

Under the provisions of the resolution authorizing the Contract, any deductions or additions in the Assessment Portion exceeding 1 per cent must be approved by the Common Council before the adjustment of the difference was applied to the City Intersection Portion.

When the final measurements, based on actual construction, were made, a deduction of \$118.00 in the Assessment Roll resulted. This amounts to approximately 2 per cent of the original Assessment Portion. It is recommended that the adjustment be made by deducting \$118.00 from the City Intersection Portion, and that the Assessment Portion remain the same.

Respectfully submitted,
CARL D. WARNER, Commissioner.

By Councilman Van Antwerp:

Resolved, That the adjustment in the constructed quantities in the Assessment Portion, amounting to \$118.00 in connection with the Paving of the Alley Bounded by Fenelon, Buffalo, Garvin, and Charles, Contract PW-2289P, be applied to the City Intersection Portion, and that the final Assessment cost for the construction remain at \$5,678.20, the same as was in the original accepted proposal.

Adopted as follows:

Yeas—Councilmen Beck, Connor, Garlick, Rogell, Smith, Van Antwerp, Youngblood, and President Miriani—8.

Nays—None.

Reconsideration

Councilman Connor moved to reconsider the vote by which the resolution was adopted.

Councilman Garlick moved to suspend Rule 23 for the purpose of indefinitely postponing the motion to reconsider, which motion prevailed as follows:

Yeas—Councilmen Beck, Connor, Garlick, Rogell, Smith, Van Antwerp, Youngblood, and President Miriani—8.

Nays—None.

Councilman Van Antwerp then moved that the motion to reconsider be indefinitely postponed, which motion prevailed.

The regular order was resumed.

Department of Public Works

November 6, 1953.

Honorable Common Council:

Gentlemen—Your Committee of the Whole referred to this office for investigation and report petitions requesting the conversion into easements of the alleys described in the attached resolution.

The conversion of the alleys into easements was approved by the City Plan Commission at an earlier date.

We wish to advise that our investigations are completed. In reply to our inquiries, all City departments and privately owned utility companies reported that they will be unaffected

by the changes or that they have no objection to the conversion of the alleys into easements provided that proper provisions are incorporated into the vacating resolution protecting their interests in the installations located in the alleys.

We recommend the adoption of the attached resolution.

Respectfully submitted,
CARL D. WARNER, Commissioner.
