Honorable Common Council:

Gentlemen—We are returning herewith the petition of Clayton E. Fleck, No. 1221, requesting the vacation of a portion of the north-south public alley east of Schaefer Highway and north of Joy Road. The vacation of the said portion of alley was approved by the City Plan Commission and the petition was then referred to this office by your Committee of the Whole for investigation and report.

We wish to advise our investigations are completed.

All City departments and privately owned utility companies reported that they will be unaffected by the vacation of said portion of alley or that they have reached satisfactory agreements with the petitioner regarding their installations therein.

We recommend the adoption of the attached resolution.

Respectfully submitted,

GLENN C. RICHARDS,
Commissioner.

Honorable Common Council:

Gentlemen—This communication relates to a proposed agreement with Oakland County for increased sewage disposal service for the Southeastern Oakland County Sewage Disposal District.

This area in Oakland County now disposes of its sanitary sewage into our sewage system under the terms of an agreement made November 23, 1942. However, the pump station and discharge conduit now in use at Andover and Eight Mile Road do not have sufficient capacity to provide for the needs of the Oakland County service area. The use of this pump station will be abandoned in favor of a gravity interceptor that will be connected into Detroit sewers at Conant and Emery. While construction of the expanded Oakland County sanitary system takes place, service will continue under the terms of the prior agreement.

Under the terms of the proposed agreement, Oakland County will be initially allowed 118 cubic feet per second flowage rights into our sewer system, and these rights can be expanded to a limit of 180 cubic feet per second, if such use is required in the service area by the anticipated population growth. The purchase of the initial capacity by Oakland County requires a payment of \$903,073.68 for the increased sewage transmittal service, and this amount will be due and payable in the fiscal year 1963, when the expanded sanitary system in Oakland County has been substantially completed.

The proposed agreement for sewage transmittal service has been fully executed by Oakland County, and the agreement has been examined by our Corporation Counsel and approved as to form.
