From the Department of Buildings and Safety Engineering.

To the Honorable the Common Council: Gentlemen—There is in this Department an office known as the Chief Inspector of the Heating Division, to which there is attached a salary of \$2,760.00. This office was established in anticipation of the passage by your Honorable Body of an ordinance regulating the installation of heating plants. This ordinance was not passed by you and I am skeptical of the necessity of such an ordinance. I am opposed to any attempt to regulate heating devices until some popular sentiment in favor of such a regulation develops.

Up until quite recently the Chief Inspector for the Heating Division was employed, superintending some work connected with alterations of the heating plant of the New Municipal Courts Building, but he is now without proper duties attached to this office. I have temporarily assigned him to duties as Inspector of Inflammable Liquids.

In order to rectify titles and to correct the wage scales, I request that your Honorable Body abolish the position known as the Chief Inspector of the Heating Division at \$2760.00 a year, and establish an additional position as Inspector of Inflammable Liquids at \$2400.00 a year. It is my intention to offer the new position so created to the present incumbent of the former position.

Trusting that this matter will have your consideration, I remain,

Yours very respectfully,

FRANK BURTON,
Commissioner.

By Councilman Castator:

Resolved, That position within the Buildings and Safety Engineering Fund known as "Chief Inspector of the Heating Division" be and the same is hereby abolished.

Further Resolved, That the City Controller be and he is hereby authorized and directed to honor payroll presented by the Department of Buildings and Safety Engineering covering an additional Inspector of Inflammable Liquids at a salary of \$2400.00 per year.

From the City Plan Commission.

To the Honorable the Common Council: Gentlemen—Acting upon your communication of November 10th, enclosing petition of the Capitol Building Company (8550) asking that the sidewalk grade be established on Madison Avenue, this matter has been considered by Mr. Martin, Commissioner of the Department of Public Works, Mr. Hubbell, City Engineer, Mr. Jackson of the Police Department, Inspector our Commission and the following recommendations were made for your consideration:

In order that the City Engineer can establish the permanent sidewalk grade, it is first necessary that the future pavement width be fixed. It was therefore recommended that the ultimate width of the pavement on Madison Avenue be ninety-two feet (92 ft.), which will allow, on the south side for sidewalk twenty-five feet (25 ft.) in width (already approved by your Honorable Body, and a planting strip twenty-nine feet (29 ft.).

All of the above, as shown on attached blueprint, Plan No. 108-6-D.

Respectfully submitted,
T. GLENN PHILLIPS,
Consultant-Secretary.

Gentlemen—The Athletic Department of the Detroit Junior College invites you to attend, as our guests, the annual Thanksgiving Day foot ball game with the Mt. Pleasant State Normal.

The Detroit Junior College is your own Municipal College. Its foot ball team is composed entirely of graduates of the Detroit high schools, and is, therefore, truly representative of the City of Detroit.
