 City Engineering Division**

February 6, 2020

Honorable City Council:
 Re: Petition No. 618 – Giffels Webster, request for a series of encroachments within the Cass Avenue, Lafayette Blvd. and Washington Blvd. rights-of-way.

Petition No. 618 – Giffels Webster on behalf of Bedrock Management Services, LLC, request for encroachments with existing vaults, structural vent grating, and

stamped concrete sidewalk and integrated snow-melt system. The encroachments are at 321 West Lafayette Boulevard which is bounded by Cass Avenue, 80 feet wide, Lafayette Blvd., 80 feet wide, Washington Blvd., 80 feet wide, and the east/west alley, 20 feet wide, south of Lafayette Boulevard.

The petition was referred to the City Engineering Division – DPW for investigation and report. This is our report.

The request is being made for enhancement and redevelopment of the building.

The request was approved by the Solid Waste Division – DPW, City Engineering Division – DPW, and Traffic Engineering – DPW with provisions that are a part of the resolution.

Detroit Water and Sewerage Department (DWSD) reports involvement, but no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
RICHARD DOHERTY, P.E.
