

December 5, 1950—J. C. C. 3349—Order Redford Site condemned.

January 15, 1952—J. C. C. 67—Ordered Joy Road-Grand River condemned. At the same time received a report containing a recommendation from the City Controller, City Plan Commission, Board of Assessors, and Municipal Parking Authority who met with the Corporation Counsel at the request of the Committee of the Whole. This report in part stated "After a thorough discussion of the questions posed at the meeting of the Committee of the Whole of the Common Council, it was agreed that we recommend to you that off-street parking facilities be financed by parking meter cash or through the sale of revenue bonds supported by parking meter revenues as proposed by the Controller and the Municipal Parking Authority."

August 7, 1952—J. C. C. 1881—Adopted Ordinance 672-E authorizing the establishment of an Automobile Parking System, acquisition and construction of automobile parking facilities, issuance of self-liquidating revenue bonds, etc.

November 18, 1952—J. C. C. 2572—Ordered condemnation of First-Abbott Parking Site.

March 3, 1953—J. C. C. 458—Confirmed contract for consultant for Ford Auditorium Underground Garage.

November 3, 1953—J. C. C. 2505—Approved Ordinance 804-E amending Ordinance 672-E.

December 1, 1953—J. C. C. 2711—Confirm contract for consultant on First-Bagley Garage.

The Common Council has by the above actions from time to time reviewed the Automobile Parking System proposal and the methods of financing.

The numerous public hearings and debates have been held in connection with the above actions pertaining to the Automobile Parking System and various facilities within the System.

On August 18, 1953, J. C. C. 1902, the Common Council ordered the Monroe Municipal Garage Site property offered for sale for private development, thereby complying with an unofficial policy of relinquishing parking sites to private capital where it can be demonstrated that private capital is prepared to proceed with construction without delay.

The Common Council of the City of Detroit has reaffirmed its previous actions which led to the establishment of the City of Detroit Automobile Parking System financed through the sale of revenue bonds repaid from the proceeds of the operation of the System, including parking meters.

The Common Council of the City of Detroit should reaffirm its previous position as indicated by its action on

the Monroe Garage Municipal Parking Site that where private capital can and will undertake to construct a proposed municipal parking project without delay, the City will withdraw its plans for that facility.

The Common Council of the City of Detroit should declare it to be the policy of the Common Council to continue the positions stated above both as to financing and construction of its proposed municipal off-street parking facilities.

Honorable Common Council:
Gentlemen—We are returning herewith the petition of Harry Frankel, et al, No. 6959, requesting the vacation and relocation of a portion of the alley lying first north of East Seven Mile Road between Alcoy and Joann Avenues. The vacation of said alley was approved by the City Plan Commission with the recommendation that land be deeded for relocation of said alley in lieu of the alley vacated. The petition was then referred to this office by your Committee of the Whole for investigation and report.

As per our directive, on March 25, 1954, the petitioners deposited with the Permit Division of the Department of Public Works, the sum of \$910.00, Receipt No. 53515, said amount being the estimated cost of grading and stoning the new alley, widening alley return and of constructing sidewalks at the intersection of the vacated area.

We are in receipt of a Quit Claim deed to land to be used for alley purposes in accordance with the City Plan Commission's recommendation. Said deed was approved as to description by the City Engineer and as to form and execution by the Corporation Counsel and it is attached hereto for your Honorable Body's acceptance.

All other City departments and privately owned utility companies reported that they will be unaffected by the vacation of said alley or that they have reached satisfactory agreements with the petitioners regarding their installations therein.

We recommend the adoption of the attached resolution.

Respectfully submitted,
