WHEREAS, the Common Council of the City of Detroit has appointed the City Plan Commission of said City as a Zoning Commission to recommend the boundaries of districts and appropriate regulations to be enforced therein, and said Zoning Commission did make a preliminary report and did hold public hearings at such times and places as required by the said Common Council, and did submit its final report to the said Common Council, and

SECTION 1. INTENT, PURPOSES AND METHODS

The comprehensive plan of this Ordinance is for the purpose of promoting public health, safety, morals, convenience, comfort, amenities, prosperity, and general welfare of the community, and of a wholesome, serviceable and attractive municipality, by having regulations and restrictions that increase the safety and security of home life; that preserve and create a more favorable environment in which to rear children; that develop permanent good citizenship; that stabilize and enhance property and civic values, that provide for a more uniformly-just land-use pattern and tax-assessment basis; that facilitate adequate provisions for increased safety in traffic and for transportation, vehicular parking, parks, parkways, recreation, schools, public buildings, housing, light, air, water supply, sewerage, sanitation, and other public requirements; that lessen congestion, disorder and danger which often inhere in unregulated municipal development; that prevent overcrowding of land and undue concentration of population; and that provide more reasonable and serviceable means and methods of protecting and safeguarding the economic structure upon which the good of all depends.

In order to more effectively protect and promote the general welfare and to accomplish the aims and purposes of this comprehensive plan, the City is divided into districts of such number, shape and area, and of such common unity of purpose, adaptability or use, that are deemed most suitable to provide for the best general civic use, protect the common rights and interests within each district, preserve the general rights and interests of all, and to promote improved wholesome, sightly, harmonious and economic results in civic service, activities and operations; and by further regulations to limit the location, uses and occupancy of buildings, structures and land to be used for trade, industry, residence or other purposes, and also the location, height, bulk, occupancy, and uses of buildings and other structures, including the percentage of lot occupancy and coverage, street setback lines, sizes of yards, and other open spaces.
