Honorable City Council:
Re: Petition No. 476 — The Lofts at Rivertown Condominium Association, request for an Encroachment permit to install a new fence, following right-of-way guidelines once the bridge reconstruction project has

been completed in February or March, 2015.
Petition No. 476 — The Lofts at Rivertown Association request to install and maintain an encroachment in the public right-of-way on the north side of Jefferson Avenue, 120 feet wide between Beaufait Avenue, 71 feet wide and Bellevue Avenue, 66 feet wide. The proposed encroachment is for a security fence.
The requested encroachment with a fence is to provide security to and from the Jefferson Avenue building entrance and the secured parking lot located on Beaufait Avenue.
The petition was referred to the City

Engineering Division — DPW for investigation (utility clearance and review) and report. This is our report.

The request was approved by the Solid Waste Division — DPW. The Traffic Engineering Division — DPW (TED) reports involvement, but have no objection to the petitioner's request provided certain provisions are met. The TED provisions have been made a part of the resolution.

Detroit Water and Sewerage Department (DWSD) reports no objection to the encroachment provided that the provisions for encroachments are strictly followed.

All other City Departments and private-owned utility companies have reported no objections. Provisions protecting utility installations are part of the attached resolution.

City Engineering Division — DPW remains concerned that this private fence on the public sidewalk utilizes over half the width of the sidewalk, and diverts pedestrians toward the curb and the adjacent traffic flow.

I am forwarding the attached resolution for your consideration without a recommendation.

Respectfully submitted,
RICHARD DOHERTY, P.E.,
City Engineer

City Engineering Division — DPW
