General Services Department

April 5, 2023

Honorable City Council:

Re: Authorization to acquire (14) Parcels from the Detroit Land Bank Authority for Meade Cut Thru Project.

The City of Detroit ("City"), by and through the General Service Department (GSD)/Parks & Recreation Department ("DPR"), is hereby requesting the authorization of your Honorable Body to acquire certain vacant parcels from the Detroit Land Bank Authority ("Acquisition Parcels") for the Meade Cut Thru project:

District 3 (14 parcels)
- 12452 Maine
- 12453 Maine
- 12458 Maine
- 12459 Maine
- 12464 Maine
- 12465 Maine
- 12448 Mackay
- 12453 Mackay
- 12458 Mackay
- 12459 Mackay
- 12464 Mackay
- 12465 Mackay
- 12838 Arlington
- 12850 Arlington

The total area of vacant land to be transferred from DLBA to DPR is 1.03 acre or 45,215 square feet. The properties are zoned R2 (Two-Family Residential District). DPR will develop a shared-use path, connecting East Davison Village, Campau/Banglatown, and the future Joe Louis Greenway with construction commencing Summer/Fall 2023.

In accordance with the requirements of Detroit City Code, Section 2-1-12, City Council is required to approve any gift, grant, devise or bequest of real or personal property to be used for any public purpose. Pursuant to the Memorandum of Understanding ("MOU") between the City of Detroit and the Detroit Land Bank Authority, approved by the Detroit City Council on May 2020, the Detroit Land Bank Authority may not transfer ten (10) or more parcels of property received from the City to the same transferee within any rolling 19-month period without the prior approval of the Mayor and City Council.

We hereby request that your Honorable Body approved the attached resolution authorizing the Detroit Land Bank Authority to transfer fourteen (14) vacant parcels to the Parks and Recreation Division for the Meade Cut Thru project.

Respectfully submitted,
CRYSTAL PERKINS
Director
General Services Department

By Council Member Young, II:

Now, Therefore, Be It Resolved, That City of Detroit ("City") through the General Service Department ("GSD") wishes to acquire fourteen (14) vacant parcels within the City of Detroit, Michigan, more particularly described in the attached Exhibit A ("Acquisition Parcels") from the Detroit Land Bank Authority ("DLBA").

Whereas, Building, Safety, Engineering and Environmental Department has reviewed the environmental report on the environmental conditions of the Acquisition Parcels attached herein as Exhibit A; and

Whereas, In accordance with Chapter 2, Article I, Division 2 of the Detroit City Code: (1) the City Council finds that the Acquisition Parcels have received appropriate environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) the environmental inquiry has shown that past use of the Acquisition Parcels for the period investigated has been solely for residential purposes and that the Acquisition Parcels do not pose an adverse environmental impact, therefore none of the Acquisition Parcels are considered a facility; and (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and therefore waives the requirements that the seller bear the cost of the environmental inquiry; Now Therefore Be It

Resolved, That Detroit City Council hereby approves acquisition of the Acquisition Parcels from the DLBA for no consideration; and Be It Further

Resolved, That the Director of GSD, or her authorized designee, is authorized to accept and record a deed to the Acquisition Parcels to the City of Detroit, as well as execute any such documents as may be necessary or convenient to effect the transfer of the Acquisition Parcels from the DLBA to the City of Detroit; and Be It Further

Resolved, That the Director of GSD, or his authorized designee is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to correction of or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Acquisition Parcels to the City, provided that the changes do not materially alter the substance or terms of the transfer.

RESOLUTION URGING THE MICHIGAN LEGISLATURE TO END THE SALE OF FLAVORED TOBACCO PRODUCTS

By Council Member Benson, joined by Council Members Whitfield-Calloway, Waters and Johnson:

WHEREAS, According to the Michigan Department of Health and Human Services (MDHHS), tobacco use is the leading cause of preventable death and disability in Michigan and contributes greatly to heart disease, cancer, and stroke[1]; and

WHEREAS, Flavors improve the taste and mask the harshness of tobacco products, most notably, menthol flavor. According to the Centers for Disease Control & Prevention (CDC), adult use of flavored tobacco products is linked with increased tobacco addiction. Menthol is a chemical added to cigarettes and other tobacco products that creates a cooling sensation. These features make tobacco products more appealing to youth and new smokers, more addictive, and more difficult to quit[2]; and

WHEREAS, Flavored tobacco products play a key role in youth initiation and continued use of tobacco, as most youth and young adults are more likely to try a menthol cigarette as their first cigarette.[3] Roughly 80 percent of 12-to-17-year-olds who use tobacco reported that they used a flavored tobacco product in the last month[4]. Flavored tobacco products, particularly e-cigarettes, are clearly favored by middle and high school students and studies have shown that nicotine exposure during adolescence is more likely to lead to sustained tobacco use[5]; and

WHEREAS, African Americans, Hispanics, youth, and LGBT (lesbian, gay, bisexual, and transsexual) individuals, and individuals with a behavioral health diagnosis are disproportionately impacted by the harms of menthol cigarettes.[6] Despite African Americans usually smoking fewer cigarettes, they are more likely to die from smoking-related diseases related to higher menthol use.[7] There is a long history of the tobacco industry targeting these populations with tobacco marketing[8]; and

WHEREAS, A policy regulating the use of flavored tobacco products should include a comprehensive definition of "tobacco product," which would prevent tobacco users substituting one product for another. A comprehensive definition would include combustible tobacco products; heated tobacco products; electronic smoking devices; smokeless tobacco products; any component, part, or accessory; products containing nicotine from any source (other than those approved for cessation by the U.S. Food and Drug Administration); and broad language anticipating new and emerging products; and

WHEREAS, Ending the sale of menthol cigarettes would save lives. Studies estimate that prohibiting menthol cigarettes in the U.S. would lead 923,000 smokers to quit, including 230,000 African Americans.[9] They project that 633,000 deaths would be averted, including 237,000 African American deaths. Ending the sale of all flavored tobacco products would likely significantly reduce the new generation of tobacco users, lower health care costs, and ensure an equitable approach to health in the United States; and

WHEREAS, Many states and over 360 localities have ended the sale of flavored tobacco products to protect kids and reduce health disparities. If Michigan takes this step, it would be a leader in protecting the health of its residents; and

WHEREAS, Section 14 of the Tobacco Products Tax Act (MCL 205.434) prohibits local units of government from imposing "any new requirement or prohibition per-

taining to the sale or licensure of tobacco products for distribution purposes." Despite local interest in passing policies related to tobacco sales and licensure, including local flavored tobacco restrictions, concerns about preemption and uncertainties about legal interpretation have had a chilling effect on local policy efforts for nearly three decades; and

WHEREAS, In the mid-1990s, at least 46 policy resolutions urging the repeal of preemption of local tobacco regulation were passed covering 56 Michigan counties, cities, and townships. Municipalities in all regions of the state were represented; and

WHEREAS, Preemption is a strategy frequently used by the tobacco industry to limit local tobacco regulations; and

WHEREAS, Repealing Section 14 of the Tobacco Products Tax Act would strengthen local control and improve the ability of local units of government to pass tobacco policies that address concerns in the communities they serve; NOW, THEREFORE BE IT

RESOLVED, By this body, we urge the Michigan Legislature to end the sale of flavored tobacco products in the State of Michigan, including menthol products; AND BE IT FURTHER

RESOLVED, The Detroit City Council strongly urges the Michigan Legislature to repeal Section 14 of the Tobacco Products Tax Act (MCL 205.434) restricting local units of government from imposing policies pertaining to the sale or licensure of tobacco products for distribution purposes; AND BE IT FINALLY

RESOLVED, That copies of the resolution be transmitted to the Majority Leader of the Michigan Senate, the Speaker of the Michigan House of Representatives, the chair of the Michigan Senate Committee on Local Government, the chair of Michigan Senate Committee on Health Policy, the chair of the Senate Committee on Regulatory Affairs, the chair of the Michigan House of Representatives Committee on Health Policy, the chair of the Michigan House of Representatives Committee on Tax Policy, the chair of the Michigan House of Representatives Committee on Local Government and Municipal Finance.

April 28, 2023

Honorable City Council:

Re: Application for Neighborhood Enterprise Zone Certificate for North Corktown Area.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of two (2) applications for North Corktown for a Neighborhood Enterprise Zone Certificate. These applications have been reviewed and recommended for approval by the City Planning Commission, a copy of which is attached. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve these applications.

Respectfully submitted,
ANDRE P. GILBERT, II
Deputy City Clerk

By Council Member Durhal, III:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from *ad valorem* property taxes, and the imposition of specific tax in lieu of *ad valorem* taxes; and

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992.

Now, Therefore, Be It Resolved, That the Detroit City Council approves the submission of the applications to the State Tax Commission, and, if applicable, the City Council concurs with the issuance of the certificate if the application was filed not more than 6 months after the date of the issuance of a building permit for the facility.

April 27, 2023

Honorable City Council:

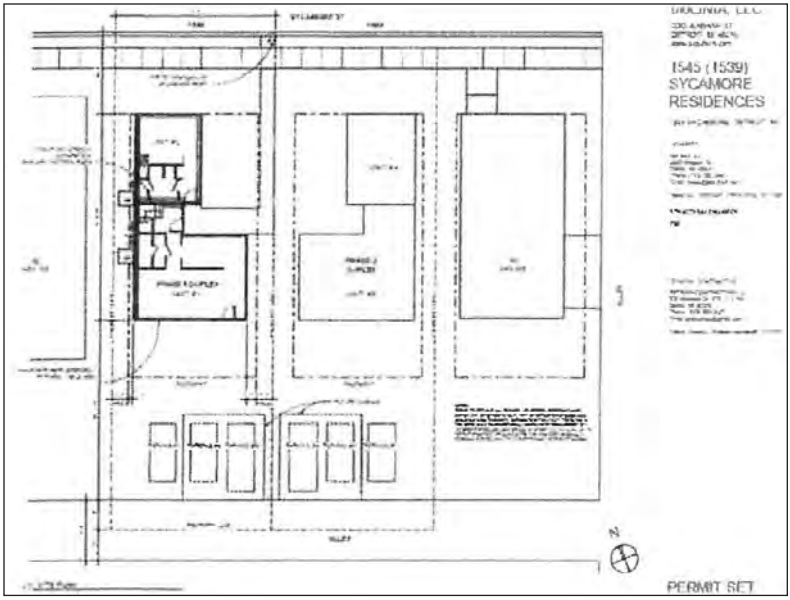
Re: Neighborhood Enterprise Zone Certificate Applications for the construction of two new duplex buildings at 1539 and 1545 Sycamore Street in the North Corktown Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Clerk forwarded to the City Planning Commission (CPC) two applications requesting a 15-year Neighborhood Enterprise Zone (NEZ) certificates for the construction of two new duplex buildings at 1539 and 1545 Sycamore.

The petitioner is Sycamore Dwellings, LLC represented by Becky Nix. The property is vacant land on the south side of Sycamore, generally located west of Trumbull and south of Martin Luther King Jr. Blvd.

The applicants are proposing to build two duplex buildings. Each building would have an owner-occupied unit containing 1,470 square feet (with 3 bedrooms and 1.5 baths) and a second studio unit containing 576 square feet (with a mezzanine bedroom and 1 bath). The estimated project cost for each duplex is $560,000. Below are plans for the proposed project.

The project will have surface parking at the rear of the site off of the alley. The developer indicates the properties are slab on grade so no stairs are needed to get up to the main floor.



The subject properties have been confirmed as being within the boundaries of the North Corktown NEZ, which was established by City Council on April 15, 2003 and should be eligible for NEZ certificates under the State NEZ Act (Act 147 of 1992) as currently written.

The NEZ Act (Act 147 of 1992) states the application for the certificate must be filed before a building permit is issued. However, the NEZ Act allows a certificate to be filed not later than 6 months following the date the building permit is issued provided the local government allows by resolution. The petitioner submitted the NEZ certificate on March 30, 2023 and indicates they have not yet applied for building permits.

CPC staff has reviewed the application and recommends approval. Attached is a resolution for your consideration. Please contact our office should you have any questions.

Housing and Revitalization Department

January 5, 2023

Honorable City Council:

Re: Public Hearing on the Establishment of a Neighborhood Enterprise Zone as requested by 2150 Bagley LLC, in the area of 2150 Bagley, Detroit, MI in accordance with Public Act 147 of 1992.

The Housing and Revitalization Department, Planning and Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City and find that establishment of the 2150 Bagley LLC Neighborhood Enterprise Zone would be consistent with all of the aforementioned.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones". Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not later than 45 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act.

Respectfully submitted,
KELLY R. VICKERS
Chief Housing Development and Investment Officer

By Council President Pro Tem. Tate:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act"), this City Council has the authority to establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit,

Whereas, 2150 Bagley LLC has requested establishment of "West Corktown Neighborhood Enterprise Zone" NEZ whose boundaries are particularly described in Exhibit A (legal description) and illustrated in the map attached hereto; and

Whereas, The Act 147 requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing, any representative of a taxing authority levying *ad valorem* taxes within the City, or any resident or taxpayer of the City of Detroit may appear and be heard on the matter;

Now Therefore Be It

Resolved, That on the __ day of _____, 2023, at __ a.m., a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) as illustrated in the map attached hereto; and be it finally,

Resolved, That the City Clerk will provide notice of the Public Hearing to the general public by publication, and shall give written notice by certified mail to the taxing authorities and to the owners of all real property within the NEZ.

Honorable City Council:

Re: Extension of review period for proposed Zoning Ordinance Map Amendment request of Ballpoint Bagley, LLC to amend Article XVII, Section 50-17-2, District Map No. 1 of the 2019 Detroit City Code, Chapter 50, Zoning, to show an SD2 (Special Development District, Mixed Use) zoning classification where an R3 (Low Density Residential District) zoning classification is currently shown on the property commonly known as 1451 Bagley Street.

As provided in Section 50-3-16 of the 2019 Detroit City Code, where a proposed map amendment is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council.

The City Planning Commission's report and recommendation to approve the Zoning Ordinance map amendment relative to the rezoning of 1451 Bagley was taken up by your Honorable Body on January 17, 2023. The 120-day review period is scheduled to expire upon the close of business May 17, 2023.

The public hearing was originally scheduled for April of this year but was canceled due to competing agenda items and the limited time available for Standing Committee during the Budget deliberations. The hearing has been rescheduled for May 25th following the expiration of the review period.

Attached, please find a resolution extending the review period for this ordinance an additional 60 days until June 17, 2023.

By Council President Pro Tem. Tate:

Whereas, Section 50-3-16 of the Zoning Ordinance of the City of Detroit establishes that upon the expiration of a 120 day period following the date that the City Council formally receives the City Planning Commission's report and recommendation on any petition to amend the Zoning Ordinance, such petitions will be deemed denied unless the time period is extended by the City Council; and

Whereas, The Ballpoint Bagley LLC has petitioned the City Council for a rezoning of certain property in the City of Detroit at 1451 Bagley from the M4 (Intensive Industrial) to the B4 (General Business) zoning district classification; and

Whereas, The City Planning Commission report and recommendation on this request was received by the City Council on January 17, 2023; and

Whereas, The original 120 day period of viability for this request was to expire on May 17, 2023; and

Honorable City Council:

Re: Approval of Property Transfer between the City of Detroit and the Detroit Land Bank Authority.

Pursuant to the Land Bank Fast Track Act, 2003 PA 258, MCL 124.751 to 124.774 (Land Bank Act), the Detroit Land Bank Authority ("DLBA") was created as a separate legal entity, in order to assemble or dispose of public property in a coordinated manner, to foster the development of that property, to promote economic growth in the City of Detroit and to combat blight.

The Detroit Land Bank Authority has implemented a range of policies to provide for the disposition of the properties that it acquires, including sales to owner occupants, sales of side lots and auctions of properties.

In 2014, your Honorable Body initially authorized the transfer of 16,399 properties from the City to the DLBA for the purposes stated. The last such transfer was approved by your Honorable Body November 22, 2022, at which time 57 properties were transferred by the City to the DLBA.

As the City and DLBA continually acquire property through various means, a periodic transfer of properties between the City of Detroit and the DLBA is necessary for both entities to conduct land strategies efficiently and effectively.

At this time, the City and DLBA have identified 16 properties in the City's inventory that are best managed under the DLBA's disposition programs ("City Transfer Properties").

Additionally, the City has identified 9 properties that we wish to acquire from the DLBA ("DLBA Transfer Properties") for:

(1) Crown PEA Assembly (6 properties) — In 2019, the City and the Detroit Brownfield Redevelopment Authority ("DBRA") entered into a Property Exchange Agreement ("PEA") with Crown Enterprises ("Crown") as part of the Fiat Chrysler Automotive ("FCA") land assembly transactions. Theses properties are to be acquired from the DLBA and offered to Crown, consistent with the City's obligations under the PEA.

(2) Corridor Parking Development (6914 Rutland) — The acquisition of 6914 Rutland will aid in providing and/or expanding parking within that area of the City.

(3) Parks and Recreation (8830 Petoskey and 19590 Tireman) — The jurisdiction of these properties is to be placed with the Recreation Department. The acquisition of 8830 Petoskey will support the expansion of adjacent McShane Park. 19590 Tireman is a former school site consisting of approximately 3 acres of vacant land. Its acquisition will facilitate the development of the new Tireman-Minock park, generally bound by Tireman, Auburn, Belton and Minock.

We, hereby respectfully request that your Honorable Body adopt the attached resolution that authorizes the Planning and Development Department Director, or his/her authorized designee, to transfer the City Transfer Properties, as listed in the attached Exhibit A, to the Detroit Land Bank Authority, a Michigan public body corporate for no consideration.

We further, request that your Honorable Body authorize the City to acquire the DLBA Transfer Properties, as listed in the attached Exhibit B, from the Detroit Land Bank, a Michigan public body corporate, for no consideration.

Respectfully Submitted,
ANTOINE BRYANT
Director
Planning and

By Council President Pro Tem. Tate:

Now, Therefore, Be It Resolved, That Detroit City Council hereby approves the transfer of those properties ("City Transfer Properties"), listed in the attached Exhibit A, from the City of Detroit to the Detroit Land Bank, a Michigan public body corporate, for no consideration; and be it further

Resolved, That in accordance with the foregoing, the P&DD Director, or his/her authorized designee, be and is hereby authorized to convey all of the City's right, title and interest of the properties, listed in the attached Exhibit A, by one or more multiple quitclaim deeds, as well as execute any such other documents as may be necessary to effectuate transfer of the properties from the City of Detroit to the Detroit Land Bank; and be it further

Resolved, That the P&DD Director, or his/her authorized designee, retains the discretion to with hold transferring some property described in the Exhibit A to the Detroit Land Bank; and be it further

Resolved, That Detroit City Council hereby approves acquisition of those properties ("DLBA Transfer Properties"), listed in the attached Exhibit B, from the Detroit Land Bank, a Michigan public body corporate for no consideration, provided that prior to any such acquisition, the City conduct an environmental inquiry of the DLBA Transfer Properties and, if required, an environmental assessment, to be reviewed by the Building, Safety Engineering and Environmental Department; and be it further

Resolved, That Detroit City Council finds and declares that (1) acquisition of the DLBA Transfer Properties is necessary to promote the health, safety and welfare of the public and (2) that the preservation of the public health safety and welfare outweighs the cost of the environmental inquiry and assessment, and therefore, waives the requirement that the seller bear the cost of the environmental inquiry and assessment for the DLBA Transfer Properties; and be it further

Resolved, That in accordance with the foregoing, the P&DD Director, or his/her authorized designee, be and is hereby authorized to accept and record deeds to the City of Detroit for the properties, listed in the attached Exhibit B, as well as execute any such other documents as may be necessary to effectuate transfer of the properties from the Detroit Land Bank to the City of Detroit; and be it further

Resolved, That the City may transfer any or all of the City Transfer Properties and/or the DLBA Transfer Properties at any time to the DLBA for no consideration, in order for the DLBA to provide expedited title clearances for such properties at a service fee of $1,000 per property to the DLBA for such services. Further, the City is hereby authorized to accept of such properties back from the DLBA for no consideration following the DLBA's completion of such title clearances; and be it further

Resolved, That the P&DD Director, or his/her authorized designee, is authorized to execute any required instruments to make and in corporate technical amendments or changes to the quit claim deeds (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the properties, provided that the changes do not materially alter the substance or terms of the transfers or sales; and be it finally

Resolved, That the quit claim deeds will be considered confirmed when executed by the P&DD Director, or his/her authorized designee, and approved by the Corporation Counsel as to form.

Re: Property Sale — Correction 7326 W. McNichols.

On November 15, 2022, your Honorable Body authorized the sale of property located at 7326 W. McNichols ("the Property") to 7326 W. McNichols LLC, a Michigan Limited Liability Company ("the Purchaser"), for the purchase price of Eighteen Thousand One Hundred Twenty and 00/100 Dollars ($18,120.00).

The property consists of a vacant building situated on approximately 11,000 square feet of land, zoned B2 (General Business District) and lies within a Traditional Main Street Overlay ("TMSO") area. The Purchaser proposes to renovate the structure into mixed use office and retail space. The TMSO ordinance permits this in a B2 zone.

It has come to our attention that the name of the Purchaser was incorrectly stated as Global Translations & Services, LLC on the approval resolution and issued in error.

We, therefore, request that your Honorable Body adopt the attached resolution to reflect the correct Purchaser as 7326 W. McNichols, LLC for the sale.

RESOLUTION ESTABLISHING JUNE 17 AS BLACK MALE AWARENESS DAY

By Council Member Santiago-Romero:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, On April 25, 2023, the nation lost a legend, Harry Belafonte, a civil rights activist, artist, and singer at the age of 96. Reflecting upon his life is just another reminder of the tremendous contributions that Black men have made, and that their contributions represent what is truly great about America; and

WHEREAS, As a matter of fact, Crispus Attucks, who was the first to fall during the Boston Massacre on March 5, 1770, was the first man to die for our country. American greatness is reflected in the life of Frederick Douglass, an escaped slave, whose life proved instrumental to the abolitionist movement and the ultimate goal of ending slavery. Douglass' stirring speech on the hypocrisy of the Independence Day Celebration of 1852 in Rochester, New York, while Blacks were enslaved, to this day, is considered one of the greatest speeches in American history; and

WHEREAS, Elijah McCoy, born to escaped slaves in 1844, despite becoming certified as a mechanical engineer in Scotland, was unable to find work as an engineer in the United States due to racial barriers. McCoy found work as an oiler and a Fireman for the Michigan Central Railroad, where he developed his first major inventions; and

WHEREAS, After studying the inefficiencies inherent in the existing system of oiling axles, McCoy invented a lubricating cup that distributed oil evenly over the engine's moving parts. He obtained a patent for this invention, which allowed trains to ran continuously for long periods of time without pausing for maintenance; and

WHEREAS, McCoy patented his invention, known as an "oil-drip cup," in 1872, and the device was an instant success. However, due to its ingeniously simple design, other railroads began creating similar versions. It was common knowledge in industry that McCoy's version of the "oil-drip cup" was the most effective, so much so, engineers began asking for "the real McCoy." All in all, Mccoy established over sixty patents; and

WHEREAS, The contributions of Black men are numerous and vast, such as Garrett Morgan's inventions of the gas mask and the three-light traffic light, Dr. Charles Drew, who discovered a method of separating red blood cells from plasma and then storing the two components separately. This new process allowed blood to be stored for more than a week, which was the maximum at that time. This allowed for the development of blood banks, which have saved the lives of countless millions; and

WHEREAS, Black men have historically fought for freedom and equality with dynamic leaders such as Malcolm X, Rev. Dr. Martin Luther King and locally with Horace Sheffield Jr., a champion of organized labor and Mayor Coleman A. Young, who became the first Black mayor of Detroit and also disbanded the deadly and oppressive STRESS unit of the Detroit Police force that terrorized the Black community; and

WHEREAS, Counter to how Black men are often negatively depicted in news accounts, today there are dynamic and effective Black men of distinction who live among us. The negative stereotypical Black man, who is depicted as a criminal and a dredge on society is more of the exception, rather than the rule for Black men. Black men of distinction such as former President Barack Obama, a Harvard educated attorney and the nation's first Black president, Hakeem Jeffries, an American politician and attorney and a member of Kappa Alpha Psi, who was unanimously selected by his peers as the first Black man chosen as House Minority

Leader, and locally with four Black men on the Detroit City Council, are all strong Black men that are the antithesis to the negative stereotypes; and

By Council Member Whitfield-Calloway:

WHEREAS, Registered nurses in the United States constitute our nation's largest health care profession and are an indispensable component of the safety and quality of care of hospitalized and non-hospitalized patients; and

WHEREAS, Nurses serve on the front lines, risking their lives treating the injured and sick during wartime, natural disasters, and public health emergencies, including the COVID-19 pandemic;

City Planning Commission

May 4, 2023

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a building at 255 E. Ferry in the Woodbridge/Brush/Hendrie/Ferry Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate for the rehabilitation of an existing building at 255 East Ferry.

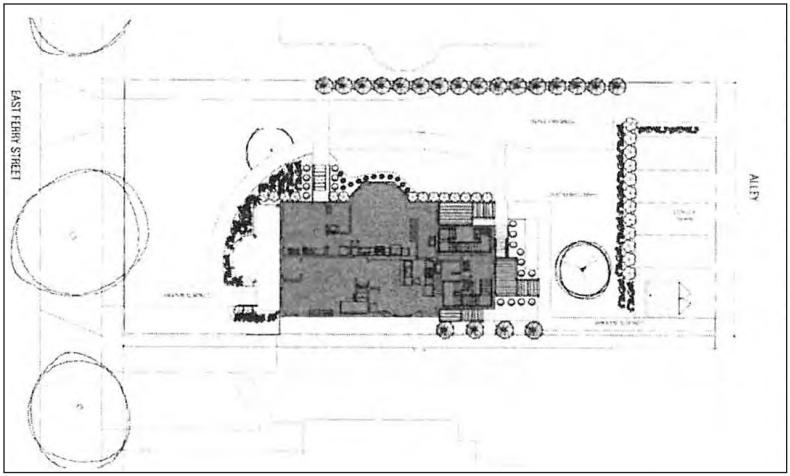
The property is generally located on the north side of East Ferry Street between John R and Brush Street in the Arts Center neighborhood. Below is a map and image of the location. The request is for a 15-year abatement. The applicant for the certificates is 255 E. Ferry, LLC, which is represented by Darius D. Barrett.

The applicant indicates the subject building was previously used as a rooming has and has been vacant for fifteen plus years. The proposal is for a full gut rehabilitation to convert the property to four residential rental units. The estimated project cost per unit is $325,000. Unit info is as follows:

- Unit 1 has 650 SF; 1 Bed 1.5 Bath; $1300 per month
- Unit 2 has 1310 SF; 2 Bed 2.5 Bath; $2500 per month
- Unit 3 has 725 SF; 1 Bed 1.5 Bath; $1400 per month
- Unit 4 has 1030 SF; 2 Bed 2 Bath; $2000 per month

The site plan shows four parking spaces at the rear of the site; the developer indicates no fee will be charged for parking. The developer indicates none will be designated handicap accessible.

The subject property has been confirmed as being within the boundaries of the Woodbridge/Brush/Hendrie/Ferry Neighborhood Enterprise Zone which was established by a vote of City Council on July 24, 2001.



The NEZ Act (Act 147 of 1992) states the application for the certificate must be filed before a building permit is issued. However, the NEZ Act allows a certificate to be filed not later than 6 months following the date the building permit is issued provided the local government allows by resolution. The petitioner submitted the NEZ certificate on January 4, 2023 and indicates they have not yet applied for building permits.

CPC staff has reviewed the applications and recommends approval. Attached is a resolution for your consideration. Please contact our office should you have any questions.

By Council Member Young, II:

City Planning Commission

May 12, 2023

Honorable City Council:

Re: Special District Review of proposed signs for ZuZu restaurant at 511 Woodward Avenue. **(RECOMMEND APPROVAL)**

REQUEST

The City Planning Commission (CPC) has received a request to review the installation of business signs for a proposed restaurant (ZuZu restaurant) at 511 Woodward Avenue. Herewith, please find CPC staff's review.

The PCA (Public Center Adjacent District) zoning classification, in which the building is located, requires City Council approval of any exterior changes following the review and recommendation of the City Planning Commission and the Planning and Development Department (P&DD), found in Sections 50-3-222 and 50-11-96 of the Zoning Ordinance.

On July 23, 2019, City Council approved the request of Iconic-55, LLC for PCA review of overall redevelopment and exterior changes to 511 Woodward –the former Detroit Federal Savings and Loan Association Building.

This specific request involves signs for the ZuZu restaurant, which is a new tenant at the south side of the building on the ground floor level. P&DD staff have reviewed the request and recommend approval. This address is within the Financial Center Historic District, and the Detroit Historic District Commission (HDC) has approved the proposed signs.

PROPOSAL

The signs are depicted and described below; an additional wall sign was proposed, but has since been removed:

1. The proposed blade sign on West Larned:

CPC staff has completed its review of the proposed signs, as has the P&DD staff. We find that the signs would be in keeping with the spirit and intent of the PCA zoning district. Therefore, CPC staff recommends approval of the location and design of the proposed signs. Please find attached the appropriate resolution to effectuate your approval should you concur.

Respectfully submitted,
MARCELL R. TODD, JR.
Director
CHRISTOPHER J. GULOCK
Staff

By Council President Pro Tem. Tate:

Whereas, Sign Emporium, on behalf of ZuZu restaurant, has requested to install business signs (a monument sign and a blade sign) at the building located at 511 Woodward Avenue; and

Whereas, The building is subject to provisions of Sec. 50-3-225 (Special District Review) and Sec. 50-11-97, the PCA (Public Center Adjacent District) zoning classification of the Detroit Zoning Ordinance; and

Whereas, The PCA zoning district classification requires that the location and design of proposed signs within a PCA district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission; and

Whereas, Both the Planning and Development Department and the staff of the City Planning Commission have reviewed the proposal in order to ensure that the proposed signs are in keeping with the spirit, purpose and intent of the PCA zoning district classification; and

Whereas, The signs meet the requirements for business signs provided in Chapter 4, Article IV of the 2019 Detroit City Code;

Now, Therefore, Be It

Resolved, That the Detroit City Council approves the location and design of the proposed business signs for the building located at 511 Woodward Avenue, described in the foregoing communication from the City Planning Commission staff and as depicted in the drawings prepared by Sign Emporium and dated February 3, 2023.

Petition No. x2023-167 — Greektown Propco, request for various on-site advertising encroachments within the northerly part of Monroe Street and the easterly part of St. Antoine Street, adjacent to the parcel commonly known as 1200 St. Antoine Street.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made to install an on-site business sign for the street level business at the casino parking garage.

The request was approved by the Solid Waste Division — DPW, and City Engineering Division — DPW, Traffic Engineering Division.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Department of Public Works
City Engineering Division

Honorable City Council:

Re: **Petition No. x2023-012** — Ford Motor Company requests to vacate to utility easement part of Wabash Street, south of Bagley Street. Also, for encroachment of light poles and conduits into Wabash Street east of and adjacent to 1501 Wabash.

Petition No. x2023-012 — Ford Motor Company requests to vacate to utility easement part of Wabash Street, 65 ft. wide, south of Bagley Street. Also, for encroachment of light poles and conduits into Wabash Street east of and adjacent to 1501 Wabash.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is made as part of the site development at 1501 Wabash Street.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection provided certain provisions are met. The DWSD provisions are a part of the attached resolution.

All other involved City Departments, and privately owned utility companies have reported no objections. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.
City Engineer
City Engineering Division — DPW

Re: Emergency Ordinance to amend Chapter 29 of the 2019 Detroit City Code, *Minors,* by adding Section 29-3-14, *Additional Definitions,* and Section 29-3-15, *Curfew*.

The Law Department has prepared an emergency ordinance sponsored by Council Member Benson to amend Chapter 29 of the 2019 Detroit City Code, *Minors,* by adding Section 29-3-14, *Additional Definitions,* and Section 29-3-15, *Curfew,* to provide for a superseding curfew for all

minors in a designated area for the Detroit Annual Fireworks Display. A copy of the ordinance, which has been approved as to form, is attached for your review and consideration.

We are available to answer any questions that you may have related to this proposed ordinance.

Respectfully submitted,

By Council Member Benson:

AN EMERGENCY ORDINANCE to amend Chapter 29, *Minors,* Article III, *Regulation of Minors in Public Places and Adult Responsibility for Violations,* Division 2, *Curfew,* of the 2019 Detroit City Code by adding Sections 29-3-14 and 29-3-15 to provide for a superseding curfew for all minors beginning at 8:00 p.m. on Monday, June 26, 2023 (being the scheduled date for the Detroit Annual Fireworks Display, or any rescheduled date) and continuing until 6:00 a.m. the following morning, applicable only in the area within and bounded by the Detroit River, Third Street, the Lodge Freeway (M-10), the Fisher Freeway (I-75), the extension of the Fisher Freeway (I-75) easterly to Gratiot Avenue, Gratiot Avenue, Vernor Highway, Chene Street, Atwater Street, and the Aretha Franklin Amphitheater.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. DECLARATION OF EMERGENCY:

The Detroit City Council, upon receipt of testimony and evidence from the Detroit Police Department and others, and after public hearing, upon due consideration makes the following findings:

(A) On the day of and especially the evening of the Detroit Annual Fireworks Display that takes place on the Detroit River there have been numerous incidents of harassment, nuisance, vandalism, and violence committed by persons at the viewing, parking, and public places of the City before, during, and after the fireworks display;

(B) These acts of harassment, nuisance, vandalism, and violence have endangered the peace, health, safety, and welfare of the People of the City of Detroit, the many persons traveling from outside the City limits to attend this annual event, and in particular unsupervised minors before and during the City's regular curfew hours for minors and;

(C) There exist public peace, health, safety, and welfare needs for effectively governing the conduct of such minors as it pertains to harassment, nuisance, vandalism, and violence for the purpose of alleviating and eliminating these problems, whether committed against minors or committed by minors;

(D) Due to law enforcement considerations and logistics concerns, a localized curfew is necessary to enhance the public peace, health, safety, and welfare for the many thousands of minors and adults who attend this annual event;

(E) Due to the fact that spectators begin to gather in the viewing areas in advance of the commencement of the Detroit Annual Fireworks Display on the day of the event, the regular curfew hours for minors provided for in the City's Curfew Ordinance, codified in Chapter 29, Article III of the Detroit City Code, are not sufficient to alleviate and curtail criminal activity involving unsupervised minors in the fireworks display viewing areas;

(F) The peace, health, safety, and welfare of the community-at-large and particularly that of minors will benefit from additional curfew controls for minors in a localized area of the City during the Detroit Annual Fireworks Display;

(G) The curfew for minors in the City provides for reasonable exceptions during the specified curfew period to allow for minors accompanied by their parent, legal guardian, or responsible adult, for minors at or traveling to and from places of employment, education and training facilities, and sponsored activities under adult supervision, for minors involved in emergencies or constitutionally protected activities such as interstate travel or freedom of speech, assembly or exercise of religion, for minors on the sidewalks in front of their homes, and for minors sent on errands by their parents if the minors have proper written permission.

Section 2. Chapter 29, *Minors,* Article III, *Regulation of Minors in Public Places and Adult Responsibility for Violations,* Division 2, *Curfew,* of the 2019 Detroit City Code is amended by adding Sections 29-3-14 and 29-3-15, to read as follows:

CHAPTER 29. MINORS
ARTICLE III. REGULATION OF MINORS IN PUBLIC PLACES AND ADULT RESPONSIBILITY FOR VIOLATIONS
DIVISION 2. CURFEW

I respectfully ask your approval to accept this donation in accordance with the attached resolution.

RESOLUTION SUPPORTING GOOD TIME CREDIT HB 4470

By Council Member Johnson:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, The pervasiveness of racial disparity in the criminal justice system in the U.S. has been longstanding. The racial dynamics in sentencing has changed over time and reflects a move from explicit racism to more surreptitious manifestations and outcomes; and

WHEREAS, An independent study by The Open Society Foundations of the criminal justice system in the U.S., revealed several key findings that were surprising to some, but unfortunately for many families in Detroit and other minority communities, a confirmed truth. The study confirmed that there is evidence of direct racial discrimination against minority defendants in sentencing outcomes; and

WHEREAS, The Open Society Foundations' study included the following findings:

• At the state level, both Latinos and Blacks are far more likely to be disadvantaged in the decision to incarcerate or not, as opposed to the decision regarding sentence length.

• Young Black and Latino males tend to be sentenced more severely than comparably situated White males.

• Unemployed Black males tend to be sentenced more severely than comparably situated White males.

• Blacks pay a higher "trial penalty" than comparably situated Whites.

• Whites are more likely to hire a private attorney than Latinos or Blacks, and therefore receive a less severe sentence; and

WHEREAS, Despite these inherent disparities, in 1998, Michigan's Truth in Sentencing law was established and eliminated good time credits, which are incentives for good behavior. As long as someone maintains good behavior in prison, good time credits reduce the actual amount of time that a person will remain in custody. The 1998 law requires incarcerated people to serve their entire minimum sentence before they can be considered for parole; and

WHEREAS, According to the Liberty and Justice For All Coalition, 16 states enacted the truth-in-sentencing guidelines from 1994 to 1998 to receive incentives from the federal government. Those incentives ended in 2000. Several of the initial states now have less-restrictive sentencing guidelines, Michigan should as well; and

WHEREAS, On April 23, 2023, Michigan State Representative Amos O'Neal, joined by Reps. Hoskins, Hood, Wilson, Wegela, Brabec, Byrnes, Dievendorf, Rheingans, Edwards, Brenda Carter, Glanville, Tyrone Carter, Liberati, Andrews, Young, Neeley, MacDonell, Price, Hill, McKinney, Thompson, Brixie, Rogers, VanderWall and Aiyash, co-sponsored House Bill (HB) 4470, the "Good Time Credit Bill," if approved, House Bill 4470 would re-establish good time credits. HB 4470 amends sec. 33 of 1893 PA 118 (MCL 800.33) & repeals sections 34 & 35 of 1893 PA 118 (MCL 800.34 & 800.35), thereby granting eligible prisoners good time credit for that month equal to the number of days in that month; and

WHEREAS, HB 4470 is also tie-barred with HB 4468, which amends PA 232 of 1953, entitled "Corrections Code of 1953." HB 4468 by amending the code, if passed, it would establish that the state's Department of Corrections may establish a youth correctional facility which must house only prisoners committed to the jurisdiction of the department who are 19 years of age or less; and

WHEREAS, Additionally, HB 4468 proposes that if the Department of Corrections establishes or contracts with a private vendor for the operation of a youth correctional facility, the department shall house all male prisoners who are 16 years of age or less at the youth correctional facility, unless the department determines that the prisoner should be housed at a different facility for reasons of security, safety, or because of the prisoner's specialized physical or mental health care needs. This would provide a more secure environment for offenders of minor age from the predatory adult prison population; and

WHEREAS, Michigan's high prison population has been directly affected by Michigan's onerous Truth in Sentencing law. Michigan's consistent prison population growth has subsequently resulted into prison overcrowding, a reported increase of crime within the prison walls, and escalating state government expenditures on the building and maintenance of prisons, so, the passing of the Good Time Credit Bill can relieve this problem, restore a degree of fairness to the prison system, and help the reformed to return to productive lives in their respective communities; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council is hereby calling for the Michigan legislature to approve House Bill 4470 and its accompanying tie-barred legislation, HB 4468; THEREFORE, BE IT FURTHER

RESOLVED, That copies of this resolution be forwarded to the City of Detroit's Lansing Lobbyist, the Detroit delegation in the State Senate and State House, State House Committee on Criminal Justice, Mayor Mike Duggan and Governor Gretchen Whitmer.

WHEREAS, Education and knowledge are the foundation of the current and future success and well-being of Detroit and its residents; and

WHEREAS, Teachers and other education staff have earned and deserve the respect of their students and communities for their selfless dedication to community service and the futures of children; and

WHEREAS, The teaching profession should be afforded high public esteem, and reflect a community's value on public education; and

WHEREAS, Teachers employ countless hours preparing lessons, evaluating progress, counseling and coaching students while filling roles of listeners, explorers, role models, motivators, and mentors; and

WHEREAS, When confronted with the extraordinary challenge of continuing to teach during the COVID-19 pandemic, teachers and other education staff stepped up in new ways and new roles to support their communities and their students; and

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Office of the Chief Financial Officer
Office of the Assessor

May 10, 2023

Honorable City Council:

Re: 10 Peterboro Partners Limited Dividend Housing Association LLC — Payment in Lieu of Taxes (PILOT).

10 Peterboro Partners LLC has formed 10 Peterboro Partners Limited Dividend Housing Association LLC, in order to develop the Project known as Peterboro Place Apartments. The Project is an existing seventy (70) unit 6-story apartment community intended for formerly homeless residents located in an area bounded by Martin Luther King Boulevard on the north, Woodward Avenue on the east, Peterboro Street on the south and Cass Avenue on the west.

The Project consists of seventy (70) studio apartments of four hundred (400) square feet each. All units are designated for Permanent Supportive Housing tenants. Building amenities include an interior camera system, an administrative office and community space. Central City Integrated Health provides a complement of services and support for the benefit of the residents. Project case managers are on-site to coordinate tenant supportive services for a minimum of twenty (20) hours on-site per week. There are eighty (80) onsite parking spaces.

IRP Advancing Company II, LLC, has provided a loan in the amount of $7,940,000 that was utilized for the acquisition and extinguishment of prior debt. Low Income Housing Tax Credit regulatory restrictions will remain in place which legally encumbers title to the Project for ninety-nine (99) years with approximately seventy-nine (79) years remaining.

Rents for all units have been set at or below sixty percent (60%) of the area median income ("AMI"), adjusted for family size. The existing Section 8 Housing Assistance Payments (HAP) Contract covering fifty-eight (58) units provided by the U.S. Department of Housing and Development (HUD) has been assumed and renewed. All seventy (70) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended. In order to continue to make this Project economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,
ALVIN HORHN
Deputy CFO/Assessor

By Council Member Young, II:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *se seq.* (the "Act"), a request for exemption from property taxes has been received on behalf of 10 Peterboro Partners LLC, (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor has undertaken the preservation of an existing housing project known as Peterboro Place Apartments consisting of seventy (70) units intended for occupancy by formerly homeless residents located on a parcel of property owned by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with seventy (70) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it has reviewed the Sponsor's submission and has determined that federal-aided financing is in place for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Peterboro Place Apartments as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, *et seq.;* and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Re: Benjamin O. Davis Veterans Village Limited Dividend Housing Association LP — Payment in Lieu of Taxes (PILOT).

Communities of Hope, Inc. has formed Benjamin O. Davis Veterans Village Limited Dividend Housing Association Limited Partnership in order to develop the Project known as the Benjamin O. Davis Veterans Village Apartments. The Project is a new construction two-story apartment

building that will consist of fifty (50) apartments for homeless veterans located in an area bounded by Savage Avenue on the north, Conner Avenue on the east, East Outer Drive on the south and Van Dyke Street on the west.

The Project will include fifty (50) 1 bedroom/ 1 bath apartments of six hundred fifty-four (654) square feet each with available parking. Central City Integrated Health will commit to providing case management on-site and supportive services to all formerly homeless tenants.

Citizens Bank will provide a construction loan in the amount of $10,000,000 and Churchill Stateside Mortgage Group will provide a mortgage loan in the amount of $2,960,000. Alliant Capital will make Capital Contributions of $11,084,535 which includes the purchase of Low Income Housing Tax Credits. The City of Detroit will provide a HOME-ARP loan in the amount of $300,000 and American Rescue Plan Act funds in the amount of $1,425,000. In addition, the Sponsor has agreed to defer $436,935 of the developer fee.

Rents for all units have been set at or below 60 percent (60%) of the area median income, adjusted for family size through rent subsidies provided by the Detroit Housing Commission and Michigan State Housing Development Authority (MSHDA).

All fifty (50) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended. In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of six percent (6%) of the annual net shelter rent obtained from this housing project.

Honorable City Council:

Re: Fiscal Year 2022-2023 Supplemental Appropriation Request — Opioid Settlement.

The Administration is requesting a Fiscal Year 2022-2023 supplemental appropriation of $4.4 million from the City's opioid settlement proceeds.

The City of Detroit has pursued monetary compensation for damages suffered during the opioid crisis through large, multi-party litigation against numerous defendants for their roles in the crisis. As part of this litigation, City Council previously approved the City's participation in a national settlement agreement with Janssen Pharmaceuticals and several distributors of opioids pain medications. The City of Detroit expects to receive approximately $22 million in total through this settlement paid over 18 years. In January 2023, the City received its first payment of $4,417,534.97. Note this included an acceleration of a portion of future years' payments. The annual recurring payment will total $580,796 for FY24 through FY26 and then $1.2 million for FY27 through FY39.

We will use the settlement proceeds for targeted, high-impact programs to mitigate the harms of the opioids crisis and improve health outcomes for Detroit residents. Specifically, the City expects to use funding to expand community access to naloxone, a medication that reverses opioid overdoses; help people enter treatment by conducting outreach to high-risk populations and providing a warm handoff into care; and support long-term recovery by expanding recovery housing beds. These are eligible uses under the terms of the settlement agreement. We will include future years' settlement payments in the annual budget, which will allow the City to continue the program activities described above.

We respectfully request your approval of the attached resolution, with a waiver of reconsideration, to authorize this supplemental appropriation.

Best regards,
STEVEN WATSON
Deputy CFO / Budget Director

By Council Member Young, II:

Whereas, Section 17(1) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that a deviation from the original general appropriations act shall not be made without amending the general appropriations act; and

Whereas, Section 8-210 of the 2012 Detroit City Charter authorizes that if during the fiscal year the Mayor advises the City Council that there are available for appropriation revenues in excess of those estimated in the budget, the City Council may make supplemental appropriations for the year up to the amount of the excess; and

Whereas, The OCFO-Office of Budget, on behalf of the Mayor, has submitted a recommended supplemental appropriation to the Detroit City Council of the opioid settlement proceeds received to date for eligible opioid remediation purposes, as provided in this resolution.

Now, Therefore, Be It Resolved, That the Detroit City Council hereby approves amending the Fiscal Year 2022-2023 Budget by increasing Fund 3921 — Revenue Appropriation No. 21243 by $4,417,534.97 and Fund 3921 — Expenditure Appropriation No. 21243 by $4,417,534.97 for opioid remediation purposes; And Be It Finally

Resolved, That the Chief Financial Officer, or their designee, is hereby authorized and shall take all appropriate actions necessary to implement the foregoing provisions and actions authorized by this resolution.

Housing of Revitalization Department

May 19, 2023

Honorable City Council:

Re: Request to Accept and Appropriate the Choice Neighborhoods Implementation Supplemental Grant from the U.S. Department of Housing and Urban Development (HUD).

The U.S. Department of Housing and Urban Development ("HUD") has awarded the City of Detroit ("City"), through its Housing and Revitalization Department ("HRD"), a Choice Neighborhoods Implementation Supplemental Grant in the total amount of $5,000,000.00 ("CNI Grant"). The City must meet a five percent (5%) matching requirement that HRD intends to satisfy by investing a minimum of $250,000 in federal HOME Investment Partnership Program funds (Appropriation #10821) into the redevelopment of Clement Kern Gardens, the target housing site for the Choice Neighborhoods grant within the City's Greater Corktown Neighborhood, subject to applicable underwriting and environmental review requirements.

The objective of the CNI Supplemental Grant will be to support the transformation of a locally planned and defined geographic area that contains a severely distressed HUD-assisted site into a thriving mixed-income and mixed-use community. The CNI Supplemental Grant was awarded to the City specifically to address construction of mixed-income Choice Neighborhoods housing developments in the Greater Corktown Neighborhood, which is generally bounded by M-10, West Fort St, 8th Street, the Detroit River, Rosa Parks Boulevard, West Lafayette Boulevard, 16th Street, the former Canada Pacific Railway, I-75, Martin Luther King Jr Boulevard, and Grand River Avenue.

If approved, the $5,000,000.00 in CNI Supplemental Grant funding received from HUD will be accepted and appropriated by the City in Appropriation No. 20971.

We hereby request that your Honorable Body adopt the attached resolution to: (1) authorize the City to accept the CNI Supplemental Grant, (2) accept and appropriate all funding received from the CNI Supplemental Grant into Appropriation No. 20971 and (3) acknowledge and support the required City match for the CNI Supplemental Grant as administered by HRD.

Respectfully Submitted,
JULIE SCHNEIDER
Director
Housing and Revitalization
DONALD R. JOHNSON
Office of Budget

By Council President Pro Tem. Tate:

Whereas, The CNI Supplemental Grant requires a five percent (5%) matching requirement that HRD intends to satisfy by investing a minimum of $250,000 in federal HOME Investment Partnership Program funds (Appropriation #10821) into the redevelopment of Clement Kern Gardens, the target housing site for the Choice Neighborhoods grant within the City's Greater Corktown Neighborhood, subject to applicable underwriting and environmental review requirements.

Whereas, As a requirement to accepting the CNI Grant, the City is required to execute that certain Form HUD-1044 and that certain FY 2022 Choice Neighborhoods Implementation Supplemental Grant Agreement attached hereto in Exhibit A and incorporated herein (together the "CNI Grant Supplemental Agreement"); and

Resolved, Office of Budget Director has approved that the CNI Supplemental Grant funds be accepted and increase Appropriation No. 20971 by $5,000,000.00; and now therefore be it

EXHIBIT A
FY 2022 Choice Neighborhoods
SUPPLEMENTAL GRANT AGREEMENT

This grant agreement ("Grant Agreement") is made by and between the United States Department of Housing and Urban Development ("HUD") and the Lead and Co-Applicant (if applicable) (collectively, the "Grantee"). On April 11, 2023, HUD awarded the Grantee a Choice Neighborhoods Supplemental Grant ("Supplemental Grant"), for the construction of replacement housing in mixed-income developments related to a previously awarded Choice Neighborhoods Implementation Grant. To the greatest extent practicable, the Grantee's Choice Neighborhoods Implementation Grant Agreement and this Supplemental Grant Agreement will be read consistently. In the event of a conflict between these Agreements, HUD will, in its sole discretion, resolve the conflict.

HUD agrees, subject to the terms of this Grant Agreement, to provide Supplemental Grant funds to the Grantee, in the total amount listed on the form HUD-1044. The same entity that is/was designated with access to the Line of Credit Control System (LOCCS) for drawing down grant funds for the previously awarded Choice Neighborhoods Implementation Grant will be the designated entity to draw down funds for this grant.

The assistance that is the subject of this Grant Agreement is authorized by, and required to be used in accordance with, Section 24 of the U.S. Housing Act of 1937, the Consolidated Appropriations Act, 2021 (Public Law 116-260, approved December 27, 2020), and Consolidated Appropriations Act, 2022 (Public Law 117-103, enacted March 15, 2022) (collectively the "Choice Neighborhoods Authorization").

The Assistance Award/Amendment form (HUD-1044) and Exhibit A are incorporated into and subject to the terms of this Grant Agreement.

HUD and the Grantee hereby agree to be bound by the following terms and conditions of this Grant Agreement:

ARTICLE I. Grant Award Date and Period of Performance

The Grant Award Date is April 11, 2023. The Period of Performance Start Date is one day after the Grant Award Date (April 12, 2023) and the End Date is either three years from the date of the Grant Agreement execution or one year after the expiration date of the current Implementation Grant, whichever is later. Refer to the HUD-1044 form for the specific applicable date.

ARTICLE II. Choice Neighborhoods Requirements

The Grantee agrees to conduct all activities assisted with funds provided under this Grant Agreement in accordance with the following requirements, as such requirements now exist or as they may hereafter be amended (hereafter collectively referred to as the "Choice Neighborhoods Requirements"):

A. the U.S. Housing Act of 1937, as amended (the "1937 Act"), as applicable, and all implementing regulations;

B. the Consolidated Appropriations Act, 2021 (Public Law 116-260, approved December 27, 2020) and Consolidated Appropriations Act, 2022 (Public Law 117-103, enacted March 15, 2022);

C. the Fiscal Year (FY) 2022 Notice of Funding Opportunity for the Choice Neighborhoods Initiative Implementation Grants published via Grants.gov on September 30, 2022 (the "Choice Neighborhoods Implementation NOFO").

D. 31 U.S.C. § 1552. In accordance with this statute, all FY 2021 funding must be expended by September 30, 2028, and all FY 2022 funding must be expended by September 30, 2031. Any funds that are not expended by that date will be cancelled and recaptured by the Treasury, and thereafter will not be available for obligation or expenditure for any purpose. **However, as stated in the NOFO, the Grant Term for this Supplemental Grant is either three years from the date of the Grant Agreement execution or one year after the expiration date of the current Implementation Grant, whichever is later.**

E. In accordance with section 24(e)(2)(D) of the 1937 Act, Grantees must involve affected residents of the targeted public and/or assisted housing during the implementa-

tion process. Grantees are required to involve the affected public and/or assisted housing residents in the implementation of the Transformation Plan. This involvement must be continuous from the beginning of the planning process through the implementation and management of the grant. In addition to the statutory requirement, unless HUD indicates otherwise in writing, Grantees will be expected to undertake resident and community involvement in a manner and method at least as comprehensive as that described in your grant application.

F. all executive orders applicable to the activities being conducted with funds provided under this Grant Agreement;

G. the terms and requirements of this Grant Agreement, and any amendments or addenda thereto;

H. all other applicable Federal requirements, including, without limitation, those set forth the FY 2021 and FY 2022 appropriations acts and those set forth in Appendix A; and

I. all regulations, handbooks, notices, and policies applicable to the activities being conducted with funds provided under this Grant Agreement.

ARTICLE III. Program Overview

Goals of the Choice Neighborhoods Program. The Choice Neighborhoods Program employs a comprehensive approach to neighborhood transformation. The program transforms neighborhoods of concentrated poverty into mixed-income neighborhoods of long-term viability by revitalizing severely distressed public and/or assisted housing; improving access to economic opportunities; and investing and leveraging investments in well-functioning services, effective schools and education programs, public assets, public transportation, and improved access to jobs. Choice Neighborhoods ensures that current residents benefit from this transformation by preserving affordable housing in the neighborhood or providing the choice to move to affordable housing in another neighborhood of opportunity. The purpose of this grant is to implement a Transformation Plan that has been developed through a local planning process and furthers the goals of the Choice Neighborhoods Program. The core goals of Choice Neighborhoods are:

1. **Housing:** Replace severely distressed public and assisted housing with high-quality mixed-income housing that is well-managed and responsive to the needs of the surrounding neighborhood;

2. **People:** Improve outcomes of households living in the target housing related to employment and income, health, and children's education; and

3. **Neighborhood:** Create the conditions necessary for public and private reinvestment in distressed neighborhoods to offer the kinds of amenities and assets, including safety, good schools, and commercial activity, that are important to families' choices about their community.

ARTICLE IV. Choice Neighborhoods Transformation Plan

A. The Grantee's Choice Neighborhoods Transformation Plan ("Transformation Plan"), previously funded with a Choice Neighborhoods Implementation Grant, consists of a document or documents reviewed and approved by HUD through its grant management of the previously awarded Choice Neighborhoods Implementation Grant to govern the transformation of the neighborhood. This Supplemental Grant is intended to support continued progress in developing the Housing component of the Transformation Plan.

ARTICLE V. Supplemental Grant Activities and Requirements

A. Program Activities. Supplemental Grant funds may only be used for the construction of replacement housing in mixed-income developments as detailed in the Transformation Plan of the original Choice Neighborhoods Implementation Grant. All funding will be put in the Dwelling Structures Budget Line Item (BLI 1460) on the Choice Neighborhoods budget form. These grant funds may not be used for any other activity that is typically eligible with Choice Neighborhoods funding. In addition, Grantees must continue to demonstrate that this Supplemental Grant does not supplant planned uses with the original Implementation Grant funds. Accordingly, recipients of a Supplemental Grant will not be able to revise the budget of the original Implementation Grant to reduce the amount of funding budgeted for unit development (BLI 1460) nor increase the budget for other activities such as Administration (BLI 1410) and Fees & Costs (BLI 1430).

B. Program Requirements. Grantees must continue to comply with the Program Requirements stated in the Choice Neighborhoods Implementation NOFA/NOFO under which the Implementation Grant was previously awarded and the Implementation Grant Agreement.

ARTICLE VI. Changes to the Transformation Plan

A. Changes Requiring Prior HUD Approval. If the following activities in the application are to be modified or amended, the Grantee must request and obtain prior written HUD approval:

1. the Program Schedule. The Grantee must inform HUD immediately, in writing, of any problems, delays or adverse conditions that will materially impair the Grantee's ability to comply with the Program Schedule, and include a statement of action taken, or proposed to be taken, and any assistance needed to resolve the situation. HUD must approve any proposed changes to the Program Schedule that would modify any date or time period;

2. the form of program oversight or governance;
3. the Housing plan, including the number of housing units to be developed or rehabilitated in a phase (whether or not there is an associated budgetary revision requiring prior approval), the unit mix, the location of housing, the design, or any other changes that materially affect the Transformation Plan;
4. an extension of the Grant Term of this Supplemental Grant provided under this Grant Agreement, not to go beyond the statutory timeframes; and
5. changes in the entities or individuals, including any key partners specified in the Transformation Plan as having key responsibilities for implementing the Transformation Plan (or any component(s) of the Transformation Plan). Subgranting, subcontracting or otherwise obtaining the services of a third party to perform activities that are central to the purposes of the Transformation Plan will constitute such a change in entities or individuals.

B. Changes Requiring Grant Agreement Amendment. For the following types of revisions to the Transformation Plan, the Grantee must submit a written request to HUD and must receive HUD's written authorization prior to making any such changes:

1. change in the total dollar amount of the grant; and/or
2. change in the Development for which funds provided under this Grant Agreement are made available.

Upon HUD's written approval, the change will be implemented by the execution of an amendment to this Grant Agreement and shall consist of a revised Form HUD-1044 if there is a change in the dollar amount of the grant.

ARTICLE VII. Choice Neighborhoods Budget and Funding Requests

A. Budget. The Grantee must ensure that funds provided under this Grant Agreement are expended in accordance with the Choice Neighborhoods Requirements and a Choice Neighborhoods Budget. HUD will release these grant funds in LOCCS for drawdown in conjunction with HUD's final approval of a housing development proposal and related evidentiary documents.

B. Budget Form. Each budget submitted in accordance with paragraph (A) of this Article must be submitted on the Choice Neighborhoods Implementation Grants Budget Form (form HUD-53236). Part I must be signed and dated by the Lead Grantee, and Part II must include a detailed description of the uses of the funds. Grantees should also track their leveraged fund expenditures and maintain this information on file should HUD request it.

C Program Income. Program Income is defined in 2 CFR § 200.1, or successor regulation. If the Grantee receives program income:

1. During the Grant Term (prior to grant closeout), program income from repayment of loans and/or other sources:
   a. must be reinvested in the Development or neighborhood and used for Choice Neighborhoods eligible purposes, unless otherwise approved by HUD; and
   b. must be used for eligible activities authorized under this Grant Agreement before the Grantee may draw down additional cash payments from the Choice Neighborhoods Grant.
2. after grant closeout, program income from repayment of loans and/or other sources must be reinvested in the Development or neighborhood and used for Choice Neighborhoods eligible purposes. Before the grant is closed out, Grantee will provide a plan to HUD for how program income will be reinvested, in a form and substance that is acceptable to HUD. HUD will determine with the Grantee what the sources of program income are.

The language of this provision, article VI (C), shall survive grant close-out and termination of this Grant Agreement.

ARTICLE VIII. Project Drawdowns

A. LOCCS Payment System. Consistent with 2 CFR Part 200, the Grantee will request all drawdowns of Supplemental Grant funds through LOCCS, unless and until another payment system is designated by HUD. The Grantee will comply with all rules, guidelines, and notices established for Choice Neighborhoods under LOCCS, or any substitute system, in connection with any drawdown of Supplemental Grant funds. If HUD designates a different payment system, it will be based upon the provisions of 2 CFR § 200.305.

B. Drawdowns.

1. The Grantee may draw down Supplemental Grant funds for a Budget Line Item (BLI) in an amount up to 100 percent of the amount of that BLI that HUD has approved and made available for drawdown.
2. HUD approval is required for any request for funds in excess of 10 percent of the entire grant amount in a month. The Grantee must submit copies of the invoices supporting the drawdown amount to the Team Coordinator for review.

C. Drawdown Consequences of Default.

1. Withholding of Payments. HUD may withhold payments in accordance with 24 CFR § 200.339.
2. Grantee Representations. Each drawdown request by the Grantee will constitute, and be deemed to be, a representation that the Grantee is not in default under this

Grant Agreement (except as the Grantee previously may have disclosed to HUD in writing).

3. Overdue Reports. If the Grantee fails to file with HUD any quarterly report, HUD may elect to suspend draws under this Grant Agreement until the Grantee comes into compliance.

ARTICLE VIII. Matching and Leveraged Funds

A. Match Requirements. In accordance with section 24(c) of the 1937 Act (42 U.S.C. 1437v(c)), Grantee must have secured a match in the amount of 5 percent of the grant amount in cash or in-kind donations.

B. Match Donations and Leverage Resources. Grantee shall keep documentation on matching and leveraged funds during the term of this Grant Agreement and shall provide this documentation in a format acceptable to HUD upon request by HUD, until the close-out of this grant. The documentation should show that the funds are secured and the Grantee should keep records showing how those funds have been expended over time.

ARTICLE IX. Grantees, Subgrantees and Contractors

A. General Grantee Responsibilities.

1. Choice Neighborhoods Requirements. The Grantee shall ensure that any entity to which it makes grant funds available will comply with the Choice Neighborhoods Requirements.
2. Required Certifications.
   a. The Grantee must ensure that all subgrantees and contractors execute an original document in the form of Exhibit A to this Grant Agreement at the time the Grantee executes any contract with any subgrantee or contractor to provide goods or services under this Grant Agreement. The Grantee will retain the executed original certificate together with the executed contract documents.
   b. Grantees that are public housing authorities (PHA Grantee) must ensure that the requirements contained in the General Conditions for Non-Construction Form (Form 5370-C) are included in any solicitation in connection with non-construction contracts that will be made by the PHA Grantee and paid for with assistance under this Grant Agreement. Such conditions must also be included in any non-construction contract entered into by the PHA Grantee.
   c. Certifications required by 2 CFR 200.415.

B. Administrative Requirements for Grantees. Public housing authority, local government, Indian tribe, and non-profit entity grantees are subject to 2 CFR Part 200.

C. Administrative Requirements for Subgrantees and Related Agreements

1. Public housing authority, local government, Indian tribe, and non-profit subgrantees are subject to the requirements of 2 CFR Part 200.
2. Suspension and Debarment. Grantees are subject to the requirements of 2 CFR 200.214.
3. Grantee Responsibilities Regarding Subgrantees. Grantees will be responsible for:
   a. ensuring that subgrantees are aware of the requirements imposed upon them by Federal statutes, regulations, and this Grant Agreement;
   b. ensuring that all subgrant agreements include any clauses required by Federal statutes and their implementing regulations and executive orders; and
   c. monitoring subgrantees' performance to ensure compliance with this Grant Agreement.

D. Administrative Requirements for Contractors and Subcontractors and Related Contracts.

1. Grantee Responsibilities Regarding Contractors and Subcontractors. Grantees that are subject to 2 CFR Part 200 as described in (B) of this Article will be responsible for the following:
   a. Grantee shall obtain the services of a for-profit entity through a competitive procurement under 2 CFR Part 200. However, if the Grantee can demonstrate to HUD that the services to be provided by the for-profit entity can be obtained only from that one source, the Grantee may request HUD approval to select the entity under a sole-source procurement in accordance with 2 CFR 200.230(f).
   b. Consultant Services. Grantees shall obtain consultant services provided under an independent contractor relationship pursuant to 2 CFR Part 200.
2. Trigger for the Submission of Contracts. Contract documents must be submitted to HUD for prior approval if required by 2 CFR Part 200, Subpart D, or if requested by HUD. Any modification of such contracts is also subject to HUD's written approval before execution.
3. Debarred or Suspended Parties. Grantees must comply with 2 CFR 200.214.

ARTICLE X. No Third-Party Rights

The Grantee and HUD are the sole parties to this Grant Agreement and do not intend to create any third-party beneficiaries to this Grant Agreement. Nothing in this Grant Agreement may be construed as conferring the status of third-party beneficiary upon the residents; and in no event shall any entity other than the Grantee have direct rights to the Supplemental Grant funds provided for under this Grant Agreement.

ARTICLE XI. Conflict of Interest

A. Prohibition. The Grantee shall comply with the conflict of interest requirements in 2 CFR 200.318. No person who is an employee, agent, officer, or elected or appointed official of the Grantee or member of his immediate family and who exercises any functions or responsibilities with respect to activities assisted under this Supplemental Grant may have a direct interest in any contract, subcontract, or agreement with respect thereto, or the proceeds thereunder.

B. HUD-Approved Exception.

1. Standard. HUD may grant an exception to the prohibition in paragraph (A) of this Article on a case-by-case basis when it determines that such an exception will serve to further the purposes of Choice Neighborhoods and its effective and efficient administration.
2. Procedure. HUD will consider granting a regulatory waiver only after the Grantee has provided a written request which provides a disclosure of the nature of the conflict, accompanied by:
   a. an assurance that there has been public disclosure of the conflict;
   b. a description of how the public disclosure was made; and
   c. an opinion of the Grantee's attorney that the interest for which the exception is sought does not violate State or local laws.
3. Consideration of Relevant Factors. In determining whether to grant a requested exception under paragraph (B)(2) of this Article, HUD will consider the cumulative effect of the following factors, where applicable:
   a. whether the exception would provide a significant cost benefit or an essential degree of expertise to the Transformation Plan that would otherwise not be available;
   b. whether an opportunity was provided for open competitive bidding or negotiation;
   c. whether the affected person is a member of a group or class intended to be the beneficiaries of the Transformation Plan and the exception will permit such person to receive generally the same interests or benefits that are being made available or provided to the group or class;
   d. whether the affected person has withdrawn from his or her functions or responsibilities, or the decision-making process, with respect to the specific activity in question;
   e. whether the interest or benefit was present before the affected person was in a position as described in paragraph (A) of this Article;
   f. whether undue hardship will result either to the Grantee or the affected person when weighed against the public interest served by avoiding the prohibited conflict; and
   g. any other relevant considerations.

ARTICLE XII. Reporting Requirements

A. Quarterly Report.

1. The Grantee will continue to submit to HUD a Quarterly Report as prescribed by HUD in accordance with the schedule established by HUD, presently via the CN Inform System.
2. Failure to submit a timely Quarterly Report to HUD will result in a suspension of Supplemental Grant funds in LOCCS until such time as the report is received and approved by HUD, and/or any other default remedy authorized by Article XIII.

B. Obligations and Expenditures. The Grantee must enter cumulative obligation and expenditure data into LOCCS by the due dates established by HUD, whether or not there has been any change in the cumulative amounts since the end of the last quarter.

C. End of Grant Report. Grantees are required to submit a report at the end of this Supplemental Grant to append to the end of grant report provided at the termination of the original Choice Neighborhoods Implementation Grant. The final report must be submitted to HUD within 120 days of the end of the Grant Term.

D. Program Income Reporting. As necessary, Grantees will amend the Program Income Report developed at the end of the original Choice Neighborhoods Implementation Grant to include this Supplemental Grant. Until all housing units in the Housing Plan are complete, grantees must submit an annual Program Income Report to HUD by September 30 of each year identifying all sources and uses of Program Income. Upon completion of all housing units, the Grantee will no longer be required to submit a Program Income Report; however, for the remainder of the 15-year program income period, HUD reserves the right to request an accounting of Program Income funds.

E. Additional Information Requests. Subject to paragraph (D) of this Article, the Grantee will comply with all other reporting requirements from time to time established by HUD, in its sole discretion, in connection with the Choice Neighborhoods Program. The Grantee will:

1. fully cooperate with all reasonable information gathering requests made by HUD or contractors of HUD in the course of authorized evaluations of the Choice Neighborhoods Program; and

2. submit a final report when the Transformation Plan has been completed that details the number of units produced, the status of resident outcomes, and any other metrics that HUD prescribes.

F. Additional Requirements. The Grantee agrees to comply with all other terms and conditions HUD may establish to administer, monitor, or evaluate the Choice Neighborhoods Program in an effective and efficient manner. Notwithstanding the foregoing, however, except as provided in Article XIII, HUD hereafter will not establish any additional terms and conditions without:

1. consideration of the burden imposed on the Grantee by such conditions or requirements;
2. consideration of the availability of less burdensome conditions or requirements; and
3. in the case of a term or condition applicable solely to the Grantee, consulting in advance with the Grantee.

ARTICLE XIII. Unsatisfactory Performance/Default

A. In accordance with Section 24(i) of the 1937 Act, if the Grantee defaults under this Grant Agreement, HUD may withdraw any unobligated grant amounts and may pursue other actions as described in this Article. HUD shall redistribute any withdrawn amounts to one or more other applicants eligible for Choice Neighborhoods assistance or to one or more other entities capable of proceeding expeditiously in the same locality in implementing the Transformation Plan of the original Grantee, subject to provisions of the appropriations law. This section applies to all Grantees regardless of their status as a government, PHA, for-profit, or other entity.

B. Default. Each of the following events or occurrences, to the extent it constitutes a material breach or occurrence, may constitute a default by the Grantee under this Grant Agreement, as determined by HUD in its sole discretion:

1. use of funds provided under this Grant Agreement for any purpose, in any manner or at any time, other than as authorized by this Grant Agreement;
2. failure to comply with the Choice Neighborhoods Requirements or any other Federal, State, or local laws, regulations or requirements applicable in creating the Transformation Plan;
3. failure to perform any obligation, or otherwise fail to proceed in a manner consistent with the Transformation Plan, (including, without limitation, failure to accomplish an activity by the date specified in the Program Schedule);
4. any material misrepresentation in any of the required submissions (e.g., the mixed-finance development proposal); or
5. failure to comply with, or any material breach of, any other requirements, conditions or terms of this Grant Agreement.

C. Notice of Default and Action(s) to Cure.

1. General. HUD will give the Grantee written notice of any default. The notice will give the Grantee the opportunity to cure such default within 30 days of the date of the notice, or to demonstrate within this time period, by submitting substantial evidence satisfactory to HUD, that it is not in default. If the default cannot be cured within the 30-day period, the Grantee will demonstrate, to HUD's satisfaction, that the Grantee has taken actions necessary to cure the default and that the default is curable within 90 days from the date of the default notice. Additionally, the Grantee must agree to conduct such cure diligently and to complete the cure within the 90-day period.
2. Immediate Default. Notwithstanding the provisions of paragraph (C)(1) of this Article, HUD in its sole discretion may place the Grantee into immediate default for not being in compliance with its Program Schedule or for non-compliance with Choice Neighborhoods requirements once written notification of default has been provided to the Grantee. At that time, HUD may immediately begin imposing consequences of default, including specifically the suspension of draws of the Choice Neighborhoods grant.
3. Imminent Threat. Notwithstanding the provisions of subparagraph (C)(1) of this Article concerning the opportunity to cure defaults, if HUD reasonably determines that there is an imminent threat that the Grantee will expend additional Supplemental Grant funds in violation of the provisions of this Grant Agreement, HUD may implement the remedial action provided for under subparagraph (C)(4)(i) of this Article to prevent any such unauthorized expenditure until such time as the Grantee has complied with the cure provisions set forth above. HUD will implement such remedial action by written notice set forth either in the notice of default given under paragraph (C)(1) of this Article or by subsequent written notice to the Grantee. An imminent threat is not an immediate default.
4. Consequences of Default. If the Grantee fails to cure all defaults specified in the notice of default within the time periods set forth in paragraph (C)(1) of this Article, or fails to diligently pursue or complete any cure as provided in paragraph (C)(1), HUD may take any of the following remedial actions, upon written notice to the Grantee:

a. require a Grantee in default to provide evidence to HUD of acceptable performance over such period of time as specified by HUD and to obtain written approval from HUD to proceed to the next phase of activities;
b. require additional, more detailed financial reports;
c. require additional project monitoring;
d. require the Grantee (or subgrantee) to obtain technical or management assistance;
e. establishing additional prior approvals;
f. require the Grantee, within a time period established by HUD, to prepare a revised Program Schedule, obtain HUD's approval thereto, and follow such revised Program Schedule to complete the activities under the Grant Agreement;
g. require the Grantee, within a time period established by HUD, to revise any activity under the Grant Agreement in order to successfully complete the activities under the Grant Agreement in a manner satisfactory to HUD, including, without limitation, exclusion or revision of affected activities, revision of the Choice Neighborhoods Budget as necessary, and substitution of other eligible activities;
h. require submission of additional documentation before any additional request for funds will be approved;
i. temporarily suspend the Grantee's authority to draw down Supplemental Grant funds for affected activities, or at HUD's sole discretion for all activities, pending action to cure the defaults;
j. disallow use of Supplemental Grant funds for all or part of the cost of the activity or action not in compliance;
k. recover amounts determined by HUD to have been improperly expended, including any property obtained by the Grantee with such grant funds;
l. require reimbursement by the Grantee for Supplemental Grant funds determined by HUD to have been improperly expended; and/or
m. make arrangements satisfactory to HUD, in its sole discretion, for use of an entity other than the Grantee to conduct activities assisted under the Grant Agreement, including requiring the Grantee to assign any outstanding contracts obligating grant funds to another entity.

5. Additional Enforcement Actions. If HUD determines that the remedial actions taken by HUD under paragraph (C)(4) of this Article have not been effective in curing the default, or if the Grantee has not complied with the requirements imposed by HUD under paragraph (C)(4) and has not otherwise cured the default, or if HUD exercises its discretion under subparagraph (C)(2) of this Article to institute any of the following actions, HUD may take any of the following remedial or enforcement actions (in addition to any of the remedies permitted under paragraph (C) of this Article upon written notice to the Grantee):
   a. reduce the Choice Neighborhoods Grant in the amount affected by the default;
   b. terminate the Choice Neighborhoods Grant as to all further activities and initiate closeout procedures;
   c. recapture any Supplemental Grant funds not obligated by the Grantee.
      i. If the basis for the Grantee's default is its failure to comply with the established time periods, HUD shall, in accordance with section 24(i) of the 1937 Act, and unless otherwise approved by HUD under paragraph (C)(3) of this Article, recapture any Supplemental Grant funds not obligated by the Grantee.
      ii. If the Grantee fails to comply with the established time periods, HUD may take into account whether factors beyond the Grantee's control are the cause of the delay.
   d. take action against the Grantee under 24 CFR part 24 and Executive Order 12549 with respect to future HUD or Federal grant awards; and
   e. take any other available legal or equitable remedial action, including, but not limited to, any remedial actions available under a PHA's ACC and/or premised on HUD's interest in the housing development established in the relevant Declaration of Trust or Declaration of Restrictive Covenants or housing assistance contract, as applicable.
6. Delinquent Federal Debts. Consistent with the purposes and intent of 31 U.S.C. 3720B and 28 U.S.C. 3201(e), Grantees with an outstanding federal debt must provide to HUD a negotiated repayment schedule which is not delinquent or have made other arrangements satisfactory to HUD. If arrangements satisfactory to HUD cannot be completed within 90 days of notification of selection, HUD will not make an award of funds to the Grantee, and will offer the award to the next eligible Grantee. Applicants selected for funding, or awarded funds, must report to HUD changes in status of current agreements covering federal debt. If a previously agreed-upon payment schedule has not been adhered to or a new agreement with the federal agency to which the debt is owed has not been signed, the Grantee will be considered to be in default under this Agreement.

ARTICLE XIV. Project Close-Out

A. Grants will be closed out in accordance with 2 CFR 200.344, or successor regulation, and as detailed in the Choice Neighborhoods closeout guidance. The program specific guidance is posted to the Choice Neighborhoods website. The closeout process includes the following steps:

1. Submission of closeout materials. Within 120 days after the Period of Performance End Date, Grantee must submit closeout materials, including a termination of disbursements letter, the final Choice Neighborhoods budget, and the Actual Choice Neighborhoods Cost Certificate (ACNCC) (form HUD-50163).
2. HUD Review of Preliminary Closeout Materials. HUD will review Preliminary Closeout Materials to confirm that:
   i. The amounts on the final Choice Neighborhoods Budget and ACNCC match as to funds approved, obligated, and expended.
   ii. The amount of funds approved and disbursed on the ACNCC matches HUD records in LOCCS.
   iii. If HUD disbursed more funds than the Grantee expended, the Grantee will immediately remit to HUD the excess funds, without waiting for completion of the final audit.
3. Final Audit. Following HUD approval of the Preliminary Closeout Materials, the Grantee must conduct a final audit of the Planning Grant in accordance with the requirements of 2 CFR Part 200, Subpart F. and forward the audit to HUD for approval.
4. Final Closeout. Upon receipt of the final audit, the designated HUD official will execute the ACNCC. Any funds remaining in the Planning Grant will be recaptured by HUD. HUD will enter a Post-Audit Date into LOCCS and the grant will be closed.

ARTICLE XVI. Funding Obligation Date, Date of Funding Availability and Effective Date

The date of obligation of the funding to the Grantee under this Grant Agreement is the date HUD signed the form HUD-1044. The effective date of the Grant Agreement and date of fund availability is the date that HUD signs the signature page of the Grant Agreement.

HUD encourages its recipients to adopt the goals and objectives of Section 508 by ensuring comparable access whenever EIT is used. Honorable City Council:

Re: Property Sale — 6004 and 6010 Mount Elliott, Detroit, MI 48211.

The City of Detroit, Planning and Development Department ("P&DD") has received an offer from Mt. Elliott Properties, L.L.C. ("Purchaser"), a Michigan limited liability company, to purchase certain City-owned real property at 6004 and 6010 Mount Elliott (the "Properties"). The Properties will be conveyed to Purchaser for the purchase price of Eleven Thousand and 00/100 Dollars ($11,000.00).

Purchaser is the owner of the adjacent gas station located at 6036 Mt. Elliott, which they have owned and operated for over 20 years. They wish to acquire the city-owned parcels, which have been undeveloped for over 30 years, to renovate and expand the existing gas station convenience store. The Properties are within an M4 zoning district (Intensive Industrial District). As indicated by Sec. 61-12-183 of the Detroit City Code, Purchaser's proposed use of the Properties is by-right, and will be consistent with the allowable uses for which the Property is zoned.

We request that your Honorable Body adopt the attached resolution to authorize the Director of P&DD to execute a quit claim deed and such other documents as may be necessary or convenient to effectuate a transfer of the Properties by the City to Mt. Elliott Properties, L.L.C.

Respectfully submitted,

Resolved, That the Director of the Planning and Development Department, or his authorized designee, is authorized to execute a quit claim deed and other such documents necessary or convenient to effect transfer of the Properties to Purchaser consistent with this resolution; and be it further

Resolved, That the following Property Sales Services Fees be paid from the sale proceeds pursuant to the City's Property Management Agreement with the Detroit Building Authority ("DBA"): 1) Two Thousand Five Hundred and 00/100 Dollars ($2,500.00) shall be paid to the DBA from the sale proceeds, 2) Five Hundred Fifty-Five and 00/100 Dollars ($555.00) shall be paid to the DBA's real estate brokerage firm from the sale proceeds and 3) customary closing costs up to Two Hundred and 00/100 Dollars ($200.00) as well as any taxes and assessments which have become a lien on the Properties; and be it further

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

City Planning Commission

April 12, 2023

Honorable City Council:

Re: Zoning Ordinance text amendment, Chapter 50 of the 2019 Detroit City Code to modify minimum spacing requirements and applicability for designated marijuana consumption establishments, marijuana microbusinesses, and marijuana retail/ provisioning facilities, to add administrative adjustments for medical marijuana facility and adult-use marijuana establishment spacing and locational requirements, to add specific use standards for designated marijuana consumption establishments, to modify the temporary use prohibition for temporary marijuana events and temporary designated marijuana consumption establishments, and to delete the duplication of requirements for medical marijuana facilities and adult-use marijuana establishments contained in Article III, Division 12. **(RECOMMEND APPROVAL)**

REPORT SUMMARY

Purpose: Primarily to slightly increase the amount of available property citywide that would be eligible for limited license marijuana uses by modifying minimum spacing requirements for marijuana uses.

Background: The current set of marijuana zoning regulations that would be subject to this amendment were adopted by City Council in March 2021. In April 2022, City Council adopted new marijuana business licensing regulations that are separate but work alongside the zoning regulations proposed to be amended. No amendments to business licensing regulations are proposed here.

Equity Participation: Both a city business license and a state operating license are required to legally operate any marijuana facility or establishment within the city. Numerical caps on limited licenses have been established by the city for retail and consumption-related marijuana uses. Limited license applicants are incentivized to address the optional Social Equity Scoring Criteria, established by the licensing regulations, to score the maximum number of total points available for their license application and ultimate ranking against other applicants pursuing the limited number of licenses.

CPC Recommendation: On September 29, 2022, CPC voted to recommend approval of the proposed text amendment as presented in the draft text amendment ordinance dated September 12, 2022. The draft text amendment ordinance approved as to form by Corporation Counsel is dated April 6, 2023.

Airport Department
Administration

May 17, 2023

Honorable City Council:

Re: Approval and Authorization to Acquire Real Property from Mt. Olivet Cemetery Property: (part of) 17100 Van Dyke.

The Detroit City Airport hereby requests approval and authorization from your Honorable Body to acquire (part of) 17100 Van Dyke (the "Property") from Mt. Olivet Cemetery, a Michigan Domestic Nonprofit Corporation. In accordance with the requirements of Chapter 2, Article 6, Section 2 of the 2019 Detroit City Code, City Council is required to approve any gift, grant, devise or bequest of real or personal property to be used for any public purpose.

The Property is located adjacent to that portion of the Detroit City Airport lying south of recently vacated East McNichols Rd., between Conner Street and French Road. It is zoned R1 (Single Family Residential) and consists of approximately 87,565 square feet, or 2.01 acres.

The acquisition of the Property is necessary as part of expansion and runway improvements required for the Detroit City Airport. Any uses of the Property by the Detroit City Airport shall be consistent with the allowable uses for which the Property is zoned. The Detroit City Airport shall obtain any zoning compatibility, zoning change or special land use authorizations required.

The purchase price for the Property will be One Hundred Forty Thousand and 00/100 Dollars ($140,000.00); the price was established based on comparable sales in the area and through negotiation. The purchase price will be paid for using funds previously appropriated to the Detroit City Airport for acquisition purposes.

We, therefore, respectfully request that your Honorable Body approve the acquisition of the Property from Mt. Olivet Cemetery, a Michigan Domestic Nonprofit Corporation, for the amount of One Hundred Forty Thousand and 00/100 Dollars ($140,000.00), by adopting the attached resolution with a Waiver of Reconsideration.

Respectfully submitted,
JASON WATT
Director
Detroit City Airport

By Council President Pro Tem. Tate:

Whereas, The City of Detroit ("City") through the City of Detroit Airport ("Airport") wishes to purchase and acquire that certain property, (part of) 17100 Van Dyke, located within the City of Detroit, MI, as more particularly described in the attached Exhibit A ("the Property"), from Mt. Olivet Cemetery, a Michigan Domestic Nonprofit Corporation, for the sum of One Hundred Forty Thousand and 00/100 Dollars ($140,000.00); and

Whereas, Mt. Olivet Cemetery owns the adjoining land and wishes to sell approximately 2.01 acres to be used by the City of Detroit Airport, generally a portion of vacated street, what was the northern 1/3 of East McNichols Road between Conner Street and French Road.

Whereas, In accordance with Chapter 2, Article 6, Section 3 of the 2019 Detroit City Code, except as otherwise provided in the 2019 Detroit City Code, the City of Detroit is required to receive an environmental inquiry and, where necessary, an environmental assessment prior to the purchase of real property; and

Whereas, The Building Safety Engineering and Environmental Department ("BSEED") has reviewed the environmental condition of the Property; and

Whereas, In accordance with Chapter 2, Article 6, Section 3 of the 2019 Detroit City Code, the Building and Safety Engi-

neering and Environmental Department ("BSEED"), conducted an appropriate environmental inquiry into the site (the "Environmental Assessment") in accordance with the requirements of the City Code; and found that, despite the recognized environmental conditions related to current past industrial uses of nearby and adjoining property, and since the City previously operated on the site there would be no increase in the City's liability by acquiring the vacated roadway under the environmental laws of the State of Michigan or the United States; and acquisition of the site is necessary to promote the health, safety and welfare of the public and such acquisition does not pose an unacceptable risk based upon the proposed use of the site; City Council finds and declares that the preservation of the public health, safety and welfare or good outweighs the cost of the environmental inquiry and assessment and, therefore, waives the requirement that the seller bear the cost of the environmental inquiry and assessment; and

Whereas, This Honorable Body hereby finds and declares that the acquisition of the Expansion Parcels is necessary to preserve or to promote the public health, safety, or welfare.

Now Therefore Be It

Resolved, That City Council hereby approves acquisition of the Property from Mt. Olivet Cemetery and payment to Mt. Olivet Cemetery of One Hundred Forty Thousand and 00/100 Dollars ($140,000.00) as the purchase price of the property, and payment of customary closing costs from funds appropriated to the Detroit City Airport for acquisition purposes, Appropriation No. 13717, and be it further

Resolved, That in accordance with the foregoing communication, the Director of the Detroit City Airport, or his/her authorized designee, be and is hereby authorized to (1) accept and record a deed to the Property, more particularly described in the attached Exhibit A, and such other documents as may be necessary to effectuate the transfer of the Property from Mt. Olivet Cemetery, a Michigan Domestic Nonprofit Corporation to the City of Detroit, for the amount of One Hundred Forty Thousand and 00/100 Dollars ($140,000.00) and (2) to pay the cost of any owner's policy of title insurance, record any deeds granting title to the Property to the City of Detroit, and such other necessary and/or customary closing costs payable in connection with the acquisition of the Property; and be it further

Resolved, That the following Property Services Fees be paid to the Detroit Building Authority ("DBA") for services rendered in connection with this acquisition, pursuant to the City's Property Management Agreement with the DBA 1) Eight Thousand Four Hundred and 00/100 Dollars ($8,400.00) shall be paid to the DBA, 2) Seven Thousand and 00/100 Dollars ($7,000.00) shall be paid to the DBA's real estate brokerage firm; and be it further

Resolved, That the Finance Director be and is hereby authorized to increase the necessary accounts and honor expenditures and vouchers, when presented in accordance with the foregoing communication and standard City procedures; and be it further

Resolved, That upon acquisition of the Property from Mt. Olivet Cemetery, the Property shall be placed under the jurisdiction of Detroit City Airport for use, operation and further development; and

Be It Finally Resolved, That the Director of the Detroit City Airport, or his/her authorized designee, be and is hereby authorized to execute any required instruments to make or incorporate technical amendments or changes to the deed and such other documents as may be necessary to effectuate the transfer (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Properties, provided that the changes do no materially alter the substance or terms of the transfer.

A waiver of reconsideration is requested.

By Council Member Benson:

AN EMERGENCY ORDINANCE to amend Chapter 29, *Minors,* Article III, *Regulation of Minors in Public Places and Adult Responsibility for Violations,* Division 2, *Curfew,* of the 2019 Detroit City Code by adding Sections 29-3-14 and 29-3-15 to provide for a superseding curfew for all minors beginning at 8:00 p.m. on Monday, June 26, 2023 (being the scheduled date for the Detroit Annual Fireworks Display, or any rescheduled date) and continuing until 6:00 a.m. the following morning, applicable only in the area within and bounded by the Detroit River, Third Street, the Lodge Freeway (M-10), the Fisher Freeway (I-75), the extension of the Fisher Freeway (I-75) easterly to Gratiot Avenue, Gratiot Avenue, Vernor Highway, Chene Street, Atwater Street, and the Aretha Franklin Amphitheater.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. DECLARATION OF EMERGENCY:

The Detroit City Council, upon receipt of testimony and evidence from the Detroit Police Department and others, and after public hearing, upon due consideration makes the following findings:

(A) On the day of and especially the evening of the Detroit Annual Fireworks Display that takes place on the Detroit River there have been numerous incidents of harassment, nuisance, vandalism, and violence committed by persons at the viewing, parking, and public places of the City before, during, and after the fireworks display;

(B) These acts of harassment, nuisance, vandalism, and violence have endangered the peace, health, safety, and welfare of the People of the City of Detroit, the many persons traveling from outside the City limits to attend this annual event, and in particular unsupervised minors before and during the City's regular curfew hours for minors and;

(C) There exist public peace, health, safety, and welfare needs for effectively governing the conduct of such minors as it pertains to harassment, nuisance, vandalism, and violence for the purpose of alleviating and eliminating these problems, whether committed against minors or committed by minors;

(D) Due to law enforcement considerations and logistics concerns, a localized curfew is necessary to enhance the public peace, health, safety, and welfare for the many thousands of minors and adults who attend this annual event;

(E) Due to the fact that spectators begin to gather in the viewing areas in advance of the commencement of the Detroit Annual Fireworks Display on the day of the event, the regular curfew hours for minors provided for in the City's Curfew Ordinance, codified in Chapter 29, Article III of the Detroit City Code, are not sufficient to alleviate and curtail criminal activity involving unsupervised minors in the fireworks display viewing areas;

(F) The peace, health, safety, and welfare of the community-at-large and particularly that of minors will benefit from additional curfew controls for minors in a localized area of the City during the Detroit Annual Fireworks Display;

(G) The curfew for minors in the City provides for reasonable exceptions during the specified curfew period to allow for minors accompanied by their parent, legal guardian, or responsible adult, for minors at or traveling to and from places of employment, education and training facilities, and sponsored activities under adult supervision, for minors involved in emergencies or constitutionally protected activities such as interstate travel or freedom of speech, assembly or exercise of religion, for minors on the sidewalks in front of their homes, and for minors sent on errands by their parents if the minors have proper written permission.

Section 2. Chapter 29, *Minors,* Article III, *Regulation of Minors in Public Places and Adult Responsibility for Violations,* Division 2, *Curfew,* of the 2019 Detroit City Code is amended by adding Sections 29-3-14 and 29-3-15, to read as follows:

CHAPTER 29. MINORS
ARTICLE III. REGULATION OF MINORS IN PUBLIC PLACES AND ADULT RESPONSIBILITY FOR VIOLATIONS
DIVISION 2. CURFEW

Traffic Sign Mechanic	71-21-32	$31,200	$35,452	$32,200	$38,800	8240

1. To include the attached pay range adjustments.

Request: The above recommendation is at the request of the Department of Transportation, Municipal Parking, and General Services departments.

Rationale: The need for Vehicle Operators has been widespread across the entire City of Detroit. The divisions have found it increasingly difficult to fully staff their groups, and competition for talent is at an all-time high due to a lack of trained, qualified candidates. The Department of Transportation, Municipal Parking, and General Services departments seek a competitive wage so that they can attract, develop, and retain talent for their operations.

As a result of the issues noted above, Human Resources Classification and Compensation was asked to evaluate Vehicle Operator and related classifications. The evaluations were conducted by completing a market study using data from external sources for comparable positions. The results indicate that 6 of the 10 classifications have pay ranges that are not competitive. The remaining roles have pay ranges that must be adjusted to reflect hiring with consideration to the challenges mentioned above.

The proposed pay ranges are based on the City of Detroit's ability to fund the increases and are subject to City Council approval.

DENISE STARR

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

UNFINISHED BUSINESS

City Planning Commission

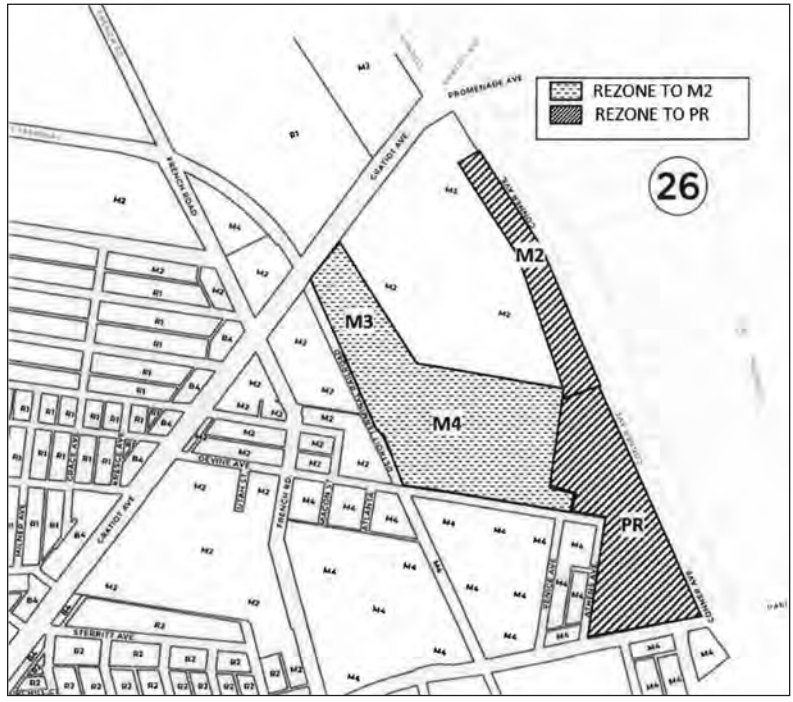
March 30, 2023

Honorable City Council:

Re: Request of NP Conner Avenue Industrial, LLC and the City Planning Commission to amend Article XVII, Section 50-17-27, District Map No. 25 of the 2019 Detroit City Code, Chapter 50, Zoning, to show M2 (Restricted Industrial District) and PR (Parks and Recreation District) zoning classifications where M3 (General Industrial District) and M4 (Intensive Industrial District) zoning classifications are currently shown on approximately 63 acres generally bounded by Gratiot Ave. to the northwest, Conner St. to the east, and Harper Ave. to the south, and also known by the addresses, 10600 Gratiot Ave. and 9701 Conner St. **(RECOMMEND APPROVAL — REQUESTING THE SETTING OF A PUBLIC HEARING)**

The City Planning Commission (CPC) has received a request from NP Conner Avenue Industrial, LLC to amend Article XVII, Section 50-17-27, District Map No. 25 of the 2019 Detroit City Code, Chapter 50, Zoning, to show M2 (Restricted Industrial District) and PR (Parks and Recreation District) zoning classifications where M3 (General Industrial District) and M4 (Intensive Industrial District) zoning classifications are currently shown on approximately 63 acres generally bounded by Gratiot Ave. to the northwest, Conner St. to the east, and Harper Ave. to the south. The addresses of the proposed rezoning are 10600 Gratiot Ave. and 9701 Conner St.

The proposed downzoning is being requested to fulfill commitments made by NorthPoint Development, who are in the process of redeveloping the site of the former Cadillac Stamping Plant. The Class A light industrial/warehousing facility will contain about 682,000 sq. ft. of useable space. The total investment for the project is approximately $48 million and includes $18 million in city and state brownfield remediation incentives. The site is estimated to have created over 100 construction jobs during the construction phase, which is now complete, and is expected to create 450 permanent jobs after a tenant has been identified.



BACKGROUND AND REQUEST

The subject property is located in City Council District 3 and, again, is the former

site of the Cadillac Stamping Plant. The original facility was built in 1925 for the Hudson Motor Company. In 1956, Cadillac bought the plant to produce body panels for their vehicles. The facility remained in use as an auto manufacturing facility until the 1980s. It remained vacant until 1993, when the Ivan Doverspike Company began to use it for their operations, including storage and dismantling of machinery. By 2015 most of the plant was abandoned and left vacant. In March of 2021, the former Cadillac Stamping Plant was demolished to allow for a new industrial facility to be built by NorthPoint Development.

Conner Creek Greenway

While exploring the proposed downzoning location, CPC staff identified 9700 Conner Street, a Detroit Parks & Recreation owned parcel with M4 (Intensive Industrial) zoning classification, as a potential opportunity to downzone to PR (Parks & Recreation). This site is the location of the Conner Creek Greenway, a recreational path that runs along Conner Street from Harper Avenue to Gratiot Avenue. CPC staff met with the Parks and Recreation staff to discuss downzoning the parcel from M4 to PR and their office expressed support.

Proposed zoning map with proposed rezoning shaded

Community Input

Northpoint Development held 4 community meetings on September 1, October 22 and December 15 of 2020 as well as January 6, 2021. In these meetings the developer presented the overview of the project including site plans to the community and received feedback which they followed up on. The developers responded to concerns about truck traffic and which street would be used as an access point. They revised their site plan in response to the comments on traffic and changed the primary entrance/exit to Devine Avenue and reserve the Conner Street access point for emergency vehicles.

PUBLIC HEARING RESULTS

On October 20, 2022, the City Planning Commission held a public hearing on this downzoning request. During the hearing, two members of the public spoke--one in support of the downzoning of the greenway, and the other with concerns about the downzoning. The member of the public who spoke in support of the downzoning of the greenway stated that the greenway acts as a buffer between the neighborhood across Conner St. and the industrial uses in the area. The legal counsel for PVS Chemicals, the owners of the land adjacent to Conner Creek Greenway spoke about concerns the business has with the green-

way parcel being rezoned to the PR zoning classification. They stated that a downzoning and subsequent increase in use of the greenway could be used to challenge the operations of their business, which has existed in the area for over 70 years.

PLANNING CONSIDERATIONS

Current Zoning

M2 — Restricted Industrial District

The M2 Restricted Industrial District is designed for a wide range of industrial and related uses which can function with a minimum of undesirable effects. Industrial establishments of this type provide a buffer between residential districts and intensive industrial districts. New residential construction is excluded from this district with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses. These requirements are both to protect residences from an undesirable environment and to ensure reservation of adequate areas for industrial development.

M3 — General Industrial District

The M3 General Industrial District is composed of property so situated as to be suitable for industrial development, but where the modes of operation of the industry may affect any nearby residential uses. The purpose of this district is to permit the normal operation of a majority of industries, subject only to those regulations needed to control congestion and to protect nearby residential districts. No new residential construction is permitted in this district with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses. These requirements are to protect residences from an undesirable environment and to ensure reservation of adequate areas for industrial development.

M4 — Intensive Industrial District

The M4 Intensive Industrial District will permit uses which are usually objectionable and, therefore, the district is rarely, if ever, located adjacent to residential districts. A broad range of uses is permitted in this district. New residences are prohibited with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses. These requirements are to protect residences from an undesirable environment and to ensure reservation of adequate areas for industrial development.

Proposed Zoning

M2 — Restricted Industrial District

The M2 Restricted Industrial District is designed for a wide range of industrial and related uses which can function with a minimum of undesirable effects. Industrial establishments of this type provide a buffer between residential districts and intensive industrial districts. New residential construction is excluded from this district with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses. These requirements are both to protect residences from an undesirable environment and to ensure reservation of adequate areas for industrial development.

PR — Parks and Recreation

The intent of the PR Parks and Recreation District is to retain, insofar as is practicable and desirable, publicly owned lands in excess of four acres in size already improved for or intended to be improved for recreational uses and/or to be preserved as open space. The restrictions of this classification are intended to encourage preservation of these lands and to permit development in keeping with the natural amenities of these areas. In addition to those uses allowed by right, commercial recreational facilities may be permitted upon approval of the City Council.

Surrounding Zoning and Land Use

The zoning classification and land uses surrounding the subject area are as follows:

North: M2 (Restricted Industrial) — Commercial Retail
East: B4 (General Business) — Commercial Retail
South: M4 (Intensive Industrial) — Manufacturing
West: M2 (Restricted Industrial) — Warehousing

Zoning Ordinance Approval Criteria

Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. Following are the relevant criteria with CPC staff's analysis in italics:

• Whether the proposed amendment will protect the health, safety, and general welfare of the public. *The proposed downzoning of these parcels will decrease the number of intensive uses that may otherwise be able to establish on these parcels, which will protect the health, safety and general welfare of the public. In addition, rezoning the Conner Creek Greenway parcel to PR will ensure that the greenway continues to act as a buffer between the industrial uses to the west and the neighborhood across Conner Street.*

• The suitability of the subject property for the existing zoning classification and proposed zoning classification. *The newly redeveloped Class A light industrial/warehousing facility on the site of the former Cadillac Stamping site fits well into the proposed M2 (Restricted Industrial District) zoning classification. The facility's maximum height of 52 ft. meets the maximum height requirement under the recently enacted amendment to increase the maximum height limitation in the M2 (Restricted Industrial District) from 40 ft. to 55 ft.*

• Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract. *PVS Chemicals, the landowner of parcels across Athens Avenue from the Conner Creek Greenway expressed concern with*

the rezoning of the Conner Creek Greenway parcel. They stated that the downzoning of the parcels could be used, "as a basis for challenging PVS's ability to continue the industrial uses of the PVS Property." The Greenway parcel has been designated and operated as a parkway, defined as, "a broad roadway bordered and often divided with landscaped areas consisting of tree plants, bushes, and/or grass, is so designated, and is under the jurisdiction and control of the Recreation Department" for a number of years. Therefore, CPC staff is of the view that the Conner Creek Greenway parcel acts as a buffer from the industrial uses to the west and the proposed rezoning will simply align the zoning of the parcel with its ownership and current use. This is also consistent with Detroit Future City's encouragement of greenways and urban reforestation in order to reduce our carbon footprint. Additionally, since the proposed rezoning does not change the zoning on PVS's property, they will continue to be able to conduct their business.

Master Plan Consistency

The subject site is located within the Airport area of Neighborhood Cluster 1 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Light Industrial (IL) and Recreation (PRC) in the Master Plan. The Planning and Development Department (PDD) has reviewed this request and found proposed zoning classifications are consistent with the Master Plan.

CONCLUSION

Based on the above analysis and consistent with the approval criteria of Sec. 50-3-70 of the Zoning Ordinance, the CPC voted at its November 3, 2022 meeting to recommend APPROVAL of the rezoning request. The approved-as-to-form Ordinance is attached for your consideration.

If such breach is not cured within such sixty (60) day period (or, if the breach cannot be cured within such sixty (60) day period, if the City does not commence actions to cure such breach within such period and diligently continue such actions), the County may terminate this Agreement immediately upon the expiration of the sixty (60) day period. If a material discrepancy should arise as to the amount of compensation due the City as a result of such Audit, the County shall provide written notice of the material discrepancy to the City. If the City cannot cure this discrepancy within sixty (60) days of said notice from the County, the County may retain the amount of compensation in question from any funds allocated to the City but not yet disbursed under the Agreement. Honorable City Council:

Re: The Anchor at Mariners Inn 4 Limited Dividend Housing Association Limited Partnership — Payment in Lieu of Taxes (PILOT):

Mariners Inn and Cinnaire Solutions have formed The Anchor at Mariners Inn 4 Limited Dividend Housing Association Limited Partnership (the "LDHA") in order to develop the Project known as Mariners Inn. The LDHA owns Unit 1 of the Mariners Inn Condominium, a mixed-use new construction development structured as seven (7) separate condominium units. Units 1-3 are in one four-story building. Units 4-7 encompass the parking lot and existing buildings on the property site. Unit 1 consists of fourteen (14) permanent supportive housing units in an area bounded by Ledyard on the north, Cass on the east, Henry on the south and Second on the west. The Project will include fourteen (14) 1-bed, 1-bath five hundred (500) square foot units primarily targeted to chronically homeless individuals with free onsite parking. The site will also include first-floor Cass-facing four thousand four hundred (4,400) square feet of commercial space.

A construction loan in the amount of $3,925,698 and a permanent loan in the

amount of $720,006 will be provided by Michigan State Housing Development Authority ("MSHDA"). The City of Detroit will provide $1,500,000 in HOME funding, $830,344 in Community Development Block Grant CARES Act Funds (CBDG-CV) and $500,904 in American Rescue Plan Act funds (ARPA). Mariners Inn and Cinnaire will provide sponsor loans in the amount of $276,086 and $414,242, respectively. The Sponsors have agreed to defer $60,167 of the developer fee.

Rents for all units will be reserved for those earning less than thirty percent (30%) of area median income ("AMI") and will be supported fully by project-based vouchers through MSHDA. All fourteen (14) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,
ALVIN HORHN
Deputy CFO/Assessor

By Council Member Young, II:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *se seq.* (the "Act"), a request for exemption from property taxes has been received on behalf of Mariners Inn and Cinnaire Solutions (the "Sponsors"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsors are constructing a housing project to be known as Unit 1 of the Mariners Inn Condominium, consisting of fourteen (14) units in an apartment building located on condo property owned, processed and recorded by the Sponsors as described by street address and tax parcel in Exhibit A to this resolution, with all fourteen (14) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsors that it intends to approve federal-aided financing for the Project in the form of Low Income Housing Tax Credits, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon *bona fide* use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Unit 1 of Mariners Inn as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, *et seq.;* and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsors be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon

the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer – Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,
ALVIN HORHN
Deputy CFO/Assessor

By Council Member Young, II:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *se seq.* (the "Act"), a request for exemption from property taxes has been received on behalf of Mariners Inn and Cinnaire Solutions (the "Sponsors"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsors are constructing a housing project to be known as Unit 2 of the Mariners Inn Condominium, con-

sisting of seventy (70) units in an apartment building located on condo property owned, processed and recorded by the Sponsors as described by street address and tax parcels in Exhibit A to this resolution, with all seventy (70) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsors that it intends to approve federal-aided financing for the Project in the form of Low Income Housing Tax Credits, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon *bona fide* use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Unit 2 of Mariners Inn as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, *et seq.;* and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsors be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer — Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

City Planning Commission

June 7, 2023

Honorable City Council:

Re: Proposed map amendment to Chapter 50, *Zoning,* Article XVII, Section 50-17-46, Map No. 44, to show an R5 (Medium-Density Residential District) zoning classification where a PD (Planned Development District) zoning classification is currently shown on the block bounded by Selden Avenue, 18th Street, Magnolia Avenue, and Humboldt Avenue and to show a B4 (General Business District) zoning classification where an R3 (Low-Density Residential District) zoning classification is currently shown at 2640 Michigan Avenue. **(RECOMMEND APPROVAL)**

NATURE OF THE REQUEST

The City Planning Commission (CPC) itself is proposing the rezoning of two non-contiguous properties in southwest Detroit, both identified on Map No. 44 of Chapter 50, Article XVII, Section 50-17-46. The first is the square block bounded by Selden, 18th, Magnolia, and Humboldt Streets to be rezoned from PD (Planned Development District) to R5 (Medium Density Residential District); the second is the single lot at 2640 Michigan to be rezoned from R3 (Low Density Residential District) to B4 (General Business District).

This initiative of the CPC responds to the Zoning Ordinance's mandate to address Planned Development (PD) Districts that have been abandoned or whose authorization has lapsed (Sec. 50-3-98), as is the case for the square block owned by the Salvation Army-Location 1. The Michigan Avenue property – Location 2 – had been incorrectly labeled on the zoning map subsequent to the years-ago Michigan Department of Transportation (MDOT) construction of the Fisher/Jeffries freeway interchange. This proposed map amendment fixes both problems.

BACKGROUND

The Salvation Army property, **Location 1,** was rezoned to PD through Ordinance No. 16-10 on September 2, 2010. Sec. 50-3-98 of the 2019 Detroit City Code notes that the authorization for a Planned Development lapses upon abandonment of the project or three years from the effective date of approval of the PD where the development has not been completed. On January 5, 2023, the City Planning Commission passed a resolution finding that the authorization for the Map No. 44 Planned Development for this property had lapsed.

The Salvation Army's proposed transitional housing development, for which the PD was adopted, was never undertaken at this location and they have moved on from this plan. The block consists of vacant land except for a small warehouse/storage building at the corner of Humboldt and Magnolia (3700 Humboldt), used for storage by the Salvation Army.

The City Planning Commission is proposing the map amendment for **Location 2** to correct a mapping error that resulted from confusion that arose at the time of the construction of the Jeffries (I-96) and Fisher Freeway (I-75) interchange, which consumed numerous properties that had appeared on District Map No. 44. While properties to the north of the Fisher Freeway were rezoned to the R3 zoning district classification, the property known as 2640 Michigan Avenue to the south of the Fisher Freeway was omitted altogether from

the zoning map that resulted from Ordinance No. 29-G, which went into effect on December 14, 1967. This property remained omitted from Map No. 44 until 2010 when the Salvation Army's PD rezoning (Ordinance No. 16-10) went into effect and the 2640 Michigan property was restored to the zoning map but was mistakenly labeled as R3.

SURROUNDING ZONING AND LAND USE

The zoning classification and land uses surrounding **Location 1** are as follows:
North: R2 (Two-Family Residential), vacant residential, vacant school, church
East: R2 (Two-Family Residential), nonconforming light industrial, vacant residential
South: PD (Planned Development), University of Detroit Mercy dental school
West: PD (Planned Development), Salvation Army Harbor Light

The zoning classification and land uses surrounding **Location 2** are as follows:
North: Unzoned (Fisher Freeway, I-75) and R3 (Low-Density Residential) and B6 (General Services) on the opposite side of the Fisher freeway
East: B4 (General Business), New Life Rescue Mission, commercial
South: B4 (General Business) and M4 (Intensive Industrial), commercial, DPW asphalt
West: Unzoned (Fisher Freeway, I-75) and B4 on the opposite side of the Jeffries freeway

OUTREACH

All properties within 300 feet of the two locations were mailed notification of the CPC public hearing scheduled for January 19, 2023. CPC staff had connected with the local Salvation Army by phone and a representative was expected at the hearing but did not appear. Subsequent voice messages to Salvation Army brought a response in support of the proposed R5 and the indication of an appearance at the February 2nd meeting of the CPC.

Staff also met with the floor manager at Domestic Uniform Rental plant immediately west and across 18th Street from the Salvation Army block prior to the hearing and explained the proposed rezoning. Recent rezonings in the north Corktown/Core Cities area revealed residents' interest in the development of more housing in the area; the proposed R5 will remove obstacles to such development.

The owner of 2640 Michigan Avenue had already approached the City with a vision of redeveloping their property along the lines of the old Western Market, which had stood at that site until freeway construction in the early 1960s. Planning and Development Department (P&DD) and CPC staff have been able to offer them some guidance relative to the curious zoning situation related to this property. The proposed B4 will remove the barrier to nonresidential development posed by the existing R3 and will help facilitate redevelopment of the property in line with the existing Michigan Avenue zoning.

PUBLIC HEARING RESULTS

On January 19, 2023, the City Planning Commission held a statutory public hearing on the proposed rezoning of the two locations on Map No. 44. At the hearing, three members of the public spoke. The owner of 2640 Michigan Avenue and the prospective developer of that site both spoke in support of rezoning Location 2. The pastor of St. James Fire Baptized Holiness Church, located immediately north of Location 1, indicated that his nearby church was back to active status after the pandemic and asked as to the scope of the proposed rezoning on church property; staff noted that the church's R2 zoning classification would remain unaffected.

Discussion among commissioners focused on outreach to the community and whether a zoning classification other than R5, such as SD1 (Special Development District, Small-Scale–Mixed-Use), might be appropriate at **Location 1.** Staff noted that the proposed R5 District would, in fact, allow on a conditional basis, various retail, service, and commercial uses that are permitted on a by-right basis in SD1 districts, but that given the preponderance of R2 zoning surrounding **Location 1** and the location's embeddedness within the neighborhood, rather than on a major or secondary thoroughfare, R5 would provide a more appropriate and cautious balance of land uses. Engagement with the community is continuing after the hearing relative to both locations.

MASTER PLAN CONSISTENCY

Location 1 is located within the Jeffries subsector of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "INST--Institutional" for the subject block. The Planning and Development Department (PDD) has reviewed this proposed rezoning in its letter of January 5, 2023 and determined that the proposed R5 district would be consistent with the Master Plan.

Location 2 is located within the Corktown subsector of Neighborhood Cluster 4 and is designated on the Future General Land Use Map as Mixed Residential Commercial (MRC), which the Master Plan describes as follows:

"These areas consist predominantly of medium-to-high density housing developed compatibly with commercial and/or institutional uses. This classification is well suited to areas proximal to existing centers of major commercial activity, major thoroughfares, transportation nodes, or gateways into the city."

In its letter of January 5, 2023, P&DD reported, "While the proposed rezoning does not directly conform to the Master Plan's Future General Land Use Classification of MRC, the rezoning is not anticipated to change the overall character of the Corktown neighborhood

and will permit commercial development of the site, as the parcels to the east are developed. Given that and the small size of the parcel, it is therefore generally consistent with the Master Plan classification."

ZONING ORDINANCE APPROVAL CRITERIA

Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. Following are the relevant criteria with CPC staffs analysis in italics:

• Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend, or fact. **Location 1:** *Authorization for the existing PD zoning classification has lapsed as the proposed transitional housing development was never realized; the proposed rezoning responds to the mandate of Sec. 50-3-98 to rezone lapsed PDs.* **Location 2:** *A mapping omission and subsequent mapping error led to the misclassification of the land as R3; the proposed rezoning corrects the error by rezoning to an appropriate zoning classification.*

• Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract. **Location 1:** *No significant impact on nearby property is anticipated; the proposed rezoning will allow for use of the land in a manner originally anticipated by the 2010 PD as well as facilitate possible development of a broader range of residential and institutional uses.* **Location 2:** *No significant impacts on nearby property is anticipated; the proposed rezoning will allow for use of the land in a manner consistent with nearby development.*

• Whether the proposed rezoning will create an illegal "spot zone." **Location 1:** *The closest other property zoned R5 is a few blocks away on 14th Street; however, there is substantial townhouse development in the vicinity, which is characteristic of the Medium-Density District; the R5 District shares much in common with nearby existing R2, R3, and PD-zoned development, avoiding the issue of spot zoning.* **Location 2:** *the parcel proposed to be rezoned will share the same B4 designation as all the other properties on the north side of Michigan Avenue between 14th Street and 18th Street and will not create a spot zone.*

RECOMMENDATION

At its February 2, 2023 meeting, the City Planning Commission (CPC) voted to recommend approval of the rezoning of the two non-contiguous properties in southwest Detroit, both identified on Map No. 44 of Chapter 50, Article XVII, Section 50-17-46. The first is the square block bounded by Selden, 18th, Magnolia, and Humboldt Streets to be rezoned from PD (Planned Development District) to R5 (Medium Density Residential District); the second is the single lot at 2640 Michigan to be rezoned from R3 (Low Density Residential District) to B4 (General Business District).

NEXT STEPS

This proposed map amendment to Chapter 50 of the 2019 Detroit City Code, *Zoning,* has been reviewed and approved by the Law Department and is ready for consideration by the Planning and Economic Development Standing Committee. Upon the committee's review and referral to the formal session, the ordinance can be introduced and scheduled for the Charter-mandated public hearing.

By Council President Pro Tem.Tate:

AN ORDINANCE to amend Chapter 21, Article II of the 2019 Detroit City Code by adding Section 21-2-250 to establish the Krainz Woods/Sojourner Truth Homes Historic District and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 21, Article II, of the 2019 Detroit City Code be amended by adding Section 21-2-250 to read as follows:

Sec. 21-2-250. Krainz Woods/Sojourner Truth Homes Historic District.

(a) A historic district to be known as the Krainz Woods/Sojourner Truth Homes Historic District is established in accordance with the provisions of this article.

(b) This historic district designation is certified as being consistent with the Detroit Master Plan.

(c) The boundaries of the Krainz Woods/Sojourner Truth Homes Historic District are as shown on the map on file in the office of the City Clerk, and are as follows: Beginning at a point, that point being the intersection of the centerlines of Ryan Road and East Seven Mile Road; thence south along said centerline of Ryan Road to its intersection with the centerline of Nevada Avenue; thence east along the centerline of said Nevada Avenue to the centerline of Mound Road; thence north along the centerline of said Mound Road to its intersection with the centerline of East Seven Mile Road; thence west along the centerline of said East Seven Mile Road to the centerline of Ryan Road to the Point of Beginning.

(d) The defined elements of design, as provided for in Section 21-2-250 of this code, are as follows:

(1) *Height.* The approximately one-thousand-five-hundred and sixty-one (1,561) buildings in the district range from one (1) to three (3) stories tall. The approximately one-thousand-five-hundred and sixty-one (1,561) buildings in the district consist of approximately one-thousand and five hundred and twenty-one (1,521) residential buildings that range from one (1) to two-and-a-half (2½) stories tall, the half stories contained within the roof. Garages are generally one-story tall. The Sojourner Truth Homes have a total of forty-nine (49) buildings in the development that are two-and-a-half (2½) stories in height. The district includes approximately forty (40) commercial and institutional buildings that range from one (1) to two and-a-half (2½) stories tall. The red brick King David Missionary Baptist Church at Nevada Street and Sunset Street has a slightly vaulted sanctuary section that is two-and-a-half (2½) stories tall with a steeple that is an additional one (1) story in height.

(2) *Proportion of buildings' front façades.* The proportions of individual front façades vary within the district. Almost all of the approximately one thousand and five hundred and sixty-one (1,561) contributing residential and commercial structures are wider than tall on the front façades. Only a few of the one-thousand and five-hundred and sixty-one (1,561) residential and commercial structures are taller than wide. The approximately forty (40) commercial structures on the major border streets surrounding the district are wider than tall on the front façades.

(3) *Proportion of openings within the façades.* The proportion of openings within the district varies considerably but can be categorized by building type. The typical Minimal Traditional style home has a high ratio of solid wall surfaces to openings and is composed of approximately twenty percent (20%) openings in its front, side, and rear façades. The side

and rear façades are designed with similar window openings arranged in a similar horizontal plane at each floor. The front façade of the typical Bungalow style home has windows arranged on each side of a center entry, or at the side of a side entry, comprising approximately thirty percent (30%) of the openings. The Tudor Influenced style home has approximately thirty percent (30%) openings in its front, side, and rear façades. The windows and openings are arranged on both the first and second stories, in varying locations. The Ranch Style homes found throughout the district are composed of approximately thirty percent (30%) openings in its front, side, and rear façades. Most of the Ranch Style homes have an attached garage at the front façade of the building, accounting for the largest opening in the front façade. The rowhouse residences in the Sojourner Truth Homes have a high ratio of solid wall surfaces to openings and are composed of approximately twenty percent (20%) openings in their front, side, and rear façades. The townhouse residences in the Sojourner Truth Homes have a high ratio of solid wall surfaces to openings and are composed of approximately twenty-five percent (25%) openings in their front, side, and rear façades. Window sizes and the proportion of individual windows vary within the district and include fixed aluminum, fixed steel, wood double-hung, and divided, and other types of windows appropriate to the variety of time periods and architectural styles found in the buildings within the Krainz Woods/Sojourner Truth Homes historic district.

(4) *Rhythm of solids to voids in the front façades.* The district has a variety of residential building types with a varying rhythm of solids to voids on front façades. There are distinctive openings on each of the four (4) main residential building styles in the remainder of the district: Minimal Traditional style, Bungalow style, Ranch style, and Tudor Influenced style. The Minimal Traditional style homes have a variety of front window and door arrangements, some with a recessed front entry door, and some with a front entry door at the projecting front façade. A rhythm of solids to voids are irregular on each of the various versions of the Minimal Traditional style. The rhythm of solids to voids in the front façades of Bungalow style residences are arranged both vertically and horizontally at regular intervals, typically with a dormer window centered at the roof. The Ranch style homes have an irregular rhythm of solids to voids in the front façades, although the openings are typically arranged at a consistent horizontal level. The Tudor Influenced homes in the district have an irregular rhythm of solids to voids in the front façades, and the size and location of openings varies on each individual Tudor Influenced home. There are very regular openings on the rowhouses in the Sojourner Truth Homes. The rowhouse buildings have a regular pattern of window and door openings. The townhouse buildings are designed with an irregular pattern of openings; most are mirror images of the adjacent townhome. The commercial/institutional buildings in the district have solids and voids that range in pattern and have no regular rhythm. The solids and voids of Legacy Charter Academy (Edmund Atkinson School, 4900 East Hildale Street) are arranged in vertical bays on the historic 1927 structure facing East Hildale Street and Healy Street. The solids and voids in the buildings of the district have no regular rhythm.

(5) *Rhythm of spacing of buildings on streets.* The overall character of the district is one of three (3) visually distinct areas. The first area is the commercial areas along the main surrounding streets: Ryan Road, Nevada Street, Mound Road, and East Seven Mile Road. There is no consistent rhythm of spacing of buildings on these streets due to the parking lots and vacant lots on commercial streets. The second area is the Sojourner Truth Homes area, where the rhythm of the rowhouses is consistent. The rhythm of the townhouses is also consistent, and the circular streets create a distinctive rhythm and spacing. The third area is the residential side streets in the interior of the district which have a very repetitive rhythm of setbacks and spacing between the homes in the district. Lot sizes are consistently thirty-five (35) feet by one-hundred and five (105) feet in size. Typically, there is eleven (11) feet between the homes. Occasionally there are exceptions such as the blocks of Eureka Street that contain some larger homes and are constructed on larger lots. Many homesites include an adjacent lot. Most of the buildings in the district on the interior residential streets are spaced at approximately the same distance from each other.

(6) *Rhythm of entrance and/or porch projections.* There is little uniformity among primary entrances to the approximately one-thousand-five-hundred and sixty-one (1,561) buildings in the district. The residential homes on the side streets of the district have their entrance and porch projections on the front façades of the homes. The entrances and porch projections vary in location throughout the side streets. The Sojourner Truth Homes have consistent entrances and porch projections on both the rowhouses and on the townhomes. The commercial/institutional buildings have no consistent rhythm of entrance and/or porch projections, the commercial buildings along the major surrounding border roads have varying locations of entrances. The Legacy Charter

Academy (Edmund Atkinson School, 4900 East Hildale Street) has two entrances on East Hildale Street, an entrance on Healy Street, and an entrance on the Fenelon Street side of the building that is adjacent to the school parking lot. The school's entrances do not create a rhythm.

(7) *Relationship of materials.* A variety of building materials exist throughout the district, including brick, metal, concrete, vinyl, aluminum, limestone, permastone, and glass. Window frames and sashes are mostly aluminum, some window frames are wood, some are composite metal. Landscape elements include concrete driveways, curbs and sidewalks as well as metal streetlights, fencing, street signs, and fire plugs. Planting areas surrounding the homes of the side streets mostly consist of grass lawns, shrubs, and street trees. There are paved asphalt and concrete parking lots surrounding or adjacent to many of the commercial and institutional buildings in the historic district.

(8) *Relationship of textures.* On most buildings, textural effects contrast with each other, with textured brick and aluminum or vinyl siding and permastone contrasting with glass windows. The most significant texture in the interior residential streets of the district is the use of both aluminum siding and vinyl siding on the homes of Krainz Woods. The Sojourner Truth Homes are faced with brick creating a predominant brick texture contrasting with horizontal vinyl siding and shingled roofs. The Legacy Charter Academy (Edmund Atkinson School, 4900 East Hildale Street) has textures that include brick, random range ashlar, and limestone. The commercial buildings and homes on the surrounding roads of Krainz Woods are finished in a variety of materials and have no consistent texture.

(9) *Relationship of colors.* On the side streets of the district there are many varying colors used on the homes: white, beige, orange, red, mint green, dark green, brown, and yellow. Natural brick colors, such as red, yellow, brown, or light orange, are used on many wall surfaces. The dominating colors of white, light grey, and red brick, are often contrasted with silver aluminum awnings. Roofs are mainly finished with asphalt shingles predominantly within a dark color range. The variation in aluminum and vinyl siding color reflects a diversity of colors and styles throughout the district. In the Sojourner Truth Homes area of the historic district the dominant colors are dark orange and red brick, brown trim, tan colored vinyl siding, and dark grey shingled roofs. The other common color in the historic district is black — found on the doors, wrought iron fencing, and trashcans. The Legacy Charter Academy (Edmund Atkinson School, 4900 East Hildale Street) stands alone with dark orange multicolored brick, and beige limestone trim. There are green lawns, street trees, and shrubs throughout the district. Sidewalks consist of slabs of naturally colored gray concrete. The AT&T/Michigan Bell Telephone Building (18862 Ryan Road) has dark yellow brick facing and yellow Mankato stone foundation and surrounds with dark grey spandrels. Surface parking lots are either gray asphalt or larger slabs of naturally colored gray concrete.

(10) *Relationship of architectural details.* A variety of architectural styles are represented in the district, including Minimal Traditional, Colonial Revival, Bungalow, Ranch, and English Tudor Influenced. Architectural details vary throughout the district, but buildings are generally detailed according to the characteristics of their individual architectural styles. Decorative details on the Minimal Traditional style homes (the most common style structure in the district) include projecting front gables, aluminum awnings, and multi-pane divided windows. The Minimal Traditional style homes incorporate modern materials and frequently had various colors of permastone used on the front façades in many different locations. The Bungalow style homes notably feature a wide covered porch, side gable ends, and a centered dormer window at the roof. The one-and-a half-story bungalows in the district often have brick piers supporting the front porch, and sometimes on each side of the porch stairs. English Tudor Influenced style homes typically incorporate such details as cross-gable roofs, steeply pitched front façade gables, round lintels on various front façade windows, and decorative brick details. The Colonial Revival style details found on the Sojourner Truth Homes include recessed entry doors, steep gables, and jetty overhangs at the second story. A water table of header bricks at the second-story window level are also common Colonial Revival style details. Ranch style homes in the district have details that include an attached garage, one-story wide structure occupying two lots, wide overhanging eaves, and a large picture window. The Legacy Charter Academy elementary school, the former Edmund Atkinson School. (4900 East Hildale Avenue) is designed in the Collegiate Gothic style and incorporates two towers on each side of the main entrance, limestone trim around windows, and water tables and coping. The AT&T/Michigan Bell Telephone Exchange building (18862 Ryan Road) incorporated Art Deco detailing in an otherwise industrial building. It is faced in yellow brick and set on a foundation of Mankato Stone. The original pedestrian entrance door at the north end of the façade on Ryan Road is recessed and has a shallow pediment and surrounds of yellow Mankato stone. The two-part windows also have Mankato stone surrounds and a dark grey granite spandrel are spaced in measured symmetry that reflects the Art Deco style.

(11) *Relationship of roof shapes.* The majority of residential buildings in the district have side gabled roofs, although exceptions are found throughout the district. The residential homes also have various roof shapes depending on the style of the home. Ranch style homes typically have hipped roofs, while English Tudor influenced homes have cross-gabled roofs. The rowhouses at the Sojourner Truth Homes have side-gabled roofs, and the Sojourner Truth townhouses have multi-level side gabled roofs on each unit. Steeply pitched roofs on the duplex units on Sunset Street are side gabled with two dormers in each building. The commercial and institutional buildings such as Legacy Charter Academy (Edmund Atkinson School) have flat roofs. The Modern style James Europe Post 2233 (18655 Mound Road) has an unusual asymmetrical low-pitched gabled roof.

(12) *Walls of continuity.* The common setbacks of houses on the straight residential side-streets create strong visual walls of continuity. The Sojourner Truth Homes' streets all have walls of continuity because of the complete and intact multi-family homes of the development. The linear progression of the homes and businesses on Mound Road creates an irregular, but continuous wall.

(13) *Relationship of significant landscape features and surface treatments.* The flat terrain of the area is divided with principal streets oriented north-south and approximately fifty (50) feet in width. Three east-west streets (Robinwood, East Hildale, and Stockton Avenues) are also fifty (50) feet in width. Landscape features of the historic district include asphalt paved streets, concrete curbs, driveways, and sidewalks, private lawns, and yards. Sidewalks line each side of the streets in Krainz Woods and are set back from the road by a grass berm. Street trees are sometimes in the grass berm, but not always extant due to their limited lifespan. The residential properties are separated from the commercial lots by an alley. The typical treatment of individual residential properties is that of a dwelling erected on a flat or slightly graded front lawn. The front lawn area is generally covered with grass turf, subdivided by a straight or curving concrete sidewalk leading to the front entrance. The most significant landscape feature in the district is John Krainz Jr. Memorial Park, a rectangular-shaped 9.72-acre public park with pedestrian pathways running around the circumference of the park. The park is accessible from Healy Street, East Hildale Street, and Stockton Street. East of Krainz Park, opposite (east) of Healy Avenue is the grass playfield of Legacy Charter Academy (Edmund Atkinson School). Krainz Park features two picnic pavilions on a concrete slab, two basketball courts, picnic tables, a baseball diamond, and playground equipment. A flagpole erected in memory of John Krainz Jr. is at the northwest side of the park. The eastern side of the district, south of East Hildale Street, on each side of Syracuse Street, is the Syracuse-Hildale Playground, approximately half a block in length with playground equipment, picnic tables, and a basketball court on the eastern side. There are tall metal vertical light standards, street signs, and fire plugs throughout the district. Sidewalks consist of slabs of naturally colored gray concrete. Surface parking lots are found adjacent to the commercial buildings on the district's border streets, and at the Sojourner Truth Homes; they are asphalt-paved parking lots, or concrete-paved parking lots.

(14) *Relationship of open space to structures.* The wide border streets bounding the Krainz Woods/Sojourner Truth Homes district (Ryan Road. Mound Road, Nevada Street, and East Seven Mile Road) have a large percentage of vacant parcels that range in size. On the interior side-streets, public sidewalks line each side of the street and are set back from the road by a grass berm. Alleys are located between each pair of streets; however, the alleys have been vacated and are covered in grass and vegetation. All houses have ample rear yards as well as front yards. Wider residential lots have side drives with garages at the rear of lots. Where dwellings are located on corner lots, garages face the side street. Garages, when original, often correspond in materials to the main body of the dwelling, but are of modest, one-story simple box design with single or double doors. About half of the original garages in the district have been removed and/or replaced. Fences of metal, wood, or composite vinyl separate individual properties from the alley behind the homes. Backyard fences are common throughout the district. Occasionally there are front-yard fences found throughout the district. Additionally, parking lots, vacant land, and paved areas for vehicular usage create open space on Mound Road, East Seven Mile Road, Ryan Road, and Nevada Avenue in the historic district. The John Krainz Jr. Park provides open natural space between the side streets of East Hildale Street and Stockton Street. The playgrounds at the Syracuse-Hildale play lots are open space for public use. Many homes in the district have been demolished, creating empty lots scattered throughout the district. Also, many homes were constructed on double lots to provide a private side yard.

(15) *Scale of façades and façade elements.* The approximately one-thousand and five hundred and twenty-one (1,521) residential buildings range from one (1) to two-and-a-half (2½) stories tall in scale. The Minimal Traditional style houses

erected in the 1940s, 1950s and 1960s are generally smaller in scale than those built in the earlier phase of development The façades of the approximately forty (40) commercial/institutional buildings range from one (1)-story tall to two-and-a-half (2½) stories tall. Elements and details are in proportion to their respective façades.

(16) *Directional expression of front elevations.* The directional expression of individual front elevations varies according to the street-front direction throughout the district. The front elevations of the commercial/institutional buildings on the border roads of the district generally face towards the main road. An exception is King David Missionary Baptist Church (18001 Sunset Street), where the front elevation faces east towards Sunset Street. The Sojourner Truth Homes front façades face the direction of the street in all cases. The residential homes on the side streets of the district all face the street-front direction. Legacy Charter Academy's historic front elevation (Edmund Atkinson School, 4900 East Hildale Street) faces north on East Hildale Street. The school's west-facing, five-bay two-story façade facing Healy Street is also a significant entry elevation. The AT&T/Michigan Bell Telephone Exchange building entry (18862 Ryan Road) faces west on Ryan Road.

(17) *Rhythm of building setbacks.* The generally common setback of the façades of the residential homes in the district creates a consistent orientation on the side-streets. Most residential homes on the side-streets are set back from the sidewalk by twenty-eight (28) feet. The set back of some of the earlier Bungalow-style homes is inconsistent, and the larger homes on Eureka Street are also an exception to this otherwise consistent setback. The commercial/institutional buildings have varying setbacks and sometimes have parking lots or landscaping in front of the structures: therefore there is no typical rhythm of building setback for the commercial/institutional buildings.

(18) *Relationship of lot coverages.* The lot coverage for single-family dwellings ranges generally from twenty-five (25) to thirty-five (35) percent, including the garage, whether freestanding or attached. The lot coverage for the commercial/institutional buildings ranges generally from fifty (50) to seventy-five (75) percent, depending on the property.

(19) *Degree of complexity within the façades.* The degree of complexity has been determined by what is typical and appropriate for a given style. Overall, there is a higher degree of complexity in the English Tudor Influenced style buildings, where their façades are frequently complicated by gables, bays, irregularly placed openings and entrances, and irregular massing, than those of other styles. The façades of Minimal Traditional style homes are more straightforward in their arrangement of elements and details. Legacy Charter Academy (Edmund Atkinson School. 4900 East Hildale Street) has Collegiate Gothic style details on both the north-facing elevation and the west-facing elevation. The west-facing, five-bay two-story façade facing Healy Street is complex and symmetrically arranged; it contains a central, shallow gabled entrance bay with a single-story projecting entrance vestibule on its first floor. The north-facing façade facing Hildale Street is also complex and has shallow gables over the end walls with large blind limestone niches supported on the corner wall buttresses. The Hildale façade consists of a nine (9) bay stretch broken by the seventh bay which is another entrance bay identical to the entrance bay of the Healy façade except it does not have the shallow gable above. The AT&T Michigan Bell Telephone Exchange Building (18862 Ryan Road) has a simplified Art Deco style façade that has a foundation of Mankato stone, and yellow brick above, tall two-over-four multi-paned windows separated by black granite spandrels line the west and north façades. An entry door at the west façade, and the windows have a surround of yellow Mankato stone.

(20) *Orientation, vistas, overviews.* The orientation of buildings is generally toward the north-south side streets with the exception of the homes on East Hildale Street which generally face to the north. The primary vistas are created by the landscaped lawns. Because of the standard setbacks and the general lack of front yard fencing, most of the street-scape appears as an unbroken greenbelt. The Sojourner Truth Homes buildings are oriented in a circular and linear pattern creating short vistas. There are broad vistas that are toward the north from the medians at the two entrances on Nevada Street. The commercial properties on the surrounding border streets have a straight-line vista to their directional orientation. Legacy Charter Academy (Edmund Atkinson School 4900 East Hildale Street) is oriented to the north, facing East Hildale Street. The AT&T Michigan Bell Telephone Exchange Building (18862 Ryan Road) is set back from the intersection at Ryan Road and East Seven Mile Road, making it prominent at that intersection's vista.

(21) *Symmetric or asymmetric appearance.* Front façades of buildings in the district range from completely symmetrical to asymmetrical, but balanced compositions. English Tudor Influenced style buildings are irregular in layout and asymmetrical in appearance. The Minimal Traditional style buildings are generally symmetrical, but many have an asymmetrical gable and entry at the front façade. The Bungalow style buildings are not always symmetrical but result in highly ordered compositions. The rowhouses at the Sojourner Truth

Homes have a symmetrical composition since they have six (6) units in each row-house. The townhouses of the Sojourner Truth Homes are asymmetrical in appearance because the units are arranged in mirror images of each other. The commercial buildings on the major roads that border the district have both symmetrical and asymmetrical appearances, depending on the type of commercial property. Legacy Charter Academy (Edmund Atkinson School 4900 East Hildale Street) is asymmetrical on its north façade (at East Hildale Street), but it is symmetrical on the west façade (Healy Street). The east façade of the school has several additions that were constructed at various times, creating an asymmetrical appearance. The AT&T Michigan Bell Telephone Exchange Building (18862 Ryan Road) is asymmetrical in appearance because its original 1941 structure is at the north side of the building, and additions were constructed to the south.

(22) *General environmental character*. The Krainz Woods/Sojourner Truth Homes Historic District is a solid, fully developed large residential area of approximately one-thousand-five-hundred and sixty-one (1,561) buildings of mostly small-scaled single-family dwellings, built up in the period between 1925 to 1960 and complemented with typical examples of ranch houses from the 1960s. The landscaped features of John Krainz Park and Legacy Charter Academy (Edmund Atkinson School, 4100 East Hildale Street) result in a park-like setting. Located approximately seven (7) miles from the City's center, the surrounding major roads of Nevada Street, Ryan Road, East Seven Mile Road, and Mound Road comprise the commercial areas. The surrounding area to the north, east and west feature several other substantial residential subdivisions; most notably the neighborhood of Conant Gardens to the west. South of Nevada Street are industrial and governmental complexes including the Detroit Police Department Eleventh Precinct (5100 Nevada Street), and the Detroit Reentry Center/Detroit Detention Center (17600 Ryan Road), and warehouses and storage facilities such as Judd Industrial Contracting (17900 Ryan Road).

Section 2. All ordinances, or parts of ordinances, or resolutions, that conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Detroit.

Section 4. If this ordinance is passed by a two-thirds majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-118(1) of the 2012 Detroit City Charter. Whereas this ordinance is passes by less than a two-thirds majority of City Council Members serving, it shall become effective on the 30th day after publication, in accordance with Section 4-118(2) of the 2012 Detroit City Charter.

Design Review Guiding Principles:
✓ IN COMPLIANCE
✗ NOT IN COMPLIANCE
Ø NOT APPLICABLE
✺ MORE INFORMATION NEEDED

✓ **Historic Preservation:** The intent of development is to preserve existing structures and compliment the urban fabric through a thoughtful and intentional approach to design.
✓ **Activate the Public Realm:** All projects shall build upon the walkable environment, providing a transparent and interactive building frontage and ground level meant to intrigue pedestrians through design and active uses.
✓ **Appropriate Density:** Any new building shall be appropriate in scale with surroundings.
✓ **Building Form and Material:** The site shall incorporate sound urban design and established development principles. The built environment shall provide interesting building typologies of varied architectural styles and compliment, not mimic, the nature of the existing urban fabric.

Ø Maintain/Integrate the Street Grid: Many city blocks have been combined into superblocks or developments built facing inwards. The goal is for new development to be directly integrated into the existing street grid — not to create an isolated development site.

✓ **Street Frontage:** All new construction shall be designed along the front lot line of the property adjacent to the public right-of-way. Parking shall not be provided between the building frontage and the street edge.

✓ **Pedestrian Experience:** Where appropriate, alleyways will serve as the main point of automotive ingress and egress. Curb cuts onto public right-of-way will be minimized or obsolete in order to provide a safe, walkable, pedestrian oriented street design.

✓ **Parking and Access:** All on-site parking shall be appropriately landscaped or be screened from view, preferably developing parking lot edges of the site with new construction in order to shield the parking from view.

Ø Buffering: Expand the use of green belts and natural buffer zones to protect residential areas from commercial and industrial areas which are environmentally detrimental to nearby residential neighborhoods. Minimize and screen outdoor storage and work areas.

✓ **Sustainable Design:** All developments should strive to embrace sustainable practices that create healthier living environments while aiming to minimize the negative impacts of the built environment and achieving long-term energy and resource efficiency as well as universal design.

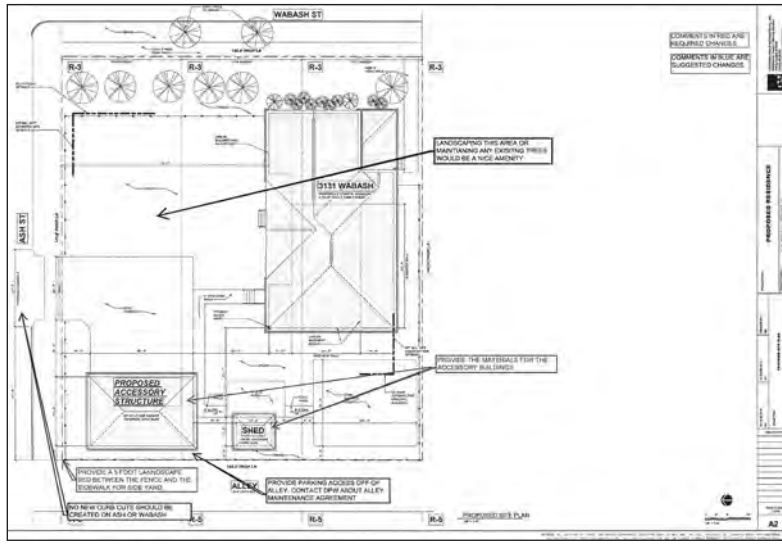
Design Review Notes:

The Design Review Team is in support of the project and approves with comments noted. Concepts. The applicant needs to address the comments provided and noted below.

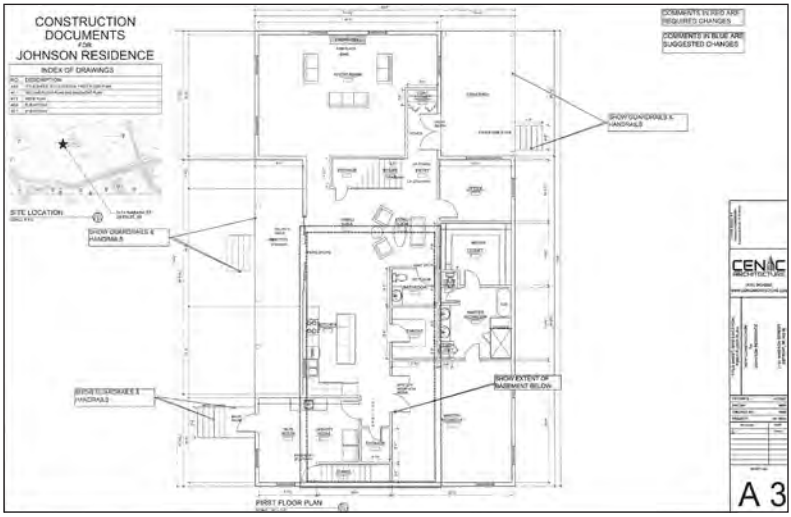
• Provide a minimum 5 foot landscape buffer between sidewalk and fencing

General Notes:

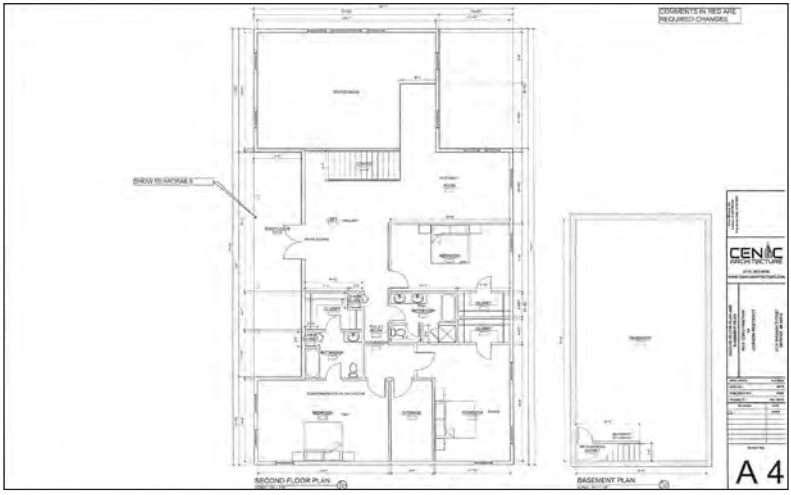
• Adhere to zoning requirements (setbacks, use, parking, etc.)



• Follow design standards for onsite parking in the zoning ordinance (including paving surfaces, interior landscaping, screening, etc.)



• The development team is encouraged to contact Russell Baltimore (baltimorer@detroitmi.gov) or Zachary Funk (Zachary.Funk@detroitmi.gov) to schedule a follow-up design review meeting once these initial comments have been addressed.



• Consider the use of sustainable building practices whenever possible:
  - Minimize energy use — reducing energy loads through appropriate insulation, efficient equipment and lighting, and incorporating renewable energy systems.
  - Conserving and protecting water by reducing and controlling stormwater runoff.
  - Use of environmentally preferable products — products made with recycled and renewable content.
  - Enhance indoor environmental quality by maximizing daylight, providing adequate ventilation, and using low-or no-VOC products.
  - Optimizing operations and maintenance practices by using products that require less maintenance, less toxic chemical and cleaners, and less water and energy usage.
  - Design for end of life of the structures so that building components and materials can be disassembled, reused, and/or recycled at the end of their useful life.

Council President Pro Tem.Tate moved the following resolution on behalf of President Sheffield:

RESOLUTION URGING STATE ACTION ON GUNS

By COUNCIL PRESIDENT SHEFFIELD:

WHEREAS, In the United States of America, there are roughly 40,000 gun deaths each year; and

WHEREAS, According to the Centers for Disease Prevention and Control's (CDC) latest comprehensive report on gun mortality, gun violence and gun deaths have been rising significantly since around 2015. Shockingly, in 2019 firearm-related injuries became the number one cause of death for children, teens, and young adults below age 25; and

WHEREAS, In 2020, nearly 80 percent of homicides and 53 percent of suicides in the US were by firearm; and

WHEREAS, Gun violence disproportionately impacts the Black community. In 2020, more than half of all firearm homicide victims (53 percent) were Black males and more than half of all Black teens who died (52 percent) were killed by gun violence; and

WHEREAS, While Black citizens make up 15 percent of Michigan's population, they suffer 79 percent of gun homicides; and

WHEREAS, In Detroit alone, there were 309 homicides and 1,065 nonfatal shootings in 2021 according to the Detroit Police Department; and

WHEREAS, Studies show that women suffering from domestic abuse are five times more likely to be killed by their male partner if their partner has access to a firearm; and

WHEREAS, In the wake of the highly publicized mass shootings at Oxford High School in 2021 and Michigan State University in 2023, legislators in the Michigan Senate have introduced eleven common-sense gun laws as an effort to protect Michigan citizens from gun violence; and

WHEREAS, Broadly, the bills introduced in the Michigan Senate focus on requiring a license for any purchase of a firearm, universal background checks including private sales of firearms, secure storage laws to keep firearms away from children and teens, and "red flag" laws allowing courts to remove firearms from individuals who pose a threat to themselves or others; and

WHEREAS, CDC data shows that states with strong gun violence prevention policies consistently had gun death rates that were significantly lower than the national average; and

WHEREAS, Everytown for Gun Safety, a national nonprofit that conducts research and promotes policies to eliminate gun violence, classifies Michigan's gun laws as "Weak," finding that the state has only enacted 12 of the 50 most important gun safety policies;

WHEREAS, All students deserve schools and communities that are safe, supportive, and free from gun violence; and

WHEREAS, Safe storage measures that require firearms to be securely stored in homes with children have been proven to significantly reduce youth firearm deaths; and

WHEREAS, Nineteen states and Washington D.C. have enacted red flag laws, which have proven to be effective, especially in preventing gun suicide; and

WHEREAS, Continued injury and death from gun violence is due, in substantial part, to the lack of political action to enact sensible gun control policies that have proven to be effective; NOW, THEREFORE, BE IT

RESOLVED, The Detroit City Council urges the Michigan legislature to immediately act to reduce gun violence and death by enacting common-sense gun safety laws, including Senate Bill Nos. 76-86 of 2023, THEREFORE, BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to the Detroit delegations of both the Michigan State House and Senate, in addition to Governor Gretchen Whitmer.

Adopted as follows:

Yeas — Council Members Benson, Johnson, Santiago-Romero, Tate, Waters, Whitfield-Calloway, Young, II and President Sheffield — 8.

A RESOLUTION TO AMEND THE CUSTOMER CHOICE AND ELECTRIC RELIABILITY ACT

By Council Member Whitfield-Calloway:

WHEREAS, The City of Detroit recognizes the urgent need to transition to a more sustainable and renewable energy future; and

WHEREAS, The Michigan Customer Choice and Electric Reliability Act was enacted in 2008 to provide Michigan residents and businesses with greater choice and competition in the electric market; and

WHEREAS, The Act includes a provision that limits the amount of electric choice available to customers to no more than 10% of the total electric load in each utility service area which has limited the ability of the City of Detroit, Michigan residents, and businesses to fully realize the benefits of electric competition, including lower electricity prices, increased innovation and efficiency, and access to renewable sources of energy; and

WHEREAS, Other states, including neighboring Ohio and Illinois, have lifted, or raised similar caps on electric choice with positive results; Michigan residents and businesses deserve the same opportunities to benefit from a competitive electric market as those in other states; and

WHEREAS, The City of Detroit recognizes that removing the 10% cap on customer choice will result in significant benefits for the community and environment by allowing customers to access more renewable energy sources, helping to reduce the carbon footprint of the city, and contributing to a cleaner and healthier environment for all residents, and

WHEREAS, Promoting renewable energy sources, will allow the city to take advantage of the many benefits of sustainable energy, including increased energy security and reliability, improved public health, and reduced greenhouse gas emissions; and

WHEREAS, Removing the cap will incentivize more investment in renewable energy infrastructure, creating new jobs and economic opportunities for the city, and helping to stimulate the local economy and increase the city's competitiveness in the green energy sector. NOW THEREFORE BE IT

RESOLVED, That the City of Detroit urges the State of Michigan to amend the Customer Choice and Electric Reliability Act by removing the 10% cap to allow customers access to more renewable energy sources, creating a more sustainable, resilient, and prosperous future for all residents, BE IT FURTHER

RESOLVED, That copies of this resolution be transmitted to the Governor, members of the Michigan State Senate, Michigan State House of Representatives, and the Michigan Public Service Commission, urging them to take swift action on this matter.

Yeas — Council Members Benson, Johnson, Santiago-Romero, Tate, Waters, Whitfield-Calloway, Young, II and President Sheffield — 8.

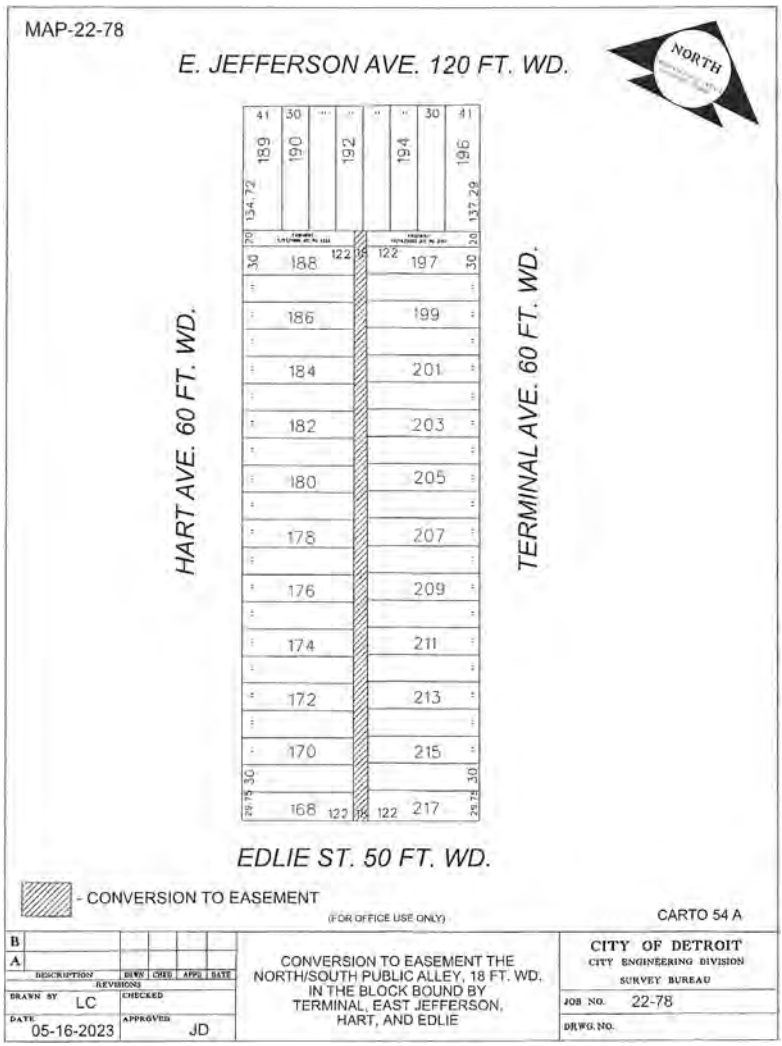
Provided, That free and easy access to the sewers, water mains, fire hydrants and appurtenances within the easement is required for the Detroit Water and Sewerage Department equipment including the use of backhoes, bulldozers, cranes or pipe trucks, and other heavy construction equipment, as necessary for the alteration or repair of the sewer or water main facilities; and be it further



Provided, That said owners of the adjoining property, for themselves, their

heirs and assigns, agree that no building or structure of any nature whatsoever, including porches, patios, balconies, etc., shall be built upon said easement without prior written approval and agreement with the Detroit Water and Sewerage Department; and be it further

Provided, That if any time in the future, the owners of any lots abutting on said vacated alley shall request the removal and/or relocation of the aforementioned utilities in said easement, such owners shall pay all costs incident to such removal and/or relocation. WALK-ONS

RESOLUTION TO RENAME 16TH STREET TO VERNOR HIGHWAY AT ROOSEVELT PARK

WHEREAS, With the ongoing upgrades to Michigan Central Station, Roosevelt Park will become a catalytic public space in the neighborhood. Residents have expressed the desire for Roosevelt Park to become a diverse, multipurpose park that can bring together various community groups and act as a valuable neighborhood destination. The Greater Corktown neighborhood framework plan recommended several initiatives to enhance public open spaces, create safer streets and improve pedestrian mobility, and generate equitable housing options. One of the primary recommendations of the Greater Corktown neighborhood is to "unify" Roosevelt Park by reconnecting the parcels and creating a safer and more accessible public park.

WHEREAS, The park was originally a single parcel and then was split when the use of automobiles became prominent in Detroit. The portion of West Vernor Highway that runs through Roosevelt Park will be removed to formally unify the park and create more public park space. The portion of 16th Street, within the Corktown neighborhood, is located between West Vernor Highway to the south and Michigan Avenue to the north. This stretch of 16th street is adjacent to Roosevelt Park and is proposed to be renamed West Vernor Highway to allow that stretch of street up to Michigan Ave to continue as West Vernor Highway.

WHEREAS, The Detroit City Code sets forth the procedure for renaming streets under Chapter 43 Streets Sidewalks and Public Places, Article III, Opening, Closing, Extending, Widening, Vacating, Naming, Renaming of Streets, and Assigning Secondary Names to Streets, Division 2 Renaming Streets. More particularly, Section 43-3-21(c) of the City Code provides: No action shall be taken by the City Council until a complete investigation and report thereon shall have been made by the Planning and Development Department.

Office of the Chief Financial Officer
Office of Budget

June 16, 2023

Honorable City Council:

Re: FY 2022-2023 and FY 2023-2024 Transfers and Supplemental Appropriations Resolution.

The Administration is requesting approval of a resolution authorizing appropriation transfers and supplemental appropriations to facilitate a deficit-free year-end close for Fiscal Year 2022-2023 and authorize additional spending in Fiscal Year 2023-2024. Under Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") and the 2012 Detroit City Charter, the City cannot incur expenditures in an appropriation account in excess of the amount appropriated by the Detroit City Council.

After reviewing projected year-end activity, the Office of Budget is requesting authority, under certain conditions and limitations, to transfer unencumbered appropriation balances and make budget entries in fiscal year 2022-2023 to ensure final expenditures do not exceed available appropriations. Transfers will net to zero across appropriations. The resolution also appropriates $350,000 in anticipated developer donations to the Affordable Housing Development and Preservation Fund. We will transmit a final report of all fiscal year 2022-2023 actions taken under this resolution.

The requested fiscal year 2023-2024 supplemental appropriations include $2,325,000 supported by the City's remaining $2,423,446 unassigned fund balance (i.e., prior year surplus) from the fiscal year that ended June 30, 2022. They include the following:

• $1,000,000 for the OCFO to begin implementing the Land Value Tax Plan

• $1,200,000 for the Health Department to provide transportation services for pregnant Detroit women seeking prenatal care

• $125,000 for the City Council to hold a legislative policy retreat

We respectfully request your approval of the attached resolution, with a waiver of reconsideration, to authorize these supplemental appropriations and transfers.

Best Regards,
STEVEN WATSON
Deputy CFO / Budget Director

By Council Member Durhal, III:

Whereas, Section 17(1) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that a deviation from the original general appropriations act shall not be made without amending the general appropriations act; and

Whereas, Section 18(3) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that an administrative officer of the local unit shall not incur expenditures against an appropriation account in excess of the amount appropriated by the legislative body; and

Whereas, Section 19 of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that the legislative body in a general appropriations act may permit the chief administrative officer to execute transfers within limits stated in the act between appropriations without the prior approval of the legislative body; and

Whereas, Section 8-210 of the 2012 Detroit City Charter authorizes that if during the fiscal year the Mayor advises the City Council that there are available for appropriation revenues in excess of those estimated in the budget, the City Council may make supplemental appropriations for the year up to the amount of the excess; and

Whereas, Section 8-211 of the 2012 Detroit City Charter authorizes that any time during the fiscal year upon written request by the Mayor, the City Council may, by resolution, transfer all or part of any unencumbered appropriation balance among the programs, services or activities within an agency or from one agency to another; and

Office of the Chief Financial Officer Office of Budget

June 27, 2023

Honorable City Council Members:

Re: FY 2022-2023 and FY 2023-2024 Transfers and Supplemental Appropriations Resolution. (REVISED)

The Administration is requesting approval of a resolution authorizing appropriation transfers and supplemental appropriations to facilitate a deficit-free year-end close for Fiscal Year 2022-2023 and authorize additional spending in Fiscal Year 2023-2024. Under Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act') and the 2012 Detroit City Charter, the City cannot incur expenditures in an appropriation account in excess of the amount appropriated by the Detroit City Council.

After reviewing projected year-end activity, the Office of Budget is requesting authority, under certain conditions and limitations, to transfer unencumbered appropriation balances and make budget entries in fiscal year 2022-2023 to ensure final expenditures do not exceed available appropriations. Transfers will net to zero across appropriations. The resolution also appropriates $350,000 in anticipated developer donations to the Affordable Housing Development and Preservation Fund. We will transmit a final report of all fiscal year 2022-2023 actions taken under this resolution.

The requested fiscal year 2023-2024 supplemental appropriations include $1,325,000 supported by the City's remaining $2,423,446 unassigned fund balance (i.e., prior year surplus) from the fiscal year that ended June 30, 2022. They include the following:

• $1,200,000 for the Health Department to provide transportation services for pregnant Detroit women seeking prenatal care

• $125,000 for the City Council to hold a legislative policy retreat

We respectfully request your approval of the attached resolution, with a waiver of reconsideration, to authorize these supplemental appropriations and transfers.

Best regards,

STEVEN WATSON

Deputy CFO/Budget Director

By Council Member Durhal, III:

Whereas, Section 17(1) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that a deviation from the original general appropriations act shall not be made without amending the general appropriations act; and

Whereas, Section 8-211 of the 2012 Detroit City Charter authorizes that any time during the fiscal year upon written request by the Mayor, the City Council may, by resolution, transfer all or part of any unencumbered appropriation balance among the programs, services or activities within an agency or from one agency to another; and

City Planning Commission

Honorable City Council:

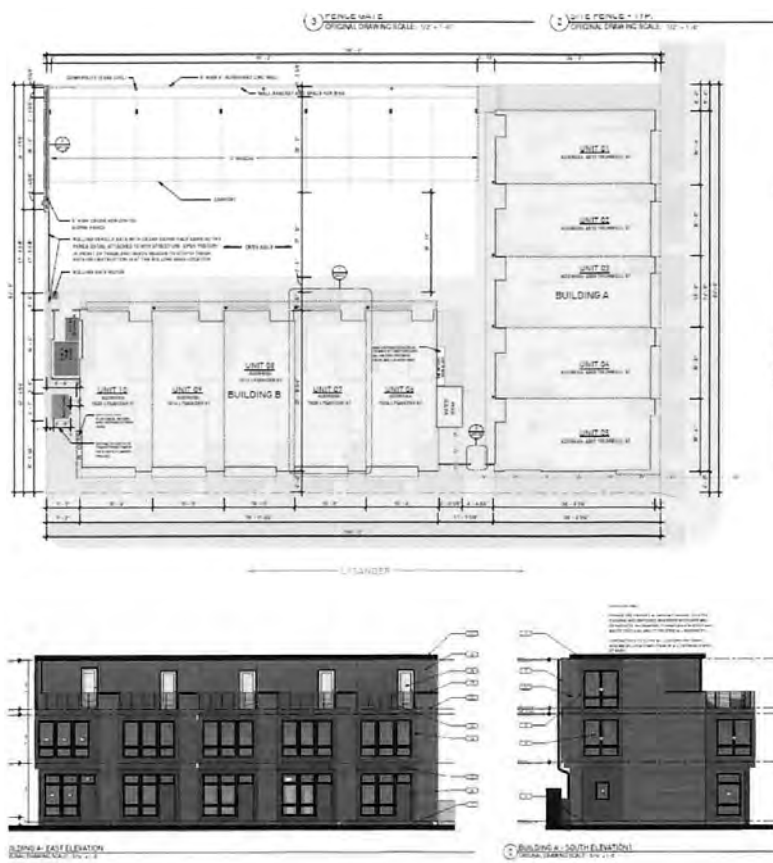
Re: Neighborhood Enterprise Zone Certificate Applications for the new construction of 10 for-sale townhome units located in the Trumbull Lysander Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received 10 applications requesting Neighborhood Enterprise Zone (NEZ) certificates for the new construction of 10 for-sale townhome units.

The developer for the project is Trumbull Properties, Inc. represented by Lawrence Mio of Dell Rose Development. The site is in the Woodbridge neighborhood, located at the northwest corner of Trumbull and Lysander. The site is presently vacant. The developer is proposing two 3-story buildings each with 5 units, referred to as Arise Woodbridge.

	Square footage	Bedrooms	Unit Cost	Expected Sale Price
Unit 1	1,211	2	$339,840	$400,000
Unit 2	1,211	2	$339,840	$400,000
Unit 3	1,211	2	$339,840	$400,000
Unit 4	1,211	2	$339,840	$400,000
Unit 5	1,224	2	$339,840	$400,000
Unit 6	1,211	2	$339,840	$400,000
Unit 7	1,211	2	$339,840	$400,000
Unit 8	1,211	2	$339,840	$400,000
Unit 9	1,211	2	$339,840	$400,000
Unit 10	1,228	2	$339,840	$400,000

The site plan shows 10 surface parking spaces. Attached is a map, site plan, and conceptual drawing of the project. The developer indicates the units are not specifically handicap accessible, but if there is a potential buyer that is in need of handicap accessibility, they would install all needed accessibility components.



It appears the NEZ certificate applications have been submitted prior to the issuance of applicable building permits — the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted the NEZ certificate applications dated May 31, 2023, to the City Clerk's office.

The subject property has been confirmed as being within the boundaries of the Trumbull Lysander NEZ which was established by a vote of City Council on November 22, 2022. CPC staff has reviewed the applications and recommends approval. A resolution for your consideration. Please contact our office should you have any questions.

June 14, 2023

Honorable City Council:

Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2022-2023 Official Compensation Schedule:

1. To include the attached pay range adjustments.

Request:

The above recommendation is at the request of the Department of Public Works.

Rationale:

The Department of Public Works seeks a competitive wage so that they can attract, develop, and retain talent for their operations. Recently, pay range adjustments were approved by council for three union roles (Materials Laboratory Technician, Construction Inspector, and Senior Construction Inspector). Approval of adjusted pay ranges for these positions caused compression issues throughout the remainder of the roles within the series.

As a result of the issues noted above, Human Resources Classification and Compensation was asked to evaluate the remainder of the relevant classifications. The evaluations were conducted by completing a market study using data from external sources for comparable positions. The results indicate that in addition to requiring adjustments to resolve the compression issues, 6 of the 7 classifications have pay ranges that are not competitive.

The proposed pay ranges are based on the City of Detroit's ability to fund the increases and are subject to City Council approval.

Respectfully submitted,
DENISE STARR
Human Resources Director

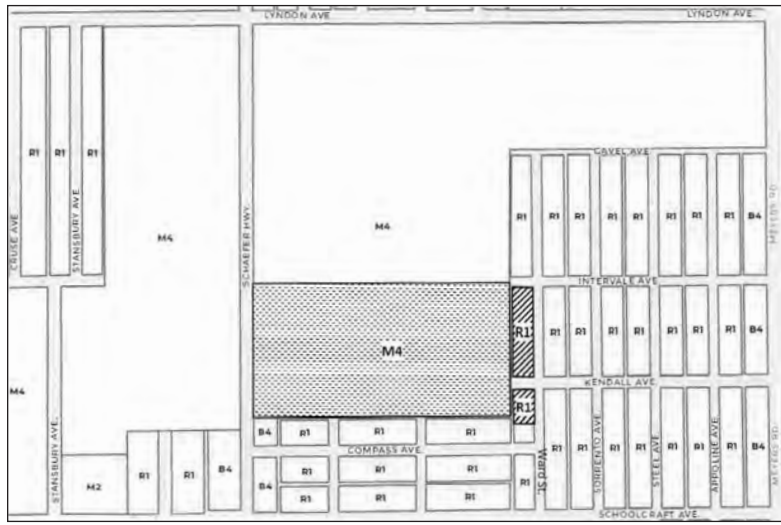
City Planning Commission

May 23, 2023



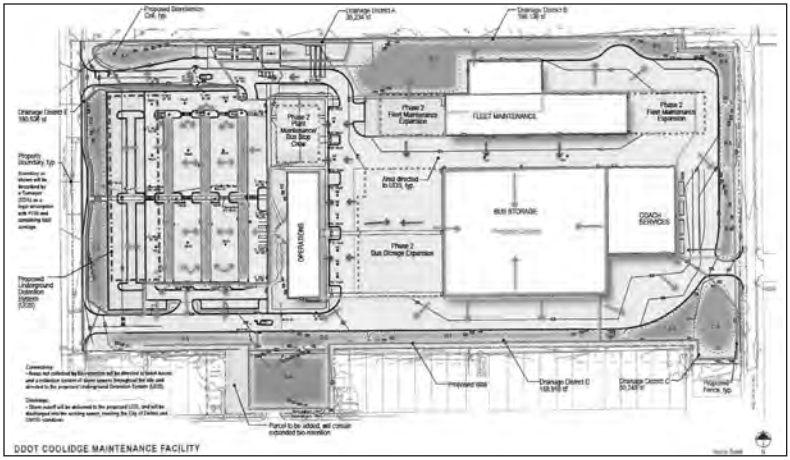
Honorable City Council:

Re: Request of the Detroit Land Bank Authority and the City Planning Commission as a co-petitioner to amend District Map No. 68 to show an M2 (Restricted Industrial District) zoning classification where an R1 (Single-Family Residential District) zoning classification is currently shown on approximately 18 parcels on the west side of Ward Street between Compass and Intervale Streets and to show an M2 zoning classification where an M4 (Intensive Industrial District) zoning classification is currently shown on one parcel of approximately 19.5 acres commonly known as 14044 Schaefer Hwy. **(RECOMMEND APPROVAL — Requesting introduction and the setting of a public hearing.)**

The City Planning Commission (CPC) has received a request from the Detroit Land Bank Authority (DLBA) to amend Article XVII, Section 50-17-70, District Map No. 68 of the 2019 Detroit City Code, Chapter 50, Zoning, to show an M2 zoning classification where an R1 zoning classifi-

cation is currently shown on approximately 18 parcels on the west side of Ward Street between Compass and Intervale Streets. In addition, the CPC has joined this request as a co-petitioner to show an M2 zoning classification where an M4 zoning classification is currently shown on one parcel of approximately 19.5 acres commonly known as 14044 Schaefer Hwy. generally bounded by Lyndon St. to the north, Ward Ave. to the east, Compass St. to the south, and Schaefer Hwy. to the west. The DLBA is in the process of transferring the land to DDOT.

The proposed rezoning is being requested to permit the replacement of the existing Coolidge Terminal with a modern terminal in order to allow DDOT to continue to provide essential public services to the western portion of the City of Detroit. Initially, the petitioner requested to only rezone the parcels along Ward St. from R1 to M2. During analysis of the surrounding zoning and discussion about the process of parcel combination with the City's Assessor's office, the CPC decided to co-petition and add the approximately 19.5 acres where the vacant Coolidge Terminal is presently located.



Shaded Area is proposed to be rezoned from M4 and R1 to M2

BACKGROUND AND REQUEST

The subject property is located in City Council District 7. The Coolidge Terminal and Maintenance Facility located at 14044 Schaefer Highway operated as a transit service facility from 1928 to 2011. In 2011, a fire destroyed a portion of the facility and halted operations. Efforts to rebuild the facility and resume operations were cancelled in 2013 as the City of Detroit faced bankruptcy.

The proposed bus facility would completely revamp the current Coolidge Terminal. The proposed new terminal would include bus storage, coach services, operations, administration, and fleet maintenance with indoor storage. These buildings would be spread out over the site and a thorough storm water management plan is included in the plan with various bioretention basins surrounding the entire site. In addition, there is also a proposed underground detention system. The site plan also contains future plans for the potential expansion of each operation.

The new facility will accommodate 24-hour operations and initially house approximately 144 buses, with the capacity to expand up to 216 buses in the future. The facility will also provide 245 parking spaces for its staff and visitors.

Community Input

The Detroit Building Authority (DBA) and DDOT held multiple community meetings where they presented their plans to rebuild the Coolidge Terminal. These meeting included:

• A first virtual public meeting — Thursday, June 30, 2022

• A second virtual public meeting — Thursday, October 27, 2022

• A Public Hearing — February 16, 2023

During these meetings, the DBA and DDOT provided information regarding the project and received feedback from the public. Some of the comments included:

• There was excitement for this project to be realized; it was noted that this facility will provide better working conditions for bus operators.

• A question was asked related to whether native Detroiters will be provided the opportunity to build the proposed terminal (DBA confirmed that native Detroiters will be used in the construction and operation of the facility).

• It was asked will staff or volunteers conduct the door-to-door canvassing mentioned during the meeting. (DDOT confirmed that both staff and volunteers will be a part of canvassing).

• There was a question about DDOT bus routes, and which southwest routes would get moved over to the proposed new Coolidge Terminal.

• There was a question about electric and zero emission buses.

• There was a question related about eminent domain of the properties on Ward Ave. and how long the Detroit Land Bank Authority has been in possession of the properties.

• There was a question about what will happen with the current Gilbert Terminal off of I-94.

In addition to these meetings, DDOT conducted outreach via door to door canvasing, spoke with existing area organizations and groups, hosted a public workshop, held an informational forum, and conducted pop-up events to solicit input and answer questions.

PUBLIC HEARING RESULTS

On March 2, 2023, the City Planning Commission held a public hearing on this rezoning request. During the hearing, two members of the public spoke with concerns related to the rezoning. One gentleman spoke about concerns with the retaining wall that is currently located on the eastern edge of site (along Ward Street) being removed and replaced with other types of screening. He also asked whether Hartwell Ave. or Littlefield St. would be used by DDOT to enter or exit from the Coolidge Terminal (these streets dead-end into the current Terminal along Compass Street). His last concern is related to an ongoing DLBA foreclosure case for 13500 Compass St. The petitioner mentioned that they do plan to remove the existing retaining wall but will comply with city standards regarding screening and buffering. The petitioner also clarified that Hartwell Ave. and Littlefield St. would not be used by DDOT for its operations. 13500 Compass St. is not a part of the proposed rezoning but is a part of DDOT's stormwater plan for facility. The other member of the public who spoke during the public hearing was concerned about her property on Schoolcraft Rd. and whether it would be impacted by the proposed rezoning. CPC staff clarified that she received notice from CPC in order to make her aware of the rezoning, but, again, her site is not included in the request.

PLANNING CONSIDERATION

Current Zoning

R1 — Single-Family District

In general, the R1 Single-Family Residential District is designed to protect and preserve quiet, low-density residential areas now primarily developed and those areas which will be developed with single-family detached dwellings and characterized by a high ratio of home ownership. The regulations for this district are designed to stabilize and protect the essential characteristics of the district and to promote and encourage a suitable environment for activities associated with family life.

M4 — Intensive Industrial District

In general, the M4 Intensive Industrial District will permit uses which are usually objectionable and, therefore, the district is rarely, if ever, located adjacent to residential districts. A broad range of uses is permitted in this district. New residences are prohibited with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses.

Proposed Zoning

M2 — Restricted Industrial District

In general, the M2 Restricted Industrial District is designed for a wide range of industrial and related uses which can function with a minimum of undesirable effects. Industrial establishments of this type provide a buffer between residential districts and intensive industrial districts. New residential construction is excluded from this district with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses.

Surrounding Zoning and Land Use

The zoning classification and land uses surrounding the subject area are as follows:

North: M4 and R1 — Industrial Warehousing and Residential
East: R1 — Residential and Vacant Land
South: R1 — Residential and Vacant Land
West: M4 — Tow Yard

Zoning Ordinance Approval Criteria

Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. Following are the relevant criteria with the CPC analysis in italics:

— Whether the proposed amendment will protect the health, safety, and general welfare of the public. *The proposed rezoning of parcels along Ward St. would bring industrial uses closer to residentially zoned land. However, the stormwater plan for the Coolidge Terminal shows that the parcels would primarily be used for bioretention basins. The downzoning of the larger M4 parcel to M2 would reduce the potential for high impact uses on the site.*

— Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development. *The redevelopment of the Coolidge Terminal would increase the public services offered by DDOT and provide the opportunity for more streamlined operations for bus operators.*

— Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management; *The stormwater management plan for this site includes bioretention, catch basins, and an underground detentions system (UDS) to ensure that stormwater is properly diverted to reduce flooding on the site and in the surrounding community.*

Master Plan Consistency

The subject site is located within the Mackenzie area of Neighborhood Cluster 7 of the Detroit Master Plan of Policies. The Master Plan Future General Land Use map for this area shows Light Industrial (IL). The Planning & Development Department (PDD) has prepared a Master Plan Interpretation (attached) and found the proposed zoning classifications to be consistent with the Master Plan.

Traffic Impact

In 2022, DDOT prepared a traffic impact study for this site. In the study, DDOT analyzed intersection capacity and determined that all intersections in the study area would operate at acceptable levels in both the 2025 initial build and 2045 full build scenarios. During the construction phase, a traffic control plan would be developed to manage vehicular and pedestrian circulation. In addition, DDOT will prohibit construction vehicles from using residential streets to access the site. Finally, DDOT will monitor intersections to determine if a traffic signal is warranted in the future.

CONCLUSION

Based on the above analysis and consistent with the approval criteria of Sec. 50-3-70 of the Zoning Ordinance, the CPC voted at its March 16, 2023, meeting to recommend APPROVAL of the rezoning request. The approved-as-to-form Ordinance is attached for your consideration.

Housing and Revitalization Department

June 9, 2023

Honorable City Council:

Re: Request to Appropriate Section 108 Loan Proceeds.

Housing and Revitalization Department ("HRD") currently has a total of $961,663.06 held in several subaccounts at Huntington Bank within the ("Section 108 Loan Repayment Account"). The $961,663.06 dollar amount reflects unused prior Section 108 loan proceeds received from the U.S. Department of Housing and Urban Development ("HUD") which remain after developers fully drew down the funds needed for their respective projects. These remaining loan proceeds are from Section 108 funded projects where the City's corresponding debts to HUD have not yet been satisfied. HUD has directed the City of Detroit to spend these funds on repaying debt service on the respective Section 108 loans and HRD desires to use the funds within the Section 108 Loan Repayment Account to pay debt services due to HUD. The specific loan repayment accounts and balances at Huntington Bank which comprise the $961,663.06 are:

HUD 108 Woodward Gardens II Loan Repayment Account	$7,634.07
HUD 108 Woodward Gardens III Loan Repayment Account	$8,255.21
HUD 108 Book Cadillac II Loan Repayment Account	$305,621.91
HUD 108 Garfield II Note 1 Loan Repayment Account	$192,127.19
HUD 108 Garfield II Note 2 Loan Repayment Account	$71,113.45
HUD 108 Garfield II Note 3 Loan Repayment Account	$331,857.78
HUD 108 Garfield II Note 4 Loan Repayment Account	$45,053.45
Total Amount in Loan Repayment Account:	**$961,663.06**

HRD hereby respectfully requests that your honorable body adopt the following resolutions to appropriate $961,663.06 from the Section 108 loan proceeds in the Loan Repayment Accounts to repay debt service.

A waiver of reconsideration is requested.

Respectfully submitted,
KELLY R. VICKERS
Chief Housing Development and Investment Officer
Housing and Revitalization Department

By Council President Pro Tem.Tate:

Whereas, The City of Detroit is in possession of $961,663.06 Section 108 loan proceeds ("Section 108 Loan Proceeds") from the U.S. Department of Housing and Urban Development ("HUD"), related to Section 108 loans made by the City of Detroit to various developers pursuant to the HUD Section 108 loan guaranty program, which Section 108 Loan Proceeds remain after developers fully drew down the funds needed for their respective projects. The Section 108 Loan Proceeds are currently held in the various Section 108 Loan Repayment subaccounts with Huntington Bank ("Loan Repayment Account").

Whereas, The City's debts to HUD under the Section 108 loan guaranty program which the Section 108 loan proceeds were originally related to, have not yet matured and are still being paid.

Whereas, The Housing and Revitalization Department ("HRD") will use these funds to repay debt service due to HUD, as Section 108 loan payments are due.

Now, Therefore, Be It Resolved, That $961,663.06 from the Section 108 Loan Repayment Account be appropriated to Appropriation No. 13529; and further

Resolved, That HRD is hereby authorized to expend $961,663.06 from Appropriation No. 13529 to repay Section 108 debt service; and further

Resolved, That HRD is hereby authorized to pay principal and interest due on the HUD Section 108 Notes as such payments become due from the Loan Repayment Accounts; and further

Resolved, That the City's Chief Financial Officer, or their authorized designee, is hereby authorized to increase Appropriation No. 13529 by $961,663.06 to repay debt service from Appropriation No. 13529; and be it finally

Resolved, That the City's Chief Financial Officer, of his authorized designee, is hereby authorized to accept and process all documents consistent with the authorizations and approvals grant herein.

A waiver of reconsideration is requested.

City Planning Commission

May 12, 2023

Honorable City Council:

Re: Zoning Ordinance text amendment, Chapter 50 of the 2019 Detroit City Code to add smoking lounge, cigar; smoking lounge, other; and tobacco retail store as defined specific land uses permissible in certain zoning districts subject to spacing regulations, specific use standards, off-street parking regulations, and nonconforming use provisions. **(RECOMMEND APPROVAL)**

BACKGROUND

Initial Request

Upon receiving numerous complaints from residents and inquiries from members of the substance abuse prevention community, Council Member Scott Benson requested that CPC staff prepare a Zoning Ordinance (ZO) text amendment that specifically identifies hookah and vape shops/lounges as a use. It was initially requested that this use be studied for inclusion in the B3 district, or a more intense district, as a conditional use as the ZO does not currently specifically address smoking-related uses including smoking lounges where tobacco products (includes hookah tobacco) may be consumed onsite or tobacco stores where products may be purchased for consumption elsewhere.

There is a general concern with hookah lounges that they function less as a casual smoking lounge for patrons, like a cigar bar/lounge, but have more intense characteristics and external effects of a night club or an unauthorized after-hours establishment, such as a "blind pig," where illegal alcohol consumption and other activities occur. Additionally, an increase in traffic, noise, loitering, and violence have been expressed as general concerns. These issues are not unique to Detroit as other cities such as Farmington Hills and Cincinnati have dealt with similar criminal activity related to hookah lounges. Below are recent news reports of criminal activity and hookah lounges within Detroit.

Zoning Ordinance

Currently, the ZO does not specifically address tobacco-related uses such as hookah lounges or vape/tobacco stores as specific land uses. Based on a May 13, 2022, memo provided by the Law Department to City Council, it appears that the Buildings, Safety Engineering, and Environmental Department (BSEED) has administered hookah lounges under the existing specific land use of "stores of a generally recognized retail nature," which are permitted as a by-right retail, service, and commercial use in the following zoning districts when the use does not include a drive-up or drive-through facility: B2 through B6, M1 through M4, PCA, TM, SD1, SD2, and SD4. Given the specificity in the way the ZO treats many other uses (there are approximately 300 specific land uses in the ZO), especially those that may have problematic external effects, CPC staff and Commissioners agree that it would be appropriate to amend the ZO to address hookah lounges and vape/tobacco stores as specific land uses, instead of administering these uses under general retail.

Smoking Lounge Ordinance and Business Licensing — MDHHS

In staff's research regarding the proposed amendment, we have been made aware of concerns of the Michigan Department of Health and Human Services (MDHHS) that the City of Detroit does not currently require a business license for hookah lounges. This is something that several Metro Detroit communities, including Farmington Hills, that have had problems with hookah lounges have required through the adoption of smoking lounge ordinances. Therefore, in addition to the proposed amendment, CPC staff has been coordinating with the Law Department and Health Department towards drafting a smoking lounge ordinance and business license requirement for future consideration by City Council that would supplement this proposed zoning amendment.

SUMMARY OF RESEARCH

Census North American Industry Classification System

CPC staff could not locate any national or state resources on zoning best practices for regulating hookah and vape shops/lounges that we could consider or model. This may be due to the relatively small-scale or newness of these land uses. However, the U.S. Census Bureau provides a North American Industry Classification System (NAICS) that is a valuable standardized resource for considering uses and how they may relate to local zoning controls. The NAICS structure indicated in the below tables has been incorporated into the proposed amendment, specifically for use categories; we note that the NAICS does not have any index entry for cigar bars/lounges. The NAICS classifies hookah lounges and vape shops as two separate uses:

Cigar Bars vs. Tobacco Specialty Retail Stores (Hookah Lounges) — P.A. No. 188 of 2009

In Michigan under Public Act No. 188 of 2009, known as Michigan's Smoke-Free Indoor Air Law, there is a limited number of establishments or locations where indoor tobacco smoking is legal:

1. Cigar Bars that have a state-approved exemption*
2. Tobacco Specialty Retail Stores (hookah lounges) that have a state-approved exemption*
3. The gaming floors only of the three Detroit casinos
4. Any tribal-owned establishment
5. Personal residences (unless HUD Housing or prohibited by landlord)

***Exemptions**

It is important to note that "exemption" is not a newly created status for establishments or applicants but refers to an establishment that was in existence prior to the Public Act No. 188 of 2009 effective date of May 1, 2010. Per the MDHHS, there is a maximum number of 300 exemptions that will ever occur within the State of Michigan: 100 for Cigar Bars and 200 for Tobacco Specialty Retail Stores. These exemptions may be purchased and located within any jurisdiction within the state. This maximum number of 200 Tobacco Specialty Retail Stores is important to note as without local restrictions, there is the potential from the state's perspective for up to 200 Tobacco Specialty Retail Stores to be located within any jurisdiction, including Detroit, though that is extremely unlikely.

From the above list of five, only Cigar Bars and Tobacco Specialty Retail Stores (hookah lounges) would be subject to the proposed amendment given the concerns with hookah lounges. Under the Public Act, there are some key differences between Cigar Bars and Tobacco Specialty Retail Stores, especially when it comes to food, liquor, or restaurant licensing:

Cigar Bars

- Public Act No. 188 of 2009 does not require that an exempt Cigar Bar have either a food, liquor, or restaurant license. Rather, there is no specific mention in P.A. 188 that an exempt Cigar Bar cannot have a food, liquor, or restaurant license.
- MCL 333.12601 (1)(d) defines Cigar Bar as "an establishment or area within an establishment that is open to the public and is designated for the smoking of cigars, purchased on the premises or elsewhere."
- Unlike exempt Tobacco Specialty Retail Stores, P.A. 188 does not specifically prohibit an exempt Cigar Bar from having a food, liquor, or restaurant license.

Tobacco Specialty Retail Stores (Includes Hookah)

- MCL 333.12601 (1)(u) defines Tobacco Specialty Retail Store as "an establishment in which the primary purpose is the retail sale of tobacco products and smoking paraphernalia, and in which the sale of other products is incidental. Tobacco Specialty Retail Store does not include a tobacco department or section of a larger commercial establishment or any establishment with any type of liquor, food, or restaurant license." Food, liquor, and restaurant licenses are specifically prohibited.
- The owner of a Tobacco Specialty Retail Store may allow customers to bring prepacked or single-service style to-go food into the Tobacco Specialty Retail Store. Specifically, patrons are allowed to personally purchase food at a licensed food establishment that has a different address than the Tobacco Specialty Retail Store for personal consumption at the Tobacco Specialty Retail Store.

Existing Detroit Establishments with Exemptions — MDHHS

The MDHHS has provided a list of establishments in Detroit that possess either a Cigar

Bar or Tobacco Specialty Retail Store (hookah lounge) exemption to Public Act No. 188 of 2009 as of 2022. Staff is working to obtain information for 2023 that will be provided during presentation of this item. Cigar Bars and Tobacco Specialty Retail Stores provided in the MDHHS list of existing Detroit establishments are grouped by the MD HHS into three categories based on their annual status:

1. Establishments that have had their State exemption approved for use in 2022 (Green)
2. Establishments that have not had their State exemption approved for use in 2022 and are in the process of completing build-outs for potential MDHHS approval, or the MDHHS has yet to review the establishment's renewal affidavit (Yellow)
3. Establishments that have not had their State exemption approved for use in 2022 and the earliest they could possibly be approved is January 2023 (Red)

All establishments must submit for their exemption renewal on an annual basis no later than February 21 of each year. Establishments that did not have their state exemption approved for use in 2022 (2 and 3 above) were permitted to operate as a non-tobacco smoking cigar bar or tobacco specialty retail store with no tobacco smoking permitted until their exemption was approved for use.

Hookah Lounge Totals (Cigar Excl.)	10	N/A	**B2-5** **B4-4** **B5-1**	D2-5 D4-2 D7-1 D6-1 D5-1

CPC staff findings:

- Exemption Not Approved for 2022: Of these establishments, seven are hookah lounges (TSRS). All seven hookah lounges are zoned either B2, B4, or B5.
- Exemption Approved for 2022: Of these establishments, one is a hookah lounge zoned B4.
- Application/Renewal In Process for 2022: Of these establishments, three are hookah lounges zoned either B2 or B4.
- Hookah Lounge Totals: Of the 10 hookah lounges, five are zoned B2, four are zoned B4, and one is zoned B5. Only one of these lounges had an exemption approved for use in 2022 (B4).
- Cigar bar exemptions are indicated for two sites with residential zoning (Detroit Golf Club and Abick's Bar, a nonconforming use) and one with M4 industrial zoning (Bayview Yacht Club). Private clubs must adhere to the tobacco-smoking prohibition of P.A. No. 188 or receive a state exemption.
- Establishments Not Listed.
  - — Google Maps indicates over 20 "hookah lounges" within Detroit. Seven of the establishments indicated on Google Maps are included in the MDHHS's list, with only one establishment having an exemption approved for 2022 (1400 Gratiot Avenue — B4).
  - — Other establishments may not be included in MDHHS's list as they are strictly a retail store that does not actually offer indoor smoking but may still loosely refer to their business as a "hookah lounge", and therefore would not be required to have an approved exemption. Or they may be operating illegally as a hookah lounge with indoor smoking without a state-approved exemption to our knowledge (14404 Gratiot Avenue — B4).
  - — The proposed text amendment seeks to address this nuance that certain commercial establishments may loosely refer to their business as a "hookah

lounge" without actually containing an MDHHS-regulated indoor smoking lounge through the proposed addition of multiple specific land uses that could be administered.

Model Metro Detroit Zoning Requirements

The MDHHS has also provided CPC staff with smoking lounge ordinances from nine Metro Detroit communities that they believe could be used as a model for Detroit. Of the nine Metro Detroit model smoking lounge ordinances provided by the MDHHS for guidance, five municipalities, Canton Township, Dearborn, Dearborn Heights, West Bloomfield Township, and Ypsilanti Township specifically address smoking lounges in their zoning ordinances. Below are CPC staffs findings related to the five zoning ordinances reviewed for this use. These findings informed the structure of the proposed amendment.

CPC staff findings:

- **Definitions.** "Smoking Lounge" is the preferred term used for state-approved smoking lounges (cigar bars or hookah lounges), this term also matches each community's "smoking lounge ordinance" business license requirement. Using the same term between both the zoning code chapter and business license requirement code chapter assists in the administration of requirements as it should be clear that both sets of requirements apply to smoking lounges.
- **Districts Permitted.** There is not consistency between how and where the five model municipalities permit smoking lounges. Canton Township and Dearborn Heights permit smoking lounges as a by-right or conditional use in multiple zoning districts, while Dearborn, West Bloomfield Township, and Ypsilanti Township only permit smoking lounges as a conditional use in one intermediate zoning district (B-3 General Business/B-B Community).
- **Use Standards.** There is some consistency between how four of the five model municipalities permit smoking lounges as a conditional use. While Dearborn may appear to have the most comprehensive set of use standards, many of the requirements included in their ZO would likely be better suited in the business license requirement chapter as they are operational requirements that should be tied to the license, rather than a one-time review requirement that would be of interest to the planning commission or other land use administrators.
- **Spacing and Parking.** There is consistency between four of the model municipalities in that setbacks are required for smoking lounges from certain low intensity uses and other smoking lounges, and affirmation that minimum parking is required to try to mitigate potential impacts on adjacent neighborhoods.

Model Metro Detroit Business Licensing Requirements

Below are CPC staff's findings related to smoking lounge ordinances adopted by the same five municipalities that specifically address smoking lounges in their zoning ordinances/codes. These regulations are contained in code chapters that are separate from each community's zoning code chapter. As previously stated, CPC staff will be providing future information on a draft text amendment to the 2019 Detroit City Code that would constitute a new smoking lounge ordinance and business requirement for Detroit that would work alongside this proposed ZO text amendment, which, again, is something the MDHHS is strongly encouraging for permitting and enforcement purposes.

CPC staff findings:

- Three of the five municipalities provide a maximum number of smoking lounge licenses that may be issued. Dearborn's maximum is flexible at 15 total with additional permitted by City Council. A cap on the maximum number of smoking lounge licenses is something that could be considered for Detroit, though this has not been expressed as a desire to-date.
- All municipalities provide some restriction on hours of operation, generally being closed to the public between 1 a.m./2 a.m. and 8 a.m./10 a.m. daily. Employees are permitted on the site during non-public hours.
- Dearborn permits take-out only food to be brought into smoking lounges. This is the only municipality that specifically permits or addresses this in their smoking lounge ordinance.
- Four of the five municipalities have a similar mechanical ventilation requirement, which refers to ventilation being supplied and exhausted per the Michigan Mechanical Code and prohibits recirculation and natural ventilation.
- Additional operational regulations are consistently required for signage that prohibits loitering, minors on the premises, and other functions. These functions are also consistently addressed as prohibited activities: minors, alcoholic liquor, nudity, and controlled substances.
- Constant visual or video monitoring is something that is consistently required.
- Provisions for exterior lighting and ensuring patrons do not park in adjacent or neighboring parking lots or residential areas is also something that could be considered, though it may be difficult or impossible to determine and enforce if vehicles parked in certain off-site areas are patrons of a smoking lounge, or not.

- Outdoor activities are consistently restricted in the five municipalities. Three of the five prohibit any outdoor activities and require all doors and windows to remain closed. Dearborn and Dearborn Heights permit some outdoor activities, such as smoking in outdoor patio areas. In any case, outdoor activities within any parking areas are prohibited.
- Penalties and enforcement are consistent as a misdemeanor with a maximum $500 fine and/or maximum 90 days in jail. Model ordinance penalties can be reviewed for consistency with existing 2019 Detroit City Code penalties.

SUMMARY OF PROPOSED TEXT AMENDMENT

1. Proposed Zoning Definitions

As discussed during previous CPC meetings, there has been a clear desire to regulate cigar bars/lounges separately from hookah lounges given the noted external effects of hookah lounges. The first step in regulating any specific land use is to clearly define the use and related uses or terms to inform the administrative process. The proposed amendment defines cigar bars/lounges as "smoking lounge, cigar" and defines hookah lounges as "smoking lounge, other." It is common in zoning for "other" to be added to a common land use term to capture uses that may be similar but are desired to be regulated differently when it comes to permissible zoning districts and use regulations. "Other" is also used in this instance to reflect that there are additional uses beyond hookah lounges that are regulated by the MDHHS under the Smoke-Free Indoor Air Law term of "Tobacco Specialty Retails Stores," which includes but is not limited to hookah lounges.

The proposed amendment includes the following definitions that would be added to the ZO as specific land use terms, except for the proposed definition of "hookah" that is only provided to inform the definition of "smoking lounge, other":

1. **Hookah.** A type of water pipe used to smoke tobacco or other legal non-tobacco smoking products or substances, in which air is heated by charcoal or burning embers and passed through the tobacco or other substance to form smoke, and the smoke then passes through a water-filled chamber where it is filtered and cooled, and then inhaled through a tube and mouthpiece by one or more users during a smoking session. At the end of the end of a smoking session, the dirty water is discarded and the water chamber is refilled for the next session. The term "hookah" may also be referred to as a water pipe, narghile, argileh, goza, or hubble bubble.
2. **Smoking lounge, cigar.** An establishment or area within an establishment that constitutes a "cigar bar" as defined by Section 12601 of the Michigan Smoke-Free Indoor Air Law, PA 188 of 2009, being MCL 333.12601. Smoking lounge, cigar, does not include smoking lounge, other, medical marijuana facilities, or adult-use marijuana establishments as defined by this article.
3. **Smoking lounge, other (hookah lounge).** A retail establishment that constitutes a "tobacco specialty retail store" as defined by Section 12601 of the Michigan Smoke-Free Indoor Air Law, PA 188 of 2009, being MCL 333.12601 and that is designated wholly or in part for the on-premises smoking of tobacco products or non-tobacco smoking products or substances, which may include the onpremise use of hookah as defined by this article. 4. Proposed Specific Use Standards

Smoking lounge, other, (hookah lounges) and tobacco retail store would be regulated as follows. There would be no specific use standards for smoking lounge, cigar, given the noted difference in external effects. SEPTEMBER 22 STAFF RECOMMENDATION TO CPC

If approved by City Council, the proposed amendments to the Zoning Ordinance would specifically regulate the three proposed specific land use terms, instead of continuing to administer these uses, specifically hookah (smoking) lounges as a general retail use. In addition to the proposed amendment, CPC staff and the Law Department will be providing future information on a potential smoking lounge ordinance and business license requirement that would supplement the proposed zoning text amendment, which would be considered at future meetings. Based on the above analysis and consistent with the approval criteria of Section 50-3-49 of the Zoning Ordinance, CPC staff recommends approval of the proposed text amendment.

CPC RECOMMENDATION TO CITY COUNCIL

On September 22, 2022, the City Planning Commission voted to recommend approval of the proposed text amendment, as presented in the draft text amendment ordinance dated September 21, 2022. Additionally, on October 20, 2022, the City Planning Commission voted to add "smoking lounge, cigar" as a by-right use in the newly created MKT (Eastern Market) zoning district. The pending ordinance approved as to form will reflect both actions.

Honorable City Council:

Re: Transfer of Jurisdiction of Real Property to the Department of Parks and Recreation — 2791 E. Jefferson, 1431 E. Ferry, 3731 Elmhurst and 3728, 3729, 3735, 3740 and 3746 Tuxedo.

The City of Detroit Planning and Development Department ("P&DD") has requested that the Finance Department transfer jurisdiction of certain City-owned real property located at 2791 E. Jefferson, 1431 E. Ferry, 3731 Elmhurst and 3728, 3729, 3735, 3740 and 3746 Tuxedo (individually, the "Property", and collectively the "Properties") to the Department of Parks and Recreation ("DPR") to administer.

The Department of Parks and Recreation is currently in the process of self-auditing all of the parcels under their jurisdiction, as part of an effort to rectify their own records, as well as completing park expansion projects across the city. All of the Properties have been previously erroneously transferred to P&DD when they should have been under the jurisdiction of DPR. The Property located at 2791 was initially transferred as part of a land swap, related to the Dennis Archer Greenway, but was incorrectly transferred back to P&DD, instead of DPR. 1431 E. Ferry was transferred to P&DD during renovation of the Animal Control building located at 5710 Russell. As part of the transfer back to DPR, DPR will be expanding the parking lot in conjunction with the General Services Department. The Properties located at 3728, 3729, 3735, 3740, and 3746 Tuxedo, as well as 3731 Elmhurst will be transferred back to the DPR, where they will be combined and a new City park will be constructed. 3728, 3729, 3735, 3740, and 3746 Tuxedo, as well as 3731 Elmhurst are zoned R2 (Two-Family Residential District); 2791 E. Jefferson is zoned B4 (General Business District); and 1431 E. Ferry is zoned M4 (Intensive Industrial District). The proposed use of the Properties shall be consistent with the allowable uses for which the Properties are zoned, and any future use shall comply with any applicable zoning use or existing federal grant restrictions.

Pursuant to Sec. 2-7-3 of the 2019 Detroit City Code, it is hereby requested by the Finance Department that Detroit City Council approve the transfer of jurisdiction of the property from P&DD to the Department of Parks and Recreation.

Respectfully submitted,
ANTOINE BRYANT

By Council President Pro Tem.Tate:

Whereas, The Detroit Planning and Development Department ("P&DD") has jurisdiction over certain City of Detroit real property located at 2791 E. Jefferson, 1431 E. Ferry, 3731 Elmhurst and 3728, 3729, 3735, 3740, & 3746 Tuxedo (collectively the "Properties") as further described in the attached Exhibit A; and

Whereas, P&DD has requested that the Chief Financial Officer transfer jurisdiction of the Properties to the Department of Parks and Recreation ("DPR") for management, and in accordance with Article 7, Chapter 2 of the Detroit City Code, the Chief Financial Officer has designated P&DD responsible for its management; and

Whereas, P&DD has determined that they no longer have a specific need for the Properties and that they are more appropriately administered by DPR. DPR intends to utilize the Properties in renovation, beautification, park expansion and improvement projects; now therefore be it

Resolved, That in accordance with Sec. 2-7-3 of the 2019 Detroit City Code, Detroit City Council hereby approves the transfer of jurisdiction of the Property from the City of Detroit Planning and Development Department to the Department of Parks and Recreation.

PROJECT-SPECIFIC REQUIREMENTS — APPENDIX A

GRANTEE: City of Detroit
SIGMA VSS: VS0257719
ACCOUNTING DETAIL: (FY22) Renew Michigan

1. Statement of Purpose

The Michigan Department of Environment, Great Lakes, and Energy protects Michigan's environment and public health by managing air, water, land, and energy resources, and is focused on addressing climate change, diversity, equity, and inclusion. The Recycling Program provides matching grants to support efforts to increase the statewide recycling rate and grow recycling markets and recycling supply chains. The EGLE Sustainability Section, on behalf of the Granter, will serve as the grantee's primary contact and will negotiate all conditions of this grant.

1.1. Statement of Work

The Grantee agrees to undertake, perform, and complete the following project:

This project has four distinct sections: Multifamily expansion, Curbside Expansion, Data Collection & Analysis, and Zero Waste Pre-Planning.

A. Deliverables

a. Multifamily Expansion. The initial rollout of DPW's multifamily recycling service in 2021 had low participation across the board from multifamily buildings. This project will expand DPW's capacity to pilot and refine a model to bring more multifamily units into our customer base. This will also include assistance in understanding the path forward in further expanding our multifamily recycling through policy and procedural recommendations. GLS will be the primary contractor working on this program, and RRS will assist as outlined. The rollout plan will be developed in Q1; we will engage with our housing partners throughout Q1-Q3; recycling services and education will be deployed throughout Q2-Q5; recommendations will be produced in Q3; and the project report will be complete in Q5.

b. Curbside Expansion. Detroit Recycles has long operated under an opt-in curbside recycling program, and this opt-out pilot will demonstrate the value of an opt-out approach so that we can make a use case for an eventual City-wide opt-out strategy. Q1 will include planning; the carts and education will be deployed by the end of Q2; contamination monitoring, and data collection will occur during Q2-4; and the summary report will be concluded by the end of Q5.

c. Data Collection and Analysis. An inventory of Detroit's recycling market will be completed by Q3, and it will explore what businesses in the city are recycling or using recycled materials. DPW and GLS will work together to create an efficient system for DPW to continue tracking our data during Q3 and Q4. Throughout the course of the project, GLS and RRS will assist in exploring new models of structuring our recycling contracts to identify opportunities for Detroit to benefit from investing in increasing the supply of recyclables.

d. Zero Waste Pre-Planning. Grant funding will expand DPW's capacity to engage with critical stakeholders to initiate the creation of a Zero Waste Plan for Detroit and to explore various models of how other cities staff zero waste offices. Engagement with local organizations and city council will occur during Q1 and Q4. The advisory board will be formed in Q1 and meet monthly for the duration of the grant. The advisory board will be tasked with identifying pertinent resources and identifying preliminary objectives and recommendations for next steps.

e. Submit quarterly reports of progress to EGLE.

f. Submit final report of project outcomes to EGLE.

Department of Public Works

June 6, 2023

Honorable City Council:

Re: **Petition #2023-219** — Detroit Metro Sports Commission, request to install 37 banners around Ford Field, 16 banners on Washington Boulevard from Jefferson to Congress, 23 banners on Jefferson Avenue from Randolph to Beaubien and 18 banners on Campus Martius for special event WWE Summer Slam.

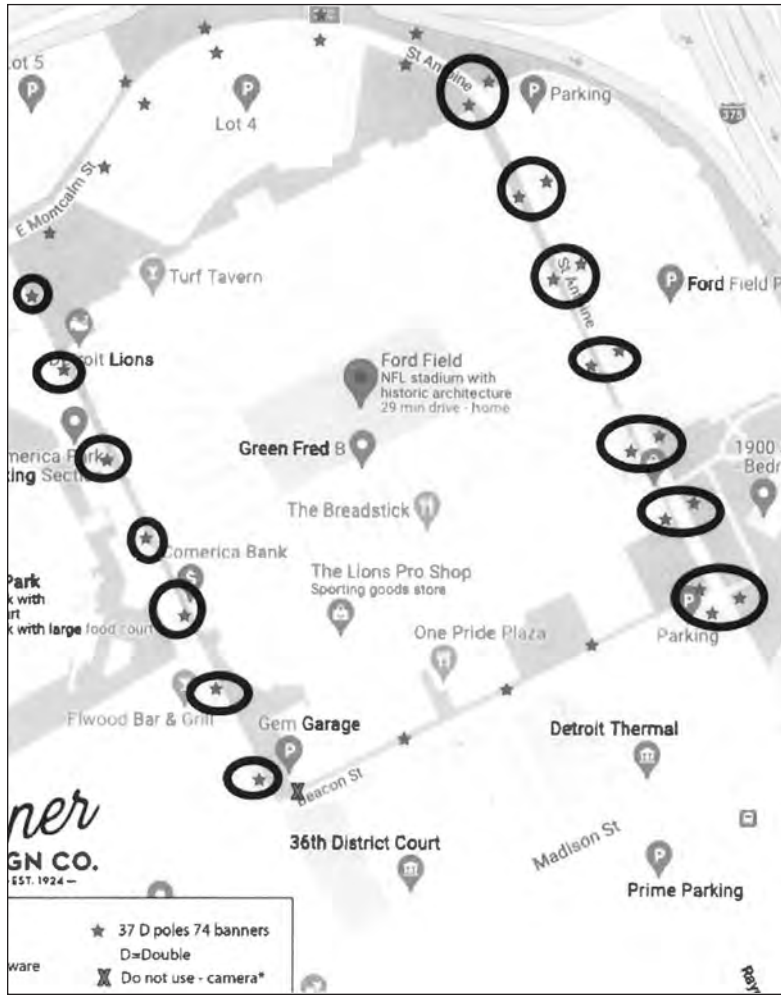
The Department of Public Works, Traffic Engineering Division received the above referenced petition. This department has no objections to the placement of banners, provided that the banner installation is in compliance with the banner policy adopted by your Honorable Body on November 30, 2001, and subject to the following conditions:

1. 37 banners around Ford Field, 16 banners on Washington Boulevard from Jefferson to Congress, 23 banners on Jefferson Avenue from Randolph to Beaubien and 18 banners on Campus Martius as shown in the attached map.
2. The duration of banner installation shall be from July 5, 2023 until August 7, 2023.
3. Banners shall not exceed thirty-two (32) inches in width by ninety-four (94) inches in height and should be acrylic or vinyl with standard slitting (also called "Happy Faces").
4. Banners shall be affixed to allow minimum of (15) feet clearance from walkway surface.
5. Banners shall not include flashing lights that may be distracting to motorists.
6. Banners shall not have displayed thereon any legend or symbol which is, or resembles, or which may be mistaken for a traffic control device, or which attempts to direct the movement of traffic.
7. Commercial advertising is strictly prohibited on all banners, including telephone numbers, mailing addresses, and website addresses.
8. A sponsoring organization's logo and/or name may be included at the bottom of the banner in a space no more than ten (10) inches in height by thirty (30) inches in length, and letter size shall be limited to four (4) inch maximum and placed at the bottom of the banner.
9. Sponsoring organizations may not include messages pertaining to tobacco and related products, alcoholic beverages, firearms, adult entertainment or sexually explicit products, or political campaigns or related agenda.
10. Sponsoring organizations may not include legends or symbols which may be construed to advertise, promote the sale of, or publicize any merchandise or commodity, with the exception of sponsorship as described in the banner policy (see section 9 of the policy).

11. Banner placement must be a minimum of 120 feet or every other pole apart, whichever is greater, including banners that may exist at the time of the installation and is limited to a two thousand (2000) feet radius area of the event location or within the stated organization's boundaries.

12. The design, method of installation and location of banners shall not endanger persons using the highway or unduly interfere with the free movement of traffic.

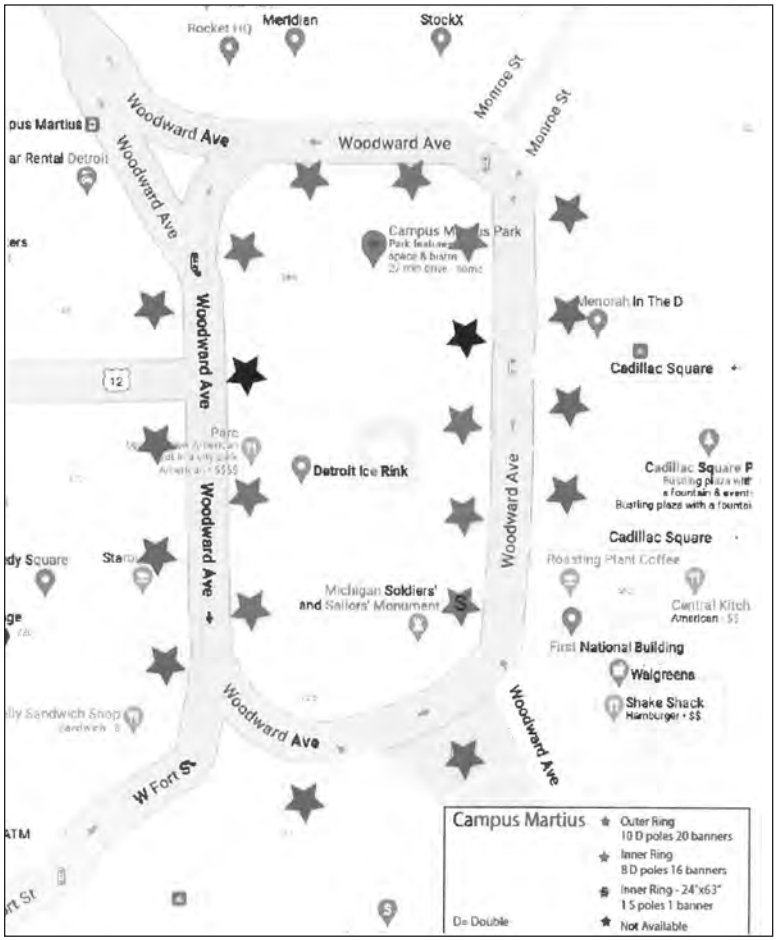
13. The petitioner SHALL secure an approval from Public Lighting Department to use their utility poles to hang the banners.



14. The petitioner SHALL secure Right of Way permit from City Engineering Division every time the banners are changed/replaced.

15. The wording on the banners will be "Summer Slam Detroit, Ford Field Aug. 8th" as per attached graphic.

16. Since Jefferson Avenue is a state trunk line in the above location, approval from the Michigan Department of Transportation is required.



If deemed appropriate by the City of Detroit, The City reserves the right to have the banners removed by the Petitioner at the Petitioner's cost prior to expiration date.

The following contract was entered into and granted by the Chief Procurement Officer, as noted, to provide standby emergency ambulance response coverage for the City of Detroit through September 2023. In the past month, there have been three (3) occasions in which no ambulance units were available during peak times; City ambulances currently have a utilization rate of 65-0%, well- above the national average of approximately 40%; however, it is evident that there is an extraordinary deficiency in resources and capabilities that will only be exacerbated in the coming summer months and that requires immediate corrective action to protect the public. If left unresolved, these problems will both negatively impact the ability of residents to receive critical lifesaving services and feed a vicious cycle in which City employees are overworked and thus less likely to be retained, further increasing the threat to residents and the immediate need for additional resources.)**

City of Detroit
Legislative Policy Division

June 28, 2023

Honorable City Council:

Re: Resolution In Support of Secretary of State Jocelyn Benson's Proposed Elections Budget. [Revised]

Council President Mary Sheffield requested that the Legislative Policy Division (LPD) draft a resolution urging the Michigan Legislature to approve the elections budget proposed by Secretary of State Jocelyn Benson in order to fully fund the implementation of the Proposal 2 voting measures passed by the voters in November 2022.

Please contact us if we can be of any further assistance.

RESOLUTION IN SUPPORT OF SECRETARY OF STATE JOCELYN BENSON'S PROPOSED ELECTIONS BUDGET

By COUNCIL PRESIDENT SHEFFIELD:

WHEREAS, In November of 2022, Michigan voters approved Proposal 2, which is a series of amendments to the Michigan Constitution meant to protect the fundamental right to vote for every eligible voter in Michigan; and

WHEREAS, Proposal 2 is a nonpartisan effort to make voting more accessible for all Michigan voters while also modernizing the voting process and preserving the integrity of election results; and

WHEREAS, To achieve its purpose, Proposal 2 enumerated various changes, including: recognition of the fundamental right to vote, providing for early voting sites up to 9 days before election day, providing for the counting of votes for military personnel and those living overseas

if the ballots are postmarked on or before election day, the use of a photo ID or affidavit to verify voter identity, allowing individuals to be placed on a permanent absentee voter list, providing prepaid ballot postage and a state-funded ballot tracking notification system, providing ballot boxes, and providing a fair an transparent method for conducting election audits; and

WHEREAS, Recently, Secretary of State Jocelyn Benson proposed an elections budget to the Michigan Legislature, with about $64 million in Proposal 2 implementation costs and about $21 million in annual ongoing costs; and

WHEREAS, Secretary Benson recently explained to the Detroit News that the most significant contributing factors to the increase in cost are the 9 days of early voting and the additional security, personnel, and technology requirements necessary to implement Proposal 2; and

WHEREAS, The state has an obligation to fully fund the implementation of Proposal 2, which is a mandate from Michigan voters and a requirement under the Michigan Constitution; and

WHEREAS, In addition to being fundamental rights, voting and access to the ballot are also fundamental to a well-functioning democracy, therefore governments have a responsibility to ensure that the voting process is efficient, secure, transparent, fair, and accurate; and

WHEREAS, Without proper funding from the state, the burden of implementing Proposal 2's extensive mandates will fall onto local clerks and poll workers, which will likely cause delay, disruption, and confusion for voters; and

WHEREAS, As Detroit's legislative body, the Detroit City Council is committed to ensuring that all eligible Detroit residents are able to exercise their right to vote to the fullest extent contemplated by Proposal 2; NOW THEREFORE BE IT

RESOLVED, The Detroit City Council strongly urges the Michigan Legislature to fully fund the implementation of Proposal 2 in accordance with Secretary of State Jocelyn Benson's budget request; THEREFORE, BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to the Detroit delegations of both the Michigan State House and Senate, in addition to Governor Gretchen Whitmer.

Honorable City Council:

Re: Authorization to acquire seven (7) Parcels from the Detroit Land Bank Authority for the Joe Louis Greenway.

The City of Detroit ("City"), by and through the General Service Department/ Parks and Recreation Division ("DPR"), is hereby requesting the authorization of your Honorable Body to acquire certain vacant parcels from the Detroit Land Bank Authority ("Acquisition Parcels") for the Joe Louis Greenway project:

District 6 (1 parcel)

• 7271 Central

The total area of vacant land to be transferred from DLBA to DPR in District 6 is 3,006 square feet. The properties are zoned R3 (Low Density Residential District). DPR will develop the properties as part of the Joe Louis Greenway with construction commencing Summer 2023.

District 7 (6 parcels)

• 12642 Greenlawn
• 12648 Greenlawn
• 12658 Greenlawn
• 12664 Greenlawn
• 12670 Greenlawn
• 12676 Greenlawn

The total area of vacant land to be transferred from DLBA to DPR in District 7 is 22,726 square feet. The properties are zoned R2 (Two-Family Residential District). DPR will develop the properties as part of the Joe Louis Greenway with construction commencing Summer 2023.

In accordance with the requirements of Detroit City Code, Section 2-1-12, City Council is required to approve any gift, grant, devise or bequest of real or personal property to be used for any public purpose. Pursuant to the Memorandum of Understanding ("MOU") between the City

of Detroit and the Detroit Land Bank Authority, approved by the Detroit City Council on May 2020, the Detroit Land Bank Authority may not transfer ten (10) or more parcels of property received from the City to the same transferee within any rolling 19-month period without the prior approval of the Mayor and City Council.

We hereby request that your Honorable Body approved the attached resolution authorizing the Detroit Land Bank Authority to transfer seven (7) vacant parcels to the Parks and Recreation Division for the Joe Louis Greenway.

Respectfully submitted,
CRYSTAL PERKINS
Director
General Services Department

By Council Member Young, II:

Now, Therefore, Be It Resolved, That City of Detroit ("City") through the General Service Department ("GSD") wishes to acquire seven (7) vacant parcels within the City of Detroit, Michigan, more particularly described in the attached Exhibit A ("Acquisition Parcels") from the Detroit Land Bank Authority ("DLBA").

Whereas, Building Safety, Engineering and Environmental Department has reviewed the environmental report on the environmental conditions of the Acquisition Parcels attached herein as Exhibit A; and

Whereas, In accordance with Chapter 2, Article I, Division 2 of the Detroit City Code: (1) the City Council finds that the Acquisition Parcels have received appropriate environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) the environmental inquiry has shown that past use of the Acquisition Parcels for the period investigated has been solely for residential purposes and that the Acquisition Parcels do not pose an adverse environmental impact, therefore none of the Acquisition Parcels are considered a facility; and (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and therefore waives the requirements that the seller bear the cost of the environmental inquiry; now therefore be it

Resolved, That Detroit City Council hereby approves acquisition of the Acquisition Parcels from the DLBA for no consideration; and be it further

Resolved, That the Director of GSD, or her authorized designee, is authorized to accept and record a deed to the Acquisition Parcels to the City of Detroit, as well as execute any such documents as may be necessary or convenient to effect the transfer of the Acquisition Parcels from the DLBA to the City of Detroit; and be it further

Resolved, That the Director of GSD, or her authorized designee is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to correction of or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Acquisition Parcels to the City, provided that the changes do not materially alter the substance or terms of the transfer; and be it finally

RESOLUTION TO RENAME 16TH STREET TO VERNOR HIGHWAY AT ROOSEVELT PARK

By Council President Pro-Tem. Tate:

WHEREAS, With the ongoing upgrades to Michigan Central Station, Roosevelt Park will become a catalytic public space in the neighborhood. Residents have expressed the desire for Roosevelt Park to become a diverse, multipurpose park that can bring together various community groups and act as a valuable neighborhood destination. The Greater Corktown neighborhood framework plan recommended several initiatives to enhance public open spaces, create safer streets and improve pedestrian mobility, and generate equitable housing options. One of the primary recommendations of the Greater Corktown neighborhood is to "unify" Roosevelt Park by reconnecting the parcels and creating a safer and more accessible public park.

WHEREAS, The park was originally a single parcel and then was split when the use of automobiles became prominent in Detroit. The portion of West Vernor Highway that runs through Roosevelt Park will be removed to formally unify the park and

create more public park space. The portion of 16th Street, within the Corktown neighborhood, is located between West Vernor Highway to the south and Michigan Avenue to the north. This stretch of 16th street is adjacent to Roosevelt Park and is proposed to be renamed West Vernor Highway to allow that stretch of street up to Michigan Ave to continue as West Vernor Highway.

WHEREAS, The Detroit City Code sets forth the procedure for renaming streets under Chapter 43 Streets Sidewalks and Public Places, Article III, Opening, Closing, Extending, Widening, Vacating, Naming, Renaming of Streets, and Assigning Secondary Names to Streets, Division 2 Renaming Streets. More particularly, Section 43-3-21(c) of the City Code provides: No action shall be taken by the City Council until a complete investigation and report thereon shall have been made by the Planning and Development Department.

WHEREAS, Section 43-3-23 of the City Code outlines the investigative steps to be conducted by the Planning and Development Department before bringing the petition to City Council. Staff concludes that they have completed all the necessary investigative steps outlined in Section 43-3-23 and has submitted a sketch of the street, the written report and its recommendation for City Council's consideration.

WHEREAS, The Planning and Development Department has provided information addressing the factors to be considered for renaming a street outlined in Section. 43-3-24 of the City Code. Given this initiative is City-led, DPW will cover the costs associated with creating the new street signs. THEREFORE, BE IT

RESOLVED, The Detroit City Council has received from the Planning and Development Department the following required material: a sketch of the street, the written report and recommendation along with a review of the factors to be considered for renaming a street, consistent with the City Code; and BE IT FURTHER

RESOLVED, The requisite discussion and public hearing on the renaming of that portion of 16th street to West Vernor Highway as set forth in this resolution has been held pursuant to the City Code, the Detroit City Council hereby grants the renaming of the above referenced portion of 16th street between West Vernor Highway to the south and Michigan Ave to the north as a continuation of West Vernor Highway.

Yeas — Council Members Benson, Durhal, III, Johnson, Santiago-Romero, Tate, Waters, Whitfield-Calloway, Young, II and President Sheffield — 9.
