Controller

May 5, 1944.

To the Honorable, the Common Council:

Gentlemen—In financing the cost of the six day plans of operation for the various departments, it was estimated that 25% of the premium time cost would not be required due to holidays, sick leave, vacations and other regular time off which would disqualify employees for sixth day premium pay. Consequently only 75% of the estimated cost was transferred to the various premium time accounts.

However, in several departments the 75% portion transferred will be insufficient to cover this cost. The various accounts have been analyzed and it is estimated that \$104,140.00 will be required to finance the premium time cost for the balance of the year, of which \$87,040.00 is for tax departments.
