curfew period to allow for minors accompanied by their parent, legal guardian, or responsible adult, for minors at or traveling to and from places of employment, education and training facilities, and sponsored activities under adult supervision, for minors involved in emergencies or constitutionally protected activities such as interstate travel or freedom of speech, assembly or exercise of religion, for minors on the sidewalks in front of their homes, and for minors sent on errands by their parents if the minors have proper written permission.

Historic Designation Advisory Board

June 20, 2017

Honorable City Council:

Re: **REVISED;** Requesting to amend the interim designation made by Council Member Castaneda-Lopez regarding 2447 Cass Avenue, 2467 Cass Avenue and 427 Henry Street and to name the proposed historic district as a local historic district and the appointment of ad hoc representatives in connection to this matter.

Council Member Castaneda-Lopez filed petition #1653 to request the placement of an interim designation for 2447 Cass Avenue and 2467 Cass Avenue.

Additionally, *Preservation Detroit* recommended several buildings that met one or more of the four criteria as codified in Sec. 25-2-2 of the 1984 Detroit City Code. However, during the June 20th, 2017 Formal Session of City Council information was received that many of the buildings, except 427 Henry Street were approved for demolition.

A provision in the local designation ordinance, Sec. 25-2-4(c), states, "Upon receipt of substantial evidence demonstrating definite...significance in a proposed historic district, the City Council may, at its discretion, adopt a resolution of interim historic designation, requiring that all applications for permits for work within the proposed historic district be referred to [Historic District] commission as provided for in section 25-2-18 et seq." interim designation would require that, for a period of up to one year, the Historic District Commission would have the same powers as it would if 2447 Cass Avenue, 2467 Cass Avenue and 427 Henry Street were designated as a local historic district.

This memo serve to place interim designation on 2447 Cass Avenue, 2467 Cass Avenue and 427 Henry Street and to name the proposed historic district as the Henry Street local historic district and the appointment of ad hoc representative. The proposed Henry Street local historic district should consist of the following structures:

Cass Avenue
2447 (Ansonia Hotel)
2467 (Atlanta Apartments)
Henry Street
427 (Berwyn Apartments)

Staff is available to answer any questions you may have in regards to this proposed designation.

Sincerely,
JANESE CHAPMAN
Senior Historic Planner

By Council Member Leland:

WHEREAS, The City Council has received a request to designate 2447 Cass Avenue and 2467 Cass Avenue, Detroit, MI 48201.

WHEREAS, The City Council finds that there are reasonable grounds for such a request,

WHEREAS, The Historic District Ordinance (Chapter 25-2) requires the appointment of ad hoc members to the Historic Designation Advisory Board to represent the interest of property owners and those having a demonstrated interest in the preservation of this historic resource,

NOW THEREFORE BE IT

RESOLVED, That the City Council appoints the property owner, their representative; and a resident of the neighborhood to serve as ad hoc members of the Historic Designation Advisory Board in connection with the study for the proposed 2447 Cass Avenue and 2467 Cass Avenue Local Historic District while the study is underway.

BE IT FURTHER

RESOLVED, That an interim designation be placed upon 2447 Cass Avenue and 2467 Cass Avenue Local Historic District while the study is underway.

Proposal Date: June 8, 2017
MEMORANDUM OF UNDERSTANDING
BETWEEN THE
CITY OF DETROIT
AND
THE DETROIT FIRE
FIGHTERS ASSOCIATION
RE: Attendance Incentive (EMS Division Employees)

Objective

The purpose of the Attendance Incentive Program is to reward attendance and encourage employees to plan their time off in advance to help departments plan schedules and provide exceptional customer service.

Program Summary

The Fire Department's expectation is that all employees come to work and plan their absences when possible. The new absence standard is:

• 24 hours or less of unscheduled absences per quarter for full-time employees.

Eligible employees who demonstrate consistent attendance may earn two Attendance Incentive components:

1. Earn up to 1% annual cash incentive payout (paid quarterly) based on quarterly attendance;
2. Earn up to an additional 1% annual base rate increase based on four (4) qualifying quarters in the previous year;

*This program may be revised or revoked at any time by the City of Detroit with prior notice to employees and the Union.

Eligibility

Eligible:

All full-time Emergency Medical Technicians and Paramedics are eligible to participate in the attendance incentive program as follows:

1. Full Time Employees with 24 hours or less of unscheduled absences per quarter. Time away from work under the Family Medical Leave Act (FMLA) will count against an employee's eligibility for the attendance incentive;
2. New employees are eligible after they work a full quarter;

Ineligible:

• Employees who terminate employment before the incentive is paid forfeit their incentive payment;

The Quarterly Attendance Standard

To earn the incentive, employees must meet the quarterly standard for unscheduled absences. Full-time employees are not eligible if they have more than 24 hours of unscheduled absences during the quarter.

Once employees meet the quarterly attendance standard, they can earn an incentive lump sum payment of up to one percent (1%) of their base rate times the number of regular straight time hours paid in the quarter.

Quarterly Incentive Payment Tracking, Calculation & Processing

The incentive will be calculated quarterly as follows: 1.0% x Base Rate x Regular Straight Time Hours Paid (quarterly wages)

The calculation excludes unscheduled paid time off, premiums and overtime. Tardies and absences are included in the total absence time per quarter. Eligibility and the incentive amount are tracked in all pay periods paid in the calendar year. The incentive will be paid within 30 days after the end of each quarter in the regular paycheck as a separate lump sum taxable line item based on the pay rate and benefit at the time of payment.

Attendance Annual Pay Rate Adjustment

Employees may be eligible for up to a 1% additional annual pay rate adjustment based on the previous year's attendance record. The pay adjustment is based on the number of quarters in the previous year in which the employee met the attendance standard. The employee's base pay rate may be adjusted as follows in addition to the annual review or contractual increase amount:

If employees met the attendance standard for their employment	...	***Then** the employee is eligible to earn*
1 Quarter		1/4 of 1% Bonus
2 Quarters		1/4 of 1% Bonus

For this Special Attendance Incentive, employees at pay range maximum will receive the salary increase on top of their current maximum pay rate.

Scheduled vs. Unscheduled Absences

The goal of the Attendance Incentive Program is to encourage employees to plan their time off so that managers can schedule work and provide service. If an employee submits a written request within 48 hours and the manager approves it before the employee takes a vacation, holiday, departmental leave, then it is considered a Scheduled Absence and does not count against the attendance incentive.

This program supersedes any attendance incentive program currently in place and shall become effective on **January 1, 2018.**

By Council Member Ayers:

AN ORDINANCE to amend Chapter 47 of the 1984 Detroit City Code, *Retirement Systems,* by adding Article III, *Retiree Protection Trust Fund,* Sections 47-3-1 through 47-3-10, to establish an irrevocable trust under Sections 115 and 414(d) of the Internal Revenue Code to provide a mechanism to save and invest funds and contributions of the city for later distribution to the General Retirement System and the Police and Fire Retirement System in support of the city's annual budget contributions to Component II of the retirement system pension plans, to set forth a form of trust agreement, to designate an initial trustee, to authorize the creation of an investment advisory committee, to restrict disbursements and distributions from the trust fund, and to provide that the trust shall be perpetual and irrevocable, subject only to the termination and dissolution procedures set forth in the trust agreement, which can only be made final upon repeal of this ordinance specifically stating that the trust has terminated and dissolved.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 47, of the 1984 Detroit City Code, *Retirement Systems,* be amended by adding Article III, *Retiree Protection Trust Fund,* Sections 47-3-1 through 47-3-10, to read as follows:

Chapter 47.
Retirement Systems.
Article III.
Retiree Protection Trust Fund.

Sec. 47-3-1. Legislative findings.

The Detroit City Council expressly finds and determines that:

(a) Article 9, Section 24 of the 1963 Constitution of the State of Michigan obligates the city to maintain the actuarial integrity of its general retirement system (the "GRS") and its police and fire retirement system (the "PFRS") — (Component II of the GRS and the PFRS is collectively referred to in this article as the "pension system" or the "plans").

(b) Maintaining the actuarial integrity of the pension system is both a constitutional obligation and an important public purpose of the city.

(c) The financial receivership and subsequent reorganization of the city's finances under Chapter 9 of the Bankruptcy Code, as set forth in the Eighth Amended Plan for the Adjustment of Debts of the City of Detroit entered in Case No. 13-53846 of the United States Bankruptcy Court, Eastern District of Michigan (the "Plan of Adjustment"), has resulted in substantial changes to the city's obligations to the pension systems, including the repeal of a number of provisions under the 1918 Charter, the 1964 City Code, and the 1984 City Code, as described in the editor's notes to Articles I and II of this Chapter.

(d) Under the Plan of Adjustment the City's required contributions to the plans are based on a fixed schedule through the end of fiscal year 2023, that is, June 30, 2023. Beginning in fiscal year 2024, that is July 1, 2024, the City's required contributions to the plans will be based on a funding policy to be established by the GRS and the PFRS to amortize the remaining unfunded actuarial accrued liabilities of each plan, respectively.

(e) Accordingly, the City's General Fund required contributions will increase to an as-yet undetermined amount currently estimated at over $140 million annually beginning in fiscal year 2024.

(f) The provisions of Chapter 18, *Finance and Taxation,* Article V, *Purchases and Supplies,* Division 9, *Detroit Retirement System Service Corporation,* were enacted as Ordinance No. 05-05 to create GRS and PFRS service corporations to implement a program to provide and manage pension funding sources, which program is no longer valid as a result of the actions described in subsection (c), and as a consequence of which the corporations have been dissolved.

(g) The provisions of Chapter 18. *Finance and Taxation,* Article XVI. Pension System Funding Program. were enacted as Ordinance No. 05-09 to implement a program to provide pension system funding sources. which program is no longer valid as a result of the actions described in the subsections (c) and (f).

(h) It is in the best interests of the City, its employees, retirees, and the pension system to act with fiscal prudence to establish a pension system funding program through which the City can appropriate, save, and invest funds over the next several years in order to reduce the financial impact of the required contributions beginning in fiscal year 2024.

(i) Establishing a pension system funding program will allow the city to receive, maintain and invest city funds restricted for future deposits to the plans, thus pro-

viding a source of funds to be drawn from for pension contribution obligations and thus reducing the burden on the general fund beginning in fiscal year 2024 and thereafter.

(j) Creating and funding a permanent irrevocable trust under Sections 115 and 414(d) of the Internal Revenue Code, in accordance with the provisions of this Article, provides the best method to establish a funding program that will help assure the actuarial integrity of the pension system by allowing the city to exhibit fiscal restraint and prudence by depositing funds into the trust to be known as the Retiree Protection Trust Fund. The terms of the trust are such that once funds enter the trust the funds cannot be used for any purpose other than to fulfill the city's contribution obligations to the pension system so long as the city has an unfunded pension liability to the pension system. Through the annual budget process, the city retains discretion over when and how much to utilize from the trust to support its annual pension contributions while also retaining control over investment strategy and investment risk of the funds in the trust.

Sec. 47-3-2. Establishment of Retiree Protection Trust Fund.

(a) The City of Detroit establishes a Retiree Protection Trust Fund in accordance with the terms of this Article.

(b) The Retiree Protection Trust Fund shall become effective upon the enactment of the ordinance adding this Article. and the execution by the City of Detroit Chief Financial Officer of the City of Detroit Retiree Protection Trust Fund Agreement in substantially the form set forth in this Article.

Sec. 47-3-3. Purpose of Retiree Protection Trust Fund.

As described in the legislative findings set forth in Sec. 47-3-1, the purpose of the Retiree Protection Trust Fund is to establish a permanent irrevocable trust under Sections 115 and 414(d) of the Internal Revenue Code to receive, maintain and invest City funds restricted for future deposits to the General Retirement System Plan and the Police and Fire Retirement System Plan (the "Plans") as part of an effort to manage and stabilize future required City contributions to the Plans.

Sec. 47-3-4. Preparation of definitive documents.

(a) The chief financial officer is authorized and directed to prepare such definitive documents as are necessary or appropriate to give effect to the terms of this ordinance and any resolution of the city council related thereto (the "definitive documents").

(b) The definitive documents shall include, but are not limited to:

(i) The Retiree Protection Trust Fund Agreement in substantially the form set forth in Sec. 47-3-6 (the "Agreement");

(ii) Schedule of compensation and fees of the trustee of the Agreement.

Sec. 47-3-5. Acceptability of definitive documents.

(a) The definitive documents shall be acceptable to the city council. as indicated by resolution of the city council.

(b) It is sufficient for the purposes of this section if the forms of the definitive documents are acceptable to the city council with such additions, modifications or deletions as are acceptable to the chief financial officer subject to such parameters on the exercise of discretion of the chief financial officer as the city council may provide by resolution.

Sec. 47-3-6. Form of Retiree Protection Trust Fund Agreement

The Retiree Protection Trust Fund Agreement shall be in substantially the form as follows:

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 18 of the 1984 Detroit City Code, *Finance and Taxation,* Article V, *Purchases and Supplies,* Division 9, *Detroit Retirement System Service Corporation,* which consists of Section 18-5-120 through Section 18-5-144, be amended to read as follows:

CHAPTER 18.
FINANCE AND TAXATION
ARTICLE V.
PURCHASES AND SUPPLIES
DIVISION 9.
RESERVED.

~~**DETROIT RETIREMENT SYSTEM SERVICE CORPORATION** *REPEALED.*~~

~~**Sec. 18-5-120. Legislative Findings.**~~

~~The Detroit City Council expressly finds and determines that:~~

~~(a) The Home Rule City Act, 1909 PA 279, at MCL 117.4o(1), authorizes cities such as the City of Detroit (the ***City***) to authorize the formation of a nonprofit corporation under the *Nonprofit Corporation Act,* 1982 PA 162, at MCL 450.2101, *et seq.,* as amended for valid public purposes of the authorizing city.~~

~~(b) Article 9, Section 24 of the 1963 Michigan Constitution obligates the City to maintain the actuarial integrity of its *General Retirement System* (the *GRS*) and its *Police and Fire Retirement System* (the *PFRS*), together, the *Retirement System*.~~

~~(c) Maintaining the actuarial integrity of the Retirement System is both a constitutional obligation and an important public purpose of the City.~~

~~(d) By Ordinances No. 03-05 and No. 04-05 (the *Alternative Funding Mechanism Ordinances),* the City has *provided* an alternative funding mechanism for each, respectively, of the GRS and PFRS (each, an *Alternative Funding Mechanism)* to provide for funding unfunded actuarial accrued liability *(UAAL)* of the GRS *(GRS UAAL)* and the UAAL of the PFRS *(PFRS UAAL* and either the GRS UAAL or the PFRS UAAL, as the context may require, the *Retirement System UAAL).*~~

~~(e) The Alternative Funding Mechanism Ordinances are separate and distinct from this Ordinance, and this Ordinance provides only a means of funding particular Retirement System UAAL and thereby reducing the financial burden to the City of such Retirement System UAAL.~~

~~(f) This Ordinance shall not be deemed to affect any benefits under either the GRS or the DPFS or other subjects of collective bargaining or Act 312 Arbitration Awards, and shall be so interpreted.~~

~~(g) The respective Retirement System's actuaries (the *Actuaries* of the respective Retirement System) estimate that GRS UAAL is $732,958,801 and that PFRS UAAL is $516,076,553, with additional unrecognized market losses of, respectively, $213,844,162 and $327,251,711, as of their respective reports (each, an *Actuary Report)* as of June 30, 2003, with UAAL of each Retirement System expected to increase in the future.~~

~~(h) The City desires to act pursuant to *Home Rule City Act* and authorize the formation of a nonprofit corporation with respect to each Retirement System, to be known respectively as the *"Detroit General Retirement System Service Corporation"* and the *"Detroit Police and Fire Retirement System Service Corporation"* (each, a *Corporation*), to assist the City in maintaining the actuarial integrity of the respective Retirement System through the respective Alternative Funding Mechanism by funding the particular Retirement System UAAL and thereby achieving financial benefits for the City.~~

(i) Each Corporation will be acting as an instrumentality and enterprise of the City and performing an important public purpose by assisting the City to meet its constitutional obligations with respect to the particular Retirement System and thereby is an integral part of the City for federal income tax purposes and it is intended that the income of each Corporation will not be subject to federal income taxation or any taxation under the laws of the State of Michigan to the extent the same applies to the City.

(j) Each Corporation shall be separate and distinct from the City, and the City shall not be responsible for any debts or other obligations of either Corporation, and no such debt or obligation shall constitute "indebtedness" within the meaning of The Home Rule City Act.

(k) It is in the best interest of the City to obtain the services of each Corporation in connection with the Alternative Funding Mechanism for the respective GRS and PFRS by approving the form of service contracts between each of the Corporations and the City (each, a *Service Contract*) to be funded by means of a funding trust for the respective Retirement System (each, a *Funding Trust*) in connection therewith.

(l) It is further in the best interest of the City that it enter into two specific Service Contracts to fund, respectively, not more than (i) the GRS UAAL in an amount not in excess of the UAAL in the Actuary Report as of June 30, 2003, or in the Actuary Report as of June 30, 2004, whichever is greater (*Maximum GRS UAAL*) and (ii) the PFRS UAAL in an amount not in excess of the UAAL in the Actuary Report as of June 30, 2003, or in the Actuary Report as of June 30, 2004, whichever is greater (*Maximum PFRS UAAL*). ***REPEALED.***

(1) The UAAL that may be funded pursuant to the respective Service Contract 2005 (*Subject UAAL*) shall not exceed.

(i) In the case of the GRS Service Contract 2005, the amount of GRS UAAL as determined by the Finance Director not in excess of the Maximum GRS UAAL; and

(ii) In the case of the PFRS Service Contract 2005, the amount of PFRS UAAL as determined by the Finance Director not in excess of the Maximum PFRS UAAL.

(2) Each Service Contract 2005 shall provide for payments to be made by the City for the services of the respective Corporation in reducing the present and future costs of the respective Subject UAAL. These payments (Contract Payments) consist of (i) Service Payments (described in paragraph 3 below) and (ii) Additional Service Payments (described in Sec. 18-5-134).

(3) Service Payments (*Service Payments*) consist of the following:

(ii) Amounts payable periodically (***S****ervice Charges*) sufficient to pay periodic expenses (*Funding Costs*), incurred by the respective Funding Trust in funding the Subject UAAL and the additional amounts referred to in clause (i) above and calculated in the same manner as interest (a *Funding Rate*) on the outstanding Scheduled Payments, *subject* to the limitations contained in Sec. 18-5-133(b); and

(iii) Such periodic amounts (*Hedge Periodic Payables*) and termination payments (*Hedge Termination Payables*) as may become payable by the Corporation in accordance with any Authorized Hedge.

(4) Each Service Contract 2005 shall permit the sale of participation interests under the respective Funding Trust in such Service Contract 2005 and in the Service Payments of the City to be made thereunder in the form of Certificates of Participation. ***REPEALED.***

Sec. 18-5-133. Nonprofit corporation; service contract 2005; limitations on service payments.

(a) Scheduled Payments;

(1) In addition to the amount of the Subject UAAL, the aggregate amount of Scheduled Payments may include amounts, not in excess of seven percent (7%) of Subject UAAL acceptable to the Finance Director, in connection with the Corporation funding its obligations under the Service Contract through the issuance of COPs, including: Costs of Issuance, prefunded Service Charges, a reserve against delinquent Service Payments, Underwriters' Discount *plus* accretions in connection with any Capital Appreciation COPs *so long* as the Accreted Value of Capital Appreciation COPs does not result in such COPs having a yield to maturity (computed in accordance with customary municipal finance practice) that exceeds the Maximum Funding Rate.

(2) Scheduled Payments shall be paid over a period of not more than fifteen (15) years, as determined by the Finance Director, *provided* that, such period may be extended to not in excess of any extension authorized by the Board of the particular Retirement System amortizing period.

(2) Funding Rates may be fixed or variable (or any combination of fixed or variable) and if variable may be determined by Dutch auction, index (such as the London Interbank Offered Rate or "LIBOR") or by remarketing or any other means customarily used to determine variable rates in municipal finance (Funding Rate Methodology).

(3) It is not required that Service Charges for all installments of Scheduled Payments under a Service Contract 2005 be computed on the basis of one Funding Rate or under one Funding Rate Methodology. Service Charges with respect to different installments of Scheduled Payments under a Service Contract 2005 may be computed under a different Funding Rate or Funding Rate Methodology subject in all cases to paragraph b(1) above.

(4) Service Charges may provide for a rate or rate methodology required by a Provider (a *Provider Rate*) to compensate it for any unrepaid disbursements in respect of its Financial Facility. A Provider Rate shall not exceed the maximum rate permitted by law.

(5) Each Service Contract 2005 may provide that Funding Costs of the Corporation shall be the Provider Rate with respect to Service Payments representing unrepaid amounts in respect of the Financial Facility and that the relevant Service Charges shall be adjusted accordingly. ***REPEALED.***

(3) Periodic amounts equal to customary fees and expenses of a Provider or Providers if the Finance Director determines that it is in the best interest of the

~~City that some or all of the COPs have the benefit of a Financial Facility provided by any such Provider;~~

~~(4) Periodic amounts for the general administration of the Corporation.~~ ***REPEALED.***

~~**Sec. 18-5-135. Nonprofit corporation; service contract 2005; hedge provisions.**~~

~~(a) No Service Contract shall provide for Service Payments based on payments in respect of a Hedge other than an Authorized Hedge.~~

~~(b) A Service Contract 2005 shall contain provisions to the following effect if such Service Contract 2005 provides for Service Payments in respect of an Authorized Hedge:~~

~~(1) Any amount due the respective Corporation as a periodic payment of Service Charges shall be offset by any amount (a *Hedge Periodic Receipt*) received by the Trustee on behalf of such Corporation as a correlative periodic payment from the counterparty to the Hedge (the *Hedge Counterparty*) to the extent the City is otherwise current in making Service Payments.~~

~~(2) Payments of Hedge Periodic Payables and Hedge Termination Payables shall be made by the City to the Trustee on behalf of the respective Corporation in the amounts and on the due dates thereof.~~

~~(3) Any amount received by the Trustee on behalf of the Corporation as a Termination Payment from the Hedge Counterparty (a *Hedge Termination Receipt*) shall be paid to the City to the extent the City is current in making Service Payments.~~ ***REPEALED.***

~~**Sec. 18-5-136. Nonprofit corporation; service contract 2005; financial facilities.**~~

~~If the Finance Director determines that one or more Financial Facilities will result in more favorable terms to the City, the Finance Director is authorized to sign a Service Contract on behalf of the City containing provisions with respect to any such Financial Facility.~~ ***REPEALED.***

~~**Sec. 18-5-137. Nonprofit corporation; service contract 2005; hedges; express approval.**~~

~~Such instruments as are acceptable to the Finance Director as being in accordance with Sec. 18-5-139 shall constitute a Hedge (an *Authorized Hedge*) for which the City may make Service Payments under a Service Contract 2005. One or more Authorized Hedges are permitted for each Service Contract 2005 with Hedge Counterparties selected by the Finance Director.~~ ***REPEALED.***

~~**Sec. 18-5-138. Nonprofit corporation; service contract 2005; hedges, references to Act 34 and swap management plan.**~~

~~(a) The City Council recognized that neither the Revised Municipal Finance Act, being 2001 PA 34, as amended (Act 34), nor the City of Detroit, Michigan, Swap Management Plan as adopted on November 26, 2002, as the same may be thereafter amended (the Swap Management Plan), is applicable to the Corporation; however, since a Service Contract 2005 will obligate the City to make payments correlative to payments made by the Corporation under an Authorized Hedge, the City has determined to generally apply criteria of Act 34 and the Swap Management Plan as a prudential matter as they relate to Authorized Hedges.~~

~~(b) The use of Act 34 and the Swap Management Plan as prudential criteria shall not make or be interpreted to make Act 34 or the Swap Management Plan applicable to the Corporation or its transactions as a matter of law.~~ ***REPEALED.***

~~**Sec. 18-5-139. Nonprofit corporation; service contract 2005; hedges; requirements.**~~

~~(a) *Counterparty.* The counterparty shall meet the applicable requirements of Act 34.~~

~~(b) *Term.* The term of the Hedge shall not extend beyond the due date of the last Scheduled Payment installment.~~

~~(c) *Notional Amount.* The notional amount shall not exceed the aggregate amount of the Scheduled Payments.~~

~~(d) *Corporation Rate.* The rate payable by the Corporation shall not exceed the Maximum Funding Rate.~~

~~(e) *Counterparty Rate.* The rate payable by the counterparty shall not unduly expose the Corporation to material basis risk in the opinion of the Finance Director.~~

~~(f) *Termination.* The termination events shall be customary for interest rate swaps of the nature of the Hedge and shall comply with the Swap Management Plan.~~

~~(g) *Compliance.* The Hedge shall conform to the requirements of Act 34 and comply with the Swap Management Plan in all material respects.~~ ***REPEALED.***

~~**Sec. 18-5-140. Nonprofit corporation; Service Contract 2005; hedges; risk acknowledgment.**~~

~~(a) Hedges have inherent risks. Inherent risks that are generally recognized and reasonably foreseen are set forth in the Swap Management Plan as previously approved by the City Council. Any evaluation of risks necessarily involves expectations and assumptions about future events, which by their nature are uncertain and may not occur as anticipated. Furthermore, unforeseen events may occur which may have material adverse effects on present expectations and assumptions. Hence, there can be no assurance that all risks, regardless of remoteness or other unforeseeability, have been evaluated.~~

~~(b) Subject to the limitations in any risk evaluation, the City Council expressly acknowledges the risks associated with each Authorized Hedge.~~

~~(c) The City Council understands that in order to prudently manage Service Charges and reduce Funding Cost volatility, a Service Contract 2005 may obligate the City to make Service Payments in respect of Hedge Periodic Payables and Hedge Termination Payables even though, due to events beyond the control of the City or the Corporation, the Subject UAAL is not funded.~~ ***REPEALED.***

~~Sec. 18-5-141. Nonprofit corporation; Service Contract 2005; public offering of certificates of participation; underwriting agreement.~~

~~(a) Since the public offering of the COPs is for the benefit of the City, the Finance Director shall make the City a party to the Underwriting Agreement by executing it in the name and on behalf of the City.~~

~~(b) The City shall not be a party to the Underwriting Agreement if it provides for compensation to underwriters in excess of one percent (1%) of the aggregate amount of Scheduled Payments (*Underwriters' Discount*) or if the original issue discount in connection with the initial public offering of any COP is greater than ten percent (10%) *except* in the case of Deep Discount COPs.~~

~~(c) The original issue discount for any Deep Discount COPs shall not result in such Deep Discount COPs having a yield to maturity (computed in accordance with customary municipal finance practice) that exceeds the Maximum Funding Rate.~~

~~(d) An Underwriting Agreement may provide for liquidated damages payable by the City in the event the closing conditions required to be satisfied by either the City or the Corporation are not satisfied. If a good faith check in the amount of the liquidated damages payable by the Underwriters is required to be provided by the Representative, then such good faith check shall be payable to the order of the City.~~ ***REPEALED.***

~~Sec. 18-5-142. Disclosure information.~~

~~(a) The Finance Director is authorized to prepare or cause the preparation of information relating to the City (the *City Information*) for inclusion in the Disclosure Document; to deem the City Information "final" for purposes of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the *Securities and Exchange Act of 1934*, as amended (the *Rule*); and to sign the City Information in the name of and on behalf of the City.~~

~~(b) The Finance Director may authorize the distribution of the City Information by the Underwriters in connection with the initial public offering of the COPs.~~ ***REPEALED.***

~~Sec. 18-5-143. Continuing Disclosure.~~

~~Sec. 18-5-144. Actions on Behalf of the City.~~

ARTICLE XVI. RESERVED.
~~**PENSION SYSTEM FUNDING PROGRAM** *REPEALED.*~~
~~**DIVISION 1**~~
~~**FINDINGS, DEFINITIONS AND INTERPRETATION** *REPEALED.*~~

~~**Sec. 18-16-1. Legislative findings — pension system funding program**~~

~~The Detroit City Council expressly finds and determines that:~~

~~(a) Article 9, Section 24 of the 1963 Michigan Constitution of the States of Michigan obligates the City to maintain the actuarial integrity of its general retirement system (the ***GRS***) and its police and fire retirement system (the ***PFRS*** and together with the GRS, the ***pension system***).~~

~~(b) Maintaining the actuarial integrity of the pension system is both a constitutional obligation and an important public purpose of the city, and, to that end, the city undertook the 2005 Transaction and the 2006 Transaction, as hereinafter described in Sections 18-16-2 and 18-16-3, respectively (the ***pension system funding program***).~~

~~(c) The pension system funding program contributes to the quality of life in the City of Detroit (the ***city,*** whether referring to the Michigan municipal corporation by that name or the territory within the boundaries thereof) by providing a source of income to the city's public service employees through funding of certain of the city's pension obligations.~~

~~(d) The pension system funding program further contributes to the quality of life in the city by reducing the financial requirements of the pension system and permitting tax receipts to be used for other purposes.~~

~~(e) Due to certain events affecting the hereinafter defined Insurers and the city, it is necessary that the city pledge revenues, as described in Section 18-16-4, as an incident of the pension funding program.~~ ***REPEALED.***

~~**Sec. 18-16-2. Legislative Findings — 2005 Transaction**~~

~~The Detroit city council expressly finds and determines that the following actions constitute the ***2005 Transaction,*** undertaken by the city as part of its pension system funding program.~~

~~(a) By Ordinance No. 03-05 the city provided an alternative funding mechanism for, respectively, the GRS and the PFRS (each, an ***alternative funding mechanism***) to provide for unfunded accrued actuarial liability ***(UAAL)*** of the GRS ***(GRS UAAL)*** and UAAL of the PFRS ***(PFRS UAAL*** and together with the GRS UAAL, ***pension system UAAL***).~~

~~(b) By Ordinance No. 05-05 (the ***funding ordinance***) the city provided for incorporation of two (2) service corporations, the Detroit General Retirement System Service Corporation and the Detroit Police and Fire Retirement System Service Corporation (each, a ***service corporation*** and collectively, the ***service corporations***) to serve as the means to fund Pension System UAAL.~~

~~(c) The funding ordinance also provid-~~

~~ed for the execution by the city of a service contract with each of the service corporations (collectively, the ***2005 Service Contracts***), and it approved the form of the contract administration Agreement and the trust agreement (the ***2005 Funding Trust***) which provided for the issuance of the taxable certificates of participation, series 2005 (the ***2005 COPs***).~~

~~(d) The service Corporations sold their rights to receive certain payments ***(2005 service*** contracts to the 2005 Funding trust, and the 2005 COPs represented undivided interests in the 2005 service payments.~~

~~(e) Because certain of the 2005 COPs had components of the service payments based on variable rates (the ***variable rate 2005 COPs***), the service corporations entered into interest rate swap agreements (collectively, the ***2005 hedges***) with UBS AG ***(UBS),*** SBS Financial Products Company LLC ***(SBS)*** and an additional counterparty in order to hedge payments due under the 2005 service contracts in respect of the variable rate 2005 COPs.~~

~~(f) Under certain circumstances Merrill Lynch Capital Services Inc. agreed to assume the obligations under the 2005 hedges to which SBS was a party. Each of UBS, the additional counterparty, SBS and Merrill Lynch Capital Services Inc. are herein called a ***2005 counterparty*** and collectively, the ***2005 counterparties.***~~

~~(g) The city approved the 2005 hedges in the funding ordinance and acknowledged the risks associated with them, including the risk that "unforeseen events may occur which may have material adverse effects on present expectations."~~

~~(h) The City agreed in the 2005 service contracts to make payments ***(2005 hedge payables)*** to the service Corporations sufficient to pay amounts owing by the service corporations under the 2005 hedges.~~

~~(i) The obligations of the service corporations under certain of the 2005 service contracts, including the obligations to pay 2005 hedge payables under certain of the 2005 hedges, were insured by Financial Guaranty Insurance Company ***(FGIC),*** and the obligations of the Service Corporations under the remaining 2005 service contracts were insured by XL Capital Assurance Inc. (now known as Syncora Guarantee Inc., ***Syncora,*** and together with FGIC, the ***Insurers***).~~

~~(j) The 2005 hedges provided that an additional termination event (the ***2005 additional termination event***) would occur if two events occurred:~~

~~(i) the ratings of Insurers were reduced below a certain level by certain of the rating agencies rating the 2005 COP's and~~

~~(ii) Such rating agencies also reduced, although not necessarily contemporaneously, the rating of the 2005 COPs below investment grade (the ***2005 trigger event***).~~

~~(k) The ***2005 additional termination event*** permitted the 2005 Counter parties to terminate the 2005 hedges and pay or receive the net termination value determined by the respective value of the service corporations' and the 2005 counterparties' obligations under the 2005 hedges.~~

~~(l) Proceeds of the 2005 COPs were provided to GRS and PFRS for application in accordance with the respective alternative funding mechanism.~~ ***REPEALED.***

~~**Sec. 18-16-3. Legislative findings — 2006 transaction**~~

~~The Detroit City Council expressly finds and determines that the following actions constitute the ***2006 transaction,*** undertaken by the city as part of its pension system funding program.~~

~~(a) The 2006 Transaction was undertaken in connection with the increase in the amortization period of UAAL by both GRS and PFRS to 30 years and was entered into to reduce the annual funding costs of the pension system UAAL funded by the 2005 transaction and thereby advance the purposes of the pension system funding program.~~

~~(b) The 2006 transaction was structured substantially similar to the 2005 Transaction.~~

~~(1) By resolution adopted on April 26, 2006 (the ***2006 Resolution***), the city provided for the execution by the city of a service contract with each of the service corporations (collectively, the ***2006 service contracts***), and it approved the form of the contract administration agreement and the trust agreement (the ***2006 funding trust***) which provided for the issuance of the taxable certificates of participation, series 2006 (the ***2006 COPs***) to refund the variable rate 2005 COPs.~~

~~(2) The service corporations sold their rights to receive certain payments ***(2006 service payments)*** under the 2006 service contracts to the 2006 funding trust, and the 2006 COPs represented undivided interests in the 2006 service payments.~~

~~(3) Because certain of the 2006 COPs had components of the 2006 service payments based on variable rates (the ***Variable Rate 2006 COPs***), the service corporations entered into interest rate swap agreements (collectively, the ***2006 hedges***) with UBS and SBS in order to hedge payments due under the 2006 service contracts in respect of the variable Rate 2006 COPs.~~

~~(4) Under certain circumstances Merrill Lynch Capital Services Inc. agreed to assume the obligations under the 2006 hedges to which SBS was a party. Each of UBS, SBS and Merrill Lynch Capital Services Inc. are herein called a ***2006***~~

~~***counterparty*** and collectively, the ***2006 counterparties***.~~

~~(5) The City approved the 2006 hedges in the 2006 resolution and acknowledged the risks associated with them, including the risk that "unforeseen events may occur which may have material adverse effects on present expectations."~~

~~(6) The City agreed in the 2006 service contracts to make payments of the 2006 hedge payables (defined below) to the service corporations sufficient to pay all amounts owing by the service corporations under the 2006 hedges.~~

~~(7) The obligations of the service corporations under the 2006 service contracts, including the obligations to pay 2006 hedge payables were insured by the insurers.~~

~~(8) As in the 2005 transaction, the 2006 hedges provided that an additional termination event (the ***2006 additional termination event***) would occur if two events occurred:~~

~~(i) the ratings of Insurers were reduced below a certain level by certain of the rating agencies rating the 2006 COPs and~~

~~(ii) such rating agencies also reduced, although not necessarily contemporaneously, the rating of the 2006 COPs below investment grade (the ***2006 trigger event***).~~

~~(9) The ***2006 additional termination event*** permits the 2006 counterparties to terminate the 2006 hedges and pay or receive the net termination value determined by the respective value of the service corporations' and the 2006 counterparties' obligations under the 2006 hedges.~~

~~(10) The 2005 hedges were terminated with termination values in favor of the city, and proceeds of the 2006 COPs were used to refund the variable rate 2005 COPs.~~ ***REPEALED.***

~~Sec. 18-16-4. Legislative findings — pledged property~~

~~The City Council expressly finds and determines as follows:~~

~~(a) In January 2009, the 2006 counterparties notified the service corporation and the city that they believed that the 2006 trigger event had occurred and that they were permitted by the terms of the 2006 hedges to declare a 2006 additional termination event thereunder.~~

~~(b) The declaration of the 2006 additional termination event in January 2009 could have resulted in the imposition of an immediate obligation on the City to make a combined payment to the service corporations (the ***hedge termination payment***) under the 2006 service contracts in the range of $300 million to $400 million.~~

~~(c) The 2006 counterparties may seek judicial recourse if the city fails to make immediate payment of the hedge termination payment.~~

~~(d) Such judicial recourse may result in judgment liability forcing the city to raise taxes without limit as to rate or amount.~~

~~(e) Such taxes will be destructive of the quality of life in the city and will place its residents under a severe financial burden.~~

~~(f) In lieu of declaring the 2006 additional termination event and in the interest of avoiding fees and expenses of litigation, the city, the service corporations and the 2006 counterparties have agreed in principle to the terms for settlement (the ***term sheet***), which are confidential and non-binding.~~

~~(g) The non-binding terms set forth in the term sheet are acceptable to the city and the Service Corporations and provide the only feasible alternative available to the city to avoid the declaration of the 2006 termination event.~~

~~(h) The term sheet provides for the pledge of certain revenues and certain other assets, now or hereafter receivable by the city, referred to below as ***pledged property***, to secure payment of the 2006 hedge payables as and when the same become due under the 2006 service contracts.~~

~~(i) The Michigan Gaming Control and Revenue Act, being MCL 432.201 *et seq.*, MSA 18.969(201), *et seq.*, as amended (the ***Wagering Tax Revenue Statute***), authorizes the city to levy certain taxes pursuant to Section 12 thereof.~~

~~(j) The pledged property shall include:~~

~~(i) Taxes levied or imposed or to be levied or imposed by Detroit City Code section 18-14-3 pursuant to Section 12(4)(b) the Wagering Tax Revenue Statute (***Wagering Taxes***);~~

~~(ii) Taxes collected or to be collected by the City pursuant to Section 12(5) of the Wagering Tax Revenue Statute (***Additional Wagering Taxes***);~~

~~(iii) all proceeds of taxes to which the city is at any time or from time to time entitled under Section 12(l) of the Wagering Tax Revenue Statute on account of the city rescinding or otherwise being unable to exercise its option to collect Wagering Taxes and all other amounts payable to the City pursuant to Section 12 of the Wagering Tax Revenue Statute (***Alternative Taxes***); and~~

~~(iv) Developer payments (defined below) payable to the city under the development agreements (defined below).~~

~~(k) The use and application of the Wagering Tax property as herein provided is for purposes authorized by Section 12(3)(a) of the Wagering Tax Revenue Statute (and any regulation or ordinance relating thereto), in particular, but not exclusively, as follows:~~

~~(1) Pledging the Wagering Tax Pro-~~

perty will improve the quality of life in the city beyond what it would be in the absence of such action; and

(2) Pledging the wagering tax property will reduce taxes levied or imposed by the city or to be levied or imposed by the city from what they would be in the absence of such action.

(l) The use and application of the Wagering Tax property as herein provided will not supplant existing state appropriations or local expenditures and therefore will not be used in violation of Section 12(14) of the Wagering Tax Revenue Statute.

(m) No pledge of or lien upon the Pledged property has been previously created.

(n) This Ordinance is adopted for the purpose of implementing the transactions contemplated by the term sheet, and when this Ordinance becomes effective and implemented by one or more resolutions as herein provided and the definitive documents (defined below) are executed and delivered, the complete agreement of the city and the 2006 counterparties shall be expressed thereby. ***REPEALED.***

Housing and Revitalization Department

June 21, 2017

Honorable City Council:

Re: Revised Request for Approval of the Spring 2017 HOME Loan Modifications and CDBG/General Fund Allocations for 40 Davenport LLC

The Housing and Revitalization Department (H&RD) is working to extend affordability with existing HOME developers and borrowers, and is recommending modification of loans to conditional loans for four developers. These projects are nearing the end of their respective affordability periods, and are no longer able to keep pace with increased overhead costs and make required repairs. H&RD has negotiated partial loan payoffs or debt forgiveness of principal and interest payments in order to keep projects viable. The list of borrowers is attached and includes: Riverside Estates

LDHALP, Chapel Hill LDHALP, Simon House LDHALP, and Delray Senior Housing LDHALP.

The Department has also been working with 40 Davenport LLC (the "Developer") in its purchase of a 93 unit multi-family building located at 40 Davenport St., Detroit, Michigan 48201 (the "Property"). The Developer desires to perform an extensive one year renovation (the "Renovation Period") of the Property that requires all current residents to vacate the Property during the Renovation Period. Approximately 40 of the 93 units are currently occupied by residents who have an annual income below $40,000 ("Eligible Residents"). Therefore, H&RD has committed to support the Developer by subsidizing temporary relocation service costs for CDBG eligible residents (up to 80% AMI). The Department will contract with the Developer's partner, United Community Housing Coalition ("UCHC"), in order to provide these temporary relocation services in the amount of $243,000 in CDBG funds. The Developer selected this particular sub-recipient as a development partner because of their effective administration of other housing related services to the Department.

Additionally, H&RD will assist this project through the allocation of $207,000 in infrastructure assistance funded by the City's General fund. The infrastructure assistance will be sub contracted with the EDC through its development partner. The infrastructure improvements include the repaving of the alley and installation/repair of storm drains in the alley.

Consistent with the new process adopted by City Council in 2012 for approving HOME, CDBG and other development awards and development partners, the Department is requesting your Honorable Body's approval of the attached resolution, with the list of developers and appropriate allocation actions and HOME Loan modification requests. A Waiver of Reconsideration is requested.

Respectfully submitted,
DARWIN L. HEARD
Multi-Family Housing Director

By Council Member Ayers:

Whereas, City of Detroit receives an annual allocation of HOME, CDBG and other development funds from the U.S. Department of Housing and Urban Development ("HUD"), through the Housing and Revitalization Department ("H&RD"), for the purpose of creating affordable housing opportunities in Detroit neighborhoods; and

Whereas, the City Council authorized the Housing and Revitalization Department's Director to accept and utilize HOME and CDBG funds according to HUD regulations during the City's annual Budgeting process; and

Whereas, the City Council also authorized the Budget Director to appropriate General Funds, and H&RD will use the following appropriation numbers: 00014 – Community Development and 13168 – City for the 40 Davenport LLC project; and

Whereas, the 2015-2019 Consolidated Plan will be amended to include the temporary relocation activity, after complying with the City's Citizen Participation Plan and HUD regulations for amending the Consolidated Plan; and

Whereas, the City Council also authorized the Budget Director to appropriate HUD HOME and CDBG development funds, and established appropriation numbers; and H&RD will reprogram CDBG funds for the use of temporary relocation activity for the 40 Davenport LLC project; and

Whereas, the Finance Director was also authorized to establish necessary accounts, and honor vouchers and payrolls in accordance with H&RD requests and HUD regulations; and

Resolved, That the City Council approves General Fund and CDBG Loans and/or grants for 40 Davenport LLC project in the amounts indicated on the attached list, provided that loans amounts may vary by not more or less than 10%; and

Resolved, that the Housing & Revitalization Department Director or his designee, is authorized to process, prepare and execute all loan and grant documents required to close, secure, and use General Funds and CDBG funds according to City and HUD regulations for the approved list of developers and borrowers; and

Be It Finally Resolved, that the Housing & Revitalization Department Director or his designee, is authorized to process, prepare, and execute all loan and grant documents to modify HOME Loans and Grants and/or Mortgages and subordinate the same according to HUD regulations for the approved list of developers and borrowers.

Waiver of Reconsideration per motions before adjournment.

City of Detroit
Board of Zoning Appeals

June 12, 2017

Honorable City Council:

Re: Board of Zoning Appeals (BZA) — Board Members Compensation

After a review of the workload, time

spent reviewing and preparing cases, and visiting sites, as well as the hours spent hearing cases, we propose that an increase in the compensation for BZA Board Members to reflect the increase in the Board's caseload is warranted. Since July 2016 (July 1, 2016 to current) the average case intake [has been 14 cases per month. Prior to July 2016 (July 1, 2015-June 30, 2016) the average case intake] was 6 per month. In addition to advance preparation for hearings, on the day of hearings the average time commitment for BZA Members is 6 to 8 hours. Board of Members weigh the complexity of the ordinance at issue, new laws that impact development, and citizen concerns regarding development in the neighborhoods. With the increase in development activity in the City, we anticipate that this upward trend will continue.

The BZA currently has a budget surplus for FY 2016-2017 and FY 2017-2018, approved by both City Council and the FRC, in anticipation of increasing compensation for Board Members. We request a transfer of funds within the BZA Budget to cover an increase in the compensation for Board Members from $199.00 per diem to $250.00 per diem. There are currently 7 members on the Board. The current total compensation cost is $1,398 per meeting; the requested total would equal $1,750 per meeting. We are currently scheduling 3 meetings each month.

The authority for board member compensation stems from state statute, specifically the Michigan Zoning Enabling Act MCL 125.3601(8), provides that "a member of the zoning board of appeals may be paid a reasonable per diem and reimbursed for expenses actually incurred in the discharge of his or her duties." Section 4-202 of the Detroit City Charter requires that an ordinance be adopted to provide "for compensation of board members." The City of Detroit Zoning Ordinance, section 61-2-42, mirrors the language of the statute, and further requires that "compensation of members and of the Director shall be fixed by City Council."

I have attached a draft resolution for your review. Should you have any questions, I am available at 224-4563 or *ribbronj@detroitmi.gov.* Thank you for your time and consideration.

RESOLUTION

By Council Member Spivey:

Whereas, Due to a substantial increase in the workload of the Board of Zoning Appeals, an increase in the compensation for BZA Board Members has been requested; and

Whereas, The Michigan Zoning Enabling Act, MCL 125.3601(8), provides that "a member of the zoning board of appeals may be paid a reasonable per diem and reimbursed for expenses actually incurred in the discharge of his or her duties;" and

Whereas, Section 4-202 of the 2012 Charter of the City of Detroit requires that an ordinance be adopted to provide "for compensation of board members;) and

Whereas, The City of Detroit Zoning Ordinance, section 61-2-42, mirrors the language of the statute, and further requires that "compensation of members and of the Director shall be fixed by City Council;) and

Whereas, Over the past several years, the increased level of economic development activities in the City of Detroit has resulted in a steady increase in the case intake for the BZA and the Board's per diem compensation rate has been set at $199.00; and

Whereas, Since July 2016, the Board's average case intake has been 14 cases per month, while prior to July 2016, the average case intake was 6 per month; and

Whereas, In addition to the preparation required by Board Members in advance of hearings (for which no compensation is afforded), on the day of hearings the average time required is 6 to 8 hours, which is also a substantial increase over the historic norm; and

Whereas, Board Members weigh the complexity of the ordinance, any new laws that impact development and citizen concerns regarding development in the neighborhoods, and apply the law to the zoning requests; and

Whereas, The BZA's budget presentations for FY 2016-2017 and FY 2017-2018 were successful in securing City Council's approval as well as that of the FRC, of budget allocations to include funds in anticipation of increased compensation for each Board Member at $250.00 per diem. Now Therefore Be It

Resolved, That funds within the BZA budget be transferred to cover an increase in the compensation for Board Members from $199.00 per diem to $250.00 per diem. Be It further

Resolved, That the Detroit City Council authorizes the Budget Department to increase the per diem compensation for BZA Board Members, effectively immediately.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Cushingberry, Jr., Sheffield, Spivey, Tate and President Jones — 8.

Honorable City Council:

Re: A resolution to amend the Detroit Master Plan of Policies to permit the establishment of small-scale and large-scale agricultural uses (Master Plan Change #14).

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department (P&DD) has submitted for your consideration and action a proposed Amendment to the Detroit Master Plan of Policies. Approval by your body and subsequent adoption by City Council of this resolution would accommodate changes in the Master Plan of Policies that would facilitate a text revision of the Zoning Concepts section of the Citywide Policies to permit the use of urban agriculture in the City of Detroit.

Location

Citywide

The proposed Amendment to the text of the Master Plan of Policies will be applied throughout the City of Detroit.

Text Proposal

Proposed amendment to text: The City of Detroit has experienced growth in urban agricultural activities in recent years. This fact stems in large part from the availability of vacant land located in the City's neighborhoods. Currently, the Master Plan recognizes the need to "Encourage and support urban agriculture" (Environment and Energy, Policy 4.3) and "community gardens to increase the availability of fresh produce" (Health and Social Services, Policy 2.3). Various policies also "Support and promote the reuse of vacant land for community ... and urban gardens" (Parks, Recreation and Open Space, Goal 5). In order to further these policies and goals, the Planning and Development Department is proposing to amend the Zoning Concepts section of the Master Plan's Citywide Policies that provides policies to regulate urban agriculture. The language calls out both large-scale and small-scale agricultural uses as allowable activities and sets guidelines on how these uses are to interact with nearby uses to prevent land use conflicts from occuring. The language is general rather than specific to allow for flexibility in how these matters may be handled as they relate to zoning.

Recommended Master Plan Amendment

The Planning and Development requests this proposed amendment to the Master Plan of Policies to establish urban agriculture as a permitted land use in the City of Detroit.

Respectfully submitted,
MAURICE COX, Director
Planning and
Development Department

DETROIT MASTER PLAN
OF POLICIES
MASTER PLAN CHANGE
FOURTEEN

A RESOLUTION TO AMEND THE DETROIT MASTER PLAN OF POLICIES TO PERMIT THE ESTABLISHMENT OF SMALL-SCALE AND LARGE-SCALE AGRICULTURAL USES IN THE CITY OF DETROIT

By Council Member Leland:

Whereas, The Detroit Master Plan of Policies, adopted by July 28, 2009, consists of policies and methods for improving the City of Detroit as a place for people to live and work based upon their needs and desires; and

Whereas, The Detroit Master Plan of Policies is approved and adopted as a major reference for evaluating proposed development activities and/or action programs such as neighborhood plans, urban renewal plans, zoning amendments, property acquisition or disposition, and construction of public or private facilities; and

Whereas, The Detroit Master Plan of Policies is continuously studied and amended as needed to reflect the desires of residents, businesses, and industries of the City of Detroit; and

Whereas, The Planning & Development Department requests that the Zoning Concepts section of the Master Plan of Policies Citywide Policies be amended to provide policies to regulate urban agriculture as a permitted use in the City of Detroit; and

Whereas, The proposed text Amendment will set general guidelines on where small-scale and large-scale agricultural uses may be located and how they may be regulated to mitigate conflicts with nearby uses; and

Whereas, The proposed Amendment will promote the productive re-use of vacant land;

Now, Therefore, Be It Resolved, The Detroit Master Plan of Policies is amended as follows:

1. For text changes, see attached pages from the Zoning Concepts section of the Citywide Policies in the Master Plan of Policies.

Zoning Concepts

Overview

Zoning regulations are central to achieving desired land use patterns. The regulations provide enforceable means desired land use patterns. The regula-

tions provide enforceable means for directing development. Priorities of land use regulation should include reducing conflicts between adjacent land uses while accommodating a diversity of complementary uses. The tools for achieving these goals should not be limited to regulations, but should include incentives for developers willing to innovatively meet these goals.

Issues: Land use conflicts arise when the activities at one location infringe upon the activities at another. These conflicts are usually the result of a lack of enforcement or inadequate zoning requirements and restrictions.

GOAL 1: Alleviate land use conflicts

Policy 1.1: Develop, ~~S~~strengthen and enforce regulations buffering residential areas from commercial, large scale agricultural and industrial land uses.

Policy 1.2: Develop and enforce design guidelines to enhance the appearance of commercial areas.

Policy 1.3: Develop, ~~S~~strengthen and enforce regulations protecting residential areas from industrial **and large scale agricultural** land uses especially as relates to truck traffic, noise**, emissions, and pesticides and/or other toxins that may contaminate soil or be airborne** ~~and emissions~~.

Issues: While the intent of zoning ordinances is to minimize conflicts between uses, it may not allow for complementary uses. Areas that provide mixed uses are crucial to the vitality of a city.

GOAL 2: Provide flexible guidelines to accommodate diverse land uses

Policy 2.1: Encouraged mixed-use developments such as residential lofts within light industrial areas or combined live-work environments.

~~**Policy 2.2:** Allow uses (such as agricultural or open space) within residential, commercial and industrial areas containing significant amounts of vacant land.~~

Policy 2.2: In areas containing a significant amount of vacant land, permit large scale agriculture uses in each of the Master Plan Land Use categories.

Policy 2.3: In each of the Master Plan Land Use categories, permit small scale agricultural uses.

Policy 2.3~~4~~: In high density areas, utilize performance standards to consider aspects such as light, air, noise, traffic, and visual impact.

GOAL 3: Encourage desirable development through incentives

Policy 3.1: Along transit corridors, provide incentives to accommodate high-density development, including apartments, offices, commercial and institutional uses.

Policy 3.2: Provide incentives (such as density bonuses) to encourage the creation of additional greenspace.

Policy 3.3: Utilize department incentives to encourage public art.

DETROIT LAND BANK AUTHORITY
RESOLUTION 06-02-2017
RESOLUTION ADOPTING THE POLICIES GOVERNING DISPOSITION OF PROPERTY PURSUANT TO THE SAFE KIDS PILOT

Whereas, The Detroit Land Bank was created in order to assemble and dispose of vacant, tax foreclosed, and public property in a coordinated manner to foster the development of that property and to promote residency and economic growth in the City of Detroit; and

Whereas, The Detroit Land Bank Authority has the statutory authority to dispose of property in which the authority holds a legal interest to any public or private person for value determined by the DLBA; and

Whereas, The Detroit Land Bank Authority has identified in its inventory over 600 occupied single family residences located in challenged neighborhoods within a two mile radius of a Detroit K-12 school, and believes that it is important to the safety of children walking to school that these homes be stabilized and renovated; and

Whereas, The Detroit Land Authority believes that it is necessary and appropriate to incentivize qualified Community Partners to undertake the renovation of these homes and to provide counseling and other assistance to their residents, and wishes to offer selected vacant homes from its inventory that would not qualify to be sold in the Auction Program to those Community Partners as a part of this program; and

Whereas, The Detroit Land Bank staff has recommended and the Board of the Detroit Lank Bank Authority has determined that it is necessary and appropriate to adopt the attached Policies Governing Disposition of Property Pursuant to the Safe Kids Pilot.

Now, Therefore, Be It Resolved by the Board of Directors of the Detroit Land Bank Authority, that the attached Policies Governing Disposition of Property Pursuant to the Safe Kids Pilot are hereby adopted.

RESOLUTION NO. 06-09-2017
RESOLUTION APPROVING THE SALE OF UP TO 200 SELECTED "VACANT PROPERTIES" UNDER THE POLICIES GOVERNING DISPOSITION OF PROPERTY PURSUANT TO THE SAFE KIDS PILOT

Whereas, The Board of the Detroit Land Bank Authority has adopted the Policies Governing Disposition of Property Pursuant to the Safe Kids Pilot (the "Safe Kids Pilot Policy"); and

Whereas, The Black Caucus Foundation of Michigan, through its wholly owned non-profit company, Bridges to Homeownership, Inc., has demonstrated its ability as a Community Partner to successfully renovate occupied residential structures in the City of Detroit that it has purchased from the inventory of the Detroit Land Bank Authority; and

Whereas, Bridges to Homeownership, Inc. has informed the Detroit Land Bank Authority that it intends to meet all of the qualifications to be an "Eligible Community Partner" to participate under the Safe Kids Pilot (all terms used herein quotations are as defined in the Safe Kids Pilot Policy); and

Whereas, The Detroit Land Bank Authority is restricted by the terms of the Memorandum of Understanding between the City of Detroit and the Detroit Land Bank Authority and is not permitted to transfer ten (10) or more parcels of property received from the City to the same transferee within any rolling twelve month period without the prior approval of the Mayor and City Council; and

Whereas, The staff of the Detroit Land Bank Authority has recommended, and the Board of the Detroit Land Bank has determined that given the demonstrated success of Bridges to Homeownership, Inc. in successfully renovating occupied homes in accordance with the requirements of the Detroit Land Bank Authority programs, it would be appropriate, if City Council chooses to allow it, to sell up to two hundred (200) "Vacant Homes" to the Black Caucus Foundation or Bridges to Homeownership, Inc. in accordance with the terms of the Safe Kids Pilot Policy.

Now, Therefore, Be It Resolved by the Board of Directors of the Detroit Land Bank Authority, that if and only if City Council specifically approves the transfer of more than ten properties for this purpose, the Detroit Land Bank Authority will agree to transfer up to two hundred (200) "Vacant Homes" to the Black Caucus Foundation of Michigan or Bridges to Homeownership in accordance with the terms and conditions of the Policies Governing Disposition of Property Pursuant to the Safe Kids Pilot.

Historic Designation Advisory Board

June 20, 2017

Honorable City Council:

Re: **REVISED;** Requesting to amend the interim designation made by Council Member Raquel Castañeda-Lopez regarding 2447 Cass Avenue, 2467 Cass Avenue and 427 Henry Street and to name the proposed historic district as a local historic district and the appointment of *ad hoc* representatives in connection to this matter.

Council Member Raquel Castañeda-Lopez filed petition #1653 to request the placement of an interim designation for 2447 Cass Avenue and 2467 Cass Avenue.

Additionally, *Preservation Detroit* recommended several buildings that met one or more of the four criteria as codified in Sec. 25-2-2 of the 1984 Detroit City Code. However, during the June 20th, 2017 Formal Session of City Council information was received that many of the buildings, except 427 Henry Street were approved for demolition.

A provision in the local designation ordinance, Sec. 25-2-4(c), states, "Upon receipt of substantial evidence demonstrating definite...significance in a proposed historic district, the City Council may, at its discretion, adopt a resolution of interim historic designation, requiring that all applications for permits for work within the proposed historic district be referred to [Historic District] commission as provided for in section 25-2-18 et seq." interim designation would require that, for a period of

up to one year, the Historic District Commission would have the same powers as it would if 2447 Cass Avenue, 2467 Cass Avenue and 427 Henry Street were designated as a local historic district.

This memo serves to place interim designation on 2447 Cass Avenue, 2467 Cass Avenue and 427 Henry Street and to name the proposed historic district as the Henry Street local historic district and the appointment of ad hoc representatives. The proposed Henry Street local historic district should consist of the following structures:

Cass Avenue
2447 (Ansonia Hotel)
2467 (Atlanta Apartments)
Henry Street
427 (Berwyn Apartments)

Staff is available to answer any questions you may have in regards to this proposed designation.

Sincerely,
JANESE CHAPMAN
Senior Historic Planner

By Council Member Leland:

WHEREAS, The City Council has received a request to designate 2447 Cass Avenue and 2467 Cass Avenue, Detroit, MI 48201.

WHEREAS, The City Council finds that there are reasonable grounds for such a request,

WHEREAS, The Historic District Ordinance (Chapter 25-2) requires the appointment of ad hoc members to the Historic Designation Advisory Board to represent the interest of property owners and those having a demonstrated interest in the preservation of this historic resource,

NOW THEREFORE BE IT

RESOLVED, That the City Council appoints the property owner, their representative; and a resident of the neighborhood to serve as *ad hoc* members of the Historic Designation Advisory Board in connection with the study for the proposed 2447 Cass Avenue and 2467 Cass Avenue Local Historic District.

BE IT FURTHER

RESOLVED, That an interim designation be placed upon 2447 Cass Avenue and 2467 Cass Avenue Local Historic District while the study is underway.

Re: Rae C. Mitchell vs City of Detroit, Fire/EMS Department, File #14592 (PSB)

On March 14, 2017, your Honorable Body adopted a resolution authorizing payment of $99,000.00 to settle the workers compensation claim of Rae Mitchell. We, therefore, request that your Honorable Body rescind the resolution of March 14, 2017, and request authorization to settle this workers compensation claim for the amount of One Hundred Eleven Thousand Nine Hundred and One Dollars ($111,901.00), and that your honorable Body authorize and direct the Finance Director to issue a draft in that amount payable to Rae C. On June 19, 2017 a case evaluation panel evaluated the above-captioned lawsuit and awarded Four Hundred and Eleven Thousand Dollars and No Cents ($411,000.00) in favor of the Plaintiffs in the above referenced matter. June 23, 2017

Honorable City Council:

Re: Request to accept $10 Million Dollars from the Book Cadillac Section 108 Loan Payment Settlement Agreement and to pay future 108 Loan Defeasance.

The City of Detroit Housing & Revitalization Department (H&RD) requests two actions of the Council:

1) First, acceptance of $10 million dollar settlement to the City by Section 108 Loan Repayment for the Book Cadillac Building. The payment must be recorded as CDBG Section 108 Loan Repayment.

2) The City plans to use these funds in a process called 'Defeasance'. The City will giver 10 million dollars to a defeasance agent who will pay Section 108 payments during the coming fiscal year, meaning the City can avoid budgeting that funding in the next fiscal year. This defeasance of Section 108 notes will create new CDBG budget authority in future fiscal years.

Pursuant to discussions with the U.S. Department of Housing & Urban Development (HUD) field office in Detroit and Headquarters, the Department must send these dollars to a defeasance agent. The defeasance agent will hold these dollars and spend them to retire bi-annual loan payments until the $10 million dollars are exhausted. This will allow the City to free up budget authority in future fiscal years. Please be advised that HUD requires that Section 108 settlement payments must be applied to loan obligations.

If approval is granted to accept the increase and appropriate accordingly, the cost center is 364089 and the appropriation number is 13529.

I respectively ask your approval to accept and appropriate funding in accordance with the attached resolution.

Sincerely,
NICHELLE HUGHLEY

Re: General Retirement System, et al vs. CPTF et al (Book Cadillac litigation). Wayne County Circuit Court No. 13-014005-CK.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. We request authorization to settle this matter in the gross amount of $22 million, subject to the restriction that the City of Detroit must receive a net payment of at least $10 million, which will be applied against liabilities owed by the City on HUD 108 note obligations.

RESOLUTION REQUESTING ASSISTANCE FROM THE MICHIGAN DEPARTMENT OF NATURAL RESOURCES FOR ANIMAL CONTROL

By Council Member Benson:

WHEREAS, The City of Detroit's well-documented financial problems has had a particularly detrimental impact on the animal control services provided by the City. Over the years, the animal control services have become scaled back in favor of higher policing and security priorities — services are only provided during a limited number of hours during the work week and no coverage over the weekend, creating huge gaps in service. Unfortunately, the population of feral dogs and varying wildlife do not restrict their hours of activity; and

WHEREAS, Despite the recent incremental improvement in the City's finances; The City is unable to improve the animal control at this time to adequately address the needs in the community. After multiple hearings before City Council on this issue, it has become increasingly evident that City staff generally lacks the expertise necessary to deal with wild animals beyond feral dogs and cats. And, even then there is not enough staff to control the dogs and cats that are loose and threatening the community; and

WHEREAS, There have been multiple highly publicized instances of persons being attacked by feral dogs. The United States Postal Services has even restricted mail services in certain areas of Detroit after several animal attacks against mail carriers; and

WHEREAS, The Michigan Department of Natural Resources ("MDNR") is charged with maintaining natural resources including the management and protection of wildlife. MDNR provides animal control services in certain communities within the State; and

WHEREAS, MDNR has a substantial presence in Detroit through its varied activities around the city so while these services may have not traditionally been provided, it is hopeful that the MDNR may lend its invaluable expertise in controlling wild and feral animals.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council requests assistance from the Michigan Department of Natural Resources by extending its animal control services into Detroit so that wild animals may be handled properly and so feral dogs and cats may be managed outside of the limited hours offered through the City's departments.

AND BE IT FURTHER

RESOLVED, That a copy of this Resolution be transmitted to the Michigan Department of Natural Resources, Detroit's Health Department, Detroit Police Department and the Mayor's Office.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Cushingberry, Jr., Leland, Castaneda-Lopez, Spivey, Tate, and President Jones — 8.

Nays — None.

WHEREAS, Principals are expected to be educational visionaries, instructional leaders, assessment experts, disciplinarians, community builders, public relations experts, budget analysts, facility managers, special programs administrators and guardians of various legal, contractual and policy mandates and initiatives, as well as being entrusted with the education and development of young people, the most valuable resource; and

WHEREAS, Principals set the academ-

ic tone for their schools and work collaboratively with teachers to develop and maintain high curriculum standards, develop mission statements, and set performance goals and objectives for schools to achieve educational excellence. Principals will play a vital role in successful implementation of the Every Student Succeeds Act (ESSA); and

WHEREAS, These exemplary elementary and middle level public, private and independent school leaders committed to serving students from pre-kindergarten to grade eight (pre-K — 8) in their profession are to be exalted for their efforts in establishing the educational foundation for students while managing the development of students' independence and burgeoning personalities; and

WHEREAS, The outstanding middle level and high school principals who have succeeded in providing high-quality learning opportunities for students, as well as their exemplary contributions to the profession during the students' important formative years are to be saluted.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council in honor of the service of all elementary, middle level and high school principals, and to recognize the importance of their school leadership so that every child has access to a high-quality education, and to celebrate school leader accomplishments, the month of October 2017 is hereby designated to be "National Principals Month."

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

City Planning Commission

June 23, 2017

Honorable City Council:

Re: PCA (Public Center Adjacent) Special District Review of a wall-mounted identification sign at 630 Woodward Avenue (RECOMMEND APPROVAL).

REQUEST

The City Planning Commission (CPC) has received the request of Bedrock Detroit for special district review regarding a proposed wall-mounted exterior sign at 630 Woodward Ave.

The subject property is zoned PCA (Public Center District Adjacent), a classification which calls for City Council approval of any exterior changes following the review and recommendation of the City Planning Commission and the Planning and Development Department (Sections 61-3-181, 61-11-81 and 61-11-97 of the Zoning Ordinance).

BACKGROUND

The building at 630 Woodward Ave. is presently owned by Bedrock Detroit, who renovated the building (with exterior alterations previously subject to special district review) in 2015 and 2016 and now occupies the building as its home office. The ground floor features several retail tenants.

This building was originally constructed in two phases, in 1876 and 1880, as the Mabley & Company department store. The building is located in the Historic Detroit Financial District, a historic district. The work item described below has been reviewed and approved by the Historic District Commission, with a Certificate of Appropriateness issued subsequent to a public hearing held on March 29, 2017.

PROJECT PROPOSAL

The proposed project consists of a single item (please see attachment): a halo-lit (also known as reverse channel letter) orange vinyl and acrylic identification sign bearing the Bedrock logo. It is proposed to be centered on the façade, at a location where historic photos indicate an identification sign was previously located.

CPC STAFF REVIEW

Section 7.5 of the City Planning Commission bylaws allow staff to review "minor exterior alterations in the PD, PC, and PCA zoning districts" and take action on behalf of the Commission. As the CPC staff believes the proposed changes constitute "minor exterior alterations," we have reviewed the proposed work. We find the work to be aesthetically appealing and unobjectionable in terms of color, placement, size, and intensity of lighting; additionally, electrical raceways are concealed in keeping with the desired character of the PCA district. We suggest that the proposed sign meets the approval criteria described in Sec. 61-11-97.

PLANNING AND DEVELOPMENT` DEPARTMENT REVIEW

CPC discussed the proposed sign with P&DD's Central design team on June 22, 2017. P&DD staff concurred with CPC staff's assessment that the proposed sign meets the approval criteria referenced above.

RECOMMENDATION

The CPC staff believes that the proposed sign displays a high-quality design which enhances the aesthetic characteristics of the PCA district. We recommend approval of the proposed design. Staff has authored and attached, for your consideration, a resolution regarding the proposed sign.

Respectfully submitted,
MARCELL R. TODD, JR.
Director
TIMOTHY BOSCARINO

The petitioner will be required to obtain a Certificate of Appropriateness from the Historic District Commission with the proposed green alley and outdoor seating area included in the scope of work for the associated project. The P&DD provision is a part of the attached resolution.

DTE Energy Electric reports involvement and estimates a cost of $171,570.00 for removal and/or rerouting of their services. A provision for DTE Energy is a part of the attached resolution.

LEGISLATIVE POLICY DIVISION

July 29, 2017

Honorable City Council:

Re: House Bill 4793.

The Legislative Policy Division was requested to draft a resolution in support of House Bill 4793. The resolution is attached for your consideration.

By: Council President Jones:

RESOLUTION IN SUPPORT OF HOUSE BILL 4793

Whereas, H.B. 4793 is part of an effort that focuses minimizing the imprisonment of youth by utilizing alternative mechanisms for sentencing, which includes rehabilitative programs and limiting when a youth can be convicted as an adult; and

Whereas, H.B. 4793 aids in this effort by removing the requirement that a sentencing judge must give greater weight to the seriousness of an alleged offense and the youth's prior record over other considerations. Instead, the judge may consider all of the following collectively to determine the appropriate punishment for a youth's violation of law:

• The seriousness of the alleged offense in terms of community protection, including but not limited to, the existence of any aggravating factors recognized by the sentencing guidelines, the use of a firearm or other dangerous weapon, and the impact on any victim;

• The juvenile's culpability in committing the alleged offense, including, but not limited to, the level of the juvenile's participation in planning and carrying out the offense and the existence of any aggravating or mitigating factors recognized by the sentencing guidelines;

• The juvenile's prior record of delinquency including, but not limited to, any record of detention, any police record, any school record, or any other evidence indicating prior delinquent behavior;

• The juvenile's programming history, including, but not limited to, the juvenile's past willingness to participate meaningfully in available programming;

• The adequacy of the punishment or programming available in the juvenile justice system; and

• The dispositional options available for the juvenile.

Now, Therefore, Be It

Resolved That the Detroit City Council supports H.B. 4793 in its effort to minimize the imprisonment of youth in Michigan; Be It Finally

Resolved, That copies of this resolution shall be transmitted to the Michigan State House Committee on Law and Justice, the City's State lobbyists, the Governor and the Detroit delegation in the State Legislature.

RESOLUTION IN SUPPORT OF A NEIGHBORHOOD IMPROVEMENT FUND

By Honorable Council Member Sheffield:

Whereas, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

Whereas, This fall, the Detroit Pistons will return to Detroit and move into the new Little Caesars Arena, returning after nearly 40 years since moving to Oakland County. The Pistons' move into the city, which includes a commitment to build a new headquarters and practice facility in Detroit, was aided by municipal bonds as well as various tax incentives; and

Whereas, The City of Detroit is defining its comeback through various large-scale development projects and initiatives designed to spur redevelopment within neighborhoods across the City. It is imperative that the neighborhoods, and all other areas of the City, benefit from the Detroit Pistons' return to downtown; and

Whereas, In turn, the City will receive income tax revenue, from the multimillion dollar salaries of NBA players as well as other Pistons employees and Palace Sports & Entertainment employees. This is in addition to the Pistons' commitment to provide various community benefits that have been detailed in the Pistons Development Agreement and Memorandum of Understanding between the Pistons and the City; and

Whereas, It is the will of the Detroit City Council to ensure that the Pistons' move back to Detroit has a clearly defined positive tangible impact on the community outside of the city's downtown and midtown corridor; and

Whereas, In order to facilitate development in the various neighborhoods of the City of Detroit, the City Council is committed to the establishment of a Neighborhood Improvement Fund (NIF). The NIF funds will be derived from the proceeds of the net income tax revenue collected from NBA players' salaries during home games played at Little Caesars Arena; also included are the salaries of Pistons and Palace Sports & Entertainment employees; and

Whereas, With the majority of City Council members elected from districts, the NIF's focus on addressing neighborhood needs and facilitating neighborhood development would benefit from a collaborative and proactive approach to determining appropriate NIF projects and expenditures, with early and detailed input from the City Council; and

Whereas, The Mayor's Office has expressed support from the NIF initiative. Going forward on an annual basis, the Office of the Chief Financial Officer should estimate the amount of net income tax revenue to be collected from the sources described above, and the Council as part of the appropriation process should allocate available funding in the NIF for neighborhood initiatives during the budget process, after ensuring that all City bond and pension obligations are fully funded; and

Whereas, The Detroit City Council anticipates additional funds may be allocated to the NIF from public and/or private sources, except for the Gordie Howe International Bridge Project; and Now, Therefore Be It

Resolved, To the extent permissible under federal, state and local law, the Detroit City Council hereby urges the Mayor to establish an appropriation for a Neighborhood Improvement Fund (NIF) to be created in fiscal year 2018-19 and remain in existence at least until all obligations related to the $34.5 million in bonds issued by the Downtown Development Authority (DDA) to support the Pistons' move to Detroit are satisfied; and Be It Further

Resolved, Funding of the NIF shall be appropriated pursuant to the budget process by City Council based on the estimates provided by the Office of the Chief Financial Officer and in conformance with the Consensus Revenue Estimates. The NIF may also be funded by other public and/or private sources, except for the Gordie Howe International Bridge Project, subject to the City's budgeting appropriation process; and Be It Further

Resolved, Should there be any unforeseen short fall in the City's pension or bond obligations, funds in the NIF shall be used as a last resort, when all other options have been exhausted, to help meet pension or bond obligations when other General Fund Revenues are insufficient for such obligations; and Be It Finally

Resolved, That City Council desires further collaboration with the Mayor on the NIF and will submit proposals for consideration by the executive branch. Subject to established budgetary and appropriation processes NIF funds shall be appropriated for, but not limited to, the following purposes: to remove blight, provide new recreational opportunities, provide home repairs for seniors and the disabled, educational and apprenticeship opportunities for young people and to finance affordable housing developments.

City of Detroit
Downtown Development Authority

June 29, 2017

Honorable City Council:

Re: Downtown Development Authority FY 2017-2018 Budget.

Pursuant to Article 28, Act 197, as amended, we have prepared the attached FY 2017-2018 Downtown Development Authority's General Fund Budget for your approval prior to its adoption by DDA.

The amount of funds available from the one mill tax for FY 2017-2018 has been estimated at $900,000.00, net of collection delinquencies and reserves for tax settlements. Transfer from the DDA's Tax Increment Fund will remain unchanged from the 2016-2017 budgeted allocation of $750,000.00.

The FY 2017-2018 budget reflects revenues of $1,500,000.00 to be generated from the parking operations, in line with

revenues from FY 2016-2017. Other/ Events Center Revenues are estimated at $85,000.00, representing a reduction of $85,000.00 from FY 2016-2017 due to anticipated completion of arena building activities. A Fund balance increase by $184,000.00 represents an excess of revenues over anticipated expenditures.

On the appropriations side, contractual services of $1,936,000.00, reflects no change from FY 2016-2017. The budgeted amount of $515,000.00 for professional services and fees, inclusive of a $10,000.00 expense for Computer Support, representing an increase from FY 2016-2017 due to an anticipated increase in legal fees. There is a $110,000.00 FY 2017-2018 budgeted expense related to parking operations. Finally, $500,000.00 of allocated funds for Special Projects and Contingencies for FY 2017-2018 indicates no increase from last year.

We respectfully request City Council's approval of the attached budget at its July 11, 2017 formal meeting. A waiver of reconsideration is requested.

Should any member of the Council have any questions, please contact me at 483-4150.

On February 9, 2016, a request for a PILOT Resolution was presented to your Honorable Body and approved for 9100 Gratiot Development. At this time the Detroit Catholic Pastoral Alliance and the

Assessments Division is requesting approval for the change to the decreased number of units from 45 to 36 units.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966, (P.A. 346, as amended, MCL 125.1415a).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Honorable City Council:

Re: 9100 Gratiot Development — Payment in Lieu of Taxes (PILOT) — Second Amendment Decreased Number of Units.

MHT Housing, Inc. and The Detroit Catholic Pastoral Alliance (DCPA) are partnering to develop a thirty-six (36) unit residential project located at 9100 Gratiot on the eastside of Detroit. The project will consist of the new construction of (1) multi-unit building. All units will be leased to households at or below 60% of the area median income. Units will be reserved for families with children.

The project will be located at 9100 Gratiot Avenue between Belvidere Avenue and Holcomb Avenue on the eastside of Detroit. Gratiot Avenue is a major thoroughfare and state trunk line highway connecting Downtown Detroit to the northeast suburbs with traffic counts in excess of 24,000 per day both ways. Because of its proximity to the Gratiot/I-94 intersection, the project will be located at a significant gateway to Downtown Detroit. The site is also located at a prominent point of entry to the DCPA's CHDO project area, the Gratiot Woods Community. This area is defined by the boundaries of the I-94 freeway on the north, Gratiot on the northwest, Warren on the south, Cadillac on the east, and Rohns on the west.

The following sources will be used to fund the 9100 Gratiot project: Developer Equity Contributions and MSHDA, Low-Income Housing Tax Credits.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966, (P.A. 346. as amended, MCL 125.1415a).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

(a) Except as provided in this section, the City Council shall not approve any qualifying transaction unless it conforms to this article.

(c) If the department concludes that a waiver under subsection (d) is justified for a residential housing project, the report to the City Council shall state the grounds for the department's conclusion and proposed findings for the City Council and be posted on the City's website.

(d) Notwithstanding the provisions of subsection (a), if the developer or owner have previously agreed to provide affordable housing subject to an agreement approved by the city council it shall be deemed consistent with this waiver provision. Upon request of the director of the department, the City Council may also approve a qualifying transaction that does not conform to this article, where City Council finds and declares in the authorizing resolution that:

(1) The application of the affordability requirements set forth in Sec. 14-12-5 would produce a result inconsistent with the purpose and intent of this article as set forth in Sec. 14-12-1; or

(2) The application of the affordability requirements of this article would have a significant negative impact on the eco-

nomics of the residential housing project thus rendering it unviable; or

(3) The developer or owner provides satisfactory assurance that the affordability requirements applicable to the structure(s) comprising the residential housing project are satisfied by the provision of affordable dwelling units in one or more separate structures ("substitute structure") where all of the following criteria are satisfied:

(ii) all substitute structures are either within a comparable neighborhood to that of the residential housing project with comparable access to employment centers, transportation, and other quality of life indicators, or are no more than one-quarter mile away from the residential housing project, and

(iii) the affordability requirements including the substitute structures are satisfied for the residential housing project as a whole within the 24 month development period. The 24 month timeframe is calculated from the completion of the first structure comprising the residential housing project. The developer shall notify, in writing, the Director of the Housing and Revitalization Department and the City Council of delays in meeting this timeframe. This notification shall include the reason for such delay(s) and the anticipated completion date.

(3) The requirements of this article applicable to a residential housing project under or after development may be waived or modified in accordance with subsections (c) and (d).

Sec. 14-12-5. Affordability requirements of eligible residential housing developments.

(a) All qualifying transactions shall be made pursuant to a contract or development agreement between the City and the developer.

(b) The agreement shall at minimum include the following provisions:

(1) Applicable affordability requirements:

(i) For Type 1 and Type 2 Qualifying Transactions at least 20% of the dwelling units for rent or lease as part of the residential housing project shall be affordable to and provided to households earning up to 80% percent of the AMI. If the product includes a fraction, a fraction of 0.5 or greater shall be rounded up to the next higher whole number and a fraction less than 0.5 shall be rounded down to the next lower whole number.

(ii) For Type 3 and Type 4 Qualifying Transactions at least 15% of the dwelling units for rent or lease as part of the residential housing project shall be affordable to and provided to households earning up to 60% percent of the AMI; and at least 5% of the dwelling units are required to be affordable to and provided to households earning up to 50% of AMI. If the product includes a fraction, a fraction of 0.5 or greater shall be rounded up to the next higher whole number and a fraction less than 0.5 shall be rounded down to the next lower whole number. Residential Housing Projects meeting the definition of a Type 1 or Type 2 Qualifying Transaction and a Type 3 or Type 4 Qualifying Transaction are subject to this subpart.

(iii) For Type 5 Qualifying transactions affordability requirements shall follow the criteria set forth by the applicable State or Federal regulations of the relevant funding program.

(2) The affordable dwelling units shall remain affordable for 30 years after the time of the issuance of the certificate of occupancy for that unit (or after the first day of the initial lease if no such certificate is issued). The affordability requirement shall automatically terminate if the property is taken by eminent domain, foreclosed upon by a bona fide lender, or a deed in lieu of foreclosure is given to a bona fide lender. Upon request after the termination of the affordability requirement, the department shall issue a release of the affordability requirement in recordable form.

(3) Income verification and confirmation of eligibility criteria shall occur through production of information, including rent rolls, to the department, on an annual basis or upon request.

(4) If the requirements of this article are not met or maintained, the developer or owner shall be responsible for financial penalties as set forth in Sec. 14-12-6.

(5) The provisions of the contract or development agreement relating to affordable housing shall run with the land and be binding on all subsequent owners of the residential housing project.

(c) The affordability requirements, obligations, and penalties shall be set forth in a restrictive covenant or other appropriate document in recordable form, fully executed by the owner of the residential housing project, and recorded with the Wayne County Register of Deeds.

Sec. 14-12-6. Penalties for violation; options to cure.

(a) The contract or development agreement for the qualifying transaction shall contain provisions such that if the requirements of this article are not met or maintained, the developer or owner shall be responsible for the payment to the City of the following penalties:

(1) Upon the failure to maintain and provide the required level of dwelling units available for rent or lease at affordable rates, both of the following:

(i) the excess of actual rent received over the affordable rate that would otherwise apply, and

(ii) a penalty for each unit not in compli-

ance in the amount not less than 25% of the affordable monthly rent for each month or part of a month of noncompliance.

(2) The enforcement costs of the City.

(3) Any other sanctions or penalties under applicable laws, rules or regulations.

(b) The penalty described in subsection (a)(1)(ii) shall be assessed to the developer or owner subject to the following:

(1) Prior to the application of the penalty, the owner shall have 60 days to cure the noncompliance.

(2) If the owner has failed to cure the noncompliance within 60 days, the penalty shall be assessed from the first day of noncompliance.

(3) The 60 day cure period may be extended by the director of the department for a reasonable specifically-stated period for good cause shown, which shall be stated in the extension document. Examples of good cause include, but are not limited to, situations where the current qualifying tenant's income increases above the applicable AMI thresholds and situations where affordable dwelling units are not currently occupied by qualifying tenants but the owner is actively marketing the units to qualifying tenants.

Sec. 14-12-7. Detroit Affordable Housing Development and Preservation Fund.

(a) The City shall create an appropriation within the department's budget deemed the Detroit Affordable Housing Development and Preservation Fund for the deposit and expenditure of penalties collected pursuant to this article.

(b) The purpose of the Fund is to:

(1) Foster and promote the purpose and intent of this article;

(2) Prioritize the means by which funding for new residential housing projects addresses housing for those with the greatest economic need, being households earning up to 50% of AMI;

(3) Increase accessibility to safe, affordable housing for those facing high housing costs;

(4) Prioritize permanent housing affordability and sustainability within the City; and,

(5) Prioritize the preservation of existing affordable housing units.

(c) In addition to the deposit of penalties for violations under Sec. 14-12-6, the City's annual budget shall contain an appropriation to the Fund. It is expected that the annual appropriation will be not less than 20% of the net receipts of all commercial property sales during the previous fiscal year.

(d) Unless specifically stated otherwise in the budget closing resolution, funds not expended within such appropriation during a given fiscal year shall remain in such appropriation and carry forward into the subsequent fiscal year to fund future affordable residential housing projects and other eligible activities.

(e) Subject to approval of the City Council, the City may also accept and deposit into the Fund or subaccounts of the Fund donations and grants from private or public sources, subject to conditions of such grant, for use in accordance with the purpose of the Fund.

(f) Agreements or contracts for the expenditures from the Fund shall be authorized by the City Council.

(g) In addition to the affordability guidelines established pursuant to Sec. 14-12-9, the department shall develop and publish on the City's website guidelines requiring Fund monies to be used to support housing opportunities for Detroit residents with income up to 50% AMI for activities consistent with this article.

(1) To the extent possible, not less than 70% of Fund monies shall be allocated to directly benefit households earning up to 30% of AMI; the remaining 30% of monies may be used to benefit households earning up to 50% AMI. Fund monies shall not be used to benefit households earning more than 50% of AMI.

(2) Not less than 70% of Fund monies shall be allocated in areas that are located in areas of persistent poverty, as identified by the U.S. Census Bureau, and/or are located within identified Housing and Revitalization Department Multi-Family Target Areas.

(3) Eligible activities include, but are not limited to, enforcement of this article, creation and preservation of affordable housing units, compliance with standards for accessible design and other activities under the Americans with Disabilities Act, 42 U.S.C. 12101, *et seq.* or similar state laws, administration and disbursement of grant funds for home repair, homelessness prevention, neighborhood revitalization, activities of a nonprofit corporation that develops and stewards affordable housing, and any other activities consistent with this article.

(4) The department shall provide the City Council, Planning and Development Department and the Law Department with reasonable opportunity to review and comment on the proposed guidelines before final implementation.

(5) City Council may select individuals with expertise in the creation and/or sustainability of affordable housing, or individuals directly impacted by or who reside in subsidized housing, to serve in an advisory capacity to City Council as part of its due diligence in considering recommendations from the department. These individuals may include representatives from a disability rights organization, fair housing experts, developers of extremely low income housing, an organization representing people experiencing homelessness, and/or affordable housing policy experts.

Sec. 14-12-8. Reporting requirements.

(a) The department shall prepare and

submit an annual report to the Mayor and the City Council that includes, at a minimum, the following information:

(1) The number of qualifying transactions presented to City Council in the preceding year.

City of Detroit
Brownfield Redevelopment Authority

July 6, 2017

Honorable City Council:

Re: Former Free Press Building Brownfield Redevelopment Plan — Amended.

On June 22, 2017 the Detroit Brownfield Redevelopment Authority (the "DBRA") submitted its packet requesting the scheduling of a public hearing as well as providing resolutions for the approval of the proposed Former Free Press Building Brownfield Plan (the "New Plan"). Subsequently, DBRA staff realized that while the New Plan always contemplated termination of a brownfield field plan previously approved for the eligible property (the "Prior Brownfield Plan") concurrently with the adoption of the New Plan by City Council, the previously submitted resolutions neglected to address the concurrent termination of the Prior Brownfield Plan.

Furthermore, the amendments to Act 381 of 1996 that took effect in April 2017, require that City Council take certain steps before terminating a brownfield plan. Before City Council may terminate a brownfield plan, Section 14(8)(b) of Act 381 of 1996, as amended, requires City Council to: (1) provide 30 days written notice to the developer at its last known address by certified mail or other method that documents proof of delivery attempted; and (2) provide the developer an opportunity to be heard at a public hearing.

In light of these new requirements, the DBRA is respectively proposing the following revised process and timeline for City Council's approval of the termination of the Prior Brownfield Plan and concurrent adoption of the Plan.

a.) June 27, 2017 — ***Request to Maintain this City Council Action***
City Council adopt for the scheduling of a public hearing for the New Plan, as approved by the Planning and Economic Development Standing Committee Chair and the City of Detroit Clerk, for July 13, 2017 at 10:20 AM in the Council Chambers, 13th Floor of the Coleman A. Young Municipal Center, Two Woodward Avenue, Detroit, Michigan.

b.) July 11, 2017 — ***Request New City Council Action***
City Council referral of the Resolution (Exhibit F), to the Planning and Economic Development Standing Committee authorizing the DBRA, on City Council's behalf, to send a notice to the developer of the Prior Brownfield Plan notifying the developer of City Council's intent to consider termination of the Prior Brownfield Plan on September 12, 2017.

c.) July 13, 2017, 10:15 AM — ***Request to Maintain this City Council Action***
Discussion with taxing jurisdictions regarding the fiscal impact of the New Plan.

d.) July 13, 2017 — ***Request New City Council Action***
City Council's Planning and Economic Development Standing Committee to review request authorizing the DBRA, on City Council's behalf, to send a notice to the developer of the Prior

Brownfield Plan notifying the developer of City Council's intent to consider termination of the Prior Brownfield Plan on September 12, 2017.

e.) July 13, 2017, 10:20 AM — ***Request to Maintain this City Council Action*** Public Hearing at City Council's Planning and Economic Development Standing Committee concerning New Plan.

f.) September 12, 2017 — ***Request New Date and Additional City Council Actions***
City Council to *provide an opportunity for public comment regarding the termination of the Prior Brownfield Plan, and adoption of the Resolution terminating the Prior Brownfield Plan,* and approving the New Plan (see, Replacement Exhibit E).

Sincerely,
JENNIFER KANALOS
Director of Board Administration

Department of Public Works Administration

June 21, 2017

Honorable City Council:

Re: Resolution to Support the Michigan Department of Transportation (MDOT) Issuance of Outdoor Cafe Permits on State Jurisdiction Roads within the city of Detroit.

MDOT is receiving applications from various food and drink establishments to obtain permits for installing outdoor cafes on state jurisdiction roads within the City of Detroit. If issued, the permits will allow

for cafes to be installed in front of, or adjacent to the respective establishments requesting the permits.

The following roads, wholly located in Detroit, are under the jurisdiction of MDOT:

- Woodward, Adams to 8 Mile Road
- Gratiot, Randolph to 8 Mile Road
- Randolph, Jefferson to Gratiot
- Michigan, Cass to Wyoming
- Fort, Griswold to Rouge River Bridge
- Jefferson, I-375 to Griswold
- Van Dyke, Gratiot to 8 Mile Road
- Gunston/Hoover/Groesbeck, Gratiot to 8 Mile Road
- Davison, Jeffries Freeway to Conant

This resolution, if approved by Your Honorable Body, shall serve as official notification to MDOT that the City of Detroit's Administrative and Legislative branches are supportive of the concept of outdoor cafes being implemented along state jurisdiction roads. This resolution shall not serve as final authorization for the issuance of café permits at any specific site or location, as the resolution recognizes that outdoor café permits on state roads can only be issued by MDOT.

This resolution acknowledges that individual outdoor café requests will require city review and approval from impacted agencies, before MDOT can proceed with issuance of approved permits. Approvals, at minimum, will be required from the Departments of Police, Public Works, and Housing & Revitalization. Approval from additional agencies such as Buildings & Safety Engineering may be required if structures are being constructed in conjunction with the café.

June 13, 2017

Honorable City Council:

Re: Petition No. 934 — Jones Lang LaSalle, request for an encroachment permit for the construction of a performance space downtown Detroit within the Dequindre Cut to honor past member of the DRFC Board.

Petition No. 934 – Jones Lang LaSalle

on behalf of Detroit Riverfront Conservancy (DRFC) request to install and maintain an encroachment consisting of a performance space including a pavilion and canopy within the Dequindre Cut in the area of East Lafayette Boulevard, 120 feet wide, Charbonneau Place, 70 feet wide, Orleans Street variable width and St. Aubin Avenue, 120 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made to provide a performance space in the Dequindre Cut, and will be named to honor a past member of the DRFC Board.

The Dequindre Cut Greenway was established as a public right-of-way under the jurisdiction of the Department of Public Works (DPW), and was approved by your Honorable Body on November 17, 2006, J.C.C. pages 3414-3424. A maintenance and use agreement with the DRFC was approved by your Honorable Body on December 11, 2006, J.C.C. pages 3553-3571.

The request was approved by the Solid Waste Division – DPW, and the Traffic Engineering Division – DPW. City Engineering – DPW approves of the request provided that the DRFC accepts maintenance responsibility for the existing bridge abutment that will be used as a structural support for the canopy. A provision for the abutment maintenance is a part of the attached resolution.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

The Public Lighting Department (PLD) reports involvement with underground facilities. PLD comments that due caution should be used during construction so as not to disturb the existing facilities. The area above PLD facilities is subject to future maintenance activities. Provisions for PLD have been a part of the resolution.

DTE Energy – Electric reports having an existing conduit run in the area and must retain access to work in and around their equipment and conduit run. Provisions protecting the DTE facilities have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
