**Petition No. x2023-195** — My Community Speaks, request for encroachment within Hartford Street, 60 ft. wide, adjacent to the parcel commonly known as 5639 Hartford Street, for the purpose of installing a below grade storm drainage line.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made to as part of a new development project for the site.

The request was approved by the Solid Waste Division — DPW, and City Engineering Division — DPW, Traffic Engineering Division.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
 RICHARD DOHERTY, P.E.
