**Detroit Brownfield  
Redevelopment Authority**

June 10, 2021

Honorable City Council:

Re: 112 Edmund Place Brownfield Redevelopment Plan.

The enclosed Brownfield Plan for the 112 Edmund Place Redevelopment Project (the "Plan") (Exhibit A), was submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") and to the Community Advisory Committee (the "CAC"). The Plan was considered and reviewed by the CAC at its May 26, 2021 meeting and a public hearing was held by the DBRA on June 3, 2021 to solicit public comments. The Committee's communication to the City Council and the DBRA, dated May 26, 2021 (Exhibit B), recommending approval of the Plan, including the excerpt of the minutes of the CAC meeting pertaining to the plan and the minutes the public hearing held by the DBRA, are enclosed for the City Council's consideration.

On June 9, 2021, the DBRA adopted a resolution (Exhibit C) approving the Plan and authorizing the submission of a copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

112 Edmund Place Associates, LLC is the project developer (the "Developer") for the Plan. The project consists of the construction of residential development expected to create a total of sixteen (16) new for-sale homes, four (4) of which will be ground level flat units and twelve (12) of which will be two-level townhomes (with roof top terraces) above the ground level flats. The project will include grade level integrated parking with approximately 16 parking spaces. The project features energy efficient design that significantly exceeds state energy code requirements saving as much as 15% over existing energy code as well as other green features such as bicycle storage and EV station prep.

The total hard costs are estimated to be \$7.5 million. The Developer is requesting \$921,917.00 in TIF reimbursement.

There will be approximately 160 temporary construction jobs and 0 permanent jobs are expected to be created by the project.

The eligible activities and budgeted costs are intended as part of the development of the Property and will be financed solely by the Developer. The Authority is not responsible for any costs of eligible activities and will incur no debt. The eligible activities are estimated to commence within 18 months of approval of the Plan and be completed within 3 years.

Tax Increment Financing (TIF) Capture

The Developer desires to be reimbursed for the costs of eligible activities. Tax increment revenue generated by the Property will be captured by the DBRA and used to reimburse the cost of the eligible activities completed on the Property after approval of this Plan pursuant to the terms of a Reimbursement Agreement with the DBRA.

Honorable City Council:

Re: Authorization to acquire nine (9) vacant parcels from the Detroit Land Bank Authority for a park expansion project in partnership with Detroit Audubon.

The City of Detroit ("City"), by and through the General Services Department/Parks and Recreation Division ("GSD"), is hereby requesting the authorization of your Honorable Body to acquire certain vacant parcels from the Detroit Land Bank Authority ("Acquisition Parcels") for a park expansion project in partnership with Detroit Audubon:

District 5 (9 parcels) — **Lifsitz Park**

In accordance with the requirements of Detroit City Code, Section 2-1-12, City Council is required to approve any gift, grant devise or bequest of real or personal property to be used for any public purpose. Pursuant to the Memorandum of Understanding ("MOU") between the City of Detroit and the Detroit Land Bank Authority, approved by the Detroit City Council in May 2020, the Detroit Land Bank Authority may not transfer ten or more parcels of property received from the City to the same transferee within any rolling 19-month period without the prior approval of the Mayor and City Council.

We hereby request that your Honorable Body approve the attached resolution authorizing the Detroit Land Bank Authority to transfer nine (9) vacant parcels to the Parks and Recreation Division for a park expansion project in partnership with Detroit Audubon.

Respectfully submitted,  
BRAD DICK  
Group Executive

By Council Member Tate:

Now, Therefore, Be It Resolved, That City of Detroit ("City") through the General Service Department ("GSD") wishes to acquire nine (9) vacant parcels within the City of Detroit, Michigan, more particularly described in the attached Exhibit A

("Acquisition Parcels") from the Detroit Land Bank Authority ("DLBA").

Whereas, Building, Safety, Engineering and Environmental Department has reviewed the environmental report on the environmental conditions of the Acquisition Parcels attached herein as Exhibit A; and

Whereas, In accordance with Chapter 2, Article I, Division 2 of the Detroit City Code: (1) the City Council finds that the Acquisition Parcels have received appropriate environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) the environmental inquiry has shown that past use of the Acquisition Parcels for the period investigated has been solely for residential purposes and that the Acquisition Parcels do not pose an adverse environmental impact, therefore none of the Acquisition Parcels are considered a facility; and (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and therefore waives the requirements that the seller bear the cost of the environmental inquiry; now therefore be it

Resolved, That Detroit City Council hereby approves acquisition of the Acquisition Parcels from the DLBA for no consideration; And Be It Further

Resolved, That the Director of GSD, or an authorized designee, is authorized to accept and record a deed to the Acquisition Parcels to the City of Detroit, as well as execute any such documents as may be necessary or convenient to the effect the transfer of the Acquisition Parcels from the DLBA to the City of Detroit; And Be It Further

Resolved, That the Director of GSD, or his authorized designee is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to correction of or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to the unforeseen circumstances or technical matters that may arise prior to the conveyance of the Acquisition Parcels to the City, provided that the changes do not materially alter the substance or terms of the transfer; And Be It Finally

On July 31, 2018, your Honorable Body adopted a resolution authorizing the sale by development agreement of 4010, 4018, 4022, 4034, 4042 and 4052 W. Vernor, Detroit, MI (collectively the "Properties") to IDRE2 LLC (the "Purchaser"), a Michigan limited liability company, for the purchase price of Fifty Thousand and 00/100 Dollars (\$50,000.00) to construct a mixed-use development with 52 residential units and 9,000 sq. ft. of retail/commercial space (the "Project").

Re: Neighborhood Enterprise Zone Certificate Application for a newly constructed 153-unit multi-family residential apartment building located at 320 Gratiot Avenue in the Gratiot Acquisition Partners Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the new construction of a 153-unit multi-family residential apartment building located at 320 Gratiot Avenue. This application corresponds to a qualified site that will facilitate the construction of the aforementioned 153-unit multi-family residential apartment building. The proposed project will create in total 153-rental units consisting of 78 studio apartments, 50 one-bedroom apartments, and 25 two-bedroom apartments, and is anticipated to be completed by the end of 2022.

The subject property has been confirmed as being within the boundaries of the Gratiot Acquisition Partners NEZ which was established by a vote of Council on September 22, 2020, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The estimated construction cost for this project is approximately \$314,426.12 per unit for an estimated total construction cost of \$48,107,196.36. The applicant Exchange Detroit LLC is seeking a 15-year tax abatement. The applicant has voluntarily entered into an affordability agreement with the City of Detroit requiring 20% of the units to be set aside at 80% of AMI. This agreement will result in approximately 16 studio apartments, 10 one-bedroom apartments, and 5 two-bedroom apartments being set aside as affordable units. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

**Human Resources Department  
Classification Compensation  
Administration**

June 22, 2021

Honorable City Council:  
Subject: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2021-2022 Official Compensation Schedule to include the following pay range, subject to City Council approval:

**Class Code**  
93-15-31

**Classification**

Manager of Media Production

**Salary Range**  
\$59,940-\$89,910

**Request:**

The above recommendation is at the request of Linda Vinyard, Director of Media Services Department.

**Rationale:**

The recommendation is based on the department's expressed need that this appointed position will ensure that video production processes run reliably and efficiently. The Manager of Media Production plan and organize the video production schedules, review each production request and access the required resources. This position also participates in the pre-production meetings with the requesters to create a focus, establish production timelines and review all final productions before airing and operations. The Manager of Media Production will also ensure that the department has the proper equipment necessary and required for successful productions.

To determine the appropriate salary range for the new classification, a market study was conducted using data from external survey sources that had comparable positions. Based upon the results. Classification and Compensation recommends a pay range of \$59,940-\$89,910. The proposed salary recommendation is subject to City Council approval.

**Property Assessment Board of Review**

June 18, 2021

Honorable City Council:

Re: Board of Review Report Update

This communication is a request to amend the current 2021 Homeowners Property Tax Assistance Program Guidelines, Policies and Procedures. It has been brought to our attention that the we are unable to limit or cap the Taxable

Value of applicants seeking an exemption of property taxes by reason of poverty in accordance with MCL 211.7u.

The City of Detroit is currently undergoing its Audit of Minimum Assessing Requirements (AMAR) with the State Tax Commission and after a review of the guidelines it was pointed out that this should be removed.

We ask that this honorable body adopt by resolution the amended guidelines.

Respectfully submitted,  
WILLIE C. DONWELL, MCAT  
Administrator

By Council Member Ayers:

**Office of the Chief Financial Officer  
Office of Budget**

July 9, 2021

Honorable City Council:

Re: Fiscal Year 2021-2022 Budget Amendment for June 2021 Rain Event Response.

As you know, we experienced an extraordinary rain event on June 26, 2021, far beyond the designed capacity of the com-

bined sewer system. The City of Detroit is committed to assisting residents affected by the storm. City departments are involved in the response, including debris removal, inspections, and preparing for a Presidential disaster declaration that would allow federal cost reimbursement from FEMA.

Next week, the City is starting a program to use authorized federal CDBG-CV funds to provide emergency basement cleaning and sanitizing service for our most vulnerable homeowners who meet the following criteria:

- Have a Homeowners Property Tax Assistance Program (HPTAP) poverty exemption; and
- Are over 65 years old or disabled or in a household with children 10 years old and under.

To support the City's overall response and protect the health, safety, and welfare of eligible households for the above program that may be unable to obtain assistance from available CDBG-CV funds, or other funds that may become available, prior to qualification or receipt of FEMA assistance, the OCFO-Office of Budget is requesting your approval to appropriate \$5 million from the General Fund unallocated fund balance and to appropriate any additional external funds that may be provided to the City for emergency and disaster response and mitigation related to the June 2021 Rain Event.

We respectfully request your approval of the attached resolution, with a waiver of reconsideration.

Respectfully submitted,  
STEVEN WATSON

Deputy CFO/Budget Director

By Council Member Ayers:

Whereas, Section 17(1) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that a deviation from the original general appropriations act shall not be made without amending the general appropriations act; and

Whereas, Section 8-210 of the 2012 Detroit City Charter authorizes that if during the fiscal year the Mayor advises the City Council that there are available for appropriation revenues in excess of those estimated in the budget, the City Council may make supplemental appropriations for the year up to the amount of the excess; and

Whereas, The City of Detroit experienced an extraordinary rain event on June 26, 2021, impacting both private and public property (the "June 2021 Rain Event"); and

Whereas, The Governor is requesting the President issue a disaster declaration related to the June 2021 Rain Event, which will allow FEMA assistance for eligible costs related to both private and public property; and

Whereas, The City wishes to protect the health, safety, and welfare of eligible households prior to qualification or receipt of FEMA assistance; and

Whereas, The City has identified up to \$2.5 million of CDBG-CV funds authorized for a limited term use for emergency basement cleaning and sanitizing services to eligible households impacted by the June 2021 Rain Event; and

Whereas, The State Legislature has proposed an appropriation of \$10 million for the purpose of emergency and disaster response and mitigation related to the June 2021 Rain Event; and

Whereas, The City will first use external funding for emergency and disaster response and mitigation related to the June 2021 Rain Event to limit the negative fiscal impact on the City budget and General Fund; and

Whereas, The City may need to use the General Fund for certain expenses that are not covered by external funding or pending receipt of such external funding; and

Whereas, The OCFO-Office of Budget projects a \$170.6 million General Fund ending fund balance for Fiscal Year 2020-2021, of which City Council has already appropriated \$163.3 million in the Fiscal Year 2021-2022 Budget, thus leaving \$7.3 million unallocated.

Now, Therefore, Be It Resolved, That the Detroit City Council hereby approves amending the Fiscal Year 2021-2022 Budget by appropriating \$5,000,000 from unallocated fund balance in the General Fund for Appropriation No. 20976 for the purpose of responding to the June 2021 Rain Event; And Be It Further

Resolved, That in order to maximize and expedite the use of future funding made available by other private, state, local, or federal sources for emergency and disaster response and mitigation related to the June 2021 Rain Event ("Response and Mitigation Funds"), such funds are hereby appropriated upon receipt or award without further approval by the City Council; provided further that the Chief Financial Officer, or their designee, may, without further approval by the City Council, execute any of the following actions on behalf of the City:

- 1) file an application, supplement, or amendment for Response and Mitigation Funds,
- 2) accept and appropriate Response and Mitigation Funds upon receipt or award; And Be It Further

Resolved, That the Chief Financial Officer, or their designee, shall report monthly to the City Council on any of the above actions taken; And Be It Finally

Resolved, That the Deputy CFO/Budget Director is hereby authorized and shall take all appropriate actions necessary to implement the foregoing provisions and actions authorized by this resolution.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, McCalister, Jr., Sheffield, Spivey, Tate, and President Jones — 8.

Nays — None.

## INTERNAL OPERATIONS STANDING COMMITTEE

### Mayor's Office

July 1, 2021

Honorable City Council:

It gives me great pleasure to submit my appointment of Julie Schneider as Director — Housing and Revitalization Department for the City of Detroit for your consideration.

As you are aware, Ms. Schneider has served as the City of Detroit's Housing and Revitalization Department's (HRD) Acting Director since February, following Donald Rencher's promotion from Director of HRD to Group Executive of Planning, Housing and Development. She has a decade of leadership experience with Detroit housing issues and stakeholders, as well as federal experience with the US Department of Housing and Urban Development (HUD).

Her professional accomplishments speak to her dedication and enthusiasm for expanding affordable housing options in Detroit. You may remember that Ms. Schneider partnered with Council in the development of the City's Inclusionary Housing Ordinance, and developed Detroit's first affordable housing plan ("Detroit Multifamily Affordable Housing Strategy and Preservation Action Plan"), which has resulted in the preservation of nearly 5,000 affordable units since April 2021, toward a goal of 10,000.

She has also proven adept in effective fundraising and delivery of actionable programs. Ms. Schneider's exploration of ways the City might leverage extensive public land ownership into new affordable home ownership options resulted in the Affordable Housing Leverage Fund, created and now managed by Ms. Schneider. As detailed on her resume, this fund has raised \$48 million to date, and closed three deals, with another seven deals in the pipeline, to preserve and create more than 300 units of affordable housing. Detroit's Down Payment Assistance Program, scheduled to kick off in Fall 2021, is also a result of her research and policy leadership.

During two years as Deputy Director of HRD, Ms. Schneider directed efforts securing \$30 million in philanthropic donations for affordable housing; reduced HUD fees owed by the City by more than \$6 million; and directed the 0% Interest Home Repair Loan program serving more than 500 households.

Most significantly, her leadership of an interdepartmental grant team resulted this month in a \$30 million federal "CHOICE"

award — the City’s first — for neighborhood redevelopment in the greater Corktown area.

I have no doubt she will continue to prove a tremendous asset to the City of Detroit as we advance neighborhood revitalization and investment by growing housing initiatives and investment.

Respectfully submitted,  
MICHAEL E. DUGGAN  
Mayor

By Council Member McCalister, Jr.:

Whereas, The Housing and Revitalization Department was created in accordance with Section 7-102 of the 2012 City Charter and is described in Section 140 of Division III of the Mayor’s Executive Organization Plan; and

Whereas, The Executive Organization Plan provides that the Mayor’s appointment of the Director of the Housing and Revitalization Department is subject to City Council’s approval; and

Whereas, The Honorable Mayor Michael E. Duggan submitted his appointment of Julie Schneider as permanent Director of the Housing and Revitalization Department of the City of Detroit to the Honorable Detroit City Council for consideration on July 7, 2021; and Now, Therefore, Be It

Resolved, That this Honorable Body hereby approves the appointment of Julie Schneider as permanent Director of the Housing and Revitalization Department of the City of Detroit.

Honorable City Council

Re: Request to Amend the Official Compensation Schedule

Recommendation is submitted to amend the 2021-2022 Official Compensation Schedule to include the following pay adjustment:

Class Code	Classification	Current Salary		Recommended Rate of Pay		Bargaining Unit	Step Code
		Min	Max	Min	Max		
01-31-62	Tele-communications Operator	\$24,704	\$32,575	\$30,207	\$36,342	1410 AFSCME	T

**Request:**

The above recommendation is at the request of Katrina Patillo, Director of Police Personnel.

**Rationale:**

The above request and recommendation is based on the ability to attract and retain essential personnel in the Communications Unit of the Police Department.

Telecommunications Operators provide critical services to the City's residents and business stakeholders by providing reporting services. 911 call overflow and making

State mandated Law Enforcement Information Network (LEIN) entries. The work of the Telecommunications Operators also ensures more efficient emergency response by providing an alternative means of citizen reporting that permits sworn officers to focus on emergency response. The work of a Telecommunication Operator is, consequently, fast-paced, high-stress, and often uncertain.

The current starting salary of \$24,704 for the Telecommunications Operator is 24% below Michigan's "poverty line". As a result, quality Telecommunications Operators are difficult to attract and even harder to retain. The average tenure of a Telecommunications Operator is three to five years. The unit is currently operating with only 22 of 53 budgeted positions, causing use of mandatory overtime, burn out, poor decision making, reporting accuracies, loss of productivity, and decreased morale.

The proposed salary is essential for recruitment and retention purposes and is based on the City of Detroit's ability to fund the increase. The proposed salary recommendation is subject to City Council approval.

Respectfully submitted,  
 DENISE STARR  
 Human Resources Director

By Council Member McCalister, Jr.:

Resolved, That the 2021-2022 Official Compensation Schedule is hereby amended to reflect the following pay adjustment, effective upon Council's approval.

Class Code	Classification	Current Salary		Recommended Rate of Pay		Bargaining Unit	Step Code
		Min	Max	Min	Max		
01-31-62	Tele-communications Operator	\$24,704	\$32,575	\$30,207	\$36,342	1410 AFSCME	T

Resolved, That the Finance Director is hereby authorized to honor payrolls and vouchers in accordance with this resolution, the above communication and standard City of Detroit practices.

Re: Request to Amend the Official Compensation Schedule

Recommendation is submitted to amend the 2021-2022 Official Compensation Schedule to include the following pay ranges, subject to City Council approval:

Class Code	Classification	Salary Range	Step Code
93-25-21	Deputy Secretary to the Board of Police Commissioners	\$73,300-\$117,300	K
93-25-22	Deputy Chief Investigator	\$73,300-\$117,300	K

**Request:**

The above recommendation is at the request of Melanie White, Interim Secretary to the Board of Police Commissioners.

**Rationale:**

The above request and recommendation is based on the department's expressed need to expand the Board's Staff Administration to create executive continuity within the department. These two (2) positions will serve as the Board's Deputy Administrative Personnel to assist with the day-to-day functions of the Board's Administrative Office and the Office of the Chief Investigator to ensure that all federal, state, local laws, regulations, and industry standards and guidelines are being met regarding the Board's charter-mandated authority and supervisory oversight best practices. These include and are not limited to the implementation of the following:

- An official training system for all new Board, Staff Personnel, and existing members.
- The development of an internal Board standard operating procedures, policy, risk management, and supervisory oversight procedures.
- Implementing an overall organizational environment for achieving the Board’s strategic supervisory oversight goals and objectives.

These Administrative positions will be integral within the BOPC for creating emergency response preparedness, administrative and training goals as well as ensuring compliance with all applicable oversight regulations and requirements.

To determine the appropriate salary range for the new classification, a market study was conducted using data from external survey sources. The proposed salary recommendation is subject to City Council approval.

Respectfully submitted,  
DONALD RENCHER  
Director

By Council Member Tate:

Whereas, Basco of Michigan Inc. has filed with the City Clerk an Application for a Commercial Property Rehabilitation Exemption Certificate, under Public Act 210 of 2005 (“the Act”) in City of Detroit Commercial Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on October 9, 2018 established by Resolution a Commercial Property Rehabilitation District in the area bounded by Michigan Avenue, Park Avenue, Washington Avenue and Woodward Avenue, Detroit, Michigan, after a Public Hearing held, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 210 of 2005 does not exceed 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for Commercial property as that term is defined in Section 2(a) of the Act, which property is owned by the Applicant; and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Commercial Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Commercial Property Rehabilitation District and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by the Act; and

Whereas, This City Council has granted until of August 1, 2019 for the completion of the rehabilitation; and

Whereas, On October 25, 2018, in the City Council Committee Room, 13th Floor, Coleman A. Resolved, That it is hereby found and determined that the granting of a Commercial Property Rehabilitation Exemption Certificate, considered together with the taxable value of Commercial Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax with the City of Detroit; And Be It Further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; And Be It Further

Resolved, That the application of Basco of Michigan Inc., for a Commercial Property Rehabilitation Exemption Certificate, in the City of Detroit Commercial Property Rehabilitation District is hereby approved for a period of Ten (10) years from completion of the facility, with the certificate beginning December 31, 2018 and the certificate expiring December 31, 2028, in accordance with the provisions of the Act; And Be It Finally

July 6, 2021

Honorable City Council:

Re: Amended Sales Resolution - Surplus Property Sale by Development Agreement Midtown West Project.

On November 20, 2018, your Honorable Body adopted a resolution authorizing the sale by development agreement of 831 and 931 Selden and 830 and 960 Brainard, Detroit, MI (collectively the "Properties") to PDH Development Group LLC ("PDH"), a Michigan limited liability company, for the purchase price of One Million Eight Hundred Thousand and 00/100 Dollars (\$1,800,000.00) (the "Purchase Price") to construct four development sites on the Properties in two Phases with an investment of just over \$70 million (the "Project"). Phase 1, to be constructed on 831 and 931 Selden, was to include: 1) a for-rent, mixed-income residential development with on-site parking and retail space and 2) a for-sale residential development with on-site parking and retail space. Phase 2, to be constructed on 830 and 960 Brainard, was to include two separate for-sale residential developments, each with separate on-site parking.

On July 29, 2019, the City closed on the sale of 831 Selden and construction of this Phase 1 development site is expected to finish this Summer 2021.

Due to Project financing constraints, PDH and the Planning & Development Department ("P&DD") have agreed to restructure the Project phasing to extend construction timelines and reduce the total Project investment to \$58 million. For Phase 1, the 931 Selden development site has been split into two separate projects with a 1.18 acre por-

tion known as 3701 Fourth to include approximately 60 rental units and 1,000 square feet of retail space and the remaining .98 acre portion retaining the 931 Selden address to include approximately 80 rental units and 1,000 square feet of retail space. For Phase 2, 960 Brainard will be removed from the sale. The Purchase Price will be reduced to One Million Three Hundred Sixty One Thousand One Hundred Seventeen and 00/100 Dollars (\$1,361,117.00) to reflect the removal of 960 Brainard.

In support of continuing the Project, we hereby request that your Honorable Body adopt the attached resolution that: 1) removes 960 Brainard from the sale, 2) reduces the Purchase Price and 3) allows for an amendment to the development agreement to reflect revised Project phasing construction timelines and development plans.

Respectfully submitted,  
KATHARINE G. TRUDEAU

**Mayor's Office**  
July 8, 20201

Honorable City Council:

It gives me great pleasure to submit my appointment of Antoine Bryant as Director-Planning and Development Department for the City of Detroit for your consideration.

Mr. Bryant has more than 25 years of national experience with urban planning and architecture in nonprofit, private, and public sectors. In that time, he has distinguished himself by directing his design focus on under-served communities, and has built a national reputation for community-led engagement in urban design.

Mr. Bryant comes to Detroit from Houston, Texas, where he served most recently as the first Business Development Director and Project Manager with the architecture firm of Moody Nolan. For the past 10 years he also has served on the City of Houston's Planning Commission.

In his current position and throughout his career, Mr. Bryant has made attention to underserved urban neighborhoods and community engagement a driving force in his design work from Atlanta to California, as detailed in his resume. He also has extensive familiarity with and a deep-rooted respect for Detroit and its residents. Throughout his career, Detroit has been both a destination for professional travel and study as well as pleasure. He holds respected leadership positions in professional associations that set the standards for architecture, urban design, and planning, including the National Organization of Minority Architects (NOMA), where he currently serves as National Director of Strategic Partnerships.

I am confident that his experience as one of the nation's leaders in community-led urban design and planning will be an enormous asset to the City of Detroit as we advance neighborhood revitalization efforts and investment programs like the Strategic Neighborhood Fund, the American Rescue Plan, and many others.

Subject: Request to Amend the Official Compensation Schedule.

Request to amend the 2021-2022 Official Compensation Schedule to include the following pay range, subject to City Council approval:

<u>Class Code</u>	<u>Classification</u>	<u>Salary Range</u>
61-90-25	Environmental Technician	\$24,960 - \$31,200

**Request:**

The above recommendation is occasioned by a request from Sandra Stahl, Deputy Director — Strategy & Planning, General Services Department.

**Rationale:**

The above request and recommendation is based on the ability to attract and retain essential personnel in the General Services Department.

The Environmental Technician title is needed for the Skills 4 Life program. Participants of this American Rescue Plan Act (ARPA) — funded workforce development program will be hired into this title. Environmental Technicians will perform a variety of grounds maintenance, construction, and property maintenance work.

To determine the appropriate salary range for the new classification, a market study was conducted using data from external survey sources that had comparable positions. Based upon the results, Classification and Compensation recommends a pay

range of \$24,960-\$31,200 The proposed salary recommendation is subject to City Council approval.

Respectfully submitted,

Request to amend the 2021-2022 Official Compensation Schedule to include the following pay range, subject to City Council approval:

012078	Head Clerk Municipal Parking	\$42,631	\$46,019	\$42,021	\$53,278	9000	A

**Request:**

The above recommendation is at the request of Raquiba Dismuke, HR — Employee Services Manager.

**Rationale:**

The above request and recommendation is based on the ability to attract and retain essential personnel in the Elections Commission and Municipal Parking Department.

The Principal Clerk position, during negotiations, received an increase in pay which now pays more than the Head Clerk position to which they report to. When negotiations were going on for the union title of Principal Clerk, the higher title of Head Clerk should have also been reviewed. Now the Principal Clerks are making more than the Head Clerk and departments are having issues.

The proposed salary is essential for recruitment and retention purposes and is based on the City of Detroit's ability to fund the increase. The proposed salary recommendation is subject to City Council approval.

#### 10. MOU — RE: Attendance Incentive Bonus — DDOT and AFSCME Local 214

##### Objective

The purpose of the Attendance Incentive Program is to reduce absenteeism, reward and encourage exceptional attendance. Achieving this goal, will help the City of Detroit to provide exceptional service to its internal and external customers.

##### Program Summary

This attendance incentive bonus is only available to full-time DDOT, AFSCME Local — 214 members. To receive this bonus an employee must achieve perfect attendance for the fiscal year. This means he/she must have no unscheduled, unexcused absences from July 1st-June 30th to be eligible to receive this bonus. All absences must be scheduled in advance and/or excused. The provisions of this program are as follows:

1. Beginning on July 1, 2021 eligible members will earn an additional 1% annual bonus (one-time payout) for accomplishing perfect attendance in the previous year.
2. The bonus will be paid the 1st pay period in August for each year of the contract.
3. The success of this program will be evaluated each year of the contract to determine its effectiveness in achieving attendance objectives.

\*This program may be revised or revoked at any time by the City of Detroit with prior notice to employees and the Union.

##### Ineligible

The following employees are ineligible to participate in the attendance incentive program:

1. Employees in salaried classifications are not eligible.
2. Employees who terminate employment before the incentive is paid forfeit their incentive payment.

##### Scheduled vs. Unscheduled Absences

The goal of the Attendance Incentive Program is to encourage employees to plan their time off so that managers can schedule work and provide service. If an employee submits a written request within 48 hours and the manager approves it before the employee takes a vacation, holiday, department leave time, then it is considered a scheduled absence and does not count against the attendance incentive.

The offer to participate in this program is contingent to the acceptance and ratification of all other articles, MOUs and addendums in this agreement and supersedes all attendance programs currently in place.

#### 11. MOU — Re: Increased Management Discretion in Filling All Local 214 Positions

After ratification and City Council approval of this Addendum, DDOT Management will have complete discretion to establish hiring criteria and processes to fill TSW positions. All current active TSWs are grandfathered for 1 year. A grandfathered TSW may receive a one-time offer to accept a promotional opportunity in accordance with previously established promotional standards within the first year of this agreement. If the offer is declined, he/she will be held to the newly established provisions of this MOU.

All other Local 214 positions including, but not limited to the Senior Transit Service Inspector, Transportation Terminal Supervisor and Transportation Emergency Dispatcher will be filled in accordance with Article 15 of the AFSCME Council 25 Non-Supervisory Master Agreement.

- Local 214 members will apply for bargaining unit positions that are posted by the Human Resources Department. All applicants must meet the minimum qualifications of the position to be considered.

- A registry will be established for Local 214 members for openings in respective bargaining unit classifications.

- To be placed on the registry applicants must meet the minimal qualifications of the position as determined by the Human Resources Department. Successfully complete an in person interview with the Department and pass a test. Once an applicant is placed on the registry, he/she will be ranked and weighed 50% for test score, 25% for seniority and 25% for bargaining unit experience.

- The "Rule of 3" will apply and management will have full discretion to select 1 of the top 3 candidates.

#### 12. MOU — Re: AFSCME Local 214 and Local 312 Attendance Guidelines

The focus of this Addendum is to ensure that DDOT continues to provide the public with transportation service that is the hallmark of the industry. It is our collective goal to ensure that each rider experiences a reliable, clean and safe coach service that is on time.

Understanding that proper staffing is a key component in accomplishing this goal, we mutually agree that absenteeism negatively impacts service and imposes a burden on the employees who are at work. Unplanned absences in excess also has a dire impact on the public who rely on our services to get them safely to their destination.

The Attendance Guidelines is intended to encourage "absenteeism be pre-excused" so that consistent staffing is achieved and shall be implemented as follows:

Effective July 1, 2021

i. All Supervisors shall maintain accurate attendance records and ensure that proper coding is placed in the time-keeping systems.

ii. Each Month, a report will be generated that publishes the hours of each employee for the past rolling 12 months.

iii. Employees who incur non-planned time off shall be addressed in accordance with the program. Upon 24 hours of lost time, employees will be forewarned and reminded of the importance of not only reporting to work but on time, as riders are heavily depended upon them to get them to their destination.

iv. At Step 2, employees who have missed 48 or more hours of un-excused time off shall receive a Written Warning and Attendance Review. Continued unexcused time off as outlined below will result in additional progressive disciplinary action.

a. Un-excused time off is defined as unapproved, non FMLA time off, irrespective of any banked time used for compensation

b. Step 2. Written Warning and Attendance Review is designed for the employee and Supervisor to review the attendance record for accuracy.

c. Attendance Guidelines for a rolling 12 month

<u>Hours</u>	<u>Steps</u>	<u>Assessment</u>
0-23	No Step	No Action
24 Hours	Step 1	Oral Reminder Letter
48 Hours	Step 2	Attendance Review with supervisor and Union steward 1 and issued a Written Warning
56 Hours	Step 3	3-day suspension (non-working)
64 hours	Step 4	14-day suspension
82 hours	Step 5	29-day suspension and last chance agreement
90 hours	Step 6	Termination

d. Two tardy occurrences per month shall count as one absence.

e. All hours are cumulative in a rolling 12 months. Each time an employee triggers a Step, a review of the past 12 months will occur and the appropriate discipline will be issued.

f. Oral Reminders are not required prior to receiving a Written Warning if the employee has accumulated 48 hours of time off prior to being issued the Oral Reminder.

**13. MOU — RE: Fare Box Revenue Sharing Incentive**

The fare box revenue sharing program shall be expanded to include ASFCME Local 312 and 214. The city will provide annually for the life of this CBA, on the first pay day in September, up to \$750.00 to be paid to all qualified bargaining unit members.

This bonus payment is contingent upon Fare Box revenue annually resulting in the established target for the year. If the target is not met a partial payment will be made equivalent to the percentage of the target reached in total revenue. The max payment will be \$750.00 even if the revenue exceeds the target.

**Eligibility**

Qualified bargaining unit members are those who are not probationary and have served at least six (6) months during the fiscal year. The bonus will be paid to active employees who a member of the bargaining unit on the last day of the fiscal year (June 30th) and are still employed by the Detroit Department of Transportation.

The annual target will be established by July 1 of the review period

(2) Attack dogs shall not be carried in any patrol vehicle during patrol operations.

(3) During vehicle patrol operations, patrol members shall remain in their vehicles, except while performing Good Samaritan acts, or where exit from the vehicle is necessary to protect or defend other persons against the threat of immediate bodily harm, provided, that this subsection does not impose a duty on patrol members to leave their vehicles under any circumstances.

(4) While on patrol, members shall not conduct interrogations of persons suspected of criminal activity.

(5) No patrol member shall attempt, during patrol operations, to make any citizen's arrest except in the course of protecting or defending other persons against the threat of immediate bodily harm, provided, that this subsection shall not be construed to impose a duty on patrol members to make a citizen's arrest under any circumstances.

(2) Patrols shall secure from any member who has such member's radio, or bicycle, repaired or upgraded in whole or in part with City assistance funds pursuant to this article an agreement that, if such member should cease to be an active patrol member for any reason within a three-month period following the completion of repairs or upgrading, such member shall be liable to the patrol for the City's share of the repair or upgrade costs;

(3) Any patrol, which ceases active patrol operations or is dissolved after receiving City assistance, shall deliver possession of any equipment purchased in whole or in part with City assistance funds to the administering agency or an agency designated by the administering agency to dispose of such equipment; and

(4) Any equipment purchased with City assistance funds, which is determined by a patrol to be unserviceable, may be sold by the City for fair market value. The proceeds of any such sale shall be used to purchase new citizen radios and equipment reasonably necessary for patrol operations.

(k) *Additional conditions.* Patrols shall be subject to such additional eligibility conditions by the administering agency as circumstances warrant.

(l) *Applications for assistance and keeping records.*

(1) Patrols shall provide all requested information with applications for assistance. Any deliberate falsification of material information shall result in automatic termination of assistance and ineligibility for future assistance;

(2) Patrols shall maintain records to support information contained in their applications for assistance and to account for the use and disposition of equipment purchased, repaired, or upgraded in whole or in part with City assistance funds; and

(3) Patrols shall provide, when initially applying for assistance and annually at the beginning of each fiscal year, a report to the administering agency, which delineates all radio equipment in their possession, that was bought with City assistance funds and that was obtained from other sources.

**CHAPTER 8. BUILDING CONSTRUCTION AND PROPERTY MAINTENANCE  
 ARTICLE XV. PROPERTY MAINTENANCE CODE  
 DIVISION 4. PROPERTY MAINTENANCE REQUIREMENTS  
 Subdivision C. Registration of Waterbody Barriers**

**Sec. 8-15-521. Purpose.**

The purpose of this subdivision is to enhance the health, safety and general welfare of the public and protect our natural resources by requiring property owners to obtain and maintain a Certificate of Registration of Waterbody Barrier. These regulations facilitate preventative maintenance planning and regular inspections to reduce the occurrence at waterbody barrier compromise or failure, as well as protocols to guide appropriate emergency response activities. Further, climate change poses a serious threat to the economic well-being, public health, natural resources, and infrastructure in the City. Identifying waterbody barriers and monitoring their structural integrity to identify potential issues prior to catastrophic failures will protect the health and safety of the public, reduce negative impacts on the environment, protect against the additional stress of climate change on City Infrastructure, and preserve the stability of our drinking water supply.

P&DD is in receipt of an offer from Williams Park Alliance, Inc., a Michigan Nonprofit Corporation ("Purchaser") to purchase the above-captioned property for the amount of \$9,680.00 and to develop such property. This property consists of vacant land and a structure in need of significant repair, situated on an area measuring approximately 53,000 square feet (1.2 acre), all zoned R1 (Single Family Residential District).

The Purchaser proposes to develop the property for outdoor recreational use. Such use is conditional in a R1 zone. Prior to the closing and confirmation of the sale, Purchaser shall obtain a confirmation letter from the Building and Safety Engineering Environmental Department ("BSEED"), indicating that the Purchaser's intended use is permitted within the Property's zoning district, or have the property rezoned. Purchaser's proposed use of the Property shall be consistent with the allowable uses for which it is zoned.

Pursuant to Sec. 2-7-3 of the 2019 Detroit City Code, it is hereby requested by the Finance Department that Detroit City Council approve the transfer of jurisdiction of the Property to the Planning and Development Department.

Additionally, we request that your Honorable Body adopt the attached resolution and authorize the Director of the Planning and Development Department, or his or her authorized designee, to execute a quit claim deed and such other documents as may be necessary or convenient to effect a transfer of the property by the City to Williams Park Alliance, Inc.

**Planning and  
Development Department**

July 9, 2021

Honorable City Council:

Re: Approval of Property Transfer between the City of Detroit and the Detroit Land Bank Authority.

Pursuant to the Land Bank Fast Track Act, 2003 PA 258, MCL 124.751 to 124.774 (Land Bank Act), the Detroit Land Bank Authority ("DLBA") was created as a separate legal entity, in order to assemble or dispose of public property in a coordinated manner, to foster the development of that property, to promote economic growth in the City of Detroit and to combat blight.

The Detroit Land Bank Authority has implemented a range of policies to provide for the disposition of the properties that it acquires, including sales to owner occupants, sales of side lots and auctions of properties.

In 2014, your Honorable Body initially authorized the transfer of 16,399 properties from the City to the DLBA for the purposes stated. The last such transfer was approved by your Honorable Body November 17, 2020, at which time 1,225 properties were transferred by the City to the DLBA.

As the City and DLBA continually acquire property through various means, a periodic transfer of properties between the City of Detroit and the DLBA is necessary for both entities to conduct land strategies efficiently and effectively.

At this time, the City and DLBA have identified 118 properties in the City's inventory that are best managed under the DLBA's disposition programs ("City Transfer Properties").

Additionally, the City has identified 17 properties that we wish to acquire from the DLBA ("DLBA Transfer Properties") for:

(1) **Hancock and Jeffries** — inclusion with other city owned properties in that area, as part of a transitional housing project proposed by Pope Francis Center currently under discussion.

(2) **7115 W. McNichols** — inclusion with adjacent City owned properties at 7105, 7113, 7117 and 7121 W. McNichols, to consolidate ownership in consideration of a proposed property sale to the current small business occupant.

(3) **4232 Chene** — inclusion with adjacent City owned properties at 4222, 4228 and 4232 Chene, as part of a larger land assembly effort in support of ongoing Eastern Market planning efforts, and

(4) **7793 Epworth** — inclusion with adjacent city owned properties at 7757 thru 8000 Epworth, in the hopes of attracting a future industrial development.

We hereby respectfully request that your Honorable Body adopt the attached resolution that authorizes the Planning and Development Department Director, or his/her authorized designee, to transfer the City Transfer Properties, as listed in the attached Exhibit A, to the Detroit Land Bank Authority, a Michigan public body corporate for no consideration.

We further, request that your Honorable Body authorize the City to acquire the DLBA Transfer Properties, as listed in the attached Exhibit B, from the Detroit Land Bank, a Michigan public body corporate, for no consideration.

Respectfully submitted,  
KATHARINE G. TRUDEAU  
Deputy Director  
Planning and Development Department

By Council Member Tate:

Now, Therefore, Be It Resolved, That Detroit City Council hereby approves the transfer of those properties ("City Transfer Properties"), listed in the attached Exhibit A, from the City of Detroit to the Detroit Land Bank, a Michigan public body corporate, for no consideration; And Be It Further

Resolved, That in accordance with the foregoing, the P&DD Director, or his/her authorized designee, be and is hereby authorized to convey all of the City's right, title and interest of the properties, listed in the attached Exhibit A, by one or more multiple quitclaim deeds, as well as execute any such other documents as may be necessary to effectuate transfer of the properties from the City of Detroit to the Detroit Land Bank; And Be It Further

Resolved, That the P&DD Director, or his/her authorized designee, retains the discretion to withhold transferring some property described in the Exhibit A to the Detroit Land Bank; And Be It Further

Resolved, That Detroit City Council hereby approves acquisition of those properties ("DLBA Transfer Properties"), listed in the attached Exhibit B, from the Detroit Land Bank, a Michigan public body corporate for no consideration, provided that prior to any such acquisition, the City conduct an environmental inquiry of the DLBA Transfer Properties and, if required, an environmental assessment, to be reviewed by the Building, Safety Engineering and Environmental Department; And Be It Further

Resolved, That Detroit City Council finds and declares that (1) acquisition of the DLBA Transfer Properties is necessary to promote the health, safety and welfare of the public and (2) that the preservation of the public health safety and welfare outweighs the cost of the environmental inquiry and assessment, and therefore, waives the requirement that the seller bear the cost of the environmental inquiry and assessment for the DLBA Transfer Properties; And Be It Further

Resolved, That in accordance with the foregoing, the P&DD Director, or his/her authorized designee, be and is hereby authorized to accept and record deeds to the City of Detroit for the properties, listed in the attached Exhibit B, as well as execute any such other documents as may be necessary to effectuate transfer of the properties from the Detroit Land Bank to the City of Detroit; And Be It Further

Resolved, That the City may transfer any or all of the City Transfer Properties and/or the DLBA Transfer Properties at any time to the DLBA for no consideration, in order for the DLBA to provide expedited title clearances for such properties at a service fee of \$1,000 per property to the DLBA for such services. Further, the City is hereby authorized to accept of such properties back from the DLBA for no consideration following the DLBA's completion of such title clearances; And Be It Further

Resolved, That the P&DD Director, or his/her authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deeds (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the properties, provided that the changes do not materially alter the substance or terms of the transfers or sales; And Be It Finally

Resolved, That the quit claim deeds will be considered confirmed when executed by the P&DD Director, or his/her authorized designee, and approved by the Corporation Counsel as to form.

See attached Exhibit A and Exhibit B.

*A waiver of reconsideration is requested.*

Honorable City Council:

Re: Sale of Wayne County Tax Foreclosed Non-owner Occupied Homes.

Under the General Property Tax Act (1893 PA 206) (the “Act”), the City of Detroit (“City”) has an annual right of refusal to acquire tax foreclosed property from Wayne County (“County”) upon payment of a minimum bid determined by the County pursuant to the Act. Such right of refusal allows the City to acquire tax foreclosed properties prior to any sale by the County through auction.

In 2017, the City instituted a pilot program to help stabilize Detroit neighborhoods by providing assistance to those who found themselves occupying a tax foreclosed home (the “Program”). Under the Program, the City acquires certain residential properties that are subject to foreclosure and that are occupied by qualified Program participants who are vetted by the United Community Housing Coalition (“UHC”). The City then transfers such residential properties to UHC for potential transfer to the Program participants.

From 2017-2019, 1,157 properties have been purchased as a result of the Program. 985 participants have paid in full and completed the Program. Due to the pandemic, UHC has been flexible and extended payback periods with the remaining participants who have faced financial hardship.

The success of the Program has helped occupants remain in their homes and worked to stabilize the surrounding community by eliminating the potential for further blight in the respective neighborhoods. Administration of the Program by

UHC has been supported by philanthropic funding and assistance from the Rocket Community Fund, City of Detroit, United Way for SE Michigan, Ford Foundation, JP Morgan Chase and others.

UHC is a Michigan nonprofit corporation that specializes in homeless prevention and has worked with the City in the past through Community Development Block Grant (CDBG) and Emergency Solutions Grant (ESG) funding programs to provide tenants with eviction and other landlord/tenant related assistance, homeless individuals/families with housing assistance and homeowners with mortgage, tax foreclosure and other housing support. UHC provides housing assistance at all stages, however its programs are particularly aimed at preventing low income households from losing their homes by eviction or foreclosure.

To qualify for the Program, residents must either be renters, victims of property scams, those with solvable probate issues or those who would have qualified for property tax reductions as verified by the City Assessor. The Program requires participants to sign a statement of commitment to purchase the home for the price paid by the City to Wayne County plus UHC administrative costs, pay \$500.00 into escrow with UHC, pass a police clearance to determine if they were a problem in the neighborhood and agree to a home inspection by UHC. The Program also has a zero percent (0%) interest 12-18 month land contract option for those participants unable to meet the purchase price requirements. Those seeking the land contract option must also pay a monthly amount to a non-interest bearing escrow account for property taxes and home repairs. Monthly payment amounts are affordable to each household.

For 2021, the City wishes to capitalize on the success of the Program by transferring to UCHC additional tax foreclosed residential properties acquired by the City under its 2021 right of refusal. UCHC will purchase the properties from the City at the City's acquisition cost, with funding support provided its partners.

At or around the end of July 2021, UCHC will provide the City with a list of residential Program properties (the "Properties") that the City will acquire from the County under its 2021 right of refusal. The City and UCHC will close in escrow for such Properties, with the sales price being the amount of funds required by the County for the City to acquire the Properties under the right of refusal ("Offer Price"). The City will be allowed, pursuant to an escrow agreement, to release UCHC's purchase money from escrow for purposes of paying the Offer Price to acquire the Properties from the County. Upon transfer of title from the County to the City, the City's deeds for the Properties will be released from escrow to UCHC.

The attached resolution includes a full list of all the properties available to the City from the County – from which UCHC will select specific Properties for the Program. It is anticipated that Wayne County may only foreclose on a small number of occupied residential properties in 2021. As such, UCHC may acquire a substantially lower number of occupied residential tax foreclosed properties for the Program this year.

We, therefore, respectfully request that your Honorable Body adopt the attached resolution that: 1) authorizes the City to transfer the Properties to UCHC for the Offer Price listed in Exhibit A to the resolution, 2) authorizes the City to utilize the purchase money from UCHC to acquire the Properties from the County under the City's 2021 right of refusal and 3) authorizes the City to acquire the Properties.

Respectfully submitted,  
KATHERINE G. TRUDEAU  
Deputy Director

By Council Member Tate:

Whereas, In accordance with the foregoing communication and in furtherance of the City of Detroit's initiatives to help stabilize neighborhoods and combat blight, the City of Detroit ("City") wishes to transfer certain occupied foreclosed homes acquired from Wayne County ("County") through the City's 2021 right of refusal (the "Properties") to the United Community Housing Coalition ("UCHC"), a Michigan nonprofit corporation; and

Whereas, UCHC will then transfer the Properties to current occupants that qualify under UCHC's program to help stabilize Detroit neighborhoods by providing assistance to those who found themselves occupying a tax foreclosed home (the "Program"); and

Whereas, Attached hereto in Exhibit A is a comprehensive list of all real property available to the City under the 2021 right of refusal (the "2021 ROR List") that includes the acquisition cost to the City for each respective property labeled as "Offer Price"; and

Whereas, UCHC will provide the City with a list of the residential Properties chosen from the 2021 ROR List that UCHC wishes to acquire from the City in furtherance of the Program; Now Therefore Be It

Resolved, The City is hereby authorized to sell any and all Properties to UCHC for the purchase price identified as "Offer Price" in such 2021 ROR List, in support of eliminating blight and stabilizing neighborhoods in the City of Detroit; And Be It Further

Resolved, That conveyance of the Properties to UCHC may be on multiple quit claim deeds that shall each reflect the Purchase Price for the portion of Properties conveyed in the respective quit claim deed; And Be It Further

Resolved, That the Director of the Planning and Development Department ("P&DD"), or his/her authorized designee, is authorized to execute quit claim deeds to the Properties, as well as execute such other documents as may be necessary or convenient to effect the transfer of the Properties to UCHC consistent with this resolution; And Be It Further

Resolved, That sale of the Properties to UCHC may close in escrow prior to the City's acquisition of the Properties from the County; And Be It Further

Resolved, That the City is hereby authorized to acquire the Properties from the County; And Be It Further

Resolved, That the City may utilize the purchase money from UCHC that is held in escrow to acquire the Properties from the County; And Be It Finally

Resolved, That the P&DD Director, or his/her authorized designee, be and is hereby authorized to execute any required instruments to make or incorporate technical amendments or changes to the deeds and such other documents as may be necessary to effectuate the sale (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Properties, provided that the changes do not materially alter the substance or terms of the transfer and sale.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, McCalister, Jr., Sheffield, Tate, and President Jones — 7.

Honorable City Council:

Re: Acquisition of Wayne County Tax Foreclosed Properties Right of Refusal 2021.

Under the General Property Tax Act (1893 PA 206) (the "Act"), the City of Detroit ("City") has an annual right of refusal to acquire tax foreclosed property from Wayne County (the "County") upon payment of a minimum bid as determined by the County pursuant to the Act ("Purchase Price"). Such right of refusal allows the City to acquire tax foreclosed properties prior to any sale by the County through auction.

Based on the City's review of the properties available from the County, the City has identified certain properties that we wish to acquire (the "ROR Properties") for the purposes of stabilizing communities and curtailing the potential for further blight in the City of Detroit. Provided with the attached resolution is a list of the ROR Properties that includes a total Purchase Price. Funding for this proposed acquisition was included in the Housing & Revitalization Department budget approved by your Honorable Body for this current 2021-2022 Fiscal Year.

We hereby respectfully request that your Honorable Body adopt the attached resolution that authorizes the City to acquire the ROR Properties from the County for the Purchase Price.

Respectfully submitted,  
KATHERINE G. TRUDEAU  
Deputy Director

Planning & Development Department  
JULIE SCHNEIDER

Deputy Director/Acting Director

By Council Member Tate:

Whereas, The General Property Tax Act (1893 PA 206) (the "Act") allows the City of Detroit ("City") an annual right of refusal to acquire tax foreclosed property from Wayne County (the "County") upon the City's payment of a minimum bid or market value as determined by the County pursuant to the Act; and

Whereas, The County has provided the City with a 2021 list of available properties that is updated by the County from time to time (the "2021 ROR List"); and

Whereas, The City has budgeted Seven Hundred Twelve Thousand Four Hundred Seventy Four and 00/100 Dol-

lars (\$712,474.00) in funding in the Housing & Development Department's Appropriation No. 26360 for use by the City in acquiring properties from the County under the aforementioned right of refusal (the "Acquisition Funds"); and

Whereas, Attached hereto in Exhibit A is a list of the properties that the City wishes to acquire (the "2021 ROR Properties") through its right of refusal for the purchase price stated by Wayne County for each respective property on the list (the "Purchase Price"); now therefore be it

Resolved, That Detroit City Council hereby approves acquisition of the 2021 ROR Properties from the County in exchange for the City's payment of the Purchase Price; And Be It Further

Resolved, That Detroit City Council finds and declares that acquisition of the 2021 ROR Properties is necessary to preserve and promote the public health, safety and welfare of the City of Detroit, therefore the City Council hereby approves of the acquisition of the 2021 ROR Properties without any further contingent requirements; And Be It Further

Resolved, That the Purchase Price shall be paid by the City with funds from Appropriation No. 26360; And Be It Further

Resolved, That in the event the County modifies the 2021 ROR List prior to July 30, 2021 by either adding or removing properties from such list, then the Planning & Development Department ("P&DD") Director, or his/her authorized designee, may modify the final 2021 ROR Properties by either adding or removing properties in the sole discretion of the P&DD Director, or his/her authorized designee, provided that the total Purchase Price does not exceed the Acquisition Funds amount; And Be It Further

Resolved, That in accordance with the foregoing, the P&DD Director, or his/her authorized designee, be and is hereby authorized to accept and record deeds to the City of Detroit for the 2021 ROR Properties, as modified, as well as execute any such other documents as may be necessary to effectuate transfer of the 2021 ROR Properties from the County to the City of Detroit for the Purchase Price; and

Be It Finally Resolved, That the Office of the Chief Financial Officer is hereby authorized to increase the necessary accounts and honor expenditures and vouchers when presented in accordance with the foregoing communication and standard City procedures.

Honorable City Council:

Re: Proposal to Name City Greenway”  
“Mayor Dennis W. Archer Greenway”.

The City of Detroit Planning and Development Department (“P&DD”) is proposing a formal naming of the greenway which runs along the vacated Joseph Campau Street between Jefferson Avenue and East Vernor Highway, in honor of the former Mayor of the City of Detroit, the Honorable Dennis W. Archer.

Ground was broken on the City Greenway at the end of 2019 on initial phases and opened to the public last year. Construction began on the final phase from Robert Bradby Drive to East Vernor Highway last October and will soon be complete. The first phases of the greenway already provide Detroiters recreational opportunities and will soon provide improved connections to the Coleman A. Young Recreation Center, schools, and recent improvements that the City has made to nearby tennis and basketball courts. By the end of this year, the \$4.9-million, 1.2-mile greenway will run from the Detroit Riverwalk to Vernor Highway, connecting more neighborhoods safely to Detroit’s internationally acclaimed riverfront and other amenities between McDougall and Chene Streets.

P&DD is pleased to submit this resolution recognizing Mayor Archer for his lifetime of contributions and leadership to the City of Detroit. As a proud and prominent Eastsider himself, and a true and tireless champion for Detroiters, we could not imagine a more fitting recipient of this naming honor.

We request that your Honorable Body adopt the attached resolution to authorize the naming of this greenway the “Mayor Dennis W. Archer Greenway.”

Respectfully submitted,  
KATHERINE G. TRUDEAU  
Deputy Director

By Council Member Tate:

Resolved, That the Detroit City Council hereby approves the establishment and naming of the greenway along vacated Joseph Campau Street between Jefferson Avenue and East Vernor Highway as depicted as the “Mayor Dennis W. Archer Greenway”; And Be It Further

Resolved, That the Director of the Planning and Development Department (“P&DD”), or his or her authorized designee, is authorized to publicize and

establish this name through the installation of signage along the Mayor Dennis W. Archer Greenway and other appropriate public outreach.

**City Planning Commission**

July 22, 2021

Honorable City Council:

Re: Request of the American Community Developers, Inc. to amend Chapter 50 of the 2019 Detroit City Code, Zoning, by amending Article XVII, Zoning District Maps, Section 50-17- 2, District Map No. 1 to change the current zoning classification from a PD (Planned Development District) to an SD2 (Special Development District, Mixed-Use) for the property commonly identified as 1601 Bagley Street bounded by Bagley Street, Trumbull Street, Labrosse Street and Rosa Parks Boulevard to redevelop the site for new mixed-use, multi-unit apartments. (RECOMMEND APPROVAL)

**NATURE OF REQUEST**

The City Planning Commission (CPC) has received the request of the American Community Developers Inc. to rezone land at 1601 Bagley in order to facilitate the redevelopment of that site. The developer has requested a rezoning to SD2 (Special Development District, Mixed-Use) for the property and CPC staff offered the alternative of R5 (Medium Density Residential District). Both options were explored as part of the processing of this request and the CPC voted to recommend approval of SD2 for the subject site.

**BACKGROUND**

In the fall of 1984, the City Council approved Ord. No. 596-H effectuating the rezoning of the Clement Kern Gardens (CKG) property from the M3 (General Industrial District) zoning classification to a PD zoning classification. The site is the former Parcel 1 of the Westside Industrial #1 Urban Renewal project area. At the time of adoption, the City sold the land to the Clement Kern Gardens Limited Dividend Housing Association Limited Partnership to develop the property with low-rise medium-density housing.

More recently, in March 2019, the Planning and Development Department (PDD) launched the Greater Corktown Neighborhood Framework Study with the goal to “create a short and long-term plan that promotes inclusive & equitable growth of Detroit’s oldest established neighborhood, while preserving its unique character, cultural heritage & integrity.” A series of workshops were held from September 2019 to January 2020. Between January 2020 and October 2020, the framework documentation was drafted after numerous open houses, virtual meetings, community conversations, and large meetings.

The framework plan incorporates a housing and neighborhood development strategy to accommodate new housing demand and ensure zero displacement of at-risk residents, and to invest in housing stock through owner-occupied rehab.

To accomplish this, the implementation plan identifies publicly owned vacant land to allow for mixed-income development (rental and home ownership), identifies an established mixed-income developer, and updates the zoning to permit higher density units. The overall housing plan calls for the creation of 841 new construction mixed-income units to be built on four sites across Greater Corktown. Some of the units will be for rent and some for sale with a spectrum of affordability between 30% to 80% AMI.

In 2020, the City of Detroit entered into the Choice Neighborhoods Initiative (CNI) grant application. After a highly competitive process, the Department of Housing and Urban Development recently awarded the City of Detroit \$30 million in grant funds through the

CNI program. The goal of the grant is create new housing opportunities, while also ensuring the continuation of affordable units in the neighborhood. The Clement Kern Gardens (CKG) site is one of the CNI funding target projects.

#### PROPOSAL

Today, the developer, American Community Developers, Inc. (ACD) is requesting a rezoning from PD to SD2 to redevelop the 8.93 acre site and allow for varying housing typologies including town-home and multi-unit apartments ranging from studios to three-bedroom apartments.

The unit prices will range from 30% to 80% of the area median income (AMI). The rent and income will be restricted for a minimum of 30 years. The development is planned to take place in three phases, with each phase hosting approximately 180 units. Residents that currently reside at CKG will be assisted with relocation expenses and logistics while each phase is under construction. Once each phase of construction is completed, those residents will then have the option to return to the newly constructed CKG housing, or permanently relocate to other available units within the Greater Corktown area. The CNI grant will fund the affordable units, relocation, and supportive services to residents of the site. The CNI grant has a six-year implementation period.

Greater Corktown Framework study image

#### **SURROUNDING ZONING AND LAND USE**

The zoning classification and land uses surrounding the subject area are as follows:

**North:** B2; Residential homes

**South:** M3; LIFT, Detroit Building Trades Council, The Composites Institute, Scale-Up Research Facility at Corktown

**East:** R3; Residential, Hello Records music store, Reyes-Finn gallery

**West:** M2; Industrial buildings

#### **COMMUNITY OUTREACH AND PUBLIC HEARING RESULTS**

ACD has been working on community outreach for this project since early 2020 with the residents at CKG. There were three onsite meetings in summer 2020 over the course of several months. The Housing and Revitalization Department (HRD) and PDD participated in those community meetings. One-on-one meetings with adjacent property owners, phone calls, and door-to-door canvassing were also performed. Another community meeting was held on June 22, 2021. Of all of those that spoke, the general sentiment was supportive of the project.

During the public hearing, there were two people that spoke in support of this proposal and one that spoke in opposition. One of those people that spoke in support during the public hearing was Council Member Castaneda-Lopez. Additionally, there were six letters of support, and one letter of opposition (submitted by the same speaker that spoke in opposition). The person that spoke in opposition is an owner of a commercial/industrial property south of the subject site, who is opposed due to increased traffic, density and parking concerns.

#### **ANALYSIS**

The purpose of the SD2 district is to encourage a complimentary mix of more intensive pedestrian and transit oriented uses. The SD2 district allows for structures with commercial/retail space on ground floor with housing units on upper-floors.

The SD2 district permits 57 by-right residential, civic, retail and commercial, and manufacturing uses. Additionally, there are 35 conditional uses, which require a public hearing at the Buildings, Safety Engineering, and Environmental Department (BSEED).

The developer seeks to rezone to SD2 due mainly to the dimensional standards permitted by SD2, as well as the permitted mix of uses that may be desired on the Trumbull and Rosa Parks street frontages.

The SD2 district allows for a base height of 45 feet if there is no retail or commercial use in the building and 60 feet if the development is mixed-use. Additionally, where a lot fronts on a right-of-way which is more than 60 feet wide and where the outermost point of the proposed mixed-use building is at least forty feet from all R1, R2, and R3 Districts, the maximum height maybe increased one foot for each one foot of right-of-way width greater than 60 feet. For this site, the standard could be applied on the Trumbull Street frontage. The SD2 district also allows many commercial, retail, and low-impact manufacturing uses.

It is expected that, if the subject site is rezoned to SD2, no variances will be necessary, allowing for the developer to meet their proposed timeline, to submit an application for an October 2021 round for the Michigan State Housing Development Authority Low Income Housing Tax Credit funding.

**APPROVAL CRITERIA**

According to the Approval Criteria of Sec. 50-3-70 of the Zoning Ordinance:

*(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact:*

The proposed amendment responds to the changing condition of the current CKG housing development's need to be updated. The change in zoning from PD to SD2 will permit the developer to meet the deadline for a fall funding round of tax credits applications. The new zoning will also permit some flexibility for the developer to respond to volatile market conditions, continue engagement with neighbors, and respond to design feedback.

*(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance:*

The subject site is located in the Corktown area of Neighborhood Cluster 4 of the Master Plan of Policies (MP). The current future general land use designation is Low/Medium Density Residential (RLM). The Planning and Development Department has submitted a letter stating the consistency of this proposal with the City's MP.

*(3) Whether the proposed amendment will protect the health, safety, and general welfare of then public:*

The rezoning will permit for new housing types, which will allow for more affordable units when leveraged with the CNI grant that the City has garnered. This adds to the general welfare of this community by ensuring that the rising housing costs of Corktown will not cause displacement of current residents. The affordable housing options will create a place for residents of all income levels going into the future.

*(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development:*

As new developments are proposed, the City will work with developers to evaluate service needs. Generally, the proposal will not negatively impact the levels of service to existing development. In some cases, developers may be expected to invest in infrastructure for the sites which they develop. Generally, service providers will be able to provide services subsequent to this project.

*(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management:*

The proposed rezoning is not anticipated to have adverse impacts on the natural environment.

*(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract:*

The proposed development is expected to add to the broader scope of housing being provided across Corktown. It is expected to have a positive impact on surrounding property by creating more affordable units.

*(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification:*

The subject property is suitable for the SD2 zoning classification that is being proposed. The amendment from PD will allow the site to be governed under a base zoning district and be nimble enough to adjust to changing conditions in the volatile construction market and respond to the thresholds of the CNI grant in the six years that are allotted.

*(8) Whether the proposed rezoning will create an illegal "spot zone:"*

The proposed rezoning will not create an illegal spot zone.

**CONCLUSION**

As it relates to the possibility of retail or commercial activity on the subject site, the developer has submitted a Regulatory Agreement that is entered into with the developer and Department of Consumer and Industry Services for the Michigan State Housing Development Authority Low Income Housing Tax Credit (LIHTC). Under this agreement, the developer has offered that another level of assurance exists beyond zoning, to ensure the site will largely remain as housing. According to the agreement, there is a requirement that the developer enter into a restrictive covenant committing to the site remaining as an affordable housing development in exchange for LIHTC funding.

**RECOMMENDATION**

At its regularly held meeting of July 8, 2021 following the public hearing and its deliberations the City Planning Commission took same day action and voted to recommend approval of the proposed rezoning from a PD zoning classification to an SD2 zoning classification.

**Grant Agreement**

This Grant Agreement (the "Agreement"), dated as of July 1, 2021 (the "Effective Date") is by and between the Cities for Financial Empowerment Fund, Inc. (the "CFE Fund"), a Delaware non-stock, non-profit corporation qualified as exempt from federal

income tax under section 501 (c)(3) of the Internal Revenue Code of 1986, as amended (the "Code"), with its principal office located at 44 Wall Street, Suite 1050, New York, NY 10005 and the City of Detroit (the "City" or the "Grantee"), a Michigan municipal corporation acting through its Department of Neighborhoods, with office located at Two Woodward Avenue, Suite 1126, Detroit, MI 48226.

Whereas, The CFE Fund works to support municipal engagement to improve the financial stability of low and moderate income households by embedding financial empowerment strategies into local government infrastructure (the "Purposes").

Whereas, The CFE Fund has determined that the support of the Grantees in the work contemplated by this Agreement furthers the exempt purposes of the CFE Fund.

Whereas, The Grantee has agreed to use the grant funds provided by this Agreement (the "Grant") to support the Purposes by managing the implementation and operation of the activities set forth in Exhibit A (the "Scope of Work").

Whereas, The CFE Fund and the Grantees desire to enter into this Agreement to provide for the terms and conditions of the Grant and the Scope of Work.

**3. Term.**

- (a) The Grant term will begin as of the Effective Date and end no later than June 30, 2023. Any funds not used by the end of the Grant term toward the purposes of this Grant will be returned to the CFE Fund within thirty (30) days after the end of the Grant term unless otherwise agreed upon by both parties in writing in advance.

- (c) If the Agreement is terminated by either party for any reason, CFE Fund will have no further obligation to make any payments to the Grantee, except for work already completed but not yet paid for prior to the termination; provided, that (i) such work is within the Scope of Work or (ii) if such work is beyond the Scope of Work, the prior written consent of the CFE Fund has previously been obtained.

**4. Vendor(s).**

## Exhibit E

### **Bank On Guiding Principles**

*Bank On's goal is to ensure that everyone has access to safe and affordable financial products and services. Bank On coalitions are local partnerships between municipal officials; city, state, and federal government agencies; financial institutions; and community organizations that work to improve the financial stability of unbanked and underbanked residents in their communities. The Cities for Financial Empowerment Fund (CFE Fund) leads a national movement that supports local coalition efforts to expand banking access for consumers outside the financial mainstream, including through municipal infrastructure.*

- 1. Consumers Should Have Access to Mainstream Banking Accounts**
  - a. Consumers should not be forced to rely on expensive alternative financial services
  - b. Banking access starts with a basic transaction account which is the first rung of a financial capability ladder that builds over time to include savings, secured credit, and unsecured loans
- 2. Financial Institutions Should Provide Accounts that Meet the National Account Standards**
  - a. The National Account Standards outline the core functionality that define a safe and appropriate account
  - b. Consumers should have access to low-cost bank accounts with robust transaction capability, including:
    - i. No possibility of overdraft (e.g. checkless checking)
    - ii. Robust debit card and online bill pay functionality (e.g. avoid need for money orders)
- 3. Financial Institutions and Policy Makers Should Minimize Barriers to Banking Access**
  - a. Consumers should not be excluded from opening a bank account because of unfair account screening (e.g. ChexSystems), or unrecognized [appropriate] ID
  - b. Consumers should be able to open accounts online at a location outside of a branch bank while still meeting Know Your Customer (KYC) requirements
- 4. Bank On Coalitions are an Effective Mechanism for Connecting Consumers with Bank Accounts**
  - a. A primary tool for implementing the National Account Standards
  - b. An effective way of identifying and implementing government integrations
  - c. Bring together Municipalities, Non-profits, and Financial Institutions
  - d. Illustrate the importance of municipalities providing leadership and sustainability to financial empowerment initiatives
- 5. Government and Employer Integrations are the Best Approach to Achieving Scale**
  - a. Bank On Coalitions work to identify and integrate bank account opening into government disbursement programs
  - b. Bank On Coalitions encourage governments and employers to make payments with direct deposit

**6. A Learning Community of Bank On Coalitions Drive Thought Leadership and Share Best Practices**

- a. Local coalitions have the most knowledge about banking access
- b. CFE Fund documents and articulates the sharing of best practices
- c. CFE Fund combines the experience of local Bank On coalitions to articulate a national perspective to influence policy
- d. CFE Fund builds on insights from the field to sponsor original research and write whitepapers that spotlight issues, promote discussion and enable problem solving.

Re: Request to Accept and Appropriate the Airport Improvement Program Grant.

The Michigan Department of Transportation (MDOT) has awarded the City of Detroit Coleman A. Young Municipal Airport with the Airport Improvement Program Grant for a total of \$63,414.00. This grant was made possible through a Block Grant from the Federal Aviation Administration. The Federal share is \$63,414.00 of the approved amount, and there is a required MDOT match of \$7,046.00. **RESOLUTION CONTINUING PROCEDURES FOR CITY OF DETROIT PUBLIC BODIES TO MEET REMOTELY THROUGH DECEMBER 31, 2021**

By Council Member Spivey:

WHEREAS, As a result of the ongoing and continuing COVID-19 pandemic, the City of Detroit’s public bodies, including City Council, have been meeting remotely through electronic means, since March 2020; and

WHEREAS, As amended, the Open Meetings Act (OMA) allows public bodies to hold meetings electronically, under any circumstances, retroactive to March 18, 2020. through March 30, 2021 (MCL 15.263a(1)(a)), and further provides that on or after March 31, 2021 through December 31, 2021, public bodies can meet remotely through electronic means pursuant to a “local state of emergency or state of disaster declared pursuant to law or charter or local ordinance by ... a local official, governing body, or chief administrative officer”; and

WHEREAS, On March 30, 2021, the Chief Public Health Officer of the Detroit Health Department (DHD) issued *Emergency Order for Control of Epidemic* (Emergency Order) determining that “action is necessary to reduce transmission of COVID-19 and to protect the public’s health in Detroit”, noting that cases in Detroit have been on a significant upward trend and that “certain in-person open meetings pose a substantial risk to members of the public and governmental bodies in the City of Detroit”; and

WHEREAS, On May 20, 2021, the Chief Public Health Officer of the DHD made the following findings in a newly issued *Emergency Order for Control of Epidemic*: “COVID-19 remains an imminent threat to the public of the City of Detroit; [p]er the Centers for Disease Control and Prevention (CDC), Michigan remains second in the nation in the number of SARS-CoV-2 B.1.1.7 variant cases at this time; [t]he emergence and spread of the SARS-CoV-2 variants in Detroit and surrounding communities, and current vaccination rates; certain in-person meetings pose a substantial risk to members of the public and governmental bodies in the City of Detroit.”; and

WHEREAS, The Chief Public Health Officer found further that, “[a] number of public bodies in Detroit, subject to the OMA, MCL 15.261 *et seq.*, will find it difficult, if not impossible, to conduct their

business in live meetings that are open to the public, without violating safety guidelines issued by the CDC, the Michigan Department of Health and Human Services and the Detroit Health Department. For example, several public bodies do not have facilities that will allow for adequate physical distancing or open attendance in an in-person setting. In those instances requiring public bodies to make their decisions in a meeting open to the public and in person (without the option of telephonic and video conferencing) would risk the personal health and safety of the member of the public or members of the public body"; and

WHEREAS, The May 20, 2021, DHD Emergency Order declared "a local state of emergency", effective from May 20, 2021 until June 30, 2021, or until an earlier time when the order is rescinded by a subsequent order. The Order states that public bodies subject to the OMA may hold in-person meetings only if, on the dates of the scheduled in-person meeting the public body is compliant with the then-current state guidance issued by the MDHHS, requiring that meeting size be limited to 25 members or fewer, and facility capacity allows for social distancing; and

WHEREAS, On June 23, 2021, the Chief Public Health Officer issued a new order entitled, *Declaration of Continued Emergency Due to COVID-19 to Allow Public Meetings of Governmental Bodies to be Held Remotely per MCL 15.263 Extended From June 30, 2021 to July 31, 2021*, declaring "a local public health emergency" and finding that COVID-19 "remains an imminent threat to the public throughout Detroit" because vaccination rates remain "below the level required to achieve herd immunity to limit the spread of the virus", and that continued spread results in the emergence of more dangerous variants, such as B.1.617.2 (a/k/a, the "Delta variant"); and

WHEREAS, On August 25, 2021, the City's Chief Public Health Officer issued "City of Detroit Public Health Department Emergency Epidemic Order in Response To The COVID-19 Pandemic Per MCL §333.2453, Declaration of Continued Emergency Due to COVID-19, To Allow Public Meetings of Governmental Bodies To Be Held Remotely Per MCL §15.263, Effective from September 1, 2021 to December 31, 2021" (Order). The Order states, the Chief Public Health Officer "hereby extends the Local Public Health Emergency Epidemic Order (originally issued March 20, 2021) for the Coronavirus Disease 2019 (COVID-19) pursuant to §333.2453 of the Public Health Code of the State of Michigan, as it has been determined that doing so is necessary to continue to protect the public health from further transmission of

COVID-19 within the City of Detroit." The Order further recognizes the need to provide maximum access by the public to public meetings through remote, hybrid, and in-person meetings when a body determines that in-person meetings may be safely held within current state capacity guidelines: and

WHEREAS, The Detroit City Council does not have meeting facilities of sufficient size to allow for social distancing of unvaccinated attendees, nor can the Body limit attendance at in-person meetings without violating the Open Meetings Act. In fact, Council Members and staff alone, not including any members of the public, would reach or exceed the capacity for a safe meeting space. Other City public bodies similarly lack the resources to research, provide guidance, and monitor compliance with the OMA under current circumstances, and are particularly lacking large enough meeting facilities to allow for required social distancing. NOW, THEREFORE, BE IT

RESOLVED, All public bodies of the City of Detroit whose meetings include more than 25 individuals or cannot accommodate necessary social distancing of attendees may continue to meet remotely pursuant to the DHD Emergency Order through December 31, 2021, unless the Order is rescinded by subsequent order earlier, and the following procedures as set forth in Public Act 228 of 2020, amended section 3a of the OMA, in pertinent part are adopted:

- A meeting of a public body held electronically under this section must be conducted in a manner that permits 2-way communication so that members of the public body can hear and be heard by other members of the public body, and so that public participants can hear members of the public body and can be heard by members of the public body and other participants during a public comment period. A public body may use technology to facilitate typed public comments during the meeting submitted by members of the public participating in the meeting that may be read to or shared with members of the public body and other participants to satisfy the requirement under this subsection that members of the public be heard by others during the electronic meeting and the requirement under section 3(5) that members of the public be permitted to address the electronic meeting.

- Except as otherwise provided in subsection (8), a physical place is not required for an electronic meeting held under this section, and members of a public body and members of the public participating electronically in a meeting held under this section that occurs in a physical place are to be considered present and in attendance at the meeting for all purposes.

• If a public body directly or indirectly maintains an official internet presence that includes monthly or more frequent updates of public meeting agendas or minutes, the public body shall, in addition to any other notices that may be required under this act, post advance notice of a meeting held electronically under this section on a portion of the public body's website that is fully accessible to the public. The public notice on the website must be included on either the homepage or on a separate webpage dedicated to public notices for non-regularly scheduled or electronic public meetings that is accessible through a prominent and conspicuous link on the website's homepage that clearly describes its purpose for public notification of non-regularly scheduled or electronic public meetings. Subject to the requirements of this section, any scheduled meeting of a public body may be held as an electronic meeting under this section if a notice consistent with this section is posted at least 18 hours before the meeting begins. Notice of a meeting of a public body held electronically must clearly explain all of the following:

- Why the public body is meeting electronically.
- How members of the public may participate in the meeting electronically. If a telephone number, internet address, or both are needed to participate, that information must be provided specifically.
- How members of the public may contact members of the public body to provide input or ask questions on any business that will come before the public body at the meeting.
- How persons with disabilities may participate in the meeting.
- Beginning on the effective date of the amendatory act that added this section, if an agenda exists for an electronic meeting held under this section by a public body that directly or indirectly maintains an official internet presence that includes monthly or more frequent updates of public meeting agendas or minutes, the public body shall, on a portion of the website that is fully accessible to the public, make the agenda available to the public at least 2 hours before the electronic meeting begins. This publication of the agenda does not prohibit subsequent amendment of the agenda at the meeting.
  - A public body shall not, as a condition of participating in an electronic meeting of the public body held under this section, require a person to register or otherwise provide his or her name or other information or otherwise to fulfill a condition precedent to attendance, other than mechanisms established and required by the public body necessary to permit the person to participate in a public comment period of the meeting.

• Members of the general public otherwise participating in a meeting of a public body held electronically under this section are to be excluded from participation in a closed session of the public body held electronically during that meeting if the closed session is convened and held in compliance with the requirements of this act applicable to a closed session.

AND, BE IT FURTHER

RESOLVED, The Detroit City Clerk is directed to send this resolution to Mayor Mike Duggan, and to publicly and electronically post and distribute copies of the resolution widely.

#### BOARD OF REVIEW/PROPERTY ASSESSMENT

7. Submitting reso. autho. Adoption of New Title for Poverty Exemption Program in Accordance with MCL 211.7u. **(Homeowners Property Tax Assistance Program name was adopted by City Council several years ago with an attempt to uniquely identify the process and provide a more user friendly opportunity to access the exemption process without using the term poverty. During the course of its use, it has been found to be somewhat difficult to sometimes identify and/or use when communicating with the community, especially those that require the assistance. Because of its difficulty to use at times, there has been a number of appeals made from various community partners and organization along with certain internal discussion regarding the current program name. After consideration of different variations, it has been found that the title "Homeowners Property Exemption (H.O.P.E.)" is the simplest and most user friendly name. The title speaks to exactly what it is and creates and acronym that can be branded that provides encouragement. The Board of Review respectfully submits the attached resolution and humbly request that City Council adopt the new name of the program as "Homeowners Property Exemption (H.O.P.E.).")**

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for the new construction of ten condominiums located at 1450 Townsend Avenue, Units 26-35 in the Islandview Neighborhood Enterprise Zone area. (CORRECTED RESOLUTION/RECOMMEND APPROVAL)

On September 29, 2020, your Honorable Body approved the subject request for Neighborhood Enterprise Zone (NEZ) Certificate Applications. However, it was later discovered that the applicant received a building permit prior to applying for the NEZ certificates. As a result, the State of Michigan requires the resolution for the certificates be modified and approved as allowed by State law. The address has also been clarified as 1450 Townsend rather than 1454 as previously reviewed). Below is a summary of the NEZ certificate request.

The office of the City Planning Commission (CPC) has received ten applications requesting NEZ certificates forwarded from the office of the City Clerk for the new construction of ten condominiums located at 1450 Townsend Avenue, Units 26-35. These applications correspond to a qualified site which will accommodate the development project. This new facility is a part of the complete redevelopment of the Saint Charles School Redevelopment Project in which the existing school building located at 1454 Townsend Street was rehabilitated into a modern loft-style residential building consisting of approximately 25 apartments. In total 10,069 square feet of one and two-bedroom townhome units will be made available.

The subject property has been confirmed as being within the boundaries of the Islandview NEZ which was established by a vote of Council on May 1, 2006, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated construction cost of the project is approximately \$75,000 per unit. The applicant is seeking a 15-year tax abatement.

The NEZ certificate applications were submitted after the issuance of applicable building permits. The building permits on record show that permits were issued on December 17, 2019 and the applications were filed with the City of Detroit Clerk's office on June 11, 2020. MCL 207.774 states the application must be filed before a building permit is issued or as otherwise provided by the local governmental unit by resolution if the application is filed not later than 6 months following the date the building permit is issued. In order to proceed, the City of Detroit would have to approve a resolution which contains lan-

guage that approves the submission of the application after the issuance of the building permit, however, no later than 6 months following the date the building permit was issued. The revised resolution is attached for your consideration.

July 8, 2021

Honorable City Council;

Re:Authorization to rename DIRA site number 317, known as Lafayette-NYROCA Playlot, located at 8118 West Lafayette Street — to Gonzalez Garcia Family Park.

The General Services Department is requesting authorization from your Honorable Body to rename Lafayette-NYROCA Playlot located at 8118 West Lafayette Street to Gonzalez Garcia Family Park.

In honor of Francisco and Maria Gonzalez who were long term family stewards of Lafayette-NYCRR, holding key roles in the revitalization and adoption of the park, the surrounding community is requesting to rename this park in their memory and acknowledgement. Mr. and Mrs. Gonzalez were pillars of the community who tragically lost their lives in a fatal shooting on their way home from a Fourth of July gathering.

The surrounding community would like to memorialize Mr. and Mrs. Gonzalez’s legacy with a park renaming, in their honor, due to the their countless hours of park maintenance and trash removal, as well as the organization, design and upkeep of the now existing flower bed at the Lafayette Entrance. Francisco and Maria Gonzalez not only recruited their family members, but also many neighbors and other community members to assist in the beautification of Lafayette-NYCRR and other surrounding lots on the street; eradicating much of the litter and other illegal dumping. The beautification efforts of Mr. and Mrs. Gonzalez have forever changed the safety and atmosphere of Lafayette Street and Lafayette-NYCRR. In support of the renaming of Lafayette-NYCRR to Gonzalez Garcia Family Park the community surrounding the park has collected over 2,300 signatures surpassing the required 500 signatures for the petition.

We respectfully request your authorization to rename Lafayette-NYCRR to Gonzalez Garcia Family Park with a Waiver of Reconsideration.

(4) To the private storage lot, yard or garage of the police authorized tower at the direction of the police officer in charge in the case of a wrecked or disabled vehicle, or any vehicle for the safekeeping pursuant to MCL 257.252d, provided, that the private storage lot, yard, or garage shall be located within the boundaries of the City and, provided further, that the driver or other person in charge of the vehicle is by reason of physical injury incapacitated to such an extent as to be unable to provide for its custody or removal or determine where the vehicle should be taken or is not otherwise immediately available to make such a decision. **RESOLUTION IN SUPPORT OF ADDITIONAL CITY FLOOD RESPONSE FUNDING**

By Council Member Castaneda-Lopez:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, In a time of unprecedented hardships, illnesses and unemployment all happening in the midst of a worldwide pandemic, in June and continuing in July of this year, the city of Detroit experienced a series of torrential rains, which flooded its freeways, roads and the homes of several Detroiters to a degree not seen in recent years; and

WHEREAS, The aftermath of the June flooding events in Detroit left several of its citizens with water logged and un-driveable vehicles and/or with thousands of dollars of damages from flooded basements with unsalvageable carpets, furniture, clothes, irreplaceable keepsakes, water heaters, washers and dryers and other appliances; and

WHEREAS, This was not just an ordinary overflow of water that Detroiters have dealt with, but in many cases the unimaginable, a backflow of sewage into their homes, which has made their homes hazardous. Un-remediated, these conditions will make these homes unlivable. This ordeal that thousands of citizens are now experiencing at no fault of their own, has caused an overwhelming hardship, that insurance for the covered and the

non-covered, FEMA and the City of Detroit, to-date, have not adequately addressed. The threat of disease and the condemnation of these homes could be a reality for these residents, if no further assistance is granted in the form of immediate and substantial financial support to these desperate citizens from the City of Detroit: and

WHEREAS, With over 26,000 claims for assistance, this is an unprecedented disaster that MUST be addressed by unprecedented means. So far, the City of Detroit's efforts to provide assistance, though laudable, which provide for the basement cleaning and sanitizing of homes for residents above the age of 65, disabled, have children aged 10 or under in the household, and those who have an approved poverty tax exemption, fall short in helping many others. However, this effort leaves out a wide range of residents, with no means to recover from the devastating effects of the thousands of dollars of losses and the cost of clean-up, which is also in the thousands as well; and

WHEREAS, In order to mitigate these losses, on July 20, 2021, the Detroit City Council approved a resolution to shift \$5 million from the City's General Fund out of the projected \$7.3 million fund balance, towards the emergency disaster response to the June & July 2021 flood events as a start. The Council is also recommending that the Administration explore post-haste in finding additional sources of funding to address this hardship and to provide our desperate citizens hope and help, NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council is hereby strongly urging the Administration to allocate additional general fund surplus dollars toward these flood assistance and mitigation efforts, specifically to assist Detroit residents who are not otherwise eligible for state or federal grant dollars. In addition, the Council also recommends that the Administration with great speed identifies and allocates a substantial source of funding to address this disaster, NOW THEREFORE BE IT FURTHER

RESOLVED, That copies of this resolution be forwarded to Jay B. Rising, the City of Detroit's Chief Financial Officer; Tanya Stoudemire, Detroit's Chief Deputy CFO — Policy & Administration Director; Steve Watson Detroit's Deputy CFO/City Budget Director and Detroit Mayor Mike Duggan.

**Property Assessment Board of Review**

September 2, 2021

Honorable City Council:

Re: Adoption of New Title for Poverty Exemption Program in Accordance with MCL 211.7u.

Homeowners Property Tax Assistance Program name was adopted by City Council several years ago with an attempt to uniquely identify the process and provide a more user friendly opportunity to access the exemption process without using the term poverty.

During the course of its use, it has been found to be somewhat difficult to sometimes identify and/or use when communicating with the community, especially those that require the assistance.

Because of its difficulty to use at times, there has been a number of appeals made from various community partners and organization along with certain internal discussion regarding the current program name. After consideration of different variations, it has been found that the title "Homeowners Property Exemption (H.O.P.E.)" is the simplest and most user friendly name. The title speaks to exactly what it is and creates an acronym that can be branded that provides encouragement.

The Board of Review respectfully submits the attached resolution and humbly

request that City Council adopt the new name of the program as "Homeowners Property Exemption (H.O.P.E.)".

Respectfully submitted,  
WILLIE C. DONWELL,  
MCAO/MCPPE  
Administrator  
Detroit Board of Review

By Council Member McCalister, Jr.:  
Whereas, Pursuant to Public Act 206 of 1893, as amended, specifically MCL 211.7u, the principal residence of persons who, by reason of poverty, are unable to contribute toward the public charges is eligible for exemption from taxation; and,

Whereas, This Honorable Body adopted the title "Homeowners Property Tax Assistance Program (HPTAP)" as the program name: and

Whereas, Pursuant to Section 9-401 of the Charter of the City of Detroit this Honorable Body has appointed a Property Assessment Board of Review to hear and determine applications for exemption from taxation by reason of poverty; and

Whereas, Based upon a need to better service the community the Property Assessment Board of Review unanimously agreed to respectfully request that this Honorable Body amend the program title to "Homeowner Property Exemption (H.O.P.E.)";

Now, Therefore Be It Resolved, That it is hereby found and determined that the amended title shall be "Homeowners Property Exemption (H.O.P.E.)" is hereby adopted and approved.

September 17, 2021

Honorable City Council:

Re: The initiative of the Detroit City Planning Commission and the request of Midtown Detroit, Inc. and Parkstone Development Partners on behalf of the Ferry Street Development Company to rezone 90 and 110 East Ferry Street from a PD (Planned Development) to a SD1 (Special Development District, Small-Scale, Mixed-Use) zoning classification. (RECOMMEND APPROVAL)

The Detroit City Planning Commission, Midtown Detroit, Inc. and Parkstone Development Partners, on behalf of Ferry Street

Development Company, are requesting to amend District Map No. 6 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing a SD1 zoning classification where a PD zoning classification currently exists at 90 and 110 East Ferry Street. The change in zoning is being requested to allow the existing historic buildings on the site to continue to operate as an inn/bed and breakfast or be developed with other uses consistent with the SD1 zoning classification. The subject rezoning is generally located on the south side of East Ferry Street west of John R Street. Please see the attached public hearing notice which includes a map of the subject location.

### BACKGROUND

The subject block includes five former Victorian mansions built in the late 1880s and two rear carriage houses. In 1980, the subject area was listed on the National Register of Historic Places, and in 1981, the City approved the East Ferry Avenue Historic District.

In the mid-1990s, the Ferry Street Development Company (co-owned by the DIA and Midtown Detroit, Inc.) proposed developing four of the houses and two carriage houses as a specialty inn bed and breakfast type use with 40 rooms. As a result, in 1997, the block was rezoned from PC (Public Center) to PD (via Ordinance No. 38-97). The PD includes the four houses and two carriage houses named the Inn at Ferry Street (90 East Ferry) and 110 E. Ferry which, at the time, was occupied by Your Heritage House, a museum and cultural center for youth.

### REQUEST

The Inn at Ferry Street has operated successfully over the past twenty years. In 2018, 110 East Ferry was purchased by Tellevation II LLC, which converted the building into office space for multiple small tenants and shared working space. In March 2019, the Inn at Ferry Street was forced to close its doors due to the COVID-19 pandemic. Furthermore, the travel industry was and continues to be hard hit by the pandemic. As a result, the owners of the Inn are exploring all options for moving forward, including reopening the Inn as is, reopening the Inn with fewer buildings/rooms, or exploring adding new uses.

For land zoned PD, any change to the structures or uses require review and approval by the City's legislative branch. In order to keep all options open, the current owner is requesting to rezone the block from PD to SD1, which would allow a variety of small-scale, pedestrian and transit-oriented uses. For example, SD1 allows multi-family dwellings, museums, and offices as by-right uses and allows bed and breakfast inns, hotels, and single-family houses as conditional uses. The SD1 district also encourages multiple uses combined in one structure. The cur-

rent owner of 110 E. Ferry Street agreed to be part of the rezoning. The petitioners also explored rezoning the block to an R5 (Medium Density Residential) zoning classification instead of PD, but decided, based on community feedback, that the SD1 was the preferred option.

### COMMUNITY FEEDBACK

On June 15, 2021, the petitioner held a virtual community meeting with about 20 participants, including area residents, business owners, and representatives of area institutions. A summary of the feedback is as follows:

- A resident said, "I like the idea of having more options for that space and having more flexibility in the neighborhood generally speaking. I like the more vibrant, better mix of uses for that space. I would prefer the SD1 designation."

- A resident said, "From a repurposing standpoint, small offices on the upper floors, makes sense."

- A resident nosed, "I like the idea of boutique hotel spa, bed & breakfast, and small office spaces."

- A resident commented, "I think from the Park Shelton resident perspective, the only concern to be cognizant of is the noise level."

- A resident stated, "I am a big fan of increasing reasons for foot traffic. I live here, because I love the ability to walk or ride my bike to things. So, I would prefer the SD1 for increased options for businesses. I'd love there to be a cafe or wine bar, or possibly a chiropractor."

- A resident inquired, "Would the zoning change allow bars?"

- A resident stated, "I see the advantages and disadvantages of both in the R5 and SD1. The SD1 will provide the most flexibility. The challenge with these large historic mansions, is that it is challenging to find a use that is economically viable. The SD1 will provide the most opportunities should this no longer be an inn to have alternate uses that can maintain the buildings."

A representative of the Hellenic Museum stated, "SD1 sounds goods as it will bring more foot traffic, more mobility, more people to the area which is good for the museum."

A representative of the College for Creative Studies stated, "I lean toward SD1 based on the flexibility perspective. I echo concerns regarding noise, but recognize that can happen with either. Anything that will be under 3,000 square feet will not be that much of a disruption much prefer the flexibility of SD1."

- A representative of the DIA stated, "I agree with the other neighbors that SD1 provides more flexibility, no major concerns with the uses, given the size of the buildings."

In summary, most of the persons on the call preferred the SD1 option, because it would create more vibrancy and more foot traffic; and, most on the call hope the property can stay all or in part an inn. Some on the call did have concerns about any increased noise levels.

#### **PUBLIC HEARING RESULTS**

On June 17, 2021, the CPC held a virtual public hearing on the rezoning request, at which, there were 34 persons in attendance. The petitioner clarified they had not yet made any specific decisions about how to move forward with the property. The petitioner said they are very sensitive to not allowing uses that would be disruptive to the community, and based on feedback from the community meeting, favored the SD1 designation as giving them the most options. At the hearing, four persons spoke, making the following comments:

- One person, a member of the Detroit Association of Women's Clubs at the corner of Ferry and Brush, requested the need to study all uses in R5 and SD1 to better know the uses in R5. The group was concerned about noise level, parking, and traffic.

- One person, a resident of the area (about one mile away), supported the SD1 which is more complimentary to surrounding civic uses.

- One person, a resident three blocks away, supported the SD1, because it gave the most flexibility to support the property. She noted that there are a lot of students in the area and wasn't concerned about any potential increase in noise, etc.

- One person, who lived nearby, supported the SD1 rezoning, noting the petitioners have been good stewards of the property.

During the hearing, the Commission discussed the following issues:

- A Commissioner asked the success of the past rezoning of Midtown to SD1 and SD2. Director Todd said it has contributed to the growth and success of Midtown. The petitioner indicated, overall, folks have been happy with the SD1 rezoning in Midtown. Midtown Detroit, Inc. held a lot of community meetings for that rezoning, which helped garner community support

- It was clarified that any exterior changes to the subject site would be referred to the Historic District Commission (HDC) for review.

- A Commissioner raised concerns relative to if some light manufacturing uses (allowed in SD1) were to go in these historic houses. In response, the petitioner indicated light manufacturing uses would not be highest and best use. It was noted the SD1 manufacturing could not exceed 4,000 square feet and also required a retail component.

- A Commissioner asked questions regarding concerns from the Detroit Association of Women's Club, feedback from the community meeting, and how the community meeting was noticed. One Commissioner asked the approximate capacity of a 3,000 square foot bar. In response, it was noted that capacity for bars is set, in part, by the occupancy load of the City's Fire Marshall, but it is also dependent on the business model for the bar.

- A Commissioner noted the impact of the pandemic on increasing the number of carryout restaurants and suggested exploring how this might impact SD1 zoning in residential neighborhoods.

- A Commissioner asked the actual current demand for office space in Midtown. The petitioner responded — they did not have a lot of office space in Midtown. The current vacancy rate for office overall now is quite low.

- A Commissioner asked for additional information comparing uses allowed in R5 versus SD1.

#### **PLANNING CONSIDERATIONS**

##### ***Surrounding Zoning and Land Use***

The zoning classification and land uses surrounding the subject area are as follows:

North: PC (Public Center): developed with the Wayne State University (WSU) Charles Lang Freer House and Pauline Knapp Building.

East: R5 (Medium Density Residential): developed with the former Lewis College of Business and now owned by CCS.

South: PC; developed with the International Institute of Metro Detroit. DIA parking lot and Hellenic Museum of Michigan.

West: B4 (General Business): developed with Kids-TALK, Children's Advocacy Center at 40 E. Ferry.

The surrounding zoning is shown on the following map:

##### ***Parking***

Some comments during the public hearing included the impact on parking from any zoning change. Any new use to the subject site would be evaluated for parking required and parking provided. The Buildings, Safety Engineering, and Environment Department would be charged with evaluating parking compliance. The current Inn campus has a total of 28 parking spaces. There is free on-street parking allowed adjacent to the Inn on the south side of E. Ferry and on the west side of John R. In addition, Midtown Detroit, Inc. indicates it has access to a parking lot directly south of the Inn and owned by the DIA located on Kirby Street. Also, Midtown Detroit, Inc. indicates it has a lease for 12 parking spaces in a gated lot owned by WSU at the northeast corner East Ferry St. and John R which has a

total of 29 spaces. As a result, there appears to be adequate surrounding on-street, on-site, and off-site parking available for current and potential future uses.

#### **Analysis of PD vs. R5**

As noted above, the CPC conducted a thorough analysis of the uses allowed in R5 versus SD1 to help determine what zoning classification was best for the site. Below are some of the conclusions from this analysis:

- R5 allows seven more by-right residential uses than SD1.
- R5 & SD1 public & civic by-right uses are very similar, but R5 allows hospitals and SD1 allows police and fire stations.
- R5 allows few retail uses by-right, but does allow the specific by-right SD1 retail uses listed as conditional instead (this is because the subject location is close to Woodward, a high frequency transit route).
- SD5 allows more urban agriculture-type uses.
- R5 allows conditionally more service-based residential uses, and several SD1 conditional housing types are by-right in R5.
- R5 allows additional public and civic uses as conditional.
- Both R5 and SD1 allow numerous conditional retail uses, most of which are limited in size to no more than 3,000 SF. As noted earlier, several conditional R.5 retail uses are by-right in SD1.
- SD1 allows some light manufacturing maker uses conditionally, when less than 4,000 SF and with a retail component.

A chart comparing the two zoning district classifications is attached for your information.

#### **Zoning Ordinance Criteria**

Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. The CPC analysis of the criteria is as follows:

*1. Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;*

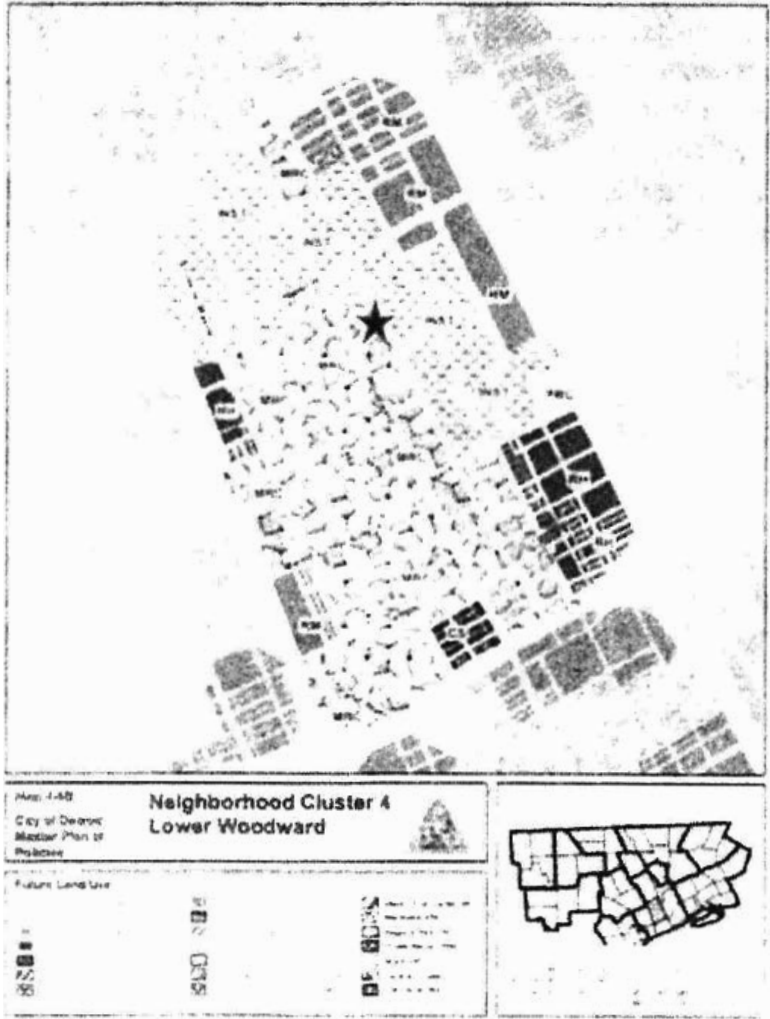

The proposed amendment would not correct an error on the zoning map. The proposed map amendment meets the challenge of a changing condition or trend. The block was rezoned in 1997 to PD, because of the unique proposal to develop a boutique inn spread out over four historic houses. Presently, the same developer is exploring a variety of potential mixed-use options, which could include continuing to use all or part of the property as an inn.

*2. Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;*

The subject site is located within the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Mixed Residential Commercial (MRC) for the subject block. The Planning and Development Department (P&DD) indicates the proposed rezoning complies with the Master Plan of Policies.

*3. Whether the proposed amendment will protect the health, safety, and general welfare of the public;*

The proposed amendment will protect the health, safety, and general welfare of the public by rezoning the subject vacant area to allow the historic buildings to continue as an inn or be redeveloped with mix of commercial, residential and/or restricted light industrial uses.

4. Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development.  
 Not applicable.

5. Whether the proposed rezoning will have significant adverse impacts on the natural environment including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management.

It is not anticipated the proposed rezoning will have significant adverse impacts on the natural environment.

6. Whether the proposed amendment will have significant adverse impacts on other property that in the vicinity of the subject tract:

It is not anticipated the proposed rezoning will have significant adverse impacts on other property that is in the vicinity Land to the north is operated by WSU Land to the east is operated by CCS. Land to the south and west includes parking and non-profit uses. Other nearby uses include large multi-family complexes — the Park Shelton Apartments and CCS dorms.

7. The suitability of the subject property for the existing zoning classification; and proposed zoning classification: and

The current PD zoning, while providing the flexibility to establish the current inn/bed and breakfast, is not suitable moving forward, because every major modification, change of use or alteration to the premises, would need to be reviewed by CPC and City Council. Other zoning districts exists, such as SD1, which would allow mixed uses consistent with the Master Plan of Policies.

8. *Whether the proposed rezoning will create an illegal "spot zone."*

The proposed rezoning will not create an illegal spot zone. Surrounding zoning includes a variety of designations with B4 to the west, PC to the north and south, and medium density residential to the east.

**Additional Analysis**

The CPC thinks the PD zoning, while appropriate to allow the subject block to be developed in the late 1990's is no longer needed today. Other zoning categories exist which comply with the Master Plan and would allow the subject block to be redeveloped as a whole or in part. Because this property is located west of John R, with the WSU campus to the north and other institutional uses to the south, the CPC is not opposed to the property being developed with a mix of commercial and or residential uses

The SD1 Special Development District is designed to encourage a complementary mixture of small-scale pedestrian and transit-oriented uses that are compatible in a neighborhood setting. It is intended to ensure a neighborhood character and place a proper balance of activities within walking distance of one another while serving the day-to-day needs of residents. Both SD1 and R5 support mixed use. The primary difference between SD1 and R5 is that SD1 does allow limited light manufacturing uses. However, the SD1 limits the size of such uses and requires a retail component. It is assumed that light industrial will not be the highest and best use of the site. In the end, it is hoped the SD1 will allow enough uses to be able to successfully market the buildings and thus continue their use in compliance with the Master Plan. The vast majority of community feedback has been supportive of SD1. Lastly, the historic district restrictions will also help in guiding appropriate redevelopment.

**CONCLUSION**

In conclusion, based on the public hearing, above analysis, and review of the Section 50-3-70 criteria of the Zoning Ordinance, the CPC recommends APPROVAL of the rezoning request from PD to SD1. The approved-

as-to-form Ordinance is attached for your consideration.

Petition No. 1540 — MCI Metro Access Transmission Services Corp., request for the encroachment of fiber optic facilities within the right of way, located along the south side of Ledyard Street, between Cass Avenue and 2nd Avenue.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made to install fiber optic facilities associated with right of way permit PR2020-724.

The request was approved by the Solid Waste Division — DPW, and City Engineering Division — DPW, Traffic Engineering Division — DPW approves provided pedestrian traffic is accommodated, and a provision for a clear pedestrian walk, 6 feet wide, is a part of the resolution.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

September 17, 2021

Honorable City Council:

Re: Fiscal Year 2021-2022 Budget Amendment for COVID-19 Vaccination Program (100% FEMA Reimbursement).

The City of Detroit has been running a citywide COVID-19 vaccination program since January 2021, leveraging federal funding from the Federal Emergency Management Agency (FEMA) and supplemental grants from the State of Michigan. To date, such grants have totaled \$27.7 million, including \$18.7 million from FEMA. That initial \$18.7 million from FEMA represented half of the \$37.4 million is estimated costs to run the City's vaccination program. The first \$18.7 million was appropriated in February 2021, in accordance with City Council's "Emergency Actions and Appropriations to Administer COVID-19 Vaccines" resolution dated January 19, 2021 (Fund 3922, Approp. No. 20787, Project No. 350998).

To continue supporting the City's vaccination program, we are seeking approval of the attached resolution to appropriate another \$18.7 million for the second half of our approved FEMA funding. The federal governmental has extended the emergency period through at least December 31, 2021, with a continued 100% federal cost share. Thus, the federal government will reimburse the City for 100% of eligible COVID-19 vaccination expenditures.

We request your approval of the attached resolution, with a waiver of reconsideration.

Respectfully submitted,  
STEVEN WATSON  
Deputy CFO/Budget Director

By Council Member Ayers:

Whereas, Section 17(1) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that a deviation from the original

general appropriations act shall not be made without amending the general appropriations act; and

Whereas, Section 8-210 of the 2012 Detroit City Charter authorizes that if during the fiscal year the Mayor advises the City Council that there are available for appropriation revenues in excess of those estimated in the budget, the City Council may make supplemental appropriations for the year up to the amount of the excess; and

Whereas, The City of Detroit began a citywide Coronavirus Disease 2019 ("COVID-19") vaccination program in January 2021; and

Whereas, The Detroit City Council approved an Emergency Actions and Appropriations to Administer COVID-19 Vaccines resolution dated January 19, 2021, to support the implementation of the City's COVID-19 vaccination program; and

Whereas, The Federal Emergency Management Agency ("FEMA") approved \$37,351,526.30 COVID-19 vaccination project budget, with a 100% federal cost share, for the City of Detroit in February 2021 (the "FEMA COVID-19 Vaccination Funding"); and

Whereas, The City appropriated \$18,675,763.15 in February 2021, representing the first half of the FEMA COVID-19 Vaccination Funding (Fund 3922, Approp. No. 20787, Project No. 350998); and

Whereas, It is now necessary to appropriate another \$18,675,763.15, representing the second half of the FEMA COVID-19 Vaccination Funding, to continue the City's COVID-19 vaccination program; and

Now, Therefore, Be It Resolved, That the Detroit City Council hereby approves amending the Fiscal Year 2021-2022 Budget by appropriating \$18,675,763.15 for the City's COVID-19 vaccination program for eligible costs will be 100% reimbursed by the FEMA COVID-19 Vaccination Funding (Approp. No. 20787); and Be It Finally

Resolved, That the Deputy CFO/Budget Director is hereby authorized and shall take all appropriate actions necessary to implement the foregoing provisions and actions authorized by this resolution.

Honorable City Council:

Re: Application for Neighborhood Enterprise Zone Certificate for the Vanguard/E. Grand Blvd. Development. (AMENDED RESOLUTION)

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of one (1) application for a Neighborhood Enterprise Zone Certificate. This application has been reviewed and recommended for approval by the City Planning Commission, a copy of which is attached. Therefore, the attached resolution, if adopted by your Honorable Body, will approve this applications.

Respectfully submitted,

ANDRE P. GILBERT, II

Deputy City Clerk

By Council Member Ayers:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from ad valorem property taxes, and the imposition of specific property tax in lieu of ad valorem taxes; and

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992; and

Whereas, It has been determined that a building permit was issued on March 15, 2019, and the application was filed with the City of Detroit Clerk's office on June 3, 2019. MCL 207.774 states that the application must be filed before a building permit is issued or as otherwise provided by the local governmental unit by resolution if the application is filed not later than 6 months following the date the building permit is issued; and

Now, Therefore, Be It Resolved, That the Detroit City Council approves the submission of the application to the State Tax Commission, noting that the application was submitted not later than 6 months following the date the building permits were issued pursuant to the provisions of Public Act 147 of 1992; and

Be It Finally Resolved, That the Detroit City Council approves the following address for receipt of Neighborhood Enterprise Zone Certificate for a fifteen-year period:

September 2, 2021

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of 459 E. Milwaukee Avenue in the Vanguard/E. Grand Boulevard Development Neighborhood Enterprise Zone area. (CORRECTED RESOLUTION/RECOMMEND APPROVAL)

On July 23, 2019, your Honorable Body

approved the subject request for a Neighborhood Enterprise Zone (NEZ) Certificate Application. However, it was later discovered that the applicant received a building permit prior to applying for the NEZ certificate. As a result, the State of Michigan requires the resolution for the certificate be modified and approved as allowed by State law. Below is a summary of the NEZ certificate request.

The office of the City Planning Commission (CPC) has received an application requesting a NEZ certificate forwarded from the office of the City Clerk for the rehabilitation of one condominium property located at 459 E. Milwaukee Avenue. This application corresponds to a qualified facility that is to be newly renovated into a high-end residential condominium unit. The project consists of all new mechanical, electrical and plumbing systems. The rehabilitation also includes new cabinetry and millwork, drywall, insulation, flooring, counter tops, fixtures, and finishes. CPC staff has reviewed the application and recommends approval. The anticipated cost of rehabilitation is \$110,000.00. The subject property has been confirmed as being within the boundaries of the Vanguard/E. Grand Boulevard Development NEZ which was established by a vote of Council on April 30, 2003 and should be eligible for a NEZ certificate under State Act 147 of 1992 as currently written.

The NEZ certificate application was submitted after the issuance of applicable building permits. The building permits on record show that permits were issued on March 15, 2019, and the NEZ certificate application was filed with the City of Detroit Clerk's office on June 3, 2019. MCL 207.774 states the application must be filed before a building permit is issued or as otherwise provided by the local governmental unit by resolution if the NEZ certificate application is filed not later than 6 months following the date the building permit is issued. In order to proceed, the City of Detroit would have to approve a resolution which contains language that approves the submission of the application after the issuance of the building permit, however, no later than 6 months following the date the building permit was issued. The revised resolution is attached for your consideration.

**RESOLUTION IN SUPPORT OF  
 FUNDING CITY OF DETROIT  
 POLL WORKERS**

By ALL COUNCIL MEMBERS:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Poll workers are supporters of our democracy. These dedicated individuals sacrifice their time and in the period of COVID-19, risk exposure in order to help ensure that family, friends and neighbors have a meaningful voice in the democratic system; and

WHEREAS, We have seen the importance of the work done and resolve by our poll workers, with the historic 2020 Presidential Election. On Election Day 2020, chaos ensued at the TCF Center when GOP challengers tried to intimidate poll workers using various methods such as taking their masks off, ignoring social distancing guidelines and using verbally aggressive tactics; and

WHEREAS, Since November, we have witnessed an alarming increase in violent threats and harassment aimed at our frontline election workers. They have ranged from direct harassment to threats cloaked in the anonymity of social media. It has led many of these civic-minded individuals to resign from helping to administer our elections; and

WHEREAS, On September 14, 2021, the Detroit City Clerk requested a \$6M investment for the 2021 City of Detroit election cycle. The Clerk's request accounts for only 0.007% of the \$826M that the City of Detroit received from the American Rescue Plan Act; and

WHEREAS, Such an investment would improve and increase training for poll workers, securing adequate equipment and provide security to maintain the integrity of Detroit's elections; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council, urges the Mayor to immediately fund our City of Detroit poll workers to protect the democracy of our great city; BE IT FURTHER

RESOLVED, That the Detroit City Council requests that the Detroit City Clerk deliver a copy of this resolution to Mayor Mike Duggan, and to the City's Budget Director Tanya Stoudemire.

Re: Petition No. 1494 — Keyanna Scott request to vacate to utility easement the public alley bounded by Hern Avenue, Lakewood Avenue, Linville Avenue, and Newport Avenue.

Petition No. 1494 — Keyanna Scott request to vacate to utility easement the north-south public alley bounded by Hern Avenue, 60 ft. wide, Lakewood Avenue, 60 ft. wide, Linville Avenue, 60 ft. wide, and Newport Avenue, 60 ft. wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is made as part of a consolidation of property by adjacent owners.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering Division — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the vacation and conversion to utility easement provided certain provisions are met. The DWSD provisions are a part of the attached resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the vacation and conversion to utility easement of the alley. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Honorable City Council

Re: 7850-4%-1 Limited Dividend Housing Association LLC — Payment in Lieu of Taxes (PILOT).

Ginosko Development Company has formed 7850-4%-1 Limited Dividend Housing Association LLC (the "LDHA") in order to develop the Project known as 7850 East Jefferson 4% Phase 1. The LDHA owns twenty-four (24) condominium units in Building A of the 7850 East Jefferson Condominium, a low-income new modular construction development structured as one hundred fifty (150) separate condominium units. The 4% Phase 1 consists of twenty-four (24) units within a 4-story building of affordable housing for low-income residents. The site is bounded by East Jefferson on the north, Burns on the east, the Detroit River on the south and Baldwin on the west. The Project will include five (5) studio and nineteen (19) 1 bedroom/1 bath apartments.

The Michigan State Housing Develop-

ment Authority ("MSHDA") will provide a tax-exempt bond construction loan in the amount of \$1,750,000 in addition to a permanent MRF loan in the amount of \$182,338. The City of Detroit will provide a HOME loan in the amount of \$905,781. Raymond James Tax Credit Funds, Inc. will make Capital Contributions of \$752,246 which includes the purchase of Low Income Housing Tax Credits. Additionally, the Sponsor has agreed to defer \$123,136 of the developer fee.

Rents for all units have been set at or below thirty percent (30%) to sixty percent (60%) of the area median income (AMI), adjusted for family size. Residents in seven (7) units will receive subsidized project-based vouchers provided by the Detroit Housing Commission. All twenty-four (24) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

ALVIN HORHN

Deputy CFO/Assessor

By Council Member Sheffield:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *se seq.* (the "Act"), a request for exemption from property taxes has been received on behalf of Ginosko Development Company (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing pro-

jects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is constructing a housing project to be known as 7850 East Jefferson as twenty-four (24) condominium units in Building A of the 7850 East Jefferson Condominium, consisting of twenty-four (24) units in the apartment building located on a parcel of property owned by 7850-4%-1 Limited Dividend Housing Association LLC as described in Exhibit A to this resolution, with all units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now Therefore Be it Resolved, That in accordance with City Code Section 18-9-13, the Project known as 7850 East Jefferson as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, *et seq.*; And Be It Further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; And Be It Further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; And Be It Further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the

Board of Assessors that the Project is no longer eligible for the exemptions; And Be It Further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer — Office of the Assessor two certified copies of this resolution; And Be It Further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Honorable City Council  
 Re: 7850-4%-2 Limited Dividend Housing Association LLC — Payment in Lieu of Taxes (PILOT).

Ginosko Development Company has formed 7850-4%-2 Limited Dividend Housing Association LLC (the "LDHA") in order to develop the Project known as 7850 East Jefferson 4% Phase 2. The LDHA owns twenty-four (24) condominium units in Building C of the 7850 East Jefferson Condominium, a low-income new modular construction development structured as one hundred fifty (150) separate condominium units. The 4% Phase 2 consists of twenty-four (24) units within a 4-story building of affordable housing for low-income residents. The site is bounded by East Jefferson on the north, Burns on the east, the Detroit River on the south and Baldwin on the west. The Project will include five (5) studio and nineteen (19) 1 bedroom/1 bath apartments.

The Michigan State Housing Development Authority ("MSHDA") will provide tax-exempt bond construction loan in the amount of \$1,750,000 in addition to a permanent MRF loan in the amount of \$182,338. The City of Detroit will provide a HOME loan in the amount of \$905,781. Raymond James Tax Credit Funds, Inc. will make Capital Contributions of \$752,246 which includes the purchase of Low Income Housing Tax Credits. Additionally, the Sponsor has agreed to defer \$125,216 of the developer fee.

Rents for all units have been set at or below thirty percent (30%) to eighty percent (80%) of the area median income (AMI), adjusted for family size. Residents in seven (7) units will receive rental assistance from HUD in the form of a Housing Assistance Payment Contract which requires households to contribute only thirty percent (30%) of AMI towards the rent. All twenty-four (24) units will be sub-

ject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

By Council Member Sheffield:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *se seq.* (the "Act"), a request for exemption from property taxes has been received on behalf of Ginosko Development Company (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is constructing a housing project to be known as 7850 East Jefferson as twenty-four (24) condominium units in Building C of the 7850 East Jefferson Condominium, consisting of twenty-four (24) units in the apartment building located on a parcel of property owned by 7850-4%-2 Limited Dividend Housing Association LLC as described Exhibit A to this resolution, with all units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice

to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now Therefore Be it Resolved, That in accordance with City Code Section 18-9-13, the Project known as 7850 East Jefferson as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *et seq.*; And Be It Further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; And Be It Further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; And Be It Further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; And Be It Further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer — Office of the Assessor two certified copies of this resolution; And Be It Further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Honorable City Council  
Re:7850-9%-1 Limited Dividend Housing Association LLC — Payment in Lieu of Taxes (PILOT).

Ginosko Development Company has formed 7850-9%-1 Limited Dividend Housing Association LLC (the "LDHA") in order to develop the Project known as 7850 East Jefferson 9% Phase 1. The LDHA owns fifty-one condominium units in Building A of the 7850 East Jefferson Condominium, a low-income new modular construction development structured as one hundred fifty (150) separate condominium units. The 9% Phase 1 consists of fifty-one (51) units within a 4-story building of affordable housing for low-income residents. The site is bounded by East Jefferson on the north, Burns on the east, the Detroit River on the south and Baldwin on the west. The Project will include eighteen (18) studio, twenty (20) 1 bedroom/1 bath and thirteen (13) 2 bedroom/1 bath apartments.

A taxable bond construction and permanent mortgage loan in the amount of \$850,145 will be provided by the Michigan State Housing Development Authority ("MSHDA"). Raymond James Tax Credit Funds, Inc. will make Capital Contributions of \$8,448,123 which includes the purchase of Low Income Housing Tax Credits. A City of Detroit HOME Loan in the amount of \$810,219, a FHL Bank Indianapolis AHP Sponsor grant in the amount of \$250,000 and an equity bridge loan from Flagstar Bank in the amount of up to \$9,500,000 will be provided. Additionally, the Sponsor has agreed to defer \$255,712 of the developer fee.

Rents for all units have been set at or below thirty percent (30%) to sixty percent (60%) of the area median income (AMI), adjusted for family size. Residents in eleven (11) units will receive rental assistance in the form of a Housing Assistance Payment Contract administered by the Detroit Housing Commission which requires households to contribute only thirty percent (30%) of AMI towards the rent. All fifty-one (51) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

Honorable City Council:

Re: 7850-9%-2 Limited Dividend Housing Association LLC — Payment in Lieu of Taxes (PILOT).

Ginosko Development Company has formed 7850-9%-2 Limited Dividend Housing Association LLC (the "LDHA") in order to develop the Project known as 7850 East Jefferson 9% Phase 2. The LDHA owns fifty-one (51) condominium units in Building C of the 7850 East Jefferson Condominium, a low-income new modular construction development structured as

one hundred fifty (150) separate condominium units. The 9% Phase 2 consists of fifty-one (51) units within a 4-story building of affordable housing for low-income residents. The site is bounded by East Jefferson on the north, Burns on the east, the Detroit River on the south and Baldwin on the west. The Project will include eighteen (18) studio, twenty (20) 1 bedroom/1 bath and thirteen (13) 2 bedroom/1 bath apartments.

A taxable bond construction and permanent mortgage loan in the amount of \$850,145 will be provided by the Michigan State Housing Development Authority ("MSHDA"). Raymond James Tax Credit Funds, Inc. will make Capital Contributions of \$8,448,123 which includes the purchase of Low Income Housing Tax Credits. A City of Detroit HOME Loan in the amount of \$810,219, a FHL Bank Indianapolis AHP Sponsor grant in the amount of \$250,000 and an equity bridge loan from Fifth Third Bank in the amount of up to \$7,676,860 will be provided. Additionally, the Sponsor has agreed to defer \$250,381 of the developer fee.

Rents for all units have been set at or below thirty percent (30%) to sixty percent (60%) of the area median income (AMI), adjusted for family size. Residents in eleven (11) units will receive rental assistance in the form of a Housing Assistance Payment Contract administered by the Detroit Housing Commission which requires households to contribute only thirty percent (30%) of AMI towards the rent. All fifty-one (51) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

ALVIN HORHN

Deputy CFO/Assessor

By Council Member Sheffield:

Whereas, pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *se seq.* (the "Act"), a request for exemption from property taxes has been received on behalf of Ginosko Development Company the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the

Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is constructing a housing project to be known as 7850 East Jefferson as fifty-one (51) condominium units in Building C of the 7850 East Jefferson Condominium, consisting of fifty-one (51) units in the apartment building located on a parcel of property owned by 7850-9%-2 Limited Dividend Housing Association LLC as described in Exhibit A to this resolution, with all units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore Be It Resolved, That in accordance with City Code Section 18-9-13, the Project known as 7850 East Jefferson as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of

1966, as amended, being MCL 125.1401, *et seq.*; And Be It Further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; And Be It Further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; And Be It Further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; And Be It Further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer — Office of the Assessor two certified copies of this resolution; And Be It Further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Re: Wilson, Jr., Vidas M. vs. City of Detroit and Kashawn Nichols. Case No: 2019-178752-NI. File No: L20-00030 SVD.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. We, therefore, request authorization to settle this matter in the amount of Thirty Thousand Dollars and No Cents (\$30,000.00) and that your Honorable Body direct the Finance Director to issue a draft in that amount payable to Vidas M. Wilson, Jr. and his attorney, At Law Group, PLLC, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 2019-178752-NI approved by the Law Department.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Nine Thousand Dollars and Zero Cents (\$9,000.00) payable to Brent Glass and his attorney, Mike Morse Law Firm to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 20-009777-NI, approved by the Law Department.
