

dock as it existed when the contract was made; that Mr. Beyster or his grantor, after making the agreement has dredged out a quantity of the earth adjoining the sewer towards River street and seeks to require the City to sheet pile the full extent of the dock where it has been dredged under the existing contract; that obviously this was not contemplated by the agreement; that all the City could be required to do under the agreement would be to sheet pile the length of the dock as it existed at the time of the agreement was made and that the City would not be required to sheet pile any portion of the dock or sheet where the dredging was done afloat where the agreement was executed and in his opinion, Mr. Beyster could not compel the City to do more than it has done or is now doing, and in view of this opinion, your Committee recommends that the prayer of the petitioner be denied.
