

advised by the Department of Public Works that after the street was paved, a public sewer was constructed in tunnel, and that due to unforeseen difficulties, the ground along the line of the sewer caved in in several places, which damaged the pavement. Your committee is further advised that the contractor is responsible for that damage to pavement, but due to the continuing settlement of the soil, the replacement cannot be made until sometime during the next year. We therefore recommend that an extension of six months time be allowed for the payment of paving assessments, and offer the following resolution.

Respectfully submitted,
JOHN A. KRONK.
