Sewers and Streets.

To the Honorable the Common Council: Gentlemen—To your Committee of the Whole was referred the petitions of

Modern Homes Co. (3202), asking that sewage pumping station on Arlington Ave., near Davison Ave., maintained by petitioner, be taken over by the city; and of Davidson Heat Treating Co. (3469), for permission to maintain fuel oil tank and protecting wall, extending over lot line into alley in rear of 834 West Jefferson Ave. After consultation with the Departments of Public Works and Buildings and Safety Engineering, your committee is informed that construction of public sewer in Davison Ave. will make the maintenance of a pumping station unnecessary, and that the fuel oil tank above referred to constitutes a fire hazard as now maintained. We therefore recommend that said petitions be denied, and that the Department of Public Works be directed to remove tank from alley in rear of 834 West Jefferson Ave.

Respectfully submitted,
DAVID W. SIMONS,
Chairman.
