Honorable Common Council:

Gentlemen—Your Committee of the Whole referred the petition of the Department of Parks and Recreation requesting the vacation of Prest. Whitcomb and Sussex Avenues, south of Pickford Avenue and the vacation of the adjoining alleys, all within the limits of a recently acquired playground, to this department for investigation and report. The City Plan Commission has previously approved the vacation of said streets and alleys with a recommendation that certain streets adjoining said playground site be widened.

All of our investigations have been

completed. The only City department affected by the changes contemplated is the Department of Water Supply, which department has water mains in the streets to be vacated. The Department of Parks and Recreation issued an interdepartmental purchase order, No. A-347, in the amount of \$700.00, to cover the cost of abandoning said mains and relocating four blowoffs. This satisfies the requirements of the Department of Water Supply.

The Detroit Edison Company and the Michigan Bell Telephone Company both are affected by the vacations but have expressed their willingness to remove their installations at their own expense.

To effectuate the recommendation made by the City Plan Commission, we recommend the adoption of the attached resolution.

Respectfully submitted,

GLENN C. RICHARDS,

Acting Commissioner.

Honorable Common Council:

Gentlemen—The paving petitions listed below, which were referred to this office for report, are majority petitions upon which no pre-payment has been made.

Existing Charter limitations on Forced Paving will not permit prompt processing of the hundreds of petitions in circulation during the fiscal year, thereby seriously delaying or curtailing a very essential public service.

It is therefore recommended that your Honorable Body invoke the waiver clause in the Special Assessment Ordinance, providing for a 25% prepayment and tax history. This action, if taken, will remove this group from the Forced Paving category and permit the work to proceed. The suggested procedure has the approval of the Corporation Counsel.

It is further recommended that these streets be paved with one course concrete, in accordance with the attached resolution.
