Honorable City Council:

Re: Petition No. 1846 — Henry Ford Health System, request street right-of-way encroachments for the elevated pedestrian walkway that will connect the existing Henry Ford Hospital to the new Henry Ford Cancer Project over West Grand Boulevard.

Petition No. 1846 — Henry Ford Health System, request for an encroachment with a pedestrian bridge and support columns over West Grand Boulevard, 150 feet wide between the John C. Lodge Freeway and Sterling Avenue, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

This request is being made as a part of a major new development known as The Henry Ford Cancer Project and the pedestrian bridge will provide both safety and convenience for the patients, staff and visitors traveling to and from between the Henry Ford Hospital and the new Cancer Center.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW (TED). TED approves provided that certain clearances are met. The TED clearances are a part of the resolution.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution. Great Lakes Water Authority has a 24 inch water main in the area of the request. A provision for the water main is a part of the resolution.

All other involved City Departments,

including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

RICHARD DOHERBY
