tion and concrete backfill was required. It was necessary to go approximately 3½ feet deeper in order to place the footing on solid ground.

The Contractor has submitted the additional cost of this work in the amount of \$2,043.11. This amount has been checked in detail by the City Engineer's Office and is found to be correct.

It is, therefore, recommended that this additional work in the amount stated be added as an extra to the existing Contract.

Respectfully submitted,
JOHN J. CONSIDINE,
Superintendent.

Recommended:

G. R. THOMPSON,
City Engineer.

By Councilman Youngblood:

Honorable Common Council:

Gentlemen—Your Committee of the Whole referred to this office for investigation and report the request of the Department of Parks and Recreation for the vacation of a portion of

Archdale, Longacre and Rutland Avenues, south of Glendale Avenue, and the adjacent alleys, all within the limits of a greenbelt area east of Southfield Road. The vacation of said streets and alleys was approved by the City Plan Commission.

Our investigations are completed and they disclose that two City Departments are affected by the vacation of said streets and alleys.

(1) **Department of Water Supply:** This Department has two 6 inch and one 8 inch water mains in the streets to be vacated and requested that the Department of Parks and Recreation reimburse the Department of Water Supply the sum of \$1,456.40, for said Department's remaining equity in the water mains and the cost of installing the necessary blow-off assemblies in connection with the discontinuance of said mains. Meanwhile the Department of Parks and Recreation requested that the water mains remain in their present location and have agreed to the reservations of an easement for the Department of Water Supply in the vacated streets for the maintenance of the mains. The Department of Water Supply is in the process of preparing a suitable recordable easement form for execution by the Department of Parks and Recreation.

(2) **Department of Public Works:** The Sewer Design Divisions of the City Engineer's Office reports the existence of lateral sewers in the alleys to be vacated. A proper provision is incorporated into the vacating resolution protecting this Department's interests in the sewers.

The attached resolution vacating the streets contains a proviso reserving an easement for the Department of Water Supply for the maintenance of its water mains.

We recommend the adoption of the attached resolution.

Respectfully submitted,

CARL D. WARNER,
Commissioner.
