Department of Public Works

December 3, 1956.

Honorable Common Council:

Gentlemen—Your Committee of the Whole referred to this office for investigation and report, the petition of the Sinai Hospital of Detroit et al, Petition No. 8057, requesting the vacation of Lauder Avenue, between Outer Drive and McNichols Road.

Our investigations are completed and they disclose that several City departments are affected by the vacation of said street.

An easement is reserved in the vacating resolution for the Department of Water Supply for the maintenance

of its water main located in Lauder Avenue to be vacated.

The Fire Department agreed to the retention of two fire hydrants within the vacated area on the condition that free and unobstructed use thereof may be had at all times. An easement is reserved for this purpose.

The petitioners requested that the paved return at the entrance to the vacated street remain in its present status as the petitioner plans to utilize same, and has agreed, by letter filed with the original petition, to pay all costs incidental to the removal of the return at such time in the future as the removal becomes necessary.

All other City departments and privately owned utility companies reported that they would be unaffected by the vacation of said street or that they have reached satisfactory agreements with the petitioners regarding their installations therein.

We recommend the adoption of the attached resolution.

Respectfully submitted,
GLENN C. RICHARDS,
Commissioner.

Honorable Common Council:

Gentlemen—Contract PW-2697 is for the paving of Grayfield from Margareta to Glenhurst. G. Toccalino & Sons are the Contractors. The total amount of the accepted proposal was \$12,509.50, of which \$9,369.50 was in the Assessment Portion and \$3,140.00 was in the City Intersection Portion.

Subsequent to the award of the Contract, several Contract Changes were issued, one of which together with changes made by the Assessors Office changed the distribution as follows: \$7,103.81 — Assessment Portion; and \$6,418.69 — City Intersection Portion; or a total of \$13,522.50.

Under the provisions of the resolution authorizing the award of the Contract, any deductions from or additions to the Assessment Portion exceeding one percent must be approved by the Common Council before the adjustment of such difference is applied to the City Intersection Portion.

In addition to the aforementioned change, a change in the amount of \$80.00 was issued for the removal of trees, which would normally be chargeable to the Assessment Portion. However, because of the minor nature of the change, amounting to approximately 1.1 percent of the revised Assessment Portion, the Assessment Roll was not again altered.

It is recommended that the adjustment be made by adding the \$80.00 to the City Intersection Portion and that the revised Assessment Portion remain unchanged.

Respectfully submitted,

GLENN C. RICHARDS,
Commissioner.

By Councilman Connor:

Resolved, That the Assessment Portion of the construction costs for the paving included in the above Contract remain unchanged from the previous Assessors' revision, and that the adjustment of the difference described in the foregoing communication be made in the City Intersection Portion.
