Human Resources
Classification and Compensation Administration

October 12, 2023

Honorable City Council:

Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2023-2024 Official Compensation Schedule to include the following pay range, subject to City Council approval:

Class Code	Classification	Pay Range
931641	Chief Information Security Officer	$144,000 - $198,700

Request:

The above recommendation is at the request of the Chief Information Officer Arthur Thompson, with the Department of Innovation and Technology.

Rationale:

The recommendation is based on the department's expressed need to create the Chief Information Security Officer title as this is a subset of responsibilities that Arthur performs in addition to his current role. The position directs the planning and implementation of enterprise Information Technology security for systems, business operations, and physical technology assets to ensure protection against security breaches. Responsible for auditing existing systems, directing vulnerability mitigation activities, and administering security programs, policies, and standards.

To determine an appropriate pay range, a compression analysis and market study were conducted using data from external survey sources for comparable positions. While utilizing the discovered market data, an internal review was completed to determine the strength of the proposed pay range against similar roles for competitiveness and to ensure fairness amongst their peers. The outcome of the external analysis along with discussions with department leaders while reviewing the market and job specification set the pay range for the Chief Information Security Officer at $144,000 - $198,700.

The proposed pay range recommendation is subject to City Council approval.

Respectfully submitted,
DENISE STARR
Human Resources Director

By Council Member Johnson:

October 12, 2023

Honorable City Council:

Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2023-2024 Official Compensation Schedule to include the following pay range, subject to City Council approval:

Request:

Class Code	Classification	Current Pay Range	Proposed Pay Range
10126	Executive Director Board of Ethics	$72,289 - $118,670	$98,100 - $127,500

The above recommendation is at the request of the Board of Ethics Executive Director, Christal Phillips, and Chair of the Board, Kristin Lusn.

Rationale:

The recommendation is based on the department's expressed need to ensure the pay range for the Executive Director is commensurate with its job duties, competitive with the market and attractive enough to retain the necessary talent.

A market survey was completed utilizing compensation data from Mercer, PayFactors, and various municipalities utilizing the job functions outlined in the Executive Director Board of Ethics job specification. Survey data was used to determine the market average for this role in comparison to the current salary range. The in-depth analysis of compensation data reviewed key data points to identify and align similarities of the Detroit Board of Ethics to the national market as it relates to scope of responsibility, qualifications, educational requirements, and other determining factors.

Upon completion of the study, it was determined that the market average for an Executive Director Board of Ethics is $112,800. The market average was established as the midpoint and the range spread (min. to max.) was applied, creating the new salary range of $98,100 - $127,500, competitive to the national market. The proposed pay range recommendation is subject to City Council approval.

Respectfully submitted,
DENISE STARR
Human Resources Director

By Council Member Johnson:

Resolved, That the 2022-2023 Official Compensation Schedule is hereby amended to reflect the following pay range, effective upon Council's approval.

Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2023-2024 Official Compensation Schedule to include the following pay range adjustments, subject to City Council approval:

Class Code	Classification	Current Pay Range	Proposed Pay Range	Barg. Unit	Current Step	New Step
8632019	Senior Service Guard General	$35,201 - $39,085	$39,300 - $45,200	7400	A	D
8631038	Head Property Guard	$41,599 - $44,799	$47,400 - $56,900	9001	-	-

Request:

The above recommendation is at the request of the Security Administrator Lynn Sanders, with the General Services Department.

Rationale:

The recommendation is based on the department's expressed need to ensure the pay range for the Senior Service Guard is commensurate with its job duties, competitive with the market and attractive enough to retain the necessary talent. Reporting to the Head Property Guard, the Senior Service Guards supervise a group of employees engaged in providing security and protective services on municipal properties.

To determine an appropriate pay range, a compression analysis and a market study were conducted using data from external survey sources for comparable positions. It was determined that compression exists between the pay ranges of the Head Property Guard and Senior Service Guards. The listed recommendation will alleviate the compression by increasing the pay range differential between the two aforementioned positions.

The proposed pay range recommendation is subject to City Council approval.

Legislative Policy Division

October 16, 2023

Honorable City Council:

Re: Resolution Establishing the Retiree Taskforce.

Council Member Fred Durhal, III requested that the Legislative Policy Division (LPD) draft a Resolution Establishing the Retiree Taskforce.

Please contact us if we can be of any further assistance.

Sincerely,
DAVID WHITAKER
Director
Legislative Policy Division Staff

RESOLUTION ESTABLISHING THE RETIREE TASKFORCE

By Council Member Durhal, III, joined by Council Member Waters:

WHEREAS, In 2013, the City of Detroit filed for bankruptcy, which remains the largest municipal bankruptcy in United States History; and

WHEREAS, After the Bankruptcy Court determined that the City was eligible for chapter 9 bankruptcy relief, the City entered into a Plan of Adjustment (POA) for the resolution of the City's debts, which the Bankruptcy Court approved in December of 2014; and

WHEREAS, The POA made drastic changes to the City's retirement plans, and it separated the retirement plans for retirees who were vested at the time of the bankruptcy. The retirement plans for employees vested at the time of the bankruptcy are referred to as the "legacy plans" and employees who were not vested at the time of bankruptcy are part of the "hybrid plans"; and

WHEREAS, Legacy retirees in both the General Retirement System (GRS) and the Police & Fire Retirement System (PFRS) saw significant cuts to their retirement benefits, such as a reduction in their monthly retirement checks, the elimination of cost of living adjustments (COLA), the elimination of medical benefits, and a "claw-back" for retirees who had received benefits from the Annuity Savings Fund; and

WHEREAS, As a result, many legacy retirees have to had to survive on a very modest monthly income[1] and cover their own medical costs, aside from a $125 stipend from the Voluntary Employee Beneficiary Associations (VEBA); and

WHEREAS, Because GRS retirees do not receive COLA and PFRS retirees had a 55% reduction in COLA, retirees have had to make do with less as inflation has risen drastically in recent years. According to the Consumer Price Index Inflation Calculator from US Department of Labor's Bureau of Labor Statistics, it takes $1,315.81 as of September of 2023 to have the same buying power as $1,000 in 2014; and

WHEREAS, As inflation continues to rise, it is increasingly difficult for many retirees to cover all of their necessary monthly expenses; and

WHEREAS, Undoubtedly, many retirees were incentivized to remain a City employee for decades because of the expectation that they would receive their full pre-bankruptcy retirement benefits, as the Detroit bankruptcy was unprecedented, and

WHEREAS, The Detroit City Council recognizes the struggle and sacrifice of legacy retirees as well as the need to provide whatever financial aid that is feasible given the years of dedicated public serv-ice that retirees provided to the city of Detroit; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby establishes the Retiree Taskforce effective immediately and continuing until December 31, 2024; BE IT FURTHER

RESOLVED, That the Retiree Taskforce will be chaired by Council Member Fred Durhal, III, and may include City Council members, retirees, representatives from the General Retirement System and/or the Police and Fire Retirement System, financial advisors or experts, healthcare professionals, labor representatives, human resources representatives, members of community or senior organizations, legal counsel or experts, and academic or research experts; NOW BE IT FINALLY

RESOLVED, The Retiree Taskforce will focus on exploring and addressing the needs of City of Detroit retirees and will provide recommendations to the Duggan Administration and City Council on available methods to address those needs.

---

[1] According to the 2022 GRS Summary Annual Report, the average annual allowance from the Legacy Pension Plan is $19,980.66. That means that nonuniform Detroit retirees, on average, receive about $1,665 from their pension each month. Similarly, the 2022 PFRS Summary Annual Report, the average annual allowance from the Legacy Pension Plan is $31,149.18. That means that uniform Detroit retirees, on average, receive about $2,596 from their pension each month. The average renting uniform retiree would only have $1,274 to cover all non-housing costs for the month.

Adopted as follows:

BRUSH PARK FORM-BASED CODE

Sec. 1. Intent.

This Brush Park Form-Based Code ("Form-Based Code") is intended to provide the public with a predictable vision of the built environment in the Brush Park neighborhood. This Form-Based Code regulates land development using form as the primary basis to define the developing character of the neighborhood. This Form-Based Code creates opportunities for medium-density mixed-use development while incorporating elements from the Brush Park Rehabilitation Project Fourth Modified Development Plan, the City of Detroit Master Plan of Policies for the Brush Park neighborhood, and the design guidelines for the Brush Park and Brewster-Wheeler Recreation Center Historic Districts. This Form-Based Code designates civic space for community recreational use, encourages pedestrian-friendly streets and the advancement of a walkable urban neighborhood. The organizing principle for this Form-Based Code is a hierarchy of street types that determine the placement of specific building types and by-right uses based on intensity.

Sec. 2. Purpose.

The purpose of this Form-Based Code is:

(1) To implement the goals and objectives of the Brush Park Rehabilitation Project Fourth Modified Development Plan, the City of Detroit Master Plan of Policies for the Brush Park neighborhood, and the design guidelines for the Brush Park and Brewster-Wheeler Recreation Center Historic Districts.

(2) To provide the Brush Park community predictability in the outcome of development and redevelopment through an efficient administrative permitting process.

(3) To provide a diversity of urban housing choices appropriate to Brush Park.

(4) To place commercial uses within a safe, comfortable walking distance of residential units.

(5) To prevent the establishment of incompatible developments in Brush Park.

(6) To encourage mixed-use development in order to reinforce Brush Park as a walkable urban neighborhood.

(7) To permit the development of attached medium to high-density residential buildings and multi-story, multi-unit, mixed-use buildings that relate to the size and scale of the existing historic district context.

Sec. 3. Applicability.

(a) This Form-Based Code is applicable to all zoning lots that are both located within the area depicted in the regulating maps set forth in Section 7 of this Form-Based Code and shown on Zoning Map No. 4, set forth in Section 50-17-5 of this Code, as having a PD Planned Development zoning classification.

(b) If any provision of this Form-Based Code conflicts with any other provision set forth elsewhere in this ~~Chapter~~ chapter, ~~the provisions of~~ this Form-Based Code control~~s~~.

Sec. 7. Regulating maps.

(a) *District boundaries.* The boundaries of the area to which this Form-Based Code applies are shown on Map 7(a) and Map 7(b) of this ~~Section~~ section.

(b) *Street types map.* All streets located within the area to which this Form-Based Code applies are classified by type, being "A" Streets, "B" Streets, and "C" Streets. Such classifications are shown in Map 7(a) of this ~~Section~~ section.

(c) *Civic spaces map.* All areas designated as "civic spaces" are shown in Map 7(b) of this ~~Section~~ section. All zoning lots shown as civic spaces must be used as civic space in accordance with Section 13(c)(5) of this Form-Based Code.

(d) *Permissible building types.* Principal and rear building types are permissible for a zoning lot based on the type of the street that abuts the primary front lot line of the zoning lot. The permissibility of each building type is set forth in Table 7(a) in this ~~Section~~ section, subject to the following:

(1) Where a zoning lot fronts a B or C Street and includes a side lot line that abuts a zoning lot that contains a Historic House, the only principal building types that are permissible for the zoning lot are Single-Family House, Multiplex, and Townhouse.

(2) A rear building is permissible on a zoning lot only if the lot also contains a principal building.

Sec. 8. Civic space standards.

(a) The area of any zoning lot located within the area identified as "Civic Space A" on Map 7(b) in Section 7 of this Form-Based Code must be not less than 44,000 square feet.

(b) The area of any zoning lot located within the area identified as "Civic Space B" on Map 7(b) in Section 7 of this Form-Based Code must be not less than 7,500 square feet.

Sec. 9. Development standards.

(a) *In general.* This ~~Section~~ section establishes the standards for all development located within the area to which this Form-Based Code applies.

(b) *Zoning lot standards.*

(1) *Permissible zoning lot types.* Any newly established zoning lot must be configured as a corner, interior, or key lot. The establishment of a new flag lot or through lot is prohibited.

(2) *Front lot lines.* Every zoning lot must have not more than one primary front lot line. For any zoning lot that abuts a single street, such as an interior lot, flag lot, or key lot, the lot line that abuts such street is the primary front lot line for the zoning lot. For any zoning that abuts more than one street, such as a through lot or corner lot, the primary front lot line must be determined as follows, and all other lot lines abutting a street are secondary front lot lines:

(i) For an existing through lot, the primary front lot line is as designated by the City Planning Commission staff.

(ii) For a corner lot that abuts an A Street the primary front lot line is the lot line that abuts such A Street.

(iii) For all other zoning lots that abut more than one street, the primary front lot line

may be determined by the property owner and so designated in the development review application for the proposed development.

(3) Lot dimensions, including lot width and depth, for each building type are required as set forth in Section 12 of this Form-Based Code.

(4) Lot width must be measured as the horizontal distance between two points along the lot lines on either side of the primary front lot line, each 20 feet from the primary front lot line.

(5) Lot depth must be measured as the horizontal distance between the midpoint of the primary front lot line and the midpoint of the rear lot line or, if there is no rear lot line, to the most distant point on any other lot line.

(c) *Building placement.*

(1) Not more than one principal building and one rear building type may be located on any zoning lot. A rear building may be located on a zoning lot only if a principal building is also located on the same lot. A ~~principle~~ principal building may be located on a zoning lot regardless of whether or not a rear building is also located on the same lot.

(2) Building placement standards for each principal and rear building type, including building setback standards, are required as set forth in Section 12 of this Form-Based Code.

(3) Unless otherwise specified in this ~~Section~~ section, all buildings and structures must be located at or behind any required minimum front, side, or rear setback.

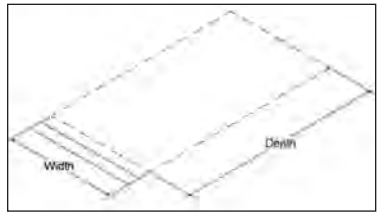
(4) Unless otherwise specified in this ~~Section~~ section, the front façade of each story of a principal building must be located at or in front of any maximum front setback for the building.

(5) Notwithstanding the front setbacks for each principal building type, as set forth in Section 12 of this Form-Based Code, any new development located on a zoning lot that is on the same block face as a Historic House must have a contextual front setback as follows, provided that the maximum front set back must not exceed the distance set forth in Section 12 of this Form-Based Code for the applicable building type:

(i) If the zoning lot is an interior lot or key lot, the minimum and maximum front setbacks must be equal to the actual setbacks for the Historic House that is located on the same block face.

(ii) If the zoning lot is a corner lot, the minimum primary front setback must be the actual front setback of any Historic House located on the same block face as its primary front lot line and the minimum secondary front setback must be the actual front setback of any Historic House located within 50 feet of the zoning lot on the same block face as its secondary front lot line.

FIGURE 9(a): Lot Dimensions.



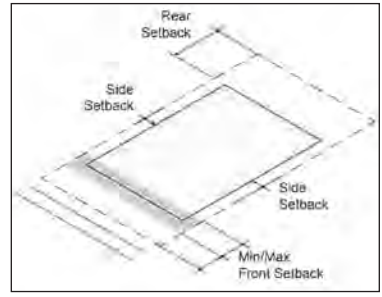


FIGURE 9(b): Setbacks.

6) Stoops, porticos, porches, awnings, and entry canopies may encroach any distance into any front setback.

(7) Cornices, belt courses, sills, buttresses and other architectural features not otherwise specified in this Subsection may encroach not more than two feet into any setback.

(8) Chimneys may encroach up to four feet into any setback, provided that any chimney must be located not less than two feet from any lot line.

(9) Balconies may project not more than four feet into any front or rear setback and not more than three feet into any side setback, provided that any such balcony must be located not less than two feet from any side lot line.

(10) Building eaves and roof overhangs may encroach not more than three feet into any setback, provided that any such eave or overhang must be located not less than two feet from any side lot line.

(11) Unenclosed fire escapes and emergency egress stairways may encroach up to four feet into any side or rear setback, provided that any such fire escape or stairway must be located not less than two feet from any side or rear lot line.

(12) Mechanical equipment associated with residential uses, such as HVAC units and security lighting, may encroach any distance into a side or rear setback, provided that such equipment must be located not less than two feet from any side or rear lot line.

(13) Terraces, uncovered and unenclosed patios, and structures below and covered by the ground may encroach any distance into a setback.

(14) Minor structures accessory to utilities, such as hydrants, manholes, transformers, and other cabinet structures, may encroach any distance into a setback.

(d) *Building standards.*

(1) Building standards for each principal and rear building type, including building coverage, massing, fenestration standards, and outdoor amenity space standards, are required as set forth in Section 12 of this Form-Based Code.

(2) Any rear building located on a zoning lot may be oriented either toward a front lot line of the zoning lot or toward an alley abutting the zoning lot.

(3) The front façade of a principal building must be oriented toward and constructed parallel to the primary front lot line of the zoning lot.

(4) The front façade of a building must be constructed in accordance with the façade build-out ratio for the applicable building type, as set forth in Section 12 of this Form-Based Code.

(5) Front façades of principal and rear buildings that are wider than 60 feet must vary in vertical plane, so as to create rhythm and articulation in the building massing.

(6) Building width must be measured as the distance between the exterior of the side walls of the building, parallel to the front facade of the building.

(7) Building depth must be measured as the maximum length of any exterior side wall of the building, perpendicular to the front facade of the building.

(8) The total number of stories of a building must be calculated as follows:

(i) The ground story counts as one story, except that a ground story that is 25 feet or more in height counts as two stories.

(ii) Each upper story counts as one story, except that any upper story with a mezzanine or loft counts as two stories.

(iii) Interstitial space between stories counts as a story if the space has a walking surface, permanent lighting, a ceiling height of seven feet six inches (7'6") or more, and is accessible via a stairwell or elevator door.

(iv) A basement counts as one story only if the finished floor of the ground story is five feet or more above the established grade at the center of the front of the building, and otherwise does not count as a story.

FIGURE 9(c): Façade Build-Out.

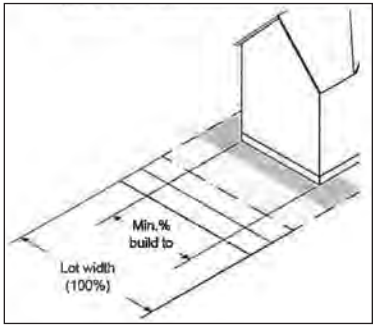

FIGURE 9(d): Building Stories.

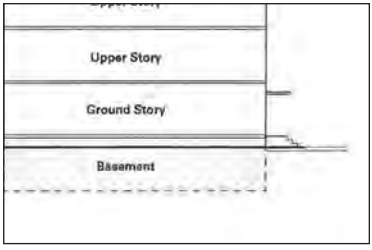

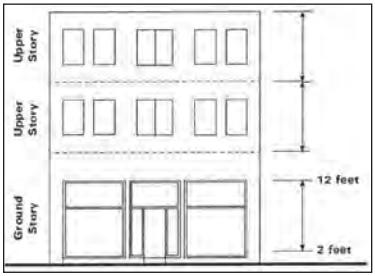

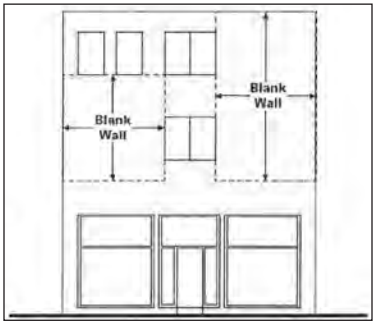

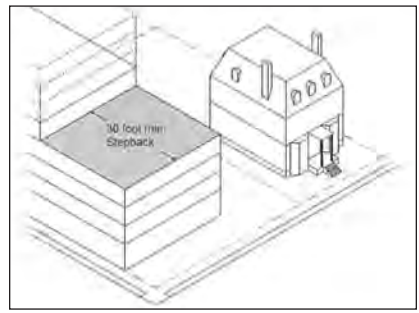

FIGURE 9(e): Fenestration.

(9) The maximum number of stories for any new structure located immediately adjacent to a Historic House is eight stories, provided that the front façade of any fifth through eighth story must be stepped back from the front facade of the adjacent Historic House by not less than 30 feet, as shown in Figure 9(f) of this Form-Based Code.

FIGURE 9(f): Stepback for Buildings Adjacent to a Historic House.

(10) For any Mid-Rise Building that is located in the area bounded by Wilkins Street on the north, I-75 Service Drive on the east and south, and Beaubien Street on the west, the maximum number of stories is 15 and the maximum height is 180 feet.

(11) For any Mid-Rise Building that is located in the area bounded by Mack Avenue on the north, Beaubien Street on the east, I-75 Service Drive on the south, and Brush Street on the west, the maximum number of stories is nine and the maximum height is 110 feet.

(12) Story height must be measured vertically from the surface of the finished floor of the story to the surface of the finished floor of the above story. If there is no story above, story height must be measured from the surface of the finished floor to the top of the structural beam or joists above or the top of the wall plate, whichever is higher. Minimum story height requirements are not applicable for half-stories.

(13) Ground story elevation must be measured from the grade plane to the top of the finished floor of the ground story of a building.

(14) Roof decks; mechanical and stairwell penthouses; roof mounted cellular, radio, and internet transmission equipment; vents or exhausts; solar panels or skylights; flagpoles; belfries, chimneys, cupolas, monuments, parapets, spires, steeples; and other non-habitable architectural features are permissible and are not subject to applicable building height limitations.

(15) At least fifty percent of the ~~All~~ principal entrances to a building or structure must be located in the front façade of the building or structure.

(16) Access to any principal entrance for a residential use must be provided by way of a stoop, portico, porch, dooryard, or lobby entrance.

(17) Any principal entrance to a building must include an awning or entry canopy, except if the principal entrance is recessed into the facade of the building. Any such awning or entry canopy must be constructed with a width of not less than the width of the doorway surround, trim, or exterior casing above which it is mounted; a depth of not less than three feet; and a clearance of not less than eight feet.

(18) Fenestration must be provided for each building type as set forth in Section 12 of this Form-Based Code, expressed as a percentage of the total area of each façade as follows:

(i) Ground story fenestration must be determined as a percentage of the area located between the heights of two feet and 12 feet above the grade plane.

(ii) Upper story fenestration must be determined as a percentage of the area located between the top of a finished floor and the top of the finished floor above.

(19) Glazing must meet the following criteria:

(i) For ground story fenestration, glazing must have a minimum of 60 percent Visible Light Transmittance and no more than 15 percent Visible Light Reflectance. Not less than 75 percent of all ground floor commercial storefront glazing must be unobstructed to a depth of not less than five feet.

(ii) For upper story fenestration, glazing ~~must have~~ must have a minimum of 40 percent Visible Light Transmittance and no more than 15 percent Visible Light Reflectance.

(20) Blank wall area limitations ~~for any façade~~ apply only to street-facing facades~~, applies~~ and must be measured both vertically and horizontally.

(21) If outdoor amenity space is required, as set forth in Section 12 of this Form-Based Code, it must be provided for as a balcony, deck, patio, porch, roof deck, roof terrace, or yard.

(22) The minimum area of any outdoor amenity space must be not less than 36 square feet, without obstruction and with no dimension less than four feet.

(23) For all building types, outdoor amenity space may be shared by multiple dwelling units, provided that the area of such shared space must be not less than the sum of the areas of the outdoor amenity spaces required for all dwelling units that the shared space is intended to serve.

(24) Ground story dwelling units must be not less than 20 feet in depth.

Sec. 10. Access and parking.

(a) *In general.* This ~~Section~~ section establishes the parking requirements for all building types, as well as the standards for access to such parking. Use of any parking facility must be limited to the temporary storage of operable private passenger vehicles.

(b) *Construction.* Parking may be provided as surface off-street parking, surface on-street parking, aboveground structured parking, and underground structured parking.

(c) *Number of parking spaces; minimum required and maximum permissible.*

(1) The minimum number of parking spaces required for each principal and rear building type is as set forth in Section 12 of this Form-Based Code.

(2) Any nonresidential use located in a building or structure that does not exceed 3,000 square feet of gross floor area is exempt from applicable minimum parking requirements.

(3) For any building or structure over 3,000 square feet of gross floor area, the City Planning Commission staff may grant a waiver of applicable parking requirements for the first 3,000 square feet of retail, service, or commercial use of such building or structure, if both of the following criteria can be satisfied:

(i) The area subject to the waiver contains a use that is pedestrian-oriented, and

(ii) The waiver will not be injurious to the surrounding areas by creating or increasing traffic congestion or by disrupting traffic circulation.

~~(4) The maximum number of parking spaces permissible for each principal and rear building type is 150 percent of the minimum number of spaces required for that building type, notwithstanding any exemptions or waivers to such requirements that may apply to any particular building or structure, except if an alternative maximum number for any building type is set forth in Section 12 of this Form-Based Code, such number must control.~~

(d) *Parking setbacks.* Parking setbacks for each principal and rear building type are required as set forth in Section 12 of this Form-Based Code. Unless otherwise specified, no off-street surface or above-ground structured parking may be located within any parking setback. Additionally, all such parking facilities, including associated drive aisles and other paved surfaces, must be set back not less than six feet from any lot line abutting a zoning lot used solely for residential purposes.

(e) *Parking access.* Parking must be directly accessible to a street via a driveway, alley, or vehicular entrance into a building or structure, subject to the following:

(1) The permissible means of access to parking for each ~~principle~~ principal and rear building type are as set forth in Section 12 of this Form-Based Code.

(2) Parking, as well as loading docks and associated service areas, must be accessible from an alley or across a secondary front lot line. Access across a primary front lot line is prohibited.

(3) Parking for multiple adjacent zoning lots may be accessible by means of a shared driveway, provided that the owners of all zoning lots with the benefit or burden of such shared driveway maintain an access easement for its use.

(f) *Satellite parking.* Parking associated with a zoning lot, excluding any required handicapped parking, may be constructed at an off-site satellite location within 1,320 feet of the zoning lot. Such distance between a zoning lot and its satellite parking must be measured radially between the nearest points of the lot lines of the zoning lot and the satellite parking, respectively. Satellite parking is further subject to the following requirements:

(1) Pedestrian access to any satellite parking facility must be via a paved sidewalk or walkway.

(2) The owner of the zoning lot that is served by the satellite parking must have an ownership or leasehold interest in the property on which the satellite parking is located. The City Planning Commission staff may require evidence of such ownership or leasehold interest in the form of a lease, recorded covenant, or other comparable legal instrument as part of the development review process set forth in Section 5 of this Form-Based Code.

(g) *Shared parking facilities.* If a zoning lot cannot feasibly contain onsite the minimum number of required parking spaces, the City Planning Commission staff may authorize the use of a shared parking facility if such facility satisfies the following standards:

(1) *Capacity.* The shared parking facility must have sufficient parking capacity to accommodate the minimum number of required parking spaces for each zoning lot that shares in its use. A single parking space in a shared parking facility may be

counted against the minimum parking requirements of multiple zoning lots only if such zoning lots are reasonably anticipated to have distinct timeframes for peak parking demand.

(2) *Location.* The shared parking facility must be located not more than 1,320 feet from the zoning lot, measured radially in accordance with the method set forth in Subsection (f) of this section.

(3) *Required study and analysis.* The applicant for development of the zoning lot shall submit a shared parking analysis to the City Planning Commission staff as part of the development review process that demonstrates the feasibility of use of the shared parking facility. The study must identify the size and type of the proposed development, the minimum number of required parking spaces, the anticipated rate of parking turnover and the anticipated peak parking and traffic loads for all uses to be located on the zoning lot, and the distance between the shared parking facility and the zoning lot; and

(4) *Shared parking agreement.* The owner of the zoning lot must have all necessary rights, in the form of an ownership or leasehold interest in the property on which the shared parking facility is located or a shared parking agreement or other contractual agreement, for use of the requisite number of parking spaces in the shared parking facility. The applicant for development of the zoning lot shall submit evidence of such rights to the City Planning Commission staff as part of the development review process.

(h) All street frontage of any zoning lot along which on-street parking is permissible may be utilized to satisfy a portion of the applicable minimum parking requirement for the zoning lot. Every continuous length of street frontage along which on-street parking is permissible that is at least 23 feet long and abuts the zoning lot may be counted as one space for purposes of satisfying the minimum parking requirement for the zoning lot.

Sec. 11. Perimeter definition, landscaping, fencing, and signage.

(a) Lot perimeter standards for each ~~principle~~ principal and rear building type, including fencing and hedge height standards, are required as set forth in Section 12 of this Form-Based Code.

(b) Any parking lot that is adjacent to a street or an abutting zoning lot must be effectively screened from such street or zoning lot by a perimeter wall or fence in accordance with Sections 50-14-341 and 50-14-342 of this Code.

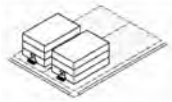
(c) A fence or hedge row may be placed along the lot lines of any zoning lot, so as to define the perimeter of such zoning lot. Permissible fencing and hedging for each building type is set forth in Section 12 of this Form-Based Code, subject to the following standards:

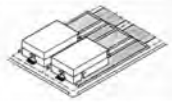
(1) Chain link fences are prohibited along primary and secondary front lot lines.

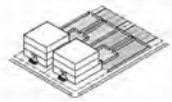
(2) Fence posts and supporting rails must face inward toward the zoning lot being fenced and the finished face must be oriented towards the adjacent zoning lot or street, as applicable.

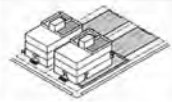
(3) Fences located forward of any maximum primary or secondary front setback must not exceed four feet in height and must be no more than 50 percent opaque.

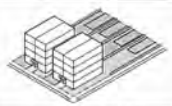
(d) Fences located behind any maximum front setback must be not exceed six feet in height and may be fully opaque.

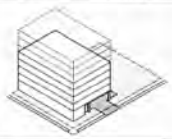


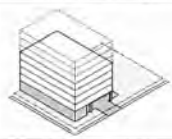








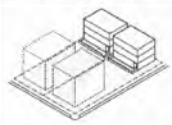


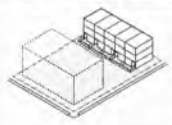


(e) *Landscaping.* Landscaping for any zoning lot to which this Form-Based Code applies must be in accordance with the provisions of Article XIV, Division 2 of this ~~Chapter~~ chapter.

(f) *Signage.* Signage located on any zoning lot to which this Form-Based Code applies must be in accordance with applicable provisions of Chapter 4 and Chapter 50 of this Code. All signage must be tastefully designed to be visually appealing, in character with surrounding development and in accordance with the Brush Park Historic District Elements of Design and the Brewster-Wheeler Recreation Center Historic District Elements of Design, as applicable.

Sec. 12. Principal and rear building types.





(a) Permissible ~~principle~~ principal building types are Single-Family House, Multiplex, Townhouse, and Mid-Rise Building, each of which is depicted in Table 12(a) in this ~~Section~~ section.

TABLE 12(a): Principal Building Types and Example Variations.

Sec. 13. Use standards.

(a) *In general.*

(1) The use of any zoning lot within the area to which this Form-Based Code applies is subject to the applicable provisions of Article XII, Divisions 2 and 3 of this ~~Chapter~~ chapter. If any provision in this ~~Section~~ section conflicts with the provisions of Article XII of this ~~Chapter~~ chapter, this ~~Section~~ section, controls.

(2) Uses are permissible on a zoning lot based on the type of the street that abuts the primary front lot line of the zoning lot, according to Table 13 in this ~~Section~~ section. Use categories and specific use types not expressly authorized for any particular street type are prohibited.

(b) *Use categories.* Multiple uses may operate within any building type on a zoning lot, provided that each use is permissible for that building type.

(c) *Understanding the use table.* Table 13 in this ~~Section~~ section is organized as follows:

(1) Use categories and specific use types are identified in the first column of Table 13 in this ~~Section~~ section and are separated by headings for organizational purposes.

(2) The permissibility of each specific use type on zoning lots that are adjacent to each street type are identified in the second, third, and fourth columns of Table 13 in this ~~Section~~ section.

(3) *Uses permissible by-right.* An "R" in Table 13 in this ~~Section~~ section corresponding to a particular specific use type and street type indicates that the specific use type is permissible as a matter-of-right on any zoning lot for which the primary front lot line abuts a street of the specified street type, subject to compliance with all other applicable regulations of this ~~Chapter~~ chapter.

(4) *Uses not permissible.* An "N" in Table 13 in this ~~Section~~ section corresponding to a particular specific use type and street type indicates that the specific use type is not permissible on any zoning lot for which the primary front lot line abuts a street of the specified street type.

(5) *Uses for civic spaces.* Notwithstanding anything in this Form-Based Code to the contrary, the following specific use types are permissible as a matter of right on any zoning lot shown as civic space on Map 7(b) in Section 7 of this Form-Based Code, regardless of the street type that abuts the primary front lot line of the zoning lot. Specific use types that are not expressly authorized as a matter of right is prohibited.

(i) Outdoor recreation facility.

(ii) Outdoor art exhibition grounds; sculpture gardens.

Airport Department Administration

October 10, 2023

Honorable City Council:

Re: Approval and Authorization to Acquire Real Property. Coleman A. Young International Airport — French Road Mini-Take Project Property bounded by French Rd., Lyford Avenue, Gilbo St. and E. McNichols Rd.

The Coleman A. Young International Airport hereby requests approval and authorization from your Honorable Body to acquire and purchase properties within the boundaries of French Rd., Lyford Avenue, Gilbo St. and E. McNichols Rd.(The "Property"), from the individuals and entities as noted in the attached Exhibit A and A-I, as part of the Coleman A. Young International Airport — French Road Mini-Take Project ("Project"). In accordance with the requirements of Chapter 2, Article 6, Section 2 of the 2019 Detroit City Code, City Council is required to approve any gift, grant, devise or bequest of real or personal property to be used for any public purpose.

The City of Detroit is pursuing the French Road Mini-Take Project to enhance the safe and efficient operation of the Coleman A. Young International Airport ("City Airport") and to bring the City Airport's runways up to current Federal Aviation Administration ("FAA") standards and guidelines. This includes the acquisition of properties and removal of structures adjacent to City Airport that conflict with FAA setback requirements. These proposed property acquisitions will enhance City Airport protection, reduce environmental impacts, allow for improvements and enhance overall maintenance and City Airport operations.

Any use of the Property by the City Airport shall be consistent with the allowable uses for which the Property is zoned. The City Airport shall obtain any zoning compatibility, zoning change or special land use authorizations required.

The Property consists of eleven (11) residences and eight (8) vacant land parcels. The purchase price for the Property will be One Million Five Hundred Forty-Two Thousand Five Hundred Seventy Six and 75/100 Dollars ($1,542,576.75). The price was established in accordance with the guidelines of State of Michigan Public Act 439, stating procedures and regulations for the condemnation, acquisition, or exercise of eminent domain of real or personal property by public agencies. A summary of the pricing components is as follows:

- 125% of appraised market value plus a property tax differential payment (for owner occupied homes) or 100% of appraised market value (for rental homes or vacant land), as authorized by law.
- Incentive pay for execution of purchase agreement.
- Payment for replacement housing.
- Moving Costs
- Estimated Closing Costs
- Personal Property allotment
- Property tax differential (to pay for the loss of the Homestead Tax Exemption for owner occupied homes)

The purchase price will be paid for using funds previously appropriated to the Detroit City Airport for acquisition purposes.

We, therefore, respectfully request that your Honorable Body approve the acquisition of the Property and authorize the City to acquire the Property from the individuals and entities noted, as listed in the attached Exhibit A and A-I, for the amount of One Million Five Hundred Forty Two Thousand Five Hundred Seventy Six and 75/100 Dollars ($1,542,576.75), by adopting the attached resolution with a Waiver of Reconsideration.

Respectfully submitted,
JASON WATT
Director
Coleman A. Young International Airport

By Council President Pro Tem. Tate:

Whereas, The City of Detroit ("City") through the Coleman A. Young International Airport ("City Airport") wishes to purchase and acquire that certain property, within the boundaries of French Rd., Lyford Ave., Gilbo St. and E. McNichols Rd., located within the City of Detroit, MI, from the individuals and entities as noted in the attached Exhibit A and A-I ("the Property"), for the sum One Million Five Hundred Forty Two Thousand Five Hundred Seventy Six and 75/100 Dollars ($1,542,576.75); and

Whereas, The Property is to be acquired as part of the Coleman A. Young International Airport French Road Mini-Take Project. The purpose of the Project is to enhance the safe and efficient operation of the City Airport and to bring the City Airport runways up to current Federal Aviation Administration ("FAA") standards and guidelines: and

Now, Therefore, Be It Resolved, That City Council hereby approves acquisition of the Property and payment to the individuals and entities, as noted in the attached Exhibit A, in the amount of One Million Five Hundred Forty Two Thousand Five Hundred Seventy Six and 75/100 Dollars ($1,542,576.75) as the purchase price of the Property, from funds appropriated to the Detroit City Airport for acquisition purposes, Appropriation Nos. 13717 and 20507, and be it further

Resolved, That Detroit City Council hereby approves acquisition of the Property, listed in the attached Exhibit A and A-I, from the individuals and entities noted, provided that prior to any such acquisition, the City conduct an environmental inquiry of the Property and, if required, an environmental assessment, to be reviewed by the Building, Safety Engineering and Environmental Department; and be it further

Resolved, That Detroit City Council finds and declares that (1) acquisition of the Property is necessary to promote the health, safety and welfare of the public and (2) that the preservation of the public health safety and welfare outweighs the cost of the environmental inquiry and assessment, and therefore, waives the requirement that the seller bear the cost of the environmental inquiry and assessment for the Property; and be it further

Resolved, That in accordance with the foregoing communication, the Director of the Coleman A. Young International Airport, or his/her authorized designee, be and is hereby authorized to (1) accept and record a deed to the Property, more particularly described in the attached Exhibit A and A-I, and such other documents as may be necessary to effectuate the transfer of the Property from those individuals and entities as listed in the attached Exhibit A and A-I, for the amount of One Million Five Hundred Forty Two Thousand Five Hundred Seventy Six and 75/100 Dollars ($1,542,576.75) and (2) to pay the cost of any owner's policy of title insurance, record any deeds granting title to the Property to the City of Detroit, and to pay such other necessary and/or additional customary closing costs payable in connection with the acquisition of the Property; and be it further

Resolved, That the Finance Director be and is hereby authorized to increase the necessary accounts and honor expenditures and vouchers, when presented in accordance with the foregoing communication and standard City procedures; and be it further

Resolved, That upon acquisition of the Property, the Property shall be placed under the jurisdiction of the Coleman A. Young International Airport for use, operation and further development; and Be It Finally

Resolved, That the Director of the Coleman A. Young International Airport, or his/her authorized designee, be and is hereby authorized to execute any required instruments to make or incorporate technical amendments or changes to the deed and such other documents as may be necessary to effectuate the transfer (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Properties, provided that the changes do not materially alter the substance or terms of the transfer.

A waiver of reconsideration is requested.

Economic Development Corporation

October 26, 2023

Honorable City Council:
Re: Music Hall Expansion Project –Request for Approval of Project Area and Project District Area (through Planning and Economic Development Standing Committee).

The Economic Development Corporation of the City of Detroit (the "EDC") was established by the Detroit City Council in 1976 pursuant to the Economic Development Corporations Act of 1974, Act 338, Public Acts of Michigan, 1974, as amended (hereinafter called the "Act 338"). Under Act 338, the EDC has the authority to undertake certain of its statutory powers, including but not limited to the issuance of revenue bonds, only when a duly adopted project plan is in place.

The Music Hall Center for the Performing Arts ("Music Hall"), a Michigan 501(c)(3) nonprofit organization, has requested that the EDC issue revenue bonds in an estimated amount of $80.0 million on its behalf for certain renovations of its existing building and the construction of a new 108,000 square foot building on an adjacent vacant parcel currently used by the Music Hall for outdoor events and programming (the "Project"). Through the Project, which will include a rooftop special events venue, state of the art concert venue, revolving music exhibition space, conference space, music academy, recording studio and several restaurants, Music Hall expects to increase its cultural and community programming in its Jazz Café, 3Fifty Terrace and Main Hall as well from approximately 300 annual events (250,000 attendees) to 650 events (600,000 annual attendees). Further, in addition to its current 278 employees, it expects to add 446 new jobs following the completion of the Project.

On September 26, 2023, the EDC Board of Directors adopted a resolution (Attachment 1) approving the preliminary steps in the process of establishing a project plan for the Project in accordance with Act 338. More specifically, the EDC Board approved the designation of a Project Area and Project District Area and authorized staff to request that the Mayor appoint two Special Directors to the EDC Board with respect to the Project and that City Council approve the designated Project Area and Project District Area and confirm the Mayor's appointments.

Attached for your consideration and approval, please find a resolution (Attachment 2) approving the designation of the Project Area and the Project District Area. EDC has submitted a resolution under separate cover requesting this Honorable Body to confirm the Mayor's appointment of two Special Directors to the EDC Board with respect to the Project.

In furtherance of the foregoing, the EDC respectfully requests the following actions by this Honorable Body:

October 31, 2023

• City Council referral of the Resolution (Attachment 2) to the Planning and Economic Development Standing Committee meeting scheduled for November 2, 2023.

November 2, 2023

• Discussion with Planning and Economic Development Standing Committee meeting regarding the proposed Project Area and Project District Area and recommendation to refer to formal session.

November 7, 2023

• City Council adoption of the Resolution (Attachment 2) approving the designation of the Project Area and Project District Area, with a waiver of reconsideration.

Following City Council's approval of the Project Area and Project District Areas and confirmation of the Mayor's appointment of two special directors to the EDC Board, the EDC Board will consider a project plan for the Project, which will subsequently require City Council's approval following a public hearing. The estimate timeline for the foregoing actions is as follows:

on or before December 12, 2023

• EDC Board of Directors approval of proposed project plan for Project.

January 9, 2024

• City Council referral of a resolution approving the proposed project plan to the Planning and Economic Development Standing Committee.

January 25, 2024

• Public Hearing regarding the proposed project plan during the Planning and Economic Development Standing Committee meeting scheduled for November 16, 2023.

January 30, 2024

• City Council adoption of a resolution approving the proposed project plan for the Project.

Thank you for your consideration of this matter. We look forward to working together on this important and impactful project for the residents of Detroit. Please do not hesitate to contact me should you have any questions.

Sincerely,
KENYETTA HAIRSTON-BRIDGES
Authorized Agent, EDC

Re: Resolution Revoking a New Personal Property Tax Exemption Certificate located at 1702 W. Fort Street, Detroit, Michigan, for Coyote Logistics, LLC in accordance with Public Act 328 of 1998. **(Related to Petition #903)**

On November 14, 2019, a public hearing in connection with approving a New Personal Property Tax Exemption Certificate for the above-captioned property was held before the Planning and Economic Development Committee. On November 19, 2019, this City Council voted to approve Coyote Logistic, LLC's application for a New Personal Property Tax Exemption Certificate.

Unfortunately, Coyote Logistic, LLC's approved application for a New Personal Property Tax Exemption Certificate was never sent to the Michigan Department of Treasury — State Tax Commission, resulting in Coyote Logistics, LLC never receiving the tax benefit. Therefore, Coyote Logistics, LLC has requested that the previous certificate approval be revoked. Statutorily, this City Council is required to revoke a tax exemption certificate "if continuance of the exemption would be contrary to any of the requirements" within the statute, including but not limited to, violations of the written agreement between the applicant and the local governmental unit. Honorable City Council:

Re: Property Sale — Correction 20380, 20390 Tireman St.

On April 4, 2023, your Honorable Body adopted a resolution authorizing the sale of 20390 Tireman by the City of Detroit

("City") to Islamic Center of Detroit, Inc., a Michigan nonprofit corporation for the purchase price of One Hundred Five Thousand and 00/100 Dollars ($105,000.00). The City closed on the sale August 2023.

The purchase was to consist of the former Kosciusko School site located on the north side of Tireman St. between Stout St. and Heyden St. The Islamic Center proposes to develop the dilapidated structure into a medical clinic and also landscape the remaining area to provide walk paths, park area, etc. for the community. The property is located within an R1 zone (Single Family Residential District). The proposed use of the property as a medical clinic is a conditional use, allowable under the school adaptive reuse classification.

It has now come to our attention that the legal description of the property was originally stated incorrectly, as all of the property was not properly transferred to the Purchaser. The legal description only included 20390 Tireman St. and not the entire school site, both 20380 and 20390 Tireman (the "Property").

We, therefore, request that your Honorable Body adopt the attached resolution, authorizing an amendment to the original sale resolution to correct the legal description of the Property and a correction of the sales price to One Hundred Six Thousand and 00/100 Dollars ($106,000.00), so that the balance of the site may be transferred to the Purchaser.

Respectfully submitted,
ANTOINE BRYANT
Director

By Council President Pro Tem. Tate:

Whereas, On April 4, 2023, your Honorable Body adopted that certain resolution that approved the sale of certain City of Detroit ("City") property, located at 20390 Tireman St., to Islamic Center of Detroit, Inc., a Michigan nonprofit corporation (the "Purchaser"); and

Whereas, The Purchaser proposes to develop the former Kosciusko school site located on Tireman St. between Stout St. and Heyden St.; and

Whereas, The City of Detroit closed on the sale August 2023. All of the site was not properly transferred to the Purchaser. The legal description should be revised to include both 20380 and 20390 Tireman to allow the Purchaser to develop the entire former Kosciusko school site; and now therefore be it

Resolved, That the Resolution is hereby amended such that the legal description for the sale be revised to the legal description in the attached Exhibit A, which is incorporated herein by reference; and be it further

Resolved, That the purchase price is hereby amended to One Hundred Six Thousand and 00/100 Dollars ($106,000.00); and be it further

Resolved, That the P&DD Director, or his/her authorized designee, be and is hereby authorized to execute an amendment to the purchase agreement, to execute a Quit Claim deed to consummate the sale of the unconveyed parcel, as well as to execute any other documents necessary to reflect the correction of the legal description and purchase price; and be it further

Law Department

October 18, 2023

Honorable City Council:

Re: Ordinance to amend Chapter 8 of the 2019 Detroit City Code, *Building Construction and Property Maintenance,* Article II, *Building Code,* Section 8-2-20, *Additions to Section 3303 of the 2015 Michigan Building Code, Demolitions.*

The Planning and Development Department ("PDD") has requested that the Law Department prepare the enclosed ordinance to amend Chapter 8 of the 2019 Detroit City Code ("City Code"), *Building Construction and Property Maintenance,* by amending Article II, *Building Code,* Section 8-2-20, *Additions to Section 3303 of the 2015 Michigan Building Code, Demolitions,* to provide for PDD's review of certain wrecking permit applications.

This ordinance is a companion to the zoning text amendment, already submitted to the Council by the City Planning Commission, which, in relevant part, amended Chapter 50 of the City Code, *Zoning,* to repeal PDD's review of wrecking permit applications under authority of the City's zoning powers. This ordinance revises and reestablishes PDD's review in the appropriate location within City's Building Code.

The Law Department is available to answer any questions that you may have regarding this proposed ordinance.

Respectfully submitted,
DANIEL ARKING
Senior Assistant Corporation Counsel

By Council Member Santiago-Romero:

(b) Prior to the first benchmarking deadline as provided in Section 8-15-584 of this Code, and every third benchmarking deadline thereafter, the owner of a covered building must ensure that reported benchmarking information for the prior calendar year is verified by a certified professional. Such verification must be in the form of a signed statement by a certified professional attesting to the accuracy of the information. Upon a written request by the Buildings Safety, Engineering, and Environmental Department, or designee, the owner of a covered building must produce such statement for the most recent year in which verification of reported benchmarking information is required, provided that the Buildings Safety, Engineering, and Environmental Department Director, or designee, may exempt from the verification requirement the owner of a covered building who submits documentation establishing that compliance with this Section will cause undue financial hardship.

(c) Nothing in this division shall be construed to permit an owner of a covered building to use tenant energy or water usage data for purposes other than compliance with benchmarking reporting requirements, nor shall the reporting requirements of this division be construed to excuse an owner of a covered building from complying with federal or state laws governing access to a tenant's utility data which is provided through the utility.

Sec. 8-15-588. Providing benchmarking information to the building owner.

(a) Each tenant located in a covered building subject to this division shall provide all information that cannot otherwise be acquired by the owner of a covered building within 30 days of a request by the building owner. Such Director, or designee, shall evaluate the quality of any alternate values established pursuant to this subsection and propose revisions that increase the quality of such values

prior to December 31, 2024 and not less than once every three years thereafter.

(c) When an owner receives notice that a nonresidential tenant intends to vacate a space within a covered property, the owner shall request data relating to such tenant's energy and water use for any period of occupancy relevant to the owner's obligation to benchmark pursuant to this division. Such tenant shall report such information to the owner within 30 days of a request by the owner.

(d) If a tenant of a unit in a covered building fails to provide energy or water usage data to the owner of the building as provided in this section, the owner shall be considered in compliance with respect to the building if:

(1) The owner provides evidence that such owner has requested the tenant's information as specified in this section; and

(2) The owner has benchmarked the building using all information otherwise available to the owner;

(e) When a covered building changes ownership, the previous owner shall provide the new owner with all energy and water usage data as well as the covered building's descriptive information for the period during which the previous owner was in possession of the building needed to be in compliance with this division.

(b) Any owner requesting such an exemption shall provide the Buildings, Safety Engineering, and Environmental Department, or designee, with any and all documentation requested to substantiate the request or otherwise assist in the exemption determination. Any exemption granted shall be limited exclusively to the benchmarking submission for which the request was made and shall not extend to past or future submissions.

(c) An owner may make a written request to the Director of the Buildings, Safety Engineering, and Environmental Department, or designee, in such form and with such supporting documentation as may be requested, at least 30 days prior to the date on which a benchmarking submission is due for an extension of time to make a benchmarking submission if, despite good faith-efforts, the owner is unable to complete the submission on time due to the failure of either a utility provider, a tenant, or both, to provide the owner with information needed to complete the submission. The Buildings, Safety Engineering, and Environmental Department Director, or designee, may grant no more than two extensions of no more than 30 days each to the owner of a covered property in a calendar year.

Sec. 8-15-590. Reporting of Manufacturing or Industrial Facilities.

Law Department

October 27, 2023

Honorable City Council:

Re: Ordinance to amend certain sections of Chapter 47 of the 2019 Detroit City Code, *Transportation for Hire*, Article X, *Electric Personal Mobility Devices*.

The Office of Mobility Innovation ("OMI") has requested that the Law Department prepare the enclosed ordinance to amend Chapter 47 of the 2019 Detroit City Code, *Transportation for Hire*, by amending certain sections within Article X, *Electric Personal Mobility Devices*.

OMI, in coordination with the Department of Public Works, are currently preparing to accept the first round of applications for the City's shared mobility permitting program, regulate the operation of electric scooters, among other types of micromobility devices, in Detroit. This ordinance would adjust the timing and duration of the City's inaugural shared mobility permits, as well as expand and clarify the insurance and indemnity requirements for permit holders, so as to further minimize the City's risk of potential liability arising from the operation of scooters and other Micromobility devices in Detroit's streets and public spaces.

The Law Department is available to answer any questions that you may have regarding this proposed ordinance.

Respectfully submitted,
DANIEL ARKING
Senior Assistant Corporation Counsel

Department of Public Works

October 16, 2023

Honorable City Council:

Re: Resolutions to Continue the Issuance of Outdoor Dining Permits on a Street, Alley, or Public Easement, until March 31, 2024.

Throughout the progression of the novel coronavirus (COVID-19), the outdoor dining program supported businesses by providing additional opportunities to maximize customer capacity while meeting public health guidelines. The program has since become a popular and successful means for the City of Detroit to support local businesses. The Department of Public Works (DPW) now seeks to continue supporting this effort by extending the streamlined process for eating and drinking establishments to obtain permits for outdoor dining spaces on streets, alleys, or public easements, to help ensure that these areas remain active and bustling. Previous resolutions allow for the current streamlined process to continue through November 15th, 2023.

To continue this program, DPW is submitting the attached resolutions, which if approved by City Council, shall serve as legislative authorization to extend the expedited issuance of outdoor dining cafe permits and for the temporary closures of a street, alley, or public place by DPW during the 2024 winter period until March 31st, 2024.

During the seasonal extension through November 15th, a working group was convened in partnership with City Council, to determine the feasibility of a permanent program and develop any procedures and legislation necessary to implement a permanent program beyond the extension period. DPW is currently working with the Law Department and Council Member Santiago-Romero's office to draft an ordinance that will establish that objective. The requested extension will provide additional time to develop the ordinance, prior to the 2024 Outdoor Dining season that is scheduled to begin on April 1st, 2024.

These resolutions acknowledge that businesses will still be required to request permits for individual outdoor cafes, and that these requests will still be subject to approvals by all applicable city agencies, including DPW, DPD, BSEED, Health, Housing & Revitalization, as well as the Michigan Liquor Commission, if alcohol is to be consumed in the seating area, and Health's Food & Safety Division, if outdoor grilling of food is desired. These resolutions, if approved by City Council, will eliminate steps that will have to be repeated for multiple businesses, helping to ensure that all businesses that desire to have outdoor cafés have approved permits in place in time for the upcoming season.

Respectfully submitted,

RON BRUNDIDGE

Director

Re: Wayne County Annual Special Events Permits for 2024.

An Annual Permit granting permission to temporarily close a County road for a reasonable length of time for a parade, marathon, celebration, festival or similar activity, or to use a County road as a detour for traffic around such activity taking place on a non-County road may be issued by the Wayne County Permit Office to the City of Detroit.

As a condition of the annual permit, the County requires that the governing body pass a blanket resolution, effective for all permitted road closures for special events and installation of banners planned throughout the year which:

1) Agrees to fulfill all permit obligations and conditions for the current year.

Honorable City Council:

Re: Request to Accept and Appropriate the Coolidge Terminal and Maintenance Facility Reconstruction Super Grant.

The Federal Transit Administration has awarded the City of Detroit Department of Transportation (DDOT) with the Coolidge Terminal and Maintenance Facility Reconstruction Super Grant in the amount of $80,418,381.00. There is a required State match for the award, from the Michigan Department of Transportation, in the amount of $20,104,596.00. The total Federal and State award amount is $100,522,977.00. There is no local match requirement. The total project cost is $100,522,977.00.

The objective of the grant is to support the reconstruction of the Coolidge Terminal and Maintenance Facility. The funding allotted to the department will be utilized to provide construction management services, construction, and to install security/technology equipment to operate the facility. The newly constructed Coolidge Terminal is vital to ensuring the continued provision of transit services in Detroit and the region, as it will be able to accommodate 144 buses, with the flexibility to expand to up to 216 buses in the future. This expansion capability is critical to meet the current and future growing transportation needs of the community. This is a reimbursement grant.

If approval is granted to accept and appropriate this funding, the appropriation number is 21348.

I respectfully ask your approval to accept and appropriate funding in accord-ance with the attached resolution.

Sincerely,

1. The project will not result in permanent loss of more than one acre of wetland or conversion of more than 10 acres of EMR upland habitat (uplands associated with high quality wetland habitat) to other land uses.

25. REQUIRED USE OF AMERICAN IRON, STEEL, MANUFACTURED PRODUCTS, AND CONSTRUCTION MATERIALS FOR INFRASTRUCTURE PROJECTS: The Build America, Buy America (BABA) provisions of the Infrastructure and Investment Jobs Act, Pub. L. 117-58, require Recipients of an award of Federal financial assistance for infrastructure to utilize American iron, steel, manufactured products, and construction materials for the Project. The Buy American preference of BABA requires that:

(1) all iron and steel used in the Project be produced in the United States — this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

(2) all manufactured products used in the Project be produced in the United States — this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and

(3) all construction materials be manufactured in the United States — this means that all manufacturing processes for the construction material occurred in the United States. This preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to the Project. It does not apply to tools, equipment, supplies, or furnishings that are not an integral part of the structure or permanently affixed to the Project.

When necessary, Recipients may apply in writing for a waiver from these requirements. EDA may, in its discretion, waive the application of the domestic content procurement preference in any case in which:

(1) applying the domestic content procurement preference would be inconsistent with the public interest;

(2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or

(3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall Project by more than 25 percent.

Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office. There may be instances where an award qualifies, in whole or in part, for an existing waiver described at *whitehouse.gov/omb/management/made-in-america*.

For the purposes of this Specific Award Condition only:

• "Construction materials" includes an article, material, or supply — other than an item of primarily iron or steel; a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives — that is or consists primarily of non-ferrous metals; plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables); glass (including optic glass); lumber; or drywall.

• "Domestic content procurement preference" means all iron and steel used in the Project are produced in the United States; the manufactured products used in the Project are produced in the United States; or the construction materials used in the Project are produced in the United States.

systems; electrical transmission facilities and systems; utilities; broadband infrastructure; and buildings and real property. Infrastructure includes facilities that generate, transport, and distribute energy.

Recipient may not use the EDA logo for other purposes, including lobbying or issue advocacy, endorsing a product or organization, or communications to elected officials or federal agencies. Recipient may not use the EDA logo in a negative or defamatory manner. Recipient must request and obtain EDA permission prior to certain uses of the EDA logo (see section 2, below).

D. Duration and Termination: The License shall terminate on the Award End Date. Recipient may request a renewal of the License for an additional term subject to the express written consent of EDA. Such consent shall be in the form of a properly executed agreement signed by authorized signatories of EDA and Recipient. Upon termination of the License, all rights of Recipient to use the EDA logo shall immediately terminate. Recipient further acknowledges that Recipient shall not acquire any right, title, interest, or ownership in the EDA logo by virtue of the License or use other than the license granted hereunder and disclaims any such right, title, interest, or ownership. Recipient is prohibited from interfering with EDA's rights in the EDA logo, including challenging EDA's use, registration of, or application to register the EDA logo alone or in combination with other words or designs, as a U.S. or foreign trademark anywhere in the world. General Motors LLC (GM) designs, builds, and sells cars, trucks, crossovers, and automobile parts worldwide. Its core brands include Chevrolet, Buick, GMC and Cadillac. GM was planning on a substantial investment into electric vehicles and needed to find a factory for manufacturing the new vehicles lines. GM's Detroit/Hamtramck plant has over 4 million square feet of plant space spread out over 365 acres and was in the process of

being closed. The company eventually chose this site for the new vehicle line. In addition to re-tooling the existing plant facilities, GM will be expanding and adding an additional 500,000 square feet of manufacturing space. This complex will be the site of electric vehicle programs and known as Factory Zero.

GM has a long history at this plant which is strategically located and has an excellent work history for the company. Heavily weighing in GM's decision to locate this significant investment was the deteriorated condition of the roads surrounding the facility. GM was concerned that the poor condition of the roads could provide a problem with their just-in-time manufacturing processes. The company was also concerned with the possibility of receiving damaged parts and potential damage to delivery trucks.

GM discussed their concerns with the City of Detroit that the roads needed to be reconstructed for GM to justify its investment at the Detroit /Hamtramck facility. The city pledged to work to obtain grant funding to help fund the road work and support the GM investment. With the reassurance that the city of Detroit was going to work on rehabilitating the surrounding road network, GM decided to move forward with its $2,300,000,000 investment at the Detroit/Hamtramck plant. This significant investment will create 2,200 new jobs.

The roads surrounding the plant are all in poor condition and have reached the end of their service life. Mt. Elliott Street, Conant Street, Hamtramck Drive and E. Grand Boulevard are all concrete roads with an HMA overlay. A small section of Hamtramck Drive near Conant Street is a concrete road with substantial amounts of HMA patching. The City of Detroit does not have adequate funding to fully reconstruct the roads that surround the plant. The city is requesting assistance from the TEDF Category A program as well as a grant from the U.S. Department of Commerce Economic Development Administration to help fund the reconstruction project.

The total project cost is $11,686,313. The TEDF Category A share of the project is $6,000,000 with the City of Detroit providing $5,686,313 in matching funds. Total participating construction costs are $9,109,051. The TEDF Category A share of construction is $6,000,000 or 66%. The City of Detroit will be providing $3,109,051 in construction match. The City of Detroit will be providing $2,577,262 for non-construction project-related costs. In addition, the City of Detroit will be providing $1,262,060 for non-participating construction costs for sidewalk reconstruction.

RESOLUTION IN MEMORIAM
FOR
GENE ARTHUR SMITH
January 28, 1942 - October 4, 2023
Champion of Education
Role Model for Youth — Family Man
Lifelong Coach

By Council Member Santiago-Romero:

WHEREAS, Gene Arthur Smith was born on January 28, 1942 to Oscar and Exie Smith of Beggs, Oklahoma and was the middle child of the family's three sons; Israel (deceased) and Oscar Jr. After the death of their mother, the Smith boys were placed in the Deaf, Blind & Orphans (D.B. & O.) Institute in Muskogee, Oklahoma. Despite their circumstances, the Smith boys forged ahead towards great futures with the support of faculty, students, and the community. As a result of his presence at the institute, Gene connected with one of the school educators Mr. Joshua Roberson, his wife Opal, and their children and was blessed with a "bonus" family. Gene often spoke of the wonderful meals and desserts prepared by his mother, Opal, especially fried apple pie. Gene attended several grade schools in Oklahoma, and in 1961 graduated from the Manual Training High School (MTHS). MTHS, established by former slaves and the descendants of slaves, in response to the poor educational offerings to blacks in this rural area which has a rich history in Oklahoma. While attending MTHS, Gene was very athletic and played in four different sports: Basketball as point guard; Football as quarterback and half-back; Baseball as 1st and 3rd baseman, and Track and Field. Gene was considered the "Big Man on Campus" and not just for athletics, but also he served as Editor-in-Chief for the "Manual Beacon" his high school newspaper, and he was a member of the National Honor Society; and

WHEREAS, Gene Arthur Smith worked in a variety of roles after graduation from High School and in 1965 answered the "Call of Duty" and was drafted into the United States Army. During this time, Gene completed several certification courses in Human Resources Management with the United States Army Adjutant School and was a Specialist E4 for Military Occupation Specialty and Management. In 1966, he received a Commendation from the 3D Infantry Division for outstanding performance related to redeployment assignment/port call instructions, and other orders for 3,000+ army personnel; which

was unusually high at the time due to the Vietnam War. Gene was stationed in Germany from 1965-1967, and then transferred to the U.S. Army Reserve until he was honorably discharged in May of 1971; and

WHEREAS, Gene Arthur Smith moved to Los Angeles, California and attending Los Angeles Trade Technical College, where he received an Associate of Arts in Business Administration and then, attended California State University and receiving his Bachelor of Science in Business Administration in 1975. He received a Teaching Certification from the State of California in August of 1976. During this time, Gene also met and married the love of his life; Ruby E. Williams in 1972, and with this union, God graced them with 5 children: Keith (deceased), Edith, LaVina, Leon, and LeiLani. During this time Gene Arthur Smith became a dedicated, understanding, patient, encouraging, and amazing father for his wonderful children; and

WHEREAS, Gene Arthur Smith had a diverse and successful career with humble beginnings as a custodian at Sears & Roebuck in 1962 and rose through the ranks of the company to become a Human Resource Manager. After supporting in a variety of managerial roles with Sears, Gene Arthur Smith retired from the company in 1985 and began his career as an educator with the Detroit Public Schools (DPS), and for nearly 40 years with the now Detroit Public Schools Community District (DPSCD); and

WHEREAS, Gene Arthur Smith served as a teacher for multiple subjects; Coach for Girls' Basketball and Softball, and Dean of Students for Denby High School. After formal retirement from DPS in 2004, Gene Arthur Smith returned to the educational sector as a consultant to DPS Community District with the independent firm: Communities in Schools (CIS). After several years working with CIS, in 2020, Gene officially returned to DPSCD as Dean of Culture as a Retiree for West Side Academy where he recently celebrated what many joked as his truly "final" retirement in June 2023. In connection with his commitment to youth service, Gene Arthur Smith also served as Educational Director for the National Youth Sports Program at Wayne State University from 1986-2001. He had a tremendous love for learning and educating the character of our youth. He had an exemplary work ethic and supported our youth in multiple roles throughout his career journey. He was most fulfilled when he was "at work" supporting others.

"He was a role model for youth, a supporter of families, an impassioned volunteer, and an overall advocate for the Black community."

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Office of the Chief Financial Officer
Office of the Assessor

October 25, 2023

Honorable City Council:

Re: 60 Harper Limited Dividend Housing Association, LLC — Payment in Lieu of Taxes (PILOT).

MHT Housing, Inc. and St. Aloysius Parish Detroit have formed 60 Harper Limited Dividend Housing Association, LLC in order to develop the Project known as 60 Harper Apartments. The Project is the new construction of a three-story, mixed-use, affordable apartment community that will consist of forty-nine (49) units located in an area bounded by Harper Avenue on the north, John R on the east, Medbury Avenue on the south and Woodward Avenue on the west.

The Project will include forty-nine (49) 2-bed, 1-bath 785 square foot units intended for individuals and families regardless of age. The development will feature a combination of private parking with an attached parking lot and street parking. The site will also include first-floor Harper-facing 1,469 square feet of commercial space.

Citizens Bank will provide a construction loan of $12,150,000. CPC Mortgage Company LLC will provide a permanent mortgage in the amount of $3,319,000. City Real Estate Advisors will make capital contributions of $11,869,109 which includes the purchase of Low Income Housing Tax Credits. The City of Detroit will provide a $250,000 HOME loan and $2,250,000 in American Rescue Plan Act (ARPA) funds. The Sponsors have agreed to defer $750,000 of the developer fee.

Rents for all units have been set at or below sixty percent (60%) of the area median income ("AMI"), adjusted for family size. Additionally, eight (8) units will be covered by a Section 8 Project Based Vouchers provided by the Detroit Housing Commission.

All forty-nine (49) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended. In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,
ALVIN HORHN
Deputy CFO/Assessor

By Council Member Durhal, III:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 *se seq.* (the "Act"), a request for exemption from property taxes has been received on behalf of MHT Housing, Inc. and St. Aloysius Parish Detroit (the "Sponsors"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsors are constructing a housing project to be known as the 60 Harper Apartments, consisting of forty-nine (49) units in a three-story building with supportive parking located on two (2) parcels of property owned or to be acquired by the Sponsors as described by street address and tax parcel in Exhibit A to this resolution, with all forty-nine (49) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsors that it intends to approve federal-aided financing for the Project in the form of Low Income Housing Tax Credits, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as 60 Harper Apartments as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, *et seq.;* and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer – Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a 16-unit residential apartment building located at 1775 Van Dyke in the West Village Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate for the rehabilitation of a 16-unit 4-story apartment building located at 1775 Van Dyke.

The property is located on the on the west side of Van Dyke south of Kercheval within Council District 5. Below is a map of the location and an image of the building.

The petitioner is Van Dyke Village Apts, LLC which consists of Cecily King of Kipling Development and Clifford Brown of Woodborn Partners. Both development companies have extensive experience owning and developing in Detroit.

The request is for a 15-year abatement to rehab the building. The developer estimates spending $28,185 per unit with a total rehab cost of $450,000. Proposed improvements include a new roof and interior unit improvements.

Below is a unit summary from the developer for each unit. All 16 units have 2 bedrooms, 1 bath, and 950 square feet. The rents range would from $915 to $1300 per month. The developer indicates the property was acquired in partnership with LISC, the City of Detroit and the Detroit Housing for the Future Fund. The intention of the developer is to fully preserve affordability across a range of household incomes from 50% AMI to 120% AMI; also, 50% of the units will be slated for households earning below 80% AMI. Additionally, the developers have been working closely with the City of Detroit's Housing & Revitalization Department to identify the right affordability that serves the current resident households and prioritizes their retention.

Unit #	Unit SF	Unit Bedrooms	Estimated Renovation Cost	Estimated Rent
1	950	2 BR | 1 BATH	$ 29,062.50	$ 1,213.00
2	950	2 BR | 1 BATH	$ 29,062.50	$ 1,300.00

16	950	2 BR | 1 BATH	$ 29,062.50	$ 1,300.00
			$ 465,000.00	

The developer indicates there are 22 spaces on the site; a monthly fee of $50 per space is estimated to be charged once the overall renovation of the property is completed.

Regarding accessibility, the developer indicates one unit is currently handicap accessible and a private lift connects the unit from the parking lot directly to the unit (which is located on the second floor). The lift needs to be improved and the unit will be rehabbed and retained as a fully handicap accessible unit.

It appears the NEZ certificate application has been submitted prior to the issuance of applicable building permits — the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted the NEZ certificate application dated May 16, 2023, to the City Clerk's office.

The subject property has been confirmed as being within the boundaries of the West Village NEZ which was established by a vote of City Council in November 2000. CPC staff has reviewed the application and recommends approval. Attached is a resolution for your consideration. Please contact our office should you have any questions.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for the construction of 9 condominium units located at the northeast corner of Avery and Merrick Streets in the North Woodbridge Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received 9 applications requesting Neighborhood Enterprise Zone (NEZ) certificates for the construction of 9 condominium units at 5238 (Unit 1), 5234 (Unit 2), 5232 (Unit 3), 5228 (Unit 4), 5226 (Unit 5), 5222 (Unit

6), 5220 (Unit 7), 5218 (Unit 8), and 5216 (Unit 9) Avery Street. The project consists of a duplex (Units 8 and 9) facing Merrick and a 7-unit townhouse (Units 1-7) facing Avery.

The applicant requesting the certificates is Avery Merrick Development LLC which is represented by Rich Inger. Mr. Inger has been involved in real estate in metro Detroit for the past twenty years. Part of this work included partnering with Southwest Housing Solutions to purchase over 600 properties since 2014 — each property has been fully rehabilitated and marketed to owner occupants.

The table below summarizes details for the subject 9 condo units. All of the units have two bedrooms, except one which has 3 bedrooms.

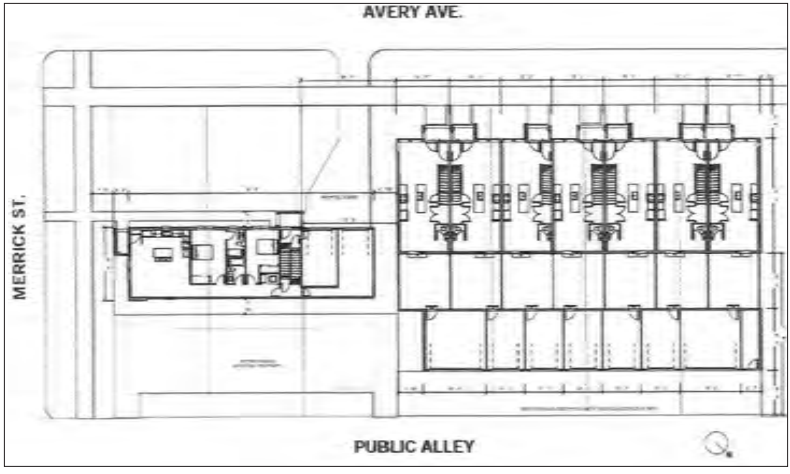
Unit #	Square Footage	# Bedrooms	Unit cost to build	Estimated sale price	Price per square foot
1	1585	2	$404,175	$481,000	$303.5
2	1261	2	$321,555	$384,800	$305.2
3	1261	2	$321,555	$384,800	$305.2
4	1564	2	$398,820	$458,800	$293.4
5	1261	2	$321,555	$385,000	$305.3
6	1261	2	$321,555	$388,500	$308.1
7	1585	3	$404,175	$504,000	$318.0
8	1265	2	$322,575	$351,100	$277.6
9	1265	2	$322,575	$362,000	$286.2

The site plan indicates there will be attached garages for all 9 units. Regarding accessibility, the developer indicates the following:

• The duplex has a ground floor unit with 2 steps up to enter the property. The unit is laid out to provide single floor living with large open spaces. If during presale a buy required a fully accessible bathroom the space can be reconfigured to provide ADA clearances converting the unit from 2 full bathrooms to one full bathroom and one 1/2 bath. Grade entry can be adjusted to eliminate the entry steps and sloped for access. The 2nd floor stair is wide enough to accommodate a stair chair lift and the bathrooms are also convertible to ADA if the buyer required.

• The 7-unit building has minimal steps up to the ground floor and stairs are wide enough to accommodate a stair chair lift.

It appears the NEZ certificate applications have been submitted prior to the issuance of applicable building permits (the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued) or not more than 6 months after the date of the issuance of a building permit for the facility. The petitioner submitted NEZ certificate applications dated October 4, 2023, to the City Clerk's office.



The subject property has been confirmed as being within the boundaries of the North Woodbridge NEZ which was established by a vote of City Council in February 2004. CPC staff has reviewed the applications and recommends approval. A resolution is attached for your consideration. Please contact our office should you have any questions.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for the rehabilitation of a vacant apartment into a 42-unit unit building located at 100 Clairmont in the Herman Keifer Development LLC Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received six applications requesting Neighborhood Enterprise Zone (NEZ) certificates for the rehabilitation of a vacant apartment building into 42 units located at 100 Clairmont. The six certificates for 100 Clairmont are divided as follows:

- Units 1-8
- Units 9-16
- Units 17-24
- Units 25-32
- Units 33-40
- Units 41-42

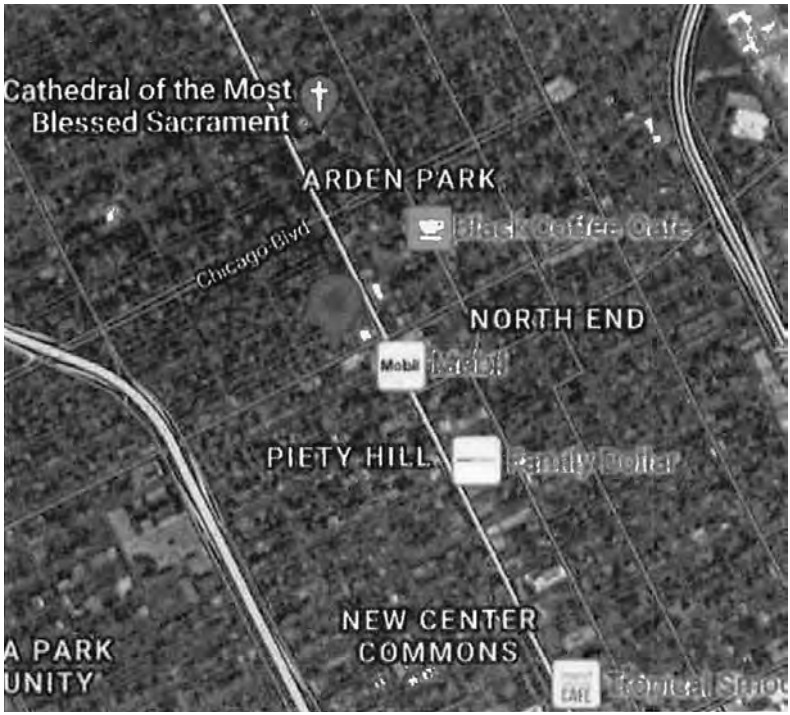
The property is located on the north side of Clairmont west of Woodward Avenue. The building is located within Council District 5. Below is a map of the location and an image of the building. The site is presently a vacant apartment building with 4 stories.

The petitioner is Clairmont Apartments LLC. The developer is Century Partners which is run by David Alade and Andrew Colom. Century Partners is a Detroit based company that since 2014 has acquired and or rehabbed 200+ units of housing across the single family, mixed use and residential multifamily asset classes. The developer indicates the State previously approved NEZ certificates, but the company has amended the application to show a different petitioner and to provide some larger units.

The developer is proposing a full gut rehab and estimates spending $143,976 per unit. The redeveloped building would include 3 three-bedroom units, 3 two-bedroom units, 31 one-bedroom units, and 5 studios. Unit size, number of bedrooms, and estimated rental prices are shown in the attached table. The developer indicates nearly 70% will be leased at 60% Area Median Income (AMI) levels, and the remaining at 80% AMI or below.

Regarding parking, the developer will be developing a new surface parking lot west of the building with 42 spaces at $35 per month.

Regarding accessibility, the developer indicates the following:



- All new work is being designed to federal ADA and Michigan Building Code ANSI standards.
- Any existing areas of the building that are to remain or are deemed infeasible to modify, will remain as is and not brought up to current accessible standards (examples include, but are not limited to: reduced elevator size based on existing hoistway constraints and existing stairs).

• There will be a minimum of two handicap parking spaces.

It appears the NEZ certificate applications have been submitted prior to the issuance of applicable building permits- the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted the revised NEZ certificate applications dated October 5, 2023, to the City Clerk's office.

The subject property has been confirmed as being within the boundaries of the Herman Keifer Development LLC NEZ which was established by a vote of City Council in September 2019. City Planning Commission

November 2, 2023

Honorable City Council:

Re: Request of NP Detroit Commerce Center, LLC and the Detroit City Planning Commission to show an M2 (Restricted Industrial) zoning district where an M3 (General Industrial), M4 (Intensive Industrial), P1 (Open Parking) and R1 (Single Family Residential) zoning districts are currently shown for the parcel commonly known as 14250 Plymouth Road, generally located on the northside of Plymouth Road, bounded by Fullerton Street to the north, Shirley Avenue to the east, and Strathmoor and Hubbell Streets to the west. **(RECOMMEND APPROVAL)**

BACKGROUND AND PROPOSAL

The City Planning Commission (CPC) has received a request from NP Detroit Commerce Center, LLC and the Detroit City Planning Commission to amend District Map No. 70 of the 2019 Detroit City Code, Chapter 50, *Zoning*, to show an M2 (Restricted Industrial) zoning district where M3 (General Industrial), M4 (Intensive Industrial), P1 (Open Parking) and R1 (Single-Family Residential) zoning districts are currently shown for the property located at 14250 Plymouth Road, generally bounded by Fullerton Street to the north, Shirley Avenue to the east, Plymouth Road to the south, and Strathmoor and Hubbell Streets to the west.

The site is located in Council District 7 and measures approximately 52.57 acres in size. The subject parcel was formerly comprised of 27 parcels, which were formally combined into one parcel in March 2023, creating a non-uniformly zoned parcel.

The proposed downzoning is to fulfill the commitment that the petitioner made to the community to downzone the property. The petitioner has received all of the building permits for their project, completed demolition, and begun construction. The project is allowed by right without the proposed rezoning. The rezoning will create a uniformly zoned parcel.

Current zoning classification map, with subject parcel hatched.

CPC MEETINGS

Public Hearing, Recommendation and Action — May 18, 2023

On May 18, 2023, the City Planning Commission held a public hearing on this rezoning request. At the hearing, one member of the public, a resident of the area, spoke, with general questions regarding the project. The speaker did not express support or objection to the proposed rezoning.

STAFF ANALYSIS

Surrounding Zoning and Land Use

The zoning classifications and uses surrounding the subject parcels are as follows:

North: R1 and M4 — developed with industrial uses, vacant land, and one single-family home

East: R1, B4, M2, and M3 — developed with residential, park, and industrial uses

South: B4 and M4 — developed with commercial and industrial uses

West: R1, B4, and M3 — developed with single-family residential, parking, and industrial

Aerial view of proposed rezoning

Zoning Ordinance Approval Criteria

Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. Following are the relevant criteria with CPC staffs analysis in italics:

• Whether the proposed amendment will protect the health, safety, and general welfare of the public. *The proposed downzoning will limit the intensity of uses permitted by-right and conditionally on the subject parcel in the future.*

• Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management. *It is not anticipated that the proposed rezoning will have significant adverse impacts on the natural environment.*

• Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract. *No adverse impacts are anticipated as a result of the proposed rezoning.*

• The suitability of the subject property for the existing zoning classification and proposed zoning classification. *The subject property is currently designated as five separate zoning classifications, with much of the parcel being zoned as M3 (General Industrial) and M4 (Intensive Industrial). These medium-high intensity zoning classifications are not ideal for properties located near residential uses. The proposed M2 (Restricted Industrial) zoning classification is designed to be a buffer between residential uses and higher intensity industrial uses, making this a suitable choice for this location.*

Master Plan Consistency

The subject property is located within the Brooks area of Neighborhood Cluster 7 of the Detroit Master Plan of Policies. The current Future Land Use Map for this area shows "IL - Light Industrial" for the subject property. The Planning and Development Department (PDD) has reviewed this proposed rezoning and has determined that it is consistent with the Master Plan designation and will have the impact of not permitting future heavy industrial sites.

Community Input

The petitioner has engaged in extensive engagement with residents of the community, block clubs, community organizations, and individual residents, and are committed to supporting the community and are currently in the process of working with the community to determine exactly what that support will consist of. Five letters of support were submitted to CPC staff from block clubs and community organizations. The petitioners have presented at both Department of Neighborhood and District 7 community meetings, in addition to holding both virtual public meetings and on-site in-person meetings. Additionally, as we have been informed, the petitioners have had conversations with each city council member or members of their staff.

CONCLUSION AND RECOMMENDATION

On May 18, 2023, the City Planning Commission voted to recommend approval of the rezoning request of NP Detroit Commerce Center, LLC and the Detroit City Planning to amend Article XVII, Section 50-17-72 of the 2019 Detroit City code, Chapter 50, *Zoning*, to show an M2 (Restricted Industrial) zoning classification where M3 (General Industrial), M4 (Intensive Industrial), P1 (Open Parking), and R1 (Single-family Residential) zoning classifications are currently shown for the property located at 14250 Plymouth Road.

Re: Request of Black & Veatch and AT&T Mobility on behalf of the UAW-Ford Joint Trusts Center for PC (Public Center) Special District Review of a proposed cellular antenna installation at 151 West Jefferson Avenue. **(RECOMMEND APPROVAL)**

REQUEST

The City Planning Commission (CPC) has received a request from Black & Veatch and AT&T Mobility on behalf of the UAW-Ford Joint Trusts Center for PC (Public Center) Special District Review of the installation of a cellular antenna and associated screening to be located at 151 West Jefferson Avenue. This request is being made consistent with the provisions of Section 50-3-222 of the Detroit Zoning Ordinance.

Subject property

PROPOSED PROJECT

AT&T Mobility is proposing to install panel antennas and equipment for cellular service on the lower roof at the UAW Ford Joint Trusts Center located at 151 West Jefferson. The installation is proposed on the roof, located closest to the Hart Plaza Amphitheater as shown in the graphic below. The equipment is proposed to be screened with a fiberglass wall designed to match the existing parapet wall.

The specific location was chosen because it is the closest point on the roof to the area that needs the coverage which is the amphitheater and nearby area. This site would be a small cell installation which will cover small geographical areas, reaching 400-500 feet. The addition of this facility would assist in providing adequate cellular service to visitors to Hart Plaza.

REVIEW AND ANALYSIS

PC District Review Criteria

There are eighteen PC District Review Criteria listed in Section 50-11-67 of the Zoning Ordinance. The relevant criteria follow with staff analysis in italics:

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development. *Although the proposed screen wall appears somewhat awkward, the small scale of the addition does not overwhelm the building.*

(9) Appropriate buffering and screening of service, loading, refuse collection, mechanical and electrical equipment and parking areas should be provided. *The cellular equipment will be properly screened so as not to be visible to passersby.*

(15) Urban design elements of form and character should be carefully considered; such elements include, but are not limited to: richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting of important visual features; preservation/enhancement of important views and vistas. *The location of the proposed installation is in a sheltered site and is only partially visible from most nearby areas. The screen wall to match the existing parapet wall will adequately hide the equipment while blending in with the building to the extent possible.*

Design

The Planning and Development Department has reviewed the proposed installation and recommends approval. Their recommendation is attached.

CONCLUSION AND RECOMMENDATION

Consistent with the above, the City Planning Commission via its staff recommends approval of the proposed installation of cellular equipment and associated screen wall.

A. The Grantee agrees to abide by all local, State, and federal laws, rules, ordinances, and regulations in the performance of this Contract.

B. All local, State, and federal permits, if required, are the responsibility of the Grantee. Award of this Contract is not a guarantee of permit approval by the State.

C. The Grantee shall be solely responsible to pay all taxes, if any, that arise from the Grantee's receipt of this Contract.

D. The Grantee is responsible for the professional quality, technical accuracy, timely completion, and coordination of all designs, drawings, specifications, reports, and other services furnished by the Grantee or its subcontractor under this Contract. The Grantee or its subcontractor shall, without additional compensation, correct or revise any errors, omissions, or other deficiencies in designs, drawings, specifications, reports, or other services.

E. The SLBA's approval of drawings, designs, specifications, reports, and incidental work or materials furnished hereunder shall not in any way relieve the Grantee of responsibility for the technical adequacy of the work. The SLBA's review, approval, acceptance, or payment for any of the services shall not be construed as a waiver of any rights under this Contract or cause of action arising out of the performance of this Contract.

F. The Grantee acknowledges that it is a crime to knowingly and willingly file false information with the SLBA for the purpose of obtaining this Contract or any payment under the Contract and that any such filing may subject the Grantee, its agents, and/or employees to criminal and civil prosecution and/or termination of the Contract.

G. The Grantee is responsible for the completion of all proper due diligence with regard to identifying and addressing potential environmental concerns prior to start of work. Commercial, institutional and/or industrial demolition sites must have, at a minimum, Asbestos Containing Material and Hazardous Material Survey and a Phase I Environmental Site Assessment, conducted per ASTM E1527-13, with consideration of any findings to be incorporated into the demolition specifications. All reporting requirements and appropriate precautions must be followed in the event any hazardous materials, contamination or Underground Storage Tanks are encountered. Only activities specified in this Contract are eligible for reimbursement.

VII. ASSIGNABILITY.

The Grantee shall not assign this Contract or assign or delegate any of its duties or obligations under this Contract to any other party without the prior written consent of the SLBA. The SLBA does not assume responsibility regarding the contractual relationships between the Grantee and any subcontractor.

VIII. SUBGRANTEES AND SUBCONTRACTS.

The Grantee is solely responsible for all contractual activities performed under this Contract. Further, the SLBA will consider the Grantee to be the sole point of contact with regard to contractual matters, including payment of any and all charges resulting from the anticipated Contract. All contractors, subcontractors, subgrantees, or others used by the Grantee in performing the project shall be subject to the provisions of this Contract and shall be licensed and qualified, as appropriate, to perform the duties required. Contractors must be procured through a competitive procurement process.

IX. NON-DISCRIMINATION.

The Grantee shall comply with the Elliott Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 *et seq.*, the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 *et seq.*, and all other federal, State, and local fair employment practices and equal opportunity laws. Grantee covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Contract, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position.

In addition, as provided in Executive Directive 2019-09, any contractor or subcontractor shall not discriminate against any employee or applicant for employment with respect to his or her hire, terms, tenure, conditions or privileges of employment, or any matter directly or indirectly related to employment because of religion, race, color, national ori-

gin, sex, height, weight, marital status, partisan considerations, or a disability or genetic information that is unrelated to the individual's ability to perform the duties of a particular job or position.

The Grantee agrees to include in every contract or subcontract entered into for the performance of this Contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Contract.

X. UNFAIR LABOR PRACTICES.

The Grantee shall comply with the Employers Engaging in Unfair Labor Practices Act, 1980 PA 278, as amended, MCL 423.321 *et seq.*

XI. LIABILITY.

A. Grantee must defend, indemnify and hold the SLBA, State of Michigan, its departments, divisions, agencies, offices, commissions, officers, and employees (collectively the "State") harmless, without limitation, from and against any and all actions, claims, losses, liabilities, damages, costs, attorney fees, and expenses (including those required to establish the right to indemnification), arising out of or relating to: (a) any breach by Grantee (or any of Grantee's employees, agents, subgrantees, or by anyone else for whose acts any of them may be liable) of any of the promises, agreements, representations, warranties, or insurance requirements contained in this Contract; (b) any infringement, misappropriation, or other violation of any intellectual property right or other right of any third party; (c) any bodily injury, death, or damage to real or tangible personal property occurring wholly or in part due to action or inaction by Grantee (or any of Grantee's employees, agents, subgrantees, or by anyone else for whose acts any of them may be liable); and (d) any acts or omissions of Grantee (or any of Grantee's employees, agents, subgrantees, or by anyone else for whose acts any of them may be liable).

B. The State or SLBA will notify Grantee in writing if indemnification is sought; however, failure to do so will not relieve Grantee, except to the extent that Grantee is materially prejudiced. Grantee must, to the satisfaction of the State, demonstrate its financial ability to carry out these obligations.

C. The State and SLBA are entitled to: (i) regular updates on proceeding status; (ii) participate in the defense of the proceeding; (iii) employ its own counsel; and to (iv) retain control of the defense if the State or SLBA deems necessary. Grantee will not, without the State's or SLBA's written consent (not to be unreasonably withheld), settle, compromise, or consent to the entry of any judgment in or otherwise seek to terminate any claim, action, or proceeding. To the extent that any State or SLBA employee, official, or law may be involved or challenged, the State or SLBA may, at its own expense, control the defense of that portion of the claim.

D. Nothing in this contract should be construed as a waiver of any governmental immunity by the Grantee, the SLBA, State, its agencies, or employees as provided by statute or court decisions.

XII. CONFLICT OF INTEREST.

No employee, officer, director, appointee or elected official of the Grantee's or subgrantee's organization or governing body, or their families, shall benefit financially from any part of this Contract.

XIII. ANTI-LOBBYING.

Grantee shall not use any of the grant funds awarded in this Contract for the purpose of lobbying as defined in the State of Michigan's lobbying statute, MCL 4.415(2): "'Lobbying' means communicating directly with an official of the executive branch of State government or an official in the legislative branch of State government for the purpose of influencing legislative or administrative action." The Grantee shall not use any of the grant funds awarded in this Contract for the purpose of litigation against the SLBA. Further, the Grantee shall require that language of the assurances in this section be included in the award documents of all subawards at all tiers.

XIV. DEBARMENT AND SUSPENSION.

By signing this Contract, the Grantee certifies to the best of its knowledge and belief that it, its agents, and its contractor(s), subcontractor(s), subgrantee(s) and others:

A. Are not presently debarred, suspended, proposed for debarment, and declared ineligible or voluntarily excluded from covered transactions by any federal department or the State.

B. Have not within a three-year period preceding this Contract been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, SLBA, or local) transaction or contract under a public transaction, as defined in 45 CFR 1185; violation of federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property.

C. Are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, State, or local) with commission of any of the offenses enumerated in subsection (B).

D. Have not within a three-year period preceding this Contract had one or more public transactions (federal, State, or local) terminated for cause or default.

E. Will comply with all applicable requirements of all other State or federal laws, executive orders, regulations, and policies governing this program.

XV. AUDIT AND ACCESS TO RECORDS.

Pursuant to MCL 18.1470 the SLBA (or its designee) reserves the right to conduct a programmatic and financial audit of the project, and the SLBA may withhold payment until the audit is satisfactorily completed. The Grantee is required to maintain all pertinent records and evidence pertaining to this Contract, including grant and any required matching funds, in accordance with generally accepted accounting principles and other procedures specified by the SLBA. The financial and accounting records associated with this Contract shall be made available to SLBA, its designee, and the auditor general, upon request, during the terms of this Contract and any extension of this Contract and for three (3) years after the Contract End Date or final payment under the Contract, whichever is later. The Grantee will provide proper facilities for such access and inspection.

XVI. INSURANCE.

The Grantee shall require all contractors and subcontractors providing activities or services to be reimbursed under this Contract to carry, and show proof of coverage, of business liability, automobile and workman's compensation insurance at levels consistent with Grantee's contracting policies and contracts.

XVII. OTHER SOURCES OF FUNDING.

The Grantee guarantees that any claims made to the SLBA under this Contract must not be financed by any source other than the SLBA under the terms of this Contract. If funding is received through any other source, the Grantee agrees to delete from Grantee's billings, or to immediately refund to the SLBA, the total amount representing such duplication of funding.

XVIII. COMPENSATION.

A. An initial advance of $12,500,00.00 shall be made to the Grantee upon receipt by the Grant Administrator of a signed Agreement and a request for advance from the Grantee.

B. Additional funds shall only be disbursed after verification that the initial payment has been fully expended, in accordance with the budget and activities specified in Exhibits A and B. The Grantee must provide sufficient documentation, as determined by the SLBA, to verify that all expenditures were made in accordance with budget and activities specified in Exhibits A and B. Such documentation shall indicate grant funds received to date, project expenditures to date (supported with computer printouts of accounts, general ledger sheets, balance sheets, *etc.*), and objectives completed to date. Backup documentation such as computer printouts of accounts, ledger sheets, check copies, *etc.* shall be maintained for audit purposes in order to comply with this Contract.

C. The SLBA will reimburse the Grantee a total amount not to exceed the amount specified in Section I of this Contract, and only for acceptable expenses incurred for this project. All other costs necessary to complete the project are the sole responsibility of the Grantee. Unless and until SLBA receives all required, requested and necessary documents from Grantee, it shall not be liable for any payments to Grantee.

D. Unless otherwise agreed to in writing, expenses incurred by the Grantee prior to the Contract Start Date or after the Contract End Date of this Contract are not allowed under the Contract.

E. The SLBA will approve payment requests after approval of reports and related documentation as required under this Contract.

F. The SLBA reserves the right to request additional information necessary to substantiate payment requests.

G. Public Act 533 of 2004 requires that payments under this Contract be processed by electronic funds transfer (EFT). Grantee is required to register to receive payments by EFT at the State Integrated Governmental Management Applications (SIGMA) Vendor Self Service (VSS) website (*www.michigan.govNSSLogin*).

XIX. CLOSEOUT.

A. Upon issuance of final payment from the SLBA, the Grantee releases the SLBA of all claims against the SLBA arising under this Contract. Unless otherwise provided in this Contract or by law, final payment under this Contract shall not constitute a waiver of the SLBA's claims against the Grantee.

B. The Grantee shall immediately refund to the SLBA any payments in excess of the costs allowed by this Contract.

XX. CANCELLATION.

This Contract may be canceled by the SLBA, upon 30 days written notice, due to Executive Order, budgetary reduction, other lack of funding, upon request by the Grantee, or upon mutual agreement by the SLBA and Grantee. Honorable City Council:

Re: Request to Accept and Appropriate the FY 2024 Freeway Safety Grant.

The Michigan Department of Labor and Economic Opportunity has awarded the City of Detroit Department of Innovation and Technology (DoIT), in partnership with the Department of Public Works (DPW) and the Detroit Police Department (DPD), with the FY 2024 Freeway Safety Grant for a total of $30,000,000.00. There is no match requirement. The total project cost is $30,000,000.00.

The objective of the grant is to reduce violent crimes and shootings on Detroit freeways by developing, constructing, managing and operating a freeway video feed system to aid law enforcement efforts in deterring crimes. The funding allotted to the department will be utilized to create a network of video streaming cameras and license plate readers that can provide live and/or recorded video footage of freeways within the City of Detroit (including I-94, I-96, I-75, M-10, and M-8). DPW will procure the equipment and manage installation; DoIT will maintain the operations; and DPD will use the cameras to prevent, deter and investigate violent crimes and shootings. This is a reimbursement grant.

If approval is granted to accept and appropriate this funding, the appropriation number is 21355.

I respectfully ask your approval to accept and appropriate funding in accord-ance with the attached resolution.

Sincerely,
TERRI DANIELS

GRANT

This is Grant # CITYOFDETROITFREE WAY24 between the Department of Labor and Economic Opportunity (Grantor), and City of Detroit (Grantee), subject to terms and conditions of this grant agreement (Agreement).

1.0 Statement of Purpose

To address the problem of violent crimes happening on the freeways in Detroit by developing, constructing, managing and operating a freeway video feed system to aid law enforcement efforts in deterring and solve violent crimes.

1.1 Statement of Work

The Grantee agrees to undertake, perform, and complete the following project:

In the last three years, Detroit has averaged over 50 shootings each year on freeways, more than three times the pre-pandemic level. This increase, in part, reflects a known gap in the Detroit Police Department's ability to monitor freeways through video technology.

Investigating freeway shootings poses unique challenges, resulting in no known suspect in 60-70 percent of cases. For example, freeway shootings occur at very high speeds, making it difficult to identify witnesses, get accurate vehicle and driver descriptions, and recover evidence like shell casings. In addition, suspects in other serious violent crimes often use freeways to flee or to enter and exit the City; finding these suspects without technology is often impossible.

To address this problem, the City of Detroit will use the grant funds to develop, construct, manage, and operate a freeway video feed system to aid law enforcement efforts against criminal activities and suspects.

Specifically, the City of Detroit will use grant funds to construct and operate two components of a video feed system:

1) A network of video streaming cameras that can provide live and/or recorded video footage covering freeways within the City of Detroit (e.g., I-94, I-96, I-75, M-10, M-8). The City expects that this system will cover all 68 miles of freeways, with approximately 200 locations for bi-directional camera installation and approximately 400 cameras total. Camera installations will provide overview footage capturing freeway incidents and providing investigative leads.

2) A network of license plate readers that capture license plate and vehicle information and provide integrated search and alert features (e.g., automated alerts for wanted vehicles). The City expects that this system will cover strategic locations on or near City of Detroit freeways (e.g., freeway interchanges, City limits, exit and entrance ramps) to complement the video streaming cameras by allowing capture of license plate information to help locate vehicles involved in crimes.

These services and Grant Activities are more specifically described in the Grantee's Proposal, Attachment A.

1.2 Detailed Budget

A. This Agreement does not commit the State of Michigan (State) or the Department of Labor and Economic Opportunity (LEO) to approve requests for additional funds at any time.

B. If applicable, travel expenses will not be reimbursed at rates greater than the State Travel Rates, Attachment C, without the prior written consent of the Grant Administrator.

C. Attachment B is the Budget. The Grantee agrees that all funds shown in the Budget are to be spent as detailed in the Budget.

Changes in the Budget of less than 5% of the total line item amount do not require prior written approval, but Grantee must provide notice to the Grant Administrator.

Changes in the Budget equal to or greater than 5% of the total line item amount will be allowed only upon prior review and written approval by the Grant Administrator. A formal grant amendment must be signed by both the Grantor and Grantee.

1.3 Payment Schedule

A. The maximum amount of grant assistance offered is $30,000,000.00 (the "Grant").

B. Progress payments up to a total of 85% of the Total Authorized Budget may be made upon submission of a Grantee request indicating grant funds received to date, project expenditures to date (supported with computer printouts of accounts, general ledger sheets, balance sheets, etc.), and objectives completed to date. Backup documentation such as computer printouts of accounts, ledger sheets, check copies, *etc.* shall be maintained for audit purposes in order to comply with this Agreement. The payment of the final 15% of the grant amount shall be made after completion of the project and after the Grant Administrator has received and approved a final report, if applicable. The final payment is also contingent upon the submission of a final invoice that includes expenditures of grant funds reported by line item and compared to the approved Budget.

Public Act 279 of 1984 states that the state shall take all steps necessary to assure that payment for goods or services, is mailed within 45 days after receipt of the goods or services, a complete invoice for goods or services, or a complete contract for goods or services, whichever is later.

1.4 Monitoring and Reporting Program Performance

B. Quarterly Reports. The Grantee shall submit to the Grant Administrator quarterly performance reports that (at a minimum) briefly present the following information:

1. Percent of completion of the project objectives. This should include a brief outline of the work accomplished during the reporting period and the work to be completed during the subsequent reporting period

2. Brief description of problems or delays, real or anticipated, which should be brought to the attention of the Grant Administrator.

3. An accounting of all funds expended by the recipient.

October 15, 2024	July 1, 2024 through September 30, 2024

C. A Final Report is required. The Grantee will do the following:

1. Submit an electronic draft copy of the final report no later than July 20, 2026 (or 30 days after the agreement end date, if extended) for review by the Grant Administrator.

Due Date	Performance Period

All other program income shall either be added to the Budget and used to further eligible program objectives or deducted from the total Budget for the purpose of determining the amount of reimbursable costs. The final determination shall be made by the Grant Administrator.

2.4 Share-in-savings

The Grantor expects to share in any cost savings realized by the Grantee. Therefore, final Grantee reimbursement will be based on actual expenditures. Exceptions to this requirement must be approved in writing by the Grant Administrator.

Grantee must retain, and provide to the State or its designee upon request, all financial and accounting records related to the Grant through the term of the Grant and for 7 years after the latter of termination, expiration, or final payment under this Grant or any extension ("Audit Period"). Grantee must cooperate and provide reasonable assistance. 2.9 Competitive Bidding

The Grantee agrees that all procurement transactions involving the use of state funds shall be conducted in a manner that provides maximum open and free competition. When competitive selection is not feasible or practical, the Grantee agrees to obtain the written approval of the Grant Administrator before making a sole source selection. Sole source contracts should be negotiated to the extent that such negotiation is possible.

3.0 Liability

The State is not liable for any costs incurred by the Grantee before the start date or after the end date of this Agreement. Liability of the State is limited to the terms and conditions of this Agreement and the grant amount.

Freeway Video Feed System Grant:
Scope of Work
October 9, 2023

Problem Statement: In the last three years, Detroit has averaged over 50 shootings each year on freeways, more than three times the pre-pandemic level. This increase, in part, reflects a known gap in the Detroit Police Department's ability to monitor freeways through videotechnology.

Investigating freeway shootings poses unique challenges, resulting in no known suspect in 60-70 percent of cases. For example, freeway shootings occur at very high speeds, making it difficult to identify witnesses, get accurate vehicle and driver descriptions, and recover evidence like shell casings. In addition, suspects in other serious violent crimes often use freeways to flee or to enter and exit the City; finding these suspects without technology is often impossible.

Overview: To address this problem, the State of Michigan appropriated $30 million for a freeway camera system in Detroit to deter and solve violent crimes. Grant funds will be used to develop, construct, manage, and operate a freeway video feed system to aid law enforcement efforts against criminal activities and suspects.

Specifically, the City of Detroit will use grant funds to construct and operate two components of a video feed system:

1) A network of video streaming cameras that can provide live and/or recorded video footage covering freeways within the City of Detroit (e.g., I-94, I-96, I-75, M-10, M-8). The City expects that this system will cover all 68 miles of freeways, with approximately 200 locations for bi-directional camera installation and approximately 400 cameras total. Camera installations will provide overview footage capturing freeway incidents and providing investigative leads.

2) A network of license plate readers that capture license plate and vehicle information and provide integrated search and alert features (e.g., automated alerts for wanted vehicles). The City expects that this system will cover strategic locations on or near City of Detroit freeways (e.g., freeway interchanges, City limits, exit and entrance ramps) to complement the video streaming cameras by allowing capture of license plate information to help locate vehicles involved in crimes.

Grant Activities and Timeline: Grant funds will cover planning and development of the system through installation and the first year of operations. Specifically, the City will use grant funds for:

• Planning and design: activities will cover all aspects of pre-construction planning, including strategic planning, budget development, initial system scoping, initial field site work to identify installation site options and assess viability, engineering of "typical"site designs for each type of installation site, procurement development, and engineering and development of specific site plans for each installation site.

• Equipment and hardware: grant funds will support the purchase and/or leasing of all equipment necessary to operate the freeway camera system. This includes purchasing video streaming cameras, network switches, modems, and other hardware to install video streaming cameras and transmit their data back to the City of Detroit. This will also include leasing license plate readers and associating communications equipment to transmit their data.

• Construction and installation: grant funds will support installation of video streaming cameras and license plate readers at sites across the City of Detroit. This includes all necessary construction activities, including site preparation, camera and equipment installation, installation of equipment cabinets as needed, power connections and/or taps, installation and stand up of communications and internet equipment, traffic control and management, and site clean-up.

• Operations and maintenance: grant funds will support operation and maintenance of the freeway camera system throughout the "start-up" period during which the cameras are being installed. Given the timeline for construction, the City anticipates that installation will begin in Q2/Q3 2024 and continue through Q2/Q3 2025.

• Administration and coordination with partner agencies: while the City primarily will use pre-existing staff and resources to support project management and coordination, grant funds will support administrative staff costs as needed. Administrative and staffing needs for the project include managing the procurement process to select project vendors; overseeing selected vendors for planning, design, and construction management; conducting community outreach and engagement on the project; and coordinating with partner agencies like the Michigan Department of Transportation and the Michigan State Police.

Sec. 44-4-11. Independent Evaluator to advise City Council; duties of Assessment Division.

(a) City Council, through the City's procurement process, shall hire an Independent Evaluator to complete an assessment ratio study each year.

(b) Every year, the Assessment Division must provide the Independent Evaluator with all of its sales data no later than February 1st following tax day. The Independent Evaluator must use this data to conduct an assessment ratio study. The assessment ratio study must include the average assessment ratio for each sales decile and for each Economic Condition Factor, as drawn by the City's Assessment Division for the current tax year. An assessment ratio is a property's assessed value divided by its sales price. A sales decile refers to a division of all arms-length sales into ten groups based on sales price. The assessment ratio study must calculate the following:

(1) Coefficient of Dispersion, which is a measure of uniformity based on the average percentage deviation of the ratios from the median, expressed as a percentage of the median. For example, given a COD of 15%, a property worth $100,000 has a 50% chance to be assessed between $85,000 and $115,000. Higher values indicate less uniformity;

(2) Price-Related Differential, which is a measure of regressivity (also known as vertical equity) calculated by dividing the mean sales ratio by the price-weighted mean ratio. For example, if a jurisdiction contained two homes, one worth $100,000 assessed at 12% of the sale price and a second worth $1,000,000 assessed at 8% of the sale price, the mean ratio would be 10% (12% + 8% * 1,000,000 divided by 1,100,000). The PRD would be 1.20 (10% divided by 8.4%). Higher values of PRD indicate greater regressivity;

(3) Coefficient of Price-Related Bias, which is a regression-based measure that estimates the relationship between the sales ratio and a given proxy for actual property value determined by giving equal weight to sale price and assessed value. It measures the change in the assessment ratio that can be expected to result from a 100% change in this value proxy. For example, a coefficient of price-related bias of 0.031 indicates that assessment ratios increase by 3.1% when the home value increases by 100%. Lower (more negative) values of price-related bias indicate greater regressivity;

(4) The percentage of properties where the assessed value exceeds 50 percent of the market value, in violation of the Michigan Constitution and the General Property Tax Act, within each sales decile.

(c) The Independent Evaluator's study results, the formula and code it used to conduct its analysis. and the data used to

reach its determination shall be submitted to the City Council no later than the Tuesday following the second Monday in March of each year.

(d) Any report of the Independent Evaluator must also utilize methodologies that conform to the requirements of State Law and the State Tax Commission.

(e) Prior to February 22nd of each year, the Independent Evaluator shall attend an open meeting to answer questions from City Council Members and from tax payers related to its annual study.

Sec. 44-4-12. Assessment factors; City Council resolution.

(a) The City of Detroit assessments should have a:

(1) Coefficient of Dispersion between 5.0 and 15.0;

(2) Price-Related Differential between 0.98 and 1.03; and

(3) Price-Related Bias between -0.05 and 0.05.

(4) A statistically insignificant number of properties where the assessed value exceeds 50 percent of the market value, in violation of the Michigan Constitution, within each sales decile.

(b) Each year, City Council must review the assessment ratio study and vote to do one of the following:

(1) Take no action: or

(2) Request that the Board of Review use its powers under Section 30 of the General Property Tax Act, being MCL 211.30(4), to individually review every residential property in any subset or class of real residential properties that the assessment ratio study identifies as not falling within the guidelines established in Subsection (a) of this section.

a. The City Council request may attach the Independent Evaluator data and report to City Council identified in Section 44-4-11 of this Code as evidence that the Board of Review can consider in determining the property's assessed value.

b. The Board of Review may rely on data from the property's record card, the Economic Condition Factor's sales study, the Independent Evaluator's study, and any evidence presented by any person aggrieved by the assessment to make an assessed value determination.

Sec. 44-4-13. Priority of state law and State Tax Commission requirements; severability.

(a) In the event a court of law determines that any provision of this division is in conflict with Michigan law or the State Tax Commission requirements, these shall control, as applicable.

(b) Should any section, subsection, sentence, clause, phrase, or word of this division be declared invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect any of the remaining words, phrases, clauses, sentences, subsections, or sections of this division.

November 9, 2023

Honorable City Council:

Re: Amended 2024 Homeowner Property Exemption (HOPE) Policy and Guidelines in accordance PA 191 of 2023 amending MCL 211.7u.

INTRODUCTION

The Board of Review is a nine (9)-member board appointed by this Honorable Body to act on matters relative to assessments within the jurisdiction of the City of Detroit. The purpose of this communication is to establish through the adoption by resolution the 2024 "Homeowners Property Exemption" (HOPE) Guidelines and Process for the Property Assessment Board of Review to act in accordance with MCL 211.7u.

Additionally, under the "Homeowners Property Exemption" ordinance, the Property Assessment Board of Review is required to file its proposed version with this Honorable Body through the City Clerk by October 15th.

A document was submitted in a timely manner to this Honorable Body, however certain changes were made that require the adopted application packet to be amended. The document attached amends the previously adopted guidelines and application packet in accordance with recent changes in state law.

Please keep in mind that as you review and consider the 2024 Guidelines, it is crucial to the overall process that this Honorable Body adopt the guidelines prior to December 1, 2023 so that the appropriate time will exist for printing, distribution and access by January 1, 2024.

This application is being respectfully submitted for your approval pertaining to the Homeowners Property Exemption (HOPE) program.

SUMMARY

Each year state law requires that each local governing unit establish a new process and guidelines in reviewing and determining property tax exemptions in accordance with MCL 211.7u. This portion of the General Property Tax Act provides for an exemption for homeowners who are unable to contribute to the public charges if they have met the required guidelines adopted by the local governing body, in this case City Council, by resolution in accordance with MCL 211.7u.

On November 7, 2023, Governor Gretchen Whitmer signed into law Public Act 191 of 2023 which amended MCL 211.7u and created certain changes amending the currently adopted 2024 HOPE Application Packet.

This document identifies the changes, below is a review of the initial submission with any relevant changes noted.

Property Assessment
Board of Review

November 9, 2023

Honorable City Council:

Re: Resolution Adopting Approval of Homeowners Property Exemption Program Applications through 2023 under PA 191 of 2023.

On November 7, 2023, Governor Gretchen Whitmer signed into law Public Act 191 of 2023 amending MCL 211.7u, the statute that addresses the exemption of residential owner-occupied real property by reason of poverty. What has been adopted in Detroit as the Homeowners Property Exemption Program (HOPE).

The purpose of this communication is to ask this Honorable Body to adopt a resolution giving authority to the Office of the Assessor to allow the principal residence of a person by reason of poverty that has been determined to still be eligible for this exemption and the property was exempt from the collection of taxes in tax year 2019, 2020 and 2021 could remain exempt through 2023.

In order to be consistent with the amended statute, local units must adopt a resolution by December 1, 2023 to carry the exemption forward (MCL 211.7u(6) and MCL211.7u(8)). The language as written requires a review of approved exemptions by the Office of the Assessor. The importance is to ensure that only those properties that are truly eligible receive the exemption (did not transfer, still owner occupied, etc.)

This was an effort to make final adjustments for those that may have been affected by the pandemic, especially reducing the health risks associated with the activity that would be centered on submitting of poverty applications, there is a definite need for the tax exemptions to be approved through 2023. It also will provide much needed support and assistance to both the families that depend on the process and the Board of Review and Office of the Assessor that is required to process and manage each appeal. First it will address the number of appeals filed to the Board of Review by approximately 2,800 applications which will be entered at the December Board of Review. Having the decisions entered at the December Board of Review means that property owners will see the exemption notification and will greatly reduce the stress on the Board of Review and Office of the Assessor as it relates to last-minute filings.

This also means that more of an effort can be placed on those homeowners that may be in threat of tax foreclosure and have the opportunity to participate in the "Pay As You Stay Program" (PAYS) can be targeted for assistance. A program that is equally as important.

This communication is submitted in cooperation with the Office of the Assessor and we ask that this Honorable Body adopt the attached resolution and add a waiver of reconsideration.

Respectfully submitted,

The People of the State of Michigan enact:

Sec. 7u. (1) The principal residence of a person who, in the judgment of the supervisor and board of review, by reason of poverty, is unable to contribute toward the public charges is eligible for exemption in whole or in part from the collection of taxes under this act. This section does not apply to the property of a corporation.

(2) To be eligible for exemption under this section, a person shall, subject to subsections (6), (8), and (10), do all of the following on an annual basis:

(a) Own and occupy as a principal residence the property for which an exemption is requested. The person shall affirm this ownership and occupancy status in writing by filing a form prescribed by the state tax commission with the local assessing unit.

(b) File a claim with the board of review on a form prescribed by the state tax commission and provided by the local assessing unit, accompanied by federal and state income tax returns for all persons residing in the principal residence, including any property tax credit returns, filed in the immediately preceding year or in the current year. Federal and state income tax returns are not required for a person residing in the principal residence if that person was not required to file a federal or state income tax return in the tax year in which the exemption under this section is claimed or in the immediately preceding tax year. If a person was not required to file a federal or state income tax return in the tax year in which the exemption under this section is claimed or in the immediately preceding tax year, an affidavit in a form prescribed by the state tax commission may be accepted in place of the federal or state income tax return. The filing of a claim under this subsection constitutes an appearance before the board of review for the purpose of preserving the claimant's right to appeal the decision of the board of review regarding the claim.

(c) Produce a valid driver license or other form of identification if requested by the supervisor or board of review.

(d) Produce a deed, land contract, or other evidence of ownership of the property for which an exemption is requested if required by the supervisor or board of review.

(e) Meet the federal poverty guidelines published in the prior calendar year in the Federal Register by the United States Department of Health and Human Services under its authority to revise the poverty line under 42 USC 9902, or alternative guidelines adopted by the governing body of the local assessing unit provided the alternative guidelines do not provide income eligibility requirements less than the federal guidelines.

(3) The application for an exemption under this section must be filed after January 1 but before the day prior to the last day of the board of review.

(4) The governing body of the local assessing unit shall determine and make available to the public the policy and guidelines used for the granting of exemptions under this section. If the local assessing unit maintains a website, the local assessing unit shall make the policy and guidelines, and the form described in subsection (2)(b), available to the public on the website. The guidelines must include, but are not limited to, the specific income and asset levels of the claimant and total household income and assets.

(5) The board of review shall follow the policy and guidelines of the local assessing unit in granting or denying an exemption under tis section. If a person claiming an exemption under this section is qualified under the eligibility requirements in subsection (2), the board of review shall grant the exemption in whole or in part, as follows:

(a) A full exemption equal to a 100% reduction in taxable value for the tax year in which the exemption is granted.

(b) A partial exemption equal to 1 of the following:

(i) A 75%, 50%, or 25% reduction in taxable value for the tax year in which the exemption is granted.

(ii) As approved by the state tax commission, any other percentage reduction in taxable value for the tax year in which the exemption is granted, applied in a form and manner prescribed by the state tax commission.

(6) Notwithstanding any provision of this section to the contrary, a local assessing unit may permit by resolution a principal residence exempt from the collection of taxes under this section in tax year 2019 or 2020, or both, to remain exempt under this section in tax years 2021, 2022, and 2023 without subsequent reapplication for the exemption, provided there has not been a change in ownership or occupancy status of the person eligible for exemption under subsection (2), and may permit a principal residence exempt for the first time from the collection of taxes under this section in tax year 2021, 2022, or 2023 to remain exempt under this section for up to 3 additional years after its initial year of exempt status without subsequent reapplication for the exemption, provided there has not been a change in ownership or occupancy status of the person eligible for exemption under subsection (2), if the person who establishes initial eligibility under subsection (2) receives a fixed income solely from public assistance that is not subject to significant annual increases beyond the rate of inflation, such as federal Supplemental Security Income or Social Security disability or retirement benefits. Both of the following apply to a person who obtains an extended exemption under this subsection:

(a) The person shall file with the local assessing unit, in a form and manner prescribed by the state tax commission, an affidavit rescinding the exemption as extended under this subsection within 45 days after either of the following, if applicable:

(i) The person ceases to own or occupy the principal residence for which the exemption was extended.

(ii) The person experiences a change in household assets or income that defeats eligibility for the exemption under subsection (2).

(b) If the person fails to file a rescission as required under subdivision (a) and the property is later determined to be ineligible for the exemption under this section, the person is subject to repayment of any additional taxes with interest as described in this subdivision. Upon discovery that the property is no longer eligible for the exemption under this section, the assessor shall remove the exemption of that property and, if the tax roll is in the local tax collecting unit's possession, amend the tax roll to reflect the removal of the exemption, and the local treasurer shall, within 30 days of the date of the discovery, issue a corrected tax bill for any additional taxes with interest at the rate of 1% per month or fraction of a month computed from the date the taxes were last payable without interest. If the tax roll is in the county treasurer's possession, the tax roll must be amended to reflect the removal of the exemption and the county treasurer shall, within 30 days of the date of the removal, prepare and submit a supplemental tax bill for any additional taxes, together with interest at the rate of 1% per month or fraction of a month computed from the date the taxes were last payable without interest. Interest on any tax set forth in a corrected or supplemental tax bill again begins to accrue 60 days after the date the corrected or supplemental tax bill is issued at the rate of 1% per month or fraction of a month. Taxes levied in a corrected or supplemental tax bill must be returned as delinquent on the March 1 in the year immediately succeeding the year in which the corrected or supplemental tax bill is issued.

(7) A person who files a claim under this section is not prohibited from also appealing the assessment on the property for which that claim is made before the board of review in the same year.

(8) Notwithstanding any provision of this section to the contrary, if the assessor determines that a principal residence of a person by reason of poverty is still eligible for the exemption under this section and the property was exempt from the collection of taxes under this section in tax year 2022, the property will remain exempt from the collection of taxes under this section through tax year 2023 if, on or before December 1, 2023, the governing body of the local assessing unit in which the principal residence is located adopts a resolution that continues the exemption through tax year 2023 for all principal residences within the local assessing unit that were exempt from the collection of taxes under this section in tax year 2022. The local assessing unit may require the owner of a principal residence exempt from the collection of taxes under this subsection to affirm ownership, poverty, and occupancy status in writing by filing with the local assessing unit the form prescribed by the state tax commission under subsection (2)(a).

(9) A local assessing unit that adopts a resolution under subsection (6) or (8) must develop and implement an audit program that includes, but is not limited to, the audit of all information filed under subsection (2). If property is determined to be ineligible for exemption as a result of an audit, the person who filed for the exemption under subsection (2) is subject to repayment of additional taxes including interest to be paid as provided in subsection (6)(b). The state tax commission shall issue a bulletin providing further guidance to local assessing units on the development and implementation of an audit program under this subsection.

(10) Notwithstanding any provision of this section to the contrary, if an exemption was not on the assessment roll and was not denied, the July or December board of review shall grant an exemption under this

section, in whole or in part as described in subsection (5), for the immediately preceding tax year on the principal residence of a person who establishes eligibility in that tax year under the criteria described in subsection (2). A claim of exemption under this subsection must be filed with the board of review on a form prescribed by the state tax commission and provided by the local assessing unit, accompanied by supporting documentation establishing eligibility for the exemption for the immediately preceding tax year and any additional supporting documentation as may be required by the state tax commission. The local assessing unit shall notify the department of treasury, in a form and manner prescribed by the department of treasury, of each exemption granted under this subsection by the board of review for the immediately preceding tax year.

(11) As used in this section, "principal residence" means principal residence or qualified agricultural property as those terms are defined in section 7dd.

Sec. 53b. (1) If there has been a qualified error, the qualified error must be verified by the local assessing officer and approved by the board of review. Except as otherwise provided in subsection (5), the board of review shall meet for the purposes of this section on Tuesday following the second Monday in December and on Tuesday following the third Monday in July. If approved, the board of review shall file an affidavit within 30 days relative to the qualified error with the proper officials and all affected official records must be corrected. If the qualified error results in an overpayment or underpayment, the rebate, including any interest paid, must be made to the taxpayer or the taxpayer must be notified and payment made within 30 days of the notice. A rebate must be without interest. The treasurer in possession of the appropriate tax roll may deduct the rebate from the appropriate tax collecting unit's subsequent distribution of taxes. The treasurer in possession of the appropriate tax roll shall bill to the appropriate tax collecting unit the tax collecting unit's share of taxes rebated. Except as otherwise provided in section 27a(4), a correction under this subsection may be made for the current year and the immediately preceding year only.

(2) Action under subsection (1) may be initiated by the taxpayer or the assessing officer.

(3) The board of review meeting in July and December must be held only for the purpose described in subsection (1) and to hear appeals provided for in sections 7u, 7ee, and 7jj. If an exemption under section 7u is approved, the board of review shall file an affidavit with the proper officials involved in the assessment and collection of taxes and all affected official records must be corrected. If an appeal under section 7ee or 7jj results in a determination that an overpayment has been made, the board of review shall file an affidavit and a rebate must be made at the times and in the manner provided in subsection (1). Except as otherwise provided in sections 7ee and 7jj, a correction under this subsection must be made for the year in which the appeal is made only. If the board of review approves an exemption or provides a rebate for property under section 7ee or 7jj as provided in this subsection, the board of review shall require the owner to execute the affidavit provided for in section 7ee or 7jj.

(4) An owner or assessor may appeal a decision of the board of review under this section regarding an exemption under section 7ee or 7jj to the residential and small claims division of the Michigan tax tribunal. An owner is not required to pay the amount of tax in dispute in order to receive a final determination of the residential and small claims division of the Michigan tax tribunal. However, interest and penalties, if any, will accrue and be computed based on interest and penalties that would have accrued from the date the taxes were originally levied as if there had not been an exemption.

(5) The governing body of the city or township may authorize, by adoption of an ordinance or resolution, 1 or more of the following alternative meeting dates for the purposes of this section:

(a) An alternative meeting date during the week of the second Monday in December.

(b) An alternative meeting date during the week of the third Monday in July.

(d) An error of measurement or calculation of the physical dimensions or components of the real property being assessed.

(e) An error of omission or inclusion of a part of the real property being assessed.

(f) An error regarding the correct taxable status of the real property being assessed.

(g) An error made by the taxpayer in preparing the statement of assessable personal property under section 19.

(i) Any of the following errors regarding an exemption under section 7b:

(*i*) An error made by the local tax collecting unit in the processing of a timely filed exemption affidavit.

(*ii*) A delay in the determination by the United States Department of Veterans Affairs that a veteran is permanently and totally disabled as a result of military service and entitled to veterans' benefits at the 100% rate.

(*iii*) For tax year 2023 only, a denial by the board of review of an exemption claimed under section 7b(1)(b).

(j) An exemption under section 7u(10), for the immediately preceding tax year only, if the exemption was not on the assessment roll and was not denied for that tax year. A claim for exemption must be filed with the board of review on a form prescribed by the state tax commission and provided by the local assessing unit, accompanied by supporting documentation establishing eligibility for the exemption for that immediately preceding tax year under the criteria in section 7u(2) and any other supporting documentation as may be required by the state tax commission.

LEGISLATIVE ANALYSIS

POVERTY EXEMPTION EXTENSION
Senate Bill 55 (H-1) as adopted
Sponsor: Sen. Stephanie Chang
House Committee: Tax Policy
Senate Committee: Housing and Human Services
Complete to 10-14-23

SUMMARY:

Senate Bill 55 would amend the General Property Tax Act to provide that properties that qualified for a poverty exemption from property taxes during the 2019, 2020, and 2021 tax years could remain exempt through the 2023 tax year, along with other complementary changes. The bill would also allow boards of review to grant a 75% poverty exemption, in addition to the values already permitted in the act.

Currently, The act allows local supervisors and boards of review to grant a "poverty exemption" to qualifying owners of *principal residences.*

Generally speaking, a *principal residence* **is an owner-occupied residence that is the ow**ner's primary residence. The term, for purpose of the poverty exemption, also includes qualified agricultural property.

A principal residence that was exempt in tax year 2019 or 2020 remained exempt through tax year 2021 if, on or before February 25, 2021, the local assessing unit's governing body adopted such a resolution.

A local board of review can grant a 100%, 50%, or 25% exemption, or it can grant any other percentage reduction subject to the State Tax Commission's approval.

Senate Bill 55 would provide that properties that were exempted in tax years 2019, 2020, and 2021 could remain exempt through tax year 2023 if, on or before December 1, 2023, local assessing unit's governing body adopted such a resolution.

A board of review would be able to grant a 75% exemption in taxable value for the tax year in which the exemption is granted.

The bill would also grant local boards of review the sole authority in determining if an applicant qualifies, rather than local boards of review and local supervisors.

If a poverty exemption for an eligible individual's principal residence was not on the assessment roll and was not denied, the July or December board of review would have to grant either a partial or whole exemption on that residence for the immediately preceding tax year. This would constitute a "qualified error" as defined by this section of the General Property Tax Act. In such cases, a claim of exemption would have to be filed with the board of review on a form prescribed by the State Tax Commission and provided by the local assessing unit, accompanied by supporting documentation that establishes eligibility for the poverty exemption for the immediately preceding tax year and any additional documentation as may be required by the State Tax Commission.

The local assessing unit would be required to notify the Department of Treasury of any exemption granted for the immediately preceding tax year in a form and manner prescribed by the department.

MCL 211.7u *et seq.*

BRIEF DISCUSSION:

According to committee testimony, the program has proven useful for local governments, but the initial opt-in window only lasted a few months. The bill is intended to extend the opt-in period and allow more local units to participate.

HOUSE FLOOR ACTION:

The H-1 substitute adopted by the House is a "conflict substitute" that incorporate changes to the law proposed by another bill moving through the legislative process at the same time. Generally speaking, conflict substitutes resolve potential conflicts between different bills that amend the same section of law. Without a substitute that takes both bills into account, the last bill enacted would overwrite and undo the changes made by the earlier bill. The H-1 substitute includes changes regarding the denial of a dis-

abled veterans property tax exemption as a qualified error proposed by Senate Bill 364, which was presented to the governor on October 10, 2023.

FISCAL IMPACT:

As written, the bill would reduce state and local property tax revenue by an unknown, but likely, small amount. Under current law, the existing exemption is estimated to reduce revenue by about $6.5 million. Increasing the poverty exemption and allowing for retroactivity would likely generate an additional revenue reduction, but, as already stated, the impact would be expected to be small.

POSITIONS:

A representative of the Michigan Association of County Treasurers testified in support of the bill. (6-21-23)

The following entities indicated support for the bill:

City Planning Commission

November 9, 2023

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for the construction of two new single-family houses at 1783 and 1789 Fischer in the East Village Amended Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Clerk forwarded to the City Planning Commission (CPC) two applications requesting a 15-year Neighborhood Enterprise Zone (NEZ) certificate for the construction of two single-family houses at 1783 and 1789 Fischer.

The petitioner for the certificates is BlairDan LLC; the developer for the project is Greatwater Homes a new venture of Greatwater Opportunity Capital. Greatwater indicates it is a Detroit development company that has provided quality rental housing across the City of Detroit; its portfolio is largely composed of workforce housing with 93% of the portfolio affordable for households at 80% of AMI, and 55% affordable for households at 60% of AMI.

The property is vacant land on the west side of Fischer south of Kercheval east of Indian Village. Please see map below for reference.

The applicant is proposing to the following:

1783 Fischer

- 1,513 square feet with 3 bedrooms, 2 ½ bathrooms
- Estimated project cost $326,514
- Estimated sale price

1789 Fischer

- 1,840 square feet with 3 bedrooms and 2 ½ bedrooms
- Estimated project cost $339,661
- Estimated sale price $410,000

A two-car garage will be provided with each house. Regarding accessibility, the developer indicates its houses offer design features that accommodate varying degrees of accessibility. For example, 1 of the 2 homes we are proposing to build has a master bedroom on the first floor. All of the homes can be modified to allow for certain features like grab bars or alternative porch entryways.

The subject property has been confirmed as being within the boundaries of the East Village Amended NEZ, which was established by City Council on January 11, 2005, and should be eligible for NEZ certificates under the State NEZ Act (Act 147 of 1992) as currently written. It appears the NEZ certificate applications have been submitted prior to the issuance of applicable building permits — the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted the NEZ certificate applications dated October 30, 2023, to the City Clerk.

CPC staff has reviewed the application and recommends approval. Attached is a resolution for your consideration. Please contact our office should you have any questions.

Respectfully submitted,
MARCELL R. TODD, JR.
Director CPC

INTERNAL OPERATIONS STANDING COMMITTEE

Mayor's Office

November 9, 2023

Honorable City Council:

Re: Appointment as Fire Commissioner.

I am pleased to inform you that I have appointed Charles Simms as Fire Commissioner for the City of Detroit, subject to the approval of City Council. Under Article 4 Section 4-111 of the City Charter, if City Council does not disapprove the appointment within 30 days of filing, the appointment is confirmed.

As you know, Commissioner Simms has served in an interim capacity for some time, and his exemplary record of accomplishment during that time — in addition to his 37 years of service to the Department — makes him more than qualified for a permanent appointment.

In recent weeks, the Fire Department has achieved the fastest response time in history for ambulance response to the highest priority calls, reaching a low of seven minutes. By expanding the Department's capabilities and adding contracts with private ambulance providers, the Department has averaged 38 to 40 ambulances on the streets every day, again a record high.

Commissioner Simms has also invested in the long-term health of the Department's workforce, hiring the largest fire academy class yet at 100 new staff, training medical personnel in fire response to allow for a "dual" fire and medical role, and adding free physical and mental health resources for all members. Finally, the Commissioner has built a strong record of community partnerships. These include initiatives to teach fire safety and CPR to community members and to increase preventative fire inspections to reach every school, gas station, and senior apartment building each year.

I hope you will join me in congratulating the Fire Commissioner on his appointment.

Regards,
MICHAEL E. DUGGAN
Mayor
City of Detroit

RESOLUTION IN SUPPORT OF SENATE BILLS 170 & 171

By Council President Sheffield:

WHEREAS, In late September 2023, the members of the Michigan Senate Labor Committee voted to advance Senate Bills 170 and 171 to the Committee of the Whole; and

WHEREAS, If passed, Senate Bills 170 and 171 would repeal Public Act 98 and Public Act 105 respectively. Public Act 98

and Public Act 105 are part of a series of statutes that preempt the ability of local governments to enact policies at the local level; and

WHEREAS, At the time of its passage, Public Act 105 was nicknamed the "Death Star Bill" because it completely destroys the power of local governments to enact policies that are beneficial to workers, including minimum wage increases, fair scheduling laws, paid leave, additional requirements for apprenticeship training beyond state-law requirements, and many other standards; and

WHEREAS, As a result of Public Act 105, local governments have been stripped of their ability to address declining wages at a local level, meanwhile Michigan's median wage was 7% above the national median in 2005 and has dropped below the national median for the last decade; and

WHEREAS, Fair scheduling laws, which require that workers receive advance notice of schedules or additional pay when schedules change on short notice, would disproportionately improve the working conditions of Black workers if enacted in Detroit, particularly benefiting Black Women; and

WHEREAS, Public Act 98 prohibits the use of Project Labor Agreements (PLAs) on publicly funded construction projects. A PLA is a contract that sets the conditions of employment for all contractors and subcontractors working on a specific construction project. Public Act 98 barred governmental units from entering an agreement where the contract or any subcontract contained a PLA, forbade governmental units from awarding tax incentives to entities with a PLA, and forbade the placement of any PLA terms in bid specifications or other agreements; and

WHEREAS, Without the prohibition on PLAs, governmental units could utilize PLAs to, for example, support higher wages on construction projects, encourage the use of skilled union labor, outline goals for hiring local community members and underserved communities, and require the participation of small businesses; and

WHEREAS, Prior to widespread preemption, many Midwest cities were known as incubators for innovative policies that supported working families. The passage of Public Acts 170 and 171 will restore the critical ability of local governments to enact labor standards necessary to help reverse inequality and build local economies that work for everyone; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby strongly urges the Michigan Legislature to pass Senate Bills 170 and 171; NOW BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to Mayor Mike Duggan, the Detroit delegations of both the Michigan State House and Senate, in addition to Governor Gretchen Whitmer.

Adopted as follows:

Yeas — Council Members Benson, Durhal, III, Johnson, Santiago-Romero, Tate, Waters, Whitfield-Calloway, Young, II and President Sheffield — 9.

City Planning Commission

September 11, 2023

Honorable City Council:

Re: The request of Joseph Nikollaj and the Detroit City Planning Commission to show an M2 (Restricted Industrial) zoning district where an R1 (Single-family Residential) zoning district is currently shown for the parcels commonly known as 19500 and 19536 W. Davison Street, generally located on the north side of W. Davison Street, bounded by Schoolcraft Street to the north, Minock Street to the east and Auburn Street to the west. **(RECOMMEND APPROVAL)**

BACKGROUND AND PROPOSAL

The City Planning Commission (CPC) has received a request from Joseph Nikollaj and initiated a corresponding proposal to amend District Map No. 76 of the 2019 Detroit City Code, Chapter 50, *Zoning*, to show an M2 (Restricted Industrial) zoning district where an R1 (Single-family Residential) zoning district is currently shown for the properties located at 19500 and 19536 W. Davison Street, generally bounded by Schoolcraft Street to the north, Minock Street to the east, W. Davison Street to the south, and Auburn Street to the west. The sites are in Council District 1.

19500 W. Davison

19500 W. Davison measures approximately 0.3 acres in size and contains a commercial building. The current legal use of the site is 'warehouse,' despite the R1 (Single-family Residential) zoning classification.

The proposed map amendment is being requested to permit the existing commercial building located on the site to be utilized as a medical marijuana grow facility. The existing R1 zoning classification does not allow for commercial uses of any kind, though the legal use is listed as 'warehouse.' The medical marijuana grow facility use is permitted as a conditional use and would require a Special Land Use hearing.

19536 W. Davison

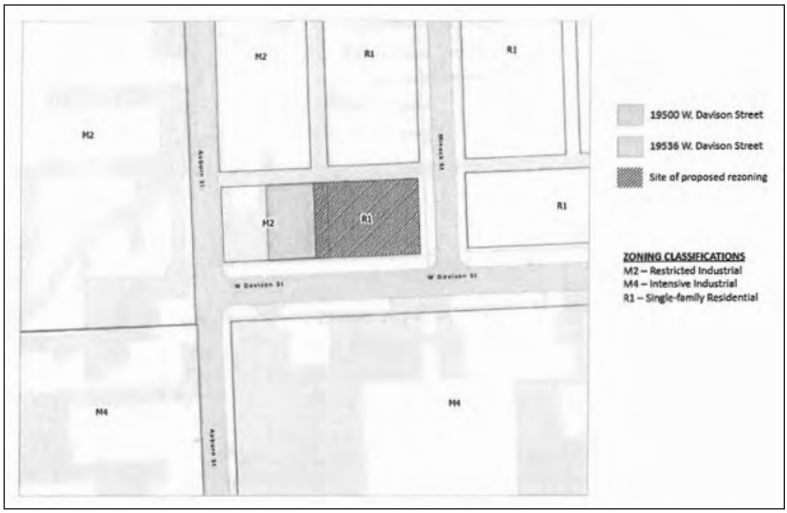
19536 W. Davison measures 0.2 acres in size and contains a commercial building. The site is owned by McDonald, George (Trust) and is home to McDonald Wholesale. The proposed map amendment is being requested for a portion of the site to create a uniformly zoned parcel. Most of the parcel is currently zoned M2 (Restricted Industrial), while a portion along the eastern most boundary of the property is zoned R1 (Single-family Residential).

Aerial view of parcels proposed for rezoning.

CPC MEETINGS

Public Hearing — February 16, 2023

On February 16, 2023, the City Planning Commission held a public hearing on this rezoning request. No public comments were made at the public hearing. At the time of the public hearing no letters of support or objection were received by CPC staff.



Following the public hearing, CPC staff was able to meet with the owners of 19536 W. Davison. The owners expressed their support of the rezoning. A letter was submitted to CPC staff on behalf of McDonald Wholesale Distributor, further expressing their support.

STAFF ANALYSIS

Surrounding Zoning and Land Use

The zoning classifications and uses surrounding the subject parcels are as follows:

North: R1 (Single-family Residential) — developed, single-family homes
East: R1 (Single-family Residential) — vacant
South: M4 (Intensive Industrial) — developed as industrial
West: M2 (Restricted Industrial) — developed as commercial

Current zoning classification map, with site proposed for rezoning hatched, and parcels identified.

Zoning Ordinance Approval Criteria

Section 50-3-70 of the 2019 Detroit City Code lists eight approval criteria on which zoning map amendments must be based. Following are the relevant criteria with CPC staff's analysis:

• *Whether the proposed rezoning amendment corrects an error or meets the challenge of some changing condition, trend, or fact.* The proposed rezoning will create a uniformly zoned parcel at 19536 W. Davison, which is currently split between M2 (Restricted Industrial) and R1 (Single-family Residential). CPC staff believes that the split zoning was unintentional and should be corrected.

• *The suitability of the subject property for the existing zoning classification and proposed zoning classification.* The existing R1 (Single-family Residential) does not allow for the existing commercial structure at 19500 W. Davison to be utilized as it is intended to be. The current legal use of the structure is 'warehouse.' M2 (Restricted Industrial) is a more suitable zoning classification, that will allow the existing structures and parking lot to be utilized as intended, and for the current legal uses of the properties.

• *Whether the proposed rezoning will create an illegal "spot zone."* No spot zoning will be created, as the block face will become a uniformly zoned block face.

Master Plan Consistency

The subject properties are located within the Brightmoor area of Neighborhood Cluster 8 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "RL — Low Density Residential" for the subject properties. The Planning and Development Department has reviewed this proposed rezoning and has determined that it is generally consistent with the Master Plan classification. The full report is attached.

Community Input

Community engagement for the proposed rezoning of 19500 W. Davison took place in September 2020. The petitioners met with the Plainview Block Club on September 24th and September 30th, 2020. Two additional meetings were had with the block club president, Ms. Conner, on September 30th, 2020, and October 5th, 2020. Additionally, the petitioners went door to door to engage with the community. Petition sheets in support of this rezoning were submitted, which included 65 signatures.

Following the February 16, 2023, public hearing, CPC staff met with the owners of the property at 19536 W. Davison. The owners expressed strong support for the rezoning of both 19500 W. Davison, and the portion of their property that currently shows an R1 (Single-family Residential) zoning classification. They further expressed their support for the proposed medical marijuana grow facility and the owners of 19500 W. Davison. A letter was sent to CPC staff on behalf of McDonald Wholesale Distributor, further expressing their support. The letter of support is attached.

RECOMMENDATION

On May 4, 2023, the City Planning Commission voted to recommend approval of the rezoning request of Joseph Nikollaj and the Detroit City Planning Commission to amend

Article XVII, Section 50-17-78, District Map 76 of Chapter 50 of the 2019 Detroit City Code, *Zoning*, to show an M2 (Restricted Industrial) zoning classification where an R1 (Single-family Residential) zoning classification is currently shown for the properties at 19500 and 19536 W. Davison Street.

Honorable City Council:

Re: Master Plan of Policies review of the request to show an M2 (Restricted Industrial District) zoning classification where an R1 (Single-Family Residential District) zoning classification is currently shown at 19500 and 19536 W. Davison Street.

Pursuant to the City of Detroit's City Charter (Sections 6-202 and 6-204), the Planning and Development Department's (P&DD) Planning Division submits the following review of the proposed rezoning. The proposed map amendment is at the request of Joseph Nikollaj and the CPC.

Location

The proposed site is generally bounded by Schoolcraft Street to the north, Auburn Street to the west, Minock Street to the east, and W. Davison Street to the south.

Existing Site Information

The area is approximately 0.3 acres in size, and contains a commercial building.

Surrounding Site Information

North: R1 — Single family homes
East: R1 — Vacant
South: M4 — Industrial
West: M2 — Commercial

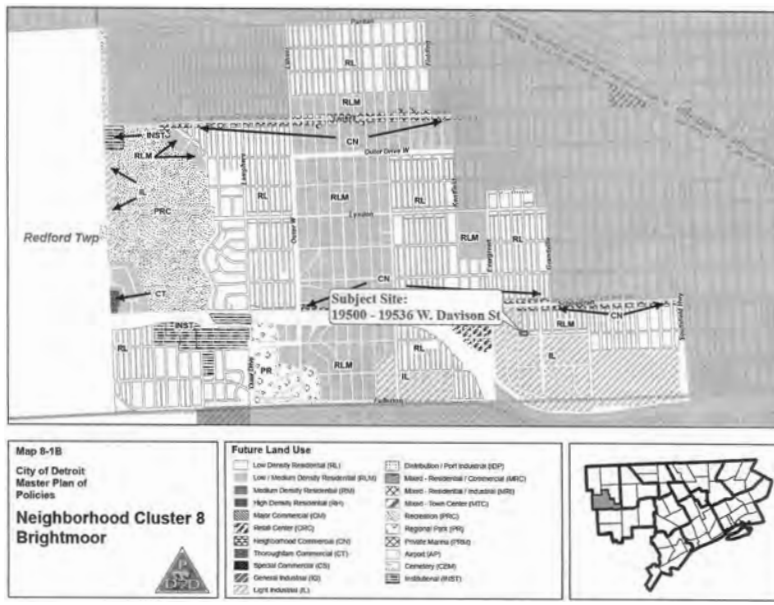
Project Proposal

The rezoning is being requested to permit the existing commercial building to be utilized as a Marijuana Grower Facility. The existing R1 zoning classification does not allow for commercial uses, though the existing structure is not a residential building.

Interpretation

Impact on Surrounding Land Use

The rezoning of the site to a light industrial classification will significantly increase the intensity of the possible uses and traffic volumes. Truck traffic is also possible with industrial uses. This could of course impact the adjacent residential properties.



Impact on Transportation

W. Davison in this area is not a major or secondary thoroughfare. There is a bus route on Schoolcraft Street to the north. Minock Street is a residential street adjacent to and north of the site, while Auburn is industrial.

Master Plan Interpretation

The site is designated Low Density Residential (RL) in the Master Plan's Brightmoor neighborhood. These "areas should have an overall density (of) up to 8 dwelling units per net residential acre. The areas are often characterized by single family homes with front yard set backs and driveways with garage or off street parking." Due to the small size of the subject area and the fact that the area currently contains a commercial use makes it unlikely that the rezoning to light industrial will change the overall character of the area. Therefore, the proposal is generally consistent with the Master Plan.

The Housing and Revitalization Department (HRD) hereby requests to amend the CDBG Annual Action Plans for the fiscal years in the attached report. Honorable City Council:

Re: Amended and Restated Development Agreement Brewster Wheeler Recreation Center.

The City of Detroit is a party to that certain Agreement to Purchase and Develop Land dated December 19, 2017 (the "Development Agreement"), between the City and Spar Bar, LLC, a Michigan limited liability company ("Original Developer"), pursuant to which the City conveyed property located at 2900 St. Antoine, Detroit, Michigan 48201, com-

monly known as the Brewster Wheeler Recreation Center, to Original Developer (the "Property"). The sale of the Property pursuant to the Development Agreement was approved by your Honorable Body on July 16, 2016. This Development Agreement contemplated that Original Developer would construct certain improvements on the Property consisting of a restaurant and bar, catering space, office space, and a community event space, along with a second phase of development that included a residential housing development. In the years since the Development Agreement was executed, the Original Developer has failed to improve the Property as required in the Development Agreement.

MHT Housing Inc., a Michigan non-profit corporation ("MHT"), is seeking to purchase the Property from Original Developer and proposes to construct four (4) multi-family residential buildings on the Property, each consisting of approximately fifty (50) residential units, which are anticipated to provide a significant number of affordable units in accordance with the requirements of low income housing tax credit financing, financing provided by the Michigan State Housing Development Authority, or other sources of state or federal funds for affordable housing development being pursued by MHT. One of the residential buildings will also provide supportive housing services for persons who have recently aged out of the foster care system, in partnership with Bishop Charles H. Ellis, III and the Greater Grace Temple. MHT also proposes to renovate the Brewster Wheeler Recreation Center building to be operated as an indoor recreation facility.

MHT is requesting that the City permit this sale of the Property and transfer of the Development Agreement from Original Developer to MHT, and amend and restate the existing Development Agreement to permit the construction of the proposed four (4) multi-family residential buildings and renovated recreation center.

MHT is also requesting a quit claim deed from the City for a portion of the Property, which was subject to a quit claim deed from the U.S. Department of Housing and Urban Development ("HUD") to the City on February 27, 2018. This deed from HUD was made after the Property was conveyed by the City to Original Developer. The City's deed to MHT would be provided to remedy this errant conveyance in the chain of title.

The Property is currently zoned PD — Planned Development, in an area that is subject to the City's form based code. The proposed project is proceeding with review by the City Planning Commission to confirm conformance with the Form Based Code.

We hereby request that your Honorable Body adopt the attached resolution to authorize the P&DD Director, or his authorized designee, to execute an amended and restated development agreement, a quit claim deed, and such other documents as may be necessary or convenient to permit the transfer of the Property from Original Developer to MHT, and to provide for development of the Property for the four (4) residential buildings and a renovated recreation center.

Respectfully submitted,
ANTOINE BRYANT
Director

By Council President Pro Tem. Tate:

Now, Therefore, Be It Resolved, That Detroit City Council hereby approves the execution and delivery of an Amended and Restated Agreement to Purchase and Develop Land (the "Amended and Restated Development Agreement") between the City of Detroit and MHT Housing, Inc., a Michigan non-profit corporation ("MHT"), amending and restating that certain Agreement to Purchase and Develop Land dated December 19, 2017, between the City of Detroit and Spar Bar, LLC, a Michigan limited liability company, to permit redevelopment of that certain property located at 2900 St. Antoine, Detroit, Michigan 48201 and described on Exhibit A attached hereto (the "Property") as four (4) multi-family residential developments, each containing approximately fifty (50) residential units, providing a mix of affordable and market rate housing (one of which will provide supportive housing for persons who have aged out of the foster care system), and a renovated indoor recreation facility; and be it further

Resolved, That the Director of the Planning and Development Department ("P&DD"), or his authorized designee, is authorized to execute (a) the Amended and Restated Development Agreement, (b) a quit claim deed, quit claiming to MHT the property described in Exhibit B attached hereto to remedy a deed to the City of Detroit by the U. S. Department of Housing and Urban Development appearing in the chain of title for the Property, and (c) such other documents as may be necessary or convenient to complete the transactions contemplated herein; and be it further

Resolved, That the P&DD Director, or his authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the development agreement and/or quit claim deed (including but not limited to corrections to or confirmations of legal descriptions of the property subject thereto, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise, provided that

the changes do not materially alter the substance or terms of the transfer and sale; and be it further

Resolved, That the Amended and Restated Development Agreement and quit claim deed will be considered confirmed when executed by the P&DD Director, or his authorized designee, and approved by the Corporation Counsel as to form.

Honorable City Council:

Re: Property Sale by Development Agreement Corktown Properties — Preserve on Ash I.

On November 17, 2020, your Honorable Body approved the sale of 147 City-owned parcels ("Properties") to The Community Builders, Inc. ("Developer"') for the purchase price of Two Hundred Twenty-Five Thousand and 00/100 Dollars ($225,000.00). The Developer proposed to construct a mixed-income, mixed-use development with approximately 250 affordable rental units on the Properties ("Development Project"). Your Honorable Body permitted the transfer of the Properties to Developer to occur in one or more separate closings, provided that the quit claim deed for each respective closing shall reflect consideration being the pro-rata share of the purchase price based on the square footage being conveyed by the respective quit claim deed.

The Development Project is structured in four phases. As part of the first phase, the Planning and Development Department ("P&DD") has a received an offer from The Preserve on Ash I Limited Dividend Housing Association LLC, a Michigan limited liability company ("POA I LDHA"), a subsidiary of the Developer to purchase and develop 3309 14th Street, 3107 14th Street, 3314 15th Street, 3325 15th Street, and 3316 16th Street ("Phase I Properties") for the sum of Thirty-One Thousand Nine Hundred Ninety-Three and 00/100 dollars ($31,993.00). POA I LDHA proposes to utilize the Phase I Properties to construct 69 new, mixed income housing units ranging from 30% AMI to market rate, providing quality, safe housing for residents of all incomes, including 48 affordable units with priority for target housing residents currently residing at Clement Kern Garden.

The property is currently zoned SD1-Special Development District, Small-Scale, Mixed-Use and R3 — Low Density Residential District. The proposed residential development is permitted as a right in both of these zoning districts.

This is first phase in a multi-year housing strategy led by the Developer to bring 160 new, mixed-income rental housing units and 30 new homeownership units to the North Corktown neighborhood. The project was designed specifically to meet the needs of current and future residents of Clement Kern and Greater Corktown, bringing a diversity of unit types based on resident preferences and feedback and the North Corktown neighborhood context. This project is a critical piece of the vision for a mixed-income, inclusive and interconnected Greater Corktown developed jointly with residents through the Choice Neighborhoods planning process and is directly aligned with the City's goals.

There are no brokers commissions due on this transaction and the Purchaser is responsible for all customary closing costs.

We hereby request that your Honorable Body adopt the attached resolution to authorize the P&DD Director, or his authorized designee, to execute a development agreement, deed and such other documents as may be necessary or convenient to effect a transfer of the Phase I Properties by the City to The Preserve on Ash I Limited Dividend Housing Association LLC.

Respectfully submitted,

("Purchase Price"); and be it further

Resolved, That the sale of the Phase I Properties shall be subject to POA I LDHA entering into a development agreement at closing which shall obligate POA I LDHA to cause a mixed-income, mixed-use development to be constructed on the Phase I Properties; and be it further

Resolved, That the Director of the Planning and Development Department ("P&DD"), or his authorized designee, is authorized to execute a development agreement and issue one or more quit claim deeds for the sale of the Phase I Properties, as well as execute such other documents as may be necessary or convenient to effect the transfer of the Phase I Properties to POA I LDHA for the Purchase Price; and be it further

The DLBA is now in receipt of an offer from Rescue MI Nature Now, Inc., a Michigan Non Profit Corporation ("Rescue MI") to enter into an option to purchase Forty One (41) properties ("the Property") acquired by the DLBA (as described in the attached Exhibit A). For the project Rescue MI has secured a grant of $189,300 from the National Fish and Wildlife Foundation, pending successful completion of their programmatic and fiscal review process.

The Property is zoned R2 (Two Family Residential District). The Offeror shall comply with any Urban Agriculture guidelines as required, apply for and obtain any Conditional Land Use approvals and/or obtain any required zoning changes needed in accordance with the zoning guidelines and approval processes.

Conditions to Exercise Option and Execute Development Agreement are to include:

The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services). The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in bid proposal or request for proposal documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract.

4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors.

II. NONDISCRIMINATION

The provisions of this section related to 23 CFR Part 230 are applicable to all Federal-aid construction contracts and to all related construction subcontracts of $10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625-1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-

1.4(b) and, for all construction contracts exceeding $10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.)* set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.

b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

2. EEO Officer: The contractor will designate and make known to the contracting officers an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities lo provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.

b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.

d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.

b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:

a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable lime. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.

b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).

c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.

d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.

b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.

c. The contractor is to obtain information as lo the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.

d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all

rules and regulations established thereunder. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.

b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.

b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

a. The records kept by the contractor shall document the following:

(1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;

(2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and

(3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women;

b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on Form FHWA-1391. The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of $10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding $2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not

less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and *bona fide* fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for *bona fide* fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(ii) The classification is utilized in the area by the construction industry; and

(iii) The proposed wage rate, including any *bona fide* fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another *bona fide* fringe benefit or an hourly cash equivalent thereof.

d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing *bona fide* fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the con-

tractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and basic records

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for *bona fide* fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

b.(1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at *http://www.dol.gov/esa/whd/forms/wh347instr.htm* or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency.

(2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;

(ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

(iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash

equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.

(4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a *bona fide* apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL). Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the

wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility.

a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of $100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under con-

tract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1.) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.

3. Withholding for unpaid wages and liquidated damages. The FHWA or the contacting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.

4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).

a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:

(1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;

(2) the prime contractor remains responsible for the quality of the work of the leased employees;

(3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and

(4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.

2. The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.

4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.

5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.

2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).

3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C.3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

By submission of this bid/proposal or the execution of this contract, or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, or subcontractor, as appropriate, will be deemed to have stipulated as follows:

1. That any person who is or will be utilized in the performance of this contract is not prohibited from receiving an award due to a violation of Section 508 of the Clean Water Act or Section 306 of the Clean Air Act.

2. That the contractor agrees to include or cause to be included the requirements of paragraph (1) of this Section X in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements.

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost $25,000 or more — as defined in 2 CFR Parts 180 and 1200.

1. Instructions for Certification — First Tier Participants:

a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.

b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.

d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold.

h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (*https://www.epls.gov/*), which is compiled by the General Services Administration.

i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion — First Tier Participants:

a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal

offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

2. Instructions for Certification — Lower Tier Participants:

(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more — 2 CFR Parts 180 and 1200)

a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant' refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (*https://www.epls.gov/*), which is compiled by the General Services Administration.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Participants:

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

XI. CERTIFICATION REGARDING USE OF CONTRACT FUNDS FOR LOBBYING

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts which exceed $100,000 (49 CFR 20).

1. The prospective participant certifies, by signing and submitting this bid or proposal, to the best of his or her knowledge and belief, that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such recipients shall certify and disclose accordingly.

1. During the performance of this contract, the contractor undertaking to do work which is, or reasonably may be, done as on-site work, shall give preference to qualified persons who regularly reside in the labor area as designated by the DOL wherein the contract work is situated, or the subregion, or the Appalachian counties of the State wherein the contract work is situated, except:

a. To the extent that qualified persons regularly residing in the area are not available.

b. For the reasonable needs of the contractor to employ supervisory or specially experienced personnel necessary to assure an efficient execution of the contract work.

c. For the obligation of the contractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that the number of nonresident persons employed under this subparagraph (1c) shall not exceed 20 percent of the total number of employees employed by the contractor on the contract work, except as provided in subparagraph (4) below.

2. The contractor shall place a job order with the State Employment Service indicating (a) the classifications of the laborers, mechanics and other employees required to perform the contract work, (b) the number of employees required in each classification, (c) the date on which the participant estimates such employees will be required, and (d) any other pertinent information required by the State Employment Service to complete the job order form. Such certificate shall be made a part of the contractor's permanent project records. Upon receipt of this certificate, the contractor may employ persons who do not normally reside in the labor area to fill positions covered by the certificate, notwithstanding the provisions of subparagraph (1c) above.

5. The provisions of 23 CFR 633.207(e) allow the contracting agency to provide a contractual preference for the use of mineral resource materials native to the Appalachian region.

6. The contractor shall include the provisions of Sections 1 through 4 of this Attachment A in every subcontract for work which is, or reasonably may be, done as on-site work.

SECTION III
ACCOUNTING AND BILLING

A. Procedures for billing for work undertaken by the REQUESTING PARTY:

1. The REQUESTING PARTY shall establish and maintain accurate records, in accordance with generally accepted accounting principles, of all expenses incurred for which payment is sought or made under this contract, said records to be hereinafter referred to as the "RECORDS". Separate accounts shall be established and maintained for all costs incurred under this contract.

The REQUESTING PARTY shall maintain the RECORDS for at least three (3) years from the date of final payment of Federal Aid made by the DEPARTMENT under this contract. In the event of a dispute with regard to the allowable expenses or any other issue under this contract, the REQUESTING PARTY shall thereafter continue to maintain the RECORDS at least until that dispute has been finally decided and the time for all available challenges or appeals of that decision has expired.

The DEPARTMENT, or its representative, may inspect, copy, or audit the RECORDS at any reasonable time after giving reasonable notice.

If any part of the work is subcontracted, the REQUESTING PARTY shall assure compliance with the above for all subcontracted work.

In the event that an audit performed by or on behalf of the DEPARTMENT indicates an adjustment to the costs reported under this contract, or questions the allowability of an item of expense, the DEPARTMENT shall promptly submit to the REQUESTING PARTY, a Notice of Audit Results and a copy of the audit report which may supplement or modify any tentative findings verbally communicated to the REQUESTING PARTY at the completion of an audit.

Within sixty (60) days after the date of the Notice of Audit Results, the REQUESTING PARTY shall: (a) respond in writing to the responsible Bureau or the DEPARTMENT indicating whether or not it concurs with the audit report, (b) clearly explain the nature and basis for any disagreement as to a disallowed item of expense and, (c) submit to the DEPARTMENT a written explanation as to any questioned or no opinion expressed item of expense, hereinafter referred to as the "RESPONSE". The RESPONSE shall be clearly stated and provide any supporting documentation necessary to resolve any disagreement or questioned or no opinion expressed item of expense. Where the documentation is voluminous, the REQUESTING PARTY may supply appropriate excerpts and make alternate arrangements to conveniently and reasonably make that documentation available for review by the DEPARTMENT. The RESPONSE shall refer to and apply the language of the contract. The REQUESTING PARTY agrees that failure to submit a RESPONSE within the sixty (60) day period constitutes agreement with any disallowance of an item of expense and authorizes the DEPARTMENT to finally disallow any items of questioned or no opinion expressed cost.

The DEPARTMENT shall make its decision with regard to any Notice of Audit Results and RESPONSE within one hundred twenty (120) days after the date of the Notice of Audit Results. If the DEPARTMENT determines that an overpayment has been made to the REQUESTING PARTY, the REQUESTING PARTY shall repay that amount to the DEPARTMENT or reach agreement with the DEPARTMENT on a repayment schedule within thirty (30) days after the date of an invoice from the DEPARTMENT. If the REQUESTING PARTY fails to repay the overpayment or reach agreement with the DEPARTMENT on a repayment schedule within the thirty (30) day period, the REQUESTING PARTY agrees that the

DEPARTMENT shall deduct all or a portion of the overpayment from any funds then or thereafter payable by the DEPARTMENT to the REQUESTING PARTY under this contract, or any other agreement, or payable to the REQUESTING PARTY under the terms of 1951 PA 51, as applicable. Interest will be assessed on any partial payments or repayment schedules based on the unpaid balance at the end of each month until the balance is paid in full. The assessment of interest will begin thirty (30) days from the date of the invoice. The rate of interest will be based on the Michigan Department of Treasury common cash funds interest earnings. The rate of interest will be reviewed annually by the DEPARTMENT and adjusted as necessary based on the Michigan Department of Treasury common cash funds interest earnings. The REQUESTING PARTY expressly consents to this withholding or offsetting of funds under those circumstances, reserving the right to file a lawsuit in the Court of Claims to contest the DEPARTMENT'S decision only as to any item of expense the disallowance of which was disputed by the REQUESTING PARTY in a timely filed RESPONSE.

The REQUESTING PARTY shall comply with the Single Audit Act of 1984, as amended, including, but not limited to, the Single Audit Amendments of 1996 (31 USC 7501-7507).

The REQUESTING PARTY shall adhere to the following requirements associated with audits of accounts and records:

a. Agencies expending a total of $500,000 or more in federal funds, from one or more funding sources in its fiscal year, shall comply with the requirements of the federal Office of Management and Budget (OMB) Circular A-133, as revised or amended.

The OMB Circular A-133 audit must be submitted to the address below in accordance with the time frame established in the circular, as revised or amended.

b. Agencies expending less than $500,000 in federal funds must submit a letter to the Department advising that a circular audit was not required. The letter shall indicate the applicable fiscal year, the amount of federal funds spent, the name(s) of the Department federal programs, and the CFDA grant number(s). This information must also be submitted to the address below.

c. Address: Michigan Department of Education
Accounting Service Center
Hannah Building

e. Agencies shall not charge audit costs to Department's federal programs which are not in accordance with the OMB Circular A-133 requirements.

f. All agencies are subject to the federally required monitoring activities, which may include limited scope reviews and other on-site monitoring.

2. Agreed Unit Prices Work — All billings for work undertaken by the REQUESTING PARTY on an agreed unit price basis will be submitted in accordance with the Michigan Department of Transportation Standard Specifications for Construction and pertinent FAPO Directives and Guidelines of the FHWA.

3. Force Account Work and Subcontracted Work — All billings submitted to the DEPARTMENT for Federal reimbursement for items of work performed on a force account basis or by any subcontract with a consulting firm, railway company, governmental agency or other party, under the terms of this contract, shall be prepared in accordance with the provisions of the pertinent FHPM Directives and the procedures of the DEPARTMENT. Progress billings may be submitted monthly during the time work is being performed provided, however, that no bill of a lesser amount than $1,000.00 shall be submitted unless it is a final or end of fiscal year billing. All billings shall be labeled either "Progress Bill Number ___", or "Final Billing".

4. Final billing under this contract shall be submitted in a timely manner but not later than six months after completion of the work. Billings for work submitted later than six months after completion of the work will not be paid.

5. Upon receipt of billings for reimbursement for work undertaken by the REQUESTING PARTY on projects funded with Federal monies, the DEPARTMENT will act as billing agent for the REQUESTING PARTY, consolidating said billings with those for its own force account work and presenting these consolidated billings to the FHWA for payment. Upon receipt of reimbursement from the FHWA, the DEPARTMENT will promptly forward to the REQUESTING PARTY its share of said reimbursement.

6. Upon receipt of billings for reimbursement for work undertaken by the REQUESTING PARTY on projects funded with non-Federal monies, the DEPARTMENT will promptly forward to the REQUESTING PARTY reimbursement of eligible costs.

B. Payment of Contracted and DEPARTMENT Costs:

1. As work on the PROJECT commences, the initial payments for contracted work and/or costs incurred by the DEPARTMENT will be made from the working cap-

ital deposit. Receipt of progress payments of Federal funds, and where applicable, State Critical Bridge funds, will be used to replenish the working capital deposit. The REQUESTING PARTY shall make prompt payments of its share of the contracted and/or DEPARTMENT incurred portion of the PROJECT COST upon receipt of progress billings from the DEPARTMENT. Progress billings will be based upon the REQUESTING PARTY'S share of the actual costs incurred as work on the PROJECT progresses and will be submitted, as required, until it is determined by the DEPARTMENT that there is sufficient available working capital to meet the remaining anticipated PROJECT COSTS. All progress payments will be made within thirty (30) days of receipt of billings. No monthly billing of a lesser amount than $1,000.00 will be made unless it is a final or end of fiscal year billing. Should the DEPARTMENT determine that the available working capital exceeds the remaining anticipated PROJECT COSTS, the DEPARTMENT may reimburse the REQUESTING PARTY such excess. Upon completion of the PROJECT, payment of all PROJECT COSTS, receipt of all applicable monies from the FHWA, and completion of necessary audits, the REQUESTING PARTY will be reimbursed the balance of its deposit.

2. In the event that the bid, plus contingencies, for the contracted, and/or the DEPARTMENT incurred portion of the PROJECT work exceeds the estimated cost therefor as established by this contract, the REQUESTING PARTY may be advised and billed for the additional amount of its share.

C. General Conditions:

1. The DEPARTMENT, in accordance with its procedures in existence and covering the time period involved, shall make payment for interest earned on the balance of working capital deposits for all projects on account with the DEPARTMENT. The REQUESTING PARTY in accordance with DEPARTMENT procedures in existence and covering the time period involved, shall make payment for interest owed on any deficit balance of working capital deposits for all projects on account with the DEPARTMENT. This payment or billing is processed on an annual basis corresponding to the State of Michigan fiscal year. Upon receipt of billing for interest incurred, the REQUESTING PARTY promises and shall promptly pay the DEPARTMENT said amount.

2. Pursuant to the authority granted by law, the REQUESTING PARTY hereby irrevocably pledges a sufficient amount of funds received by it from the Michigan Transportation Fund to meet its obligations as specified in PART I and PART II. If the REQUESTING PARTY shall fail to make any of its required payments when due, as specified herein, the DEPARTMENT shall immediately notify the REQUESTING PARTY and the State Treasurer of the State of Michigan or such other state officer or agency having charge and control over disbursement of the Michigan Transportation Fund, pursuant to law, of the fact of such default and the amount thereof, and, if such default is not cured by payment within ten (10) days, said State Treasurer or other state officer or agency is then authorized and directed to withhold from the first of such monies thereafter allocated by law to the REQUESTING PARTY from the Michigan Transportation Fund sufficient monies to remove the default, and to credit the REQUESTING PARTY with payment thereof, and to notify the REQUESTING PARTY in writing of such fact.

3. Upon completion of all work under this contract and final audit by the DEPARTMENT or the FHWA, the REQUESTING PARTY promises to promptly repay the DEPARTMENT for any disallowed items of costs previously disbursed by the DEPARTMENT. The REQUESTING PARTY pledges its future receipts from the Michigan Transportation Fund for repayment of all disallowed items and, upon failure to make repayment for any disallowed items within ninety (90) days of demand made by the DEPARTMENT, the DEPARTMENT is hereby authorized to withhold an equal amount from the REQUESTING PARTY'S share of any future distribution of Michigan Transportation Funds in settlement of said claim.

4. The DEPARTMENT shall maintain and keep accurate records and accounts relative to the cost of the PROJECT and upon completion of the PROJECT, payment of all items of PROJECT COST, receipt of all Federal Aid, if any, and completion of final audit by the DEPARTMENT and if applicable, by the FHWA, shall make final accounting to the REQUESTING PARTY. The final PROJECT accounting will not include interest earned or charged on working capital deposited for the PROJECT which will be accounted for separately at the close of the State of Michigan fiscal year and as set forth in Section C(1).

5. The costs of engineering and other services performed on those projects involving specific program funds and one hundred percent (100%) local funds will be apportioned to the respective portions of that project in the same ratio as the actual direct construction costs unless otherwise specified in PART I.

SECTION IV
MAINTENANCE AND OPERATION

A. Upon completion of construction of each part of the PROJECT, at no cost to the DEPARTMENT or the PROJECT,

each of the parties hereto, within their respective jurisdictions, will make the following provisions for the maintenance and operation of the completed PROJECT:

1. All Projects:

Properly maintain and operate each part of the project, making ample provisions each year for the performance of such maintenance work as may be required, except as qualified in paragraph 2b of this section.

2. Projects Financed in Part with Federal Monies:

a. Sign and mark each part of the PROJECT, in accordance with the current Michigan Manual of Uniform Traffic control Devices, and will not install, or permit to be installed, any signs, signals or markings not in conformance with the standards approved by the FHWA, pursuant to 23 USC 109(d).

b. Remove, prior to completion of the PROJECT, all encroachments from the roadway right-of-way within the limits of each part of the PROJECT.

With respect to new or existing utility installations within the right-of-way of Federal Aid projects and pursuant to FAPG (23 CFR 645B): Occupancy of non-limited access right-of-way may be allowed based on consideration for traffic safety and necessary preservation of roadside space and aesthetic quality. Longitudinal occupancy of non-limited access right-of-way by private lines will require a finding of significant economic hardship, the unavailability of practicable alternatives or other extenuating circumstances.

c. Cause to be enacted, maintained and enforced, ordinances and regulations for proper traffic operations in accordance with the plans of the PROJECT.

d. Make no changes to ordinances or regulations enacted, or traffic controls installed in conjunction with the PROJECT work without prior review by the DEPARTMENT and approval of the FHWA, if required.

B. On projects for the removal of roadside obstacles, the parties, upon completion of construction of each part of the PROJECT, at no cost to the PROJECT or the DEPARTMENT, will, within their respective jurisdictions, take such action as is necessary to assure that the roadway light-of-way, cleared as the PROJECT, will be maintained free of such obstacles.

C. On projects for the construction of bikeways, the parties will enact no ordinances or regulations prohibiting the use of bicycles on the facility hereinbefore described as the PROJECT, and will amend any existing restrictive ordinances in this regard so as to allow use of this facility by bicycles. No motorized vehicles shall be permitted on such bikeways or walkways constructed as the PROJECT except those for maintenance purposes.

D. Failure of the parties hereto to fulfill their respective responsibilities as outlined herein may disqualify that party from future Federal-aid participation in projects on roads or streets for which it has maintenance responsibility. Federal Aid may be withheld until such time as deficiencies in regulations have been corrected, and the improvements constructed as the PROJECT are brought to a satisfactory condition of maintenance.

SECTION V
SPECIAL PROGRAM
AND PROJECT CONDITIONS

A. Those projects for which the REQUESTING PARTY has been reimbursed with Federal monies for the acquisition of right-of-way must be under construction by the close of the twentieth (20th) fiscal year following the fiscal year in which the FHWA and the DEPARTMENT projects agreement covering that work is executed, or the REQUESTING PARTY may be required to repay to the DEPARTMENT, for forwarding to the FHWA, all monies distributed as the FHWA'S contribution to that right-of-way.

B. Those projects for which the REQUESTING PARTY has been reimbursed with Federal monies for the performance of preliminary engineering must be under construction by the close of the tenth (10th) fiscal year following the fiscal year in which the FHWA and the DEPARTMENT projects agreement covering that work is executed, or the REQUESTING PARTY may be required to repay to the DEPARTMENT, for forwarding to the FHWA, all monies distributed as the FHWA'S contribution to that preliminary engineering.

C. On those projects funded with Federal monies, the REQUESTING PARTY, at no cost to the PROJECT or the DEPARTMENT, will provide such accident information as is available and such other information as may be required under the program in order to make the proper assessment of the safety benefits derived from the work performed as the PROJECT. The REQUESTING PARTY will cooperate with the DEPARTMENT in the development of reports and such analysis as may be required and will, when requested by the DEPARTMENT, forward to the DEPARTMENT, in such form as is necessary, the required information.

D. In connection with the performance of PROJECT work under this contract the parties hereto (hereinafter in Appendix "A" referred to as the "contractor") agree to comply with the State of Michigan provisions for "Prohibition of Discrimination in State Contracts", as set forth in Appendix A, attached hereto and made a part hereof. Sections 1971, 1975a-1975d, and 2000a-2000h-6 and the Regulations of the

United States Department of Transportation (49 C.F.R. Part 21) issued pursuant to said Act, including Appendix "B", attached hereto and made a part hereof, and will require similar covenants on the part of any contractor or subcontractor employed in the performance of this contract.

E. The parties will carry out the applicable requirements of the DEPARTMENT'S Disadvantaged Business Enterprise (DBE) program and 49 CFR, Part 26, including, but not limited to, those requirements set forth in Appendix C.

A breach of the above covenants will be regarded as a material breach of this contract.

2. The contractor hereby agrees that any and all subcontracts to this contract, whereby a portion of the work set forth in this contract is to be performed, shall contain a covenant the same as hereinabove set forth in Section 1 of this Appendix.

3. 7. The contractor shall furnish and file compliance reports within such time and upon such forms as provided by the Michigan Civil Rights Commission; said forms may also elicit information as to the practices, policies, program, and employment statistics of each subcontractor, as well as the contractor itself, and said contractor shall permit access to the contractor's books, records, and accounts by the Michigan Civil Rights Commission and/or its agent for the purposes of investigation to ascertain compliance under this contract and relevant rules, regulations, and orders of the Michigan Civil Rights Commission.

8. In the event that the Michigan Civil Rights Commission finds, after a hearing held pursuant to its rules, that a contractor has not complied with the contractual obligations under this contract, the Michigan Civil Rights Commission may, as a part of its order based upon such findings, certify said findings to the State Administrative Board of the State of Michigan, which State Administrative Board may order the cancellation of the contract found to have been violated and/or declare the contractor ineligible for future contracts with the state and its political and civil subdivisions, departments, and officers, including the governing boards of institutions of higher education, until the contractor complies with said order of the Michigan Civil Rights Commission. Notice of said declaration of future ineligibility may be given to any or all of the persons with whom the contractor is declared ineligible to contract as a contracting party in future contracts. In any case before the Michigan Civil Rights Commission in which cancellation of an existing contract is a possibility, the contracting agency shall be notified of such possible remedy and shall be given the option by the Michigan Civil Rights Commission to participate in such proceedings.

9. The contractor shall include or incorporate by reference, the provisions of the foregoing paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Michigan Civil Rights Commission; all subcontracts and purchase orders will also state that said provisions will be binding upon each subcontractor or supplier.

Attachment 1 — Project Description

The purpose of this competitively selected American Rescue Plan funded grant is to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcome disparities stemming from pollution and the COVID-19 pandemic. The City of Detroit will establish a comprehensive citywide particulate matter monitoring network with near real-time reporting. Data collected from the network will be used to educate Detroit's citizens and policy makers and expand network parameters while targeting areas of highest impact. The activities will be used to support Community and Local efforts to monitor their own air quality and to promote air quality monitoring partnerships between Communities, State, and local Governments that: leverage existing air quality expertise, expand use of community monitoring groups and other approaches that give the community a voice in the monitoring of the air quality, and build a foundation of trusting relationships and enhanced understanding from which sustainable solutions to community air pollution problems can be found. The anticipated deliverables include the purchase and deployment of particulate matter air quality monitoring equipment, the collection of data for reporting through the City's website, and a City-wide assessment of particulate matter air pollution, including a full breakdown of levels by city council district and communities, by Winter 2026. The expected outcomes include establishing an Air Quality Monitoring network, identifying Community priorities for Air Quality, establishing Community Air Quality Workgroups, and providing information to City Leadership to develop air quality and reporting standards. The intended beneficiaries include the Citizens of the City of Detroit. The activities to be carried out under the subaward include community education through training and the creation and implementation of an outreach strategy to disseminate air quality data.

5. Loss or Compromise of Data. In the event of any act, error or omission, negligence, misconduct, or breach on the part of Grantee that compromises or is suspected to compromise the security, confidentiality, or integrity of State Data or the physical, technical, administrative, or organizational safeguards put in place by Grantee that relate to the protection of the security, confidentiality, or integrity of State Data, Grantee must, as applicable: (a) notify the Department as soon as practicable but no later than 24 hours of becoming aware of such occurrence; (b) cooperate with the Department in investigating the occurrence, including making available all relevant records, logs, files, data reporting, and other materials required to comply with applicable law or as otherwise required by the

Department; (c) in the case of PII or PHI, at the Department's sole election, (i) with approval and assistance from the Department, notify the affected individuals who comprise the PII or PHI as soon as practicable but no later than is required to comply with applicable law, or, in the absence of any legally required notification period, within five calendar days of the occurrence; or (ii) reimburse the Department for any costs in notifying the affected individuals; (d) in the case of PII, provide third-party credit and identity monitoring services to each of the affected individuals who comprise the PII for the period required to comply with applicable law, or, in the absence of any legally required monitoring services, for no less than 24 months following the date of notification to such individuals; (e) perform or take any other actions required to comply with applicable law as a result of the occurrence; (f) pay for any costs associated with the occurrence, including but not limited to any costs incurred by the Department in investigating and resolving the occurrence, including reasonable attorney's fees associated with such investigation and resolution; (g) without limiting Grantee's obligations of indemnification as further described in this Agreement, indemnify, defend, and hold harmless the Department for any and all claims, including reasonable attorneys' fees, costs, and incidental expenses, which may be suffered by, accrued against, charged to, or recoverable from the Department in connection with the occurrence; (h) be responsible for recreating lost State Data in the manner and on the schedule set by the Department without charge to the Department; and, (i) provide to the Department a detailed plan within 10 calendar days of the occurrence describing the measures Grantee will undertake to prevent a future occurrence. Notification to affected individuals, as described above, must comply with applicable law, be written in plain language, not be tangentially used for any solicitation purposes, and contain, at a minimum: name and contact information of Grantee's representative; a description of the nature of the loss; a list of the types of data involved; the known or approximate date of the loss; how such loss may affect the affected individual; what steps Grantee has taken to protect the affected individual; what steps the affected individual can take to protect himself or herself; contact information for major credit card reporting agencies; and, information regarding the credit and identity monitoring services to be provided by Grantee. The Department will have the option to review and approve any notification sent to affected individuals prior to its delivery. Notification to any other party, including but not limited to public media outlets, must be reviewed, and approved by the Department in writing prior to its dissemination. The parties agree that any damages relating to a breach of this section are to be considered direct damages and not consequential damages.

6. Surrender of Confidential Information upon Termination. Upon termination or expiration of this Contract or a Statement of Work, in whole or in part, each party must, within 5 Business Days from the date of termination, return to the other party any and all Confidential Information received from the other party, or created or received by a party on behalf of the other party, which are in such party's possession, custody, or control. Upon confirmation from the State, of receipt of all data, Grantee must permanently sanitize or destroy the State's Confidential Information, including State Data, from all media including backups using National Security Agency ("NSA") and/or National Institute of Standards and Technology ("NIST") (NIST Guide for Media Sanitization 800-88) data sanitization methods or as otherwise instructed by the State. If the State determines that the return of any Confidential Information is not feasible or necessary, Grantee must destroy the Confidential Information as specified above. The Grantee must certify the destruction of Confidential Information (including State Data) in writing within 5 Business Days from the date of confirmation from the State. Any requirement on the Grantee's part to retain data beyond the end of this contract must be authorized by the State.

Q. Non-Disclosure of Confidential Information

1. The Grantee agrees that it will use confidential information solely for the purpose of this Agreement. The Grantee agrees to hold all confidential information in strict confidence and not to copy, reproduce, sell, transfer or otherwise dispose of, give or disclose such confidential information to third parties other than employees, agents, or subcontractors of a party who have a need to know in connection with this Agreement or to use such confidential information for any purpose whatsoever other than the performance of this Agreement. The Grantee must take all reasonable precautions to safeguard the confidential information. These precautions must be at least as great as the precautions the Grantee takes to protect its own confidential or proprietary information.

2. Meaning of Confidential Information

For the purpose of this Agreement the term "confidential information" means all information and documentation that:

a. Has been marked "confidential" or with words of similar meaning, at the time of disclosure by such party;

b. If disclosed orally or not marked "confidential" or with words of similar meaning, was subsequently summarized in writing by the disclosing party and marked "confidential" or with words of similar meaning;

c. Should reasonably be recognized as confidential information of the disclosing party;

d. Is unpublished or not available to the general public; or

e. Is designated by law as confidential.

3. The term "confidential information" does not include any information or documentation that was:

a. Subject to disclosure under the Michigan Freedom of Information Act (FOIA);

b. Already in the possession of the receiving party without an obligation of confidentiality;

c. Developed independently by the receiving party, as demonstrated by the receiving party, without violating the disclosing party's proprietary rights;

d. Obtained from a source other than the disclosing party without an obligation of confidentiality; or

e. Publicly available when received or thereafter became publicly available (other than through an unauthorized disclosure by, through or on behalf of, the receiving party).

4. The Grantee must notify the Department within one business day after discovering any unauthorized use or disclosure of confidential information. The Grantee will cooperate with the Department in every way possible to regain possession of the confidential information and prevent further unauthorized use or disclosure.

R. Data Privacy and Information Security

1. Undertaking by Grantee. Without limiting Grantee's obligation of confidentiality as further described, Grantee is responsible for establishing and maintaining a data privacy and information security program, including physical, technical, administrative, and organizational safeguards, that is designed to: (a) ensure the security and confidentiality of the State Data; (b) protect against any anticipated threats or hazards to the security or integrity of the State Data; (c) protect against unauthorized disclosure, access to, or use of the State Data; (d) ensure the proper disposal of State Data; and (e) ensure that all employees, agents, and subcontractors of Grantee, if any, comply with all of the foregoing. In no case will the safeguards of Grantee's data privacy and information security program be less stringent than the safeguards used by the Department, and Grantee must at all times comply with all applicable State policies and standards, which are available to Grantee upon request.

2. Audit by Grantee. No less than annually, Grantee must conduct a comprehensive independent third-party audit of its data privacy and information security program and provide such audit findings to the Department.

3. Right of Audit by the State. Without limiting any other audit rights of the Department, the Department has the right to review Grantee's data privacy and information security program prior to the commencement of the Agreement's Statement of Work and from time to time during the term of this Agreement. During the providing of the Agreement's Statement of Work, on an ongoing basis from time to time and without notice, the Department, at its own expense, is entitled to perform, or to have performed, an on-site audit of Grantee's data privacy and information security program. In lieu of an on-site audit, upon request by the Department, Grantee agrees to complete, within 45 calendar days of receipt, an audit questionnaire provided by the Department regarding Grantee's data privacy and information security program.

4. Audit Findings. Grantee must implement any required safeguards as identified by the Department or by any audit of Grantee's data privacy and information security program.

S. Cap on Salaries

None of the funds awarded to the Grantee through this Agreement will be used to pay, either through a grant or other external mechanism, the salary of an individual at a rate in excess of Executive Level II. The current rates of pay for the Executive Schedule are located on the United States Office of Personnel Management web site, http://www.opm.gov, by navigating to Policy — Pay & Leave — Salaries & Wages. The salary rate limitation does not restrict the salary that a Grantee may pay an individual under its employment; rather, it merely limits the portion of that salary that may be paid with funds from this Agreement.

IV. Financial Requirements

A. Operating Advance

An operating advance may be requested by the Grantee to assist with program operations. The request should be addressed to the Contract Manager identified in Part 1, Section VIII. The operating advance will be administered as follows:

1. The operating advance amount requested must be reasonable in relation to factors including but not limited to program requirements, the period of the Agreement, and the financial obligation. The advance must not exceed 16.67 percent of operating expenses. Operating advances will be monitored and adjusted by the Department relative to the Agreement amount.

2. The operating advance must be recorded as an account payable liability to the Department in the Grantee's financial records. The operating advance payable liability must remain in the Grantee's financial records until fully recovered by the Department.

3. The reimbursement for actual expenditures by the Department should be used by the Grantee to replenish the operating advance used for program operations.

4. The operating advance must be returned to the Department within 30 days of the

end date of this Agreement unless the Grantee has a recurring agreement with the Department. Subsequent Department agreements may not be executed if an outstanding operational advance has not been repaid.

The Department may obtain the Michigan Department of Treasury's assistance in collecting outstanding operating advances. The Department will comply with the Michigan Department of Treasury's Due Process procedures prior to forwarding claims to Treasury. Specific Due Process procedures include the following:

a. An offer from the Department of a hearing to dispute the debt, identifying the time, place and date of such hearing.

b. A hearing by an impartial official.

c. An opportunity for the Grantee to examine the Department's associated records.

d. An opportunity for the Grantee to present evidence in person or in writing.

e. A hearing official with full authority to correct errors and decide not to forward debt to Treasury.

f. Grantee representation by an attorney and presentation of witnesses if necessary.

5. If the Grantee has a recurring agreement with the Department, the Department requires an annual confirmation of the outstanding operating advance. At the end of either the Agreement period or Department's fiscal year, whichever is first, the Grantee must respond to the Department's request for confirmation of the operating advance. Failure to respond to the confirmation request may result in the Department recovering all or part of an outstanding operating advance.

B. Reimbursement Method

The Grantee will be paid for allowable expenditures incurred by the Grantee, submitted for reimbursement on the Financial Status Reports (FSRs) and approved by the Department. Reimbursement from the Department is based on the understanding that Department funds will be paid up to the total Department allocation as agreed to in the approved budget. Department funds are the first source after the application of fees and earmarked sources unless a specific local match condition exists.

C. Financial Status Report Submission

The Grantee must electronically prepare and submit FSRs to the Department via the EGrAMS website http://egrams-mi.com/mdhhs.

FSRs must be submitted on a monthly basis, no later than 30 days after the close of each calendar month. The monthly FSRs must reflect total actual program expenditures, up to the total agreement amount. Failure to meet financial reporting responsibilities as identified in this Agreement may result in withholding future payments.

The Grantee representative who submits the FSR is certifying to the best of their knowledge and belief that the report is true, complete and accurate and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of this Agreement. The individual submitting the FSR should be aware that any false, fictitious statements are subject to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise.

The instructions for completing the FSR form are available on the EGrAMS website http://egrams-mi.com/mdhhs. Send FSR questions to FSRMDHHS@michigan.gov.

D. Reimbursement Mechanism

All Grantees must register using the on-line vendor self-service site to receive all state of Michigan payments as Electronic Funds Transfers (EFT)/Direct Deposits, as mandated by MCL 18.1283a. Vendor registration information is available through the Department of Technology, Management and Budget's web site: https://www.michigan.gov/sigmavss.

E. Final Obligations and Financial Status Reporting Requirements

1. Obligation Report

The Obligation Report, based on annual guidelines, must be submitted by the due date established by and using the format provided by the Department's Expenditures Operations Division. The Grantee must provide an estimate of unbilled expenditures for the entire Agreement period. The information on the report will be used to record the Department's year-end accounts payable and receivable for this Agreement.

2. Department-wide Payment Suspension

A temporary payment suspension is in effect on agreements during the Department's year-end closing period. The Department will notify the Grantee of the date by which FSRs should be submitted to ensure payment prior to the payment suspension period.

3. Final FSRs

Final FSRs are due 30 days following the end of the Agreement period. The final FSR must be clearly marked "Final." Final FSRs not received by the due date may result in the loss of funding requested on the Obligation Report and may result in a potential reduction in a subsequent year's Agreement amount.

F. Unobligated Funds

Any unobligated balance of funds held by the Grantee at the end of the Agreement period will be returned to the Department within 30 days of the end of the Agreement or treated in accordance with instructions provided by the Department.

G. Indirect Costs

The Grantee may use an approved federal or state indirect rate in their budget calculations and financial status reporting. If the Grantee does not have an existing approved federal or state indirect rate, they may use a 10% *de minimis* rate in accordance with 2 CFR 200 to recover their indirect costs. Governmental Grantees with an existing cost allocation plan may budget accordingly in lieu of an indirect cost rate. Non-governmental Grantees may use a cost allocation plan only if the plan was in place prior to December 26, 2014.

V. Agreement Termination

This Agreement may be terminated without further liability or penalty to the Department for any of the following reasons:

A. By either party by giving 30 days written notice to the other party stating the reasons for termination and the effective date.

B. By either party with 30 days written notice upon the failure of either party to carry out the terms and conditions of this Agreement, provided the alleged defaulting party is given notice of the alleged breach and fails to cure the default within the 30-day period.

C. Immediately if the Grantee or an official of the Grantee or an owner is convicted of any activity referenced in Part 2 Section Ill. D. of this Agreement during the term of this Agreement or any extension thereof.

D. Immediately if the Department determines that Grantee fails or has failed to meet its obligations under Part 2 Section Ill.

VI. Stop Work Order

The Department may suspend any or all activities under this Agreement at any time. The Department will provide the Grantee with a written stop work order detailing the suspension. Grantee must comply with the stop work order upon receipt. The Department will not pay for activities, Grantee's incurred expenses or financial losses, or any additional compensation during a stop work period.

VII. Final Reporting Upon Termination

Should this Agreement be terminated by either party, within 30 days after the termination, the Grantee must provide the Department with all financial, performance and other reports required as a condition of this Agreement. The Department will make payments to the Grantee for allowable reimbursable costs not covered by previous payments or other state or federal programs. The Grantee must immediately refund to the Department any funds not authorized for use and any payments or funds advanced to the Grantee in excess of allowable reimbursable expenditures.

VIII. Severability

If any part of this Agreement is held invalid or unenforceable by any court of competent jurisdiction, that part will be deemed deleted from this Agreement and the severed part will be replaced by agreed upon language that achieves the same or effect.

IX. Waiver

Failure by the Department to enforce any provision of this Agreement will not constitute a waiver of the Department's right to enforce any other provision of this Agreement.

X. Amendments

Any changes to this Agreement will be valid only if made in writing and executed by all parties through an amendment to this Agreement. Any change proposed by the Grantee which would affect the Department funding of any project must be submitted in writing to the Department immediately upon determining the need for such change. The Department has sole discretion to approve or deny the amendment request. The Grantee must, upon request of the Department and receipt of a proposed amendment, amend this Agreement.

XI. Liability

The Grantee assumes all liability to third parties, loss, or damage because of claims, demands, costs, or judgments arising out of activities, such as but not limited to direct activity delivery, to be carried out by the Grantee in the performance of this Agreement, under the following conditions:

A. The liability, loss, or damage is caused by, or arises out of, the actions of or failure to act on the part of the Grantee, any of its subcontractors, or anyone directly or indirectly employed by the Grantee.

B. Nothing herein will be construed as a waiver of any governmental immunity that has been provided to the Grantee or its employees by statute or court decisions.

The Department is not liable for consequential, incidental, indirect or special damages, regardless of the nature of the action.

XII. State of Michigan Agreement

This Agreement is governed, construed, and enforced in accordance with Michigan law, excluding choice-of-law principles, and all claims relating to or arising out of this Agreement are governed by Michigan law, excluding choice-of-law principles. Any dispute arising from this Agreement must be resolved in the Michigan Court of Claims. Complaints against the State must be initiated in Ingham County, Michigan. Grantee waives any objections, such as lack of personal jurisdiction or *forum non conveniens*. Grantee must appoint an agent in Michigan to receive service of process.
