**Department of Public Works
City Engineering Division**

January 3, 2005

Honorable City Council:

Re: Petition No. 1234 — Perfecting Church New Campus, for vacation of streets and alleys in the area of Woodward, Bauman, Larchwood, Bryson and Carmel Avenues.

Petition No. 1234 of "Perfecting Church", 7616 E. Nevada St., Detroit, Michigan 48234 requests the outright vacation of certain streets and alleys in the area of Woodward Avenue, 204 feet wide, Bauman Avenue, 50 feet wide, Larchwood Avenue, 50 feet wide, Bryson Avenue, 50 feet wide and Carmel Avenue, 60 feet wide, in order to facilitate the construction and assemble land required for the proposed new church campus.

The request was approved by the

Planning and Development Department, the Solid Waste Division — DPW and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

The Detroit Water and Sewerage Department (DWSD) has reviewed the requested changes in public rights-of-way. DWSD reports the following:

Requested Out-right Vacation Bryson between Alley east of Troy Place to Carmel Street. There is an existing 8-inch DWSD water main in Bryson St. The DWSD has no objection to the request for out-right-vacation provided that the water main is cut and capped or relocated in accordance with plans approved by DWSD.

Requested Out-right Vacation east-west Alleys in the area bounded by Troy Place Carmel, Bauman, Wildwood and Bryson. There are existing DWSD sewers in the alleys. The DWSD has no objection to the request for out-right vacation of the alleys, provided that the sewers are relocated in accordance with plans approved by DWSD.

Requested Out-right Vacation of Wildwood Avenue between Bryson and Bauman. There is an existing 6-inch DWSD water main in Wildwood. The DWSD has no objection to the request for out-right-vacation of the street and the discontinuance of the water main.

Requested Out-right Vacation east-west Alley in the area bounded by Bryson, Wildwood, Bauman and Penrose. There are existing DWSD sewers in the alley. The DWSD has no objection to the request for out-right-vacation of the alley, provided that the sewers are relocated in accordance with plans approved by DWSD.

Requested Out-right Vacation of Penrose between Bryson and Bauman. There is an existing 7'-6" Cylindrical Sewer in Penrose Ave. and an existing 6-inch DWSD water main. DWSD cannot allow out-right vacation.

However, DWSD can agree to a conversion to easement of the full width of the Street; Penrose between Bryson and Bauman. The provisions for conversion to easement are a part of this resolution. In addition the petitioner must obtain an easement encroachment permit from DWSD for any encroachment into or above the easement.

Requested Out-right Vacation east-west Alley in the area bounded by Woodward, Penrose, Bryson, Bauman and Balmoral. There are existing DWSD sewers in the alley. The DWSD has no objection to the request for out-right vacation of the alley, provided that an easement is retained in the portion of the alley adjacent to the south line of lots 5 and 6 of the Forest Park Sub'n and adjacent to the north line of the north-south alley lying

west of lot 58 of Smith and Matthew's Sub'n.

Requested Out-right Vacation of Balmoral between Woodward and Bauman. There is an existing 6-inch water main and an existing 15-inch Sewer in Balmoral. There is also an existing 15-inch crossing Balmoral from the alley on the north side of Balmoral to the alley on the south side of Balmoral, both east of Woodward. The DWSD has no objection to the request for out-right-vacation of the street, provided that a 20-foot wide sewer easement is retained for the sewer crossing Balmoral. The center of the easement is to extend from the center of the alley on the north side of Balmoral to the center of the alley on the south side of Balmoral.

Requested Out-right Vacation east-west Alley in the area bounded by Woodward, Balmoral, Bauman and Larchwood. There is an existing DWSD sewers in the alley. The DWSD has no objection to the request for out-right-vacation of the alley, provided that an easement is retained in the portion of the alley adjacent to the north line of lot 1 and the north line of the north-south alley lying west of lot 5 of Ivanhoe addition Sub'n.

Requested Out-right Vacation of north-south alleys in the area bounded by Woodward, Bryson, Penrose, Bauman and Larchwood. There are existing sewers in the alleys that are to remain in service. Therefore DWSD cannot allow out-right vacation. However, DWSD has no objection to conversion to easement provided that an easement of the full width of the alley(s) is reserved. Also, the petitioner must comply with the provisions and requirements of the attached resolution.

The Public Lighting Department (PLD) has no objection to the proposed outright vacation(s). However, the PLD has overhead fed street lighting circuits running through the alleys feeding the lights in the areas bounded by Woodward, Larchwood, Bauman and Bryson. The PLD will remove the lighting circuits and its facilities at the expense of the petitioner, after adoption of the attached resolution.

Michigan Consolidated Gas Company (MichCon) reports gas mains in the area of Woodward, Bauman, Larchwood, Bryson and Carmel Avenues are to be cut capped and abandoned. Also, the petitioner is required to install approximately 91 feet of plastic gas main within Troy Place, at an estimated costs of \$17,383.00.

The Detroit Edison Company reports an estimated costs of \$188,000.00 for the removal and/or rerouting of its facilities.

SBC reports that the petitioner must contact the SBC Customer Growth Group for any costs for the removal, rerouting or relocation of their facilities within the project area.

The petitioner has made arrangements with the Michigan Consolidated Gas Company, The Detroit Edison Company and the SBC Customer Growth Group.

Because the petitioner was unable to acquire all of the land within the proposed project area, it is necessary to leave portions of public rights-of-way open so that the property owners at 908 Balmoral Avenue and 938 Penrose Avenue will continue to have access to the front and rear of the properties. It will be also necessary for the petitioner to deed land to the City of Detroit, in order to provide to a cul-de-sac within Penrose Avenue. If at any time the petitioner should receive control over said properties on Balmoral and Penrose Avenues, the petitioner may then petition City Council to vacate the remaining portions as requested in this petition.

All other city departments and privately owned utility companies have reported no objections to the changes in public rights-of-way or that satisfactory arrangements have been made. Provisions protecting utility installations (if necessary) are part of the resolution.

An appropriate resolution containing the necessary conditions is attached for consideration by your Honorable Body.

Respectfully submitted,
WILLIAM TALLEY
Head Engineer

City Engineering Division — DPW
By Council Member S. Cockrel:
