TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

RESOLUTION IN MEMORIAM FOR DR. CHARLES NORMAN INNISS

By COUNCIL PRESIDENT PRO TEM JAMES TATE:

WHEREAS, Charles Norman Inniss was born to Marian Garner, a registered nurse at Harlem Hospital and Robert Norman Inniss, a servicemember of the U.S. Marine Corps on January 16, 1937 in New York City, New York. When middle and high school counselors tried to steer Charles onto the general curriculum track, his mother Marian stepped in and made sure that he was enrolled in college prep. Charles attended and graduated from Hunter College New York, New York with honors; and

WHEREAS, Charles decided medicine was his calling and spent the next four years studying at Meharry Medical College in Nashville, Tennessee. After graduation in 1962, he headed to Detroit for an Internship at Detroit Receiving Hospital. It was at a Detroit party where he would be introduced to his future wife Marie Scruggs. The two were married for 28 years; and

WHEREAS, After completing his pediatric residency at Children's Hospital of Michigan, in 1965, he received his commission as a lieutenant in the U.S. Navy where he would serve for two years as the base pediatrician at Naval Air Station Whidbey Island, Oak Harbor, Washington. In addition to his naval duties, he enjoyed the beauty of the Pacific Northwest, experienced skiing in the mountains, salmon fishing, and flight in a jet fighter. In 1967, the couple moved to Ann Arbor so that Charles, could pursue a postdoctoral program in Pharmacology. His children, Charles Todd and Victoria Catherine were born in 1968 and 1969 respectively.

The family made the decision in 1970 to return to Detroit to raise the children and open his private practice of pediatrics. His practice thrived as his reputation for a standard of excellent care, compassionate and as an unyielding advocate for his patients grew. Dr. Inniss saw hundreds of children at his West Outer Drive office and his practice was a kaleidoscope of families from across Metro Detroit. In addition to his private practice, he also served as Director of Pediatrics for the Wellness Plan 1970-1974; clinical associate professor of pediatrics at Wayne State University School of Medicine until 1999. He also served as a Medical Director at Mercy Hospital from 1991 to 1993; and

WHEREAS, Throughout the 80's and 90's Dr. Inniss appeared weekly on WDIV local 4 News and later WXYZ TV Channel 7, speaking on child health and welfare issues. As the private practice of medicine changed, in the late 1990's and after 25 years, he decided to close his private office in 2004. He found a new career and spent another 20 plus years providing medical care to the youth at the Wayne County Juvenile Detention Facility. Additionally, Dr. Inniss served as President and Chairman of the Board of the Detroit Medical Society Physician Services Group 1980 to 1989; Community Physicians Healthcare Network 1997 to 2001; Michigan State Medical Society Judiciary Commission; an advisor to the Detroit Public Schools; appointed to Mayor Coleman Young's "Healthy Start Consortium", and in 1993, he was Chairman of Mayor Dennis Archer's "Transition Team on Health". Dr. Charles Inniss was also a proud man of Alpha Phi Alpha Fraternity, Inc.; and

WHEREAS, In his later years, he enjoyed being a doting grandfather to Zavier, Soren, and Payton, who fondly called him "Paka". He was known for swooping up his grandchildren for a day of laughter, ice cream and fun. They would spend countless days at Marvin's Marvelous Mechanical Museum, the movies and just hanging with Paka. The trio would return home sticky faced and all smiles; and

WHEREAS, On October 28, 2022, Dr. Charles Inniss was called to be with the Lord.

NOW THEREFORE BE IT RESOLVED, that on the 14th day of February in the year 2023, the Office of Council President Pro-Tempore James Tate and the entire Detroit City Council hereby honors the iconic, Dr. Charles Inniss, whose thorough pursuit of excellence in patient care shall stand as the premium standard for all pursuing a career in medicine. Thank you for providing trustworthy, quality healthcare services that touched the lives of so many within the City of Detroit and beyond. You will be deeply missed, but your legacy will be remembered and honored far beyond a date that can be imagined.

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

City of Detroit
Legislative Policy Division

February 3, 2023

Honorable City Council:

Re: Resolution in Support of The National Infrastructure Bank Act Of 2021.

Council member Latisha Johnson requested that the Legislative Policy Division (LPD) draft a Resolution in Support of The National Infrastructure Bank Act of 2021.

Please contact us if we can be of any further assistance.

Sincerely,
DAVID WHITAKER
Director
Legislative Policy Division Staff

RESOLUTION IN SUPPORT OF THE NATIONAL INFRASTRUCTURE BANK ACT OF 2021

By Council Member Johnson:

WHEREAS, The American Society of Civil Engineers (ASCE) stated in its 2021 report card that the United States received a grade of C- regarding the current state of infrastructure and that six trillion dollars would be needed to restore the nation's infrastructure to a state of good repair. Over two and a half trillion dollars is currently not funded, and the remainder is inadequately funded. New, 21st Century projects such affordable nationwide broadband and a high-speed rail network as are also unfunded; and

WHEREAS, Congress introduced HR 3339, The National Infrastructure Bank Act, to create a new National Infrastructure Bank (NIB). This legislation creates a $5 trillion bank, authorized to invest in infrastructure projects only, including affordable housing, funds to repair water systems, high-speed rail nationwide, upgrades to the power grid, nationwide broadband, transportation and transportation repair, and large-scale water projects. It would require no new federal spending and no new federal taxes; it would be capitalized by existing Treasury debt, as was done previously in U.S. history; and

WHEREAS, The Detroit public schools are in poor condition and will cost at least $1-2 billion to upgrade and repair. Capital needs exist in at least 100 schools. As of September 2018, elevated levels of copper and lead were confirmed in the water supply of 57 of 86 schools tested; and

WHEREAS, The Detroit Water and Sewerage Department (DWSD) estimates there are roughly 80,000 lead service lines delivering water to homes in Detroit, many of which are occupied by families with highly vulnerable school-age children; and

WHEREAS, Many of Michigan's roads require urgent repair. Governor Whitmer testified in the US Senate that 40% of Michigan's major roads are in poor or mediocre condition, and that poor road conditions are costing each Michigan motorist more than $600 per year on average. According to the Wayne County 2019 Asset Management Plan, 58% of Wayne County's roads and 31% of its bridges are in poor condition; and

WHEREAS, In a 2022 survey from the University of Michigan's Detroit Metro Area Communities Study, one in five Detroit residents (22%) said they spend between one-third and one-half of their income on housing, while one in eight (13%) said their housing costs exceed half of their monthly income. For renters specifically, one in three (33%) reported spending between one-third and one-half of their income on housing, while one in four (24%) reported spending more than half of their monthly income on housing; and

WHEREAS, Currently, there is nowhere near enough affordable housing to meet the needs of Detroit residents. According to the 2019 Gap Report from the National Low Income Housing Coalition (NLIHC), for extremely low-income renters in the Detroit Metro area, meaning households that make less than 30% of the Area Median Income, there are only thirty-two affordable units for every hundred households; and

WHEREAS, Michigan needs roughly 200,000 units for these low-income households. Metro Detroit alone needs 100,000 units according to the NLIHC; and

WHEREAS, The NIB is modeled on previous banks which helped build much the nation's infrastructure under Presidents George Washington, James Madison, Abraham Lincoln, and Franklin D. Roosevelt. The last such bank, The Reconstruction Finance Corp (RFC) helped to bring the United States out of the Great Depression, and established Michigan as the "Arsenal of Democracy" dining WWII; and

WHEREAS, The new NIB will create an estimated twenty-five million new jobs, pay Davis-Bacon wages, and include

Buy American provisions. Disadvantaged business enterprises will receive significant allocations, and the bill mandates large-scale minority hiring. The economic activity generated by NIB infrastructure projects is expected to provide a significant boost to the national economy as it did during the RFC, when economic growth averaged 5.5% per year from 1933 to 1957; and

WHEREAS, A new NIB will help finance all of the infrastructure needs of Detroit. The NIB is mandated to build infrastructure and create jobs in rural and urban communities and all communities of color, to remedy systemic poverty and unemployment. It will be used to fix bridges, roads, schools, drinking water systems, build all needed affordable housing units, and install broadband everywhere. It will lead to the hiring and training of unemployed and underemployed workers; and

WHEREAS, The NIB will allow local governments like Detroit to retain and manage their infrastructure without having to resort to privatization; and

WHEREAS, Twenty-one state legislatures, including the Michigan Senate (SR 77), have introduced or passed resolutions of support, as have county and city councils. City council endorsements include Dearborn Hts., Highland Park, Inkster, Hamtramck, Romulus, Redford Township. Other city council endorsements include Los Angeles, San Francisco, Cleveland, Pittsburgh, Chicago, Providence RI, Philadelphia, Toledo, Akron, and many more. National endorsements include The National Black Caucus of State Legislators, National Asian-Pacific Caucus of State Legislators, the National Association of Counties, National Association of Development Organizations, the US High Speed Rail Association, the National Latino Farmers and Ranchers, The American Sustainable Business Council, the National Association of Minority Contractors, the United Association of Plumbers and Steamfitters International Union, and more organizations; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby calls upon the United States Congress to pass H.R. 3339 to create a National Infrastructure Bank to finance urgently needed infrastructure projects; and be it further; BE IT FINALLY

RESOLVED, The Detroit City Clerk is directed to send this resolution to the Michigan delegation to Congress, the Governor, and to the President of the United States.

RESOLUTION
REESTABLISHING THE HUMAN AND SEX TRAFFICKING TASK FORCE

By Council Member Whitfield-Calloway:

WHEREAS, Every year, millions of men, women, and children are trafficked in countries around the world, including the United States. It is estimated that human trafficking generates billions of dollars of profit per year, second only to drug trafficking; and

WHEREAS, Preying upon those who are more susceptible for a variety of reasons, including psychological or emotional vulnerability, economic hardship, and lack of a social safety net, natural disasters, or political instability, traffickers use force, fraud, or coercion to lure their victims and force them into labor or commercial sexual exploitation; and

WHEREAS, The Biden administration in its updated National Action Plan to Combat Human Trafficking, recognized the need to address social and economic conditions that create greater vulnerabilities for marginalized groups by addressing the needs of underserved individuals, families, and communities; and

WHEREAS, Human and sex trafficking disproportionately impacts persons of color, women, and girls, LGBTQI+ individuals, migrants, and others from historically marginalized and underserved communities. According to the Kirwan Institute for the study of race and ethnicity at Ohio State University, 77% of victims in the United States are people of color; and

WHEREAS, More than 5,000 human trafficking survivors have been identified across the state of Michigan since 2007, and Michigan currently ranks seventh in the nation in the number of cases reported by the state, according to the Human Rights Trafficking Hotline; and

And despite the pandemic, human trafficking crimes increased in many communities across the country; and

WHEREAS, The ability to identify victims and report suspicious encounters can save a life. There is a need for training and education programs, and the creation of partnerships with various community and social services agencies, because an educated public is one of the most effective weapons to assist authorities in the fight against this most heinous crime;

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

Mayor's Office

February 10, 2023

Honorable City Council:

Re: Amendment to Lease with Detroit Regional Convention Facility Authority, Authorization of Property Donation Acceptance.

Please find enclosed the resolution and exhibits requesting action regarding the above-referenced matter.

Because the Lease dated September 15, 2009 between the City of Detroit and the Detroit Regional Convention Facility Authority is a matter under the supervision of the Office of the Chief Financial Officer ("OCFO"), the submission is being made by that office.

Because of the approvals being sought, it is the recommendation of the OCFO and the Law Department that City Council refer this matter to the Planning and Economic Development Committee.

Best regards,
JOHN F. NAGLICK
Chief Deputy CFO

By Council President Pro Tem Tate:

Whereas, The City owns the convention facility and conference center located at One Washington Blvd., Detroit, Michigan, formally known as Cobo Center and now known as Huntington Place (the "Convention Center"); and

Whereas, The City and the Detroit Regional Convention Facility Authority, a Michigan public body corporate and politic (the "DRCFA"), are parties to a certain Lease dated September 15, 2009 (the "Lease"), pursuant to which the DRCFA operates the Convention Center in accordance with the Regional Convention Facility Authority Act of 2008, Act 554 of 2008, as amended, and codified as MCL § 141.1351 *et seq.* (the "Act"); and

Whereas, The DRCFA, the City, and 19 Associates LLC, a Michigan limited liability company ("JLA Owner"), wish to enhance and improve the Convention Center and extend Second Avenue from Congress Street to Civic Center Drive (the "Expansion Project"), subject to and in accordance with terms and conditions of a Development Agreement substantially in the form attached hereto as Exhibit C (the "Development Agreement"); and

Whereas, JLA Owner owns the land adjoining the Convention Center and wishes to donate approximately 1.98 acres to be used in the Expansion Project, specifically composed of 0.78 acres for Second Avenue (the "Street Parcel") and 1.20 acres for the

Convention Center Expansion (the "Convention Center Parcel"), both parcels being as described on the attached Exhibit A and as shown on the survey attached as Exhibit B (the Street Parcel and the Convention Center Parcel being collectively referred to as the "Expansion Parcels"); and

Whereas, In accordance with Chapter 2, Article 6, Section 3 of the 2019 Detroit City Code, the Building, Safety Engineering, and Environmental Department conducted an appropriate environmental inquiry into the Expansion Parcels in accordance with the requirements of the City Code, and found that, despite the presence of contaminated soil related to past industrial uses of the Expansion Parcels and adjoining property, and since the City previously operated on the site, there would be no increase in the City's liability under the environmental laws of the State of Michigan or the United States by re-acquiring the Expansion Parcels; and acquisition of the Properties is necessary to promote the health, safety and welfare of the public and such acquisition does not pose an unacceptable risk based upon the proposed use of the Properties if appropriate response actions continue to be taken to meet due care obligations;

Whereas, City Council finds and declares that the preservation of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and assessment and, therefore, waives the requirement that the seller bear the cost of the environmental inquiry and assessment; and

Whereas, The City's Chief Financial Officer (the "CFO") wishes to (1) enter into the Development Agreement to enhance and improve the Convention Center and extend Second Avenue; (2) accept the donation of the Expansion Parcels from JLA Owner to enable the DRCFA to undertake the Expansion Project; and (3) amend the Lease to include the Expansion Parcels in the "Premises" subject to the Lease. Now, Therefore, Be It

Resolved, That the Development Agreement substantially in the form attached hereto as Exhibit C and the City's performance thereof in accordance with its terms and subject to its conditions are hereby approved; and be it further

Resolved, That the CFO, or a Deputy Chief Financial Officer designated by the CFO, is authorized to execute the Development Agreement and such other documents as may be necessary or convenient to enter into the Development Agreement and in furtherance of the City's performance thereunder; and be it further

Resolved, That the acceptance of the donation of the Expansion Parcels by JLA Owner is hereby approved; and be it further

Resolved, That the CFO, or a Deputy Chief Financial Officer designated by the CFO, is hereby authorized (1) to accept and record a deed granting title to the Expansion Parcels to the City of Detroit, (2) to accept, execute and/or deliver any such other documents as may be necessary or convenient to affect the transfer of the Expansion Parcels from JLA Owner to the City; and be it further

Resolved, That the addition of the Expansion Parcels to the "Premises," as that term is defined in the Lease, and the amendment to the Lease substantially in the form of the First Amendment to Lease Agreement attached hereto as Exhibit D are hereby approved; and be it further

Resolved, That the CFO, or a Deputy Chief Financial Officer designated by the CFO, is authorized to execute a First Amendment to the Lease substantially in the form of the First Amendment to Lease Agreement attached hereto; and be it finally

Resolved, That the CFO, or a Deputy Chief Financial Officer designated by the CFO, is hereby authorized to execute any required instruments to make and incorporate technical amendments or changes to the Development Agreement or the First Amendment to the Lease (including, but not limited to, correction of or confirmations of legal descriptions, or timing of closing or tender of possession, the commencement or completion of the activities contemplated by the Development Agreement) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the completion or termination of Development Agreement provided that the changes do not materially alter the substance or terms of the transactions as approved hereby.

DEVELOPMENT AGREEMENT
TO ACQUIRE AND DEVELOP LAND
BY AND AMONG 19 ASSOCIATES LLC

AND
CITY OF DETROIT

THIS AGREEMENT (referred to herein as this "Agreement") is entered into as of the day of ____, 2023 (the "Effective Date"), by and between the City of Detroit, a Michigan public body corporate (the "City"), acting through its Planning & Development Department ("PDD"), whose address is Two Woodward Ave., Suite 808, Detroit, Michigan 48226, the Detroit Regional Convention Facility Authority (the "DRCFA" or "Developer"), whose address is One Washington Blvd., Detroit, Michigan, 48226, and 19 Associates LLC, a Michigan limited liability company ("JLA Owner"), whose address is 333 West Fort Street, Suite 1350, Detroit, Michigan 48226. The City, JLA Owner and Developer are sometimes referred to in this Agreement as a "Party" and, collectively, as the "Parties".

A. The Parties mutually desire to promote economic growth in the City and pursuant to that goal the City and DRCFA wish to implement a significant enhancement of the Huntington Place Conference Center ("Conference Center"), to enlarge, and improve access to such facility ("Conference Center Expansion"), and to extend and reconnect Second Avenue from Congress Street to Civic Center Drive.

JLA Owner owns a portion of the former Joe Louis Arena site ("JLA Parcel") comprising approximately 4.43 acres of land adjoining the Conference Center.

The City and DRCFA have requested that JLA Owner contribute, for the consideration of $1.00 approximately 1.98 acres from its JLA Parcel that adjoins the Conference Center to be utilized for the Conference Center Expansion, and to extend Second Avenue as a private road so as to adjoin the Conference Center. JLA Owner's contribution will specifically be composed of 0.78 acres for Second Avenue (the "Second Avenue Parcel") and 1.20 acres for the Conference Center Expansion (the "Conference Center Expansion Parcel" as described on **Exhibit A**).

JLA Owner has agreed to participate with the City and DRCFA in the Conference Center Expansion, and to forego its development of such contributed portions of the JLA Parcel, as hereinafter provided.

B. In consideration of the Parties', mutual desire to promote economic growth in the City (the "Arrangement"). JLA Owner has agreed to convey to the City fee title to the Second Avenue Parcel and the Conference Center Expansion Parcel (sometimes collectively referred to as the "Property"). As used herein, the term "Property" shall be deemed to include: all rights, title, and interest in the land depicted on the attached Exhibit A, subject to (i) additions and modifications as reasonably requested by JLA Owner (but inclusive of all air rights appertaining thereto, if any); (ii) the City's and/or Developer's interests, if any, in easements located on the Property or appurtenant thereto, now existing; (iii) JLA Owner's interest, in the use and benefit of all easements located on the Property or appurtenant thereto now existing or hereafter granted or reserved as hereinafter provided whether or not of record; and (iv) JLA Owner's interest in and development rights under all authorizations, permits and approvals with respect to the use and development of the Property.

C. The City has agreed to assist the Developer in obtaining all required consents, permits and licenses. In addition, the City will rezone the Property as required for its development, implement the required lot split to create the Conference Center Expansion Parcel and the Second Avenue Parcel, and will provide such other approvals and authorizations necessary for purposes of developing the Property upon the terms and conditions set forth herein (all such assistance is referred to as "City Assistance"). City Assistance is in every instance expressly subject to (1) Developer's compliance with and satisfaction of all actions, qualifications, requirements, and conditions prerequisite to the issuance of any required consent, permits, or license; (2) approval by the Detroit City Council whenever required by the 2019 Detroit City Code or the 2012 Detroit City Charter, each as amended, including but not limited to rezoning; and (3) JLA Owner and Developer each providing such information or cooperation and payment of all costs and expenses incident to any such City Assistance.

(b) The Parties acknowledge and agree that (i) the Developer shall have exclusive authority to construct the Second Avenue Extension as specified in this Agreement, (ii) the City shall cooperate with Developer and shall provide its City Assistance to Developer to facilitate the expeditious completion of the Second Avenue Extension, (iii) the City shall rezone the Property as required for its development (such as PCA/Public Center Adjacent District and/or PC/Public Center District), (iv) the City and JLA Owner shall, with surveys and other documents as may be necessary paid for and provided by the Developer or JLA Owner, apply for a lot split to establish the Property as a separate tax parcel from the remaining portion of the JLA Parcel, such application to be made within 30 days of Closing or as soon thereafter as is reasonably possible-, (v) the Second Avenue Extension to be built on the Second Avenue Parcel shall result in a private road with a right-of-way not to exceed 60 feet in total width, (vi) the Second Avenue Extension shall include a public access easement upon terms and conditions mutually satisfactory among the Parties, as well as such enhancements requested by JLA Owner from time to time, and (vii) upon completion of the Second Avenue Extension, such new private roadway shall be maintained, repaired, and replaced as necessary by the Developer to at least the same standards as if such roadway was publicly dedicated to and accepted by the City,

and to otherwise ensure that such private roadway is maintained in a first-class condition, open 24 hours a day, seven days a week, and shall at all times be kept open for public pedestrian and vehicular access, and such access shall not be suspended for any reason without prior notice, and prior written approval by JLA Owner and the City. Notwithstanding anything in this Agreement to the contrary, City Assistance is and shall be in every instance expressly subject to (1) Developer's compliance with and satisfaction of all actions, qualifications, requirements, and conditions prerequisite to the issuance of any required consent, permits, or license; (2) approval by the Detroit City Council whenever required by the 2019 Detroit City Code or the 2012 Detroit City Charter, each as amended, including but not limited to rezoning; and (3) JLA Owner and Developer each providing such information or cooperation and payment of all costs and expenses incident to any such City Assistance.

(c) The Second Avenue Extension shall include direct pedestrian and vehicular access to and from both JLA Owner's retained portion of the JLA Parcel and the Conference Center (as expanded) in a manner appropriate and necessary to support development of both such parcels, including, without limitation, (i) a stairway to be built from the Second Avenue Parcel to grade level on the JLA Owner's retained portion of the JLA Parcel as depicted on Exhibit C, and (ii) shall maintain ADA accessible compliant slopes from Civic Center Drive to Congress Street. Subject to site plan approval, the road corridor shall be developed with a slope of 4.9% or less over 190 linear feet with a starting elevation of +/-99.50 and not to exceed an elevation of +/- 109.00. Retaining walls to accomplish the grade change shall be attractive and placed entirely within the Second Avenue Extension right-of-way. The design of the Second Avenue Extension shall be subject to approval by the City's Department of Public Works, among others, and JLA Owner's review, comment and approval, which approvals shall be required prior to the commencement of any construction of the Second Avenue Extension ("SAE Approved Development Proposal").

(d) Developer shall commence construction of the of the Second Avenue Extension no later than March 31, 2023 (the "Second Avenue Commencement Deadline"). For the purposes of this provision, commencement of construction shall mean the actual physical initial clearing and land balancing necessary to construct the Second Avenue Extension. Once construction begins, Developer shall diligently, using its best good faith efforts, pursue completion of the same in order to complete construction of Second Avenue Extension such that it shall be fully completed, open and accessible to all pedestrian and vehicular traffic no later than March 31, 2025 (the "Second Avenue Extension Completion Deadline"). Developer may not employ the Second Avenue Parcel for any other purpose other than its completion (and maintenance obligations) of the Second Avenue Extension, and may not at any time employ the Second Avenue Parcel for construction staging, or for any other purpose other than its intended use as public roadway, providing pedestrian and vehicular access.

(e) Developer represents to JLA Owner that it has in place all the funding necessary, without the further approval of any governmental body, authority or administration, political or otherwise, to perform all of its obligations pertaining to the Second Avenue Extension. Developer shall best employ its good faith efforts to expedite the completion of the Second Avenue Extension as soon as possible, and shall prioritize such completion over its development and completion of the Conferenced Center Expansion.

(3) Conference Center Lease Amendment:

Simultaneously upon the delivery of the above-referenced deeds to the City, subject to the approvals by the Detroit City Council and the DRCFA Board of Directors, the Conference Center Lease shall be amended to include the Conference Center Expansion Parcel and the Second Avenue Parcel as part of the Premises as defined in the Conference Center Lease, along with such other matters as the City and the DRCFA may choose to address.

(4) Parking Spaces:

Commencing January 1, 2026, Developer will provide JLA Owner with One Thousand (1,000) parking spaces (such parking spaces to be those physically closest to JLA Owner's retained portion of the JLA Parcel) within the Conference Center pursuant to a 99-year lease to be prepared by JLA Owner in collaboration with Developer and City (the "Parking Lease"). The Parking Lease shall provide, among other things, that (i) such spaces shall be available 24 hours a day and 365 days a year, (ii) JLA Owner, and its successors and assigns may, at its sole expense, engage parking operators and attendants to operate and supervise its operation of the Parking Lease, and (iii) JLA Owner, and its successors and assigns, may freely assign, sublease, license, and otherwise permit such parking spaces to be employed for use by any third-party as may be designated by JLA Owner, and its successors and assigns, from time to time. For the initial ten (10) year period of the Parking Lease the parking spaces shall be entirely free of charge to JLA Owner. Thereafter, JLA Owner shall pay to Developer the proportionate amount of operating costs allocated to such parking spaces, but in no event shall such operating costs payable by JLA Owner to Developer exceed $500.00 per space per year. Developer has represented to JLA Owner that the current operating expense allocated to

each such parking space is as of Closing $380.00 per year. The Parties agree that the Parking Lease shall be executed no later than six (6) months following Closing along with a Memorandum of Parking Lease suitable for public recording purposes. This provision, along with this entire Agreement, shall survive Closing. The Parking Lease shall survive any default by the City and/or Developer under this Agreement and any reverter of interest in the Property back to JLA Owner as set forth in this Agreement. The Parking Lease shall survive the termination or expiration of the Conference Center Lease, and shall remain in force and effect and shall continue for the balance of the 99-year Parking Lease term after any such event of termination or expiration; provided, however, that in the event of the termination of the Conference Center Lease, as amended, prior to expiration of the Parking Lease, then JLA Owner or its successors or assigns shall pay to the City, or its affiliated entities as the case may be, the proportionate amount of operating costs allocated to such parking spaces in an amount not less than $500 per space per year, adjusted initially by a percentage amount equal to the percentage change in the U.S. Department of Labor, Bureau of Labor Statistics Consumer Price Index (All Items, All Urban Consumers, 1982-1984=100) which occurred during the period from the bi-monthly or quarterly issuances by BLS closest to the dates of the Closing and the termination of the Conference Center Lease, and annually thereafter.

(5) Reduced Development Opportunities/Right of Reverter:

The City and Developer acknowledge and agree that JLA Owner's conveyance, as set forth in this Agreement, to the City of the Property constituting 45% of its JLA Parcel, for $1.00 in consideration, substantially reduces JLA Owner's opportunity to develop the JLA Parcel to its full potential. Accordingly, should the Conference Center Expansion and/or the Second Avenue Extension not be commenced, diligently pursued and completed in accordance with the Milestones (hereinafter defined), or if at any time either the Conference Center Expansion Parcel or the Second Avenue parcel are no longer employed exclusively for such purposes, or maintained as specified herein (the "Use Reverter"), then JLA Owner shall have the right, in its sole discretion, to regain ownership of the Property as set forth in this Agreement and as set forth in the QC Deeds (hereinafter defined) with the right to re-enter and take immediate possession of the Property.

(B) The Property

(1) Title and Survey. JLA Owner has previously delivered to City and Developer a title commitment and ALTA survey for the Property (the "Title Commitment and Survey") and copies of each of the title exceptions referenced in the Title Commitment and Survey. JLA Owner shall cause to be cured, removed or bonded over (i) mechanics' liens pertaining to JLA Owner; (ii) judgment liens against JLA Owner, and (iii) delinquent taxes and assessments. For avoidance of doubt, the JLA Owner shall not be obligated to cure, remove or bond over any other matters of Title Commitment and Survey. The title company ("Title Company") shall be ATA National Title Group/Seaver Title Agency or another title company as selected by JLA Owner.

(2) "As-Is" Condition of Property. JLA Owner makes no implied or express representations or warranties of any kind as to any condition that may adversely affect the Development, or, its fitness for absolutely any purpose whatsoever. Upon Closing, City and Developer will be deemed to have acknowledged that each is satisfied with all aspects of the condition of the Property, and each shall be deemed to have waived any right to object to the status of title or to the condition of the Property.

(3) Release of JLA Owner from Liability. Upon Closing, City and Developer shall release JLA Owner and its officials, employees, and agents from any and all claims or causes of action the City and/or Developer may have against JLA Owner for any liability, injury or loss as a result of any physical defects in or physical conditions of the Property, including but not limited to any surface, subsurface, latent, patent, and/or environmental conditions whether naturally occurring or by action of any party. The City and Developer acknowledge and agree that the City was the prior owner of the Property for approximately 40 years and, as the prior owner is very familiar with it and all of its attributes.

(C) Brokerage and Finder's Fees and Commission

The Parties each represent and warrant to the others that it has not engaged or otherwise dealt with any brokers entitled to any commissions, fees, judgments, or expenses in connection with this Agreement. Developer, to the maximum extent permitted by law, will defend and indemnify JLA Owner and hold it harmless with respect to any commissions, fees, judgments, or expenses of any nature and kind that JLA Owner may become liable to pay by reason of any claims by or on behalf of brokers, finders or agents claiming by, through or under the City and/or Developer incident to this Agreement and the transaction contemplated hereby or any litigation or similar proceeding arising therefrom unless JLA Owner has a written agreement with such broker, finder or agent providing for such payment in which case JLA Owner shall be responsible for such broker, finder or agents' commissions, fees, judgments or expenses. JLA Owner will defend and indemnify City and/or Developer and hold City and Developer harmless with respect to any commissions, fees, judgments, or expenses of any nature and kind that the City and/or Developer may become liable to pay by reason of any claims by or on behalf of brokers,

finders or agents claiming by, through or under JLA Owner incident to this Agreement and the transaction contemplated hereby or any litigation or similar proceeding arising therefrom unless the City and/or Developer has a written agreement with such broker, finder or agent providing for such payment in which case the City and/or Developer shall be responsible for such broker, finder or agents' commissions, fees, judgments or expenses.

(D) Taxes and Assessments

All taxes and assessments that are due and payable upon the Property or part thereof prior to the date of Closing, shall be paid by the JLA Owner on or prior to the Closing Date based upon the portion of the relevant acreage that the Property bears to the total acreage of the JLA Parcel. From and after Closing, Developer shall be solely responsible for all taxes, liens, and assessments that become due and payable for the period after the Closing against the Property it acquires hereunder or any part thereof, whenever assessed, levied, or due.

Section 3. CLOSING

(A) Closing shall be simultaneous with the execution of this Agreement, at which time (i) JLA Owner shall convey the Property to the City (the "Closing") by quit claim deeds consistent with the terms and conditions of this Agreement (the "OC Deeds") using legal descriptions provided by JLA Owner as confirmed by the Title Commitment and Survey, and (ii) the City and Developer shall enter into the Lease Amendment. The Parties agree and acknowledge that the sole and exclusive consideration for conveyance of the Property hereunder is deemed to be the Arrangement, the sufficiency of which is hereby acknowledged.

(B) Conditions to Closing. JLA Owner's obligation to proceed with the Closing is conditioned on the fulfillment by City and Developer of each of the following conditions precedent:

(a) Resolution of City's and Developer's Authority. City and Developer shall have furnished to JLA Owner a certified copy of a resolution in form and substance reasonably acceptable to JLA Owner and the Title Company, duly authorizing their respective execution, delivery and performance of this Agreement and all other documents and actions contemplated hereunder.

(b) Payment of Closing Costs. Developer shall have tendered payment of the closing costs payable by City and Developer, which shall include all title charges, escrow, closing and recording fees associated with any conveyance hereunder except those costs expressly allocated to JLA Owner hereunder. The Developer shall pay all closing costs in connection with transfer of the Property at Closing to the extent such costs are expressly allocated to sellers of real property in Detroit, Michigan pursuant to applicable law. Each Party shall bear the cost of its own legal fees and expenses in connection with this Agreement.

(C) Delivery of Deeds and Possession. JLA Owner will deliver to Title Company for recording at Closing the QC Deeds with respect to the Property and possession thereof to the City.

(D) Recording. Provided that City and Developer has complied with all their respective obligations specified in this Agreement, the QC Deeds shall be delivered by the Title Company at the Closing for prompt recordation by the Title Company with the Register of Deeds of Wayne County, Michigan. Developer shall pay at Closing all costs for recording the QC Deeds. The Parties shall also execute and deliver a Memorandum of Development Agreement for public recordation purposes.

Section 5: COVENANTS

(A) Developer. Developer covenants for itself and its successors and every successor in interest to the Property, that from and after Closing on the Property, Developer and its successors shall develop such Property only to and in accordance with the CCE Approved Development Proposal and the SAE Approved Development Proposal and otherwise pursuant to the terms and conditions of this Agreement, unless otherwise agreed in writing by JLA Owner. As to the Conference Center Expansion, the Developer, upon commencement of construction, shall diligently prosecute such development on the Property to completion in material conformance with the CCE Approved Development Proposal. The Conference Center Expansion shall be completed by the Conference Center Expansion Completion Deadline. As to the Second Avenue Extension Developer shall commence construction by the Second Avenue Extension Construction Commencement Deadline and shall diligently prosecute such development on the Property to completion in material conformance with the SAE Approved Development Proposal. The Second Avenue Extension shall be completed by the Second Avenue Extension Completion Deadline.

(B) Commencement of Construction. For purposes of this Agreement, commencement of construction of the Conference Center Expansion on the Property shall be deemed to have occurred when the Developer shall have commenced site preparation work or that Project on the Property, which site preparation work may include renovation or demolition of existing structures located on the Property by the Developer, as applicable.

(C) JLA Owner Easements. City and Developer agree to permit JLA Owner or its designee to encumber that portion of the Property, as necessary and at JLA Owner's sole cost and expense, with an easement upon terms and conditions determined by JLA Owner in its reasonable discretion, subject to applicable law and the approval of the Detroit City Council, for the purpose of (i) constructing the Sky Bridge and related improvements and (ii) connecting any development on JLA Owner's retained portion of the JLA Parcel directly to the Second Avenue Extension as reasonably required by JLA Owner, including, without limitation, public access and public utility easements. In the event the easements contemplated above are not placed of record prior to Closing, the City and Developer (including any successors or assigns thereof) shall, subject to applicable law and the approval of the Detroit City Council, permit such easements to be placed of record following Closing at JLA Owner's sole cost and expense, and each shall execute the same promptly as necessary. For avoidance of doubt, and in the interest of clarity, the easements described in this Agreement shall be at the discretion of JLA Owner, at JLA Owner's sole cost and expense, subject to applicable law and the approval of the Detroit City Council, and shall run with the land, and any Mortgagee of the Property shall consent to and subordinate its mortgage to such easements.

(D) Estate Conveyed. Notwithstanding anything contained in this Agreement to the contrary, the estate conveyed by QC Deeds shall be deemed to be a determinable fee and only upon the timely satisfaction of all of the Milestones (hereinafter defined) will the possibility of reverter as to the Milestones (hereinafter defined), but not as to the Use Reverter retained by the JLA Owner, automatically expire as to the Property.

(E) City and Developer. The City represents to JLA Owner that, as of the Closing Date, the City will have the right, power and authority to (i) accept the conveyance of the Property, and (ii) otherwise perform its obligations specified in this Agreement in the manner provided for in this Agreement. Developer represents to JLA Owner that, as of the Closing Date, it will have the right, power and authority to (i) accept the conveyance of the Property, (ii) enter into the Parking Lease to JLA Owner, and (iii) otherwise perform all of their respective obligations specified in this Agreement in the manner provided for in this Agreement and shall provide JLA Owner with documentation of the same.

(F) Land Use Covenants/Use Reverter. Developer acknowledges and agrees that the purpose for the conveyances of the Property is in furtherance of a public-private arrangement for the Conference Center Expansion and the Second Avenue Extension within the meaning of Section 5(i) of the Regional Convention Facility Authority Act, Public Act 554 of 2008, as amended. The respective QC Deeds shall, among other things, contain an automatic right of reverter (previously described as the Use Reverter) such that in the event at any time in the future the Conference Center Expansion Parcel or Second Avenue Parcel are no longer utilized for their intended purpose, then the ownership of the land comprising such parcel or parcels shall revert to JLA Owner.

Section 6: REMEDIES

(A) JLA Owner's Remedy of Reverter and Other Remedies.

(1) Event of Default. If Developer fails to timely achieve the Milestones (hereinafter defined) such event shall be deemed to constitute an "Event of Default". If Developer and/or City breach any other covenant set forth in this Agreement and fail to cure such breach within thirty (30) days after written demand by JLA Owner, such an event shall also be deemed to constitute an Event of Default provided, however, that if the nature of such breach reasonably requires more than the thirty (30) day cure period for its cure, then Developer and/or City shall be entitled to an additional cure period not to exceed ninety (90) days following JLA Owners initial written demand to cure such breach; and if such breach is not cured with such ninety (90) day period, such breach shall constitute an Event of Default, and JLA Owner shall be entitled to exercise all available remedies provided herein for such Event of Default. For the sake of clarity and the avoidance of doubt, Developer shall not be entitled to any notice or cure period with regard to any default as to the Milestones.

(2) JLA Owner's Other Remedies. Upon the occurrence of an Event of Default by the Developer, JLA Owner, in addition to its right of reverter described herein, shall have the right to seek injunctive relief, specific performance or other equitable remedies (in addition to the forfeiture of City's title to or interest in the Property pursuant to JLA's right of reverter) for the Developer's breach of this Agreement.

(3) Right of Reverter. It is expressly understood and agreed between the Parties hereto that until and unless the following three milestones are each timely satisfied (a) commencement of construction of the Second Avenue Extension by the Second Avenue Commencement Deadline, (b) the completion of the construction of the Second Avenue Extension by the Second Avenue Extension Completion Deadline, and (c) the completion of the construction of the Conference Center Expansion by the Conference Center Expansion Completion Deadline (collectively, the "Milestones"), the conveyance of such Property to the City shall be construed and interpreted as the conveyance of a fee simple determinable, and that in the event of an uncured and undisputed Event of Default caused by the failure of the Developer to achieve any of the Milestones as the same may

be extended as provided herein, then, at JLA Owner's option, title to the Property shall automatically revest in JLA Owner upon the recording by JLA Owner and delivery to the city and the Developer of a Notice of Reverter. Upon such revesting of title, JLA Owner shall have the right to re-enter and take immediate possession of the Property. While the right of reversion as to the Property pertaining to the Milestones, but not as to the Use Reverter described in Section 1(A)(4) automatically terminates upon the timely performance and satisfaction of the Milestones, JLA Owner agrees to provide City and Developer with a written acknowledgment, in recordable form, that the Milestones have been satisfactorily achieved and JLA Owner's right of reversion as to the Milestone has terminated hereunder and to take such further action as may reasonably be requested by the City and Developer, at no incremental cost to JLA Owner, to extinguish the right of reversion as to the Milestones only of record. In the event the Property reverts to JLA Owner as provided herein, any and all easements of record (or otherwise) encumbering the Property for the benefit of the City and/or Developer shall be deemed terminated and of no further force or effect and the Property shall revert free and clear of any such easements.

(B) Rights and Remedies Cumulative. The rights and remedies of JLA Owner, whether provided by law or by this Agreement, shall be cumulative against Developer, and the exercise by JLA Owner of any one or more remedies shall not preclude the exercise by it, at the same or different times, of any other remedy for the same default or breach or any other default or breach by the Developer. Upon the occurrence of an Event of Default by the City, in addition only to the forfeiture of City's title to or interest in the Property pursuant to JLA Owner's right of reverter, JLA Owner or the Developer, as the case may be, shall only have the right to seek injunctive relief, specific performance, or other equitable remedies for the City's breach of this Agreement. In no event and under no circumstances will or would JLA Owner or DRCFA, or any successors or assigns, be entitled to seek or recover money damages of any sort against the City for any claim or action, whether sounding in tort or in contracts. No waiver made by any Party shall apply to obligations beyond those expressly waived in writing.

(C) Representatives Not Individually Liable. No official or employee of the City and/or Developer shall be personally liable to JLA Owner or any successor in interest, in the event of any default or breach by the City and/or Developer for any amount which may become due to JLA Owner or successor or on any obligations under the terms of this Agreement. No manager, director, officer, employee or agent of the JLA Owner or any successor in interest shall be personally liable to the City and/or Developer, in the event of any default or breach by the Developer or any successor in interest for any amount which may become due to the City and/or Developer on any obligations under the terms of this Agreement.

Section 7: PROVISIONS NOT MERGED WITH DEEDS

No provision of this Agreement is intended to or shall be merged into the QC Deeds transferring title to the Property from JLA Owner to the City or any successor in interest, and any such QC Deed shall not be deemed to affect or impair the provisions and covenants of this Agreement.

Section 8: ENTIRE AGREEMENT; AMENDMENT

This Agreement (including all exhibits, schedules or other attachments hereto) constitutes the complete and exclusive statement of the terms of the agreement among the Parties with respect to the subject matter hereof and supersedes all prior agreements, understandings, promises, and arrangements, oral or written, between or among the Parties with respect to the subject matter hereof. This Agreement may be amended or modified only by an instrument in writing signed by all of the Parties. To be effective and enforceable against the City, any amendment to this Agreement must be approved by a duly adopted resolution of the Detroit City Council.

Section 9: GOVERNING LAW; JURISDICTION

This Agreement shall be governed by and construed in accordance with the laws of the State of Michigan without regard to conflicts-of-law principles that would require the application of any other law. Any dispute between the Parties under this Agreement resulting in legal action, suit or proceeding shall be brought in a court of competent jurisdiction located in Wayne County, Michigan; provided, further, by execution and delivery of this Agreement, each of the Parties irrevocably accepts and submits to the exclusive jurisdiction of such court, generally and unconditionally, with respect to any such action, suit or proceeding.

Section 10: COUNTERPARTS

This Agreement may be executed and delivered by electronic transmission, and in several counterparts, each of which shall be deemed to be an original, but together such counterparts shall constitute one and the same instrument.

Section 11 : CITY AGENCIES AND DEPARTMENTS

Except as otherwise provided, and in all events subject to (1) approval by the Detroit City Council whenever required by the 2019 Detroit City Code or the 2012 Detroit City Charter, each as amended, and (2) compliance applicable law and with satisfaction of all actions, qualifications, requirements), and conditions prerequisite to such action or

performance of such obligation, whenever this Agreement requires an action or creates an obligation on behalf of the City, the City shall also be required, as applicable, to cause all City executive branch agencies and/or departments to take such actions and perform such obligations.

Section 12: TRANSFERABILITY

Neither the City nor the Developer shall be entitled to transfer or assign its rights and obligations hereunder at any time without the prior written consent of JLA Owner which consent may be withheld in the sole discretion of JLA Owner.

Housing and Revitalization Department

February 1, 2023

Honorable City Council:

Re: Request to Appropriate Section 108 Funds.

On April 15, 2021, the City of Detroit's Treasury Department notified the Housing and Revitalization Department (**"HRD"**) that there was $1,452,884.47 in funds held at Huntington Bank (the **"Section 108 Proceeds Account"**). The Supervisory Accountant in the City of Detroit's Office of Department Financial Services believes that the $1,452,884.47 reflects loan proceeds from Section 108 funded projects where the City's corresponding debts to the U.S. Department of Housing and Urban Development (**"HUD"**) have been satisfied.

On November 26, 2022, this Honorable Body passed a resolution authorizing and directing the creation of a collateral account in the amount of approximately $673,000 (the **"Collateral Account"**) to secure the City's repayment to HUD of the outstanding balance of that certain Variable/Fixed Rate Note, numbered B-03-MC-26-0006, in the Maximum Commitment Amount of $1,723,000 related to the prior Section 108 loan to Detroit Geothermal, LLC for installation of geothermal, solar, and wind energy generating equipment on Garfield Street in the Sugar Hill Arts District. That prior resolution provided that the Collateral Account would be paid from current allocations of CDBG funds held by the City of Detroit in Appropriation No. 13529.

HRD hereby respectfully requests that your honorable body adopt the following resolutions to appropriate the $1,452,884.47 balance of the Section 108 Proceeds Account to Appropriation No. 13529 for the use of paying debt service on the City's current Section 108 debt obligations to HUD, including funding of the Collateral Account. As time is of the essence, we also request a waiver of reconsideration.

Respectfully submitted,
KELLY VICKERS
Chief Development and Investment Officer
Housing and Revitalization Department

By Council President Pro Tem Tate:

Whereas, City of Detroit is in possession of $1,452,884.47 comprised of loan proceeds from prior loans made by the City of Detroit pursuant to the Department of Housing and Urban Development ("HUD") Section 108 loan guaranty program (the **"Section 108 Proceeds"**), which Section 108 Proceeds are currently held in a City of Detroit account with Huntington Bank (the **"Section 108 Proceeds Account"**).

Whereas, The City's debts to HUD under the Section 108 loans which the Section 108 Proceeds were originally related to have previously been satisfied.

June 2, 2022

Honorable City Council:

Re: Transfer of Jurisdiction, Declaration of Surplus, and Conveyance of 3085 W. Jefferson Ave., Detroit, MI.

We are seeking this Honorable Body's approvals of the transfer of jurisdiction, declaration of surplus, and conveyance of the vacant real property located at 3085 W. Jefferson Ave. so as to further the transformation of Riverside Park into a

world-class regional park by facilitating the consummation of the Land Exchange Agreement dated April 29, 2015, between the City of Detroit and the Detroit International Bridge Company ("DIBC"), as approved by this Honorable Body on July 28, 2015 (the "Agreement").

The Agreement provides for DIBC to transfer to the City approximately 4.8 acres of waterfront property immediately to the west of Riverside Park (the "News Warehouse Property") and to make a private contribution of $5 million for park improvements (the "Private Contribution"). The Private Contribution is payable in 2 installments, the second being conditional as described below. In exchange for the News Warehouse Property and the waterfront easement described below, the City agreed to grant certain air rights easements over portions of W. Jefferson Avenue and W. Fort Street (the "Air Rights Easements") and, subject to numerous conditions precedent, to transfer to DIBC the 3.783 acre easternmost portion of Riverside Park located at 3085 W. Jefferson Ave., in Detroit, Michigan, and as more particularly described on the attached Exhibit A (the "City Property"), subject to a 100-foot wide easement to provide for future connectivity between Riverside Park and the RiverWalk to the east.

The Agreement anticipated two separate closings (the "First Closing" and "Second Closing," respectively). The First Closing occurred as soon as was practicable after this Honorable Body approved the Agreement and authorized the actions to be taken thereunder. At the First Closing, the City granted the Air Rights Easements and DIBC deeded the News Warehouse Property to the City and gave the City $3 million of the Private Contribution for improvements and enhancements to Riverside Park. The Second Closing remained expressly subject to and contingent upon the occurrence of certain events, obtaining all necessary approvals, DIBC's performance of numerous other specified obligations, and the satisfaction of all enumerated conditions. Only at the Second Closing would (a) the City be obligated to quit claim the City Property to DIBC, and (b) DIBC be obligated to give the remaining $2 million of the Private Contribution to the City.

We are pleased to advise that, other than the approvals and authorizations hereby requested of this Honorable Body, all prerequisites and preconditions to the Second Closing have been satisfied.

In furtherance of the consummation of the Agreement and in anticipation of the receipt of the balance of the Private Contribution upon the occurrence of the Second Closing, the General Services Department – Parks and Recreation ("GSD-PR") has requested the Office of the Chief Financial Officer (the "OCFO") transfer jurisdiction of the City Property from GSD-PR to the Planning and Development Department ("PDD") for disposition. In accordance with Section 2-7-3 of the 2019 Detroit City Code, the OCFO hereby requests this Honorable Body approve the transfer of jurisdiction of the City Property from GSD-PR to PDD.

In furtherance of the consummation of the Agreement and the occurrence of the Second Closing, PDD has determined that the City Property is not essential to the City and, in accordance with Section 2-7-4 of the 2019 Detroit City Code, hereby recommends the City Property be declared "surplus real property." PDD also requests that this Honorable Body approve the conveyance of the City Property to DIBC, and authorize the PDD Director or his designee to execute a quit claim deed and such other documents as may be necessary or convenient to transfer the City Property to DIBC in connection with the Second Closing and otherwise in accordance with the terms of the Agreement. A resolution is attached for your consideration and convenience.

To expedite the consummation of the Second Closing, a waiver of reconsideration is requested.

Michigan Economic Development Corporation

Detroit Community-Based Projects Agreement

Congratulations!

Detroit Animal Care and Control has been recommended by Shri Thanedar, Ph.D, State Representative 3rd District for a subgrant of up to $15,000 from the Michigan Economic Development Corporation (MEDC). The MEDC grant is managed by the grant awardee Project Healthy Community (PHC).

The subgrant is for beautification projects and community improvement programs in Detroit.

Please briefly describe how your association will use the grant funds (include the anticipated costs and start and completion date of the project).

Detroit Animal Control, a division of the General Services Department of the City of Detroit is focused on public safety for the residents and visitors to our city. To improve public safety and reduce the number of loose dogs within the city limits we employ two-way field radios that are used to communicate with fellow officers and with Police Precincts.

This tool allows us to be immediately informed by Detroit Police of any emergency situations dealing with animals. It also enables our officers to communicate on the fly while out in the field, to coordinate capture efforts and sweeps of areas where dogs have been seen running loose.

Our current set of radios are showing signs of wear and age. This grant would allow us to purchase some replacement radios and chargers to be used in the field during operations, increasing the efficiency of our operations.

Project end date: March 31, 2023

Projected cost: $14,525.00

Detroit Animal Control is a division of the General Services Department authorized to administer and enforce the provisions of Chapter 6 of the 2019 Detroit City Code.

The mission of Detroit Animal Control is to promote and protect the health, safety and welfare of residents and visitors of the City of Detroit from animal bites, zoonotic disease, and traffic hazards and to encourage responsible pet ownership through education and enforcement.

The MEDC requires that proof of expended funds be reported on a quarterly basis by Project Healthy Community. Consequently, in most cases the grant will be paid on a reimbursement basis after documentation of expended funds are received. However, exceptions can be requested for a lump sum payment if appropriate documentation is provided.

An example of how to report project expenses is provided below:

Re: Resolution Urging the Adoption of the Mutual Aid Box Alarm System – Michigan (MABAS-MI).

Council Member Gabriela Santiago-Romero requested that the Legislative Policy Division (LPD) draft a Resolution Urging the Adoption of the Mutual Aid Box Alarm System – Michigan.

Please contact us if we can be of any further assistance.

_____

RESOLUTION URGING THE ADOPTION OF THE MUTUAL AID BOX ALARM SYSTEM – MICHIGAN (MABAS-MI)

By Council Member Santiago-Romero:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, The Mutual Aid Box Alarm System (MABAS) is a structured, planned mutual aid system for deploying fire, rescue, and emergency medical services personnel, allowing for multiple jurisdictions and/or agencies within a state to respond to emergencies. MABAS connects fire, emergency management services (EMS), and special operations teams in hazardous materials, technical rescue, subsurface ice/water rescue, fire investigations, incident management, urban search and rescue, and station backfill coverage with standby firefighting and EMS resources through mutual aid requests; and

WHEREAS, MABAS began in the suburbs of Chicago, Illinois in 1968 and has since grown throughout Illinois, Wisconsin, Indiana, Michigan, and parts of Iowa and Missouri. MABAS is regarded nationally as a model for emergency mutual aid systems. Michigan currently has 31 MABAS divisions with over 500 member fire departments, an Urban Search and Rescue Task Force, Technical Rescue Strike Teams, Hazardous Material Response Teams and an Incident Management Team; and

WHEREAS, The Urban Cooperation Act of 1967, 1967 PA 7, MCL 124.501, *et seq.* provides that any political subdivision of Michigan or of another state may enter into interlocal agreements for joint exercise of power, privilege, or authority that agencies share in common and might each exercise separately; and

WHEREAS, Each local unit of government that decides to participate in MABAS signs the same agreement, which provides the legal parameters for intrastate and interstate mutual aid such as the reimbursement for assisting agencies, Worker's Compensation and liability indemnification language that is required of interlocal agreements; and

WHEREAS, Local communities often face emergencies that overtax their local fire, EMS, and special operations capacities, but do not warrant a declaration of disaster from the Governor. The MABAS agreement allows for member agencies to efficiently share and utilize resources with other member agencies outside of their jurisdiction with liability protection similar to what is available during a declaration of disaster by the Governor; and

WHEREAS, MABAS provides a centralized, statewide communication system, and because each member agency agrees to send pre-determined resources upon request, MABAS allows member agencies to rapidly respond to emergencies with additional resources through a streamlined process; and

WHEREAS, MABAS membership provides invaluable benefits to its members, including improved disaster response capabilities, reduced impact of disasters on communities, strengthened intrastate and interstate emergency mobilization, unification of fire service stakeholders, and enhanced state of emergency preparedness statewide; and

WHEREAS, The MABAS-MI agreement must be approved by a resolution of the governing body of each participating government agency, signed by the chief executive, filed with the Clerk's office in the County of the participating jurisdiction, and filed with the Michigan Secretary of State; and; NOW THEREFORE BE IT

RESOLVED, The Detroit City Council strongly urges Mayor Mike Duggan to sign the MABAS-MI agreement;

THEREFORE, BE IT FINALLY

RESOLVED, That The Detroit City Clerk is directed to send this resolution to Mayor Mike Duggan.

City of Detroit
Legislative Policy Division

January 27, 2023

Honorable City Council:

Re: Resolution Urging the DDA to Pay a Subsidy to the Detroit Public Library in the Amount of $3.5 Million.

Council member Whitfield-Calloway requested that the Legislative Policy Division (LPD) draft a Resolution Urging the DDA to Pay a Subsidy to the Detroit Public Library in the Amount of $3.5 Million.

———

RESOLUTION URGING THE DDA TO PAY A SUBSIDY TO THE DETROIT PUBLIC LIBRARY IN THE AMOUNT OF $3.5 MILLION

By Council Member Whitfield-Calloway:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Within the tenets of its mission, the Detroit Public Library (DPL) enlightens and empowers people by providing diverse and dynamic pathways to literacy and learning. The DPL website also states, "No matter what changes, the library continues to adapt with the city to ensure that Detroiters' needs are met with diverse collections, engaging programs, and enriching classes;" and

WHEREAS, Despite their best efforts, DPL has struggled financially to fulfill its mission, given its heavy reliance on local property tax revenue, which has not kept pace with its operational and capital needs. DPL requires an additional stable and reliable revenue source, to adequately fund its operations, so it may accomplish the missions for which it was established; and

WHEREAS, During its budget deliberations for Fiscal Year (FY) 2023, in the face of the COVID-19 pandemic, DPL planned to reopen 11 additional library branches in FY 2023, beginning July 1, 2022. DPL determined it would need to use $3.1 million of its unassigned general fund balance to accomplish this goal; and

Whereas, In addition, with the reopening of the 11 Library branches, DPL's administration anticipates funding shortfalls of $3.0 million in FY 2024, $3.0 million in FY 2025, and $3.5 million in FY 2026; and

WHEREAS, According to a recent Legislative Policy Division report, if future funding shortfalls at this rate are covered by DPL's unassigned general fund balance to maintain balanced budgets, the unassigned general fund balance (i.e., rainy-day fund) of $26 million, will be depleted in almost nine years; and

WHEREAS, The Downtown Development Authority (DDA) was established pursuant to Michigan Public Act 197 of 1975, as amended, which has been recodified into Michigan Public Act 57 of 2018. Detroit's DDA, which was founded by Mayor Coleman A. Young, receives funding for its programs from a number of sources such as grants, contracts, interest on loans and captured tax increments — increases in property taxes that result from new investments — on approved developments. These support private investments and business growth through loans, sponsorships and grants, capital improvements to public infrastructure and additional programs designed to increase economic activity in its designated area; and

WHEREAS, A portion of the DDA's resources are lawfully derived from the capture of tax revenue that would otherwise go to DPL' s general fund finances. The DDA in providing grants and capital improvement funding could provide much needed financial assistance to the DPL, particularly where DPL assets are physically located within DDA's jurisdictional area; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the Downtown Development Authority (DDA), whose mission is to design and implement innovative solutions that drive investment, create jobs, and advance the economy of Detroit through public private collaborations, to provide a subsidy to the Detroit Public Library in the amount of $3.5 million annually; THEREFORE, BE IT FINALLY

RESOLVED, Copies of this resolution shall be provided to Detroit Mayor Mike Duggan, Kevin D. Johnson, the President and Chief Executive Officer for the Detroit Economic Growth Corporation (DEGC), and the Board of Directors of the DDA.

Adopted as follows:

Yeas — Council Members Benson, Durhal, III, Johnson, Santiago-Romero, Tate, Waters, Whitfield-Calloway, Young, II and President Sheffield — 9.

Nays — None.

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Office of the Chief Financial Officer Office of Budget

February 6, 2023

Honorable Detroit City Council Members:

Re: Fiscal Year 2022-2023 Supplemental Appropriations and Transfers.

The Administration is requesting Fiscal Year 2022-2023 supplemental appropriations and transfers to address immediate additional needs and to implement projects during the upcoming construction season, as follows:

Supplemental Appropriations — General Fund Source:	
Unassigned Fund Balance (Prior Year Surplus)	156,500,000
Uses:	
Risk Management Fund	60,000,000
Retiree Protection Fund	10,000,000
Capital Projects — Sidewalk Replacement Program	20,500,000
Capital Projects — Public Transit	19,900,000
Capital Projects — Parks and Recreation	16,225,000
Capital Projects — Public Safety	2,404,000
Capital Projects — Elections	1,570,000
Capital Projects — Fleet Electrification	901,000
Total Capital Projects	61,500,000
Emergency Demolitions and Orders to Demolish	13,000,000
Dangerous Tree Removal	5,000,000
Detroit Land Bank Authority — Citywide Blight Survey	2,000,000
Covid-19 Response	5,000,000
Total Uses	156,500,000

The supplemental appropriations above totaling $156.5 million will be supported by the City's $229.6 million unassigned fund balance (i.e., prior year surplus) from the fiscal year ending June 30, 2022. Additional details are discussed below.

The City utilizes its Risk Management Fund (RMF) to pay workers' compensation and legal claims and judgments payable each fiscal year. Over the last two fiscal years and fiscal year-to-date, RMF expenses have drawn down the reserve balance by approximately $60 million. The proposed one-time $60 million contribution will replenish the City's RMF reserve closer to prior year levels to manage our near-term liabilities.

The Retiree Protection Fund (RPF) was established to build up reserves to help the City gradually phase in the General Fund's share of annual legacy pension contributions that resume in FY24. The proposed $10 million additional contribution will help the City make the annual legacy pension contributions in the forthcoming FY24-FY27 Four-Year Financial Plan.

The proposed $61.5 million in capital projects will allow the City to proceed with various projects during the upcoming construction season, including a new Sidewalk Replacement Program expansion ($20.5 million), additional needs for State Fair Transit Center and grant match for new People Mover rail cars ($19.9 million), the next phase of parks and recreation improvements ($16.2 million), scheduled bulletproof vests and body armor replacements ($2.4 million), elections facilities and equipment improvements in advance of the 2024 election cycle ($1.6 million), and infrastructure needed for the first round of EV fleet transition, including the Municipal Parking Department ($0.9 million).

The proposed $13 million for emergency demolitions and orders to demolish will backfill funding reduced during last year's budget cycle and ensure adequate funding for timely contracting for these needs. The City uses its Proposal N bond proceeds for land bank houses and ARPA funds for commercial and industrial blight. Thus, the General Fund must be used to support demolitions of private structures deemed unsafe, whether by emergency order or orders to demolish through the Dangerous Buildings process. In addition, the City will launch a new $5 million effort to address dangerous trees on private property and a new $2 million citywide survey of all blighted properties.

Lastly, the proposed $5 million for Covid-19 response will support ongoing vaccination, testing, and other pandemic response activities through June 30, 2024, which are not otherwise supported by grants, and which may be eligible for partial FEMA reimbursement.

Supplemental Appropriations — General Fund Sources:	
Surplus FY23 Revenue (Sept 2022 Revenue Conference)	19,400,000
Uses:	
Fire Department — Dual Certification Transition	18,100,000
Elections Department — 2022 Midterm Election	1,000,000
Public Lighting Department — Utilities	300,000
Total Uses	19,400,000

The supplemental appropriations above will be supported by estimated revenues in excess of the adopted fiscal year 2023 budget approved at the September 2022 Revenue Estimating Conference. That surplus revenue totaled $42 million, and the first $22.6 million was utilized for the police officer pay raises City Council approved in November 2022. The remaining $19.4 million will support additional Fire Department payroll expenses as the department continues to transition to its dual Fire Fighter/Emergency Medical Services certification staffing structure, additional elections expenses incurred during the 2022 midterm election, and additional public lighting expenses for streetlight utility costs.

Supplemental Appropriations — Bond Fund Sources:	
Remaining convention center bond proceeds	138,000
Uses:	
Continue Hart Plaza Improvements	138,000
Transfers — General Fund	
Sources:	
GSD Recreation operations surplus from facilities under renovation	1,500,000
Uses:	
GSD Fleet Management for vehicle leases	1,500,000
Transfers - Homeland Security Grant Fund	
Sources:	
Incorrect UASI Grant Appropriation No. 20901	615,824
Uses:	
Correct UASI Grant Appropriation No. 21062	615,824

The supplemental appropriations and transfers above address additional needs and technical corrections. First, there is an additional $138,000 in convention center bond proceeds available for Hart Plaza improvements, which were inadvertently left out of a prior year appropriation that totaled approximately $1.4 million. Second, additional budget authority is required for vehicle leases, which can be supported by an operating surplus from closed recreation centers that were undergoing renovations this fiscal year. The ongoing lease expense will be built into the fiscal year 2024 budget. Lastly, there is a technical correction to the appropriation number for the annual Urban Areas Security Initiative grant in the Office of Homeland Security.

We respectfully request your approval of the attached resolution, with a waiver of reconsideration, to authorize these supplemental appropriations and transfers.

Best Regards,
STEVEN WATSON
Deputy CFO / Budget Director

By Council Member Durhal, III:

Whereas, Section 17(1) of State of Michigan Public Act 2 of 1968 (the "Uniform Budgeting and Accounting Act") states that a deviation from the original general appropriations act shall not be made without amending the general appropriations act; and

Whereas, Section 8-210 of the 2012 Detroit City Charter authorizes that if during the fiscal year the Mayor advises the City Council that there are available for appropriation revenues in excess of those estimated in the budget, the City Council may make supplemental appropriations for the year up to the amount of the excess; and

Whereas, Section 8-211 of the 2012 Detroit City Charter authorizes that any time during the fiscal year upon written request by the Mayor, the City Council may, by resolution, transfer all or part of any unencumbered appropriation balance among the programs, services or activities within an agency or from one agency to another; and

Whereas, The OCFO — Office of Budget, on behalf of the Mayor, has submitted recommended supplemental appropriations and transfers to the Detroit City Council, as provided in this resolution and the attached Schedule A.

Now, Therefore, Be It Resolved, That the Detroit City Council hereby approves amending the Fiscal Year 2022-2023 Budget by increasing and decreasing Revenue and Expenditure Appropriations as outlined in the attached Schedule A; And Be It Finally

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

Planning and Development Department

February 7, 2023

Honorable City Council:

Re: Property Sale — Correction 8243 E. Forest and 4709 Seminole.

On May 17, 2022, your Honorable Body approved the sale of certain City-

owned real property at 8243 E. Forest, to Mario Washington Foundation, a Michigan Non-Profit Corporation (the "Purchaser"), for the purchase price of Twenty-Two Thousand Two Hundred Fifty and 00/100 Dollars ($22,250.00).

It has come to our attention that the legal description was stated incorrectly and issued in error. The project site should also have included the adjacent vacant lot at 4709 Seminole.

8243 E. Forest consists of a one-story commercial structure in need of repair situated on approximately 5,100 square feet of land. The adjacent vacant lot at 4709 Seminole is comprised of approximately 3520 square feet. Both parcels are zoned B4 (General Business District).

The Purchaser proposes to renovate 8243 E. Forest and 4709 Seminole (the "Property") for commercial use (barber shop/restaurant/retail). Their proposed use of the Property shall be consistent with the allowable uses for which the Property is zoned.

We, therefore, request that your Honorable Body adopt the attached resolution to reflect the correct legal description for the sale and authorizing the Director of P&DD, or his or her authorized designee to execute a quit claim deed and such other documents as may be necessary or convenient to effect a transfer of the Property by the City to Mario Washington Foundation, a Michigan Nonprofit Corporation.

Respectfully submitted,
ANTOINE BRYANT
Director

By Council President Pro Tem Tate:

Resolved, That the Director of the Planning and Development Department, or his or her authorized designee, is authorized to execute a quit claim deed for the purchase price of Twenty Two Thousand Two Hundred Fifty and 00/100 Dollars ($22,250.00) and other such documents necessary or convenient, to effect transfer of the Property, as more particularly described in the attached Exhibit A, to Mario Washington Foundation, a Michigan Nonprofit Corporation; and be it further

Resolved, That the following Property Sales Services Fees be paid from the sale proceeds pursuant to the City's Property Management Agreement with the Detroit Building Authority ("DBA"): 1) Two Thousand Five Hundred and 00/100 Dollars ($2,500.00) shall be paid to the DBA from the sale proceeds, 2) One Thousand One Hundred Twelve and 50/100 Dollars ($1,112.50) shall be paid to the DBA's real estate brokerage firm from the sale proceeds, and 3) customary closing costs up to Two Hundred and 00/100 Dollars ($200.00), as well as any taxes and assessments which have become a lien on the property; and be it further

Resolved, That the P&DD Director, or his or her authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Property, provided that the changes do not materially alter the substance or terms of the transfer and sale; and be it finally

Resolved, That the quit claim deed will be considered confirmed when executed by the P&DD Director, or his or her authorized designee, and approved by the Corporation Counsel as to form.

January 20, 2023

Honorable City Council:

Re: Request to Accept and Appropriate the Transportation Economic Development Fund — Category A Grant and partner with the Detroit Brownfield Redevelopment Authority to complete the Eastern Market Project.

The Michigan Department of Transportation (MDOT) has awarded the City of Detroit Department of Public Works (DPW) with the Transportation Economic Development Fund — Category A Grant, for a total of $303,127.00, to support the Eastern Market Project. This project will be constructed in partnership with the Detroit Brownfield Redevelopment Authority (DBRA). The Economic Development Administration (EDA) has awarded the DBRA with the Public Works and Economic Adjustment Assistance Grant, for a total of $2,557,950.00, to support the Eastern Market Project. Both grants will act as match for each other. In addition, there is a remaining project cost of $2,125,194.26, that will be provided by DPW. The total project cost is $4,986,271.26. The project cost includes construction costs of $4,201,757.62, construction engineering and inspection fees of $630,263.64 and architectural/design costs of $154,250.00.

The following table provides a summary of the overall budget and funding sources:

Overall Project Budget	
Construction	$4,201,757.62
Construction Engineering	$630,263.64
Design	$154,250.00
Total	**$4,986,271.26**

Funding Sources	
EDA	$2,557,950.00
MDOT	$303,127.00
DPW	$2,125,194.26
Total	**$4,986,271.26**

The objective of the grant is to reconstruct/make improvements to various roads in Eastern Market to meet industry, employee and visitor needs. The funding allotted to the department will be subawarded to DBRA. DBRA will manage the project in partnership with DPW and will contract out the construction services in partnership with DPW. These two grants will be used to resurface St. Aubin St., from Mack Ave. to Superior St., reconstruct Superior St. from St. Aubin St. to Dequindre St., reconstruct Illinois St. from St. Aubin St. to Dequindre St.,

and reconstruct/resurface Riopelle St. from Mack Ave. to Wilkins St.

In addition, DPW will leverage these grants to resurface/widen Erskine St. from Russell St. to Orleans St. and resurface St. Aubin St. from Superior St. to Canfield St. These DPW Project elements will cost $1,327,575.74.

Finally, DPW will provide the grant match for the EDA grant, in the amount of $797,618.47. DPW will transfer the grant match funding, the MDOT grant, in the amount of $303,127.00, and the DPW Project elements, in the amount of $1,327,575.74, to DBRA, in order to complete the Eastern Market Project. Therefore, DPW will transfer a total of $2,428,321.21 to DBRA, as outlined in the table above.

If approval is granted to accept and appropriate this funding, the appropriation number is 21240, with the match amount coming from appropriation number 04189.

I respectfully ask your approval to accept and appropriate funding in accordance with the attached resolution.

General Services Department

February 2, 2023

Honorable City Council:

Re: Authorization to re-acquire two (2) Parcels from the Detroit Land Bank Authority for Bloomfield Park.

The City of Detroit ("City"), by and through the General Service Department/Parks and Recreation ("DPR"), is hereby requesting the authorization of your Honorable Body to reacquire certain parcels from the Detroit Land Bank Authority ("Acquisition Parcels") for the correction of jurisdiction of Bloomfield Park:

District 6 (2 parcels):

- 3732 25th Street — Parcel ID – 12009253; and
- 3738 25th Street — Parcel ID – 12009254.

The total area of land to be transferred from DLBA to DPR is .138 ac or 6,011 square feet. The properties are currently improved as parkland and zoned R2 (Single-Family Residential District). *This request outlines a needed correction in City records to return both park parcels back to the jurisdiction of the GSD/DPR.*

In accordance with the requirements of Detroit City Code, Section 2-1-12, City Council is required to approve any gift, grant, devise, or bequest of real or personal property to be used for any public purpose. Pursuant to the Memorandum of Understanding ("MOU") between the City of Detroit and the Detroit Land Bank Authority, approved by the Detroit City Council on May 2020, the Detroit Land Bank Authority may not transfer ten (10) or more parcels of property received from the City to the same transferee within any rolling 19-month period without the prior approval of the Mayor and City Council.

We hereby request that your Honorable Body approved the attached resolution authorizing the Detroit Land Bank Authority to transfer two (2) park parcels to Parks and Recreation as a correction to the City of Detroit assessing records and DPR jurisdiction.

Respectfully submitted,
CRYSTAL PERKINS
Deputy Director
General Services Department

By Council Member Young, II:

Now, Therefore, Be It Resolved, That City of Detroit ("City") through the General Service Department ("GSD") wishes to re-acquire two (2) park parcels within the City of Detroit, Michigan, more particularly described in the attached Exhibit A ("Acquisition Parcels") from the Detroit Land Bank Authority ("DLBA").

Whereas, Building, Safety, Engineering and Environmental Department has reviewed the environmental report on the environmental conditions of the Acquisition Parcels attached herein as Exhibit A; and

Whereas, In accordance with Chapter 2, Article I, Division 2 of the Detroit City Code: (1) the City Council finds that the Acquisition Parcels have received appropriate environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) the environmental inquiry has shown that past use of the Acquisition Parcels for the period investigated has been solely for residential purposes and that the Acquisition Parcels do not pose an adverse environmental impact, therefore none of the Acquisition Parcels are considered a facility; and (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and therefore waives the requirements that the seller bear the cost of the environmental inquiry; now therefore be it

Resolved, That Detroit City Council hereby approves return of the Acquisition Parcels from the DLBA for no consideration; and be it further

Resolved, That the Director of GSD, or her authorized designee, is authorized to accept and record a deed to the Acquisition Parcels to the City of Detroit, as well as execute any such documents as may be necessary or convenient to affect the transfer of the Acquisition Parcels from the DLBA to the City of Detroit; and be it further

Resolved, That the Director of GSD, or his authorized designee is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to correction of or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Acquisition Parcels to the City, provided that the

changes do not materially alter the substance or terms of the transfer; and be it finally

A RESOLUTION BY THE DETROIT CITY COUNCIL RESOLUTION APPROVING THE PUBLIC SERVICE ALLOCATIONS OF THE NEIGHBORHOOD OPPORTUNITY FUND/COMMUNITY DEVELOPMENT BLOCK GRANT BUDGET FOR FISCAL YEAR 2023-2024

WHEREAS, Each year the Administration and City Council collectively evaluate proposals for the allocation of Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development (HUD) through the City of Detroit Neighborhood Opportunity Fund (NOF) program; and

WHEREAS, Under the federal guidelines, CDBG funds may be used to support programs operated by organizations that service low- to moderate-income individuals and other vulnerable populations within our community. Given the serious challenges in our community, the City of Detroit uses CDBG funding to provide the necessary public service programs to address the vast needs of the vulnerable in our community; and

WHEREAS, While the critical need for these types of services within the City has not diminished, the resources available from HUD to address those needs is consistently being reduced; and

WHEREAS, The need for increased operational efficiencies within CDBG funded organizations could be achieved through greater interagency collaboration such as the merger of groups with compatible missions or consolidation of administrative fiduciary functions to increase service capacity. These expressions of encouragement are offered in recognition of the funding trends and the need for even stronger service delivery groups in these times; and

WHEREAS, A review team which included representatives of the Housing and Revitalization Department (HRD), City Planning Commission (CPC), and the Office of Development and Grants (ODG) reviewed the various proposals received for the program and HRD prepared recommendations to the Mayor; and

WHEREAS, The Mayor subsequently prepared recommendations which were submitted to the City Planning Commission (CPC), which concurred with all thirty-five (35) of the Mayor's funding recommendations; and

WHEREAS, City Council, having subsequently received the recommendations of the Mayor and the CPC, has reviewed those recommendations, held an appeals hearing regarding the organizations that were not initially recommended to receive 2023-24 NOF/CDBG funds, as well as a public hearing on the overall NOF/CDBG program; and

WHEREAS, Given the historic and very public role in the vetting of CDBG applicants as well as its unique knowledge of the residents of the City as their locally-elected representatives, City Council's involvement in the CDBG process is not only mandated by law but critical to the appropriate distribution of these funds. NOW THEREFORE BE IT

RESOLVED, The Detroit City Council hereby approves the allocation of Community Development Block Grant / Neighborhood Opportunity Fund awards for FY 2023-24 as set forth in the attached CDBG/NOF allocation chart; and BE IT FINALLY

RESOLVED, That a copy of this resolution be sent to Mayor Mike Duggan, Office of Contracting and Procurement, HRD, ODG, and the CPC.

STANDING COMMITTEE REPORTS

INTERNAL OPERATIONS STANDING COMMITTEE

Council Member Johnson moved the following resolution on behalf of President Sheffield:

RESOLUTION TO OFFICIALLY ESTABLISH '313 DAY' IN THE CITY OF DETROIT

By COUNCIL PRESIDENT SHEFFIELD:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural, and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, The area code, 313 was established in 1947 and serves Wayne County, including Detroit and other municipalities and communities such as the Pointes, Dearborn, Dearborn Heights, Hamtramck, Highland Park, Inkster, Lincoln Park, Redford, and Taylor; and

WHEREAS, Detroit, founded in 1701, has a long and rich history. By the 20th century, Detroit had grown from a fur trading settlement to become the automotive manufacturing capital of the world. We are still known as the Motor City for being the heart of the American automotive industry. As Detroit became a major center for industry and manufacturing, it also became a prominent setting for organizing efforts by labor unions that made significant strides to increase the wages and working conditions for workers both locally and nationally. During World War II, the city's automobile factories retooled their manufacturing efforts to support the war effort, and Detroit became known as the "Arsenal of Democracy" for its role in the Allied victory; and

WHEREAS, Detroit played a significant role as part of the Underground Railroad, whose organizers helped tens of thousands of people flee through the city and into Canada to escape slavery. Detroit is also where Martin Luther King, Jr. first delivered his "I Have a Dream" speech, two months before he gave it in Washington D.C. on the steps of the Lincoln Memorial on August 28, 1963. King delivered his Detroit speech in Cobo Hall after the now famous Walk to Freedom, which was a mass march in Detroit during the Civil Rights Movement on June 23, 1963. The march joined by local civil rights giants Horace Sheffield Jr. and Walter P. Reuther, drew an estimated crowd of 125,000 and was known at the time as "the largest civil rights demonstration in the nation's history;" and

WHEREAS, Detroit has a rich musical and cultural history, consistently producing notable jazz, blues, soul, rock and roll, hip hop, and electronic music artists. Most notably, Detroit was the home of Motown Records, one of the most successful Black-owned businesses and one of the most significant independent record companies in American history. Detroit is also recognized globally as the birthplace of techno. The city remains home to many unique and historical venues for live theater and music, and regularly hosts artistic events and music festivals such as the Detroit Jazz Festival and the Concert of Colors; and

WHEREAS, Additionally, Detroit is the home to Michigan staples such as Ford Field, the home of the Detroit Lions; Comerica Park, the home of the Detroit Tigers; Little Caesars Arena, the home of both the Detroit Red Wings & Detroit Pistons; as well as Eastern Market, the famous Lafayette Coney Island vs. American Coney Island food battle, and the beautiful Belle Isle; and

WHEREAS, Detroit has a growing community of locally owned and Black-owned businesses, which represent the unique character and industrious spirit of the city, earning it the popular refrain "there is no place like Detroit;" and

WHEREAS, 313 Day originated in 2002 on a radio program called "Club Detroit" on 97.9 WJLB, hosted by Dr. Darrius. Darrius started a discussion about what Detroiters could do to show their city pride on March 13. The radio station continued to promote 313 Day, which has continued to grow and evolve into a day where Detroiters show their pride by doing things like wearing the clothes of their favorite Detroit team, shopping at their favorite local businesses, visiting the city's parks and museums, or attending an event to support local music artists; and

WHEREAS, March 13th is a unique day for Detroiters to celebrate all that symbolizes the 313; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby establishes March 13th as '313 Day' in the city of Detroit, as a day for Council, as well as our fellow Detroiters, to honor the history and culture of Detroit, Michigan's most well-known city; NOW THEREFORE BE IT FINALLY

RESOLVED, That copies of this resolution be forwarded to the City Clerk and the Mayor.

The U.S. Department of Housing and Urban Development ("HUD") has made available special Emergency Solutions Grant-COVID (ESG-CV) funds available to the City of Detroit ("City") through the Housing and Revitalization Department ("HRD") to prevent, prepare for, and respond to the coronavirus and to mitigate the impact on individuals and families who are homeless or receiving homeless assistance.

Eligible organizations must demonstrate experience and capacity to assist in one or more of the following areas:

- Street Outreach;
- Emergency Shelters;
- Warming Centers;
- Rapid Re-Housing;
- Homelessness Prevention; and
- Data Collection.

HRD is seeking this Honorable Body's authorization to enter into a funding agreement with the Detroit Rescue Mission Ministries, a Michigan nonprofit corporation ("DRMM"), for the acquisition of a temporary emergency shelter located at 440 E. Grand Boulevard, Detroit, Michigan (the "Property").

HRD wishes to provide a temporary emergency shelter in the Islandview neighborhood for households experiencing homelessness and who are COVID-19 positive. On July 29, 2022, HRD released a Request for Proposals, and selected DRMM to be the operator to acquire, operate and manage the Property. The acquisition and operation of the temporary emergency shelter will allow for a safe, accessible place for individuals and families to stay and provide resources for stable and permanent housing.

In support of the temporary emergency shelter, HRD is hereby requesting approval to award funding to the project as follows:

1. Detroit Rescue Mission Ministries — Six Hundred Thousand and 00/100 Dollars ($600,000.00) in ESG-CV funds to be advanced to DRMM for the acquisition, operation, and management of 440 E. Grand Blvd. from Alpha Manor Real Estate, LLC for DRMM to utilize the Property as a temporary emergency shelter.

We hereby request that your Honorable Body adopt the attached resolution that: (1) approves the aforementioned funding for the project and (2) authorizes the HRD Director, or her authorized designee, to execute such documents as may be necessary or convenient to complete the transactions.

EXHIBIT D:
FEDERAL REGULATORY REQUIREMENTS

The City of Detroit has sought to obtain federal funding to augment its response to the COVID-19 pandemic (the "Pandemic"). The following provisions are defined as a requirement associated with the impact of the Pandemic and are attached and incorporated by reference herein to the **Funding Agreement (the "Agreement") with Detroit Rescue Mission Ministries.**

I. Procurement Policy

Procurement for the City of Detroit has provided a transparent, open, and fair opportunity for all eligible Contractors to participate. This bid has been made without collusion with any other person, firm or corporation making any bid or proposal, or who otherwise makes a bid or proposal. The Contractor must have a valid Contract or purchase order with the signature of the Chief Procurement Officer to receive payment for goods or services rendered. If the Contractor performs any work without a valid Contract or purchase order, the Contractor will not be paid.

II. Bonds and Insurance Requirements

Receipt of bonds and/or insurance is part of the process of determining which Contractor may be recommended for award to the City Council. If cause is found to change the recommendation that a Contractor be awarded the contract, or if the City Council does not approve the recommendation, the City shall not be liable for any costs incurred by the Contractor in the bid process, including the cost of acquiring bonds and/or insurance. This subsection III is applicable only to Contracts pertaining to construction or facility improvement.

III. Equal Employment Opportunity

DRMM hereby agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or

national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(c) The Contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Contractor's legal duty to furnish information.

(d) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other Contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(e) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(f) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(g) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this Contract or with any of the said rules, regulations, or orders, this Contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government Contracts or federally assisted construction Contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(h) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, that in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

(i) The City of Detroit further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the City of Detroit so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the Contract.

The City of Detroit agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of Contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance. The City of Detroit further agrees that it will refrain from

entering into any Contract or Contract modification subject to Executive Order 11246 of September 24, 1965, with a Contractor debarred from, or who has not demonstrated eligibility for, Government Contracts and federally assisted construction Contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon Contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the City of Detroit agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: cancel, terminate, or suspend in whole or in part this contract; refrain from extending any further assistance to the City of Detroit under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such City of Detroit; and refer the case to the Department of Justice for appropriate legal proceedings.

The Contractor agrees to provide the City, the FEMA Administrator, the Comptroller General of the United States, and any other authorized representative access to any books, documents, papers, and records of the Contractor which are directly pertinent to this Contract for the purposes of making audits, examinations, excerpts, and transactions.

2. The Contractor agrees to permit any of the foregoing parties to reproduce, by any means whatsoever, or to copy excerpts and transcriptions as reasonably required.

3. The Contractor agrees to provide the FEMA Administrator or authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

4. In compliance with the Disaster Recovery Act of 2018, the City and the Contractor acknowledge and agree that no language in this Contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

5. This subsection (h) is applicable only to Contracts pertaining to construction or facility improvement.

(j) Domestic Preferences for Procurements.

As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products this award.

For purposes of this section:

(i) "produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States; and

(ii) "manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

(k) Federal Acquisitions Regulation Compliance.

1. All transactions regarding this Contract and subject to the applicable law shall be done in compliance with the Federal Acquisitions Regulations guidance 6.302-2 (unusual and compelling urgency. The Contractor shall comply with 10 U.S.C. 2304(c)(2) or 41 U.S.C. 3304(a)(2), as well as Title 2 CFR 200(e) as applicable, which are incorporated by reference into this Contract and quoted in full below:

(a) Authority.

(1) Citations: 10 U.S.C.2304(c)(2) or 41 U.S.C.3304(a)(2).

(2) When the agency's need for the supplies or services is of such an unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals, full and open competition need not be provided for.

(b) Application. This authority applies in those situations where –

(1) An unusual and compelling urgency precludes full and open competition; and

(2) Delay in award of a contract would result in serious injury, financial or other, to the Government.

(c) Limitations.

(1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304. These justifications may be made and approved after contract award when preparation and approval prior to award would unreasonably delay the acquisition.

(2) This statutory authority requires that agencies shall request offers from as many potential sources as is practicable under the circumstances.

(d) Period of Performance.

(1) The total period of performance of a contract awarded or modified using this authority –

(i) May not exceed the time necessary:

(A) To meet the unusual and compelling requirements of the work to be performed under the contract; and

(B) For the agency to enter into another contract for the required goods and services through the use of competitive procedures; and

(ii) May not exceed one year, including all options, unless the head of the agency determines that exceptional circumstances apply. This determination must be documented in the contract file.

(2)(i) Any subsequent modification using this authority, which will extend the period of performance beyond one year under this same authority, requires a separate determination. This determination is only required if the cumulative period of performance using this authority exceeds one year. This requirement does not apply to the exercise of options previously addressed in the determination required at paragraph (d)(1)(ii) of this section.

(ii) The determination shall be approved at the same level as the level to which the agency head authority in paragraph (d)(1)(ii) of this section is delegated.

(3) The requirements in paragraphs (d)(1) and (2) of this section shall apply to any contract in an amount greater than the simplified acquisition threshold.

(4) The determination of exceptional circumstances is in addition to the approval of the justification in 6.304.

(5) The determination may be made after contract award when making the determination prior to award would unreasonably delay the acquisition.

2. This subsection (i) is applicable only to Contracts involving the receipt of Federal Transit Administration funding.

Department of Public Works

February 15, 2023

Honorable City Council:

Re: Property Donation — 8020 and 8040 W. Chicago St.

The City of Detroit, by and through its Department of Public Works ("DPW"), has received an offer from Independent Scrap L.L.C., a Michigan limited liability company (the "Donor"), to donate certain real property located at 8020 and 8040 W. Chicago St., Detroit, MI 48204, as more particularly described in the attached Exhibit A (the "Property").

The City proposes to use the Property as part of the Joe Louis Greenway. The City intends to demolish and clear the vacant and blighted structures on the Property. This will allow for the construction of a safer off-street route for the Joe Louis Greenway.

We request that your Honorable Body adopt the attached resolution to (1) issue findings and declarations consistent with Chapter 2, Article VI of the Detroit City Code with respect to environmental assessments of the Property, (2) approve the acceptance of the donation of the Property, and (3) authorize the execution of such documents as may be necessary or convenient to effect the acceptance of the donation of the Property.

Respectfully submitted,
RON BRUNDIDGE,
Director
Department of Public Works

By Council Member Santiago-Romero:

Whereas, The Building Safety Engineering and Environmental Department has reviewed the environmental conditions of the real property located at 8020 and 8040 W. Chicago St., Detroit, MI 48204, as more particularly described in the attached Exhibit A (the "Property"); and

Whereas, The City of Detroit obtained that certain Phase I Environmental Site Assessment 8020 and 8040 West Chicago, dated August 15, 2022, and that certain Phase II Environmental Site Assessment 8020 and 8040 W. Chicago Property, dated March 10, 2017, and that certain draft Report on Supplemental Phase II Environmental Site Assessment 8020 and 8040 W. Chicago Property, dated November 7, 2022, all prepared by NTH; now

Therefore It Is Hereby Resolved, That this Honorable Body hereby determines and declares, in accordance with Chapter 2, Article VI, Section 3 of the 2019 Detroit City Code: (1) the City Council finds that the Property has received appropriate environmental inquiry and assessment in accordance with the review referred to in the preceding paragraph; (2) the City Council finds and declares that despite the presence of environmental contamination at the Property, acquisition of the Property is necessary to promote the health, safety and welfare of the public and such acquisition does not pose an unacceptable risk based upon the proposed use of the Property if appropriate response actions are taken to meet due care obligations; (3) the City Council finds and declares that the preservation of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and assessment and, therefore, waives the requirement that the seller bear the cost of the environmental inquiry and assessment; and (4) the City of Detroit General Services Department shall submit a Baseline Environmental Assessment to the Michigan Department of Energy, Great Lakes and the Environment ("EGLE") and undertake response actions to mitigate any unacceptable risks with strict adherence to EGLE regulations and will develop a Plan for Due Care and Operations, Maintenance and Monitoring to assure that environmental hazards are addressed prior to and in conjunction with development of the Property as soon as the City takes on ownership of the Property; and be it further

Resolved, That the acceptance of the donation of the Property by Independent Scrap L.L.C., a Michigan limited liability company, is hereby approved; and be it finally

Resolved, That the Director of the City of Detroit Department of Public Works, or a designee, is authorized to execute such documents as may be necessary or convenient to effect the acceptance of the donation of the Property consistent with this Resolution.

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Office of the City Clerk

March 2, 2023

Honorable City Council:

Re: Application for Neighborhood Enterprise Zone Certificate for Belcrest.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of one (1) application for a Neighborhood Enterprise Zone Certificate. This application has been reviewed and recommended for approval by the City Planning Commission, a copy of which is attached. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve these applications.

Respectfully submitted,
ANDRE P. GILBERT, II
Deputy City Clerk

By Council Member Durhal, III:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from *ad valorem* property taxes, and the imposition of specific tax in lieu of *ad valorem* taxes; and

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992.

Now, Therefore, Be It Resolved, That the Detroit City Council approves the submission of the application to the State Tax Commission, and, if applicable, the City Council concurs with the issuance of the certificate if the application was filed not more than 6 months after the date of the issuance of a building permit for the facility.

Be It Finally Resolved, That the Detroit City Council approve the following for receipt of a Neighborhood Enterprise Zone Certificates for a fifteen-year period:

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a 139-unit residential apartment building located at 5440 Cass Avenue (the Belcrest Apartments) in the Belcrest Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received one application requesting a Neighborhood Enterprise Zone (NEZ) certificate for the rehabilitation of a 139-unit residential apartment building located at 5440 Cass Avenue.

The property is located on the east side of Cass Avenue between West Kirby and West Ferry near the Wayne State University campus. Below are maps of the location and an image of the building. The site is developed with a 12-story apartment building. The building is designated historic.

The developer for the project 5440 Cass LLC. The request is for a 15-year abatement to create 139 rental units. The rehab will include exterior and interior improvements. The developer estimates spending $36,652 per unit. Some of the major improvements include elevator repair, roof restoration, painting, flooring, demolition, appliances, etc.

The developer shared the below table regarding unit sizes and rents, except for those units for current low-income tenants.

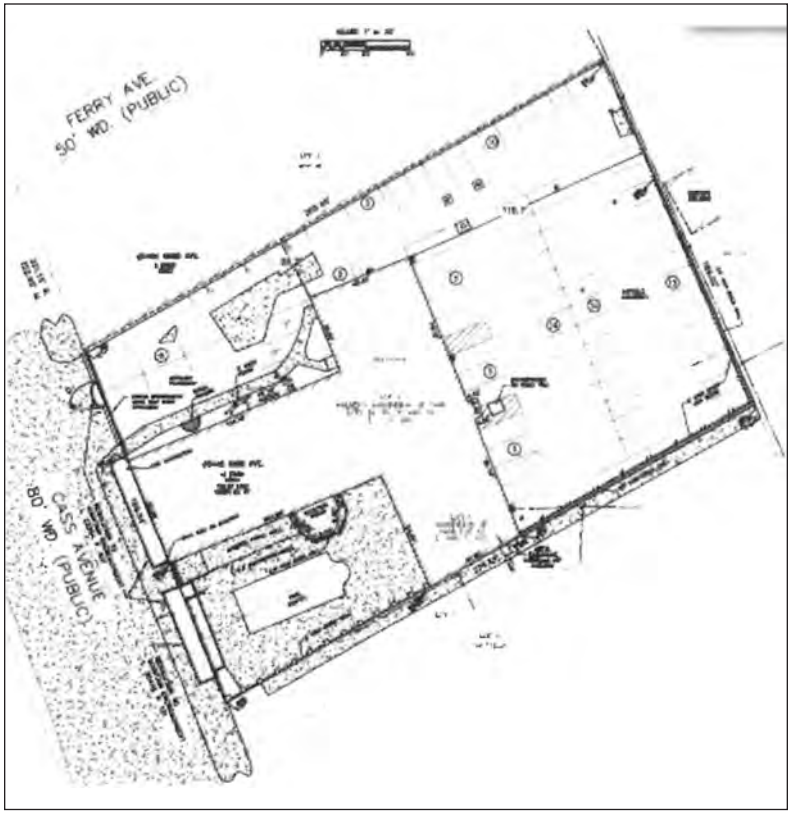
Unit Type	Units	SQF range	Avg. SF	Total SF	Rent after Renovation	Rent/ SF
Studio	9	350-500	404	3,636	$921	$2.28
Studio Affordable	3	350-500	404	1,212	$848	$2.10
1 Bedroom	85	500-900	738	61,254	$1,269	$1.72
1 Bedroom Affordable	20	500-900	738	14,760	$1,186	$1.61
2 Bedroom	16	1100-1200	1,155	19,635	$1,909	$1.65
2 Bedroom Affordable	5	1100-1200	1,155	5,775	$1,500	$1.30
3 Bd penthouse	2	1900-2300	2,100	4,200	$2,750	$1.31

The developer will offer 28 affordable units in the overall building at rents affordable to those with income not greater than 80% of the Area Median Income (AMI) to be located throughout various floors of the building.

Regarding parking, the site has 85 on-site parking spaces. The developer indicates usually only about 50% of the tenants need a parking space. For those with an on-site parking space, there will be a $120 per month charge. The developer has committed to not increase parking fees for existing low-income tenants, with rates around $60 per month.

Regarding ADA accessibility, the developer will be re-activating the eliminated handicap parking at the building. The developer has met with two current disabled residents and will eliminate requested barriers and add requested safety features (grab bars, etc.). The developer will offer accessibility features to any new tenants as needed.

It appears the NEZ certificate applications have been submitted prior to the issuance of applicable building permits – the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted NEZ certificate application dated January 4, 2023, to the City Clerk's office.



The subject property has been confirmed as being within the boundaries of the Belcrest NEZ which was established by a vote of City Council on February 1, 2023. CPC staff has reviewed the applications and recommends approval. The City Clerk's office is submitting a resolution for your consideration. Please contact our office should you have any questions.

A RESOLUTION REESTABLISHING THE CITY COUNCIL EQUITABLE DEVELOPMENT TASK FORCE

By Council Member Johnson:

WHEREAS, The city of Detroit continues to emerge from the pandemic, while at the same time, carrying on with its resurgence through new large and small scale projects and initiatives designed to spur redevelopment within the neighborhoods across the city; and

Equitable development initiatives hold great promise as a form of planning and community development that can make minorities, and low and moderate income communities into places that provide economic opportunities, affordable living, and cultural expression for all residents; and

WHEREAS, Low-income persons and minorities should have an opportunity to help shape projects, programs and policies that enable them to benefit from economic growth, social activities, and cultural life in their communities. WHEREAS, There has been an ongoing need in urban areas for community development and urban planning aimed at revitalizing disinvested communities and ensuring that all residents can shape urban development and benefit from economic growth in an equitable fashion; and

WHEREAS, The Detroit City Council recognizes the importance of pursuing inclusive and equitable development as the city broadens the landscape of development and social equity. And despite all the challenges faced by city leaders across the country, equitable development projects reveal an exciting potential for shaping living environments that benefit people of all backgrounds and conditions; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby reestablishes the Equitable Development Task Force to be chaired by Council Member Latisha Johnson, effective immediately and continuing through December 31, 2023. BE IT FURTHER,

RESOLUTION ENCOURAGING THE ESTABLISHMENT OF A SENIOR TECHNOLOGY LITERACY PROGRAM

By Council Member Waters:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, The COVID-19 pandemic and the resulting recession impacted workers over the age of 55 more than any other age group, forcing people into early retirements and jeopardizing their financial security; and

WHEREAS, The lack of financial security and opportunity for senior citizens leads to severe physical and mental health challenges, which is often exacerbated by the increased difficulty and stress seniors experience when seeking new employment due to age discrimination by employers; and

WHEREAS, Due to a variety of factors, seniors often have diminishing social interactions as they age, leading to loneliness. Research has shown that loneliness, much like stress, has detrimental impacts on the mental, emotional, and overall physical health[1] of the elderly; and

WHEREAS, Older citizens represent a growing proportion of the city's population, yet there is no unified City-led effort to support senior citizens in re-entering the workforce; and

WHEREAS, While an increase in the senior population is often viewed by policy-makers as a negative economic liability, the City should instead consider that seniors who are ready, willing and able to work and share their knowledge with others, are a valuable and abundant resource; and

WHEREAS, Senior workers often have a wealth of experience that can only be gained through time and exposure. Whether their experience is with a craft, building a rapport with clients, communication skills, decision-making, or problem-solving, seniors can bring immense value to any business or organization; and

WHEREAS, Even with their skills and experience, many seniors find themselves at a disadvantage when it comes to mastering the new technologies required to obtain even meager employment; and

WHEREAS, A combination of older and younger workers creates a diverse, intergenerational environment, where younger workers can benefit from the mentorship of experienced seniors, and where seniors can benefit by learning to improve their technological literacy from younger workers; and

WHEREAS, In addition to improving the technological literacy of the Detroit's seniors, providing seniors with the opportunity to continue working, while interacting and sharing knowledge with others, has the potential to significantly improve their financial, physical, and mental health; and

WHEREAS, The combination of American Rescue Plan Act (ARPA) money, Coronavirus Aid, Relief, and Economic Security (CARES) Act dollars, and private investment via the District Detroit project, represent a once-in-a-lifetime opportunity to help our most vulnerable citizens like never before; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby strongly urges the Administration to establish the Senior Technology Literacy Program, henceforth known as Ready to Work (RTW) to provide education and job opportunities to City of Detroit residents 65 years of age or older who wish to remain in or re-enter the job market; THEREFORE, BE IT FURTHER

RESOLVED, That RTW should work to pair senior citizens with younger workers, helping to foster collaboration that enables older workers to impart their experiences to younger workers, while younger workers can share their technological know-how to bridge intergenerational gaps; THEREFORE, BE IT FURTHER

RESOLVED, That RTW should build on the successful Grow Detroit's Young Talent (GDYT) program and provide not only training, but also direct-placement job opportunities for program participants in local businesses with a guaranteed livable wage; THEREFORE, BE IT FURTHER

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

Council President Pro Tem. Tate moved the following Resolution on behalf of President Sheffield.

RESOLUTION URGING A CHANGE IN STATE LAW TO EXCLUDE THE DETROIT PUBLIC SCHOOLS AND THE DETROIT PUBLIC LIBRARY FROM TAX ABATEMENTS AND TAX CAPTURES

By COUNCIL PRESIDENT SHEFFIELD:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, The mission of the Detroit Public Schools Community District (DPSCD) is to: Create and enhance educational opportunities for Detroit Public Schools students. In addition, the vision of DPSCD is that: Every DPS student will receive the support needed to achieve his/her highest academic potential; and

WHEREAS, Correspondingly, within the tenets of its mission, the Detroit Public Library (DPL) enlightens and empowers people by providing diverse and dynamic pathways to literacy and learning. The DPL website also states, "No matter what changes, the library continues to adapt with the city to ensure that Detroiters' needs are met with diverse collections, engaging programs, and enriching classes;" and

WHEREAS, Despite their best efforts, DPSCD has struggled to fulfill its mission, since historically, the State of Michigan has used property tax collections in a local area to fund schools, which for a poorer district like Detroit, is an unfair and inequitable method of funding schools. DPL is impacted similarly, given its heavy reliance on local property tax revenue as well. Both institutions require an additional stable and reliable revenue source, to adequately fund their respective operations, so they may accomplish the missions for which they were both established; and

WHEREAS, The State of Michigan has previously excluded the Detroit institute of Arts (DIA) and the Detroit Zoo,

from tax incentives, which proved to be economically beneficial to both institutions. A similar State action on behalf of both DPSCD and DPL, may prove to be beneficial to these institutions as well; and

WHEREAS, On June 21, 2016, the Michigan Legislature enacted Public Act 192 of 2016, amending The Revised School Code, wherein effective July 1, 2016, the established School District of the city of Detroit, Detroit Public Schools (DPS) became a qualifying district, of which DPS retained the legacy debt of the school system and was to remain a separate, limited entity for the sole purpose of repaying that debt through the collection of local property taxes; and

WHEREAS, In addition, Public Act 192 created the Detroit Public Schools Community District (DPSCD), to provide public educational services for residents for the DPS geographic area and all functions, responsibilities and assets of DPS were transferred to DPSCD. Under this arrangement, the State was to directly provide the system's annual allotment of funding, until the legacy debt is repaid, and to subsequently return to its prior method of funding the system through local taxes; and

WHEREAS, Thereby, with an exemption from tax incentives, the result of Public Act 192 would enable DPSCD/DPS to pay off its legacy debt sooner, and once the legacy debt is paid, receive an infusion of income. However, DPL would realize a more immediate impact from an exemption from tax incentives; NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council, a staunch supporter of both Detroit Public Schools Community District and the Detroit Public Library, is now respectfully requesting that the State of Michigan support these venerable institutions of learning, by changing both the tax abatement and tax capture laws of the State by excluding both DPSCD/DPS and DPL from tax abatements and tax captures, in order to provide the institutions an immediate increase in funding, to address the legacy debt of DPS and an infusion of funds for DPL; THEREFORE, BE IT FURTHER

RESOLVED, That the Detroit City Clerk is directed to send this resolution to the Detroit delegations of both the State House and State Senate, in addition to Governor Gretchen Whitmer.

Re: Request to accept a donation of a Memorial Monument from the Viola Liuzzo Park Association to be installed at the Viola Liuzzo Park.

The Viola Liuzzo Park Association has awarded a donation of a Memorial Monument, valued at $22,000.00, to the City of Detroit General Services Department, to be installed at the Viola Liuzzo Park. There is no match requirement for this donation. The total project cost is $22,000.00.

The objective of the donation to the department is to provide physical enhancements to the Viola Liuzzo Park, specifically to install a monument honoring those that inspired Dr. Viola Liuzzo to make the journey from Detroit to Selma in 1965 to participate in the "Selma to Montgomery Freedom March" to fight for voting rights for African Americans, as well as to pay tribute to the many others that lost their lives fighting this cause. This monument will also honor Mrs. Sarah Evans, "Grandma Sarah" to the Liuzzo children.

I respectfully ask your approval to accept this donation in accordance with the attached resolution.

Sincerely,
MEAGAN ELLIOTT
Deputy CFO
Office of Development and Grants
DONALD R. JOHNSON

General Services Department
Parks and Recreation Division

March 6, 2023

Honorable City Council:

Re: Authorization to rename Troester-Hayes Park, located at 15066 Troester, in District 4, to Marlowe Stoudamire Park.

The General Services Department is requesting authorization from your Honorable Body to rename Troester-Hayes Park to Marlowe Stoudamire Park.

In honor of Marlowe Stoudamire, a champion for Detroit and a proud eastsider who grew up in the 48205 zip code. Marlowe was adamant to never turned his back on where he came from. As he got older, he understood the structural inequities that shape the health, wealth, and access, or lack thereof, for certain communities, especially Black communities. He would go on to advocate for those communities through projects like Detroit 67, and Learn, Play, Score with the Detroit Red Wings — an initiative that he helped launch to grow and expand access to hockey for Detroit youth.

Marlowe was co-founder of the integrated marketing & social impact firm, 2050 Partners Inc., helping people, organizations and cities stay relevant and connected as demographics, trends and industries shift across the world. He was founder of Roster Detroit, a digital platform that amplified local diverse talent connecting people to multiple opportunities. He was also the creator of MASH Detroit located on the east side at Mack and Ashland, which served as a neighborhood incubator and community bridge that helped people from all walks of life collaborate, build businesses, and re-imagine shared physical space. He wanted people on the East side to have somewhere to go and connect that was located within their own neighborhood. Opening MASH was a dream of his and gave him an immense sense of pride. In addition to being the mastermind behind the concept, he was intimately involved in every detail of its creation including design, painting, and maintenance.

The projects above represent a very small portion of all that Marlowe was able to accomplish in only 43 years. He made an impact on people all over the world as evidenced by the outpouring of love after his passing from Covid-19 in March 2020. But interwoven into all of Marlowe's accolades was his unwavering commitment to the city of Detroit, the east side, and a genuine love for people. What made Marlowe special wasn't just the fact that he could connect one-on-one with anybody; it was the fact that he would take those connections and find commonality between individuals of different backgrounds and cultivate ways to bring them together to collaborate on a common good that would serve the community.

Marlow often talked about the statistics that attempted to marginalize him as a Black male from the 48205. He would say, "The world says I'm not supposed to be here." But he was here, and his enduring impact is ever-present and undeniable as seeds that he planted are still germinating almost three years after his passing. He understood the importance of exposure, especially for young people, and firmly believed that youth will succeed when they see success, especially in people that look like them.

For this reason, and so many others, Mrs. Valencia Stoudamire and community members alike humbly request authorization to rename Troester-Hayes Park to "Marlowe Stoudamire Park" with a Waiver of Reconsideration.

Sincerely,
CRYSTAL PERKINS

RESOLUTION TO SET A TARGET OF ALICE FOR CITY SUPPORTED JOB DRIVEN DEVELOPMENT SUBSIDIES

By Council Member Santiago-Romero:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, United Way uses a measurement called Asset Limited, Income Constrained, Employed (ALICE), to describe households where individuals are employed and above the poverty line, but cannot afford to meet their basic needs; and

WHEREAS Minimum wage in Michigan is currently $10.10 per hour, and a full-time worker earning minimum wage makes roughly $21,000 per year, which is below the ALICE threshold; and

WHEREAS, According to a report from the Michigan Association of United Ways released in 2021, 69 percent of Detroit households had incomes below the ALICE threshold[1] in 2019, meaning that the majority of Detroit households cannot afford basic necessities, even with income from employment[2]; and

WHEREAS, The report also found that 10 percent of Michigan households were on the cusp of the ALICE threshold, which creates circumstances where any unexpected household cost such as a rent increase, car repair, home repair, or medical bill will destabilize households and put them below the ALICE threshold; and

WHEREAS, Data from the Bureau of Labor Statistics (BLS) shows that, for the vast majority of fulltime employees and hourly wage workers in the US, wages have not risen since the 1970s when adjusted to account for inflation and purchasing power, despite the fact that worker productivity has consistently increased during that time period; and

WHEREAS, The rising level of inflation following the COVID-19 pandemic has reduced the purchasing power of workers even further, putting more pressure on households to stretch their incomes to cover basic living costs; and

WHEREAS, Low-wage jobs in Michigan, meaning jobs that pay less than the wage needed for two workers with two children to afford household costs, increased by 90 percent between 2007 and 2019, while the number of medium and high-wage jobs decreased during that time period; and

WHEREAS, During the same decades where most employees have seen no real increase in wages, individuals in the top one percent of income earners have seen drastic wage increases. For example, Michigan families in the top one percent of income earners take home 17.8 percent of all income in Michigan and earn about 21 times more income than the average worker[3]; and

WHEREAS, Employers have increasingly adopted a preference for hiring hourly workers, independent contractors, and freelance "gig-economy" jobs that do not provide benefits. In 2019, only 25 percent of working-age adults in Michigan had a full-time job with a reliable salary; and

WHEREAS, There is a drastic racial wealth gap in the United States, where White households have 8 times more wealth on average than Black households[4]. Detroit has a majority Black population, and without an effort to raise wages for Detroit households above the ALICE threshold, many Black families will be unable to save money and build assets to create the generational wealth that is necessary to close the racial wealth gap; and

WHEREAS, Detroit has a vested interest in ensuring that public and private workers earn a living wage in order to increase the attraction and retention of talented workers who live, work, and pay taxes in Detroit; and

WHEREAS, The City has had difficulty retaining employees such as police officers and bus drivers, because the wages for those positions have not been competitive with other municipalities. Although Detroit Department of Transportation (DDOT) drivers start at $15 per hour, which is above the ALICE threshold, DDOT continues to have a persistent shortage of drivers; and

WHEREAS, It is a priority of the Council to ensure that City-supported development projects provide wages to workers that will raise families above the ALICE threshold, for example Ford recently announced that the average pay at its Marshall battery plant will be $45,000 per year; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges the administration to ensure that all City supported job driven development subsidies go toward projects that pay wages that will move families above the ALICE threshold; THEREFORE, BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to Mayor Mike Duggan.

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Detroit Public Library

March 1, 2023

Honorable City Council:

Re: Authorization to Amend the FY 2022-2023 Budget for the Detroit Public Library.

The Detroit Public Library (DPL) is requesting authorization to amend its Fiscal Year 2022-2023 Adopted Budget to increase projected revenues and offsetting appropriation by $4,548,677. The current budget total appropriation is $33,565,469.

The purpose of the budget amendment is to pay for the completion of the restoration of the Main Library due to flood damage in June 2021 ($2,332,271), roof replacements at Knapp, Redford, and Wilder ($716,375), and the HVAC system replacements at Chase and Hubbard branches ($1,500,030). These purchases will increase the Capital Outlay expenditure account 644124 by $4,548,677. The total loss for the flood damage is $4,667,288. To date, the AIG, the insurance company, has issued a total of ($3,340,965) in insurance proceeds. Of the proceeds received, the Library has paid out a total of $2,335,016. The Library is expected to receive another $826,323 in insurance proceeds; combined with the $500,000 deductible, the total amount left to be paid out to the restoration vendor is $2,322,271. The roof replacements and HVAC system replacements were approved by the Library Commission with the use of fund balance in the amount of $2,216,405 during the FY 2022. Because the projects were not completed in FY 2022, the funds allocated went back into the fund balance. The projects are expected to be completed during the FY 2023 budget year, therefore, approval is needed to request the funds be allocated to this year's budget line item. The State of Michigan's Economic Development Corporation approved a grant of $500,000 for the Detroit Public Library to offset the costs of the HVAC systems replacement at Chase and Hubbard branches; this amount will be included in the budget amended. The budget Prior Year Surplus would be amended by $2,760,410. DPL requests to increase it FY 2022-2023 Department Appropriation 29720 from $22,523,969 to $27,072,646 an increase of $4,548,677.

RESOLUTION TO REPEAL P.A. 436 OF 2012

By Council Member Durhal, III:

WHEREAS, The Local Financial Stability and Choice Act, Public Act 436 of 2012 ("P.A. 436"), was enacted to provide for the appointment of Emergency Managers to local municipalities and school districts experiencing financial distress; and

WHEREAS, P.A. 436 authorizes an emergency manager to, among other things, amend a local government's budget; sell, lease, or assign assets; apply for state loans on the municipalities' behalf; suspend collecting bargaining agreements; modify or terminate existing contracts; exercise power over the local pension board; consolidate or eliminate departments of local government; and decide whether to fill or create staff positions; irrespective of the local government's charters and law; and

WHEREAS, Michigan has implemented emergency managers more aggressively than any other state, placing eleven cities under emergency management between 1990 and 2017; and

WHEREAS, These broad powers conferred on an Emergency Manager, not subject to local review or control, have had devastating financial consequences for many municipalities, including the city of Detroit; and

WHEREAS, P.A. 436 is fundamentally anti-democratic, not only because it allows an emergency manager to circumvent the democratically elected representatives of local governments, but also because the Michigan Legislature passed it just weeks after Michigan voters voted to repeal emergency management legislation that was substantially identical to P.A. 436; and

WHEREAS, While the justification for P.A. 436 was couched in neutral language about management of municipal finances, it is apparent that an underlying assumption of the legislation is that people of color are not capable of self-governance; and

WHEREAS, Census data shows that at some point between 2008 and 2013, 51 percent of Michigan's Black residents were under emergency management, while only 2.3 percent of White residents were under emergency management; and

WHEREAS, A study co-authored by a policy analyst and assistant professor at the University of Michigan School for Environment and Sustainability found that the composite financial health score of a city was not a reliable predictor for which cities were placed under emergency management.[1] When analyzing cities based solely on their composite financial health, the study only captured 45 percent of the eleven cities placed under emergency management while criteria such as a city's reliance on state revenue sharing, percentage of Black residents, and median household income were more accurate predictors of a takeover; and

WHEREAS, The theory that emergency managers are more responsible actors than local governments has not been born out in terms of finance or in terms of human rights, rather Emergency Manager Kevyn Orr's focus on cutting employee benefits and pensions and removing the Water and Sewerage Department from the Detroit's control appear to be more ideological than rational as those factors were not significant contributors to the City's immediate cash flow crisis prior to filing for bankruptcy; and

WHEREAS, An emergency manager made the decision to switch Flint's drinking water source from Detroit's system to the Flint River, which has had devastating and ongoing consequences for the people of Flint, and Emergency Manager Kevyn Orr's decision to implement mass water shutoffs for thousands of Detroit residents was condemned by the United Nations as a violation of international human rights; and

WHEREAS, Nearly a third of Detroit's revenue losses in FY 2011 to FY 2013, leading up to the City filing for bankruptcy, were due to the Michigan Legislature's decision to drastically cut revenue sharing with Detroit during a period where the City was already reeling from the effects of the Great Recession[2]; and

WHEREAS, If the Michigan Legislature repeals PA 436 by statute, it appears that no preceding emergency management statute would take its place per MCL 8.4, which states "[w]henever a statute, or any part thereof shall be repealed by a subsequent statute, such statute, or any part thereof, so repealed, shall not be revived by the repeal of such subsequent repealing statute." PA 4 of 2011 repealed PA 72 of 1990 by statute, after which PA 4 was repealed by a voter referendum in 2012. Therefore, if PA 436 is repealed by statute it should not revive any previous legislation; and

WHEREAS, On February 1, 2023, House Bill 4065 was introduced in the Michigan House of, which would if enacted, repeal the entirety of Public Act 436; NOW THEREFORE BE IT

RESOLVED, That the City of Detroit calls for the repeal of Public Act 436, the

so-called Local Financial Stability and Choice Act 436 of 2012; THEREFORE, BE IT FURTHER

RESOLVED, The City Council fully supports House Bill 4065 of 2023 and urges the Michigan Legislature to enact House Bill 4065, which would repeal Public Act 436; THEREFORE BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to the Detroit delegations of both the Michigan State House and Senate, in addition to Governor Gretchen Whitmer.

DETROIT CITY COUNCIL
DISTRICT 5
OFFICE OF THE PRESIDENT
MARY SHEFFIELD

STATEMENT OF OPPOSITION TO THE PROPOSED DISTRICT DETROIT DEVELOPMENT

While I support development and in general support what's being proposed by the developers, their development agreement and corresponding Community Benefits Agreement lacks the requisite specificity, guarantees surrounding equity and ownership, and business case to garner my support. The following are the reasons I cannot support the deal as presented:

History

• During my first year in office, we were asked to support the heavily subsidized construction of the Little Caesar's Arena. As a part of the deal, the City lost all the revenue sharing associated with Joe Louis Arena which included: 10% of ticket proceeds, 7% of suite sales, 10% of food and beverage concessions, 5% of souvenir sales and other revenue from parking and proceeds from cable rights. Additionally, the City also had to agree to demolish Joe Louis Arena, our asset, and sign a non-compete clause at the insistence of the ODM's representatives. At that time, I requested ODM agree to a 2% surcharge on tickets at the new arena and was told the deal was already baked and that they wouldn't consider it.

• With respect to the Arena Deal, ODM receives concessions, parking, television rights and naming rights revenue from the events center operation. Additionally, ODM does not contribute any funding directly to the City until the MSF bonds are paid off. According to a Legislative Policy Division report, the level of private contribution to the events center seems more favorable to ODM. Ideally, ODM would provide a revenue stream directly to the City of Detroit related to the events taking place in the entertainment district. Therefore, I requested ODM and Related Companies agree to voluntarily institute a 2% ticket surcharge on every entertainment event, at facilities owned or managed by either company or their affiliates, to be remitted to the City of Detroit on a monthly basis which was denied.

• With respect to the construction jobs related to LCA and by ODM's own admission, they only achieved having 23% of the Construction work performed by Detroiters during the Little Caesars Arena project and they paid fines in excess $6 million.

• As a part of the proposed District Detroit deal, the City has to vote to terminate a past Brownfield Redevelopment in which the developer failed to complete a project at the Detroit Life Building.

Equity and Inclusion

• As a result of the community benefits process and after negotiations with the NAC, it was agreed that the developer "shall have a target" to procure, or cause to be procured $100,000,000 million of goods and services from disadvantaged businesses, Detroit Based Businesses, Detroit Small Businesses, Detroit Headquartered Business, and Detroit Resident Business. In theory and as currently written, this could allow one Detroit-based company to receive the whole spend *i.e.* in construction which the agreement allows. I have been requesting, to no avail, stronger language and protections in the agreement which would ensure several businesses, especially disadvantaged and businesses owned by Detroiters, would have access to these opportunities by specifically requiring that a percentage of the overall spend be set aside for disadvantage business. I also requested a timeline for meeting the "spend" benefit goal because in the absence of such benchmarks, the developer could in theory wait 5, 10, or 20 years before meeting the objective (not obligation). Additionally, the agreement is not legally binding and in my opinion lacks enforceability as well as offering no commitments for a post-construction spend percentage with disadvantaged businesses.

• The developers have not committed to,

nor can they guarantee, Detroiters will receive any percentage of the post-construction jobs. Additionally, the number of projected post-construction jobs are a combination of unspecified amounts of full-time and part-time jobs with most being low wage hospitality jobs making as low as $28,000 annually for some full-time positions.

• The developers, unlike other recent major developers such as the Pistons, Bedrock and Michigan Central, have made no agreement to follow executive order 2014-5 and commit to spend at least 30% of the total value of all contracts with Detroit Headquartered and Detroit-based business.

• When asked to provide examples of when the developers have partnered with minority developers ODM only cited one project in the City of Detroit, the 150 Bagley project, which has yet to be completed and in which the minority partners were only allowed to lease property for 99 years versus being given access to ownership. There must be stronger guarantees for minority-owned businesses to be the beneficiaries of the Co-development program outlined in the CBA and receive an equitable ownership stake.

• The developers did not honor the Neighborhood Advisory Committee's request for a commitment to set aside 25% of the retail space to be built for disadvantaged, Detroit-headquartered, Detroit resident or minority-owned businesses. Instead the developers agreed to a $1 million Tenant Improvement Fund which will be rolled out as financing is approved for each building and provides no guarantees that fund will be used to support historically marginalized groups of prospective entrepreneurs or current business owners.

• While the commitment to affordable housing is admirable, the developers will utilize forgivable ODA loans to help finance the development of the affordable units. I joined activists and my colleagues in requesting a significant investment in the Detroit Affordable Housing Development and Preservation Fund (Detroit's Housing Trust Fund) which, again to the Developers' credit, was honored albeit at a lower amount than requested.

Merits of the Projections

• We are being sold on the fact that Detroit needs this and that 1.2 million square feet of new commercial/office real estate should be a welcome addition to the City's commercial landscape. While I agree that development, in general, is a good thing, I'm not convinced that office space is the best use of tax incentives and public funding at this time. According to a recent report cited in the Free Press, downtown Detroit has only seen a return of 20-25% of its workforce on Mondays and Friday and 40-45% mid-week. With no guarantees that trend will change anytime in the near future or that there won't be another pandemic, the projected benefits of the District Detroit to the City could be significantly lower.

• Additionally, not enough has been done to study the potential impact on current commercial real estate owners who are already struggling and may find themselves in direct competition with District Detroit as their tenants' leases begin to expire. Thus, any relocation of companies/jobs from within Detroit would have a net-zero or even possibly a negative impact on the City's income tax revenue.

• Increased income tax revenue is often the carrot dangled in front of City Council to secure to tax incentives and public subsidies for development projects. However, as is the case with District Detroit, if the majority of positions are low-income and a mixture of part-time employment, the City of Detroit may never realize a positive impact on a revenues if a significant number of the workers qualify to receive a refund of the taxes withheld.

Community Input

• I have personally spoken to a number of African-American leaders and business owners who believe the negotiated community benefits are inadequate but fear retribution if they speak up and share their opinion.

• Finally, as with all major votes, especially around contentious tax incentives, I give District 5 residents a voice in the process. In a poll of District 5 residents, I found that the majority of my constituents do not support the tax incentives for District Detroit and a greater majority believe the project costs outweigh the benefits for the City, its residents, and Detroit businesses.

There are facts and there is truth. Sometimes they don't neatly coincide. The truth is something that very few people in our political discourse today will even acknowledge. The truth is there could be a win/win in most situations even this one, if all sides are willing to honestly address real problems and seek truthful solutions. The project has some merit, but is not the panacea that is described. This project, promises only 140 units of affordable housing, when tens of thousands are needed. It promises 1.2 million square feet of office space at a time when we are begging people to come back to work, businesses are downsizing and office buildings remain largely unoccupied. I know my vote today will feed into the narrative that when I stand up and fight for the people of Detroit and historically underrepresented communities of color in the commercial real estate arena that I am anti-business. Nothing could be further from the truth. I have literally, after fighting for more guarantees for Detroiters, voted for almost every major development deal over my nine plus years on City Council. Standing on principle is not synonymous

with stamping down progress. This model of developing our City has been the norm over the last 40 years and we've see nothing but the proliferation of poverty, the loss of population, the obliteration of Black businesses and the systematic exclusion of Detroiters with respect to ownership and equity! I for one can no longer continue with business as usual. If not us, then who? If not now, then when? I submit to everyone in earshot of my voice that there is a better way forward and good is now longer good enough. As a people and as a City we deserve better!

2. Agreement to Provide City Community Benefits. The City hereby covenants and agrees to construct, operate, or otherwise provide (as appropriate) the City Community Benefits, in the manner and as described in Exhibit B.

3. Continued Community Engagement. As required by Section 12-8-3(g)(3) of the Code, the City will facilitate, and Developer will actively participate, in at least one (1) meeting per calendar year with the NAC for at least five (5) years, provided that if the Project is not completed within five (5) years, at the discretion of the Director of the Planning and Development Department the City may facilitate, and Developer shall actively participate in, additional annual meetings until the Project is completed. The purpose of such meetings will be to discuss the status of the Project, to coordinate the implementation of the Developer Community Benefits, and to discuss any additional concerns raised by the NAC.

4. Compliance Reporting; Recordkeeping. Unless a specific Developer Community Benefit provides for more frequent reporting, Developer will submit bi-annual compliance report to the City within thirty (30) days of the end of June and December each calendar year which summarizes Developer's progress on and compliance with the Developer Community Benefits. The City and Developer shall each maintain information pertinent to its activities under this Agreement for at least two (2) years following completion of the last of the buildings being constructed as part of the Project.

5. Indemnification Developer agrees to indemnify, defend, and hold the City harmless against and from any and all liabilities, obligations, damages, penalties, claims, costs, charges, losses and

expenses (including, without limitation, reasonable fees and expenses for attorneys, expert witnesses and other consultants) that may be imposed upon, incurred by, or asserted against the City or its departments, officers, employees, or agents by reason of (a) any gross negligence or misconduct of Developer or its agents or employees in the performance of the this Agreement, (b) any failure by the Developer to perform its obligations under this Agreement which constitute an Event of Default of Developer hereunder, or (c) any injury to the person or property of the City or of an employee of the City where such injury arises out of the Developer's performance of its obligations under this Agreement.

6. Compliance with Laws. Each party hereunder acknowledges that it is individually responsible for maintaining compliance in all respects with all applicable federal, state, and local laws, rules, regulations, and orders having the binding effect of law (collectively "Applicable Laws"). No party hereunder will be responsible for ensuring any other party's compliance with Applicable Laws at any time, unless so required under Applicable Laws.

7. Nondiscrimination. Developer will, in performing the Developer Community Benefits and its other obligations pursuant to this Agreement, refrain from refusing, restricting, withholding, or denying any accommodations, services, privileges, advantages or facilities or otherwise discriminating, whether directly or indirectly, on the basis of race, color, ethnicity, national origin, religious beliefs or practices, age, disability, pregnancy, marital status, parental status, military status, employment or educational status, gender, sex, sexual orientation, gender identity or expression, or any other protected or designated classification, in accordance with Chapter 27 of the Detroit City Code and other Applicable Laws.

8. Reporting of Alleged Violations of Community Benefits. Developer acknowledges and understand that pursuant to Section 12-8-3(g)(4) of the Code, members of the community may report to the NAC allegations of the Developer's failure to comply with this Agreement. Community members can submit such reports to the City (a) by personal delivery with receipt obtained or by registered or certified first-class mail with return receipt requested at the following address:

City of Detroit
Planning & Development Department
Two Woodward Avenue, Suite 808
Detroit, MI 48226
Attention: Director

(b) by e-mail to cboformalcomplaints@detroitmi.gov, or (c) through an online portal available at http://bit.ly/CBOComment.

The City will forward all such reports from community members to the NAC, which may take further action in accordance with Section 12-8-3(g) of the Code.

9. Event of Default. The following shall constitute an "Event of Default" under this agreement:

a. The failure of Developer to perform any of the Developer Community Benefits as and when provided in Exhibit A attached hereto, or any other default by Developer in the performance of the terms of this Agreement, which default or failure is not cured within sixty (60) days after the City's delivery of written notice of such failure or default to Developer, provided, however, that if the nature of Developer's failure or default is such that it cannot be reasonably cured within such sixty (60) day period, and Developer commences such cure within said sixty (60) day period and thereafter diligently pursues such cure to completion, then such failure or default shall not constitute an Event of Default hereunder unless Developer fails to cure the same within one hundred twenty (120) days of the City's original delivery of notice of such failure or default.

b. The failure of the City to perform any of the City Community Benefits as and when provided in Exhibit B attached hereto, or any other default by the City in the performance of the terms of this Agreement, which default or failure is not cured within sixty (60) days after the Developer's delivery of written notice of such failure or default to the City, provided, however, that if the nature of the City's failure or default is such that it cannot be reasonably cured within such sixty (60) day period, and the City commences such cure within said sixty (60) day period and thereafter diligently pursues such cure to completion, then such failure or default shall not constitute an Event of Default hereunder unless the City fails to cure the same within one hundred twenty (120) days of the Developer's original delivery of notice of such failure or default.

c. The failure to construct improvements on or renovate the improvements on the parcels listed on Schedule 1 which are contemplated as part of the Project as of the date of this Agreement shall not be a basis for default hereunder.

10. Remedies. Upon the occurrence of an Event of Default, the non-defaulting party shall have the right to pursue and enforce specific performance of the covenant or obligation which the defaulting party failed to perform, it being agreed that the Developer Community Benefits and the City Community Benefits represent ways of addressing specific concerns raised by the residents of the Impact Area and that monetary damages may be inadequate to address such concerns. Developer further agrees to comply with the enforcement and mitigation process of Section 12-8-3(g) of the Code

and to cooperate in any investigation or hearings by the Enforcement Committee (as defined in the Community Benefits Ordinance) or the Detroit City Council.

the four (4) residential buildings (408 Temple Street, 2250 Woodward Avenue, 2205 Cass Avenue, and 2210 Park Avenue) that are part of the ten (10) property portfolio of proposed developments (the "District Detroit Development") which are included in the Developer's Transformational Brownfield Plan ("TBP") to individuals and families with incomes of not more than fifty percent (50%) of the median family income for the Detroit-Warren-Livonia Metropolitan Statistical Area as published by HUD, based on family size, for a term of thirty (30) years commencing on completion of the construction or renovation of each such building. Such affordable units shall be similar in unit mix, size, and quality to the market-rate units in such buildings and shall be distributed throughout such buildings (other than 2210 Park Avenue). The penalties for Developer's failing to meet such affordable housing commitments shall be as provided in the Affordable Housing Agreement.

Annual Contribution to Affordable Housing Development and Preservation Fund: Developer will make a donation of three million five hundred thousand dollars ($3,500,000) to the City of Detroit's Housing Development and Preservation Fund. Tenant Ability to Renew: The Affordable Housing Agreement shall include a covenant that Developer shall not refuse to renew the lease of tenants renting an affordable unit upon the expiration of such tenant's lease unless good cause exists not to renew the lease.

Such obligation shall be included within the Affordable Housing Agreement.

Developer shall lease or sublease such parking spaces, or cause such parking spaces to be leased, to the tenants of the related affordable unit at a fifty percent (50%) discount to the monthly market parking rate then in effect for such parking lot or parking structure. If the cost of parking is included in the rental rates for a building, then the amount of such cost charged to residents of an affordable unit at such building shall be no more than fifty percent (50%) of the parking costs charged to tenants of market rate units in such building. Such obligation shall be included within the Affordable Housing Agreement.

General Services Department

March 17, 2023

Honorable City Council:

Re: Approval and Authorization to commit ($150,000) (the "City Contribution") to support the Detroit-Wayne County Port Authority ("Port Authority") in the installation of an additional bollard along the Riverwalk.

The General Services Department hereby requests the approval and authorization from your Honorable Body to commit One Hundred Fifty Thousand Dollars ($150,000) (the "City Contribution") to the Port Authority to construct an additional bollard servicing cruise ships that dock along the Riverwalk (the "Bollard"). The Bollard will be installed in the portion of the Riverwalk in front of the Renaissance Center. The primary purpose of the Bollard project is upgrade facilities in order to accommodate large cruise ships — particularly cruise ships brought to Detroit by Viking Cruises, which are 200 feet longer than any other cruise ship entering the Great Lakes.

The Port Authority is a special purpose public authority jointly formed by the City of Detroit and Wayne County to, among other functions, operate the Port Authority terminal at 130 East Atwater. Its operations are supported annually by contributions by the City and Wayne County, along with the State of Michigan.

The Bollard project is part of the Port Authority's increasingly successful efforts to increase Great Lakes cruise ship tourism in Detroit. The Bollard project is an investment in growing those revenues. The need for this facility upgrade became obvious last year, when the first Viking Octantis arrived in Detroit. Unexpectedly, the ship's captain was unwilling to dock at the Port Authority downtown facility due to stability issues. As a result, all 8 Viking visits to Detroit last season had to be relocated to the Port Authority's cargo dock in the industrial waterfront at 4461 West Jefferson.

The Bollard is needed to secure the bow of long cruise ships and prevent the strong Detroit River current from pulling the ship outward. There are 16 Viking dockings scheduled for the 2023 season, beginning May 1st. The Port Authority is confident the Bollard project will not only improve the tourism revenue results for those 16 dockings, but will drive interest in more long cruise ship dockings in future years.

The Bollard project is expected to cost Four Hundred Fifty Thousand Dollars ($450,000). Cost factors include the Riverwalk deck, where the bollard will be anchored, siting on fill material. The bedrock is more than 100 feet below the deck and four 105-foot metal pilings will need to be drilled into the bedrock in order to ensure that the bollard will not be pulled out. The weight of the Viking ship, the strong current of the river, and the torque that could be placed on that bollard, all require the design and strength of material.

Given the expected costs and the urgency to install the Bollard, the Port Authority has organized a variety of funding sources, including a One Hundred Fifty Thousand Dollar ($150,000 contribution from Wayne County (the "County Contribution"). Other sources include the Port Authority itself, the Lakes Pilots Association, and Viking Cruises. All other sources are approved or committed:

Source	Amount	Status
Wayne County	$150,000	Approved by Commission on 3/16/23
City of Detroit	$150,000	City of Detroit Ask
Viking	$50,000	Committed; will be allocated as additional docking fee
Pilots Association	$50,000	Committed
Port Authority Budget	$50,000	Committed
Total :	$450,000	

The City Contribution will enable this project to move forward. If approved now, the Port Authority is confident the Bollard Project can be completed in time for May 1, when the first Viking ship is scheduled to dock in Detroit.

We, therefore, respectfully request that your Honorable Body approve the commitment of funds to the following resolution.

Respectfully submitted,
JAMAL HARRISON
Director
General Services Department

By Council Member Young, II:

Whereas, The Detroit/Wayne County Port authority (the "Port Authority") desires to construct a bollard along the Detroit River in the vicinity of the GM Renaissance Center for the docking of cruise ships and other vessels (the "Improvements") at the total estimated cost of four hundred fifty thousand dollars ($450,000) and has requested support from the City of Detroit ("City") and Wayne County to help pay for such Improvements;

Whereas, The City expects to materially benefit from increased traffic and tourism from cruise ships and other vessels docking along the Detroit River due to the Improvements; and

Whereas, The City through the General Services Department ("GSD"), wishes to contribute one hundred fifty thousand dollars ($150,000) towards such Improvements.

Now Therefore, Be It Resolved, That GSD be and is hereby authorized to pay to the Port Authority the sum of one hundred fifty thousand dollars ($150,000) (the "City Contribution") from Account 4533-20507-470010-644124, to be used solely for the cost of the Improvements; and further

Resolved, That the Director of GSD, or her authorized designee, be and is hereby authorized (1) to enter into an agreement with the Port Authority, in a form satisfactory to said Director, which shall provide for the conditions upon which the City Contribution will be paid to the Port Authority and shall require that the City Contribution be used solely to pay for the cost of the Improvements, and (2) to accept, execute, and/or deliver any such other documents as may be necessary to effectuate the payment of the City Contribution to the Port Authority; and further

Resolved, That the City's Chief Financial Officer, or his authorized designee, is hereby authorized to accept and process all documents consistent with the authorizations and approvals grant herein.

A waiver of reconsideration is requested.

Adopted as follows:

Yeas — Council Members Benson, Durhal, III, Johnson, Santiago-Romero, Tate, Waters, Whitfield-Calloway, Young, II and President Sheffield — 9.

Nays — None.

Re: Neighborhood Enterprise Zone Certificate Applications for the construction of 10 new condominium units located at 95 Alfred, 101 Alfred, and 2827 John R in the Crosswinds (Woodward Place) Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received 10 applications requesting Neighborhood Enterprise Zone (NEZ) certificates for the construction of 10 new for-sale condominium units at 95 Alfred, 101 Alfred, and 2827 John R.

The developer for the project is Brush Park Properties, LLC, which is represented by Michael VanOverbeke. In November 2020, City Council gave Planned Development zoning approval and in March 2022, City Council approved a brownfield plan for the project.

The property is located at the northwest corner of John R and Alfred in the Brush Park area. A map, site plan, and rendering of the proposal are included at the end of this report. The proposed project includes a 5-story mixed-use building with condos, commercial space and an attached parking deck.

The condos consist of 8 units in the main building and 2 townhomes along Alfred. Five of the units in the main building are one-story and the other 3 units are two-story. The developer indicates all of the units can be accessed by a handicapped accessible elevator. The kitchens and bathrooms are all customizable by the owners and handicap accessibility is an option. The two townhomes are three-story units, but handicap accessibility could be an option for the purchasers. Below is a summary of the square footage, number of bedrooms, anticipated cost, etc.

NEZ CERTIFICATION INFORMATION

Unit #	Location	Square Footage	Unit Cost	Bedrooms	Bathrooms
4	Townhouse	2,626	$1,307,748	3	2.5
5	Townhouse	2,584	$1,286,832	2+	2.5
6	FL 3, South	1,395	$ 694,710	2	2
7	FL 3, Middle	1,088	$ 541,824	1	1.5
8	FL 3 & 4, N.	1,940	$ 966,120	3	3
9	FL 4 & 5	3,938	$1,961,124	3	2.5
10	FL 4, Mid S	1,051	$ 523,398	1	1.5
11	FL 4, N.	1,175	$ 585,150	1+	1.5
12	FL 4 & 5	1,635	$ 814,230	2	2
13	FL 5	3,147	$1,567,206	3	3

The project includes commercial space on the first floor (for a restaurant) and some commercial space on the second floor. The parking deck would include 98 parking spaces, 15 of which are designated parking spaces for the condo owners. The remaining 83 are public parking spaces and intended to service the restaurant and commercial space. There are total of 4 handicap accessible parking spaces with the deck.

It appears the NEZ certificate applications have been submitted prior to the issuance of applicable building permits – the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted NEZ certificate applications dated August 16, 2022, to the City Clerk's office.

The subject property has been confirmed as being within the boundaries of the Crosswinds (Woodward Place) NEZ which was established by a vote of City Council in July 1996. CPC staff has reviewed the applications and recommends approval. A resolution is attached for your consideration. Please contact our office should you have any questions.

Honorable City Council:

Re: Application for Neighborhood Enterprise Zone Certificate for North Corktown.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of three (3) applications for a Neighborhood Enterprise Zone Certificate. These applications have been reviewed and recommended for approval by the City Planning Commission, a copy of which is attached. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve these applications.

Respectfully submitted,
ANDRE P. GILBERT, II
Deputy City Clerk

By Council Member Durhal, III:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from *ad valorem* property taxes, and the imposition of specific tax in lieu of *ad valorem* taxes; and

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992.

Now, Therefore, Be It Resolved, That the Detroit City Council approves the submission of

the applications to the State Tax Commission, and, if applicable, the City Council concurs with the issuance of the certificates if the applications were filed not more than 6 months after the date of the issuance of a building permit for the facility.

Be It Finally Resolved, That the Detroit City Council approve the following for receipt of Neighborhood Enterprise Zone Certificates for a fifteen-year period:

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for the new construction of 12 condominium units located at 2726, 2730, 2732, 2736, 2738, 2742, 2744, and 2748 Harrison and 1803, 1807, 1811, and 1815 Perry in the North Corktown Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received twelve applications requesting Neighborhood Enterprise Zone (NEZ) certificates for new construction of 12 condominium townhouse units in two separate buildings at 2726 Harrison, 2730 Harrison, 2732 Harrison, 2736 Harrison, 2738 Harrison, 2742 Harrison, 2744 Harrison, 2748 Harrison, 1803 Perry, 1807 Perry, 1811 Perry, and 1815 Perry Streets.

The developer for the project is Harrison NCT, LLC. This LLC is a partnership between Bondy Construction and Design and Diane Zeiger of Zeiger Properties. Lukas Bondy is a locally owned and operated home builder with over 20 years of experience. He recently completed an 11-unit townhouse in North Corktown. Diane Zeiger is a developer who recently completed a new tri-plex in Corktown. The developer purchased the subject land from the Detroit Land Bank Authority (DLBA) for infill housing in the lower North Corktown area near the intersection of Harrison and Perry Streets shown on the map below. CPC staff understand the DLBA requested that higher densities be included in this area rather than lower density single-family houses.

The development project includes 8 new townhomes at 2726-2748 Harrison and 4 new townhomes at 1803-1815 Perry. A summary of the units, square footage, bedrooms, and unit cost are shown in the table below.

Address	Unit #	Sq. Footage	Bed/Bath	Unit Cost
2748 Harrison	1	1,511	3 bed/2.5 bath	300,168
2744 Harrison	2	843	1 bed/1 bath	167,466
2742 Harrison	3	1,312	2 bed/2.5 bath	260,636
2738 Harrison	4	1,242	2 bed/2.5 bath	246,730
2736 Harrison	5	1,242	2 bed/2.5 bath	246,730
2732 Harrison	6	1,312	2 bed/2.5 bath	260,636
2730 Harrison	7	843	1 bed/1 bath	167,466
2726 Harrison	8	1,511	3 bed/2.5 bath	300,168
1803 Perry	9	1,480	3 bed/2.5 bath	250,000
1807 Perry	10	1,480	3 bed/2.5 bath	250,000
1811 Perry	11	1,480	3 bed/2.5 bath	250,000
1815 Perry	12	1,480	3 bed/2.5 bath	250,000

The units would each have a one car garage and courtyard or a rooftop deck. The total investment is $2.95 million. The expected price range for the Harrison units is $275,000 to $465,000 and for the Perry units is $440,000 to $454,000. Below are images of the proposed townhouses.

Regarding parking, for the units on Harrison, each unit would have a single car garage with a parking space behind the garage. For the units on Perry, all units would have a single car garage.

Regarding accessibility, the petitioner indicates since the project includes side-by-side townhomes built on a slab, there is an elevation change from the curb to the top of the slab, thus creating the need for entry stairs. All but 2 of the 12 units are multi-level. As a result, none of the 12 units are handicap accessible.

The petitioner indicates it initially applied for the NEZ certificates back on March 21, 2022. The petitioner was issued building permits for the 8-unit building on April 12, 2022, and the 4-unit on August 4, 2022. The NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted revised NEZ certificate applications dated February 23, 2023, to the City Clerk's office to reflect the revised addresses.

The subject property has been confirmed as being within the boundaries of the North Corktown NEZ which was established by a vote of City Council on November 23, 2021 — shown on the map below outlined with a pink box. CPC staff has reviewed the applications and recommends approval. A resolution is attached for your consideration. Please contact our office should you have any questions.

WHEREAS, The City of Detroit previously executed the Michigan State-Subdivision Agreement for Allocation of Distributor Settlement Agreement and Janssen Settlement Agreement, which allocated funds attributed to the State of Michigan in a streamlined and equitable manner;

NOW THEREFORE, The City of Detroit authorizes the execution of Participation Agreements for: (1) the Master Settlement Agreement with Teva Pharmaceuticals Industries Ltd.; (2) the Master Settlement Agreement with Allergan Finance, LLC; (3) the Master Settlement Agreement with CVS Health Corp. and CVS Pharmacy, Inc.; and (4) the Master Settlement Agreement with Walmart, Inc., each of which are listed and available to the public at *https://nationalopioidsettlement.com/*. The City of Detroit also authorizes the execution of a new Michigan State-Subdivision Agreement For Allocation of Allergan, Teva, CVS, and Walmart Settlement Agreements substantially similar to the proposed agreement attached as Exhibit B to this resolution. The City of Detroit also authorizes execution of a similar state-subdivision agreement to the extent that it provides a substantially similar allocation of settlement or bankruptcy proceeds obtained from opioids litigation with any other entity.

For the avoidance of doubt, the City of Detroit also authorizes its continued participation in the Distributor Settlement Agreement, the Janssen Settlement Agreement, and the Michigan State-Subdivision Agreement for the Allocation of Distributor Settlement Agreement and Janssen Settlement Agreement, all previously executed.

City Planning Commission

March 23, 2023

Honorable City Council:

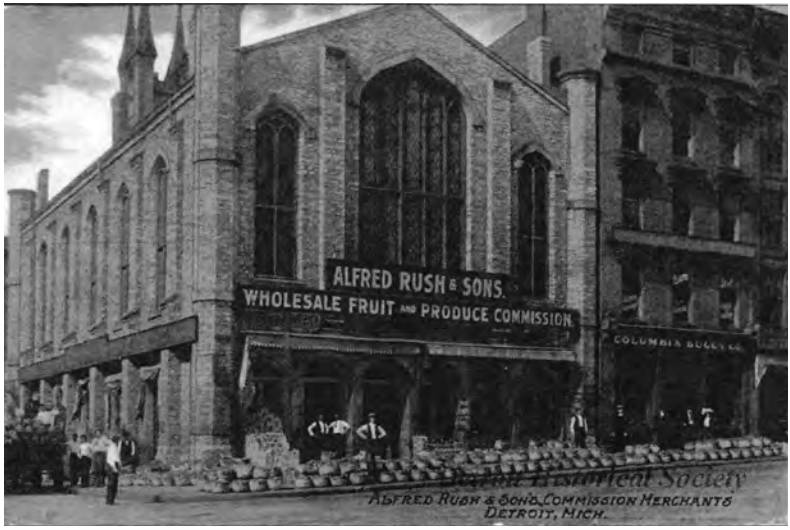
Re: Request of Mariners' Church of Detroit for PC (Public Center) Special District Review of proposed exterior alterations to 170 East Jefferson Avenue – Mariners' Church of Detroit. **(RECOMMEND APPROVAL WITH CONDITIONS)**

REQUEST

The City Planning Commission (CPC) has received a request from Thomas Roberts Architect on behalf of Mariners' Church for PC (Public Center) Special District Review of proposed exterior alterations to 170 East Jefferson Avenue — Mariners' Church of Detroit. This request is being made consistent with the provisions of Section 50-3-225 of the Zoning Ordinance. Section 50-3-225 states that whether or not site plan review is required for a project in the PC District, the exterior design, appearance, and location of exterior alterations shall be reviewed by the CPC and the Planning and Development Department (PDD) and require the authorization of your Honorable Body.

Site Plan Review

In accordance with the provisions of Section 50-3-113, CPC staff finds that site plan review is not required based on the extent of proposed exterior modifications. Specifically, 50-3-113(5) does not apply as the Board of Zoning Appeals (BZA) is not "the body of first jurisdiction" for the PC District based on Section 50-3-225. Therefore, the CPC and the PDD shall review this request in accordance with Section 50-11-67 PC District review criteria.



BACKGROUND & PROPOSAL

From the Detroit Historical Society's Encyclopedia of Detroit:

Mariners' Church was established in 1842 with money willed by Julia Ann Anderson, the widow of Fort Detroit commander Colonel John Anderson. She specified that her lot on the corner of Woodward Avenue and Woodbridge Street in Detroit become "a site for a Mariners' Church ..." specifically to watch over the spiritual well-being of sailors and the greater community. These sailors were often marginalized and treated as outsiders, so she also specified that it be a stone church, with "forever free" pews. Since sailors often could not afford pew rentals or give sufficient tithes to maintain the parish, the will stipulated that stores be designated for the ground floor to provide rental revenue. The plans and drawings of the "Perpendicular Gothic" building were made by C.N. Otis, a Buffalo, New York architect, and in 1849 the Gothic Revival stone structure was constructed on the site of Anderson's mansion. Scattered throughout the church are paintings, photographs and ship models that symbolize its maritime history. The various stained glass windows, by the J & R Lamb Studios, depict mariners and symbols of the Great Lakes. In 1955, Detroit's plans for a new civic center called for the demolition of the church. Instead, the 3000-ton building was moved 880 feet east to its current location. During the move, workers discovered a tunnel under the building from its days as a stop on the Underground Railroad. The Episcopal Church sought to overturn Mariners' continuous legal independence free of denominational ties in the 1980s but was defeated twice. Mariners' has continuously served the community as a church in the Anglican tradition, governed independently.

Proposed Exterior Alterations:

1. Pinnacles. Reconstructing new pinnacles at the top of existing turrets located at each of the four corners of the building. Each of the four pinnacles would be approximately 18 feet tall and designed to mimic pinnacles that were previously present on the building as shown in a historic image provided on sheet A7 of the church's Master Plan. Page notes indicate that the color and finish of the pinnacles would be to match existing stone coping, and dimensions and profiles would be to match historic drawings and photographs as best as possible.

2. Up-lighting. Focused up-lighting is proposed to highlight building architecture of all four façades, the tower, and the four reconstructed pinnacles. No lighting is proposed on the south façade wall facing the Detroit-Windsor Tunnel. Up-lighting is also proposed for the existing statue and flag located along East Jefferson Avenue that are separate from the building.

a. Section 50-14-418 states that all reasonable measures shall be taken to ensure that offsite spillover of light and nightglow are minimized to the greatest extent possible.

b. CPC staff finds that the revised Site Lighting plan dated July 28, 2022, would take reasonable measures to limit light spillover and nightglow as illuminance levels depicted on sheets A106, A108, and A110 indicate that the highest levels of illuminance would be focused on building façades, the tower, and pinnacles, and would not be focused off-site or directly into the sky. Additionally, there are numerous examples of buildings, especially churches, located within the Central Business District that have similar focused up-lighting provided.

3. Signage. Sometime during early-to-mid 2022, the existing readerboard type pole sign facing East Jefferson Avenue was removed from the site, see the below images for verification. It is our understanding that the church plans to replace this sign in the near future, potentially with an upgraded digital sign similar to the removed sign. At this time, the applicant is not seeking approval of a replacement sign in order to proceed with more urgent building improvements, and the Master Plan indicates that the construction of any replacement sign in this location would be performed under a separate sign review and permit. Therefore, staff recommends that City Council delegate PC District review authority for any replacement sign to the City Planning Commission so that it can be reviewed administratively, along with the permitting authority BSEED. If City Council does not wish to delegate this authority to CPC, the applicant may pursue this replacement sign later as part of another PC District review.

4. Niches. Masonry infill in two locations on the west façade (facing Hart Plaza) is proposed to be removed at original building openings. A new glass fiber reinforced cast niche is proposed for the display of statues by the owner. Details of the statues were not provided.

5. Additional improvements include: relocating the existing historic marker facing East Jefferson Avenue to the northeast corner of the site, removal of existing foundation plantings along the north side of the building, removal of concrete near the sign that has been removed and concrete leading to the south and west façades, the addition of decorative metal screens for existing air conditioner units, cleaning and tuckpointing maintenance of the existing partial height walls along the north and east façades, and maintenance of the stone coping along the east and west façade rooflines and also the existing Mariners' stone sign to remain.

REVIEW & ANALYSIS

Nonconforming Uses

Mariners' Church is considered a nonconforming use as "religious institutions", which is the specific land use term for churches, are not permitted as a by-right or conditional use in the PC District. However, the proposed exterior alterations to the nonconforming church use do not fall under the requirements of Section 50-15-26, which requires a public hearing at the Board of Zoning Appeals for expansion or intensification of a nonconforming use. Specifically, Section 50-15-26(2) does not apply as there is no proposed change to the site plan involving a structure. Therefore, as the BZA is not "the body of first jurisdiction" for the PC District based on Section 50-3-225, staff finds that the current request may proceed with CPC review in accordance with Section 50-11-67 PC District review criteria.

PC District Review Criteria

There are eighteen PC District Review Criteria listed in Section 50-11-67 of the Zoning Ordinance. As stated in Section 50-3-225, the purpose of this design review "is to ensure harmony with the Public Center and for consistency with the spirit, intent, and purpose of the Zoning Ordinance." Criteria that are most applicable to the proposed exterior alterations include:

(3) *The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties.*

The proposed changes are minor and should not adversely affect adjacent properties.

(11) *Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner.*

Staff recommends that City Council delegate PC District review authority for any replacement sign to the City Planning Commission so that it can be reviewed administratively, along with the permitting authority BSEED. If City Council does not wish to delegate this authority to CPC, the applicant may pursue this replacement sign at a later date as part of another PC District review.

(13) *Barrier-free access and public safety features should be carefully planned.*

Existing barrier-free access to the church building south entrance would be maintained and does not appear to be impacted by the removal of small portions of concrete areas as these areas are not within the path of building entrances.

(14) *Preservation/restoration of buildings having architectural or historic value should be considered a primary objective.*

A primary objective of the proposal is to preserve and restore the existing building of high architectural and historic value.

(15) *Urban design elements of form and character should be carefully considered; such elements include, but are not limited to: richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting important visual features; preservation/enhancement of important views and vistas.*

The reconstruction of the historic building pinnacles and the addition of niches for sculptures would add important elements to the site that would improve building richness/interest of public areas adjacent to the site, improve visual activity and interest of the building, and the proposed up-lighting would address articulation and highlight important visual features of the building.

Design

The Planning & Development Department supports the requested improvements contained in the Mariner's Church Master Plan. The proposed changes and upgrades make the site more visually appealing and accentuate the unique character of the building through lighting, screening, and use of quality materials that should withstand deterioration over the years.

RECOMMENDATION

CPC staff recommends approval of the proposed exterior modifications to 170 East Jefferson Avenue as detailed in the attached Master Plan and with the following conditions:

1. That final site plans, elevations, landscape, and lighting plans be submitted for City Planning Commission staff approval prior to making application for applicable permits.

2. That City Council delegate PC review and approval authority of any future replacement sign as indicated in this report and the Master Plan to the City Planning Commission for review of a sign that complies with Chapter 4 of the 2019 Detroit City Code. City Planning Commission approval shall be required prior to BSEED granting a sign permit.

3. That written permission by the Michigan Historical Commission be obtained and submitted to BSEED for verification prior to removing and relocating the existing historic marker in accordance with Public Act 10 of 1955.

Planning and Development Department

June 9, 2022

Dear Director Todd:

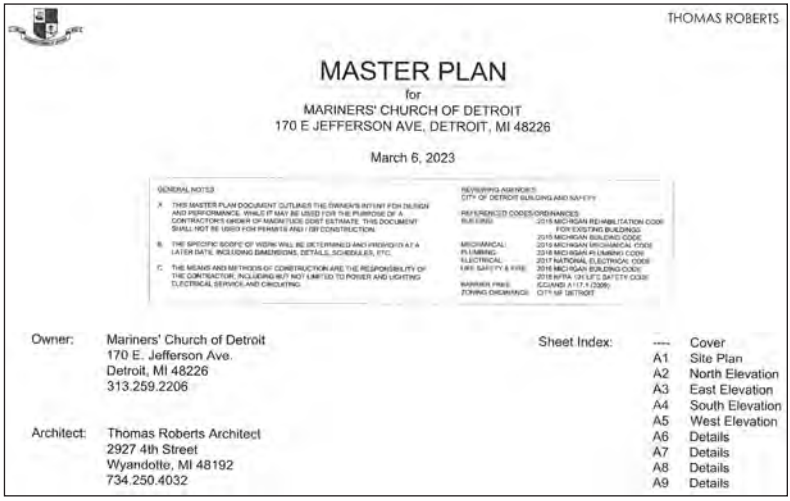
Following is the review by the Planning and Development Department (PDD) of the Mariner's Church Master Plan for 170 E. Jefferson Ave. (BSEED Permit number BLD2022-02014). The church was listed on the National Register of Historic of Historic Places in 1971. As the property is zoned PC (Public Center), this review is required under Sec. 50-11-96 of the City of Detroit Zoning Ordinance.

The relevant PC criteria from Sec. 50-11-67 of the Zoning Ordinance are followed by our analysis in italics:

Criterion 9: Appropriate buffering and screening of service, loading, refuse collection, mechanical and electrical equipment and parking areas should be provided; *Decorative metal screening of air conditioning units will create a more visually appealing treatment for service equipment. New trench drains and grate covers in existing sidewalk in the rear of building will provide for better drainage that is less intrusive for pedestrian traffic.*

Criterion 11: Signage and Graphics should be tastefully designed to be visually appealing and in character with surrounding development, they should provide needed information, direction and orientation in a clear and concise manner; *Relocation and 90 degree rotation of the sign, converting to a 2' X 5' double-sided digital display along Jefferson Ave. (north elevation) and restoring the grass under the relocated sign on the north elevation, relocating sign on the south elevation adjacent to entrance doors will be more accessible by pedestrians while still visible to vehicular traffic.*

Criterion 14: Preservation/restoration of buildings having architectural or historic value should be considered a primary objective; *Relocating of Historic marker to the corner on the west elevation tuckpointing of masonry walls, drainage updates, up lighting to bring attention to architectural detail of the north, east and west elevations building, removal of*



light pole on the west elevation, restoration of pinnacles on all elevations of the building by matching historical precedent, modifying niche for the display of statues on the west elevation by removing masonry infill, and appears appropriate.

Criterion 15: Urban design elements of form and character should be carefully considered; such elements include, but are not limited to: richness/ interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting of important visual features; preservation/enhancement of important views and vistas; *Use of like colors and materials for the replacement of stone coping and sealant should retain the existing visual character of the building. Replacement of cement with grass and planting beds surrounding both signs on the south elevation provide visual interest and less hardscape for pedestrian foot-traffic.*

PDD supports the requested improvements contained in the Mariner's Church Master Plan. The Master plan has included appropriate materials and new sign technology within a historic context. The proposed changes and upgrades make the site more visually appealing and accentuate the unique character of the building through lighting, screening and use of quality materials that should withstand deterioration over the years.

Our support of the double-sided digital display along Jefferson Ave. is contingent upon the sign meeting all Federal, State, and City regulations. We conclude that the proposed sign will not significantly negatively impact the character of the surrounding downtown area adjacent to the Public Center.

The homes for sale to market rate buyers are funded with non-city funds.

2. Mapleridge ($500,000 in CDBG) — $500,000 in CDBG will be spent on this new project that includes the rehab of 3 duplexes for sale to buyers that will occupy one unit of the duplex and rent the other unit of the duplex to households with an income of 60% AMI or less in the Osborn neighborhood.

3. 5800 Michigan Avenue ($512,544 in HOME, $737,456 in CDBG, and $450,000 in ARPA) — $512,544 in HOME, $737,456 in CDBG and $450,000 in ARPA will be spent on this project to construct 40 new PSH housing units at 5800 Michigan Avenue, 3951 Campbell Street and 3957 Campbell Street that will be 100% affordable.

We hereby request that your Honorable Body adopt the attached resolution that: (1) approves the aforementioned funding for three new projects and (2) authorizes the HRD Director, or her authorized designee, to execute such documents as may be necessary or convenient to complete the transactions.

ISLAMIC CENTER OF DETROIT PROPERTY DEVELOPMENT PROPOSAL

City of Detroit
Property for Development
Proposal 2022

Project Description: (a) The ICD Health Clinic will be located at 20390 Tireman Avenue, Detroit, MI 48228, the previous site of the Kosciusko School (part of the Detroit Public School System), parcel number 22001637-9. (b) This project will be located between Stout Street and Heyden Road, and Delton Street and Tireman Avenue. (c) The parcel will be located near the Community Center at 14350 Tireman Avenue, Detroit, MI 48228, which is owned and operated by the Islamic Center of Detroit. (d) The City of Detroit owns the parcel where the clinic will be located. (e) ICD is proposing to remodel the 2-floor structure on 3.70 acres. This will house a medical

clinic consisting of exam rooms, medical labs, an administrative office, billing area, restrooms, offices, etc. on one level, and a community center on the second level. With that said, it will be determined later if proposed changes to the infrastructure that will require rezoning, upon acquisition of the property. Specifically, ICD aims to develop and implement a Federally Qualified Health Center (FQHC) Look-alike Center to provide convenient, accessible, and appropriate care to the underserved community of Wayne County. This FQHC Look-alike will provide free Primary Care, Dental, and Mental Health Services for those who are uninsured and underinsured in metropolitan Detroit.

This healthcare facility will offer healthcare services to the public, free of charge, without copays or fees of any type; as well as preventative screenings, health assessments, addiction and prevention education, and supportive service referrals to specialists as needed. We will offer these services through the help of dedicated volunteers and partnerships with local non-profit organizations and hospitals, as well as through generous donations from individuals and other city, county, and state governmental and community organizations.

The primary population for this clinic is patients that previously did not have a medical home and were forced to visit the emergency room for chronic or non-emergent issues, regardless of age, gender, ethnicity, religious affiliation, or sexual orientation. We are fulfilling our mission of serving those most in need through services such as access to convenient and appropriate general and long-term mental health care and substance abuse, health literacy, and help navigating health and community systems. Through this accessibility and trust, we can focus on primary, secondary, and tertiary services for improving the health status and well-being of the medically underserved, while simultaneously being art of a much more effective and cost-efficient business strategy.

This clinic will be a joint venture between ICD, the City of Detroit, Islamic Relief, the Detroit Land Bank, and Wayne County, Michigan. ICD has secured initial seed money through Islamic Relief for a feasibility study and consultation (which is being established in the form of a new Strategic Partnership). ICD is also working with the City of Detroit for assistance with a facility, as well as development funding. Other sources of funding include Senators Peters and Stabenow, as well as Representative Tlaib.

Other partners and alliances include Arab American and Muslims in the city, other Covid-19 resource centers for City for Detroit residents, the Immigration Task Force in the City of Detroit, the Warrendale Community Development Initiative in the City of Detroit, and the Warrendale & Cody Rouge Neighborhood Framework Project in the City of Detroit to provide primary care to meet the needs of medically underserved patients in Wayne County, as well as those of our partners.

Additionally, through existing relationships with employers, partners, and organizations, we can help employees that may be underinsured, uninsured, or simply part of a vulnerable population to find a medical home, which will improve their health and well-being, while simultaneously reducing their financial burden and that of the partners.

Project Experience: The Islamic Center of Detroit (ICD) exists to serve the most vulnerable people within Metropolitan Detroit through the Muslim faith, Islamic principles, and a fundamental belief in assisting others. ICD was officially opened to the public in January 2000. Since then, the ICD has been expanding, by working on new projects that benefit both Muslims and non-Muslims in the Detroit metro area (48228) and surrounding communities. Some of these efforts include: a full-time school; Saturday school; Sunday school; after-school programming; a Quran program; youth empowerment tools and training; female empowerment workshops; MUHSEN Certified programming; community services (such as neighborhood clean ups, clothing drives, a weekly food pantry); senior services (such as workshops, lectures, and recreational activities); mental health programming for youth, adults, and seniors; Ramadan activities; Imam services; and, recreational activities such as a girls' and boys' basketball, volleyball, soccer, and summer camps.

Specifically, the ICD acquired a warehouse, located at 14350 Tireman Avenue in Detroit, MI, in 1999 and converted it into a fulltime school, community center, lecture hall, kitchen, and mosque with separate prayer rooms, separate bathrooms, etc. The building was then open for service in January of 2000.

Cost estimate: The total cost estimate is between $8,000,000-$9,000,000. The contracted grant writer, Board of Directors, staff, and volunteers will work on donations from individual donors, private family foundations, corporate foundations, the City of Detroit, Wayne County, among others. Construction costs remain to be determined once a contractor and developer are secured.

Timetable: The project will start by acquiring the building and then developing the plan for infrastructure by December 1, 2022. We expect that this clinic will be fully operational by Dec. 31, 2025. Phases include: First phase is basic cleaning (6 to 12 months); Second phase is renovation of the first floor (8 to 14 months); and Third phase renovation of the second floor (6 to 12 months).

RESOLUTION TO RESTORE CITY COUNCIL MEMBERS AS DETROIT LAND BANK NEIGHBORHOOD LOT ENDORSERS

By COUNCIL PRESIDENT SHEFFIELD, joined by COUNCIL MEMBER WHITFIELD-CALLOWAY:

WHEREAS, The mission of the Detroit City Council is to promote the economic,

cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, In 2020, at the initial launch of the Detroit Land Bank Authority's (DLBA) Neighborhood Side Lot Program, the members of Detroit City Council were eligible endorsers for DLBA Neighborhood Lot sales, pursuant to Article C. (6) of the DLBA Neighborhood Side Lot policy that states "The Purchaser of a Neighborhood Lot not adjacent to the applicant's home or adjacent to a previously purchased Side Lot shall have the endorsement of at least one of the following: the local District-elected City Council Member or one of the At-Large City Council Members;" and

WHEREAS, However, in the summer of 2021, the City Council and the DLBA came to an impasse, to the degree that Council was no longer included as an endorser of the program. Subsequently, the issues between Council and the DLBA have been resolved and the Council should now be restored to the status as an endorser of the lot program. Since there are no longer any impediments for Council to be restored as an endorser, the City Council is now strongly urging that its status as an endorser be fully restored post haste; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges that Tammie Daniels, the CEO of the Detroit Land Bank Authority (DLBA), take immediate steps to formally restore City Council's standing as a certified endorser of DLBA Neighborhood Lot sales; THEREFORE, BE IT FINALLY

RESOLVED, Copies of this resolution shall be provided to Mayor Mike Duggan, Tammie Daniels, the CEO of the Detroit Land Bank Authority (DLBA), as well as media and residents.

City Planning Commission

April 10, 2023

Honorable City Council:
Re: Amended Schedule A reflecting City Council Changes to the Mayor's 2023-24 Community Development Block Grant (CDBG) Proposed Budget.

Attached is the Amended Schedule A and corresponding resolution for City Council action on the Mayor's recommended 2023-24 CDBG budget. The Schedule A was prepared by the Housing and Revitalization Department, then reviewed and revised by the City Planning Commission (CPC) staff.

The Schedule A reflects the City Council changes to the Mayor's recommended CDBG budget including your action on the Neighborhood Opportunity Fund (NOF) awards. CPC staff added the column that reads "City Council Final." The cells below that heading carry the allocations determined by your Honorable for adoption under the 2023-24 CDBG Program.

The other Schedule A changes are a result of the Administration's recommended technical revisions and corrections based on the recent release by the U.S. Department of Housing and Urban Development Office of Community Planning and Development (OCP) fiscal year 2023 CDBG grant allocation. This release allowed the Mayor to show each Public Service subrecipient receiving a slight increase in funding.

Please let us know if you have any questions regarding this amended Schedule A or the CDBG program.

Respectfully submitted,
MARCELL R. TODD, JR.
Director

Office of Budget

April 10, 2023

Honorable City Council:

Re: Resolution Recognizing Homeowners Affected by Property Tax Overassessment. (REVISED)

The Administration is requesting approval of the attached resolution, which will authorize various program activities for certain homeowners affected by over-assessment of their property for tax years 2009 through 2016. It also authorizes the Chief Financial Officer to transfer up to $4 million of unencumbered General Fund appropriations balances to the Over-assessment Program appropriation. In fiscal year 2023, this appropriation already received an initial $2 million.

We respectfully request your approval of the attached resolution, with a waiver of reconsideration.

Best regards,
STEVEN WATSON
Deputy CFO/Budget Director

RESOLUTION RECOGNIZING HOMEOWNERS AFFECTED BY PROPERTY TAX OVER-ASSESSMENT FOR TAX YEARS 2009 THROUGH 2016

By COUNCIL PRESIDENT SHEFFIELD:

WHEREAS, A significant number of Michigan homeowners saw the value of their homes suddenly decline during the Great Recession; and

WHEREAS, The City of Detroit's (the "City") assessment practices during the period of the Great Recession were conducted through a city-wide evaluation of sales (defined as an "override" process), rather than through neighborhood-based sales studies; and

WHEREAS, The City started systematically lowering assessments for 2010 levies whereby, by 2016, 87% of residential property had an assessed value equal to its taxable value; and

WHEREAS, The reductions commencing in 2010 lowered residential assessed values on properties which were not transferred by over $2.8 billion by 2016; and

WHEREAS, These assessment reductions suggest the over-assessment of the property in the year or years prior to the year of the reduction; and

WHEREAS, After 2014 the reductions in assessments accelerated, particularly for lower value properties; and

WHEREAS, To correct past deficiencies, the City completed a City-wide reappraisal as of December 31, 2016 and provided the Office of the Assessor with nearly a 50% increase in staff, new technology, and proper training and credentialing; and

WHEREAS, Under the Detroit City Council's leadership, the Detroit City Code was amended to require an appraisal of all residential property in the city every five years; and

WHEREAS, A number of programs over the years have attempted to offset the expense of these assessments, including Pay As You Stay (PAYS) legislation; and

WHEREAS, There likely remains individuals who could have appealed their assessments had they filed a timely appeal, but whose appeals rights have now expired; and

WHEREAS, The Mayor and City Council recognize that past overassessment, coupled with the expiration of resident assessment appeal rights, resulted in the diminishment of resident household wealth in Detroit and further exacerbated the negative economic impacts caused by the pandemic and are still experienced by some Detroit residents; and

WHEREAS, The City desires to prioritize eligible use of funds available to the City under the American Rescue Plan (ARP) to help remediate the negative economic impact experienced from the COVID-19 pandemic emergency by those whose who were left vulnerable to that impact by overassessment practices and the assessment appeal expiration; and

THE DETROIT CITY COUNCIL 2023-2024 FINANCIAL AND BUDGETARY PRIORITIES, PUBLIC POLICY, PLANNING AND ACTION RESOLUTION

BY ALL COUNCIL MEMBERS:

WHEREAS, The Honorable Mayor Mike Duggan presented his proposed Executive Budget for FY 2023-24 and a Four-year Financial Plan for the City of Detroit to the Honorable Detroit City Council on March 3, 2023, and in fulfillment of its Charter-mandated role and in keeping with past practice, City Council held hearings and deliberations on the proposed Executive Budget for FY 2023-2024 as submitted by the Mayor; and

WHEREAS, The City of Detroit (City) continues on its positive trajectory since emerging from bankruptcy at the end of 2014. Reinvestment in the City's infrastructure has been ongoing, with fiscal restraint remaining paramount; and, the alignment of expenditures and revenues continues to be balanced with improvements in service delivery to residents; and

WHEREAS, Michigan Public Act 181 of 2014 (Act 181) provided for State oversight of the City's finances for at least thirteen years. This budget process is proceeding under a waiver of active oversight, granted by the Financial Review Commission (FRC) in April 2018, following three consecutive years of successful adherence to deficit-free budgets. The annually renewable waiver requires the City to submit its adopted budget and four-year financial plan to the FRC by April 30 of each year in order to obtain; and

WHEREAS, Pursuant to Sec. 8-213 of the 2012 City Charter and Public Act 182 of 2014, the City's Chief Financial Officer, Budget Director, Auditor General, and the City Council"s Legislative Policy Division, along with other top officials held a revenue estimating conference which determined reasonable, agreed upon revenue projections of General Fund revenues for the upcoming fiscal year, totaling $1.254 billion; and

WHEREAS, The FY 2024-2027 four-year financial plan, as presented to City Council, shows employee benefits increasing from $249.1 Million in FY 2023 to $377 Million in FY 2024, an increase of $127.9 Million. The City will no longer make discretionary pension contributions to the Retiree Protection Fund Trust Fund (RPTF) in 2024, but instead begin to withdraw funds to pay its legacy pension cost. The FY 2024 $148.9 Million legacy pension payment is based on a 30-year amortization period for the General Retirement System and a 20-year amortization for the Police & Fire Retirement System. The Retiree Protection Trust Fund (RPTF) was projected to grow to $473.4 Million to soften the pension blow in FY 2024; and

WHEREAS, In FY 2024, the pension payment could approach 11% of the general fund recurring budget under a 30-year amortization period. The pension payment could approach 13% of the general fund recurring budget under a 20-year amortization period. The amount of the City's annual pension payment fluctuates depending on how the stock market and the pension investments perform, the pension payback period (payment amortization period) and how much the City owes in pensions (unfunded actuarial liability). Conservative budgeting needs to be continued to reflect fiscal realities and avoid a reversion into bankruptcy and to diminish the City's ability to provide critical services. Pension costs will need extremely close monitoring; and

WHEREAS, On this day, April 10, 2023, the Detroit City Council adopts a program budget that is based on sound conservative budgetary principles for municipalities, well-reasoned financial assumptions and past performance, as well as stated goals and projections for City departments, divisions and agencies, as well as in consideration of the dictates of the "Plan for the Adjustment of Debts of the City of Detroit" (POA); and

WHEREAS, The Administration has astutely recognized that the City's Plan of Adjustment contained several questionable key assumptions that need to be addressed to manage the projected shortfall in the City's pension obligations. Prudent financial planning has allowed the City to establish a Retiree Protection Trust Fund to ensure that pensioners who have already suffered a significant loss due to the City's bankruptcy will not be harmed further by a collapse of the pension system. The City has built up approximately $473 Million in trust assets to offset the City's annual required contributions that resume in FY 2024. The City will make its first distribution, $57.2 Million, from the trust fund; and

WHEREAS, In response to the COVID-19 pandemic, Congress adopted the American Rescue Plan Act of 2021, which allocated $826.7 Million to the City of Detroit to remedy fiscal shortfalls caused by mandatory shut-downs; and

On June 29, 2021, City Council allocated the fund, through 15 appropriations. The Administration has requested to reappropriate $59 million to purposes that have seen greater demand and to also address the negative impact of the COVID-19 pandemic; and

WHEREAS, Due to the abundance of vacant homes and buildings there has been an increase in rodents and other vermin across the city. Therefore, City Council urges the Administration, through the Environmental Services Department, to increase the amount of rodent bait distributed and funding needed to proactively address this issue; and

WHEREAS, Residents continue to suffer from the effects of poor air quality due to emissions from corporate facilities that are embedded within many of our residential communities. City Council encourages the Administration to seek reimbursement from private corporations for the city's purchase of air purifiers to assist Detroit residents that have been affected by hazardous fumes; and

WHEREAS, Sections 2227 and 2845 of the Michigan Insurance Code, 1956 PA 218, MCL 500.2227 and 500.2845 allows City of Detroit to participate in the fire insurance withholding program to escrow 25% of fire insurance settlements for losses to real property within the City limits. Under the program, the City receives a portion of the insured's insurance payment to be held in an escrow account until the relevant structure is repaired, replaced or demolished. The Fire Escrow Account is currently inadequate and does not meet actual costs of demolition. The City Council urges the State to increase the maximum escrow withholding percentage; and

WHEREAS, The City of Detroit has a commitment to removing barriers and increasing the participation of minority, women, and veteran owned businesses in the demolition process is stymied by the insurance requirements. City council urges the Administration, Law Department, Demolition Department, and business owners to explore solutions to reduce the burdensome insurance requirements, including, but not limited to, by ordinance amendment, outreach initiatives, and city-led programming; and

WHEREAS, The Mayor's proposed 2023-24 Budget presents consolidated and transferred departmental functions for construction and facilities management from the General Services Department to the newly named Construction and Demolition Department and a consolidation of the legacy and pension activities to Debt service Agency. Before these transfers may become effective, these amendments to the Executive Organization Plan must be submitted to City Council for its review and approval; and

WHEREAS, Although, the city's blight elimination program has succeeded in demolishing many vacant and blighted structures throughout the city, demolition activities both commercial and residential, take considerable time. Unfortunately, there are many missing and deceased persons reported in the city of Detroit and some of these vacant structures have been scenes of tragic events. The City Council urges the DPD to make available the use of cadaver dogs when necessary to search for missing individuals in vacant structures in the demolition process; and

WHEREAS, There are over 4,200 miles of sidewalk in the city of Detroit. The City Council recognizes the importance of maintaining safe and accessible sidewalks for all residents and seeks to address the need for an efficient and cost-effective Residential Sidewalk Repair Program. City Council urges the Department of Public Works to develop and implement a Residential Sidewalk Repair Program that fosters collaboration between citizens and sidewalk repair vendors, leveraging economies of scale to reduce the cost of private sidewalk repairs, and report the progress and results to the City Council on a regular basis; and

WHEREAS, City Council acknowledges the significance of traffic calming measures and the benefit of putting in place measures to reduce vehicle speeds and improve safety. City Council supports the pursuit of Vision Zero goals and objectives to eliminate traffic-related fatalities and severe injuries and urges the Department of Public Works to prioritize and increase the implementation of traffic calming solutions, such as traffic circles and other effective measures; and

WHEREAS, Recycling and composting our food waste are a couple of ways to comply with the City's Climate Action Ordinance which requires the City to lower our greenhouse emissions by 35% of 2012 levels by 2024. The City Council encourages the DPW to institute a pilot program for food waste recycling with the goal of lowering the City's carbon footprint; and

WHEREAS, Keeping in line with the commitment made by the Administration, City Council urges the Administration add $170,000 from the street fund for one (1) full-time FTE in city engineering to provide city wide oversight; and

WHEREAS, Traffic calming devices in the form of temporary bollards have been placed at two locations in the Sherwood Forest Neighborhood. The replacement of these bollards with something more esthetically pleasing devices will assist in calming traffic and the beatification of the area. City Council agrees with the Administration's commitment to fund these improvements from this year's street fund allocation in the amount of two hundred fifty thousand dollars.

WHEREAS, DDOT's bus service is a lifeline for tens of thousands of Detroit residents. The current shortage of bus drivers, amongst other things, has limited bus schedules which has disrupted the lives of those Detroiters that rely on bus service. We cannot approve of this budget without advocating for the crucial transit needs of our residents. We believe that the effort to pay bus operators more can be supported through Workforce Investment funds. Thus, Council urges the administration to increase the Department of Transportation's operating budget to $80 million; and

WHEREAS, City Council recognizes bus shelters with benches and safe sidewalk connections can improve the rider experience and ridership of citizens utilizing public transportation; however, only approximately 4% of the bus stops have bus shelters, trailing behind many other large cities creating an uncomfortable and unfriendly rider experience. City Council requests the Administration allocate seven million dollars in funding to increase the number of bus shelters citywide; and

WHEREAS, DDOT's monthly ridership that varies between 600,000 and 800,000 passengers, down from between 1.5 million and two million riders before the pandemic, demonstrating that DDOT's monthly ridership has not recovered since the start of the Covid-19 pandemic. As cities across the country have implemented free public transportation pilots to counteract the national decline in bus ridership, City Council urges the Detroit Department of Transportation to establish a pilot program for 1 month of free DDOT ridership to be evaluated according to metrics related to ridership, environmental impact, quality of life, and equity; and

WHEREAS, The bus operator shortage is a major cause of buses arriving late to their designated stops. The bus operator shortage in Detroit is primarily due to the low wages that are being offered by DDOT. To ensure that DDOT is offering competitive wages and that the buses arrive on time, City Council urges the Administration to allocate funds to the Detroit Department of Transportation to cover the cost for a starting wage of $29 per hour for bus operators and to cover the cost for existing bus drivers to receive a raise commensurate with their length of service to the Department; and

WHEREAS, The success of transit systems in rural, urban, and suburban neighborhoods is critical to the economic health and sustainable growth of America's communities. Transit-oriented development (TOD) is an urban planning concept that encourages cities to develop housing adjacent to reliable and accessible transportation, promoting the creation of dense, walkable, mixed-use development near transit, which attracts people and adds to vibrant, connected communities, City Council urges the Administration, DDOT and all necessary parties to work to develop, implement and execute a transit-oriented development framework for the city of Detroit; and

WHEREAS, The DDOT drivers earn far less than the national average and continue to persevere through trying conditions. Employees have endured the pandemic and shown a great commitment to the department and the citizens, City Council urges the Administration to increase the DDOT budget to the amount of $400K from ARPA funds to allow for a $1000 bonus to all active employees; and

WHEREAS, Despite Section 8-2-20 of the Detroit City Code requiring wrecking operations be performed by the employees of the licensed wrecking contractor and expressly prohibiting the use of independent contractors or subcontractors, Proposal N Demolition contractors were allowed to use 1099 employees for the purposes of pre-qualifying for bids as well as performing work. Therefore, the City Council strongly urges the Office of Contracts and Procurement to follow the law and moving forward provide an annual report outlining the pre-qualifications and employees used for demolition contracts; and

WHEREAS, Over 20 years ago, residency requirements for city of Detroit employees were abolished. It is reported that 60-80 percent of public safety workers now live outside of the city. Perhaps it is time to reevaluate this policy. City Council request that the Administration, through the office of the OCFO, conduct a study of the pros and cons of residency and how it has affected our city and the role it might play in the future; and

WHEREAS, Despite the success of the approximately five thousand speed humps installed in neighborhoods around the City of Detroit, there have been reports regarding how the speed humps interfere with the response time for the Detroit Police Department, Fire Department and Emergency Medical Services; City Council urges the administration to prepare an analysis on the negative impact of speed humps on city emergency vehicle response; and

WHEREAS, For decades air pollution and other harmful effects from an over proliferation of truck traffic has plagued the neighborhoods surrounding the Ambassador Bridge, the Detroit City Council requests that the Detroit Health Department provide an annual study reflecting the impact of factories and truck traffic on air quality in neighborhoods surrounding the bridge to include solutions on ways to mitigate the issues that form the findings of the report; and

WHEREAS, Nationwide settlements have been reached to resolve opioid litigation brought by states and local governments. The City of Detroit will receive millions of dollars in compensation for damage suffered during the opioid crisis through multi-party litigation. City Council urges the Detroit Health Department to review the Opioid Remediation Funding Priorities report written by the Office of Council Member Gabriela Santiago-Romero containing recommendations for potential uses of the settlement funds, and to work with community organizations and City Council to implement the proposed solutions; and

WHEREAS, Food safety is of paramount importance to the residents of Detroit and educating the public on safe food handling practices is crucial in maintaining a healthy community; the City Council hereby urges the Health Department to earmark $50,000 from its current budget to provide more information to the public on food safety practices by utilizing funds to expand existing food safety programs and develop new educational materials and outreach initiatives that will increase awareness and understanding of food safety practices; and

WHEREAS, The Health Department works in partnership with Detroiters to protect and promote their health, well-being, safety, and resilience, and to respond to every public health need with exceptional leadership, policies, programs, and services. Due to the ongoing issues with air quality in the Stellantis-Mack impact area, the City Council encourages the Health Department to collaborate with local health care systems to provide physical exams that will monitor the impact of air pollution on residents' health by tracking their throat, lung, and heart health, particularly in areas with significant industrial operations nearby; and

WHEREAS, Air pollution due to an over proliferation of truck traffic has been a significant public health issue in areas throughout the city for years, as many impoverished and minority communities have been forced to disproportionately bear the burden of industry and its deleterious effects. City Council urges the Administration to conduct and publish an annual environmental health study regarding the impact of truck traffic on air quality in neighborhoods adjacent to the new Amazon Center; and

WHEREAS, The Detroit Health Department annually licenses and inspects over 1,900 food establishments. City Council recognizes the critical role that Food Safety Inspectors play in protecting the health and well-being of the residents of Detroit, and the importance of providing competitive compensation to attract and retain skilled professionals in this field; City Council urges the Detroit Health Department, in coordination with the Human Resources Department, to review and modify the Official Compensation Schedule (white-book) for Food Safety Inspector pay, ensuring that the compensation is commensurate with their responsibilities and competitive with similar positions in comparable jurisdictions, and report the proposed adjustments to the City Council for consideration and approval; and

WHEREAS, The City has a high percentage of residents with untreated mental illness with a large segment unable to receive the necessary care because they cannot afford it. Those suffering from mental issues require access to treatment and improved quality of treatment to reduce homelessness, incarceration, and fatal interactions with police. City Council urges the Administration to allocate one million dollars to combat mental health issues and fund initiatives targeted toward helping those who suffer mental illness; and

WHEREAS, The health and wellbeing of Detroit's residents, including persons with disabilities, are essential to the City's overall prosperity, vitality, and quality of life; the Detroit City Council encourages an increase in funding through one-time General Fund costs to the Detroit Health Department of $200,000 for outreach to the disabled community, advocating healthy outcomes, and cultural competency training for health care providers as it relates to the disabled population; and

WHEREAS, As a result of the pandemic many persons now suffer from the condition referred to as Long-Covid. Long Covid is defined as prolonged or persistent symptoms lasting at least 90 days following the onset of Covid. Symptoms include fatigue, shortness of breath and impaired cognitive and physical function. City Council urges the health department to conduct a study relative to Long Covid and its effects on the citizens of Detroit; and

WHEREAS, Nonmedical factors can greatly influence health outcomes. Conditions in the environments where people are born, live, and work, play a big role in the wellness of our communities. City Council requests the Health Department conduct a study to identify and address the social determinants of health in the City of Detroit.

WHEREAS, Continuing education and professional development are vital components that increase City employee's productivity and the delivery of services to residents. Numerous studies have shown that there is a significant return on the City's investment when provisions are provided to increase educational opportunities of its employees. Therefore, City Council requests that the Administration reinstate the employee tuition reimbursement program to support our employees wishing to further their education; and

WHEREAS, City Council acknowledges the importance of providing equitable compensation to Detroit's elected officials, reflecting the responsibilities and efforts involved in their roles, and the recent study prepared by the Human Resources Department indicating that Detroit Elected Officials are currently undercompensated in relation to comparable sized cities with similar governmental structures; City Council encourages the Elected Officials' Compensation Committee to carefully review the findings of the study prepared by the Human

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE
City Planning Commission

March 28, 2023

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the construction of a new 57-unit multi-family building at 3740 Second in the Second/Brainard Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

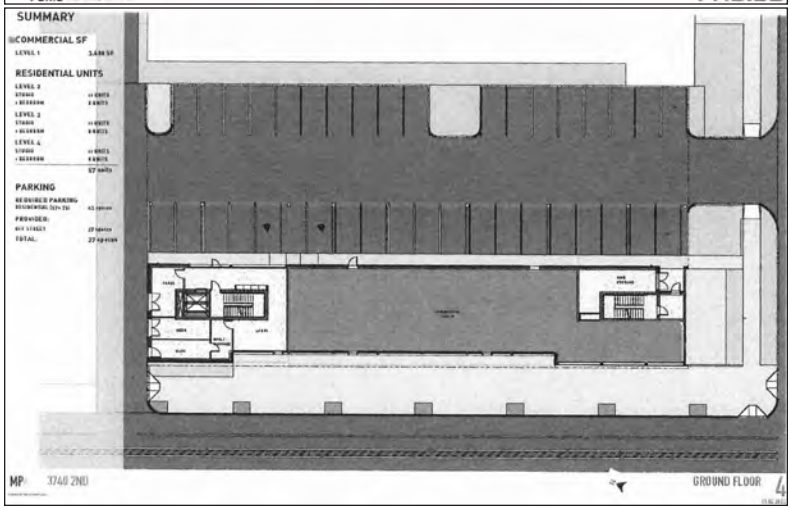
The office of the City Clerk forwarded to the City Planning Commission (CPC) staff an application requesting a Neighborhood Enterprise Zone (NEZ) certificate for the construction of a new 4-story multi-family building at 3740 Second with 57 rental apartments.

The property is generally located at the northeast corner of Second and Brainard streets. The site is presently vacant. The petitioner for the request is 8484 Brainard LLC — the developer is Greatwater Opportunity Capital which is a Detroit-based company formed in 2014 to acquire, rehab and lease multifamily, commercial and vacant land in several Detroit neighborhoods.

The subject request is for a 15-year NEZ certificate for a new facility to include 57 rental units: 33 studio units each containing 370 square feet and 24 one-bedroom units each containing 550 square feet. Greatwater also owns the adjacent apartment building to the east which has no studios and 19 two-bedrooms; as a result, the subject building is focusing on providing studios and one-bedrooms. Of the 57 units, 12 units will be at rents affordable to those with income not greater than 80% Area Median Income (AMI). The developer plans to spend about $181,011 per unit. Below is a summary of the units provided:

Unit Type	Units	Square Foot	Rent
Studio Market Rate	26	370	$1,290
Studio Affordable	7	370	$1,254
One-Bedroom Market Rate	19	550	$1,450-1,690
One-Bedroom Affordable	5	550	$1,343

The building will have an elevator. The developer indicates units 203 and 303 will be handicap accessible units. The site plan shows 37 parking spaces on site; the developer indicates the parking fee will be reduced by 50% for tenants in affordable units.



The subject property has been confirmed as being within the boundaries of the Second/Brainard NEZ which was established by City Council on November 22, 2022, and should be eligible for NEZ certificate under the State NEZ Act (Act 147 of 1992). It appears the NEZ certificate application has been submitted prior to the issuance of applicable building permits — the NEZ Act (Act 147 of 1992) states the applications must be filed before a building permit is issued. The petitioner submitted the NEZ certificate application dated February 7, 2023, to the City Clerk's office.

CPC staff has reviewed the application and recommends approval. Attached is a resolution for Your consideration. Please contact our office should you have any questions.

Respectfully submitted,
MARCELL R. TODD, JR.

By Council Member Waters:

WHEREAS, Myldret Bernice Leatherwood was born April 6, 1923 at Herman Keifer Hospital in Detroit to loving parents Ethel Johnnie Mae Meadows Harville and Ernest David Harville. Ms. Leatherwood had 5 siblings, an older brother Charles, younger sisters Rosemary and Kathleen, and younger brothers Harold and Gerald, and

WHEREAS, Bernice Leatherwood attended Balch Elementary School near Hasting Street, Garfield Intermediate School and Cass Technical High school. In June 1941, after graduating from Cass Tech High School, she went on to work as a nurses aide in Ypsilanti State Hospital. Ms. Leatherwood made her home near the now famous Hastings Street, and worked for the federal government during World War II making masks and other supplies for the war effort; and

WHEREAS, Bernice Leatherwood met and married the love of her life, Madison "Van" Leatherwood at Plymouth Congregational Church on November 14, 1948. He lived a life dedicated to public service as an employee of the City of Detroit, then Wayne County. The couple was married for 53 wonderful years, until his passing in 2001;

WHEREAS, Bernice Leatherwood dedicated her life to public service, and was deeply involved in fair housing issues through her work with the Michigan Housing Coalition, deeply involved in her church, and a member of the National Action Network. She lived though not one, but two periods of civil unrest in Detroit: The Detroit riots of 1943, and the Detroit Rebellion of 1967. Her words are uplifting, as Bernice says: "Every age has its problems but I think this is the worst one," expressing her dismay at the current world situation. She is concerned about

"where the planet is going." She says, however, that she knows she is here on this earth — and has lived this long — for a reason. And that reason is to share her faith, to teach others that the Earth was created by God, that we need to learn to live together as a family, as a community and as a people; and

RESOLUTION RECOGNIZING APRIL 24, 2023 AS ARMENIAN GENOCIDE REMEMBRANCE DAY

By Council Member Benson:

WHEREAS, The Detroit Community joins human rights advocates and historians from around the world to recognize and mourn the 1.5 million Armenians who perished in the Armenian Genocide as ordered by the government of the Ottoman Empire, which began on April 24, 1915 with the arrest, exile and murder of hundreds of Armenian intellectuals, and political, religious, and business leaders; and

WHEREAS, During the 1915-1923 genocide, Armenian survivors were forced to witness the slaughter of their relatives and the loss of their ancestral land and property in what is now known as the "first genocide of the 20th century"; and

WHEREAS, The State of Michigan declared in Act 558 of 2002 that "April 24 of each year shall be the Michigan day of remembrance of the Armenian genocide of 1915-1923 … in memory of the victims of the genocide and in honor of the survivors"; and

WHEREAS, The failure to learn from the past allows history to repeat itself as the world saw during the 2020 Nagorno-Karabagh war when the military forces of Azerbaijan and Turkey attacked the Armenian civilian population of Nagorno-Karabagh and its churches and civic buildings, resulting in casualties and loss of ancestral land and property, motivated by the same genocidal campaign that their ancestors suffered 108 years earlier; and

WHEREAS, Azerbaijan's ethnic cleansing campaign continues to this day against the 120,000 Armenians of Nagorno-Karabagh through its targeted denial of their freedom of movement and fundamental rights to life and liberty, despite strong statements of protest and condemnation by the United States, the European Union, and human rights organizations; and

WHEREAS, The Detroit City Council is honored to join the Armenian-America community in its commemoration of the 108th anniversary of the Armenian Genocide in an effort to educate others about the tragic loss of life, land, and human rights of the Armenian people and the crimes of genocide committed against them, as well as Greeks and Assyrians, due to religious and political beliefs; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby recognizes April 24, 2023 as Armenian Genocide Remembrance Day in memory of the victims of the Armenian Genocide and in honor of the survivors and their descendants, and urges all citizens of Detroit to join in this solemn remembrance; THEREFORE, BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to Mayor Mike Duggan and to major local news media outlets.

City of Detroit
Legislative Policy Division

April 11, 2023

Honorable City Council:

Re: Resolution Urging the Legislature to Halt Tax Captures From the Detroit Public Library.

Council Member Mary Waters requested that the Legislative Policy Division (LPD) draft a resolution urging the legislature to halt tax captures from the Detroit Public Library.

Please contact us if we can be of any further assistance.

RESOLUTION URGING THE LEGISLATURE TO HALT TAX CAPTURES FROM THE DETROIT PUBLIC LIBRARY

By Council Member Waters:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Within the tenets of its mission, the Detroit Public Library (DPL) enlightens and empowers people by providing diverse and dynamic pathways to literacy and learning. The DPL website also states, "No matter what changes, the library continues to adapt with the city to ensure that Detroiters' needs are met with diverse collections, engaging programs, and enriching classes;" and

WHEREAS, Despite their best efforts, DPL has struggled financially to fulfill its mission, given its heavy reliance on local property tax revenue, which has not kept pace with its operational and capital needs. DPL requires an additional stable and reliable revenue source to adequately fund its operations, so it may accomplish the missions for which it was established; and

WHEREAS, During its budget deliberations for Fiscal Year (Fiscal Year) 2023, in the face of the COVID-19 pandemic, DPL planned to reopen 11 additional library branches in Fiscal Year 2023, beginning

July 1, 2022. DPL determined it would need to use $3.1 million of its unassigned general fund balance to accomplish this goal; and

WHEREAS, In addition, with the reopening of the 11 Library branches, DPL's administration anticipates funding shortfalls of $3.0 million in Fiscal Year 2024, $3.0 million in Fiscal Year 2025, and $3.5 million in Fiscal Year 2026; and

WHEREAS, According to a recent Legislative Policy Division report, if future funding shortfalls at this rate are covered by DPL's unassigned general fund balance to maintain balanced budgets, the unassigned general fund balance (i.e., rainy-day fund) of $26 million, will be depleted in almost nine years; and

WHEREAS, In 2009, the City's electorate authorized the sale of General Obligation bonds up to $97 million for capital projects for museums, libraries, recreation, and other cultural institutions. Of the $97 million, which can be used for any of the enumerated purposes, internal budget allocations set aside $25 million specifically for the library. Thus far, none of the bond sales have been used for DPL and there is a remaining unused amount of $21 million that could be allocated to DPL's capital improvement needs; and

WHEREAS, The City Council supports using proceeds of the remaining $21 million of the $97 million bond authorization to fund capital improvements for DPL. Therefore, the Council urges that the Administration strongly consider selling these General Obligation Bonds that have been authorized by the electorate, but unissued to date, up to an amount previously agreed to by City officials on behalf of the Detroit Public Library in order to minimize DPL's usage of its unassigned general fund balance for needed capital improvements at DPL's Main library and its branches; and

WHEREAS, However, if the amount of eligible authorization has been utilized for other City purposes, then the Council urges the Administration to consider placing a separate ballot proposal before the electorate for Library's capital improvement needs at an amount mutually agreed upon by the City and DPL; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges the Administration to use the remaining $21 million proceeds from the authorized the sale of General Obligation bonds in 2009 and that the proceeds be used to address the capital needs of the Library; THEREFORE, BE IT FURTHER

RESOLVED, The City Council also urges that the Michigan Legislature to amend the Recodified Tax Increment Financing Act to exclude the DPL from future tax captures and, if possible, to cap total tax captures that can be taken from the DPL at $3.4 million in Fiscal Year 2024; THEREFORE, BE IT FINALLY

RESOLVED, Copies of this resolution shall be provided to Detroit Mayor Mike Duggan, the Detroit delegation of both the Michigan Senate and House, Governor Gretchen Whitmer, Mayor Mike Duggan, as well as media and residents.

Adopted as follows:

Yeas — Council Members Benson, Durhal, III, Johnson, Santiago-Romero, Tate, Waters, Whitfield-Calloway, Young, II and President Sheffield — 9.

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Office of the City Clerk

April 5, 2023

Honorable City Council:

Re: Application for Neighborhood Enterprise Zone Certificate for Crosswinds (Woodward Place) Area.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of six (6) applications for Crosswinds (Woodward Place) for a Neighborhood Enterprise Zone Certificate. these applications have been reviewed and recommended for approval by the City Planning Commission, a copy of which is attached. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve these applications.

Respectfully submitted,
ANDRE P. GILBERT, II
Deputy City Clerk

By Council Member Durhal, III:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from *ad valorem* property taxes, and the imposition of specific tax in lieu of *ad valorem* taxes; and

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992.

Now, Therefore, Be It

Resolved, That the Detroit City Council approves the submission of the applications to the State Tax Commission, and, if applicable, the City Council concurs with the issuance of the certificates if the application was filed not more than six months after the date of the issuance of a building permit for the facility — though this may not apply due to the historic designation of the property.

Be It Finally Resolved, That the Detroit City Council approve the following for receipt of Neighborhood Enterprise Zone Certificates for a 15-year period:

City Planning Commission

April 5, 2023

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for the development at 229 Edmund Place of six condominium units which includes three rehabilitated units (Units 1, 2, and 5) and three newly construction units (Units 3, 4, and 6) in the Crosswinds (Woodward Place) Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

The office of the City Planning Commission (CPC) has received applications requesting Neighborhood Enterprise Zone (NEZ) certificates for the development at 229 Edmund of six condominium units which includes three rehabilitated units (Units 1, 2, and 5) and three newly constructed units (Units 3, 4, and 6).

The property is generally located on the north side of Edmund Place between John R and Brush Streets in the Brush Park neighborhood. Below is a map and image of the location. The request is for a 15-year abatement. The applicant for the certificates is New Beginnings Land Development LLC.

The subject proposal involves the historic Henry Glover house built in 1874. The development includes rehabbing the original house. However, since the rear of the house was too damaged to save, the developer added an addition to the rear of the house. The development includes the following:

- Unit 1: rehab, located on the east side of the original house including the basement, 1st floor, and 2nd floor
- Unit 2: rehab, located on the west side of the original house, including the basement, 1st floor, and 2nd floor
- Unit 3: new addition, located on the rear 1st floor
- Unit 4: new addition, located on the rear 2nd floor
- Unit 5: rehab, located on the 3rd floor of the original house (the penthouse), including mezzanine and roof top deck
- Unit 6: new construction, located on the 2nd floor of 6-car garage/carriage house

Below is a table from the petitioner summarizing the square footage, number of bedrooms, initial listing price, etc. The developer notes they will be occupying Unit 5, and the price is artificially high to discourage anyone else from purchasing.

Regarding parking, each of the six units will have one private garage parking space; the plans include a side parking lot with six surface spaces which can be purchased for $20,000 per space.

Unit	Lower Level	1st Flr	2nd Flr	3rd Flr	Private Deck Size	Bed-rooms	Bath-rooms	Size Excl. Lower Level	Size Incl. Lower Level	Initial Listing Price	Price per SF
1	662	609	752		98	2	3.5	1361	2023	$749k	$550
2	689	720	694		120	2	3.5	1414	2103	$799k	$565
3	346	1143	0		111	2	2	1143	1489	$579k	$507
4	374	0	1143		111	2	2	1143	1517	$599k	$524
5	306		1600	140	247	2	2	1740	2046	$1.4M	$805
6	0	75	1425	255	198	2	2.5	1755	1755	$1.1M	$627

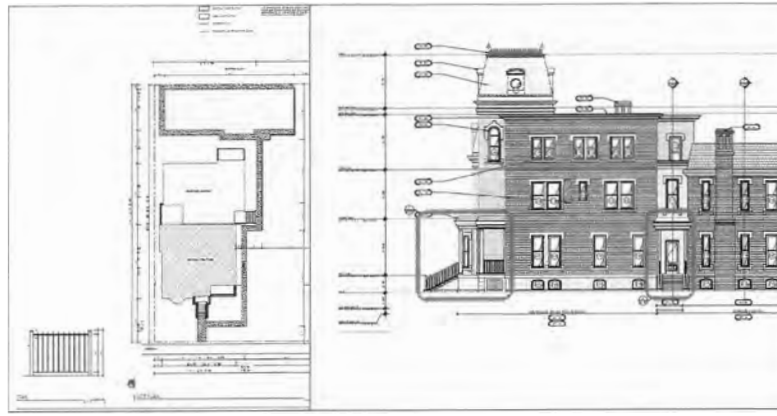
Regarding accessibility, the developer indicates with the first-floor elevation of the historic house is four feet above grade level and with the tall ceiling heights, providing handicap access for the front and side doors, as well as within the units would have been prohibitively expensive.

The developer indicates the subject house was vacant for 40 years. In 2017, the house was slated for demolition, but was able to be rescued. In 2017, the developer purchased the house from the Detroit Land Bank Authority at market rate pricing. The developer indicates the cost to restore and renovate the historic mansion translates into expensive market rate units. For example, the developer indicates it had to replace 90 deteriorating windows with acceptable double hung windows, 80 missing interior doors, rebuilding the 4th story center tower, etc.

Regarding neighborhood context, the subject block consists of six remaining historic houses and the City Modern new construction to the south; the senior apartments the Village-Brush Park Manor is located to the east. The subject property has been confirmed as being within the boundaries of the Crosswinds (Woodward Place) NEZ which was established by a vote of City Council in July 1996.

The NEZ State Act (Section 207.774) states the application must be “filed” before a building permit is “issued” or as otherwise provided by the local governmental unit by resolution if the application is filed not later than 6 months following the date the building permit is issued; however, this does not apply for a rehabilitated facility if all or a portion of the rehabilitated facility is a qualified historic building.

The developer indicates the building permits for Units 1-5 were issued on September 10, 2019, and the permit for Unit 6 was issued on October 5, 2020. The original NEZ certificate applications were submitted to the Clerk's office February 20, 2020. The City's processing of the applications was put on hold until the parcel, legal description, and address description were finalized. Once finalized, the applications dated February 2023 were resubmitted to the City Clerk's office.



CPC staff has reviewed the applications and recommends approval. Attached is a resolution for your consideration. Please contact our office should you have any questions.

RESOLUTION ASKING THE OFFICE OF THE INSPECTOR GENERAL TO CONDUCT AN AUDIT OF THE DETROIT LAND BANK AUTHORITY

By Council Member Waters:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, The mission of the Detroit Land Bank Authority (DLBA) is to return the city's blighted and vacant properties to productive use. The DLBA utilizes a variety of sales programs to make homeownership and land purchases accessible to Detroiters; and

WHEREAS, According to its website, DLBA's commitment to revitalization includes its Compliance program, which requires renovation and occupancy to improve neighborhoods and combat real estate speculation. The Detroit Land Bank Authority works directly with individual buyers, as well as community partner organizations and developers for projects big and small; and

WHEREAS, One of the DLBA's programs created to foster homeownership is the Buy Back/Occupied program. This program is designed to allow individuals that previously had an equitable interest in the occupancy of a property, to "Buy Back" the property from the Land Bank. However, it has been recently alleged that some occupants of the DLBA properties are not being given an opportunity to participate in the Buy Back/Occupied program and instead the occupied property is being offered to the DLBA's community partner organizations and/or developers to purchase those properties, thereby bypassing on collaborating with the residents who occupy and/or denying eligible Detroiters participation in the program as set forth in the Buy Back/Occupied program guidelines; and

WHEREAS, This practice would violate the tenets extolled by the DLBA, by denying occupants of DLBA homes the ability to "Buy Back" back the properties under the program which falls within the investigative purview of the Office of the Inspector General; and

WHEREAS, There has also been several allegations that some of the occupants of the DLBA homes were defrauded by individuals who had no true ownership of the property resulting in the fraudulent landowner criminally taking the occupant's money. The unscrupulous actions of the fraudulent landowner and the alleged failure of the DLBA of not properly giving the occupants an opportunity to participate in the Buy Back program further victimizes the defrauded residents; and

WHEREAS, It is the will of the Council that this situation be investigated and for the truth to be revealed. The Office of Inspector General (OIG) investigates waste, abuse, fraud, and corruption in City government. The jurisdiction of the OIG extends to all employees, contractors and those seeking to do business with the City of Detroit; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council requests that the Office of Inspector General conduct an audit of the Detroit Land Bank Authority, specifically focused on the Buy Back program for occupied homes, in order to identify any malfeasance or non-compliance which may have led to eligible Detroiters being denied participation in the program. BE IT FURTHER

RESOLVED, If there is any criminal behavior revealed, it is also suggested that the criminal matters be forward to the Detroit Police Department; BE IT FINALLY

RESOLVED, Copies of this resolution shall be provided to Mayor Mike Duggan and the Office of Inspector General.

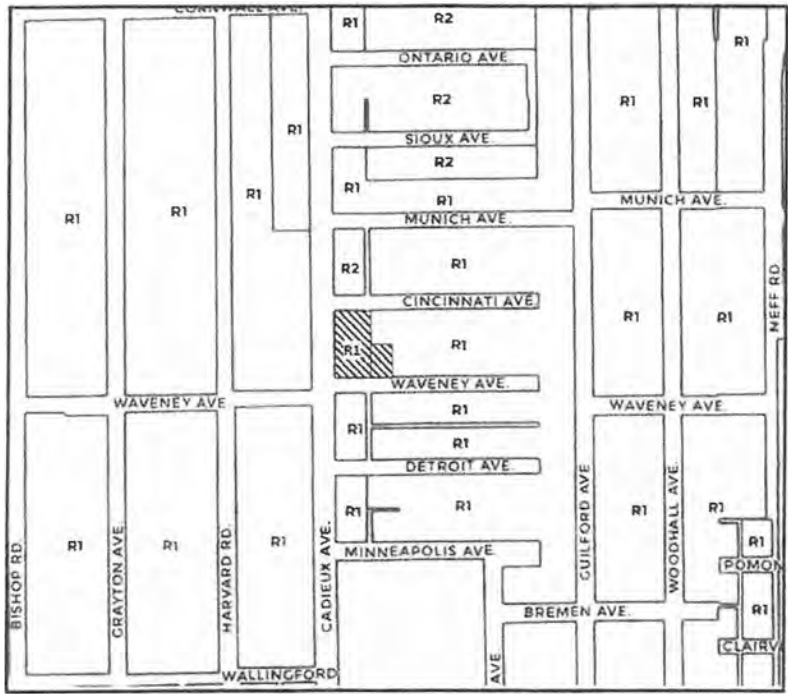
PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

City Planning Commission

January 5, 2023

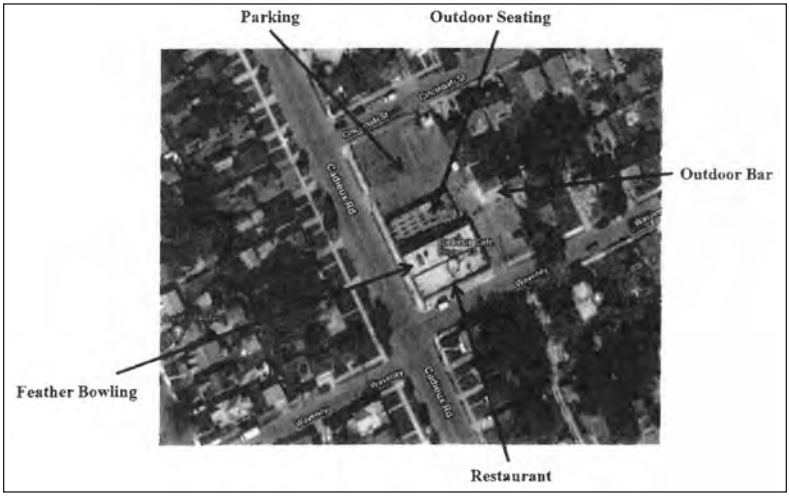
Honorable City Council:

Re: Request of Cadieux Real Estate, LLC to amend Article XVII, Section 50-17-41, District Map No. 39 of the 2019 Detroit City Code, Chapter 50, Zoning, to show a B4 (General Business District) zoning classification where an R1 (Single-Family Residential District) zoning classification is currently shown. (**RECOMMEND APPROVAL — ORDINANCE INCLUDED TO SET A PUBLIC HEARING)**



The City Planning Commission (CPC) has received a request from Cadieux Real Estate, LLC to amend Article XVII, Section 50-17-41, District Map No. 39 of the 2019 Detroit City Code, Chapter 50, Zoning, to show a B4 (General Business District) zoning classification where an R1 (Single-Family Residential District) zoning classification is currently shown on eight parcels generally bounded by Cincinnati St. to the north, Waveney St. to the south, Cadieux Rd. to the west, and Guilford to the east.

The proposed map amendment is being requested in order to align the existing zoning with the historic and current use of the parcels. The subject is proposed to continue its current use as a restaurant, parking, indoor recreation (feather bowling) and outdoor seating as well as to expand to include an outdoor stage and entertainment space. Additionally, there is a small structure just east of the Cadieux Café building (originally built as a garage) that is being used to serve alcohol for consumption on the premises for the outdoor entertainment space. The outdoor uses were added during the height of the COVID-19 pandemic to allow the restaurant to continue to serve its customers. These uses are not allowed in the current R1 zoning district but are allowed by-right and conditionally in the proposed B4 district.



BACKGROUND AND REQUEST

The subject property is located in Council District 4 and measures at approximately 0.6 acres in area. The subject property contains Cadieux Café, a restaurant that has operated on the site for over 80 years. The restaurant was founded on Detroit's east side in the 1930s as a speakeasy and has operated as a neighborhood gem ever since. Cadieux Café is well known for its feather bowling alleys and Belgian culture and cuisine.

The subject property includes the restaurant building, patron and staff parking, outdoor seating, outdoor bar, and outdoor stage. The property also includes an alley that was vacated in 1996 according to Petition No. 1957 of the Department of Public Works City Engineering Division. The proposed area to be rezoned is shown on the zoning map below.

The petitioner is proposing the change in zoning to align the current zoning with the historic and current use on the premises. Additionally changing the zoning would allow the petitioner to seek approval of their various uses through the conditional land use process conducted by BSEED and apply for the proper permitting.

The restaurant is known for its feather bowling, which is a traditional Belgian game. In fact, the restaurant is one of the few places outside of Belgium that hosts a feather bowling league. The restaurant's Belgian cuisine and beer, live music, and "old world charm" have made it a consistent attraction for residents in the East English Village and Cornerstone Village neighborhoods that it borders, as well as visitors from all over the country. The restaurant was even featured on the late Anthony Bourdain's tv show, No Reservations, when he visited Detroit in 2009.

COMMUNITY FEEDBACK AND PUBLIC HEARING RESULTS

Pre-hearing Feedback

The petitioner reached out to the neighborhood associations of East English Village (EEV) and Cornerstone Village to inform them about the proposed rezoning. The petitioner also attended an East English Village Association meeting and gave a presentation on their plans to rezone. The feedback from the attendees was positive and the EEV board voted unanimously to support the rezoning and sent a letter of support. In addition, the Cornerstone Village Community Association provided a letter of support prior to the CPC public hearing.

CPC Hearing Results

On September 29, 2022, the City Planning Commission held a public hearing on the proposed rezoning. 3 members of the public spoke, all in support of the rezoning. One community member who owns property near Cadieux Café spoke to the restaurant being a cornerstone of the community and how well the owners maintain their property and the surrounding community. The president of the Cornerstone Village Community Association also spoke in support of the proposed rezoning.

PLANNING CONSIDERATIONS

Current Zoning

R1 — SINGLE-FAMILY RESIDENTIAL DISTRICT

The R1 Single-Family Residential District is designed to protect and preserve quiet, low-density residential areas now primarily developed and those areas which will be developed with single-family detached dwellings and characterized by a high ratio of home ownership. The regulations for this district are designed to stabilize and protect the essential characteristics of the district and to promote and encourage a suitable environment for activities associated with family life. To these ends, development is limited to a relatively low concentration and uses permitted by right are limited to single-family detached dwellings which provide homes for the residents of the area. Additional residential uses such as religious institutions, neighborhood centers, and utility uses necessary to serve the immediate area may be permitted on a conditional basis.

Proposed Zoning

B4 — GENERAL BUSINESS DISTRICT

The B4 General Business District provides for business and commercial uses of a thoroughfare-oriented nature. In addition to these uses, other businesses, which may benefit by drawing part of their clientele from passing traffic are permitted. Additional uses, which may be successfully blended with permitted by-right uses, are conditional.

Surrounding Zoning and Land Use

The zoning classification and land uses surrounding the subject area are as follows:
North: R2 (Two-Family Residential)
East: R1 (Single-Family Residential)
South: R1 (Single-Family Residential)
West: R1 (Single-Family Residential)

Zoning Ordinance Criteria

Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. The CPC analysis of the criteria is as follows:

1. Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact; *The proposed map amendment would align the historic and current use of the subject property with current zoning standards.*

2. Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance; *The subject site is located within the Finney area of Neighborhood Cluster 3 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Low Density (RL) in the Master Plan. The Planning & Development Department (P&DD) has provided a Master Plan Interpretation and found the proposed rezoning to be generally consistent with the Master Plan classification. P&DD stated that*

while the proposed zoning classification is not consistent with the Master Plan's Future General Land Use classification, its small size is not anticipated to change the overall character of the Finney neighborhood.

3. Whether the proposed amendment will protect the health, safety, and general welfare of the public; *The restaurant has been in operation for over 80 years and therefore, CPC is of the mind that the proposed map amendment will not have any negative impact on the health, safety, and general welfare of the public.*

4. Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development. *It is assumed the City will be able to provide adequate services to the subject property.*

5. Whether the proposed rezoning will have significant adverse impacts on the natural environmental including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management. *It is not anticipated the proposed rezoning would adversely impact the natural environment.*

6. Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract. *It is not anticipated the proposed rezoning will have significant adverse impacts on other property that is in the vicinity. As a part of the conditional land use hearing for the various operations of the restaurant, the City Planning Commission has recommended that BSEED explore additional screening between the restaurant and the adjacent property owners.*

7. The suitability of the subject property for the existing zoning classification and proposed zoning classification; *The R1 (Single-family residential) zoning district does not allow any of the restaurant's uses either by-right or conditionally. Therefore, the subject property is a nonconforming use. Under the proposed B4 (General Business) zoning district, the restaurant and indoor recreation (feather bowling alley) use would be allowed by-right. In addition, the cabaret (outside of the CBD) and establishment for the sale of beer or alcoholic liquor on the premises (outside the CBD) uses could apply to receive approval from BSEED through the conditional land use hearing process.*

8. Whether the proposed rezoning will create an illegal "spot zone." *Due to the historic nature of the Cadieux Café restaurant and its place as a neighborhood gem, the City Planning Commission does not believe that the proposed rezoning will create a spot zone.*

RECOMMENDATION

Based on the above analysis and consistent with the approval criteria of Sec. 50-3-70 of the Zoning Ordinance, the CPC voted at its September 29, 2022, meeting to recommend approval of the rezoning request. The approved-as-to-form Ordinance is attached for your consideration.

Department of Public Works

March 24, 2023

Honorable City Council:

Re: Resolutions to Continue the Issuance of Outdoor Dining Permits on a Street, Alley, or Public Easement, from April 1, 2023-June 30, 2023.

Throughout the progression of the novel coronavirus (COVID-19), the outdoor dining program supported businesses by providing additional opportunities to maximize customer capacity while meeting public health guidelines. The program has since become a popular and successful means

for the City of Detroit to support local businesses. The Department of Public Works (DPW) now seeks to continue supporting this effort by extending the streamlined process for eating and drinking establishments to obtain permits for outdoor dining spaces on streets, alleys, or public easements, to help ensure that these areas remain active and bustling. Previous resolutions allow for the current streamlined process to continue through March 31st, 2023.

To continue this program, DPW is submitting the attached resolutions, which if approved by City Council, shall serve as legislative authorization for the expedited issuance of outdoor dining café permits and for the temporary closures of a street, alley, or public place by DPW during the 2023 seasonal period of April 1st, 2023 through June 30th, 2023.

During the proposed seasonal extension through June 30th, a working group will be convened in partnership with City Council to determine the feasibility of a permanent program and develop any procedures and legislation necessary to implement a permanent program beyond the extension period, if applicable.

These resolutions acknowledge that businesses will still be required to request permits for individual outdoor cafés, and that these requests will still be subject to approvals by all applicable city agencies, including DPW, DPD, BSEED, Health, Housing & Revitalization, as well as the Michigan Liquor Commission, if alcohol is to be consumed in the seating area, and Health's Food & Safety Division if outdoor grilling of food is desired. These resolutions, if approved by Council, will eliminate steps that will have to be repeated for multiple businesses, helping to ensure that all businesses that desire to have outdoor cafés have approved permits in place in time for the upcoming season.

Respectfully submitted,
RON BRUNDIDGE
Director
Department of Public Works

By Council Member Santiago-Romero:

Whereas, Outdoor dining cafés are designated areas on a street, alley, or public easement where customers may retrieve and/or consume food and/or beverages provided by an abutting food service establishment. Such establishments may provide either table service in the outdoor dining area or sell takeout items to be consumed in that area; and

Whereas, Seasonal outdoor dining cafés generally operate during the months of April through November; and

Whereas, Pursuant to Chapter 43, *Streets, Sidewalks, and Other Public Places,* Article 8, *Encroachments and Obstructions,* Section 43-8-23, *Temporary Encroachments,* of the 2019 Detroit City Code, states that "the City Council shall only approve an encroachment after receiving a report from the Department of Public Works and the Planning and Development Department"; and

Whereas, The 2019 Detroit City Code indicates that the permit application must also be reviewed by various City departments, including the Department of Public Works, Police, Health, Buildings, Safety, Engineering, and Environmental, as well as the Historic District Commission and Michigan Liquor Commission; and

Whereas, The food service establishments in the City of Detroit operate on increasingly thin margins as the local, state, and national economies continue to rebound in the wake of the COVID-19 crisis; and

Whereas, The City established an expedited permit process for the issuance of outdoor café permits as a response to the COVID-19 crisis, and has continued such program which allows for additional space for businesses to maximize customer capacity; and

Whereas, The City of Detroit is eager to continue supporting the active operation of businesses in a safe manner that protects the patrons and employees of the restaurant industry by continuing the expedited permitting process; and

Whereas, The Department of Public Works and the Planning and Development Department have created a report, attached to this resolution, identifying the criteria that must be met in order for an outdoor café permit to be approved; and

Whereas, The Department of Public Works shall regularly inspect businesses operating under an Outdoor Café Permit to determine compliance with the permit requirements to enable their continued operation; and

Whereas, This Honorable Body acknowledges the, City's objective to support local businesses and allow for such businesses to maximize their use of available outdoor space; and Now Therefore Be It

Resolved, That the Detroit City Council approves an expedited permit for this streamlined process and grants approval of all outdoor café permits submitted for outdoor dining café seating areas for all licensed food service establishments for the 2023 season that meet the criteria in the attached report; and Now Therefore Be It

Further Resolved, That upon fulfillment of the criteria to operate an outdoor dining café in a street, alley, or public easement, and the accurate completion and submission of the application for an outdoor café permit, the food service establishment shall receive a permit from the Department of Public Works to operate within the street, alley, or public easement so identified; and Now Therefore Be It Further

Further Resolved, That the Department of Public Works shall provide a report to

the Detroit City Council commencing 30 days from the adoption of this resolution, and every 30 days thereafter, identifying any outdoor café permit issued for the preceding 30 days; and, Now Therefore Be It

Finally Resolved, That the expedited process authorized by this resolution, and the grant of approval by this Honorable Body, shall only apply to licensed food service establishments and shall expire on June 30, 2023.

RESOLUTIONS

RESOLUTION TO RECOGNIZE APRIL 11-17, 2023 AS BLACK MATERNAL HEALTH WEEK

By Council Member Santiago-Romero:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Maternal mortality rates in the United States are among the highest of any member country of the Organization for Economic Co-operation and Development and increasing rapidly, from 20.1 deaths per 100,000 live births in 2019 to 32.9 deaths per 100,000 live births in 2021; and

WHEREAS, The U.S. has the highest maternal mortality rate among affluent countries, in part because of the disproportionate mortality rate of Black women and span across all income levels, education levels, and socioeconomic status; and

WHEREAS, According to the Centers for Disease Control and Prevention, Black women in the United States are 2.6 times more likely than white women to die from pregnancy-related causes; and Black women in the United States suffer from life-threatening pregnancy complications, known as "maternal morbidities", twice as often as white women, and are 49 percent more likely than all other women to deliver prematurely; and

WHEREAS, COVID-19, which has disproportionately harmed Black Americans, is associated with an increased risk of adverse pregnancy outcomes and maternal and neonatal complications, further highlighting issues within the broken health care system in the United States and the harm of the system to Black women and birthing persons;

WHEREAS, Data from the Centers for Disease Control and Prevention has indicated that since the COVID-19 pandemic began, the maternal mortality rate for Black women has increased by 26 percent;

WHEREAS, Structural racism, gender oppression, and the social determinants of health inequities experienced by Black women and birthing persons in the United States significantly contribute to the disproportionately high rates of maternal mortality and morbidity among Black women and birthing persons;

WHEREAS, Racism and discrimination play a consequential role in maternal health care experiences and outcomes of Black birthing persons;

WHEREAS, Black midwives, doulas, perinatal health workers, and community-based organizations provide holistic maternal care but face structural and legal barriers to licensure, reimbursement, and provisions of care;

WHEREAS, A fair and wide distribution of resources and birth options, especially with regard to reproductive health care services and maternal health programming, is critical to closing the racial gap in maternal health outcomes;

WHEREAS, Even as there is growing concern about improving the access to mental health services, Black women are least likely to have access to mental health screenings, treatment, and support before, during and after pregnancy;

WHEREAS, Black pregnant and postpartum workers are disproportionately denied reasonable accommodations in the workplace, leading to adverse pregnancy outcomes;

WHEREAS, Black pregnant women disproportionately experience surveillance and punishment, including shackling incarcerated people in labor, drug testing mothers and infants without informed consent, separating mothers from their newborns, and criminalizing pregnancy outcomes;

WHEREAS, Justice-informed, culturally congruent models of care are beneficial to Black women; and NOW, THEREFORE, IT BE

RESOLVED, That the Detroit City Council recognizes that Black women are experiencing high, disproportionate rates of maternal mortality and morbidity in the United States as unacceptable, and in order to better mitigate the effects of systemic and structural racism, all levels of government must work toward ensuring that the Black community has —

1. Safe and affordable housing;
2. Transportation equity;
3. Nutritious food;
4. Clean air and water, and environments free from toxins;

RESOLUTION TO RECOGNIZE APRIL AS SEXUAL ASSAULT AWARENESS MONTH

By Council Member Santiago-Romero:

WHEREAS, Sexual violence affects all people, regardless of geography, race, age, ethnicity, gender, religion, sexual orientation, gender identity, or economic background; and

WHEREAS, Sexual violence is widespread and has public health implications for every resident of Detroit, where the rate of sexual assault has increased in recent years; and

WHEREAS, According to the Centers for Disease Control and Prevention (CDC), nationally one in three women and one in four men have experienced some form of sexual assault in their lifetime, and one in four women and 1 in 26 men have survived a rape or attempted rape; and

WHEREAS, Sexual violence can have profound long-term impacts on survivors, including PTSD, anxiety, depression, self-harm/suicide, substance abuse, eating disorders, etc.; and

WHEREAS, We must be vigilant to address sexual assault wherever it occurs, whether it is in our homes, workplaces, schools, places of worship, public spaces, or online; and

WHEREAS, Child sexual abuse prevention must be a priority to confront the reality that, according to the CDC, about one in 13 boys and one in four girls will experience sexual assault before age 18, which can lead to lifelong shame and trauma; and

WHEREAS, It is also imperative to address sexual assault in institutions of higher learning, where 13 percent of students are sexually assaulted during their time in college[1]; and

WHEREAS, Even with a noticeable increase in sexual assault awareness over the last few years due to social movements like Me Too, two-thirds of sexual assaults are still tragically unreported according to the Department of Justice; and

WHEREAS, The City has a responsibility to increase awareness of sexual assault, to support survivors, to encourage survivors to come forward without shaming them, and to hold perpetrators of sexual assault accountable for their actions; and

WHEREAS, It is particularly vital for the City of Detroit to demonstrate visible action on this issue considering that DPD notoriously let thousands of rape kits go untested for decades, thereby contributing to the feelings of survivors that it is pointless to report sexual assault; and

WHEREAS, We must all work together to educate our community about consent, efforts to prevent sexual assault, and ways to support survivors; and

WHEREAS, The Detroit City Council strongly supports the efforts of national, state, and local partners, and of every citizen to actively engage in public and private efforts, including conversations about what sexual violence is, how to prevent it, how to help survivors connect with services, and how every segment of our society can work together to better address sexual violence; and

WHEREAS, The Detroit City Council is mindful of the fact that sexual assault remains a serious issue in our society, that harmful attitudes allow these crimes to persist and survivors to be revictimized, and the importance of each of us speaking out against it in order to change attitudes which allow sexual assault to persist; and

WHEREAS, Sexual Assault Prevention and Awareness Month calls attention to misconceptions and misinformation

about sexual assault, and it is important that we rededicate ourselves to creating a society where sexual assault is not tolerated, survivors are supported and all persons in our community can live without fear of sexual assault; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council recognizes April as Sexual Assault Awareness Month; THEREFORE BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to Mayor Mike Duggan and to major local news media outlets.

MEXICAN PATRIOTIC COMMITTEE OF METRO DETROIT PLANNING THE 58TH CINCO DE MAYO PARADE TO END WEEKEND CELEBRATIONS Annual Parade Procession on Sunday, May 7, 2023

April 1, 2023

The Mexican Patriotic Committee of Metropolitan Detroit is preparing to host the 58th Annual Cinco de Mayo Parade on Sunday, May 1, 2022. The 3-mile parade route will start from Woodmere Street and will travel east along Vernor Hwy., ending at 21st Street. The parade will begin at 12 noon. A cultural and musical fiesta is also planned at Bagley and 21st Streets on Friday (May 5) 4 p.m. - 8 p.m., Saturday (May 6) 12 p.m. - 8 p.m., & Sunday (May 7) 1 p.m. - 8 p.m. For this, MPC notifies the public that 21st Street will be closed during Fiesta times all 3 days, and Vernor Hwy. will be closed for the length of the parade from 11:30 p.m. - 2:30 p.m. on that Sunday, May 7th.

Each year, this parade celebrates the Battle of Puebla (Batalla de Puebla) that took place on the 5th of May 1862, near Puebla City, Mexico. The battle ended in a victory over the French Army which galvanized Mexican resistance and led to France retreating completely 6 years later. The under-manned Mexican Army's victory signifies the legacy of resilience and strength over powerful forces. In today's climate, MPC celebrates the legacy of Detroit's Latino cultural heritage, the strength of its people, and the promise of successful thriving businesses in Southwest Detroit.

The Committee is seeking float/ procession participants for this year's parade. Applications are available at Plaza del Sol, please contact the Committee to schedule an appointment at 313-518-4354 or the parade Chairman. Juan Carrion at 313-633-7319. Office of the Chief Financial Officer
Office of the Assessor

January 17, 2023

Dear Ms. Trudeau:

Re: Commercial Redevelopment District 2150 Bagley LLC, 2150 Bagley. Parcel Number: 10004862.

The Office of the Chief Financial Officer, Office of the Assessor, has reviewed the proposed Commercial Redevelopment District for the property located at 2150 Bagley in the Corktown area of the City of Detroit.

The rationale for creating Commercial Redevelopment Districts under PA 255 of 1978, as amended, is based on the anticipation of increased market value upon completion of new construction and/or significant restoration of commercial and former industrial property where the primary purpose and use of which is the operation of a commercial business enterprise and shall include office, engineering, research and development, warehousing parts distribution, retail sales, hotel or motel development, and other commercial facilities. Commercial business enterprise also includes a business that owns or operates a transit-oriented development or a transit-oriented facility. Normal repair and maintenance are not assessed and do not necessarily generate additional market value.

The district as proposed by 2150 Bagley LLC consists of mixed use two story commercial property with approximately 24,590 square feet on 0.200 acres of land. The owner proposes to convert the property to 10,000 sq. ft. of commercial space and 14 residential apartment units. The restoration requires extensive reconfiguration and upgrades, including replacement of substantial portions of carpentry, roofing, windows, glass, drywall, flooring, plumbing, and HVAC. This CFT request is solely for the commercial portion of the property.

This area meets the criteria set forth under PA 255 of 1978, as amended. It applies to functionally obsolete properties requiring restoration meaning changes to obsolete commercial property other than replacement as may be required to restore the property, together with all appurtenances, to an economically efficient condition.

A review of the project details and applicable statutes indicates that the proposed Commercial Redevelopment District located at 2150 Bagley is eligible as it pertains to the Commercial Redevelopment Act under P.A. 255 of 1978, as amended.

Sincerely,
CHARLES ERICSON, MMAO
Assessor, Board of Assessors

RESOLUTION URGING HUD TO PROVIDE TENANT PROTECTION VOUCHERS TO RESIDENTS OF THE HIMELHOCH APARTMENT BUILDING

By Council Member Santiago-Romero:

WHEREAS, On March 21, 2023, several senior residents of the Himelhoch Apartments, located at 1545 Woodward Avenue in Detroit, MI, attended the City Council formal session and expressed their concerns that they may be forced to relocate as part of a new Brush Park development plan by American Community Developers (ACD); and

WHEREAS, Mike Essian, vice president of ACD, told the Council that the tenants' concerns were based on a misunderstanding of the notices that ACD provided to tenants regarding the new development, and that ACD does not intend to force any residents to relocate. On April 4, 2023, Essian stated before City Council that Himelhoch residents will have the option to relocate to the new Brush Park development, and their rent would continue to be based on their income; and

WHEREAS, Essian also informed the Council that ACD has requested tenant protection vouchers from the U.S. Department of Housing and Urban Development (HUD), which would allow tenants to stay in their current apartments without any increase in rent; and

WHEREAS, City Council fully supports all efforts that will prevent the displacement of the senior residents of the Himelhoch Apartments; NOW THEREFORE BE IT

RESOLVED, The Detroit City Council strongly urges HUD to approve the requested tenant protection vouchers for residents of the Himelhoch Apartments who wish to stay in their apartments; THEREFORE, BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to the Department of Housing and Urban Development's Office of Housing Choice Vouchers and to American Community Developers.

Petition No. x2023-093 — DPW, City Engineering Division, request to dedicate land for the purposes of public Right-of-Way for what is now currently known as Martin Luther Kind Jr. Blvd., 124-130 ft. wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The purpose of this request is to officially dedicate land acquired for the purpose of converting Myrtle Street into Martin Luther King Jr. Blvd. Construction for the conversion of Myrtle Street to Martin Luther King Blvd. occurred in the latter half of the 1980s. It has come to DPW's attention that certain steps to dedicate land owned by the City of Detroit within some parts of the construction area were not completed. This resolution acts to officially dedicate parts of Martin Luther King Blvd.

Re: Application for Neighborhood Enterprise Zone Certificate for Core City Area.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of one (1) application for Core City for a Neighborhood Enterprise Zone Certificate. City Planning Commission

April 27, 2023

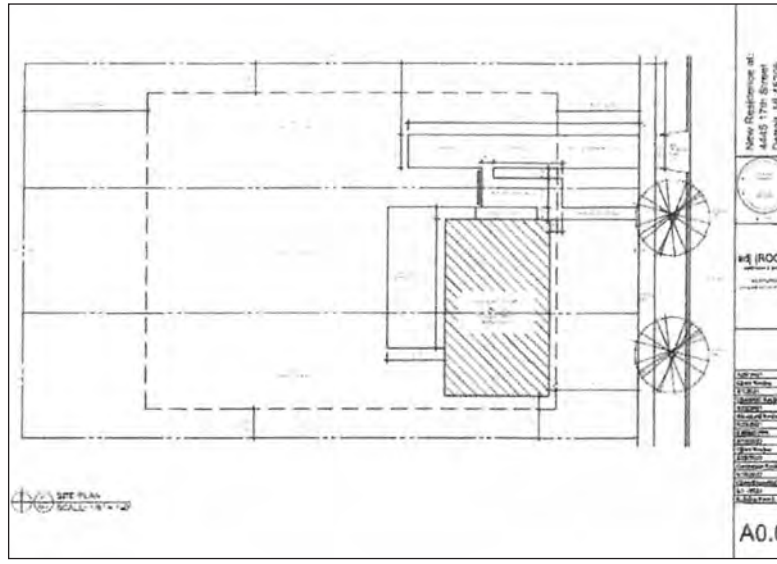
Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the construction of a new single-family house at 4445 17th Street in the Core City Neighborhood Enterprise Zone area. **(RECOMMEND APPROVAL)**

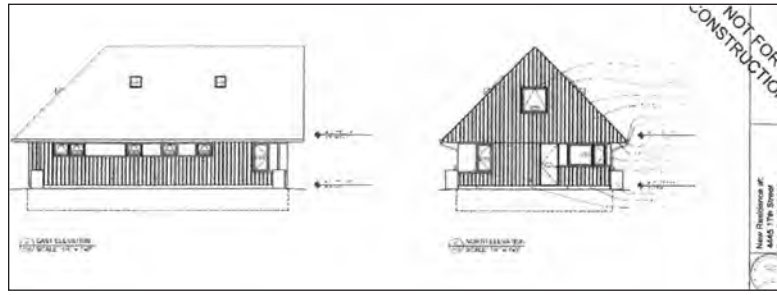
The office of the City Clerk forwarded to the City Planning Commission (CPC) an application requesting a 15-year Neighborhood Enterprise Zone (NEZ) certificate for the construction of a single-family house at 4445 17th Street.

The petitioners are Nicholas Dowgwillo and Laura Amtower who plan to build and reside in the house. The property is vacant land on the west side of 17th Street between Buchanan and West Forest Avenues.

The applicants are proposing to build a single-family house containing 1,050 square feet with 2 bedrooms and 2 bathrooms. The estimated project cost is $316,000.



The subject property has been confirmed as being within the boundaries of the Core City NEZ, which was established by City Council on November 16, 2004 and should be eligible for NEZ certificate under the State NEZ Act (Act 147 of 1992) as currently written.



The NEZ Act (Act 147 of 1992) states the application for the certificate must be filed before a building permit is issued. However, the NEZ Act allows a certificate to be filed not later than 6 months following the date the building permit is issued provided the local government allows by resolution. The petitioner indicates the building permit issued October 20, 2022, and the certificate was applied for afterwards on March 30, 2023.

CPC staff has reviewed the application and recommends approval. Attached is a resolution for Your consideration. Please contact our office should you have any questions.

Human Resources
Classification and Compensation Administration

April 20, 2023

Honorable City Council:

Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2022-2023 Official Compensation Schedule:

1. To include pay range adjustments for the following classifications:

Class Code	Title	Barg Unit
26-30-47	Veterinarian Animal Control	9000
26-30-31	Senior Veterinarian	9000

Request:

The above recommendation is at the request of the Animal Care Division of the Health department.

Rationale:

Animal Care has found it increasingly difficult to find qualified Veterinarian staff for their group due to challenges related to high stray counts, above-average euthanasia treatments, and poor facility infrastructure in comparison to nearby municipalities and shelter facilities. Additionally, it's anticipated that due to the talent shortage of qualified individuals in this industry, Animal Care will need to source candidates nationwide. Animal Care seeks a competitive wage range so that they can attract and develop talent, fully staff operations, and deliver the services with in-house personnel.

As a result of the issues noted above, Human Resources Classification and Compensation was asked to evaluate the Veterinarian and Senior Veterinarian classifications. The evaluations were conducted by completing a market study using data from external sources for comparable positions. The results indicate that the pay ranges for these classifications must be adjusted to reflect hiring with consideration to the challenges mentioned above.

The proposed pay ranges are based on the City of Detroit's ability to fund the increases and are subject to City Council approval.

Respectfully submitted,
DENISE STARR
Human Resources Director

Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2022-2023 Official Compensation Schedule:

1. To include pay range adjustments for the following classification:

Class Code	Title	Salary Range	Barg Unit
33-90-13	Animal Care Technician II	$32,100 - $44,900	8000

2. To include the attached pay range adjustments.

Request:

The above recommendation is at the request of the Animal Care and Control Divisions of the Health and General Services departments.

Rationale:

Animal Care and Control has struggled to fully staff its operations. The divisions have found it increasingly difficult to fully staff their groups due to challenges related to high stray counts, above-average euthanasia treatments, and poor facility infrastructure in comparison to nearby municipalities and shelter facilities. Animal Care and Control seeks a competitive wage so that they can attract and develop talent, fully staff operations, and deliver the services with in-house personnel.

As a result of the issues noted above, Human Resources Classification and Compensation was asked to evaluate several Animal Care and Control classifications. The evaluations were conducted by completing a market study using data from external sources for comparable positions. The results indicate that 3 of the 5 classifications have pay ranges that are not competitive. The remaining roles (Veterinarian Technician and Animal Shelter Assistant) have pay ranges that must be adjusted to reflect hiring with consideration to the challenges mentioned above. The new classification of Animal Care Technician II has been developed to alleviate the burden of the euthanasia responsibilities and evenly distribute them between all qualified roles.

The proposed pay ranges are based on the City of Detroit's ability to fund the increases and are subject to City Council approval.

Respectfully submitted,

Re: Request to Amend the Official Compensation Schedule.

Recommendation is submitted to amend the 2022-2023 Official Compensation Schedule to include the following pay range, subject to City Council approval:

Class Code	Classification	Salary Range	Step Code
13205140	Pension Investment Officer	$151,099 - $217,502	K

Request:

The above recommendation is occasioned by a request from David Cetlinski, Executive Director Pension.

Rationale:

The above request and recommendation is based on the ability to attract and retain essential personnel in the Pension Department.

The Pension Benefits Administration department requested a new classification to be created for the Pension Investment Officer role. From conversations with the Executive Director, it was decided that each candidate that filled this role would ultimately handle one of the two main retirement systems for the City: the General or Police & Fire. These individuals are responsible for the oversight, implementation, evaluation, and management of their distinct plan with approximately $2-$3 billion in assets under management, respectively.

The outcome of the external analysis along with discussions with the Executive Director indicated that the range for this role would be built off the decisioning of the Investment Committee. In the POA sections 15.4 and 16.4, it states that the Investment Committee shall determine any and all compensation and other terms of employment of any Investment Officer hired by it. Based upon the results. Classification and Compensation recommends a pay range of $151,099 - $217,502. The proposed salary recommendation is subject to City Council approval.

March 31, 2023

Honorable City Council:

Re: Resolution urging the Michigan Legislature to support SB 136 and HB 4177 of 2023.

Council Member Scott Benson requested that the Legislative Policy Division (LPD) draft a resolution urging the Michigan legislature to support SB 136 and HB 4177 of 2023.

Please contact us if we can be of any further assistance.

RESOLUTION URGING THE MICHIGAN LEGISLATURE TO SUPPORT SB 136 AND HB 4177 OF 2023

By Council Member Benson:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, With society facing issues such as poverty, inequality, intolerance and discrimination, museums can help us understand, debate, and challenge these concerns. Museums can increase our sense of wellbeing, help us feel proud of where we have come from, can inspire, challenge and stimulate us, and make us feel healthier; and

WHEREAS, According to the Museums Association, museums can also enhance everyone's life chances by breaking down barriers to access and inclusion. Museums are doing this through active public participation, engaging with diverse communities, and sharing collections and knowledge in ways that are transforming lives; and

WHEREAS, In Detroit, the Detroit Historical Society raises funds, recruits volunteers, and ensures that the Detroit Historical Museum, the Dossin Great Lakes Museum and Historic Fort Wayne (which opened as a City-owned and operated historical attraction in the 1970s) maintains a vibrant presence in Detroit's cultural landscape; and

WHEREAS, Also in the city, for over half a century, the Charles H. Wright Museum of African American History has opened its doors to provide its guests to exhibit the rich cultural legacy of African Americans. The 125,000 square foot museum, named for its founder Charles Wright, includes both permanent and rotating exhibits, as well as a library and theater, tells the story of the African American experience from the beginning of time to the presidency of Barack Obama and beyond; and

WHEREAS, However, due to limited funding, the future viability of these venerable institutions is at risk. There is a need to identify an additional funding source for these institutions. Ideally, two pending pieces of State legislation if passed, should generate a new source of funding for the aforementioned historical institutions; and

WHEREAS, In March of this year, the Michigan State Senate and House introduced Senate Bill (SB) 136 and House Bill (HB) 4177 of 2023 respectively. As proposed, these bills would provide for the creation of a history museum authority and for the powers and duties of said authority. Once approved, the bills would authorize the levy and collection of a property tax by a history museum authority; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges that the Michigan legislature, and the Governor, support SB 136 of 2023 and HB 4177 of 2023, in order to provide additional support for Detroit's historical museums; NOW THEREFORE, BE IT FINALLY

RESOLVED, Copies of this resolution shall be provided to the Detroit delegation of both the Michigan Senate and House, Governor Gretchen Whitmer, Mayor Mike Duggan, GCSI the City of Detroit's lobbying firm in Lansing, as well as media and residents.

RESOLUTION SUPPORTING THE REPEAL OF PA 389 OF 2016

Council Member Whitfield-Calloway:

WHEREAS, In 2016, the Michigan Legislature enacted 2016 PA 3 89, which bars local governments from creating any ordinance that taxes or bans "auxiliary containers." Under the statute, "auxiliary containers" include a variety of containers and materials, however the primary focus of the legislation is plastic shopping bags and single-use plastic containers; and

WHEREAS, The state's Michigan Water Stewardship program estimates that roughly 80% of litter on the Great Lakes Shore Line is plastic and that nearly 22 million pounds of plastic debris enters the Great Lakes every year; and

WHEREAS, The United States Geological Survey found that there are 112,000 particles of microplastics per square mile of Great Lakes water, which are largely from single-use plastic bags and containers. While the effects of ingesting microplastics are still being studied, research suggests that ingestion of microplastics may cause cancer, affect development, and harm immunity in both humans and wildlife; and

WHEREAS, As the Great Lakes State, Michigan bears the responsibility of ensuring the health and sustainability of the Great Lakes and all contributing waterways, which are a global treasure and the largest group of freshwater lakes on Earth; and

WHEREAS, Most plastic bags that are currently used cannot be recycled and are not biodegradable, so after a single use they remain around for years in landfills, neighborhoods, streets, parks, waterways, and clogging wastewater treatment; and

WHEREAS, Plastic bags and other single-use containers are a pervasive form of pollution and litter in our communities which, in addition to being harmful to the environment, affects the aesthetic value and our perception of the places where we live; and

WHEREAS, Scientists across the globe have been giving increasingly alarming warnings about what will happen unless there is a global effort to address climate change. According to the United Nations Development Programme, the plastics industry is the fastest growing source of industrial greenhouse gases in the world, and could account for 19% of the global carbon budget by 2040; and

WHEREAS, Nearly all of the plastics that we use currently originate from fossil fuels and emit greenhouse gases at every stage of production — from extraction and transportation of fossil fuel, to the refining process, to being dumped in the ocean where they inhibit the ocean's capacity to absorb and sequester carbon dioxide; and

WHEREAS, Proponents of PA 389 of 2016 argue that allowing local governments to restrict the use of plastic bags and single-use containers would be a burden on business owners and consumers, and would create confusion if local governments had different restrictions; and

WHEREAS, While allowing local governments to restrict plastic bags and single-use containers would create more of a burden on businesses and consumers, PA 389 is so broad that it prevents even the most simple and common-sense solutions, such as requiring stores to provide reusable bags for sale or providing containers made of a more sustainable material for a small fee; and

WHEREAS, Plastic pollution is disastrous to the health of all living things, and it requires policymakers at the local, state, national, and global level to take action to prevent further environmental catastrophe; and

WHEREAS, PA 389 of 2016 is overly broad, overly restrictive, and it inhibits local governments from being able to address their specific local environmental concerns and from exploring innovative solutions to address climate change; NOW, THEREFORE, BE IT

RESOLVED, That the City of Detroit calls for the repeal of Public Act 389 of 2016; THEREFORE, BE IT FURTHER

RESOLVED, The City Council fully supports Senate Bill 228 of 2023 and urges the Michigan Legislature to enact Senate Bill 228, which would repeal Public Act 389; THEREFORE BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to send this resolution to the Detroit delegations of both the Michigan State House and Senate, in addition to Governor Gretchen Whitmer.

RESOLUTION ON VETERANS TASK FORCE

WHEREAS, The heart of our nation lies in the service and dedication of those who sacrificed and defended our country in our armed services; and

WHEREAS, It is our duty to ensure those who gave so much are supported after they leave the service; and

WHEREAS, Detroit is proud to count many veterans among our population, people who have honorably served in our uniformed services throughout times of peace and conflict; and

WHEREAS, Our veterans have enriched our community, starting businesses, teaching in our schools, lending their experience as first responders, and more; and

WHEREAS, City Council has recognized the need for a Veterans Task Force in the past to work together to provide the support and assistance for our veterans that they deserve; therefore

BE IT RESOLVED, That the Detroit City Council hereby establishes the Veterans Task Force to be co-chaired by Council Member Mary Waters and Mr. Ronald Foster, effective immediately and continuing through December 31, 2023; and

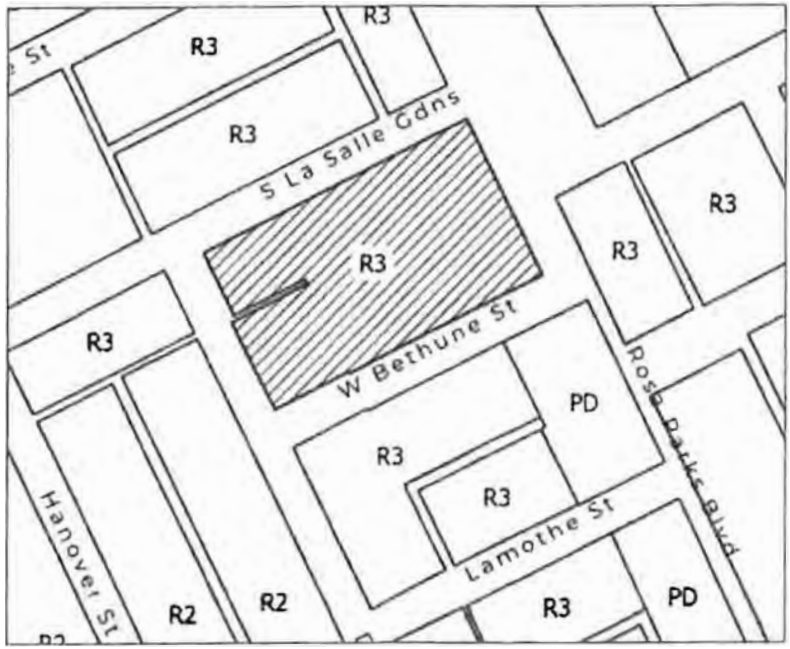
UNFINISHED BUSINESS

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

City Planning Commission

December 9, 2022

Honorable City Council:



Re: Request of Parkstone Development and the Detroit City Planning Commission to show an SD1 (Special Development, Small-Scale, Mixed-Use) zoning district where an R3 (Low Density Residential) is currently shown for seven parcels commonly known as 7601 Rosa Parks Boulevard, 1967 and 2011 S. La Salle Gardens, and 7626, 7616, 7608, and 7600 Dunedin Street, generally bounded by S. La Salle Gardens to the north, Dunedin Street to the west, Rosa Parks Boulevard to the east, and Bethune Street to the south. **(RECOMMEND APPROVAL)**

BACKGROUND AND PROPOSAL

The City Planning Commission (CPC) has received a request from Parkstone Development and the Detroit City Planning Commission to amend District Map No. 46 of the 2019 Detroit City Code, Chapter 50, *Zoning,* to show an SD1 (Special Development, Small-Scale, Mixed Use) zoning district where an R3 (Low Density Residential) zoning district is currently shown for the properties located at 7601 Rosa Parks Boulevard, 1967 and 2011 S. La Salle Gardens, and 7626, 7616, 7608, and 7600 Dunedin Street, generally bounded by S. La Salle Gardens to the north, Dunedin Street to the west, Rosa Parks Boulevard to the east, and Bethune Street to the south.

The site is located in Council District 5 and measures approximately five acres. There are currently six vacant buildings on the site. The site is currently not actively used. The subject parcels make up the former St. Agnes church campus.

The proposed map amendment is being requested to permit the redevelopment and adaptive reuse of the existing buildings on the site to create 85 multi-family dwelling units, four retail spaces, and outdoor gathering spaces. The existing R3 zoning classification does not allow for commercial uses, or sufficient adaptive reuse possibilities for the site.

Current zoning classification map, with subject parcel hatched

STAFF ANALYSIS

Surrounding Zoning and Land Use

The zoning classifications and uses surrounding the subject parcels are as follows:

North: R3 — institutional (school and church)
East: R3 and PD — residential, multi-family units
South: R3 and PD — residential
West: R3 and R2 — residential and vacant

View of proposed rezoning, with addresses

Zoning Ordinance Approval Criteria

Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. Following are the relevant criteria with CPC staff's analysis in italics:

• Whether the proposed amendment will protect the health, safety, and general welfare of the public. *The proposed amendment will result in a decrease in the number of blighted and vacant buildings in the subject area by allowing for the rehabilitation and reactivation of the currently vacant buildings.*

• Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management. *It is not anticipated that the proposed rezoning will have significant adverse impacts on the natural environment. The petitioner has indicated that they plan to incorporate several sustainability concepts into the final development.*

• Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract. *No adverse impacts are anticipated as a result of the proposed rezoning. By allowing the proposed rezoning, the vitality and walkability of the neighborhood will be improved. Further, by allowing the proposed rezoning, the adverse impacts of the currently vacant and unused structures on the site will be eliminated.*

Master Plan Consistency

The subject site is located within the Rosa Parks area of Neighborhood Cluster 6 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows RLM (Low/Medium Density Residential) for the subject properties. The Planning and Development Department (PDD) has reviewed this proposed rezoning and determined that it will not change the overall character of the area and is generally consistent with the Master Plan.

Community Input

Community engagement for the proposed project began in the third quarter of 2021. Initial outreach involved contacting residents surrounding the projects as well as leaders of area nonprofit organizations, resulting in over 20 informal conversations. At the end of each conversation, participants were invited for a private site tour. Approximately half of those contacted toured the site. During phase one, five letters of support were submitted for the creation of an Obsolete Property Rehabilitation Act district.

In March of 2022, the petitioner began working directly with the LaSalle Neighborhood Association who hosted an online meeting regarding the project. Many residents attended, as well as City Council President Mary Sheffield and then City Council District 5 Manager Melia Howard. As a follow-up to the meeting and at the request of the block club, the peti-

tioner created a “Frequently Asked Questions” page which the block club distributed to many residents via their existing email distribution list. During this phase, neighbors were educated on the OPRA program.

The following list of questions, comments, and concerns came from the community:

• Firm support for the historic campus being preserved rather than being demolished.

• Several individuals expressed concern that the current developer may be affiliated with or partners with the former owner (Ron Castellanos).

• Many questioned who would be residing in the units; some expressed concern about affordable housing attracting low-income residents or college students from nearby Wayne State University.

There were several questions about tax credits. Some residents stated that they were under the impression that a tax credit for a nearby development meant that their personal property taxes would go up to compensate for the credit being granted.

Finally, the third phase of engagement included a survey in which residents could indicate the types of goods and service they desired in the commercial portion of the St. Agnes Development.

CPC MEETINGS

Public Hearing — October 6, 2022

On October 6, 2022, the City Planning Commission held a public hearing on this rezoning request. At the hearing, two members of the public spoke, both spoke in support of the proposed rezoning. No letters of support or opposition were received.

CONCLUSION & RECOMMENDATION

On October 20, 2022, the City Planning Commission voted to recommend approval of the rezoning request to amend Article XVII, District Map 46 of Chapter 50 of the 2019 Detroit City Code, *Zoning*, to show an SD1 (Special Development District, Small-Scale, Mixed-Use) zoning classification where an R3 (Low Density Residential District) zoning classification is currently shown on seven parcels commonly known as 7601 Rosa Parks Boulevard, 1967 and 2011 S. LaSalle Gardens, and 7626, 7616, 7608, 7600 Dunedin Street.

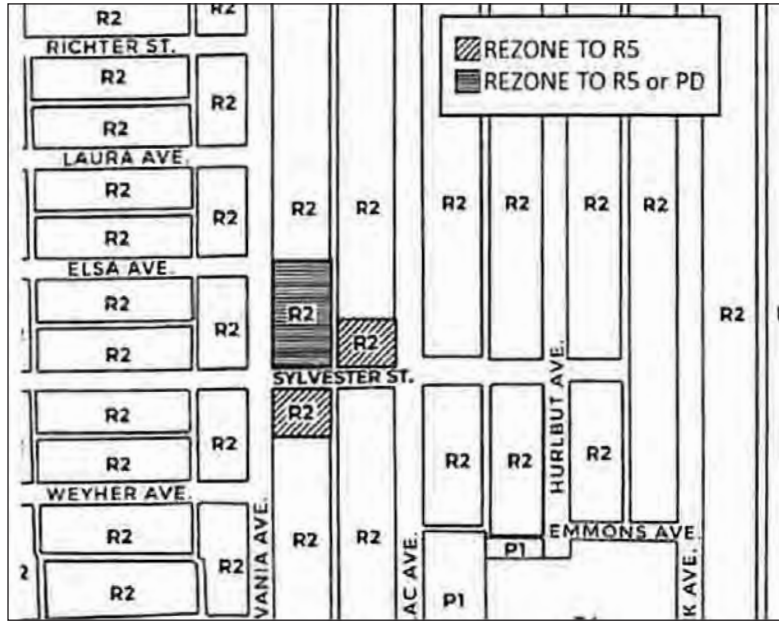
City Planning Commission

January 5, 2023

Honorable City Council:



Re: The request to rezone 4100, 4106, 4110, 4118, 4122, 4134, 4140 Pennsylvania Avenue from an R2 to a PD (Planned Development) zoning classification to develop a Tiny Homes Shelter. **(RECOMMEND APPROVAL)**

The City Planning Commission (CPC) has received a request to amend Article XVII, Section 50-17-30, District Map No. 28 of the 2019 Detroit City Code, Chapter 50, Zoning. The request is from New Path Villages to show a PD zoning classification where an R2 zoning classification is currently shown at 4100, 4106, 4110, 4118, 4122, 4134, 4140 Pennsylvania Avenue to create a tiny homes shelter.

The CPC also received a rezoning request for the adjacent vacant church and school buildings at the northwest corner of Cadillac and Sylvester Avenues and vacant land for parking at the southeast corner of Pennsylvania and Sylvester Avenues which is reviewed in a separate report.

BACKGROUND AND PROPOSAL

The subject request is generally located at the northeast corner of Pennsylvania and Sylvester Avenues which is presently zoned R2. The lots proposed to be rezoned are shown below.

Official Zoning Map

GIS Aerial Map

The primary developers, Mike Willenborg and Danielle Kaltz, have created two entities: New Path Villages (NPV), a 501c3 non-profit, and Art Narthex LLC, a for-profit entity that would operate the development if approved. A percentage of the Art Narthex LLC's profits from proposed operations within the church and school buildings would go towards funding the tiny homes shelter.

Tiny Homes Shelter — the Northeast Corner of Sylvester and Pennsylvania Avenues

The land at the northeast corner of Sylvester and Pennsylvania Avenues includes a total of seven lots: six are vacant and one has a vacant house. NPV has a purchase agreement with the DLBA for the six lots and has already purchased the one privately held lot. NPV is proposing to develop a tiny homes shelter complex. The proposed site plan for the tiny homes shelter includes the following (please see Attachment A for a copy of the site plan):

- An emergency (homeless) shelter consisting of a cluster of ten tiny homes with phase two proposal to add four additional structures if needed; based on CPC feedback, the houses were moved from the rear of the site toward the front along Pennsylvania to give them more visibility to the neighborhood;
- Each tiny home would be attached to footings, contain 240 square feet, and consist of prefabricated insulated panels to be assembled;
- Each tiny home would include a bed, electricity, heating/cooling, microwave, and locking door;
- NPV would demolish the existing house and build a new 1-story structure: one half of the building would include caretaker living quarters and the other half would be a common space for shelter residents, including a kitchen, showers, dining area, and living room;
- Along Sylvester Avenue, the property would have a security booth with controlled access by staff and volunteers;
- The property would be surrounded by a fence to provide security and privacy; the CPC recommended the site have an opaque fence, it be a maximum of 5 feet along Pennsylvania and Sylvester Avenues, a maximum of 6 feet on the eastern property line along the alley, and along the north end of the property - a maximum of 5 feet within the first 20 feet from the sidewalk and a maximum of 6 feet for the remainder; and
- The site would include a vegetable, flower/herb and sculpture gardens, which residents could tend to at their desire.

Operational components of the shelter would include the following:

- The village would have 24/7 staffing and security;
- Residents would live in tiny homes until more permanent housing accommodations are found - there is no time limit on length of stay or rent charged;
- The project goal is to provide intermediate shelter while preserving individual autonomy, privacy, a sense of community, and responsibility;
- The shelter would be run with help from residents with support provided by the newly created New Path Advisory Council;
- NPV would have staff to provide case management and counseling; some services, such as substance abuse treatment component, would be referred out; and
- NPV would offer a computer lab and job training programs in the adjacent school building.

COMMUNITY MEETING AND PUBLIC HEARING

The subject rezoning is located within City Council District 4. The petitioner indicates it has reached out to area groups, including the Eastside Community Network and Cadillac Boulevard Block Club. On January 13, 2022, the petitioner held a community meeting via Zoom with 14 participants. The participants on the Zoom call were generally supportive of the proposal, however, there were some questions about how the program would help treat the causes of homelessness. See Attachment B for a summary of the community meeting comments.

On April 21, 2022, the CPC held a public hearing on the request. This hearing included rezoning the church and school complex from R2 to SD1 (Special Development District, Small-Scale Mixed-Use) and the tiny home shelter from R2 to R5. Please see Attachment C for a summary of the public hearing. At the April 21st hearing, some of the major issues discussed by the Commissioners included the following:

- The Commission explored what zoning districts allow emergency shelters. *Emergency shelters are always conditional and only allowed in R4 (Thoroughfare Residential), R5, R6 (High Density Residential), B4 (General Business), and B5 (Major Business) zoning districts. However, PD could allow shelters subject to use and site plan approval by the City Council.*
- Have other City departments weighed in on this proposal? *CPC staff explained the concept was already presented at Buildings, Safety Engineering and Environment Department's (BSEED) Preliminary Plan Review meeting. The Planning & Development Department (P&DD) gave feedback on the plan and design; the Housing and Revitalization Department (HRD) expressed support for the homeless component, and BSEED provided feedback on building code issues.*

- The CPC asked if the developer has the experience for this type of project? *In response, the developer indicated they have been working with the homeless since 2007, including outreach to the homeless; they also work with Mariners Inn to provide hygiene kits, clothing, etc.*
- It was asked how this tiny home project compared to the other tiny homes near the Lodge Freeway and Elmhurst, as well as the zoning? *The other tiny homes site, which is zoned R2, has bigger units with kitchens, etc. and consists of permanent rental housing.*
- The CPC asked how the separate hygiene facilities would be designed and work? *It was explained the stand-alone restroom and showers in the common building would each have three separate stalls.*

At the hearing, five persons spoke (two in support and three with concerns/questions) with the following comments:

- One speaker, a neighborhood block club president in District 2, said they are supportive of the project and interested in watching how it develops — there are a lot of displaced persons and vacant land.
- A nearby resident, who owns about 1/2 acre of land, said every neighbor they spoke with is very supportive; they indicated there is a lot of vacant land, the area needs more people, and homeless persons often don't like existing shelters where are very transitional and can be unsafe.
- One speaker from District 5 is President of Charlevoix Village Association and had concerns; they thought the houses were too small for humans with no kitchen; the folks are already depressed; it is a type of slavery to require residents to work. *The developer clarified there is no requirement to work or rent to be paid, residents will be asked to work in the gardens, etc. if they so choose, and the residents can stay as long as they need. The developer indicated the residents prior to living in this shelter, had no home, and the tiny homes could be viewed as a step up.*
- One speaker, who also lives in the neighborhood and works with the homeless, wondered how this project is different from the existing tiny home near the Lodge Freeway and often poor conditions in current shelters; they asked how will this project be different from existing homeless shelter and bring persons out of homelessness? *The developer responded, it is the intention to meet people where they are; if one has a drug or drinking problem, they can stay at the shelter; residents will only be asked to leave if their behavior endangered someone else; the program will have social workers to help with counseling and will offer referrals.*
- One speaker asked what about displaced families, there are area schools that provide job training that are closing, and how will this empower communities as a whole? *The tiny homes are large enough to serve an individual or couples, but not large enough for families; the developer responded the tenants will hopefully have a sense of community.*

After the April 21st public hearing, the petitioner submitted 5 letters of support. On July 7, 2022, the CPC held a second public hearing to consider the alternative of PD for the tiny homes shelter site and R5 for the church and school complex. Comments by the Commissioners included the following:

- The Commission asked continued questions regarding operation of the shelter including criteria for admittance, services provided, etc;
- The Commissioners thought that PD was the appropriate zoning district for the tiny homes shelter;
- The Commission thought this type of shelter would provide an important option for persons experiencing homelessness; and
- The Commission had questions if water and sewer facilities could be added to each tiny home and how much would it cost? In response, the developer did not have estimates for how much it would cost to add sinks or toilet facilities to each unit. The Commission recommended that sinks and toilets be provided in each tiny home unit.

PUBLIC HEARING FOLLOW-UP ANALYSIS

Analysis of Tiny Home Shelters

CPC staff conducted research on tiny home shelters intended to serve people experiencing homelessness. Tiny home shelters (often called tiny home villages) have been an increasingly popular form of alternative shelter around the country, particularly on the west coast. It appears Seattle and Portland have the most tiny home villages — Seattle currently has approximately nine tiny home villages containing 230 tiny homes. Portland's Dignity Village is the oldest and longest running since 2000, and Portland itself has six tiny home villages. Tiny home shelters are also found in other cities such as Madison, WI, Austin, TX, Los Angeles, CA, and Denver, CO, and others. Such shelters are currently being explored or planned in Michigan cities including Kalamazoo, Flint, and Ann Arbor.

Additional findings from researching tiny home shelters on a national level include:

- Many of these grew out of the need for cities to find a suitable replacement for unauthorized encampments or tent villages

- Some cities actually provide the land as part of their homeless strategy; some sites are within neighborhoods, in more commercial or industrial areas, on the edge of residential areas, or in more remote/isolated areas
- Many tiny home shelters have been established as partnerships between municipal governments, faith communities, social service providers, philanthropic foundations, and/or businesses
- Some of these shelters are funded, in part, by the host city and/or an overarching non-profit provider such as the Low-Income Housing Institute in Seattle and the Colorado Village Collaborative in Denver
- Some shelters charge monthly rent with some residents having outside employment
- Many cities have rewritten ordinances to regulate location and operation with some as emergency temporary housing or more permanent land uses. Denver regulates temporary tiny home shelters (up to four years) separately from permanent tiny home shelters.
- Some cities, such as Seattle and Portland, have made the tiny home shelters an important part of their policies to address homelessness; however, support for these policies have risen and fallen at various times.

In the national literature, some of the pros and cons of tiny home shelters are summarized in the table below:

Pros of Tiny Home Shelters	Cons of Tiny Home Shelters
• Modular housing can be sited quicker and cheaper than constructing a large shelter or transitional housing	• The tiny homes seem very small with no kitchens or bath of their own
• COVID-19 has shifted homeless policy away from congregate sleeping quarters due to the transmission of the virus	• The kitchen, bathroom, and shower facilities are placed outside the units – making them harder to access
• Tiny homes can have an innovative look with clustering of tiny homes – this can differ from institutional looking shelters contained within a large building	• The villages can have a negative look – like a camp
• Most tiny home shelters are developed with an effort to empower residents to assist with governing the village	• Will the tiny homes be a temporary residence?
• Offers an option for chronic homeless or families who are unwilling or unable to go to congregate style shelters; offers an option for couples; and offers an option for persons with pets	• Some homeless providers think tiny homes are a good temporary emergency option, but don't want them to divert funds and focus from finding permanent supportive housing; some providers think what's needed is living wage jobs, affordable housing stock, and housing vouchers
• The tiny homes provide shelter, privacy and ability to lock the door	
• Tiny homes offer a hybrid between providing shelter and permanent housing - a bridge between homelessness and affordable housing	

Feedback from the City's Housing and Revitalization Department

The City's HRD has a Homelessness Solutions division which invests in service and housing providers designed to end homelessness. HRD is supportive of the proposed tiny homes shelter project. HRD indicates many homeless shelters in the city, since prior to COVID-19, have been moving toward more permanent, non-congregate housing models, though no tiny home housing models have been proposed to-date. HRD staff have met with NPV and are providing technical support for the project. HRD believes tiny home shelters are a viable option for homeless who refuse to go to congregate style traditional shelters and does not anticipate tiny home shelters to be implemented city wide. The NPV would be eligible for HRD's Homeless Solutions Funding programs after two years of successful operation. To be eligible for federal funding, shelters must meet some basic standards, including having a safe building structure, accessible units, adequate sanitary facilities, a suitable food prep area, etc.

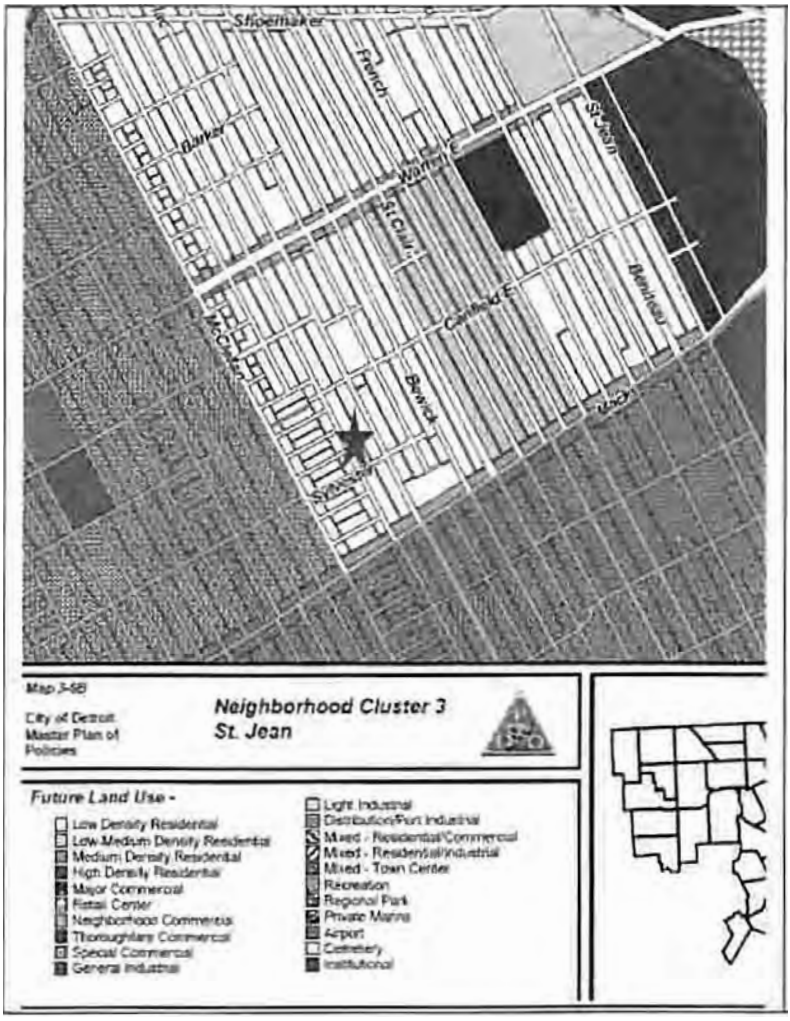
BSEED Oversight

Preliminary feedback from BSEED indicates the proposed tiny home units would be allowed under the Building Code; however, the communal building would have to be constructed and operational before any of the residential units could be occupied. BSEED reports the units must be a minimum of five feet apart or greater, or the exterior walls must be fired rated. Chapter 36 of the City Code entitled Public Lodging includes regulations for emergency shelters. Emergency shelters require a license issued by BSEED and are subject to an annual license renewal after all required departments have given a clearance. As a result, the proposed tiny home shelter, in order to open and continually operate, would need an annual license from BSEED's Business License Center.

Does Petitioner Have Necessary Experience?

The developer indicates they have been working with the homeless since 2007, including outreach to the homeless; they also work with Mariners Inn to provide hygiene kits, clothing, etc. Mr. Willenborg indicates he has 36 years running a successful business. Ms. Kaltz has worked with homeless for 15 years. HRD staff indicates it appears NPV is taking the necessary steps to run a successful homeless shelter and partner or communicate with the appropriate existing agencies. NPV indicates it is working with the Homeless Action Network of Detroit (HAND) — HAND is a leadership agency to address homelessness by working with community partners to identify, coordinate and implement strategies to create permanent solutions to homelessness. NPV states it will be part of the Coordinated Assessment Model (CAM) — CAM Detroit provides those experiencing homelessness with access to shelter and housing resources. NPV also indicates it will be partnering with the Fort Street Presbyterian Church's Open Door ministry which has been serving the homeless for more than 53 years.

PLANNING CONSIDERATIONS



Surrounding Zoning and Land Use

The zoning classification and land uses surrounding the subject area are as follows:

North: R2; vacant land with residential houses beyond
East: R2; church and school building and vacant land beyond
South: R2; vacant land and with residential houses beyond
West: R2; vacant land and residential houses all of which are vacant

Master Plan of Policies

The subject site is located within the St. Jean area of Neighborhood Cluster 3 of the Detroit Master Plan of Policies shown on the maps below. The Future Land Use map for this area shows Low Density Residential for the subject area. P&DD issued a memo regarding the proposed rezoning request, stating in part, that the proposed rezoning and development are not anticipated to change the overall character of the St. Jean neighborhood and is therefore generally consistent with the Master Plan classification; the site is only one block away from the higher density developments on Mack Avenue and is under 2 acres in size. The current Master Plan of Policies maps for the area are shown below.

Proposed PD District and Conditions of Approval

Because the proposed tiny homes shelter is a new concept/land use to Detroit, the CPC believes the PD zoning district classification merits consideration. PD districts are allowed to permit flexibility in overall development while ensuring adequate safeguards and standards for public health, safety, convenience, and general welfare.

Section 50-3-96 of the Zoning Ordinance lists approval criteria for PD map amendments (see Attachment D for listing of the 8 criteria). One PD criteria is that it covers a minimum of two acres of contiguous land under the control of one (1) owner or group owners. The subject 7 lots for the proposed shelter contain about .85 acres. At its hearing on July 7th, the CPC voted to waive this requirement upon determining that an adequate development could be accomplished on a parcel of lesser size.

The CPC recommended the PD rezoning include the following conditions:

(1) That all development must be in accordance with the site plans, elevations, and other components of the development agreement proposal by New Path Villages in the drawings dated July 5, 2022 and prepared by BASIC Design;

(2) That the site plans must be completed, drawn to scale, and dated by a registered engineer or architect;

(3) That the site plan be updated to show the tiny home units located not less than five feet apart;

(4) That the site plan be updated to show building elevations and materials for all buildings on the site;

(5) That the site plan be updated to show the fencing and gate details, including height and material, with the following restrictions: the fence must be opaque and a maximum of 5 feet tall along Pennsylvania and Sylvester Avenues, a maximum 6 feet tall on the eastern property line along the alley, a maximum of 5 feet tall along the north end of the property within the first 20 feet from the sidewalk, and a maximum of 6 feet tall along the remainder of the north end of the property;

(6) That a landscaping plan be added to the site plan depicting adequate buffering along Pennsylvania and Sylvester Avenues;

(7) That a lighting plan be added to the site plan depicting lighting that is compatible with the surrounding residential community and oriented at a downward angle in order not to intrude on adjacent properties;

(8) That the number of tiny home dwelling units to be constructed as part of phase one of the development must be not greater than 10 units and that the number of tiny home dwelling units to be constructed as part of an optional phase two of development, if needed, must be not greater than four units;

(9) That each tiny home dwelling unit include a sink and sanitation facility; and

(10) That the final site plans, elevations, lighting, landscaping, and signage plans be submitted by the developer to the staff of the CPC for review and approval prior to making application for applicable permits.

The developer prefers that condition (9). that each tiny home dwelling unit include a sink and sanitation facility, not be required as part of the PD conditions; the developer prefers to include a sink and sanitation facility in each unit prior to construction only if funding becomes available.

CONCLUSION

In conclusion, based on the two public hearings, above analysis and review of rezoning criteria in the Zoning Ordinance, the CPC voted to recommend approval of the request of New Path Villages to rezone 4100, 4106, 4110, 4118, 4122, 4134, 4140 Pennsylvania Avenue from an R2 to a PD zoning classification for a Tiny Homes Shelter with the ten conditions listed in this report. The approved-as-to-form Ordinance is attached for your consideration.

PROPOSED REVISED SITE PLAN

APPENDIX B
SUMMARY OF COMMUNITY MEETING PRIOR TO PUBLIC HEARING

On January 13, 2022, the petitioner held a community meeting via zoom with 14 participants with feedback summarized below:

• One area resident (near French Road and Warren) liked the concept of the Villages, but was concerned about the treatment for issues that cause homelessness;

• One area resident (President of the E. Canfield St. Block Club near Canfield and Cadillac) wanted to see what programs will be available for mental health and addiction concerns;

• A resident and her mother who live across from the church said meeting was helpful and pleased to hear about the plans;

• One participant who owns two houses on Cadillac across from the church south of Sylvester is glad to hear about renovations of the church and has no negative concerns about the project; and

• One resident who lives on Pennsylvania south of the proposed parking lot was supportive of the plans and hopefully the project will prevent dumping in the area which has been a problem.

ATTACHMENT C
SUMMARY OF PUBLIC HEARING RESULTS

At the April 21st hearing, the CPC discussed the following issues:

• The CPC asked staff to further clarify why the rezoning from R2 to R5 and R2 to SD1 were the appropriate zoning classifications? *In response, it was noted emergency shelters are first allowed in R5 in which they are conditional; SD1 would allow the variety of uses proposed for the church, including banquet facilities, which are also conditional.*

• It was asked what districts are homeless shelters allowed by-right? *It was noted emergency shelters are always conditional and only allowed in R4 (Thoroughfare Residential), R5, R6 (High Density Residential), B4 (General Business), and B5 (Major Business) zoning districts.*

• The CPC asked would the southeast corner of Sylvester and Pennsylvania Avenues be a surface parking lot and for how many vehicles? *CPC staff clarified it would be for a surface parking lot. CPC staff has calculated this lot could accommodate about 40 parking spaces.*

• It was asked does staff expect other City departments to weigh in on this proposal? *Staff explained the concept was already presented at Buildings, Safety Engineering and Environment Department's (BSEED) Preliminary Plan Review meeting. Various departments have given feedback on the proposal: the Planning & Development Department (P&DD) gave feedback on the plan and design; the Housing and Revitalization Department (HRD) expressed support for the homeless component, and BSEED provided feedback on zoning and building code issues.*

• The CPC asked if the developer has the experience for this type of project? *In response, the developer indicated they have been working with the homeless since 2007, including outreach to the homeless; they also work with Mariners Inn to provide hygiene kits, clothing, etc.*

• It was asked how this tiny home project compared to the other tiny homes near the Lodge Freeway and Elmhurst, as well as the zoning? *It was explained the other tiny homes were bigger with kitchens, etc. and consisted of permanent rental housing — CPC staff later identified the zoning for the other tiny home project as R2.*

• The CPC asked how the separate hygiene facilities would be designed and work? *It was explained the restroom and showers would each have three separate stalls.*

• The CPC asked for more clarity regarding the proposed uses in the church/school facility. *In response, the school and church functions are mainly to provide fundraising for the shelter; the school would include a computer room, machine and woodworking shop, etc.*

• The CPC asked what is the normal zoning for a church or school building? *Staff responded most neighborhood churches are zoned R1 or R2, but because the developer wants a multi-purpose mixed-use facility, then it would need a higher zoning category.*

• The CPC had a concern that it was not clear why the zoning needed to change — it appears they could do proposed activities under current zoning. *In response, CPC staff noted BSEED would need to determine what the proposed principal uses are and then whether or not those uses are allowed under the zoning; the proposal is for a variety of principal uses, including religious services, small musical events, art shows, a sober bar, event space, etc.*

• It was asked when the proposed concept was explored, did it consider aspects of the specific site? *The developer responded that it favored doing the proposed project in a neighborhood setting, rather than in a commercial or industrial area; the developer said it would help to reutilize an area with vacant land, be part of a community, and possibly be replicated.*

• The CPC asked would the New Village Advisory Council include residents in the neighborhood as well? *The developer responded, yes, the Council would include staff, tiny home residents, and residents in the neighborhood.*

• The CPC asked are there any uses by-right in SD1 that would be disruptive to an area that is otherwise zoned residential? *CPC staff reviewed some of the uses allowed in SD1 but indicated it would have to review all SD1 uses and report back.*

• The CPC stated this is a worthy venture that could possibly he replicated; there, is concern if this goes away, would R5 allow something that dwarfs the surrounding neighborhood; they also asked staff to explore allowing homeless shelters as conditional in lower residential zones in the future. *CPC staff responded in part, the height in R5 is generally 35 feet or there is a floor area ratio (FAR) restriction, depending on the use.*

• Additional Questions

In response for clarification, it was stated the campus would be gated with controlled access and it was not expected residents would have vehicles.

At the hearing, five persons spoke (two in support and three with concerns/questions) with the following comments:

• One speaker, a neighborhood block club president in District 2, said they are supportive of the project and interested in watching how it develops — their area also has displaced persons and a lot of vacant land.

• A nearby resident, who owns about 1/2 acre of land, said every neighbor they spoke with is very supportive; they indicated there is a lot of vacant land, the area needs more people, and homeless persons often don't like existing shelters which are very transitional and can be unsafe.

• One speaker from District 5 is President of Charlevoix Village Association and had concerns; they thought the houses are too small for humans with no kitchen; the folks are already depressed; how is this project going to select residents? It is a type of slavery to require residents to work. *The developer responded, there is no requirement to work or rent to be paid; residents will be asked to work in the gardens, etc. if they so choose; the residents can stay as long as they need. The developer indicated the residents prior to living in this shelter, had no home, and the tiny home would be a step up, offering a sense of safety and community.*

• One speaker, who also lives in the neighborhood and works with the homeless, wondered how this project is different from the existing tiny homes near the Lodge Freeway and often poor conditions in current shelters; they asked how will this project be different from existing homeless shelter and bring persons out of homelessness? *The developer responded, it is the intention to meet people where they are; if one has a drug or drinking problem, they can stay at the shelter; residents will only be asked to leave if their behavior endangered someone else; the program will have social workers to help with counseling and will offer referrals.*

• One speaker asked what about displaced families, there are area schools that provide job training that are closing, and how will this empower communities as a whole? *The tiny homes are large enough to serve an individual or couples, but not large enough for families; the developer responded the tenants will hopefully have a sense of community.*

PD APPROVAL CRITERIA

Sec. 50-3-96. — Approval criteria.

In addition to the approval criteria for zoning chapter map amendments that are set forth in Section 50-3-70 of this Code, approvals of planned developments shall be based on consideration of the following criteria:

1. Whether the subject site:
   a. Covers a minimum of two acres of contiguous land under the control of one owner or group of owners, except, that upon determining that an adequate development can be accomplished on a parcel of lesser size, the City Planning Commission may waive this requirement; and
   b. Is capable of being planned and developed as one integral unit, except in unusual circumstances;
2. That no other zoning district classification would be more appropriate.
3. That the development will result in a recognizable and substantial benefit to the ultimate users of the project and to the City, where such benefits would otherwise be unfeasible or unlikely to be achieved. The benefits can be accomplished through a higher quality unified design that would be required by the typical regulations of this chapter. These benefits shall be demonstrated in terms of preservation of natural features, unique architecture, extensive landscaping, special sensitivity to land uses in the immediate vicinity, particularly well-designed access and circulation systems, and/or integration of various site features into a unified development;
4. Whether the location of the proposed Planned Development District is appropriate;
5. Whether the proposed planned development substantially responds to the intent of Section 503 of the Michigan Zoning Enabling Act, being MCL 125.3503, to:
   a. Permit flexibility in the regulation of land development;
   b. Encourage innovation in land use and variety in design, layout, and type of structures constructed;

c. Achieve economy and efficiency in the use of land, natural resources, energy, and the providing of public services and utilities, encourage useful open space; and
d. Provide better housing, employment, and shopping opportunities that are particularly suited to the needs of the residents;

6. That the proposed type and density of use shall not result in an unreasonable increase in traffic or the use of public services, facilities and utilities, that the natural features of the subject site have the capacity to accommodate the intended development, and that the development shall not place an unreasonable burden upon surrounding land or land owners;

7. That the proposed planned development is consistent with the Master Plan, as determined by the Planning and Development Department;

8. Whether uses and structures that are planned for the Planned Development District comply with all applicable site design standards and use regulations which are specified in Article XI, Division 2, of this chapter.

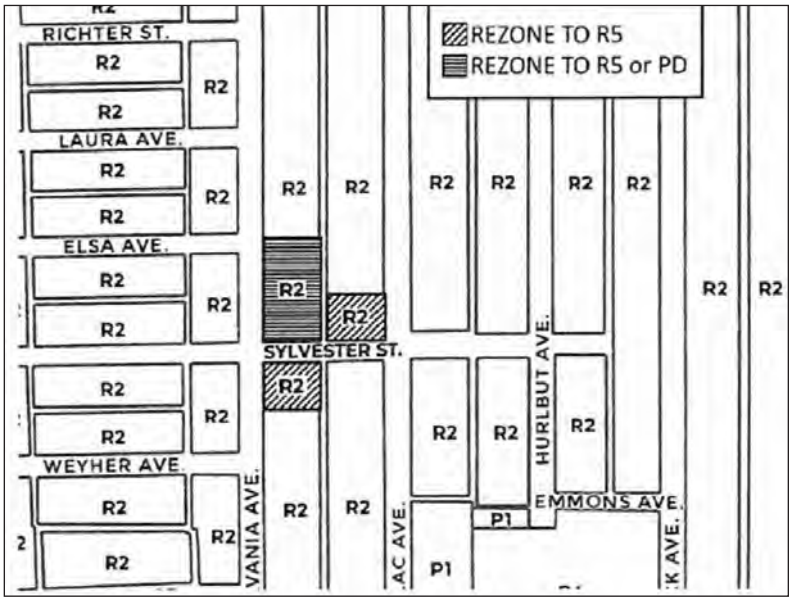
City Planning Commission

January 18, 2023

Honorable City Council:

Re: The request to rezone 4103 Cadillac Avenue from an R2 (Two-Family Residential) to an R5 (Medium Density Residential) zoning classification to redevelop existing vacant church and school buildings & The request to rezone 3926, 3932, and 3938 Pennsylvania Avenue from an R2 zoning classification to an R5 zoning classification for parking. **(RECOMMEND APPROVAL)**

The City Planning Commission has received a petition to amend Article XVII, Section 50-17-30, District Map No. 28 of the 2019 Detroit City Code, Chapter 50, Zoning as follows:



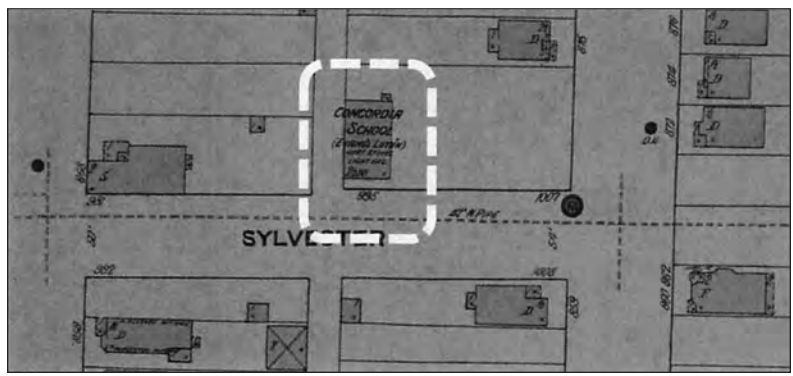
• The request from Art Narthex LLC to show an R5 zoning classification where an R2 zoning classification is currently shown at 4103 Cadillac Avenue to redevelop the vacant former church and school buildings as a mixed-use project; and

• The request from New Path Villages to show an R5 zoning classification where an R2 zoning classification is currently shown at 3926, 3932, 3938 Pennsylvania Avenue to create a parking lot serving the mixed-use project and adjacent proposed tiny homes shelter.

New Path Villages also submitted a third related request to rezone land at 4100, 4106, 4110, 4118. 4122, 4134, 4140 Pennsylvania Avenue to create a tiny homes shelter. Because this rezoning involves a Planned Development (PD) zoning, this request is reviewed under a separate report and ordinance; however to provide context, parts of the shelter request are included in this report.

BACKGROUND AND PROPOSAL

The subject requests are generally located at the northwest corner of Cadillac and Sylvester Avenues and the southeast corner of Pennsylvania and Sylvester Avenues and both locations are currently zoned R2. The lots proposed to be rezoned are shown below.



Official Zoning Map

GIS Aerial Map

The primary developers, Mike Willenborg and Danielle Kaltz, have created two entities: New Path Villages (NPV), a 501c3 non-profit, and Art Narthex LLC, a for-profit entity that would operate the development if approved. A percentage of the Art Narthex LLC's profits from proposed operations within the church and school buildings would go towards funding the tiny homes shelter.

Church/School Complex — The Northwest Corner of Sylvester and Cadillac Avenues Regarding the history of the church location, in 1906. Concordia Lutheran was organized, and in 1914 the existing 600-seat church building was dedicated. Prior to the church being dedicated, sometime between 1905 and 1910, the existing school building, known as Concordia (Evangelical Lutheran) School, was constructed as indicated on the below 1910 map provided by the Library of Congress.

1910 Sandborn Company (Fire Insurance) Map, Vol. 8

Art Narthex LLC has already purchased the two buildings and plans to renovate the former church and school buildings. Proposed uses in these buildings include the following:

- Renting the sanctuary (which seats about 200 people) for religious services;
- Using the basement hall (which seats about 100 people) for banquet facilities;
- Allowing other possible uses, such as art shows, pop-up restaurants, etc.;

• Renting out the 2nd floor of the former school for artist studios;
• Using the first floor of the school building for office space and nonprofit neighborhood activities associated with the proposed tiny homes shelter, including classrooms and job training space; and
• At the CPC's request, NPV has agreed to relocate the proposed tiny homes shelter kitchen and gathering space from the former school building onto the tiny homes shelter site; the CPC believes this would help provide more accessible services and privacy to the shelter residents.

Parking Lot — the Southeast Corner of Sylvester and Pennsylvania Avenues The land at the southeast corner of Sylvester and Pennsylvania Avenues includes three vacant lots owned by the Detroit Land Bank Authority (DLBA). NPV has a purchase agreement to buy these and develop a 34-space parking lot to service the proposed homeless shelter and church building activities.

COMMUNITY FEEDBACK

Community Meeting

The subject rezoning is located within City Council District 4. The petitioner indicates it has reached out to area groups, including the Eastside Community Network and Cadillac Boulevard Block Club. On January 13, 2022, the petitioner held a community meeting via Zoom with 14 participants. The participants on the Zoom call were generally supportive of the overall proposal, however, there were some questions about how the program would help treat the causes of homelessness. See Attachment A for a summary of the community meeting comments.

Public Hearings

On April 21, 2022, the CPC held a public hearing on the request. This hearing included rezoning the church and school complex from R2 to SD1 (Special Development District, Small-Scale Mixed-Use) and the proposed tiny homes shelter from R2 to R5. Please see Attachment B for a summary of the public hearing. At the April 21st hearing, most of the questions by the Commissioners involved the proposed tiny homes shelter. The CPC did explore the differences between the R2, R5 and SD1 zoning classifications and later recommended the church complex be rezoned to R5 instead of SD1.

At the hearing, five persons spoke (two in support and three with concerns/questions mostly regarding the proposed tiny homes shelter). One speaker, a neighborhood block club president in District 2, said they are supportive of the project and interested in watching how it develops –their area has a lot of displaced persons and vacant land. A nearby resident, who owns about 1/2 acre of land, said every neighbor they spoke with is very supportive; they indicated there is a lot of vacant land, the area needs more people.

After the April 21st public hearing, the petitioner submitted 5 letters of support. On July 7, 2022, the CPC held a second public hearing to consider PD for the tiny homes shelter site and R5 for the church and school complex.

PUBLIC HEARING FOLLOW-UP ANALYSIS

Proposed Land Uses R2 vs. R5

The below table highlights the proposed uses and whether these uses are allowed in R2 and R5.

USE	R2	R5
Artist workspace/dance studio	Not Allowed (NA)	By-right (R)
Non-profit Neighborhood Center	Conditional (C)	R
Religious Institution	C	R
Banquet Hall	NA	C*
Recording Studio	NA	C*
Art gallery	NA	C *
Bake shop	NA	C *
Restaurant	NA	C*
Concert café	NA	NA
Office	NA	C*
Child Care	NA	R
Commercial Trade School	NA	R
Parking lot	C	R
Emergency shelter	NA	C

(Note: C* means R5 allows as conditional select retail, service and commercial uses from SD1 where located on a zoning lot within one-half mile of a high-frequency transit corridor which this location qualifies).

As shown in the above table, several of the proposed uses in the church building and adjacent school would not be allowed in R2; it appears R5 would allow the proposed uses, but some are conditional rather than by-right. Because the church is located on a zoning lot within one-half mile of a high-frequency transit corridor, by-right "retail, service, and commercial uses" listed as by-right in the SD1 district are permissible in the R5 district with conditional use approval. Therefore, the R5 district could be an appropriate district for the redevelopment of the church and school instead of the need for rezoning to the more-intense SD1 district.

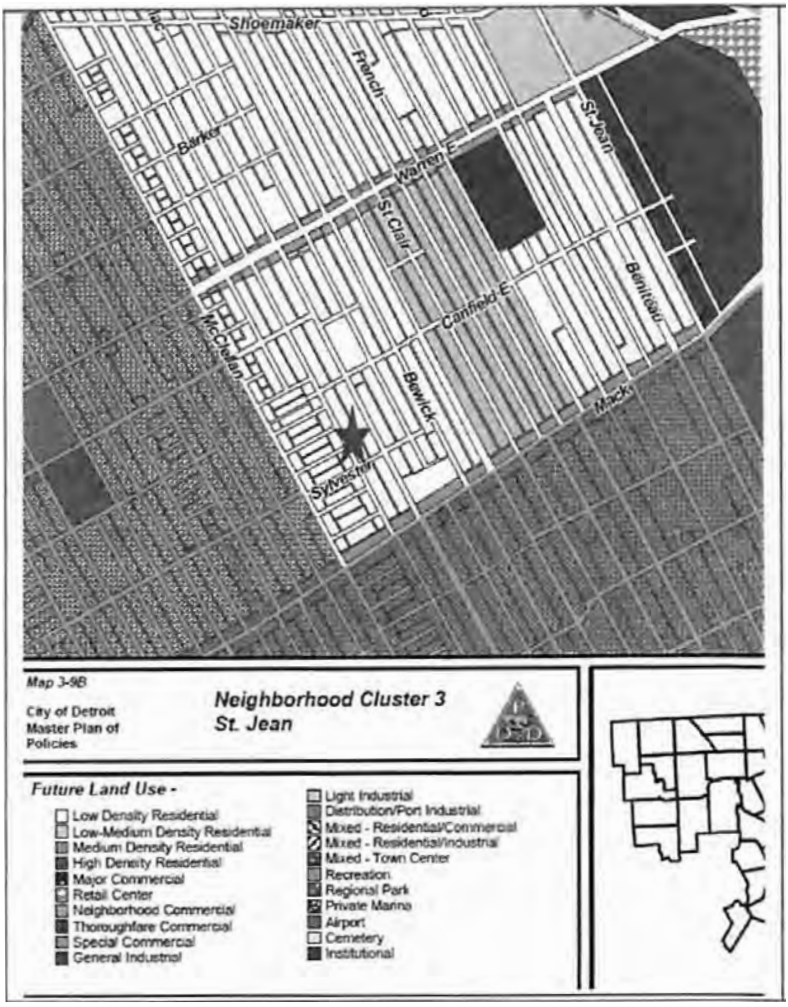
PLANNING CONSIDERATIONS

Surrounding Zoning and Land Use

The zoning classification and land uses surrounding the subject area are as follows:

North: R2; vacant land with residential houses beyond
East: R2; vacant land and a vacant residential house
South: R2; vacant land and with residential houses beyond
West: R2; vacant land and residential houses all of which are vacant

Zoning Ordinance Criteria



Section 50-3-70 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. The CPC reviewed the criteria with the following specific findings:

1. Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

The proposed amendment would not correct an error on the zoning map. The proposed map amendment meets the challenge of a changing condition or trend. The project would help redevelop a vacant church and school building into a mixed-use project and utilize vacant residential land.

2. Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The subject site is located within the St. Jean area of Neighborhood Cluster 3 of the Detroit Master Plan of Policies as shown on the maps below. The Future Land Use map for this area shows Low Density Residential for the subject area. P&DD issued a memo regarding the proposed rezoning request, stating in part, that the proposed rezoning and development are not anticipated to change the overall character of the St. Jean neighborhood and is therefore generally consistent with the Master Plan classification; the site is only one block away from the higher density developments on Mack Avenue and is under 2 acres in size. The current Master Plan of Policies maps for the area are shown below.

3. Whether the proposed amendment will protect the health, safety, and general welfare of the public;

The CPC does not think the proposed amendment will negatively impact the health, safety, and general welfare of the public; the rezoning would allow the subject vacant buildings and land to be redeveloped.

4. Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

It is not anticipated the proposed rezoning will have significant adverse impacts on other property that is in the vicinity. Land directly to the east, south, and west is vacant and undeveloped.

5. The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

It appears that the subject properties are not suitable for the existing zoning classification because, over the years, the church and school have remained vacant and boarded.

6. Whether the proposed rezoning will create an illegal "spot zone."

Both R5 and R2 are residential districts which allow similar uses with similar setbacks, etc. The proposed rezoning is in conformance with the Master Plan. Therefore, the CPC maintains the proposed rezoning will not create a spot zone.

CONCLUSION

In conclusion, based on the two public hearings, above analysis and review of rezoning criteria in the Zoning Ordinance, the CPC voted to recommend approval of the following:

1) The request of Art Narthex LLC to rezone 4103 Cadillac Avenue from an R2 to an R5 zoning classification to redevelop an existing vacant church and school buildings; and

2) The request of New Path Villages to rezone 3926, 3932, and 3938 Pennsylvania Avenue from an R2 zoning classification to an R5 zoning classification for parking.

SUMMARY OF COMMUNITY MEETING PRIOR TO PUBLIC HEARING

On January 13, 2022, the petitioner held a community meeting via zoom with 14 participants with feedback summarized below:

• One area resident (near French Road and Warren) liked the concept of the Villages, but was concerned about the treatment for issues that cause homelessness;

• One area resident (President of the E. Canfield St. Block Club near Canfield and Cadillac) wanted to see what programs will be available for mental health and addiction concerns;

• A resident and her mother who live across from the church said meeting was helpful and pleased to hear about the plans;

• One participant who owns two houses on Cadillac across from the church south of Sylvester is glad to hear about renovations of the church and has no negative concerns about the project; and

• One resident who lives on Pennsylvania south of the proposed parking lot was supportive of the plans and hopefully the project will prevent dumping in the area which has been a problem.

APPENDIX B.
SUMMARY OF PUBLIC HEARING RESULTS

At the April 21st hearing, the CPC discussed the following issues:

• The CPC asked staff to further clarify why the rezoning from R2 to R5 and R2 to SD1 were the appropriate zoning classifications? *In response, it was noted emergency shelters are first allowed in R5 in which they are conditional; SD1 would allow the variety of uses proposed for the church, including banquet facilities, which are also conditional.*

• It was asked what districts are homeless shelters allowed by-right? *It was noted emergency shelters are always conditional and only allowed in R4 (Thoroughfare Residential), R5, R6 (High Density Residential), B4 (General Business), and B5 (Major Business) zoning districts.*

• The CPC asked would the southeast corner of Sylvester and Pennsylvania Avenues be a surface parking lot and for how many vehicles? *CPC staff clarified it would be for a surface parking lot. CPC staff has calculated this lot could accommodate about 40 parking spaces.*

• It was asked does staff expect other City departments to weigh in on this proposal? *Staff explained the concept was already presented at Buildings, Safety' Engineering and Environment Department 's (BSEED) Preliminary Plan Review meeting. Various departments have given feedback on the proposal: the Planning & Development Department (P&DD) gave feedback on the plan and design; the Housing and Revitalization Department (HRD) expressed support for the homeless component, and BSEED provided feedback on zoning and building code issues.*

• The CPC asked if the developer has the experience for this type of project? *In response, the developer indicated they have been working with the homeless since 2007, including outreach to the homeless; they also work with Mariners Inn to provide hygiene kits, clothing, etc.*

• It was asked how this tiny home project compared to the other tiny homes near the Lodge Freeway and Elmhurst, as well as the zoning? I*t was explained the other tiny homes were bigger with kitchens, etc. and consisted of permanent rental housing — CPC staff later identified the zoning for the other tiny home project as R2.*

• The CPC asked how the separate hygiene facilities would be designed and work? *It was explained the restroom and showers would each have three separate stalls.*

• The CPC asked for more clarity regarding the proposed uses in the church/school facility. *In response, the school and church functions are mainly to provide fundraising for the shelter; the school would include a computer room, machine and woodworking shop, etc.*

• The CPC asked what is the normal zoning for a church or school building? *Staff responded most neighborhood churches are zoned R1 or R2, but because the developer wants a multi-purpose mixed-use facility, then it would need a higher zoning category.*

• The CPC had a concern that it was not clear why the zoning needed to change — it appears they could do proposed activities under current zoning. *In response, CPC staff noted BSEED would need to determine what the proposed principal uses are and then whether or not those uses are allowed under the zoning; the proposal is for a variety of principal uses, including religious services, small musical events, art shows, a sober bar, event space, etc.*

• It was asked when the proposed concept was explored, did it consider aspects of the specific site? *The developer responded that it favored doing the proposed project in a neighborhood setting, rather than in a commercial or industrial area; the developer said it would help to reutilize an area with vacant land, be part of a community, and possibly be replicated.*

• The CPC asked would the New Village Advisory Council include residents in the neighborhood as well? *The developer responded, yes, the Council would include staff, tiny home residents, and residents in the neighborhood.*

• The CPC asked are there any uses by-right in SD1 that would be disruptive to an area that is otherwise zoned residential? *CPC staff reviewed some of the uses allowed in SD1 but indicated it would have to review all SD1 uses and report back.*

• The CPC stated this is a worthy venture that could possibly be replicated; there is a concern if this goes away, would R5 allow something that dwarfs the surrounding neighborhood; they also asked staff to explore allowing homeless shelters as conditional in lower residential zones in the future. *CPC staff responded in part, the height in R5 is generally 35 feet or there is a floor area ratio (FAR) restriction, depending on the use.*

• Additional Questions

In response for clarification, it was stated the campus would be gated with controlled access, and it was not expected residents would have vehicles.

At the hearing, five persons spoke (two in support and three with concerns/questions) with the following comments:

• One speaker, a neighborhood block club president in District 2, said they are supportive of the project and interested in watching how it develops — their area also has displaced persons and a lot of vacant land.

• A nearby resident, who owns about 1/2 acre of land, said every neighbor they spoke with is very supportive; they indicated there is a lot of vacant land, the area needs more people, and homeless persons often don't like existing shelters which are very transitional and can be unsafe.

• One speaker from District 5 is President of Charlevoix Village Association and had concerns; they thought the houses are too small for humans with no kitchen; the folks are already depressed; how is this project going to select residents? it is a type of slavery to require residents to work. *The developer responded, there is no requirement to work or rent to be paid; residents will be asked to work in the gardens, etc. if they so choose; the residents can stay as long as they need. The developer indicated the residents prior to living in this shelter, had no home, and the tiny home would be a step up, offering a sense of safety' and community.*

• One speaker, who also lives in the neighborhood and works with the homeless, wondered how this project is different from the existing tiny homes near the Lodge Freeway and often poor conditions in current shelters; they asked how will this project be different from existing homeless shelter and bring persons out of homelessness? *The developer responded, it is the intention to meet people where they are; if one has a drug or drinking problem, they can stay at the shelter; residents will only be asked to leave if their behavior endangered someone else; the program will have social workers to help with counseling and will offer referrals.*

• One speaker asked what about displaced families, there are area schools that provide job training that are closing, and how will this empower communities as a whole? *The tiny homes are large enough to serve an individual or couples, but not large enough for families; the developer responded the tenants will hopefully have a sense of community.*
