GENERAL INFORMATION	
RFI SUBJECT Plaza Slab Finish	CONTROL SECTION
JOB DESCRIPTION PW 7017 Puritan	JOB NUMBER PW 7017
CONTRACTOR Major Cement Co.	
LOCATION Purtian	DATE 04/26/21
INFORMATION REQUEST	

RFI 008 is being submitted to confirm design changes to the plaza slab finishes as reviewed on 4/26/2021 on site, which are as follows:

"Medium sandblast finish concrete" area designated on drawings C701 now becomes a Heavy sandblast finish

"Light Broom Finish Concrete" area designated on drawings C701 now becomes a light sandblast with black acid stain. Additional cost for black acid stain finish has been submitted for approval.

"Light sandblast finish concrete" area designated on drawings C701 now becomes a light broom finish concrete.

Finishes to match mock ups in the field as identified.

Please confirm the above and provide approval on associated change pricing.

CITY OF DETROIT RESPONSE

The concrete pavement shall be finished as noted in the RFI above and as illustrated on the enclosed drawing C701. Photos of the approved on-site mock-ups are enclosed for reference. The areas highlighted on the mock-up photos (paint) shall be used as the standard of workmanship to be matched throughout the project.

Light broom finish shall be oriented as shown on the enclosed drawing C701 parallel and perpendicular to the rectilinear construction joints shown on the construction plans.

The concrete pours shall be constructed such that any required cold joints will be located on the rectilinear construction joints shown on the construction plans. The arc joints and locations where the concrete finish changes shall NOT be used for cold joints.

Provide sealed expansion joints as shown on the plans and at all fixed elements including at concrete curbs, concrete walls, light pole footings and other fixed elements.

Cut arc joints with even, uniform and consistent alignments without deviations or inconsistencies in the alignments.
