Gentlemen—Your Committee of the Whole referred to this office for investigation and report the petition of the Detroit Housing Commission, requesting the vacation of the alley in the block bounded by Riopelle, Orleans, Jay, and Antietam Streets. The vacation of said alley was approved by the City Plan Commission in their communication to Your Honorable Body on October 21, 1955.

We wish to advise that our investigations are completed.

The Michigan Bell Telephone Company and the Detroit Edison Company reported that they will be affected by the vacation of said alley. The Michigan Bell Telephone Company has agreed to remove their installations from said alley at no cost to the City of Detroit.

All other City Departments and privately owned utility companies reported that they would not be affected by the vacation of said alley.

Honorable Common Council:

Gentlemen—Contract PW-2594F“A” is for paving the alley bounded by Meldrum, Beaufait, Gratiot, and Garfield. John Longo and Company are the Contractors. The total amount of the accepted proposal was \$2,134.55, of which \$1,918.95 was in the Assessment Portion, and \$215.60 was in the City Intersection Portion.

The Assessment Roll was based on the amount stated in the Assessment Portion of the accepted proposal, or \$1,918.95.

Under the provisions of the resolution authorizing the Contract, any deductions or additions in the Assessment Portion exceeding 1 per cent must be approved by the Common Council before the adjustment of the difference is applied to the City Intersection Portion.

When the final measurements, based on actual construction, were made a deduction of \$34.75 in the Assessment Roll resulted.

This amounts to approximately 1.8 percent of the original Assessment Portion or \$15.57 over the 1 per cent. It is recommended that the adjustment be made by deducting the \$34.75 from the City Intersection Portion, and that the Assessment Portion remain the same.

Respectfully submitted,
GLENN C. RICHARDS,
Commissioner.
