

## Concrete Cylinder Test Report

### PROJECT INFO - DRAFT ONLY

ASTM C31, ASTM C39, AASHTO T23, AASHTO T22, ASTM C172, AASHTO R60

|                      |                             |                   |                                 |
|----------------------|-----------------------------|-------------------|---------------------------------|
| Client               | AECOM                       | Date Of Placement | 07/08/2021                      |
| Project Name         | PW-7023 Conner Improvements | Specimen Type     | Concrete Cylinder               |
| Project Number       | 2019057D-002                | Contractor        | Century Cement                  |
| Project Location     | Detroit, MI                 | Concrete Supplier | Hercules Material Holdings, LLC |
| MDOT Job Number      |                             | Field Tested By   | Nick Suchy                      |
| MDOT Control Section |                             | Date Issued       | 07/09/2021                      |

|                          |                       |
|--------------------------|-----------------------|
| Results Recorded In      | English Units         |
| Supplier Mix Description | City of Detroit P1 MR |

### DESIGN PARAMETER

|                                   |                |                |      |                                    |  |
|-----------------------------------|----------------|----------------|------|------------------------------------|--|
| Mix Design Number                 | 0946 P1-DETM-1 |                |      |                                    |  |
| Design Compressive Strength (psi) | 3500           |                |      |                                    |  |
| Air (% Max)                       | 8.5            | Slump (in Max) | 6.00 | Unit Weight (lbs/ft <sup>3</sup> ) |  |
| Air (% Min)                       | 5.5            | Slump (in Min) | 3.00 |                                    |  |

### TESTING DATA

| Placed      | 11.00     | +/- yds <sup>3</sup> /ft <sup>3</sup> of concrete at the following location: Sidewalks along Conner North of Frankfort |                           |                                              |               |                          |                       |                   |                                                                         |
|-------------|-----------|------------------------------------------------------------------------------------------------------------------------|---------------------------|----------------------------------------------|---------------|--------------------------|-----------------------|-------------------|-------------------------------------------------------------------------|
| Time Tested | Truck Num | Slump ASTM C143 (in)                                                                                                   | Air ASTM C231 or C173 (%) | Unit Weight ASTM C138 (lbs/ft <sup>3</sup> ) | Air Temp (°F) | Mix Temp ASTM C1064 (°F) | Concrete Cylinder Set | Water Added (gal) | Cumulative Concrete Placed At Test (yds <sup>3</sup> /ft <sup>3</sup> ) |
| 1:30 PM     | 300       | 4.00                                                                                                                   | 6.90                      | 0.0                                          | 73            | 82                       | 1                     | 0                 | 11                                                                      |

### MATERIAL DATA

| Concrete Cylinder Set | Concrete Cylinder Num | Diameter (in) | X-Sec Area (in <sup>2</sup> ) | Weight (lbs) | Fracture Type | Capping Process | Age Of Concrete Cylinder (Days) | Date Tested | Total Load At Failure (lbs) | Cumulative Strength (psi/mpa) |
|-----------------------|-----------------------|---------------|-------------------------------|--------------|---------------|-----------------|---------------------------------|-------------|-----------------------------|-------------------------------|
| 1                     | 84450                 |               |                               |              |               |                 | 28                              | 08/05/2021  |                             |                               |
| 1                     | 84451                 |               |                               |              |               |                 | 28                              | 08/05/2021  |                             |                               |

**Average 28 Day Compressive Strength (psi): 0**

\*Cylinders tested with Unbonded Caps followed ASTM C1231, cylinders tested with Bonded Caps followed ASTM C617.

\*All Air Content % tests were performed per C231 unless otherwise noted in the remarks.

\*Inspector was notified of non-conformance items, if any.

\*Average Compressive Strength results did not meet project specifications.
