Honorable City Council:

Re: 1738 W. Forest.

The building at the above location, in a Historic District, was found to be vacant and open to trespass. A dangerous building notice has been issued but the owner is apparently unwilling or unable to secure the property. We have also received a recommendation from the Community & Economic Development Department that the structure be barricaded as it is a rehabilitable historic asset.

It is the opinion of this Department that an immediate danger exists. Therefore, by copy of this letter, we are requesting the Department of Public Works to maintain the basement and first floor windows and doors secured against trespass until such time as the structure is rehabilitated or ordered removed. We respectfully recommend that your Honorable Body concur with this action and have the cost assessed as a lien against the property.

Respectfully submitted,

Re: Petition No. 1586, Swanson Funeral Home, Inc. Conversion to easement of east-west and portion of north-south public alleys north of Mack between East Grand Blvd. and Field; also dedication of City-owned land for new east-west public alley outlet into Field.

Petition No. 1586 of "Swanson Funeral Home, Inc." requests the conversion of the east-west public alley, 18 feet wide, and a portion of the north-south public alley, 20 feet wide, north of Mack Avenue between East Grand Boulevard and Field Avenue into an easement for public utilities.

The petitioner has purchased vacant City-owned land to expand their facilities at 806 East Grand Boulevard. The requested public alley conversions will consolidate the petitioner's property.

The requested conversion to easement was approved by the Community and Economic Development Department with the recommendation that land be dedicated for a new alley outlet into Field. The petition was referred to the City Engineering Department for investigation and report. This is our report:

The Community and Economic Development Department — Real Estate Division has agreed to set-aside City-owned land for the new public alley outlet into Field. However, the new replacement (east-west) alley must be made suitable for public use at the petitioner's expense.

The petitioner has deposited the following city department reimbursement cost:

Department of Public Works — Street Maintenance Division: \$2,065.00, Receipt No. A-14090, The estimated cost to stone, grade and construct concrete return for the new alley outlet into Field.

City department and privately-owned utility companies have reported no objection to the conversion of public right-of-way into a utility easement. Provisions protecting utility installations are part of the resolution.

The adoption of the attached resolution is recommended..

Respectfully submitted,
CLYDE R. HOPKINS
Director
