Petition No. 1308 — ExteNet Systems Inc., request to encroach into various streets for the purpose of installing electrical cabinets used related to Small Cell Telecommunications Network. The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made as part of the installation of the Small Cell Telecommunication Network.

The request was approved by the Solid Waste Division — DPW, and City Engineering Division — DPW. The request was approved by the Traffic Engineering Division — DPW.

Detroit Water and Sewerage Depart-

ment (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution. DTE has reported involvement and provisions protecting DTE have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.
