Re: **Petition No. x2023-077** — Barrick Properties #40, LLC, request for encroachment within the northerly part of Vernor Highway, the median of West Grand Blvd., and the public alley lying southerly of and adjacent to the property commonly known as 3801 West Vernor Hwy., for the purpose of installing monitoring wells.

Petition No. x2023-077 — Barrick Properties #40, LLC, request for encroachment within the northerly part of Vernor Highway, 66ft. wide, the median of West Grand Blvd., 150 ft. wide, and the public alley, 20 ft. wide, lying southerly of and adjacent to the property commonly known as 3801 West Vernor Hwy., for the purpose of installing monitoring wells.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made as part of an environmental assessment of soil surrounding the fueling station located at 3801 West Vernor Hwy.

The request was approved by the Solid Waste Division — DPW, and City Engineering Division — DPW. Traffic Engineering Division.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the General Service Department, Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
