Department of Public Works

Honorable City Council:
Re: Petition No. 5355. United Methodist Retirement Homes.

Conversion to Easement of a Portion of the East-West Public Alley in the Block Bounded by Dunedin, Rosa Parks, West Grand Boulevard and Lothrop.

The above petition requests the conversion of a portion of the above described alley, 20 feet wide into an easement for public utilities. The requested conversion into easement for public utilities was approved by the Community and Economic Development Department with the recommendation that sufficient land be dedicated for a new alley outlet into West Grand Boulevard. The petition was then referred to us for investigation and report. Our report, accompanied by the original petition is as follows:

The petitioner has requested that the paved return at the entrance to the portion of alley to be vacated remain in its present status as the petitioner plans to utilize same, and has agreed by letter filed with the original petition to pay all costs incidental to the removal of same whenever the discontinuance of use makes such removal necessary.

A Warranty Deed has been received from the petitioner, deeding to the City of Detroit, land for the new alley outlet into West Grand Boulevard. This deed was approved as to form and execution by the Law Department as to description by the City Engineer, and is attached for your Honorable Body's acceptance.

The petitioner has requested permission to pave the newly dedicated alley by private contract. The Department of Public Works has no objection to this request provided the work is done under City permit and inspection and according to Department of Public Works specifications with all costs borne by the petitioner or his assigns.

The Public Lighting Department reported that they may have a street lighting standard close to the new alley outlet which may have to be moved. The petitioner has agreed by letter to pay all costs of such relocation if it proves necessary.

All other involved City departments and privately-owned utility companies reported that they have no objections to the conversion of public right-of-way into an easement provided that proper provisions are incorporated into the vacating resolution protecting their installations located therein.

The adoption of the attached resolution is recommended.

Respectfully submitted,
LOUIS W. KLEI,
City Engineer
