Whereas, The governing body of a local governmental unit by resolution may designate one or more neighborhood enterprise zones within that local governmental unit. A neighborhood enterprise zone shall contain not less than ten platted parcels of land. All the land within a neighborhood enterprise zone shall also be compact and contiguous. Contiguity is not broken by a road, right-of-way, or property purchased or taken under condemnation if the purchased or condemned property was a single parcel prior to the sale or condemnation; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZ Homestead areas is consistent with the adopted Master Plan of the City of Detroit as amended, and will further the economic and physical development of the City of Detroit by encouraging home ownership and the stabilization of neighborhoods, thereby keeping existing neighborhoods strong and helping to strengthen others; and

Whereas, The City of Detroit meets the distress criteria set forth within the Act; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives, and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within the proposed NEZH areas; and

Whereas, The total acreage of the neighborhood enterprise zones containing only homestead facilities designated under this act shall not exceed 10% of the total acreage contained within the boundaries of the local governmental unit or, with the approval of the board of commissioners of the county in which the neighborhood enterprise zone is located if the county does not have an elected or appointed county executive or with the approval of the board of commissioners and the county executive of the county in which the neighborhood enterprise zone is located if the county has an elected or appointed county executive, 15% of the total acreage contained within the bound-

aries of the local governmental unit; and

Whereas, Not less than 60 days before the passage of a resolution designating a neighborhood enterprise zone or the repeal or amendment of a resolution under this act, the clerk of the local governmental unit shall give written notice to the assessor and to the governing body of each taxing unit that levies ad valorem property taxes in the proposed neighborhood enterprise zone. Before acting upon the resolution, the governing body of the local governmental unit shall make a finding that a proposed neighborhood enterprise zone is consistent with the master plan of the local governmental unit and the neighborhood preservation and economic development goals of the local governmental unit. The governing body before acting upon the resolution shall also adopt a statement of the local governmental unit's goals, objectives, and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within the proposed neighborhood enterprise zone. Additionally, before acting upon the resolution, the governing body of a local governmental unit with a population greater than 20,000 shall pass a housing inspection ordinance; and

Whereas, Upon receipt of a notice from the clerk of the local unit of a resolution designating a NEZH area, the local assessor shall determine and furnish to the governing body of the local governmental unit the amount of the true cash value of the property located within the proposed neighborhood enterprise zone and any other information considered necessary by the governing body; and

Whereas, A resolution designating a NEZH area may be repealed or amended not sooner than 3 years after the date of adoption or of the most recent amendment of the resolution by the governing body of the local governmental unit. The repeal or amendment of the resolution shall take effect 6 months after adoption. However, an action taken under this act does not invalidate a certificate that is issued or in effect and a homestead for which a certificate is issued or in effect shall continue to be included in the total acreage limitations under this section until the certificate is expired or revoked; and

Whereas, The owner of a homestead located in a neighborhood enterprise zone may file an application for a neighborhood enterprise zone certificate with the clerk of the local governmental unit. The application shall be filed in the manner and form prescribed by the governing body of the local government unit. The clerk of the local governmental unit shall provide a copy of each homestead facility application to the assessor for the local governmental unit; and

Whereas, Not more than 60 days after receipt by its clerk of an application under this act, the governing body of the local governmental unit by resolution shall approve the application for a NEZH certificate. The clerk shall forward the application to the local assessor; and

Whereas, Not later than 60 days after receipt of an approved application for a homestead, and not later than 30 days, if an approved application is received after October 31, the local assessor shall determine whether the homestead complies with the requirements of this act. If the local assessor finds compliance, the local assessor shall issue a NEZH certificate to the applicant and send a certified copy of the certificate to each affected taxing unit. The assessor shall keep the certificate filed on record in his or her office. The local assessor shall maintain a record of all certificates filed. Notice of the local assessor's refusal to issue a certificate shall be sent by certified mail to the same persons; and

The Office of the Assessor request that a public hearing be scheduled on the issue of establishing these areas as NEZH areas, constant with the provisions of Public Act 147 of 1992, as amended, The Neighborhood Enterprise Zone Act.

**Human Resources Department  
Classification & Compensation Department**

April 9, 2021

Honorable City Council:

Subject: Request to amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2020-2021 Official Compensation Schedule to include the following pay range adjustments, subject to City Council approval:

<u>Class Code</u>	<u>Classification</u>	<u>Salary Range</u>
83-11-01	Elections Clerical Assistant — Limited Services	\$22,600 - \$29,400

**Request:**

The above recommendation is occasioned by a request from Christian Maduka, Manager 1 — Elections with the Department of Elections.

**Rationale:**

The recommendations are based on the expressed need to retain a more competent and talented workforce that has less turnover. The department believes the current pay range is not conducive to maintaining a talented workforce. The goal has been more difficult to achieve due complications that have arisen because of the pandemic. Given these factors, the department recruitments efforts have also been constrained.

To determine the appropriate salary range a market analysis was conducted with municipalities that had comparable positions.

Based upon the results of the analysis, Classification and Compensation recommends a salary range of \$22,600- \$29,400. The adoption of this salary range is essential for internal equity and attraction and retention efforts. The range is subject to City Council approval.

Respectfully submitted,  
DENISE STARR

By Council Member McCalister, Jr.:

Resolved, That the 2020-2021 Official Compensation Schedule is hereby amended to reflect the following pay range adjustment, effective upon Council's approval.

Honorable City Council:

Subject: Request to amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2020-2021 Official Compensation Schedule to include the following pay range adjustments, subject to City Council approval:

<u>Class Code</u>	<u>Classification</u>	<u>Salary Range</u>
04-20-35	Risk Manager	\$86,151 - \$112,991
07-90-47	Supervising Safety Officer	\$62,795 - \$81,917
07-90-37	Safety Officer	\$49,656 - \$64,480
09-20-33	Workers Compensation Specialist	\$42,649 - \$52,615

**Request:**

The above recommendations are at the request of Ursula Holland, Chief Employee Services Officer of the Human Resources Department.

**Rationale:**

The recommendations are based on the expressed need to increase efficiencies and provide a higher level of employee safety activities under the direction of Human Resources. These enhancements will provide short-term and long-term benefits such as additional responsibilities, increased visibility and ensuring workplace safety. This will increase training activities to meet required Michigan Occupational Safety and Health Administration (MIOSHA), Occupational Safety and Health Administration (OSHA) and Collective Bargaining Agreement (CBA) regulations. The salary adjustments are imperative to attract highly skilled individuals.

To determine the appropriate pay ranges for the classifications, a market study was conducted by Human Resources Classification and Compensation using data from external survey sources with comparable positions. The proposed ranges have been deemed to be externally competitive, internally equitable, and is based on the City of Detroit's ability to fund the increase. The proposed recommendations are subject to City Council approval.

**RESOLUTION TO OPPOSE MICHIGAN SENATE BILL 218**

By Council Member Raquel Castaneda-Lopez:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, Discrimination aimed against an entire segment of any population is wrong, and for decades, our state lawmakers have opposed efforts to expand civil rights laws to the LGBTQ community, citing religious reasons. Although the consequential harms suffered by these people, are difficult to justify on any grounds; and

WHEREAS, Senate Bill 218, sponsored by Sen. Lana Theis, R-Brighton, favors the established ideology of exclusion, by attacking the civil rights of children. Senate Bill 218 resolves to prohibit transgender youths from playing on high school sports teams that do not conform to their biological gender. Furthermore, the bill is unclear on how the policy would be enforced or what the penalties would be for a student athlete, school or district, found in violation of the proposed law; and

WHEREAS, On March 15, 2021, the Detroit Free Press reported that MHSAA spokesman Geoff Kimmerly stated that in the last five years, only 10 out of nearly 180,000 student athletes, have used the Michigan High School Athletic Association's transgender athlete policy and all 10 were found in compliance and were allowed to play; and

WHEREAS, In fact, Senate Bill 218 could actually prevent girls across the state from participating in sports. In Michigan, girls are playing tackle football at high schools in Ecorse, Detroit and other districts. Conversely, many smaller schools quite often have to combine teams for sports, including golf, wrestling and swimming; and

WHEREAS, Some Michigan Senate Republicans find it justified to target transgender youth with legislation that is unnecessary and unconcealed. This bill is nothing more than a dog whistle that implies that LGBTQ people should not be treated fairly across all areas of life, just because of who they are; and

WHEREAS, The Detroit City Council acknowledges how power extends not only by order, but through suppression and harassment urges the Michigan Legislature to oppose Senate Bill 218; NOW THEREFORE BE IT

RESOLVED, That copies of this resolution be forwarded to the Detroit delegation in the State Senate and State House, Senate Committee on Education and

Career Readiness, State Senator Lana Theis, Mayor Mike Duggan and Governor Whitmer.

Honorable City Council:  
 Re: Petition No. 1403 — Ladder 4, LLC request to vacate the north-south public alley bounded by West Grand Blvd., Vinewood Avenue, Michigan Avenue, and Hubbard Avenue.  
 Petition No. 1403 — Ladder 4, LLC request to vacate the north-south public alley bounded by West Grand Blvd., vari-

ous width, Vinewood Avenue, 66 ft. wide, Michigan Avenue, 120 ft. wide, and Hubbard Avenue, 80 ft. wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made in part of the development of a parking lot to service the business located at 3396 Vinewood.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the vacation and conversion to utility ease-

ment provided certain provisions are met. The DWSD provisions are a part of the attached resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the vacation and conversion to utility easement of the alley. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

**RESOLUTION OF THE DETROIT CITY COUNCIL OPPOSING THE PORTIONS OF THE PROPOSED SENATE ELECTION BILLS PACKAGE (MICHIGAN SENATE BILLS 273 THROUGH 311) THAT, IF ADOPTED, WOULD RESTRICT ACCESS TO VOTING FOR ALL MICHIGAN VOTERS**  
By COUNCIL PRESIDENT JONES:

WHEREAS, Michigan's November 2020 statewide election, which included the presidential election, was the object of numerous audits and unsuccessful court challenges, all leading to the same conclusion — it was one of the most secure and inclusive elections in Michigan history; and

WHEREAS, A record number of citizens of all party affiliations as well as independents participated in the election, despite the extreme adversity presented by conducting an election in the midst of a global pandemic. It is estimated that approximately 3.3 million absentee ballots were cast in Michigan out of approximately 5.5 million total votes; and

WHEREAS, Michigan's citizens acted to expand access to absentee voting by adopting a 2018 ballot initiative, which amended the Michigan Constitution to allow no reason absentee voting, as well as automatic voter registration and same day voter registration. Significantly, the initiative passed by a two-to-one margin; and

WHEREAS, In 2018, Michigan voters also adopted a Constitutional amendment to establish a commission of citizens with exclusive authority to adopt district boundaries for the Michigan Senate, Michigan House of Representatives and U.S. Congress, every 10 years — further demonstrating the desire of citizens to level the partisan playing field. The redistricting commission, whose work has been delayed by the census, will complete its work in the next year; and

WHEREAS, On March 24, 2021, several state senators introduced a package of thirty-nine (39) proposed bills, now pending in the Senate Committee on Elections, addressing perceived insufficiencies in the state's election process. In effect, however, the proposed legislation is not a "fix" — unless the "problem" to be remedied is too many Michigan citizens being able to vote. There simply has been no evidence presented of security failures or wrongdoing with respect to Michigan's current election process. The bills' subject matter includes, but its not limited to, the following: absentee voting provisions, ballot drop boxes, voter identification requirements, polling place challengers, election administration rules, and video surveillance of vote counting; and

WHEREAS, Rather than improving the elections system, several of the pending bills will have a serious negative impact on Michigan voters, and particularly on

citizens of the City of Detroit. For example, Senate Bill 273 proposes to regulate ballot drop boxes by requiring unduly restrictive, unrealistic, and unfunded security protocols. The bill requires that all such boxes be approved by both the Secretary of State and the board of county canvassers for the county in which located, including existing boxes; if not, they must be removed. Beginning in June 2022, specific video recording, motion detecting, and lighting must be in place — adding to the ever increasing surveillance culture in Michigan, rather than ensuring the privacy of the voting process. Similar privacy issues apply to SB 275. Boxes will be required to be specifically labelled, and only certain employees permitted to collect the ballots; a “chain of custody” log will be required — complicating factors to address heretofore nonexistent problems; and

WHEREAS, Senate Bill 276 gives poll challengers and poll watchers the opportunity to videotape and photograph activities at the precincts and absentee counting boards while votes are being tabulated. Not only does this bill jeopardize the constitutional right of casting a secret ballot, but it also invites hostile and chaotic conditions at the precinct and the absentee counting boards by encouraging intimidation of election works and observers; and

WHEREAS, Senate Bill 284 prohibits the State or a local unit of government from accepting a grant from an individual or entity to be used for election related equipment or activity, including advertising, voter information, registration materials, etc., even if the state fails to adequately fund the election. This proposal eliminates the grants and other financial support relied upon by many financially strapped local governments and is written in broad enough terms to prohibit donations of food and other in-kind items. It unnecessarily punishes all jurisdictions; and

WHEREAS, Senate Bill 285 severely restricts access to absentee ballots/voting by mail by requiring an applicant for a ballot to present either a voter registration card or a copy of the voter’s identification with the application. Otherwise, the voter can only be issued a provisional ballot. This requirement also applies to deployed members of the uniformed services, including those serving overseas. This added requirement would duplicate existing processes, potentially cause a breach of identity by requiring that personal information be sent through the mail, and could delay election results; and

WHEREAS, Senate Bill 286 prohibits the use of drop boxes on Election Day and after 5 p.m. on the evening before Election Day — when the boxes have been observed to be heavily relied upon

by voters. This restriction, or any such restriction, would work to the detriment of Detroiters and all voters statewide, regardless of their political leanings; and

WHEREAS, Senate Bill 287 prohibits the Secretary of State from providing funding to or reimbursing a city for pre-paid postage on absentee ballot envelopes, as well as prohibiting a city or township from providing same. Providing postage for return of absentee ballot return enhances security and ensures proper return of ballots and is an issue of local concern; and

WHEREAS, Senate Bill 294 requires that there be no more than two election inspectors from one political party for every one inspector from the other party. This would be impossible to achieve in Detroit and other municipalities — as acknowledged in current law — and would also lead to attempts to throw out votes in precincts where the standard is not met; and

WHEREAS, Senate Bill 300, offering early voting on one day only, is a disingenuous effort to offer electors a new option to vote. If early voting is an authentic attempt to offer a viable choice to electors, the Legislature should provide 7 days of early voting; if this is not possible then 3-4 days should be the alternate. Otherwise, throughout the day, long lines will exist, which will discourage the use of early voting and may discourage electors from returning a second time on Election Day.

WHEREAS, Senate Bill 303 bans the current practice of allowing a voter without identification from signing a sworn affidavit to access a ballot. Rather, in such circumstances, a voter would be provided with a provisional ballot only; and

WHEREAS, Senate Bill 310 is among the most egregious of the proposed “reforms”. It proposes to prohibit sending an absentee ballot application to an elector unless that elector first requests it. However, the bill goes further, prohibiting even a direct link to an absent voter application on the Secretary of State’s website. At a time in history when most necessary government forms are readily accessible online, this prohibition is intentionally regressive and will serve to suppress access to the ballot box by voters in Detroit and across the state; and

WHEREAS, Considered individually, or as a whole, these proposed bills serve no apparent purpose other than the obvious, i.e., the disenfranchisement of Black and Brown communities in particular, as well as all historically disadvantaged members of our community — just as the needle was beginning to move in the other direction. However, their effect of many of them, if adopted, will be to suppress all votes, regardless of party affiliation or ethnicity; and

WHEREAS, Detroiters and all Michigan citizens believe that living under a democracy is our fundamental right. Our right to vote is the bedrock of our democracy. Despite the continued cries of the (unproven) need for "reform", these bills reform nothing. Rather, they serve to silence our city and others like Detroit. They will not make our elections safer and more secure. They will only shut the door in the faces of the citizenry in a manner not seen since the days of Jim Crow. NOW THEREFORE, BE IT

RESOLVED, In the interest of promoting much needed access to civic engagement for the citizens of the city of Detroit and the entire state of Michigan, the Detroit City Council strongly urges the Michigan Legislature to reject the portions of this thirty-nine (39) Bill package, now pending before the Senate Committee on Elections, that propose new and expanded restrictions on voting access. BE IT FINALLY

RESOLVED, The Detroit City Clerk is directed to send copies of this resolution to the Detroit delegation of the Michigan Legislature, the Michigan Senate Committee on Elections, the Michigan House Committee on Elections and Ethics, Mayor Mike Duggan, the City of Detroit's Lansing lobbyist, and Governor Gretchen Whitmer.

Now, Therefore, Be It Resolved, That Detroit City Council hereby approves acquisition of the Properties from the DLBA for no consideration; and

Resolved, That the Director of GSD, or the authorized designee, is authorized to accept and record a deed to the Property to the City of Detroit, as well as execute any such documents as may be necessary or convenient to effect the transfer of the Property from the Owner to the City of Detroit; and

Resolved, General Services Department is authorized to enter into the Adopt-A-Landscape Partnership Agreement for Fort Street Bridge Park with Downriver Delta Community Development.

**ADOPT-A-LANDSCAPE PARTNERSHIP AGREEMENT FOR FORT STREET BRIDGE PARK AND DOWNRIVER LINKED GREENWAY DETROIT GATEWAY**

This Partnership Agreement ("Agreement") is entered into between the CITY OF DETROIT, a Michigan municipal corporation acting through its General Services Department ("CITY") and the DOWNRIVER DELTA COMMUNITY DEVELOPMENT CORPORATION, a Michigan nonprofit corporation ("DDCDC"), for the purpose of establishing and maintaining the Fort Street Bridge Park and Downriver Linked Greenway Detroit Gateway through the Michigan Department of Transportation's Adopt-a-Landscape program. The CITY and DDCDC may each be referred to herein as a "Party" or collectively as the "Parties" to this Agreement, as applicable.

**RECITALS**

WHEREAS, the Michigan Department of Transportation ("MDOT") administers an Adopt-a-Landscape program, through which local community organizations may secure a permit to assume responsibility for Landscaping and maintenance of certain MDOT-owned property; and

WHEREAS, MDOT owns-certain property known as the Fort Street Bridge Park, located at 130 South, Street in Detroit, and the Downriver Linked Greenway Detroit Gateway, located at 209 and 217 Oakwood Street in Detroit, which are depicted in the maps provided in Exhibit A of this Agreement (collectively, the "Park");

WHEREAS, DDCDC desires to assume responsibility for landscaping and maintenance activities at the Park through MDOT's Adopt-a-Landscape program; and

WHEREAS, the CITY desires to support DDCDCs landscaping and maintenance activities at the Park;

NOW, THEREFORE, In light of the above-referenced recitals, all of which are incorporated into this Agreement, and in consideration of the mutual covenants contained herein, the Parties hereby agree as follows:

**Section 1: Purpose.** The Parties mutually understand and agree that the purpose of this Agreement is to beautify the Park and improve its accessibility to the public through the installation of various landscaping and regular maintenance activities, all undertaken through MDOT's Adopt-a-Landscape program.

**Section 2: Adopt-a-Landscape Permit.** The Parties acknowledge that the CITY has applied to MDOT for a permit ("Permit") to assume landscaping and maintenance responsibilities for the Park and has been issued such Permit (permit #82073-056100-18-070219), effective for the period starting July 2, 2019 and ending August 18, 2021, included as Exhibit B of this Agreement. The CITY will advise DDCDC of all terms and conditions of the Permit that may be applicable to its activities at the Park. DDCDC will assume responsibility for all such terms and conditions. In the event that DDCDC determines that it cannot ensure compliance with any particular term or condition of the Permit that may apply to its activities, it must promptly notify the CITY, and the Parties will make reasonable efforts to address responsibility for such term or condition by mutual agreement in writing, which will be incorporated by reference into this Agreement.

Prior to conclusion of the current term of the Permit, the CITY will commence preparation of an application to renew its adoption of the Park through MDOT's Adopt-a-Landscape program. The CITY will make reasonable efforts to accommodate DDCDC's participation in the renewal application process and will provide DDCDC a reasonable opportunity to review and comment upon the complete application prior to its submission to MDOT. DDCDC understands that the renewal application may require certain details regarding its planned activities at the Park, and that following submission of the application, MDOT may request certain additional information that DDCDC is best suited to provide. DDCDC will support the CITY's application efforts by timely providing, upon request by the CITY, any documentation and other information that may be necessary to complete the application or that MDOT may request as part of its review of the application. Such information may include, but is not limited to, (1) plans and elevations for landscaping

proposed to be installed at the Park, (2) work plans and schedules for maintenance of the Park, and (3) identification of any Vendors, as herein defined, that DDCDC intends to engage to perform any Activities at the Park.

**Section 3: Landscaping and Maintenance Activities.** The Parties acknowledge that DDCDC, in consultation with the CITY, has developed a scope of all landscaping and maintenance activities at the Park ("Activities"), including the provision of all associated plantings, materials, and equipment, for the complete duration of the term of this Agreement. Such Activities are set forth in Exhibit C of this Agreement. Upon DDCDC's receipt of written notice from the CITY regarding MDOT's issuance of the Permit, and upon completion of any construction or maintenance work not contracted by DDCDC, DDCDC will assume responsibility for performance of all such Activities in accordance with the terms of the Permit. DDCDC will assume such responsibility at its sole cost and expense. All Activities that are not set forth in Exhibit B will require advance confirmation by the CITY prior to their commencement that they are in accordance with the terms of the Permit. Confirmation by the CITY will not be unreasonably withheld; however, the CITY will not approve any Activity that is not in compliance with its permit or to which MDOT objects for any reason.

DDCDC will perform all Activities with reasonably sufficient diligence in order to keep the Park in compliance with the terms and conditions of the Permit, and the CITY does not intend to enforce a level of diligence beyond what is expected under the Permit. In the event that DDCDC fails to perform any Activities such that the Park falls out of compliance with the terms and conditions of the Permit, or in the CITY's reasonable determination are likely to cause the Park to fall out of compliance with the terms and conditions of the Permit, the CITY will notify DDCDC of such failure and work with DDCDC to cure such failure and return the Park to compliance. If, upon notification by the City and a reasonable opportunity to cure, the Park remains out of compliance with the terms and conditions of the Permit, the CITY may, in its sole discretion, either (1) consider such failure to constitute a material breach of this Agreement, or (2) upon providing advance written notice to DDCDC, undertake such Activities in order to return the Park into compliance and seek reimbursement for the costs of such work from DDCDC. If the CITY decides to undertake the Activities, it may invoice DDCDC for its associated costs and DDCDC must submit reimbursement to the CITY within thirty (30) days following receipt of the invoice. DDCDC's failure to timely submit

reimbursement to the CITY will constitute a material breach of this Agreement.

**Section 4: Signage.** Upon issuance of the permit, MDOT may provide signage to identify the Park as participating in its Adopt-a-Landscape program. DDCDC understands that such signage will be provided at MDOT's sole discretion and it will be DDCDC's sole responsibility to secure, install and maintain any signage that is provided.

**Section 5: Utilities.** The Parties anticipate that the Activities at the Park may necessitate access to electrical, water, sewerage, and other utility connections (collectively, "Utilities"). DDCDC may determine which specific Utilities will be necessary or convenient for the Activities at the Park. Upon such determination, and solely as incurred during the Term, DDCDC will be solely responsible for the connection, maintenance, and disconnection of all such Utilities, in connection with the Activities, in coordination with applicable Utility providers, as well as for payment of all associated fees, charges, and other expenses associated with such Utilities.

**Section 6: Vendors and Volunteers.** In discharge of its obligations under this Agreement, DDCDC may engage certain third-party contractors, consultants, and other vendors (collectively, "Vendors"), as well as certain individuals on an unpaid volunteer basis ("Volunteers") to perform certain Activities at the Park.

DDCDC will be responsible for the solicitation, evaluation, selection, oversight and payment of all Vendors, all of which must be undertaken in accordance with the terms and conditions of this Agreement and the Permit. The CITY will have no contractual or other relationship with any Vendor and will have no obligation to any Vendor. DDCDC will notify the CITY of each Vendor that it engages at the Park, including the Vendor's name, scope of services, and term of service.

DDCDC will be responsible for the solicitation, selection, and oversight of all Volunteers, all of which must be undertaken in accordance with the terms and conditions of this Agreement and the Permit. DDCDC will ensure that all Volunteers acknowledge MDOT safety requirements and remain in compliance with such requirements at all times while performing Activities at the Park. Such requirements are set forth in MDOT Form No. 3735, provided in Exhibit D to this Agreement, among other MDOT publications, subject to additional requirements included in the terms and conditions of the Permit.

**Section 7: Municipal Support.** The CITY understands that as part of the permit application process, MDOT may require an indication of support for adoption of the Park from its local municipality. The City represents that by entering into this Agreement, it provides its full support

for adoption of the Park and DDCDC's performance of all Activities associated with such adoption, and the City intends for this Agreement to constitute full indication of its support.

**Section 8: Reporting and Record-keeping.** DDCDC must annually report to the CITY regarding the status of the Park and its activities at the Park. The specific form, format, and content of such reporting may be subject to mutual agreement by the Parties, but each such report must at a minimum include: (1) summary of the Park's physical condition, including the condition of new plantings and other landscaping, (2) summary of Activities performed at the Park during the previous year, including a schedule and scope of all maintenance work, (3) list of all Vendors engaged during the previous year, including the name, scope of services, and term of service for each, (4) list of Volunteers, whether individuals or groups, that have performed Activities at the Park during the previous year, and (5) discussion of public utilization of the Park and other information that may help inform the Parties as to their achievement of the objectives of this Agreement.

Not less than one year prior to the anticipated conclusion of the initial 5-year term of the Permit, the Parties must meet, whether in person or via video conference, telephone, or other convenient means, to review the physical status of the Park, public utilization of the Park, and DDCDC's performance of Activities at the Park and to determine whether the Permit should be renewed. If the Parties mutually agree that the Permit should be renewed, the CITY, with DDCDC's support, will take appropriate action to apply to MDOT to renew the Permit under the terms set forth in Section 2 of this Agreement.

Additionally, the Parties may meet at their mutual discretion and convenience to review DDCDC's performance of Activities at the Park, public utilization of the Park, and other relevant issues that may arise from time to time.

Each Party will maintain information pertinent to its activities under this Agreement for at least four (4) years following the conclusion or earlier termination of this Agreement, but in no case for less time than may be required to maintain compliance with Applicable Laws and MDOT requirements.

**Section 9: Indemnification, Limitation on Liability, and Insurance.** DDCDC will indemnify, defend, and hold the CITY harmless against and from any and all liabilities, obligations, damages, penalties, claims, costs, charges, losses and expenses (including, without limitation, reasonable fees and expenses for attorneys, expert witnesses and other consultants) that may be imposed upon, incurred by, or asserted against the CITY by any

third party, directly arising from DDCDC's gross negligence or willful misconduct.

Except for DDCDC's indemnification obligations, in no event, regardless of any claim or action, whether brought in contract, tort, warranty or otherwise, shall either party be liable for any indirect, special, punitive, incidental or consequential damages from any cause whatsoever, regardless if any remedy herein fails, including without limitation, damages for loss of profit or opportunity. Except for DDCDC's indemnification obligations, DDCDC will not be liable for damages exceeding DDCDC's applicable insurance coverage requirements, as set forth in this Section.

DDCDC must secure and maintain at all times during the term of this Agreement, and must cause each Vendors to secure and maintain at all times during its term of service, at their sole expense, insurance coverages at levels sufficient to meet all MDOT and CITY requirements, including:

- Commercial General Liability Insurance (Broad Form Comprehensive) written on an occurrence-based coverage, with a minimum combined single limit of \$1,000,000.00 for each occurrence of bodily injury and property damage, and \$2,000,000.00 in the aggregate, with the general aggregate limit applying per location.

- Automobile Liability Insurance covering all owned, hired, and non-owned vehicles with Michigan No-Fault Coverage plus residual liability coverage with a minimum combined single limit of \$1,000,000.00 for each occurrence of bodily injury and property damage.

- Worker's Compensation Insurance for employees which meets Michigan's Statutory minimum requirements and Employer's Liability Insurance with the minimum limits of \$500,000.00 for each disease, person, and accident.

Such insurance policies must name DDCDC as the insured. The CITY, identified as "The City of Detroit," must be named as an additional insured on the certificates of insurance, without limitation, for all preceding coverage, excluding workers' compensation and employers' liability insurance. Each policy must be accompanied by a commitment from the insurer that such policies will not be canceled, modified, or coverage reduced without at least thirty (30) days prior notice to the CITY. Certificates of Insurance evidencing such coverage and endorsements must be submitted to the CITY prior to the commencement of any Activities at the Park by DDCDC or any of its Vendors or Volunteers.

**Section 10: Compliance with Laws and Non-Discrimination.** Each Party acknowledges that it is individually responsible for maintaining compliance in

all respects with all applicable federal, state, and local laws, rules, regulations, and orders having the binding effect of law, including but not limited to the rules and guidelines for MDOT's Adopt-a-Landscape program, the terms and conditions of the Permit, and any other directive or other instruction that MDOT may issue as a necessary condition for participation in the Adopt-a-Landscape program (collectively, "Applicable Laws"). Neither Party will be responsible for ensuring the other Party's compliance with Applicable Laws at any time, unless so required under Applicable Laws.

The Parties will, in performing its activities set forth herein, refrain from refusing, restricting, withholding, or denying any accommodations, services, privileges, advantages or facilities or otherwise discriminating, whether directly or indirectly, on the basis of race, color, ethnicity, national origin, religious belief or practice, age, disability, pregnancy, marital status, parental status, military status, employment or educational status, gender, sex, sexual orientation, gender identity or expression, or any other protected classification, in accordance with Chapter 27 of the Detroit City Code and other Applicable Laws.

**Section 11: Avoidance of Conflicts.** DDCDC represents that it presently has no interest, direct or indirect, and does not intend during the term of this Agreement to acquire any such interest or employ any person having any such interest, which would conflict in any manner or degree with its performance under this Agreement.

**Section 12: Effective Date, Term, and Termination.** This Agreement is effective upon its execution by an authorized representative of each of the Parties, approval by the City of Detroit Law Department, and adoption by resolution of the Detroit City Council, ~~approved by the Mayor of the City of Detroit,~~ in accordance with the terms of the 2012 City Charter ("Effective Date"). This Agreement will be effective for a term commencing on the Effective Date and continuing until the ~~earlier of 20 years~~ or revocation or termination of the Permit, subject to its periodic renewal by the CITY (the "Term"), unless earlier terminated as set forth in this Agreement.

This Agreement can be terminated for cause by either Party upon a finding of material breach and failure to cure such breach by the other Party. If a Party determines that the other Party is in material breach of this Agreement, it may provide written notice of such determination to that other Party. The breaching Party will have thirty (30) days after such written notice to cure the breach. If the breaching Party fails to timely cure, the Party not in breach may terminate this Agreement, effective fifteen (15) days after giving notice of termination to the breaching Party.

This Agreement can be terminated without cause by either Party upon ninety (90) days' notice prior to the effective date of termination.

Upon the expiration or termination of this Agreement, each Party will wind down its activities under this Agreement so as to reasonably minimize the inconvenience to the other Party. If this Agreement expires due to MDOT's denial, revocation, or expiration of the Permit, the CITY will notify DDCDC of such occurrence. Alternatively, if this Agreement is terminated earlier by the Parties, the CITY will notify MDOT of the termination of this Agreement and apply to terminate the Permit. In any case, DDCDC will terminate its contracts with all Vendors and wind down such Vendor's activities, cease engagement of Volunteers, physically secure Park assets to the extent reasonably necessary to prevent their damage, deterioration, or destruction, and undertake any other actions as may be directed by MDOT.

**Section 13: Amendments.** No amendment to this Agreement will be effective unless it is in writing, expressly makes reference to this Agreement, is approved by the City of Detroit Law Department, is executed by a duly authorized representative of each Party, and is approved by adoption of a resolution of the Detroit City Council ~~as approved by the Mayor of the City of Detroit,~~ in accordance with the terms of the 2012 City Charter.

**General Services Department**

May 5, 2021

Honorable City Council:

Re: Authorization to acquire two (2) Parcels from the Detroit Land Bank Authority for Joe Louis Greenway Project.

The City of Detroit (“City”), by and through the General Service Department/ Parks and Recreation Division (“GSD”), is

hereby requesting the authorization of your Honorable Body to acquire certain vacant parcels from the Detroit Land Bank Authority ("Acquisition Parcels") for the expansion of the Joe Louis Greenway:

- District 7 (2 parcels)
- I-96 Crossing (2 parcels)

In accordance with the requirements of Detroit City Code, Section 2-1-12, City Council is required to approve any gift, grant, devise or bequest of real or personal property to be used for any public purpose. Pursuant to the Memorandum of Understanding ("MOU") between the City of Detroit and the Detroit Land Bank Authority, approved by the Detroit City Council in May 2020, the Detroit Land Bank Authority may not transfer ten (10) or more parcels of property received from the City to the same transferee within any rolling 19-month period without the prior approval of the Mayor and City Council.

We hereby request that your Honorable Body approved the attached resolution authorizing the Detroit Land Bank Authority to transfer two (2) vacant parcels to the Parks and Recreation Division for the first phase of the Joe Louis Greenway.

Respectfully submitted,

BRAD DICK  
Group Executive

General Service Department  
By Council Member Tate:

Now, Therefore Be It Resolved, That City of Detroit ("City") through the General Service Department ("GSD") wishes to acquire two (2) vacant parcels within the City of Detroit, Michigan, more particularly described in the attached Exhibit A ("Acquisition Parcels") from the Detroit Land Bank Authority ("DLBA").

Whereas, Building, Safety, Engineering and Environmental Department has reviewed the environmental report on the environmental conditions of the Acquisition Parcels attached herein as Exhibit A; and

Whereas, In accordance with Chapter 2, Article 1, Division 2 of the Detroit City Code: (1) the City Council finds that the Acquisition Parcels have received appropriate environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) the environmental inquiry has shown that past use of the Acquisition Parcels for the period investigated has been solely for residential purposes and that the Acquisition Parcels do not pose an adverse environmental impact, therefore none of the Acquisition Parcels are considered a facility; and (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and therefore waives the requirements that the seller bear the cost of the environmental inquiry; Now Therefore Be It

Resolved, That Detroit City Council hereby approves acquisition of the Acqui-

sition Parcels from the DLBA for no consideration; and Be It Further

Resolved, That the Director of GSD, or her authorized designee, is authorized to accept and record a deed to the Acquisition Parcels to the City of Detroit, as well as execute any such documents as may be necessary or convenient to effect the transfer of the Acquisition Parcels from the DLBA to the City of Detroit; and Be It Further

Resolved, That the Director of GSD, or his authorized designee is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to correction of or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Acquisition Parcels to the City, provided that the changes do not materially alter the substance or terms of the transfer; and Be It Finally

Honorable City Council:

Re: Secondary Street Sign for Anne Parsons.

In accordance the provisions of Chapter 43 of the 2019 Detroit City Code, *Streets, Sidewalks, and Other Public Places, Arti-*

cle III, *Opening, Closing, Extending, Widening, Vacating, Naming, and Renaming of Streets, and Assigning Secondary Names to Streets*, Division 3, *Secondary Naming of Streets* the request to assign a Secondary Street Sign in honor of Mrs. Anne Parsons at the intersection of Parsons Street and Woodward Avenue is being forwarded to your Honorable Body for your review and consideration.

This request has been verified as being received by the Office of the City Clerk prior to the December 31st deadline, and is one of two requests submitted for consideration in the first quarter of 2021. In addition to the required application and biographical information six letters of support have been provided by the offices of Council President Brenda Jones — At-Large, Council President Pro Tem Mary Sheffield — Council District 5, Councilman Scott Benson — Council District 3, Councilwoman Raquel Castaneda-Lopez — Council District 6, Councilman Roy McCalister, Jr. — Council District 2, and Councilman Andre L. Spivey — Council District 4 which waives the requirement for the petitioner to acquire signatures from residents, occupants, and property owners within 300 linear feet of the proposed intersection where the signs are to be installed. The letters of support also meet the provisions of Section 43-3-4 l(c)(3)(b)(ii) which allows separate letters of support from at least three City Council Members to be submitted describing the particular circumstances that justify exempting the proposed honoree from the requirements that an honoree be deceased for a period of not less than five years.

The honoree Mrs. Anne Parsons has met the approval criteria for the assigning of a Secondary Street Sign as outlined in Section 43-3-41 of the City Code. Whereas the assignment of a secondary street sign is for purposes of honorary recognition only for an individual who has achieved prominence as a result of his or her significant, positive, and extraordinary contributions to the City of Detroit, State of Michigan, the United States of America, or the international community; in reviewing the biographical and supporting documentation provided by the applicant, the Detroit Symphony Orchestra, the Legislative Policy Division and Historic Designation Advisory Board find that the cultural contributions of Mrs. Anne Parsons made through her systemic transformation of the Detroit Symphony Orchestra under her leadership as President and CEO since 2004, as well as the DSO's efforts to increase accessibility to the soul-steering, classical, revolutionary, and contemporary musical selections performed by the Detroit Symphony Orchestra to the residents of the City of Detroit, students in the Detroit Public School Community District, residents throughout the Metro-Detroit region, and audiences throughout

the world far exceed this requirement. Mrs. Parsons oversaw the launch of "Live from Orchestra Hall" which is the orchestra's industry-leading series of live HD webcasts that engage audiences worldwide. The series was expanded with "Classroom Edition" in 2014, with educational concerts by the DSO reaching tens of thousands of students in Detroit schools and around the world online each year. To date, "Live from Orchestra Hall" has reached well over two million views.

In July 2017, the DSO toured Japan and China, performing its first international concerts in 16 years while partnering with many Detroit-based companies.

Anne's vision of making the DSO more accessible has also led to an increased focus on serving local audiences through innovative new products, including the new Detroit Neighborhood Initiative and Detroit Harmony, its collaborative plan to provide an instrument and music education to any Detroit student who wants to learn. This most recent work stems from the DSO's 2017 Social Progress Initiative, a commitment that the organization made to serving the people of Detroit by upholding diversity as a core value and presenting programs that improve the quality of life of participants and elevate artistic expression.

This request has been submitted in compliance with the provisions of Section 43-3-42(b) — *Location of secondary street sign*, which requires that the identified intersection be in an area significant to the honoree's historical residence or the honoree's historical contribution. Near the intersection of Parsons Street and Woodward Avenue in City Council District 6, we find the historic Orchestra Hall at the Max M. Fisher Music Center. Orchestra Hall is an elaborate concert hall renowned for its superior acoustic properties and serves as the home of the internationally known Detroit Symphony Orchestra, the fourth oldest orchestra in the United States. The 2,014-seat hall was designed by the noted theater architect, C. Howard Crane. The first concert took place on October 23, 1919 and the hall remained the home of the Detroit Symphony Orchestra until 1939. Due to the financial difficulties of the Great Depression, the orchestra was compelled to leave Orchestra Hall and enter into a more economical arrangement to share the Masonic Temple Theatre. Orchestra Hall was vacant for two years until it was purchased by new owners. For ten years Orchestra Hall presented jazz artists under the name Paradise Theater, opening on Christmas Eve 1941. The Paradise Theatre hosted the most renowned jazz musicians, including Ella Fitzgerald, Billie Holiday, Count Basie, and Duke Ellington. The hall was added to the National Register of Historic Places in 1971. The DSO moved back into Orchestra Hall in 1989.

As previously stated the honoree Mrs. Anne Parsons has served as the President and CEO of the Detroit Symphony Orchestra since 2004 and has been lauded as the savior of this storied and treasured Detroit institution.

In accordance with Section 43-3-53. *Duties of the Legislative Policy Division to provide notice*, the Legislative Policy Division has provided 21-day written notice of the request to all residents, occupants, and property owners within 300 linear feet of the proposed intersection, as well as all necessary City departments, including the Department of Public Works, Detroit Police Department, and Detroit Fire Department, identified community groups in areas adjacent to the subject street, and governmental agencies, including the United States Postal Service. To date, no comments in opposition to this request has been received.

In accordance with Section 43-3-54. *Duties of the Legislative Policy Division to prepare report*, the Legislative Policy Division is submitting this report between January 1st and April 30th of the calendar year immediately following the calendar year in which the petition for a secondary street sign was filed. Attached please find a resolution supporting the issuance of a secondary street sign in honor of Mrs. Anne Parsons to be installed at the intersection of Parsons Street and Woodward Avenue to read as "Anne Parsons Way."

Attached for your review and consideration is a resolution setting the required public hearing as well as a resolution which will authorize the establishment of a Secondary Street Name in honor of Mrs. Anne Parsons upon the conclusion of a favorable public hearing subject to Subsection (b) of Section 43-3-55 which states that the public hearing shall be fixed for a date between January and May of the calendar year immediately following the calendar year in which the petition for a secondary street sign was filed with the Office of the City Clerk.

**Mayor’s Office**

May 13, 2021

Honorable City Council:

It gives me great pleasure to submit my

appointment of Jay B. Rising to Chief Financial Officer for the City of Detroit for your consideration.

Mr. Rising has a long career of accomplishment at the state level, having served three governors, as well as a distinguished career in the private sector. Most recently, he served as Cabinet Secretary for Gov. Whitmer, prior to that he served as Wayne County’s Chief Operating Officer. Over the duration of his career, he has helped lead the State of Michigan and private sector entities out of financial crises, and played a pivotal role in establishing innovative means for financing higher education for thousands of Michigan students.

I believe Mr. Rising’s expertise and depth of experience will be an invaluable asset as the Office of the Chief Financial Officer (OCFO) continues to effectively manage the pandemic-driven revenue changes, maximize use of federal stimulus revenues to support the City’s COVID-19 response and economic revitalization efforts.

As one of the most knowledgeable people in Michigan on federal and state funding I am confident in his ability to lead the OCFO’s office with efficiency and transparency in service to the residents of Detroit.

Respectfully,  
MICHAEL E. DUGGAN  
Mayor

By Council Member McCalister, Jr.:

Re: Resolution commemorating May 25th as George Floyd Day in the City of Detroit.

The Honorable Council President Brenda Jones requested that the Legislative Policy Division to draft a resolution commemorating May 25th as George Floyd Day in the City of Detroit.

Attached, please find our draft of the resolution and contact us if we can be of any further assistance.

DAVID WHITAKER

Director

Legislative Policy Division Staff

**RESOLUTION COMMEMORATING MAY 25TH AS GEORGE FLOYD DAY IN THE CITY OF DETROIT**

BY ALL COUNCIL MEMBERS:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, George Floyd was not the first African American whose death in police custody sparked protests. It was perhaps the convergence of numerous world events, and the fact that the death was captured in a horrific video that shows a Minneapolis police officer casually kneeling on the neck of George Floyd, spurred a global uprising; and

WHEREAS, The senseless and avoidable murders of blacks and other marginalized people at hands of police officers and others across this country have come to light lately and many of the cases have been notorious. The deaths include cases such as school cafeteria worker Philando Castile, killed during a police stop while a passenger in the car with his girlfriend and 4-year old daughter; Sandra Bland, jailed for an alleged unsafe lane change and then later found hanging in her jail cell; EMT Breonna Taylor, shot 8 times after police wrongly barged into her apartment; Atatiana Jefferson, killed while babysitting her nephew at her mother's home; accountant Botham Jean, killed while sitting in his living room watching television and eating ice cream; Freddie Gray, died while being transported in the back of a police van. In addition, the more recent death of Ahmaud Arbery, shot and killed while jogging down a neighborhood street, by three private individuals in a racial motivated action; and

WHEREAS, However, nine minute twenty-nine second video recorded by a teenager, captured to sheer callousness and brutal nature of the death of George Floyd, viewed by a nation and the world quarantined by the COVID-19 pandemic, led to an uprising across the world, that has not been witnessed to an American occurrence, since the American Civil Rights Movement. In the aftermath of the brutal torture and murder of George Floyd by Minneapolis Police officers on May 25, 2020, demonstrations were held across the US — in all 50 states and DC, including in cities and rural communities that were predominantly white. In addition, protests were held all across Europe, New Zealand and elsewhere over the way police treat black people, with demands to end racism, punitive policing methods and socioeconomic inequality in our society; and

WHEREAS, It now it appears that governments at every level, are motivated to take a stand to address systemic racism in policing. A few noteworthy actions to address systemic racism in policing include the George Floyd Justice in Policing Act.

ing Act of 2021 approved by the US Congress and now awaits Senate approval; the Minneapolis City Council pledging to dismantle the police department; and NYC Mayor Bill de Blasio's proposal for several new police reforms that aim to end racial bias in policing and to improve community policing by proposing to hire more officers who live in the city; and

WHEREAS, The death of George Floyd, though tragic, is a stern reminder that all Americans deserve the right to life, liberty and the pursuit of happiness. His death at the hands of an officer of the law, while violating the ones he has sworn to enforce, and the citizens he had sworn to protect has revealed to the nation and the world, that racism in America exists and it needs to be eradicated, and

RESOLVED, That the Detroit City Council, observe this day, May 25, as a solemn reminder of the tragic loss of life of George Floyd and as a declaration of brighter days in the areas of community policing, race relations, and hereby declare May 25, 2021, and every year hereafter as George Floyd Day in the City of Detroit. NOW THEREFORE BE IT FINALLY

RESOLVED, That copies of this resolution be transmitted to the office of the Detroit City Clerk and Mayor Duggan.

May 13, 2021

Honorable City Council;

Re: Request of CCA Midtown Detroit, LLC to amend Chapter 50 of the 2019 Detroit City Code, Zoning, by amending Article XVII, Zoning District Maps, Section 50-17-5. District Map No. 4, of the Detroit Zoning Ordinance to modify the development regulations of the existing PD (Planned Development District) zoning classification for the properties commonly identified as 33 Elliot, 80 Mack Avenue, 90 Mack Avenue, 3510 Woodward and 3540 Woodward Avenue to allow for a three-building mixed-use development to host residential units, retail space and on-site parking. (RECOMMEND APPROVAL)

**RECOMMENDATION**

On March 4, 2021 the City Planning Commission voted to recommend approval of the request of City Club

Apartments (CCA) Midtown Detroit with the following conditions:

1. The developer will submit a community impact plan to the City Planning Commission staff and adjacent neighborhoods prior to construction permits being issued which will address negative impacts that may arise. The community impact plan shall include:

a. A construction schedule to describe anticipated start and end dates and other milestones of the development.

b. A plan to mitigate fugitive dust, noise pollution, and pest infestation that may arise from ground disturbance and other construction activities.

c. A plan for temporary construction site screening, staging and construction related vehicle parking.

2. The developer will adhere to the Department of Public Works Traffic and Engineering Division requirements as outlined below:

a. That loading zone deliveries will not be allowed during the rush hour periods of 7:00 a.m. to 9:00 a.m. or 3:00 p.m. to 6:00 p.m.

b. The second truck bay can only be used for trash pickup services, which can only occur overnight and prior to 6:00 a.m. At no time shall truck deliveries occur while the 2nd bay is occupied.

c. The delivery operation will be within the dock area without encroaching into the right-of-way. The developer will strongly encourage the use of small trucks as shown in their schematics. No trucks can be longer than the loading dock length.

d. Parking in front of the business will be eliminated and will be converted to a short term loading zone.

e. Curbside delivery is limited to short periods of time using the loading zone.

f. The developer will seek both an encroachment permit and indemnification through the Department of Public Work's right-of-way permitting process for the proposed configuration.

g. Agreement needs to be specific that the developer will have procedures in place that will be followed by all of their company truck drivers. The procedures will require the major retail tenant delivery vehicles to pull into the unoccupied curb lane, and wait for traffic to clear, before beginning the process of backing up into the loading dock. Deliveries from non-company entities shall utilize the assigned loading zone (curb lane) in front of the development for all delivery services. The delivery services shall be prohibited during rush hour periods of 7:00 a.m. to 9:00 a.m. or 3:00 p.m. to 6:00 p.m.

h. The developer will submit written procedures to the City Planning Commission staff which delivery trucks will be subject to when utilizing the Mack Avenue loading dock.

3. The developer will adhere to the

Post Construction Stormwater Ordinance requirements for the development.

4. The developer will work with City staff and community members through a process to determine and finalize all signage and murals for the site to the satisfaction of City Planning Commission staff.

5. The developer must submit final site plans and elevations; landscaping, lighting, and signage plans; and, the parking lease agreement to the City Planning Commission staff for review and approval prior to making application for required permits.

#### **BACKGROUND**

City Club Apartments is a property owner and operator in the city of Detroit, founded by Jonathan Holtzman in 2016. The developer currently has numerous mixed-use developments in Detroit and surrounding communities. CCA's predecessor companies, Joseph Holtzman Homes, Holtzman and Silverman, and Village Green established the family of companies now in operation for 100 years. Other Detroit developments under the parent companies include City Club Apartments CBD Detroit (313 Park Avenue), City Club Apartments Lafayette Park (750 Chene Drive), Renaissance City Club Apartments (former Millinder Center), and Detroit City Club Apartments (1431 Washington Blvd). The firm also owns and operates other residential projects throughout Michigan and manages more than 10,000 housing units across multiple states.

#### **PROPOSAL**

The project that is currently before this Honorable Body is the proposal of CCA to develop City Club Apartments-Midtown on the approximately 2.4 acre site on the southeast corner of Mack and Woodward avenues. The development is part of the Red Cross site master plan, bounded by Mack Avenue, the former Red Cross building, Woodward Avenue, and the reinstated, privately-owned extension of Eliot Street. A portion of the site is currently utilized for parking with the remainder of the site being vacant.

The project under consideration is a mixed-use development that will include three separate buildings designed to exist cohesively with each other and are comprised of the following:

- A 32,000 square foot (SF) single story retail building
- A 64,000 SF six-story mixed-use building with 12,500 SF of ground floor retail and 77 apartments
- A 203,000 SF 16-story apartment building with 273 apartments

Within the three buildings, there is a proposed mix of one-bedroom, two-bedroom, three-bedroom, studio, convertible, townhouse and penthouse units. Of the total amount of units, 20% will be set aside as affordable.

The retail space that is planned for the site will host a national retail anchor to occupy approximately 31,000 SF. Another 4,000 SF is planned for a national bank on the site. The remaining retail space is planned to host a local Detroit-based restaurant, coffee-shop and bakery. There are currently on-going negotiations to solidify the users for all of the aforementioned retail spaces.

Amenities for the development include a lounge, library, dog park, sky club with rooftop pool and outdoor grilling stations, 24/7 Whole Body Fitness, wellness room, movie theatre, business center, conference room, and zen garden. The proposed development will also offer three outdoor spaces to residents, patrons, commercial tenants and the surrounding community.

Two hundred and sixty-one (261) parking spaces are proposed, of which 186 spaces will be located below-grade on the site. An additional 75 spaces are planned to be located at the adjacent SOMA parking garage via lease agreement.

The total cost for the development stands at \$95 million. CCA anticipates financing the project with senior and mezzanine construction loans, as well as other possible economic incentives such as Brownfield TIF. It is estimated that the project will generate 133 full-time labor and skilled trade jobs during construction. Once completed, a total of 62 full-time, 55 part-time retail, and several management jobs are anticipated.

**PLANNING CONSIDERATIONS**  
**Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the subject area are as follows:

**North:** PD; Whole Foods Market and Starbucks

**South:** PD; The Bonstelle Theatre and Michigan State University Detroit Center

**East:** PD; Detroit Health Department

**West:** PD; Orchestra Tower

**Master Plan Consistency**

The subject property is located in the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies (MP). The future land use designation for the subject parcels indicates (MRC) Mixed Residential-Commercial

characterized by “medium-to-high density housing developed compatibly with commercial and/or institutional uses.”

The Planning and Development Department (PDD) has submitted a letter stating the project’s consistency with the (MP).

**COMMUNITY OUTREACH AND PUBLIC HEARING RESULTS**

The developer has held two meetings with the Brush Park CDC. The first meeting was held during the summer of 2020 and the second meeting in January of 2021. Since then, the Brush Park CDC has issued a letter of support for the project (with a unanimous vote.) The developer has also met with a number of additional stakeholders, with the meeting schedule listed below:

- Brush Park CDC Public and Board Meeting 7/2020 and 1/21/2021
- 3670 Woodward Ave. (Ellington Residents) 2/25/2021
- 100 Mack Ave. (Owners of Office Building) 2/3/2021
- 115 Erskine St. (Owners of Office building) 2/3/2021
- 80 Eliot Street (Members of Club/Ownership) 2/4/2021
- 3424 Woodward (Owner) 2/3/2021
- SWC Stimson/Woodward (Developer/Owner) 2/3/2021
- 3152 Woodward Ave. (Owner) 2/2/2021
- 3663 Woodward Ave. (Broder and Sachse Building) 2/2/2021
- 81 Erskine St. (Owner) 2/3/2021
- 3448 Woodward Ave. (Owner) 2/3/2021
- 40 Davenport (Owner) 2/2/2021

At the February 4th CPC public hearing on this matter, there were several people that spoke in support or with general remarks and questions.

One speaker during public comment, representing the Prismatic Club located just south of the proposed development in the University of Michigan Building at 80 Eliot, spoke in opposition to the project due to a separate dispute with the owner of the site.

The representative of the Prismatic Club stated during the public hearing and in additional conversations with CPC staff that they have two concerns:

- that the vacated Eliot Street was recently reconfigured, without the Prismatic Club’s consent, during the construction of a neighboring project called SOMA by the owner of the former Red Cross site (which includes the subject CCA site); and,
- that the Prismatic Club has an agreement with the former Red Cross site owner to park on the existing parking lot, therefore if the CCA-Midtown development is built, the Prismatic Club will no longer have access to parking.

This matter appears to be under review in Wayne County Circuit Court, based on documents that have been provided by the Prismatic Club representative.

CPC staff has also consulted the City's Law Department (Law) on this issue, resulting in them opining on the matter. The synopsis of Law's response is that "both of the disputes between Prismatic Foundation and Nyman (the owner of the former Red Cross site) are private in nature."

There is a resolution from 1994 that vacated and converted the portion of Eliot Street in question between Woodward Ave. and John R to an easement. Law's final advice is that recourse should not be handled through the legislative bodies, but through the courts. The Prismatic Club may also consult the Department of Public Works (DPW) regarding the Eliot Street issue.

Law also responds similarly to the alleged contractual obligation to provide parking spaces for the Prismatic Foundation and states that the alleged contract has no bearing on anything that the City may do in this matter. Essentially, the legislative body should not substitute its judgement in a dispute that should be handled by the courts, but can make a decision within the statutorily permitted criteria within state and local statutes. Again, this is considered a private matter according to Law.

Finally, a letter was also submitted by the owner of the former Red Cross site, Adam Nyman, that speaks to the litigation concerning the alleged interest in the portion of Eliot Street. The letter indicates that "in the event that the litigation is not resolved, we are prepared to construct the road over a portion of the vacated Eliot Street and part of our property in a size and manner that will not obstruct or delay the City Club Apartments proposed development and will sufficiently service the properties adjoining the vacated Eliot Street."

#### **ANALYSIS**

This project is generally in conformance with the PD District design criteria of Sec. 50-11-15 of the Zoning Ordinance. Staffs review is as follows:

**(a) Master Plan** *The proposed development should reflect applicable policies stated in the Detroit Master Plan.*

The subject property is located in the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The future land use designation for the subject parcels indicates (MRC) Mixed Residential-Commercial characterized by "medium-to-high density housing developed compatibly with commercial and/or institutional uses."

The Planning and Development Department has submitted a determination stating that the proposed development is in conformance with the Master Plan.

**(b) Scale, form, massing and density, and (c) compatibility:** *the proposed development is compatible with surround-*

*ing development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity.*

As it relates to scale, form, massing and density, CPC staff believes that the building heights and scale are appropriate for the current site. The scale and massing fit the existing context of the Woodward and Mack avenue intersection. The buildings that will be located at the intersection of two major thoroughfares are appropriate for this type of development. The tallest building, the residential tower, proposed to front Eliot Street, has been thoughtfully placed on Eliot Street instead of Woodward Avenue, to not overpower and cast shadows on neighboring structures.

The entire former Red Cross site has a master plan devised by the owner of the property. The City has been involved in this process for some years now, and believes that this proposed plan will contribute to the entire area, filling a space that lies at the very important Mack and Woodward avenue intersection.

**(d) Circulation.** *Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands. Disruption of traffic flow in surrounding areas should be minimized, and truck traffic should be carefully planned and controlled, especially to avoid use of residential streets.*

Concerns related to traffic, loading, circulation and pedestrian safety were central topics surrounding another development on the larger site in 2019. The traffic mitigation measures were put in place to reduce the traffic speeds in the residential neighborhood stemming from new development. At that time, the Mayor's Office, Detroit Police Department (DPD) and the Department of Public Works came before this Honorable Body and committed to a mitigation strategy. Since then, the Mayor's Office has confirmed that most of these items have been completed. These items are found below:

1. The intersection of Edmund and John R will be converted from two-way to four-way stop controlled.
2. Pedestrian crossing signs with blinking lights will be installed at the intersection of Watson and John R.
3. Yield-to-pedestrian signs will be installed in the crosswalks at the intersection of Watson and John R.
4. Yield-to-pedestrian signs will be installed at the intersection of Eliot and John R.
5. Pedestrian-crossing signs with blinking lights will be installed at the intersection of Eliot Street and John R.
6. Spaces on Erskine will be marked as loading areas to alleviate congestion and double-parking while trucks unload for the Scott apartments and commercial business.

7. The DPD precinct commander has committed to allocating resources during high traffic event nights by deploying officers to ticket and to mitigate traffic impacts.

Additionally, kiosks have been implemented on Erskine, which has also relieved some congestion in the area and spurred vehicle turnover. Traffic studies have been done by the CCA developer and reviewed by City staff, with concessions made to better manage traffic for this site. Measures dealing with trucks are included in the conditions, with a commitment to be enforced by the Building Safety Engineering Environmental Department.

*(e) Parking and loading. Where appropriate, adequate vehicular off-street parking and loading should be provided. The City Planning Commission will be guided by standards delineated in this zoning ordinance with adjustments appropriate to each specific situation.*

Due to several interdepartmental meetings and many conversations regarding the loading for this site, the Department of Public Works Traffic and Engineering Division has reviewed the current site plan and put forward the following conditions for the developer, which have subsequently been agreed to and will be incorporated as conditions of the PD ordinance. Those conditions related to loading are also included.

*(f) Environmental impacts. Environmental impacts that relate to such factors as noise, air, combustibles and explosives, gases, soil, and water pollution, toxic waste, vibration, odor, glare, and radiation, should be controlled to be within acceptable levels at all times.*

There are no major negative environmental impacts expected. The developer will adhere to the Post Construction Stormwater Management Ordinance.

*(g) Open space. Adequate public and private open space should be provided for light and air, landscaping and, where appropriate, for passive and active recreation.*

There are three open spaces and amenities planned for the site which include:

- A pocket park at the southeast corner of Mack and Woodward Avenues featuring a splash fountain with landscaping.
- A pocket park at the northeast corner of Woodward Avenue and Eliot Street featuring outdoor seating a sculpture to be designed by a local Detroit artist.
- An Art Park planned in the courtyard between all of the CCA buildings. The Art Park will be reserved for apartment residents during the week but will be open to the local community for public events on the weekend. City Club Apartments will work in collaboration with local non-profit arts and cultural organizations to design and operate the Art Park.

The developer has stated that they will exceed the minimum tree size of a 2" caliper tree, 12-14 feet tall and instead propose the larger 3.5"-4" caliper tree, 18-20 feet tall for right-of-way (ROW) plantings.

The developer has committed to working with the City on the (ROW) to "propose tree and shrub species that make sense in the larger scheme of Midtown/Detroit to ensure diversity of species to increase disease resistance and visual interest."

*(h) Rights-of-way, easements, and dedications. Where appropriate, adequate rights-of-way, easements and dedications should be provided for traffic ways, utilities and community facilities.*

Rights-of-way, easements and dedications are addressed appropriately. While there is a legal matter regarding the easement of the vacated Eliot Street, there is a second option to redesign the street depending on the conclusion of litigation.

*(i) River access. Where appropriate, public access should be provided, including provision of adequate right-of-way for the continuous pedestrian and bicycle pathway being developed along the Detroit River.*

Not applicable.

*(j) Screening. Appropriate buffering and screening of service, loading, refuse collection, mechanical and electrical equipment and of parking areas should be provided.*

City staff has worked with the developer on locations of loading and siting of equipment.

*(k) Orientation. Careful consideration should be given to orientation both for solar access to the proposed project and for shadow impact upon surrounding development.*

As mentioned above, the tallest building, the residential tower proposed to front Eliot Street, has been thoughtfully placed on Eliot Street instead of Woodward Avenue, in order not to overpower and cast shadows on neighboring structures. The design team has been intentional about placement and orientation of buildings.

*(l) Signage. Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development. They should provide needed information, direction, and orientation in a clear and concise manner.*

Signage and proposed murals will be addressed through a process to be determined that will include community and City involvement. This process will be included as a condition of the PD ordinance.

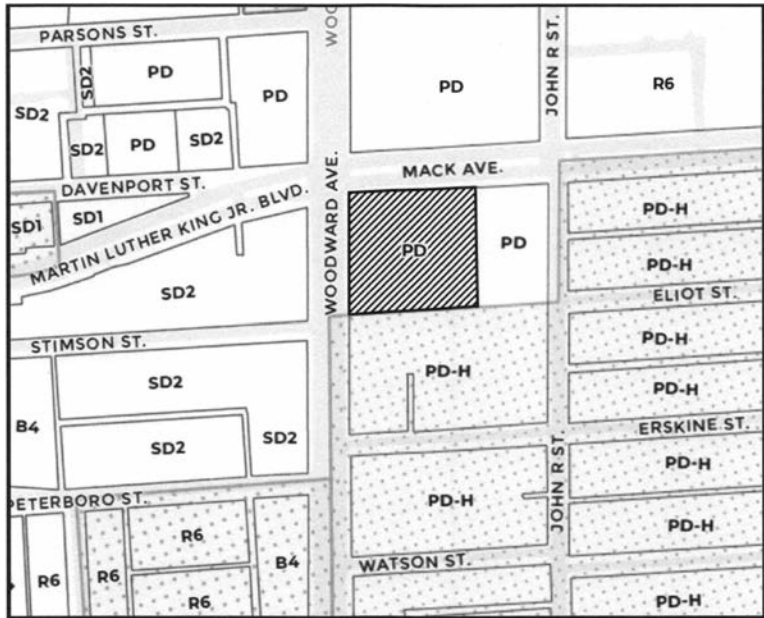

*(m) Security considerations. Security considerations, especially avoidance of visually isolated public spaces, should be a major element of the design program.*

The site does not have any outstanding security concerns.

**CONCLUSION AND RECOMMENDATION**

The development team has worked to resolve many of the staff and community concerns during the consideration of this request. There were numerous engage-

ment efforts that took place with the community. The design and programming of the subject buildings has changed as a result of the community and City feedback. Therefore, the City Planning Commission has recommended APPROVAL of this project.

Deliveries from non-company entities shall utilize the assigned loading zone ("curb lane") in front of the development, for all delivery services. The delivery services shall be prohibited during rush hour periods of 7:00 a.m. to 9:00 a.m. or 3:00 p.m. to 6:00 p.m.

**RESOLUTION CONTINUING PROCEDURES FOR CITY OF DETROIT PUBLIC BODIES TO MEET REMOTELY**

By Council Member McCalister, Jr.:

WHEREAS, As a result of the ongoing and continuing COVID-19 pandemic, the City of Detroit’s public bodies, including City Council, have been meeting remotely through electronic means, since March 2020; and

WHEREAS, As amended, the Open Meetings Act (OMA) allows public bodies to hold meetings electronically, under any circumstances, retroactive to March 18, 2020, through March 30, 2021 (MCL 15.263a(1)(a)), and further provides that on or after March 31, 2021 through December 31, 2021, public bodies can meet remotely through electronic means pursuant to a “local state of emergency or state of disaster declared pursuant to law or charter or local ordinance by ... a local official, governing body, or chief administrative officer”; and

WHEREAS, On March 30, 2021, the Chief Public Health Officer of the Detroit Health Department (DHD) issued *Emergency Order for Control of Epidemic* (Emergency Order) determining that “action is necessary to reduce transmission of COVID-19 and to protect the public’s health in Detroit”, noting that cases in Detroit have been on a significant upward trend and that “certain in-person open meetings pose a substantial risk to members of the public and governmental bodies in the City of Detroit”; and

WHEREAS, On May 20, 2021, the Chief Public Health Officer of the DHD made the following findings in a newly issued *Emergency Order for Control of*

*Epidemic*: “COVID-19 remains an imminent threat to the public of the City of Detroit; [p]er the Centers for Disease Control and Prevention (CDC), Michigan remains second in the nation in the number of SARS=C-V-2 B.1.1.7 variant cases at this time; [t]he emergence and spread of the SARS-CoV-2 variants in Detroit and surrounding communities, and current vaccination rates; certain in-person meetings pose a substantial risk to members of the public and governmental bodies in the City of Detroit.”; and

WHEREAS, The Chief Public Health Officer found further that, “[a] number of public bodies in Detroit, subject to the OMA, MCL 15.261 *et seq.*, will find it difficult, if not impossible, to conduct their business in live meetings that are open to the public, without violating safety guidelines issues by the CDC, the Michigan Department of Health and Human Services and the Detroit Health Department. For example, several public bodies do not have facilities that will allow for adequate physical distancing or open attendance in an in-person setting. In those instances requiring public bodies to make their decisions in a meeting open to the public and in person (without the option of telephonic and video conferencing) would risk the personal health and safety of the member of the public or members of the public body.”; and

WHEREAS, The May 20, 2021, DHD Emergency Order therefore declares “a local state of emergency”, effective from May 20, 2021 until June 30, 2021, or until an earlier time when the order is rescinded by a subsequent order. The Order states that public bodies subject to the OMA may hold in-person meetings only if, on the dates of the scheduled in-person meeting the public body is compliant with the then-current state guidance issued by the MDHHS, requiring that meeting size be limited to 25 members or fewer, and facility capacity allows for social distancing; and

WHEREAS, The Detroit City Council does not have meeting facilities of sufficient size to allow for social distancing, nor can the Body limit attendance at its meetings to 25 individuals or fewer without violating the Open Meetings Act. In fact, Council Members and staff alone, not including any members of the public, would reach or exceed the 25 person limit. Other City public bodies similarly lack large enough meeting facilities for social distancing as well as the ability to limit meeting size. NOW, THEREFORE, BE IT

RESOLVED, All public bodies of the City of Detroit whose meetings include more than 25 individuals or cannot accommodate necessary social distancing of attendees may meet remotely pursuant to the DHD Emergency Order through June

30, 2021, unless the Order is rescinded by subsequent order earlier, and the following procedures as set forth in Public Act 228 of 2020, amended section 3 a of the OMA, in pertinent part are adopted:

- A meeting of a public body held electronically under this section must be conducted in a manner that permits 2-way communication so that members of the public body can hear and be heard by other members of the public body, and so that public participants can hear members of the public body and can be heard by members of the public body and other participants during a public comment period. A public body may use technology to facilitate typed public comments during the meeting submitted by members of the public participating in the meeting that may be read to or shared with members of the public body and other participants to satisfy the requirement under this subsection that members of the public be heard by others during the electronic meeting and the requirement under section 3(5) that members of the public be permitted to address the electronic meeting.

- Except as otherwise provided in subsection (8), a physical place is not required for an electronic meeting held under this section, and members of a public body and members of the public participating electronically in a meeting held under this section that occurs in a physical place are to be considered present and in attendance at the meeting for all purposes.

- If a public body directly or indirectly maintains an official internet presence that includes monthly or more frequent updates of public meeting agendas or minutes, the public body shall, in addition to any other notices that may be required under this act, post advance notice of a meeting held electronically under this section on a portion of the public body's website that is fully accessible to the public. The public notice on the website must be included on either the homepage or on a separate webpage dedicated to public notices for non-regularly scheduled or electronic public meetings that is accessible through a prominent and conspicuous link on the website's homepage that clearly describes its purpose for public notification of non-regularly scheduled or electronic public meetings. Subject to the requirements of this section, any scheduled meeting of a public body may be held as an electronic meeting under this section if a notice consistent with this section is posted at least 18 hours before the meeting begins. Notice of a meeting of a public body held electronically must clearly explain all of the following:

- Why the public body is meeting electronically.
- How members of the public may participate in the meeting electronically. If a

telephone number, internet address, or both are needed to participate, that information must be provided specifically.

- How members of the public may contact members of the public body to provide input or ask questions on any business that will come before the public body at the meeting.

- How persons with disabilities may participate in the meeting.

- Beginning on the effective date of the amendatory act that added this section, if an agenda exists for an electronic meeting held under this section by a public body that directly or indirectly maintains an official internet presence that includes monthly or more frequent updates of public meeting agendas or minutes, the public body shall, on a portion of the website that is fully accessible to the public, make the agenda available to the public at least 2 hours before the electronic meeting begins. This publication of the agenda does not prohibit subsequent amendment of the agenda at the meeting.

- A public body shall not, as a condition of participating in an electronic meeting of the public body held under this section, require a person to register or otherwise provide his or her name or other information or otherwise to fulfill a condition precedent to attendance, other than mechanisms established and required by the public body necessary to permit the person to participate in a public comment period of the meeting.

- Members of the general public otherwise participating in a meeting of a public body held electronically under this section are to be excluded from participation in a closed session of the public body held electronically during that meeting if the closed session is convened and held in compliance with the requirements of this act applicable to a closed session.

**Department of Public Works**

May 13, 2021

Honorable City Council:

Re: Resolution to Approve Fees for Recycling Service Provided by the Department of Public Works to Commercial Customers.

I am submitting for your consideration the enclosed resolution to approve a new fee schedule for the new recycling services provided by the Department of Public Works to commercial recycling customers. On March 2, 2021 this Honorable Body approved an ordinance to amend Chapter

42 of the 2019 Detroit City Code, Solid Waste and Illegal Dumping by adding Article IV, Recycling Services, to create a commercial recycling service program that is operated by the City of Detroit.

Section 42-4-4 of that ordinance states that “in accordance with Section 9-507 of the Charter, the Director of the Department of Public Works is authorized to establish, with the approval of the City Council through adoption of a resolution: necessary rates for the regular collection of commercial recyclable material.”

The Director has found that the recycling service fee schedule included in this resolution will enable the Department to effectively serve commercial customers and requests your Honorable Body’s approval of such fees.

Respectfully submitted,

RON BRUNDIDGE

Director

Department of Public Works

By Council Member Benson:

Whereas, The Detroit Recycling Services Ordinance, sponsored by Council Member Scott Benson was enacted by City Council on March 2, 2021; and

Whereas, Section 4-118 of the Detroit City Charter indicates that ordinances are effective upon publication; and

Whereas, The publication of the Recycling Services Ordinance was effectuated in the Detroit Legal News on April 15, 2021; and

Whereas, Section 42-4-4 of the Detroit Recycling Services Ordinance provides that in accordance with Section 9-507 of the Detroit City Charter, the Director of the Department of Public Works shall establish, with the approval of the City Council through the adoption of a resolution the necessary rates for the regular collection of commercial recyclable material, necessary inspections, and other services; and

Whereas, The Department of Public Works has considered the resources that will be necessary to provide recycling services and inspections to commercial customers and determined that the enclosed fee schedule represents a reasonable fee for such services; and, NOW THEREFORE BE IT

Resolved, That in consideration of the foregoing, the Detroit City Council hereby approves the enclosed fee schedule for the regular collection of commercial recyclable material, inspections and other services in accordance with all applicable laws.

**City Planning Commission**

May 4, 2021

Honorable City Council:  
Re: Request of the Planning and Development Department to amend the Future General Land Use map of the Detroit Master Plan of Policies for the Indian Village area of Neighborhood Cluster 3 for the portion of Gabriel Richard Park containing the Brodhead Naval Armory (RECOMMEND APPROVAL of Proposed Master Plan Amendment).

**NATURE OF THE REQUEST**

The Planning and Development Department (P&DD) has submitted a request to amend the Future General Land Use Map of the Detroit Master Plan of Policies for the Indian Village area of Neighborhood Cluster 3 for the portion of Gabriel Richard Park containing the R. Thornton Brodhead Naval Armory (Brodhead Armory) from "PRC" Recreation to

"INST" Institutional. The proposed Master Plan change is required for this City-owned property to be sold or leased. The P&DD request is attached for reference. The Administration and the Detroit Economic Growth Corporation (DEGC) has been negotiating with Detroit Parade Company to purchase and redevelop the site, which is expected to be presented subsequently to your Honorable Body.

#### **BACKGROUND**

The Brodhead Armory, located at 7650 East Jefferson Avenue, was built in 1929 and 1930 as a training center and barracks for Michigan's military reserves. The footprint of the existing Armory covers about 87,000 square feet and the property, which extends from East Jefferson Avenue to the Detroit River, contains about 4.7 acres. The existing building includes the following: the front vestibule facing Jefferson Avenue, the center main drill hall, and three-stories at the south end of the building. In 2003, the federal government decided to discontinue use of the building as an armory, and the City agreed to take ownership of the building. The City initially used the building as equipment storage by the Recreation Department. Unfortunately, over the years, the building has been damaged by burst pipes, vandals, and scrapers.

#### **Current Zoning & 2008 Master Plan Amendment**

In 2008, the City, after marketing the property, agreed to sell the vacant Armory to a developer who proposed to renovate the building as an entertainment/sports training facility. The training facility was to include a boxing facility and fitness program, and the entertainment venue was to include a bowling alley, outdoor driving range, etc. In order to allow this redevelopment to move forward, in June 2008, the City rezoned the Armory and adjacent land from a R6 (High Density Residential) zoning classification to a SD4 (Special Development District, Riverfront Mixed) zoning classification. Additionally, in July 2008, the City amended the Master Plan for the Brodhead property from MP (Major Park) to SRC (Special Residential-Commercial).

However, the proposed entertainment/sports training facility never materialized, and the building has remained vacant ever since. In 2009, when the City approved a comprehensive update of Detroit Master Plan of Policies, the Brodhead Armory site was then designated as Recreation (PRO with the rest of Gabriel Richard Park — it appears the earlier amendment to SRC in 2008 was accidentally not included in the City-wide Master Plan update. In this regard the request before City Council represents a corrective measure for the 2009 error. The zoning of the site, however, remains SD4.

#### **Historic Designation**

The Brodhead Armory is listed on the

National Register of Historic Places, and, in October 2001, was designated a local historic district. It is one of a small number of Detroit's locally historically designated properties with an interior designation as well. The building houses several historic features including decorative tile work, stone-work details, and nautically themed artwork done under the Works Progress Administration (WPA) established as part of President Franklin D. Roosevelt's New Deal. The interior of the building houses the largest collection of federally-funded Depression-era artwork of any building in the state. The historical, architectural, and in particular, the artistic significance of this resource warrants thoughtful and sensitive treatment to ensure its preservation. Any modifications to the building require approval by the Detroit Historic District Commission.

#### **PUBLIC HEARING RESULTS**

The CPC held a public hearing on February 4, 2021 for the subject request. At the hearing, CPC and P&DD staff explained the Master Plan request. Additionally, to be transparent, CPC staff, the Jobs and Economy Team in the Mayor's office, and the DEGC explained the Administration's current plan to sell the Armory to the Detroit Parade Company. It was presented that the Parade Company is requesting to purchase the site from the City, to rehabilitate the north end of the Armory (the vestibule and drill hall), demolish the south end of the building, and to construct a new 2-story addition containing 130,000 square feet. The Parade Company is proposing to salvage the historic interior elements of the south end of the site, where feasible, and to relocate items to the rehabilitated building and new facility. The estimated total project cost is \$36.6 million, and if the development proposal is approved, the Parade Company will initiate a fundraising campaign. If the requisite funds are not secured, there will be no closing and the property will remain in the City's inventory.

At the hearing, CPC staff noted it had received a letter from the Brodhead Armory Preservation Society and the Detroit Art Deco Society opposing any demolition and supporting the entire building and its historic interiors be preserved. Eight persons associated with the Brodhead Association (an organization of military veterans and other supporters) spoke in opposition to the City's proposal to sell the Armory to the Detroit Parade Company. The group indicated it had a plan to save the entire building, to restore all historic features where possible, to create a place for veteran groups, and to build an adjacent residential tower. Five other persons spoke with various comments, including concerns about parking and demolition of the rear of the Armory. CPC staff clarified that the primary focus of the hearing was the Master Plan amendment and tech-

nically not the potential redevelopment of the building. The building cannot be sold to anyone without the needed Master Plan amendment as well as a Surplus Declaration of the land.

At the hearing, the Commission raised several issues including:

- The sale price of the Armory?
- How can the City better protect properties that it owns?
- How are City properties marketed and how are selections made, including the Brodhead?
- The real estate climate in Detroit has changed significantly since the last Request for Proposals (RFP) for the Brodhead was issued in 2015.

#### **PUBLIC HEARING FOLLOW-UP** **Administration Marketing of the Brodhead**

During the CPC hearing, the Administration indicated the City had issued a RFP for the Armory site in 2003, 2010, and 2015. The Administration indicates it has been marketing the property for years, and it occasionally has received various inquiries, including from veterans groups. Unfortunately, none of these efforts resulted in a successful proposal — they were not found to be appropriate for the building, viable activities, or financeable. Crain's Detroit Business reported in 2015, when the City through the DEGC issued the last RFP, the City determined that none of the RFP responses at the time provided a viable redevelopment option. Crain's also reported the DEGC, at the time, declined to entertain proposals that required demolition of the existing armory.

In response to questions raised at the CPC hearing, the Mayor's Office submitted a memorandum to the CPC dated February 17, 2021 describing the Administration's general process for City or the DEGC led RFP/RFQ (Request for Qualifications) process.

Furthermore, P&DD submitted a memorandum dated February 17, 2021 to the CPC reiterating the need to amend the Master Plan to again facilitate the conveyance and reuse of the Brodhead Armory. P&DD also stated, with the approval, it would commit to bring back to the Planning Commission, details of the final selected development project.

#### **Meetings with the Brodhead Association**

In response to the Brodhead Association's proposal, the Administration and DEGC have indicated before the CPC and in meetings with the Brodhead Association:

- That the Administration has been negotiating with the Parade Company since January 2018, and it is not its practice to drop negotiations midstream to entertain new proposals, but has done so in this case in response to the veteran assertions as to the viability and readiness of their proposal: and

- That the efforts of Brodhead Association/veteran's groups are appreciated, but they have not followed through on development proposals in the past, and, as a result, the Administration did not think it actually had a viable plan,

However, because of its comments raised at the CPC hearing, the Administration and DEGC agreed to meet with the Brodhead Association on February 9, 2021. At that meeting, the Brodhead Association gave an overview of its proposal, and, at the end, the Administration agreed to provide the Brodhead Association two weeks within which to provide details of its financial capacity. On February 23, 2021, the Administration and DEGC again met with the Brodhead Association to discuss financials for the group's phase one of the project, restoration of the armory. Later the Administration and DEGC notified the Brodhead Association that the financial details were not sufficient to change the Administration and DEGC's position to propose selling the Brodhead to the Detroit Parade Company.

#### **MASTER PLAN ANALYSIS**

##### **Surrounding Master Plan, Zoning, and Land Uses**

As noted earlier, the subject site has a SD4 zoning designation and PRC Master Plan designation. The following lists the Master Plan, zoning, and land uses surrounding the Armory.

**North:** Master Plan (High Density Residential); Zoning (PD, Planned Development); Land Use (apartments).

**East:** Master Plan (High Density Residential); Zoning (R6, High Density Residential); Land Use (apartments).

**South:** Master Plan (Recreation); Zoning (R6); Land Use (riverfront).

**West:** Master Plan (Recreation); Zoning (R6 & Parks & Recreation, PR); Land Use (parkland).

##### **Community Feedback**

In addition to the February 4th CPC hearing, the following summarizes community feedback on the proposed request. In early October 2020, CPC staff sent letters, as required by State law, to adjacent cities informing them of the proposed Master Plan change and requesting comments, and the CPC received no comments in response.

On January 26, 2021, the City of Detroit Department of Neighborhoods (DON) District 5 hosted a virtual community meeting to present the proposed Master Plan amendment and sale of the Brodhead Armory. Members of the nearby Charlevoix Village Association asked questions about the project related to the overall total investment and parking. Several veterans from the Brodhead Association spoke in opposition to the land sale indicating the association had a better plan for the building.

On February 16, 2021, the DON District

5 held a second virtual community meeting. One resident from West Village supported the Parade Company as the best chance to save the building. Three area residents raised concerns, including the need to work with veteran groups, the Parade proposal was not the best use along the River, and could parking be accommodated for buses, etc.

**CONCLUSION AND RECOMMENDATION  
Master Plan Recommendation**

The Armory building and surrounding land have been vacant and underutilized for a number of years. The current PRC designation is not appropriate, because the City does not plan to use the site for recreational purposes and desires to see building privately repurposed. Presently, the PRC designation prohibits the City from selling or leasing the building to a private party.

The Master Plan states that the Institutional designation applies to educational, religious, health, or public use such as a church, library, museum, public or private school, hospital, or government owned or operated building, structure, or land used for public purposes. The Master Plan for the subject area along East Jefferson includes a mix of Recreation, Commercial, High Density Residential, and Institutional (the former Riverview Hospital) and Water Works Park.

The City amended the Master Plan in 2008 to allow the building to be sold and redeveloped. However, again, that amendment was accidentally overridden by the 2009 comprehensive update of the Master Plan. As a result, the CPC finds the proposed Master Plan change is appropriate. As a result, at its meeting on March 4, 2021, the CPC voted to recommend approval of the proposed Master Plan amendment.

**Potential Redevelopment  
of the Brodhead Recommendation**

The CPC, for its public hearing, was not specifically asked to review any proposed sale of the Brodhead Armory or any particular development proposal. However, it is within the CPC’s Charter mandated authority to speak to such things if the Commission desires. The CPC appreciates P&DD’s commitment, that if the Master Plan is amended, to bring back details of the final selected project to the CPC prior to seeking City Council approval of the land sale.

At its March 4, 2021 meeting, the Commission, apart from the proposed Master Plan amendment, made the following suggestions regarding the redevelopment of the Brodhead for City Council to consider:

- The Brodhead Armory has been vacant for a long time and each day continues to further deteriorate, therefore, time is of the essence to save the building and the art therein;

- Due to the historic nature of the building both interior and exterior, every effort should be made to preserve the entire building and its features;

- At the expense of the City, one of the City’s partner agencies or the developer, some assessment of the condition of the building and its features should be conducted by professionals with the necessary expertise to determine the feasibility of preservation/adaptive reuse of the building and restoration of the art;

- If not already obtained, an appraisal of the property should be conducted;

- If current negotiations for sale of the property are not successful, consider issuing a new RFP; and

- Whoever the ultimate developer is, some effort should be made to celebrate the military history of the facility and if possible work with the veteran groups and others as appropriate to that end.

**Planning and  
Development Department**

May 27, 2021

Honorable City Council:

Re: \*Revised — Property Sale by Development Agreement Portion of 7650 E. Jefferson (Former Brodhead Armory).

The City of Detroit (“City”), Planning and Development Department (“P&DD”) has received an offer from The Parade Company, a Michigan nonprofit corporation, to purchase a portion of certain City-owned real property at 7650 E. Jefferson (the “Property”) for the purchase price of Three Hundred Thousand and 00/100 Dollars (\$300,000.00).

The Property is the site of the former Brodhead Armory, which opened in 1930 as a training facility for State naval militias, as well as for hosting certain civic, political and sporting events. When use of the Brodhead Armory was discontinued and its doors closed in 2003, the Property was reverted back to the City under the jurisdiction of the Recreation Department and held as surplus property. In 2008, jurisdiction of the Property was transferred to P&DD to market for sale. The City formally solicited development proposals several times over the years to return the Property back to productive use, however no viable proposals were received through such solicitations and the building has since deteriorated.

As a long standing community supporter of the City, The Parade Company has proposed to relocate its entire Detroit operations on Mt. Elliott to the Property. The new location will allow for easier access to both the Detroit River for the annual Ford Fireworks and the downtown area for the annual America's Thanksgiving Parade Presented by Gardner-White. These marquee Detroit events are viewed by millions and The Parade Company has expressed the importance of building a proper Parade Studio at the Property that not only houses all of the creativity and Detroit tradition seen in everything they do, but that also opens up new opportunities for community and educational tours, events and engagement.

The Parade Company's proposed plan for the Property is to rehabilitate the northern portion of the existing building structure to stabilize and restore certain historical elements of the former Brodhead Armory, while at the same time modernizing the back half of the Property to accommodate float construction and event operations. Steps will be taken to properly preserve the historic artwork and woodwork within the existing building structure. The new space will also provide for community/educational event spaces and a designated office and meeting area for use by organizations that support veteran-centered activities. Currently, the Property is within a SD4 zoning district (Special Development District, Riverfront Mixed Use). The Parade Company's proposed use of the Property will be consistent with the allowable uses for which the Property is zoned.

We request that your Honorable Body adopt the attached resolution to formally surplus the Property and authorize the P&DD Director, or his/her authorized designee, to execute a development agreement, deed and such other documents as may be necessary or convenient to effect a transfer of the Property by the City to The Parade Company.

Respectfully submitted,  
KATHERINE G. TRUDEAU  
Deputy Director

Whereas, Since the above referenced transfer of jurisdiction, P&DD has determined that, pursuant to Sec. 2-7-4 of the Detroit City Code, the Property is non-essential to City governmental functions and has marketed it for sale; and

Whereas, P&DD now recommends that

the Property be deemed "surplus real property" and sold; and Now Therefore Be It

Resolved, That Detroit City Council hereby approves the aforementioned recommendations of P&DD; and Be It Further

Resolved, That the development agreement shall obligate The Parade Company to:

1) Renovate the Property to accommodate The Parade Company's operations as a nonprofit entity, including space for the production and storage of its floats;

2) Renovate approximately 28,700 square feet of existing space at the Property using commercially reasonable efforts to rehabilitate historical elements of the northern portion of the existing building structure;

3) Include approximately 125,000 square feet of 2-story new construction for high bay areas that accommodate the operations and storage needs of The Parade Company;

4) Work to preserve the existing historical artwork and woodwork found throughout the existing building structure;

**City Planning Commission**

May 19, 2021

Honorable City Council:

Re: Proposed map amendment to Chapter 50, Zoning, Article XVII, Section 50-16-3, Zoning District Map No. 2, for the rezoning of land in Greektown and Bricktown, from the B4 (General Business District), B6 (General Services District), PD (Planned Development District), and SD5 (Special Development District, Casinos) to the B5 (Major Business District) zoning district classification. (RECOMMEND APPROVAL)

**NATURE OF THE REQUEST**

In the course of the City Planning Commission's recent review and recommendation to your Honorable Body to rezone property in the Harmonie Park/ Paradise Valley area of downtown (Ord. No. 2021-10), it was apparent that the zoning district classifications for an important portion of the east side of the Central Business District were inconsistent with the Detroit Master Plan's future general land use vision for the area.

The Zoning Ordinance organizes the city into 78 distinct maps; zoning Map No. 2 depicts the east side of downtown. In addition to the just-rezoned Harmonie Park/Paradise Valley area, Map No. 2 also includes the neighborhoods commonly known as Greektown and Bricktown. Detroit's Master Plan identifies the future general land use for the bulk of this area as "Special Commercial (CS)."

While much of Greektown and Bricktown are currently zoned B4 (General Business District) and B6 (General Services District), the Master Plan identifies several zoning district classifications, not including B4 and B6, as appropriate for a "Special Commercial" designation: PD — Planned Development; PCA — Public Center Adjacent/ Restricted Central Business District; B5 — Major Business; SD2 — Special Development District, Mixed-Use; and SD5 — Special Development District, Casinos. This proposed rezoning comes to City Council to fix the disconnect between Master Plan and the Zoning Ordinance.

**SCOPE OF THE REZONING**

The attached ordinance, approved as to form by the Corporation Counsel, would rezone 24 blocks or portions of blocks in Greektown and Bricktown as follows and as indicated on the attached map:

- Ten blocks or portions of blocks are rezoned from B4 to B5;
- Ten blocks or portions of blocks are rezoned from B6 to B5;
- One fragment of a block is rezoned from PD (Planned Development District) to B5; and
- Three blocks or portions of blocks are rezoned from SD5 (Special Development District, Casinos) to B5.

**ANALYSIS**

The B6 General Services District, which governs all or portions of ten blocks in Greektown/Bricktown, is a carry-over from earlier decades when the eastern part of downtown had more of a heavy commercial or light manufacturing character. Typical of a B6 District is the Union Produce Terminal on West Fort Street and the Eastern Market — the city's largest concentration of B6-zoned property, recently proposed to be reclassified as an MKT (Market) zoning district. The B6 District discourages residential use of the land and

expects a lot of heavy truck traffic, whereas the B5 District allows a variety of higher density residential development.

B6 also allows commercial uses whose placement in the Central Business District (CBD) is unlikely to be the highest and best use of limited downtown property — slaughter houses, trucking terminals and open truck parking, truck/trailer rental lots, wholesale produce/fruit markets, used car lots, banks with drive-up/drive-through facilities.

The **B4 General Business District** zoning classification appears on ten blocks or portions of blocks in Greektown/Bricktown. While it is a zoning classification appropriate for business strips such as on Van Dyke, Telegraph Road, Gratiot Avenue, and Plymouth Road, the character of downtown is decidedly distinct from a commercial corridor outside the Central Business District.

Changing the zoning classification from B4 to B5 would prohibit new single- or two-family dwelling and 15 uses classified as "retail, service and commercial": drive-up/drive-through features for banks, customer service centers, retail stores and stand-alone, carry-out restaurants; amusement parks; bed and breakfast inns; go-cart tracks; marinas; miniature golf courses; used car lots; storage lots for used cars; major motor vehicle services; motorcycle sales/rental/service; outdoor commercial recreation; pawnshops; rebound tumbling centers; trailer coach/boat sales/rental/service; and, utility trailers sales/rental/service. The proposed B5 zoning district classification would permit and encourage residential development and many of the same commercial uses as allowed in the B4 District.

One difference between B5 and B4 or B6, however, is the maximum permissible height specification. Buildings on land zoned B4 can rise to a height of 35 feet, with extra height allowable up to a maximum of 70 feet where fronting on wide thoroughfares. (For each foot in excess of 80 feet in right-of-way width, one extra foot in height can be added to the 35-foot building height limit, not to exceed 70 feet. Buildings, proposed for heights greater than that permitted by formula, require a variance from the Board of Zoning Appeals, as was needed for the recently approved 16-story mixed-use development, "The Exchange," proposed at Gratiot and Brush.)

The B6 District allows buildings up to 80 feet in height. Maximum permissible height in the B5 District depends on the "cubical content" formula in the Zoning Ordinance. Essentially, a building in B5 can reach a height equal to three times the width of the widest street abutting the subject property. This would facilitate high-rise development without need for a height variance from the Board of Zoning Appeals. Brush Street has a width of 48 feet; E. Fort, E. Lafayette,

Macomb, Monroe, and St. Antoine are 50 feet wide; Beaubien (north of E. Lafayette), E. Congress, E. Larned, and Randolph are 60 feet wide; Gratiot, Beaubien (south of E. Lafayette) is 115 feet; and Gratiot is generally 120 feet wide.

The PD Planned Development District, unlike other zoning district classifications, includes a 3-year "shelf life" for development to occur. One property that was originally part of the Greektown temporary casino rezoning is no longer under control of the casino and is proposed for rezoning to B5. It is one of the "lapsed PDs" that the City Planning Commission will be examining for rezoning in the forthcoming year and be referring to Council for amendment.

The SD5 Special Development District, Casinos designation is only appropriate for land actually associated with a licensed casino. Three properties that were originally part of the Greektown Casino vision are no longer under control of the casino and are proposed for rezoning to B5.

#### **PUBLIC HEARINGS**

At the City Planning Commission's regular meeting of February 18, 2021, a virtual public hearing was held related to the broader rezoning initiative for the Greektown and Bricktown area. This public hearing addressed the proposed rezoning to B5 where the existing B4 and B6 classifications were inconsistent with the City's Master Plan vision for the area. The hearing also included three properties zoned SD5 (Special Development District, Casinos) and one zoned PD (Planned Development) where properties were no longer under the control of, or identified for, a casino-related use.

The hearing reviewed the pertinent Master Plan considerations and presented a Power Point identifying the land in question and the variety of uses currently active. It was noted that, with the exception of the county jail on land zoned B6, no existing use would be rendered non-conforming by the proposed rezoning to B5. The hearing was "attended" by 45 people. One hearing attendee, Melanie Markowicz, the director of the Greektown Neighborhood Partnership, elected to provide spoken comment at the hearing, voicing strong support for the rezoning initiative and informed the Commission of the organization's board and membership support of the proposed rezoning.

A second virtual public hearing was held at the CPC's regular meeting of March 18, 2021, at which time the director of the Greektown Neighborhood Partnership repeated the group's support of the effort.

#### **ENGAGEMENT**

Prior to the public hearings, CPC staff had conferred with key stakeholders: the Greektown Neighborhood Partnership, Bedrock Properties, and Greektown

Casino. All parties were supportive of the rezoning, some indicating the wish it had been proposed years earlier, finding it consistent with the Greektown Partnership’s own vision and plan for the area.

**RECOMMENDATION**

At its meeting of March 18, 2021, the City Planning Commission found the proposed map amendment to be consistent with the approval criteria (Sec. 50-3-70 of the 2019 Detroit City Code) and voted to recommend the following to your Honorable Body:

- That B4 properties be rezoned to B5 blocks/portions (10):

**NEXT STEPS**

This proposed map amendment to Chapter 50 of the 2019 Detroit City Code, Zoning, has been reviewed and approved by the Law Department and is ready for consideration by the Planning and Economic Development standing committee. Upon the committee’s review and referral to the formal session, the ordinance can be introduced and scheduled for the Charter-mandated public hearing.

Honorable City Council:

Re: Request for Authorization to Accept and Appropriate Residual CDBG Funding.

In the last year, the Housing and Revitalization Department ("HRD") has reviewed all open Community Development Block Grant ("CDBG") activities in the U.S. Department of Housing and Urban Development's ("HUD") Integrated Disbursement and Information System ("IDIS") for Community Planning and Development ("CPD") formula grants received by the City of Detroit.

As part of this review, HRD has identified over 1,500 project line items with residual remaining balances totaling roughly \$210,762.01 from pre-2015 CDBG project awards that have either been completed, are inactive and/or are related to defunct CDBG activities. Some

of these items date back as far as 1997 and project balances range from a few pennies to less than \$500. The balances relate to financial reporting prior to Oracle Cloud. Balances remain in IDIS until projects are officially closed out or unspent funds are recaptured by HUD.

If the identified remaining balances are not spent by September 2021, such funds are subject to recapture by HUD. HRD recommends the City appropriate these unspent balances to a single project so that funds can be spent prior to the recapture deadline. HRD has recommended that the funds be reallocated to complete eligible activities related to Phase 2 of the Jos Campau Greenway Project. HRD has reviewed its findings and recommendations with the City's Office of the Chief Financial Officer, who supports this strategy. This action will have no fiscal impact on the City's General Fund.

We respectfully request your Honorable Body's adoption of the attached resolution to authorize the appropriation and expenditure of the identified funding balances in support of the City's CDBG program activities.

Whereas, HRD has worked with the City's Office of the Chief Financial Officer to determine that the best recourse is to appropriate the CDBG Residual Funding to a single project that can spend such funding on CDBG eligible activities prior to HUD's recapture; and

Re: Amendment No. 1 — Community Benefits Provision for Tier 1 Development Projects Lafayette West-Lafayette Acquisition Partners, LLC.

On April 16, 2019, your Honorable Body adopted a resolution that approved that certain Community Benefits Provision for Tier 1 Development Projects agreement (the "Provision") with Ginosko Development Company ("Ginosko") for the Lafayette West Project (the "Project"). The Provision was the product of a community engagement process organized by a Neighborhood Advisory Council (the "NAC") for the Project pursuant to City of Detroit Ordinance 35-16 — Detroit Community Benefits Ordinance, codified in Chapter 12, Article VIII of the Detroit City Code.

Due to certain Project financing constraints, the developer of the Project has reorganized its corporate structure into a new entity named Lafayette Acquisition Partners, LLC and worked with the City's Planning & Development Department ("P&DD") to update certain aspects of the Project plan to provide for better site amenities and parking for residents of the Project. The updated Project plan includes: (1) 88 units in three 5-story condo buildings with surface level private garages, (2) 230 units in three 5-story multi-family apartment buildings with surface level tuck under parking, (3) a 2-story clubhouse building with pool and resident amenities and (4) associated surface level parking, carports, and retail space. The updated Project plan was presented by Lafayette Acquisition Partners, LLC at a public meeting of the NAC and accepted subject to an additional Project requirement that the developer hold monthly communications on construction progress. P&DD has approved the updated Project plan pursuant to Exhibit A, Impact 10, 1. of the Provision. Ginosko, Lafayette Acquisition Partners, LLC and the City now wish to amend the Provision to address the above referenced issues.

In anticipation of breaking ground on the Project by Fall 2021, we hereby request that your Honorable Body adopt the attached resolution that approves an amendment to the Provision that: (1) allows for assignment of the Provision from Ginosko to Lafayette Acquisition Partners, LLC, (2) updates the description of the Project, (3) updates certain contact and address information for notices and (4) requires monthly communications on construction progress of the Project.

Re: Regins. Anquisha n/f Ciera'Rayne Regins. Cassie Lyn Smith vs. City of Detroit *et al.* Case No: 18-006483-NI. File No: L18-00464 CBO.

City Council previously approved this proposed settlement on June 23, 2020. However, the attached resolution of the law firm payee, Dewyna A. Bazzi, was incorrect. Therefore, it is requested that this Resolution be rescinded. It is our considered opinion that the attached Resolution of this Settlement reflect, the proper name for the law firm. At Law Group. We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Seven Thousand Dollars and No Cents (\$7,000.00) is in the best interest of the City of Detroit.

#### **RESOLUTION IN SUPPORT OF USPS AND THE DETROIT RESIDENTS THEY SERVE**

By Council Member McCalister, Jr.,

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, The Postmaster General's scheme to dismantle the United States Postal Service (USPS) has been well documented; and

WHEREAS, According to a report published by the Senate's top Democrat in charge of postal oversight, the Postmaster General's controversial midsummer operational directives delayed nearly 350 million pieces of the country's first-class mail in the five weeks they were in effect; and

WHEREAS, Before the changes, the USPS routinely delivered more than 90 percent of the nation's first-class mail on time, according to an analysis of USPS data by the office of Sen. Gary Peters (Mich.), the top Democrat on the Senate Homeland Security and Governmental Affairs Committee. Two weeks later on-time delivery rates hovered near 83 percent, entangling prescription medications, benefits checks and ballots in midterm elections; and

WHEREAS, The situation has had an extremely negative impact on our residents, especially our older citizens that rely on the mail for important notices, communications and bills; and

WHEREAS, Those delays appeared especially pronounced in prescription medications, according to another Senate report, published by Sens. Elizabeth Warren (D-Mass.) and Robert P. Casey Jr. (D-Pa.). Four prescription drug providers told Warren and Casey, that delivery times this summer have increased by half a day or more on average, compared with earlier this year or similar periods in 2019, according to the report. Deliveries that might typically take two or three days, were instead taking three to four, the lawmakers said, and one pharmacy in particular, saw a "marked increase" in the number of shipping delays of seven or more days; and

WHEREAS, Many critics have noted that the Postmaster General chose to make these changes at the worst possible time, in the midst of a pandemic and months ahead of the 2020 general election, in which a record number of people were expected to vote by mail; and

WHEREAS, There are also staffing issues caused by the coronavirus. Postal workers are understaffed and overworked. Many workers had been pulling 12-hour shifts, six days a week in order to keep up with demand before overtime was eliminated. BE IT RESOLVED

RESOLVED, That the Detroit City Council strongly urges for the removal of the U.S. Postmaster General, Louis DeJoy, who is actively undermining the Postal Service's bureaucratic mission and its employees. NOW THEREFORE BE IT FINALLY

RESOLVED, That copies of this resolution be transmitted to the office of the Detroit City Clerk, Mayor Duggan, US Senator Gary Peters (D-MI), the Homeland Security and Governmental Affairs Committee, the Michigan delegation in Congress, and the American Postal Workers Union.

Thornton Brodhead Naval Armory (Brodhead Armory) from "PRC" Recreation to "TNST" Institutional. The proposed Master Plan change is required for this City-owned property to be sold or leased. The P&DD request is attached for reference. The Administration and the Detroit Economic Growth Corporation (DEGC) has been negotiating with Detroit Parade Company to purchase and redevelop the site, which is expected to be presented subsequently to your Honorable Body.

## BACKGROUND

The Brodhead Armory, located at 7650 East Jefferson Avenue, was built in 1929 and 1930 as a training center and barracks for Michigan's military reserves. The footprint of the existing Armory covers about 87,000 square feet and the property, which extends from East Jefferson Avenue to the Detroit River, contains about 4.7 acres. The existing building includes the following: the front vestibule facing Jefferson Avenue, the center main drill hall, and three-stories at the south end of the building. In 2003, the federal government decided to discontinue use of the building as an armory, and the City

agreed to take ownership of the building. The City initially used the building as equipment storage by the Recreation Department. Unfortunately, over the years, the building has been damaged by burst pipes, vandals, and scrappers.

#### ***Current Zoning & 2008 Master Plan Amendment***

In 2008, the City, after marketing the property, agreed to sell the vacant Armory to a developer who proposed to renovate the building as an entertainment/sports training facility. The training facility was to include a boxing facility and fitness program, and the entertainment venue was to include a bowling alley, outdoor driving range, etc. In order to allow this redevelopment to move forward, in June 2008, the City rezoned the Armory and adjacent land from a R6 (High Density Residential) zoning classification to a SD4 (Special Development District. Riverfront Mixed) zoning classification. Additionally, in July 2008, the City amended the Master Plan for the Brodhead property from MP (Major Park) to SRC (Special Residential-Commercial).

However the proposed entertainment/sports training facility never materialized, and the building has remained vacant ever since. In 2009, when the City approved a comprehensive update of Detroit Master Plan of Policies, the Brodhead Armory site was then designated as Recreation (PRC) with the rest of Gabriel Richard Park — it appears the earlier amendment to SRC in 2008 was accidentally not included in the City-wide Master Plan update. In this regard the request before City Council represents a corrective measure for the 2009 error. The zoning of the site, however, remains SD4.

#### ***Historic Designation***

The Brodhead Armory is listed on the National Register of Historic Places, and, in October 2001, was designated a local historic district. It is one of a small number of Detroit's locally historically designated properties with an interior designation as well. The building houses several historic features including decorative tile work, stonework details, and nautically themed artwork done under the Works Progress Administration (WPA) established as part of President Franklin D. Roosevelt's New Deal. The interior of the building houses the largest collection of federally-funded Depression-era artwork of any building in the state. The historical, architectural, and in particular, the artistic significance of this resource warrants thoughtful and sensitive treatment to ensure its preservation. Any modifications to the building require approval by the Detroit Historic District Commission.

#### **PUBLIC HEARING RESULTS**

The CPC held a public hearing on February 4, 2021 for the subject request. At the hearing, CPC and P&DD staff

explained the Master Plan request. Additionally, to be transparent, CPC staff, the Jobs and Economy Team in the Mayor's office, and the DEGC explained the Administration's current plan to sell the Armory to the Detroit Parade Company. It was presented that the Parade Company is requesting to purchase the site from the City, to rehabilitate the north end of the Armory (the vestibule and drill hall), demolish the south end of the building, and to construct a new 2-story addition containing 130,000 square feet. The Parade Company is proposing to salvage the historic interior elements of the south end of the site, where feasible, and to relocate items to the rehabilitated building and new facility. The estimated total project cost is \$36.6 million, and if the development proposal is approved, the Parade Company will initiate a fundraising campaign. If the requisite funds are not secured, there will be no closing and the property will remain in the City's inventory.

At the hearing, CPC staff noted it had received a letter from the Brodhead Armory Preservation Society and the Detroit Art Deco Society opposing any demolition and supporting the entire building and its historic interiors be preserved. Eight persons associated with the Brodhead Association (an organization of military veterans and other supporters) spoke in opposition to the City's proposal to sell the Armory to the Detroit Parade Company. The group indicated it had a plan to save the entire building, to restore all historic features where possible, to create a place for veteran groups, and to build an adjacent residential tower. Five other persons spoke with various comments, including concerns about parking and demolition of the rear of the Armory. CPC staff clarified that the primary focus of the hearing was the Master Plan amendment and technically not the potential redevelopment of the building. The building cannot be sold to anyone without the needed Master Plan amendment as well as a Surplus Declaration of the land.

At the hearing, the Commission raised several issues including:

- The sale price of the Armory?
- How can the City better protect properties that it owns?
- How are City properties marketed and how are selections made, including the Brodhead?
- The real estate climate in Detroit has changed significantly since the last Request for Proposals (RFP) for the Brodhead was issued in 2015.

#### **PUBLIC HEARING FOLLOW-UP Administration Marketing of the Brodhead**

During the CPC hearing, the Administration indicated the City had issued a RFP for the Armory site in 2003, 2010,

and 2015. The Administration indicates it has been marketing the property for years, and it occasionally has received various inquiries, including from veterans groups. Unfortunately, none of these efforts resulted in a successful proposal — they were not found to be appropriate for the building, viable activities, or financially. Crain's Detroit Business reported in 2015, when the City through the DEGC issued the last RFP, the City determined that none of the RFP responses at the time provided a viable redevelopment option. Crain's also reported the DEGC, at the time, declined to entertain proposals that required demolition of the existing armory.

In response to questions raised at the CPC hearing, the Mayor's Office submitted a memorandum to the CPC dated February 17, 2021 describing the Administration's general process for City or the DEGC led RFP/RFQ (Request for Qualifications) process.

Furthermore, P&DD submitted a memorandum dated February 17, 2021 to the CPC reiterating the need to amend the Master Plan to again facilitate the conveyance and reuse of the Brodhead Armory. P&DD also stated, with the approval, it would commit to bring back to the Planning Commission, details of the final selected development project.

#### ***Meetings with the Brodhead Association***

In response to the Brodhead Association's proposal, the Administration and DEGC have indicated before the CPC and in meetings with the Brodhead Association:

- That the Administration has been negotiating with the Parade Company since January 2018, and it is not its practice to drop negotiations midstream to entertain new proposals, but has done so in this case in response to the veteran assertions as to the viability and readiness of their proposal; and
- That the efforts of Brodhead Association/veteran's groups are appreciated, but they have not followed through on development proposals in the past, and, as a result, the Administration did not think it actually had a viable plan.

However, because of its comments raised at the CPC hearing, the Administration and DEGC agreed to meet with the Brodhead Association on February 9, 2021. At that meeting, the Brodhead Association gave an overview of its proposal, and, at the end, the Administration agreed to provide the Brodhead Association two weeks within which to provide details of its financial capacity. On February 23, 2021, the Administration and DEGC again met with the Brodhead Association to discuss financials for the group's phase one of the project, restoration of the armory. Later the Administra-

tion and DEGC notified the Brodhead Association that the financial details were not sufficient to change the Administration and DEGC's position to propose selling the Brodhead to the Detroit Parade Company.

#### **MASTER PLAN ANALYSIS *Surrounding Master Plan, Zoning, and Land Uses***

As noted earlier, the subject site has a SD4 zoning designation and PRC Master Plan designation.

The following lists the Master Plan, zoning, and land uses surrounding the Armory.

- North:** Master Plan (High Density Residential);  
Zoning (PD, Planned Development);  
Land Use (apartments)
- East:** Master Plan (High Density Residential);  
Zoning (R6, High Density Residential);  
Land Use (apartments)
- South:** Master Plan (Recreation);  
Zoning (R6);  
Land Use (riverfront)
- West:** Master Plan (Recreation);  
Zoning (R6 & Parks & Recreation, PR);  
Land Use (parkland)

#### ***Community Feedback***

In addition to the February 4th CPC hearing, the following summarizes community feedback on the proposed request. In early October 2020, CPC staff sent letters, as required by State law, to adjacent cities informing them of the proposed Master Plan change and requesting comments, and the CPC received no comments in response.

On January 26, 2021, the City of Detroit Department of Neighborhoods (DON) District 5 hosted a virtual community meeting to present the proposed Master Plan amendment and sale of the Brodhead Armory. Members of the nearby Charlevoix Village Association asked questions about the project related to the overall total investment and parking. Several veterans from the Brodhead Association spoke in opposition to the land sale indicating the association had a better plan for the building.

On February 16, 2021, the DON District 5 held a second virtual community meeting. One resident from West Village supported the Parade Company as the best chance to save the building. Three area residents raised concerns, including the need to work with veteran groups, the Parade proposal was not the best use along the River, and could parking be accommodated for buses, etc.

#### **CONCLUSION AND RECOMMENDATION *Master Plan Recommendation***

The Armory building and surrounding land have been vacant and underutilized

for a number of years. The current PRC designation is not appropriate, because the City does not plan to use the site for recreational purposes and desires to see building privately repurposed. Presently, the PRC designation prohibits the City from selling or leasing the building to a private party.

The Master Plan states that the Institutional designation applies to educational, religious, health, or public use such as a church, library, museum, public or private school, hospital, or government owned or operated building, structure, or land used for public purposes. The Master Plan for the subject area along East Jefferson includes a mix of Recreation, Commercial, High Density Residential, and Institutional (the former Riverview Hospital) and Water Works Park.

The City amended the Master Plan in 2008 to allow the building to be sold and redeveloped. However, again, that amendment was accidentally overridden by the 2009 comprehensive update of the Master Plan. As a result, the CPC finds the proposed Master Plan change is appropriate. As a result, at its meeting on March 4, 2021, the CPC voted to recommend approval of the proposed Master Plan amendment.

#### **Potential Redevelopment of the Broadhead Recommendation**

The CPC, for its public hearing, was not specifically asked to review any proposed sale of the Broadhead Armory or any particular development proposal. However, it is within the CPC's Charter mandated authority to speak to such things if the Commission desires. The CPC appreciates P&DD's commitment, that if the Master Plan is amended, to bring back details of the final selected project to the CPC prior to seeking City Council approval of the land sale.

At its March 4, 2021 meeting, the Commission, apart from the proposed Master Plan amendment, made the following suggestions regarding the redevelopment of the Broadhead for City Council to consider:

- The Broadhead Armory has been vacant for a long time and each day continues to further deteriorate, therefore, time is of the essence to save the building and the art therein;
- Due to the historic nature of the building both interior and exterior, every effort should be made to preserve the entire building and its features;
- At the expense of the City, one of the City's partner agencies or the developer, some assessment of the condition of the building and its features should be conducted by professionals with the necessary expertise to determine the feasibility of preservation/adaptive reuse of the building and restoration of the art;
- If not already obtained, an appraisal of the property should be conducted;

- If current negotiations for sale of the property are not successful, consider issuing a new RFP; and

- Whoever the ultimate developer is, some effort should be made to celebrate the military history of the facility and if possible work with the veteran groups and others as appropriate to that end.

**Planning and  
Development Department**

May 27, 2021

Honorable City Council:

Re: \*Revised — Property Sale by Development Agreement; Portion of 7650 E. Jefferson (Former Brodhead Armory).

The City of Detroit ("City"), Planning and Development Department ("P&DD") has received an offer from The Parade Company, a Michigan nonprofit corporation, to purchase a portion of certain City-owned real property at 7650 E. Jefferson (the "Property") for the purchase price of Three Hundred Thousand and 00/100 Dollars (\$300,000.00).

The Property is the site of the former Brodhead Armory, which opened in 1930 as a training facility for State naval militias, as well as for hosting certain civic, political and sporting events. When use of the Brodhead Armory was discontinued and its doors closed in 2003, the Property was reverted back to the City under the jurisdiction of the Recreation Department and held as surplus property. In 2008, jurisdiction of the Property was transferred to P&DD to market for sale. The City formally solicited development proposals several times over the years to return the Property back to productive use, however no viable proposals were received through such solicitations and the building has since deteriorated.

As a long standing community supporter of the City, The Parade Company has proposed to relocate its entire Detroit operations on Mt. Elliott to the Property. The new location will allow for easier access to both the Detroit River for the annual Ford Fireworks and the downtown area for the annual America's Thanksgiving Parade Presented by Gardner-White. These marquee Detroit events are viewed by millions and The Parade Company has expressed the importance of building a proper Parade Studio at the Property that not only houses all of the creativity and Detroit tradition seen in everything they do, but that also opens up new opportunities for community and educational tours, events and engagement.

The Parade Company's proposed plan for the Property is to rehabilitate the northern portion of the existing building structure to stabilize and restore certain historical elements of the former Brodhead Armory, while at the same time modernizing the back half of the Property to accommodate float construction and event operations. Steps will be taken to properly preserve the historic artwork and woodwork within the existing building structure. The new space will also provide for community/educational event spaces and a designated office and meeting area for use by organizations that support veteran-centered activities. Currently, the

Property is within a SD4 zoning district (Special Development District. Riverfront Mixed Use). The Parade Company's proposed use of the Property will be consistent with the allowable uses for which the Property is zoned.

We request that your Honorable Body adopt the attached resolution to formally surplus the Property and authorize the P&DD Director, or his/her authorized designee, to execute a development agreement, deed and such other documents as may be necessary or convenient to effect a transfer of the Property by the City to The Parade Company.

Respectfully submitted,  
KATHARINE G. TRUDEAU

Deputy Director

By Council Member Sheffield:

Whereas, On July 8, 2008, Detroit City Council adopted a resolution that approved the transfer of jurisdiction from the Recreation Department to the Planning & Development Department ("P&DD") of a certain portion of real property at 7650 E. Jefferson, Detroit, MI (the "Property"), also known by the street address of 7600 E. Jefferson and as more particularly described in the attached Exhibit A incorporated herein; and

Whereas, Since the above referenced transfer of jurisdiction, P&DD has determined that, pursuant to Sec. 2-7-4 of the Detroit City Code, the Property is non-essential to City governmental functions and has marketed it for sale; and

Whereas, P&DD now recommends that the Property be deemed "surplus real property" and sold; And Now Therefore Be It

Resolved, That Detroit City Council hereby approves the aforementioned recommendations of P&DD; and Be It Further

Resolved, That Detroit City Council hereby approves the sale of the Property by development agreement to The Parade Company, a Michigan nonprofit corporation, for the purchase price of Three Hundred Thousand and 00/100 Dollars (\$300,000.00); And Be It Further

Resolved, That the P&DD Director, or his/her authorized designee, is hereby authorized to execute a development agreement and issue a quit claim deed for sale of the Property, as well as execute such other documents as may be necessary or convenient to effect the transfer of the Property to The Parade Company consistent with this resolution; And Be It Further

Resolved, That the development agreement shall obligate The Parade Company to:

- 1) Renovate the Property to accommodate The Parade Company's operations as a nonprofit entity, including space for the production and storage of its floats;
- 2) Renovate approximately 28,700

square feet of existing space at the Property using commercially reasonable efforts to rehabilitate historical elements of the northern portion of the existing building structure;

3) Include approximately 125,000 square feet of 2-story new construction for high bay areas that accommodate the operations and storage needs of The Parade Company;

4) Work to preserve the existing historical artwork and woodwork found throughout the existing building structure;

5) Designate an event space to accommodate public tours and educational activities;

6) Designate office and meeting space for use by organizations that support veteran-centered activities; And Be It Further

Resolved, That the P&DD Director, or his/her authorized designee is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Property, provided that the changes do not materially alter the substance or terms of the transfer and sale; And Be It Finally

Resolved, That the development agreement and quit claim deed will be considered confirmed when executed by the P&DD Director, or his/her authorized designee, and approved by the Corporation Counsel as to form.

Re: Brush Watson East 2018 Limited Dividend Housing Association L.L.C. — Payment in Lieu of Taxes (PILOT).

American Community Developers, Inc. has formed Brush Watson East 2018 Limited Dividend Housing Association L.L.C. (the "LDHA") in order to develop the Project known as Beaubien. The LDHA owns Unit 3 of the Brush Watson Condominium, a mixed-income new construction development structured as five (5) separate condominium units. Unit 3 consists of sixty (60) units of housing for low-income residents. The site is bounded by Watson on the north, Beaubien on the east, Wilkins on the south and Brush on the west.

The Project will include ten (10) studio, forty-one (41) 1 bedroom/1 bath, four (4) 2 bedroom/1 bath and five (5) 2 bedroom/2 bath apartments.

Financing will be provided by a Berkadia Commercial Mortgage LLC permanent loan in the amount of \$3,700,000 and a City of Detroit HOME loan in the amount of \$1,050,000. City Real Estate Advisors, LLC will make Capital Contributions of \$14,095,770 which includes the purchase of Low Income Housing Tax Credits. Additionally, the Sponsor has agreed to defer \$329,397 of the developer fee.

Rents for forty-eight (48) units have been set aside as affordable with rents between thirty percent (30%) and eighty percent (80%) of the area median income, adjusted for family size. Residents in eighteen (18) of the affordable units will receive project based rental assistance from HUD in the form of a HAP contract which requires households to contribute only thirty percent (30%) of household income towards rent. The remaining twelve (12) units will be market rate units. All sixty (60) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a 4-unit multi-family residential building located at 102 Garfield in the Garfield Condominium Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NHZ) certificate forwarded from the office of the City Clerk for the rehabilitation of a 4-unit multi-family residential apart-

ment building located at 102 Garfield. This application corresponds to a qualified site which will facilitate the rehabilitation of the aforementioned building which at one time was a single-family residential home and has since been converted into a multi-family 4-unit building. The proposed work will consist of tuck-pointing, concrete work, fencing, mechanical, HVAC, plaster repair and replacement, and kitchen upgrades.

The subject property has been confirmed as being within the boundaries of the Garfield Condominium NEZ which was established by a vote of Council on November 17, 2005, and should be eligible for an NEZ certificate under State Act 147 of 1992 as currently written. The estimated rehabilitation cost per unit for 102 Garfield is \$22,450.00 for a total estimated project cost of \$89,800.00. Given the historic nature of the property and its location in the Sugar Hill historic district this project could qualify for a 17-year tax abatement, however, the applicant, Whirlwind Capital, LLC, is seeking a 15-year tax abatement for this project. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits, however, given the projects local in the Sugar Hill historic district this requirement can be waived.

Please contact our office should you have any questions.

Pursuant to Section 228(1) of Public Act 57 of 2018, DDA staff has prepared the attached FY 2021-2022 Downtown Development Authority’s (the “DDA”) General Fund Budget for your approval prior to its adoption by DDA.

On the revenue side, the amount of funds available from the one mill tax for FY 2021-2022 has been estimated at \$1,050,000, net of collection delinquencies and reserves for tax settlements representing no change from the FY 2020-2021 budget. Due to current projections, Earnings on Investments for FY 2021-2022 is estimated at \$25,000, representing a \$75,000 decrease from FY 2020-2021. Transfer from the DDA’s Tax Increment Fund will also remain unchanged from the 2020-2021 budgeted allocation of \$750,000.

The FY 2021-22 budget reflects revenues of \$800,000 to be generated from the Parking Operations, representing no change in parking revenues from the FY 2020-2021. Other/Events Center Revenues are estimated at \$15,000, also representing no change from FY 2020-2021. A Fund balance transfer of \$350,000 represents an expected accumulation of expenses over revenues.

On the expenses side, Contractual Services of \$1,940,000, reflects no increase from FY 2020-2021. The budgeted amount of \$550,000 for Professional Services and Fees,

inclusive of a \$10,000 expense for Computer Support, represents no change from FY 2020-2021. There is no budgeted expense related to Parking Operations for FY 2021-2022, representing a \$25,000 decrease from FY 2020-2021 as the DDA is no longer managing surface parking lots. Finally, \$500,000 of allocated funds for Special Projects and Contingencies for FY 2021-2022 remains the same as FY 2020-2021.

We respectfully request City Council's approval of the attached budget at its June 8, 2021 formal meeting. A waiver of reconsideration is requested. Should any member of the Council have any questions, please contact me at (313) 460-8584.

Re: Joseph Campau Greenway Project Maintenance and Use Agreement with the Detroit Riverfront Conservancy.

On April 15, 2005 the City and the Detroit Riverfront Conservancy, Inc. (the "Conservancy") entered into the "Detroit Riverfront Conservancy Lease Agreement" (the "Lease Agreement") which leases to the Conservancy certain property along the Detroit River for the purposes of maintaining and operating a linear public park known as the Riverwalk.

Campau Greenway and Streetscape Area. Notwithstanding the foregoing, the Conservancy's obligations under this Agreement shall commence upon the City's completion of construction of each Phase of the improvements (the "Improvements"). **Section 5.02 Utility and other work in the Streetscape Area.**

The City will endeavor to complete in a timely fashion any work that requires access through, beneath or adjacent to the Jos. Campau Greenway and Streetscape Area and to schedule such repairs so as to minimize any disruption of the Jos. Campau Greenway and Streetscape Area events or activities. The City and the Conservancy agree to cooperate and use reasonable efforts to provide other access in the event ingress and egress through the Jos. Campau Greenway and Streetscape Area is closed or materially disrupted in connection with such work. Once the work is complete, the City will promptly return the Jos. Campau Greenway and Streetscape Area to substantially the condition existing at the time the work was commenced.

**ARTICLE 6**

Insurance and Indemnification

**Section 6.01 Duty to Carry Liability Insurance.**

A. The Conservancy shall carry with financially responsible insurance companies rated "Excellent" (at least A-VIII) or better by the then current A. M. Best Company Insurance Reports (or comparable rating from a comparable rating agency should A. M. Best Company cease to issue its insurance reports), commercial general liability insurance covering its legal liability in connection with claims for bodily injury, including death, contractual liability, property damage and personal injury written on an occurrence basis incurred on or about the Jos. Campau Greenway and Streetscape Area, or arising out of its use, maintenance, and/or repair of the Improvements. Such insurance shall have limits of Five Million (\$5,000,000) Dollars per occurrence and in the aggregate. Each such policy of insurance shall name the City as an additional insured.

B. In addition, the Conservancy shall maintain as to the Jos Campau Greenway and Streetscape Area and shall require its contractors to maintain, the following:

1. Workers' Compensation with statutory benefits and Employers' Liability

Insurance (or its equivalent) with limits of liability of not less than Five Hundred Thousand (\$500,000) Dollars.

2. Automobile (motor vehicle) Liability insurance with coverage for all owned, non-owned and leased vehicles, with combined single limits of not less than One Million (\$1,000,000) Dollars for bodily injury and/or property damage.

**Section 6.02 Indemnification by Conservancy.**

A. The Conservancy agrees to defend, indemnify and save the City, its officers, employees and agents harmless against and from all claims, loss, damages, causes of action, costs and expenses, including reasonable attorneys' fees, related to personal injury, bodily injury) or death of persons or destruction of or damage to property resulting from or arising out of or in any manner connected with the Conservancy's construction, repair, maintenance, or operation of activities on the Jos. Campau Greenway and Streetscape Area. Notwithstanding the foregoing, the Conservancy's obligation to indemnify and hold harmless the City shall not apply to any liability, obligation, damage or expense which arises from or in connection with the gross negligence, or intentional or willful acts or omissions of the City, its officers, employees or agents or the exercise by the City of its rights under Section 5.02 or in connection with the City's initial construction obligations under this Agreement with respect to the Improvements. Notwithstanding anything to the contrary contained herein, the Conservancy shall have absolutely no obligation to indemnify, defend and/or hold the City harmless in connection with any claim or cause of action regarding or related to the method, procedure, type or manner in which security is being provided in the Jos. Campau Greenway and Streetscape Area by the Conservancy or otherwise.

B. In the event that a claim arises, and indemnification is sought by the City pursuant to this Section, the City shall promptly notify the Conservancy of such claim and, if known, the facts constituting the basis for such claim (a "Third Party Claim"); provided, however, that in the event a claim for indemnification arises from or in connection with legal proceedings, the City shall give such notice thereof to the Conservancy no later than ten (10) days prior to the time any response to the asserted claim is required; and, provided further, that the failure to give such reasonably prompt notice shall not release, waive or otherwise affect the Conservancy's obligation with respect thereto, except to the extent of any loss or prejudice as a result thereof. In the event a Third Party Claim arises, the Conservancy may assume the defense of such Third Party Claim if either (i) the defense of the Third Party Claim is

tendered to the Conservancy by the City and within thirty (30) days thereafter such tender is accepted by the Conservancy; or (ii) within thirty (30) days after the date on which written notice of a Third Party Claim has been given to the Conservancy, the Conservancy shall acknowledge in writing to the City the Conservancy's indemnity obligations as provided in this Section. Except as authorized by the Conservancy, the City shall not, in such instances have the right to be represented by separate counsel at the expense of the Conservancy in any such contest, defense, litigation or settlement conducted by the Conservancy. So long as the Conservancy has assumed the defense of any Third Party Claim, and is defending such claim in good faith, the Conservancy shall have the exclusive right, in its sole discretion, to settle any such claim, either before or after the initiation of litigation, at such time and on such terms as the Conservancy deems appropriate provided that such settlement does not impose any obligations on the City. If the City is entitled to indemnification against a Third Party Claim, and the Conservancy fails to assume the defense of such Third Party Claim pursuant to this Section, the City shall have the right, without prejudice to its right of indemnification hereunder, to contest, defend and litigate such Third Party Claim; provided that the City may not settle such Third Party Claim without the prior written consent of the Conservancy, such consent not to be unreasonably withheld or delayed. The City shall cooperate and assist the Conservancy with the review, adjudication and/or settlement of all claims against the City subject to the indemnity obligations set forth in this Section.

**Section 6.03 Contractual Liability Insurance.**

The Conservancy further agrees to maintain contractual liability insurance insuring its obligations set forth in Section 6.02, with the same limits as provided in Section 6.01 for the commercial general liability insurance policy, which policy may be endorsed to include the contractual liability insurance coverage to satisfy this requirement.

**Section 6.04 Certificate of Insurance.**

The Conservancy shall, on the request of the City, promptly furnish a certificate evidencing the Conservancy's compliance with the insurance coverage requirements of this Article. Each certificate of insurance shall name the City as an additional insured, where permitted by law, and stipulate therein that the insurance evidenced thereby shall not be materially reduced, cancelled or not renewed unless thirty (30) days' prior written notice shall have been given by the insurer to City addressed to the persons stated in Article 8 hereof. The Conser-

vancy shall not be required during any given one (1) year period to honor more than one such request from the City.

**Section 6.05 Future Increases in Coverage.**

The Conservancy shall, upon the request of the City, provide additional insurance and/or increase the coverage amounts described in the preceding sections to be consistent with general insurance requirements of the City applicable to parties contracting with the City, as established from time to time by the risk management section of the City Finance Department, or successor agency fulfilling substantially the same function, provided that such insurance is commercially available. Any such increase in coverage shall be required upon expiration of the insurance policy then in effect, or one year from the date the City notifies the Conservancy of the requirement of additional or increased coverage, whichever occurs earlier.

**ARTICLE 7**

Default and Remedies

**Section 7.01 Default, Including Failure to Maintain.**

If the Conservancy defaults in its obligations or breaches any of its covenants under the terms of this Agreement, the City may at any time give a written notice to the Conservancy setting forth the specific default or breach. If such default or breach invokes the Conservancy's failure (i) to discharge any lien filed against the Jos. Campau Greenway and Streetscape Area for the actions or inactions of the Conservancy, whether for taxes, utilities, judgments or other purposes, (ii) to maintain the Jos. Campau Greenway and Streetscape Area as provided in Section 3.04 (unless such breach is caused by the City's failure to initially construct the Improvements in accordance with this Agreement), (iii) to take adequate safety measures under Section 4.07. and/or (iv) to carry the insurance required under Sections 6.01 and 6.03, and such failure is not corrected with reasonable promptness and in any event, within thirty (30) days after receipt of such notice, or if such default or breach is such that it cannot be corrected within such time and the Conservancy fails to commence the correction of such default or breach within thirty (30) days and diligently prosecutes the same to completion thereafter, then, in either such event, the City shall have the right to correct such default or breach, including the right to enter upon the Jos Campau Greenway and Streetscape Area to correct such default or breach, at the cost of the Conservancy. The Conservancy shall pay any reasonable amounts so expended, with interest, in accordance with Section 7.02 hereof: provided, however, these provisions shall

be without prejudice to the Conservancy to contest the right of the City to make such repairs or expend such monies. Notwithstanding anything herein to the contrary, in the event of an emergency situation, either party, as appropriate, may, with such notice as may be possible or appropriate under the circumstances, cure any default or breach and thereafter shall be entitled to the benefits of this Section 7.01.

**Section 7.02 Payment on Default.**

If the City is compelled or elects to pay any sum of money or do any acts that require the payment of money by reason of the Conservancy's failure or inability to perform any of the provisions of this Agreement to be performed by the Conservancy, the Conservancy shall promptly, upon demand, reimburse the City for such sums. All such sums shall bear interest at the applicable rate set forth in Michigan Compiled Laws §600.6013(8), commonly known as the money judgment interest rate, but without compounding. A determination of interest rate in effect as aforesaid shall be made on the date of expenditure and shall remain in effect until the effective date of the next determination of the money judgment interest rate.

**Section 7.03 Termination of this Agreement.**

Any Material Breach under this Agreement that is not cured after notice and reasonable opportunity to cure if curable, shall entitle the other party to terminate, cancel and otherwise rescind this Agreement upon ninety (90) days' notice to the other party; provided, however, this remedy shall not affect any other rights or remedies the parties may have by reason of any default under this Agreement. In the event of termination by either party the Conservancy shall offer to assign to the City all contracts held by the Conservancy executed in performing its obligations under this Agreement. The City shall have sixty (60) days to assume or reject each such contract. The City shall not be bound to accept the assignment of any contract unless it has affirmatively agreed to assume it. For purposes of this Section 7.03, a "Material Breach" shall mean the Conservancy's (i) failure to maintain its status as a non-profit corporation exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, (ii) failure to maintain the Jos. Campau Greenway and Streetscape Area in accordance with Section 3.04 for a period of ninety (90) days, (iii) abandonment of the Jos. Campau Greenway and Streetscape Area, or (iv) subject to the following two sentences, failure by the Conservancy to indemnify the City and/or reimburse the City for indemnified expenses within ninety (90) days. If the Conservancy contests any such indemnity obligation in good faith, the failure to indemnify or pay indemnity shall not be

deemed a material breach until the indemnity obligations are determined by the appropriate tribunal. Failure to pay indemnity in the aggregate of less than Ten Thousand (\$10,000) Dollars shall not be deemed a Material Breach unless the indemnity obligation has been reduced to a court judgment.

**Section 7.04 Right to Enjoin.**

In the event of any violation or threatened violation of any of the provisions of this Agreement, either party shall have the right to apply to a court of competent jurisdiction for an injunction against such violation or threatened violation, and/or for a decree of specific performance.

**Section 7.05 Waiver of Default.**

A waiver of any default by a party must be in writing and no such waiver shall be implied from any omission by a party to take any action in respect of such default. No express written waiver of any default shall affect any default or cover any period of time other than the default and period of time specified in such express waiver. One or more written waivers of any default in the performance of any provision of this Agreement shall not be deemed to be a waiver of any subsequent default in the performance of the same provision or any other term or provision contained herein. The consent or approval by a party to or of any act or request by another party requiring consent or approval shall not be deemed to waive or render unnecessary the consent or approval to or of any subsequent similar acts or requests. Unless expressly herein provided to the contrary, the rights and remedies given to a party by this Agreement shall be deemed to be cumulative and no one of such rights and remedies shall be exclusive of any of the others, or of any other right or remedy at law or in equity which a party might otherwise have by virtue of a default under this Agreement, and the exercise of one such right or remedy by a party shall not impair such party's standing to exercise any other right or remedy.

**RESOLUTION IN SUPPORT OF WOMEN VETERANS RECOGNITION DAY**

By COUNCIL PRESIDENT JONES:  
 WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and  
 WHEREAS, Women have formally been a part of the United States Armed Forces since the inception of the Army Nurses Corps in 1901, but informally, have served since the inception of our nation's military; and

WHEREAS, Women have proudly served their country throughout all periods of the history of the United States, whether disguised as male soldiers during the American Revolutionary War and Civil War, as nurses in World War I, or as combat helicopter pilots in Afghanistan; and

WHEREAS, This year commemorates the 73rd Anniversary of the Women's Armed Services Integration Act, which was signed into law by President Harry S Truman on June 12, 1948, and enabled women to serve in all branches of the military as permanent, regular members; and

WHEREAS, Despite their resilience and strength, women veterans face a unique set of challenges within their battalions and much more remains to be done to ensure that women in the Armed Forces are treated equitably and with the respect they deserve; and

WHEREAS, In the late 1970s and early 1980s, many of the contributions made by women in World War I, were formally recognized through laws that granted these women with veteran status for their time in service. This opened the doors for women to take advantage of programs, opportunities, and benefits from the federal and state governments, the Department of Veteran Affairs, and other veteran service organizations; and

WHEREAS, In 2008, VHA's Women Veterans Health Strategic Health Care Group, began a five year plan to redesign the nation's health care delivery system for women. A fundamental component of this plan, was to ensure that all women veterans had access to comprehensive primary care from skilled women's health providers; and

WHEREAS, At the time of the 1980 decennial census, women made up just over two percent of the veteran population. Today, that proportion has increased to almost eight percent; and

WHEREAS, There are currently over two million women veterans living in the United States and Puerto Rico. Michigan is home to approximately 44,000 women veterans who deserve to be honored for their bravery and service and sacrifice, NOW, THEREFORE BE IT

INDUSTRY Detroit QOZB, LLC has submitted satisfactory evidence that they possess the necessary financial resources required to develop this property in accordance with Public Act 255 of 1978 ("the Act") and the Development Agreement for the project.

Respectfully submitted,

KELLY R. VICKERS

Chief Housing Development & Investment Officer

By Council Member Benson:

Whereas, INDUSTRY Detroit QOZB, LLC has filed an application for a Commercial Facilities Exemption Certificate, under Public Act 255 of 1978 ("the Act"), with the Detroit City Clerk in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council legally established a Commercial Redevelopment District in the vicinity of 950 Selden, Detroit, Michigan on June 30, 2020, after a public hearing held on June 25, 2020; and

Whereas, The state equalized value of the property proposed to be exempt plus the aggregate state equalized value of property previously exempt and currently in force under the Act and Public Act 198 of 1974 (Industrial Facilities Exemptions) does not exceed 5% of the total state equalized value of the City of Detroit; and

Whereas, The application was approved at a public hearing as provided by section 6(2) of the Act on June 3, 2021; and

Whereas, The INDUSTRY Detroit QOZB, LLC is not delinquent in any taxes related to the facility; and

Whereas, The restoration includes improvements aggregating 10% or more of the true cash value of the property at commencement of the restoration as provided by section 4(6) of the Act.

Now, Therefore, Be It

Resolved, That it is hereby found and determined that the granting of a Commercial Facilities Exemption Certificate, considered together with the taxable value of Commercial Facilities Exemption Certificates and Industrial Facilities Exemption Certificates previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax with the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of INDUSTRY Detroit QOZB, LLC, for a Commercial Facilities Exemption Certificate, in the City of Detroit Commercial Redevelopment District is hereby approved for a period of Twelve (12) years from completion of the facility, with the certificate beginning December 31, 2021, and the certificate expiring Decem-

**Human Resources Department  
Classification Compensation  
Administration**

May 25, 2021

Honorable City Council:  
Subject: **Request to Amend the Official Compensation Schedule.**

Recommendation is submitted to

amend the 2020-2021 Official Compensation Schedule to include the following pay range, subject to City Council approval:

**Class Code**  
93-12-01

**Classification**  
Administrative Hearings Officer

**Salary Range**  
\$75,500-\$105,700

**Request:**

The above recommendation is at the request of Miriam Blanks-Smart, Director of the Department of Appeals and Hearings.

**Rationale:**

The recommendation is based on the department's expressed need that this appointed position provides a key function to the department.

The Department of Appeals and Hearings (DAH) adjudicate blight tickets and appeals of administrative decisions by City departments and agencies. The ability of the DAH to carry out its function is contingent upon hearing officers conducting hearings and issuing orders and judgments. Therefore, the position of the Administrative Hearings Officer is critical to the purpose and function of the Department of Appeals and Hearings.

To determine the appropriate salary range for the new classification, a market study was conducted using data from external survey sources that had comparable positions. Based upon the results, Classification and Compensation recommends a pay range of \$75,500-\$105,700. The proposed salary recommendation is subject to City Council approval.

Respectfully submitted,  
DENISE STARR

Human Resources Director  
By Council Member McCalister, Jr.:

Resolved, That the 2020-2021 Official Compensation Schedule is hereby amended to reflect the following pay adjustments, effective upon Council's approval.

**Class Code**

**Classification**  
Administrative Hearings Officer

**Salary Range**  
\$75,500-\$105,700

Resolved, That the Finance Director is hereby authorized to honor payrolls and vouchers in accordance with this resolution, the above communication and standard City of Detroit practices.

Classification Compensation  
Administration**

May 26, 2021

Honorable City Council:

Subject: **Request to Amend the Official Compensation Schedule.**

Recommendation is submitted to amend the 2020-2021 Official Compensation Schedule to include the following pay range, subject to City Council approval:

**Class Code**  
53-10-11

**Classification**  
Park Maintenance  
Helper

**Salary Range**  
\$23,182.63-  
\$31,488.32

**Barg. Unit**  
1100

**Request:**

The above recommendation is at the request of Sandra Yu Stahl, Deputy Director General Services Department.

**Rationale:**

The recommendation is based on the expressed need to correct a negative impact to Park Maintenance Helper titles due to the Special Adjustment wage increase granted to the city-wide Laborer A titles during negotiations of the 2019-2024 AFSCME Master Agreement effective October 2019. The impact of this change affected the rates of higher titles within the General Services Department and employees deserving a promotion will be paid less if the impact is not corrected. The Park Maintenance Helper title has always paid more than the Laborer A title, but the Park Maintenance title was inadvertently overlooked for a special adjustment wage increase. Therefore, this request is to increase the salary of the Park Maintenance Helper title, so that it pays more than the Laborer A entry level position.

The adoption of this salary range is essential for internal equity and attraction and retention efforts. The range is subject to City Council approval.

Respectfully submitted,  
DENISE STARR

Human Resources Director  
By Council Member McCalister, Jr.:

Re: Annual HOME, CDBG, NSP Awards. New Award — 150 Bagley. Modification of Scope and Funding Source — Mack / Alter Homes Community.

The City of Detroit ("City"), through the Housing and Revitalization Department ("HRD"), makes annual funding available for "ready-to-proceed projects" from HOME, CDBG and NSP federal funds allocated to the City through the U.S. Department of Housing and Urban Development ("HUD"). Furthermore, HRD is hereby requesting approval to modify the scope and funding source of a previously approved project as follows:

Previous Approved Loan Funding Increase:

We hereby request that your Honorable Body adopt the attached resolution that:

(1) approves the aforementioned new project funding, (2) amends the scope and funding source for the Mack / Alter Homes Community project and (3) authorizes the HRD Deputy Director / Acting Director, or her authorized designee, to execute such documents as may be necessary or convenient to complete the transactions.

**LEGISLATIVE POLICY DIVISION  
RESOLUTION IN OPPOSITION TO  
MICHIGAN SENATE BILL 0446 (2021)  
AND HOUSE BILL 4722 (2021)**

By ALL COUNCIL MEMBERS:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Michigan Senate Bill 446 and its companion legislation House Bill 4722, seeks to amend the Michigan Zoning Enabling Act, which defines a short term rental as any rental less than 30 days as a residential use of the property that should be permitted in any area zoned residential. It would not be subject to a special use or conditional use permit or procedure different from those required for other dwellings in the same zone. The bills specify that such properties cannot be considered commercial, and that local governments should not adopt or enforce ordinances that prohibit short-term rentals; and

WHEREAS, These bills would hinder the City's ability to regulate short term vacation rentals by removing the requirement for rental-inspection programs, effectively making such regulations null and void; and

WHEREAS, The legislation fails to address if short term rentals should have an excise tax similar to a bed tax at traditional hotels, that would benefit the local governments providing services to the rentals; and

WHEREAS, The actions of these bills will also exacerbate the problem of affordable housing and renting stock, with speculators and businesses buying up homes to serve as hotels, creating issues around housing supply and affordability; and

WHEREAS, The city of Detroit is a Home Rule City, and our residents have

made it clear that they want short term rentals regulated, because far too often they have become a nuisance that disturbs the surrounding neighborhoods. These matters are essentially local matters that should be regulated at the local level. Attempting to regulate such matters at the state level is inherently cumbersome, as situations across the state are not the same; and

WHEREAS, Senate Bill 0446 and House Bill 4722, serves as an overreach of state government, that cripples the City's ability to implement appropriate and measured solutions toward maintaining control over zoning practices and preserving neighborhood stability, NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges the Michigan Legislature to oppose Senate Bill 0446 and House Bill 4722, THEREFORE BE IT FINALLY

RESOLVED, That copies of this resolution be transmitted to the office of the Detroit City Clerk, Mayor Duggan, the Senate Committee on Regulatory Reform, the House Committee on Commerce and Tourism, the Detroit delegation in the State legislature and Gov. Whitmer.

#### RESOLUTION SUPPORTING COMMUNITY REPARATIONS FOR BLACK DETROIT

By Council Member Sheffield, in the name of the Council:

WHEREAS, Detroit City Council acknowledges that Black People have been systematically, continually and unjustly enslaved, unjustly segregated, unjustly incarcerated, denied housing through racist practices in the public land use arena as well as private realty markets, including redlining, steering, blockbusting, denial of mortgages, and gentrification, displaced and inadequately housed by government housing policies including discriminatory VA/FHA practices, urban renewal (i.e. Black Bottom and Paradise Valley), and a variety of local and federal “affordable” housing programs; and

WHEREAS, Detroit City Council affirms mass outpouring of public opinion that in the wake of the police killings of George Floyd, Ahmaud Arbery, Breonna Taylor and others, recognizes that a worldwide paradigm shift in racial attitudes has occurred. This prefigures a historic national reckoning around structural racism and related forms of systemic injustices that have shaped American history. These momentous events should call forth new forms of reparations for the centuries of human enslavement and post-emancipation systemic discrimination and racism that constitute United States history; and

WHEREAS, Black People have been consistently and widely impoverished by discriminatory wages paid in every sector of the economy, regardless of credentials and experience, based on property, income and wealth advantages of white supremacy rewarding white Americans for being white, and punishing black Americans descended from enslaved ancestors and devalued by many forms of rampant structural and systemic violence against Blacks, such as police misconduct and abuses continuing in the present day, among other unjust racial policies; and

WHEREAS, Detroit City Council on its own behalf, and on behalf of the City of Detroit, the City with the largest black majority per capita in the nation, particularly acknowledges its own history of racially-motivated policies and practices,

apologizes for the damage this history has caused the City and our People, and declares that it stands against White Supremacy;

WHEREAS, The Detroit City Council strongly supports reparations for centuries of human enslavement and post-emanicipation systemic discrimination and racism. The purpose of this resolution is to help establish processes, develop, and implement community reparations in Detroit for mass-historic unjust treatment of Detroit's majority Black population; and

WHEREAS, Assuming and strongly supporting the successful overturning of Michigan's state constitutional ban on any racial or other affirmative action (Art. I, Sec. 26), as declared by City Council's previous resolution supporting affirmative action policies in July 2020, reparations have been prominent among protestors' demands during historic demonstrations in the wake of the George Floyd killing; and

WHEREAS, The Detroit City Council specifically recognizes and supports the City Council of Asheville, North Carolina's July 14, 2020 Resolution Supporting Community Reparations for Black Asheville (attached), as well as successful or pending reparations initiatives in many other communities, including Evanston, Illinois; St. Paul, Minnesota; Durham, North Carolina; Providence, Rhode Island, and the State of California. City Council hopes a mass movement in such local city councils can powerfully support the demand for reparations; and

WHEREAS, The Detroit City Council demands a strong and sufficient US federal government program funding commitment to reparations, funding programs that should be democratically administered at the local level for the benefit of Detroit's Black community applying a racial equity framework, including without restriction or limitation such popular social initiatives as shall be necessary and appropriate to support this core Detroit population's needs and capacities for protection, enforcement and fulfillment of all their human rights, including:

- a. Right to Water and Sanitation
- b. Right to Environmental Health
- c. Right to Safety
- d. Right to Live Free from Discrimination, including people with disability, immigrants, LGBTQ, and others
- e. Right to Recreation
- f. Right to Access and Mobility
- g. Right to Housing
- h. Right to the Fulfillment of Basic Needs; and

WHEREAS, Pursuant to City Council's Charter-mandated powers of investigation, legislation, oversight and comprehensive responsibility for City affairs, City Charter Art. IV, the above public policy priorities for a human-rights based economic repara-

tions system should be pursued vigorously in Detroit by establishment of an adequately resourced task force oriented in solidarity and partnership with development of the national community reparations movement, including the passage of federal reparations legislation; and

WHEREAS, These formal demands are cumulative and intended for the benefit of the community of Black descendants of formerly enslaved and exploited claimants — descendants of those previously enslaved Americans who were first solemnly promised, then unjustly denied 40 acres and a mule to establish economic independence after centuries of bondage, and in the course of more generations of racial terror; and

NOW THEREFORE BE IT RESOLVED, That the Detroit City Council strongly supports reparations and a governmentally sponsored, citizen-led grassroots movement for reparations due Detroit's Black community, as briefly outlined in this resolution; AND BE IT

FURTHER RESOLVED, That the Detroit City Council calls on all Detroiters, Michiganders, Americans and people of good faith, as well as all guilty institutions, organizations, groups and individuals, without limitation, to examine their role in causing harm; Detroit and all others should call on other organizations and institutions that have advanced and benefited from racial inequity to join the City of Detroit in its apologies, and address racism within their own structures and programs, working with the City and others to more comprehensively address systemic racism by supporting the historically justified demand for reparations for Blacks' exploitation from enslavement to the present; AND, BE IT

FURTHER RESOLVED, That City Council establishes a reparations process to, within the next year, develop short, medium and long term recommendations to specifically address the creation of generational wealth and to boost economic mobility and opportunity in the black community; AND, BE IT

FINALLY RESOLVED, That copies of this resolution be forwarded to Mayor Mike Duggan, Governor Gretchen Whitmer, and all interested public media, civil society, educational and civil groups and individuals attending to the historic responsibility of reparations.

Re: Neighborhood Enterprise Zone Certificate Applications for twelve (12) newly constructed condominiums located at 224, 228, 232, 236, 238, 242, 246, 250, 254, 258, 260 and 264 Edmund Place in the Brush Park Development Company Phase 1 Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received twelve (12) applications requesting Neighborhood Enterprise Zone (NEZ) certificates forwarded from the office of the City Clerk for the new construction of twelve (12) condominiums located at 224, 228, 232, 236, 238, 242, 246, 250, 254, 258, 260 and 264 Edmund Place. These applications correspond to a qualified site that will facilitate the construction of twelve (12) condominium units. The proposed project will bring high density living to the Brush Park community appropriate to the developing Woodard Avenue transit corridor. The developer proposes 400 units of housing via the preservation and renovation of four existing historic homes and the construction of new townhouses, carriage houses, duplexes and apartment buildings. The project will be rounded out with complementary ground floor commercial retail, service and restaurants fronting the north/south streets, open green space, and supportive parking.

The subject property has been confirmed as being within the boundaries of the Brush Park Development Company Phase I NEZ which was established by a vote of Council on July 19, 2016, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The estimated construction cost for this project ranges from \$554,040.00 to \$770,310.00 per unit for an estimated total construction cost of \$8,067,114. The applicant Hunter Pasteur Homes Brush Park, LLC, is seeking a 15-year tax abatement. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

**RESOLUTION IN STRONG  
 OPPOSITION TO THE PROPOSED  
 BAN ON CITY INCOME TAXES FOR  
 NON-RESIDENT EMPLOYEES**

By ALL COUNCIL MEMBERS:

WHEREAS, A recent Michigan House Committee panel undertook a debate as to whether the State should place a ban on cities imposing an income tax on non-residents that are physically employed in their city. The panel engaged in discussion, both for and against the proposed ban: and

WHEREAS, The Detroit City Council strongly opposes any ban on the ability to levy a nonresident income tax on those who work in the City of Detroit and believes the arguments of taxation without representation are woefully misplaced and are contrary to the best interest of the State; and

WHEREAS, Each individual non-resident employee is represented by the Governor, State Senator and State Representative elected and sent to Lansing. It is this elected group that has eliminated businesses taxes and put forth multiple property tax exemptions and incentives that are deemed necessary to support corporate, economic vitality and job development in lieu of providing cities the valuable property taxes otherwise generated to provide services to residents and visitors who rely on those services; and

WHEREAS, It has been through the collective wisdom of the elected representatives of the State of Michigan that have determined that certain local governmental units of the State are allowed to levy a non-resident tax on those who are

employed within those communities recognizing the financial necessity in sharing the cost of the services provided; and

WHEREAS, A major rationale and tool for local governments to approve tax abatements and incentives under the laws created by these elected officials, is the ability of local governments to off-set the loss of property taxes through employee income taxes of both residents and non-residents that work for those local incentivized businesses in those local communities; and

WHEREAS, Local communities in which non-residents primarily pass through on the way to or from their home have little impact on that community per se. However, nonresident employees of a local community spend considerable hours each day within that community and have a direct impact on the financial expenditures of the local community where they are employed; and

WHEREAS, Non-resident employees spend multiple hours a week within and traversing to and from the local city of employment. The time engaged in that locality places an additional strain on local sendees including but not limited to traffic, police, fire and public works. The thousands of non-resident employees that derive their financial livelihood from working in the city of Detroit have access to and receive many of the benefits that residents of the City of Detroit who pay income taxes receive during the many hours they are working in the City; and

WHEREAS, In accordance with Public Act 500 of 1998, the City of Detroit has reduced its income tax rate to residents and non-residents. Additionally, then Mayor Dennis Archer and then Governor John Engler entered a State revenue share agreement in exchange for the income tax reduction, to which the State of Michigan failed to comply with the terms thereof resulting in the loss of hundreds of millions of dollars to the City of Detroit; and

WHEREAS, Any further reduction or ban of the non-resident income tax would only create financial hardship and potential devastation to the City of Detroit as well as the State's economy, if done without providing an equally financially stable alternative revenue source to replace any diminution of the non-resident tax;

WHEREAS, The recent City of Detroit Revenue Estimating Conference states "The FY 2021 estimate represents a 24.0% decrease compared to FY 2020 actuals. The FY 2021 forecast incorporates an anticipated \$84.9 million refund liability due to nonresidents working from home during the COVID-19 pandemic. The forecast assumes 60% of nonresidents will work from home through June 2021, 30% from July through September 2022, and 20% from October through December 2022. The FY 2023-2025 forecast assumes 10% nonresident withholding will continue mov-

ing forward, resulting in a recurring annual revenue loss of roughly \$16 million"; AND BE IT THEREFORE

RESOLVED, The Detroit City Council strongly opposes any actions to ban or further reduce the non-resident tax available to the City of Detroit for the above stated reasons; AND BE IT FURTHER

RESOLVED, The Detroit City Council is urging Governor Gretchen Whitmer, the Michigan Senate and the Michigan House of Representatives oppose any legislative action taken to ban or reduce the ability of those local units of government allowed to levy a non-resident income tax, unless there is identified and approved, an equally financially stable alternative revenue source to replace any diminution of the nonresident tax; AND BE IT FINALLY

RESOLVED, That a copy of this resolution be provided to Mayor Mike Duggan, Governor Gretchen Whitmer, Senate Majority Leader Mike Shirkey, Senate Minority Leader Jim Ananich, House Speaker Lee Chalfield and House Minority Leader Christine Greig.

Honorable City Council:

Re: Request to Accept and Appropriate the Resilient Park Access Grant.

The National Recreation and Park Association has awarded the City of Detroit General Services Department with the Resilient Park Access Grant for a total of \$433,800.00. There is no match requirement. The total project cost is \$433,800.00.

The objective of the grant is to support the advancement of community-driven, systems-level strategies for equitable park access that improves the environmental resilience and health of communities. The funding allotted to the department will be utilized to work with consultants to identify areas in the City that lack natural spaces, have high park community usage/presence, high youth populations and do not currently have access to a “natural area” within a ten-minute walk or otherwise easily accessible. Once identified, the department will be engaging local neighbors, block clubs, school groups and community organizations to make capital improvements to these parks.

If approval is granted to accept and appropriate this funding, the appropriation number is 20966.

I respectfully ask your approval to accept and appropriate funding in accordance with the attached resolution.

Respectfully submitted,

Petition No. 1440 — American Community Developers request to outright vacate utility easements located within

Kaline Drive, bounded by Cochrane Street, 65 ft. wide, and Trumbull Street, 100 ft. wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made as part of a new development located at 2610 Cochrane Street.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the vacation provided certain provisions are met. The DWSD provisions are a part of the attached resolution.

All other involved City Departments,

Honorable City Council:  
Re: Request of CCA Midtown Detroit, LLC to amend Chapter 50 of the 2019 Detroit City Code. Zoning, by amending Article XVII, Zoning Dis-

trict Maps, Section 50-17-5. District Map No. 4, of the Detroit Zoning Ordinance to modify the development regulations of the existing PD (Planned Development District) zoning classification for the properties commonly identified as 33 Elliot, 80 Mack Avenue, 90 Mack Avenue, 3510 Woodward and 3540 Woodward Avenue to allow for a three-building mixed-use development to host residential units, retail space and on-site parking. (RECOMMEND APPROVAL)

**RECOMMENDATION**

On March 4, 2021 the City Planning Commission voted to recommend approval of the request of City Club Apartments (CCA) Midtown Detroit with the following conditions:

1. The developer will submit a community impact plan to the City Planning Commission staff and adjacent neighborhoods prior to construction permits being issued which will address negative impacts that may arise. The community impact plan shall include:

- a. A construction schedule to describe anticipated start and end dates and other milestones of the development.
- b. A plan to mitigate fugitive dust, noise pollution, and pest infestation that may arise from ground disturbance and other construction activities.
- c. A plan for temporary construction site screening, staging and construction related vehicle parking.

2. The developer will adhere to the Department of Public Works Traffic and Engineering Division requirements as outlined below:

- a. That loading zone deliveries will not be allowed during the rush hour periods of 7:00 a.m. to 9:00 a.m. or 3:00 p.m. to 6:00 p.m.
- b. The second truck bay can only be used for trash pickup services, which can only occur overnight and prior to 6:00 a.m. At no time shall truck deliveries occur while the second bay is occupied.
- c. The delivery operation will be within the dock area without encroaching into the right-of-way. The developer will strongly encourage the use of small trucks as shown in their schematics. No trucks can be longer than the loading dock length.
- d. Parking in front of the business will be eliminated and will be converted to a short term loading zone.
- e. Curbside delivery is limited to short periods of time using the loading zone.
- f. The developer will seek both an encroachment permit and indemnification through the Department of Public Work's right-of-way permitting process for the proposed configuration.

g. Agreement needs to specific that the developer will have procedures in place that will be followed by all of their company truck drivers. The procedures will require the major retail tenant delivery vehicles to pull into the unoccupied curb lane, and wait for traffic to clear, before beginning the process of backing up into the loading dock. Deliveries from non-company entities shall utilize the assigned loading zone (curb lane) in front of the development for all delivery services. The delivery services shall be prohibited during rush hour periods of 7:00 a.m. to 9:00 a.m. or 3:00 p.m. to 6:00 p.m.

h. The developer will submit written procedures to the City Planning Commission staff which delivery trucks will be subject to when utilizing the Mack Avenue loading dock.

3. The developer will adhere to the Post Construction Stormwater Ordinance requirements for the development.

4. The developer will work with City staff and community members through a process to determine and finalize all signage and murals for the site to the satisfaction of City Planning Commission staff.

5. The developer must submit final site plans and elevations: landscaping, lighting, and signage plans; and, the parking lease agreement to the City Planning Commission staff for review and approval prior to making application for required permits.

#### **BACKGROUND**

City Club Apartments is a property owner and operator in the city of Detroit, founded by Jonathan Holtzman in 2016. The developer currently has numerous mixed-use developments in Detroit and surrounding communities. CCA's predecessor companies, Joseph Holtzman Homes, Holtzman and Silverman, and Village Green established the family of companies now in operation for 100 years. Other Detroit developments under the parent companies include City Club Apartments CBD Detroit (313 Park Avenue), City Club Apartments Lafayette Park (750 Chene Drive), Renaissance City Club Apartments (former Millinder Center), and Detroit City Club Apartments (1431 Washington Blvd). The firm also owns and operates other residential projects throughout Michigan and manages more than 10,000 housing units across multiple states.

#### **PROPOSAL**

The project that is currently before this Honorable Body is the proposal of CCA to develop City Club Apartments-Midtown on the approximately 2.4 acre site on the southeast corner of Mack and Woodward Avenues. The development is part of the Red Cross site master plan, bounded by Mack Avenue, the former Red Cross building, Woodward Avenue, and the reinstated, privately-owned extension of Eliot Street. A portion of the site is currently utilized for parking with the remainder of the site being vacant.

The project under consideration is a mixed-use development that will include three separate buildings designed to exist cohesively with each other and are comprised of the following;

- A 32,000 square foot (SF) single story retail building.
- A 64,000 SF six-story mixed-use building with 12,500 SF of ground floor retail and 77 apartments.
- A 203,000 SF 16-story apartment building with 273 apartments.

Within the three buildings, there is a proposed mix of one-bedroom, two-bedroom, three-bedroom, studio, convertible, townhouse and penthouse units. Of the total amount of units, 20% will be set aside as affordable.

The retail space that is planned for the site will host a national retail anchor to

occupy approximately 31,000 SF. Another 4,000 SF is planned for a national bank on the site. The remaining retail space is planned to host a local Detroit-based restaurant, coffee-shop and bakery. There are currently on-going negotiations to solidify the users for all of the aforementioned retail spaces.

Amenities for the development include a lounge, library, dog park, sky club with rooftop pool and outdoor grilling stations. 24/7 Whole Body Fitness, wellness room, movie theatre, business center, conference room, and zen garden. The proposed development will also offer three outdoor spaces to residents, patrons, commercial tenants and the surrounding community.

Two hundred and sixty-one (261) parking spaces are proposed, of which 186 spaces will be located below-grade on the site. An additional 75 spaces are planned to be located at the adjacent SOMA parking garage via lease agreement.

The total cost for the development stands at \$95 million. CCA anticipates financing the project with senior and mezzanine construction loans, as well as other possible economic incentives such as Brownfield TIF. It is estimated that the project will generate 133 full-time labor and skilled trade jobs during construction. Once completed, a total of 62 full-time, 55 part-time retail, and several management jobs are anticipated.

**PLANNING CONSIDERATIONS**  
***Surrounding Zoning and Land Use***

The zoning classification and land uses surrounding the subject area are as follows:

**North:** PD; Whole Foods Market and Starbucks

**South:** PD; The Bonstelle Theatre and Michigan State University Detroit Center

**East:** PD; Detroit Health Department

**West:** PD; Orchestra Tower

***Master Plan Consistency***

The subject property is located in the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of

Policies (MP). The future land use designation for the subject parcels indicates (MRC) Mixed Residential-Commercial characterized by “medium-to-high density housing developed compatibly with commercial and/or institutional uses.”

The Planning and Development Department (PDD) has submitted a letter stating the project’s consistency with the (MP).  
**COMMUNITY OUTREACH AND PUBLIC HEARING RESULTS**

The developer has held two meetings with the Brush Park CDC. The first meeting was held during the summer of 2020 and the second meeting in January of 2021. Since then, the Brush Park CDC has issued a letter of support for the project (with a unanimous vote.) The developer has also met with a number of additional stakeholders, with the meeting schedule listed below:

- Brush Park CDC Public and Board Meeting July, 2020 and January 21, 2021
- 3670 Woodward Ave. (Ellington Residents) February 25, 2021
- 100 Mack Ave (Owners of Office Building) February 3, 2021
- 115 Erskine St. (Owners of Office building) February 3, 2021
- 80 Eliot Street (Members of Club/ Ownership) February 4, 2021
- 3424 Woodward (Owner) February 3, 2021
- SWC Stimson/Woodward (Developer/ Owner) February 3, 2021
- 3152 Woodward Ave (Owner) February 2, 2021
- 3663 Woodward Ave (Broder and Sachse Building) February 2, 2021
- 81 Erskine St (Owner) February 3, 2021
- 3448 Woodward Ave (Owner) February 3, 2021
- 40 Davenport (Owner) February 2, 2021

At the February 4th CPC public hearing on this matter, there were several people that spoke in support or with general remarks and questions.

One speaker during public comment, representing the Prismatic Club located just south of the proposed development in the University of Michigan Building at 80 Eliot, spoke in opposition to the project due to a separate dispute with the owner of the site.

The representative of the Prismatic Club stated during the public hearing and in additional conversations with CPC staff that they have two concerns:

- that the vacated Eliot Street was recently reconfigured, without the Prismatic Club’s consent, during the construction of a neighboring project called SOMA by the owner of the former Red Cross site (which includes the subject CCA site); and
- that the Prismatic Club has an agree-

ment with the former Red Cross site owner to park on the existing parking lot. Therefore if the CCA-Midtown development is built, the Prismatic Club will no longer have access to parking.

This matter appears to be under review in Wayne County Circuit Court, based on documents that have been provided by the Prismatic Club representative.

GPC staff has also consulted the City's Law Department (Law) on this issue, resulting in them opining on the matter. The synopsis of Law's response is that "both of the disputes between Prismatic Foundation and Nyman (the owner of the former Red Cross site) are private in nature."

There is a resolution from 1994 that vacated and converted the portion of Eliot Street in question between Woodward Ave. and John R to an easement. Law's final advice is that recourse should not be handled through the legislative bodies, but through the courts. The Prismatic Club may also consult the Department of Public Works (DPW) regarding the Eliot Street issue.

Law also responds similarly to the alleged contractual obligation to provide parking spaces for the Prismatic Foundation and states that the alleged contract has no bearing on anything that the City may do in this matter. Essentially, the legislative body should not substitute its judgement in a dispute that should be handled by the courts, but can make a decision within the statutorily permitted criteria within state and local statutes. Again, this is considered a private matter according to Law.

Finally, a letter was also submitted by the owner of the former Red Cross site. Adam Nyman, that speaks to the litigation concerning the alleged interest in the portion of Eliot Street. The letter indicates that "in the event that the litigation is not resolved, we are prepared to construct the road over a portion of the vacated Eliot Street and part of our property in a size and manner that will not obstruct or delay the City Club Apartments proposed development and will sufficiently service the properties adjoining the vacated Eliot Street."

#### ANALYSIS

This project is generally in conformance with the PD District design criteria of Sec. 50-11-15 of the Zoning Ordinance. Staff's review is as follows:

**(a) Master Plan** *The proposed development should reflect applicable policies stated in the Detroit Master Plan.*

The subject property is located in the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The future land use designation for the subject parcels indicates (MRC) Mixed Residential-Commercial characterized by "medium-to-high density housing developed compatibly with commercial and/or institutional uses."

The Planning and Development Department has submitted a determination stating that the proposed development is in conformance with the Master Plan.

**(b) Scale, form, massing and density, and (c) compatibility:** *the proposed development is compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity.*

As it relates to scale, form, massing and density. CPC staff believes that the building heights and scale are appropriate for the current site. The scale and massing fit the existing context of the Woodward and Mack avenue intersection. The buildings that will be located at the intersection of two major thoroughfares are appropriate for this type of development. The tallest building, the residential tower, proposed to front Eliot Street, has been thoughtfully placed on Eliot Street instead of Woodward Avenue, to not overpower and cast shadows on neighboring structures.

The entire former Red Cross site has a master plan devised by the owner of the property. The City has been involved in this process for some years now, and believes that this proposed plan will contribute to the entire area, filling a space that lies at the very important Mack and Woodward avenue intersection.

**(d) Circulation.** *Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands. Disruption of traffic flow in surrounding areas should be minimized, and truck traffic should be carefully planned and controlled, especially to avoid use of residential streets.*

Concerns related to traffic, loading, circulation and pedestrian safety were central topics surrounding another development on the larger site in 2019. The traffic mitigation measures were put in place to reduce the traffic speeds in the residential neighborhood stemming from new development. At that time, the Mayor's Office, Detroit Police Department (DPD) and the Department of Public Works came before this Honorable Body and committed to a mitigation strategy. Since then, the Mayor's Office has confirmed that most of these items have been completed. These items are found below:

1. The intersection of Edmund and John R will be converted from two-way to four-way stop controlled.
2. Pedestrian crossing signs with blinking lights will be installed at the intersection of Watson and John R.
3. Yield-to-pedestrian signs will be installed in the crosswalks at the intersection of Watson and John R.
4. Yield-to-pedestrian signs will be installed at the intersection of Eliot and John R.
5. Pedestrian-crossing signs with

blinking lights will be installed at the intersection of Eliot Street and John R.

6. Spaces on Erskine will be marked as loading areas to alleviate congestion and double-parking while trucks unload for the Scott apartments and commercial business.

7. The DPD precinct commander has committed to allocating resources during high traffic event nights by deploying officers to ticket and to mitigate traffic impacts.

Additionally, kiosks have been implemented on Erskine, which has also relieved some-congestion in the area and spurred vehicle turnover. Traffic studies have been done by the CCA developer and reviewed by City staff, with concessions made to better manage traffic for this site. Measures dealing with trucks are included in the conditions, with a commitment to be enforced by the Building Safety Engineering Environmental Department.

**(e) Parking and loading.** *Where appropriate, adequate vehicular off-street parking and loading should be provided. The City Planning Commission will be guided by standards delineated in this zoning ordinance with adjustments appropriate to each specific situation.*

Due to several interdepartmental meetings and many conversations regarding the loading for this site, the Department of Public Works Traffic and Engineering Division has reviewed the current site plan and put forward the following conditions for the developer, which have subsequently been agreed to and will be incorporated as conditions of the PD ordinance. Those conditions related to loading are also included.

**(f) Environmental impacts.** *Environmental impacts that relate to such factors as noise, air, combustibles and explosives, gases, soil, and water pollution, toxic waste, vibration, odor, glare, and radiation, should be controlled to be within acceptable levels at all times.*

There are no major negative environmental impacts expected. The developer will adhere to the Post Construction Stormwater Management Ordinance.

**(g) Open space.** *Adequate public and private open space should be provided for light and air, landscaping and, where appropriate, for passive and active recreation.*

There are three open spaces and amenities planned for the site which include:

- A pocket park at the southeast corner of Mack and Woodward Avenues featuring a splash fountain with landscaping.
- A pocket park at the northeast corner of Woodward Avenue and Eliot Street featuring outdoor seating a sculpture to be designed by a local Detroit artist.
- An Art Park planned in the courtyard

between all of the CCA buildings. The Art Park will be reserved for apartment residents during the week but will be open to the local community for public events on the weekend. City Club Apartments will work in collaboration with local non-profit arts and cultural organizations to design and operate the Art Park.

The developer has stated that they will exceed the minimum tree size of a 2" caliper tree, 12-14 feet tall and instead propose the larger 3.5"-4" caliper tree, 18-20 feet tall for right-of-way (ROW) plantings.

The developer has committed to working with the City on the (ROW) to "propose tree and shrub species that make sense in the larger scheme of Midtown/Detroit to ensure diversity of species to increase disease resistance and visual interest."

**(h) Rights-of-way, easements, and dedications.** *Where appropriate, adequate rights-of-way, easements and dedications should be provided for traffic ways, utilities and community facilities.*

Rights-of-way, easements and dedications are addressed appropriately. While there is a legal matter regarding the easement of the vacated Eliot Street, there is a second option to redesign the street depending on the conclusion of litigation.

(i) River access. Where appropriate, public access should be provided, including provision of adequate right-of-way for the continuous pedestrian and bicycle pathway being developed along the Detroit River.

Not applicable.

**(j) Screening.** *Appropriate buffering and screening of service, loading, refuse collection, mechanical and electrical equipment and of parking areas should be provided.*

City staff has worked with the developer on locations of loading and siting of equipment.

**(k) Orientation.** *Careful consideration should be given to orientation both for solar access to the proposed project and for shadow impact upon surrounding development.*

As mentioned above, the tallest building, the residential tower proposed to front Eliot Street, has been thoughtfully placed on Eliot Street instead of Woodward Avenue, in order not to overpower and cast shadows on neighboring structures. The design team has been intentional about placement and orientation of buildings.

**(l) Signage.** *Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development. They should provide needed information, direction, and orientation in a clear and concise manner.*

Signage and proposed murals will be

addressed through a process to be determined that will include community and City involvement. This process will be included as a condition of the PD ordinance.

**(m) Security considerations.** *Security considerations, especially avoidance of visually isolated public spaces, should be a major element of the design program.*

The site does not have any outstanding security concerns.

**CONCLUSION AND RECOMMENDATION**

The development team has worked to resolve many of the staff and community concerns during the consideration of this request. There were numerous engagement efforts that took place with the community. The design and programming of the subject buildings has changed as a result of the community and City feedback. Therefore, the City Planning Commission has **Recommended Approval** of this project.

(1) All development shall be in accordance with the site plans, elevations, and other components of the development proposal for CCA Midtown Detroit LLC in the drawings prepared by BKV Group, dated March 4, 2021, subject to the following conditions:

1. The developer will submit a community impact plan to the City Planning Commission staff and adjacent neighborhoods prior to construction permits being issued which will address negative impacts that may arise. The community impact plan shall include:

a. A construction schedule to describe anticipated start and end dates and other milestones of the development.

b. A plan to mitigate fugitive dust, noise pollution, and pest infestation that may arise from ground disturbance and other construction activities.

c. A plan for temporary construction site screening, staging and construction related vehicle parking.

2. The developer will adhere to the Department of Public Works Traffic and Engineering Division requirements as outlined below:

a. That loading zone deliveries will

not be allowed during the rush hour periods of 7:00 a.m. to 9:00 a.m. or 3:00 p.m. to 6:00 p.m.

Deliveries from non-company entities shall utilize the assigned loading zone (curb lane) in front of the development, for all delivery services. The delivery services shall be prohibited during rush hour periods of 7:00 a.m. to 9:00 a.m. or 3:00 p.m. to 6:00 p.m.

5. The developer must submit final site plans and elevations, landscaping, lighting, signage plans, and parking lease agreement to the City Planning Commission staff for review and approval prior to making application for required permits.

June 11, 2021

Honorable City Council:

Re: Request to Accept and Appropriate the Choice Neighborhoods Implementation Grant from the U.S. Department of Housing & Urban Development (HUD).

The U.S. Department of Housing & Urban Development ("HUD") has awarded the City of Detroit ("City"), through its Housing and Revitalization Department ("HRD"), a Choice Neighborhoods Implementation Grant in the total amount of \$30,000,000.00 ("CNI Grant"). The City must meet a five percent (5%) matching requirement that HRD intends to satisfy by investing Federal Community Development Block Grant Program and HOME Investment Partnership Program funds into certain identified affordable housing projects and Critical Community Improvement projects within the City's Greater Corktown Neighborhood, subject to applicable underwriting and environmental review requirements.

The objective of the CNI Grant will be to support the transformation of a locally planned and defined geographic area that contains a severely distressed HUD-assisted site into a thriving mixed-income and mixed-use community. The CNI Grant was awarded to the City specifically to address the Greater Corktown Neighborhood, which is generally bounded by M-10, West Fort St., 8th Street, the Detroit River, Rosa Parks Boulevard, West Lafayette Boulevard, 16th Street, the former Canada Pacific Railway, I-75, Martin Luther King Jr. Boulevard, and Grand River Avenue.

Five (5) identified affordable housing project areas will be improved with the assistance of the CNI Grant, including the severely distressed HUD-assisted site — Clement Kern Gardens. The CNI Grant will also support other neighborhood initiatives and provide certain supportive services to target housing residents in the areas of education, health and workforce development.

If approved, the \$30,000,000.00 in CNI Grant funding received from HUD will be accepted and appropriated by the City in Appropriation No. 20971.

We hereby request that your Honorable Body adopt the attached resolution to: (1) authorize the City to accept the CNI Grant, (2) accept and appropriate all funding received from the CNI Grant into

Appropriation No. 20971 and (3) acknowledge and support the required City match for the CNI Grant as administered by HRD.

Re: Public Hearing on the Establishment of a Neighborhood Enterprise Zone as requested by 8484 Brainard, LLC in the area of 484 Brainard, Detroit, MI in accordance with Public Act 147 of 1992.

The Housing and Revitalization Department, Planning and Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the 8484 Brainard, LLC Neighborhood Enterprise Zone would be consistent with all of the aforementioned.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones". Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not later than 45 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act.

**Office of the Chief Financial Officer  
Office of Budget**

June 18, 2021

Honorable City Council:

Re: Fiscal Year 2020-2021 Budget Amendments and Transfers to Remedy Anticipated Deficits.

Under State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") and the 2012 Detroit City Charter, the City cannot incur expenditures in an appropriation account in excess of the amount appropriated by the Detroit City Council.

The OCFO closely monitors expenditures throughout the year to manage and mitigate deficit risks. After reviewing projected year-end activity for the fiscal year ending June 30, 2021 (Fiscal Year 2020-2021), the OCFO — Office of Budget is recommending various appropriation changes to remedy anticipated appropriation deficits, as outlined in the attached resolution and schedules of changes.

We respectfully request your approval of the attached resolution before June 30, with a waiver of reconsideration, to remedy anticipated appropriation deficits for Fiscal Year 2020-2021.

Respectfully submitted,

STEVEN WATSON

Deputy CFO/Budget Director

By Council Member Ayers:

Whereas, Section 17(1) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that a deviation from the original general appropriations act shall not be made without amending the general appropriations act; and

Whereas, Section 18(3) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that an administrative officer of the local unit shall not incur expenditures against an appropriation account in excess of the amount appropriated by the legislative body; and

Whereas, Section 8-210 of the 2012 Detroit City Charter authorizes that if during the fiscal year the Mayor advises the City Council that there are available for appropriation revenues in excess of those estimated in the budget, the City Council may make supplemental appropriations for the year up to the amount of the excess; and

Whereas, Section 8-211 of the 2012 Detroit City Charter authorizes that any time during the fiscal year upon written request by the Mayor, the City Council may, by resolution, transfer all or part of any unencumbered appropriation balance among the programs, services or activities within an agency or from one (1) agency to another; and

Whereas, The OCFO-Office of Budget has provided the Detroit City Council with a list of anticipated appropriation deficits and recommended appropriation changes necessary to remedy those deficits.

Now, Therefore, Be It Resolved, That the Detroit City Council hereby approves amending the Fiscal Year 2020-2021 Budget by appropriating fund balances and transferring appropriations as identi-

fied in the attached schedules; And Be It Further

Resolved, That the Detroit City Council hereby approves amending the Fiscal Year 2020-2021 Budget by transferring appropriations back from Approp. No. 20785 Covid-19 Response to Approp. No. 20253 Blight Remediation Projects and to Approp. No. 20507 City of Detroit Capital Projects, which were used temporarily for pandemic response while the City awaited grant reimbursement, in such amounts as the Deputy CFO/Budget Director determines are available for such transfer; And Be It Finally

Resolved, That the Deputy CFO/Budget Director is hereby authorized and shall take all appropriate actions necessary to implement the foregoing provisions and actions authorized by this resolution.

**Office of the Chief Financial Officer  
 Office of Budget**

June 28, 2021

Honorable City Council:  
 Re: American Rescue Plan Act Fiscal Recovery Funds Budget Amendment (REVISED).

The Administration is submitting this revised American Rescue Plan Act Fiscal Recovery Funds Budget Amendment Resolution for City Council’s consideration at the June 29, 2021 Formal Session. This substitute takes the place of the previous resolution submitted on June 18, 2021.

On May 10, 2021, the United States Department of the Treasury announced the launch of the Coronavirus State and Local Fiscal Recovery Funds (the “Fiscal Recovery Funds”), established by the American Rescue Plan Act of 2021 (“ARPA”), to pro-

vide \$350 billion in emergency funding for eligible state, local, territorial, and Tribal governments to recover from the COVID-19 pandemic. **Detroit has been awarded \$826 million**, the fifth largest amount of any city in America, to address our budget shortfalls and invest in our community. We have already received the first half of \$413 million and will receive the second half in May 2022. We must fully spend the funds by December 31, 2024. Any unspent funds go back to the federal government.

The COVID-19 pandemic hit Detroit and its residents harder than most communities. We are still feeling its negative economic impact. The City's revenue losses have adversely impacted our budget and ability to implement the Restructuring and Reinvestment Initiatives ("RRI") required by the bankruptcy Plan of Adjustment ("POA"). Now that we have these Fiscal Recovery Funds to replace our lost revenue, we are obligated to resume implementing the RRI. This includes maintaining City services, returning 1,000 employees to full-time status, investing in IT infrastructure, and fully funding the blight program.

In addition to meeting our POA obligations, the City will also use the Fiscal Recovery Funds for new investments in Detroiters and our community as we recover from the COVID-19 pandemic. During May and June 2021, the City received input from Detroiters on how to spend these funds at numerous community meetings and through surveys. We have also partnered with City Council staff through our ARPA Working Group to shape this final proposal, which focuses on improving our neighborhoods and building economic opportunities for Detroiters.

We respectfully request your approval of the attached resolution, with a waiver of reconsideration, to accept and appropriate the City's \$826 million direct award of Fiscal Recovery Funds.

Respectfully submitted,

STEVEN WATSON

Deputy CFO/Budget Director

(the "American Rescue Plan Act of 2021" or "ARPA") to provide additional relief to address the continued impact of the Coronavirus Disease 2019 ("COVID-19") pandemic on the economy, public health, state and local governments, individuals, and businesses; and

Whereas, On May 10, 2021, the United States Department of the Treasury announced the launch of the Coronavirus State and Local Fiscal Recovery Funds (the "Fiscal Recovery Funds"), established by ARPA, to provide \$350 billion in emergency funding for eligible state, local, territorial, and Tribal governments to recover from the COVID-19 pandemic; and

Whereas, The City of Detroit (the "City") has been directly awarded \$826,675,290 from the Fiscal Recovery Funds; and

Whereas, ARPA permits the City to use the Fiscal Recovery Funds to cover eligible costs incurred during the period beginning March 3, 2021, and ending December 31, 2024; and

Whereas, The United States Bankruptcy Court (the "Bankruptcy Court") determined the Eighth Amended Plan for the Adjustment of Debts of the City of Detroit (the "POA") is feasible and confirmed it on November 12, 2014; and

Whereas, The POA provided for the implementation of the Restructuring and Reinvestment Initiatives (the "RRI") to improve City services and operations, invest in capital assets, and remove blight throughout Detroit; and

Whereas, The City's revenue losses and negative economic impacts from the COVID-19 pandemic have adversely impacted the City's budget and ability to implement the RRI; and

Whereas, Consistent with the commitments of the City under the POA, the City is appropriating approximately \$400 million of the Fiscal Recovery Funds for the continued implementation of the RRI, including blight remediation, the protection of the City from revenue shortfalls through 2024, and for maintenance of City services; and

Whereas, The City is appropriating the remaining Fiscal Recovery Funds to make new investments to assist in the economic and fiscal recovery from the COVID-19 pandemic; and

Whereas, During May and June 2021, the City received input from Detroiters on how to spend the Fiscal Recovery Funds at numerous community meetings and through surveys; and

Whereas, The City will continue community outreach, engagement, and reporting in accordance with Article X of Chapter 12 of the 2019 Detroit City Code (the "Detroit Community Outreach Ordinance"); and

Whereas, The City plans to utilize a portion of the Fiscal Recovery Funds for a Match Funding appropriation to leverage opportunities to obtain additional funding for City projects or to assist with other organizations' projects aligned with City

priorities (each to be approved by City Council as provided in the attached schedule), including but not limited to augmenting home repair programs and expanding mental health accessibility in the City of Detroit; and

Whereas, For additional legislative review and oversight of the appropriations made by this resolution, \$500,000 from these appropriations will be spread evenly among City Council Member offices annually for fiscal years 2021-2022, 2022-2023, and 2023-2024; and

Whereas, To continue ongoing dialogue and transparency between the Administration and City Council regarding the appropriations made under this Resolution, a working group of representatives of City Council and the Administration will meet as necessary to discuss reports, monitor administrative costs, and review proposed requests to City Council for changes to and transfers between appropriations, and anticipated contractual approvals to be required by City Council; and

Whereas, The City Council will also have ongoing oversight of the Fiscal Recovery Funds through, but not limited to, the following: (1) contract approval under the City's procurement ordinance as applicable, (2) sub-grant program design approval for any new funding

agreements, and (3) quarterly reporting by the OCFO on the use of the Fiscal Recovery Funds and information on performance and objectives of each use.

Now, Therefore, Be It Resolved, That the Detroit City Council hereby approves accepting the City's direct award of \$826,675,290 from the Fiscal Recovery Funds and amending the Fiscal Year 2020-2021 Budget by appropriating the \$826,675,290 from the Fiscal Recovery Funds within the Stimulus Grant Fund (Fund No. 3923) solely for the costs associated or necessary to fulfill any of the purposes specifically enumerated in each appropriation identified in the attached schedule; And Be It Further

Resolved, That, in order to maximize and expedite the use of future funding made available under ARPA or any other state or federal economic stimulus law ("Stimulus Funding"), the Chief Financial Officer, or their designee, may, without prior approval of the City Council, file, on behalf of the City, an application, supplement, or amendment for a federal, state or other grant from Stimulus Funding; And Be It Finally

Resolved, that the Deputy CFO/Budget Director is hereby authorized and shall take all appropriate actions necessary to implement the foregoing provisions and actions authorized by this resolution.

Re: Helping Obtain Prosperity for Everyone (HOPE) – FTA-2020-011-TPE-HOPE.

Dear Mr. Goodman:

On behalf of Feonix – Mobility Rising, please accept the letter as our commitment to support the US DOT Federal Transit Administration, Helping Obtain Prosperity for Everyone (HOPE) program that will study how enhanced coordination of human service, non-profit, and volunteer transportation providers can benefit communities and families with enhanced transportation opportunities.

We look forward to partnering with the Detroit Department of Transportation and Metro-Strategies, Menlo Innovations, Michigan State University, and the University of Michigan to bring this project to fruition. The mission is to work with community leaders, academic experts, and mobility professionals to study the region to fully understand the many dimensions currently impacting mobility for individuals living in 17 of Detroit's most high need communities. With that study data and community leader's input, together we will craft 5 strategies with concrete next steps for coordinated mobility, exploring Mobility as a Service technology opportunities, and focusing on enhancing access to sustainable employment, healthcare, and healthy food options.

Our mission is to create mobility solutions, technology, educational programs, and global communities around the common goal of transportation for all. We provide world class mobility management, accessibility and equal access assurance, training, and technology support in each community partnership and deployment. Feonix is dedicated to supporting mobility for vulnerable and underserved populations. Feonix — Mobility Rising was launched in 2018 and is a registered 501(c)(3) non-profit organization.

Feonix has worked on community driven mobility enhancements for underserved communities with public transit agency leaders in South Carolina, Texas, Nebraska, Wisconsin, and Michigan. We have been collaborating the past year with the Detroit Department of Transportation on a project with the Regional Transit Authority of Southeast Michigan to coordinate the 3 paratransit agencies throughout the 3 county area with a single app for passengers to book rides seamlessly in a matter of seconds, enhancing the passenger experience and improving operational efficiency for call takers.

The work focused for Feonix’s role on the project leadership team includes the following services:

- Coordinating Community Partners for Focus Groups and Stakeholder Interviews & Creation of Local Community Outreach Materials.
- Discovery and Outreach to Local Transportation Providers and Creation of the Matrix and Catalogue of Formal and Informal Mobility Options in the Study Area.
- Review and Discovery of Mobility as a Service (MaaS) Technology Frameworks for Discussion and Survey Research for Passengers and Transportation Providers.
- Coordinating Academic Researchers at Michigan State University, University of Michigan, and Menlo Innovations Survey Instrument Creation and Facilitation.
- Facilitation of Community Leaders, Research, and Support for Creation of the Report for the Top 5 Goals for Enhancing Mobility with Evidence Based Strategies, Fiscal Analysis, and Concrete Next Steps.

We are strongly invested as partners in the community, and as such Feonix, with private dollars already secured, is committing \$83,333 in-kind match on the project, for a local mobility manager at 1.0 FTE and office space to work in the community the entire duration of the 9 month project. We look forward to working alongside the team to accomplish the project study goals and creating a scalable model that will be able to be leveraged and scaled for other large urban, as well as rural providers across the United States.

**City Planning Commission**

June 18, 2021

Honorable City Council:

Re: Request of 305 Michigan Avenue, LLC for PCA (Public Center Adjacent) Special District Review of a proposed super advertising sign at 305 Michigan Avenue a.k.a. Gabriel Houze. (RECOMMEND APPROVAL)

**REQUEST**

The City Planning Commission (CPC) has received a request from 305 Michigan Avenue, LLC for PCA (Public Center Adjacent) Special District Review of a proposed super advertising sign to be located at 305 Michigan Avenue. This request is being made consistent with the provisions of Section 50-3-222 of the Detroit Zoning Ordinance.

Subject premises - 305 Michigan Ave.

**PROPOSED PROJECT**

The updated sign ordinance that was enacted in 2020 allows for new advertising signs in the Central Business District (CBD). The specific regulations governing these signs are located in Chapter 4, Article IV, Division 5 of the 2019 Detroit City Code. Because this site is zoned PCA, all exterior changes require review by Your Honorable Body.

The petitioner proposes to erect a 90' high by 40' wide (3600 square feet) vinyl mesh sign on the west side of the building. The content of the sign is not subject to review and would change periodically. The proposed sign meets the regulations in the ordinance including:

- Must be constructed as a wall sign.
- No more than one advertising sign per premises.
- Area must be greater than 700 square feet, not exceed 80% of the area of the façade, and a maximum of 5,000 square feet.
- Height cannot exceed the height of the roof line or parapet.
- Clearance must be at least 10 feet (distance between the bottom of the sign and the ground).
- May be externally illuminated but not internally illuminated.
- May not be dynamic (electronic).

**Proposed Sign Location — facing west toward Cass Ave.  
& the McNamara Federal Building**

As part of the review process for advertising signs in the CBD, findings by several City departments are required including:

- Department of Public Works — placement of the advertising sign on the premises will not impair the traffic safety of motorists and pedestrians.
- Chief Financial Officer — neither the applicant nor the owner of the premises to which the sign is sought to be placed is in arrears to the City for any unpaid, outstanding, or delinquent property tax, income tax, personal tax, or special assessments.
- Buildings, Safety Engineering, and Environmental Department — neither the applicant nor the owner of the premises to which the sign is sought to be placed is the subject of any outstanding violations of the Detroit City Code.
- Fire Marshal — the premises are not in violation of Chapter 18, *Detroit Fire Prevention and Protection Code* and that the placement of the advertising sign on the premises will not cause any such violation.
- Any other federal, state, or local governmental agency that may be necessary for construction, erection, or operation of the sign, including, but not limited to, approval by the Michigan Department of Transportation or the Detroit Historic District Commission.

This review process has not concluded, but is being conducted concurrently with the PCA Review. However, all findings are required before a permit can be issued.

#### **REVIEW & ANALYSIS — PCA District Review Criteria**

There are eighteen PCA District Review Criteria listed in Section 50-11-97 of the Zoning Ordinance. The relevant criterion follows with staff analysis in italics:

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development. *The proposed sign is located on a blank wall and appears appropriate.*

(11) Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner. *The proposed sign meets the standards and spirit of the ordinance. The proposed location is appropriate as it does not cover any architectural details, is not located on a primary façade, and does not detract from the appearance of the building.*

**Design**

The Planning & Development Department has reviewed the proposed signage and supports approval. The full recommendation is attached.

**CONCLUSION AND RECOMMENDATION**

Consistent with the above, the City Planning Commission staff recommends approval of the proposed sign.

**Planning and Development Department**

June 11, 2021

Dear Director Todd:

Following is the review by the Planning and Development Department of an externally illuminated 3,600 square foot wall-mounted advertising sign proposed for 305 Michigan Ave. (BSEED Permit numbers SGN2021-00088) As the property is zoned PCA (Public Center Adjacent), this review is required under Sec. 50-11-96.

The relevant PCA criteria from Sec. 50-11-97 of the Zoning Ordinance are followed by our analysis in italics:

*Criterion 2: Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development; The proposed sign is located on a blank wall and appears appropriate.*

*Criterion 11: Signage and Graphics should be tastefully designed to be visually appealing and in character with surrounding development, they should provide needed information, direction and orientation in a clear and concise manner; The advertising sign location is in character with the building and does not cover any architectural features.*

The Planning and Development Department supports the requested installation of an advertising sign on the building 305 Michigan Ave. This support is of course contingent on the sign meeting all Federal, State, and City regulations. We conclude that the proposed advertising sign will not significantly negatively impact the character of the surrounding downtown area adjacent to the Public Center.

**CITY OF DETROIT SIGNAGE WALL REPORT**

Date:	Mon., Nov. 11, 2020	Date on site:	Nov. 5, 2020
Attention:	Michael Richards	Project name:	Gabriel Houze
Company:	Total Outdoor	Silman project #:	19837
Report:	City of Detroit Signage Wall Report	Location:	305 Michigan Ave Detroit, MI
Owner:	305 Michigan Ave LLC	Present at site:	Ariana Sabbat, Silman Chris Kelley, Silman
Submitted by:	Jenna Bresler, PE	cc:	305 Michigan Ave LLC

Silman has been retained to perform a limited façade assessment for compliance with the City of Detroit Signage Ordinance Review. The purpose of this memo is to assess the structural condition of the wall that is to support the signage, document observations and provide conclusions and recommendations that attest to the ability of the existing building wall to support the existing or proposed exterior signage.

Silman's site observations occurred from grade using binoculars. Silman did not review the remainder of the building exterior nor did Silman review the interior conditions of the building, including the interior elevation of the wall that is to support the signage. Therefore, Silman cannot attest to any conditions other than the exterior façade against which the new signage is being anchored. The conditions and conclusions in this report are in keeping with the "general inspection" requirements of the façade as defined in ASTM E2270 Standard Practice for Periodic Inspection of Building Facades for Unsafe Conditions per the Signage Ordinance.

No existing drawings or documentation was received for this building. It should be noted that this report does not check the design of the signs, including the sign material, cables, wind loads, or anchorage to the building. Conclusions and recommendations will indicate whether the loads imparted by the signage to the building will be adequately supported by the building, given the current conditions of the wall at the time when the visual review was performed. Silman's review was based on the existing sign or the proposed sign as designed by Total Outdoor and assumes that the sign will not change the wind loads to the wall. The design of all materials and assemblies beyond the building wall/frame is the responsibility of Total Outdoor.

**BACKGROUND INFORMATION**

**BUILDING:**

- Building Name: Gabriel Houze
- Building Address: 305 Michigan Ave, Detroit, MI 48226

- Zoning District: PCA
- Type of Signage: Wall Static
- MDOT Permit Number: Y 101301

**SIGN:**

- Area: (3600 square feet)
- Max % of Façade: 80%
- Façade Orientation that Signage is to attach: West
- Highest Level of Sign: Parapet
- Lowest Level of Sign: 10' Above Grade

- Entertainment District (Yes/No): No

**SITE PLAN**

**Figure 1** Site Plan (*Google Maps*)

**WALL ELEVATION**

**Figure 2** Wall Elevation (Photo by Silman)

**STRUCTURAL CONDITION ASSESSMENT**

As requested, Silman performed a visual assessment of the exterior west facade wall (facing Cass Ave); review of the façade was conducted at grade via binoculars and completed on November 5, 2020. The building appears to be ten stories plus rooftop penthouse levels at the north and south ends. The façade is comprised of brick. The framing within the building could not be determined from this visual assessment. Most of the brick exterior was in good condition, except for localized areas at the penthouse and near the roof.

While the signage is currently not attached to the building, the signage anchors are attached and anchored to the brick (Figure 2). It does not appear that the conditions observed during the review are caused by the sign anchorage nor impact these sign anchors.

**CONCLUSIONS AND RECOMMENDATIONS**

Based on the findings of Silman's review, the building facade that is to support the signage is in good condition. There are no signs of distress in the wall where the anchors are secured. Given the approximate load of the sign and the visible conditions, the wall can support the signage as designed by Total Outdoor.

Please note that this report only addresses the existing walls condition and adequacy to support such signage and assumes that the sign will not impart any additional wind loads (suction) on the building. Responsibility for the connections and adequacy of the signage itself, lies solely with the sign manufacturer.

Honorable City Council:  
 Re: Request of Cass Parking Garage, LLC for PCA (Public Center Adjacent) Special District Review of a proposed super advertising sign at 1009 Cass Avenue. (RECOMMEND APPROVAL)

#### REQUEST

The City Planning Commission (CPC) has received a request from Cass Parking Garage, LLC for PCA (Public Center Adjacent) Special District Review of a proposed super advertising sign to be located at 1009 Cass Avenue. This request is being made consistent with the provisions of Section 50-3-222 of the Detroit Zoning Ordinance.

Subject premises - 1009 Cass Ave.

#### PROPOSED PROJECT

The revised sign ordinance that was enacted in 2020 allows for new advertising signs in the Central Business District (CBD). The specific regulations governing these signs are located in Chapter 4, Article IV, Division 5 of the 2019 Detroit City Code. Because this site is zoned PCA, all exterior changes require review by your Honorable Body.

The petitioner proposes to erect a 60' high by 35' wide (2,100 square feet) vinyl mesh sign on the east side of the building. The sign meets the regulations in the ordinance including:

- Must be constructed as a wall sign.
- No more than one advertising sign per premises.
- Area must be greater than 700 square feet, not exceed 80% of the area of the façade, and a maximum of 5,000 square feet.
- Height cannot exceed the height of the roof line or parapet.
- Clearance must be at least 10 feet (distance between the bottom of the sign and the ground).
- May be externally illuminated but not internally illuminated.
- May not be dynamic (electronic).

**Proposed Sign Location**

As part of the review process for advertising signs in the CBD, findings by several City departments are required including:

- Department of Public Works — placement of the advertising sign on the premises will not impair the traffic safety of motorists and pedestrians.
- Chief Financial Officer — neither the applicant nor the owner of the premises to which the sign is sought to be placed is in arrears to the City for any unpaid, outstanding, or delinquent property tax, income tax, personal tax, or special assessments.
- Buildings, Safety Engineering, and Environmental Department — neither the applicant nor the owner of the premises to which the sign is sought to be placed is the subject of any outstanding violations of the Detroit City Code.
- Fire Marshal — the premises are not in violation of Chapter 18, *Detroit Fire Prevention and Protection Code* and that the placement of the advertising sign on the premises will not cause any such violation.
- Any other federal, state, or local governmental agency that may be necessary for construction, erection, or operation of the sign, including, but not limited to, approval by the Michigan Department of Transportation or the Detroit Historic District Commission.

This review process has not concluded, but is being conducted concurrently with the PCA Review. However, all findings are required before a permit can be issued.

**REVIEW & ANALYSIS — PCA District Review Criteria**

There are eighteen PCA District Review Criteria listed in Section 50-11-97 of the Zoning Ordinance. The relevant criterion follows with staff analysis in italics:

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development. *The proposed sign is located on a blank wall and appears appropriate.*

(11) Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner. *The proposed sign meets the standards and spirit of the ordinance. The proposed location is appropriate as it is set back from Cass Avenue, does not cover any architectural details, and does not overwhelm the building.*

#### **Design**

The Planning & Development Department has reviewed the proposed signage and supports approval. The full recommendation is attached.

#### **CONCLUSION & RECOMMENDATION**

Consistent with the above, the City Planning Commission staff recommends approval of the proposed sign.

**STRUCTURAL CONDITION ASSESSMENT**

As requested, Silman performed a visual assessment of the exterior east façade wall (facing Cass Ave); review of the façade was conducted at grade via binoculars and completed on November 5, 2020. The building appears to be ten stories. The framing appears to be concrete column and spandrel beam layout with brick infill walls. It could not be determined at this time whether the concrete layout was steel framing encased in concrete or reinforced concrete framing. The concrete and brick exterior are in good condition.

Assessment of the brick condition was limited due to the fresh paint on the wall. However, no significant visible cracks were observed in either the brick infill or concrete framing.

While the signage is currently not attached to the building, the signage anchors are anchored to the wall via steel angles. The top line is anchored to the uppermost concrete spandrel beam, the bottom line is attached to the brick infill at the fourth level, and the side lines are anchored to the mortar joint between the outer concrete columns and brick infill (Figure 2).

**CONCLUSIONS AND RECOMMENDATIONS**

Based on the findings of Silman's review, the building façade that is to support the signage is in good condition. There are no signs of distress in the wall where the anchors are secured. Given the approximate load of the sign and the visible conditions, the wall can support the signage as designed by Total Outdoor.

Please note that this report only addresses the existing walls condition and adequacy to support such signage and assumes that the sign will not impart any additional wind loads (suction) on the building. Responsibility for the connections and adequacy of the signage itself, lies solely with the sign manufacturer.

#### City Planning Commission

June 18, 2021

Honorable City Council:

Re: Request of Greenwich Properties, LLC for PCA (Public Center Adjacent) Special District Review of a proposed super advertising sign at 130 Cadillac Square. (RECOMMEND APPROVAL)

#### REQUEST

The City Planning Commission (GPC) has received a request from Greenwich Properties, LLC for PCA (Public Center Adjacent) Special District Review of a proposed super advertising sign to be located at 130 Cadillac Square. This request is being made consistent with the provisions of Section 50-3-222 of the Detroit Zoning Ordinance.

Subject premises - 130 Cadillac Square

**PROPOSED PROJECT**

The revised sign ordinance that was enacted in 2020 allows for new advertising signs in the Central Business District (CBD). The specific regulations governing these signs are located in Chapter 4, Article IV, Division 5 of the 2019 Detroit City Code. Because this site is zoned PCA, all exterior changes require review by your Honorable Body.

The petitioner proposes to erect a 20' high by 75' wide (1500 square feet) vinyl mesh sign on the west side of the building. The content of the sign is not subject to review and would change periodically. The sign meets the regulations in the ordinance including:

- Must be constructed as a wall sign.
- No more than one advertising sign per premises.
- Area must be greater than 700 square feet, not exceed 80% of the area of the facade, and a maximum of 5,000 square feet.
- Height cannot exceed the height of the roof line or parapet.
- Clearance must be at least 10 feet (distance between the bottom of the sign and the ground).
- May be externally illuminated but not internally illuminated.
- May not be dynamic (electronic).

Proposed Sign Location - facing West towards Bates St. and the First National Building

As part of the review process for advertising signs in the CBD, findings by several City departments are required including:

- Department of Public Works — placement of the advertising sign on the premises will not impair the traffic safety of motorists and pedestrians.
- Chief Financial Officer — neither the applicant nor the owner of the premises to which the sign is sought to be placed is in arrears to the City for any unpaid, outstanding, or delinquent property tax, income tax, personal tax, or special assessments.
- Buildings, Safety Engineering, and Environmental Department — neither the applicant nor the owner of the premises to which the sign is sought to be placed is the subject of any outstanding violations of the Detroit City Code.
- Fire Marshal — the premises are not in violation of Chapter 18, *Detroit Fire Prevention and Protection Code* and that the placement of the advertising sign on the premises will not cause any such violation.
- Any other federal, state, or local governmental agency that may be necessary for construction, erection, or operation of the sign, including, but not limited to, approval by the Michigan Department of Transportation or the Detroit Historic District Commission.

This review process has not concluded, but is being conducted concurrently with the PCA Review. However, all findings are required before a permit can be issued.

#### **REVIEW & ANALYSIS — PCA District Review Criteria**

There are eighteen PCA District Review Criteria listed in Section 50-11-97 of the Zoning Ordinance. The relevant criterion follows with staff analysis in italics:

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development. *The proposed sign is located on a blank wall and appears appropriate.*

(11) Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner. *The proposed sign meets the standards and spirit of the ordinance. The proposed location is appropriate as it does not cover any architectural details, is not located on a primary facade, and does not detract from the appearance of the building.*

#### **Design**

The Planning & Development Department has reviewed the proposed signage and supports approval. The full recommendation is attached.

#### **CONCLUSION & RECOMMENDATION**

Consistent with the above, the City Planning Commission staff recommends approval of the proposed sign.

Respectfully submitted,

**Planning and Development Department**

June 11, 2021

Dear Director Todd:

Following is the review by the Planning and Development Department of an externally illuminated 1,500 square foot wall-mounted advertising sign proposed for 130 Cadillac Square. (BSEED Permit numbers SGN2021-00093) As the property is zoned PCA (Public Center Adjacent), this review is required under Section 50-11-96.

The relevant PCA criteria from Section 50-11-97 of the Zoning Ordinance are followed by our analysis in italics:

*Criterion 2: Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development; The proposed sign is located on a blank wall and appears appropriate.*

*Criterion 11: Signage and Graphics should be tastefully designed to be visually appealing and in character with surrounding development, they should provide needed information, direction and orientation in a clear and concise manner; The advertising sign location is in character with the building and does not cover any architectural features.*

The Planning and Development Department supports the requested installation of an advertising sign on the building 130 Cadillac Square. This support is of course contingent on the sign meeting all Federal, State, and City regulations. We conclude that the proposed advertising sign will not significantly negatively impact the character of the surrounding downtown area adjacent to the Public Center.

**CITY OF DETROIT SIGNAGE WALL REPORT**

Date:	Mon., Nov. 12, 2020	Date on site:	Nov. 5, 2020
Attention:	Michael Richards	Project name:	Greenwich Time Pub
Company:	Total Outdoor	Silman project #:	19837
Report:	City of Detroit Signage Wall Report	Location:	130-140 Cadillac Square Detroit, MI
Owner:	Harry Hans	Present at site:	Ariana Sabbat, Silman Chris Kelley, Silman
Submitted by:	Jenna Bresler, PE	cc:	Harry Hans

Silman has been retained to perform a limited façade assessment for compliance with the City of Detroit Signage Ordinance Review. The purpose of this memo is to assess the structural condition of the wall that is to support the signage, document observations and provide conclusions and recommendations that attest to the ability of the existing building wall to support the existing or proposed exterior signage.

Silman's site observations occurred from grade using binoculars. Silman did not review the remainder of the building exterior nor did Silman review the interior conditions of the building, including the interior elevation of the wall that is to support the signage. Therefore, Silman cannot attest to any conditions other than the exterior façade against which the new signage is being anchored. The conditions and conclusions in this report are in keeping with the "general inspection" requirements of the façade as defined in ASTM E2270 Standard Practice for Periodic Inspection of Building Facades for Unsafe Conditions per the Signage Ordinance.

No existing drawings or documentation was received for this building. It should be noted that this report does not check the design of the signs, including the sign material, cables, wind loads, or anchorage to the building. Conclusions and recommendations will indicate whether the loads imparted by the signage to the building will be adequately supported by the building, given the current conditions of the wall at the time when the visual review was performed. Silman's review was based on the existing sign or the proposed sign as designed by Total Outdoor and assumes that the sign will not change the wind loads to the wall. The design of all materials and assemblies beyond the building wall/frame is the responsibility of Total Outdoor.

### STRUCTURAL CONDITION ASSESSMENT

As requested, Silman performed a visual assessment of the exterior west façade wall (facing Bates Street); review of the façade was conducted at grade via binoculars and completed on November 5, 2020. The building appears to be four stories; the proposed sign is located at the upper two floors. The building envelope appears to be comprised of multi-wythe brick perimeter walls. It could not be determined at this time the nature of the interior structure.

At the north and south ends of the west wall, there are visible vertical cracking through the brickwork, where the north and south walls connect to this face. The conditions at these interfaces between the north and south walls and the west wall indicate some level of debonding that should be evaluated.

While the signage is currently not attached to the building, the signage anchors are supporting steel angles from which the proposed sign would be supported. The conditions in the wall do not appear to coincide with the anchors, and the anchors do not appear to have caused the conditions.

### CONCLUSIONS AND RECOMMENDATIONS

Based on the findings of Silman's review, the building façade that is to support the signage is in fair condition. The cracking noted above should be evaluated up-close to ensure there is not loose material requiring repair. Once this review is completed and any potential façade issues are addressed, the wall can support the signage as designed by Total Outdoor given the approximate load of the sign.

Please note that this report only addresses the existing walls condition and adequacy to support such signage and assumes that the sign will not impart any additional wind loads (suction) on the building. Responsibility for the connections and adequacy of the signage itself, lies solely with the sign manufacturer.

Dear Director Todd:

Following is the review by the Planning and Development Department of an externally illuminated 3,600 square foot wall-mounted advertising sign proposed for 305 Michigan Ave. (BSEED Permit numbers SGN2021-00088) As the property is zoned PCA (Public Center Adjacent), this review is required under Section 50-11-96.

The relevant PCA criteria from Section 50-11-97 of the Zoning Ordinance are followed by our analysis in italics:

*Criterion 2: Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development; The proposed sign is located on a blank wall and appears appropriate.*

**STRUCTURAL CONDITION ASSESSMENT**

As requested, Silman performed a visual assessment of the exterior west façade wall (facing Cass Ave); review of the façade was conducted at grade via binoculars and completed on November 5, 2020. The building appears to be ten stories plus rooftop penthouse levels at the north and south ends. The façade is comprised of brick. The framing within the building could not be determined from this visual assessment. Most of the brick exterior was in good condition, except for localized areas at the penthouse and near the roof.

While the signage is currently not attached to the building, the signage anchors are attached and anchored to the brick (Figure 2). It does not appear that the conditions observed during the review are caused by the sign anchorage nor impact these sign anchors.

**CONCLUSIONS AND RECOMMENDATIONS**

Based on the findings of Silman's review, the building façade that is to support the signage is in good condition. There are no signs of distress in the wall where the anchors are secured. Given the approximate load of the sign and the visible conditions, the wall can support the signage as designed by Total Outdoor.

Please note that this report only addresses the existing walls condition and adequacy to support such signage and assumes that the sign will not impart any additional wind loads (suction) on the building. Responsibility for the connections and adequacy of the signage itself, lies solely with the sign manufacturer.

**RESOLUTION CONTINUING PROCEDURES FOR CITY OF DETROIT PUBLIC BODIES TO MEET REMOTELY THROUGH JULY 31, 2021**

By ALL COUNCIL MEMBERS:

WHEREAS, As a result of the ongoing and continuing COVID-19 pandemic, the City of Detroit’s public bodies, including City Council, have been meeting remotely through electronic means, since March 2020; and

WHEREAS, As amended, the Open Meetings Act (OMA) allows public bodies to hold meetings electronically, under *any circumstances*, retroactive to March 18, 2020, through March 30, 2021 (MCL 15.263a(1)(a)), and further provides that on or after March 31, 2021 through December 31, 2021, public bodies can meet remotely through electronic means pursuant to a “local state of emergency or state of disaster declared pursuant to law or charter or local ordinance by ... a local official, governing body, or chief administrative officer”; and

WHEREAS, On March 30, 2021, the Chief Public Health Officer of the Detroit Health Department (DHD) issued *Emer-*

*gency Order for Control of Epidemic* (Emergency Order) determining that “action is necessary to reduce transmission of COVID-19 and to protect the public’s health in Detroit”, noting that cases in Detroit have been on a significant upward trend and that “certain in-person open meetings pose a substantial risk to members of the public and governmental bodies in the City of Detroit”; and

WHEREAS, On May 20, 2021, the Chief Public Health Officer of the DHD made the following findings in a newly issued *Emergency Order for Control of Epidemic*: “COVID-19 remains an imminent threat to the public of the City of Detroit; [p]er the Centers for Disease Control and Prevention (CDC), Michigan remains second in the nation in the number of SARS-CoV-2 B.1.1.7 variant cases at this time; [t]he emergence and spread of the SARS-CoV-2 variants in Detroit and surrounding communities, and current vaccination rates; certain in-person meetings pose a substantial risk to members of the public and governmental bodies in the City of Detroit.”; and

WHEREAS, The Chief Public Health Officer found further that, “[a] number of public bodies in Detroit, subject to the OMA, MCL 15.261 *et seq.*, will find it difficult, if not impossible, to conduct their business in live meetings that are open to the public, without violating safety guidelines issues by the CDC, the Michigan Department of Health and Human Services and the Detroit Health Department. For example, several public bodies do not have facilities that will allow for adequate physical distancing or open attendance in an in-person setting. In those instances requiring public bodies to make their decisions in a meeting open to the public and in person (without the option of telephonic and video conferencing) would risk the personal health and safety of the member of the public or members of the public body.”; and

WHEREAS, The May 20, 2021, DHD Emergency Order declared “a local state of emergency”, effective from May 20, 2021 until June 30, 2021, or until an earlier time when the order is rescinded by a subsequent order. The Order states that public bodies subject to the OMA may hold in-person meetings only if, on the dates of the scheduled in-person meeting the public body is compliant with the then-current state guidance issued by the MDHHS, requiring that meeting size be limited to 25 members or fewer, and facility capacity allows for social distancing; and

WHEREAS, On June 23, 2021, the Chief Public Health Officer issued a new order entitled, Declaration of *Continued Emergency Due to COVID-19 to Allow Public Meetings of Governmental Bodies to be Held Remotely per MCL 15.263*

*Extended From June 30, 2021 to July 31, 2021, declaring "a local public health emergency" and finding that COVID-19 "remains an imminent threat to the public throughout Detroit" because vaccination rates remain "below the level required to achieve herd immunity to limit the spread of the virus", and that continued spread results in the emergence of more dangerous variants, such as B.1.617.2 (a/k/a, the "Delta variant"); and*

WHEREAS, The Detroit City Council does not have meeting facilities of sufficient size to allow for social distancing of unvaccinated attendees, nor can the Body limit attendance at its meetings without violating the Open Meetings Act. In fact, Council Members and staff alone, not including any members of the public, would reach or exceed the capacity for a safe meeting space. Other City public bodies similarly lack large enough meeting facilities for social distancing as well as the ability to limit meeting size. NOW, THEREFORE, BE IT

RESOLVED, All public bodies of the City of Detroit whose meetings include more than 25 individuals or cannot accommodate necessary social distancing of attendees may continue to meet remotely pursuant to the DHD Emergency Order through July 31, 2021, unless the Order is rescinded by subsequent order earlier, and the following procedures as set forth in Public Act 228 of 2020, amended section 3a of the OMA, in pertinent part are adopted:

- A meeting of a public body held electronically under this section must be conducted in a manner that permits 2-way communication so that members of the public body can hear and be heard by other members of the public body, and so that public participants can hear members of the public body and can be heard by members of the public body and other participants during a public comment period. A public body may use technology to facilitate typed public comments during the meeting submitted by members of the public participating in the meeting that may be read to or shared with members of the public body and other participants to satisfy the requirement under this subsection that members of the public be heard by others during the electronic meeting and the requirement under section 3(5) that members of the public be permitted to address the electronic meeting.

- Except as otherwise provided in subsection (8), a physical place is not required for an electronic meeting held under this section, and members of a public body and members of the public participating electronically in a meeting held under this section that occurs in a physical place are to be considered present and in attendance at the meeting for all purposes.

- If a public body directly or indirectly maintains an official internet presence that includes monthly or more frequent updates of public meeting agendas or minutes, the public body shall, in addition to any other notices that may be required under this act, post advance notice of a meeting held electronically under this section on a portion of the public body's website that is fully accessible to the public. The public notice on the website must be included on either the homepage or on a separate webpage dedicated to public notices for non-regularly scheduled or electronic public meetings that is accessible through a prominent and conspicuous link on the website's homepage that clearly describes its purpose for public notification of non-regularly scheduled or electronic public meetings. Subject to the requirements of this section, any scheduled meeting of a public body may be held as an electronic meeting under this section if a notice consistent with this section is posted at least 18 hours before the meeting begins. Notice of a meeting of a public body held electronically must clearly explain all of the following:

- \* Why the public body is meeting electronically.

- \* How members of the public may participate in the meeting electronically. If a telephone number, internet address, or both are needed to participate, that information must be provided specifically.

- \* How members of the public may contact members of the public body to provide input or ask questions on any business that will come before the public body at the meeting.

- \* How persons with disabilities may participate in the meeting.

- Beginning on the effective date of the amendatory act that added this section, if an agenda exists for an electronic meeting held under this section by a public body that directly or indirectly maintains an official internet presence that includes monthly or more frequent updates of public meeting agendas or minutes, the public body shall, on a portion of the website that is fully accessible to the public, make the agenda available to the public at least 2 hours before the electronic meeting begins. This publication of the agenda does not prohibit subsequent amendment of the agenda at the meeting.

- A public body shall not, as a condition of participating in an electronic meeting of the public body held under this section, require a person to register or otherwise provide his or her name or other information or otherwise to fulfill a condition precedent to attendance, other than mechanisms established and required by the public body necessary to permit the person to participate in a public comment period of the meeting.

- Members of the general public other-

wise participating in a meeting of a public body held electronically under this section are to be excluded from participation in a closed session of the public body held electronically during that meeting if the closed session is convened and held in compliance with the requirements of this act applicable to a closed session.

RESOLVED, The Detroit City Clerk is directed to send this resolution to Mayor Mike Duggan, and to publicly and electronically post and distribute copies of the resolution widely.

Adopted as follows:

Yeas — Council Members Castaneda-Lopez, McCalister, Jr., Sheffield, Spivey and President Jones — 5.

Nays — None.

### WALK-ONS

By ALL COUNCIL MEMBERS:

Whereas, Pursuant to the provisions of Public Act 147 of 1992, as amended, The Neighborhood Enterprise Zone Act. A resolution to modify existing Neighborhood Enterprise Zones Homestead (NEZH) areas and to create new NEZH areas within the City of Detroit, to grant the exemption from ad valorem property taxes and the imposition of a specific tax in lieu of ad valorem real property taxes within the NEZH areas has been received; and

Whereas, The governing body of a local governmental unit by resolution may designate one or more neighborhood enterprise zones within that local governmental unit. A neighborhood enterprise zone shall contain not less than ten platted parcels of land. All the land within a neighborhood enterprise zone shall also be compact and contiguous. Contiguity is not broken by a road, right-of-way, or property purchased or taken under condemnation if the purchased or condemned property was a single parcel prior to the sale or condemnation; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZ Homestead areas is consistent with the adopted Master Plan of the City of Detroit as amended, and will further the economic and physical development of the City of Detroit by encouraging home ownership and the stabilization of neighborhoods, thereby keeping existing neighborhoods strong and helping to strengthen others; and

Whereas, The City of Detroit meets the distress criteria set forth within the Act; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives, and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within the proposed NEZH areas; and

Whereas, The total acreage of the neighborhood enterprise zones containing only homestead facilities designated under this act shall not exceed 10% of the total acreage contained within the boundaries of the local governmental unit or, with the approval of the board of commissioners of the county in which the neighborhood enterprise zone is located if the county does not have an elected or appointed county executive or with the approval of the board of commissioners and the county executive of the county in which the neighborhood enterprise zone is located if the county has an elected or appointed county executive, 15% of the total acreage contained within the boundaries of the local governmental unit and

Whereas, Not less than 60 days before the passage of a resolution designating a neighborhood enterprise zone or the repeal or amendment of a resolution under this act, the clerk of the local governmental unit shall give written notice to the assessor and to the governing body of each taxing unit that levies ad valorem property taxes in the proposed neighborhood enterprise zone. Before acting upon the resolution, the governing body of the local governmental unit shall make a finding that a proposed neighborhood enterprise zone is consistent with the master plan of the local governmental unit and the neighborhood preservation and economic development goals of the local governmental unit. The governing body before acting upon the resolution shall also adopt a statement of the local governmental unit's goals, objectives, and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within the proposed neighborhood enterprise zone. Additionally, before acting upon the resolution, the governing body of a local governmental unit with a population greater than 20,000 shall pass a housing inspection ordinance and

Whereas, Upon receipt of a notice from the clerk of the local unit of a resolution designating a NEZH area, the local assessor shall determine and furnish to the governing body of the local governmental unit the amount of the true cash value of the property located within the proposed neighborhood enterprise zone and any other information considered necessary by the governing body and

Whereas, A resolution designating a NEZH area may be repealed or amended not sooner than 3 years after the date of adoption or of the most recent amendment of the resolution by the governing body of the local governmental unit. The repeal or amendment of the resolution shall take effect 6 months after adoption. However, an action taken under this act does not invalidate a certificate that is issued or in effect and a homestead for

which a certificate is issued or in effect shall continue to be included in the total acreage limitations under this section until the certificate is expired or revoked.

Whereas, The owner of a homestead located in a neighborhood enterprise zone may file an application for a neighborhood enterprise zone certificate with the clerk of the local governmental unit. The application shall be filed in the manner and form prescribed by the governing body of the local government unit. The clerk of the local governmental unit shall provide a copy of each homestead facility application to the assessor for the local governmental unit.

Whereas, Not more than 60 days after receipt by its clerk of an application under this act, the governing body of the local governmental unit by resolution shall approve the application for a NEZH certificate. The clerk shall forward the application to the local assessor and

Whereas, Not later than 60 days after receipt of an approved application for a homestead, and not later than 30 days, if an approved application is received after October 31, the local assessor shall determine whether the homestead complies with the requirements of this act. If the local assessor finds compliance, the local assessor shall issue a NEZH certificate to the applicant and send a certified copy of the certificate to each affected taxing unit. The assessor shall keep the certificate filed on record in his or her office. The local assessor shall maintain a record of all certificates filed. Notice of the local assessor's refusal to issue a certificate shall be sent by certified mail to the same persons and

Whereas, A neighborhood enterprise zone certificate shall be in the form prescribed and provided by the governing body of the local unit and shall include both of the following:

- (a) The legal description of the homestead facility.
- (b) A statement that unless revoked under this act, the certificate shall remain in effect for the period stated in the certificate but not to exceed fifteen (15) years and

Whereas, The neighborhood enterprise zone tax is an annual tax, payable at the same times, in the same installments, and to the same officer or officers as taxes collected under the general property tax act, 1893 PA 206, MCL 211.1 to 211.157, are payable. Except as otherwise provided in this section, the officer or officers shall disburse the neighborhood enterprise zone tax received by the officer or officers each year to the state, cities, townships, villages, school districts, counties, and authorities at the same times and in the same proportions as required for the disbursement of taxes collected under the general property tax act, 1893 PA 206, MCL 211.1 to 211.157 and

Whereas, The neighborhood enterprise zone tax is a lien on the real property upon which the new facility or rehabilitated facility subject to the certificate is located until paid. The continuance of a certificate is conditional upon the annual payment of the neighborhood enterprise zone tax and the ad valorem tax on the land collected under the general property tax act, 1893 PA 206, MCL 211.1 to 211.157.

(13) If payment of the tax under this act is not made by the March 1 following the levy of the tax, the tax shall be turned over to the county treasurer and collected in the same manner as a delinquent tax under the general property tax act, 1893 PA 206, MCL 211.1 to 211.157.

Whereas, The effective date of the neighborhood enterprise zone certificate is December 31 in the year in which the homestead is occupied by an owner as a principal residence, as evidenced by the owner filing with the assessor of the local assessing unit all of the following:

- (a) For a homestead facility, an affidavit executed by an owner affirming that the homestead facility is occupied by an owner as a principal residence.

Now Therefore Be It

Resolved, That the land areas described in the attached legal descriptions and shown on the attached map is hereby established as Neighborhood Enterprise Zone Homestead (NEZH) Areas pursuant to Public Act 147 of 1992 as amended, The Neighborhood Enterprise Zone Act.

CITY PLANNING COMMISSION**

June 24, 2021

Honorable City Council:

Re: Request of the Planning and Development Department, to amend Chapter 50 of the 2019 Detroit City Code, Zoning, by amending Article XVII, Zoning District Maps, Section 50-17-2, *District Map No. 1*, 50-17-4 *District Map No. 3* and Section 50-17-46, *District Map No. 44* to show the R3 (Low Density Residential District), B4 (General Business District), SD1 (Special Development District, Small-Scale, Mixed-Use), SD2 (Special Development District, Mixed-Use), and SD5 (Special Development District, Casinos) zoning classifications where R1 (Single-Family Residential District), R2 (Two-Family Residential District), R3 (Low Density Residential District), R4 (Thoroughfare Residential District), R5 (Medium Density Residential District), PD (Planned Development District), and M2 (Restricted Industrial District) zoning classifications are currently shown. **(RECOMMEND APPROVAL)**

**NATURE OF REQUEST**

On May 20, 2021 the City Planning Commission voted to recommend approval of the above captioned rezoning request for the area generally bounded by Martin Luther King Jr. Blvd., Grand River Avenue, the Lodge Freeway, Michigan Avenue, and 17th Street.

The Planning and Development Department is the petitioner for the rezoning request, which seeks to implement the objectives of the Corktown Neighborhood Framework Plan. The City Planning Commission staff has also added to this proposal in order to implement elements of the City’s Master Plan of Policies and correct errors on the zoning map.

Greater Corktown Framework Study

A map from the Greater Corktown Neighborhood Framework

The recommendation before Your Honorable Body is derived from a wide-ranging framework study and engagement process for the Greater Corktown neighborhood that has resulted in strong public support demonstrated through written correspondence and verbal feedback at a series of public meetings.

**BACKGROUND**

The Planning and Development Department (PDD) launched the Greater Corktown Neighborhood Framework Study in March 2019 with the goal to “create a short and long-term plan that promotes inclusive & equitable growth of Detroit’s oldest established neighborhood, while preserving its unique character, cultural heritage & integrity.” A series of

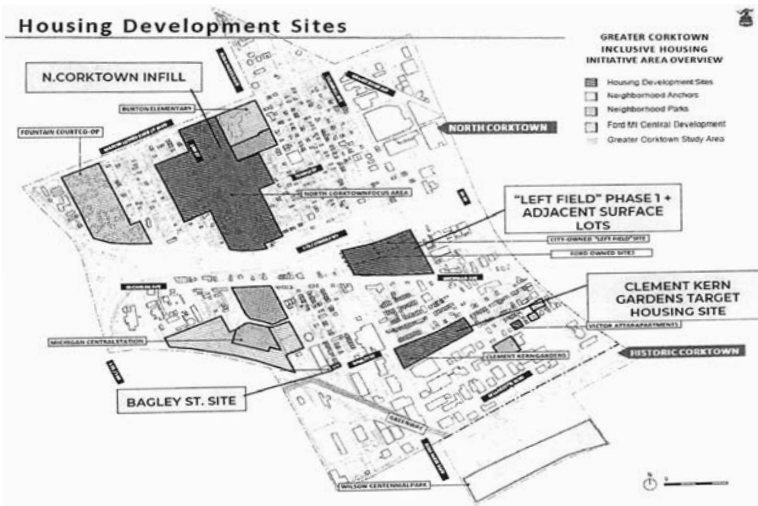

workshops were held from September 2019-January 2020. Between January 2020 and October 2020 the framework documentation was drafted after numerous open houses, virtual meetings, community conversations and large meetings.

The framework plan incorporates a housing and neighborhood development strategy to accommodate new housing demand and ensure zero displacement of at-risk residents, as well as invest in housing stock through owner occupied rehab.

To accomplish this, the implementation plan identifies publicly owned vacant land to allow for mixed-income development (rental and home ownership), identify an established mixed-income developer and update the zoning to permit higher density units. The overall housing plan calls for the creation of 841 new construction mixed-income units to be built on four sites across Greater Corktown. Some of the units would be for rent and some for sale with a spectrum of affordability ranging between 30% to 80% of Area Median Income (AMI). In addition to housing, community members have called for pedestrian friendly retail options within the context of their neighborhood.

The Greater Corktown Framework Study includes two areas: Historic Corktown and North Corktown. The project implementation for the area is being approached in two phases, with the North Corktown project implementation happening first. The Historic Corktown implementation will follow at a later date as Phase 2 of implementation.

North Corktown, the subject area for phase 1 of the rezoning that is currently before your Honorable Body, has approximately 1,600 residents with a median household income of \$19,000 annually. The majority of the area is comprised of R2 Two-family residential zoning. There are approximately 1,429 parcels and 75% of them are unimproved (vacant). Of those parcels, 40% are publicly owned (578 parcels). A map of proposed housing development sites from the Framework Study is shown below.

A map from the Greater Corktown Neighborhood Framework

**PLANNING CONSIDERATIONS**

***Surrounding Zoning and Land Use***

The zoning classification and land uses surrounding the subject area are as follows:

**North:** R2, R3 & PD; U of D Mercy School of Dentistry, residential homes, Sharon Missionary Baptist Church.

**South:** Michigan Avenue

**East:** R3 and B4; commercial buildings, Motor City Casino, underutilized parcels on Grand River.

**West:** R2 and B4; Covenant House Academy, I-96 Jeffries Freeway

**PROPOSAL AND ANALYSIS**

This rezoning is being proposed as one of the several implementation tools of the framework study. More specifically, the proposal will do the following:

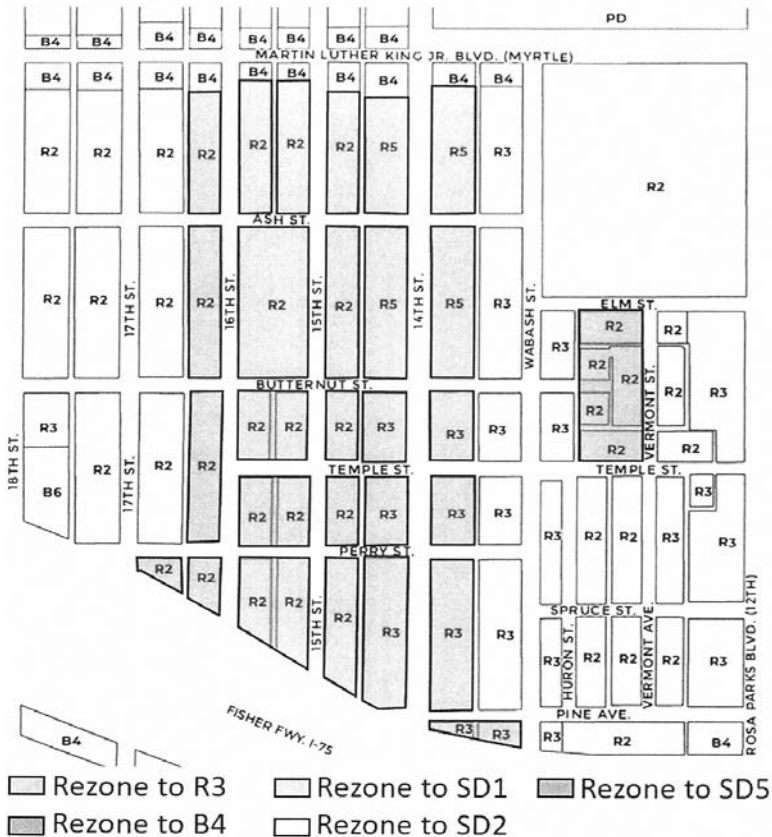

1. Rezone parcels abutting 15th Street, 16th Street, and Vermont Street from R2 Two-Family Residential to R3 Low Density Residential District to allow additional density and create opportunity for affordable housing in the neighborhood.
2. Rezone parcels along 14th Street and the I-75 service drive from R2, R3, and R5 to SD1 Small-Scale, Mixed-Use in order to allow additional density to support affordable housing as well as retail options.

3. Rezone parcels bounded by Rosa Parks Blvd., I-75 Freeway, Cochrane Avenue, and Michigan Avenue from B4 to SD2.
4. Rezone parcels along Trumbull Street to SD2 Mixed-Use. These zoning changes will support new housing typologies by allowing mixed-use development. It will encourage retail uses along the higher traffic thoroughfare.
5. Rezone 3111 W. Grand River which is owned and operated by Goodwill Industries. This property is currently zoned R2, M3, and B4 and is included in this rezoning in order to unify the zoning of the block. The proposed B4 District allows the all of uses that are currently operating at the site.
6. Rezone property east of Trumbull between Temple and Spruce Streets from PD to SD2 and SD5. The area was rezoned to PD in preparation for the Motor City Casino development, but ultimately was not part of the complex. The PD zoning have lapsed as there has been more than three (3) years since the effective date of approval and the planned development has not been completed. The zoning ordinance outlines that a PD district should be rezoned in such instances. Two of the PD zoned parcels are owned by Detroit Entertainment LLC, an affiliate of Motor City Casino. The proposed rezoning for those parcels is SD5.

Again, the CPC is proposing to rezone these parcels because the PD has lapsed. Representatives for the property expressed that if the land is to be rezoned, that their entity desires the parcels to transition to the SD5 zoning classification. CPC is amenable to rezoning to SD5 because if the casino ever seeks to develop the property, according to Sec. 50-11-343 Approval of Final Development Proposal, they will be required to submit detail schematic or design development level drawings for review by PDD and CPC staff and final approval must be granted by City Council. The remainder of the property that has not been acquired by the casino is proposed to be SD2 in order to be consistent with the corridor.

Below are maps that show the parcels that are being rezoned.

- Rezone to R3
- Rezone to B4
- Rezone to SD1
- Rezone to SD2
- Rezone to SD5

**Master Plan Consistency**

The subject site is located in the Jeffries and Corktown Neighborhood areas of Neighborhood Cluster 4 of the Master Plan of Policies (MP). The current future general land use designations are Mixed Residential Commercial (MRC), Low/Medium Density Residential (RLM), and Special Commercial (CS). PDD has submitted a letter confirming the general consistency of the proposed zoning to the MP. One portion of the rezoning that is proposed for SD1 will result in a future change to the MP, but is deemed appropriate for the current rezoning.

**COMMUNITY OUTREACH & PUBLIC HEARING RESULTS**

Over the course of approximately two years, PDD held various outreach events in the community during the framework study via public meetings, small groups, one-on-one conversations, open houses and other means. This engagement eventually resulted in the framework recommendations.

More recently, as it relates to the proposed zoning implementation, the PDD held several one-on-one conversations and small group meetings with residents and property owners.

On April 19, 2021, the PDD held a community meeting to discuss the proposed rezoning, in which CPC staff co-presented. Overall, the plan was well accepted by the public, who contributed generally supportive comments. Most speakers agreed with the proposal with some suggestions and/or questions. Following the meeting, PDD and CPC staff held follow-up conversations with stakeholder groups to address additional questions and/or concerns. This has resulted in the current proposal that is before your Honorable Body.

During the CPC public hearing held on May 20, 2019, there were six people that spoke regarding this proposal. Five of those people spoke in support or with general comment and one person spoke in opposition. Additionally, there were 12 letters of support and one letter in opposition submitted to the CPC.

**APPROVAL CRITERIA**

According to the Approval Criteria of Sec. 50-3-70 of the Zoning Ordinance, a rezoning should meet the criteria below in order to be considered for approval.

*(1) Whether the proposed amendment corrects an error or meets the challenge of some changing, condition, trend or fact;*

The proposed amendment corrects an error, by rezoning a lapsed PD to SD2 and SD5. The amendment also meets the changing condition of a demand for new and denser housing typologies in this area.

*(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;*

PDD has submitted a letter stating that "the proposed rezoning's are consistent with the Future General Land Use classifications for the area, with the exception of the rezoning to SD1 along the 14th Street corridor. PDD will be presenting to the CPC for its consideration an amendment to the table showing the alignment between Future General Land Use classification and zoning that will make SD1 consistent with the Low / Medium Density Residential classification that exists in the area."

*(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;*

The proposed amendment is focused on protecting the general welfare of the public by changing the zoning for the subject area to permit for new housing types, which will allow for more affordable units when leveraged with grants that the City has garnered. The proposal will also permit for new retail and commercial activity in the area which residents have expressed desire for.

*(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;*

As new developments are proposed, the City will work with developers to evaluate service needs. Generally, the proposal will not negatively impact the levels of service to existing development.

*(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management;*

The proposed rezoning will not have adverse impacts on the natural environment.

*(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;*

The proposed amendment is expected to have positive impacts on the property in the vicinity. The goal of the rezoning is to create a more desirable and inclusive area for residents.

*(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and*

The subject property is suitable for what is being proposed.

*(8) Whether the proposed rezoning will create an illegal "spot zone."*

The proposed rezoning will not create an illegal spot zone.

## CONCLUSION AND RECOMMENDATION

The proposed rezoning amendment is appropriate as it generally adheres to the MP and corrects errors in the zoning map by rezoning a lapsed PD. The proposal also responds to changing conditions in land use and demand by rezoning to R3 to allow for new and more affordable housing typologies based upon the outcomes of the Corktown Framework Study. The recently awarded Choice Neighborhoods \$30 million grant will complement the new zoning scheme in creating more affordable units for the future of the Greater Corktown area.

For these reasons and the strong community support demonstrated during engagement, through public hearing results and support letters that have been received, the CPC voted to recommend approval of this proposed map amendment on May 20, 2021.
