

low bidder. The low bidder claimed that he did not receive such Bulletin in the mail. Bulletin No. 2 was subsequently reviewed by the low bidder, and he has indicated that such Bulletin would not have affected his bid price. It is therefore recommended that his irregularity be waived in the interest of the City.

Ray D. Baker Contractor, Inc., is well qualified by experience to handle work of the type contained in this Contract. It is therefore recommended that the Contract be awarded to Ray D. Baker Contractor, Inc., in the amount of \$33,350. In addition to the Contract price, it is estimated that the amount of \$1,650 will be required to cover the cost of advertising, inspection, and minor contingencies making the total funds required \$35,000. This amount is available in Account No. 925-2390-936.

Respectfully submitted,
CARL D. WARNER,
Commissioner.

Honorable Common Council:

Gentlemen—The Congress-Federal Investment Company is requesting that the City construct a sewer in Girardin Avenue from McNichols Road to a point approximately 1500 feet south of McNichols Road to drain their property. In view of the fact that all other properties abutting Girardin Avenue have built at con-

siderable expense private connections to the McNichols Road sewer, I recommend that your Honorable Body authorize the construction of a public sewer arm in Girardin Avenue and finance the cost from available Public Sewer Funds, provided the petitioner deposits with the City Treasurer \$10,000.00 to cover the ratable proportion of the cost of the sewer based on the area of the petitioner's property.

The petitioner shall be requested to increase the above mentioned sum if the actual cost of the sewer is above the present estimate. If, however, the cost is less than the estimate, a certain sum shall be refunded to him.

Respectfully submitted,
CARL D. WARNER,
Commissioner.

Department of Public Works

July 21, 1953.

Honorable Common Council:

Gentlemen—Your Committee of the Whole referred to this office for investigation and report the petition of Goodwin's Inc., Petition No. 4882, requesting the vacation of a portion of Roselawn Avenue, south of Grand River Avenue and north of Allen Pl. The vacation of said portion of street was approved by the City Plan Commission with the recommendation that land for a new street to be known as Beechdale Avenue be deeded to the City by the Petitioner to prevent the dead-ending of the remaining portion of Roselawn Avenue.

We wish to advise that our investigations are completed.

As per our directive, on July 21, 1953, the petitioner deposited into the City Treasury the sum of \$1,300.00, Receipt No. A-4768, credited to Fire Department Fund Code No. 106-9400-0,

said amount being the estimated cost of relocating fire hydrants necessitated by the vacation of said street.

On July 21, 1953, the petitioner deposited into the City Treasury the sum of \$11,276.00 to cover the cost of paving the newly deeded street and work incidental thereto including a roadway through boulevard strip on Oakman Boulevard.

The Department of Water Supply has a six inch water main in the portion of Roselawn Avenue proposed to be vacated. Said department requested that the petitioner execute proper easement forms to protect said department's interests in the water main. A suitable proviso is incorporated into the vacating resolution protecting said department's interests in the water main.

All other City Departments and privately owned utility companies reported that they will be unaffected by the vacation of said street or that they have reached satisfactory agreements with the petitioners regarding their installations therein.

We recommend the adoption of the attached resolution.

Respectfully submitted,
CARL D. WARNER,
Commissioner.
