What is a speed hump

Speed humps are rounded constructed across the road

Why install speed humps

Speed humps are designed to reduce speed on residential local travel lane in each direction

What are the advantages

- Speed humps are an effective way to reduce speeds.
- Most drivers will slow down their vehicle or choose an alternate route.
- Installation does not require parking spaces.

How to choose humps?

The Department of Transportation, traffic engineers recommend the following:

• A speed limit of 25 MPH or less at active schools and

• 200 - 4000 vehicles per day or more vehicle crashes per year or "rough" for a major

block
