Comments

7 am – Major arrived at the work location and set up tools and equipment for the work planned on this day. The crew completed grinding down to smooth any rough edges on the concrete walls. They placed the remaining planter soil in the planter areas. They loaded out any extra spoils and shipped them from the site. They cleaned up all the forms and any other debris from the site in preparations to demobilize later today. They re-sand blasted two of the areas to reveal more aggregate on the mock up and sealed them towards the end of the day. They cleaned the road and set up barricades around the entire site leaving road access only from Plainview to the resident's house at the NW corner of Plainview.

5:30 pm – The crews ceased their work for the day, cleaned up, and left for the day.

Soil and Erosion Control:

Silt fencing installed around 2 trees north of the work site

Filter fabric installed in the catch basins

Traffic Control:

type 1 barricades. Barrels around the E, W, S and type III wall barricades protecting the site on the north side along the sidewalk

Project Visitors:

Postings:

None
